Course Rules

To complete the Graduate Diploma of Sustainable Regional Development, **students must attain 8 credit points**. Most units (think of units as 'subjects') are equal to 1 credit point. So that means in order to gain 8 credit points, **you'll need to study 8 units** (AKA 'subjects') over your entire degree. Most students choose to study 4 units per trimester, and usually undertake two trimesters each year.

The 8 credit points include 5 core units (these are compulsory) and 3 elective units (selected from a list of discipline specific electives).
