Psychology at Deakin

Get work ready – we are the #1 university for skills development

Work readiness is a key feature of psychology at Deakin. To give you every success upon graduation, you have the opportunity to undertake relevant work experience in psychology and participate in transition-to-work activities, such as developing a professional portfolio, writing a resume and honing your interview skills.

Ranked the number one university for skills development in Victoria*, Deakin’s course curriculum integrates real-world expertise with practical skills to give our students a competitive edge.

* 2016 Student Experience Survey.

Deakin industry connections provide work placement opportunities

Deakin’s partnerships with industry involve collaborative activities with government agencies, public and private organisations, hospitals and other universities. These partnerships ensure that our courses are relevant to industry and workforce needs.

Some partnership organisations include:
• Barwon Health
• Eastern Health
• FBG Group
• National Australia Bank
• People Measures
• PeopleScape.

The most satisfied students – 8 years in a row^*

At Deakin, we pride ourselves on the satisfaction of our students and the success of our graduates. To us, the experience of each student matters, from the quality of teaching they receive to their ongoing employability. When Deakin scores highly in a number of rankings year on year, it’s thanks to many thousands of these great individual experiences.

^ Australian Graduate Survey 2010–2015, Graduate Outcomes Survey – Quality Indicators for Learning and Teaching 2016–2017
Psychology at Deakin

Gain professional accreditation
All of the psychology courses offered at Deakin meet the requirements of the Psychology Board of Australia and the Australian Psychological Society (APS), translating into excellent job and career opportunities for Deakin psychology graduates.

Learn without limits
Deakin offers psychology courses across all campuses – the Melbourne Burwood Campus, the Geelong Waterfront Campus, the Geelong Waurn Ponds Campus, the Warrnambool Campus and the Cloud Campus – enabling you to study where it suits you.

Travel the world
See the world with an international internship, exchange, study tour or volunteer placement. Get a competitive edge in the workplace and gain credit towards your degree by studying overseas at a Deakin partner university, located in more than 40 different countries. Visit deakin.edu.au/overseas-study for more information on where in the world your Deakin degree can take you.

Fast-track your degree
Deakin splits the year into three trimesters and undergraduate psychology is taught across each of them. By taking advantage of the subjects offered in Trimester 3, you can fast-track your studies to complete a three-year psychology degree in just two years of full-time study, meaning you can start your career or postgraduate studies in psychology sooner.

Join our Peer Mentoring Program
The Faculty of Health offers a Peer Mentoring Program as part of its commitment to providing new students with the best possible transition into university life. By joining the program, first-year students receive support and guidance from more senior students in their course, helping them to become familiar with the support services and facilities available, while gaining useful tips about studying at Deakin. deakin.edu.au/health-mentoring

Secure your place in the future of work
Deakin’s psychology graduates embark on varied careers, and have gone on to work with organisations that include:
- Alzheimer’s Australia
- Australian Unity
- Barwon Health
- Bellarine Psychology
- Box Hill Hospital
- Cancer Council
- Centre for Behavioural Research in Cancer
- Centrelink
- Corrections Victoria
- CRS Australia
- Department of Education
- Department of Human Services
- Department of Justice
- Eastern Health
- Geelong Football Club
- Inner East Mental Health Services Association
- Monash IVP
- Olympic Park Sports Medicine Centre
- People @ Work
- Private schools
- Specialised children’s services
- Youth Substance Abuse Service.

Every time I asked somebody about where I should study psychology, Deakin was always recommended. Deakin’s Bachelor of Psychology (Honours) has an extremely good reputation and all the psychology students I’d met who were studying at Deakin were very happy with their degree and Deakin in general. I didn’t see any reason to move out of my home town of Geelong when a world-class education was right here!

Emma Norrish
Bachelor of Psychology (Honours) student

Courses to careers
At Deakin, we’re about careers and experience, not just courses. Visit explore.deakin.edu.au to kickstart your course and career exploration at Deakin. With more than 600 paired courses and careers, it’s the perfect destination for you to explore your future career.
Disciplines

At Deakin we talk about disciplines, also known as study areas. You might be interested in a particular discipline, but uncertain about the course that’s right for you. Read through these discipline descriptions and, if they interest you, go to the relevant course in the following pages to find out more about the course, what you’ll study, work experience opportunities and the types of careers it may lead to. You can also visit deakin.edu.au for detailed course information, including a description of the units within each degree.

Psychology

Psychology is a scientific discipline that studies the mind and its processes, behaviour and mental states. There is increasing emphasis on mental health in the modern world and employment prospects in the area continue to grow accordingly.

Studying undergraduate psychology enables you to take two distinct paths: further study in pursuit of professional registration or employment that doesn’t require registration. Pursuing professional registration will require you to take two distinct paths: further study in pursuit of full registration as a psychologist, or employment that doesn’t require registration.

Qualified psychologists can work in a variety of settings, including clinical, forensic, organisational, educational, health, clinical neuropsychology, sport and exercise, community and counselling.

The contexts in which you can work are just as varied, including private practice, hospitals, business organisations, schools, universities, government agencies, community sport and various research groups.

You don’t have to go on to full registration to enjoy the benefits of studying psychology. Your understanding of human behaviour and the skills that you develop throughout your course are sought-after by most employers. In fact it is difficult to think of an occupation where a knowledge and understanding of behaviour will not enhance your opportunities. This, together with the critical thinking and communication skills our students develop, make our graduates highly employable in many industries, including community services, counselling, education, health services and protective services.

Our psychology courses are accredited by the Australian Psychology Accreditation Council (APAC) and enable you to undertake additional study in pursuit of professional registration.

Criminology

Criminology investigates how crime can be minimised or prevented by harnessing the insight of a number of disciplines (such as psychology and history). It also examines why some behaviours are defined as criminal and why certain people may become criminals.

Criminologists’ studies are used to help law enforcers apprehend criminals more efficiently and help discover their motives to reduce the likelihood of similar crimes occurring.

Deakin has one of the few dedicated criminology courses in Australia, allowing specialised study for students seeking a career in the criminal justice system. Study topics you won’t be able to elsewhere – such as security, surveillance, terrorism and policing.

Visit deakin.edu.au/psychology for more information.

The opportunity to volunteer at the Deakin Focus Clinic has been really positive. It has a strong strengths-based emphasis within a brief intervention family therapy framework. The senior psychologists working at the clinic are also Deakin lecturing staff, so you are well prepared for when you go on placement. The support and supervision is amazing, it’s been a safe space for me to learn and reflect on my practice as I develop clinical skills.’

Emma Stephens
Bachelor of Arts/Bachelor of Science graduate
Bachelor of Arts (Honours) (Psychology) graduate
Doctor of Psychology (Clinical) student

Pathways to full registration

To obtain registration as a provisional psychologist, you need to complete four years of academic study in psychology that is recognised by the Psychology Board of Australia. This usually consists of an approved three-year undergraduate psychology sequence followed by an approved fourth year of study (such as Deakin’s Graduate Diploma of Psychology or an honours year in psychology).

You may then apply for provisional registration with the Psychology Board of Australia and associate membership of the Australian Psychological Society (APS). To gain full registration, provisional psychologists must then complete either two years of supervised practice or a minimum two years of further study (with supervised practice completed outside the degree). It is at this stage that you can specialise in a particular area of psychology that appeals to your interests and career aspirations.

You can also visit deakin.edu.au/psychology for more detailed course information.

Enrol in and complete

Bachelor of Psychological Science
Bachelor of Arts (Psychology)
Bachelor of Health Sciences – 10-credit-point major in psychology
Bachelor of Criminology/Bachelor of Psychological Science
Bachelor of Health Sciences/Bachelor of Arts

Apply for and complete

A fourth year of study in psychology (either Graduate Diploma of Psychology or honours in psychology)

Apply for

Provisional registration with the Psychology Board of Australia and associate membership of the Australian Psychological Society (APS)

Apply for

Under supervision of a registered psychologist for two years

Complete

A master’s or doctorate that includes work placement

Full registration with the Psychology Board of Australia and full membership of the Australian Psychological Society (APS)

* Only on completion of fourth year in the Bachelor of Psychology (Honours) can provisional registration be applied for.
Courses

Bachelor of Psychological Science

Psychology is concerned with understanding human personality, behaviour, emotion, underlying mental processes and the factors that lead people to differ in the way they think and behave. Offering an integrated approach to psychology, this course covers areas including behavioural and clinical neuroscience, child and adolescent psychology, relationships and the psychology of groups, personality, cognitive psychology, forensic psychology and psychopathology.

Following successful completion of this degree, graduates may apply for a fourth year of psychology study (including Deakin’s Graduate Diploma of Psychology or honours in psychology).

Add diversity to your degree
Elective options in this course include addiction, cognitive neuroscience, coaching and counselling, and the social psychology of relationships. Exposure to diverse units provides students with broad skills that prepare them for employment in a wide range of areas.

Professional recognition
Deakin’s Bachelor of Psychological Science is recognised for registration purposes by the Psychology Board of Australia, accredited by the Australian Psychology Accreditation Council (APAC) and enables you to undertake additional study in pursuit of professional registration.

Registration
See pathways to full registration information on page 5.

Careers
Many psychology graduates work in schools and education settings, or in a variety of businesses, delivering employee assistance programs or training. Increasingly, opportunities are available in commerce and in areas such as human resources, business and management.

Work experience
You have the opportunity to strengthen your employment prospects and knowledge by electing to undertake a psychology internship unit in your second year of study.

Course structure
24 credit points – at least 13 psychology units. An honours year is available for high-achieving students upon completion of this degree – Bachelor of Psychological Science (Honours) (H452).

* Trimester 2 intake is not available at the Geelong Waurn Ponds Campus for international students.

^ Trimester 3 intake is not available to international students.

Bachelor of Psychology (Honours)*

This four-year course differs from the Bachelor of Psychological Science or Bachelor of Arts (Psychology) by providing selected students with the opportunity to complete honours in psychology as part of the final year of this degree. Selection into honours is subject to academic achievement in the first three years of study.

Professional recognition
Deakin’s Bachelor of Psychology (Honours) is recognised for registration purposes by the Psychology Board of Australia and is accredited by the Australian Psychology Accreditation Council (APAC).

Registration
See pathways to full registration information on page 5.

Careers
After successfully completing the Bachelor of Psychology (Honours) you are well prepared for employment in a wide range of areas relevant to human wellbeing, such as youth work, careers counselling, work/life counselling, developmental psychology, research psychology or mental health rehabilitation.

Depending on your chosen area and level of further study, you may work in a variety of settings, including specialist areas of psychology practice, such as clinical, forensic, organisational, educational, health, sport and many others. The contexts in which you work may include hospitals, business organisations, schools, universities, government agencies, community sporting groups, various research groups or in private practice.

Work experience
You have the opportunity to strengthen your employment prospects and knowledge by electing to undertake a psychology internship unit in your second year of study.

Course structure
28 units, including core psychology units and electives.

* This course is not available to international students.

‘Deakin is very “learner” focused. I can really see how Deakin emphasises the student experience, both at undergraduate and postgraduate levels.’

Michael Barham
Associate lecturer
PhD candidate, Cognitive Neuroscience Unit

deskevedu.au/studypsycho
Courses

Bachelor of Arts (Psychology)

The Bachelor of Arts (Psychology) combines research-based and professional studies in psychology with broad studies in the liberal and creative arts. It provides you with opportunities to develop skills of critical and systematic thinking; an imaginative understanding and appreciation of the theory and practice of the social sciences, the humanities or the arts; and enhanced cultural sensitivity and understanding through genuine reciprocity of values.

Following successful completion of this degree, graduates may apply for a fourth year of psychology study (including Deakin’s Graduate Diploma of Psychology or honours in psychology). The Bachelor of Arts (Psychology) (Honours) is only available to Deakin graduates.

Professional recognition

Deakin’s Bachelor of Arts (Psychology) with a 10-credit-point major in psychology is accredited by the Australian Psychology Accreditation Council (APAC) and enables you to undertake additional study in pursuit of professional registration.

Registration

See pathways to full registration information on page 5.

Careers

You can enter a variety of employment fields, including creative arts industries, human resources, education, law enforcement, media and communication, politics and government organisations, historical and cultural heritage organisations and social service agencies.

Course structure

24 credit points – 10 psychology units, 10 arts units, including an approved arts major of at least 8 credit points and four elective units. You must also complete a 0-credit-point compulsory unit, Academic Integrity.

Honours

An honours year is available for high-achieving students upon completion of this degree. An honours year in psychology is useful for both those pursuing a career as a psychologist and those preparing for postgraduate study. The research and analytical skills you develop in your honours year strengthen the quality of your research projects and become indispensable tools in your future career.

Learning experiences to ensure you thrive at university

Experience is invaluable, because in psychology we draw on the ‘human element’, the ability to listen and empathise. At Deakin, we emphasise learning from real life, and we make this possible through our unique partnerships, peer mentoring and transition-to-work activities.

deaquin.edu.au/study-at-deakin/find-a-course/psychology
Courses

Bachelor of Health Sciences

This flexible degree is an excellent option for those looking to discover their passion in health. It equips you with the specialist knowledge and transferable skills that will make you highly sought-after for employment in a variety of valuable settings within the health sector.

Registration
See pathways to full registration information on page 5.

Careers
Depending on the majors you take and your choice of electives, you could be qualified to work in areas such as health promotion, health education, community health, family and community support, health marketing, health and sport public relations, health policy development, nutrition and research in health areas.

Work experience
Enhance your employment prospects and consolidate your knowledge and skills through an industry placement unit in the final year of your course.

Course structure
24 credit points – at least 16 credit points from the Faculty of Health, including HBS107 Understanding Health and HBS108 Health Information and Data, plus at least two majors chosen from the list opposite.

Majors
- Disability and inclusion
- Environmental health
- Exercise science
- Family, society and health
- Food studies
- Health and sustainability
- Health promotion
- Medical biotechnology
- Nutrition
- Physical activity and health
- Psychological science
- Psychology for professional development

Psychological science
This major prepares you for postgraduate training towards becoming a registered psychologist. To practise as a psychologist, students must complete an undergraduate degree with a major in psychology followed by a fourth year of study in psychology (honours in psychology or a Graduate Diploma of Psychology) that is accredited by the Australian Psychology Accreditation Council (APAC).

Psychology for professional development
This major prepares you for work in complementary professional fields upon graduation. Careers immediately available to health sciences graduates can be divided broadly into community work, coaching and counselling individuals and groups, and health and human services consulting.

* Cloud Campus and Warrnambool Campus are not available for international students.
# Trimester 3 is available at the Melbourne Burwood Campus and Geelong Waurn Ponds Campus only. For international students, Melbourne Burwood Campus only.
^ Cloud Campus students will be required to attend some campus-based activities.

‘Along with my teaching role, I am a researcher in the Cognitive Neuroscience Unit. We offer internships to students, providing them with the opportunity to work closely with senior staff members involved in really interesting research projects. These adopt a variety of state-of-the-art cognitive and neuroscientific measurement tools to better understand brain-behaviour relationships.’

Christian Hyde
Senior lecturer
Researcher, Cognitive Neuroscience Unit

decu.edu.au/studypsychology
Combined courses

Bachelor of Criminology/Bachelor of Psychological Science

Deakin’s Bachelor of Criminology/Bachelor of Psychological Science provides an accredited undergraduate sequence in psychology and includes complementary studies in individual and group counselling, health and behavioural change.

Combining psychology with criminology provides you with broad theoretical and applied knowledge and skills concerning the meaning of crime; the forms, causes and consequences of crime; and the different institutions and processes involved in preventing and controlling crime.

A Criminology Practicum in your final year of study brings the professions to the classroom (including via online learning) with practitioner-driven seminars, activities bridging theory and practice, and the development of an e-portfolio that can be used for employment or career development.

Professional recognition

This course is recognised for registration purposes by the Psychology Board of Australia and enables you to undertake additional study in pursuit of professional registration.

Clinical placement requirements

In accordance with Department of Human Services policy*, nursing students are required to undertake a Police Record Check prior to work placements in each calendar year of their course. In accordance with the Working with Children Act 2005*, all students are required to undertake a Working with Children Check at commencement of the course. If you fail to obtain a Police Record Check and/or a Working with Children Check by the date specified each year by the School of Nursing and Midwifery, you will not be able to undertake the required related work placement. You may also be required to declare your immunisation status to satisfy the requirements of health organisations where you will be undertaking your work placement. All expenses associated with the work placement are your responsibility.

Bachelor of Nursing/Bachelor of Psychological Science

This combined degree prepares you to complete the requirements to embark on a nursing career while developing knowledge of human behaviour, including understanding human personality, behaviour, emotion, underlying mental processes and the factors that lead people to differ in the way they think and behave. Armed with a wealth of skills and clinical practice, you will graduate work-ready and be eligible to pursue further study towards qualification as a registered Psychologist. Complete two degrees in four years of full-time study.

Professional recognition

Graduates are eligible to apply for registration as a registered nurse with the Nursing and Midwifery Board of Australia (NMBA).

Clinical placement requirements

Clinical placements are conducted throughout your course beginning in Trimester 1 of your first year. This early exposure to the clinical environment gives you extensive opportunities to develop clinical skills under the supervision of registered nurses and enables you to experience being part of a multidisciplinary health care team. You gain clinical experience in a variety of settings, including acute/sub-acute care, medical and surgical care, aged care, rehabilitation, paediatrics, community nursing and mental health nursing, spending approximately 21 weeks in various health care settings, including hospitals and community health centres in metropolitan, rural and regional areas.

Registration

See pathways to registration information on page 5.

Work experience

As part of the Bachelor of Nursing component of this course, work placements are conducted throughout your course beginning in Trimester 1 of your first year. This early exposure to the clinical environment gives you extensive opportunities to develop clinical skills under the supervision of registered nurses and enables you to experience being part of a multidisciplinary health care team. You gain clinical experience in a variety of settings, including acute/sub-acute care, medical and surgical care, aged care, rehabilitation, paediatrics, community nursing and mental health nursing, spending approximately 21 weeks in various health care settings, including hospitals and community health centres in metropolitan, rural and regional areas.

Course details

The Bachelor of Health Sciences/Bachelor of Arts allows you to design your own course by combining subjects from a wide range of health and arts-related areas. You choose how to structure your course and could combine, for example, food studies and language and culture studies, arts-related areas. You choose how to structure your course and could combine, for example, food studies and language and culture studies, psychology for professional development with sociology, the choice is yours.

Cloud Campus is not available to international students.

Contact us

There are many different ways you can get into an undergraduate course at Deakin. No matter your ATAR or education history, we’re here to help you find your pathway to Deakin. Give us a call on 1800 693 888 to discuss your options or email infostore@deakin.edu.au. You can also try our Pathway Finder tool and explore the options that may be available to you at deakin.edu.au/courses/entry-pathways/pathway-finder.

Find your course

Browse from the hundreds of exciting undergraduate courses we have on offer at deakin.edu.au. undergraduate courses at Deakin generally begin in March, and some courses also have intakes in July and November. Once you find the course you’re after, make sure you understand the entry requirements, application methods and application dates.

Understand the entry and documentation requirements

Make sure you understand the entry requirements for your chosen course by reading the course page carefully (online at deakin.edu.au/course or in this booklet). For recent secondary education applicants, in addition to the listed ATAR, some courses may require you to have studied a prerequisite subject/s, while others may also require you to provide extra materials, such as a portfolio or personal statement.

Selection requirements for non-Year 12 applicants may include personal statement, entrance tests as specified, e.g. STAT (Special Tertiary Admissions Test), or the non-academic assessment (for all applicants to teaching courses), supplementary information form, audition, interview or folio presentation.

Gather supporting documents

When applying direct to Deakin as a non-Year 12, it’s important to attach any required supporting documentation, which may include a CV, academic transcripts, STAT results or a personal statement, otherwise your application may be delayed. We recommend gathering all this documentation before you commence the application process to ensure you can complete it in one sitting.

Apply

Depending on your course, our flexible trimester system means you may be able to start in Trimester 1 (March), 2 (July) or 3 (November). If you’re a recent secondary education applicant, applications for Trimester 1 should be made through VTAC (vtag.edu.au).

If you are a non-Year 12 applying for Trimester 1 for one Deakin course only, you may apply direct to Deakin.*

Applications for Trimester 2 or 3 should be made directly to Deakin via the application portal at applicantportal.deakin.edu.au.
