

DEAKIN UNIVERSITY SPECIAL EDITION BULLETIN – COURSE UPDATES

UNDERGRADUATE COURSES

Course Name	Updates	Description	Website for more information
Bachelor of Planning (Honours)	New course offered	Planning is a professional discipline focused on influencing towns, cities and regions by managing development, infrastructure and services. Planners, also known as 'urban planners' or 'town planners' specialise in designing and creating the vibrant places and spaces in which we live, work and play by balancing the built and natural environment with community needs, social equity, cultural significance and economic sustainability.	deakin.edu.au/study-at-deakin/find-a-course/planning
Bachelor of Management	New course offered	Deakin's exciting new Bachelor of Management is designed with you in mind - to equip you with the skills you need to get the job you want! A high level of practical learning enhances the degree, which is invaluable to graduates and prospective employers.	deakin.edu.au/future-students/courses/course.php?course=M325&stutype=local&keywords=m325
Bachelor of Property and Real Estate/Bachelor of Laws	New course offered	The Bachelor of Property and Real Estate/ Bachelor of Laws (BPRE/BLaws) will provide you with a thorough understanding of the both the law discipline and the property and real estate discipline, as well as building on the strong synergy between the two, in a five-year program of study.	deakin.edu.au/course/bachelor-of-property-and-real-estate-bachelor-of-laws-business

Bachelor of Medical Imaging	New course offered	From 2015 Deakin University will offer a four-year degree in Medical Imaging, otherwise known as Medical Diagnostic Radiography. The course will provide you with the opportunity to develop the knowledge, skills and clinical expertise that enable you to practise as a competent state-registered diagnostic radiographer (subject to accreditation by AHPRA).	deakin.edu.au/study-at-deakin/find-a-course/medical-imaging
Bachelor of Psychology (Honours)	New course offered – replaces the Bachelor of Psychology	The Bachelor of Psychology (Honours) offered at Burwood, Geelong and Warrnambool provides you with the psychology sequence that is accredited by the Australian Psychology Accreditation Council and recognised by the Psychology Board of Australia. This four-year course provides selected students with the opportunity to complete honours in psychology as part of the final year of this degree.	deakin.edu.au/future-students/courses/course.php?course=H345&stutype=local&keywords=H345
Bachelor Public Health and Health Promotion	Now offered in Geelong Warrnambool Campus	The Bachelor of Public Health and Health Promotion provides specialist training in public health and health promotion skills. This course will allow you to gain skills in industry-recognised competencies, allowing you to understand and act upon those factors which cause poor health and those factors which create and sustain good health, such as planning and evaluation, health communication strategies, epidemiology, and research skills.	deakin.edu.au/future-students/courses/course.php?course=H313&stutype=local&continue=Continue
Bachelor of Science	New majors offered in this course	Science at Deakin is not just about laboratory work, but prepares students for a range of real-life settings in which today's science graduates work. New major sequences have been introduced to course and provide students with greater opportunity to explore their areas of interest.	deakin.edu.au/study-at-deakin/find-a-course/bachelor-of-science

Bachelor of Design Technology	New course offered – replaces the Bachelor of Engineering Science	There is a worldwide trend towards increasingly agile and adaptable industries. As a result, industry needs versatile, technologically-minded professionals with the design, project management and entrepreneurial skills to drive the product innovations of the future. Deakin University's Bachelor of Design Technology is distinctive and ideally suited to those interested in acquiring the skills to develop cutting-edge products.	deakin.edu.au/study-at-deakin/find-a-course/design-technology
Bachelor of Information Technology	New majors offered in this course	Computers and related technologies are a part of everyday life, but relatively few people have the skills to design and build the systems we all rely on. Deakin IT students develop a thorough grounding in the fundamental skills of computing while having the flexibility to choose from a wide range of specialisations according to their interests and career aspirations.	deakin.edu.au/study-at-deakin/find-a-course/information-technology-undergraduate
Bachelor of Computer Science	New course offered – replaces the Bachelor of Information Technology (Computer Science and Software Development)	Computer Science at Deakin will equip students with the skills to design and develop advanced software and systems, along with the capacity to create and integrate new computing technologies that enhance effective business operation in today's digital age.	deakin.edu.au/study-at-deakin/find-a-course/computer-science
Bachelor of IT Security	New course offered – Replaces the Bachelor of Information Technology (IT Security)	This course gives students practical and theoretical knowledge in this critical aspect of IT with an emphasis on understanding and assessing the need for IT security in a working environment, knowledge of the security solutions available and an understanding of the business, ethical and legal implications of risk management.	deakin.edu.au/study-at-deakin/find-a-course/it-security

Bachelor of Games Design and Development	New course offered – Replaces the Bachelor of Information Technology (Games Design and Development)	Games design and development provides you with the knowledge and skills to thrive in this dynamic and fast-growing field. You will be exposed to hands-on computer games design and development in a dynamic learning environment and have access to games studios where you can interact and develop team-based projects.	deakin.edu.au/study-at-deakin/find-a-course/games-design-and-development
Bachelor of Communication (Public Relations)	New course offered - replaces Bachelor of Arts (Media and Communication)	Throughout the course, students will learn about the management of communication between people, organisations, agencies and the public, with the opportunity to undertake an industry internship.	deakin.edu.au/public-relations
Bachelor of Communication (Journalism)	New course offered – replaces the Bachelor of Arts (Media and Communication)	Students will develop analytical skills, necessary for reporting events in context with the aim to prepare journalists for the challenges of the 21st century. <i>Our new suite of Communication courses will help students develop a highly specialised skill set.</i>	deakin.edu.au/journalism
Bachelor of Communication (Media)	New course offered - replaces Bachelor of Arts (Media and Communication)	The course involves creative and vocational exploration of emergent trends in the world's fastest growing industry.	deakin.edu.au/future-students/courses/course.php?course=A333&area=BFOS-COMM-MEDIA&stutype=local&continue=Continue
Bachelor of Entertainment Production	New course offered	A new and innovative course, providing students with a myriad of opportunities across various creative and cultural industries.	deakin.edu.au/entertain

Bachelor of Creative Arts (Film and Television)	New course offered- replaces the Bachelor of Film and Digital Media	Students will comprehensively explore the theories, techniques and practices of screen production and screen culture. Film and television are multidisciplinary creative forms, so this course also provides access to the theory and practice of other creative arts including photography, animation and motion capture, drama, dance, visual arts and visual communication design.	deakin.edu.au/future-students/courses/course.php?course=A351&stutype=local&keywords=Film&study_level=All+levels
Bachelor of Criminology/ Bachelor of IT Security	New course offered – replaces the Bachelor of Criminology/ Bachelor of Information Technology (IT Security)	Deakin’s Bachelor of Criminology/Bachelor of I.T. Security is the only degree of its kind in Australia. It brings together two independent degrees in criminology and I.T. security into an attractive four-year combined course. Combining IT security with criminology covers a wide range of topics concerning the meaning of crime; different forms, causes and consequences of crime; and the different institutions and processes developed for preventing and controlling crime.	deakin.edu.au/study-at-deakin/find-a-course/information-technology
Bachelor of Information Systems/ Bachelor of Information Technology	New course offered	The course offers studies of IT and Information Systems, producing graduates with practical and theoretical knowledge in ICT leading to a spectrum of highly sought after graduate roles. This course will provide students with a thorough grounding in software development, web design, database, networking and project management.	deakin.edu.au/future-students/courses/course.php?course=D371&stutype=local&keywords=Bachelor+of+Information+Systems%2F+Bachelor+of+Information+Technology

POSTGRADUATE COURSES
