See the world in a different light. From anthropology and philosophy to criminology and international studies, apply your natural curiosity and creative instincts to pursue a career in humanities, social sciences and languages. Gain skills that are transferable across all industries, hands-on workplace experience and valuable international study experiences that prepare you for an exciting career.

Arts, humanities and social sciences at Deakin

Learn without limits
You can study arts, humanities and social sciences in Geelong, Melbourne or online via Deakin’s Cloud Campus. Deakin offers courses and units both fully and partly online, allowing you to balance life’s other priorities. Cloud learning offers a convenient and engaging learning experience, using the latest digital tools.

Travel the world
Deakin offers many opportunities to study overseas as part of your degree, including exchange, study abroad, study tours and international volunteering opportunities. You could find yourself in the United States learning about America’s role in the international political system and the role of the United Nations, International Monetary Fund and World Bank, or in Tibet experiencing an intensive introduction to Buddhist philosophy and hermeneutics. The benefits of an international study experience are limitless. deakin.edu.au/overseas-study

Experience a world-class education
Politics and international studies at Deakin are ranked in the top 10 per cent in the world, according to the prestigious QS World University Rankings (2016). The QS World University Rankings are an annual university ranking and are one of the most influential and widely observed international university rankings.
Arts, humanities and social sciences at Deakin

Get work ready – we are the #1 university for skills development

At Deakin, we understand that experience plays a critical role in developing your employability – students who undertake placements and internships are highly sought-after by employers. Our arts, humanities and social sciences students can access work experience and networking opportunities while they study.

Ranked the number one university for skills development in Victoria*, Deakin’s course curriculum integrates real-world expertise with practical skills to give our students a competitive edge.

* 2016 Student Experience Survey

Learn from teachers who are leaders in their fields

Our teaching staff are passionate professionals, recognised as leaders and they are innovators in their fields meaning you’ll learn from the very best. They’re active in the media and conduct important research, making a positive impact in Australia and around the world.

Practical, real-world learning

Industry representatives sit on advisory boards to ensure our courses are developed and reviewed with industry and professional input, providing excellent career outcomes. Our School of Humanities and Social Sciences has strong partnerships with several high-profile organisations, such as Save the Children, and other NGOs. Work experience can make all the difference when you graduate and are applying for jobs. Work integrated learning is an opportunity for you to gain work experience and credit towards your degree. The Arts and Education Work Integrated Learning experts provide endless opportunities to intern, mentor, travel and volunteer.

Study interesting and complementary areas

A combined course allows you to undertake complementary studies in both degrees while exploring particular areas of interest to you. For example, combining an arts degree with a health sciences degree allows you to tailor your course to tap into your unique interests and career aspirations. You could combine politics and policy studies with nutrition for careers in health policy. Also, combined courses are designed to allow you to complete both courses in as little as four or five years, which is quicker than completing one degree followed by the other.

Study a language and expand your world

We teach the world’s most strategically important languages – Arabic, Chinese, Indonesian and Spanish. Learning a language is not only fun, it gives you insight into different cultures, develops your adaptability and communication skills, as well as making you more employable.

Chinese

- 1302 million speakers in 35 countries

Disciplines

At Deakin we talk about disciplines, also known as study areas. You might be interested in a particular discipline, but uncertain about the course that’s right for you. Read through these discipline descriptions and, if they interest you, go to the relevant course in the following pages to find out more about the course, what you’ll study, work experience opportunities and the types of careers it may lead to. You can also visit deakin.edu.au for detailed course information, including a description of the units within each degree.

Arabic
Australia’s trade with the Middle East has more than doubled in the past two decades, making it an increasingly important region with broad strategic, economic, religious and cultural influence. Studies in Arabic help you develop communication skills in modern standard Arabic, with language fluency further enhanced through an understanding of Middle Eastern history, culture and society.

Arabic at Deakin is a national award-winning program, with an emphasis on communicative competence and innovative methodologies. In-country language programs are available to students undertaking a major in Arabic.
See...
Bachelor of Arts, page 12
Bachelor of International Studies, page 16
Bachelor of International Studies (Global Scholar), page 17.

Buddhist studies
Buddhist studies provides students with a multi-dimensional understanding of Buddhist cultures, philosophies and practices, both in traditional settings and contemporary interpretations. Develop knowledge of the major Buddhist traditions and learn how core Buddhist practices and ideas – such as mindfulness meditation – have been adapted in contemporary western settings and have impacted on our ideas of personal development and on public issues in modern social life. Buddhism is often simplistically viewed as a way of life or a philosophy rather than a complex, multi-dimensional religious tradition. By engaging with this course of study you will develop a critical awareness of the much richer scope of Buddhist thought and cultures – east and west.
See Bachelor of Arts, page 12.

Chinese
China is Australia’s biggest trading partner and Standard Chinese, commonly known as Mandarin Chinese, is a major language of the world. It is the official language in the People’s Republic of China, Taiwan and Singapore and widely used in community groups in Hong Kong, South-East Asia, North America and Australia. Chinese is also one of the five official languages of the United Nations.
Adding an international aspect to your degree can open doors to better career opportunities. Language skills in Chinese is strategic in terms of Australia’s interests and are important in diplomacy, defence, security, commerce and trade-related fields.

Bachelor of Arts – Chinese/Bachelor of Commerce, page 18.

Criminology
Criminology investigates how crime can be minimised or prevented by harnessing the insight of a number of disciplines, such as psychology and history. It also examines why some behaviours are defined as criminal and why certain people may become criminals. Criminologists’ studies are used to help law enforcers apprehend criminals more efficiently and help discover their motives to reduce the likelihood of similar crimes occurring.
Deakin has one of the few dedicated criminology courses in Australia, allowing specialised study for students seeking a career in the criminal justice system. Study topics that you won’t be able to elsewhere – such as security, surveillance, terrorism and policing.
Criminology provides a grounding for a career across a wide range of areas, including community and paralegal work, intelligence and security services, justice policy development and analysis, social science research, state and federal police and other law enforcement agencies including anti-corruption agencies, crime prevention and community safety, courts and corrections.

Geography and society
Consider some current questions and issues: How many people will exist on planet earth in 2050? Where and how will they live? What will be the impacts – physical and human – of climate change? Why are natural disasters appearing to be more frequent and intense and why do they impact hardest on the poor? Geography bridges the human and physical sciences. It seeks to describe and explain the uneven distribution of human activity across the globe. It is built around five key concerns: location, place, human-environment relations and interactions, movement and regions.
With their research and analytical skills as well as a spatial perspective, our students may find work in the federal, state and local government sectors, community and non-profit organisations or corporate sector.
See Bachelor of Arts, page 12.

Courses to careers
At Deakin, we’re about careers and experience, not just courses. Visit explore.deakin.edu.au to kickstart your course and career exploration at Deakin. With more than 600 paired courses and careers, it’s the perfect destination for you to explore your future career.

Anthropology
What does it mean to be human? Anthropologists ask and hope to answer this question by studying humanity in the broadest sense. By studying anthropology, analyse the lives of people in a range of societies and gain insights into the science behind human existence – in essence, you’ll understand how we both create and relate to our environment. By doing so, you’ll understand how to work with people in diverse and international settings.
You will find anthropologists working in all areas of contemporary life in mining and mineral exploration helping companies work with local populations; in film and television; as researchers, producers and writers; in the Australian Department of Foreign Affairs and Trade; in the United Nations; in all areas of government and policy preparation; in public health; in food sciences; in humanitarian agencies and NGOs worldwide; in corporate research and development – the list goes on.

Disciplines

Gender and sexuality studies

Gender and sexuality play important roles in people’s lives and society in many different ways and at Deakin, you learn to understand this complexity through our structured interdisciplinary program, which draws on the creative arts, cultural studies, history, sociology and more.

It provides an analytical approach to the significance of sex, gender and sexuality in many parts of our lives and the important roles they often play in how we understand ourselves and the structures we live in. In art and literature, popular culture and the media, politics and the law, marketing and advertising, health and wellbeing, the economics of family life and work, our public identities and intimate lives, sex, gender and sexuality are prominent features of contemporary and historical life.

See Bachelor of Arts, page 12.

History

Study history at Deakin and understand the makings of the modern world and the ways historians have interpreted them. Our history units cover themes from colonialism and war to gender and social change, and deal with content from Australia and around the world. You’ll be taught by Deakin’s renowned historians, who are at the forefront of bringing history into public conversations.

Many students at Deakin also wish to pursue their love of history as an elective while taking their alternative vocational study. History at Deakin also provides a full honours year and postgraduate research degrees, which can lead, among many other career paths, to university positions in history.

A significant proportion of our history majors go on to teach history at either primary or secondary levels. Some students also go on to work in museums and in the broad area of preserving cultural heritage. Deakin provides postgraduate courses in both of these career areas. Other career options for graduates with history majors include: professional history, public sector positions, history tourism, archivists and librarians, journalism, diplomacy and management and administration.

See Bachelor of Arts, page 12 Bachelor of Arts (Honours), page 12.

Indonesian

Indonesian language studies develop communication skills in Bahasa Indonesia, as well as an understanding of Indonesian culture, history and society. With more than 23 million first language Indonesian speakers (140 million people speak Indonesian as a second language), and Indonesia being Australia’s closest Asian neighbour, the region is increasingly important to Australia economically, politically and culturally. In-country language programs are available to students undertaking a major in Indonesian, giving you the opportunity to travel overseas and try out your language skills with native speakers.

Adding an international aspect to your degree can open doors to better career opportunities. Language skills in Indonesian is strategic in terms of Australia’s interests and are important in diplomacy, defence, security, commerce and trade-related fields.

See Diploma of Indonesian, page 15 Bachelor of Arts, page 12 Bachelor of International Studies, page 16 Bachelor of International Studies (Global Scholar), page 17.

International politics

International politics provides you with an understanding of the global system of states and the major challenges of the international system. Explore contemporary issues such as human rights, refugees and asylum seekers, terrorism, war, human rights responses and development, capitalism, power, diplomacy and the role of the United Nations, the politics of the United States, and the issues facing the Middle East.

Graduates can expect to gain employment in a wide range of areas, including federal defense agencies, foreign affairs departments, immigration departments/consulates, major corporations, non-government organisations, management consultancies and multicultural associations.

See Bachelor of Arts, page 12 Bachelor of International Studies, page 16 Bachelor of International Studies (Global Scholar), page 17.

International relations

Studying international relations (IR) enhances your understanding of the key political dynamics of our time. The discipline of IR encompasses the study of policy-related dynamics such as diplomacy, foreign policy and global governance, as well as theoretical dynamics relating to questions of order, justice and resistance in world politics. It also considers questions relating to the changing nature of world politics, evident in emerging forms of regionalism and globalisation.

The IR discipline at Deakin has developed undergraduate units that address a wide range of key problems, trends and developments in world politics. It provides a grounding for a career across a wide range of areas including defence, education, teaching, foreign affairs, human rights, immigration, intelligence, multicultural affairs.

See Bachelor of Arts, page 12 Bachelor of International Studies, page 16 Bachelor of International Studies (Global Scholar), page 17 Bachelor of Arts/Master of Arts (International Relations), page 20 Bachelor of International Studies/Bachelor of Commerce, page 20 Bachelor of Laws/Bachelor of International Studies, page 20 Bachelor of Arts (Honours), page 12.

Islamic studies

Islam is one of the three major Abrahamic faiths and is the world’s fastest growing religion that is predicted to outstrip Christianity as the preeminent creed in the next 50 years. Further, due to the rise of Islamic extremism, both Islam and Muslims are often in the media and a major focus of politics at both the state and federal level. However, often the discussions pertaining to Islam and Muslims are subject to inaccuracies and disinformation. Therefore, the aim of this course is to provide you with the opportunity to obtain religious literacy in relation to Islam through both theoretical and textual analysis, alongside an analysis of popular culture and current affairs.

See Bachelor of Arts, page 12.

Gain credit towards your degree

With Credit for Prior Learning ( CPL), your previous study may make you eligible for credit towards your Deakin degree, reducing the number of units you need to study and allowing you to complete your course earlier and often more affordably. Find out more at deakin.edu.au/courses/entry-pathways/credits-for-prior-learning.

‘At Deakin I’ve had the opportunity to work in Hong Kong, study in Nanjing and work in a community legal centre. These opportunities took me outside my comfort zone and taught me how to survive in foreign countries and working environments.’

Sarah Whelan
Bachelor of Laws/Bachelor of Arts (International Studies) and Diploma of Languages – Chinese graduate
Disciplines

Language and culture studies
At Deakin we teach the world’s most strategically important languages – Arabic, Chinese, Indonesian and Spanish – with exciting overseas language study tour opportunities available as part of your degree. Learning a language is not only fun – it gives you an insight into different cultures, develops your adaptability and communication skills, as well as making you more employable.

A major in languages and culture studies will combine well with history, international relations, philosophy, politics and policy studies, anthropology and sociology.

Middle East studies
Deakin offers the only major in Middle East studies in Australia, so we’re best placed to give you a comprehensive understanding of the events and issues shaping the region. With an emphasis on both historical and contemporary issues relevant to the analysis of the Middle East as a regional system, the course also explores the region’s position in the international system.

Middle East studies combines well with international relations, politics and policy studies, and languages. Middle East studies can also be studied as a major in the Bachelor of International Studies or in the Bachelor of International Studies (Global Scholar).

It provides a grounding for a career across a wide range of areas including defence, education, teaching, foreign affairs, human rights, immigration, intelligence and multicultural affairs.

Philosophy
What is philosophy? It literally translates as the ‘love of wisdom’. Philosophy asks some of the most fundamental questions that you will face in your life. Who or what are you? What do you know, and how do you know what you know? If you value questions as well as answers, philosophy is for you. Join us and investigate topics such as reality, existence, knowledge, values and language.

The study of philosophy teaches generic skills that are transferable to a very wide variety of vocational courses and post-university careers – critical thinking and analytical skills, communication skills and the ability to be able to think with imagination and rigour. Studies have consistently shown that philosophy graduates perform among the top 10% on entrance exams for law and medicine (e.g. LSAT, GMAT, GRE). Philosophy graduates are also popular with employers because of their problem-solving skills and ability to think critically. So: try philosophy for a major that is both intellectually rewarding and practically useful.

See...
Bachelor of Arts, page 12
Bachelor of Arts (Honours), page 12.

Politics and policy studies
Politics and policy studies enhances your understanding of the big issues in the world today, and assist you to develop the skills to make a difference in your lifetime. We investigate the challenge posed to Australia and the world by climate change; asylum seekers and refugees; development; inequality; political parties and new social movements. We examine the ideas behind the policy and the rhetoric. We look globally for different solutions; investigate how policy lessons are learned; and assess the impact on domestic and global politics.

We examine how and why some people are able to exercise power better than others, and assess ideas and opportunities for addressing the pressing social, economic and environmental issues of our time.

Institute of Koorie Education
Deakin’s Institute of Koorie Education provides community-based education programs, enabling Aboriginal and Torres Strait Islander Australians the flexibility to gain access to higher education while still being able to maintain family and community connections and obligations.

Our programs offer:
• community-based delivery
• campus-based intensive study blocks in a supportive environment
• local tutors in community.

The approach to course delivery promotes access and equity for Indigenous Australian students, creating a close-knit learning community, as well as an inspiring and supportive learning environment away from home.

Disciplines

Professional experience and practice

We live in a rapidly changing world on the cusp of an employment revolution. Whereas many of the jobs of today will not exist in the future, many of the jobs of the future do not yet exist today. How, then, can you best prepare for a career path that remains largely unknown? The professional experience and practice minor provides you with real-world learning experiences and is designed to further advance the employability and employment outcomes of Deakin arts students and graduates (as well as those in other courses).

See Bachelor of Arts, page 12.

Sociology

Study society, social groups and social relations. Thinking sociologically allows you to critically understand the processes that shape the society we live in and the cultures within it. As a sociology student, you’ll explore key aspects of everyday life including ethnicity, religion, gender, migration, consumerism, globalisation, deviance, health, youth culture and intimate relationships.

We teach you how to carry out research projects using both qualitative and quantitative techniques; we’re the only social science discipline in the faculty that teaches these mixed-methods.

With their research and analytical skills our students find work in the federal, state and local government sectors; social services, teaching, industrial relations, criminal justice work, policy development and implementation group work with youth or the elderly, urban planning, migrant and multicultural affairs. Community and non-profit organisations; administration, overseas aid and development agencies, social research, policy development, lobbying. Business: consumer/social research, public relations, publishing, personnel work, training.

See...
Bachelor of Arts, page 12
Bachelor of Arts (Honours), page 12.

Spanish

Spanish is a major international language with more than 400 million speakers on five continents. It is the national language of more than 20 countries and the third most widely spoken language in the world (after Mandarin and English). Spanish is an official language of the United Nations and of other international organisations such as the European Union and the Organisation of American States. In the United States of America, Spanish is the second most widely spoken language. In Australia, Spanish is one of the seven most common languages (excluding English) spoken in the home (ABS Census data 2011).

Adding an international aspect to your degree can open doors to better career opportunities. Language skills in Spanish is strategic in terms of diplomacy, defence, security, commerce and trade-related fields.

See...
Diploma of Spanish, page 15
Bachelor of Arts, page 12
Bachelor of International Studies, page 16
Bachelor of International Studies (Global Scholar), page 17.

Sport and society

Sport’s prominent role in society can be traced back to the ancient Olympics in Greece more than 2700 years ago. Today, sport enjoys even increasing popularity and influence. Sport has a profound impact on society from cultural, social, educational, political and economic perspectives.

Explore key issues surrounding sport’s role – past and present – in the modern world in a structured and meaningful way. Through its interdisciplinary approach, this minor features a rich and diverse blend of units from history, sociology, education, business and health.

See...
Bachelor of Arts, page 12
Bachelor of Arts (Honours), page 12.

Studies of religions

Understanding religion has seldom been as important as it is today. There is increasing dialogue among the greater religions of the world, but there is also increasing misunderstanding of religious traditions – one’s own or other people’s. This is a multidisciplinary major that looks at religion and religions from diverse viewpoints and methodologies, with units from the disciplines of anthropology, philosophy, sociology, literary and cultural studies and other. It also offers the possibility of focusing on particular religious traditions.

Studies of Religions graduates acquire a broad range of skills suitable for a career across a wide range of areas including education, teaching, journalism, foreign affairs, government agencies, media, politics, public service, cultural tourism, law, commerce and business.

See...
Bachelor of Arts, page 12
Bachelor of Arts (Honours), page 12.

Sustainability and society

Sustainability is an increasingly important factor in private and public sectors that guides behaviour and decision-making. With increasing social demand for a sustainable future, managing our environmental and social expectations is an increasingly difficult task moving forward.

Bachelor of Arts, page 12
Bachelor of Arts (Honours), page 12.

My course has exceeded my expectations. With such a wide variety of units to choose from, and areas to specialise in, there is never a dull moment. I am able to tailor my learning to my interests, allowing me to thrive!

Beau Arnfield
Bachelor of Arts/Bachelor of Laws student

‘My course has exceeded my expectations. With such a wide variety of units to choose from, and areas to specialise in, there is never a dull moment. I am able to tailor my learning to my interests, allowing me to thrive!’
Bachelor of Arts  

A Deakin Bachelor of Arts degree offers enormous flexibility, allowing you to keep your career options open and design your course around your interests and for maximum employability. All arts majors are taught as a combination of practical and theoretical learning, with many areas of study offering workplace placements. One-third of the course may be taken from outside the Faculty of Arts and Education and you may take single, double, or even triple majors, providing numerous course combinations.

Careers  
The Bachelor of Arts develops important and transferable career skills, making you highly employable within a wide range of industries. The broad range of disciplines allows you to follow your passions and study new and exciting areas, which engenders a lifelong love of learning, highly valued by employers.

An arts degree provides skills for a wide range of careers. Graduates may find careers in international relations, journalism, advertising, media, photography, multimedia, publishing, public relations, marketing, personnel and industrial relations, government, policy development, research, business, finance, community services, ethnic affairs, social work, education, policing and performing and visual arts.

Course structure  
24 credit points – at least one arts major (8 credit points) plus one arts minor (4 credit points) sequence. Academic Integrity (AA0018) is a compulsory 0-credit point unit that you must undertake as part of this course. An honours year is available upon completion of this degree.

Honours  
The Bachelor of Arts (Honours) gives high-achieving arts graduates the opportunity to undertake advanced study in their chosen discipline.

As a student, you’ll undertake both coursework and a substantial research project (thesis) under the supervision of an academic with a professional research record. Conducting your own research allows you to focus on an area of particular interest to you, and give you the opportunity to contribute to wider debates within your discipline.

- Sustainability and society
- Visual arts

* This course is also available at the Institute of Koorie Education. Find out more at deakin.edu.au/koorie.
* Available as a minor (4 credit point) unit sequence only.
* A full major sequence in Chinese is not available at the Cloud Campus.
* Offered to Geelong Waurn Ponds Campus students by combination of online and campus-based learning.

Associate Degree of Arts

Are you interested in studying at university but not sure you will meet the entry requirements for a bachelor’s degree? University can be a challenge, which is why we have designed a course providing students with a supported learning environment and a pathway into Deakin. Students who successfully complete the Associate Degree of Arts are guaranteed entry into the Bachelor of Arts or Bachelor of Criminology and may receive up to 36 credit points of Credit for Prior Learning into these courses. Students may also apply to transition, with credit, into a selected range of other bachelor’s degrees, including communications or creative arts. If students perform well during their studies, they may even be eligible to enter their target bachelor’s degree a lot sooner. You will benefit from small class sizes, state-of-the-art technology and outstanding facilities, allowing you to develop the necessary skills to become a successful university student.

1 The four foundation units must be undertaken at a campus.

I wanted to study a course that offered a broad range of subjects to choose from and throughout my course Deakin has given me the opportunity to study areas I wouldn’t usually encounter. My favourite subject so far has been politics. I love the complexity and knowledge I have gained about Australia and the world around us.

Akshara Vivekananthan  
Bachelor of Arts/Bachelor of Commerce student
There are a variety of benefits to learning a second language:

- Develop your brain function.
- Improve your memory.
- Build multitasking and decision-making skills.
- Get a unique edge in a competitive job market.
- Boost your global career aspirations, develop language and communication skills.
- Combine work, study and travel via language studies.
- Give your bachelor’s degree a language diploma add-on.

Why study a language?

There are a variety of benefits to learning a second language:

- Combine work, study and travel via language studies.
- Sets you up to live and work in another culture.
- Boost your global career aspirations, develop language and cultural understanding.
- Get a unique edge in a competitive job market.
- Build multitasking and decision-making skills.
- Improve your memory.
- Refine your first language and communication skills in general.
- Develop your brain function.

Courses

A Diploma of Language can be studied alongside your bachelor’s degree. Choose from Arabic, Chinese, Indonesian and Spanish.

Diploma of Arabic*

The Arab countries of the Middle East and North Africa form an area of critical global importance having broad strategic, economic, religious and cultural influence. The Middle East comprises the fourth largest trading block among Australia’s overseas trading partners, with the total value of Australia’s trade with the Middle East more than doubling in the last decade. Develop communication skills in modern standard Arabic and enhance your language fluency through contextual knowledge of Middle Eastern history, culture and society. Students taking Arabic are encouraged to take complementary units in the relevant area studies in order to obtain sound background knowledge of the cultural, geopolitical and historical issues relevant to the regions where Arabic is spoken. Gain fluency by developing skills in grammar, vocabulary and sentence structure through participation in activities across a range of topics. You’ll also get the chance to learn about serious cultural, sociolinguistic and sociocultural considerations relevant to the Arabic language.

Course structure

8 credit points.

* This course is not available to international students.

Why study a language?

There are a variety of benefits to learning a second language:

- Combine work, study and travel via language studies.
- Sets you up to live and work in another culture.
- Boost your global career aspirations, develop language and cultural understanding.
- Get a unique edge in a competitive job market.
- Build multitasking and decision-making skills.
- Improve your memory.
- Refine your first language and communication skills in general.
- Develop your brain function.

Diploma of Chinese*

Whether you’re brushing up or starting from scratch with a whole new language, Deakin’s Diploma of Chinese is designed to sharpen your language skills and deepen your cultural understanding. It’s a great complement to your studies in any discipline, plus you’ll gain a global perspective and boost your employability. A Diploma of Chinese gives you a competitive advantage for roles in business, diplomacy, foreign policy and international development. You’ll graduate with competency in the language, ready for a range of local and international careers. In-country language programs are also available to students studying Chinese.

Course structure

8 credit points.

* This course is not available to international students.

Diploma of Indonesian*

Learn communication skills in Bahasa Indonesia while gaining an understanding of Indonesia’s culture, history and society. Indonesia is Australia’s closest Asian neighbour and the region is increasingly important to Australia economically, politically and culturally. An optional in-country language program means that you have the opportunity to spend between six and eight weeks studying language and culture in their own environment. This enables you to converse, read and write about more complex topics and to discuss ideas and information. You will also build upon your knowledge of grammar based on what you have learned previously.

Course structure

8 credit points.

* This course is not available to international students.

Diploma of Spanish*

Deakin’s Diploma of Spanish is a great complement to studies in any discipline, plus you’ll gain a global perspective and boost your employability. Through the Diploma of Spanish, you’ll gain fluency in Spanish by developing an understanding of grammatical structures and lexical fields through a communicative approach, and by developing skills through guided activities that target listening, speaking, reading and writing competencies. The completion of six language-acquisition units ensures a high level of proficiency in the target language. In addition, through two thematic units, you’ll develop a nuanced understanding of the cultural, historical, sociolinguistic and political dimensions of the societies and cultures that make up the Spanish speaking world. In-country language programs are also available to students studying Spanish.

Course structure

8 credit points.

* This course is not available to international students.

Give your bachelor’s degree a language diploma add-on

By studying a language alongside your degree, you are acquiring not only linguistic skills, but also essential cultural, historical and social perspectives, giving you a leading edge in a wide range of exciting and challenging careers. Language skills in Arabic, Chinese (Mandarin), Indonesian and Spanish are all strategic in terms of Australia’s interests and are important in diplomacy, defence, security, commerce and trade-related fields.

Deakin has given me the skills, tools and confidence to approach my future with enthusiasm and curiosity. I have had so many opportunities, including studying a broad range of disciplines, taking part in overseas study programs to China and Europe and undertaking an internship.

Lincoln James
Bachelor of Arts – Chinese/Bachelor of Commerce graduate
Bachelor of Criminology

Deakin has one of the few dedicated criminology courses in Australia, allowing us to offer a wide variety of criminology topics. This course provides a solid educational foundation in the principles of criminological thought and research, enabling graduates to choose between seeking employment in related industries or seeking to undertake further study.

Deakin’s criminology program involves broad fields of study, with students covering a considerable breadth and depth of crime and criminal justice issues, as well as specialisation in areas such as victimology, media, terrorism, crime prevention, security and surveillance.

Course structure

24 credit points – 12 core criminology units and 12 elective units.

Bachelor of International Studies

Develop a systematic understanding of the international forces shaping government, business and society in contemporary Australia and the world and gain experience of living, working and studying in international environments. An important component of the degree is developing strong intercultural competence and graduate employability which is achieved through a combination of core units and participation in a wide range of international experiences, including study tours, short-term overseas programs, in-country language courses, study exchanges and/or internships. The program offers an Asia-Pacific view on international relations, politics, security, society and culture. You can choose to specialise in language studies, anthropology, international relations or politics.

Course structure

24 credit points – six core units, at least 2 credit points of approved international experience, and a major selected from the majors list below. Academic Integrity (AAI018) is a compulsory 0-credit-point unit that you must undertake as part of this course.

International study experience

Take advantage of several opportunities for international experiences, including:

- trimester of study at an overseas university exchange partner
- international internship
- in-country language program (in Arabic, Chinese, Indonesian or Spanish)
- approved study abroad program
- approved onshore internship with an international organisation
- 2 credit points of consecutive language units other than an in-country language program

Internship units are normally undertaken in third year (or equivalent) and are subject to completion of specified prerequisite units and special application requirements.

Majors

- Anthropology
- Arabic
- Chinese
- Indonesian
- International Politics
- International Relations
- Language and Culture Studies
- Middle East Studies
- Politics and Policy Studies
- Spanish

For more information and to click through to course structures and unit descriptions, please visit deakin.edu.au/courses.

Bachelor of International Studies (Global Scholar)

This interdisciplinary course is designed for high achieving students who want to combine study and travel and proactively build a global career from the very start of their studies. You will develop intercultural competencies, transversal skills and gain important skills of analysis, critical thinking and reflection, all of which are essential for effective personal and professional operation in international environments.

Course structure

The course follows the same unit structure as the existing Bachelor of International Studies (A326) of six core units, a choice of a major, second major, minor or elective study options, but requires a higher level of international activity and engagement: students must complete at least 4 credit points of international experience, which is supported through the award of a $3000 scholarship. Academic Integrity (AAI018) is a compulsory 0-credit-point unit that you must undertake as part of this course.

Majors

See Bachelor of International Studies, page 16.

* Trimester 3 intake is not available to international students.
Courses

Combined courses

Bachelor of Arts – Chinese/Bachelor of Commerce
A language qualification combined with a degree in business expands your employment opportunities locally and overseas. Mandarin is spoken in China, Taiwan, Hong Kong and Singapore and gives you a distinctive and sought-after qualification.

Bachelor of Arts/Bachelor of Laws
A law degree, especially when combined with another degree such as arts, is a qualification that offers diverse career opportunities. As an alternative to practising as a barrister or solicitor, you may enter many areas of work including business and management roles in a wide range of organisations, government services and industrial relations. You may find a role in research, public administration, diplomatic service, the media, legal aid, law reform, or teaching in schools or universities.

Bachelor of Arts/Bachelor of Science
Combine arts and science studies in a variety of contemporary themes such as the body, the environment, science policy and practice, and others. You may combine majors such as public relations/chemistry, philosophy/mathematical modelling, sociology/human biology or environmental science/journalism.

Bachelor of Arts/Bachelor of Cyber Security
Deakin’s Bachelor of Criminology/Bachelor of Cyber Security is the only degree of its kind in Australia. Bringing together two independent degrees, the course provides you with skills in securing data and data communications, as well as investigating, analysing and providing solutions to computer crime.

Bachelor of Criminology/Bachelor of Cyber Security
Deakin’s Bachelor of Criminology/Bachelor of Cyber Security is the only degree of its kind in Australia. Bringing together two independent degrees, the course provides you with skills in securing data and data communications, as well as investigating, analysing and providing solutions to computer crime.

Bachelor of Criminology/Bachelor of Law
A law degree, especially when combined with another degree such as criminology, is a qualification that offers unequalled career opportunities. As an alternative to practising as a barrister or solicitor, you may enter many areas of work including business and management roles in a wide range of organisations and government services, and in industrial relations. You may find a role in research, public administration, diplomatic service, the media, legal aid, law reform, or teaching in schools or universities.

Bachelor of Health Sciences/Bachelor of Arts
The Bachelor of Health Sciences/Bachelor of Arts allows you to design your own course by combining subjects from a wide range of health and arts-related areas. You choose how to structure your course and could combine, for example, food studies and language and culture studies, or psychology for professional development with sociology – the choice is yours.

Bachelor of Criminology/Bachelor of Psychological Science
Deakin’s Bachelor of Criminology/Bachelor of Psychological Science provides an accredited undergraduate sequence in psychology and includes complementary studies in individual and group counselling, health and behavioural change.

Combining psychology with criminology provides you with broad theoretical and applied knowledge and skills concerning the meaning of crime; the forms, causes and consequences of crime; and the different institutions and processes involved in preventing and controlling crime. A Criminology Practicum in your final year of study brings the professions to the classroom (including via online learning) with practitioner-driven seminars, activities bridging theory and practice, and the development of an e-portfolio that can be used for employment or career development.

Professional recognition
This course is recognised for registration purposes by the Psychology Board of Australia, accredited by the Australian Psychology Accreditation Council (APAC) and enables you to undertake additional study in pursuit of professional registration.

Bachelor of Forensic Science/Bachelor of Criminology
Develop the skills and techniques essential to modern forensic science, including the examination and presentation of scientific evidence. The course also gives you practical, professional training and enables you to study critical analysis in the fields of policing, security, corrections, crime prevention and community safety, as well as various paleographic fields.

Combined courses
A combined course allows you to undertake complementary studies in both degrees while exploring particular areas of interest to you. For example, combining an arts degree with a law degree enhances your understanding of the context in which the law operates. You can choose to study areas such as history, sociology, philosophy, politics or literature in addition to law studies. Also, combined courses are designed to allow you to complete both courses in as little as four or five years, which is quicker than completing one degree followed by the other.
Bachelor of International Studies/Bachelor of Commerce

This specialist degree allows you to combine complementary majors in international studies and commerce. With an international orientation you will be expected to make a commitment to an internship with an overseas organisation, or a period of study at an overseas university, or to participate in an in-country language program.

- Students enrolled in this combined course will be required to undertake units of study at both the Geelong Waurn Ponds Campus and the Geelong Waterfront Campus.
- Cloud Campus only.

Bachelor of Laws/Bachelor of International Studies

There has been a pronounced internationalisation of the practice of law in the past decade. This course provides an international perspective, with students committing to study at an overseas university or taking up an internship with an overseas organisation.

- Students enrolled at the Geelong Waterfront Campus will be required to undertake some units at the Geelong Waurn Ponds Campus.
- Melbourne Burwood Campus and Geelong Waterfront Campus only.

Bachelor of Arts/Master of Arts (International Relations)

This unique combined course examines key contemporary issues in a global context, developing your skills in policy analysis and providing a systematic understanding of the threats to peace and security, and the global forces shaping political, social and economic life.

- The program also offers study abroad and internship programs, giving you the opportunity to gain international and professional experience.

Bachelor of Arts/Master of Teaching (Secondary)*

Mentor, guide and educate young adults with this joint qualification. Combine teaching and the arts, and go on valuable school placements to help you discover your interests as a future teacher.

- This course combines a postgraduate teaching qualification with undergraduate discipline studies in the arts relevant for teaching.
- The fast-tracked postgraduate level of study means that you are ready to teach after just four years* of study. This postgraduate level initial teacher education degree gives you the edge to get ahead in the employment market.

Professional recognition

Our combined secondary education courses are accredited by the Victorian Institute of Teaching (VIT) as an initial teacher education program against the Australian professional standards for teachers.

- Graduates intending to apply for registration in Victoria should carefully check all requirements relating to this process specified at vit.vic.edu.au.
- Not all majors and secondary teaching specialities are available at Cloud Campus.
- Cloud Campus is not available to international students.
- Following successful completion of the first three undergraduate levels of the course, students with a Weighted Average Mark (WAM) above 60 progress to the postgraduate level of the course. Students cannot progress to the postgraduate level of study without completing all 24 credit points at undergraduate level. A WAM of less than 60 results in an alternative exit from D303 with award A300 Bachelor of Arts.

deakin.edu.au/teaching

How do I apply?

Applying for your undergraduate degree at Deakin couldn’t be easier. Most applications are straightforward and easy to complete. Follow these steps to make the process as simple as possible. Visit deakin.edu.au/courses/how-to-apply.

What type of applicant am I?

Recent secondary education applicant
- Current Year 12 student
- Completed Year 12 in 2017 or 2016
- Interstate Year 12 student
- New Zealand school leaver
- International Baccalaureate (IB) student
- Gap-year student

Non-Year 12 applicants
- Applicants with higher education study
- Applicants with VET study
- Applicants with work and life experience

For more information on admission requirements and the type of applicant you are, visit deakin.edu.au/courses/how-to-apply. You can also call us on 1800 693 888 to discuss your options.

Contact us

There are many different ways you can get into an undergraduate course at Deakin. No matter your ATAR or education history, we’re here to help you find your path to Deakin. Give us a call on 1800 693 888 to discuss your options or email myfuture@deakin.edu.au.

You can also try our Pathway Finder tool and explore the course page carefully (online at deakin.edu.au/course or in this booklet). For recent secondary education applicants, in addition to the listed ATAR, some courses may require you to have studied a prerequisite subject/s, while others may also require you to provide extra materials, such as a portfolio or personal statement.

Selection requirements for non-Year 12 applicants may include personal statement, entrance tests as specified, e.g. STAT (Special Tertiary Admissions Test), or the non-academic assessment (for all applicants to teaching courses), supplementary information form, audition, interview or folio presentation.

Apply

Depending on your course, our flexible trimester system means you may be able to start in Trimester 1 (March), 2 (July) or 3 (November).

If you’re a recent secondary education applicant, applications for Trimester 1 should be made through VTAC (vtac.edu.au).

If you are a non-Year 12 applying for Trimester 1 for one Deakin course only, you may apply direct to Deakin.*

Applications for Trimester 2 or 3 should be made directly to Deakin via the applicant portal at applicantportal.deakin.edu.au.

### Associate Degree of Arts | A250

- All applicants must meet the minimum English language requirements.
- A senior secondary certificate of education, or
- A certificate 1, or
- Other evidence of academic capability judged to be equivalent, including completion of or enrolment in a vocational education and training course and/or relevant work or life experience.

### Bachelor of Arts (Honours) | A400

**APPLICATION REQUIREMENTS:** Applicants must have completed the requirements for the Bachelor of Arts undergraduate degree or equivalent, and have results that indicate they are capable of undertaking an honours program in their undergraduate major. Students must have completed a major in the discipline or interdisciplinary area in which they wish to specialise in the honours course. Entry is based on a number of factors, including an average grade of distinction or high distinction in the Bachelor of Arts, particularly in the discipline in which they want to study honours, and the availability of supervision.

### Bachelor of Arts – Advanced (Honours) | A410

**Entry is based on a minimum Australian Tertiary Admission Rank (ATAR) of 80 or equivalent in the Victorian Certificate of Education (VCE) or its equivalent, with pre-requisite units 3 and 4; a study score of at least 25 in English ESL (English as an additional language) or 20 in English other than ESL.

### Bachelor of Arts/Bachelor of Commerce | D313

- VCE units 3 and 4 – a study score of at least 20 in English other than ESL or 25 in English ESL.
- Entry is based on a minimum Australian Tertiary Admission Rank (ATAR) of 80 or equivalent in the Victorian Certificate of Education (VCE) or its equivalent, with pre-requisite units 3 and 4; a study score of at least 25 in English ESL (English as an additional language) or 20 in English other than ESL.

### Bachelor of Arts – Chinese/Bachelor of (Cyber) Security | D317

- Entry is based on a minimum Australian Tertiary Admission Rank (ATAR) of 80 or equivalent in the Victorian Certificate of Education (VCE) or its equivalent, with pre-requisite units 3 and 4; a study score of at least 25 in English ESL (English as an additional language) or 20 in English other than ESL.

### Bachelor of Arts/Bachelor of Laws | D312

- VCE units 3 and 4 – a study score of at least 25 in English ESL.
- Entry is based on a minimum Australian Tertiary Admission Rank (ATAR) of 80 or equivalent in the Victorian Certificate of Education (VCE) or its equivalent, with pre-requisite units 3 and 4; a study score of at least 25 in English ESL (English as an additional language) or 20 in English other than ESL.

### Bachelor of Arts/Bachelor of Science | D311

- VCE units 3 and 4 – a study score of at least 20 in English other than ESL or 25 in English ESL.
- Entry is based on a minimum Australian Tertiary Admission Rank (ATAR) of 80 or equivalent in the Victorian Certificate of Education (VCE) or its equivalent, with pre-requisite units 3 and 4; a study score of at least 25 in English ESL (English as an additional language) or 20 in English other than ESL.

### Bachelor of Criminology/Bachelor of Security | D380

- VCE units 3 and 4 – a study score of at least 20 in English other than ESL or 25 in English ESL.
- Entry is based on a minimum Australian Tertiary Admission Rank (ATAR) of 80 or equivalent in the Victorian Certificate of Education (VCE) or its equivalent, with pre-requisite units 3 and 4; a study score of at least 25 in English ESL (English as an additional language) or 20 in English other than ESL.

### Bachelor of Criminology/Bachelor of (Cyber) Security | D380

- Entry is based on a minimum Australian Tertiary Admission Rank (ATAR) of 80 or equivalent in the Victorian Certificate of Education (VCE) or its equivalent, with pre-requisite units 3 and 4; a study score of at least 25 in English ESL (English as an additional language) or 20 in English other than ESL.

### Bachelor of Criminology/Bachelor of Psychological Science | D990

- VCE units 3 and 4 – a study score of at least 25 in English other than ESL or 30 in English ESL.

---

**Honours**

If you value intellectual challenge, independent thinking, a pathway to research degrees and increased career opportunities, consider studying an Honours year. Honours is a specialised year of study enabling you to develop an in-depth knowledge of a particular discipline through research, allowing you to focus on what you’re really passionate about.

**Note:**

- The 2018 indicative Commonwealth Supported Place (CSP) fee is based on a typical enrolment for an Australian domestic student enrolled in two trimesters of full-time study, or 8 credit points, unless otherwise indicated. This fee should be used as a guide only and is subject to change.
- The 2019 annual course fee for international students indicates the tuition fee for two trimesters of full-time study, or 8 credit points, unless otherwise indicated. This fee should be used as a guide only and is subject to change for 2020. Visit deakin.edu.au/int-fees for latest information.
- IELTS is the International English Language Testing System (for international students only). The IELTS scores in the table above reflect the minimum overall score required, as well as the lowest score allowed for any band (overall scores/lowest band score).
- Recent secondary education applicants include Year 12 and Year 11 graduates.
- Not all major and secondary teaching specialist areas are available at the Cloud Campus.

**Eligibility**

To be eligible for the undergraduate component students must meet the minimum entry requirements for the Bachelor of Arts (D303). To proceed to the Master of Teaching (Secondary) students must earn a Weighted Average Mark (WAM) of 50 during their undergraduate studies. Additional requirements may apply.
