

CLINICAL LEADERSHIP MASTERCLASS

Enrol in the unit or attend as a conference

Are you a clinician who aspires to leadership in healthcare? Do you want to learn more about making a difference in Australia's healthcare system?

Deakin's Clinical Leadership Masterclass is being held from 18 to 23 January 2015 at the Deakin Management Centre at the Geelong Waurin Ponds Campus.

'Management is doing things right; leadership is doing the right things.'
— Peter Drucker

This residential program (HME701 Clinical Leadership 1: System and Strategy) is a core unit of Deakin's Master of Clinical Leadership program. The Master's program is designed for clinicians who want to make a difference in health care through actively leading change. It is also available as a single unit for those wishing to undertake a formal Master's level unit, or as a conference for those who simply wish to undertake individual professional development without formally enrolling in the unit.

This Masterclass will provide those who attend with an opportunity to hear from leaders in the Australian healthcare system, and to learn about current and future challenges in Australian healthcare.

Program highlights include discussion about:

- The importance of health policy as a change driver
- The challenge of health financing
- Authentic leadership in health care
- Leadership in elite sport – lessons for healthcare

Attendees will be encouraged to develop their thinking about their own leadership, whilst learning practical leadership skills. The Masterclass will also provide an opportunity to develop and extend professional and personal networks.

Cost

The all-expenses cost of the residential is \$5874. This includes meals and accommodation at the Deakin Management Centre.
