Ethics intensive program

5–7 December 2019

DEAKIN BUSINESS SCHOOL

This three-day intensive program will provide you with the knowledge and principals needed to address ethical issues in the financial planning industry.

You will discuss and apply principles to case-studies in an informal and supportive learning environment. You will have access to comprehensive online learning materials during and before the program begins. The online learning materials have been specifically developed to provide students with a rich, interactive and engaging learning experience.

In the lead up to this intensive program, there are some reading and learning activities to complete. These activities will prepare you with basic financial planning ethics theory and principles so that you're ready to apply your knowledge as soon as you arrive. Discipline experts including academics and industry leaders teach this program.

This single-unit program is equivalent to FASEA approved unit – Ethics for Financial Services. For more information on this unit, visit **deakin.edu.au/unit/MAI769** or if you have questions please email **bl-recruitment@deakin.edu.au**.
