## NOTES:

(i) The indicative course fee for this course relates to students studying full time at the Deakin University Warrnambool Campus or the Geelong Wauran Ponds Campus. Students considering enrolling in the concurrent program offered through our TAFE partners should seek advice from Deakin on the Associate Degree component of the fees and charges and TAFE for the diploma fees and charges.

(ii) Students who enrol in units from Commerce or Management degrees will be required to undertake units of study at both the Geelong Wauran Ponds and the Geelong Waterfront campuses. For more information on the Associate Degree of Arts Business and Sciences visit the Deakin at your doorstep website.

## Course overview

The Deakin Associate Degree of Arts, Business and Sciences is a two year, full time (and part-time equivalent), 16 credit point program specifically designed for students who would benefit from a supported entry to tertiary study. The course provides flexible pathways into university and a guaranteed pathway into a range of Deakin degrees at the Warrnambool Campus or the Geelong Wauran Ponds Campus, or via off campus study. The Associate Degree may also be taken as a stand-alone, two year exit qualification.

The Deakin Associate Degree course seeks to:

- introduce students to the foundations of several disciplines (depending on student choice of study area)
- assist the development of learning skills necessary to be successful in a university environment
- facilitate the development of generic employment related skills relevant to a range of employment contexts
- provide support in order to ensure students make a successful transition to university study
- enable articulation into a Deakin degree if desired
- maximise the opportunities for rural and isolated students to access tertiary education

## Articulation

Students who successfully complete the Associate Degree are guaranteed entry\* into one of the

undergraduate degrees listed in the table below (this course entry under Target Awards and Degree Faculties) at the Warrnambool Campus or Geelong Waurm Ponds Campus or off-campus. Students will be eligible for credit transfer and recognition for any of the electives they have completed that are course-grouped to the target degree.

\*Please note that students wishing to articulate into the Bachelor of Education (Primary) must also undertake a STAT Test to ensure that they meet the numeracy standards specified by the Victorian Institute of Teaching.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## DETAILED COURSE RULES

### 1. Course offered at the Warrnambool Campus or the Geelong Waurm Ponds Campus

To qualify for the Associate Degree of Arts, Business and Sciences, students will be required to complete a minimum of 16 credit points, comprising the prescribed core units and elective units available at the Warrnambool Campus or the Geelong Waurm Ponds Campus.

Students must successfully complete:

1. Four credit points of core units in year 1, Trimester 1 and Trimester 2
2. Four credit points of elective units in year 1 (chosen from an approved selection of units offered at the Warrnambool Campus or the Geelong Waurm Ponds Campus)
3. At least four credit points at level one from their target degree, and
4. No more than four credit points at level two from their target degree\*

*\* students not intending to continue in a bachelor degree are recommended to take a 2 credit point Work Placement unit in the final trimester as part of the 4 credit points.*

Students may complete the award by undertaking all level one units across the two years.

Students who wish to qualify for a tagged award (see table below under Target Awards and Degree Faculties) will be required to complete at least 8 units from their target degree (at unit level one or two) in year two of the course. Students undertaking the Work Placement unit in a related discipline area may also qualify for a tagged award.

All students who anticipate articulation to a target degree will be advised to select elective units from their chosen target degree in order to comply with the appropriate course rules for that degree. Students must seek course advice prior to making this selection to ensure correct unit choice and pathway options.

Credit transfer and recognition:

The University aims to provide students with as much credit as possible for approved prior study or informal learning which exceeds the normal entrance requirements for the course and is within the constraints of the course regulations. Students are required to complete a minimum of one-third of the course at Deakin University, or four credit points, whichever is the greater. In the case of certificates, including graduate certificates, a minimum of two credit points within the course must be

completed at Deakin.

You can also refer to the Credit for Prior Learning (Credit Transfer) System which outlines the credit that may be granted towards a Deakin University degree.

## 2. Course offered in conjunction with a TAFE partner

The program offered with our TAFE partners requires students to enrol concurrently in the Associate Degree course and a relevant TAFE qualification (Diploma or Advanced Diploma). Deakin University will grant credit from these selected TAFE qualifications into the Associate Degree. Students who complete this pathway will be eligible to receive two awards –the Diploma or Advanced Diploma from the TAFE where they are enrolled and the Associate Degree through Deakin.

To qualify for the Associate Degree in Arts, Business and Sciences, students will be required to complete a minimum of 16 credit points, comprising the prescribed core units, Deakin units and a designated TAFE award.

Students must successfully complete:

1. Four credit points of core units in year 1, Trimester 1 and Trimester 2
2. A minimum of one and maximum of four credit points in year 2 from an approved selection of units. The number depends on the TAFE diploma being undertaken as they have differing credit arrangements.
3. The remaining credit points (of the total 16) are deemed to be the equivalent of the TAFE Diploma and credited to the Associate Degree.

Students may complete the award by undertaking all level one units across the two years.

Students who wish to qualify for a tagged award (see table below under Target Awards and Degree Faculties) will be required to have at least 8 credit points from their target degree (at unit level one or two) by the end of the course.

All students who anticipate articulation to a target degree will be advised to select elective units from their chosen target degree in order to comply with the appropriate course rules for that degree. Students must seek course advice prior to making this selection to ensure correct unit choice and pathway options.

# Diploma of Language

<b>AWARD GRANTED</b>	<b>DIPLOMA OF LANGUAGE</b>
<b>CAMPUS</b>	<i>Offered at Melbourne Burwood Campus, Geelong Waurin Ponds Campus, Off campus</i>
<b>DURATION</b>	<b>3 YEARS PART TIME</b>
<b>DEAKIN COURSE CODE</b>	<b>A225</b>
<b>NOTE</b>	<i>A major in Chinese is not available off campus</i>

## COURSE OVERVIEW

The Diploma of Language will be of interest to students for whom a systematic study of language is desirable in addition to their primary course of study. As language units must be studied sequentially the award will be completed part-time in up to three years, with students taking one language unit per trimester.

## IN-COUNTRY OPTIONS

The option exists to undertake second or third year units in-country over trimester 3. The six week programs are held in Oman (Arabic), China (Chinese) and Indonesia or Malaysia (Indonesian).

In addition to giving students language skills, participation in the program is a unique opportunity to practice the language with native speakers in its natural environment while studying it formally in a more structured classroom context. Since the in-country units are equivalent to one trimester or one year, they could potentially shorten the completion time of the Diploma.

Fees and charges

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

To qualify for the award of Diploma of Language, a student must successfully complete 8 credit points from the specified list of units below.

# Bachelor of Arts

<b>AWARD GRANTED</b>	Bachelor of Arts
<b>CAMPUS</b>	Offered at Melbourne Burwood Campus, Geelong Waurin Ponds Campus, Warrnambool Campus, Off campus
<b>DURATION</b>	3 years full-time or part-time equivalent
<b>CRICOS COURSE CODE</b>	012762C
<b>DEAKIN COURSE CODE</b>	A300

## COURSE OVERVIEW

As a Deakin Arts graduate you will develop some of the most important skills a student can gain at university. You will become expert at managing knowledge and communicating information and develop skills of critical analysis and systematic thinking.

The Bachelor of Arts provides the opportunity to develop an imaginative understanding and appreciation of the theory and practice of the social sciences, humanities and arts. It will also give you: an enhanced cultural sensitivity; skills and knowledge relevant to employment in the modern workforce; and an understanding of information technology tools and systems used in learning and employment.

The degree is structured in a way that offers maximum flexibility. It gives you the opportunities to pursue your own interests and design courses of study that suit your needs. You may study particular areas in-depth or undertake a wide range of units.

You are required to complete at least one major sequence chosen from a variety of study areas including performing and creative arts, languages, history, media and communication, and sociology. Up to one-third of the course may be taken outside the Faculty of Arts and Education, providing even greater possibilities for interesting course combinations.

## Pathways

This course has pathways from more than 20 Institutes of TAFE and universities in Melbourne and regional Victoria. Credit transfer and recognition is normally available from TAFE and university diplomas and advanced diplomas in arts, business, management, and humanities disciplines. Students with graded advanced diplomas from TAFE or equivalent will be eligible for up to 12 credit points of electives. Students with graded diplomas or equivalent from TAFE or equivalent will be eligible for up to 8 credit points of electives. There is also a pathway from Deakin University's Associate Degree of Arts, Business and Sciences to this course with up to 16 credit points depending on units taken.

On completion of this course you may choose to apply for an Honours degree or postgraduate study. These studies normally provide professional qualifications directed to a particular career. Students must have completed a major in the discipline or interdisciplinary area in which they wish to specialise in the honours course. Entry is based on a number of factors, including an average grade of Distinction or High Distinction in the Bachelor of Arts particularly in the discipline in which they want to study Honours and the availability of supervision. Further honours information.

## Transition to University study

The faculty offers two units ASC160 Introduction to University Study and ALW117 Writing for Professional Practice, that are specifically designed to ease the transition into university study. New students are encouraged to enrol in one or both of these units in their first year.

## Prerequisites

Since several disciplinary studies are cumulative, in that knowledge, technical competencies, and, study and research skills develop across units, there are prerequisites that direct students to take some units before others. Students must seek advice from a course adviser before enrolling in units for which they do not have prerequisite or recommended units.

## Multi-level offerings

A number of units within the course are offered at more than one level, with appropriate adjustments to assessment requirements. Students who pass a unit at a particular level cannot enrol in the same unit at another level. For example, ASS205/ASS305 Anthropology of Poverty and Development is offered at levels 2 and 3. If students pass this unit at level 2, then they cannot enrol in it again at level 3.

## Assessment

Assessment within the award of Bachelor of Arts varies from written assignments and examination to practical and technical exercises and performance. In some units assessment may also include class participation, online exercises, workshop exercises, and tests.

## Cross-institutional arrangements

Continuing Deakin students may apply to study units offered by another Australian tertiary institution and have them credited to their Deakin University degree. Further information is available from Arts and Education Student Support and Enrolment Enquiries.

## Fees and charges

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

To qualify for the Bachelor of Arts a student must complete 24 credit points of study including:

- an approved Arts major sequence of at least 8 credit points from the campus at which you are enrolled
- no more than 8 credit points taken outside the course-grouped units for the BA (in effect this means that up to 8 credit points may be taken outside the recognised Faculty of Arts and Education major sequences)
- no more than 10 credit points at level 1
- at least 14 credit points at level 2 or above
- 4 credit points at level 3

*Note: EAD103 Independent Study and EAD105 Applied Community Project are offered as electives for students enrolled at the Warrnambool Campus only.*

## Details of major sequences

### Animation - unit set code MJ-AU00011

The Animation major sequence offers the opportunity to develop a moving image, graphic and animation practice within the expanding digital domain. Students will explore digital animation production and publication options that include web, CD and DVD publication possibilities, and develop the skills to work with and manage such technologies effectively. Students are encouraged to develop skills in all aspects and types of animation production and learn to write and think analytically about such creative work.

On completion of the Animation major sequence students should have the following skills:

- an ability to implement and manage all stages of production of a professional digital animation project.
- an ability to develop a unique production path for a digital project for a variety of publication platforms.
- an ability to think and write effectively about innovative moving image animation work and digital culture.
- an ability to use advanced digital image production technologies.
- an ability to work in collaborative and team settings on graphic moving image tasks.
- an ability to work efficiently to deadlines in an industrial setting.

Interested students should contact Arts and Education Student Support and Enquiries on their campus for further information.*

## Anthropology - unit set code MJ-A000007

Anthropology is the study of the lives of people in a range of societies. This major sequence investigates kinship and family; gender; economic and political anthropology; work and consumption; religion, ritual and witchcraft; person, society and cosmos; death; the impact of and problems caused by expanding European nations on the peoples of Africa and the Pacific; globalisation; processes of change in the Third World; international tourism; festivals; medical anthropology; communal conflict; ethnicity; international migration and doing fieldwork.

On successful completion of the Anthropology major sequence, students should have the following skills:

- a detailed understanding of cultural diversity
- an appreciation of the full array of globalising forces at work in the contemporary world
- an ability to reflexively relate the cultural realities of other societies to their own social experience
- an informed and refined critical consciousness in regard to social life.

**Arabic - unit set code MJ-A000029**

The Arab countries of the Middle East and North Africa form an area of critical global importance having broad strategic, economic, religious and cultural influence. The Middle East comprises the fourth largest trading block among Australia's overseas trading partners, with the total value of Australia's trade with the Middle East more than doubling in the last decade.

The major sequence provides for the development of communication skills in modern standard Arabic and language fluency is enhanced through contextual knowledge of Middle Eastern history, culture and society. Students taking Arabic are encouraged to take complementary units in the relevant area studies in order to obtain sound background knowledge of the cultural, geopolitical and historical issues relevant to the regions where Arabic is spoken.

**The following units complement the Arabic major sequence:**

AIE153 Introduction to the Middle East (B, G, X)

AIE154 The Modern Middle East (B, G, X)

AIE255 Middle East Politics (B, G, X)

**In-country study**

Competitive in-country scholarships are available to assist students in study in the Middle East. For further information please contact the experiential learning officer on telephone 03 5227 2693.

Students undertaking the Arabic major or the Language and Culture Studies major (referred to later) are encouraged to study abroad during the trimester 3. Intensive in-country units provide opportunities for students to increase their level of linguistic proficiency and cultural understanding. Deakin has well-established links with a number of institutions in Syria, Jordan, Oman and Tunisia. These relationships form an important feature of the Arabic program.

In-country units are offered at both second and third-level levels, and students who successfully complete these units will receive 2 credit points towards the major sequence.

It is possible, therefore, for students to complete the major sequence in two levels. This is an excellent way of accelerating completion of the major. Not only is the in-country experience a unique part of the language study, the fact that students will have completed the major in two levels gives them flexibility in the third level to take additional units.

The Arabic major sequence is offered at two levels; beginner's level (little or no prior knowledge of the language) and post-level 12 Arabic.

On successful completion of the Arabic major sequence, students should have the following skills:

- an ability to read, comprehend and respond correctly in writing in Arabic
- an ability to listen, comprehend and communicate orally with correct grammar, pronunciation and intonation in Arabic
- an ability to understand oral interpreting and written translation tasks, from English into Arabic and vice versa, at an advanced level (post-level 12 level)
- an ability to use the language to research and understand various cultural practices in the Arab world.

## Childrens Literature - unit set code MJ-A000063

In the Children's Literature major sequence, students explore a wide variety of literary and popular texts, from picture books for the very young and novels and films intended for young adults, to adult texts relevant to young people's literary education. The sequence focuses on how these texts imagine and convey ideas and values, and on the interplay between texts for young audiences and the social and cultural contexts in which they are produced and received. The sequence caters to students interested in children's literature as a prominent domain of literary production, and is of particular relevance to those who intend to work with children and young people as primary or secondary teachers and librarians, and those who wish to produce texts for young people. Units aim to equip students with critical, analytical and research skills which will enable them to critique texts for children and young people and to recognise the socialising agendas which inform them. On successful completion of the major, students should have the following skills:

- an ability to recognise and critique the language and narrative strategies whereby texts for children and young people position readers
- an ability to read texts for children and young people in relation to cultural discourses and practices
- an ability to use critical terminology where appropriate, and to draw upon knowledge of relevant aspects of literary, visual and cultural theory
- an ability to articulate how various genres and forms of texts shape the communication of ideas and values to young audiences

Students must take 5 core units, and 3 selected units from listing below, of which at least 1 should be at level 3

## Chinese - unit set code MJ-A00028

Standard Chinese, commonly known as Mandarin Chinese, is a major language of the world. It is the official language in the People's Republic of China, Taiwan and Singapore and widely used in community groups in Hong Kong, South-East Asia, North America and Australia. Chinese is also one of the five official languages of the United Nations. China is Australia's biggest trading partner. Students studying Chinese are encouraged to select complementary units in Asian Studies in order to gain a sound background knowledge of the cultural, geopolitical and historical issues relevant to the regions where Chinese is spoken. Chinese is available at beginners, post-level 12 and advanced (background speaker) levels.

On successful completion of the Chinese Language major sequence, students should have the following discipline-specific skills:

- an ability to read, comprehend and respond correctly in writing in Chinese
- an ability to listen, comprehend and communicate orally with correct grammar, pronunciation and intonation in Chinese
- an ability to correctly interpret and translate from English into Chinese and vice versa
- an ability to function effectively and in an appropriate manner in the Chinese culture.

**Criminology - unit set code MJ-A000045**

Criminology is an interdisciplinary field that draws upon law, sociology, history, psychology and other disciplines to address the substantive issues of crime, security, policing, and punishment. Criminology is also concerned with the social processes that shape criminalisation, control and security; the institutions of criminal justice; and the various theories used to explain crime, criminalisation and criminal justice practices. In this way criminology combines critical theory with an applied focus on the analysis of the policies, the practices of criminal justice professions, and other participants (for instance victims), and the shifting role of the state in the government of crime. Major issues addressed include the principles and practices of the criminal justice system, historical and contemporary shifts in the nature, organisation and practices of policing at local, state, national and transnational levels, the impact of and responses to terrorism and transnational crime, how deviant identities are formed and regulated, the role of law in the control of behaviour, and different practices for conducting criminological research.

On successful completion of the Criminology major sequence, students should have the following skills:

- an understanding of the key theoretical traditions and debates within criminology
- an ability to analyse key theoretical debates
- an ability to apply theoretical knowledge to the substantive issues of crime, criminal justice, deviance, security and policing
- an ability to analyse contemporary issues of terrorism, transnational crime drugs and policing in a theoretical informed manner
- the capacity to identify the appropriateness, strengths and weaknesses of the different research methods applied to the study of a specific criminological issue
- an ability to present criminological ideas and analyses before fellow students
- knowledge of the range of sources of criminological ideas information, including electronic information from government and non-government sources.

The Criminology major sequence comprises 8 credit points including 4 core units and 4 elective units. Students to ensure that they complete a minimum of 2 credit points at each of the levels 1, 2, and 3.

## Dance - unit set code MJ-A000025

*Offered to continuing students only from 2013 except for D347 students and students enrolled in Bachelor of Creative Arts courses*

Each unit within the Dance major sequence develops practical skills in contemporary technique and choreography and interrelates this learning with theoretical studies in dance history, analysis and aesthetics. There is an ongoing development of technique, craft, and theory over the three level levels, with class material becoming increasingly specialised and challenging as students progress. Skills in oral and written communication, personal and group management, reflection and decision-making are developed over the three level levels in tandem with the development of physical, compositional and research skills. This learning intensifies at level 3 with production and research project units which not only place students' work in a public and professional context, but also focus on the development of specialised skills in the associated technical, production, marketing and administration areas.

On successful completion of the dance major sequence, students should have the following discipline-specific skills:

- an ability to demonstrate high-level contemporary dance technique
- an ability to demonstrate well-developed independent choreographic practice
- an ability to think and write analytically about dance and its values
- an ability to manage artistic and technical aspects of dance promotion
- an ability to learn and apply safe dance practices for maintenance of physical and personal wellbeing

## Film Studies - unit set code MJ-A000046.2

The Film Studies major sequence aims to develop students' creative and critical thinking while providing a practical and theoretical grounding in the production and application of film, video and television. The sequence puts these media in the historical and social context of the institutions, technologies and artistic and personal forces from which they have emerged.

In level 1, students learn formal and theoretical concepts through analysis of case studies and a series of projects which demand individual input, team collaboration, as well as recording, filming, direction, and post-production techniques. Collaborative skills are extended in level 2 through investigation of team management, narrative, representation, editing, and audiences, as well as the relationship between the actor, director, producer and exhibitor.

Students also undertake case studies in genre and the creative practices and aesthetic approaches of significant practitioners or movements. The final level provides opportunities for students to develop unique and individual creative practices through units including Documentary Production Practice which explores the use of actuality in narrative, as well as the Independent Production Practice, which explores non-representational, contemplative and oppositional structures, together with strategies that rework or synthesise conventional forms.

## History - unit set code MJ-A000023

In History, students explore the historical precursors of the modern world: the forces and great events of especially the nineteenth and twentieth centuries, and the ways historians have interpreted them. Among the themes given special attention are war and peace, modernisation and social change, colonialism, nationalism and internationalism, gender in history and the Holocaust. In focusing on such themes, students can choose a sequence from units which cover American, African-American, Asian, Australian and European histories. All units aim to stimulate and challenge students to come to understand past human behaviour and to acquire critical, analytical and research skills. Students should note that not all units are currently available at all campuses.

On successful completion of the History major sequence, students should have the following

discipline-specific skills:

- an ability to illustrate the range of opinion between historians on the subject and how and why historians' interpretations have differed
- an ability to distinguish between different types of written material in terms of their function, authorship and intention
- an ability to place a primary source document in its contemporary framework
- an ability to initiate and conduct interviews and respect the interviewee as a source
- an ability to be sensitive to the need for appreciation of cultural and gender differences
- an ability to reflect on the ways in which we construct the past.

## Indonesian - unit set code MJ-A000030

Indonesia is Australia's nearest Asian neighbour and the fourth most populous country in the world. There are more than 220 million people who speak Bahasa, Indonesia, the national language.

Indonesia is increasingly important to Australia economically, politically and culturally: knowledge of Indonesian language and culture is a desirable asset in many fields. Student who have completed university study of Indonesian typically find employment in business, government service, and a wide range of service industries including travel, tourism and communication.

Additionally, Bahasa Indonesia is offered by many Australian schools and an ability to teach the language is a sought-after qualification for primary and secondary teachers. The Indonesian language program gives students a high level of mastery of spoken and written Bahasa Indonesian and also provides a thorough understanding of Indonesian culture and way of life.

### In-country study

The Faculty offers the opportunity for students to undertake in-country studies of Indonesian at third year levels. Students who successfully complete these units will receive credit towards the major sequence. It is possible, therefore, for students to complete the major in two levels. This is an excellent way of accelerating completion of the major. Not only is the in-country experience a unique part of the language study, the fact that students can complete the major before their third level also gives some flexibility in the third level to take additional units.

On successful completion of the Indonesian language major sequence, students should have the following skills:

- an ability to read, comprehend and respond correctly in writing in Indonesian
- an ability to listen, comprehend and communicate orally with correct grammar, punctuation and intonation in Indonesian
- an ability to read and interpret written Indonesian
- an ability to read, comprehend, apply and synthesise original Indonesian sources
- an ability to compare and contrast Indonesian and Australian society

To obtain a major sequence in Indonesian, students must complete 8 credit points. There are two possible pathways to do this, beginner's and post-level 12.

## Journalism - unit set code MJ-A000014

This major sequence provides students with the skills and knowledge to become qualified journalists in the broadcast and print media. Initially, studies focus on the mass media and the extent to which journalists live up to the ethical standards set both by their profession and the expectations of the public. Comparative studies focus on the role of journalists and the news media in different political systems and cultures. Students will gain an understanding of the theoretical and practical elements of radio and television journalism, and the role radio plays as a communication medium. The laws of defamation and other legal constraints to which the profession of journalism is subject are examined in the final level. Students will also develop research techniques, practical skills and an understanding of the methods and techniques required for specialist writing. The writing component within the course is intensive, to bring students' work to a standard that can be published in a daily newspaper or mainstream magazine.

On successful completion of the Journalism major sequence, students should have the following skills:

- an ability to write in academic style with adequate referencing;
- an ability to identify, research, write and construct stories suitable for print, broadcast and online media
- an ability to interview for print, broadcast and online media and select material for inclusion in stories
- an ability to analyse the social role of journalism both nationally and internationally and identify the theoretical issues raised by news, current affairs and feature publications and programs
- an ability to appreciate the role of the production process in any media product
- an ability to work in teams and to develop presentation skills in a group setting.

Students must complete 8 credit points from the list below:

### Literary Studies - unit set code MJ-A000013

The Literary Studies major sequence is interdisciplinary and theoretical in orientation. The units focus attention on literary texts in the contexts of their production and reception. Insights from anthropology, philosophy, psychology, history and linguistics form part of this process. There are opportunities for creative writing alongside critical analysis. Texts studied range from classical Greek drama and Shakespearian plays to recent world fiction and poetry.

On successful completion of the Literary Studies major sequence, students should have the following discipline-specific skills:

- an informed ability to read texts of a wide variety
- an ability to write creatively as an extension of literary studies texts
- an ability to conduct a comparative analysis of text/culture relationships
- an ability to explain the intercultural and cross-cultural forces in human society and history in so far as they are reflected in literature
- an ability to understand and apply methodologies of contemporary literary criticism and theory
- an ability to critically appreciate the nature of disciplinary knowledge in Literary Studies
- an ability to reflect upon different theoretical positions in relation to literary and non-literary texts.

### Middle East Studies - unit set code MJ-A000053

A major in Middle East Studies will give students a comprehensive understanding of the events and issues shaping the region. There will be emphasis on both historical and contemporary issues relevant to the analysis of the Middle East as a regional system, as well as its place in the international system.

A particular stress will be placed on the changing role of the United States in the Middle East since the end of the Cold War and its push to reshape the region's political landscape according to American national interests. Several of the endemic conflict situations that exist in the Middle East will be examined throughout the sequence, including the War on Terror; the invasion and occupation of Iraq, the Israel-Palestine impasse; the 2006 Israel-Lebanon crisis; Iran's nuclear ambitions, and the role of 'rogue states'.

On successful completion of the Middle East Studies sequence, students should have the skills and capacities to:

- comprehend and critically analyse debates in relation to the Middle East
- understand the organisation of government in the Middle East and North Africa
- communicate clearly, in written and oral form, about the issues of the Middle East
- understand and explain the principles that inform political action at local, national and global levels in relation to the region
- articulate a coherent argument in response to set topics
- identify, understand and analyse political ideas and arguments

## Photography - unit set code MJ-A00049

The Photography major sequence is based around creative, critical and professional practice. Students can choose to develop their artistic, academic or professional aspirations.

Level 1 introduces students to the basics of photographic techniques and practice and to the history of photography with respect to Australian and international artists. Using analog and digital technologies, students explore the uses of referent-based and non-referent based images as social and cultural artefacts.

Level 2 introduces a range of professional analog and digital photographic formats, darkroom and studio environments as well as the application of photographic imagery in virtual and collaborative environments at a global level. Students also engage in the discourse that surrounds contemporary photographic practice.

Level 3 introduces students to a range of alternative analog and digital photographic formats and their application in creative practice. Students are strongly encouraged to experiment, research and develop their own conceptual and aesthetic sensibilities. The work undertaken at this level is applicable to exhibition, installation, multimedia, and collaborative productions and provides a strong basis for further postgraduate studies and professional practice.

### Politics and Policy Studies - unit set code MJ-A00005

In Politics and Policy Studies, students will examine issues of power and authority through studies of policy, institutions and political movements. Students will also be introduced to the political values, ideas and ideologies that orient political action. Throughout the sequence of units, students will be encouraged to understand contemporary political problems at local, national and global levels. Key themes include democracy, citizenship, globalisation, risk, environment, gender and religion. Our units are intended to encourage student to make better sense of the world in which they live and understand the current social and political challenges they face. Central is a concern to understand how Australian and global institutions ought to respond to complex policy problems in an era of globalisation and rapid change.

On successful completion of the Politics and Policy Studies sequence, students should have the skills and capacities to:

- comprehend and critically analyse political issues and policy debates
- identify, understand and analyse political ideas and arguments
- understand and explain the principles that inform political action at local, national and global levels

- understand the organisation of government in Australia and other countries
- apply key political concepts to contemporary debates and policy issues
- communicate clearly, in written and oral form, about political issues and policy options.

## Psychology - unit set code MJ-H000008 - available to continuing students only

Students enrolled in a Bachelor of Arts may undertake a major sequence in psychology offered by the Faculty of Health as a major sequence within their BA degree.

The Psychology major sequence is course-grouped for the Bachelor of Arts, that is, the units do not count towards the eight non-course-grouped units able to be taken outside the Faculty.

Students intending to become psychologists, however, must take four levels of academic study (three levels of undergraduate study, including ten units of Psychology, plus either a level-4 Honours in Psychology or the level-4 Graduate Diploma of Psychology). The 10-credit-point undergraduate Psychology sequence consists of two units at level 1, HPS111 and HPS121, five units at level 2, HPS201, HPS202, HPS203, HPS204 and HPS205 plus three units at level 3, HPS301, HPS307 and HPS308.

Students may also choose to take a limited sequence in psychology of 8 credit points (depending on the requirements of their course). These sequences are designed as terminal studies in psychology to

complement other studies within an award. They do not meet the requirements for entry into fourth-level studies in psychology, nor will they lead to professional qualifications in psychology. Students may also choose to take individual elective units in psychology, if they have the relevant prerequisites.

The 8-credit point sequences normally consist of two units at level one, HPS111 and HPS121, two or three units at level 2, selected from HPS202, HPS203, HPS204 and HPS205, and two or three units at level 3, selected from HPS302, HPS303, HPS304 and HPS307, HPS308 and HPS395. Students wishing to take alternative psychology units must seek approval from the School of Psychology.

## Professional and Creative Writing - unit set code MJ-A00062

This major sequence provides students with the qualities and attributes that will enable them to work in specialised creative writing fields, and also transfer writing/editing skills across relevant work environments. Initially, studies focus on the craft of creative writing and redrafting, with research and analysis of a specific writing project. At the second level, students will research, develop and workshop

materials to final draft in a range of forms selected from fiction, creative nonfiction, scriptwriting, poetry, professional writing and editing. At the final level, students will work at a greater depth on two writing/editing projects. The writing major sequence is intensive, and incorporates participation in peer workshops. Readings are integral and provide theoretical and practical studies of models of writing at all levels. In all writing and editing units, the emphasis is on publication and/or the achievement of professional standards.

On successful completion of the Professional and Creative Writing major sequence, students should have the following skills:

- an ability to identify, research, write and redraft stories in appropriate formats for print and/or online publication and/or performance
  - an ability to analyse the techniques, craft and associated critical and creative issues in writing/editing
  - the capacity to engage with peer and industry workshops, and professional networks.

## Bachelor of Arts (Psychology)

<b>AWARD GRANTED</b>	Bachelor of Arts (Psychology)
<b>CAMPUS</b>	Offered at Melbourne Burwood Campus, Geelong Waurm Ponds Campus, Warrnambool Campus, Off campus
<b>DURATION</b>	3 years full-time or part-time equivalent
<b>CRICOS COURSE CODE</b>	077384J
<b>DEAKIN COURSE CODE</b>	A301
	<i>New course commencing 2013.</i>

### COURSE OVERVIEW

The Bachelor of Arts (Psychology) combines research-based and professional studies in psychology with broad studies in the liberal and creative arts, and provides you with opportunities to develop skills of critical and systematic thinking; an imaginative understanding and appreciation of the theory and practice of the social sciences, the humanities or the arts; and enhanced cultural sensitivity and understanding through genuine reciprocity of values.

The course develops capabilities inherent in interpreting sources of knowledge, and develops the capacity for quantitative and qualitative analysis, and the capacity for critique and creative thinking in various arts disciplines. At the same time, you will develop an understanding of psychology as a scientific discipline and appreciate the role it plays within society as a whole.

In the Bachelor of Arts (Psychology) you will:

- be exposed to a contemporary integrative approach to the understanding of psychology
- recognise the importance of, and interrelationships between, biological, developmental, social, cognitive, and developmental factors
- understand the broad areas of psychology, including behavioural and clinical neuroscience, child and adolescent psychology, relationships and the psychology of groups, cognitive psychology, forensic psychology, and psychopathology
- acquire knowledge and competence in the theory and practice of psychological assessment with a range of clients
- acquire knowledge and competence in the design and delivery of empirically informed treatment programs for a range of clients
- understand the subject matter, concepts and techniques of selected arts, social sciences and humanities disciplines at internationally recognised levels and standards
- gain an awareness of ethical issues, social responsibility and cultural diversity in the arts and in psychological practice
- acquire cross-cultural and international awareness in order to take citizenship and leadership roles in local, national or international communities
- reflect on the experience of personal and professional practice in international and cross-cultural settings and have the capacity to act in professionalised settings responsibly, ethically and with integrity.

The psychology and arts sequences seek to develop in students the skills required to integrate, evaluate, and communicate knowledge; produce new knowledge through research and analysis; apply knowledge of theory and methodology into professional situations; and work successfully both independently and in teams. Moreover, it strives to engage and enthuse students, instilling a lifelong passion for learning, coupled with the desire and confidence to become agents of positive change.

Professional recognition

Deakin's Bachelor of Arts (Psychology) is accredited by the Australian Psychology Accreditation Council (APAC) and enables you to undertake additional study in pursuit of professional registration.

### TRANSITION TO UNIVERSITY STUDY

The faculty offers two units ASC160 Introduction to University Study and ALW117 Writing for

Professional Practice, that are specifically designed to ease the transition into university study. New students are encouraged to enrol in one or both of these units in their first year.

## PREREQUISITES

Since several disciplinary studies are cumulative, in that knowledge, technical competencies, and study and research skills develop across units, there are prerequisites that direct students to take some units before others. Students must seek advice from a course adviser before enrolling in units for which they do not have prerequisite or recommended units.

## MULTI-LEVEL OFFERINGS

A number of units within the course are offered at more than one level, with appropriate adjustments to assessment requirements. Students who pass a unit at a particular level cannot enrol in the same unit at another level. For example, ASS205/ASS305 Anthropology of Poverty and Development is offered at levels 2 and 3. If students pass this unit at level 2, then they cannot enrol in it again at level 3.

## ASSESSMENT

Assessment within the award of Bachelor of Arts (Psychology) varies from written assignments and examination to practical and technical exercises and performance. In some units assessment may also include class participation, online exercises, workshop exercises, and tests.

## CROSS-INSTITUTIONAL ARRANGEMENTS

Continuing Deakin students may apply to study units offered by another Australian tertiary institution and have them credited to their Deakin University degree. Further information is available from Arts and Education Student Support and Enrolment Enquiries.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

To qualify for the Bachelor of Arts (Psychology), a student must successfully complete 24 credit points of study including:

- 10 credit points of Psychology units including the approved 10-credit-point Psychology major sequence
- 10 credit points of Arts units including an approved Arts major sequence of at least 8 credit points.
- 4 electives credit points from units offered by either Faculty or by another Faculty
- no more than 10 credit points at Level 1
- a minimum 4 credit points at level 3

**CRICOS COURSE CODE** 055182A

**DEAKIN COURSE CODE** A316

*For students commencing 2007*

## COURSE OVERVIEW

Deakin's Bachelor of Arts (Professional and Creative Writing) aims to provide the qualities and attributes that will enable you to work both in specialised fields, and across professional boundaries.

Initially you will undertake various forms of constructive, descriptive and narrative writing, progressing to editing, creative non-fiction and script writing as well as the traditional genres of poetry and fiction writing.

You will develop broadly based skills in the processes of writing and revision, and gain expertise and practical experience across a range of genres, styles and professional environments. In all writing and editing units, the emphasis is on publication or the achievement of professional standards.

The course will encourage you to explore new communication technologies both in the practical realms of professional communication and in cross-genre experimentation and creative production.

You will also learn the practical skills necessary to support, create and collaborate in work across a range of forms, in writing, film, drama and new media.

## TRANSITION TO UNIVERSITY STUDY

## COURSE OVERVIEW

Deakin's Bachelor of Arts (Public Relations) will provide you with a solid grounding in the principles and practice of public relations and communications theory, together with a broader general education in the social sciences and liberal arts.

You will be exposed to a range of models, skills and techniques necessary for the management of public relations in a wide variety of private and public organisations. You will study the social and behavioural sciences providing an understanding of human and societal behaviour. The course also examines communication research techniques, organisational planning, problem analysis, strategy development for effective communication within and between organisations and their associates, the counselling of management on trends in issues affecting communication policy, and the production of messages, their transmission and the evaluation of their effectiveness.

You will have the opportunity to establish links with professionals in the industry through the Public Relations Institute of Australia Young Practitioners' program.

## PROFESSIONAL RECOGNITION

The Bachelor of Arts (Public Relations) is accredited by the Public Relations Institute of Australia (PRIA).

## PATHWAYS

This course has pathways from more than 20 Institutes of TAFE and universities in Melbourne and regional Victoria. Credit transfer and recognition is normally available from TAFE and university diplomas and advanced diplomas in arts, business, management, and humanities disciplines. Students with graded advanced diplomas from TAFE or equivalent will be eligible for up to 12 credit points of electives. Students with graded diplomas or equivalent from TAFE or equivalent will be eligible for up to 8 credit points of electives. There is also a pathway from Deakin University's Associate Degree of Arts, Business and Sciences to this course with up to 16 credit points depending on units taken.

On completion of this course you may choose to apply for an Honours degree or postgraduate study. These studies normally provide professional qualifications directed to a particular career. Students must have completed a major in the discipline or interdisciplinary area in which they wish to specialise in the honours course. Entry is based on a number of factors, including an average grade of Distinction or High Distinction in the Bachelor of Arts particularly in the discipline in which they want to study Honours and the availability of supervision. Further honours information.

## TRANSITION TO UNIVERSITY STUDY

The faculty offers two units ASC160 Introduction to University Study and ALW117 Writing for Professional Practice which are specifically designed to ease the transition into university study. New students are encouraged to enrol in one or both of these units in their first year.

## COURSE OVERVIEW

Deakin's Bachelor of Arts (Media and Communication) is specifically designed to enable you to graduate with a 'multiskilled' qualification appropriate for a rapidly evolving area in which skills, careers and job markets are increasingly transient. In this course, you can choose subjects that suit your specific interests and professional ambitions. You are encouraged to situate those interests and ambitions in a wider critical context of ideas, issues and developments in the media and communication industries in general.

The course offers you a wide range of unit choice which helps develop practical and professional communication skills within a broad context of critique and analysis.

You will learn about major research and policy debates concerning the various communication industries and integrate practical techniques in communication with a strategic overview of the industry.

The course will teach you about the range of research methodologies used to study communication texts, audiences, institutions and processes, as well as how to evaluate the social and economic significance of new technologies and existing laws affecting communication.

Specialisations offered through this course include animation, film studies, visual communication design (formerly graphic design), journalism, media and communication, photography, public relations and visual arts.

## PATHWAYS

This course has pathways from more than 20 Institutes of TAFE and universities in Melbourne and regional Victoria. Credit transfer and recognition is normally available from TAFE and university diplomas and advanced diplomas in arts, business, management, and humanities disciplines. ## Details of Areas of Study

### Animation - unit set code MJ-AU00011

The Animation area of study offers the opportunity to develop a moving image, graphic and animation practice within the expanding digital domain. Students will explore digital animation production and publication options that include web, CD and DVD publication possibilities, and develop the skills to work with and manage such technologies effectively. Students are encouraged to develop skills in all aspects and types of animation production and learn to write and think analytically about such creative work.

On completion of the Animation sequence of units students should have the following skills:

- an ability to implement and manage all stages of production of a professional digital animation project.
- an ability to develop a unique production path for a digital project for a variety of publication platforms.
- an ability to think and write effectively about innovative moving image animation work and digital culture.
- an ability to use advanced digital image production technologies.
- an ability to work in collaborative and team settings on graphic moving image tasks.
- an ability to work efficiently to deadlines in an industrial setting.

### Film Studies - unit set code MJ-A000046

The Film Studies area aims to develop students' creative and critical thinking while providing a practical and theoretical grounding in the production and application of film, video and television. The sequence puts these media in the historical and social context of the institutions, technologies and artistic and personal forces from which they have emerged.

In level 1, students learn formal and theoretical concepts through analysis of case studies and a series of projects which demand individual input, team collaboration, as well as recording, filming, direction, and post-production techniques. Collaborative skills are extended in level 2 through investigation of team management, narrative, representation, editing, and audiences, as well as the relationship between the actor, director, producer and exhibitor.

Students also undertake case studies in genre and the creative practices and aesthetic approaches of significant practitioners or movements. The final level provides opportunities for students to develop unique and individual creative practices through units including Research in Production: Documentary which explores the use of actuality in narrative, as well as the Individual Production Practice, which explores non-representational, contemplative and oppositional structures, together with strategies that rework or synthesise conventional forms.

## Journalism - unit set code MJ-A000014

This area of study provides students with the skills and knowledge to become qualified journalists in the broadcast and print media. Initially, studies focus on the mass media and the extent to which journalists live up to the ethical standards set both by their profession and the expectations of the public. Comparative studies focus on the role of journalists and the news media in different political systems and cultures. Students will gain an understanding of the theoretical and practical elements of radio and television journalism, and the role radio plays as a communication medium. The laws of defamation and other legal constraints to which the profession of journalism is subject are examined in the final level. Students will also develop research techniques, practical skills and an understanding of the methods and techniques required for specialist writing. The writing component within the course is intensive, to bring students' work to a standard that can be published in a daily newspaper or mainstream magazine.

On successful completion of the Journalism sequence of units students should have the following skills:

- an ability to write in academic style with adequate referencing
- an ability to identify, research, write and construct stories suitable for print, broadcast and online media

- an ability to interview for print, broadcast and online media and select material for inclusion in stories
- an ability to analyse the social role of journalism both nationally and internationally and identify the theoretical issues raised by news, current affairs and feature publications and programs
- an ability to appreciate the role of the production process in any media product
- an ability to work in teams and to develop presentation skills in a group setting.

# Bachelor of Criminology

<b>AWARD GRANTED</b>	Bachelor of Criminology
<b>CAMPUS</b>	Offered at Geelong Waurrn Ponds Campus, Off campus
<b>DURATION</b>	3 years full-time or part-time equivalent
<b>CRICOS COURSE CODE</b>	057849B
<b>DEAKIN COURSE CODE</b>	A329

*Students enrolled in this course will be required to undertake units of study at both the Geelong Waurrn Ponds Campus and the Geelong Waterfront Campus.*

## COURSE OVERVIEW

Deakin's Bachelor of Criminology will give you practical, professional training and enable you to study critical analysis in the fields of policing, security, corrections, crime prevention and community safety, and various paralegal fields.

The course aims to produce graduates with the ability to engage in debates concerning crime and justice issues. You will be able to contribute to ongoing learning and reform within the criminal justice system, and contribute to enhancing citizenship and improved quality of life.

You will be provided with intensive theoretical and practical training in the area of criminology and associated disciplines.

The elective work placement/internship program gives you invaluable experience working with the local community.

## PATHWAYS

This course has pathways from more than 20 Institutes of TAFE and universities in Melbourne and regional Victoria. Credit transfer and recognition is normally available from TAFE and university diplomas and advanced diplomas in arts, business, management, and humanities disciplines. Students with graded advanced diplomas from TAFE or equivalent will be eligible for up to 12 credit points of electives. Students with graded diplomas or equivalent from TAFE or equivalent will be eligible for up to 8 credit points of electives. There is also a pathway from Deakin University's Associate Degree of Arts, Business and Sciences to this course with up to 16 credit points depending on units taken.

On completion of this course you may choose to apply for an Honours degree or postgraduate study. These studies normally provide professional qualifications directed to a particular career. Students must have completed a major in the discipline or interdisciplinary area in which they wish to specialise in the honours course. Entry is based on a number of factors, including an average grade of Distinction or High Distinction in the Bachelor of Arts particularly in the discipline in which they want to study Honours and the availability of supervision. Further honours information.

## TRANSITION TO UNIVERSITY STUDY

The faculty offers two units ASC160 Introduction to University Study and ALW117 Writing for Professional Practice which are specifically designed to ease the transition into university study. New students are encouraged to enrol in one of both or these units in their first year.

## PREREQUISITES

Because a number of disciplinary studies are cumulative in knowledge, technical competencies and/or study and research skills there are prerequisites which direct students to take some units before others. Students must seek advice from a course adviser before enrolling in units for which they do not have prerequisite or recommended units.

## MULTI-LEVEL OFFERINGS

A number of units within the course are offered at more than one level, with appropriate adjustments to assessment requirements. Students who pass a unit at a particular level cannot enrol in the same unit at another level. For example, ASL219/ASL319 Drugs, Crime and Society are offered at levels 2 and 3. If students pass this unit at level 2 they cannot enrol in it again at level 3.

## ASSESSMENT

Assessment within the award of Bachelor of Criminology varies from written assignments and/or examination to practical and technical exercises and performance. In some units assessment may also include class participation, online exercises, workshop exercises and tests.

## CROSS-INSTITUTIONAL ARRANGEMENTS

Continuing Deakin students may apply to study units offered by another Australian tertiary institution and have them credited to their Deakin University degree. Further information is available from Arts Student Support.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

To qualify for the Bachelor of Criminology a student must complete 24 credit points of study including:

# Bachelor of Creative Arts (Film and Television)

<b>AWARD GRANTED</b>	Bachelor of Creative Arts (Film and Television)
<b>CAMPUS</b>	Offered at Melbourne Burwood Campus
<b>DURATION</b>	3 years full-time or part-time equivalent
<b>CRICOS COURSE CODE</b>	077370D
<b>DEAKIN COURSE CODE</b>	A351

*New course commencing 2013.*

## COURSE OVERVIEW

The Bachelor of Creative Arts (Film and Television) comprehensively explores the theories, techniques and practices of screen production and screen culture. Film and television are multidisciplinary creative forms, so this course also provides access to the theory and practice of other creative arts including photography, animation and motion capture, drama, dance, visual arts and visual communication design. You can further tailor your own set of skills and knowledge by taking elective units from across the University.

The major discipline of film and television focuses on the development of the creative and analytic skills required for successful, professional and artistic practice. The degree comprises study in many areas including narrative genre and structure, documentary and experimental forms, team and project management, visual language, digital cinematography and editing, sound design, high definition broadcast TV studio production, scriptwriting and short filmmaking. You will be exposed to a range of historical, theoretical and critical approaches to the production, reception and analysis of global screen culture.

The course will prepare you for the opportunities and challenges of the media and creative industries by allowing cross-discipline collaboration, multi-skilling, internships, international study, and study in professional practice and entrepreneurship. The program draws upon the expertise of its staff – who include active film and television producers, and the industry – through special guests and casual academic staff.

## COURSE OVERVIEW

The Bachelor of Creative Arts (Photography) is a comprehensive program that will appeal to students who wish to develop clarity of personal vision as photographers in a diverse field of contemporary media. It is designed to refine critical understanding of the wider aspects of visual culture and to develop transferable skills.

Photography is a global, pervasive visual culture practiced in journalism, fine art, social media, fashion, advertising, cinema and web design, and serves diverse purposes in science, medicine, criminology, anthropology, travel and tourism.

This course provides the opportunity to immerse yourself in the theories, techniques and practices of the discipline of photography, whilst building pragmatic skills in a range of adjunct creative arts to connect theory and practice. You will gain an understanding of how photography enables us to comprehend and visualise our social and cultural formation.

The course will build your expertise and competencies in the areas of exhibition, portfolio creation, project management, visual communication and online collaboration. You will learn both chemical and digital imaging in diverse photographic formats in professionally equipped facilities and work alongside academics who are expert active media practitioners, and with visiting, special guest and casual academic staff. Collaboration across disciplines, and opportunities to undertake internships and international study enable you to develop multiple skills and expertise for professional practice and entrepreneurship, and prepare you for the opportunities and challenges of photography, media and the creative industries.

<b>DURATION</b>	3 years full-time or part-time equivalent
<b>CRICOS COURSE CODE</b>	077372B
<b>DEAKIN COURSE CODE</b>	A353

*New course commencing 2013.*

## COURSE OVERVIEW

The Bachelor of Creative Arts (Animation and Motion Capture) provides you with creative and analytical skills in all aspects and types of animation and motion capture production. Specialising in 2D animation, 3D animation and/or motion capture, you are able to develop your own interests and skills, as well as gain a broad understanding of moving image, graphic and animation practice. You will explore animation practices such as time lapse, pixilation, 2D stop motion (hand drawn, cut-out, ink on glass, silhouette and cell camera animation), 3D stop motion (claymation, model and object camera animation), computer graphic animation (virtual geometry, 3D modelling and character rigging), and motion capture techniques (motion capture direction, post production and 3D animation pipeline). You will also develop skills in motion graphics, effects and compositing across a range of genres. The degree draws upon the unique resources and infrastructure of the Deakin Motion.Lab, as well as the industry expertise of the Deakin Motion.Lab staff who provide motion capture services to Australian game development and animation companies.

On completion of the degree you should have the ability to:

- implement and manage all stages of production of a professional digital animation project
- develop a unique production path for a digital project for a variety of publication platforms
- think and write effectively about innovative moving image animation work and digital culture
- use advanced digital image production technologies
- work in collaborative and team settings on graphic moving image tasks
- work efficiently to deadlines in an industrial setting.

Motion capture is now an integral part of the animation, film making, special effects and games design production workflow.

## COURSE OVERVIEW

Deakin's Bachelor of Creative Arts (Graphic Design) enables you to develop practical and theoretical skills in visual communication design. This course offers a dynamic combination of contemporary design theory with specialised studio practices and practical outcomes in a variety of design disciplines. Deakin's Graphic Design program will give you the opportunity to gain digital technology skills and knowledge for professional practice in a specialised industry vocation or a broader role in the fields of culture and the arts. Final year students are introduced to theoretical knowledge important to positioning their own design practices in a global context. The Graphic Design program draws upon the expertise of its staff who are active practitioners in their fields, with industry, visiting, special guest and casual academic staff.

*Note: New course version from 2012.*

## COURSE OVERVIEW

Deakin's Bachelor of Creative Arts (Visual Communication Design) enables you to develop practical and theoretical skills in visual communication design. This course offers a dynamic combination of contemporary design theory with specialised studio practices and practical outcomes in a variety of design disciplines. Deakin's Visual Communication Design program will give you the opportunity to gain digital technology skills and knowledge for professional practice in a specialised industry vocation or a broader role in the fields of culture and the arts. Final year students are introduced to theoretical knowledge important to positioning their own design practices in a global context. The Visual Communication Design program draws upon the expertise of its staff who are active practitioners in their fields, with industry, visiting, special guest and casual academic staff.

## PATHWAYS

This course has pathways from more than 20 Institutes of TAFE and universities in Melbourne and regional Victoria. Credit transfer and recognition is normally available from TAFE and university diplomas and advanced diplomas in arts, business, management, and humanities disciplines. Students with graded advanced diplomas from TAFE or equivalent will be eligible for up to 12 credit points of electives. Students with graded diplomas or equivalent from TAFE or equivalent will be eligible for up to 8 credit points of electives. There is also a pathway from Deakin University's Associate Degree of Arts, Business and Sciences to this course with up to 16 credit points depending on units taken.

On completion of this course you may choose to apply for an Honours degree or postgraduate study. These studies normally provide professional qualifications directed to a particular career. Students must have completed a major in the discipline or interdisciplinary area in which they wish to specialise in the honours course. Entry is based on a number of factors, including an average grade of Distinction or High Distinction in the Bachelor of Arts particularly in the discipline in which they want to study Honours and the availability of supervision. Further honours information.

## TRANSITION TO UNIVERSITY STUDY

The faculty offers two units ASC160 Introduction to University Study and ALW117 Writing for Professional Practice which are specifically designed to ease the transition into university study. New students are encouraged to enrol in one or both of these units in their first year.

## PREREQUISITES

Because a number of disciplinary studies are cumulative in knowledge, technical competencies and/or study and research skills there are prerequisites which direct students to take some units before others. Students must seek advice from a course adviser before enrolling in units for which they do not have prerequisite or recommended units.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

<b>DURATION</b>	3 years full-time or part-time equivalent
<b>CRICOS COURSE CODE</b>	
<b>DEAKIN COURSE CODE</b>	A357

*Offered to continuing students only*

## COURSE OVERVIEW

The Bachelor of Contemporary Arts builds on the strengths of specialist disciplines, but allows collaboration between art forms. Students explore the arts in theory, in practice and in collaboration with others. A range of expertise from Australia's leading practitioners is used in dance, drama, media arts and visual arts

The Bachelor of Contemporary Arts will give students a range of skills in one discipline (be it dance, drama, media or visual arts), systematic exposure to collaborative possibilities between various art forms, the experience of bringing art forms together in major projects, training in professional arts practice and a grounding in the academic knowledge necessary to understand the arts and to create new forms of art.

## STRUCTURING THE COURSE

In general, students at level 1 select two applied disciplines along with units in contemporary arts theory and electives from a variety of fields. At level 2 students focus on their specialist discipline or disciplines and continue their studies in contemporary arts theory. At level 3 students complete their disciplinary major and choose from a number of units which involve collaboration across art forms, completing a major project in their final trimester. Students normally undertake the unit in Professional Arts Practice in their final year.

## TRANSITION TO UNIVERSITY STUDY

The faculty offers two units ASC160 Introduction to University Study and ALW117 Writing for Professional Practice which are specifically designed to ease the transition into university study. New students are encouraged to enrol in one or both of these units in their first year.

## Details of major sequences

### Media Arts

Students enrolled in course A358 Bachelor of Contemporary Arts with a major sequence in Media Arts must choose at least one major sequence from the following

- Animation and Digital Culture
- Film and Video
- Photography

Note: From 2005, Media Arts Stream A: The Contemporary Image, has been retitled as the major sequence in Photography. Similarly, Media Arts Stream B: Screen Studies, has been retitled as the major sequence, Film and Video.

Animation and Digital Culture is a new major sequence introduced in 2005 and is available only to students enrolled in A358 and A328 Bachelor of Arts (Media and Communication).

### Animation and Digital Culture

The Animation and Digital Culture major sequence offers the opportunity to develop a moving image, graphic and animation practice within the expanding digital domain. Students will explore digital animation production and publication options that include web, CD and DVD publication possibilities, and develop the skills to work with and manage such technologies effectively. Students are encouraged to develop skills in all aspects and types of animation production and learn to write and think analytically about such creative work.

On completion of the Animation and Digital Culture major sequence students should have the following skills:

- an ability to implement and manage all stages of production of a professional digital animation project.
- an ability to develop a unique production path for a digital project for a variety of publication platforms.

**Film and Video**

The Film and Video major sequence aims to develop students' creative and critical thinking, while providing them with a practical and theoretical grounding in the production and application of film, video and television. The sequence puts these mediums in the historical and social context of the institutions, technologies and artistic and personal forces from which they have emerged.

In level 1, students learn formal and theoretical concepts through analysis of case studies and a series of projects which demand individual input, team collaboration, as well as recording, filming, direction, and post-production techniques. Collaborative skills are extended in level 2 through investigation of team management, narrative, representation, editing, and audiences, as well as the relationship between the actor, director, producer and exhibitor. Students also undertake case studies in genre and the creative practices and aesthetic approaches of significant practitioners or movements. The final level provides opportunities for students to develop unique and individual creative practices through units including the Research in Production: Documentary, which explores the use of actuality in narrative as well as Independent Production Practice, that explores non-representational, contemplative and oppositional structures, together with strategies that rework or synthesis conventional forms.

**Photography**

The Photography major sequence is based around creative, critical and professional practice. Students can choose to develop their artistic, academic or professional aspirations.

Level 1 introduces students to the basics of photographic techniques and practice and to the history of photography with respect to Australian and international artists. Using analog and digital technologies, students explore the uses of referent-based and non-referent bases images as social and cultural artefacts.

Level 2 introduces a range of professional analog and digital photographic formats, darkroom and studio environments as well as the application of photographic imagery in virtual and collaborative environments at a global level. Students also engage in the discourse that surrounds contemporary photographic practice.

Level 3 introduces students to a range of alternative analog and digital photographic formats and their application in creative practice. Students are strongly encouraged to experiment, research and develop their own conceptual and aesthetic sensibilities. The work undertaken at this level is applicable to exhibition, installation, multimedia, and collaborative productions and provides a strong basis for further postgraduate studies and professional practice.

# Bachelor of Film and Digital Media

**AWARD GRANTED** Bachelor of Film and Digital Media  
**CAMPUS**  
**DURATION** 3 years full-time or part-time equivalent  
**CRICOS COURSE CODE** 060430C  
**DEAKIN COURSE CODE** A358

**Course version for continuing students who enrolled prior to 2013.**

## COURSE OVERVIEW

The Bachelor of Film and Digital Media comprehensively explores the theories, techniques and practices of a major media discipline, enabling you to build your skills in a range of other creative arts theory and practices.

The major disciplines of Film, Animation and Photography focus on the development of the creative and analytic skills required to successfully apply technique in professional and artistic practices. You will be exposed to diverse histories of the mediums and the critical and theoretical ways in which these mediums can be analysed and received.

The degree comprises study in many areas including narrative structure, exhibitions and folios, project management, visual language, online collaboration and exhibition, digital video and TV studio production, short filmmaking, history and theory of film making, character animation, special effects, darkroom and digital manipulation, small to large photographic formats and photographic history and theory.

The course will prepare you for the opportunities and challenges of the media and creative industries by allowing cross discipline collaboration, multi-skilling, internships, international study and study in professional practice and entrepreneurship. The program draws upon the expertise of its staff - who are active media practitioners, and the industry - through visiting, special guest and casual academic staff.

## TRANSITION TO UNIVERSITY STUDY

The faculty offers two units ASC160 Introduction to University Study and ALW117 Writing for Professional Practice which are specifically designed to ease the transition into university study. New students are encouraged to enrol in one or both of these units in their first year.

## PREREQUISITES

Because a number of disciplinary studies are cumulative in knowledge, technical competencies and/or study and research skills there are prerequisites which direct students to take some units before others. Students must seek advice from a course adviser before enrolling in units for which they do not have prerequisite or recommended units.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

To qualify for the award of Bachelor of Film and Digital Media a student must complete 24 credit points including:

- 12 credit points from one of the three major sequences:
  - o Animation ,
  - o Film or
  - o Photography
- 12 credit points of electives which may comprise 4-credit-point minor sequences to add a further specialism, or electives from across the Faculty of Arts and Education (or other University courses as approved)
- no more than 8 credit points taken outside the Faculty of Arts and Education
- no more than 10 credit points at level 1

## PATHWAYS

This course has pathways from more than 20 Institutes of TAFE and universities in Melbourne and regional Victoria. Credit transfer and recognition is normally available from TAFE and university diplomas and advanced diplomas in arts, business, management, and humanities disciplines. Students with graded advanced diplomas from TAFE or equivalent will be eligible for up to 12 credit points of electives. Students with graded diplomas or equivalent from TAFE or equivalent will be eligible for up to 8 credit points of electives. There is also a pathway from Deakin University's Associate Degree of Arts, Business and Sciences to this course with up to 16 credit points depending on units taken.

On completion of this course you may choose to apply for an Honours degree or postgraduate study. These studies normally provide professional qualifications directed to a particular career. Students must have completed a major in the discipline or interdisciplinary area in which they wish to specialise in the honours course. Entry is based on a number of factors, including an average grade of Distinction or High Distinction in the Bachelor of Arts particularly in the discipline in which they want to study Honours and the availability of supervision. Further honours information.

*Offered to continuing students only*

## COURSE OVERVIEW

The Bachelor of Contemporary Arts builds on the strengths of specialist disciplines, but allows collaboration between art forms. Students explore the arts in theory, in practice and in collaboration with others. A range of expertise from Australia's leading practitioners is used in dance, drama, media arts and visual arts.

The Bachelor of Contemporary Arts will give students a range of skills in one discipline (be it dance, drama, media or visual arts), systematic exposure to collaborative possibilities between various art forms, the experience of bringing art forms together in major projects, training in professional arts practice and a grounding in the academic knowledge necessary to understand the arts and to create new forms of art.

## STRUCTURING THE COURSE

In general, students at level 1 select two applied disciplines along with units in contemporary arts theory and electives from a variety of fields. At level 2 students focus on their specialist discipline or disciplines and continue their studies in contemporary arts theory. At level 3 students complete their disciplinary major and choose from a number of units which involve collaboration across art forms, completing a major project in their final trimester. Students normally undertake the unit in Professional Arts Practice in their final year.

## TRANSITION TO UNIVERSITY STUDY

The faculty offers two units ASC160 Introduction to University Study and ALW117 Writing for Professional Practice which are specifically designed to ease the transition into university study. New students are encouraged to enrol in one or both of these units in their first year.

Details of major sequences

## Visual Arts

The Visual Arts major will appeal to student who are interested in careers across a variety of traditional media including painting, drawing or 3D modeling and new technologies including digital/photo imaging and computer- generated prints. A broad based course structure enables students to overlap disciplines to develop individual vision and expression by exploring the aesthetic, formal and social concerns of visual communication.

On successful completion of the Visual Arts major sequence, students should have the following skills:

- an ability to produce a conceptually, formally and thematically coherent body of work of exhibition standard
- an ability to identify a professional niche in the art industry and a preparedness to enter that industry
- an ability to negotiate the marketplace and develop productive working relationships with galleries, professional organisations and funding bodies; and
- an ability to position their own work in relation to their field of research

# Bachelor of Creative Arts (Visual Arts)

<b>AWARD GRANTED</b>	Bachelor of Creative Arts (Visual Arts)
<b>CAMPUS</b>	Offered at Melbourne Burwood Campus, Geelong Waterfront Campus
<b>DURATION</b>	3 years full-time or part-time equivalent
<b>CRICOS COURSE CODE</b>	060435J
<b>DEAKIN COURSE CODE</b>	A359

*Students enrolled at Geelong in this course will be required to undertake units of study at both the Geelong Waurn Ponds Campus and the Geelong Waterfront Campus.*

## COURSE OVERVIEW

Deakin's Bachelor of Creative Arts (Visual Arts) offers you a range of skills including systematic exposure to collaborative possibilities between various art forms, the experience of bringing art forms together in major projects, training in creative arts enterprise and management, and a grounding in the academic knowledge necessary to understand the arts and to create new forms of art.

Deakin's visual arts program will give you the opportunity to gain qualifications, skills and knowledge for professional practice in visual arts and visual communication design (graphic design). You will develop skills for a specialised industry vocation or a broader role in the fields of culture and the arts. The course combines cutting edge, contemporary theory with specialised studio practice incorporating digital technologies.

The program draws upon the expertise of its staff - who are active practitioners in their fields - and industry, through visiting special guest and casual academic staff.

## PATHWAYS

This course has pathways from more than 20 Institutes of TAFE and universities in Melbourne and regional Victoria. Credit transfer and recognition is normally available from TAFE and university diplomas and advanced diplomas in arts, business, management, and humanities disciplines. Students with graded advanced diplomas from TAFE or equivalent will be eligible for up to 12 credit points of electives. Students with graded diplomas or equivalent from TAFE or equivalent will be eligible for up to 8 credit points of electives. There is also a pathway from Deakin University's Associate Degree of Arts, Business and Sciences to this course with up to 16 credit points depending on units taken.

On completion of this course you may choose to apply for an Honours degree or postgraduate study. These studies normally provide professional qualifications directed to a particular career. Students must have completed a major in the discipline or interdisciplinary area in which they wish to specialise in the honours course. Entry is based on a number of factors, including an average grade of Distinction or High Distinction in the Bachelor of Arts particularly in the discipline in which they want to study Honours and the availability of supervision. Further honours information.

## TRANSITION TO UNIVERSITY STUDY

The faculty offers two units ASC160 Introduction to University Study and ALW117 Writing for Professional Practice which are specifically designed to ease the transition into university study. New students are encouraged to enrol in one or both of these units in their first year.

## PREREQUISITES

Because a number of disciplinary studies are cumulative in knowledge, technical competencies and/or study and research skills there are prerequisites which direct students to take some units before others. Students must seek advice from a course adviser before enrolling in units for which they do not have prerequisite or recommended units.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

To qualify for the award of Bachelor of Creative Arts (Visual Arts) a student must complete 24 credit points including:

- 12 credit points of core units
- 12 credit points of electives
- no more than 8 credit points taken outside the Faculty of Arts and Education

*This course is offered to continuing students only.*

## COURSE OVERVIEW

Deakin's Bachelor of Interactive Media focuses on the convergence of the creative digital industries within a studio environment. Students from a wide range of disciplines learn to work together cooperatively and collaboratively, to produce digital culture artefacts and to develop skills and content within a simulated work environment.

The program is multidisciplinary, integrating digital media and IT offerings of the Faculty of Arts and Education and Faculty of Science, Engineering and Built Environment. The program has at its core the Studio – a space where you can work in teams with other students on real world interactive multimedia projects like blogs, podcasts, games, motion graphics for installations and exhibitions.

The course aims to produce graduates who have a solid foundation in design, combined with technical skills in film, TV, video, special effects, animation and games design. You will be taught with the use of industry-preferred authoring tools so that you will be immediately employable upon graduation. There is a strong emphasis on project work that mimics the typical design studio, allowing you to develop project management skills that are essential in any design or multimedia studio.

You will have access to the latest motion capture technology at the Deakin Motion.Lab, Australia's most technologically advanced motion capture facility.

## TRANSITION TO UNIVERSITY STUDY

The faculty offers two units ASC160 Introduction to University Study and ALW117 Writing for Professional Practice which are specifically designed to ease the transition into university study. New students are encouraged to enrol in one or both of these units in their first year.

## FEES AND CHARGES

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

To qualify for the award of Bachelor of Interactive Media a student must complete 24 credit points of study including:

- no more than 10 credit points at level 1
- 16 credit points of compulsory core units, including ACN108 History of Interactive Entertainment (ONLINE)
- 8 credit points of elective units. Electives can be taken within a range of offerings from the Faculty of Arts and Education or from other Deakin programs

The core units are drawn from existing IT and Creative Art units as well as new units developed specifically for this degree. Central to the course are a suite of studio units at each level where groups

of 4-5 students will work together in an exploration of ideas, knowledge and the processes, both individual and group, learning how to learn. Students will engage in a range of open-ended yet focused tasks, which may be set by the teacher, but more often determined by the group who will work collaboratively together to explore the possibilities. The expectation of a team response will encourage interdependent learning.

## COURSE OVERVIEW

The Bachelor of Arts (Honours) provides students with the opportunity to study their chosen discipline area at an advanced level. Bachelor of Arts (Honours) graduates are eligible to apply for entry to masters and doctoral research programs.

The Bachelor of Arts (Honours) program will provide intellectual stimulation, academic achievement and personal enrichment. You will be given the opportunity to undertake a substantial and original research project whilst being under the supervision of an academic with a proven research record. The skills acquired will enhance your future career prospects in a broad range of occupations in both private and public sectors, giving you an edge, compared with a straight undergraduate pass degree.

You will undertake study at a higher level than your previously completed undergraduate degree, both in your honours coursework units and when you carry out research for your thesis. The thesis allows you to focus on an area of particular interest to you, and provides the opportunity to make a contribution to knowledge and wider debates in your discipline.

Areas of study available in the Bachelor of Arts (Honours) are Dance, Drama, Journalism, Literary Studies, Media Arts (Animation, Film and Video, Photography), Media/Communication Studies, Professional and Creative Writing, Public Relations, Visual Arts, Anthropology, Criminology, History, Sociology, International Relations, Politics and Philosophical Studies.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The Bachelor of Arts (Honours) course requires the completion of 8 credit points of study at level 4. Half of that requirement is met through coursework, which may include directed reading and/or enrolment in course work units, and half is satisfied through a research project (thesis or dissertation) of 14 000/16 000 words. Where creative works form a significant part of the assessment, they must be accompanied by an exegesis of at least 6 000 words, depending on the discipline area. Lists of units and options available as honours coursework in any year are set down in the Honours Booklets produced by each study area. There are no attendance requirements for off-campus students, although regular consultation with an appointed thesis supervisor is required.

There are a number of publications that honours students should consult, these can be found at: <http://www.deakin.edu.au/arts-ed/courses/honours/honours-docs.php>

# Graduate Certificate of International and Community Development

<b>AWARD GRANTED</b>	Graduate Certificate of International and Community Development
<b>CAMPUS</b>	Off campus
<b>DURATION</b>	0.5 year full-time or part-time equivalent
<b>DEAKIN COURSE CODE</b>	A511

## COURSE OVERVIEW

Deakin's Graduate Certificate of International and Community Development will introduce you to issues in International and Community Development (ICD), particularly in the period since 1950. The perspectives taken in this course are cross-disciplinary. The unifying theme is the meaning of development and its relationship to poverty alleviation and social empowerment. Current events are considered in the historical context of long term trends in ICD.

You will learn from leading ICD practitioners and researchers with extensive knowledge and links within the professional field, and gain credit towards further studies in ICD, such as graduate diploma or masters.

It is expected that completion of the Graduate Certificate of International and Community Development will place you in a favourable position to advance your professional standing.

# Graduate Certificate of Politics and Policy

<b>AWARD GRANTED</b>	Graduate Certificate of Politics and Policy
<b>CAMPUS</b>	Off campus
<b>DURATION</b>	1 year part time
<b>DEAKIN COURSE CODE</b>	A516

## COURSE OVERVIEW

The Graduate Certificate of Politics and Policy emphasises a dual focus on politics and public policy and offers units designed to appeal to public sector, business, NGO and community sector managers and leaders, and those wishing to acquire new skills. Core units explore public policy analysis frameworks, the development and implementation of public policy under conditions of democratic governance, governance and accountability, and intergovernmental relations. You will undertake practical training focused on the relations between government, the private sector and community organisations, and between different levels of government. Units in the course are designed to give you a solid background in politics and policy while also building your skills so that you are a well-trained, highly competent and confident graduate. The focus on democratic governance within contemporary contexts characterised by rapid change and globalisation distinguishes this course from traditional public policy studies.

**DURATION** 0.5 year full time or 2-3 years part time

**CRICOS COURSE CODE** 061383G

**DEAKIN COURSE CODE** A530

*This course is for continuing students only.*

## COURSE OVERVIEW

This course offers students the opportunity to widen their educational experience by studying disciplines beyond the boundaries of specialised study. Students may take this course concurrently with an undergraduate degree or alternatively the program may be taken as a standalone course.

The program will enable students to examine the intersections between the sciences and contemporary social and cultural questions through perspectives provided by a range of disciplines such as history, media studies, literature, sociology, philosophy, science, technology, health and law.

## SPECIFIC COURSE INFORMATION

No unit completed from another Deakin University award may be counted towards the Graduate Certificate of Arts and Sciences.

Credit for prior learning from previous study will not normally be granted.

Students who choose not to graduate with the Graduate Certificate of Arts and Sciences may have their completed units credited towards their undergraduate award, provided this is consistent with that award's course rules.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

To qualify for the award of Graduate Certificate of Arts and Sciences, a student must complete 4 credit points of study from the list of nominated units drawn from across the five faculties.

Undergraduate students completing the Graduate Certificate of Arts and sciences will not be eligible to graduate until they have completed their undergraduate degree.

# Graduate Certificate of Media and Communication

<b>AWARD GRANTED</b>	Graduate Certificate of Media and Communication
<b>CAMPUS</b>	Offered at Melbourne Burwood Campus, Off campus
<b>DURATION</b>	1 year part time
<b>DEAKIN COURSE CODE</b>	A539

## COURSE OVERVIEW

Media and communication is the world's fastest-growing industry. It is also an area of rapid and continuous technological, political, economic and social change. Deakin's perspective on the media and communication industry integrates several disciplines and emphasises commonalities of practices and institutions in different sectors of the industry. This distinctive interdisciplinary and cross-disciplinary perspective underpins a broad mix of subjects, in contrast to the narrow focus of other vocational courses. Students can choose from a wide range of units that suit their particular interests and units studied in the Graduate Certificate and Graduate Diploma of Media and Communication gain credit in Deakin's Master of Communication. This flexible approach to skill-building is designed to match the dynamic and unpredictable nature of the industry.

The Graduate Certificate of Professional Writing offers studies in various forms of professional writing and editing. The emphasis is on helping you to develop the skills required to prepare work for publication. In each area of study - fiction, creative non-fiction, writing for children, poetry, editing, publishing and scriptwriting - you will be given practical experience of the process of writing and revision. The program will develop your understanding of the requirements of writing and editing for different readerships.

The units in the program will be valuable to you if you are experienced in writing but feel the need for further guidance or if you want to begin a career in writing. Study at this level can also help you if you are required to write in the course of your employment and wish to enhance your skills in written communication. The editing course introduces you to the key skills required for employment in publishing books and magazines.

The School of Communication and Creative Arts adopts the philosophy that writing and editing should be taught by published writers and practitioners. The teaching staff includes well-known writers and editors, and the program draws on the talents of other publishing professionals as guest speakers.

# Graduate Certificate of Children's Literature

<b>AWARD GRANTED</b>	Graduate Certificate of Children's Literature
<b>CAMPUS</b>	Off campus
<b>DURATION</b>	1 year part time
<b>DEAKIN COURSE CODE</b>	A562

## COURSE OVERVIEW

The Graduate Certificate of Children's Literature aims to provide you with specialist knowledge and skills in the field of children's literature. You will become familiar with a broad range of texts, taking account of variations of genre, the historical and cultural contexts in which children's texts are produced, and the ideological frameworks in which they are located. The course will introduce you to contemporary theoretical approaches to the study of children's texts, so beyond the span of the course itself you will be equipped to read texts in a more informed and theoretically grounded manner.

<b>AWARD GRANTED</b>	Graduate Diploma of Politics and Policy
<b>CAMPUS</b>	Off campus
<b>DURATION</b>	1 year full-time or part-time equivalent
<b>DEAKIN COURSE CODE</b>	A616

## COURSE OVERVIEW

The Graduate Diploma of Politics and Policy emphasises a dual focus on politics and public policy and offers a wide range of core units and elective units to appeal to public sector, business, NGO and community sector managers and leaders, and those wishing to acquire new skills. Core units explore public policy analysis frameworks, the development and implementation of public policy under conditions of democratic governance, governance and accountability, skills building in evaluation, intergovernmental relations and accountability, and corporate social responsibility. You will undertake practical training focused on the relations between government, the private sector and community organisations, and between different levels of government. Units in the course are designed to give you a solid background in politics and policy while also building your skills so that you are a well-trained, highly competent and confident graduate. The focus on democratic governance within contemporary contexts characterised by rapid change and globalisation distinguishes this course from traditional public policy studies.

# Graduate Diploma of Language

**AWARD GRANTED** Graduate Diploma of Language

**DURATION** 3 years part time

**DEAKIN COURSE CODE** A625

*From 2010, this course is for continuing students only.*

## COURSE OVERVIEW

The Graduate Certificate and Diploma of Language will be of interest to students for whom a systematic study of language is desirable in addition to their primary course of study. As language units must be studied sequentially the award will be completed part-time in up to three years, with students taking one language unit per trimester.

## IN-COUNTRY OPTIONS

The option exists to undertake second or third year units in-country over trimester 3. The six week programs are held in Tunisia (Arabic), China (Chinese) and Indonesia or Malaysia (Indonesian). In addition to giving students language skills, participation in the program is a rare opportunity to use the language with native speakers in its natural environment while studying it formally in a more structured classroom context. In addition, since the in-country units are equivalent to one trimester or one year, they could potentially shorten the completion time of the Certificate or Diploma.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE OVERVIEW

Media and communication is the world's fastest-growing industry. It is also an area of rapid and continuous technological, political, economic and social change. Deakin's perspective on the media and communication industry integrates several disciplines and emphasises commonalities of practices and institutions in different sectors of the industry. This distinctive interdisciplinary and cross-disciplinary perspective underpins a broad mix of subjects, in contrast to the narrow focus of other vocational courses. Students can choose from a wide range of units that suit their particular interests and units studied in the Graduate Diploma of Media and Communication gain credit in Deakin's Master of Communication. This flexible approach to skill-building is designed to match the dynamic and unpredictable nature of the industry.

## COURSE OVERVIEW

The Graduate Diploma of Professional Writing offers studies in various forms of professional writing and editing for graduates with major sequences in other disciplines. The emphasis is on helping you to develop the skills required to prepare work for publication. In each area of study-fiction, creative non-fiction, writing for children, poetry, editing, publishing and scriptwriting - you will be given practical experience of the process of writing and revision. The program will develop your understanding of the requirements of writing and editing for different readerships. The units in the program will be valuable to you if you are experienced in writing but feel the need for further guidance, or if you want to begin a career in writing. Study at this level can also help you if you are required to write in the course of your employment and wish to enhance your skills in written communication. The editing course introduces you to the key skills required for employment in publishing books and magazines. The School adopts the philosophy that writing and editing should be taught by published writers and practitioners. The teaching staff includes well-known writers and editors, and the program draws on the talents of other publishing professionals as guest speakers.

<b>AWARD GRANTED</b>	Master of Politics and Policy
<b>CAMPUS</b>	Off campus
<b>DURATION</b>	1.5 years full-time or part-time equivalent
<b>DEAKIN COURSE CODE</b>	A716

## COURSE OVERVIEW

The Master of Politics and Policy emphasises a dual focus on politics and public policy and offers a wide range of core units and elective units to appeal to public sector, business, NGO and community sector managers and leaders, and those wishing to acquire new skills. Core units explore public policy analysis frameworks, the development and implementation of public policy under conditions of democratic governance, governance and accountability, skills building in evaluation, intergovernmental relations and accountability, and corporate social responsibility. You will undertake practical training focused on the relations between government, the private sector and community organisations, and between different levels of government. Units in the course are designed to give you a solid background in politics and policy while also building your skills so that you are a well-trained, highly competent and confident graduate. The focus on democratic governance within contemporary contexts characterised by rapid change and globalisation distinguishes this course from traditional public policy studies. The course also provides the option of completing a thesis suitable for articulation into a research masters or PhD.

# Master of Applied Social Research

**AWARD GRANTED** Master of Applied Social Research  
**CAMPUS** Off campus\*

*\*All students should note that attendance on campus will be required for ASC744 Analysis of Quantitative Data, offered as intensive weekend study.*

**DURATION** 1 year full-time or part-time equivalent

**DEAKIN COURSE CODE** A719

## COURSE OVERVIEW

The Master of Applied Social Research is designed to equip graduates with practical and analytical skills in quantitative and qualitative research methods. It aims to develop holistic social researchers who are confident and competent in designing, conducting, interpreting and presenting research. You will examine conceptual and theoretical frameworks informing the research environment as a means to operate effectively within it.

The focus of the program is on building a comprehensive suite of skills and knowledge that can be applied to the social research context. Course content covers the stages of conceptualising and planning research (including ethical, cultural and theoretical dimensions), as well as the requisite skills and techniques used to carry out qualitative and quantitative research (data collection, manipulation, analysis and dissemination). Elective offerings enable you to tailor your degree to your area of interest, with specialisms available in communication, gender, health and social policy.

## COURSE OVERVIEW

Deakin's Master of Arts (International Relations) aims to produce graduates who are able to demonstrate high-level skills of theoretical and empirical analysis and interpretation of global issues and events. In addition the course will give you a substantial understanding of the complexities of contemporary international relations.

The program is designed for those working in areas such as the public service, private sector corporations, small businesses and non-government organisations who want to develop systematic understanding of the international forces shaping their environment, and enhance their skills in analysis and interpretation.

The program provides the opportunity to examine key issues of both historical and contemporary issues as well as developments in world politics. Students develop skills in policy analysis, systematic understanding of the threats to peace and security, and global forces shaping political, social and economic life.

Specialisations are available in Asia-Pacific Regional Politics, Conflict and Security, International History and Human Rights and International Law. Links with other social science and humanities studies at Deakin offer relevant electives to augment specialisations, such as genocide history, gender and development, and global media units.

The program also offers optional postgraduate internships, allowing you an opportunity to gain experience overseas.

## COURSE OVERVIEW

The Master of International and Community Development is a professional coursework degree designed to serve the needs of those seeking a graduate qualification in international development studies and/or community development.

The course will provide you with both analytical skills for understanding the contexts of development programs as well as practical skills for the formulation, resourcing, implementation, monitoring and evaluation of international and community development projects.

The course is structured around a range of skills-based and knowledge-generation units that address technical and social issues, policy development, project management and analysis of resources. Students are also eligible to complete a 14-16,000 word dissertation unit which provides a research pathway for students to qualify to apply for entry to PhD. They are also eligible to undertake Indonesian language study.

As a graduate of this course you will gain expertise to design and lead creative, effective and culturally-sensitive ways of responding to the challenge of poverty and disempowerment. The philosophical foundation is based on your commitment to work globally and locally, learn from others and remain people-centred.

# Master of Arts (Creative Enterprise)

**AWARD GRANTED** Master of Arts (Creative Enterprise)  
**CAMPUS**  
**DURATION** 1 year full-time or part-time equivalent  
**DEAKIN COURSE CODE** A758

*Course version for continuing students who enrolled prior to 2013.*

## COURSE OVERVIEW

The Master of Arts (Creative Enterprise) provides intensive training in developing a new creative venture, including business and strategic planning in the creative industries, alongside creative practice and development in writing, publishing, new media, performance and/or film. It culminates in the development of a start-up creative enterprise or production outcomes for a project.

Students may undertake the Master of Arts (Creative Enterprise) (8 credit points) in part time or full time mode. The course builds on core units of Arts Audiences, Arts/Media Law and New Ventures, with the option of an elective in areas such as photography, dance, events/working in creative teams and fundraising. It culminates in developing the project in a studio-based incubator environment. Every student will bring to the course a creative idea, concept or project that is to be developed through learning, practice and mentoring in enterprise skills and creative production in a studio-based incubator environment. Industry practitioners and professionals will act as mentors to the 'classroom as incubator'.

The Master of Arts (Creative Enterprise) is a unique course, offering local creative practitioners a lifelong investment in their entrepreneurial and economic future. It also meets a growing international student demand for transferring education in the creative arts to a creative business.

## COURSE OVERVIEW

The Bachelor of Property and Real Estate/Bachelor of Commerce (BPRE/BCom), combines the popular Bachelor of Property and Real Estate and the highly respected Bachelor of Commerce together into a four year program of study. This degree will provide you with the opportunity to undertake complementary major sequences in commerce and property and real estate whilst building on the strong synergy between the two high profile disciplines.

The Bachelor of Commerce has a strong public profile and an established reputation with industry and professional bodies. Property and real estate is an established discipline in Australia and the course is designed to produce highly skilled property professionals who are able to enter the workforce with a qualification fully recognised by employers, government and professional organisations. Graduates from this degree can enter a wide range of local and international employment positions and are keenly sought after in industry and government.

### Professional recognition

The Bachelor of Property and Real Estate has professional accreditation by the Australian Property Institute (API) and the Royal Institution of Chartered Surveyors (RICS). Graduates will meet the academic requirement to be eligible for registration as a Certified Practising Valuer (CPV).

The Bachelor of Commerce can lead to accreditation with many professional bodies, such as the Certified Practising Accountant (CPA) Program of CPA Australia, entry into the CA program of the Institute of Chartered Accountants in Australia (ICAA), the Institute of Public Accountants (IPA), the Association of Chartered Certified Accountants (ACCA), the Australian Computer Society (ACS), the Economics Society of Australia and the Australian Marketing Institute, provided that specific requirements within the course have been met.

Units in addition to the 16 credit points required for completion of the Bachelor of Commerce component of this combined course may be necessary to attain some of these professional accreditations.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- fees are calculated on a per unit basis
- fees charged will depend on the individual units chosen
- fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The combined course will comprise 32 credit points of study. Students will undertake 16 credit points from the Bachelor of Property and Real Estate and 16 credit points from the Bachelor of Commerce. Course requirements for both the Bachelor of Property and Real Estate (M348) and the Bachelor of Commerce (M300) must be satisfied.

The 16 credit points studied within the Bachelor of Commerce must include the 10 Bachelor of Commerce core units.

The 16 credit points studied within the Bachelor of Property and Real Estate will comprise 16 credit points of core units of which four are common with the Bachelor of Commerce core units.

Students must also complete:

- One of the three major sequences from the Property and Real Estate course (Management, Marketing or Sustainability)
- An additional major sequence from the Commerce course
- A minimum of four credit points at Level 3, which must be course grouped to a Faculty of Business and Law undergraduate degree.

Notes:

- Students must complete two major sequences. One major sequence cannot count towards both degrees.
- Units from major sequences offered in the Bachelor of Property and Real Estate are course grouped to Business and Law.
- The Sustainability major sequence is subject to continued offering of units by the Faculty of Science, Engineering and Built Environment.

## COURSE OVERVIEW

Deakin University's Bachelor of Forensic Science/Bachelor of Criminology is the only combined course in Victoria which provides the opportunity to study forensic science and criminology as a combined course.

The course has been designed to enable graduates to work both in specialised fields and across professional boundaries. It is contemporary and relevant, with teaching staff who are active researchers in their respective fields.

You will learn both arts and science traditions, giving you a broad appreciation of the professional, social, economic and cultural contexts of the forensic science and criminology disciplines.

You will have the opportunity to learn the skills and techniques essential to modern forensic science, including the examination and presentation of scientific evidence and courtroom skills. The course will also give you practical, professional training to enable you to study critical analysis in the fields of policing, security, corrections, crime prevention and community safety, and various paralegal fields.

In your forensic science studies you can choose to major in Forensic Biology or Forensic Chemistry. Other areas of study in the course include topics such as forensic analysis and interpretation, the criminal justice system, crime prevention and security, and designing and conducting criminological research.

Graduates may also have the opportunity to go on to further study and enter honours and postgraduate programs.

Students and graduates of this course are eligible to apply for membership of the Australian and New Zealand Forensic Science Society (ANZFSS).

## Career opportunities

As a graduate of this course, you may find employment opportunities as a forensic scientist, criminologist or related role, in both the public and private sector, including areas such as the forensic science industry, science-based industries, teaching, government agencies, state and federal police, ASIO, correctional services, community services, and private security industries.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

## COURSE OVERVIEW

Combining another degree with a Bachelor of Laws is an excellent way to enhance understanding of the context in which the law operates. In the Bachelor of Science/Bachelor of Laws combined course, students can combine studies in law with studies in science, such as biology, biological chemistry, chemistry, environmental science, mathematical modelling, or zoology. The Faculty of Science, Engineering and Built Environment and the Faculty of Business and Law are responsible for this combined course, which leads to the awards of Bachelor of Science and Bachelor of Laws.

## FEES AND CHARGES

## COURSE OVERVIEW

The combined Bachelor of Criminology/Bachelor of Laws degree will build on the Faculty of Arts and Education' existing linkages with the Faculty of Business and Law including the Bachelor of Arts/ Bachelor of Laws. The attraction of pedagogic logic of studying Criminology and Law has already been demonstrated, in the form of students majoring in Criminology in combined Arts/Law degrees. The introduction of the Bachelor of Criminology in 2007 invites the strengthening of cross-Faculty linkages in the combined Bachelor of Criminology/Bachelor of Laws degree.

## COURSE OVERVIEW

This specialist degree is designed to provide students with the opportunity to combine complementary major sequences in international studies and commerce. The focus is on an international orientation and students will be expected to make a commitment to an internship with an overseas organisation, or a period of study at an overseas university, or to participate in an in-country language program.

This course is designed to enable students to:

- develop their understanding of the international forces shaping government, business and community life in contemporary Australia
- develop a range of skills in analysis and interpretation of these forces
- have a grounding in business disciplines
- develop cross-cultural competencies through an internationally oriented curriculum and through participation in international study or work experience.

## COURSE RULES

To qualify for the Bachelor of arts (International Studies)/Bachelor of Commerce students must complete 32 credit points of study.

Students will undertake 16 credit points in the Faculty of Arts and Education and 16 credit points in the Faculty of Business and Law.

Course requirements for both the Bachelor of Arts (International Studies) (A326) and Bachelor of Commerce (M300) must be satisfied.

The 16 credit points studied within the Faculty of Business and Law must include the 10 Bachelor of Commerce core units: MAA103, MAE101, MAE102, MAF101, MLC101, MMM132, MIS101, MIS171, MMH299 and MMK277. In addition students must complete a prescribed Commerce major sequence and a minimum of 4 credit points at level 3 which must be Faculty of Business and Law units course grouped to a Faculty of Business and Law undergraduate degree.

Within the 16 credit points required for the Bachelor of Arts (International Studies) current students must complete an 8-credit-point major sequence, a 4-credit-point minor sequence and an approved international study experience (2 to 4 credit points). It is envisaged that students would complete the overseas experience in the third or fourth year of their course. The unit AIS201 International Studies @ Work will be offered as a core unit for students commencing from 2012. It is a highly recommended unit for current students in the course.

See course entry for Bachelor of Arts (International Studies)(A326) or Bachelor of Commerce (M300).

(ii) The off-campus mode offering of this course is subject to negotiation with the Course Director. Please contact the Faculty of Arts and Education Student Support office on your campus for further details.

(iii) Students enrolled in this combined course will be required to undertake units of study at both the Geelong Waurin Ponds Campus and the Geelong Waterfront Campus.

## COURSE OVERVIEW

This specialist degree is designed to provide students with the opportunity to combine complementary major sequences in international studies and commerce. The focus is on an international orientation and students will be expected to make a commitment to an internship with an overseas organisation, or a period of study at an overseas university, or to participate in an in-country language program.

This course is designed to enable students to:

- develop their understanding of the international forces shaping government, business and community life in contemporary Australia
- develop a range of skills in analysis and interpretation of these forces
- have a grounding in business disciplines
- develop cross-cultural competencies through an internationally oriented curriculum and through participation in international study or work experience.

## COURSE OVERVIEW

The Bachelor of Teaching (Secondary) degree introduces students to the knowledge and competencies required by secondary teachers as well as providing students with a broad understanding of the practice of educators. The partner component provides students with a depth of knowledge in one or more fields of study within a Bachelor of Science degree with the Faculty of Science, Engineering and Built Environment.

### Professional recognition

Approved by Victorian Institute of Teaching (VIT) as a preservice teaching qualification

### Contact hours

For each unit of study students are expected to participate in at least three hours of formal contact each week of trimester. A minimum of six hours of study time in addition to the formal contact is also expected for each unit each week.

### Professional experience requirements

Students are required to undertake professional experience placements concurrently with their secondary curriculum method studies. Students must be enrolled in an appropriate school experience unit in addition to enrolment in the secondary curriculum study method units.

Students may be required to complete the school experience component of the course outside the academic year. A satisfactory level of teaching competence during school experience is required for the award of the degree.

## FEES AND CHARGES

## COURSE RULES

The Bachelor of Teaching (Secondary) degree is undertaken in conjunction with the Bachelor of Science. Each course alone comprises 24 credit points but the two courses together constitute a combined course of 32 credit points. Course requirements for both degrees must be satisfied.

To complete the Bachelor of Teaching (Secondary) component of the course, 16 credit points must be taken in education and curriculum studies offered by the School of Education.

Students who are accepted into a Bachelor of Teaching (Secondary) combined course will be advised at the time of enrolment of the units recommended for study within the Bachelor of Science. Students

should consult the unit descriptions for the Bachelor of Science for an indication of the possible range of units available for selection.

To satisfy the Bachelor of Science requirements students must complete 16 credit points in the Faculty of Science, Engineering and Built Environment, including at least one 8-credit-point major sequence in a specific science discipline at least 4 science skill core units, a maximum of six units at level 1 and a minimum of four units at level 3.

### Detailed course rules

To be awarded the Bachelor of Teaching (Secondary) a student must satisfactorily complete 24 credit points of study that includes:

- 16 credit points of specified units from the School of Education of which not less than 14 credit points are to be at level 2 or higher and at least 6 credit points are to be at level 3 or higher
  - a major sequence of course-grouped units amounting to not less than 8 credit points; and
  - units amounting to not more than 8 credit points from the units leading to the award of a bachelor's degree in a faculty specified by the Faculty of Arts and Education
- Students shall complete - within a partner Bachelor of Science degree:
- 16 credit points from science course-grouped units, which includes up to 6 credit points at level 1 and a minimum of 4 credit points at level 1 and a minimum of 4 credit points at level 3.
  - a major sequence of at least 8 credit points in one science discipline area
  - a minor sequence of at least 4 credit points in a second science discipline area (both the major and minor are to be related to the secondary curriculum method studies undertaken.
  - In addition, students commencing in 2006 are also required to complete four science skill units at level 1.

The course of study shall be completed within a period of not less than four years when undertaken as a combined course of 32 credit points and except with the permission of the Faculty Board not more than 10 consecutive years from the date of first enrolment in the course.

The course of study shall include satisfactory completion of at least 80 days of supervised school experience.

Students should note that four years of tertiary study inclusive of teacher education is required for employment as a teacher in Victoria.

## MAJOR SEQUENCES

### Majors for the Bachelor of Science

Students may choose their major and minor from the following disciplines (students should consult their course advisor before choosing their major and minor):

#### Biology

#### Biological Chemistry

#### Environmental Science

#### Mathematical Modelling

*Note: In order to meet all course requirements within 16 credit points, Environmental Science and Mathematical Modelling can only be combined as a major or minor with Biology or Chemistry.*

### Working with Children Check

The Working with Children Act 2005 (Vic.) requires a person who engages in child-related work, as defined in the Act, to obtain an assessment notice under the Act, known as a Working with Children Check (WWCC). The Act is administered by the Department of Justice: [justice.vic.gov.au](http://justice.vic.gov.au). Professional experience placements in schools in the course of a university degree are “child-related work”. Under the Working with Children Act 2005 (Vic.), administered by the Department of Justice, a student teacher must obtain a Working with Children Check (WWCC) before commencing professional experience placements in a school. The WWCC must remain current throughout the course. It is an offence under the Act to engage in school experience without holding a WWCC.

Students will not be allowed to commence school experience in any school in Victoria until a Working with Children Check is obtained. The Department of Education has requested that on the application form a student nominates the University as the (or one of the) employers. The University will then be sent a copy of the assessment notice. Because the University needs to assure a school that a student placed at the school has a current Working with Children Check, each student must give their authority to provide the assurance - a student will be required to sign an authority for the University to inform a school that a WWCC has or has not been obtained.

While the University will hold on file documentation relating to the WWCCs obtained by students engaged in school experience, it is each student’s responsibility to ensure that he or she can produce the WWCC card to the school upon request and to keep the WWCC current under the Act.

Students are required to apply for a WWCC through a participating Australia Post outlet (which can be found on the Australia Post website or the Department of Justice website) and provide proof to the faculty that the WWCC has been undertaken.

Should a student fail to obtain a WWCC, practical training in a school will not be provided, and as practical training is a requirement for completion of a teaching degree, the student may be unable to complete the degree. Should such a situation arise, the University will provide advice on options for tertiary study.

It is the responsibility of students undertaking placements outside Victoria to enquire about and, where necessary, to meet any similar legislative or other requirements concerning working with children.

### Professional Experience requirements

Students are required for registration purposes (and for the award of the degree) to have completed over the duration of their course a minimum of 80 days of supervised school experience. Students should ensure they are conversant with the Standards for Graduating Students as required by the Victorian Institute of Teaching. The school experience is organised by the School Experience Office and students do not make contact with schools regarding placements under any circumstances.

Students should also note that it is a requirement of the course that school experience is undertaken in conjunction with their curriculum studies and Education Major studies and during the time tabled dates unless, in exceptional circumstances, alternative arrangements are negotiated and agreed to in writing with the Professional Experience Office.

Students should note that normally any paid or unpaid work undertaken in a school as an unqualified teacher/teacher’s aide will not be recognised for credit as recognised prior learning in supervised school experience for this course.

Students may be required to complete the school experience component of the course outside the academic year. A satisfactory level of teaching competence during supervised school experience is required for award of the degree. An “unsatisfactory” result on any school experience placement will be referred to the Faculty Academic Progress and Discipline Committee.

Graduates of an accredited teaching course should note that teacher registration is required in Victoria and is administered by the Victorian Institute of Teaching under the Education and Training Reform Act 2006 (Vic.). Prospective students should acquaint themselves with the requirements for registration in Victoria or in any other relevant location. These requirements include the ability to satisfy the Standards for Graduating Students (available at: [vit.vic.edu.au](http://vit.vic.edu.au))

### Professional Experience enrolment

Students need to carefully follow the instructions correctly when enrolling or re-enrolling online in school experience units. Failure to enrol or re-enrol correctly jeopardises a student’s school experience placement and this could lead to a delay in the award of the degree. Students must follow Faculty rules in relation to the number of days of school experience to be completed for each placement as per the Professional Experience Handbook (available from the campus of enrolment) which includes the published school experience timetable. Students should note that a ‘day’ constitutes a whole school day (not part thereof).

Students should obtain a copy of the Professional Experience Handbook each year from the Professional Experience Office (also available at [deakin.edu.au/arts-ed/education/schoolexp](http://deakin.edu.au/arts-ed/education/schoolexp)). Information contained in the Handbook is updated annually and is a summary of Faculty rules in relation to school experience.

## COURSE OVERVIEW

The Bachelor of Teaching (Secondary) degree introduces students to the knowledge and competencies required by secondary teachers as well as providing students with a broad understanding of the practice of educators. The partner component provides students with a depth of knowledge in one or more fields of study within a Bachelor of Arts degree.

### Contact hours

For each unit of study students are expected to participate in at least three hours of formal contact each week of trimester. A minimum of six hours of study time in addition to the formal contact is also expected for each unit each week.

### Professional experience requirements

Students are required to undertake professional experience placements concurrently with their secondary curriculum method studies.

Students must be enrolled in an appropriate school experience unit in addition to enrolment in the secondary curriculum study method units. Students may be required to complete the school experience component of the course outside the academic year. A satisfactory level of teaching competence during school experience is required for the award of the degree.

LOTE/TESOL requirements

Students wishing to specialise in teaching, languages other than English (LOTE) or teaching English to speakers of other languages (TESOL) within the Bachelor of Teaching (Secondary)/Bachelor of Arts must note the requirements below. Students are advised to take four linguistics discipline units ELL101, ELL102, ELL201 and ELL202 offered by the School of Education. ELL101, ELL102, ELL201 and ELL202 are course grouped to the Bachelor of Arts degree component of the course.

### LOTE

Students are advised that the requirements of the Victorian Institute of Teaching for primary and secondary teachers of LOTE (Languages Other Than English) are as follows:

- A post-Year 12 major study in the language, together with teaching methodology in LOTE.

Native speakers of the language may seek a statement of equivalence from a Victorian University, to verify that they meet the standard of a 'post year 12 major study'. Teachers wishing recognition in languages which are not taught in Victorian universities and for which university statements of equivalence are not available, may seek equivalence accreditation with the Department of Education and Training, Victoria.

### TESOL

The Victorian Institute of Teaching requirements for TESOL (Teaching English to Speakers of Other Languages) include a sub-major in one of:

- Linguistics, or
- A second language (ie. not the teacher's first language), or Appropriate TESOL studies; together with
- Teaching methodology in TESOL.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The Bachelor of Teaching (Secondary) degree is undertaken in conjunction with the Bachelor of Arts. Each course alone comprises 24 credit points but the two courses together constitute a combined course of 32 credit points. Course requirements for both degrees must be satisfied.

To complete the Bachelor of Teaching (Secondary) component of the course, 16 credit points must be taken in education and curriculum studies offered by the School of Education.

Students who are accepted into a Bachelor of Teaching (Secondary) combined course will be advised at the time of enrolment of the units recommended for study within the Bachelor of Arts. Students should consult the unit descriptions for the Bachelor of Arts for an indication of the possible range of units available for selection.

Within the 16 credit points required for the Bachelor of Arts portion of the degree a minimum of 4 credit points must be completed at level 3 and a major sequence as described under course A300 Bachelor of Arts must also be completed.

Students are not permitted to enrol in units from another faculty (other than Psychology and Mathematics which are classed as Arts grouped).

The following major sequences in Arts are available at the Melbourne Burwood Campus: Australian Studies, Children's Literature, Dance, Drama, Film Studies, History, International Relations, Languages (LOTE - Arabic, Chinese, Indonesian), Literary Studies, Mathematics, Media and Communication, Philosophy, Photography, Politics and Policy Studies, Psychology and Sociology.

## DETAILED COURSE RULES

To be awarded the Bachelor of Teaching (Secondary) a student must satisfactorily complete 24 credit points of study:

- that includes 16 credit points of specified units from the School of Education of which not less than 14 credit points are to be at level 2 or higher and at least 6 credit points are to be at level 3 or higher
- that includes a major sequence of course-grouped units amounting to not less than 6 credit points; and
- that includes units amounting to not more than 8 credit points from the units leading to the award of a bachelors degree in a faculty specified by the School of Education

Students shall complete - within a partner degree in a combined structure - a major sequence of at least 6 credit points in one discipline area and a minor sequence of at least 4 credit points in a second discipline area which are to be related to the secondary curriculum method studies undertaken.

The course of study shall be completed within a period of not less than four years when undertaken as a combined course of 32 credit points and except with the permission of the Faculty Board not more than 10 consecutive years from the date of first enrolment in the course.

The course of study shall include satisfactory completion of at least 80 days of supervised school experience. Students should note that four years of tertiary study inclusive of teacher education is required for employment as a teacher in Victoria.

### Working with Children Check

The Working with Children Act 2005 (Vic.) requires a person who engages in child-related work, as defined in the Act, to obtain an assessment notice under the Act, known as a Working with Children Check (WWCC). The Act is administered by the Department of Justice: [justice.vic.gov.au](http://justice.vic.gov.au) Professional experience placements in schools in the course of a university degree are "child-related work". Under the Working with Children Act 2005 (Vic.), administered by the Department of Justice, a student teacher must obtain a Working with Children Check (WWCC) before commencing Professional experience placements in a school. The WWCC must remain current throughout the course. It is an offence under the Act to engage in school experience without holding a WWCC.

Students will not be allowed to commence school experience in any school in Victoria until a Working with Children Check is obtained. The Department of Education has requested that on the application form a student nominates the University as the (or one of the) employers. The University will then be sent a copy of the assessment notice. Because the University needs to assure a school that a student placed at the school has a current Working with Children Check, each student must give their authority to provide the assurance - a student will be required to sign an authority for the University to inform a school that a WWCC has or has not been obtained.

While the University will hold on file documentation relating to the WWCCs obtained by students engaged in school experience, it is each student's responsibility to ensure that he or she can produce the WWCC card to the school upon request and to keep the WWCC current under the Act.

Students are required to apply for a WWCC through a participating Australia Post outlet (which can be found on the Australia Post website or the Department of Justice website) and provide proof to the faculty that the WWCC has been undertaken.

Should a student fail to obtain a WWCC, practical training in a school will not be provided, and as practical training is a requirement for completion of a teaching degree, the student may be unable to complete the degree. Should such a situation arise, the University will provide advice on options for tertiary study.

It is the responsibility of students undertaking placements outside Victoria to enquire about and, where necessary, to meet any similar legislative or other requirements concerning working with children.

### **Professional Experience requirements**

Students are required for registration purposes (and for the award of the degree) to have completed over the duration of their course a minimum of 80 days of supervised school experience. Students should ensure they are conversant with the Standards for Graduating Students as required by the Victorian Institute of Teaching. The school experience is organised by the School Experience Office and students do not make contact with schools regarding placements under any circumstances. Students are required to comply with the on-line instructions regarding enrolment/re-enrolment in school experience; failure to enrol/re-enrol jeopardises a student's school experience placement.

Students should note that it is a requirement of the course that school experience is undertaken in conjunction with their curriculum studies and Education Major studies and during the time tabled dates unless, in exceptional circumstances, alternative arrangements are negotiated and agreed to in writing with the Professional Experience Office. Students should note that normally any paid or unpaid work undertaken in a school as an unqualified teacher/teacher's aide will not be recognised for credit as recognised prior learning in supervised school experience for this course. Students may be required to complete the school experience component of the course outside the academic year.

A satisfactory level of teaching competence during supervised school experience is required for award of the degree. An "unsatisfactory" result on any school experience placement will be referred to the Faculty Academic Progress and Discipline Committee.

Graduates of an accredited teaching course should note that teacher registration is required in Victoria and is administered by the Victorian Institute of Teaching under the Education and Training Reform Act 2006 (Vic.). Prospective students should acquaint themselves with the requirements for registration in Victoria or in any other relevant location. These requirements include the ability to satisfy the Standards for Graduating Students (available at: [vit.vic.edu.au](http://vit.vic.edu.au))

### **Professional Experience enrolment**

Students need to carefully follow the instructions correctly when enrolling or re-enrolling online in school experience units. Failure to enrol or re-enrol correctly jeopardises a student's school experience placement and this could lead to a delay in the award of the degree. Students must follow Faculty rules in relation to the number of days of school experience to be completed for each placement as per the Professional Experience Handbook (available from the campus of enrolment) which includes the published school experience timetable. Students should note that a 'day' constitutes a whole school day (not part thereof).

Students should obtain a copy of the Professional Experience Handbook each year from the Professional Experience Office (also available at [deakin.edu.au/arts-ed/education/schoolexp](http://deakin.edu.au/arts-ed/education/schoolexp)).

Information contained in the Handbook is updated annually and is a summary of Faculty rules in relation to school experience.

<b>AWARD GRANTED</b>	Bachelor of Arts / Bachelor of Teaching (Secondary)
<b>CAMPUS</b>	Offered at Melbourne Burwood Campus
<b>DURATION</b>	4 years full-time or part-time equivalent
<b>CRICOS COURSE CODE</b>	016705B
<b>DEAKIN COURSE CODE</b>	D347

*Note: Current course version for students commencing from 2007 to 2010.*

## COURSE OVERVIEW

Deakin's Bachelor of Teaching (Secondary)/Bachelor of Arts degree will introduce you to the knowledge and competencies required by secondary teachers as well as providing you with a broad understanding of the practice of educators. The course will also give you in-depth knowledge in one or more fields of study within the Bachelor of Arts.

As part of the teaching component of this course you will learn key skills required for being a secondary teacher through studying topics such as assessment and reporting, how to create effective learning environments, and understanding children and adolescents. You are required to complete a minimum of 80 days supervised school experience over the duration of the course, providing hands-on experience in a classroom setting.

Studies in the arts will provide you with opportunities to develop skills of critical and systematic thinking; an imaginative understanding and appreciation of the theory and practice of the social sciences; enhanced cultural sensitivity and understanding; skills and knowledge relevant to employment in the modern workforce and familiarity with the use and importance of information technology in learning and employment. All of these skills will complement the teaching profession.

### Contact hours

For each unit of study students are expected to participate in at least three hours of formal contact each week of trimester. A minimum of six hours of study time in addition to the formal contact is also expected for each unit each week.

### LOTE/TESOL requirements

Students wishing to specialise in teaching languages other than English (LOTE) or teaching English to speakers of other languages (TESOL) within the Bachelor of Teaching (Secondary)/Bachelor of Arts must note the requirements below. Students are advised to take four linguistics discipline units ELL101, ELL102, ELL201 and ELL202 offered by the School of Education. ELL101, ELL102, ELL201 and ELL202 are course grouped to the Bachelor of Arts degree component of the course.

### LOTE (Languages other than English)

Students are advised that the requirements of the Victorian Institute of Teaching for primary and secondary teachers of LOTE are as follows:

An Advanced level major study in the language requiring successful completion of Year 12 studies in the language for entry into the program.

NOTE: Native speakers of the language may seek a statement of equivalence from an Australian university, to verify that their knowledge and competence in the language meets the standard of a post-Year 12 Advanced level major study in the language.

All programs or program combinations should equip prospective teachers of languages with:

- a sufficient level of competence in a range of acceptable spoken and written uses of the standard variety of the language so that they can provide their students with a reliable language model. This includes the ability to use the language:

- in an appropriate range of registers and contexts
- as the medium of instruction for classroom and instructional purposes
- with users from a range of ages, regions and/or social groups, both in Australia and overseas
- an understanding of the significant works of the language (poetry, prose, drama, song, film etc), both contemporary and traditional, and insights into its related history, culture and social life, including in Australia
- knowledge of the formal properties of the phonology, syntax and discourse patterns of the standard language; an understanding of the significant features of the main varieties of the language (regional and social); an understanding of the legitimacy of a range of varieties/settings of the language; and an understanding of the contrastive features of English and the language
- a sound understanding of the pedagogy for teaching languages in the primary and/or secondary schools, including the ability to implement various program models for teaching languages
- an understanding of contemporary research findings in language acquisition, including oracy and literacy development in the first and second languages
- educational theory and practice in Australian schools as it relates to the teaching of languages.

### TESOL (Teaching English to Speakers of Other Languages)

The Victorian Institute of Teaching requirements for TESOL are as follows:

A sub-major study in one of Linguistics or

A second language (i.e. not the teacher's first language) or

Appropriate TESOL Studies that includes the following core content:

- the nature of the English language and the learning of English including formal systems, spoken and written discourse, language and social context, and bi/multilingual language and literacy development
- the socio-cultural context of TESOL including educational, cultural, historical and inter-group issues and the implications for teaching and learning
- acquisition of English as a second or additional language. The study of how a second or additional language is acquired with reference to English with implications for TESOL pedagogy
- the institutional context of TESOL including the role of the TESOL teacher in the school organisation, with parents (as appropriate) and the wider community
- together with teaching methodology which covers TESOL principles and approaches for a range of educational contexts, including factors affecting the development of language proficiency, and assessment procedures to facilitate appropriate placement of students with ESL needs.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The Bachelor of Teaching (Secondary) degree is undertaken in conjunction with the Bachelor of Arts. Each course alone comprises 24 credit points but the two courses together constitute a combined course of 32 credit points. Course requirements for both degrees must be satisfied.

To complete the Bachelor of Teaching (Secondary) component of the course, 16 credit points must be taken in education studies, curriculum studies, and school experience offered by the School of Education.

Students who are accepted into a Bachelor of Teaching (Secondary) combined course will be advised at the time of enrolment of the units recommended for study within the Bachelor of Arts. Students should consult the unit descriptions for the Bachelor of Arts to get an indication of the possible range of units available for selection.

Within the 16 credit points required for the Bachelor of Arts portion of the degree a minimum of 4 credit points must be completed at level 3 and a major sequence as described under course A300 Bachelor of Arts must also be completed.

Students are not permitted to enrol in units from another faculty (other than Psychology and Mathematics which are classed as Arts grouped).

The following teaching methods which relate to the major sequences in Bachelor of Arts are available at the Melbourne Burwood Campus:

**Dance**

**Drama**

**English Major sequence in Children's Literature, or Literacy Studies (plus a part in Linguistics offered by Education)**

**LOTE Major sequence in Arabic, Chinese, Indonesian**

**Mathematics**

**Media Major sequence in Film Studies, Media & Communication, Photography**

**Psychology**

**Humanities, Societies and Environments (formerly SOSE) Major sequence in Australian Studies, History, Philosophy, Politics & Policy Studies, Sociology**

**TESOL Major sequence in Arabic, Chinese, Indonesian**

**Visual Arts**

Students should note that normally any paid or unpaid work undertaken in a school as an unqualified teacher/teacher's aide will not be recognised for credit as recognised prior learning in supervised school experience for this course. Students may be required to complete the school experience component of the course outside the academic year.

A satisfactory level of teaching competence during supervised school experience is required for award of the degree. An "unsatisfactory" result on any school experience placement will be referred to the Faculty Academic Progress and Discipline Committee.

Graduates of an accredited teaching course should note that teacher registration is required in Victoria and is administered by the Victorian Institute of Teaching under the Education and Training Reform Act 2006 (Vic.). Prospective students should acquaint themselves with the requirements for registration in Victoria or in any other relevant location. These requirements include the ability to satisfy the Standards for Graduating Students (available at: [vit.vic.edu.au](http://vit.vic.edu.au))

### **Professional Experience enrolment**

Students need to carefully follow the instructions correctly when enrolling or re-enrolling online in school experience units. Failure to enrol or re-enrol correctly jeopardises a student's school experience placement and this could lead to a delay in the award of the degree. Students must follow Faculty rules in relation to the number of days of school experience to be completed for each placement as

per the Professional Experience Handbook (available from the campus of enrolment) which includes the published school experience timetable. Students should note that a 'day' constitutes a whole school day (not part thereof).

Students should obtain a copy of the Professional Experience Handbook each year from the Professional Experience Office (also available at [deakin.edu.au/arts-ed/education/schoolexp](http://deakin.edu.au/arts-ed/education/schoolexp) ). Information contained in the Handbook is updated annually and is a summary of Faculty rules in relation to school experience.

## Notes:

- (i) Current course version for students commencing from 2011.
- (ii) Students enrolled between 2007 and 2010 are to refer to the 2007 to 2010 version of this course.
- (iii) Students enrolled prior to 2007 should contact their enrolment officer for course advice.
- (iv) Students commencing in Trimester 2 or Trimester 3 2013 may only undertake Bachelor of Arts units in their commencing trimester.

## COURSE OVERVIEW

Deakin's Bachelor of Teaching (Secondary)/Bachelor of Arts degree will introduce you to the knowledge and competencies required by secondary teachers as well as providing you with a broad understanding of the practice of educators. The course will also give you in-depth knowledge in one or more fields of study within the Bachelor of Arts.

As part of the teaching component of this course you will learn key skills required for working as a secondary teacher through studying topics such as teacher-learner identity, policy, schooling and society, how to create learning-teaching environments, pedagogy, understanding children and adolescents, and professional identity and curriculum. You are required to complete a minimum of 80 days supervised school experience over the duration of the course, providing hands-on experience in a classroom setting.

Studies in the arts will provide you with opportunities to develop skills of critical and systematic thinking; an imaginative understanding and appreciation of the theory and practice of the social sciences; enhanced cultural sensitivity and understanding; skills and knowledge relevant to employment in the modern workforce and familiarity with the use and importance of information technology in learning and employment. All of these skills will complement the teaching profession. Professional recognition

Approved by Victorian Institute of Teaching (VIT) as a preservice teaching qualification.

International students and permanent residents

Graduates of this course who are intending to apply for registration with the Victorian Institute of Teaching (VIT) will be required to demonstrate an IELTS of an average band score of 7.5 across all four skill areas where there is no score below 7 in any of the four skills areas and a score of no less than 8 in speaking and listening. Further information

## Contact hours

For each unit of study students are expected to participate in at least three hours of formal contact each week of trimester. A minimum of six hours of study time in addition to the formal contact is also expected for each unit each week.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis

- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The Bachelor of Teaching (Secondary) degree is undertaken in conjunction with the Bachelor of Arts. Each course alone comprises 24 credit points but the two courses together constitute a combined course of 32 credit points. Course requirements for both degrees must be satisfied.

To complete the Bachelor of Teaching (Secondary) component of the course, 16 credit points must be taken in Professional Education studies, and curriculum studies offered by the School of Education. Students accepted into the combined course will be advised at the time of enrolment of the units recommended for study within the Bachelor of Arts. Students should consult the unit descriptions for the Bachelor of Arts to get an indication of the possible range of units available for selection.

Within the 16 credit points required for the Bachelor of Arts portion of the degree a minimum of 4 credit points must be completed at level 3 and a major sequence as described under course A300 Bachelor of Arts must also be completed. Students are not permitted to enrol in units from another faculty (other than Psychology and Mathematics which are classed as Arts grouped).

## DETAILS OF MAJOR SEQUENCES

The following teaching methods which relate to the major sequences in Bachelor of Arts are available at the Melbourne Burwood Campus:

- **Dance**
- **Drama**
- **English (Major sequence in Children's Literature, or Literacy Studies plus a part in Linguistics offered by Education)**
- **LOTE (Languages other than English: Major sequence in Arabic, Chinese, Indonesian)**
- **Mathematics**
- **Media (Major sequence in Film Studies, Media & Communication, Photography)**
- **Music (must have VCE music or Grade 6 AMEB)**
- **Psychology**
- **Humanities, Societies and Environments (SOSE) (Major sequence in Australian Studies, History, Philosophy, Politics & Policy Studies, Sociology)**
- **TESOL**
- **Visual Arts**

Students can also undertake a double curriculum specialisation in one of the method areas below:

**Dance**  
**Drama**  
**Music**  
**English**  
**Humanities, Society & Environment (SOSE)**  
**Visual Arts**

Students may undertake four linguistics discipline units ELL101, ELL102, ELL201 and ELL202 offered by the School of Education. ELL101, ELL102, ELL201 and ELL202 are course grouped to the Bachelor of Arts degree component of the course and are suitable for students wishing to teach in TESOL, LOTE or English.

In regards to LOTE, the Victorian Institute of Teaching for primary and secondary teachers of LOTE requires an Advanced level major study in the language requiring successful completion of Year 12 studies in the language for entry into the course. Native speakers of the language may seek a statement of equivalence from an Australian university, to verify that their knowledge and competence

in the language meets the standard of a post-Year 12 Advanced level major study in the language.

For those students wanting to undertake TESOL, the Victorian Institute of Teaching requirements for TESOL are a sub-major study in one of Linguistics or a second language (i.e. not the teacher's first language) or appropriate TESOL Studies that includes the following core content:

- the nature of the English language and the learning of English including formal systems, spoken and written discourse, language and social context, and bi/multilingual language and literacy development
- the socio-cultural context of TESOL including educational, cultural, historical and inter-group issues and the implications for teaching and learning acquisition of English as a second or additional language. The study of how a second or additional language is acquired with reference to English with implications for TESOL pedagogy
- the institutional context of TESOL including the role of the TESOL teacher in the school organisation, with parents (as appropriate) and the wider community together with teaching methodology which covers TESOL principles and approaches for a range of educational contexts, including factors affecting the development of language proficiency, and assessment procedures to facilitate appropriate placement of students with ESL needs.

## DETAILED COURSE RULES

The Bachelor of Teaching (Secondary)/ Bachelor of Arts student must satisfactorily complete 24 credit points of study that includes:

- 16 credit points of specified units from the School of Education of which not less than 14 credit points are to be at level 2 or higher and at least 6 credit points are to be at level 3 or higher
- a major sequence of course-grouped units amounting to not less than 6 credit points; and
- units amounting to not more than 8 credit points from the units leading to the award of a bachelors degree in a faculty specified by the School of Education

Students will complete within the Bachelor of Arts (BA) a major sequence of 8 credit points in one discipline area and a minor sequence of at least 4 credit points in a second discipline area which are to be related to the secondary curriculum method studies undertaken. There is a cap of 12 units set for each major in each discipline, with an additional internship unit available. Flexibility in the structure of the BA provides students with the opportunity to pursue their own interests and design their own courses of study within guidelines, including up to 8 credit points from other faculties or by cross-institutional study.

The course of study shall be completed within a period of not less than four years when undertaken as a combined course of 32 credit points and except with the permission of the Faculty Board not more than 10 consecutive years from the date of first enrolment in the course. Within the course of study, students will also satisfactorily complete 80 days of supervised school experience. This is a requirement for employment as a teacher in the State of Victoria if one undertakes tertiary study in teacher education.

**Working with Children Check**

The Working with Children Act 2005 (Vic.) requires a person who engages in child-related work, as defined in the Act, to obtain an assessment notice under the Act, known as a Working with Children Check (WWCC). The Act is administered by the Department of Justice: [justice.vic.gov.au](http://justice.vic.gov.au). School experience placements in schools in the course of a university degree are "child-related work". Under the Working with Children Act 2005 (Vic.), administered by the Department of Justice, a student teacher must obtain a Working with Children Check (WWCC) before commencing school experience placements in a school. The WWCC must remain current throughout the course. It is an offence under the Act to engage in school experience without holding a WWCC.

Students will not be allowed to commence school experience in any school in Victoria until a Working with Children Check is obtained. The Department of Education has requested that on the application form a student nominates the University as the (or one of the) employers. The University will then be sent a copy of the assessment notice. Because the University needs to assure a school that a student placed at the school has a current Working with Children Check, each student must give their authority to provide the assurance - a student will be required to sign an authority for the University to inform a school that a WWCC has or has not been obtained.

While the University will hold on file documentation relating to the WWCCs obtained by students engaged in school experience, it is each student's responsibility to ensure that he or she can produce the WWCC card to the school upon request and to keep the WWCC current under the Act.

Students are required to apply for a WWCC through a participating Australia Post outlet (which can be found on the Australia Post website or the Department of Justice website) and provide proof to the faculty that the WWCC has been undertaken.

Should a student fail to obtain a WWCC, practical training in a school will not be provided, and as

practical training is a requirement for completion of a teaching degree, the student may be unable to complete the degree. Should such a situation arise, the University will provide advice on options for tertiary study.

It is the responsibility of students undertaking placements outside Victoria to enquire about and, where necessary, to meet any similar legislative or other requirements concerning working with children.

### Professional Experience requirements

Students are required for registration purposes (and for the award of the degree) to have completed over the duration of their course a minimum of 80 days of supervised school experience. Students should ensure they are conversant with the Standards for Graduating Students as required by the Victorian Institute of Teaching. The school experience is organised by the Professional Experience Office and students do not make contact with schools regarding placements under any circumstances. Students are required to comply with the on-line instructions regarding enrolment/re-enrolment in school experience; failure to enrol/re-enrol jeopardises a student's school experience placement. S

Students should note that it is a requirement of the course that school experience is undertaken in conjunction with their curriculum studies and Education Major studies and during the time tabled dates unless, in exceptional circumstances, alternative arrangements are negotiated and agreed to in writing with the Professional Experience Office. Students should note that normally any paid or unpaid work undertaken in a school as an unqualified teacher/teacher's aide will not be recognised for credit transfer for supervised school experience for this course. Students may be required to complete the school experience component of the course outside the academic year.

A satisfactory level of teaching competence during supervised school experience is required for award of the degree. An "unsatisfactory" result on any school experience placement will be referred to the Faculty Academic Progress and Discipline Committee.

Graduates of an accredited teaching course should note that teacher registration is required in Victoria and is administered by the Victorian Institute of Teaching under the Education and Training Reform Act 2006 (Vic.). Prospective students should acquaint themselves with the requirements for registration in Victoria or in any other relevant location. These requirements include the ability to satisfy the Standards for Graduating Students (available at: [vit.vic.edu.au](http://vit.vic.edu.au))

### Professional Experience enrolment

Students need to carefully follow the instructions correctly when enrolling or re-enrolling online in school experience units. Failure to enrol or re-enrol correctly jeopardises a student's school experience placement and this could lead to a delay in the award of the degree. Students must follow Faculty rules in relation to the number of days of school experience to be completed for each placement as per the Professional Experience Handbook (available from the campus of enrolment) which includes the published school experience timetable. Students should note that a 'day' constitutes a whole school day (not part thereof).

Students should obtain a copy of the Professional Experience Handbook each year from the Professional Experience Office (also available at [deakin.edu.au/arts-ed/education/schoolexp](http://deakin.edu.au/arts-ed/education/schoolexp)). Information contained in the Handbook is updated annually and is a summary of Faculty rules in relation to school experience.

### Schedule of School Experience units Bachelor of Teaching (Secondary)

EPP101	Teacher-Learner Identity (B, G) (4 days)
EPP102	Learning-Teaching Communities (B, G) (6 days)

EPP207	Pedagogy (B) (10 days)
EPP304	Ways of Knowing Children and Adolescents (B) (15 days)
EPP305	Policy, Schooling and Society (10 days)
EPP406	Professional Identity and Curriculum Work (35 days)

To pass the units listed above pre-service teachers must successfully complete the unit work assignment component, submitting and passing the unit's associated assessment pieces; and successfully complete the appropriate professional experience days based in school/s. The practicum component is assessed primarily by the supervising classroom teacher in consultations with the pre-service teacher. Satisfactory completion of the practicum component within each education studies/professional experience unit is compulsory in order for the student to progress.

## COURSE OVERVIEW

Deakin's innovative Bachelor of Teaching (Science)/Bachelor of Science degree provides graduates with a full science degree and a complete secondary teaching qualification.

It will prepare you for a career in science education, but also provide career flexibility through the widening field of science communication, and science-related industries.

The flexible course structure gives you the opportunity to pursue two major study areas. Discipline and elective units in a variety of contemporary teaching fields – such as biology, chemistry, mathematical modelling and environmental science – will help you to build a breadth of knowledge in areas of interest.

The course aims to provide a broad, general education to equip you for employment in a wide range of science fields including secondary science teaching. It places great emphasis on industry experience and innovative teaching practices, and has a strong focus on integrating the traditional disciplines with vocational education and training.

The course includes 80 days of supervised school experience. Some of this experience will take place in non-school settings, consistent with current directions advocated by the Victorian Institute of Teaching. A strength of the course for teacher graduates is the wider conception of science teaching and learning contexts.

### Professional recognition

Approved by Victorian Institute of Teaching (VIT) as a preservice teaching qualification.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The Bachelor of Teaching (Science) is offered as a combined course of 32 credit points (four years of full time study or part-time equivalent) with the revised Bachelor of Science to prepare secondary teachers in the disciplines of science and mathematics. Each Faculty will teach 16 credit points.

To satisfy the Bachelor of Science requirements students must complete 16 credit points in the Faculty of Science, Engineering and Built Environment, including at least one 8-credit-point major sequence in a specific science discipline and a 4 credit point (minimum) science sub-major sequence consisting of 2 credit points at each of levels 1 and 2.

## Major sequences

Biology

Biological Chemistry

Environmental Science

Mathematical Modelling

## Working with Children Check

The Working with Children Act 2005 (Vic.) requires a person who engages in child-related work, as defined in the Act, to obtain an assessment notice under the Act, known as a Working with Children Check (WWCC). The Act is administered by the Department of Justice: [justice.vic.gov.au](http://justice.vic.gov.au) Professional experience placements in schools in the course of a university degree are "child-related work". Under the Working with Children Act 2005 (Vic.), administered by the Department of Justice, a student teacher must obtain a Working with Children Check (WWCC) before commencing school experience placements in a school. The WWCC must remain current throughout the course. It is an offence under the Act to engage in school experience without holding a WWCC.

Students will not be allowed to commence school experience in any school in Victoria until a Working with Children Check is obtained. The Department of Education has requested that on the application form a student nominates the University as the (or one of the) employers. The University will then be sent a copy of the assessment notice. Because the University needs to assure a school that a student placed at the school has a current Working with Children Check, each student must give their authority to provide the assurance - a student will be required to sign an authority for the University to inform a school that a WWCC has or has not been obtained.

While the University will hold on file documentation relating to the WWCCs obtained by students engaged in school experience, it is each student's responsibility to ensure that he or she can produce the WWCC card to the school upon request and to keep the WWCC current under the Act.

Students are required to apply for a WWCC through a participating Australia Post outlet (which can be found on the Australia Post website or the Department of Justice website) and provide proof to the faculty that the WWCC has been undertaken.

Should a student fail to obtain a WWCC, practical training in a school will not be provided, and as practical training is a requirement for completion of a teaching degree, the student may be unable to complete the degree. Should such a situation arise, the University will provide advice on options for tertiary study.

It is the responsibility of students undertaking placements outside Victoria to enquire about and, where necessary, to meet any similar legislative or other requirements concerning working with children.

### Professional experience requirements

The practicum units within the Bachelor of Teaching (Science)/Bachelor of Science are flexibly arranged to incorporate experience with the teaching and learning of science in industry and community settings such as museums or parks, as well as schools.

For students who commenced in 2007 and 2008: In the first two years of the course these experiences will be organised and individually negotiated as part of the series of 'professional practice' units. They may include special projects such as mentor roles in science activities and projects in schools or other sites.

In the third and fourth year of the course the practicum will continue to incorporate diverse settings but will shift more substantially to school based practice.

For students commencing 2009 and later: The first year of the course will involve some observation days in schools during the unit EES101; in addition, practical experiences will be organised and individually negotiated as part of the series of 'professional practice' units. They may include special projects such as mentor roles in science activities and projects in schools or other sites. In the second, third and fourth year of the course the practicum will continue to incorporate diverse settings but will shift more substantially to school based practice.

The course aims to develop knowledge of the way science is practised in contemporary settings, and of issues in the public understanding and learning of science, such that graduates will be able to bring a rich set of understandings and skills to their teaching of science in schools. Students are required for registration purposes (and for the award of the degree) to have completed over the duration of their course a minimum of 80 days of supervised school experience. Students should ensure they are conversant with the Standards for Graduating Students as required by the Victorian Institute of Teaching. The school experience is organised by the Professional Experience Office and students do not make contact with schools regarding placements under any circumstances. Students should note that it is a requirement of the course that school experience is undertaken in conjunction with their curriculum studies and Education Major studies and during the time tabled dates unless, in exceptional circumstances, alternative arrangements are negotiated and agreed to in writing with the Professional Experience Office. Students should note that normally any paid or unpaid work undertaken in a school as an unqualified teacher/teacher's aide will not be recognised for credit as recognised prior learning in supervised school experience for this course. Students may be required to complete the school experience component of the course outside the academic year. A satisfactory level of teaching competence during supervised school experience is required for award of the degree. An "unsatisfactory" result on any school experience placement will be referred to the Faculty Academic Progress and Discipline Committee.

Graduates of an accredited teaching course should note that teacher registration is required in Victoria and is administered by the Victorian Institute of Teaching under the Education and Training Reform Act 2006 (Vic.). Prospective students should acquaint themselves with the requirements for registration in Victoria or in any other relevant location. These requirements include the ability to satisfy the Standards for Graduating Students (available at: [vit.vic.edu.au](http://vit.vic.edu.au))

## Professional Experience enrolment

Students must follow Faculty requirements in relation to the number of days of school experience to be completed for each placement as per the Professional Experience Handbook (available from the campus of enrolment) which includes the published school experience timetable. Students should note that a 'day' constitutes a whole school day (not part thereof).

Students should obtain a copy of the Professional Experience Handbook each year from the Professional Experience Office (also available at [www.deakin.edu.au/arts-ed/education/schoolexp](http://www.deakin.edu.au/arts-ed/education/schoolexp)). Information contained in the Handbook is updated annually and is a summary of Faculty requirements in relation to school experience.

## COURSE OVERVIEW

Deakin's innovative Bachelor of Teaching (Science)/Bachelor of Science degree provides graduates with a full science degree and a complete secondary teaching qualification.

It will prepare you for a career in science education, but also provide career flexibility through the widening field of science communication, and science-related industries.

The flexible course structure gives you the opportunity to pursue two major study areas. Discipline and elective units in a variety of contemporary teaching fields – such as biology, chemistry, mathematical modelling and environmental science – will help you to build a breadth of knowledge in areas of interest. In addition to specialising in two major study areas the Bachelor of Science degree component of the course requires you to complete at least one unit in each of the areas of biology, chemistry, physics, environmental studies and mathematics. This will give you a broad knowledge base in science which represents a key skill in most science careers and particularly in the career field of science teaching.

The course places great emphasis on industry experience and innovative teaching practices, and has a strong focus on integrating the traditional disciplines with vocational education and training.

The course includes 80 days of supervised school experience. Some of this experience may take place in non-school settings, consistent with current directions advocated by the Victorian Institute of Teaching.

### Professional recognition

Approved by Victorian Institute of Teaching (VIT) as a preservice teaching qualification.

### International students and permanent residents

Graduates of this course who are intending to apply for registration with the Victorian Institute of Teaching (VIT) will be required to demonstrate an IELTS of an average band score of 7.5 across all four skill areas where there is no score below 7 in any of the four skills areas and a score of no less than 8 in speaking and listening. Further information

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The Bachelor of Teaching (Science) is offered as a combined course of 32 credit points (four years of full time study or part-time equivalent) with the revised Bachelor of Science to prepare secondary teachers in the disciplines of science and mathematics. Each Faculty teaches 16 credit points.

To satisfy the Bachelor of Science requirements students must complete 16 credit points in the Faculty of Science, Engineering and Built Environment, including at least one 8-credit-point major sequence in a specific science discipline and a 4 credit point (minimum) science sub-major sequence consisting of 2 credit points at each of levels 1 and 2.

## Professional experience requirements

Professional experience within the Bachelor of Teaching (Science)/Bachelor of Science will be embedded within the Education Major units (EPP101, EPP102, EPP207, EPP304, EPP305, EPP406), the first of which will run in the first Trimester of the first year of this course. This enables students to build up skills in teaching in schools setting over the length of the course as well as gaining greater opportunities to connect theory with practice.

Students are required for registration purposes (and for the award of the degree) to have completed over the duration of their course a minimum of 80 days of supervised school experience. Students should ensure they are conversant with the Standards for Graduating Students as required by the Victorian Institute of Teaching. The school experience is organised by the Professional Experience Office and students do not make contact with schools regarding placements under any circumstances.

Students should note that normally any paid or unpaid work undertaken in a school as an unqualified teacher/teacher's aide will not be recognised for credit transfer for supervised school experience for this course. Students may be required to complete the school experience component of the course outside the academic year. A satisfactory level of teaching competence during supervised school experience is required for award of the degree. An "unsatisfactory" result on any school experience placement will be referred to the Faculty Academic Progress and Discipline Committee.

Graduates of an accredited teaching course should note that teacher registration is required in Victoria and is administered by the Victorian Institute of Teaching under the Education and Training Reform Act 2006 (Vic.). Prospective students should acquaint themselves with the requirements for registration in Victoria or in any other relevant location. These requirements include the ability to satisfy the Standards for Graduating Students (available at: [vit.vic.edu.au](http://vit.vic.edu.au))

#### Professional Experience enrolment

Students must follow Faculty requirements in relation to the number of days of school experience to be completed for each placement as per the Professional Experience Handbook (available from the campus of enrolment) which includes the published school experience timetable. Students should note that a 'day' constitutes a whole school day (not part thereof).

Students should obtain a copy of the Professional Experience Handbook each year from the Professional Experience Office (also available at [www.deakin.edu.au/arts-ed/education/schoolexp](http://www.deakin.edu.au/arts-ed/education/schoolexp)). Information contained in the Handbook is updated annually and is a summary of Faculty requirements in relation to school experience.

## Professional Experience units

### Bachelor of Teaching (Science)/Bachelor of Science

EPP101	Teacher-Learner Identity (B, G) (4 days)
EPP102	Learning-Teaching Communities (B, G) (6 days)
EPP207	Pedagogy (B) (10 days)
EPP304	Ways of Knowing Children and Adolescents (B) (15 days)
EPP305	Policy, Schooling and Society (10 days)
EPP406	Professional Identity and Curriculum Work (35 days)

To pass the units listed above pre-service teachers must successfully complete the unit work assignment component, submitting and passing the unit's associated assessment pieces; and successfully complete the appropriate professional experience days based in school/s. The practicum component is assessed primarily by the supervising classroom teacher in consultations with the pre-service teacher. Satisfactory completion of the practicum component within each education studies/professional experience unit is compulsory in order for the student to progress.

# Bachelor of Nursing/Bachelor of Midwifery

<b>AWARD GRANTED</b>	Bachelor of Nursing/Bachelor of Midwifery
<b>CAMPUS</b>	Offered at Melbourne Burwood Campus, Geelong Waterfront Campus, Warrnambool Campus
<b>DURATION</b>	4 years full time (This course is only available full time)
<b>CRICOS COURSE CODE</b>	057656M
<b>DEAKIN COURSE CODE</b>	D355

*Course structure for students who commenced in 2010 onwards. Students who commenced prior to 2010 must follow the course structure applicable to their year of commencement.*

## COURSE OVERVIEW

The combined course of Bachelor of Nursing/Bachelor of Midwifery is designed to provide specialist skills related to midwifery in addition to those of a Registered Nurse. Graduates are highly sought after for their ability to provide person-centred, evidence-based care of high quality, focused toward improving client outcomes.

Students may elect to exit the combined program and complete the Bachelor of Nursing requirements only.

### Clinical practice

Beginning soon after commencement of the course, early exposure to the clinical environment gives students extensive opportunities to develop clinical skills in a variety of settings including acute/sub-acute care, medical and surgical care, midwifery, paediatrics, aged care, rehabilitation, community nursing and mental health nursing. Students will spend over 42 weeks in various health care settings, including hospitals and community health centres in metropolitan, rural and regional areas.

### Professional recognition

This course is specifically designed to fulfil the registration requirements for Registered Nurse (Division 1) and the registration requirements for Registered Midwife of the Nursing and Midwifery Board of Australia (NMBA).

### Department of Human Services policy and Working with Children check

In accordance with Department of Human Services policy\*, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course. In accordance with the Working with Children Act 2005\*\*, all students are required to undertake a Working with Children Check at commencement of the course. Students who fail to obtain a Police Record Check and a Working with Children Check prior to the commencement of clinical placement will not be able to undertake clinical placement and this will impede progress in the course. Students may also be required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience. A health organisation may refuse to accept a student for placement if the student's immunisation status is not satisfactory to the health organisation.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The Bachelor of Nursing / Bachelor of Midwifery consists of thirty two (32) credit points of study. Ten (10) credit points of units are course grouped for both nursing and midwifery; eleven (11) credit points are specific to nursing and eleven (11) credit points are specific to midwifery. The course aims to provide graduates with a blend of knowledge, skill, and ethical behaviours appropriate to the professions of both nursing and midwifery.

There is an expectation that students be available to undertake clinical practicum outside of trimester dates. Failure of a compulsory practicum component in any unit of study will normally lead to exclusion. All expenses associated with clinical practicum are the responsibility of the student.

# Bachelor of Design (Architecture)/ Bachelor of Construction Management

<b>AWARD GRANTED</b>	Bachelor of Design (Architecture)/Bachelor of Construction Management
<b>CAMPUS</b>	Offered at Geelong Waterfront Campus
<b>DURATION</b>	5 years full-time or part-time equivalent
<b>CRICOS COURSE CODE</b>	060347J
<b>DEAKIN COURSE CODE</b>	D364

*Please note that the title of this course will be revised to D364 Bachelor of Design (Architecture)/Bachelor of Construction Management (Honours)\* as of 2014.*

*\* Please note that this course is not available to international on campus students, pending CRICOS registration.*

## COURSE OVERVIEW

The construction industry is increasingly looking for multi-skilled graduates. Deakin's Bachelor of Design (Architecture)/Bachelor of Construction Management ensures that you graduate with both architecture and construction management specialisations.

This combined course offers an excellent mix of hands-on practice and theory, with study areas including building economics and law, project management, building technology, measurement and estimation, quantity surveying, building practice, architectural ideas, history, philosophy, design, sustainability, communication and building science and technology.

### Professional recognition

Graduates of this course will qualify for membership of the Australian Institute of Building (AIB), the Chartered Institute of Building (CIOB), the Australian Institute of Quantity Surveyors (AIQS) and the Royal Institution of Chartered Surveyors (RICS).

The construction management stream of this double degree is professionally accredited by the Chartered Institute of Building (CIOB) and the Royal Institute of Chartered Surveyors (RICS). The architecture stream of this double degree is accredited (within Australia) by the Australian Institute of Architects, the Architects Registration Board of Victoria and the Architects Accreditation Council of Australia, when followed by successful completion of the Master of Architecture (Design), S701.

## COURSE OVERVIEW

The Bachelor of Construction Management/Bachelor of Facilities Management combined degree offers a unique mix of construction and property disciplines of which is a significant benefit to employers. Graduates are able to work across traditional professional boundaries, from property investment and development through to space management and workplace logistics, using key project-management skills to ensure optimum value for money is attained at all stages of the property life cycle.

The course allows the opportunity for students to complete an honours stream for the Construction Management component or for the Facilities Management component. Refer to your course advisor for specific options.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The degree requires students to complete 40 credit points over the equivalent of five years of full-time study. Students can elect to exit after 24 credit points of study with a Bachelor of Facilities Management; also students may elect to exit after 32 credit points of study with a Bachelor of Construction Management.

## COURSE OVERVIEW

Bachelor of Commerce/Bachelor of Information Systems allows students to combine studies Information Systems with studies in commerce such as accounting, finance, economics, marketing and management leading to a broad range of technology enabled business roles. Graduates with double degrees in commerce and technology are highly sought after by employers.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The combined course comprises 32 credit points of study. Students will undertake 16 credit points in the Bachelor of Commerce and 16 credit points in the Bachelor of Information Systems.

Course requirements for both the Bachelor of Commerce (M300) and the Bachelor of Information Systems (M340) must be satisfied.

The 16 credit points studied within the Bachelor of Information Systems must include the 16 credit points of core units.

The 16 credit points studied within the Bachelor of Commerce must include the 10 credit points of Bachelor of Commerce core units: MAA103, MAE101, MAE102, MAF101, MLC101, MMM132, MIS101, MIS171, MMH299 and MMK277 and MCA010 (0 credit points). In addition students must complete a prescribed Commerce major sequence and a minimum of 4 credit points at level 3 which must be Faculty of Business and Law units course grouped to a Faculty of Business and Law undergraduate degree.

See course entry for Bachelor of Commerce (M300) or Bachelor of Information Systems (M340).

# Bachelor of Engineering / Bachelor of Information Technology

<b>AWARD GRANTED</b>	Bachelor of Engineering / Bachelor of Information Technology
<b>CAMPUS</b>	Offered at Geelong Waurm Ponds Campus, Off campus
<b>DURATION</b>	5.5 years full-time or part-time equivalent
<b>CRICOS COURSE CODE</b>	075867F
<b>DEAKIN COURSE CODE</b>	D375

*There will be no intake into this course in 2014.*

## COURSE OVERVIEW

The Bachelor of Engineering/Bachelor of Information Technology course takes five and a half years to complete on a full-time basis or part time equivalent (unless trimesters are fully utilised by students).

You may combine one of the engineering major sequences - civil, electrical and electronics, mechanical or mechatronics and robotics engineering - with a major in Information Technology.

## Career opportunities

The Bachelor of Engineering/Bachelor of Information Technology offers you the chance to broaden your career opportunities after graduation. The opportunities available will depend on the major sequences you take within your course. For information on career outcomes for this combined course see the entries for Bachelor of Information Technology and Bachelor of Engineering.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

This combined course comprises a total of 44 credit points which must include the following:

### Engineering component:

- 30 credit points of core engineering units
- One approved Engineering major:
  - civil
  - electrical and electronics
  - mechanical
  - mechatronics and robotics
- Combined Engineering students are exempt from Engineering elective requirements.
- See course entry for the Bachelor of Engineering (S367) for details of core units.

### Information Technology component:

- 16 credit points of Information Technology units including:
  - 8 credit points of core IT units
  - **One IT major:**
    - Computer Science
    - Game Development
    - Networking

- Security
- Software Development
- Mathematical Modelling
- 2 Engineering units course grouped for IT: SIT172 and SEP291.
- See course entry for the Bachelor of Information Technology (S326) for further details.

Students must meet the minimum requirements for each award.

## COURSE OVERVIEW

Deakin University was the first university in Australia to offer combined nursing degree courses. This was in response to signals from the health sector that there was a need for nurses with multidisciplinary skills.

Throughout the Bachelor of Nursing /Bachelor of Public Health and Health Promotion, you will develop skills in the provision of nursing care and acquire a thorough understanding of the social and environmental factors that cause poor health, together with the factors that create and sustain good health. You will study a wide range of units that provide the knowledge base for health promotion practice such as environmental health, health sociology, planning and evaluation, epidemiology, biostatistics and research. You will learn to apply public health and health promotion strategies to populations at risk of disease and will gain a sound understanding of the importance of health education, the factors influencing health practices, and strategies to promote the health of individuals and groups.

Students may elect to exit the combined program and complete either the Bachelor of Nursing requirements OR the Bachelor of Public Health and Health Promotion requirements only.

### Professional recognition

This course is specifically designed to fulfil the registration requirements for Registered Nurse (Division 1) of the Nursing and Midwifery Board of Australia (NMBA).

### Department of Human Services policy and Working with Children check

In accordance with Department of Human Services policy\*, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course. In accordance with the Working with Children Act 2005\*\*, all students are required to undertake a Working with Children Check at commencement of the course. Students who fail to obtain a Police Record Check and a Working with Children Check prior to the commencement of clinical placement will not be able to undertake clinical placement and this will impede progress in the course. Students may also be required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience. A health organisation may refuse to accept a student for placement if the student's immunisation status is not satisfactory to the health organisation.

## COURSE OVERVIEW

Deakin University was the first university in Australia to offer combined nursing degree courses. This was in response to signals from the health sector that there is a need for nurses with multidisciplinary skills.

This course is particularly well suited to those interested in the growing field of mental health nursing. It will prepare you with a strong understanding of research methods in psychology, human behaviour and mental processes and provide you with the knowledge and skills to comprehensively care for patients.

Throughout the course you will benefit from our purpose-built clinical skills laboratories which provide you with the facilities and equipment required to develop practical skills which are further enhanced through clinical work placements.

In addition you will study a wide range of units that provide the scientific knowledge base for mental health practice such as psychology as a behavioural science, statistics, psychological testing and measurement, mental health promotion and research.

### Professional recognition

On successful completion of this course, you will be eligible for registration as a Registered Nurse (Division 1) with the Nursing and Midwifery Board of Australia (NMBA). You will also have acquired a three-year undergraduate psychology sequence that is recognised by the Psychology Board of Australia (PBA).

### Department of Human Services policy and Working with Children check

In accordance with Department of Human Services policy\*, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course. In accordance with the Working with Children Act 2005\*\*, all students are required to undertake a Working with Children Check at commencement of the course. ## COURSE OVERVIEW

Health is crucial to the wellbeing of individuals and society with numerous career opportunities worldwide for health and community services professionals. Businesses are also recognising the importance of the health of employees and the communities they deal with.

This combined course provides you with a thorough understanding of the social and environmental factors that cause poor health as well as those factors that create and sustain good health. Throughout this course you will examine how health is created or influenced in our society and the wide range of approaches for improving the population's health such as community engagement, program planning and evaluation, capacity building, research, policy development and health communication. These approaches reflect professional practice and are applied to a range of settings and population groups.

You will also gain a professional business qualification through your studies in the complementary discipline of commerce. These studies incorporate aspects of business systems and processes, management, marketing, human resources, finance, economics, commercial law and business information systems, depending on the major sequence you choose to undertake in the commerce component of your degree.

## COURSE OVERVIEW

Deakin's Bachelor of Exercise and Sport Science/Bachelor of Business (Sport Management) is designed for students who wish to gain expertise in both exercise and sport science and business (sport management). Graduates of this combined course will be equipped to provide enhanced professional leadership in the field and make a marked impact on the continued development of the Australian sporting industry.

The exercise and sport science aspect of the course will equip you with the necessary skills, understanding and attitudes to pursue a professional career in the exercise and sport fields. The core units provide an understanding of the sciences underpinning both competitive sport and recreational physical activity, and the relationship between physical activity and health. You can further your knowledge and explore other study areas of interest by choosing elective units in physiology, metabolism, behaviour, movement and physical activity. The business (sport management) component provides you with a solid foundation in business studies, and the unique knowledge and specialist skills required by sport managers in Australian organisations, as identified within the industry.

### Work-Integrated Learning

This combined course features extensive practical experience in exercise and sport science so you can start your career before you graduate with hands-on work placement experience.

You have the opportunity to undertake hands-on experience in a variety of sporting, exercise or health environments. These may vary from local, state or national sporting organisations and professional sporting clubs; state and national institutes of sport; as well as health, fitness and rehabilitation providers. The roles can involve coaching, sport science, sports administration, sport management, rehabilitation and fitness. Many graduates have been offered work based on their excellent fieldwork performance.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The Bachelor of Exercise and Sport Science/Bachelor of Business (Sport Management) comprises 32 credit points. 16 credit points are from the Bachelor of Exercise and Sport Science comprising 14 core units and two HSE electives at year 2 or 3. HSE312 Exercise and Sport Science Practicum is a core unit and can be completed in either Trimester 1 or 2. The Bachelor of Business (Sport Management)

requires completion of 16 credit points (all of which are core units).

Students are required to complete HSE010 Exercise and Sport Science Laboratory Safety prior to their first laboratory based unit in this course.

Students must also complete MCA010 Communication for Academic Studies. This is a compulsory unit for all students commencing studies with the Faculty of Business and Law and will help students to get off to the best possible start in developing academic communication skills at Deakin.

Note: All students completing HSE101 are required to complete a Level 2 First Aid at their own expense. Current Level 2 First Aid certificates will be accepted.

*From 2010, this course is for continuing students only.*

## COURSE OVERVIEW

This combined course brings together two successful Masters programs which tap into different but related areas of academic expertise and student interest - International Relations and International Business. One area of study usefully enhances the other. For any business to occur within, but especially across national borders, students require more than business training; they also need to understand the historical, cultural, sociological and international context in which business occurs. Those engaged in international business will gain knowledge of the international system and the countries and regions in which they are operating; while those interested in international relations can focus on the economic and business dimensions of relations between states. In so doing, the combined course offers a unique professional edge to students.

## COURSE OVERVIEW

The Master of Business Administration (International) [MBA(Intl)] educates business managers who can operate effectively in an international context and with the capabilities for dealing with all aspects of an organisation's management. The Master of International Finance [MIF] provides students with the specialised skills in investments, valuation, portfolio construction, and risk management, required in today's increasingly complex and evolving field of international finance, and its application within the broader world of international business.

The combined course develops a set of knowledge and skills which meets the demand in the workplace for competent managers in large organisations who have an excellent knowledge of finance. The course also enables students to undertake postgraduate coursework study across a greater range of units and disciplines than is possible in a single course, thereby enhancing knowledge and understanding of international business.

# Master of Politics and Policy / Master of Business Administration

<b>AWARD GRANTED</b>	Master of Politics and Policy / Master of Business Administration
<b>CAMPUS</b>	Off campus
<b>DURATION</b>	2 years full-time or part-time equivalent
<b>DEAKIN COURSE CODE</b>	D720

## COURSE OVERVIEW

With more fluid labour markets and career patterns, and governance models increasingly characterised by public-private partnerships and other cross-sectoral arrangements, the combined Master of Politics and Policy/Master of Business Administration provides a unique opportunity for you to acquire a broad range of knowledge and skills applicable in many sectors of the economy.

The Master of Politics and Policy/Master of Business Administration is a 16 credit point combined course which brings together two existing courses: the Master of Politics and Policy, which is a program tailored for employees in the public and community sectors; and the Master of Business Administration, which is designed for managers in the private, public and community sectors who wish to extend their knowledge and advance their career.

The course will provide you with a strong grounding in the development, implementation and analysis of public policy. Interrelationships between government, the private sector and community organisations, as well as between different levels of government (municipal, state, national and international) will also be studied. More broadly the course addresses the problems of governance within democratic political systems, at the same time aiming to impart knowledge and business skills in areas such as strategic management, finance, economics and marketing.

## FEES AND CHARGES

Equivalent Full Time Student Load (EFTSL)

EFTSL is the standard annual full time load. Eight credit points is the standard full time load for one year of study.

### Fee paying place - Domestic (DFP)

A Fee paying place is one for which the university does not receive any government funding. As such, students enrolled in these places are required to contribute the full cost of their course.

Fee paying places are available to domestic students. Domestic students are those who are Australian citizens, New Zealand citizens or holders of a permanent visa.

\*Indicative course fees should be used as a guide only. Deakin University assumes no responsibility for persons relying on indicative course fees to calculate the total future cost of their course. The indicative course fee is an estimate based on a typical enrolment a student may have for their first year of study in 2013 for their course. The indicative course fee is based on historical first year enrolments within the course, reflecting the discipline cluster of the units which may be studied within the course. The actual fees charged will depend on the individual units chosen. The cost of each unit can be viewed from the Unit Search. Please note that the fees per unit/credit point may increase annually due to rises in the cost of course delivery and services.

## COURSE RULES

To qualify for the award of Master of Politics and Policy/Master of Business Administration a student must complete a 16 credit point course of study comprising 8 credit points of units undertaken in the Faculty of Arts and Education and 8 credit points of units undertaken in the Faculty of Business and Law. The dissertation component (AIX702 and AIX703) provides a pathway for students to apply for admission to PhD.

## COURSE OVERVIEW

The Master of Information Technology/Master of Commerce is a combined degree which provides a balance of theoretical and practical skills in both modern information technology and recent developments in commerce. This course covers the technical and theoretical essentials of these two areas, giving you the opportunity to apply this knowledge in practice, helping you to become qualified professional in both information technology and commerce.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The Master of Information Technology/Master of Commerce is a 16-credit-point degree including 6 credit points of core units (depending upon previous studies), 6 credit points of elective Information Technology units (which may form an IT specialism), and 4 credit points not previously studied from the Master of Commerce (choice of units must form a Master of Commerce specialisation).

Students who do not have an undergraduate degree in IT or related fields are required to complete the following four foundation units in addition to the standard core:

SIT771	Object-Oriented Development (B, X)
SIT772	Database and Information Retrieval (B, X)
SIT773	Software Design and Engineering (B, X)
SIT774	Web and Internet Programming (B, X)

## Specialisations

There are four specialised streams:

**Network Computing**  
**Software Development**  
**IT Security**  
**IT Services**

## COURSE STRUCTURE

# Bachelor of Early Childhood Education

<b>AWARD GRANTED</b>	Bachelor of Early Childhood Education
<b>CAMPUS</b>	(i) Offered at Melbourne Burwood Campus (ii) Offered at Geelong Waurm Ponds Campus (iii) Offered at Warrnambool Campus Or (iv) Offered in conjunction with Deakin's TAFE partners: <ul style="list-style-type: none"> <li>• Chisholm, Dandenong and Mornington Peninsula</li> <li>• SuniTAFE, Swan Hill</li> <li>• South West Institute of TAFE, Portland</li> </ul>
<b>DURATION</b>	4 years full-time, 3 years using 3 Trimesters, or part-time equivalent
<b>DEAKIN COURSE CODE</b>	E330
	<i>New course commencing 2013. Applications direct to the University.</i>

## COURSE OVERVIEW

Melbourne Burwood Campus offering is in a fully on-campus, on-line e-learning mode of learning. Full-time Burwood campus students attend two or three days on campus, face to face classes per week. Some units may be arranged in intensive sessions at least three times each trimester. Students undertake one to two professional experiences per year.

Geelong Waurm Ponds and Warrnambool Campuses offerings are in a community-based, on-line e-learning and face-to-face mode of learning. Full-time Waurm Ponds and Warrnambool students attend two-days on campus face-to-face intensive sessions held at least three times each trimester. Students undertake one to two professional experiences per year.

Enrolment in Deakin's Bachelor of Early Childhood Education (E330) is available for the first time to Year 12 applicants and via the <http://www.deakin.edu.au/future-students/doorstep/index.php> delivery mode. The course has been adapted to meet new national and international standards in early childhood education, and includes a primary teaching component, allowing students to teach children up to age 8 years. The course meets the requirements of the relevant accrediting authorities for working in early childhood and primary school settings.

The course teaches students to apply an understanding of child development, curriculum theories and pedagogies in designing and implementing child-centred, play-based and developmentally appropriate programs in childcare, preschool and school contexts. Students also learn to identify and respond positively to contemporary issues and the changing work context within early childhood and primary education.

This course is offered in flexible study modes over 4 years, or can be fast-tracked by studying under Deakin's 3-trimester system, enabling completion in 9 trimesters.

**Major studies:** Education (Teacher education), Literacy (Literacy and numeracy programs), Numeracy (Education studies), Professional experience practice (Authentic practicum placements), Teaching pedagogies (Early childhood and primary), Teacher education (Early childhood and primary), and Research.

## Professional recognition

Victorian Institute of Teaching (VIT)  
Australian Children's Education and Care Quality Authority (ACECQA)  
Australian Institute for Teaching and School Leadership (AITSL)

International students or permanent residents should note that to apply for registration with the Victorian Institute of Teaching (VIT) they will be required to demonstrate an IELTS of an average band

score of 7.5 across all four skill areas where there is no score below 7 in any of the four skills areas and a score of no less than 8 in speaking and listening. You are advised to read the VIT's Qualification for Teachers Registration policy carefully which is available at: Further information

- (ii) From 2015, units ECE350, ECE390, and ESE499 also offered in trimester 2.

**Working With Children Check**

The Department of Education and Early Childhood Development (Victoria) requires all student teachers to hold a current Working With Children Check (WWCC) before being allowed to undertake professional experience placements in education settings in Victoria. Students who are given a negative assessment notice will be advised of alternative options for tertiary study due to their inability to satisfy the professional experience requirements of the course.

It is the responsibility of students undertaking placements outside Victoria to enquire about and, where necessary, to meet any similar legislative or other requirements concerning working with children.

# Bachelor of Education - 4th Year

<b>AWARD GRANTED</b>	Bachelor of Education
<b>DURATION</b>	1 year full-time or part-time equivalent
<b>CRICOS COURSE CODE</b>	012781M
<b>DEAKIN COURSE CODE</b>	E356

*This course is offered to continuing students only. 2005 or prior enrolled students, should contact the course director for advice on unit selection.*

## COURSE OVERVIEW

Deakin's Bachelor of Education – 4th year offers three-year trained primary teachers a fourth year of study in order to give them access (where relevant) to full registration as a teacher, promotion, or to allow them to apply for positions in other schools or systems. The course has a broad range of elective units to choose from, and therefore caters for the wide range of prospective student requirements.

It is an accredited fourth year of study for teachers for employment purposes.

### Professional recognition

The Bachelor of Education – 4th year course is recognised by the Department of Education and Training and the Victorian Institute of Teaching as an accredited fourth year of study and for employment in primary schools.

### Mode of study

While the course is taken by off campus study, it is possible to take some on campus electives, held mainly on the Burwood campus in the evenings.

### Fees and charges

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

### Course rules

To be awarded the Bachelor of Education a student must satisfactorily complete not less than 8 credit points of study that:

- shall include at least 6 credit points from the list of course-grouped units;
- shall include not less than 6 credit points at level 4 or higher;
- may include no more than 2 credit points at level 3; and
- may include no more than 2 credit points from another Faculty at level 2 or higher.

Note: Students may complete up to 4 modules in assessed mode from the Framework for Accredited Teacher Professional Development.\*

### Detailed course rules

The course of study shall normally be completed within a period of not less than two trimesters of full-time study or part-time equivalent and not more than five trimesters of study or part-time equivalent.

Further extensions of time may be granted with the permission of the Faculty Board which must not exceed ten consecutive years from the date the student first enrolled in the course.

The course of study may include satisfactory completion of a specified number of days of supervised school experience to meet the requirements of an employing body.

The course of study may include specific curriculum method studies to meet the requirements of an employing body.

#### Course structure

There are normally no compulsory studies and students may develop an individual study program from the wide range of units offered. Some units may be subject to quotas. Therefore, when selecting units, student should list additional units in priority of interest. In addition some units which cover core curriculum areas are included and students with little or no recent school teaching experience are encouraged to select these units. Each unit is worth 1 credit point unless otherwise specified. It is strongly recommended that students returning to teaching after a substantial absence take the Refresher Course for Returning Teachers offered by the Centre for Leadership and Renewal which includes an introduction to recent Victorian curriculum initiatives. See \* Framework for Accredited Teacher Professional Development details below

### 1. Primary Curriculum Methods units

It is strongly recommended, but not compulsory, that teachers returning to work enrol in the following units. This particularly applies to teachers trained more than ten levels ago and who have not taught in primary schools within the last five levels. These units provide basic primary curriculum methods, comparable to what would be studied in a current preservice course. These units assume that you have access to schools but not that you will be a classroom teacher.

NOTE: These Primary Curriculum units are being phased out between 2010 and 2013, and are marked 'for continuing students only'. If you are a newly enrolled student and experience difficulty enrolling in these units you should contact the course director or a student adviser in the Faculty of Arts and Education to seek permission. Units ECL400, EEP501 and EME497 are pipelining from 2010 (for continuing students only).

#### Trimester 1

ECA551	Primary Arts Education (X)
ECL400	Primary Language Education 1 (X)
ECS501	Primary Humanities, Societies and Environments (X)
EME500	Primary Mathematics Education 2 (X)

#### Trimester 2

ECL500	Primary Language Education 2 (X)
EME497	Primary Mathematics Education 1 (X)
ESH500	Primary Physical and Health Education (B, X)
EES540	Primary Science Education (X)
EEP501	Primary School Experience 5A (B, G, X) see note below

Notes:

- (i) All units are 1 credit point value unless otherwise noted.
- (ii) EES540 is a 0.75 credit point unit.
- (iii) EEP501 is a 0.25 credit point unit, available for students enrolling in EES540.
- (iv) ECL500 not offered Trimester 2 2013, re-offered 2014.

### 2. Specialist Interest units

The elective units listed below are intended for experienced teachers who wish to develop a specialist interest in particular areas of teaching or of the curriculum. They do not require classroom access. They generally relate to both primary and secondary settings.

#### Trimester 1

ECA433	Arts Education Discipline Study 3 (B, G, W, X)
EEC381	Classroom and Behaviour Management (ONLINE)
ESP437	Teaching for Interpersonal Development (B) (On campus only)

**Trimester 2**

ECA434	Arts Education Discipline Study 4 (B, G, W, X)
ECL470	Children's Literature in the Classroom (X)
ECP303	Child Protection (B, X)
ESM438	Evaluating Children's Progress
ESP401	Student Behaviour Management and Welfare (B) (On campus only)
ESP485	Teaching Thinking Skills (B) (On campus only)
EST430	Educational Software Tools 1 (ONLINE)
ECL470	not offered 2013, re-offered 2014.

**Trimester 3**

EEH315	Teaching Sexuality Education in the Middle Years (B, S) (Intensive mode)
EEG402	Teaching in a Global World (B, G, X)

**Note:**

- (i) ECA433, ECA434 students are to select Visual Arts specialism (off campus) or Music specialism offered on campus at Burwood or off campus.
- (ii) ECA433, ECA434 students wishing to select other specialisms with these units must seek Course Director approval.
- (iii) ESM438 available in alternate levels 2014, 2016.

**\*Framework for Accredited Teacher Professional Development**

Framework for Accredited Teacher Professional Development modules are offered by the Faculty of Arts and Education (for further information contact the Centre for Partnerships and Projects in Education (CPPE), Tel 03 9244 6384 Melbourne Burwood Campus, Fax 03 9251 7430, Email: cppe@deakin.edu.au). These modules are professional development short courses offered to practising teachers. Students will receive credit for up to four of these modules towards their course if they are taken in assessed mode, that is, if the prescribed assessment is completed at a satisfactory standard.

**Working with Children Check**

The Working with Children Act 2005 (Vic.) requires a person who engages in child-related work, as defined in the Act, to obtain an assessment notice under the Act, known as a Working with Children Check (WWCC). The Act is administered by the Department of Justice: [justice.vic.gov.au](http://justice.vic.gov.au). School experience placements in schools in the course of a university degree are "child-related work". Under the Working with Children Act 2005 (Vic.), administered by the Department of Justice, a student teacher must obtain a Working with Children Check (WWCC) before commencing school experience placements in a school. The WWCC must remain current throughout the course. It is an offence under the Act to engage in school experience without holding a WWCC.

Students will not be allowed to commence school experience in any school in Victoria until a Working with Children Check is obtained. The Department of Education has requested that on the application form a student nominates the University as the (or one of the) employers. The University will then be sent a copy of the assessment notice. Because the University needs to assure a school that a student placed at the school has a current Working with Children Check, each student must give their authority to provide the assurance - a student will be required to sign an authority for the University to inform a school that a WWCC has or has not been obtained.

While the University will hold on file documentation relating to the WWCCs obtained by students engaged in school experience, it is each student's responsibility to ensure that he or she can produce the WWCC card to the school upon request and to keep the WWCC current under the Act.

Students are required to apply for a WWCC through a participating Australia Post outlet (which can be found on the Australia Post website or the Department of Justice website) and provide proof to the faculty that the WWCC has been undertaken.

Should a student fail to obtain a WWCC, practical training in a school will not be provided, and as practical training is a requirement for completion of a teaching degree, the student may be unable to complete the degree. Should such a situation arise, the University will provide advice on options for tertiary study.

It is the responsibility of students undertaking placements outside Victoria to enquire about and, where necessary, to meet any similar legislative or other requirements concerning working with children.

**Professional Experience requirement**

Students are required for registration purposes (and for the award of the degree) to have completed

over the duration of their course a minimum of 45 days of supervised school experience. Students should ensure they are conversant with the Standards for Graduating Students as required by the Victorian Institute of Teaching. The school experience is organised by the Professional Experience Office and students do not make contact with schools regarding placements under any circumstances. Students are required to comply with the on-line instructions regarding enrolment/re-enrolment in school experience; failure to enrol/re-enrol jeopardises a student's school experience placement. Students should note that it is a requirement of the course that school experience is undertaken in conjunction with their curriculum studies and Education Major studies and during the time tabled dates unless, in exceptional circumstances, alternative arrangements are negotiated and agreed to in writing with the Professional Experience Office. Students should also note that normally any paid or unpaid work undertaken in a school as an unqualified teacher/teacher's aide will not be recognised for credit as recognised prior learning in supervised school experience for this course. Students may be required to complete the school experience component of the course outside the academic year. A satisfactory level of teaching competence during supervised school experience is required for award of the degree. An "unsatisfactory" result on any school experience placement will be referred to the Faculty Academic Progress and Discipline Committee.

Graduates of an accredited teaching course should note that teacher registration is required in Victoria and is administered by the Victorian Institute of Teaching under the Education and Training Reform Act 2006 (Vic.). Prospective students should acquaint themselves with the requirements for registration in Victoria or in any other relevant location. These requirements include the ability to satisfy the Standards for Graduating Students (available at: [vit.vic.edu.au](http://vit.vic.edu.au))

### Professional Experience enrolment

Students need to carefully follow the instructions correctly when enrolling or re-enrolling online in school experience units. Failure to enrol or re-enrol correctly jeopardises a student's school experience placement and this could lead to a delay in the award of the degree. Students must follow Faculty rules in relation to the number of days of school experience to be completed for each placement as per the Professional Experience Handbook (available from the campus of enrolment) which includes the published school experience timetable. Students should note that a 'day' constitutes a whole school day (not part thereof).

Students should obtain a copy of the Professional Experience Handbook each year from the Professional Experience Office (also available at [deakin.edu.au/arts-ed/education/schoolexp](http://deakin.edu.au/arts-ed/education/schoolexp)). Information contained in the Handbook is updated annually and is a summary of Faculty rules in relation to school experience.

### School Experience units

EEP501            Primary School Experience 5A (B, G, X)  
 X - 25-day block with minimum 3 days per week  
 EEP504            Primary School Experience 5D (X)  
 X -20-day block with minimum 3 days per week

### Special requirements for off-campus students

On-campus attendance may be required for some units in the form of vacation schools or weekend schools. It is expected that students will have access to a computer and modem to fully benefit from the off-campus services and course delivery.

# Bachelor of Education (Primary)

<b>AWARD GRANTED</b>	Bachelor of Education (Primary)
<b>CAMPUS</b>	Offered at Melbourne Burwood Campus, Geelong Wourn Ponds Campus, Warrnambool Campus
<b>DURATION</b>	4 years full-time or part-time equivalent
<b>CRICOS COURSE CODE</b>	015204J
<b>DEAKIN COURSE CODE</b>	E359

*Note: This course version is for students who commenced prior to 2007.*

## COURSE OVERVIEW

The Bachelor of Education (Primary) is offered to intending primary school teachers. The degree introduces students to the knowledge and competencies required by primary teachers with particular strength in the key learning areas of literacy, numeracy and science education and one other area of choice. It aims to produce teachers who are able to enter educational practice with the competencies expected of beginning teachers by the education profession; the communication and interpersonal skills to be facilitative teachers; an understanding of the curriculum content and processes appropriate for primary teaching; a thorough understanding of current theories and pedagogical practices related to learning and teaching; an understanding of the major role learning technologies play in the learning process; an awareness of the socio-political role of education in society and the need to work for equity for all for whom they are professionally responsible; an ability to work professionally and productively with teachers, other school-based professionals and parents and an ability to research their own practice and the practices of schools and to see themselves as lifelong learners.

### Professional recognition

Approved by Victorian Institute of Teaching (VIT) as a preservice teaching qualification.

### Contact hours

For each unit of study students are expected to participate in at least three hours of formal contact each week of trimester. A minimum of six hours of study time in addition to the formal contact is also expected for each unit each week.

### LOTE requirements

Students wishing to specialise in teaching Languages Other Than English (LOTE) within the Bachelor of Education (Primary) are advised to undertake the LOTE major sequence offered by the Arts Faculty and note the following LOTE requirements:

Students are advised that the requirements of the Victorian Institute of Teaching for primary and secondary teachers of LOTE (Languages Other Than English) are as follows:

- A post-Year 12 major study in the language, together with teaching methodology in LOTE.

Native speakers of the language may seek a statement of equivalence from a Victorian University, to verify that they meet the standard of a 'post year 12 major study'. Teachers wishing recognition in languages which are not taught in Victorian universities and for which university statements of equivalence are not available, may seek equivalence accreditation with the Department of Education and Training, Victoria.

### Elective discipline sequences

Elective discipline sequence units are selected, in consultation with the course adviser, from any of the major discipline sequences listed or from any other major sequence related to a key learning area offered by either the Schools of Arts and Education, Faculty of Health or Faculty of Science, Engineering and Built Environment, normally at level 2 or higher for which prerequisite requirements are met. Alternatively, students may build on their selected major discipline sequence.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The Bachelor of Education (Primary) course has a 32 unit structure of which 24 units are course-grouped. Each unit is equivalent to 1 credit point. The 24 course-grouped units include a compulsory six-unit major sequence in education studies. The course-grouped units also include the 12 primary curriculum studies units related to the key learning areas. These units comprise three in language education, three in mathematics education, two in arts education and one each in science education, social education, health and physical education and technology education or LOTE. The remaining six course-grouped units include two core discipline units in each of language and literature, mathematics and science to support the key learning areas of literacy, numeracy and science education. The remaining non course-grouped units include a major discipline sequence of 6 credit points related to one of the key learning areas as listed. Students must meet any prerequisites required by the offering faculty. The remaining two elective discipline units may be taken from a sequence related to another key learning area or may be taken as an extension to the major discipline sequence.

## DETAILED COURSE RULES

The Bachelor of Education (Primary) may be awarded at pass level.

To be awarded the Bachelor of Education (Primary) pass degree a person shall:

1. be accepted for enrolment in a course of study leading to the award of a Bachelor of Education (Primary) pass degree and continue to be accepted for enrolment until completion of that course of study;
2. complete a course of study amounting to 32 credit points provided that the course of study:
  - 2.1 shall include units amounting to 24 credit points from those units specified by the Faculty Board of the Faculty of Arts and Education from time to time as course-grouped units leading to the award of the degree of Bachelor of Education (Primary)
  - 2.2 shall include units amounting to not less than 20 credit points at level 2 or higher, at least 6 credit points of which shall be taken at level 4 or higher
  - 2.3 shall include a major sequence of course-grouped units amounting to not less than 6 credit points
  - 2.4 shall include 6 credit points of course-grouped units in core discipline studies as agreed with the Schools of Arts and the Faculty of Science, Engineering and Built Environment
  - 2.5 shall include units amounting to not more than 8 credit points, which shall include a major sequence of at least 6 credit points in which two credit points shall be taken from each of levels 1, 2 and 3, from the units leading to the award of another degree of bachelor in one of the other faculties in the University as specified by the Faculty Board; and
3. the course of study shall be completed within a period of not less than four years and except with the permission of the Faculty Board not more than 10 consecutive years from the date the person first enrolled in the course.

4. the course of study shall include satisfactory completion of at least 80 days of supervised school experience.

Students should note that four years of tertiary study inclusive of teacher education is required for employment as a teacher in Victoria.

## MAJOR SEQUENCES

Major discipline sequences are related to each of the primary key learning areas. The sequences have been developed in consultation with the Faculties of Arts, Faculty of Health and Faculty of Science, Engineering and Built Environment. Students must meet any prerequisites required by the offering faculty. Units offered have been selected to most appropriately support the primary curriculum studies while maintaining flexibility and student choice.

The campus offering the major sequence is indicated in parenthesis as follows:

B = Melbourne Burwood Campus

G = Geelong Waurin Ponds Campus

W = Warrnambool Campus

X = Off campus

## COURSE STRUCTURE

*(for students who commenced prior to 2007)*

### Level 2

#### Trimester 1

- EXE201 Creating Effective Learning Environments (B, G, W)  
 ECL210 Multiliterate Learners in Early Years Environments (B, G, W)  
 EXP201 Primary School Experience 2a (B, G, W)

And one level 2 unit from the approved major discipline sequence

#### Trimester 2

- EXE202 Curriculum, Assessment and Reporting (B, G, W)  
 SLE102 Physical Geography (B, G)  
 ESM210 Children and Mathematics: Developing Mathematical Concepts (B, G, W)  
 EXP202 Primary School Experience 2b (B, G, W)

And one level 2 unit from the approved major discipline sequence

### Level 3

*(Geelong Waurrn Ponds Campus and Warrnambool Campus)*

#### Trimester 1

- ESM310 Teachers and Mathematics: Creating An Effective Classroom (B, G, W)  
 EXP301 Primary School Experience 3a (B, G, W)

And one level 3 unit from the approved major discipline sequence

And one elective discipline unit at level 2 or higher

#### Trimester 2

- ECL310 Multiliterate Learners in Middle Years Environments (B, G, W)  
 ECS310 Primary Humanities, Societies and Environments (HSE) (ONLINE)  
 EXP302 Primary School Experience 3b (B, G, W)

And one level 3 unit from the approved major discipline sequence

And one elective discipline unit at level 2 or higher

### Level 3

*(Melbourne Burwood Campus)*

#### Trimester 1

- ESM310 Teachers and Mathematics: Creating An Effective Classroom (B, G, W)  
 EXP301 Primary School Experience 3a (B, G, W)

And one level 3 unit from the approved major discipline sequence

And one elective discipline unit at level 2 or higher

#### Trimester 2

- ECL310 Multiliterate Learners in Middle Years Environments (B, G, W)  
 ECS310 Primary Humanities, Societies and Environments (HSE) (ONLINE)  
 EXP302 Primary School Experience 3b (B, G, W)

And one level 3 unit from the approved major discipline sequence

And one elective discipline unit at level 2 or higher

### Level 4

#### Trimester 1

- EXE401 Professional Relationships (B, G, W)  
 ECA409 Teaching the Arts in Primary Schools (B, G, W)  
 ESH416 Primary Physical and Health Education (X) (Final year of offer 2014)  
 EST400 Primary Technology Education: Creativity and Design (B, G, W)  
 EXP401 Primary School Experience 4a (B, G, W)  
 EXP402 Primary School Experience 4b (B, G, W)

*Note: Students undertaking a major study in Languages Other Than English (LOTE) at either Melbourne Burwood Campus, Geelong Waurrn Ponds Campus or Warrnambool Campus will undertake ESJ457 Studies*

*in Curriculum 1 (ESJ457 students to select Curriculum Studies in LOTE Education specialism) in trimester 1 instead of EST400 Primary Technology Education: Creativity and Design*

### Trimester 2

EXE402	Transition to Beginning Teaching (B, G, W)
ECA410	Primary Arts Education: Focussed Study (B, G, W)
ECL410	Literacy Teacher - Researchers in New Times (B, G, W)
ESM410	Professional Practice and Mathematics: Designing an Inclusive Program (ONLINE)
EXP402	Primary School Experience 4b (B, G, W)
EXP403	Primary School Experience 4c (B, G, W)

*Note: ESM410 Professional Practice and Mathematics: Designing an Inclusive Program is delivered in wholly on-line mode.*

## DETAILS OF MAJOR SEQUENCES

### Biology (B, G)

(offered by Faculty of Science, Engineering and Built Environment)

SLE111	Cells and Genes (B, G, W)
SLE132	Biology: Form and Function (B, G)

(Prerequisites apply)

Two credit points from SBB2 or SQB2 - coded units.

Two credit points from SBB3 or SQB3 - coded units.

### Biological Chemistry (B)

The Biological Chemistry major provides the fundamental language of chemistry and chemistry arithmetic essential for students wishing to understand the more chemically oriented facets of modern biology.

(offered by Faculty of Science, Engineering and Built Environment)

SLE131	Principles of Chemistry *
SLE152	Chemistry of Life
SLE212	Biochemistry (B, G)
SLE222	Biochemical Metabolism (B, G)
SBC231	Unit description is currently unavailable
SBC232	Unit description is currently unavailable
SLE311	Chemical Hazards (ONLINE)
SLE312	Toxicology (ONLINE)

\* SLE131 - First year Chemistry units have changed from 2013. Students to please contact Student Support for unit advice.

### Chemistry (G)

(offered by Faculty of Science, Engineering and Built Environment)

Students should seek course advice in choosing their units.

SLE131	Principles of Chemistry *
SLE152	Chemistry of Life

Two credit points from SBC2 - coded units

Two credit points from SBC3 - coded units

\* SLE131 - First year Chemistry units have changed from 2013. Students to please contact Student Support for unit advice.

### Chinese (beginners) (B)

(offered by Faculty of Arts and Education)

AIC181	Chinese 1A (B, G)
AIC182	Chinese 1B (B, G)
AIC281	Chinese 2A (B)

AIC282	Chinese 2B (B)
AIC381	Chinese 3A (B)
AIC382	Chinese 3B (B)

### Chinese (post - VCE non-background speakers)

(offered by Faculty of Arts and Education)

AIC281	Chinese 2A (B)
AIC282	Chinese 2B (B)
AIC381	Chinese 3A (B)
AIC382	Chinese 3B (B)

AIC284	Chinese 2D (B)
AIC383	Chinese 3C (B)
AIC384	Chinese 3D (B)
AIC385	Chinese for Business Purposes A (B)
AIC386	Chinese for Business Purposes B (B)

### Chinese (post - VCE non-background speakers) (B)

(offered by Faculty of Arts and Education)

AIC281	Chinese 2A (B)
AIC282	Chinese 2B (B)
AIC381	Chinese 3A (B)
AIC382	Chinese 3B (B)
AIC385	Chinese for Business Purposes A (B)
AIC386	Chinese for Business Purposes B (B)

### Dance (B)

(offered by Faculty of Arts and Education)

ACD101	Introduction to Contemporary Dance Practice A (B)
ACD102	Introduction to Contemporary Dance Practice B (B)
ACD203	Contemporary Dance Practice and History A (B)
ACD204	Contemporary Dance Practice and History B (B)
ACD307	Specialised Technique and Dance Performance (B)
ACD308	Choreographic Research and Performance (B)

Note:

(i) Entry by audition is required for ACD101.

(ii) Students will need to undertake their audition in level one even if they do not take their Dance or Drama units until level two.

### Drama (B)

(offered by Faculty of Arts and Education)

ACP101	Principles of Live Performance (B)
ACP177	Modern and Postmodern Drama (B)
ACP279	The Integrated Performer (B)
ACP280	Performance, Text, Realisation (B)
ACP378	Out of the Ether: Devised Performance (B)
ACP323	Out of the Box: Theatre Practice in Alternative Contexts (B)

**Earth Science (B)**

(offered by Faculty of Science, Engineering and Built Environment)

- SLE136 History of Life (B)  
 SLE102 Physical Geography (B, G)  
 SLE237 Biogeography (B)  
 SLE239 Introduction to Geographic Information Systems (B)

Choose two from the following:

- SLE305 Catchment and Coastal Management (B)  
 SQE331 Unit description is currently unavailable  
 SLE395 Palaeobiology (B)  
 SLE342 Risks to Healthy Environments (B)

**Environmental Science (B)**

(offered by Faculty of Science, Engineering and Built Environment)

Choose two from the following:

- SLE132 Biology: Form and Function (B, G)  
 SLE114 Introduction to Parks and Wildlife Conservation (B)  
 SLE121 Environmental Sustainability (B)  
 SLE151 Biodiversity: A Global Perspective (B)  
 SLE136 History of Life (B)

Choose two from the following:

- SLE220 Wildlife Ecology (B)  
 SLE207 Environmental Planning and Impact Assessment (B)  
 SLE215 Ecotourism and Interpretation (B)  
 SLE216 Bushfire Management (B)  
 SLE310 Ecology of Pest Plants and Animals (B)  
 SLE342 Risks to Healthy Environments (B)

**Environmental Science (W)**

(offered by Faculty of Science, Engineering and Built Environment)

Choose one of the following:

- SLE144 Aquatic Life (W)  
 SLE105 Aquatic Pollution (W)  
 SLE161 Aquaculture and the Environment (W)

One of the following:

- SLE232 Freshwater Biology (W)  
 SLE255 Marine Biology (W)

One of the following:

- SLE261 Diversity of Fishes (W)  
 SQP211 Unit description is currently unavailable

Students undertake the following:

- SLE347 Restoration of Marine and Freshwater Ecosystems

AND

- SLE319 Environmental Planning and Assessment (W)

**Health and Physical Education (B, G)**

(offered by Faculty of Health)

Note: Students at Geelong Waurin Ponds Campus may need to take some units via off-campus study.

- HBS107 Understanding Health (B, G, W, X)  
 HSE102 Functional Human Anatomy (B, G, X)  
 HSE204 Motor Learning and Development (B, G, X)  
 HSH207 Socio-Economic Status and Health (B, X)  
 HSE313 Understanding Children's Physical Activity (B, G, W, X)

HSH314 Unit description is currently unavailable

Note:

(i) HSH207 Geelong students are required to enrol on-campus at Burwood, although not required to attend class on-campus at Burwood.

(ii) Some students may need to seek course advice to complete the Health and Physical Education sequence.

### Indonesian (beginners) (B, G)

(offered by Faculty of Arts and Education)

AIF146	The Language, Culture and People of Indonesia (B, G, X)
AIF142	Conversational Indonesian B (B, G, X)
AIF241	Formal and Informal Indonesian A (B, G, X)
AIF242	Formal and Informal Indonesian B (B, G, X)
AIF341	Professional and Academic Indonesian A (B, G, X)
AIF342	Professional and Academic Indonesian B (B, G, X)

### Indonesian (post - VCE) (B, G)

(offered by Faculty of Arts and Education)

AIF241	Formal and Informal Indonesian A (B, G, X)
AIF242	Formal and Informal Indonesian B (B, G, X)
AIF341	Professional and Academic Indonesian A (B, G, X)
AIF342	Professional and Academic Indonesian B (B, G, X)

Choose 2 units from:

AIF316	Reading and Writing Jawi
AIF345	Indonesian for Business Purposes
AIF354	History and Development of the Indonesian Language
AIF320	Indonesian Society Through Literature (B, G, X)

Note:

(i) AIF320 are offered in alternate years 2013, 2015.

(ii) AIF316, AIF354 & AIF345 are offered in alternate years 2014, 2016.

### Information Technology (B, G, W\*)

(offered by Faculty of Science, Engineering and Built Environment)

\*Note: Available to students at Warrnambool Campus by off-campus study.

SIT101	Fundamentals of Information Technology (B, G, X)
SIT103	Introduction to Database Design (B, G, X)
SIT201	Unit description is currently unavailable
SIT231	Unit description is currently unavailable
SIT301	IT Practice (ONLINE)
SIT396	Complex Analysis (B, G, X)

### Language and Literature (G)

(offered by Faculty of Arts and Education)

#### Literature focus

ALL102	From Horror to Romance: Genre and Its Obsessions (B, G, W, X)
ALL154	Power Politics and Texts for Young People (B, G, W, X)
ALL230	Re-Imagining Literature for Young People (B, G, X)
ALL373	Greek Tragedy: Death, Sex and Vengeance (B, G, X)
ALL379	Representing Australia (ONLINE)

Notes:

(i) Students are required to select either ALL373 or ALL379.

- (ii) The unit ALL379 is delivered in wholly online mode.  
 (iii) ALL379 is offered in trimester 3.

### Language and Literature (B)

(ALL-coded unit offered by Faculty of Arts and ELL-coded units offered by Faculty of Education)

#### Linguistics focus

ALL154	Power Politics and Texts for Young People (B, G, W, X)
ELL101	Language: Speech and Sounds (B)
ELL102	Language: Words and Structure (B)
ELL201	Language and Social Contexts (B)
ELL202	Texts Across Cultures (B)

### Language and Literature (B)

(offered by Faculty of Arts and Education)

#### Literature focus

ALL101	The Stories We Tell: Inventing Selves and Others (B, G, X)
ALL154	Power Politics and Texts for Young People (B, G, W, X)
ALL230	Re-Imagining Literature for Young People (B, G, X)
ALL373	Greek Tragedy: Death, Sex and Vengeance (B, G, X)
Or	
ALL375	Shakespeare: Six Plays, Six Worlds (B, G, X)
Or	
ALL376	Classics and Trash (G, X) (This unit was titled Surviving Myth in 2011)

### Language and Literature (W)

(offered by Faculty of Arts and Education)

#### Literature focus

### Mathematics (B, G, W\*)

(offered by Faculty of Science, Engineering and Built Environment)

Note:

- (i) Students at Geelong Waurm Ponds Campus may need to take some units in off-campus study mode.  
 (ii) \*Available to students at Warrnambool Campus by off-campus study.  
 (iii) \*\* SIT281 is required for students intending to study SIT392.  
 (iv) Students enrolled prior to 2006 should consult the course advisor.

SIT192	Discrete Mathematics (B, G, X)
SIT194	Introduction to Mathematical Modelling (B, G, X)

and

Students may select from:

SIT281	Cryptography (B, G, X) **
or	
SIT292	Linear Algebra and Applications to Data Communications (B, X)
SIT291	Mathematical Methods for Information Modelling (B, X)

Choose two from:

SIT396	Complex Analysis (B, G, X)
SIT392	Public-Key Cryptography (B, X)
SIT399	Advanced Topics in Mathematics (B, X)

## Media and Communication (B)

(offered by Faculty of Arts and Education to students commencing in 2007)

ALC101 Contemporary Communication: Making Sense of Text, Image and Meaning (B, G, S, W, X)

ALC102 Contemporary Communication: Making Sense of New Media (B, G, W, X)

Select 2 second level units from:

AAM219 Contemporary Australian Cinema (B, W)

AAM220 Cinemas and Cultures (B, X)

ALC208 Researching Media: Texts, Audiences and Industries (B, G, W, X)

ALC209 Screening Contemporary Masculinities (B, X)

ALC215 Globalisation and the Media (B, G, W, X)

Select the third level unit:

ASC346 Sociology of the Media and Popular Culture (B, G, X)

Select 1 third level unit from:

ALC314 Advertising: Designing Desires (ONLINE)

ALC320 Approaches to Media: Audiences and Effects (ONLINE)

Notes:

(i) ALC314, ALC320 are wholly online units.

(ii) ALC215/315 and ASC246/346 are double coded units.

(iii) ALC101, AAM219 also offered trimester 3.

## Multimedia Technology (B)

(offered by Faculty of Science, Engineering and Built Environment - available from 2007)

SIT161 Principles of Interactive Media (B)

SIT162 Interactive Media Systems (B, X)

SIT262 Unit description is currently unavailable

SIT263 Interface Design (B, X)

SIT361 Multimedia Systems and Technology (B)

SIT362 Advances in Interactive Media

## Performing Arts (B)

(offered by Faculty of Arts and Education)

ACP101 Principles of Live Performance (B)

ACP177 Modern and Postmodern Drama (B)

ACD110 Dance Improvisation and Body Awareness (B)

ECA310 Discovering Music A (B, G, W)

ECA311 Discovering Music B (B, G, W)

Note: ECA310, and ECA311 are School of Education units offered from 2007.

## Studies of Society and Environment (Humanities) (B, W)

(offered by Faculty of Arts and Education)

AIA104 Australian Identities: Indigenous and Multicultural (B, G, W, X) (Final year of offer 2013.)

AIA105 Visions of Australia: Time and Space From 1700 to 2010 (B, G, W, X)

AIA106 Populate Or Perish: Australia's People (Commencing 2014.)

Or

AIH108 The World After the War: 1945 - 1991 (B, G, X)

AIH109 Unit description is currently unavailable null

Or

ASC101 Introduction to Sociology A (B, G, W, X)

ASC102 Introduction to Sociology B (B, G, W, X)

**Level 2 - two units from level 2 AIA, AIH and ASC units**

**Level 3 - two units from level 3 AIA, AIH and ASC units**

Note: Other units may be selected in consultation with the course director. Units available vary between campuses.

### **Studies of Society and Environment (Humanities) (G)**

(offered by Faculty of Arts and Education)

AIA104	Australian Identities: Indigenous and Multicultural (B, G, W, X) (Final year of offer 2013.)
AIA105	Visions of Australia: Time and Space From 1700 to 2010 (B, G, W, X)

ASC102	Introduction to Sociology B (B, G, W, X)
and	
ASC346	Sociology of the Media and Popular Culture (B, G, X)
Or	
ASC370	Sociology and the Law (X)
and	
ASC387	Love, Sex and Relationships (B, G, W, X)

Notes:

(i) ASC370 is offered in trimester 3.

(ii) Other units may be selected in consultation with the course director.

### **Visual Arts (B, W)**

(offered by Faculty of Arts and Education)

ACV101	Studio Art: Painting A (B, S, W)
ACV102	Studio Art: Painting B (B, S, W)
ACV205	Studio Art: Painting C (B, S, W)
ACV206	Studio Art: Painting D (B, S, W)
ACV307	Studio Art: Painting E (B, S, W)
ACV308	Studio Art: Painting F (B, S, W)

### **Visual Arts (G)**

(offered by Faculty of Arts and Education)

ACV101	Studio Art: Painting A (B, S, W)
ACV102	Studio Art: Painting B (B, S, W)
EEA211	Navigating the Visual World (B, G, S, W)
EEA212	Visual Culture: Images, Meaning and Contexts (B, G, S, W)
ECA433	Arts Education Discipline Study 3 (B, G, W, X)
ECA434	Arts Education Discipline Study 4 (B, G, W, X)

Note:

(i) EEA211, EEA212, ECA433 and ECA434 are School of Education units

### **Elective discipline sequences**

Elective discipline sequence units are selected, in consultation with the course adviser, from any of the major discipline sequences listed or from any other major sequence related to a key learning area offered by either the Schools of Arts, Faculty of Health or Faculty of Science, Engineering and Built Environment, normally at level 2 or higher for which prerequisite requirements are met. Alternatively, students may build on their selected major discipline sequence.

## Working with Children Check

The Working with Children Act 2005 (Vic.) requires a person who engages in child-related work, as defined in the Act, to obtain an assessment notice under the Act, known as a Working with Children Check (WWCC). The Act is administered by the Department of Justice: [justice.vic.gov.au](http://justice.vic.gov.au). School experience placements in schools in the course of a university degree are “child-related work”. Under the Working with Children Act 2005 (Vic.), administered by the Department of Justice, a student teacher must obtain a Working with Children Check (WWCC) before commencing school experience placements in a school. The WWCC must remain current throughout the course. It is an offence under the Act to engage in school experience without holding a WWCC.

Students will not be allowed to commence school experience in any school in Victoria until a Working with Children Check is obtained. The Department of Education has requested that on the application form a student nominates the University as the (or one of the) employers. The University will then be sent a copy of the assessment notice. Because the University needs to assure a school that a student placed at the school has a current Working with Children Check, each student must give their authority to provide the assurance - a student will be required to sign an authority for the University to inform a school that a WWCC has or has not been obtained.

While the University will hold on file documentation relating to the WWCCs obtained by students engaged in school experience, it is each student’s responsibility to ensure that he or she can produce the WWCC card to the school upon request and to keep the WWCC current under the Act.

Students are required to apply for a WWCC through a participating Australia Post outlet (which can be found on the Australia Post website or the Department of Justice website) and provide proof to the faculty that the WWCC has been undertaken.

Should a student fail to obtain a WWCC, practical training in a school will not be provided, and as practical training is a requirement for completion of a teaching degree, the student may be unable to complete the degree. Should such a situation arise, the University will provide advice on options for tertiary study.

It is the responsibility of students undertaking placements outside Victoria to enquire about and, where necessary, to meet any similar legislative or other requirements concerning working with children.

### Professional Experience requirements

Students are required for registration purposes (and for the award of the degree) to have completed over the duration of their course a minimum of 80 days of supervised school experience. Students should ensure they are conversant with the Standards for Graduating Students as required by the Victorian Institute of Teaching. The school experience is organised by the Professional Experience Office and students do not make contact with schools regarding placements under any circumstances. Students are required to comply with the on-line instructions regarding enrolment/re-enrolment in school experience; failure to enrol/re-enrol jeopardises a student’s school experience placement. Students should note that it is a requirement of the course that school experience is undertaken in conjunction with their curriculum studies and Education Major studies and during the time tabled dates unless, in exceptional circumstances, alternative arrangements are negotiated and agreed to in writing with the Professional Experience Office. Students should note that normally any paid or unpaid work undertaken in a school as an unqualified teacher/teacher’s aide will not be recognised for credit as recognised prior learning in supervised school experience for this course. Students may be required to complete the school experience component of the course outside the academic year.

A satisfactory level of teaching competence during supervised school experience is required for award of the degree. An “unsatisfactory” result on any school experience placement will be referred to the Faculty Academic Progress and Discipline Committee.

Graduates of an accredited teaching course should note that teacher registration is required in Victoria and is administered by the Victorian Institute of Teaching under the Education and Training Reform Act 2006 (Vic.). Prospective students should acquaint themselves with the requirements for registration in Victoria or in any other relevant location. These requirements include the ability to satisfy the Standards for Graduating Students (available at: [vit.vic.edu.au](http://vit.vic.edu.au))

### Professional Experience enrollment

Students need to carefully follow the instructions correctly when enrolling or re-enrolling online in school experience units. Failure to enrol or re-enrol correctly jeopardises a student's school experience placement and this could lead to a delay in the award of the degree. Students must follow Faculty rules in relation to the number of days of school experience to be completed for each placement as per the Professional Experience Handbook (available from the campus of enrolment) which includes the published school experience timetable. Students should note that a 'day' constitutes a whole school day (not part thereof).

Students should obtain a copy of the Professional Experience Handbook each year from the Professional Experience Office (also available at [deakin.edu.au/arts-ed/education/schoolexp](http://deakin.edu.au/arts-ed/education/schoolexp)). Information contained in the Handbook is updated annually and is a summary of Faculty rules in relation to school experience.

### Schedule of School Experience units: Bachelor of Education (Primary)

EXP201	Primary School Experience 2A (B, G, W)	10 days
EXP202	Primary School Experience 2B (B, G, W)	B - 10 days G/W - 10 day block
EXP301	Primary School Experience 3A (B, G, W)	B - 10 days G/W - 10 day block
EXP302	Primary School Experience 3B (B, G, W)	B - 10 days G/W - 10 day block
EXP401	Primary School Experience 4A (B, G, W)	B/W - 10 days G - 15 day block
EXP402	Primary School Experience 4B (B, G, W)	B/W - 15 day block G - 10 day block
EXP403	Primary School Experience 4C (B, G, W)	B - 15 day block G/W - 15 day block

Students are assessed on an Ungraded Pass(UP)/Fail(N) basis. Students will receive a fail grade for unsatisfactory performance, school experience days commenced but not completed or if no contact is made with School Experience Office for placement.

## COURSE OVERVIEW

Deakin's Bachelor of Education (Primary) is a highly regarded, undergraduate degree that will fully prepare you for a career as a primary school teacher. Graduates meet entry requirements of the teaching profession in Australia and qualify to gain employment as primary education teachers in all states and territories of Australia. You will complete a minimum of 80 days supervised school experience over the duration of the course, providing hands-on experience in a classroom setting.

### Professional recognition

Approved by Victorian Institute of Teaching (VIT) as a preservice teaching qualification.

### Contact Hours

For each unit of study, you are expected to participate in at least three hours of formal contact each week of trimester. A minimum of six hours of study time in addition to the formal contact is also expected for each unit each week.

### Middle Years (7-10) Discipline choice

Students have the option to undertake a sequence of units which will prepare them for teaching in a discipline area in the Middle Years (7-10). Students are to use the 6 unit elective sequence to build content knowledge to a sub-major level (4 units), a Year 7-10 secondary methodology unit, and a 20 day secondary school placement. Some discipline require a major study or combination of sub majors to a total of 6 credit points, plus 1 methodology unit - this will require students to complete an additional unit over and above the 32 credit points for the course.

Discipline studies areas vary according to campus and may include: Biology, Chemistry, Environmental Science, Humanities, Societies and Environments (HSE), Maths, Performing Arts, and Visual Arts.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The Bachelor of Education (Primary) course has a 32 credit point structure which consists of 26 core units, 6 elective units as well as 7 professional experience rounds.

The first year focuses on discipline studies and consists of

- 6 core discipline units - 2 units in basic science, 2 units in basic mathematics, 1 unit in English and 1

- unit in Humanities and
- 2 first-year elective discipline units, chosen from outside the School of Education and related to primary education learning areas

The remaining three years of the course consist of

- 6 core education studies units
- 14 core primary curriculum units - 3 mathematics education units, 3 English education units, 2 social education units, 2 arts education units, 2 science education units, 1 physical education unit, and 1 unit in either technology or foreign language teaching
- 4 elective units chosen from anywhere in the University, at least 2 of them must be at level 2 or higher. These units may be used to complete a specialised teaching sequence, for example in Visual Arts or Health and Physical Education. EEH316 Student Health and Wellbeing will normally be one of the 4 electives unless you have chosen to complete a specialised sequence
- Specialised sequences - the two first year elective discipline units and the four elective units at level 2 or above can be used to complete a major sequence in any discipline of interest to you.

If you are studying languages other than English (LOTE) you will be required to complete ESJ457 Studies in Curriculum 1 in trimester 1 in place of ECL410 in trimester 2 year 4.

## COURSE STRUCTURE

### Level 1 - for Burwood and Geelong only

Note: Students enrolled prior to 2007 should contact their enrolment officer for course advice.

#### Trimester 1

- SLE103 Ecology and the Environment (B, G, W)  
 ALL153 Literature for Children and Young Adults (B, G, W, X)  
 AIA104 Australian Identities: Indigenous and Multicultural (B, G, W, X) (Final year of offer 2013.)  
 AIA106 Populate Or Perish: Australia's People (Commencing 2014.)  
 ALW117 Writing for Professional Practice (B, G, W, X)

Elective Discipline Unit 1, one credit point from other Faculties. Refer 2 first-level discipline units list.

#### Trimester 2

- SLE102 Physical Geography (B, G)  
 Or  
 ALC102 Contemporary Communication: Making Sense of New Media (B, G, W, X)

Elective Discipline Unit 2, one credit point from other Faculties. Refer 2 first-level discipline units list.

### Level 1 - for Warrnambool only

#### Trimester 1

- SLE103 Ecology and the Environment (B, G, W)  
 or  
 ALL153 Literature for Children and Young Adults (B, G, W, X)  
 Elective Discipline Unit 1, one credit point from other Faculties. Refer 2 first-level discipline units list.

#### Trimester 2

- AIA105 Visions of Australia: Time and Space From 1700 to 2010 (B, G, W, X)  
 or  
 SLE102 Physical Geography (B, G)  
 Elective Discipline Unit 2, one credit point from other Faculties. Refer 2 first-level discipline units list.

### Level 2

Note: Students must pass at least 5 units at first year before progressing to second year level.

#### Trimester 1

- EEE207 Understanding Children and Adolescents: Primary (B, G, W)

ECL210 Multiliterate Learners in Early Years Environments (B, G, W)

EEO210 Primary Humanities, Societies and Environments 1 (X)

Elective Unit 1, one credit point. Refer 4 elective units list below.

You are strongly encouraged to enrol in electives within the School of Education (elective units are also available from other Faculties).

EEP201 Primary School Experience 1 (B, G, W)

### Trimester 2

EEE208 Understanding Learners: Primary (B, G, W)

ESM210 Children and Mathematics: Developing Mathematical Concepts (B, G, W)

EES240 Primary Science Education 1 (B, G, W)

Elective Unit 2, one credit point. Refer 4 elective units list below.

You are strongly encouraged to enrol in electives within the School of Education (elective units are also available from other Faculties).

EEP202 Primary School Experience 2 (B, G, W)

## Level 3

### Trimester 1

EEE307 Creating Effective Learning Environments: Primary (B, G, W)

ESM310 Teachers and Mathematics: Creating An Effective Classroom (B, G, W)

EES340 Primary Science Education 2 (B, G, W)

EEH316 Student Health and Wellbeing (B, G, W) #

or

Elective Unit 3, one credit point from any Faculty. Refer 4 elective units list below. You should complete elective unit 3 instead of EEH316 if you wish to complete a 6-unit specialist sequence, for example in the Arts or in a LOTE (see below).

EEP301 Primary School Experience 3 (B, G, W)

### Trimester 2

EEE308 Curriculum, Assessment and Reporting: Primary (B, G, W)

ECL310 Multiliterate Learners in Middle Years Environments (B, G, W)

EEO310 Primary Humanities, Societies and Environments 2 (B, G, W)

You are strongly encouraged to enrol in electives within the School of Education (elective units are also available from other Faculties).

EEH316 Student Health and Wellbeing (B, G, W) #

or

Elective Unit 4, one credit point from any Faculty. Refer 4 elective units list below. You should complete elective unit 4 instead of EEH316 if you wish to complete a 6-unit specialist sequence, for example in the Arts or in a LOTE (see below).

EEP302 Primary School Experience 4 (B, G, W)

## Level 4

### Trimester 1

EEE401 Professional Relationships (B, G, W)

EST400 Primary Technology Education: Creativity and Design (B, G, W)

ECA409 Teaching the Arts in Primary Schools (B, G, W)

EEH416 Primary Physical Education (B, G, W)

EEP401 Primary School Experience 5 (B, G, W)

EEP402 Primary School Experience 6 (B, G, W) \*

ESJ457 Studies in Curriculum (Lote A) (B, X)

*ESJ457 should only be taken by students undertaking a specialism in languages other than English (LOTE).*

### Trimester 2

EEE402 Transition to Beginning Teaching (B, G, W)

EAA410 Primary Arts Education: Focussed Study (B, G, W)

ESM410	Professional Practice and Mathematics: Designing an Inclusive Program (ONLINE)
ECL410	Literacy Teacher - Researchers in New Times (B, G, W) LOTE students exempt from ECL410
EEP402	Primary School Experience 6 (B, G, W) *
EEP403	Primary School Experience 7 (B, G, W)

**Notes:**

(i) All units are of 1 credit point value except EEO210, EES240, EEE307, EEE308, EEA410, EEE401, and EEE402 which are 0.75 credit point units and EEP201, EEP202, EEP301, EEP302, EEP401, EEP402 and EEP403 which are 0.25 credit point units.

(ii) ESM410 is a wholly online unit.

(iii) Electives may be selected from units offered anywhere in the University at level 2 or higher. The electives offered by the School of Education are listed in this course entry.

(iv) # All students except those completing a 6 unit specialist sequence must complete EEH316 in Trimester 1 or Trimester 2.

(v) \*EEP402 is offered in Geelong and Warrnambool in Trimester 1 only, and offered in Burwood in Trimester 2 only.

(vi) Students must pass at least 5 units at first year before progressing to second year level.

(vii) EEH416 also offered Trimester 3

2 first-level discipline units

Discipline units are to be taken from faculties other than Education in the Foundation (first) level of the course. A list of possible units is shown below, however students may select from a range of units from across the university. Units may not be offered every level at regional campuses. Students also have the option to build expertise to meet the requirements for teaching in a specialist discipline area in Primary Levels (P-6) or the Middle Levels (7-10).

#### 4 elective units

The electives component of this course provides a great opportunity for you to develop breadth or depth in your studies. Choice of electives should be based on personal interest, existing expertise, getting a broader tertiary education, or developing a subject sequence relevant to primary teaching (see Health and Physical Education and Visual Arts examples below) or a sub-major in one discipline area and the associated junior secondary curriculum studies unit to enable you to teach that subject up to level 10. Use the elective sequence as an opportunity to make yourself more employable. You may choose units from most of those offered from across the University. School of Education electives relate to teaching while electives from other Faculties relate to a specific discipline. School of Education electives will not clash with professional experience rounds in schools. You should choose units from other Faculties if these units enable you to achieve a goal such as teaching LOTE. Note that EEH316 Student Health and Wellbeing is compulsory for all students except those completing a 6-unit specialised sequence.

### Health and Physical Education Unit Sequence for Primary Levels (P-6):

Students wishing to develop particular expertise in the Health and Physical Education area of the primary curriculum should enrol in the following mix of discipline studies and elective units:

#### First Level

HBS107 Understanding Health (B, G, W, X)

Or

HBS109 Human Structure and Function (B, G, W, X)

And

HSE102 Functional Human Anatomy (B, G, X)

Or

HBS110 Health Behaviour (B, G, W, X)

#### Second Level

EEH426 Physical Education and the Curriculum (B, G, W)

EEH428 Contemporary Issues in Physical Education (B, G, W)

#### Third Level

EEH316 Student Health and Wellbeing (B, G, W)

EEH317 Children in Sport: Issues and Controversies (B, G, W)

Note: Students must enrol in one of HBS107 and HBS109 and in one of HSE102 and HBS110.

### Visual Art Unit Sequence for Primary Levels (P-6)

Students wishing to develop particular expertise in the Visual Arts area of the primary curriculum should enrol in the following mix of discipline studies and elective units:

#### First Level

ACV101 Studio Art: Painting A (B, S, W)

ACV102 Studio Art: Painting B (B, S, W)

#### Second Level

EEA211 Navigating the Visual World (B, G, S, W)

EEA212 Visual Culture: Images, Meaning and Contexts (B, G, S, W)

#### Third Level

ECA433 Arts Education Discipline Study 3 (B, G, W, X)

ECA434 Arts Education Discipline Study 4 (B, G, W, X)

Notes:

(i) ECA433 students to select the Art as Experience specialism.

(ii) ECA434 students to select the Concepts and Bases of Art specialism.

#### Other elective units available 2013

Note: Offering is subject to availability of staff and sufficient students enrolled to meet University requirements.

### Aesthetics; Arts Education; Performing Arts Education

ECA310 Discovering Music A (B, G, W) T1

ECA311 Discovering Music B (B, G, W) T2

ECA433 Arts Education Discipline Study 3 (B, G, W, X) T1

ECA434 Arts Education Discipline Study 4 (B, G, W, X) T2

EEA211 Navigating the Visual World (B, G, S, W) T1

EEA212 Visual Culture: Images, Meaning and Contexts (B, G, S, W) T2

EEA312 Discovering Music C (G) T3

Notes:

- (i) ECA433, ECA434 students to check the campus availability for their preferred specialism.
- (iii) EEA312 is offered in trimester 3.

### Health and Physical Education

EEH315	Teaching Sexuality Education in the Middle Years (B, S) T3
EEH317	Children in Sport: Issues and Controversies (B, G, W) T2
EEH426	Physical Education and the Curriculum (B, G, W) T1
EEH428	Contemporary Issues in Physical Education (B, G, W) T2
ESH457	Youth and Recreation T2
ESS420	Outdoor and Environmental Education (W) T3
ESH457	not offered 2013, re-offered 2014.

### Humanities, Societies and Environments

EEG402	Teaching in a Global World (B, G, X) T3
--------	---

### Information, Communication and Technology Education

EET330	Teaching with New Technologies (B, W) T1
EST430	Educational Software Tools 1 (ONLINE) T2

### Linguistics

ELL201	Language and Social Contexts (B) T1 Alternate years 2013, 2015
ELL202	Texts Across Cultures (B) T2

### Mathematics and Science Education

ESM415	Problem Solving and Modelling in the Mathematics Classroom (X) T1
ESM438	Evaluating Children's Progress **T2
ESS412	Science Experiments You Can Eat (X) *T3

\* ESS412 offered trimester 3.

\*\* ESM438 offered in alternating years 2014, 2016.

### Professional Development

ECE310	Transition Case Study T3
EEC381	Classroom and Behaviour Management (ONLINE) T1
ESP437	Teaching for Interpersonal Development (B) T1

Note: ECE310 is a trimester 3, 2 credit point unit.

### Teaching Children with Individual Needs

ECP303	Child Protection (B, X) T2
EEI322	Teaching the Learner with Special Needs in the General Education Classroom (B) T2
ESP401	Student Behaviour Management and Welfare (B) T2
ESP485	Teaching Thinking Skills (B) T2

Notes:

(i) ECP303 recommended as a 3rd level elective as prerequisite knowledge of schools and professional issues is required.

(ii) ESP401 subject to enrolment quota.

### Elective units available 2014

Notes:

(i) Offering is subject to availability of staff and sufficient student enrolled to meet University requirements.

(ii) An updated list will be provided prior to your re-enrolment in 2013 for 2014.

Detailed course rules

The Bachelor of Education (Primary) may be awarded at pass level.

To be awarded the Bachelor of Education (Primary) pass degree a person shall:

1. be accepted for enrolment in a course of study leading to the award of a Bachelor of Education (Primary) pass degree and continue to be accepted for enrolment until completion of that course of study;
2. complete a course of study amounting to 32\* credit points provided that the course of study:
  - 2.1 shall include units amounting to 26# credit points from those units specified by Faculty Board from time to time as course-grouped units leading to the award of the degree of Bachelor of Education (Primary)
  - 2.2 shall include units amounting to not less than 22 credit points at level 2 or higher, at least 6 credit points of which shall be taken at level 4 or higher
  - 2.3 shall include 6 credit points of course-grouped units in discipline studies as agreed with the Schools of Arts and the Faculty of Science, Engineering and Built Environment
  - 2.4 shall include at least 2 credit points selected from identified discipline subject areas.
3. the course of study shall be completed within a period of not less than four years and except with the permission of the Faculty Board not more than 10 consecutive years from the date the person first enrolled in the course.
4. the course of study shall include satisfactory completion of at least 80 days of supervised school experience.

Students should note that four years of tertiary study inclusive of teacher education is required for employment as a teacher in Victoria.

Notes:

- (i) \*Students undertaking languages other than English (LOTE) will be required to complete ESJ457 Studies in Curriculum 1 in trimester 1 in place of ECL410 in trimester 2 level 4.
- (ii) # Students completing a 6 unit major discipline study are exempt from completing EEH316 which otherwise is a core unit.

LOTE requirements

Students wishing to specialise in teaching Languages Other Than English (LOTE) within the Bachelor of Education (Primary) are advised to undertake a six credit point LOTE major sequence offered by the Faculty of Arts, and are also required to undertake the unit of study: ESJ457 Studies in Curriculum 1 (LOTE option) in trimester 1 level 4. Specialist area Guidelines for LOTE teachers can be found on the website of the Victorian Institute of Teaching (VIT)

### **Working With Children Check**

The Working with Children Act 2005 (Vic.) requires a person who engages in child-related work, as defined in the Act, to obtain an assessment notice under the Act, known as a Working with Children Check (WWCC). The Act is administered by the Department of Justice: [justice.vic.gov.au](http://justice.vic.gov.au) School experience placements in schools in the course of a university degree are "child-related work". Under the Working with Children Act 2005 (Vic.), administered by the Department of Justice, a student teacher must obtain a Working with Children Check (WWCC) before commencing school experience placements in a school. The WWCC must remain current throughout the course. It is an offence under the Act to engage in school experience without holding a WWCC.

You will not be allowed to commence school experience in any school in Victoria until a Working with Children Check is obtained. The Department of Education has requested that on the application form a student nominates the University as the (or one of the) employers. The University will then be sent a copy of the assessment notice. Because the University needs to assure a school that a student placed at the school has a current Working with Children Check, each student must give their authority to provide the assurance - you will be required to sign an authority for the University to inform a school that a WWCC has or has not been obtained.

While the University will hold on file documentation relating to the WWCCs obtained by students engaged in school experience, it is your responsibility to ensure that you can produce the WWCC card to the school upon request and to keep the WWCC current under the Act.

You are required to apply for a WWCC through a participating Australia Post outlet (which can be found on the Australia Post website or the Department of Justice website) and provide proof to the faculty that the WWCC has been undertaken.

Should you fail to obtain a WWCC, practical training in a school will not be provided, and as practical training is a requirement for completion of a teaching degree, the student may be unable to complete the degree. Should this situation arise, the University will provide advice on options for tertiary study.

It is the responsibility of students undertaking placements outside Victoria to enquire about and, where necessary, to meet any similar legislative or other requirements concerning working with children.

### **Professional Experience requirements**

You are required for registration purposes (and for the award of the degree) to have completed successfully over the duration of your course a minimum of 80 days of supervised experience in schools. You should ensure you are conversant with the Standards for Graduating Students as required by the Victorian Institute of Teaching. The school experience is organised by the Professional Experience Office and you should not make contact with schools regarding placements under any circumstances. You are required to comply with the on-line instructions regarding enrolment/re-enrolment in school experience.

School experience must be undertaken in conjunction with your curriculum studies and Education Major studies and during the time tabled dates unless, in exceptional circumstances, alternative arrangements are negotiated and agreed to in writing with the Professional Experience Office. You should note that normally any paid or unpaid work undertaken in a school as an unqualified teacher/teacher's aide will not be recognised for credit as recognised prior learning in supervised school experience for this course. You may be required to complete the school experience component of the course outside the academic year.

A satisfactory level of teaching competence during supervised school experience is required for award of the degree. An "unsatisfactory" result on any school experience placement will be referred to the Faculty Academic Progress and Discipline Committee.

Graduates of an accredited teaching course should note that teacher registration is required in Victoria and is administered by the Victorian Institute of Teaching under the Education and Training Reform Act 2006 (Vic.). Prospective students should acquaint themselves with the requirements for registration in Victoria or in any other relevant location. These requirements include the ability to satisfy the Standards for Graduating Students (available at: [vit.vic.edu.au](http://vit.vic.edu.au))

### **Professional Experience enrolment**

You must carefully follow the instructions when enrolling or re-enrolling online in school experience units. Failure to enrol or re-enrol correctly jeopardises your school experience placement and this

could lead to a delay in the award of the degree. You must follow Faculty rules in relation to the number of days of school experience to be completed for each placement as per the Professional Experience Handbook (available from the campus of enrolment), which includes the published school experience timetable. A 'day' constitutes a whole school day (not part thereof).

You should obtain a copy of the Professional Experience Handbook each year from the Professional Experience Office (also available at [deakin.edu.au/arts-ed/education/schoolexp](http://deakin.edu.au/arts-ed/education/schoolexp)). Information contained in the Handbook is updated annually and is a summary of Faculty rules in relation to school experience.

*New course version commenced 2012.*

## COURSE OVERVIEW

Deakin's Bachelor of Education (Primary) is one of the School of Education's core teacher education programs, and focuses on initial professional studies in primary education for school leavers and other entrants who do not already have a degree or diploma.

The course covers all areas of primary curriculum including English language, mathematics, science, arts, social education, health and physical education, and technology, and contains a strand of six elective units which provides the opportunity to build breadth of knowledge in areas of interest.

As a graduate of this course you will be equipped to teach young people the knowledge, skills, understandings and values to enable them to make sense of, and contribute to, the world now and in the future. Our aim is for graduates to be professional educators who see themselves as being responsible for the intellectual, physical, social, emotional, ethical, spiritual and aesthetic development, and wellbeing of their students.

Study towards a creative, rewarding and challenging career and develop your skills in communication, leadership, organisation, management and information technology.

### Professional recognition

Approved by the Victorian Institute of Teaching (VIT) as a preservice teaching qualification.

Graduates of this course will qualify for a degree in primary teaching which will meet the registration requirements for the Victorian Institute of Teaching and other state teacher registration boards in Australia, as well as the Australian Institute for Teaching and School Leadership (AITSL).

### International students and permanent residents

Graduates of this course who are intending to apply for registration with the Victorian Institute of Teaching (VIT) will be required to demonstrate an IELTS of an average band score of 7.5 across all four skill areas where there is no score below 7 in any of the four skills areas and a score of no less than 8 in speaking and listening.

### Pathways

Pathways to this course are based on the Australian Qualifications Framework as follows:

- Diploma Level courses – Approved graded Diploma level courses (AQF level 5 course) may be eligible for up to six units of electives at level 1.
- Advanced Diploma level courses - Approved Advanced Diploma level courses (AQF level 6 course) may be eligible for up to six units of electives at level 1 and additional specified credit depending on the units taken.
- On successful completion of the Associate Degree of Arts, Business and Sciences students are eligible for up to 10 credit points into this course.

For students who choose to apply for entry into the Bachelor of Education (Primary) course, a total of 12 credit points will be allocated (10 first year credit points and 2 second year credit points). These 12

credit points meet the Australian Qualification Frameworks (AQF) requirements of level 7 units.

### Contact Hours

For each unit of study, you are expected to participate in at least three hours of formal contact each week of trimester. A minimum of six hours of study time in addition to the formal contact is also expected for each unit each week.

You will complete a minimum of 80 days supervised school experience over the duration of the course, providing hands-on experience in a primary school setting.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The Bachelor of Education (Primary) course has a 32 credit point structure made up of 26 core and 6 elective units. Students must complete core and elective units.

### Core Units

- 4 discipline based units comprising:
  - 1 unit in Science
  - 1 unit in Mathematics
  - 1 unit in Literature and
  - 1 unit in Humanities
- 15 primary curriculum units comprising:
  - 3 Mathematics education units
  - 3 English education units
  - 2 Humanities education units
  - 2 Arts education units
  - 2 Science education units
  - 1 Physical education unit
  - 1 Student Health and Wellbeing unit
  - 1 Technology Design education unit
  - 7 professional studies units.

### Elective Units

- 6 electives chosen from any school or faculty within Deakin University (or an approved alternative)
- It is recommended that at least 4 (of the 6 elective units) be taken in one discipline area#

### Other course requirements and profession rules

- No more than 10 units may be taken at level one
- Satisfactory completion of at least 80 days of supervised school experience
- Students must pass at least 5 units at first year before progressing to second year level units
- The course must be completed within a period of not less than 4 years (excluding credit from previous study) and no more than 10 years, including periods of intermission, except with the permission of faculty board.

#it is recommended that the discipline sequence be related to primary education content learning to enable you to complete a specialised teaching sequence, for example, by completing 2 first year units, followed by 2 second year units in one discipline area, such as History, Literature, Science or Mathematics.

## COURSE STRUCTURE

### Level 1

#### Trimester 1

ETP101 Teacher - Learner Identities (B, G, W)  
 SLE103 Ecology and the Environment (B, G, W)  
 ALL153 Literature for Children and Young Adults (B, G, W, X)

and

Elective Discipline Unit 1, one credit point from anywhere in the University.

#### Trimester 2

ETP102 Social Contexts of Education (B, G, W)  
 SIT106 Fundamental Concepts of Mathematics (B, G, W)  
 AIA105 Visions of Australia: Time and Space From 1700 to 2010 (B, G, W, X)

and

Elective Discipline Unit 2, one credit point from anywhere in the University.

*Note: Students must pass at least 5 units at first year before progressing to second year level.*

### Level 2 - Commencing 2013

#### Trimester 1

ETP201 Teacher - Learner Relationships (B, G, W)  
 ECL210 Multiliterate Learners in Early Years Environments (B, G, W)  
 EEH216 Primary Physical Education (B, G, W)

and

Elective Unit 3, one credit point.

#### Trimester 2

ECA209 Arts Education in Primary Schools (B, G, W)  
 ESM210 Children and Mathematics: Developing Mathematical Concepts (B, G, W)  
 EEH217 Student Health and Wellbeing (B, G, W)

and

Elective Unit 4, one credit point.

### Level 3 - Commencing 2014

#### Trimester 1

ETP301 Pedagogy  
 Or  
 ETS301 Pedagogy - Middle Years (7-10) (Select ETS301 if undertaking middle years study option)  
 ESM310 Teachers and Mathematics: Creating An Effective Classroom (B, G, W)  
 EES345 Primary Science Education 1

and

Elective Unit 5, one credit point from anywhere in the University

OR if completing a LOTE sequence you will need to enrol in:

ESJ357 Studies in LOTE Curriculum A

#### Trimester 2

ETP302 Curriculum Inquiry  
 Or  
 ETS302 Curriculum Inquiry - Middle Years (7-10) (Select ETS302 if undertaking middle years study option)  
 ECL310 Multiliterate Learners in Middle Years Environments (B, G, W)

EEO311 Learners Living in Their World: Humanities Perspectives  
and  
Elective Unit 6, one credit point from anywhere in the University  
OR if completing a LOTE sequence you will need to enrol in:  
ESJ358 Studies in LOTE Curriculum B

## Level 4 - Commencing 2015

### Trimester 1

ETP401 Assessment: Ways of Knowing Learners  
EST400 Primary Technology Education: Creativity and Design (B, G, W)  
EEO410 Learners Inquiring in and About Their World: Human Disciplines  
EEA411 Primary Arts Education: Focussed Study

### Trimester 2

ETP402 University-To-Work Transition  
ESM410 Professional Practice and Mathematics: Designing an Inclusive Program (ONLINE)  
EES440 Primary Science Education 2  
ECL410 Literacy Teacher - Researchers in New Times (B, G, W)

Note: EEH216 also offered Trimester 3

## Elective units

Elective units may be taken from faculties other than Arts and Education and provide a great opportunity to develop breadth or depth in your studies.

Choice of electives should be based on personal interest, existing expertise, getting a broader tertiary education, or developing a subject sequence relevant to primary teaching. Use the elective sequence as an opportunity to broaden your content area of interest.

Options for teaching, for example, include choosing electives in the Humanities, SOSE, Health and Physical Education, Mathematics, Science, English, Visual Arts, or a Language other than English. Further information will be available from your campus course director.

Remember to consider your professional experience school rounds requirements when choosing electives so that they do not clash.

## Language other than English (LOTE) requirements

A LOTE strand is offered at the Melbourne Burwood Campus only

### Students with a year 12 LOTE background

Students who passed a LOTE in year 12 must study 6 credit points of language discipline units plus 2 methodology units ( ESJ357 and ESJ358). A total of 8 credit points of study.

Please note that because there are 8 units required to complete a LOTE sequence for teaching, an additional 2 credit points of units will need to be taken as a course overload. You should discuss this with the course director and options may depend on the language undertaken.

### Students with no year 12 LOTE background

Students who did not do a LOTE in year 12 must complete a total of 10 credit points of study, comprising the following:

- 8 credit points of discipline language units (language major study), and
- 2 credit points of teaching methodology units - ESJ357 and ESJ358

Please note that because there are 10 units required to complete a LOTE sequence for teaching, an additional 4 credit points of units will need to be taken as a course overload. You should discuss this with the course director and options may depend on the language undertaken.

## Middle Years (7-10) Study Option

You may undertake a sequence of units in the following areas which will prepare you for teaching in a discipline area in years 7-10 (middle years) of secondary school:

Drama  
 English  
 Mathematics  
 Health  
 History  
 Humanities/SOSE  
 LOTE  
 Music  
 Visual Arts  
 General Science

Two options of study are available, depending on the discipline requirements established by the Victorian Institute of Teaching (VIT) – some disciplines require a major study or combination of sub majors to a total of 6 credit points, and others require a sub major sequence.

1. You may use the 6 unit electives in the course structure to build content knowledge to either a major sequence level. A total of 6 credit points from elective options. An additional secondary methodology (Years 7 – 10) for teaching in the discipline will need to be taken as a course overload.
- OR
2. You may use 4 electives as discipline units and add a unit in secondary methodology (Years 7 – 10) (in the relevant discipline area), A total of 6 credit points from the elective options.

In addition to discipline and secondary methodology units, you will undertake a 20 day secondary school placement.

Please request the details of VIT discipline requirements from course director before selecting units.

### Working with Children Check

The Department of Education and Training (Victoria) requires all pre-service teachers to hold a current Working With Children Check (WWCC) before being allowed to undertake practicum in schools in Victoria.

WWCC Cards (administered by the Department of Justice, Victoria) will be obtained by the student as part of the enrolment process, are valid for five years, and are applicable to practicum undertaken in government, catholic and independent schools. The WWCC must remain current throughout the course. It is an offence under the Working with Children Act 2005 (Vic.) to engage in school experience without holding a WWCC.

Students who are given a negative assessment notice will be advised of alternative options for tertiary study due to their inability to satisfy the professional experience requirements of the course. It is the responsibility of students undertaking placements outside Victoria to enquire about and, where necessary, to meet any similar legislative or other requirements concerning working with children.

### Professional experience requirements

Students will be required for VIT registration purposes (and for the award of the degree) to have completed over the duration of their course, a minimum of 80 days of supervised school (professional) experience.

Professional experience is embedded within the seven Professional Studies units - these units are coded ETP. This provides opportunities for you to integrate the theoretical aspects of the program with classroom practice. To complete the degree and register as a teacher you will need to have successfully completed over the duration of the course, a minimum of 80 days of supervised school experience.

Students must obtain a copy of the Professional Experience Handbook each year from the Professional Experience Office on your home campus. This handbook is also available at [www.deakin.edu.au/arts-ed/education/schoolexp](http://www.deakin.edu.au/arts-ed/education/schoolexp)

## COURSE OVERVIEW

Deakin's Bachelor of Teaching (Primary and Secondary) is a distinctive qualification enabling graduates to teach in primary and secondary schools. It is offered in the off-campus mode.

This course is available to bachelor degree (or equivalent diploma) holders from disciplines that enable them to qualify for two single teaching method subjects. Methods usually require a background of study for at least two years, however preference will be given to applicants who have a three year major study in at least one discipline area.

The course comprises 16 compulsory units of education and professional studies. As part of the course you are required to complete a highly rewarding professional experience program, involving a minimum 45 days of primary school experience and a minimum 45 days of secondary school experience, working with children and alongside experienced teachers.

The course allows you to study specialisations in many areas including arts, humanities, English, health, mathematics, science and environment.

On satisfactory completion of this course, candidates are eligible for employment as both primary and secondary (post-primary) teachers.

### Professional recognition

Approved by Victorian Institute of Teaching (VIT) as a preservice teaching qualification.

### Professional experience requirements

Students are required to undertake professional experience placements concurrently with their primary and secondary curriculum method studies. Students must be enrolled in an appropriate secondary school experience unit in addition to enrolment in the secondary curriculum study method units.

Students may be required to complete the school experience component of the course outside the academic year. A satisfactory level of teaching competence during school experience is required for the award of the degree. Details of professional experience requirements will be found at the end of this section on pre-service courses.

### LOTE/TESOL requirements

Students wishing to specialise in teaching languages other than English (LOTE) or teaching English to speakers of other languages (TESOL) within the Bachelor of Teaching (Primary and Secondary) should note the following LOTE/TESOL requirements:

#### LOTE (Languages other than English)

Students are advised that the requirements of the Victorian Institute of Teaching for primary and secondary teachers of LOTE are as follows:

An Advanced level major study in the language requiring successful completion of Year 12 studies in the language for entry into the program.

NOTE: Native speakers of the language may seek a statement of equivalence from an Australian

university, to verify that their knowledge and competence in the language meets the standard of a post-Year 12 Advanced level major study in the language.

All programs or program combinations should equip prospective teachers of languages with:

- a sufficient level of competence in a range of acceptable spoken and written uses of the standard variety of the language so that they can provide their students with a reliable language model. This includes the ability to use the language:
- in an appropriate range of registers and contexts
- as the medium of instruction for classroom and instructional purposes
- with users from a range of ages, regions and/or social groups, both in Australia and overseas
- an understanding of the significant works of the language (poetry, prose, drama, song, film etc), both contemporary and traditional, and insights into its related history, culture and social life, including in Australia
- knowledge of the formal properties of the phonology, syntax and discourse patterns of the standard language; an understanding of the significant features of the main varieties of the language (regional and social); an understanding of the legitimacy of a range of varieties/settings of the language; and an understanding of the contrastive features of English and the language
- a sound understanding of the pedagogy for teaching languages in the primary and/or secondary schools, including the ability to implement various program models for teaching languages
- an understanding of contemporary research findings in language acquisition, including oracy and literacy development in the first and second languages
- educational theory and practice in Australian schools as it relates to the teaching of languages.

### **TESOL (Teaching English to Speakers of Other Languages)**

The Victorian Institute of Teaching requirements for TESOL are as follows:

A sub-major study in one of Linguistics or

A second language (i.e. not the teacher's first language) or

Appropriate TESOL Studies that includes the following core content:

- the nature of the English language and the learning of English including formal systems, spoken and written discourse, language and social context, and bi/multilingual language and literacy development
- the socio-cultural context of TESOL including educational, cultural, historical and inter-group issues and the implications for teaching and learning
- acquisition of English as a second or additional language. The study of how a second or additional language is acquired with reference to English with implications for TESOL pedagogy
- the institutional context of TESOL including the role of the TESOL teacher in the school organisation, with parents (as appropriate) and the wider community
- together with teaching methodology which covers TESOL principles and approaches for a range of educational contexts, including factors affecting the development of language proficiency, and assessment procedures to facilitate appropriate placement of students with ESL needs.

### **Special requirements for off-campus students**

On-campus attendance may be required for some units in the form of vacation schools or weekend schools. It is expected that students will have access to a computer and modem to fully benefit from the off-campus services and course delivery.

**Contact hours**

For each unit of study students are expected to devote 10 to 12 hours of reading, revision and assignment preparation time for each unit each week.

**FEES AND CHARGES**

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

**COURSE RULES**

To be awarded the Bachelor of Teaching (Primary and Secondary) a student must satisfactorily complete 16 credit points of study taken from the list of course-grouped units leading to the award.

The course of study shall normally be completed within a period of not less than four trimesters of full-time study or part-time equivalent and not more than nine trimesters of study or part-time equivalent. Further extensions of time may be granted with the permission of the Faculty Board which must not exceed 10 consecutive years from the date the student first enrolled in the course.

The course of study shall include satisfactory completion of at least 45 days of supervised school experience in a primary setting and at least 45 days of supervised school experience in a secondary setting.

The course of study shall include secondary curriculum method studies normally related to at least one major sequence of at least 6 credit points or equivalent and at least one minor sequence of at least 4 credit points or equivalent satisfactorily completed in the approved tertiary program undertaken prior to entry.

**COURSE STRUCTURE**

Note: Students enrolled prior to 2007 should contact their enrolment officer for course advice.

**Off campus**

Off-campus students are expected to take no more than two credit points of study per trimester but have the option of increasing or decreasing this load by negotiation with the course director. Off-campus students should note that the normal professional experience (school experience) requirements apply.

### Working with Children Check

The Working with Children Act 2005 (Vic.) requires a person who engages in child-related work, as defined in the Act, to obtain an assessment notice under the Act, known as a Working with Children Check (WWCC). The Act is administered by the Department of Justice: [justice.vic.gov.au](http://justice.vic.gov.au) School experience placements in schools in the course of a university degree are "child-related work". Under the Working with Children Act 2005 (Vic.), administered by the Department of Justice, a student teacher must obtain a Working with Children Check (WWCC) before commencing school experience placements in a school. The WWCC must remain current throughout the course. It is an offence under the Act to engage in school experience without holding a WWCC.

Students will not be allowed to commence school experience in any school in Victoria until a Working with Children Check is obtained. The Department of Education has requested that on the application form a student nominates the University as the (or one of the) employers. The University will then be sent a copy of the assessment notice. Because the University needs to assure a school that a student placed at the school has a current Working with Children Check, each student must give their authority to provide the assurance - a student will be required to sign an authority for the University to inform a school that a WWCC has or has not been obtained.

While the University will hold on file documentation relating to the WWCCs obtained by students engaged in school experience, it is each student's responsibility to ensure that he or she can produce the WWCC card to the school upon request and to keep the WWCC current under the Act.

Students are required to apply for a WWCC through a participating Australia Post outlet (which can be found on the Australia Post website or the Department of Justice website) and provide proof to the faculty that the WWCC has been undertaken.

Should a student fail to obtain a WWCC, practical training in a school will not be provided, and as practical training is a requirement for completion of a teaching degree, the student may be unable to complete the degree. Should such a situation arise, the University will provide advice on options for tertiary study.

It is the responsibility of students undertaking placements outside Victoria to enquire about and, where necessary, to meet any similar legislative or other requirements concerning working with children.

### **Professional Experience requirements**

Students are required for registration purposes (and for the award of the degree) to have completed over the duration of their course a minimum of 90 days of supervised school experience. Students should ensure they are conversant with the Standards for Graduating Students as required by the Victorian Institute of Teaching. The school experience is organised by the Professional Experience Office and students do not make contact with schools regarding placements under any circumstances. Students are required to comply with the on-line instructions regarding enrolment/re-enrolment in school experience; failure to enrol/re-enrol jeopardises a student's school experience placement. Students should note that it is a requirement of the course that school experience is undertaken in conjunction with their curriculum studies and Education Major studies and during the time tabled dates unless, in exceptional circumstances, alternative arrangements are negotiated and agreed to in writing with the Professional Experience Office. Students should note that normally any paid or unpaid work undertaken in a school as an unqualified teacher/teacher's aide will not be recognised for credit as recognised prior learning in supervised school experience for this course. Students may be required to complete the school experience component of the course outside the academic year. A satisfactory level of teaching competence during supervised school experience is required for award of the degree. An "unsatisfactory" result on any school experience placement will be referred to the Faculty Academic Progress and Discipline Committee.

Graduates of an accredited teaching course should note that teacher registration is required in Victoria and is administered by the Victorian Institute of Teaching under the Education and Training Reform Act 2006 (Vic.). Prospective students should acquaint themselves with the requirements for registration in Victoria or in any other relevant location. These requirements include the ability to satisfy the Standards for Graduating Students (available at: [vit.vic.edu.au](http://vit.vic.edu.au))

### **School Experience enrolment**

Students need to carefully follow the instructions correctly when enrolling or re-enrolling online in school experience units. Failure to enrol or re-enrol correctly jeopardises a student's school experience placement and this could lead to a delay in the award of the degree. Students must follow Faculty rules in relation to the number of days of school experience to be completed for each placement as per the Professional Experience Handbook (available from the campus of enrolment) which includes the published school experience timetable. Students should note that a 'day' constitutes a whole school day (not part thereof).

Students should obtain a copy of the Professional Experience Handbook each year from the Professional Experience Office (also available at [deakin.edu.au/arts-ed/education/schoolexp](http://deakin.edu.au/arts-ed/education/schoolexp)). Information contained in the Handbook is updated annually and is a summary of Faculty rules in relation to school experience.

### **Off-Campus Bachelor of Teaching (Primary and Secondary) students**

Students enrol in School Experience units in second trimester and negotiate with the Professional Experience office regarding their placement dates and arrangements. Students will receive a copy of the Professional Experience Handbook from the Professional Experience Office on the Geelong Waurn Ponds Campus and are encouraged to liaise closely with this Office when enrolled in these units. Off-

campus students undertake their supervised school experience in two blocks with a minimum of 3 consecutive whole days per week, for each setting. Students who wish to undertake their supervised school experience overseas should note that it is to be conducted only in schools using the English language as the main language for instruction. All arrangements for professional experience must be approved by the Faculty of Arts and Education.

## COURSE OVERVIEW

Deakin's Bachelor of Physical Education prepares you for a career in physical education teaching in secondary schools. The course provides theory and practice in the study of education, discipline studies, curriculum studies and in the specialised teaching method of physical education. In addition, students will study a second teaching method of their choice from a selected range of discipline studies offered by the Faculty of Health, the Faculty of Science, Engineering and Built Environment or the Faculty of Arts and Education.

You will participate in a highly rewarding professional experience program spending at least 80 days working in schools, with children and alongside experienced teachers.

### Professional recognition

Approved by Victorian Institute of Teaching (VIT) as a preservice teaching qualification.

### Contact Hours

For each unit of study students are expected to participate in at least three hours of formal contact each week of trimester. A minimum of six hours of study time in addition to the formal contact is also expected for each unit each week.

### Professional Experience Requirements

A satisfactory level of teaching competence during school experience is required for the award of the degree. Students are required to undertake professional experience placements concurrently with their secondary curriculum studies. Students may be required to complete the school experience component of the course outside the academic year.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The degree requires students to complete 32 credit points over the equivalent of four years of full-time study. Students are required to complete: 18 credit points of Education (which include studies in education, physical education, curriculum methods, literacy and numeracy); 14 credit points of discipline studies (which include exercise science, applied sports science and discipline content related to the second teaching method). Second teaching methods may be taken from a range of discipline areas including Biology, Chemistry (Biological), Dance, Drama, Health Education, Environmental Science, Mathematics and Studies of Society and Environment (Humanities).

## DETAILED COURSE RULES

The Bachelor of Physical Education may be awarded at pass level. To be awarded the Bachelor of Physical Education pass degree a person shall:

1. be accepted for enrolment in a course of study leading to the award of a Bachelor of Physical Education pass degree and continue to be accepted for enrolment until completion of that course of study
2. complete a course of study amounting to 32 credit points provided that the course of study
  - 2.1 shall include units amounting to 25 credit points from those units specified by Faculty Board from time to time as course-grouped units leading to the award of the degree of Bachelor of Physical Education.
  - 2.2 shall include units amounting to not less than 22 credit points at level 2 or higher, at least 6 credit points of which shall be taken at level 3 or higher, and at least 6 credit points of which shall be taken at level 4 or higher; and
  - 2.3 shall include a major sequence of education studies units amounting to not less than 6 credit points; and
  - 2.4 shall include a major sequence of physical education studies of not less than 6 credit points; and
  - 2.5 shall include a major sequence of no more than 8 credit points in a discipline area related to the curriculum method study of physical education; and
  - 2.6 shall include a minor sequence of at least 4 credit points in a second discipline area which is to be related to the secondary curriculum method studies undertaken as agreed with the Schools of Arts, the Faculty of Health, and the Faculty of Science, Engineering and Built Environment; and
3. the course of study shall be completed within a period of not less than four years and except with the permission of the Faculty Board not more than 10 consecutive years from the date the person first enrolled in the course.
4. the course of study shall include satisfactory completion of at least 80 days of supervised school experience. Students should note that four years of tertiary study inclusive of teacher education is required for employment as a teacher in Victoria.

### Discipline sequences

Discipline sequences for second teaching methods have been developed in consultation with the other faculties. Students must meet any prerequisites required by the offering Faculty. Units offered have been selected to most appropriately support the curriculum methodology study units while maintaining flexibility and student choice.

Specialist area Guidelines for teachers can be found on the website of the Victorian Institute of Teaching (VIT)

### Working with Children Check

The Working with Children Act 2005 (Vic.) requires a person who engages in child-related work, as defined in the Act, to obtain an assessment notice under the Act, known as a Working with Children Check (WWCC). The Act is administered by the Department of Justice: [justice.vic.gov.au](http://justice.vic.gov.au). School experience placements in schools in the course of a university degree are "child-related work". Under the Working with Children Act 2005 (Vic.), administered by the Department of Justice, a student teacher must obtain a Working with Children Check (WWCC) before commencing school experience placements in a school. The WWCC must remain current throughout the course. It is an offence under the Act to engage in school experience without holding a WWCC.

Students will not be allowed to commence school experience in any school in Victoria until a Working with Children Check is obtained. The Department of Education has requested that on the application form a student nominates the University as the (or one of the) employers. The University will then be sent a copy of the assessment notice. Because the University needs to assure a school that a student placed at the school has a current Working with Children Check, each student must give their authority to provide the assurance - a student will be required to sign an authority for the University to inform a school that a WWCC has or has not been obtained.

While the University will hold on file documentation relating to the WWCCs obtained by students engaged in school experience, it is each student's responsibility to ensure that he or she can produce the WWCC card to the school upon request and to keep the WWCC current under the Act.

Students are required to apply for a WWCC through a participating Australia Post outlet (which can be found on the Australia Post website or the Department of Justice website) and provide proof to the faculty that the WWCC has been undertaken.

Should a student fail to obtain a WWCC, practical training in a school will not be provided, and as practical training is a requirement for completion of a teaching degree, the student may be unable to complete the degree. Should such a situation arise, the University will provide advice on options for tertiary study.

It is the responsibility of students undertaking placements outside Victoria to enquire about and, where necessary, to meet any similar legislative or other requirements concerning working with children.

### Professional Experience requirements

Students are required for registration purposes (and for the award of the degree) to have completed over the duration of their course a minimum of 80 days of supervised school experience. Students should ensure they are conversant with the Standards for Graduating Students as required by the Victorian Institute of Teaching. The school experience is organised by the Professional Experience Office and students do not make contact with schools regarding placements under any circumstances. Students are required to comply with the on-line instructions regarding enrolment/re-enrolment in school experience; failure to enrol/re-enrol jeopardises a student's school experience placement. Students should note that it is a requirement of the course that school experience is undertaken in conjunction with their curriculum studies and Education Major studies and during the time tabled dates unless, in exceptional circumstances, alternative arrangements are negotiated and agreed to in writing with the Professional Experience Office. Students should note that normally any paid or unpaid work undertaken in a school as an unqualified teacher/teacher's aide will not be recognised for credit as recognised prior learning in supervised school experience for this course. Students may be required

to complete the school experience component of the course outside the academic year. A satisfactory level of teaching competence during supervised school experience is required for award of the degree. An “unsatisfactory” result on any school experience placement will be referred to the Faculty Academic Progress and Discipline Committee.

Graduates of an accredited teaching course should note that teacher registration is required in Victoria and is administered by the Victorian Institute of Teaching under the Education and Training Reform Act 2006 (Vic.). Prospective students should acquaint themselves with the requirements for registration in Victoria or in any other relevant location. These requirements include the ability to satisfy the Standards for Graduating Students (available at: [vit.vic.edu.au](http://vit.vic.edu.au))

### School Experience enrolment

Students need to carefully follow the instructions correctly when enrolling or re-enrolling online in school experience units. Failure to enrol or re-enrol correctly jeopardises a student’s school experience placement and this could lead to a delay in the award of the degree. Students must follow Faculty rules in relation to the number of days of school experience to be completed for each placement as per the Professional Experience Handbook (available from the campus of enrolment) which includes the published school experience timetable. Students should note that a ‘day’ constitutes a whole school day (not part thereof).

Students should obtain a copy of the Professional Experience Handbook each year from the Professional Experience Office (also available at [deakin.edu.au/arts-ed/education/schoolexp](http://deakin.edu.au/arts-ed/education/schoolexp)). Information contained in the Handbook is updated annually and is a summary of Faculty rules in relation to school experience.

## COURSE OVERVIEW

Deakin's Bachelor of Physical Education prepares you for a career in physical education teaching in secondary schools. The course provides theory and practice in the study of education, discipline studies, curriculum studies and in the specialised teaching method of physical education. In addition, students will study a second teaching method of their choice from a selected range of discipline studies offered by the Faculty of Health, the Faculty of Science, Engineering and Built Environment or the Faculty of Arts and Education.

You will participate in a highly rewarding professional experience program spending at least 80 days working in schools, with children and alongside experienced teachers.

### Professional recognition

Approved by Victorian Institute of Teaching (VIT) as a preservice teaching qualification.

### Contact Hours

For each unit of study students are expected to participate in at least three hours of formal contact each week of trimester. A minimum of six hours of study time in addition to the formal contact is also expected for each unit each week.

### Professional Experience Requirements

A satisfactory level of teaching competence during school experience is required for the award of the degree. Students are required to undertake professional experience placements concurrently with their secondary curriculum studies. Students may be required to complete the school experience component of the course outside the academic year.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The degree requires students to complete 32 credit points over the equivalent of four years of full-time study. Students are required to complete: 18 credit points of Education (which include studies in education, physical education, curriculum methods, literacy and numeracy and school experience); 14 credit points of discipline studies (which include exercise science, applied sports science and discipline content related to the second teaching method). Second teaching methods may be taken from a range of discipline areas including Biology, Chemistry (Biological), Dance, Drama, Health Education, Environmental Science, Mathematics and Humanities, Societies and Environments (formerly SOSE).

## DETAILED COURSE RULES

The Bachelor of Physical Education may be awarded at pass level. To be awarded the Bachelor of Physical Education pass degree a person shall:

1. be accepted for enrolment in a course of study leading to the award of a Bachelor of Physical Education pass degree and continue to be accepted for enrolment until completion of that course of study
2. complete a course of study amounting to 32 credit points provided that the course of study shall
  - 2.1 include units amounting to 25 credit points from those units specified by Faculty Board from time to time as course-grouped units leading to the award of the degree of Bachelor of Physical Education.
  - 2.2 include units amounting to not less than 22 credit points at level 2 or higher, at least 6 credit points of which shall be taken at level 3 or higher, and at least 6 credit points of which shall be taken at level 4 or higher; and
  - 2.3 include a major sequence of 6 units of education studies units amounting to not less than 6 credit points; and
  - 2.4 include a major sequence of physical education studies of not less than 6 credit points; and
  - 2.5 include a major sequence of no more than 8 credit points in a discipline area related to the curriculum method study of physical education; and
  - 2.6 include a minor sequence of at least 4 credit points in a second discipline area which is to be related to the secondary curriculum method studies undertaken as agreed with the Schools of Arts, the Faculty of Health, and the Faculty of Science, Engineering and Built Environment; and
  - 2.7 include a professional experience sequence of 7 units.
3. Prior to graduation, students are required to supply a certified copy of their level 2 First Aid and AustSwim qualifications in order to satisfy VIT specialist Physical Education.
4. The course of study shall be completed within a period of not less than four years and except with the permission of the Faculty Board not more than 10 consecutive years from the date the person first enrolled in the course.
5. The course of study shall include satisfactory completion of at least 80 days of supervised school experience. Students should note that four years of tertiary study inclusive of teacher education is required for employment as a teacher in Victoria.

## DISCIPLINE SEQUENCES

Discipline sequences for second teaching methods have been developed in consultation with the other faculties. Students must meet any prerequisites required by the offering Faculty. Units offered have been selected to most appropriately support the curriculum methodology study units while maintaining flexibility and student choice.

## Working with Children Check

The Working with Children Act 2005 (Vic.) requires a person who engages in child-related work, as defined in the Act, to obtain an assessment notice under the Act, known as a Working with Children Check (WWCC). The Act is administered by the Department of Justice: [justice.vic.gov.au](http://justice.vic.gov.au) School experience placements in schools in the course of a university degree are "child-related work". Under the Working with Children Act 2005 (Vic.), administered by the Department of Justice, a student teacher must obtain a Working with Children Check (WWCC) before commencing school experience placements in a school. The WWCC must remain current throughout the course. It is an offence under the Act to engage in school experience without holding a WWCC.

Students will not be allowed to commence school experience in any school in Victoria until a Working with Children Check is obtained. The Department of Education has requested that on the application form a student nominates the University as the (or one of the) employers. The University will then be sent a copy of the assessment notice. Because the University needs to assure a school that a student placed at the school has a current Working with Children Check, each student must give their authority to provide the assurance - a student will be required to sign an authority for the University to inform a school that a WWCC has or has not been obtained.

While the University will hold on file documentation relating to the WWCCs obtained by students engaged in school experience, it is each student's responsibility to ensure that he or she can produce the WWCC card to the school upon request and to keep the WWCC current under the Act.

Students are required to apply for a WWCC through a participating Australia Post outlet (which can be found on the Australia Post website or the Department of Justice website) and provide proof to the faculty that the WWCC has been undertaken.

Should a student fail to obtain a WWCC, practical training in a school will not be provided, and as practical training is a requirement for completion of a teaching degree, the student may be unable to complete the degree. Should such a situation arise, the University will provide advice on options for tertiary study.

It is the responsibility of students undertaking placements outside Victoria to enquire about and, where necessary, to meet any similar legislative or other requirements concerning working with children.

### **Professional Experience requirements**

Students are required for registration purposes (and for the award of the degree) to have completed over the duration of their course a minimum of 80 days of supervised school experience. Students should ensure they are conversant with the Standards for Graduating Students as required by the Victorian Institute of Teaching. The school experience is organised by the Professional Experience Office and students do not make contact with schools regarding placements under any circumstances. Students are required to comply with the on-line instructions regarding enrolment/re-enrolment in school experience; failure to enrol/re-enrol jeopardises a student's school experience placement. Students should note that it is a requirement of the course that school experience is undertaken in conjunction with their curriculum studies and Education Major studies and during the time tabled dates unless, in exceptional circumstances, alternative arrangements are negotiated and agreed to in writing with the School Experience Office. Students should note that normally any paid or unpaid work undertaken in a school as an unqualified teacher/teacher's aide will not be recognised for credit as recognised prior learning in supervised school experience for this course. Students may be required to complete the school experience component of the course outside the academic year.

A satisfactory level of teaching competence during supervised school experience is required for award of the degree. An "unsatisfactory" result on any school experience placement will be referred to the Faculty Academic Progress and Discipline Committee.

Graduates of an accredited teaching course should note that teacher registration is required in Victoria and is administered by the Victorian Institute of Teaching under the Education and Training Reform Act 2006 (Vic.). Prospective students should acquaint themselves with the requirements for registration in Victoria or in any other relevant location. These requirements include the ability to satisfy the Standards for Graduating Students (available at: [vit.vic.edu.au](http://vit.vic.edu.au))

### **Professional Experience enrolment**

Students need to carefully follow the instructions correctly when enrolling or re-enrolling online in school experience units. Failure to enrol or re-enrol correctly jeopardises a student's school experience placement and this could lead to a delay in the award of the degree. Students must follow Faculty rules in relation to the number of days of school experience to be completed for each placement as per the Professional Experience Handbook (available from the campus of enrolment) which includes the published school experience timetable. Students should note that a 'day' constitutes a whole school day (not part thereof).

Students should obtain a copy of the Professional Experience Handbook each year from the Professional Experience Office (also available at [deakin.edu.au/arts-ed/education/schoolexp](http://deakin.edu.au/arts-ed/education/schoolexp)). Information contained in the Handbook is updated annually and is a summary of Faculty rules in relation to school experience.

# Bachelor of Health and Physical Education

<b>AWARD GRANTED</b>	Bachelor of Health and Physical Education
<b>CAMPUS</b>	Offered at Melbourne Burwood Campus, Geelong Waurm Ponds Campus
<b>DURATION</b>	4 years full-time or part-time equivalent
<b>CRICOS COURSE CODE</b>	073714F
<b>DEAKIN COURSE CODE</b>	E377

## Notes:

(i) New course version commencing from 2011 at Melbourne Burwood Campus and from 2013 at Geelong Waurm Ponds Campus.

(ii) Dance and Drama discipline sequences are offered at the Melbourne Burwood Campus only.

(iii) English discipline sequence is offered at the Melbourne Burwood Campus only in 2013. From 2014 the English discipline sequence will be offered at both Burwood and Geelong Campuses.

## COURSE OVERVIEW

Deakin's Bachelor of Health and Physical Education prepares you for a career in health and physical education teaching in upper primary and secondary schools. The course provides theory and practice in the study of education, discipline studies, curriculum studies and in the specialised teaching methods of health and physical education. In addition, you will study a second teaching method of your choice from a selected range of discipline studies offered by the Faculty of Science, Engineering and Built Environment or the Faculty of Arts and Education.

You will participate in a highly rewarding professional experience program spending at least 80 days working in schools, with children and alongside experienced teachers.

### Professional recognition

Approved by Victorian Institute of Teaching (VIT) as a preservice teaching qualification.

### International students and permanent residents

Graduates of this course who are intending to apply for registration with the Victorian Institute of Teaching (VIT) will be required to demonstrate an IELTS of an average band score of 7.5 across all four skill areas where there is no score below 7 in any of the four skills areas and a score of no less than 8 in speaking and listening. Further information

### Contact Hours

For each unit of study students are expected to participate in at least three hours of formal contact each week of trimester. A minimum of six hours of study time in addition to the formal contact is also expected for each unit each week.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The degree requires students to complete 32 credit points over the equivalent of four years of full-time study. Students are required to complete: 18 credit points of Education units (which include

studies in education, physical and health education, curriculum methods, literacy and numeracy and professional experience); 14 credit points of discipline studies (which include exercise science, applied sports science and discipline content related to the additional teaching method). Additional teaching methods may be taken from a range of discipline areas including Biology, Chemistry, Dance, Drama, English, Mathematics and History.

The School of Education teaches 18 of the 32 credit points in this award; 10 credit points of exercise science discipline are taught by the Faculty of Health and 4 units (providing discipline content for the additional teaching method) are taught by the Faculty of Science, Engineering and Built Environment, along with other Schools in the Faculty of Arts and Education.

Additional Graduation requirements: Prior to graduation, students MUST have completed an Emergency First Aid Certificate (Level 2) and AUSTSWIM qualifications in order to satisfy VIT Specialist Area Physical Education requirements.

In order to satisfy the Victorian Institute of Teaching requirements for graduates to have good literacy and numeracy skills all students must successfully pass EXC425 Literacy and Numeracy in the Curriculum.

## DETAILED COURSE RULES

The Bachelor of Health and Physical Education may be awarded at pass level. To be awarded the Bachelor of Health and Physical Education pass degree a person shall:

1. be accepted for enrolment in a course of study leading to the award of a Bachelor Health and Physical Education pass degree and continue to be accepted for enrolment until completion of that course of study
2. complete a course of study amounting to 32 credit points provided that the course of study shall
  - 2.1 include units amounting to 25 credit points from those units specified by Faculty Board from time to time as course-grouped units leading to the award of the degree of Bachelor of Health and Physical Education.
  - 2.2 include units amounting to not less than 22 credit points at level 2 or higher, at least 6 credit points of which shall be taken at level 3 or higher, and at least 6 credit points of which shall be taken at level 4 or higher; and
  - 2.3 include a major sequence of 6 units of professional education units amounting to not less than 6 credit points which include professional experience; and
  - 2.4 include a major sequence of health and physical education studies of not less than 6 credit points; and
  - 2.5 include a major sequence of no more than 8 credit points in a discipline area related to the curriculum method study of health and physical education; and
  - 2.6 include a minor sequence of at least 4 credit points in an additional discipline area which is to be related to the secondary curriculum method studies undertaken as agreed with the Schools of Arts, and the Faculty of Science, Engineering and Built Environment; and
3. Prior to graduation, students are required to supply a certified copy of their level 2 Emergency First Aid and AustSwim qualifications in order to satisfy VIT Specialist Area Physical Education.
4. The course of study shall be completed within a period of not less than four years and except with the permission of the Faculty Board not more than 10 consecutive years from the date the person first

enrolled in the course.

5. The course of study shall include satisfactory completion of at least 80 days of supervised school experience. Students should note that four years of tertiary study inclusive of teacher education is required for employment as a teacher in Victoria.

## DISCIPLINE SEQUENCES

Discipline sequences for additional teaching methods were developed in consultation with the relevant faculties and discipline coordinators. Students must meet any prerequisites required by the offering Faculty. Units offered have been selected to most appropriately support the curriculum methodology study units while maintaining flexibility and student choice. Sequences have been designed to meet the Victorian Institute of Teaching 'Specialist Area Guidelines' for secondary teachers.

Specialist area Guidelines for teachers can be found on the website of the Victorian Institute of Teaching (VIT)

## Professional Experience requirements

Students are required for registration purposes (and for the award of the degree) to have completed over the duration of their course a minimum of 80 days of supervised school experience. Students are asked to ensure they are conversant with the Standards for Graduating Students as required by the Victorian Institute of Teaching. The school-based experience is organised by the Faculty of Arts and Education Professional Experience Office in consultation with schools. Students are advised that (normally) any paid or unpaid work undertaken in a school as an unqualified teacher/teacher's aide will not be recognised for credit in the course. A satisfactory level of teaching competence during supervised school experience is required for award of the degree. An "unsatisfactory" result on any school experience placement will be referred to the Faculty Academic Progress and Discipline Committee.

Graduates of an accredited teaching course are advised that teacher registration is required in Victoria and is administered by the Victorian Institute of Teaching under the Education and Training Reform Act 2006 (Vic.). Teacher registration includes the ability to satisfy the Standards for Graduating Students (available at: [vit.vic.edu.au](http://vit.vic.edu.au)).

Students receive a copy of the Professional Experience Handbook each year from the Professional Experience Office (also available at [deakin.edu.au/arts-ed/education/schoolexp](http://deakin.edu.au/arts-ed/education/schoolexp)). Information contained in the Handbook is updated annually and is a summary of Faculty rules in relation to school experience.

### Schedule of new Education Studies/ Professional Experience units

EPP101	Teacher-Learner Identity (B, G) (4 days)
EPP102	Learning-Teaching Communities (B, G) (6 days)
EPP203	Professional Experience in Health and Physical Education: Curriculum Study A (B) (10 days)
EPP304	Ways of Knowing Children and Adolescents (B) (15 days)
EPP305	Policy, Schooling and Society (10 days)
EPP406	Professional Identity and Curriculum Work (35 days)

To pass the units listed above pre-service teachers must successfully complete the unit work assignment component, submitting and passing the unit's associated assessment pieces; and successfully complete the appropriate professional experience days based in school/s. The practicum component is assessed primarily by the supervising classroom teacher in consultations with the pre-service teacher. Satisfactory completion of the practicum component within each education studies/professional experience unit is compulsory in order for the student to progress.

# Bachelor of Early Childhood Education

<b>AWARD GRANTED</b>	Bachelor of Early Childhood Education
<b>CAMPUS</b>	Offered at Melbourne Burwood Campus and by community based delivery through Geelong Waurm Ponds Campus and Warrnambool Campus
<b>DURATION</b>	2 years full-time or part-time equivalent
<b>CRICOS COURSE CODE</b>	059768J
<b>DEAKIN COURSE CODE</b>	E420

*Course version for continuing students only.*

## COURSE OVERVIEW

The Bachelor of Early Childhood Education covers the education requirements of young children from birth to five year-olds and will qualify you as a teacher in childcare centres, kindergartens and early learning centres.

As Australia is on the cusp of significant growth in the early childhood education sector, this course has been developed as a new teacher education program to address the potential shortage of four year trained kindergarten and childcare centre teachers.

Deakin's focus on experiential learning in workplace settings and communities is very different from most early childhood teacher education courses. Up to half of all the teaching and learning activities of this course are undertaken in the real context, giving you the opportunity to meld theory and practice and to become a fully prepared early childhood educator. The course was prepared in consultation with practitioners, parents and early childhood professionals, and course content and delivery draws on the expertise and experience of these groups.

The Australia-wide standard for early childhood education teachers is now four years of tertiary study. As a graduate of this course you will be eligible for employment as an early childhood teacher working with young children as required by the registering body.

This two year course follows on from studies undertaken at TAFE, such as a two year Diploma of Children's Services. It is available to qualified early childhood staff and kindergarten teachers seeking to extend their studies and upgrade their qualifications to the four-year degree level.

The Bachelor of Early Childhood Education enables you to complete the course requirements of 20 credit points of study in a minimum of two years of full-time study (or part-time equivalent), inclusive of professional experience.

The course content covers all areas of program preparation, professional understandings and the experience and skills required of early childhood educators. As a course requirement, level 3 students will complete a minimum of 45 days of supervised professional experience in a range of early childhood settings.

The program is offered in two experience-based pathways: a rural, community-based program offered through the Geelong Waurm Ponds Campus and the Warrnambool Campus, and an on-campus, city-based program offered through the Melbourne Burwood Campus. In some instances, you will be able to combine employment with your studies.

Students enrolled in the rural program are required to attend intensives throughout the course. There will be approximately one intensive held every six weeks. In addition, in level 3 you will be placed in early childhood settings (including kindergartens, long day care centres) for supervised professional experience for a minimum of two days per week.

The city program will have the same features as the rural program, including supervised professional experience in city kindergartens and childcare centres. The city program will be suitable for domestic and international students living in the Melbourne area.

### Professional recognition

Graduates of the course will be eligible for employment as kindergarten and childcare centre teachers. The course has been accredited by the Victorian Department of Education and Early Childhood Development upon recommendation from the Victorian branch of Early Childhood Australia.

### International students:

Applicants who are intending to apply for registration with the Victorian Institute of Teaching (VIT) will be required to demonstrate an IELTS of an average band score of 7.5 across all four skill areas where there is no score below 7 in any of the four skills areas and a score of no less than 8 in speaking and listening. Further information

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The degree requires students to complete 20 credit points over the equivalent of two years of full-time study, inclusive of the minimum 45 days of supervised professional experience.

The course comprises 10 credit points of study at 3rd level and 10 credit points of study at 4th level. Studies include units in language and literacy and mathematics, children's social, physical and behavioural development, management, program issues in early childhood settings and professional leadership and advocacy.

**Notes:**

(i) ECE406 and ESE499 are Wholly Online units for this course (E420).

(ii) All units are 1 credit point value unless noted otherwise:

ECP331, ECP332, ECP333, ECP334 are 0.25 credit point units.

ECE301, ECE303, ECE307, ECE309 are 0.75 credit point units.

ECE310 is a 2 credit point unit.

(iii) ECE410 Valuing Experience: Early Childhood Management and Leadership and ECE411 Valuing Experience: Professional Advocacy are work experience in industry units. They are available for enrolment in Trimesters 1, 2, and Trimester 3, ECE410 and ECE411 are not to be enrolled in concurrently.

**Bachelor of Early Education (Honours) Units – Refer to E421 Bachelor of Early Childhood Education (Honours) course.** Students complete an alternative Level 4 course structure that includes the following research units.

EXR481	Education Research Methodology (ONLINE)
EXR491	Designing and Developing a Research Project (ONLINE)
EXR498	Minor Thesis Part A (ONLINE)
EXR499	Minor Thesis Part B (ONLINE)

**Early Childhood professional experience requirements**

The course includes a minimum of 45 days of supervised professional experience. Forty-five days to be completed over two trimesters in Level three. 20 days to be undertaken in a long day care setting, working with 0-2 year old children. The remaining 25 days to be spent in a 3-5 year old kindergarten setting. Refer to the Faculty Professional Experience website for further details:

<http://www.deakin.edu.au/arts-ed/education/schoolexp/documentation.php>

Professional experience comprises two blocks of 5 days. One scheduled at the beginning of the placement to allow students to familiarise themselves with the children and the environment in which their placement takes place, and the other near the end of the placement when students take full responsibility for the remaining of the program. Between the two blocks, students undertake two days a week placement to build up their experience.

Successful completion of this professional experience is required for progression to a 4th year of study.

Some of this experience may take place in special settings where pre-school children undertake educational programs (e.g. museums, hospitals, special development centres). A strength of the course for graduates is this wider conception of community and family learning contexts.

In level four, students undertake two valuing experience units where they have the opportunity to choose to work in settings that will further their knowledge in management, leadership and advocacy. These experiences are tailored to the students' needs and interests.

Working With Children Check

The Working with Children Act 2005 (Vic.) requires a person who engages in child-related work, as defined in the Act, to obtain an assessment notice under the Act, known as a Working with Children Check (WWCC). The Act is administered by the Department of Justice: [justice.vic.gov.au](http://justice.vic.gov.au)

Professional experience placements in early childhood settings in the course of a university degree are "child-related work". Under the Working with Children Act 2005 (Vic.), administered by the Department of Justice, a student teacher must obtain a Working with Children Check (WWCC) before commencing professional experience placements. The WWCC must remain current throughout the course. It is an offence under the Act to engage in professional experience without holding a WWCC.

While the University will hold on file documentation relating to the WWCCs obtained by students engaged in professional experience, it is each student's responsibility to ensure that he or she can produce the WWCC card to the early childhood setting upon request and to keep the WWCC current under the Act.

Students are required to apply for a WWCC through a participating Australia Post outlet (which can be found on the Australia Post website or the Department of Justice website) and provide proof to the faculty that the WWCC has been undertaken.

Should a student fail to obtain a WWCC, practical training in an early childhood organisation will not be provided, and as practical training is a requirement for completion of a teaching degree, the student may be unable to complete the degree. Should such a situation arise, the University will provide advice on options for tertiary study.

It is the responsibility of students undertaking placements outside Victoria to enquire about and, where necessary, to meet any similar legislative or other requirements concerning working with children.

### **Professional Experience requirements**

Students are required for registration purposes (and for the award of the degree) to have completed a minimum of 45 days of professional experience over the duration of their course. Professional experience placements are organised by the Professional Experience Office. Students should note that normally any paid or unpaid work undertaken in an early childhood organisation as an unqualified teacher/teacher's aide will not be considered for credit by recognition of prior learning (RPL) in supervised professional experience for this course. Students may be required to complete the professional experience component of the course outside the academic year. A satisfactory

level of competence during supervised professional experience is required for award of the degree. An “unsatisfactory” result on any professional experience placement will be referred to the Faculty Academic Progress and Discipline Committee.

### Professional Experience enrolment

Students must follow Faculty rules in relation to the number of days of professional experience to be completed for each placement as per the Professional Experience Handbook (available from the campus of enrolment) which includes the published professional experience timetable. Students should note that a ‘day’ constitutes a whole day (not part thereof).

Schedule of Professional Experience and Work Experience in Industry units

## Bachelor of Early Childhood Education

The course includes a minimum of 45 days of professional experience, and some credit for prior learning may be given for prior supervised professional experience days. Credit for prior learning must be applied for and granted via formal Faculty processes, in the absence of which, students will be placed for professional experience as per the timetable and course requirements.

### Level 3

#### Trimester 1

ECP331 Professional Experience 3A (B)

ECP332 Professional Experience 3B (B)

#### Trimester 2

ECP333 Professional Experience 3C (B)

ECP334 Professional Experience 3D (B)

### Level 4

#### Trimester 3, Trimester 1 or Trimester 2

ECE410 Valuing Experience: Early Childhood Management and Leadership

Or

ECE411 Valuing Experience: Professional Advocacy

*Note: ECE410 Valuing Experience: Early Childhood Management and Leadership and ECE411 Valuing Experience: Professional Advocacy are work experience in industry units. They are available for enrolment in Trimesters 1, 2, and Trimester 3 (year round). ECE410 and ECE411 are not to be enrolled in concurrently.*

Students are assessed on an Ungraded Pass(UP)/Fail(N) basis. Students will receive a fail grade for unsatisfactory performance, professional experience days commenced but not completed or if no contact is made with Professional Experience Office for placement.

## COURSE OVERVIEW

The Bachelor of Early Childhood Education (Honours) offers an opportunity for selected students, who have demonstrated academic merit and an ability to work independently, to undertake a year of honours study beyond the Bachelor of Early Childhood Education (or equivalent).

The honours year is a research-focused course, which extends the completed research work of the Bachelor of Early Childhood Education (or equivalent), and enables students to undertake research training that will equip them to plan, implement and evaluate a rigorous research study at honours level. Students will be able to undertake a substantial and original research project, whilst being under the supervision of an academic with a proven research record. Students will also develop skills and knowledge to identify contemporary issues in early childhood education and care. The honours research units are sequential and specifically designed to enable students to extend their research ability and understanding in the early childhood context, through the advanced research methodology units, literature review critiques, and in the development and presentation of a minor thesis.

## COURSE OVERVIEW

Deakin's Bachelor of Teaching (Primary and Secondary) covers both primary and secondary education, allowing you to gain expertise in both areas.

Graduates will meet entry requirements of the teaching profession in Australia and qualify to gain employment as primary and secondary education teachers in all states and territories of Australia.\*

The course allows you to study specialisations in many areas including arts, humanities, English, health, mathematics, science and environment.

This course is available to bachelor degree (or equivalent diploma) holders from disciplines that enable them to qualify for two single teaching method subjects. Methods usually require a background of study for at least two years, however preference will be given to applicants who have a three year major study in at least one discipline area.

As part of the course you will complete supervised school experience involving a minimum of 45 days of primary school experience and 45 days of secondary experience, which will give you a hands-on experience in a classroom setting.

\* Interstate applicants who intend to teach in a state other than Victoria should seek confirmation from the relevant employing authority that the content and structure of their initial degree will qualify them for employment in primary and secondary schools on satisfactory completion of this course.

The course is offered full time and part time on campus at the Melbourne Burwood Campus.

Note: The postgraduate primary teaching course that commenced in 2007, 'E665 Graduate Diploma of Teaching (Primary)' is offered on-campus at the Geelong Waurin Ponds Campus.

### Professional recognition

Approved by Victorian Institute of Teaching (VIT) as a preservice teaching qualification.

### Professional experience requirements

Students are required to undertake professional experience placements concurrently with their primary and secondary curriculum method studies. Students must be enrolled in an appropriate secondary school experience unit in addition to enrolment in the secondary curriculum study method units.

Students may be required to complete the school experience component of the course outside the academic year. A satisfactory level of teaching competence during school experience is required for the award of the degree.

### LOTE/TESOL requirements

Students wishing to specialise in teaching languages other than English (LOTE) or teaching English to speakers of other languages (TESOL) within the Bachelor of Teaching (Primary and Secondary) should

note the following LOTE/TESOL requirements:

### **LOTE (Languages other than English)**

Students are advised that the requirements of the Victorian Institute of Teaching for primary and secondary teachers of LOTE are as follows:

*An Advanced level major study in the language requiring successful completion of Year 12 studies in the language for entry into the program.*

NOTE: Native speakers of the language may seek a statement of equivalence from an Australian university, to verify that their knowledge and competence in the language meets the standard of a post-Year 12 Advanced level major study in the language.

All programs or program combinations should equip prospective teachers of languages with:

- a sufficient level of competence in a range of acceptable spoken and written uses of the standard variety of the language so that they can provide their students with a reliable language model. This includes the ability to use the language:
  - in an appropriate range of registers and contexts
  - as the medium of instruction for classroom and instructional purposes
  - with users from a range of ages, regions and/or social groups, both in Australia and overseas
  - an understanding of the significant works of the language (poetry, prose, drama, song, film etc), both contemporary and traditional, and insights into its related history, culture and social life, including in Australia
- knowledge of the formal properties of the phonology, syntax and discourse patterns of the standard language; an understanding of the significant features of the main varieties of the language (regional and social); an understanding of the legitimacy of a range of varieties/settings of the language; and an understanding of the contrastive features of English and the language
- a sound understanding of the pedagogy for teaching languages in the primary and/or secondary schools, including the ability to implement various program models for teaching languages
- an understanding of contemporary research findings in language acquisition, including oracy and literacy development in the first and second languages
- educational theory and practice in Australian schools as it relates to the teaching of languages.

### **TESOL (Teaching English to Speakers of Other Languages)**

The Victorian Institute of Teaching requirements for TESOL are as follows:

*A sub-major study in one of Linguistics or  
A second language (i.e. not the teacher's first language) or*

Appropriate TESOL Studies that includes the following core content:

- the nature of the English language and the learning of English including formal systems, spoken and written discourse, language and social context, and bi/multilingual language and literacy development
- the socio-cultural context of TESOL including educational, cultural, historical and inter-group issues and the implications for teaching and learning
- acquisition of English as a second or additional language. The study of how a second or additional language is acquired with reference to English with implications for TESOL pedagogy
- the institutional context of TESOL including the role of the TESOL teacher in the school organisation, with parents (as appropriate) and the wider community
- together with teaching methodology which covers TESOL principles and approaches for a range of educational contexts, including factors affecting the development of language proficiency, and assessment procedures to facilitate appropriate placement of students with ESL needs.

### Contact hours

For each unit of study students are expected to participate in at least three hours of formal contact each week of trimester. A minimum of six hours of study time in addition to the formal contact is also expected for each unit each week.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

To be awarded the Bachelor of Teaching (Primary and Secondary) a student must satisfactorily complete 16 credit points of study taken from the list of course-grouped units leading to the award. The course of study shall normally be completed within a period of not less than four trimesters of full-time study or part-time equivalent and not more than nine trimesters of study or part time equivalent. Further extensions of time may be granted with the permission of the Faculty Board which must not exceed 10 consecutive years from the date the student first enrolled in the course.

The course of study includes the satisfactory completion of at least 45 days of supervised school experience in a primary setting and at least 45 days of supervised school experience in a secondary setting. The course of study shall include secondary curriculum method studies normally related to at least one major sequence of at least 6 credit points or equivalent and at least one minor sequence of at least 4 credit points or equivalent satisfactorily completed in the approved tertiary program undertaken prior to entry.

### Working with Children Check

The Working with Children Act 2005 (Vic.) requires a person who engages in child-related work, as defined in the Act, to obtain an assessment notice under the Act, known as a Working with Children Check (WWCC). The Act is administered by the Department of Justice: [justice.vic.gov.au](http://justice.vic.gov.au)  
School experience placements in schools in the course of a university degree are "child-related work". Under the Working with Children Act 2005 (Vic.), administered by the Department of Justice, a student teacher must obtain a Working with Children Check (WWCC) before commencing school experience placements in a school. The WWCC must remain current throughout the course. It is an offence under the Act to engage in school experience without holding a WWCC.

Students will not be allowed to commence school experience in any school in Victoria until a Working with Children Check is obtained. The Department of Education has requested that on the application form a student nominates the University as the (or one of the) employers. The University will then be sent a copy of the assessment notice. Because the University needs to assure a school that a student placed at the school has a current Working with Children Check, each student must give their authority to provide the assurance - a student will be required to sign an authority for the University to inform a school that a WWCC has or has not been obtained.

While the University will hold on file documentation relating to the WWCCs obtained by students engaged in school experience, it is each student's responsibility to ensure that he or she can produce the WWCC card to the school upon request and to keep the WWCC current under the Act.

Students are required to apply for a WWCC through a participating Australia Post outlet (which can be found on the Australia Post website or the Department of Justice website) and provide proof to the faculty that the WWCC has been undertaken.

Should a student fail to obtain a WWCC, practical training in a school will not be provided, and as practical training is a requirement for completion of a teaching degree, the student may be unable to complete the degree. Should such a situation arise, the University will provide advice on options for tertiary study.

It is the responsibility of students undertaking placements outside Victoria to enquire about and, where necessary, to meet any similar legislative or other requirements concerning working with children.

### Professional Experience requirements

Students are required for registration purposes (and for the award of the degree) to have completed over the duration of their course a minimum of 90 days of supervised school experience. Students should ensure they are conversant with the Standards for Graduating Students as required by the Victorian Institute of Teaching. The school experience is organised by the Professional Experience Office and students do not make contact with schools regarding placements under any circumstances. Students are required to comply with the on-line instructions regarding enrolment/re-enrolment in school experience; failure to enrol/re-enrol jeopardises a student's school experience placement. Students should note that it is a requirement of the course that school experience is undertaken in conjunction with their curriculum studies and Education Major studies and during the time tabled dates unless, in exceptional circumstances, alternative arrangements are negotiated and agreed to in writing with the Professional Experience Office. Students should note that normally any paid or unpaid work undertaken in a school as an unqualified teacher/teacher's aide will not be recognised for credit as recognised prior learning in supervised school experience for this course. Students may be required to complete the school experience component of the course outside the academic year. A satisfactory level of teaching competence during supervised school experience is required for award of the degree. An "unsatisfactory" result on any school experience placement will be referred to the Faculty Academic Progress and Discipline Committee.

Graduates of an accredited teaching course should note that teacher registration is required in Victoria and is administered by the Victorian Institute of Teaching under the Education and Training Reform Act 2006 (Vic.). Prospective students should acquaint themselves with the requirements for registration in Victoria or in any other relevant location. These requirements include the ability to satisfy the Standards for Graduating Students (available at: [vit.vic.edu.au](http://vit.vic.edu.au))

### Professional Experience enrolment

Students need to carefully follow the instructions correctly when enrolling or re-enrolling online in school experience units. Failure to enrol or re-enrol correctly jeopardises a student's school experience placement and this could lead to a delay in the award of the degree. Students must follow Faculty rules in relation to the number of days of school experience to be completed for each placement as per the Professional Experience Handbook (available from the campus of enrolment) which includes the published school experience timetable. Students should note that a 'day' constitutes a whole school day (not part thereof).

Students should obtain a copy of the Professional Experience Handbook each year from the Professional Experience Office (also available at [deakin.edu.au/arts-ed/education/schoolexp](http://deakin.edu.au/arts-ed/education/schoolexp)). Information contained in the Handbook is updated annually and is a summary of Faculty rules in relation to school experience.

## COURSE OVERVIEW

The Graduate Certificate of Education is designed for teachers and other professionals to undertake a focussed short-term study program and to gain credit for it. The course aims to provide students with a high quality program linked to their professional and career development needs in areas that are of priority for schools and systems.

This course is highly flexible, allowing students to choose from across the wide range of units on offer to build the skills and knowledge that individual students particularly need. Students will be expected to have computer and internet access.

### Teaching methods

Students receive instructional materials through CloudDeakin, CD-ROM and website links. Interaction with lecturers is provided through use of CloudDeakin, email and telephone links.

### Articulation to masters course

The Graduate Certificate allows fast tracking into the masters degree. Up to 4 credit points may be granted for a completed graduate certificate taken as a fifth year of tertiary study toward a masters degree. Direct entry to masters may be offered for a graduate certificate taken as a fourth year of tertiary study if completed at credit level or higher.

### Specialist and generic units

This course is highly flexible, allowing students to choose specialist and generic units from across the range on offer to build individual strengths in specialism, skills and knowledge. Any of the specialist units can be included to develop a specialist stream such as EEG701 and EEG702 for International Schooling.

### Fees and charges

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

### Course rules

Students are required to successfully complete 4 credit points of study. Four units are taken from a combination of generic and specialist units chosen in consultation with the course director.

## COURSE STRUCTURE

This course is highly flexible, allowing participants to choose units across the range on offer to build the skills and knowledge individual students particularly need.

## COURSE OVERVIEW

The Graduate Certificate of Education is designed to allow teachers and other professionals to undertake focused short-term study programs and to gain credit for them. The courses aim to provide students with high quality programs linked to their professional and career development needs in areas that are of priority for schools and systems.

This course is designed as an introduction to basic ideas, practices and controversies in educational leadership and administration. It draws on ideas and literature from around the world but has a significant focus on developments in Australia. While it is useful for those who are contemplating applying for positions of leadership, the course takes the view that all teachers are leaders in one way or another and all are involved in administration. It is therefore of interest to all those involved in managing the education process in various institutional structures.

### Teaching methods

Students receive instructional materials through CloudDeakin, CD-ROM and website links. Interaction with lecturers is provided through use of CloudDeakin, email and telephone links.

## COURSE OVERVIEW

The Graduate Certificate of Education is designed to allow teachers to undertake focused short-term study programs and to gain credit for them. The courses aim to provide teachers with high quality programs linked to their professional and career development needs in areas that are of priority for schools and systems.

This course is designed to meet the needs of teachers working in all sectors of the TESOL field in Australia and overseas. It is designed to provide a sound understanding of key principles and current innovative practice in English language teaching around the world and is also suitable for qualified teachers who are newcomers to TESOL. Applicants who wish to teach ESL in government schools in Victoria must meet specific content and practical teaching requirements in the Graduate Certificate of Education (GCertEd) in the related specialist field, as well as having a recognised teaching qualification that permits them to be employed as a teacher in Victoria. A number of adult ESL settings and programs may also require this level of qualification for employment purposes.

Applicants without a recognised teaching qualification who are working in the field of adult education or in overseas countries may undertake the Master of TESOL E780 course.

### Professional recognition

Endorsed by Victorian Institute of Teaching (VIT) for specialist teaching.

### International students and permanent residents

Graduates of this course who are intending to apply for registration with the Victorian Institute of Teaching (VIT) will be required to demonstrate an IELTS of an average band score of 7.5 across all four skill areas where there is no score below 7 in any of the four skills areas and a score of no less than 8 in speaking and listening. Further information

### Teaching methods

Students receive instructional materials through CloudDeakin, CD-ROM and website links. Interaction with lecturers is provided through use of CloudDeakin, email and telephone links.

Optional weekend study schools may also be available for some units.

On campus TESOL units are delivered through face to face teaching in scheduled classes at the Melbourne Burwood Campus.

# Graduate Certificate of Higher Education

<b>AWARD GRANTED</b>	Graduate Certificate of Higher Education
<b>CAMPUS</b>	Off campus
<b>DURATION</b>	0.5 year full-time or part-time equivalent
<b>DEAKIN COURSE CODE</b>	E570

## COURSE OVERVIEW

The Graduate Certificate of Higher Education is designed to meet the requirements for credentialing tertiary teaching for academic staff. Such qualifications are becoming increasingly valued across the higher education sector, both in Australia and internationally.

The course is suitable for all academics teaching undergraduate or postgraduate students, in research supervision, and in the leadership or management of higher education. It caters for graduate students, tertiary teachers, adult educators, and professional staff engaged in supporting teaching and learning programs or delivering professional development programs.

The course is designed to develop your understanding of issues, research findings, and knowledge related to a range of tertiary teaching and learning contexts. Relevant policies, procedures and practices will be used to further your knowledge of quality teaching and learning as well as approaches and strategies to curriculum design, assessment, and the scholarship and leadership of teaching.

### Articulation to Masters course

The Graduate Certificate may articulate with either a Master of Education or Master of Professional Education and Training depending on applicant's qualifications.

### Teaching methods

This course will be offered in an off campus mode with online and distance education elements. Some face-to-face workshops will be available. Instruction will be provided through CloudDeakin, multimedia resources and recommended texts and readings.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

### Course rules

In keeping with University regulations, in order to be eligible for the award, students must successfully complete half of the units at Deakin University. If students are awarded 3 units of credit transfer and recognition, they may choose one of two options:

- to complete one unit and be awarded a certificate of completion for the unit; or
- to refuse one unit of credit transfer and recognition, successfully complete two units, and so be eligible for the Graduate Certificate of Higher Education award.

(iv) EEE716 not offered 2013, re-offered 2014.

# Graduate Certificate of Teaching English to Speakers of other Languages

**AWARD GRANTED** Graduate Certificate of Teaching English to Speakers of other Languages

**CAMPUS**

**DURATION** 0.5 year full-time or part-time equivalent

**CRICOS COURSE CODE** 026687E

**DEAKIN COURSE CODE** E580

This course is an exit only course from 2012.

## COURSE OVERVIEW

The Graduate Certificate of Teaching English to Speakers of Other Languages (GC TESOL ) is a short-term focused study that forms part of and with a direct pathway into the Master of Teaching English to Speakers of Other Languages (MTESOL) which is designed to address the wide diversity of educational backgrounds of students who wish to teach English, and to meet their professional needs. This course is offered to Australian students working and/or intending to work overseas as TESOL teachers, students who are unable to leave their place of work or country and wish to study off campus as well as international students who want to study TESOL on campus in Australia. The course is open to qualified professionals including teachers, in the field of education and training.

This course offers the opportunity for students to critically interpret communication in intercultural contexts; develop skills in analysing their learners' language and English as an international language; and develop an understanding of the language teaching profession in a local and global context.

All staff involved in the provision of the MTESOL are active researchers in their fields. Involvement with current educational issues is reflected in the innovative teaching methods used and the discussion of the most up to date ideas and theories in unit content.

### Professional recognition

Students who are qualified teachers and are eligible for Victorian Institute of Teaching registration are advised to enrol in the accredited teaching course E552 Graduate Certificate of Education (TESOL) to teach ESL in Australian schools.

GC TESOL is not an initial teaching qualification in Australia. If an applicant does not already hold a teaching qualification recognized in Victoria they cannot meet VIT requirements through undertaking this course.

### Teaching Methods

The course is offered by on campus and flexible off-campus delivery in both full and part time mode. Students may choose to do units in either on or off campus, full or part time modes. The on campus units will be taught at the Melbourne Burwood Campus. Students receive instructional materials offered through CloudDeakin, CD-ROM and website links.

Interaction with lecturers and classmates is also provided through use of CloudDeakin, email and telephone links. Optional weekend study schools may also be available for some units.

On campus units are normally delivered late afternoon through face-to-face teaching in scheduled classes at the Melbourne Burwood Campus.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

### Course rules

The GCTESOL is a 4 credit point course comprising 4 units of study (0.5 year full time or 1 year part time).

### Detailed course rules

*Students commencing prior to Trimester 2 2012:*

Refer to 2012 Handbook course entry for detailed course rules.

*Students commencing from Trimester 2 2012:*

Students must successfully complete any 4 units from the MTESOL core units.

## Course overview

The Graduate Certificate of Professional Education and Training course is a short off-campus study program offered to professional educators and trainers working or intending to work in learning and development, education and training, and human resource development roles. Typically, people are engaged in business, government, learning and development, the training sector, flexible delivery, distance education, VET in schools, or in an area that combines these. The program is modular and flexible and designed around an agreed structure and a set of guiding principles.

This course is designed to provide the postgraduate study needs of students from the adult-oriented professional education and training sector. It is highly flexible allowing participants to choose units across the range on offer to build the skills and knowledge individual students particularly need.

## Teaching methods

Students receive instructional materials through CloudDeakin, CD-ROM and website links. Interaction with lecturers is provided through use of CloudDeakin, email and telephone links.

## Articulation to masters course

The Graduate Certificate allows fast-tracking into a masters degree. Up to 4 credit points may be granted for a completed graduate certificate taken as a fifth year of tertiary study, toward a masters degree. Direct entry to masters may be offered for a graduate certificate taken as a fourth year of tertiary study if completed at credit level or higher. Graduate certificates may be undertaken as an entry point for some courses and appellations or as an exit point after satisfactory completion of at least 4 credit points of study.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## Course rules

The course requires the completion of 4 credit points units chosen in consultation with the course director.

# Graduate Diploma of Teaching (Primary)

<b>AWARD GRANTED</b>	Graduate Diploma of Teaching (Primary)
<b>CAMPUS</b>	Offered at Geelong Waurm Ponds Campus
<b>DURATION</b>	Equivalent to 1 year full time*
<b>CRICOS COURSE CODE</b>	060938G
<b>DEAKIN COURSE CODE</b>	E665

*Note: \* This is an initial teacher education course to enable students to complete what is usually a one-year course of study in two thirds of the time (7 calendar months full-time from November to June).*

## COURSE OVERVIEW

The Graduate Diploma of Teaching (Primary) is offered through intensive mode at the Geelong Waurm ponds Campus, commencing in November each year and finishing in June of the following year. Duration: a 7-month full-time course for applicants with an approved three year undergraduate degree or diploma.

The Graduate Diploma of Teaching (Primary) is designed to prepare graduates to be eligible for registration and employment as teachers in primary schools. Deakin's highly relevant Graduate Diploma of Teaching (Primary) provides:

- The opportunity for students to be able to complete a full one-year post-graduate course in two thirds the time of any other similar 8 credit-point course (Nov-June).
- An environment where both locals and internationals interact within the classroom for significantly greater shared learning and real world experience.
- Responsively: the ability to be responsive to the requirements of schools is an essential component.
- Relevance: practising teachers have been consulted to ensure course content is relevant for both local and international teachers and the course utilises the most current research available.
- The opportunity for graduates to apply early for positions within the Victorian teaching system.
- A course where international graduates can teach at primary level in their home country.
- The opportunity for international graduates to align their completion with school commencement year in their home countries.
- Entry for non-Education degree students to the course.
- Academics that are specialists in both teaching and educational research.

## Delivery and location

This course commences in Trimester 3 (November to January) and continues in First trimester the following year.

Trimester 3 study commences with two weeks of on-campus attendance and one week of induction in schools before the Christmas break. In mid January the following year, trimester 3 re-commences with a further three weeks of on-campus classes and a 5-day professional experience in schools. First trimester of the following year, students will attend on-campus once a week and attend their schools for the professional experience (supervised school experience) component of the course the remaining four days of the week.

## Professional experience placements

All professional experience is undertaken in a defined group of Geelong schools. The schools provide challenging, high-intensity experiences so that the students are 'teacher-ready' at the conclusion of their course.

## Contact hours

Each unit of study consists of a minimum of 30 hours of contact time.

In intensive mode, this translates to on-campus attendance from 9.00am to 4.00pm Monday to Friday.

### (Trimester 3)

In trimester 1, professional school experience will require attendance from 8.30am to 4.30pm at the nominated school. On-campus delivery will occur between 9.00am and 4.00pm. In addition, there will be two single weeks of intensive study held on-campus.

### Teaching methods

Students receive instructional materials through CloudDeakin, CD-ROM and website links. Interaction with lecturers is primarily through on-campus tutorials and in addition is provided through use of CloudDeakin, email and telephone links.

### Professional recognition

Approved by Victorian Institute of Teaching (VIT) as a preservice teaching qualification.

### International students and permanent residents

Graduates of this course who are intending to apply for registration with the Victorian Institute of Teaching (VIT) will be required to demonstrate an IELTS of an average band score of 7.5 across all four skill areas where there is no score below 7 in any of the four skills areas and a score of no less than 8 in speaking and listening. Further information

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

### Course rules

To be awarded the Graduate Diploma of Teaching (Primary) a student must satisfactorily complete 8 credit points of study taken from the list of course-grouped units leading to the award.

The course of study shall normally be completed within a period of not less than two trimesters of full time study. Extensions of time may be granted with the permission of the Faculty Board which must not exceed five consecutive years from the date the student first enrolled in the course.

The course of study shall include satisfactory completion of at least 45 days of supervised school experience in a primary school.

## Other Course information

### Working with Children Check

The Working with Children Act 2005 (Vic.) requires a person who engages in child-related work, as defined in the Act, to obtain an assessment notice under the Act, known as a Working with Children Check (WWCC). The Act is administered by the Department of Justice: [justice.vic.gov.au](http://justice.vic.gov.au). School experience placements in schools in the course of a university degree are "child-related work". Under the Working with Children Act 2005 (Vic.), administered by the Department of Justice, a student teacher must obtain a Working with Children Check (WWCC) before commencing school experience placements in a school. The WWCC must remain current throughout the course. It is an offence under the Act to engage in school experience without holding a WWCC.

Students will not be allowed to commence school experience in any school in Victoria until a Working with Children Check is obtained. The Department of Education has requested that on the application form a student nominates the University as the (or one of the) employers. The University will then be sent a copy of the assessment notice. Because the University needs to assure a school that a student placed at the school has a current Working with Children Check, each student must give their authority to provide the assurance - a student will be required to sign an authority for the University to inform a school that a WWCC has or has not been obtained.

While the University will hold on file documentation relating to the WWCCs obtained by students engaged in school experience, it is each student's responsibility to ensure that he or she can produce the WWCC card to the school upon request and to keep the WWCC current under the Act.

Students are required to apply for a WWCC through a participating Australia Post outlet (which can be found on the Australia Post website or the Department of Justice website) and provide proof to the faculty that the WWCC has been undertaken.

Should a student fail to obtain a WWCC, practical training in a school will not be provided, and as practical training is a requirement for completion of a teaching degree, the student may be unable to complete the degree. Should such a situation arise, the University will provide advice on options for tertiary study.

It is the responsibility of students undertaking placements outside Victoria to enquire about and, where necessary, to meet any similar legislative or other requirements concerning working with children.

### Professional experience requirements

Students are required for registration purposes (and for the award of the degree) to have completed over the duration of their course a minimum of 45 days of supervised school experience. Students should ensure they are conversant with the Standards for Graduating Students as required by the Victorian Institute of Teaching. The school experience is organised by the Professional Experience Office and students do not make contact with schools regarding placements under any circumstances. Students are required to comply with the on-line instructions regarding enrolment/re-enrolment in school experience; failure to enrol/re-enrol jeopardises a student's school experience placement.

Students should note that it is a requirement of the course that school experience is undertaken in conjunction with their curriculum studies and Education Major studies and during the time tabled

dates unless, in exceptional circumstances, alternative arrangements are negotiated and agreed to in writing with the Professional Experience Office. Students should note that normally any paid or unpaid work undertaken in a school as an unqualified teacher/teacher's aide will not be recognised for credit transfer and recognition in supervised school experience for this course. Students may be required to complete the school experience component of the course outside the academic year.

A satisfactory level of teaching competence during supervised school experience is required for award of the degree. An "unsatisfactory" result on any school experience placement will be referred to the Faculty Academic Progress and Discipline Committee.

Graduates of an accredited teaching course should note that teacher registration is required in Victoria and is administered by the Victorian Institute of Teaching under the Education and Training Reform Act 2006 (Vic.). Prospective students should acquaint themselves with the requirements for registration in Victoria or in any other relevant location. These requirements include the ability to satisfy the Standards for Graduating Students (available at: [vit.vic.edu.au](http://vit.vic.edu.au))

### **Professional experience enrolment**

Students need to carefully follow the instructions correctly when enrolling or re-enrolling online in school experience units. Failure to enrol or re-enrol correctly jeopardises a student's school experience placement and this could lead to a delay in the award of the degree. Students must follow Faculty rules in relation to the number of days of school experience to be completed for each placement as per the Professional Experience Handbook (available from the campus of enrolment) which includes the published school experience timetable. Students should note that a 'day' constitutes a whole school day (not part thereof).

Students should obtain a copy of the Professional Experience Handbook each year from the Professional Experience Office (also available at [deakin.edu.au/arts-ed/education/schoolexp](http://deakin.edu.au/arts-ed/education/schoolexp)). Information contained in the Handbook is updated annually and is a summary of Faculty rules in relation to school experience.

## Notes:

(i) Current course version for students commencing from 2007.

(ii) The course is delivered through a mix of short intensive on-campus teaching blocks spread across summer, autumn and winter schools and intra-trimester weeks. Following each intensive teaching block students will be located in a teaching work placement in either a secondary school, a TAFE institute or an ACE agency. These off-campus work placements will be between 4 to 6 weeks per trimester involving concentrated work based learning forms of professional development and enquiry. Students are expected to maintain off-campus participation in the course by accessing the CloudDeakin in periods between the intensive study blocks.

## COURSE OVERVIEW

The Graduate Diploma of Education (Applied Learning) is an exciting and innovative program, designed to prepare teachers and educators to work with young people in secondary schools, TAFE and Adult and Community Education (ACE) agencies.

This course was developed in response to the changes now underway in education programs that provide young people between the ages of 14 and 19 years with the knowledge, skills and values for a range of further study and employment pathways. These changes include the introduction of the Victorian Essential Learning Standards (VELS); the Victorian Certificate of Applied Learning (VCAL); VET in schools; and other Enterprise Education and Applied Learning programs in the lower and middle secondary school years.

The course takes a very 'applied' approach, with much of the learning taking place in education and training workplaces such as schools, TAFE colleges, ACE agencies, youth support agencies and vocationally relevant workplaces. You are required to complete a minimum of 45 days of supervised teaching experience over the duration of the course. You are also required to complete 15 days of service learning and industry-based professional development to support your engagement with the profession.

The course will particularly interest professionals and trade-qualified people considering teaching as a career change and who have applied and vocational qualifications and skills in:

- Technology studies, such as design and technology, food and technology and systems and technology;
- Vocational Education and Training (VET), such as agriculture, automotive, building and construction, business administration, Cisco, community services, clothing products, dance, desktop publishing, electronics, engineering, equine industry, financial services, fitness, food processing (wine), food technology, furnishing, horticulture, hospitality (operations), information technology, laboratory skills, multimedia, music industry, retail operations, seafood industry, small business practice, sport and recreation;
- Applied studies, such as arts, science, mathematics, English, careers, information technology, media, music, environmental studies, social studies, student welfare, and visual communication.

### Professional recognition

Approved by Victorian Institute of Teaching (VIT) as a preservice teaching qualification.

### International students and permanent residents

Graduates of this course who are intending to apply for registration with the Victorian Institute of Teaching (VIT) will be required to demonstrate an IELTS of an average band score of 7.5 across all four

skill areas where there is no score below 7 in any of the four skills areas and a score of no less than 8 in speaking and listening. Further information

### Other fees

The cost associated with meeting the requirements for units of competence from the Certificate IV in Training and Assessment is not covered in the Graduate Diploma of Education (Applied Learning) fees. Students needing to complete this requirement will need to enrol separately with a TAFE college or other Registered Training Provider.

### Delivery and location

The course takes a very 'applied' approach with much of the learning taking place in education and training workplaces.

The course will be conducted on a mixed-mode delivery model which combines on-campus workshops, off campus online study and a major component of work-based experiential learning in community youth learning sites such as schools, TAFE colleges, ACE agencies and vocationally relevant workplaces.

The on-campus aspects of the course (approximately 10 weeks annually for a full time enrolment) will be delivered at the Geelong Waurm Ponds Campus in blocks of 1 to 2 weeks.

### Program length and structure

The program is comprised of 10 weeks of on-campus tutorials and workshops commencing with a two week introductory Summer School in February. Other on-campus intensives will be conducted at mid trimester and end of trimester. In between the on-campus tutorial workshop intensives students will be engaged at their work-based learning sites including applied learning teaching experience for a total of 20 weeks. Typically, students may spend an average of 3 days per week on site and will use the other 2 days per week for study, assignment preparation and CloudDeakin contact.

### Teaching methods

During each work-based learning week students will be located in the school, TAFE institute or ACE agency to complete their Applied Learning Teaching Experience. These work-based learning placements are typically completed as combined blocks of 10 and 15 days but may also be negotiated as three-days-per-week work placement where this can be arranged by the student support staff. The final placement requires students to demonstrate their competence in the essential elements of practice and knowledge that are consistent with VIT's Standards for Graduating Teachers. When students are not undertaking their work-based learning placements they will continue their study online and will be connected to other students and the academic staff course group through CloudDeakin. Through CloudDeakin, students and staff will communicate on the development of their action research projects, other assessment tasks and on their study and teaching progress generally. Unit assessments will reflect these tasks including the quality of each student's CloudDeakin participation.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

### Course rules

To be awarded the Graduate Diploma of Education (Applied Learning) a student must satisfactorily complete 8 credit points of study taken from the list of course-grouped units leading to the award.

The course of study shall normally be completed within a period of not less than one year of full-time or two years of part-time study. Extensions of time may be granted with the permission of the Faculty Board which must not exceed five consecutive years from the date the student first enrolled in the course.

The course of study shall include satisfactory completion of at least 45 days of supervised school experience taken in a combination of secondary schools, TAFE and/or ACE work placements but at least 25 of these days must be taken in a secondary school. Students are also required to complete an additional 15 days of service learning involving professional engagement through volunteer work that contributes value to youth learning settings, and participate in industry-based professional development activities that further their knowledge and skills as a teacher.

In addition to successfully completing all of the course units and professional experience, students are required to have completed a Certificate IV in Training and Assessment (TAA) as a co-requisite to be eligible for graduation. Although Deakin does not deliver the Certificate IV (TAA), students will be offered the option to complete it by taking advantage of credit transfer and recognition and customised training arrangements negotiated by Deakin staff with a suitable Registered Training Provider (RTP). The cost of the Certificate IV is not included in the Deakin fees and is required to be met by the student.

*(iv) EEY705, EEY706, EEY707 and EEY708 are 0.25 credit point units*

### Applied Learning Teaching Experience requirements

Students are required, for employment purposes and for award of the degree, to complete a minimum of 45 days of supervised teaching experience over the duration of their course. Of the 45 days, 25 days must be completed in a secondary school setting, with the remaining 20 days undertaken in secondary schools or alternate settings such as TAFE and ACE.

Students should ensure that they are conversant with the Standards for Graduating Students as required by the Victorian Institute of Teaching. The Professional Experience Office will provide students with an Applied Learning Teaching Experience Handbook, which is updated annually and is a

summary of Faculty requirements in relation to teaching experience.

Students are strongly encouraged to consider a placement in regional Victoria; the Professional Experience Office will assist in the facilitation of regional placements where possible.

In addition to 45 days of supervised placement, the Graduate Diploma of Education (Applied Learning) also requires students to complete a minimum of 15 additional days of professional learning experience that demonstrates constructive contribution to the profession. These 15 days are not required to be supervised and could typically involve undertaking volunteer work with youth oriented organisations or attending relevant in-service programs such as professional conferences and workshops. Students will be required to keep a portfolio of evidence for all professional experience and engagement.

### **Working with Children Check**

The Working with Children Act 2005 (Vic.) requires a person who engages in child-related work, as defined in the Act, to obtain an assessment notice under the Act, known as a Working with Children Check (WWCC). The Act is administered by the Department of Justice: [justice.vic.gov.au](http://justice.vic.gov.au) School experience placements in schools in the course of a university degree are "child-related work". Under the Working with Children Act 2005 (Vic.), administered by the Department of Justice, a student teacher must obtain a Working with Children Check (WWCC) before commencing school experience placements in a school. The WWCC must remain current throughout the course. It is an offence under the Act to engage in school experience without holding a WWCC.

Students will not be allowed to commence school experience in any school in Victoria until a Working with Children Check is obtained. The Department of Education has requested that on the application form a student nominates the University as the (or one of the) employers. The University will then be sent a copy of the assessment notice. Because the University needs to assure a school that a student placed at the school has a current Working with Children Check, each student must give their authority to provide the assurance - a student will be required to sign an authority for the University to inform a school that a WWCC has or has not been obtained.

While the University will hold on file documentation relating to the WWCCs obtained by students engaged in school experience, it is each student's responsibility to ensure that he or she can produce the WWCC card to the school upon request and to keep the WWCC current under the Act.

Students are required to apply for a WWCC through a participating Australia Post outlet (which can be found on the Australia Post website or the Department of Justice website) and provide proof to the faculty that the WWCC has been undertaken.

Should a student fail to obtain a WWCC, practical training in a school will not be provided, and as practical training is a requirement for completion of a teaching degree, the student may be unable to complete the degree. Should such a situation arise, the University will provide advice on options for tertiary study.

It is the responsibility of students undertaking placements outside Victoria to enquire about and, where necessary, to meet any similar legislative or other requirements concerning working with children.

### **Arranging Professional Experience**

Professional experience is organised by the staff in the Professional Experience Office and students should not make contact with schools regarding placements without consultation with the professional experience staff.

Students should note that it is a requirement of the course that professional experience is undertaken in conjunction with course studies and during the scheduled dates unless, in exceptional

circumstances, alternative arrangements are negotiated and agreed to in writing with the Professional Experience Office. Students should also note that normally any paid or unpaid work undertaken in a school as an unqualified teacher/teacher's aide will not be recognised for credit transfer and recognition in supervised school experience for this course.

A satisfactory level of teaching competence during supervised professional experience is required for award of the degree. An 'unsatisfactory' result on any professional experience placement will be referred to the Faculty Academic Progress and Discipline Committee.

Graduates of an accredited teaching course should note that teacher registration is required in Victoria and is administered by the Victorian Institute of Teaching under the Education and Training Reform Act 2006 (Vic.). Prospective students should acquaint themselves with the requirements for registration in Victoria or in any other relevant location. These requirements include the ability to satisfy the Standards for Graduating Students (available at: [www.vit.vic.edu.au](http://www.vit.vic.edu.au)).

### Applied Learning Teaching Experience enrolment

Students need to carefully follow the instructions correctly when enrolling or re-enrolling online in school experience units. Failure to enrol or re-enrol correctly jeopardises a student's school experience placement and this could lead to a delay in the award of the degree. Students must follow Faculty rules in relation to the number of days of school experience to be completed for each placement as per the Professional Experience Handbook (available from the campus of enrolment) which includes the published school experience timetable. Students should note that a 'day' constitutes a whole school day (not part thereof).

Students should obtain a copy of the Professional Experience Handbook each year from the Professional Experience Office (also available at [deakin.edu.au/arts-ed/education/schoolexp](http://deakin.edu.au/arts-ed/education/schoolexp)). Information contained in the handbook is updated annually and is a summary of Faculty rules in relation to school experience.

# Master of Education

<b>AWARD GRANTED</b>	Master of Education
<b>CAMPUS</b>	Offered at Melbourne Burwood Campus and off campus
<b>DURATION</b>	1 year full-time or part-time equivalent
<b>CRICOS COURSE CODE</b>	016888A
<b>DEAKIN COURSE CODE</b>	E700

## COURSE OVERVIEW

The Master of Education is offered to professional educators. Students can choose to do coursework only, or combine coursework with a research paper.

The Master of Education builds upon the Graduate Certificate offered within the Faculty and, if undertaken with a research paper, may articulate to the Doctor of Philosophy (PhD).

As a graduate of this course students will possess an understanding of contemporary education issues and discourses; have high-level critical and evaluative skills; translate into practice your experiences and understandings of the program; and have demonstrated their ability to undertake educational research projects.

Students will be expected to have computer and internet access.

### Alternative exits

E500.,E546.

### Teaching methods

Students may receive instructional materials offered through CloudDeakin, CD-ROM and website links. Interaction with lecturers and classmates is provided through use of CloudDeakin, email and telephone links.

### Articulation

Master of Education students who successfully complete two credits of research method studies and a two credit point research paper, at an appropriate standard, may apply for entry into PhD studies. Those who complete a Master of Education by coursework alone, will be required to complete some level of research training at an appropriate standard before being accepted for doctoral studies.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

To be awarded a Master of Education, students are required to successfully complete 8 credit points of study under one of the following configurations:

### General coursework only

- a minimum of 8 credit points of study from any units at Masters level offered by the School of Education. Participants are encouraged to select from across the full unit range or focus on a group of units covering an area of interest.

In consultation with the course director, students may include other Masters level units offered by the School of Education or elsewhere.

### General Coursework with research paper

A minimum of 4 credit points of study from any Master of Education units;

EXR781 Education Research Methodology (B, X) \*

and

EXR791 Designing and Developing a Research Project (X)

and

EXR796/797 Research Paper Part A and Part B \*\*

\* Where students have an equivalent research study and/or experience this unit may be replaced with another 1 credit point unit in consultation with the course director.

\*\* Research Paper Part A and Part B may be available to complete within the same trimester, but only after consultation with the course director.

In consultation with the course director, students may include other Masters level units offered by the School of Education or elsewhere may be included.

### General coursework with minor thesis

Two credit points of study from any Master of Education units;

EXR781 Education Research Methodology (B, X) \*

EXR791 Designing and Developing a Research Project (X)

and

EXR798/799 Minor Thesis Part A and Part B \*\*

Note: This option is available only in special cases with approval from the course director after completion of two units at Distinction level or higher.

\* Where students have an equivalent research study and/or experience this unit may be replaced with another 1 credit point unit in consultation with the course director.

\*\* Minor Thesis Part A and Part B may be available to complete within the same trimester, but only after consultation with the course director.

In consultation with the course director, students may include other Masters level units offered by the School of Education or elsewhere may be included.

## COURSE STRUCTURE

This course is highly flexible and students may select any 8 units from below unit listings, allowing participants to choose units from across the range on offer to build individual strengths. Any of the specialist units can be included to develop a specialist stream such as EEG701 and EEG702 for International Schooling.

# Master of Education (Special Educational Needs)

<b>AWARD GRANTED</b>	Master of Education (Special Educational Needs)
<b>CAMPUS</b>	Off campus
<b>DURATION</b>	1 year full-time or part-time equivalent
<b>DEAKIN COURSE CODE</b>	E744SP

## Notes:

- (i) Continuing students who enrolled prior to 2013 are asked to contact Wendy Kortman, Course Director OR the Faculty Student Support Office for re-enrolment advice.
- (ii) This course is accredited by Victorian Institute of Teaching for specialist teaching positions.

## COURSE OVERVIEW

The Master of Education (Special Educational Needs) is designed for qualified teachers interested in a pathway for further learning and employment in the area of special educational needs. This course is conducted off campus and consists of eight credit points taken over one year of full-time study or up to three years of part-time study.

As a graduate of this course you will possess advanced knowledge of contemporary education issues and discourses; have high-level critical and evaluative research skills; and translate your understandings of individualised, inclusive educational programs into practice. The course takes in to account the implementation of social justice policy and addresses the fundamental philosophy of access and success for people with diverse educational needs.

The Master of Education (Special Educational Needs) is an externally accredited program that meets the requirements of the Department of Education and Training Victoria and the Victorian Institute of Teaching guidelines for special education. The requirements within the two practicum units EEI700 and EEI716 include 15 days of supervised teaching experience, a supervised case study (15 days or equivalent) and 15 days of professional development activities e.g. workshops and seminars related to specialist/inclusive education.

Please note that EEI700 and EEI716 may be completed in a specialised area such as vision impairment where supervision would be conducted by a member from the visiting teacher service.

### Professional recognition

Endorsed by Victorian Institute of Teaching (VIT) for meeting the Specialist Area Guidelines for Special Education, for already qualified teachers.

### International students and permanent residents

Graduates of this course who are intending to apply for registration with the Victorian Institute of Teaching (VIT) will be required to demonstrate an IELTS of an average band score of 7.5 across all four skill areas where there is no score below 7 in any of the four skills areas and a score of no less than 8 in speaking and listening. Further information

### Alternative exits

E544.,E500.

### Teaching methods

Students receive instructional materials through CloudDeakin, CD-ROM and website links as well as some print materials. Interaction with lecturers is also provided through use of CloudDeakin, email and telephone communication.

### Articulation

The Master of Education (Special Educational Needs) can articulate directly, with four course work

units of credit to a Masters course with a research component.  
Masters courses require a research component to lead to a Doctor of Philosophy.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

Note: Continuing students who enrolled prior to 2013 are asked to contact the course director for course rule advice.

To be awarded a Master of Education (Special Educational Needs), students are required to successfully complete 8 credit points of study comprising 4 core, 2 elective and 2 practicum units.

The practicum units can be taken across a range of settings. The requirements for these units comprise 15 days of supervised teaching experience, a supervised research based case study (15 days or equivalent) and 15 days of professional development activities e.g. workshops and seminars related to the field of specialist education.

## COURSE STRUCTURE

Note: Continuing students who enrolled prior to 2013 are asked to contact the course director for course structure advice.

*For students commencing from 2013:*

### Four compulsory core units:

#### Trimester 1

EEl714 Individualised Program Planning (ONLINE)

ECP703 Child Protection (X)

#### Trimester 2

EXE732 Social Justice and Difference (B, X)

EEl715 Effective Classroom Management: Positive Learning Environments (X)

and

and

### Two practicum units:

#### Trimester 1

EEl700 Practicum Case Study (X)

#### Trimester 2

EEl716 Practicum: Special Educational Needs (X) \*

*Notes:*

(i) *EEl700 includes 15 days supervised/researched based practice (can be completed in home based schools).*

*(ii) EEI716 includes 15 days of supervised teaching and 15 days of Professional Development activities comprising two days of PD related to each unit of study.*

*(iii) EEI700 and EEI716 may also be completed in a specialized area such as vision and hearing impairment where supervision would be conducted by a trained specialist.*

\* For the NSW 'Every School: Learning and Support Scholarship' participants there are two options:

a) to be conducted in your own school as a leadership and research project, related to the field, that is implemented and concluded with a report of the findings (equivalent to 15 days);

OR

b) 15 days of supervised teaching practice, ten of which must be in a different location to your usual employment.

**Professional experience requirements - Working With Children Check (WWCC)**

Students who intend to undertake practicum in Victorian schools are required to complete a WWCC unless a copy of Victorian teacher registration is provided. Students requiring a WWCC should contact the Professional Experience coordinator email: [tania.harvey@deakin.edu.au](mailto:tania.harvey@deakin.edu.au)

<b>AWARD GRANTED</b>	Master of Education (Educational Leadership and Administration)
<b>CAMPUS</b>	Off campus
<b>DURATION</b>	1 year full-time or part-time equivalent
<b>DEAKIN COURSE CODE</b>	E746

## COURSE OVERVIEW

The Master of Education (MEd) is offered to professional educators. You can choose to do coursework only, or you can combine coursework with a research paper.

The Master of Education builds upon graduate certificates offered within the Faculty and, if undertaken with a research paper, may articulate to the Doctor of Philosophy (PhD).

As a graduate of this course you will possess an understanding of contemporary education issues and discourses; have high-level critical and evaluative skills; translate into practice your experiences and understandings of the program; and select appropriate research methods and techniques for educational research projects.

The management of learning is becoming a feature of many complex organisations that see themselves as 'learning organisations'. This course explores what might constitute the responsibilities of those involved in managing such organisations and the learning processes within them. While schools are a focus of much of the work in this program the basic ideas are equally applicable to other learning organizations and those who work within them.

<b>CRICOS COURSE CODE</b>	027532E
<b>DEAKIN COURSE CODE</b>	E752

*Note: Accreditation by Victorian Institute of Teaching for specialist teaching positions.*

## COURSE OVERVIEW

This course is designed for experienced TESOL professionals wishing to develop their understandings of current practice and issues in English language teaching in Australia and overseas. It is also suitable for qualified teachers who are newcomers to the field of TESOL, as the first four core units explore the key principles and practices in contemporary English language teaching.

Applicants who wish to teach English to speakers of other languages (TESOL) in government schools in Victoria must meet specific content and practical teaching requirements in the Master of Education in the related specialist field, as well as having a recognised teaching qualification which permits them to be employed as a teacher in Victoria.

A number of adult ESL settings and programs may also require this level of qualification for employment purposes.

Applicants without a recognised teaching qualification and who are working in the field of adult education or in overseas countries may undertake the Master of TESOL E780 course.

### Professional recognition

Endorsed by Victorian Institute of Teaching (VIT) for specialist teaching.

### International students and permanent residents

Graduates of this course who are intending to apply for registration with the Victorian Institute of Teaching (VIT) will be required to demonstrate an IELTS of an average band score of 7.5 across all four skill areas where there is no score below 7 in any of the four skills areas and a score of no less than 8 in speaking and listening. - EXR791 Designing and Developing a Research Project (X) and
- EXR796/797 Research Paper Part A and Part B (2 credit points) \*\* undertaken in the chosen specialist area.

\* Where students have an equivalent research study and/or experience this unit may be replaced with another 1 credit point unit in consultation with the MEd course director.

\*\* Research Paper Part A and Part B may be available to complete within the same trimester, but only after consultation with the course director.

### Coursework with minor thesis for appellation

- 2 credit points of core units, and
- EXR781 Education Research Methodology (B, X) \* and
- EXR791 Designing and Developing a Research Project (X) and
- EXR798/799 Minor Thesis Part A and Part B (4 credit points)\*\* undertaken in the chosen specialist area.

*Note: Only available in special cases with approval from the MEd course director after completion of two units at distinction level or higher.*

\* Where students have an equivalent research study and/or experience this unit may be replaced with another 1 credit point unit in consultation with the MEd course director.

\*\* Minor Thesis Part A and Part B may be available to complete within the same trimester, but only after consultation with the course director.

## DETAILED COURSE RULES

Applicants with an existing qualification in TESOL who wish to extend their studies into research, may complete either of the research paper pathways.

## COURSE STRUCTURE

*Students commencing prior to Trimester 2 2012:*

Refer to 2012 Handbook course entry for course structure.

*Students commencing from Trimester 2 2012:*

### Core units

#### Trimester 1 or Trimester 2

ECL755 Professional Practice in TESOL or LOTE (X)

#### Trimester 1, Trimester 2 or Trimester 3

ECL753 Linguistics for Language Teaching (B, X)

#### Trimester 1

ECL751 Pedagogy in the Globalised Language Classroom (B, X)

#### Trimester 2

ECL752 Innovation in Language Curriculum (B, X)

### Units for appellation

#### Trimester 1

ECL775 Intercultural Communication in Language Classrooms (B, X)

ECL777 Bilingualism and the Principles and Practices of Language Education (B, X)

#### Trimester 1 or Trimester 3

ECL773 Learning Global English in Diverse Social Contexts (B, X)

#### Trimester 2

ECL774 Learning An Additional Language (B, X)

ECL776 Language Testing and Assessment (B, X)

EXE739 Internationalising the Curriculum (B, X)

#### Trimester 2 or Trimester 3

ECL756 Discourse Analysis for Language Teaching (B, X)

### Research units and Minor Thesis units

Refer to web-links to the units in the Course Rules above.

#### Notes:

*(i) ECL755 Professional Practice in TESOL incorporates a practicum of 22 days of supervised teaching practice in TESOL, for those applicants who wish to meet Victorian Institute of Teaching requirements. The type of practicum undertaken and the number of days satisfactorily completed will be identified on the student's transcript.*

*(ii) EXE739 offered in on-campus mode is subject to availability of staff and sufficient students enrolled to meet University requirements.*

*(iii) EXE739 is a generic masters of education unit. Generic units focus on contemporary educational issues which can be applied to any specialist study and are designed to be compatible with on-line technologies and to complement the specialist units. Each generic unit may be tailored toward the specialist interests of the student.*

### Professional experience requirements - Working With Children Check (WWCC)

Students who intend to undertake practicum in Victorian schools are required to complete a WWCC unless a copy of Victorian teacher registration is provided. Students requiring a WWCC should contact the Professional Experience coordinator email: [Ian.Trend@deakin.edu.au](mailto:Ian.Trend@deakin.edu.au)

<b>AWARD GRANTED</b>	Master of Education (Teaching Languages other than English)
<b>CAMPUS</b>	Offered at Melbourne Burwood Campus, Off campus
<b>DURATION</b>	1 year full-time or part-time equivalent
<b>CRICOS COURSE CODE</b>	027531F
<b>DEAKIN COURSE CODE</b>	E754
	<i>Formerly course code E731</i>

## COURSE OVERVIEW

The Master of Education builds upon graduate certificates offered within the Faculty and, if undertaken with a research paper, may articulate to the Doctor of Philosophy (PhD).

As a graduate of this course you will possess an understanding of contemporary education issues and discourses; have high-level critical and evaluative skills; translate into practice your experiences and understandings of the program; and select appropriate research methods and techniques for educational research projects.

From 2010, the MEd (TLOTE) is available by taking either a coursework, or the coursework with research paper for appellation pathway. It is designed for qualified and experienced teaching professionals who wish to reflect on, evaluate and critique their practice and who wish to develop their understandings of contemporary second language teaching in order to take on leadership roles in their workplace.

Alternatively, a 4 credit point Graduate Certificate of Education (Teaching Languages Other Than English) (E554) course is available for those who wish to exit early from this course.

*Note: Approval for Victorian Institute of Teaching (VIT) endorsement is pending.*

### Professional recognition

Endorsed by Victorian Institute of Teaching (VIT) for specialist teaching.

### International students and permanent residents

Graduates of this course who are intending to apply for registration with the Victorian Institute of Teaching (VIT) will be required to demonstrate an IELTS of an average band score of 7.5 across all four skill areas where there is no score below 7 in any of the four skills areas and a score of no less than 8 in speaking and listening.

### Teaching methods

Students receive instructional materials offered through CloudDeakin, CD-ROM and website links. Interaction with lecturers and classmates is also provided through use of CloudDeakin, email and telephone links.

Optional weekend study schools may also be available for some units. On campus TLOTE units are delivered through face to face teaching in scheduled classes at the Melbourne Burwood Campus.

### Articulation

Master of Education (TLOTE) students who successfully complete two credits of research method studies and a two credit point research paper, at an appropriate standard, may apply for entry into PhD studies.

Those who complete a Master of Education (TLOTE) by coursework alone, will be required to complete some level of research training at an appropriate standard before being accepted for doctoral studies.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

To be awarded a Master of Education (TLOTE), students are required to successfully complete 8 credit points of study in one of two pathways:

- Research pathway option. Students complete four specialist units and four credit points of research units, or
- LOTE teaching option. Prior to 2011, students are required to successfully complete 3 core units (not ECL777) and 5 units selected from a list of specialised units for the appellation. From 2011, students are required to successfully complete 4 core units and 4 units selected from a list of specialised units for appellation.

Alternatively, you may exit early with a E554 Graduate Certificate of Education (Teaching Languages Other Than English) after the successful completion of 4 credit points of study taken from a combination of generic and specialist units chosen in consultation with the course director.

## COURSE STRUCTURE

## COURSE OVERVIEW

Deakin's Master of Teaching is a 16 credit point course. It enables candidates with at least a three-year undergraduate degree to complete the equivalent of two more years of study (four trimesters) that will allow registration as a graduate early childhood, primary or secondary teacher with a master's qualification.

This course has been developed in response to the growing trend, nationally and internationally, to require postgraduate qualifications for entry into the teaching profession, and to offer a number of pathways into the profession. A 12 credit point Graduate Diploma of Teaching (E663) is embedded in the course. You will have the opportunity to exit the course after three trimesters with a graduate diploma, or to complete a 4th trimester of study to graduate with a Master of Teaching.

### Professional recognition

As a graduate of the course you will be eligible to gain registration for teaching in primary or secondary school settings through the Victorian Institute of Teaching (VIT). Qualifications gained through the Master of Teaching – Early Childhood and the Graduate Diploma of Teaching- Early Childhood are listed as approved on the Victorian Government Gazette list. Graduates with either of these qualifications will be employable as teachers in Early Childhood settings.

### International students and permanent residents

Graduates of this course who are intending to apply for registration with the Victorian Institute of Teaching (VIT) will be required to demonstrate an IELTS of an average band score of 7.5 across all four skill areas where there is no score below 7 in any of the four skills areas and a score of no less than 8 in speaking and listening. Further information

### Strand availability

The strands in Primary and Secondary, will be available on campus at the Melbourne Burwood Campus, and in off-campus mode. The Early Childhood strand commences on-campus at Melbourne Burwood Campus, and Geelong Waurm Ponds Campus in community-based mode i.e. a combination of intensive and online study. Not all secondary methods will be available at the Melbourne Burwood Campus or in off-campus mode.

### Articulated courses

Master of Teaching graduates who have successfully completed their strand study and the research pathway option with four credit points in research studies at an appropriate standard may apply for entry into a PhD.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

In the Master of Teaching, all students must successfully complete the following course components, totalling 16 credit points:

1. Six core units (6cp) in Education Studies and Professional Experience:

- Education Studies units (EEE751, EEE752, EEE753)
- Professional Experience units (EPR701, EPR702, EPR703) or (EPR701, EPR705, EPR706)\*

\* *only for students undertaking a dual credential with strands in Early Childhood Education and Primary Teaching.*

Note: embedded in the Professional Experience units are 60 days of teaching experience in schools or other educational settings.

2. Plus six credit points from one teaching strand (choice of Early Childhood, Primary or Secondary teaching):

Students enrolled in the \*Early Childhood strand complete:

- 6 core units: ECE761; ECE762; ECE763; ECE764; ECP711 and ECP712

Students enrolled in the Primary strand complete

- 6 core units: EPL746; EPM742; EPO701; EPS735; ECP711 and ECP712

Students enrolled in the Secondary strand complete:

- Two curriculum studies units (teaching Years 7-10) in their two discipline areas (e.g. in history and geography; or science and maths; or English and drama etc)
- Two curriculum studies units (teaching Years 11-12) in their two discipline areas
- EEH730 Promoting Student Wellbeing
- EXC735 Teachers and Youth Literacy and Numeracy Engagement or EXC725 Literacy and Numeracy Across the Curriculum

3. Plus four credit points (4cp) from one of the following:

- Dual Credential. By choosing certain combinations from the above for their remaining four units, students can gain sufficient credits to qualify as a teacher in a second strand, i.e. in Early Childhood AND Primary, or Primary AND Secondary. (Note: dual credential is only available in the Trimester 1,2,1,2 study configuration, across 2 years of study).

Or they may choose:

- Internship. a four credit point internship: (EPR704) which can only be undertaken after successful completion of the 60 days practicum and which serves as an induction into the profession.
- Research pathway. a four credit point research sequence (EXR781; EXR791; EXR796; EXR797). Graduates of the Master of Teaching who have successfully completed their strand studies and the research pathway option with 4 credit points in research studies at an appropriate standard may apply for entry into a PhD.
- Applied Learning. a four credit point sequence in Applied Learning, designed to prepare teachers to work with young people in secondary schools through the Victorian Certificate in Applied Learning, and in TAFE and Adult and Community Education (ACE) settings: (ECJ722; ECJ723; EEE723, ECJ724; available only to those already completing a secondary strand). (Note: this sequence is only available in the Trimester 1,2,1,2 study configuration, across 2 years of study). The Applied Learning sequence is offered in mixed mode. It combines off campus

study with 4 days of compulsory attendance per unit per trimester at the Geelong Waurn Ponds Campus. Students taking an applied learning sequence attend a total of 16 days of intensive study for the four units. Students who complete the Applied Learning strand of the Masters of Teaching must have also completed a Certificate IV in Training and Assessment (TAA) as a co-requisite qualification to be eligible to graduate. Deakin staff have established a partnership with Box Hill Institute of TAFE allowing students (without a TAA) to receive credit towards the Box Hill Institute TAA. Students may elect to complete the qualification with Box Hill Institute staff delivering the remaining elements at a Deakin's campus.

- Leadership of Teaching. a four credit point sequence of studies in Leadership of Teaching (ELT711; ELT712; ELT713; ELT714)

*Note:*

*(i) All full-time on campus students will need to declare which pathway (i.e. Research, Applied Learning, Internship, Dual Credential or Leadership of Teaching) they intend to follow by the end of Trimester 2.*

*ii) Off campus for Primary and Secondary strands only (ie. Early Childhood Education not available in off campus study)*

## COURSE STRUCTURE

### Level 1 (Year 1)

#### Trimester 1

EEE751 Teaching: Promoting Successful Learning (B, X)

EPR701 Planning for Learning in Professional Experience

2 Core strand units relating to strand choice, see below.

#### Trimester 2

EEE752 Effective Planning and Assessment (X)

And one professional studies unit in:

EPR702 Managing Teaching in Professional Experience

Or

EPR705 Managing Teaching in Professional Experience <sup>^</sup>

<sup>^</sup> EPR705 is only for students undertaking a dual credential with strands in Early Childhood Education and Primary Education.

Plus

2 Core strand units relating to strand choice, see below.

*Note: after completion of Trimester 1 and Trimester 2 studies, students are required to nominate their additional trimester preferences and consult with enrolment officers regarding their next trimester enrolment.*

### Level 2 (Year 2)

#### Trimester 1 – (or alternative study period- Level 2, Trimester 3)

EEE753 Becoming a Professional Educator (B, X) \*

And one professional studies unit in:

EPR703 Reflecting On Practice in Professional Experience \*

Or

#### Trimester 2

EPR707 Reflecting On Practice in Professional Experience (B, X)

Or

EPR706 Reflecting On Practice in Professional Experience <sup>^^</sup>

Plus

2 Core strand units relating to strand choice, see below.

\* EEE753, EPR703 also offered trimester 3

<sup>^^</sup> EPR706 is only for students undertaking a dual credential with strands in Early Childhood Education and Primary Education.

## Core Strand Units

\*Early Childhood (B, G) – please note Burwood students study on-campus only and Geelong students in the on-line intensive mode at Waurm Ponds, where units are studied online with periodic intensives on-campus. Both modes are only offered full-time for the Early Childhood Strand.

ECE761	Early Childhood Pedagogy, Curricula and Programmes (B)
ECE762	Language and Literacy (B)
ECE763	Science and Environmental Awareness (B)
ECE764	Young Children's Mathematics (B)
ECP711	Creativity and the Arts in Childhood (B, X) *
ECP712	Social, Physical and Emotional Health and Wellbeing (B, X) *

\* ECP711, ECP712 also offered trimester 3.

## Primary (B, X)

EPL746	Primary Literacy (B, X)
EPM742	Primary Children's Mathematical Development (B, X)
EPO701	Primary Humanities, Societies and Environments (B, X)

ECP712	Social, Physical and Emotional Health and Wellbeing (B, X) *

\* ECP711, ECP712 also offered trimester 3.

## Secondary (B, X)

Students enrolled in the Secondary strand must complete:

EEH730	Promoting Student Wellbeing (B, X) *
EXC735	Teachers and Youth Literacy and Numeracy Engagement **

or

EXC725	Literacy and Numeracy Across the Curriculum (B, X)
--------	--

\* EEH730 also offered trimester 3

\*\* EXC735 only offered in trimester 3

(Note: Students undertaking a Secondary and Primary dual credential take units ECP711 and ECP712 instead of units EEH730, EXC725/735).

and

•Two Secondary Curriculum Studies units (teaching Levels 7-10) and Two Secondary Curriculum Studies units (teaching Level 11-12) in their two discipline areas (e.g. in history and geography; or science and maths; or English and Drama etc) from:

Note: Dual credential is only available in Tri 1,2,1,2, study combination.

### Working with Children Check

The Working with Children Act 2005 (Vic.) requires a person who engages in child-related work, as defined in the Act, to obtain an assessment notice under the Act, known as a Working with Children Check (WWCC). The Act is administered by the Department of Justice: [justice.vic.gov.au](http://justice.vic.gov.au). School experience placements in schools in the course of a university degree are "child-related work". Under the Working with Children Act 2005 (Vic.), administered by the Department of Justice, a student teacher must obtain a Working with Children Check (WWCC) before commencing school experience placements in a school. The WWCC must remain current throughout the course. It is an offence under the Act to engage in school experience without holding a WWCC.

Students will not be allowed to commence school experience in any school in Victoria until a Working with Children Check is obtained. Therefore it is vital that as soon as you have accepted an offer into the Master of Teaching, you must apply for the WWCC. The Department of Education has requested that on the application form a student nominates the University as the (or one of the) employers. The University will then be sent a copy of the assessment notice. Because the University needs to assure a school that a student placed at the school has a current Working with Children Check, each student must give their authority to provide the assurance - a student will be required to sign an authority for the University to inform a school that a WWCC has or has not been obtained.

While the University will hold on file documentation relating to the WWCCs obtained by students engaged in school experience, it is each student's responsibility to ensure that he or she can produce the WWCC card to the school upon request and to keep the WWCC current under the Act.

Students are required to apply for a WWCC through a participating Australia Post outlet (which can be found on the Australia Post website or the Department of Justice website) and provide proof to the faculty that the WWCC has been undertaken.

Should a student fail to obtain a WWCC, practical training in a school will not be provided, and as practical training is a requirement for completion of a teaching degree, the student may be unable to complete the degree. Should such a situation arise, the University will provide advice on options for tertiary study.

It is the responsibility of students undertaking placements outside Victoria to enquire about and, where necessary, to meet any similar legislative or other requirements concerning working with children.

### **Professional Experience requirements**

Students are required for registration purposes (and for the award of the degree) to have completed over the duration of their course a minimum of 60 days of supervised experience in a school or early childhood settings. Students should ensure they are conversant with the Standards for Graduating Students as required by the Victorian Institute of Teaching (refer to: [www.vit.vic.edu.au](http://www.vit.vic.edu.au)). The school experience is organised by the Professional Experience Office and students do not make contact with schools regarding placements under any circumstances.

Students are required to comply with the on-line instructions regarding enrolment/re-enrolment in school experience; failure to enrol/re-enrol jeopardises a student's professional experience placement.

Students should note that it is a requirement of the course that school experience is undertaken in conjunction with core professional experience units and during the time tabled dates unless, in exceptional circumstances, alternative arrangements are negotiated and agreed to in writing with the Professional Experience Office. Students should note that normally any paid or unpaid work undertaken in a school as an unqualified teacher/teacher's aide will not be recognised for credit transfer in supervised school experience for this course. Students may be required to complete the school experience component of the course outside the academic year.

A satisfactory level of teaching competence during supervised professional experience is required for award of the degree. An "unsatisfactory" result on any professional experience placement will be referred to the Faculty Academic Progress and Discipline Committee.

Graduates of an accredited teaching course who wish to apply to study a different strand should note that teacher registration is required in Victoria and is administered by the Victorian Institute of Teaching under the Education and Training Reform Act 2006 (Vic.). Prospective students should acquaint themselves with the requirements for registration in Victoria or in any other relevant location. These requirements include the ability to satisfy the Standards for Graduating Students (available at: [vit.vic.edu.au](http://vit.vic.edu.au))

### **Professional Experience enrolment**

Students need to carefully follow the instructions correctly when enrolling or re-enrolling online in professional experience units. Failure to enrol or re-enrol correctly jeopardises a student's school experience placement and this could lead to a delay in the award of the degree. Students must follow Faculty rules in relation to the number of days of school experience to be completed for each placement as per the Professional Experience Handbook (available from the campus of enrolment) which includes the published school experience timetable. Students should note that a 'day' constitutes a whole school day (not part thereof).

Students should obtain a copy of the Master of Teaching Professional Experience Handbook each year from the Professional Experience Office (also will be available at [deakin.edu.au/arts-ed/education/schoolexp](http://deakin.edu.au/arts-ed/education/schoolexp)). Information contained in the Handbook is updated annually and is a summary of Faculty rules in relation to school experience.

OFF CAMPUS STUDENTS ONLY: Students are able to nominate 3 school preferences and the dates they want to undertake the placement within the Trimester. Placements can be undertaken at a minimum of 3 days per week. Please note: the EPR unit assessment tasks AND the professional experience placement must be marked and successfully passed BEFORE students can proceed to the next EPR unit. Therefore, please consider carefully the timing of your professional experience placement. Students cannot nominate schools where they have a relationship, eg. relatives working at the school, children attending a school.

## Schedule of Professional Experience units

### Master of Teaching

EPR701 Planning for Learning in Professional Experience  
15 days (5 and 10 day periods; details TBC) Includes 10 days of professional experience in schools and the equivalent of 5 days investigating community settings.

*Hurdle Requirement: Satisfactory completion of the required number of professional experience days.*

EPR702 Managing Teaching in Professional Experience 25 days

**Hurdle Requirement: Satisfactory completion of the required number of professional experience days.**

Or

EPR705 Managing Teaching in Professional Experience <sup>^</sup>

*<sup>^</sup> minimum of 35 days in Early Childhood settings; to be taken by students in a dual credential in Early Childhood Education and Primary Education.*

EPR703 Reflecting On Practice in Professional Experience 25 days

Or

EPR706 Reflecting On Practice in Professional Experience <sup>^^</sup>

*<sup>^^</sup> minimum of 45 days in Early Childhood settings; to be taken by students in a dual credential in Early Childhood Education and Primary Education.*

Note: Embedded in all the Professional Experience units are practicum placements totalling a minimum of 60 days in either Early childhood or Primary or Secondary school settings.

Those wishing to complete studies in both Early Childhood and Primary should note that there are additional practicum placements required outside the normal trimester time (in units EPR705 and EPR706).

### Internship

EPR704 Internship

In the Internship, participants will teach and work in a negotiated setting for a minimum time of 10 weeks, in order to further develop and consolidate their knowledge and skills in the daily work of teachers. The unit will also include weekly discussions with supervisor(s) regarding development of skills, problem-solving and reflections on concerns.

### Income Support

Domestic students enrolled in certain postgraduate coursework programs may be eligible for student income support through Youth Allowance and Austudy.

Further information can be found at Deakin University's Fees website.

# Master of Teaching English to Speakers of Other Languages

<b>AWARD GRANTED</b>	Master of Teaching English to Speakers of Other Languages
<b>CAMPUS</b>	Offered at Melbourne Burwood Campus, Off campus
<b>DURATION</b>	1.5 years full-time or part-time equivalent
<b>CRICOS COURSE CODE</b>	054809A
<b>DEAKIN COURSE CODE</b>	E780

*Note: Applicants must apply for credit transfer and recognition to complete the 8 credit point MTESOL at the time they submit their application for the course. Documentary evidence of both the 4-year degree and teaching experience needs to be provided at that time.*

## COURSE OVERVIEW

The Master of Teaching English to Speakers of Other Languages (MTESOL) is designed to address the wide diversity of educational backgrounds of students who wish to teach English, and to meet their professional needs. This course is offered to Australian students working and/or intending to work overseas as TESOL teachers, students who are unable to leave their place of work or country and wish to study off campus as well as international students who want to study TESOL on campus in Australia. The course is open to qualified professionals including teachers, in the field of education and training.

This course will enable students to critically interpret communication in intercultural contexts; develop skills in analysing their learners' language and English as an international language and increase their understanding of the language teaching profession in a local and global context.

All staff involved in the provision of the MTESOL are active researchers in their fields. Involvement with current educational issues is reflected in the innovative teaching methods used and the discussion of the most up to date ideas and theories in unit content.

### Professional recognition

Students who are eligible for Victorian Institute of Teaching registration are advised to enrol in the accredited teaching course E752 Master of Education (TESOL) to teach ESL in Australian schools.

MTESOL is not an initial teaching qualification in Australia. If an applicant does not already hold a teaching qualification recognized in Victoria they cannot meet VIT requirements through undertaking this course.

### Alternative exits

E580.

### Teaching methods

The course is offered by on campus and flexible off-campus delivery in both full and part time mode. Students may choose to do units in either on or off campus, full or part time modes. The on campus units will be taught at the Melbourne Burwood Campus. Students receive instructional materials offered through CloudDeakin, CD-ROM and website links.

Interaction with lecturers and classmates is also provided through use of CloudDeakin, email and telephone links. Optional weekend study schools may also be available for some units.

On campus units are normally delivered late afternoon through face-to-face teaching in scheduled classes at the Melbourne Burwood Campus.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE OVERVIEW

The Master of Professional Education and Training is an off-campus coursework program offered to professional educators and trainers working or intending to work in learning and development, education and training, and human resource development roles. Typically people are engaged in business, government, the training sector, flexible delivery, distance education, higher education, VET in Schools, TAFE teaching or in an area that combines these.

Professional education and training is a highly sophisticated business and becoming more so. As well as serving a very diverse clientele of learners, professional education and training also serves organisational needs for the development of increasingly complex skills and competencies. The MPET has been developed to meet the professional development and career aspirations of educators and trainers working in this context.

For the award of the MPET degree, students are required to satisfactorily complete 8 credit points of study. The course is available through part-time off-campus study and is normally completed in two or more years. The MPET may be undertaken entirely by coursework, or as a combination of coursework and research.

It is expected that students will have computer and internet access. The MPET is delivered flexibly through a distance education process that brings the Faculty to the student, using high quality learning materials and resources, wherever the students may be. Students study in their place and at times that suit them. Associated with this course flexibility is the negotiation of focus within units through well established and quality affirming processes that enable all students to customise their study to address their own professional interests and workplace issues.

### Alternative exits

E592.

### Teaching methods

Students receive instructional materials through CloudDeakin, CD-ROM and website links. Interaction with lecturers is provided through use of CloudDeakin, email and telephone links.

### Articulation

Masters courses require a research component to lead to a Doctor of Philosophy.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen

## COURSE RULES

To be awarded a Master of Professional Education and Training, students are required to successfully complete 8 credit points of study under one of the following configurations:

### General coursework only

- a minimum of 5 credit points selected from any Master of Professional Education and Training units. Participants are encouraged to develop a marketable focus through considered selection of units.
- Up to 3 credit points from any masters level units either offered by the School of Education or elsewhere chosen in consultation with the MPET course director.

### General coursework with research paper

- a minimum of 3 credit points selected from any Master of Professional Education and Training units, and
- EXR781 Education Research Methodology (B, X) \* and
- EXR791 Designing and Developing a Research Project (X) and
- EXR796/797 Research Paper Part A and Part B \*\* and \*\*\* and
- Up to 2 credit points from any masters level units either offered by the School of Education or elsewhere chosen in consultation with the MPET course director.

\* Where students have an equivalent research study and/or experience this unit may be replaced with another 1-credit-point unit in consultation with the MPET course director.

\*\* Research Paper Part A and Part B may be available to complete within the same trimester, but only after consultation with the course director.

\*\*\* EXR796 and EXR797 are also offered in trimester 3 subject to availability of appropriate supervisors and in consultation with the course director.

# Return to Practice and Initial Registration (Overseas Nurses)

CAMPUS	Offered at Melbourne Burwood Campus
DURATION	The course is completed over a ten (10) week period commencing in May.
CRICOS COURSE CODE	062983J
DEAKIN COURSE CODE	H011

## COURSE OVERVIEW

This non-award 10 week Return to Practice and Initial Registration (Overseas Nurses) course is specifically designed to fulfill registration requirements for Division 1 of the Nursing and Midwifery Board of Australia (NMBA) for nurses who:

- i) have previously been registered in Australia, but have not had sufficient nursing practice in the preceding five years, or*
- ii) are from overseas wishing to obtain initial registration in Victoria.*

## FEES AND CHARGES

This is a full fee paying program. International students should contact Deakin International directly for details of course fees. Australian residents should access tuition fees at [www.deakin.edu.au/fees](http://www.deakin.edu.au/fees). Students may be eligible for FEE-HELP ([www.goingtouni.gov.au](http://www.goingtouni.gov.au)).

Students may pay their tuition as follows:

- pay the tuition fee up front
- receiving a FEE-HELP loan for the full tuition fee
- pay some of the tuition fee up front and receive a FEE-HELP loan for the remainder of the tuition fee
- Department of Human Services scholarship.

## COURSE RULES

The course consists of four (4) credit points taken over three units. All units must be completed.

## COURSE STRUCTURE

The course is divided into two components: a six (6) week academic component and a four (4) week clinical component.

### **Academic learning program: Six (6) weeks**

The academic program comprises full-time study, based on the Melbourne Burwood Campus, providing a broad overview of nursing practice in the contemporary Australian society and health care system. The program is offered in two units of study, including nursing clinical simulation skills.

### **Clinical learning program: Four (4) weeks**

On successful completion of the course, each student will demonstrate the minimum standards of competence as per the Australian Nursing Council's National Competency Standards prior to being recommended for registration.

The clinical learning program aims to provide an opportunity for the student to consolidate their experience in the Australian clinical environment under the supervision and guidance of expert clinicians and clinical facilitators.

### **Units offered:**

HNN021	Nursing Practice in Australia
HNN026	Legal Ethical and Contemporary Issues in Australian Nursing Practice
HNN025	Clinical Practicum

# Bachelor of Health Sciences

<b>AWARD GRANTED</b>	Bachelor of Health Sciences
<b>CAMPUS</b>	Offered at Melbourne Burwood Campus, Geelong Waurm Ponds Campus, Warrnambool Campus, Deakin Learning Hub-Dandenong
<b>DURATION</b>	3 years full-time or part-time equivalent
<b>CRICOS COURSE CODE</b>	052823G
<b>DEAKIN COURSE CODE</b>	H300
<i>Dandenong students must enrol in course code H300D</i>	

## COURSE OVERVIEW

This is a generic undergraduate program, which draws from and complements the specialist fields on offer in the Faculty of Health.

The program structure is flexible, within given parameters, allowing students to combine fields of study according to their interests, abilities and career aspirations.

Students enrolled in other courses and faculties may take major or minor sequences or individual units from this program as electives, to complement their core studies.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The course consists of 24 credit points. At least 16 credit points must be selected from units offered by the Faculty of Health. These must include HBS107 Understanding Health, HBS108 Health Information and Data, plus at least two major sequences of study (see below). Students enrolled in H300D must take two of the majors offered in Dandenong. Students may take a maximum of 10 credit points at level 1. At least 14 credit points must be studied at level 2 or higher and at least four must be at level 3. A maximum of 8 credit points may be selected from units offered by other faculties.

### Major sequences

The following majors are available within the Bachelor of Health Sciences.

*Please note that availability of majors at each campus varies. Refer to the details of each major for campus availability.*

**Environmental Health (NEW 2013)**  
**Exercise Science**  
**Family, Society and Health\***  
**Food Studies**  
**Health Promotion\***  
**Health and Sustainability (NEW 2013)**  
**Human Services (for continuing students only)**  
**Medical Biotechnology (NEW 2013)**  
**Nutrition**  
**People, Society and Disability\***

**Physical Activity and Health**  
**Psychology**  
**Sport Coaching**

*\*Majors available to students enrolled in H300D at Dandenong*

### Details of major sequences

A major sequence in the Faculty of Health consists of a minimum of 6 credit points in a particular discipline area, including at least 2 credit points at each of levels 2 and 3. Students enrolled in other courses and faculties may take these sequences, or take minor sequences (4 credit points, 2 each at two level levels) or individual electives from these discipline areas, subject to meeting the prerequisites.

Individual units cannot be counted towards more than one major. Where the units in one major have already been counted towards another, students must take additional units in the second discipline area. For example, HBS109 is one of the units in Nutrition, as well as being part of the Exercise Science major sequence. Students wishing to combine these two majors must take an additional unit, either in Exercise (HSE) or in Nutrition (HSN).

Faculty of Health major sequences are described below. Each unit is worth 1 credit point (cp), unless otherwise specified. Unit offerings are subject to resources and demand.

### Environmental Health - unit set code MJ-S000059

(Melbourne Burwood Campus)

Focusing on healthy environments and healthy people, this major is recommended for students interested in working in public health policy, environmental health and related areas.

HBS107	Understanding Health (B, G, W, X)
SLE111	Cells and Genes (B, G, W)
HSN101	Food: Nutrition, Culture and Innovation (B, G, W)
SLE234	Microbiology (B, G)
HSH205	Epidemiology and Biostatistics 1 (B, G)
SLE312	Toxicology (ONLINE)
SLE342	Risks to Healthy Environments (B)

### Exercise Science - unit set code MJ-H000016

(Melbourne Burwood Campus. Also available by off campus study. Note: For off campus study some units will require compulsory attendance on the Melbourne Burwood Campus for a limited period during the trimester.)

This major provides students with a sound understanding of the core sciences underpinning both competitive sport and recreational physical activity. A variety of learning approaches is adopted, allowing students to integrate their sporting interests with their studies, as well as to match these with their employment objectives.

HBS109	Human Structure and Function (B, G, W, X)
HSE102	Functional Human Anatomy (B, G, X)
HSE201	Exercise Physiology (B, G)
HSE202	Biomechanics (B, G, X)
HSE301	Principles of Exercise Prescription (B, X)
HSE302	Exercise Programming (B, X)

### Family, Society and Health - unit set code MJ-H000002

(Melbourne Burwood Campus and students enrolled in H300D)

This major focuses on the household and family as a setting for public health. It explores the issues facing households and families, such as the link between healthy human development and healthy

households, economic wellbeing and health, and the need for supportive environments. It is ideal for students wishing to work in welfare, health promotion, or with organisations offering support services and resources for families.

HSN104	The Science of Food (B)
HSN204	Food Microbiology and HACCP (B)
HSN209	Food Security and Safety (B)
HSN309	Food Policy and Regulation (B)
HSN315	Food Manufacturing and Process Innovation (B)

#### Trimester 3 elective:

HSN360	International Perspectives in Food and Nutrition
--------	--

#### Recommended elective (offered in Trimester 2)

HSN320	Trends in Product Development (B)
--------	-----------------------------------

### Health Promotion - unit set code MJ-H000004

(Melbourne Burwood Campus, Geelong Waurm Ponds Campus, Warrnambool Campus and students enrolled in H300D. Also available by off campus study)

This major will equip students with a sound knowledge of the causes of health and illness and of effective strategies for prevention of the latter, as well as practical skills in health education and communication, health planning and management.

HBS107	Understanding Health (B, G, W, X)
HBS110	Health Behaviour (B, G, W, X)
HSH201	Planning and Evaluation 1 (B, G, W, X)
HSH218	Planning and Evaluation 2 (B, G, W, X)
HSH302	Politics, Policy and Health (B, G, W, X)
HSH313	Contemporary Health Issues (B, G, W, X)

### Health and Sustainability - unit set code MJ-H000013

NEW 2013

(Melbourne Burwood Campus)

This major will enable students to identify and predict the impact of human behaviours on natural systems and ecological sustainability and propose strategies that apply the principles of environmental sustainability and health promotion.

SLE121	Environmental Sustainability (B)
HSH112	Local and Global Environments for Health (B)
HSH201	Planning and Evaluation 1 (B, G, W, X)
SHD201	Creating Sustainable Futures (B)

- HSH302 Politics, Policy and Health (B, G, W, X)  
 HSH340 People, Health and Planning (commences 2015)

### Human Services - unit set code MJ-H000024

Not offered to continuing students only

(Melbourne Burwood Campus and Geelong Waterfront Campus. Also available by off campus study.)

Through this major, students will develop knowledge and skills regarding the context, organisational structures and practices that support quality human service provision by government and non-government organisations.

- HDS101 Communication and Diversity (B, S, X)  
 HSH114 Introduction to Human Services  
 HSW235 Community Development: Social Work Theory and Practice D (B, S, X)  
 HSH214 Service Design and Delivery (B, S, X)

\*\* Only available to students enrolled in course codes H300 or D391

### Medical Biotechnology - unit set code MJ-H000032

NEW 2013

(Geelong Waurin Ponds Campus)

Medical Biotechnology uses cells and cell materials to produce pharmaceutical and diagnostic products that help treat and prevent human diseases. This major provides students with a sound understanding of the core sciences underpinning biotechnology for medical advancement.

- HMM101 Introduction to Medical Biotechnology (G)  
 HMM102 Principles of Gene and Genomic Technology (G)  
 HMM201 Medical Nanotechnology (commences 2014)  
 HMM202 Molecular Diagnostics (commences 2014)  
 HMM302 Innovations in Medical Biotechnology (commences 2015)  
 HMM305 Cell and Tissue Engineering (commences 2015)

### Nutrition - unit set code MJ-H000007

(Melbourne Burwood Campus, Geelong Waurin Ponds Campus and Warrnambool Campus. Some units available off campus.)

Students taking a nutrition major will gain a sound knowledge of the biological basis of human nutrition and the relationship between diet, health and disease.

- HBS109 Human Structure and Function (B, G, W, X)  
 HSN101 Food: Nutrition, Culture and Innovation (B, G, W)  
 HSN201 Principles of Nutrition (B, G, W, X)  
 HSN202 Lifespan Nutrition (B, G, W)  
 HSN301 Diet and Disease (B, G, W, X)  
 HSN302 Population Nutrition (ONLINE)

#### Trimester 3 elective:

- HSN360 International Perspectives in Food and Nutrition

### People, Society and Disability - unit set code MJ-H000025

(Melbourne Burwood Campus and students enrolled in H300D. Also available by off campus study.)

Completion of this major will give students an opportunity to expand their job opportunities by being better informed about positive options and techniques to assist and support the one in five members of the Australian population who has some form of disability. Students undertaking this major should

note that new units will be introduced progressively and will replace existing units in second and third level.

HDS101	Communication and Diversity (B, S, X)
HDS106	Diversity, Disability and Social Exclusion (B, X)
HDS209	Diversity in Childhood and Adolescence (B, X)

HDS301	The Effective Practitioner (B, X)
HDS310	Human Rights and Advocacy (B, X)

### Physical Activity and Health - unit set code MJ-H000023

(Melbourne Burwood Campus, Geelong Waurm Ponds Campus and Warrnambool Campus. Some units available off campus.)

This major provides students with an understanding of how behaviour influences health, with a particular emphasis on the relationships between physical activity and health.

HBS107	Understanding Health (B, G, W, X)
HBS110	Health Behaviour (B, G, W, X)
HSE203	Exercise Behaviour (B, G, W, X)
HSE212	Physical Activity Promotion and Evaluation (B, G, W)
HSE313	Understanding Children's Physical Activity (B, G, W, X)
HSE316	Physical Activity and Population Health (B, G, W)

### Psychology (Unit Set Code MJ-H000008)

(Melbourne Burwood Campus, Geelong Waurm Ponds Campus and Warrnambool Campus. Individual units may not be available on every campus. Also available by off campus study.)

This sequence develops students' understanding of a range of topics in psychology, which is the science concerned with unravelling questions about human behaviour and mental processes. This six unit major is not intended for the purpose of registration as a psychologist.

To obtain the six unit major students must complete HPS111 and HPS121 plus

Any two level 2 units from the list below.

Any two level 3 units (for which the prerequisite units have been completed) from the list below.

Students intending to become psychologists must complete four years of academic study (three years of undergraduate study, including ten units of psychology, plus either an Honours year or the Graduate Diploma of Psychology).

To obtain the ten unit undergraduate psychology sequence students must complete all the units listed below.

HPS111	Introduction to Psychology A (B, G, W, X)
HPS121	Introduction to Psychology B (B, G, W, X)
HPS201	Research Methods in Psychology A (B, G, W, X)
HPS202	Child and Adolescent Development (B, G, W, X)
HPS203	Understanding the Mind (B, G, W, X)
HPS204	Introduction to Social Psychology (B, G, W, X)
HPS205	Behavioural Neuroscience (B, G, X)
HPS301	Research Methods in Psychology B (B, G, W, X)
HPS307	Personality (B, X)
HPS308	Psychopathology (B, G, W, X)

### Sport Coaching - unit set code MJ-H000011

(Melbourne Burwood Campus)

This major will enhance students' job opportunities, as they will be better informed about sport coaching and techniques to assist and support the athletes and teams in a variety of settings.

(Major sequence below is for students who commenced H300 in 2010 onwards. Students who commenced this major in 2009 or prior must seek clarification on units with their enrolment officer.)

Major sequence version commencing 2010.

HSE105	Principles of Sport Coaching (B)
HSE106	Introduction to Sport Coaching Practice (B)
HSE204	Motor Learning and Development (B, G, X) *
HSE205	Advanced Sport Coaching Theory and Practice (B)
HSE305	Issues in Sport Coaching (B)
HSE321	Sport Coaching and Development Practicum (B)

\*As part of this major sequence, students are not required to do HSE204 if they have completed HSE206.

# Bachelor of Vision Science

<b>AWARD GRANTED</b>	Bachelor of Vision Science
<b>CAMPUS</b>	Offered at Geelong Waurin Ponds Campus
<b>DURATION</b>	Two year accelerated full time program delivered over six consecutive trimesters commencing in Trimester 1.

**DEAKIN COURSE CODE** H310

*Note: Course structure applies for students who commenced in 2013 onwards. Students who commenced prior to 2013 should refer to previous online Handbooks or consult your course enrolment officer.*

## COURSE OVERVIEW

The Bachelor of Vision Science aims to produce graduates with comprehensive knowledge of the biological and physical basis of the visual system and with an understanding of the underlying principles of optometry as they apply to the management of common optometric conditions. It will equip graduates with transferable academic skills that enable them to conduct research and self-guided learning at the Bachelor level and provide graduates with an understanding of visual health issues, specifically impacting on communities in regional and rural Australia and globally, as well as the underlying social and environmental factors contributing to the health gap between these communities and well-served urban population centres. Graduates will gain an understanding of the optometric profession and how optometrists operate within the greater health-care system.

### Professional recognition

Graduates of the Bachelor of Vision Science will not qualify to practise as an optometrist. To qualify to register to practise as an optometrist in Australia, students must also complete H710 Master of Optometry.

### Department of Human Services policy

In accordance with Department of Human Services policy\*, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course. Students who fail to obtain a Police Record Check prior to the commencement of clinical placements will not be able to undertake any placements.

Students will be asked to undergo serological testing prior to enrolment. Students may also be required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience.

# Bachelor of Medicine Bachelor of Surgery

<b>AWARD GRANTED</b>	Bachelor of Medicine Bachelor of Surgery
<b>CAMPUS</b>	Offered at Geelong Waurin Ponds Campus
<b>DURATION</b>	4 years full-time
<b>CRICOS COURSE CODE</b>	064429G
<b>DEAKIN COURSE CODE</b>	H311

*The course is only available to students on a full-time basis.*

*This is a four-year graduate entry program for students who have already completed an undergraduate degree.*

## COURSE OVERVIEW

The Bachelor of Medicine Bachelor of Surgery (BMBS) is a four-year graduate entry program for students wishing to qualify as medical practitioners. A variety of teaching and learning methods will be used; however, problem-based learning will be the predominant learning method in years one and two while years three and four will focus on learning as part of health teams in clinical sites.

### Years 1 and 2

Students will be based at the University's Geelong Waurin Ponds Campus for the first two years. Problem-based learning tutorials will be supplemented by lectures, practical classes and clinical experience in clinical skills laboratories, hospitals and other health services in the Geelong region. Clinical experience will commence early in year one. At the end of year two clinical skills will be consolidated by a 'Transition to Clinical Practice' topic in preparation for years three and four.

### Year 3

During year three most students will undergo intensive clinical training within health services attached to one of four Clinical Schools: three in Western Victoria - Greater Green Triangle Rural Clinical School (Warrnambool area), Grampians Rural Clinical School (Ballarat area), and Greater Geelong Regional Clinical School - and one in Melbourne - Eastern Health Clinical School (Box Hill). In each Clinical School clinical education will be coordinated through a series of six 7-week rotations in hospitals, health services and ambulatory settings including general practices.

A cohort of students will spend all of third year attached to a regional general practice where they will complete a 'parallel rural community curriculum' through the Integrated Model of Medical Education in Rural Settings (IMMERSe). Students will cover the same material as those studying in hospital settings.

### Year 4

Students will be based at public and private hospitals and general practices in Geelong, Warrnambool, Ballarat or Melbourne for four additional 5-week rotations. The course concludes with three 6-week terms: two 'selectives', a pre-internship hospital rotation and a further ambulatory rotation, and an 'elective' that can be taken in Australia or overseas.

On completion of the four-year BMBS, all Australian medical graduates are required to undertake one year of pre-registration training as interns at accredited hospitals.

### Professional recognition

This course is accredited with the Australian Medical Council (AMC). Graduates who satisfactorily complete pre-registration training will qualify as Registered Medical Practitioners in Australia and New Zealand.

### Department of Human Services policy

In accordance with Department of Human Services policy\*, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course.

Students who fail to obtain a Police Record Check prior to the commencement of clinical placements will not be able to undertake any placements.

Students will be asked to undergo serological testing prior to enrolment. Students may also be required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience.

# Bachelor of Public Health and Health Promotion

**AWARD GRANTED** Bachelor of Public Health and Health Promotion

**CAMPUS** Offered at Melbourne Burwood Campus

**DURATION** 3 years full-time or part-time equivalent

**CRICOS COURSE CODE** 012753D

**DEAKIN COURSE CODE** H313

*Students who commenced prior to 2009 must follow the course structure applicable to their year of commencement and discuss unit selections with their enrolment officer.*

## COURSE OVERVIEW

Public health and health promotion seeks to understand and act on the social and environmental factors that cause poor health; together with the factors that create and sustain good health. Public health and health promotion is a field that uses diverse approaches such as education, media, environmental and social change and policy development to maintain and improve the health of individuals, groups and communities. This is a growing field, with graduates finding exciting government and private sector roles across Australia and internationally.

Throughout the Bachelor of Public Health and Health Promotion, you will develop a wide range of knowledge and practical skills including the ability to analyse the determinants of health and illness among communities and populations, and to develop approaches which lead to improvements in health.

A key strength of the course is its vocational relevance which is maintained through the close association staff have established with practising professionals from a wide range of sectors including health, education, government, environment and planning.

The degree is a foundation for honours and postgraduate study that lead to a research career in public health and/or health promotion.

### Work-Integrated Learning

A field education placement provides you with an opportunity to transfer your knowledge and skills to a practical setting, where you can further your learning through realistic field experience. These placements enable you to consolidate your skills under the supervision of qualified practitioners, which assists you to be work-ready after graduation.

## COURSE OVERVIEW

This comprehensive course addresses all aspects of human nutrition and food relevant for employment in the health and food industries. With a strong focus on consumer health, you will gain an understanding of food, including food choice and its relationship to health, as well as the role of nutrition in human health and disease prevention. To add diversity to your degree, you may choose to undertake elective units of study in complementary areas such as health promotion, psychology, physical activity and health or exercise science. If you are interested in a career in the food industry it is recommended that you undertake a food science major sequence, which provides knowledge and skills for employment in the food industry. You may also choose to undertake an industry placement elective unit to get hands-on experience within your degree.

### Professional recognition

Enrolled students and graduates can apply for membership of the Nutrition Society of Australian (NSA). If you choose to undertake the food science major sequence, you may also be eligible for membership of the Australian Institute of Food Science and Technology (AIFST).

### Work-Integrated Learning

If you are interested in the possibility of enhancing your employment prospects by consolidating your knowledge and skills through realistic field experience, you are encouraged to consider undertaking an industry placement. You can do this by choosing to complete HSN311 Food Science and Nutrition Practicum as an elective unit in your final year.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

# Bachelor of Nursing

<b>AWARD GRANTED</b>	Bachelor of Nursing
<b>CAMPUS</b>	Offered at Melbourne Burwood Campus, Geelong Waterfront Campus, Warrnambool Campus
<b>DURATION</b>	3 years full time
<b>CRICOS COURSE CODE</b>	018327G
<b>DEAKIN COURSE CODE</b>	H326

*Note: Course structure applies for students who commenced in 2010 onwards. Students who commenced prior to 2010 must follow the course structure applicable to their year of commencement.*

## COURSE OVERVIEW

The Bachelor of Nursing gives you the opportunity to develop the knowledge, skills and ethical behaviours that enable you to practise as a competent and caring nurse clinician and gain employment in a range of health care contexts. You will be highly regarded as you will be able to provide high-quality, person-centred and evidence-based care focused toward improving patient outcomes.

Throughout your course you will benefit from our purpose-built clinical skills laboratories which provide you with the facilities and equipment required to develop practical skills which are further enhanced through clinical work placements.

The School of Nursing and Midwifery at Deakin is one of the largest in Australia and is committed to providing excellence in all its courses, particularly to reflect current trends and evidence-based practice in nursing. Our distinctive partnership program connects you to many health care organisations in the public and private sector.

### Clinical practice

Work placements are conducted throughout your course beginning in Trimester 1 of your first year. This early exposure to the clinical environment gives you extensive opportunities to develop clinical skills under the supervision of registered nurses and enables you to experience being part of a multidisciplinary health care team. You will gain clinical experience in a variety of settings including acute/sub-acute care, medical and surgical care, aged care, rehabilitation, community nursing and mental health nursing. You will spend approximately 50 percent of the course duration in various health care settings, including hospitals and community health centres in metropolitan, rural and regional areas.

### Professional recognition

This course is specifically designed to fulfil the registration requirements for Registered Nurse (Division 1) of the Nursing and Midwifery Board of Australia.

### Department of Human Services policy and Working with Children Check

In accordance with Department of Human Services policy\*, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course. In accordance with the Working with Children Act 2005\*\*, all students are required to undertake a Working with Children Check at commencement of the course. Students who fail to obtain a Police Record Check and a Working with Children Check prior to the commencement of clinical placement will not be able to undertake clinical placement and this will impede progress in the course. Students may also be required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience. A health organisation may refuse to accept a student for placement if the student's immunisation status is not satisfactory to the health organisation.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The course consists of twenty four (24) credit points comprising twenty one (21) core credit points plus three (3) elective units (worth 3 credit points). At least one of the electives must be taken at level 2 or 3.

There is an expectation that students be available to undertake clinical practicum outside of trimester dates. Failure of a compulsory practicum component in any unit of study will normally lead to exclusion. All expenses associated with clinical practicum are the responsibility of the student.

HBS345 Interprofessional Collaboration in Health Care (ONLINE)

### International study tour elective unit:

HNN216 International Nursing Study Tour

### Other electives:

HNN313 Perioperative Nursing (X)

HNN448 Rural Nursing (X)

# Bachelor of Social Work

<b>AWARD GRANTED</b>	Bachelor of Social Work
<b>CAMPUS</b>	Offered at Geelong Waterfront Campus, Off campus
<b>DURATION</b>	4 years full-time or part-time equivalent
<b>CRICOS COURSE CODE</b>	015207F
<b>DEAKIN COURSE CODE</b>	H330

## COURSE OVERVIEW

Social work is concerned with enhancing the wellbeing of people in their social environments. It is a broad profession with diverse practices that may include working with individuals, families, groups, communities and organisations.

The Bachelor of Social Work provides a progressive and innovative approach to social work with emphasis on personal, community and social development in urban, rural, local and global contexts. The course engages with the interplay between diversity, power and social inequality through anti-oppressive, empowerment and critically-reflective approaches to social work practice and social policy.

Throughout the course, you will develop knowledge and understanding of:

- the interplay between the broad socio-economic, interpersonal and personal influences on individual peoples' lives;
- how the socio-political and policy contexts in which people work influences their day-to-day practice;
- a range of social research methods and the ability to design and conduct research directly relevant to social work practice;
- the broad inter-disciplinary nature of social work and an ability to apply knowledge from theories, research and experience in practice
- principles of non-discrimination, human rights and social justice, and an ability to apply these in relation to traditionally marginalised and disadvantaged groups;
- working across social and cultural differences, whilst respecting difference and multiple diversities of identities;
- personal and professional standards of practice in the context of a capacity for life-long learning.

The Bachelor of Social Work is offered at pass or honours level. An honours stream is available in the fourth year.

### Professional recognition

The course is accredited with the Australian Association of Social Workers (AASW). Students completing the course are eligible to apply for membership of AASW and can practise professionally throughout Australia.

### Work-Integrated Learning

Field education placements provide an opportunity for students to learn from experience under the supervision of qualified social work practitioners. During the course you will complete a minimum of 980 hours of fieldwork placements that are conducted in a variety of communities and workplaces in metropolitan and regional settings. As social work at Deakin has a rural focus, one of the two fieldwork placements will have a rural focus.

Students will be required to obtain a Police Records Check (PRC) each year prior to undertaking field placements. Students may also be required to obtain a Working with Children Check (WWC).

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

Students are required to successfully complete 32 credit points of study.

To be awarded the Bachelor of Social Work degree with honours a person must complete the honours units HSW456 and HSW457 (refer course structure).

Failure of a field education placement will normally lead to exclusion.

# Bachelor of Exercise and Sport Science

<b>AWARD GRANTED</b>	Bachelor of Exercise and Sport Science
<b>CAMPUS</b>	Offered at Melbourne Burwood Campus, Geelong Waurin Ponds Campus
<b>Duration</b>	3 years full-time or part-time equivalent
<b>CRICOS COURSE CODE</b>	045332G
<b>DEAKIN COURSE CODE</b>	H343

*Note: Course structure applies for students who commence in 2013. Students who commenced prior to 2013 should refer to previous online Handbooks or consult your course enrolment officer.*

## COURSE OVERVIEW

This field-leading degree looks at ways to apply knowledge and skills in exercise and sport science to improve the athlete, the team or the individual, through training, coaching and advice. You will develop the necessary competencies to become professional leaders in exercise and sport science and allied fields, and have the opportunity to study the biological, sociological and behavioural bases of exercise and sport science.

Depending on your career aspirations and areas of interest, you may choose to focus your study in specialised streams such as coaching, exercise physiology, sports nutrition, psychology, health promotion and physical activity and health. You can also undertake an approved study stream within the degree and be eligible to apply for accredited membership as an Exercise Scientist by Exercise and Sport Science Australia (ESSA). This is the only undergraduate course in Victoria that directly facilitates this membership. Students awarded credit for prior learning for non-university studies may not be eligible for immediate registration with ESSA - please obtain further clarification from a course advisor via email [ens-enquire@deakin.edu.au](mailto:ens-enquire@deakin.edu.au)

### Professional recognition

Deakin's Bachelor of Exercise and Sport Science is the first and only nationally accredited undergraduate exercise and sport science program in Victoria. This accreditation has been awarded by Exercise and Sport Science Australia (ESSA).

Graduates of the Bachelor of Exercise and Sport Science course including the approved units specified for the Exercise Science – ESSA sequence may apply for registration for full membership of ESSA at the Exercise Scientist level.

Graduates awarded credit for prior learning for non-university studies may not be eligible for immediate registration with ESSA and should seek further clarification from a course advisor about registration via email [ens-enquire@deakin.edu.au](mailto:ens-enquire@deakin.edu.au)

### Work-Integrated Learning

The Bachelor of Exercise and Sport Science features a minimum 140 hours of practical experience in an exercise and sport science work practicum in third year, so you can start your career before you graduate with hands-on work placement experience.

You have the opportunity to undertake hands-on experience in a variety of sporting, exercise or health environments. These may vary from local, state or national sporting organisations and professional sporting clubs; state and national institutes of sport; as well as health, fitness and exercise physiology rehabilitation providers. The roles can involve coaching, sport science, sports administration, sport management, exercise physiology and fitness. Many graduates have been offered work based on their excellent fieldwork performance.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The course comprises 24 credit points. Of these, a maximum of 10 credit points may be taken at level 1; not less than 14 must be at level 2 or higher; and not less than 4 must be at level 3. Students complete 14 core units and 10 elective units. Electives can be chosen according to students' interests, but must include at least 2 credit points from the Faculty of Health. A maximum of 8 credit points may be selected from other faculties of the University.

Students are required to complete HSE010 Exercise and Sport Science Laboratory Safety prior to their first laboratory based unit in this course.

In addition, students can select elective units to form a major sequence. Majors can be selected from within the Faculty of Health or any other Faculty, subject to availability and pre-requisites. Majors may include sport coaching, exercise, nutrition, physical activity and health, health promotion, management, sports nutrition, marketing, physiology, languages or media.

*Note: All students completing HSE101 are required to complete a Level 2 First Aid at their own expense. Current Level 2 First Aid certificates will be accepted.*

On campus Burwood units only available to Burwood based students.

## COURSE OVERVIEW

Psychology is concerned with understanding human personality, behaviour, emotion, underlying mental processes and the factors that lead people to differ in the way they think and behave. In the Bachelor of Applied Science (Psychology) you will be exposed to a contemporary integrative approach to psychology, one that recognises the importance of, and interrelationships between, biological, developmental, social, cognitive, and developmental factors. In undertaking this course of study you will cover broad areas of psychology including behavioural and clinical neuroscience, child and adolescent psychology, relationships and the psychology of groups, cognitive psychology, forensic psychology, and psychopathology.

An undergraduate major sequence in psychology is also available to students enrolled in the following degrees: H345 Bachelor of Psychology, H300 Bachelor of Health Sciences, D387 Bachelor of Nursing/ Bachelor of Applied Science (Psychology), D391 Bachelor of Health Sciences/Bachelor of Arts.

### Work-Integrated Learning

As part of this course, you will also be given the opportunity to undertake an internship in psychology as well as develop your counselling skills through a suite of elective units offered by the School of Psychology.

### Professional recognition

Deakin's Bachelor of Applied Science (Psychology) is recognised for registration by the Psychology Board of Australia (PBA), accredited by the Australian Psychology Accreditation Council (APAC) and enables you to undertake additional study in pursuit of professional registration.

### Registration as a Psychologist

The current requirements for registration as a provisional psychologist include the completion of four years of academic study of psychology that is recognised by the Psychology Board of Australia (PBA). The academic program usually consists of an approved undergraduate psychology sequence – such as Deakin's Bachelor of Applied Science (Psychology) – followed by an approved fourth-year of study (such as Deakin's Graduate Diploma of Psychology or honours in psychology).

Following successful completion of an approved fourth-year of psychology study, you may apply for provisional registration with the Psychology Board of Australia (PBA) and associate membership of the Australian Psychological Society (APS).

In order to gain full registration, provisional psychologists must then complete either two years of supervised practice, or a minimum two years of further study, which may include: Master of Psychology, Doctor of Psychology or a Doctor of Philosophy (PhD) (with supervised practice completed outside the degree).

### Psychology major sequence in other degrees

In addition to the Bachelor of Applied Science (Psychology), psychology may be studied as a three-year major sequence in any of the following degrees: Bachelor of Health Sciences, Bachelor of Arts, Bachelor of Management or Bachelor of Science.

Students intending to become psychologists, however, must take four years of academic study (three years of undergraduate study, including ten units of psychology, plus either a level-4 Honours year or the level-4 Graduate Diploma of Psychology).

The 10-credit-point undergraduate Psychology sequence consists of two units at level 1, HPS111 and HPS121; five units at level 2, HPS201, HPS202, HPS203, HPS204 and HPS205 ; plus three units at level 3, HPS301, HPS307 and HPS308.

Students may also choose to take a limited sequence in psychology of 6 or 8 credit points (depending on the requirements of their course). These sequences are designed as terminal studies in psychology to complement other studies within an award. They do not meet the 10-credit-point requirement for entry into fourth-year studies in psychology; nor will they lead to professional qualifications in psychology. However, these requirements may be met by completing additional psychology units, either as single-unit enrolments or via the Graduate Diploma of Psychological Studies.

The 6 or 8-credit-point sequences consist of two units at level one, HPS111 and HPS121; two or three units at level 2, selected from HPS201, HPS202, HPS203, HPS204 and HPS205; and two or three units at level 3, selected from HPS301, HPS302, HPS303, HPS304, HPS307, HPS308 and HPS395. Students wishing to take alternative psychology units must seek approval from the School of Psychology .

For details of the campus on which the unit is offered, please refer to the Unit Descriptions section of the Handbook. Off campus students may apply to enrol in on campus units. The fourth-year programs, however, are only available in the on campus mode. Students studying in both on and off campus modes may apply for entry to either the Honours or Graduate Diploma of Psychology programs.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The Bachelor of Applied Science (Psychology) consists of 24 credit points, of which at least 12 must be Psychology (i.e., 'HPS') units.

At level 1, two Psychology units, HPS111 and HPS121, and three foundation health units, HBS107, HBS108 and HBS110, are compulsory.

At level 2, HPS201, HPS202, HPS203, HPS204, and HPS205 are compulsory.

At level 3, HPS301, HPS307 and HPS308 are compulsory, and an additional two level-3 HPS elective units must also be completed.

In summary, Bachelor of Applied Science (Psychology) students must complete two Psychology (HPS) units at level 1, five at level 2, and five at level 3.

No more than 10 credit points may be taken at level 1, and a maximum of 8 credit points may be taken outside the Faculty of Health.

Students may choose to accelerate their progress through the course by selecting from the following units that are normally offered in Trimester 3: HBS110, HBS107, HBS108, HPS111, HPS121, HPS201, HPS204, HPS205, HPS206 and HPS307.

Following completion of the Bachelor of Applied Science (Psychology), students intending to become psychologists must successfully apply for and complete a level-4 Honours year or the level-4 Graduate Diploma of Psychology.

In undertaking this course of study you will cover broad areas of psychology including behavioural and clinical neuroscience, child and adolescent psychology, relationships and the psychology of groups, cognitive psychology, forensic psychology, and psychopathology.

The Bachelor of Psychology is designed to enable students to complete a four year sequence in psychology that complies with requirements for provisional registration as a psychologist with the Psychology Board of Australia (PBA) and also for associate membership of the Australian Psychological Society (APS).

It is comprised of the three-year undergraduate major sequence in psychology and the fourth year honours program in psychology which are currently offered separately. Due to the stringent requirements of entry to an honours year and the requirements for registration, students who do not attain the progression standards will exit with a three-year award, the Bachelor of Applied Science (Psychology).

An undergraduate major in psychology is also available to students enrolled in the following degrees: H344 Bachelor of Applied Science (Psychology), H300 Bachelor of Health Sciences, D387 Bachelor of Nursing/ Bachelor of Applied Science (Psychology), and D391 Bachelor of Health Sciences/Bachelor of Arts.

### Work-Integrated Learning

### Professional recognition

Deakin's Bachelor of Psychology is recognised for registration purposes by the Psychology Board of Australia (PBA) and is accredited by the Australian Psychology Accreditation Council (APAC).

### Registration as a Psychologist

The current requirements for registration as a provisional psychologist include the completion of four years of academic study of psychology that is recognised by the Psychology Board of Australia (PBA). The academic program usually consists of an approved undergraduate psychology sequence followed by an approved fourth-year of study, such as Deakin's Graduate Diploma of Psychology or honours in psychology.

Following successful completion of an approved fourth-year of psychology study, you may apply for provisional registration with the Psychology Board of Australia (PBA) and associate membership of the Australian Psychological Society (APS). Deakin's Bachelor of Psychology can lead directly to provisional registration provided the honours year is completed within this four-year course.

In order to gain full registration, provisional psychologists must then complete either two years of supervised practice, or a minimum two years of further study, which may include: Master of Psychology, Doctor of Psychology or a Doctor of Philosophy (PhD) (with supervised practice completed outside the degree).

The course comprises 32 one credit point units including a minimum of 20 psychology (HPS) units.

At level 1, two Psychology units, HPS111 and HPS121, and three foundation health units, HBS107, HBS108 and HBS110, are compulsory.

At level 2, HPS201, HPS202, HPS203, HPS204, and HPS205 are compulsory.

At level 3, HPS301, HPS307 and HPS308 are compulsory, and an additional two level-3 HPS elective units must also be completed.

In summary, Bachelor of Psychology students must complete two Psychology (HPS) units at level 1, five at level 2, and five at level 3.

No more than 10 credit points may be taken at level 1, and a maximum of 8 credit points may be taken outside the Faculty of Health.

Students may choose to accelerate their progress through the course by selecting from the following units that are normally offered in Trimester 3: HBS110, HBS107, HBS108, HPS111, HPS121, HPS201, HPS204, HPS205, HPS206 and HPS307.

Following successful completion of the first 3 levels of the course (i.e., at the completion of 24 credits), students will be considered for progression to the level-4 'honours' year of the course. There is a quota on honours places and successful applicants must achieve at least a mid-credit (65%) for Research Methods B and a sufficient mark for their remaining level-2 and level-3 psychology units (an indicative 'minimum mark' is advertised each year based on the previous year's competition for places). Failure to achieve an honours place results in an alternative exit from H345 with course H344 Bachelor of Applied Science (Psychology). Such students may apply for a fee-paying alternative to honours: course H650 Graduate Diploma of Psychology. Students who do not wish to complete the honours year may also opt for this alternative exit.

## COURSE STRUCTURE

### Level 1

#### Trimester 1

HPS111 Introduction to Psychology A (B, G, W, X)

HPS425 Honours in Psychology Part A (B, S)

HPS427 Honours in Psychology Part C (B, S)

**Trimester 2**

HPS426 Honours in Psychology Part B (B, S)

HPS428 Honours in Psychology Part D (B, S)

The four units HPS425, HPS426, HPS427, HPS428 comprise the honours sequence in psychology. All four parts must be successfully completed before a result will be obtained. 8 credit points will be achieved at the end of the sequence.

Total coursework weighting at fourth level is 50%. The research thesis at fourth level is completed across the entire level and accounts for 50% of the total weighting. Attendance and presentation at the annual School Honours Conference and attendance at the weekly School Research Colloquia are hurdle requirements.

# Bachelor of Occupational Therapy

<b>AWARD GRANTED</b>	Bachelor of Occupational Therapy
<b>CAMPUS</b>	Offered at Geelong Waterfront Campus
<b>DURATION</b>	4 years full-time or part-time equivalent
<b>DEAKIN COURSE CODE</b>	H355

Course structure applies to students commencing in 2013 onwards. Students who commenced prior to 2013 should refer to previous online handbooks or consult your course enrolment officer.

Field Education: Details are available at the OT Field Education website

## COURSE OVERVIEW

Occupational therapists have specialised knowledge to promote health and wellbeing through occupation. Using their understanding of occupation and health, occupational therapists work collaboratively with people who might have limitations, including those caused by injury, health conditions, delayed development or the effects of ageing. Occupational therapy interventions are designed to enhance participation in everyday life and may include activities or assistive devices, or modification of home or work environments to facilitate active engagement in work, home, social and leisure activities.

This course draws upon Deakin's core strengths in health education to ensure you receive a relevant, practical occupational therapy (OT) education that meets changing workforce needs. Throughout the course, you will benefit from our on-campus clinical skills laboratory which simulates real life settings and enables you to gain the knowledge and skills required to help clients manage their entire day in modified home and office environments. You will also consolidate your skills through a series of supervised placements which commence shortly after you begin your studies.

Selected students will have the opportunity to complete an honours year as part of this course.

### Professional recognition

You can travel around the world with your occupational therapy qualification from Deakin. Deakin's Bachelor of Occupational Therapy is accredited by OT Australia and World Federation of Occupational Therapists allows graduates of the Bachelor of Occupational Therapy to practise professionally in Australia and overseas.

Graduates are qualified to work as occupational therapists in private practice, hospitals, aged care, community health centres and organisations, disability support, driving rehabilitation, hand therapy, rehabilitation and schools.

### Work-Integrated Learning

You will undertake a variety of practicum placements throughout the four years of the course, commencing in your first year. Fieldwork provides you with the opportunity to gain valuable skills and experience under the supervision of qualified practitioners, which will enable you to practise confidently as an occupational therapist. You will complete a minimum of 1000 hours of practical experience. Fieldwork is conducted in a range of settings including schools, hospitals, clinics, community health organisations and industry, in metropolitan, regional and rural locations.

In a host agency, you can play a meaningful role in a variety of activities, including planning programs and events, undertaking needs assessments, developing evaluation tools, counselling, group work, completing literature reviews and producing promotional materials. Placements begin shortly after you commence your first year of study.

Students are required to obtain a Police Records Check (PRC) each academic year prior to undertaking field placements and a Working With Children Check (WWC) at the commencement of the course.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis

## COURSE RULES

The Bachelor of Occupational Therapy comprises 32 credit points, including 29 credit points of core units, 1 selective unit and 2 credit points of elective units.

To be awarded the Bachelor of Occupational Therapy degree with honours a person must

- achieve at least a distinction average upon completion of level 3 studies;
- successfully complete HSO302 Evidence-Based Occupational Therapy Practice 1
- complete the four honours units at level 4 (below).

Failure of a fieldwork component in the Bachelor of Occupational Therapy will normally lead to exclusion. Students will be required to complete at least one fieldwork component in a regional area of Victoria or adjacent areas.

## COURSE RULES

Psychology Honours consists of two components: coursework and a thesis. The coursework component (consisting of lectures, seminars and tutorials) contributes 50% to the final grade of Honours awarded. As required by the accreditation guidelines of the Australian Psychological Society, the coursework covers:

- research methods;
- professional, conceptual and ethical issues in the science and practice of psychology;
- issues in psychological assessment; and
- counselling and interpersonal skills.

For further details of the coursework component, see the unit description for HPS425 and HPS426. The thesis component (see HPS427 and HPS428) contributes 50% to the final grade of honours awarded. The thesis is a write-up (current length approximately 9000 words) of an individual research project based on an original piece of empirical research. A range of types of data (qualitative, quantitative, subjective, objective) and a range of data-collection settings and methodologies can be used as the basis of the thesis component.

The thesis is submitted in two parts: a 4000-word literature review submitted mid-year and a 5000-word report on the empirical component submitted in October. The literature review and empirical report section of the thesis typically contribute 15% and 35% respectively to the final mark for the thesis component. Both sections are marked by two independent markers.

Attendance and presentation at the annual School Honours Conference and attendance at the weekly School Research Colloquia are hurdle requirements.

<b>AWARD GRANTED</b>	Graduate Certificate of Human Nutrition
<b>CAMPUS</b>	Off campus
<b>DURATION</b>	1 year part time
<b>DEAKIN COURSE CODE</b>	H511

## COURSE OVERVIEW

This course is designed to be a postgraduate introduction to nutrition in a multidisciplinary context. It includes relevant material from related disciplines such as food science, biochemistry, physiology, epidemiology, psychology, sociology and politics and policy.

Students looking to align their units of study with a specific nutrition career pathway should first visit the School of Exercise and Nutrition Science Careers website to ensure the units they select will meet their career development needs.

### Professional recognition

Growing public interest in the relationship between diet and health is evident and, as a result, there are increasing demands from the public for reliable and trustworthy information. In response, the Nutrition Society of Australia (NSA) has developed a 'Register of Nutritionists' to establish a list of appropriately qualified nutrition professionals.

As a graduate of this course, you may be eligible for registration as an 'Associate Nutritionist' as the criteria for eligibility is a Bachelor of Science degree majoring in nutrition or equivalent. Following three years of relevant work experience, Associate Nutritionists are able to apply for 'Registered Nutritionist' status. For details about the registration process, please refer to the Nutrition Society of Australia website.

# Graduate Certificate of Diabetes Education

<b>AWARD GRANTED</b>	Graduate Certificate of Diabetes Education
<b>CAMPUS</b>	Off campus
<b>DURATION</b>	1 year part time
<b>DEAKIN COURSE CODE</b>	H520

## COURSE OVERVIEW

The incidence of diabetes is rising in Australia with 275 people diagnosed with diabetes every day (AusDiab, 2000). Diabetes remains a major threat to public health and is placed in the top three National Health priorities. Deakin University's Graduate Certificate of Diabetes Education prepares appropriately qualified health professionals for specialty practice in diabetes education.

The Graduate Certificate of Diabetes Education is conducted by the School of Nursing and Midwifery. This course prepares eligible health professionals for specialty practice in diabetes education, and is accredited by the Australian Diabetes Educators Association (ADEA).

On completion of the Graduate Certificate course, you will be eligible to apply to continue your studies towards the Graduate Diploma of Nursing Practice and/or the Master of Nursing Practice.

If you are not registered in Australia as a health practitioner with the appropriate registering body you will not be able to seek credentialing with the ADEA, nor will you be able to undertake a clinical placement in Australia.

### Professional recognition

The course is accredited by the Australian Diabetes Educators Association (ADEA). In addition, by completing the clinical practicum and workshop components of the course you may be eligible to seek registration as a Credentialed Diabetes Educator with ADEA, subsequent to fulfilling the additional requirements set by ADEA for this purpose.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The course comprises four credit points. Students seeking ADEA credentialing must successfully complete a 40 hour clinical practicum (while enrolled in the course), organised by academic staff and attend a five day workshop at Melbourne Burwood Campus scheduled during Trimester two. However please note if you are not registered in Australia as a health practitioner with the appropriate registering body you will not be able to seek credentialing with the ADEA.

# Graduate Certificate of Agricultural Health and Medicine

<b>AWARD GRANTED</b>	Graduate Certificate of Agricultural Health and Medicine
<b>CAMPUS</b>	Off campus
<b>DURATION</b>	Students are likely to undertake the GCAHM on a part-time basis over Trimesters 1 and 2 with the option of concluding the research project in Trimester 3. Some units will run in block mode – please refer to individual unit handbook entries for further details.
<b>DEAKIN COURSE CODE</b>	H522

## COURSE OVERVIEW

The Graduate Certificate of Agricultural Health and Medicine aims to provide specialist knowledge and skills for those wishing to improve the social, physical and mental health of agricultural communities across Australia. The course aims to enable students to:

- Develop a broader knowledge base on the underlying causes of poor health in agricultural communities.
- Develop skills to recognise risks and improve health, safety and well-being of rural Australians
- Improve understanding of the physical and mental health issues encountered by agricultural men, women and children.
- Recognise the environmental, economical and social influences that result in higher rates of morbidity and mortality in rural and remote Australia
- Critically evaluate literature pertinent to the health of the agricultural workforce
- Demonstrate higher level skills in rural health and safety scenarios
- Consider the requirements of successful health policies, services and safety interventions in rural communities.
- Develop knowledge on the occupational health and safety concerns of Agricultural workers
- Utilise online resources to investigate and address agricultural and rural health concerns

### Professional recognition

The course is recognised by AgriSafe Australia and enables clinically trained graduates to become an AgriSafe practitioner. The course is accredited to offer continuing education and professional development points through a number of professional colleges and associations, including the Australian College of Rural and Remote Medicine, the Royal College of Nursing Australia, the Australian Association of Social Workers, the Australian Veterinary Association, and the Royal Australian College of General Practitioners.

### Career opportunities

The Graduate Certificate of Agricultural Health and Medicine (GCAHM) opens a variety of exciting career paths by providing students with a strong foundation in agricultural health, safety, wellbeing and sustainability. After successful completion of this course you will have the academic, practical and research skills to work in a range of career paths spanning health service provision, rural research, health management, health promotion, agricultural productivity, sustainability and rural policy. The GCAHM provides an important opportunity to those who are currently, or plan to be, rural and remote professionals in the fields of medicine, nursing, health, health management, rural policy, OH&S and agriculture.

### Credit for prior learning - specific

Credit for prior learning may be granted for up to two credit points. Students must submit a completed Credit for Prior Learning application form and contact with the course chair Susan Brumby.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

The Graduate Certificate of Agricultural Health and Medicine consists of 4 credit points, of which 2 credit points must be attained by completing the core units HMF701 Agricultural Health and Medicine and HMF702 Healthy and Sustainable Agricultural Communities. The course structure is highly flexible and permits students to commence their studies with either HMF701 in T1 or HMF702 in T2 and then to pursue either a 2 credit point minor research project or alternatively undertake 2 credit points from the course-grouped electives in the coursework stream.

Students undertaking the coursework stream will have the flexibility to choose any combination of the 6 listed elective units or alternatively may choose unlisted 700-level units provided they are relevant to the field of Agricultural Health and Medicine and they have attained written approval from the course chair.

# Graduate Certificate of Nursing Practice (Intensive Care)

<b>AWARD GRANTED</b>	Graduate Certificate of Nursing Practice (Intensive Care)
<b>CAMPUS</b>	Offered off campus with significant on campus requirements through the Melbourne Burwood Campus
<b>DURATION</b>	1 year part-time study (Note: This course is only available part-time)
<b>DEAKIN COURSE CODE</b>	H545

*From 2012 offered to continuing students only. Students who wish to undertake this specialty course from 2012 should refer to the Master of Nursing Practice (H771) for more information.*

## COURSE OVERVIEW

The Graduate Certificate course is designed to prepare nurses to meet contemporary challenges in intensive care nursing within the specialist field of critical care nursing and to progressively build upon knowledge and skills required to comprehensively care for critically ill patients. The course responds to the demands of industry and partnership/collaborating hospitals for nurses with sophisticated specialty skills and knowledge. The course links Deakin University with existing partners and a number of other collaborating hospitals, all of which have a high demand for specialist intensive care nurses.

The use of learning technologies such as CloudDeakin, teleconferencing, eLive, iLectures and iSpring mini movies will facilitate student engagement in a large proportion of the specialist units.

Team-Based Learning (TBL), a specific educational strategy that involves individual preparation, team discussions and immediate lecture feedback, is conducted at the Melbourne Burwood Campus. Team-Based Learning assists students to further develop their critical thinking, problem solving and teamwork skills by applying recently learnt knowledge to real clinical issues.

A compulsory introductory four day program on the Melbourne Burwood Campus is normally held in the second week of February.

On completion of the Graduate Certificate course, students are eligible to continue studies towards the Graduate Diploma of Nursing Practice (Intensive Care), and/or the Master of Nursing Practice. The Master of Nursing Practice (by coursework) may be entered directly from a Graduate Certificate of Nursing Practice (Intensive Care) [requires an additional 8 credit points of study] or following completion of a Graduate Diploma of Nursing Practice (Intensive Care) [requires an additional 4 credit points of study].

Students wishing to complete the Master of Nursing Practice by research and undertake the 4 credit point minor thesis must have completed HNN727 Research in Nursing and Midwifery, and must achieve a Distinction or above for 75% of the units undertaken in the Graduate Diploma of Nursing Practice specialty course.

### Clinical practice

Students normally are employed within a collaborating hospital for a minimum of 24 hours per week to support and provide a sound clinical learning environment for the clinical program requirements of the course. Where concurrent employment is not possible, clinical practicums may be negotiated.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
  - Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

To satisfy the requirements of the Graduate Certificate a student must complete a total of 4 credit points of compulsory units, normally taken over one year of part-time study.

Both the theoretical and clinical components of the assessment for each unit must be passed in order to successfully gain an overall pass in this course. Compulsory clinical hurdles form part of the assessment of this course. Recognition of the importance of clinical assessments is calculated in the overall student workload.

*Note: Failure of a compulsory practicum component in a unit will normally lead to exclusion.*

# Graduate Certificate of Coaching and Counselling

<b>AWARD GRANTED</b>	Graduate Certificate of Coaching and Counselling
<b>CAMPUS</b>	Offered at Melbourne Burwood Campus
<b>DURATION</b>	One year (2 units per Trimester 1 and 2) or part-time equivalent
<b>DEAKIN COURSE CODE</b>	H577

## COURSE OVERVIEW

The Graduate Certificate of Coaching and Counselling enables you to develop the knowledge, skills and experience that are applicable to any career where working with individuals and groups for behaviour change is a focus. Throughout the course you will acquire strong interpersonal, coaching, facilitation, counselling and communication skills and the ability to adapt the application of various tools and techniques across challenging individual and group settings.

You will also acquire skills relevant to research evaluation and methodologies, ethics and professional standards, reflective practice and professional development.

### Professional recognition

A number of professional associations are linked to the coaching and counselling fields including the International Coaching Association (ICA), the International Coaching Federation (ICF) and the Australian Counselling Association. The course curriculum is aligned to and likely to fulfil the accreditation requirements of a number of accrediting bodies such as the ICA, and accreditation for the graduate certificate and graduate diploma will be sought when the first cohort of students graduate at the end of 2013 and 2014 respectively.

Subject to accreditation, graduates will be eligible to apply for registration and membership of the relevant associations.

### Career opportunities

This course provides sufficient generic skills and professional practice applicable to any career where working with individuals and groups for behaviour change is a focus.

For students who have a recognised undergraduate major sequence in psychology, this course offers an alternative career pathway from the Australian Psychology Accreditation Council (APAC) approved honours and graduate diploma courses.

Graduates will be well-equipped for a range of positions that require coaching and/or counselling expertise, including (but not limited to):

- counselling and health coaching
- business and leadership coaching, human resources
- supervisor roles; team leaders, and managers
- youth programs; education institutions
- community groups/support agencies, adult education
- human services and health/medical/psychology domains
- professional trainer/facilitator for seminars and workshops
- sports, exercise and nutrition coaching
- public speaking and presentations, Public Relations
- private practice (e.g., life coach; executive coach; mentor, counsellor or life skills counsellor)

<b>DURATION</b>	1 year full-time or part-time equivalent
<b>CRICOS COURSE CODE</b>	018317J
<b>DEAKIN COURSE CODE</b>	H615

## COURSE OVERVIEW

Increasingly, people in a wide range of professions are being asked to incorporate health promotion activities within their workplace. The Graduate Diploma of Health Promotion is designed to enable students from varying backgrounds to acquire the knowledge and skills necessary for developing appropriate approaches to evidence-based health promotion practice. It addresses strategies that seek to help people take action regarding their own health and wellbeing, to strengthen community action and to create physical, social and economic environments that are more supportive of health-policy.

Throughout the course you will acquire knowledge of current and emerging health issues in local and global contexts and be equipped with the core competencies that will enable you to practise confidently in this field.

You will develop a foundation of knowledge of health promotion principles and values, as well as skills pertinent to health education and communication endeavours, strategies to address health inequities and to promote the health of marginalized and disadvantaged groups; and the practical skills required to undertake needs assessments, program planning and evaluation. You will also develop an understanding of the complex challenges associated with policy development and decision-making, and skills for identifying and critically reviewing relevant research for health practice.

# Graduate Diploma of Human Nutrition

<b>AWARD GRANTED</b>	Graduate Diploma of Human Nutrition
<b>CAMPUS</b>	Off campus
<b>DURATION</b>	1 year full-time or part-time equivalent
<b>DEAKIN COURSE CODE</b>	H616

## COURSE OVERVIEW

The Graduate Diploma of Human Nutrition provides the opportunity to learn about nutrition in a broad context ranging from metabolic studies and food science to social and behavioural nutrition. It will enable you to understand and learn to apply knowledge in the areas of; the physiological basis of nutrition; nutritional requirements; the nature and composition of foods and food groups; nutritional assessment; and social, cultural and economic aspects of nutrition.

This course provides you with the opportunity to undertake a diverse range of elective study options, thus giving you the ability to pursue topic areas that align with your interests and career aspirations. Students looking to pursue a specific nutrition career pathway should first visit the School of Exercise and Nutrition Science Careers website to ensure the elective units they select will meet their career development needs.

This course also provides a pathway for application to the Master of Human Nutrition (H714) which enables you to further your studies to enhance your employment prospects and/or research skills in nutrition.

### Professional recognition

Growing public interest in the relationship between diet and health is evident and, as a result, there are increasing demands from the public for reliable and trustworthy information. In response, the Nutrition Society of Australia (NSA) has developed a 'Register of Nutritionists' to establish a list of appropriately qualified nutrition professionals.

As a graduate of this course, you may be eligible for registration as an 'Associate Nutritionist' as the criteria for eligibility is a Bachelor of Science degree majoring in nutrition or equivalent. Following three years of relevant work experience, Associate Nutritionists are able to apply for 'Registered Nutritionist' status. For details about the registration process, please refer to the Nutrition Society of Australia website.

# Graduate Diploma of Nursing Practice (Intensive Care)

<b>AWARD GRANTED</b>	Graduate Diploma of Nursing Practice (Intensive Care)
<b>CAMPUS</b>	Offered off campus with significant on campus requirements through the Melbourne Burwood Campus
<b>DURATION</b>	1 year full-time or part-time equivalent
<b>DEAKIN COURSE CODE</b>	H645

*From 2012 offered to continuing students only. Students who wish to undertake this specialty course from 2012 should refer to the Master of Nursing Practice (H771) for more information.*

## COURSE OVERVIEW

The Graduate Diploma course is designed to prepare nurses to meet contemporary challenges in intensive care nursing within the specialist field of critical care nursing and to progressively build upon knowledge and skills required to comprehensively care for critically ill patients. The course responds to the demands of industry and partnership/collaborating hospitals for nurses with sophisticated specialty skills and knowledge. The course links Deakin University with existing partners and a number of other collaborating hospitals, all of which have a high demand for specialist intensive care nurses.

The use of learning technologies such as CloudDeakin, teleconferencing, eLive, iLectures and iSpring mini movies will facilitate student engagement in a large proportion of the specialist units.

Team-Based Learning (TBL), a specific educational strategy that involves individual preparation, team discussions and immediate lecture feedback, is conducted at the Melbourne Burwood Campus. Team-Based Learning assists students to further develop their critical thinking, problem solving and teamwork skills by applying recently learnt knowledge to real clinical issues.

A compulsory introductory five-day program on the Melbourne Burwood Campus is normally held in the second week of February.

On completion of the Graduate Diploma course, students are eligible to continue studies towards the Master of Nursing Practice. The Master of Nursing Practice (by coursework) may be entered directly from a Graduate Diploma of Nursing Practice (Intensive Care) [requires an additional 4 credit points of study].

Students wishing to complete the Master of Nursing Practice by research and undertake the 4 credit point minor thesis must have completed HNN727 Research in Nursing and Midwifery, and must achieve a Distinction or above for 75% of the units undertaken in the Graduate Diploma of Nursing Practice specialty course.

### Clinical practice

Students normally are employed within a collaborating hospital for a minimum of 24 hours per week to support and provide a sound clinical learning environment for the clinical program requirements of the course. Where concurrent employment is not possible, clinical practicums may be negotiated.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The Graduate Diploma course comprises eight credit points of study. These include six units of specialty study and two elective units of study. Of the six specialty units, four units are concurrently offered as the Graduate Certificate program. The two elective units of study may be selected from a comprehensive range of units currently offered in the School of Nursing and Midwifery.

Both the theoretical and clinical components of the assessment for each unit must be passed in order to successfully gain an overall pass in this course. Compulsory clinical hurdles form part of the assessment of this course. Recognition of the importance of clinical assessments is calculated in the overall student workload.

*Note: Failure of a compulsory practicum in a unit will normally lead to exclusion.*

*Course structure applies to students who commenced in 2012 onwards. Students who commenced before 2012 should refer to the course structure in the 2011 online handbook.*

## COURSE OVERVIEW

Following successful completion of an undergraduate degree in psychology or Deakin's Graduate Diploma of Psychological Studies, students may complete an approved 'fourth year' of study in psychology (either the Graduate Diploma of Psychology or honours in psychology) in order to seek provisional registration with the Psychology Board of Australia (PBA) and associate membership of the Australian Psychological Society (APS).

The Graduate Diploma of Psychology offers you the opportunity to complete a combination of core units comprising both coursework and research.

- You will also undertake a research project which develops your ability to critically evaluate theory and empirical studies; advanced skills in research design, implementation, analysis and reporting; as well as your understanding of professional responsibilities, standards of performance and ethical issues.

### Professional recognition

This course is accredited by the Australian Psychology Accreditation Council (APAC), recognised for registration purposes by the Psychology Board of Australia (PBA) and meet the requirements for associate membership of the Australian Psychological Society (APS).

In addition, it provides a basis for students wishing to apply to undertake higher degree studies in a more specialised field of applied psychology.

### Registration as a Psychologist

The current requirements for registration as a provisional psychologist include the completion of four years of academic study of psychology that is recognised by the Psychology Board of Australia (PBA). The academic program usually consists of an approved undergraduate psychology sequence followed by an approved fourth-year of study, such as Deakin's Graduate Diploma of Psychology or honours in psychology.

Following successful completion of an approved fourth-year of psychology study, you may apply for provisional registration with the Psychology Board of Australia (PBA) and associate membership of the Australian Psychological Society (APS). Deakin's Bachelor of Psychology can lead directly to provisional registration provided the honours year is completed within this four-year course.

In order to gain full registration, provisional psychologists must then complete either two years of supervised practice, or a minimum two years of further study, which may include: Master of Psychology, Doctor of Psychology or a Doctor of Philosophy (PhD) (with supervised practice completed outside the degree).

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The course comprises six units, totalling 8 credit points. The Research Project runs over two trimesters (units HPY720 and HPY721) and is worth 4 credit points. There are four trimester-long units, each worth 1 credit point: HPS715, HPS742, HPS743 and HPS744.

Attendance and presentation at the annual School Honours Conference and attendance at the weekly School Research Colloquia are hurdle requirements.

## COURSE STRUCTURE

### Trimester 1

HPS742	Research Methods in Psychology C (B, S)
HPS743	Professional and Conceptual Issues in Psychology (B, S)
HPY720	Research Project A (B, S)

### Trimester 2

HPS715	Issues in Psychological Assessment (B, S)
HPS744	Counselling and Interpersonal Skills (B, S)
HPY721	Research Project B (B, S)

Part time students wishing to deviate from the recommended structure should consult the course coordinator.

# Graduate Diploma of Psychological Studies

<b>AWARD GRANTED</b>	Graduate Diploma of Psychological Studies
<b>CAMPUS</b>	Offered at Melbourne Burwood Campus, Geelong Waurm Ponds Campus, Warrnambool Campus, Off campus
<b>DURATION</b>	1 year full-time or part-time equivalent
<b>DEAKIN COURSE CODE</b>	H653

*Course structure applies for students who commenced in 2012 onwards . Students who commenced prior to 2012 should refer to the 2011 course handbook entry or consult your course enrolment officer.*

## COURSE OVERVIEW

If you are interested in psychology but have successfully completed an undergraduate degree in another field, the Graduate Diploma of Psychological Studies provides you with the opportunity to complete the equivalent of a three-year psychology sequence and to gain a separate award, while developing the initial knowledge and skills upon which advanced skills can be built. After successfully completing the course, you will be well prepared to undertake a fourth-year course in psychology: either honours in psychology or a Graduate Diploma of Psychology in pursuit of provisional registration as a psychologist.

### Professional recognition

Deakin's Graduate Diploma of Psychological Studies is accredited by the Australian Psychology Accreditation Council (APAC), recognised for registration purposes by the Psychology Board of Australia (PBA) and enables you to undertake additional study in pursuit of provisional registration.

### Registration as a psychologist

The current requirements for registration as a provisional psychologist include the completion of four years of academic study of psychology that is recognised by the Psychology Board of Australia (PBA). The academic program usually consists of an approved undergraduate psychology sequence followed by an approved fourth-year of study (such as Deakin's Graduate Diploma of Psychology or honours in psychology).

Deakin's Graduate Diploma of Psychological Studies provides the equivalent of an undergraduate sequence in psychology that is modified for delivery at postgraduate level, and provides a pathway for application to fourth-year studies in psychology.

Following successful completion of an approved fourth-year of psychology study, you may apply for provisional registration with the Psychology Board of Australia (PBA) and associate membership of the Australian Psychological Society (APS).

In order to gain full registration, provisional psychologists must then complete either two years of supervised practice, or a minimum two years of further study, which may include: Master of Psychology, Doctor of Psychology or a Doctor of Philosophy (PhD) (with supervised practice completed outside the degree).

Students normally are employed within a collaborating hospital for a minimum of 24 hours per week to support and provide a sound clinical learning environment for the clinical program requirements of the course. Where concurrent employment is not possible, clinical practicums may be negotiated.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The Graduate Diploma course comprises eight credit points of study. Students may undertake six speciality units of study (six credit points) and two elective units, or alternatively students may undertake seven specialty units of study (seven credit points) and one elective unit.

Both the theoretical and clinical components of the assessment for each unit must be passed in order to successfully gain an overall pass in this course. Compulsory clinical hurdles form part of the assessment of this course. Recognition of the importance of clinical assessments is calculated in the overall student workload.

Note: Failure of a compulsory practicum in a unit will normally lead to exclusion.

# Graduate Diploma of Midwifery

<b>AWARD GRANTED</b>	Graduate Diploma of Midwifery
<b>CAMPUS</b>	Offered at Melbourne Burwood Campus, Off campus
<b>DURATION</b>	1.5 years in a combination of full time and part time study
<b>DEAKIN COURSE CODE</b>	H676

## COURSE OVERVIEW

The Graduate Diploma of Midwifery is designed for registered nurses seeking registration as a midwife. They are required to successfully complete the sequence of core units of study (equivalent to eight credit points). A program of study is available within the core units of the Graduate Diploma of Midwifery (equivalent to 4 credit points) for those who seek re-recognition of their qualification of midwifery following a lapse. These students are required to make contact with the Australian Health Practitioner Regulation Agency ("AHPRA") through the Nursing and Midwifery Board of Australia ("NMBA") related to their specific requirements seeking the qualification of midwife.

### Professional recognition

This course is recognised by AHPRA and accredited by the NMBA and the Australian Nursing and Midwifery Accreditation Council ("ANMAC").

### Clinical Practicum

The Graduate Diploma of Midwifery has been designed to incorporate clinical learning opportunities and supervised part-time employment arrangements within a variety of maternity services settings. Students are usually employed within a collaborating hospital to support and provide a sound clinical learning environment for the clinical program requirements of the course. Where concurrent employment is not possible, clinical practicum may be negotiated. There are clinical hours that must be completed independently of the supervised employment component. Following successful completion of 8 credit points of study and all practice requirements of the course and for registration, students are eligible to apply to AHPRA, through the NMBA, for registration as a midwife.

Registered nurses seeking re-recognition of their qualification as a midwife may undertake a 'midwifery return to practice' program of study (exit at 4 credit points) and are required to make their own arrangements in maternity services to support them in meeting practice requirements of the program and those required by the AHPRA.

Following successful completion of a program of study (equivalent to 4 credit points) are eligible to make an application to AHPRA, through the NMBA following successful completion of academic (equivalent to 4 credit points) and practice requirements.

For the Graduate Diploma of Midwifery (8 credit points) and the exit option for those who are required to complete a program of study such as the 'midwifery return to practice' (4 credit points), the theoretical and clinical components of the assessment for each unit must be passed in order to successfully gain an overall pass. Compulsory hurdles form part of the assessment. Recognition of the importance of clinical assessments is calculated in the overall student workload. Failure of a compulsory practicum in a unit will normally lead to exclusion from the course.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The Graduate Diploma of Midwifery comprises eight credit points of study, including five core units (6 credit points) plus 2 credit points of electives.

Both the theoretical and clinical components of the assessment for each unit must be passed in order to successfully gain an overall pass in this course. Compulsory clinical hurdles form part of the assessment of this course. Recognition of the importance of clinical assessments is calculated in the overall student workload.

Note: Failure of a compulsory practicum in a unit will normally lead to exclusion.

# Graduate Diploma of Coaching and Counselling

<b>AWARD GRANTED</b>	Graduate Diploma of Coaching and Counselling
<b>CAMPUS</b>	Offered at Melbourne Burwood Campus
<b>DURATION</b>	Two years (2 units per Trimester 1 and 2) or part-time equivalent
<b>DEAKIN COURSE CODE</b>	H677

## COURSE OVERVIEW

Deakin's Graduate Diploma of Coaching and Counselling extends the knowledge acquired throughout the graduate certificate program to provide advanced level learning and skill acquisition. Throughout the course you will develop flexible high-level independent judgement, as well as professional planning and implementation skills appropriate for working professionally in a coaching and counselling role.

You will also acquire a personalised range of business and marketing tools relevant to a start-up business venture which is particularly relevant for those wishing to establish a business as a professional coach or pursue further qualifications as a counsellor.

The graduate diploma also offers a practical placement unit in the final year of the program which provides an opportunity to develop practical skills in a supported environment and confidently apply your knowledge and skills in a professional setting.

### Professional recognition

A number of professional associations are linked to the coaching and counselling fields including the International Coaching Association (ICA), the International Coaching Federation (ICF) and the Australian Counselling Association. The course curriculum is aligned to and likely to fulfil the accreditation requirements of a number of accrediting bodies such as the ICA, and accreditation for the graduate certificate and graduate diploma will be sought when the first cohort of students graduate at the end of 2013 and 2014 respectively.

Subject to accreditation, graduates will be eligible to apply for registration and membership of the relevant associations.

### Career opportunities

This course provides sufficient generic skills and professional practice applicable to any career where working with individuals and groups for behaviour change is a focus.

For students who have a recognised undergraduate major sequence in psychology, this course offers an alternative career pathway from the Australian Psychology Accreditation Council (APAC) approved honours and graduate diploma courses.

### Articulation

Students who have completed H577 Graduate Certificate of Coaching and Counselling can articulate into this course.

<b>AWARD GRANTED</b>	Master of Social Work
<b>CAMPUS</b>	Off campus
<b>DURATION</b>	2 years of full-time study or 4 years part-time study
<b>DEAKIN COURSE CODE</b>	H703

## COURSE OVERVIEW

The Master of Social Work has an emphasis on rural and regional communities; race and gender issues; equity, power and diversity issues; social and community development; and anti-oppressive and empowerment approaches to social work practice and social policy. As a student in this course, you will develop knowledge and skills for critical, competent and effective professional social work practice both within the local social and community services industry and the broader national and international context. The program has a strong emphasis on practical experience and skills gained through practicum placements.

You will develop knowledge and understanding of:

- how the broad and immediate political and welfare policy in which people work influences their specific day-to-day practice;
- a range of social research methods, and the ability to design and conduct research • of the broad inter-disciplinary nature of social work
- approaches to social work and be able to work at a range of levels (policy, research, administration) using a range of skills (research, communication, interpersonal, political, community development);
- basic social work theories, anti-oppressive theories and empowerment perspectives and skills in field placement practice.

### Professional recognition

The professionally qualifying Master of Social Work creates a new pathway for entry into the profession and prepares graduates for a more advanced level of practice. The Australian Association of Social Workers (AASW) has provisionally accredited the Master of Social Work until the first cohort of students graduate, at which time full accreditation will be sought. The AASW has also singled out Deakin for our 'critically reflective practice', setting us apart from other social work programs in Australia.

### Department of Human Services policy

In accordance with Department of Human Services policy\*, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course. Students who fail to obtain a Police Record Check prior to the commencement of clinical placement will not be able to undertake clinical placement.

Students may also be required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience.

# Master of Optometry

<b>AWARD GRANTED</b>	Master of Optometry
<b>CAMPUS</b>	Offered at Geelong Waurin Ponds Campus
<b>DURATION</b>	1.5 years accelerated full time program delivered over four consecutive trimesters commencing in Trimester 1
<b>DEAKIN COURSE CODE</b>	H710
<i>Course commences 2014.</i>	
<i>(H310 Bachelor of Vision Science commenced 2012)</i>	

## COURSE OVERVIEW

Offered as part of the Deakin optometry program, the Master of Optometry aims to build upon and reinforce the knowledge and applied skills acquired throughout the Bachelor of Vision Science (or equivalent) in order to develop the attributes, discipline-specific knowledge, professional behaviours and standards required to practise as an optometrist within Australia and New Zealand.

Throughout this course you will develop knowledge and understanding of optometric clinical assessment and procedures; ethical, legal and professional standards of practice; and acquire high levels of inter-personal and inter-professional communication, relationship management and commercial awareness. You will be provided life-long independent learning skills, and a commitment to both patient-centred care and evidence-based practice, that will enable you to practise professional in this field.

### Work-Integrated Learning

Clinical placements are an integral part of Deakin's optometry program. You will undertake a variety of short-term industry placements during the Master of Optometry and spend the final six months of the course as a 'student resident' in a range of clinical optometric and medical settings. These extensive clinical rotations will enable you to consolidate your knowledge and skills in supported environments under the supervision of qualified optometrists.

Clinical rotations may also include time in outer metropolitan, regional and/or rural settings.

### Professional recognition

Students who successfully complete H710 Master of Optometry can apply for registration to practise as an optometrist in Australia. Completion of the Bachelor of Vision Science alone does not meet the registration requirements for professional practise as an optometrist and must be completed in combination with Deakin's Master of Optometry (or equivalent program).

Deakin Optometry is in the process of being assessed for 'accreditation with conditions' by the Optometry Council of Australia and New Zealand (OCANZ) – the accrediting body for optometry courses in Australia and New Zealand. This accreditation will then need to be confirmed after the first cohort of students graduate in mid-2015. The course curriculum is aligned to the competencies defined by OCANZ. Subject to accreditation, graduates will be eligible to apply for registration with the Australian Health Practitioner Regulation Agency (AHPRA), and as Medicare service, the Optometrists and Dispensing Opticians Board, New Zealand (ODOB) and the Australian Dispensing Opticians Association (ADOA). Once recognised to practise in Australia, optometrists can also register as a Medicare service providers, will be able to pursue employment opportunities throughout Australia and New Zealand.

### Career opportunities

Optometrists are expert in nearly all things concerning the eyes and visual system and can work in a variety of settings. Most optometrists (around 75%) work in private practice – which itself can be very diverse. On a given day, an Australian optometrist may perform a primary visual assessment, treat advanced eye disease and dispense both prescription medicines and optical aids. At the same time, many optometrists are business owners and retailers.

Optometrists are perfectly situated to explore other employment opportunities, such as research, para-medical practice and work within vision-related non-government organisations.

Following successful completion of these sequential degrees (H310 and H710), Deakin optometry graduates will be well prepared for employment in a diverse range of work settings including, but not limited to: hospitals, clinics, health services, state and local governments, non-government organisations, research institutes, tertiary education institutions, private practice, and corporate and community settings. Career and employment opportunities for qualified optometrists include private and public eye care, practice ownership, research and teaching, associates in eye surgery practice, and recognised specialties within optometry such as low vision, paediatric vision, and behavioural optometry.

#### Requirements for Clinical Placements and Registration

All students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course. Students who fail to obtain a Police Record Check prior to the commencement of clinical placements will not be able to undertake any placements.\*

Several clinical placement agencies require that students are vaccinated / blood tested before undertaking clinical placement and / or graduate employment. Deakin University Medical Centres provides detailed advice, blood testing and administer all necessary vaccinations prior to commencement of clinical placements and/or employment.

\* Department of Human Services Policy on Working with Children Check and Police Records Checks can be found at: <http://www.dhs.vic.gov.au/facs/bdb/fmu/service-agreement/5.departmental-policies-and-procedures/5.6-police-records-check-policy>

<b>AWARD GRANTED</b>	Master of Human Nutrition
<b>CAMPUS</b>	Off campus
<b>DURATION</b>	1.5 years full-time or part-time equivalent
<b>DEAKIN COURSE CODE</b>	H714

## COURSE OVERVIEW

This is an advanced course in human nutrition which draws content from related disciplines such as food science, biochemistry, physiology, epidemiology, psychology, sociology and politics and policy.

Throughout the course you will develop; :

- advanced knowledge of human nutrition and the complexity of current issues relating to food and human health;
- an understanding of the biological, social and policy related aspects of human nutrition;
- skills that will enable you to practise effectively as a nutritionist in a range of employment settings including the food industry, public health nutrition, private practice and business environments; and
- skills in evaluating the findings of human nutrition studies and undertaking research.

This course provides you with the opportunity to undertake a diverse range of elective study options, thus giving you the ability to pursue topic areas that align with your interests and career aspirations. Students looking to pursue a specific nutrition career pathway should first visit the School of Exercise and Nutrition Science Careers website to ensure the elective units they select will meet their career development needs.

### Professional recognition

Growing public interest in the relationship between diet and health is evident and, as a result, there are increasing demands from the public for reliable and trustworthy information. In response, the Nutrition Society of Australia (NSA) has developed a 'Register of Nutritionists' to establish a list of appropriately qualified nutrition professionals.

As a graduate of this course, you may be eligible for registration as an 'Associate Nutritionist' as the criteria for eligibility is a Bachelor of Science degree majoring in nutrition or equivalent. Following three years of relevant work experience, Associate Nutritionists are able to apply for 'Registered Nutritionist' status. For details about the registration process, please refer to the Nutrition Society of Australia website.

# Master of Clinical Exercise Physiology

<b>AWARD GRANTED</b>	Master of Clinical Exercise Physiology
<b>CAMPUS</b>	Offered at Melbourne Burwood Campus
<b>DURATION</b>	1.5 years full-time or part-time equivalent
<b>DEAKIN COURSE CODE</b>	H743

## COURSE OVERVIEW

The Master of Clinical Exercise Physiology is the FIRST and ONLY clinical exercise course in Victoria to achieve accreditation with Exercise & Sports Science Australia (ESSA). The course provides graduates with a simple pathway to accreditation as Accredited Exercise Physiologists (AEP) and access to Provider Numbers with Medicare Australia, WorkSafe Victoria, DVA, TAC, and other compensable funds and schemes. All students enrol as Commonwealth-Supported Places (CSP), making the course fees amongst the lowest in Australia. Although the course only commenced in 2011, it is already achieving outstanding levels of teaching excellence, clinical supervision, learning outcomes and employment in the sector. The teaching team has expertise across all of the pathology areas needed for clinical exercise practice. The clinical practicum program covers all of the requirements for AEP accreditation and features the award winning Clinical Exercise Learning Centre at the Burwood campus, where students develop their practice skills under close supervision and mentoring. Students then embark on a range of external clinical practicum experiences that are organised by the university and are designed to optimise students' exposure to a wide range of clientele, practitioners and institutions. Some of these placements lead directly to future employment. The course is an 18 month graduate-entry degree where you will develop your capacity to creatively and flexibly apply your knowledge and skills to new situations, and be able to think in a rigorous and independent manner.

The course aims to:

- develop your knowledge and expertise in the application of exercise for both the prevention and treatment of many chronic medical conditions, injuries and disabilities;
- enable you to understand the effects of acute and chronic exercise on physiological and pathophysiological processes in individuals with chronic disease;
- link you to your industry through high quality clinical placements where you will develop as a practitioner of clinical exercise;
- produce graduates who have the knowledge, skills and competencies to be eligible for AEP accreditation on graduation;
- equip you with lifelong independent learning skills that will enable you to be the best practitioners possible now and in the future; and
- produce graduates who demonstrate a commitment to maintaining high levels of personal and professional standards of practice

### Professional recognition

The Master of Clinical Exercise Physiology (H743) is the first AEP course in Victoria to be accredited by Exercise & Sports Science Australia (ESSA). Students are eligible to apply for accreditation as AEPs upon completion of the course, and are then eligible for Provider Numbers with Medicare Australia, WorkSafe Victoria, DVA, TAC, and other compensable funds and schemes.

### Work-Integrated Learning

This course provides you with the required knowledge and necessary skills, developed through theoretical and pre-clinical units to enable you to take full advantage of the three clinical placements on offer. The clinical placement program consists of a fully integrated internal and external placement system. The internal placements occur in the award winning Clinical Exercise Learning Centre (CELC), with supervision provided by expert AEPs. The external placements are in a wide variety of settings aligned to the scope of practice for clinical exercise physiologists and sometimes lead directly to future employment. All placements are organised by an academic staff member with responsibility for

clinical placements, and will provide you with professional industry links, reinforce your understanding of the role of an AEP and give you extensive opportunities to gain practical knowledge, skills and competencies that will enable you to practise confidently in this field.

## COURSE OVERVIEW

The Master of Health and Human Services Management will prepare you to be an effective manager and leader and is particularly well suited to those interested in working in the health and human services sector as well as those who currently hold senior positions in this industry.

The course will provide students with opportunities to develop core competencies required for leadership and strategic planning, evidence-based decision making, health needs assessment and evaluation, program planning and monitoring, resource and project management, communication and negotiation.

The course focuses on evidence based decision making and health service delivery outcomes and allows you to choose elective study options that align with your career aspirations and interest areas. Elective units can be chosen from specialty areas such as health economics, public health research, health promotion, and business administration. There is also flexibility of choice between research and coursework – enabling you to construct a study program that best meets your interests and career aspirations.

### Pathways

The Master of Health and Human Services Management is constructed to provide you with the opportunity to gain a second masters degree with only one additional trimester of full-time study. You may choose to combine the Master of Health and Human Services Management with the Master of Health Promotion or Master of Public Health. Enrolment in a second masters degree is subject to application and selection. To take advantage of this opportunity, eligible students are advised to speak to the course coordinator regarding how to structure their course to ensure the appropriate subjects are chosen early and allow this option to develop.

## COURSE OVERVIEW

Preventing illness and promoting health are major aspects of the work of health agencies in all developed and developing countries. Deakin's Master of Health Promotion is designed to enable students from varying backgrounds to acquire the knowledge and skills necessary to develop appropriate and evidence-based health promotion programs. You will obtain a broad-based understanding of the determinants of health in populations and of the range of strategies that practitioners and organisations can implement to make a difference in creating healthier communities. The course addresses strategies that seek to help people take action about their own health, to strengthen community action and to create environments that are more supportive of health – policy environments, physical environments, social environments and economic environments.

The Master of Health Promotion provides you with the opportunity to extend your study of health promotion to undertake a major or minor project. These projects allow you to apply the knowledge and skills developed in the coursework component of the degree to a significant health issue by undertaking a comprehensive literature review, industry-linked project or a research project.

### Professional recognition

Graduates may be eligible to apply for membership of the Australian Health Promotion Association (AHPA) and the International Union of Health Promotion and Education.

### Pathways

The Master of Health Promotion is constructed to provide you with the opportunity to gain a second masters degree with only one additional trimester of full-time study. <b>AWARD GRANTED</b>	Master of Psychology (Clinical)
<b>CAMPUS</b>	Offered at Geelong Waterfront Campus
<b>DURATION</b>	2 years full-time only
<b>DEAKIN COURSE CODE</b>	H750

*The course is not available part-time.*

## COURSE OVERVIEW

The Master of Psychology (Clinical) provides you with a broad set of clinical skills in a range of assessment and therapy models. Based on an integrative approach to clinical psychology that emphasises evidence-based practice, the course has been designed in consultation with our industry partners to enable you to develop the academic, practical and research skills necessary to register as a psychologist, and to practise as a clinical psychologist.

Throughout the course you will develop specialist knowledge as well as the general knowledge and skills required by practitioners; advanced knowledge of clinical problems of childhood, adolescence, and adulthood; knowledge and competence in evidence-based psychological assessment; and knowledge and awareness of relevant ethical principles of psychological practice.

Deakin University offers Master and Doctoral level courses which aim to prepare students, who have completed a recognised psychology sequence, for careers in the field of clinical psychology. Graduates will be qualified for employment in any area of clinical psychology, including private practice or one of the many government and non-government agencies.

### Professional recognition

The Master of Psychology (Clinical) meets the requirements for graduates to register as generalist psychologists with the Psychology Board of Australia, (PBA) and for membership of the Australian Psychological Society (APS). Graduates will be eligible to apply for membership of the College of Clinical Psychologists and endorsement as a Clinical Psychologist following two years of work experience supervised by a clinical psychologist, together with completion of stipulated professional development requirements.

### Placement program

The clinical placements are designed to equip students with a range of professional skills and an awareness of professional issues. You will have placements in at least three different settings, so that you can gain experience of adult, adolescent and child problems; community and institutional care; and medical and non-medical agencies. Your placement program will be determined jointly by you, the placement coordinators, and the practitioners supervising the placements. Contracts will be drawn up which will clearly specify the skills to be taught and the responsibilities of the student and placement supervisor. Placement supervisors are registered clinical psychologists, eligible for membership of the College of Clinical Psychologists of the Australian Psychological Society. Each placement requires the full complement of days to be completed. Failure of any one placement may result in exclusion from the course.

# Master of Nursing Practice

<b>AWARD GRANTED</b>	Master of Nursing Practice
<b>CAMPUS</b>	Offered on and off campus
<b>DURATION</b>	1.5 years full time or up to 4 years part time
<b>DEAKIN COURSE CODE</b>	H771

## COURSE OVERVIEW

The Master of Nursing Practice aims to broaden and deepen your theoretical and practice knowledge and is predicated on the notion that registered nurses should practise in ways that extend beyond the technical and practical concerns of nursing to provide leadership, research-based practice and advanced decision making as part of the multidisciplinary health team. This course, therefore, provides research training as well as leadership and specialty expertise to prepare you for leadership roles, and the requirements to undertake research degrees (such as Masters and PhDs).

The flexible course structure has a strong focus on leadership, quality and risk management, and enables you to choose from several pathway options, thus providing you with the opportunity to tailor your studies to meet your career aspirations. Depending on your desired career direction, you can complete this course via one of the following pathways:

- leadership and management
- advanced clinical practice
- specialty practice (intensive care, cardiac care, emergency care, critical care or perioperative nursing - some areas not available to international students )

If you wish to undertake postgraduate studies in intensive care, cardiac care, emergency care, critical care or perioperative nursing, you will complete the Specialty Practice pathway; and following completion of your specialty practice units, can continue your studies to complete the Master of Nursing Practice if desired. Alternatively, you may wish to exit the Masters program early and only complete a Graduate Certificate or Graduate Diploma in your specialty practice area of interest, and either of these options are available to you.

### Career opportunities

Deakin's postgraduate courses have been developed in collaboration with our industry partners, making the teaching relevant to today's industry needs. After successfully completing your chosen course you will have a qualification that is highly respected by industry and academia, and you will be qualified to gain employment within your chosen specialty in all states and territories of Australia, as well as overseas.

Students seeking to gain employment within specialty areas of critical care or perioperative nursing in all States and Territories of Australia can take an alternate exit on successful completion the equivalent of a Graduate Certificate (4 credit points) or Graduate Diploma of Nursing Practice (8 credit points) in their Specialty practice stream.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The Master of Nursing Practice comprises 12 credit points of study. At least 8 of the 12 credit points must normally be level 7 nursing units from the list below. Up to 4 credit points may be selected from the elective units listed below or approved units from any postgraduate course at Deakin. Alternatively, students may undertake the 4-credit-point thesis (HNN725 and HNN726), which articulates with PhD studies.

Students wishing to complete the Master of Nursing Practice by research and undertake the 4-credit-point minor thesis must have completed HNN727 Research in Nursing and Midwifery (2 credit points).

## COURSE STRUCTURE

# Master of Nursing Practice (Nurse Practitioner)

<b>AWARD GRANTED</b>	Master of Nursing Practice (Nurse Practitioner)
<b>CAMPUS</b>	Offered off campus
<b>DURATION</b>	2 years full-time or up to 4 years part-time
<b>DEAKIN COURSE CODE</b>	H773

## COURSE OVERVIEW

The Master of Nursing Practice (Nurse Practitioner) aims to extend the scope of practice of registered nurses, as well as broaden and deepen your theoretical knowledge as it relates to your specialty practice setting.

This course enables you to select from a range of units to plan a course of study that supports your chosen career path in the clinical domain of nursing or midwifery. The Master of Nursing Practice (Nurse Practitioner) also contains core units of study to support your application for endorsement as a nurse practitioner by Australian Health Practitioner Regulation Agency ("AHPRA") through the Nursing and Midwifery Board of Australia ("NMBA").

This course will provide opportunity for you to develop knowledge and skills in research and equips you to undertake research degree studies. This course supports nurses with career aspirations to extend their practice as a nurse practitioner.

You must be working as a registered nurse on at least a half-time basis while undertaking the core units of study. During the course, evidence of role extension must be maintained as specified by the AHPRA for endorsement as a nurse practitioner.

### Professional recognition

On successful completion of this course, you will be eligible to apply for endorsement as a nurse practitioner from AHPRA through the NMBA.

### Department of Human Services policy

Students must be engaged in practice for their clinical domain as a registered nurse or midwife on at least a half-time basis while undertaking the Nurse Practitioner sequence of core units of study. During the course, evidence of role extension must be maintained as specified by the NMBA, for endorsement as a Nurse Practitioner.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The Master of Nursing Practice (Nurse Practitioner) comprises 12 credit points (cp) and normally may be taken over either a minimum of 2 years or up to 4 years part time study.

Credit for prior learning will be considered on an individual basis for applicants who have completed postgraduate tertiary studies.

A minimum of 5 years appropriate postgraduate experience is required as per Admission and Selection requirements.

## COURSE STRUCTURE

Course structure for the core units of the Master of Nursing Practice (Nurse Practitioner), equivalent to 6 credit points of study include:

### Year 1

#### Trimester 1

- HNN730 Advanced Diagnostic Reasoning (X) (1cp)  
HNN731 Contemporary Nurse Practitioner Role (X) (1cp)

#### Trimester 2

- HNN732 Advanced Clinical Decision Making (X) (1cp)  
HNN733 Advanced Practice Development (X) (1cp)

### Year 2

#### Trimester 1

- HNN780 Quality and Safety in Medication Management (X) (1cp)

#### Trimester 2

- HNN781 Therapeutic Medication Management (ONLINE) (1cp)

*Note: All units in the Nurse Practitioner sequence, together with the Medication modules, must be completed to be eligible for endorsement as Nurse Practitioner.*

If an applicant does not have a Graduate Diploma qualification, it is recommended that they enrol in six units of study from the following list of units prior to undertaking the Nurse Practitioner sequence of core units.

### Nursing units (each unit is worth 1 credit point unless otherwise stated)

#### Trimester 1

## COURSE OVERVIEW

Research in exercise science/sport and physical activity and nutrition, include epidemiological, behavioural and social-science analyses of activity in whole populations and special groups such as older adults; studies of muscle and bone metabolism and physiology of muscle, particularly as these relate to sporting performance and other forms of physical performance and endurance, and to precursors of chronic disease; and movement analysis and sport performance relating particularly to motor skill acquisition, perception and action, movement economy, and gait and falls in older adults. Research in the discipline of nutrition also includes measurement and evaluation of food sources, sports nutrition, and diet and disease with particular interest in cardiovascular disease, obesity, diabetes and osteoporosis.

## COURSE OVERVIEW

The School of Nursing and Midwifery, through its clinical partnership program and community links, has an established research program grounded in clinical practice while embracing the theoretical and philosophical underpinnings of nursing. A major research focus of the School examines symptoms and risk management associated with a wide range of chronic illnesses. Other areas of research include the exploration of symptoms and risk management associated with management of patients in acute and critical care contexts. The research area of health services evaluation involves a critical evaluation of current health services models and the development of alternative models of health services delivery.

# Doctor of Psychology (Clinical)

<b>AWARD GRANTED</b>	Doctor of Psychology (Clinical)
<b>CAMPUS</b>	Offered at Melbourne Burwood Campus, Geelong Waterfront Campus
<b>DURATION</b>	3 years full time
<b>CRICOS COURSE CODE</b>	022556D
<b>DEAKIN COURSE CODE</b>	H951

## COURSE OVERVIEW

The Doctor of Psychology (Clinical) provides those who have completed a recognised four-year sequence in psychology with the opportunity to obtain professional training in clinical psychology. It has been designed to enable you to develop the academic, practical and research skills necessary to register as a psychologist, and to practise as a clinical psychologist. The course is accredited and approved by the Australian Psychological Society and the College of Clinical Psychologists.

Throughout the course you will develop:

1. specialist knowledge and competence in the theory and practice of clinical psychology as well as the general knowledge and skills required by psychological practitioners
2. understanding of the impact of biopsychosocial systems on mental health and the application of an integrative treatment model
3. advanced knowledge of clinical psychology relevant to clinical problems of childhood, adolescence, and adulthood
4. knowledge and competence in the theory and practice of psychological assessment, diagnosis and case formulation relevant to clinical psychology
5. knowledge and awareness of the legal and ethical principles of psychological practice, in particular in relation to the practice of clinical psychology
6. knowledge and practical experience in the assessment and treatment of various psychological disorders, and more specifically couple and family problems
7. capacity to build and maintain effective teamwork with other healthcare professionals that supports the delivery of effective treatment interventions, and
8. competence in the design and conduct of research.

The course is based on the scientist/practitioner model and rests firmly on a foundation of established knowledge and current research and adopts an evidence-based approach to training. Prior to the initiation of any intervention strategy, this approach requires the conduct of a thorough assessment and definition of the problem, which is followed by the formulation of intervention goals, the evaluation and selection of an appropriate intervention approach to achieve these goals, the systematic implementation of this intervention, and an evaluation of its effectiveness in achieving the stated goals. A further basic premise of the course is that mental health and disease processes are impacted by psychological, social and biological factors. Assessment and treatment strategies require consideration of the complex interactions between the range of genetic, physiological, behavioural, and environmental variables that may affect an individual's ability to maximize psychological health and wellbeing. The course specialises in the assessment and treatment of family problems and includes advanced coursework units on etiology, assessment and treatment of these problems, as well as extended placements in agencies specialising in couples and family therapy.

During the course students will complete coursework as described below, and undertake clinical placement in four or more agencies. These placements will include observational experiences with practising clinical psychologists, and supervised practical work as appropriate. Students will also design and undertake a piece of original research on a relevant topic, the results of which will be presented in a major thesis. As part of their thesis requirements, students will also have the opportunity to explore their own interests, conceptual strengths and professional skills in relation

to clinical psychology, through the completion of professional portfolio which is based on four cases from their placement. Both components of the thesis (the research project and the portfolio) will be examined externally.

On completion of the course students may apply to the Psychology Board of Australia (PBA) for registration as a psychologist and to the Australian Psychological Society for full membership. To obtain membership of the Clinical College and endorsement as a clinical psychologist by the PBA, students are required to complete one year of approved supervised practice and fulfil professional development requirements.

### Professional recognition

This course is accredited by the Australian Psychology Accreditation Council (APAC), and recognised by Psychology Board of Australia (PBA), the Australian Psychological Society (APS) and the College of Clinical Psychologists.

On completion of the course you may apply to the PBA for registration as a psychologist and to the APS for full membership. To obtain membership of the Clinical College and endorsement as a clinical psychologist by the PBA, students are required to complete one year of approved supervised practice and fulfil professional development requirements.

### Placement program

Each individual student's placement program will be worked out jointly by you, the placement coordinator, and the practitioners supervising the placements. The placements are designed to equip you with a range of professional skills and develop your awareness of professional issues. You will have placements in at least four settings, so that you can gain experience of adult and child problems, community and institutional care and medical and non-medical agencies. Two of the placements will be in agencies that specialise in couple and family therapy. Contracts will be drawn up which clearly specify the skills to be taught, your responsibilities and the responsibilities of the placement supervisor. Placement supervisors are registered clinical psychologists, eligible for membership of the Clinical College of the APS. Each placement requires the full component of days to be completed. Failure of any one placement may result in exclusion from the course.

## COURSE RULES

The course consists of 24 credit points of work covering three strands: theory, research and practice.

# Doctor of Psychology (Forensic)

<b>AWARD GRANTED</b>	Doctor of Psychology (Forensic)
<b>CAMPUS</b>	Offered at Melbourne Burwood Campus
<b>DURATION</b>	3 years full time
<b>CRICOS COURSE CODE</b>	040945G
<b>DEAKIN COURSE CODE</b>	H952

## COURSE OVERVIEW

The Doctor of Psychology (Forensic) aims to provide those who have completed a recognised four year psychology sequence/degree with the opportunity to obtain professional training in forensic psychology and develop the academic, practical and research skills required to register and practise as a forensic psychologist.

Throughout the course you will undertake a range of core units which are divided across coursework, placement and thesis requirements. Coursework includes units on applied methodology, interview and intervention skills, assessment and treatment of forensic clients, psychology and the law, psychopathology, and children and the legal system. You will have at least 200 days practical experience with forensic clinicians in four or more agencies and undertake supervised client work as appropriate. You will also have the opportunity to design, conduct and present a major thesis that reports the results of original research. This thesis is externally examined and is expected to reflect the program's status as a research degree. In addition to the coursework, placement and research components of the program, you will complete a professional portfolio, which is examined externally and based on cases from their placement work.

Throughout the course you will develop:

- specialist knowledge of forensic psychology as well as the general knowledge and skills required by psychological practitioners
- specialist knowledge of psychology and the law and assessment and treatment of offenders and victims
- knowledge and competence in the theory and practice of psychological assessment
- knowledge and awareness of the ethical principles of psychological practice, with particular relation to the practice of forensic psychology
- experience of the practice of forensic psychology within a range of forensic settings
- advanced levels of competence in the design and conduct of research in the area of child or family forensic psychology
- an appreciation of the multidisciplinary practice of psychology through cooperation with professionals from other related disciplines during practicum placements.

You will also gain advanced knowledge and practical experience in the assessment and treatment of children and their families within a forensic setting.

### Professional recognition

This course is accredited by the Australian Psychology Accreditation Council (APAC) and meets the requirements for graduates to register as generalist psychologists with the Psychology Board of Australia, and for membership of the Australian Psychological Society (APS).

Graduates will be eligible to apply for membership of the College of Forensic Psychologists and endorsement as a Forensic Psychologist following one year of work experience supervised by a forensic psychologist, together with completion of stipulated professional development requirements.

### Placement program

Your placement program will be worked out jointly by you, the placement coordinator and the practitioners supervising the placements. Forensic placements are tailored to your interests, skills and career aspirations and are designed to provide you with a range of professional skills, and to develop your awareness of ethical and professional issues. It is desirable that you gain experience with a range of client groups in a variety of organisational and correctional settings. Contracts will be drawn up that will clearly specify the skills to be mastered, your responsibilities and the responsibilities of the placement supervisor. Placement supervisors are registered psychologists, eligible for membership of the College of Forensic Psychologists. Each placement requires the full complement of days to be completed and failure of any one placement may result in exclusion from the course.

# Doctor of Psychology (Health)

<b>AWARD GRANTED</b>	Doctor of Psychology (Health)
<b>CAMPUS</b>	Offered at Melbourne Burwood Campus
<b>DURATION</b>	3 years full time
<b>CRICOS COURSE CODE</b>	040946G
<b>DEAKIN COURSE CODE</b>	H953

## COURSE OVERVIEW

The Doctor of Psychology (Health) provides you with the opportunity to obtain professional training in health psychology and develop the academic, practical and research skills required to register and practise as a health psychologist. After successfully completing this course you will be qualified for employment as a psychologist in any area of health psychology, including clinical health and health promotion.

Throughout the course, you will develop:

1. specialist knowledge of health psychology as well as the general knowledge and skills required by psychological practitioners;
2. advanced knowledge and practical experience in the areas of health promotion and preventative health strategies;
3. knowledge and competence in the theory and practice of psychological assessment relevant to health psychology;
4. knowledge and awareness of the ethical principles of psychological practice, and in particular in relation to health psychology; and
5. advanced levels of competence in the design and conduct of research through completion of a major thesis.

The course is based on the scientist/professional model: before engaging in any clinical intervention, prevention or health promotion strategy it is essential to evaluate the present situation and set appropriate goals that can also be evaluated. The evaluation and definition of the presenting situation is followed by the formulation of the goals of the intervention or health promotion strategy, an assessment of the approach most appropriate to achieve these goals, implementation of the chosen strategies, and an evaluation of the effectiveness of the chosen approach in achieving the stated goals. From this major thrust, students will be equipped with a range of different therapeutic interventions and health promotion strategies, with an emphasis on research findings that relate to the effectiveness of different interventions and strategies across different problems and areas of need.

The units in the program have been developed so that they provide the input to achieve the general aims of any health psychology program, that is, the development of skills in the areas of health promotion and prevention, together with relevant diagnostic, assessment, intervention and evaluation skills. In-depth coverage will be achieved in the third year units to provide an understanding of issues related to health promotion and preventative health strategies and extended placements will be undertaken in agencies specialising in these areas. Students will design, undertake and present a major thesis reporting the results of a piece of original research of appropriate quality on a relevant topic. As part of their thesis requirements, students also complete a professional portfolio which is examined externally and is based on cases from their placement.

### Professional recognition

The course has been accredited by the Australian Psychological Accreditation Council (APAC) and meets the requirements for graduates to register as generalist psychologists with the Psychology Board of Australia (PBA), and for membership of the Australian Psychological Society (APS). *\* Please note, from 2013 the Geelong-based courses and major sequences offered by the Faculty of Business and Law will be offered from the Geelong Waterfront Campus instead of the Geelong Waurn Ponds Campus.*

*# Trimester 3 intakes are only available at the Melbourne Burwood Campus for Domestic and International Students. Trimester 3 Off Campus offerings are only available to Domestic Students.*

*\*\* Not all major sequences are available via on campus study at the Warrnambool campus. Students may undertake major sequences not available on campus by enrolling in units via off campus study mode.*

## COURSE OVERVIEW

The Commerce courses at Deakin are some of the most flexible and broadly based business programs on offer at any Australian university.

After a common first year of study in key business disciplines, students can choose from a wide range of specialist major sequences without having to lock themselves into one program from the beginning. Also students can choose from specialised areas offered by other faculties such as journalism, sociology, politics and policy studies, languages, psychology, or many other areas of interest (subject to satisfying entry requirements).

### Business internship program

The Bachelor of Commerce incorporates a business internship program which provides students with a realistic business experience in their area of specialisation. Two 1-credit-point units, available to final-year students, have been developed to provide experiential learning opportunities which foster the development of practical capabilities and enhance employment prospects for graduates. These units complement each major area of study and are available on all campuses and off campus.

MIS390	Business Internship A
MIS391	Business Internship B

### Unit selection

Students admitted to the Bachelor of Commerce (BCom) will be given advice on unit selection, however students must take responsibility for planning their own studies within the course structure and course rules.

### Part-time studies

Part-time study is available on and off campus. Part-time study refers to academic workload, not mode of study.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search. Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The BCom is a course of study amounting to 24 credit points.

At least 16 of these credit points must be units offered by the Faculty of Business and Law and must include the 10 credit points of core units and MCA010 ( 0 credit points).

At least one major sequence of 6 credit points must be included.

At least 6 credit points must be taken at level 3, of which 4 must be Faculty of Business and Law units course grouped to a Faculty of Business and Law undergraduate degree.

<b>DURATION</b>	3 years full-time or part-time equivalent
<b>CRICOS COURSE CODE</b>	062182J
<b>DEAKIN COURSE CODE</b>	M302

\* Please note, from 2013 the Geelong-based courses and major sequences offered by the Faculty of Business and Law will be offered from the Geelong Waterfront Campus instead of the Geelong Warrnambool Campus.

# Trimester 3 intakes are only available at the Melbourne Burwood Campus for Domestic and International Students. Trimester 3 Off Campus offerings are only available to Domestic Students.

Note: Students who commenced the Bachelor of Management prior to 2008 should refer to the 2007 Handbook for course details.

\*\* Not all major sequences are available via on campus study at the Warrnambool campus. Students may undertake major sequences not available on campus by enrolling in units via off campus study mode.

## COURSE OVERVIEW

The Bachelor of Management is designed to provide contemporary management knowledge and skills to students who need, or aim to work in, a management role. This course enables you to acquire and master a solid understanding of the intellectual foundations of the study of management and its main components. A wide range of specialist major sequences are available from within the Faculty of Business and Law, and you can also select a major sequence from another faculty such as psychology, public relations, journalism or many others (subject to satisfying entry requirements).

### Articulation

Students who have completed a Certificate of Management, a Diploma of Management or an Associate Degree of Management with DeakinPrime may articulate to the Bachelor of Management with full credit.

Articulating students should seek course advice from the Faculty of Business and Law enrolment officers.

### Business internship program

The Bachelor of Management incorporates a business internship program which provides students with a realistic business experience in their area of specialisation. Two 1-credit-point units, available to final-year students, have been developed to provide experiential learning opportunities which foster the development of practical capabilities and enhance employment prospects for graduates. These units complement each major area of study and are available on all campuses and off campus.

MIS390	Business Internship A
MIS391	Business Internship B

### Part-time studies

Part-time study is available on and off campus. Part-time study refers to academic workload, not mode of study.

## Professional Recognition

By choosing appropriate units within the Bachelor of Management-Accounting major sequence plus specified finance and commercial law units, students may be accredited by the Institute of Chartered Accountants (ICAA).

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The course rules for the Bachelor of Management require that students complete 24 credit points.

At least 16 of these credit points must be Business and Law course-grouped units, including a core Business Management Stream made up of eight credit points.

To complete the 16 Business and Law course-grouped units, students may choose to complete an eight credit point General Studies Stream from a specified list or a major sequence.

Students must not complete more than ten credit points at Level 1 and must complete at least four credit points at Level 3. Students may take up to eight credit points from approved units offered by other faculties including a major sequence made up of a minimum of six credit points defined by the relevant Faculty Board.

# Bachelor of Management - Tourism

<b>AWARD GRANTED</b>	Bachelor of Management
<b>CAMPUS</b>	Offered at Melbourne Burwood Campus, Geelong Waterfront Campus
<b>DURATION</b>	3 years full-time or part-time equivalent
<b>DEAKIN COURSE CODE</b>	M303

*\* Please note, from 2013 the Geelong-based courses and major sequences offered by the Faculty of Business and Law will be offered from the Geelong Waterfront Campus instead of the Geelong Waurin Ponds Campus. Note: This course is studied in conjunction with either the Advanced Diploma of Tourism from the Box Hill Institute of TAFE, or The Gordon in Geelong.*

## COURSE OVERVIEW

In response to the high-level management skills needed by the industry, Deakin University offers this combined course in Tourism and Management in conjunction with the Box Hill Institute of TAFE or The Gordon in Geelong.

This course provides students with a theoretical and practical grounding in the tourism industry and will help to develop high-level management skills. Studies are undertaken concurrently at each institution and graduates will be awarded a Bachelor of Management and an Advanced Diploma of Tourism.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The rules for the Bachelor of Management combined with the Advanced Diploma of Tourism Management require that students complete 12 credit points of study at Deakin University, and the Advanced Diploma of Tourism Management at the Box Hill Institute or The Gordon. The 12 credit points studied at Deakin must consist of course-grouped units and must be selected from the Core Business Management stream and the chosen major sequence.

Students must complete at least 9 credit points taken over levels 2 or 3 of which at least 4 credit points must be taken at level 3. Students who successfully complete all requirements of the Advanced Diploma of Tourism Management will be granted 12 credit points of credit for prior learning into the Bachelor of Management.

## COURSE OVERVIEW

The Commerce courses at Deakin are some of the most flexible and broadly based business programs on offer at any Australian university.

After a common first year of study in key business disciplines, students can choose from a wide range of specialist major sequences without having to lock themselves into one program from the beginning. Also students can choose from specialised areas offered by other faculties such as journalism, sociology, politics and policy studies, languages, psychology, or many other areas of interest (subject to satisfying entry requirements).

### Business internship program

The Bachelor of Commerce incorporates a business internship program which provides students with a realistic business experience in their area of specialisation. Two 1-credit-point units, available to final-year students, have been developed to provide experiential learning opportunities which foster the development of practical capabilities and enhance employment prospects for graduates. These units complement each major area of study and are available on all campuses and off campus.

**MIS390 Business Internship A**

**MIS391 Business Internship B**

### Unit selection

Students admitted to the Bachelor of Commerce (BCom) will be given advice on unit selection, however students must take responsibility for planning their own studies within the course structure and course rules.

### Part-time studies

Part-time study is available on and off campus. Part-time study refers to academic workload, not mode of study.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The BCom is a course of study amounting to 24 credit points.

At least 16 of these credit points must be BCom units offered by the Faculty of Business and Law and must include the 10 core units.

At least one major sequence of 6 credit points must be included.

At least 6 credit points must be taken at level 3, of which 4 must be Faculty of Business and Law units course grouped to a Faculty of Business and Law undergraduate degree.

No more than 10 credit points may be taken at level 1 (all Commerce units are worth 1 credit point).

Full-time enrolment is normally a maximum of 4 credit points per trimester. With the flexibility offered, students are able to choose one, two or even three majors within the 24 credit points required to complete the BCom degree. Students may take up to 8 credit points from approved units offered by other faculties.

## COURSE OVERVIEW

The Deakin Law program is designed to produce first-class commercial law practitioners by providing sound training in each of the major areas of legal practice. It offers a number of special features that have been incorporated into its Bachelor of Laws (LLB) degree courses.

The degree of Bachelor of Laws may be awarded at honours level.

## Features of the Program

Orientation towards commercial law

A distinctive feature of the Law Program is its deliberate orientation towards commercial law. The Deakin LLB degree course is one of the few in Australia with a specific and exclusive focus. This has been achieved by including several core commercial units in the course, plus offering an elective program that consists predominantly of units drawn from the area of commercial law.

## Practical course requirements

### Professional Experience

You will be required to complete 30 days professional work experience in a legal environment to gain experience on how the law operates in practice. This practical experience will provide you with an enriched formal legal education and prepare you for employment in the industry. For more information <http://www.deakin.edu.au/buslaw/law/students/professional-exp/index.php>

### Law clinic

In conjunction with Community Legal Centres and other legal organisations, the School of Law offers a clinical skills unit. This involves students working at a Legal Service under the supervision of a legal practitioner. They assist the practitioner to take instructions and to advise and represent clients. Clinical training of this nature is designed to teach students skills such as interviewing, counselling, negotiation, communication and advocacy. Quotas apply and enrolment is via application.

For more information, please visit:

<http://www.deakin.edu.au/buslaw/law/students/lawclinic.php>

## Admission to legal practice

At present, to qualify for admission as a barrister and solicitor in Victoria, university graduates are required to complete legal traineeships (previously known as articles of clerkship) for one year or to complete a legal practice course. Institutes that offer Practical Legal Training are:

- The College of Law Victoria: Victorian Professional Program
- The Leo Cussen Institute [which holds a seven month full-time practical legal training course], plus an alternative on-line course.
- Australia National University Practical Legal Training Course offered in Melbourne.

## Course of study

The Deakin Law Program is designed to satisfy the university component of the requirements to become a barrister and solicitor in Victoria set by the Council of Legal Education. Study may be undertaken on either a full-time or part-time basis.

## LLB combined with another degree

Students enrolled in a Law degree combined with another degree in Arts, Arts (International Studies), Commerce, Criminology, Management or Science, must complete units totalling 40 credit points for the combined course. For the LLB degree component of the combined course students must complete 24 credit points of Law units, including 21 credit points of core units, 3 credit points of elective Law units and professional experience requirements. The degree may be awarded at either pass or honours level.

For the other degree component students must complete 16 credit points as prescribed for the relevant degree. Refer to Course Structures for combined courses and for bachelor degrees in Arts, Arts (International Studies), Commerce, Criminology, Management or Science.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

To qualify for the LLB, students must complete units totalling 32 credit points. 24 credit points, including 21 credit points of core units, must be selected from the LLB. The remaining 8 credit points may be taken as elective units, 4 of which must be non-Law units.

In addition, students are required to complete the prescribed Professional Experience in order to be eligible to graduate.

## Honours:

Law On-course Honours Award recognises outstanding achievement in the Bachelor of Laws degree. To be awarded an On-course Honours Award with Bachelor of Laws degree you must:

- satisfactorily complete an approved course of study meeting the requirements of the Bachelor of Laws pass degree;
- satisfactorily complete 4 credit points in the LLB at level 4
- achieve a weighted average mark of 65% or above in the LLB units undertaken in the LLB degree.

## COURSE OVERVIEW

This course provides an understanding of the functions and principles of management within the field of arts and entertainment. It examines the role of arts management in creating opportunities for arts and cultural organisations to be vital, viable and responsive to stakeholders. The critical role of arts marketing in ensuring the engagement of diverse audiences and stakeholders is also examined. Students will develop the necessary skills and knowledge, work in the arts and cultural sector, understand the sectors' fundraising and sponsorship needs, contribute to the growing internationalisation of the arts, facilitate the vibrant and sustainable operation of arts organisations, and enable innovative programs that provide participatory opportunities for arts audiences.

Study within this program combines both the theory and practice of arts management, through a combination of reading, research and practical assignments. Students have the opportunity to engage with a range of industry representatives, gain exposure to the work of cutting edge practitioners and thinkers, and integrate their work and learning.

Within this program students are able to specialise in areas of arts management such as project management, community based arts, and fundraising.

Students who successfully complete the Graduate Certificate of Arts and Entertainment Management will be eligible for entry into the Master of Arts and Entertainment Management.

The course focuses on the strategic use of information in a business and policy context, supported by a sound technical understanding and capability in specific areas of eCommerce, eBusiness and Supply Chain Management. In undertaking this course students will be expected to develop skills in information systems. This course also assists graduates from disciplines such as business, management, marketing, social policy or public administration to understand the business implications of eCommerce. The course meets the needs of students from different backgrounds and incorporates extremely flexible methods of delivery combining the use of high quality off-campus study materials with periods of intensive face-to-face learning, as well as the option to undertake many units entirely through electronic teaching.

# Graduate Diploma of Property

<b>AWARD GRANTED</b>	Graduate Diploma of Property
<b>CAMPUS</b>	Off campus
<b>DURATION</b>	1 year full-time or part-time equivalent
<b>DEAKIN COURSE CODE</b>	M633

*Please note: This course is only offered off campus and is only available in Trimester 1 and 2*

## COURSE OVERVIEW

Deakin's popular Graduate Diploma of Property has been designed to suit demand for and the needs of two types of graduates:

- graduates from a property and real estate background who require further expertise in property-related principles, including property development, valuation and other property-related areas
- graduates who have completed an undergraduate degree and are seeking a professional degree in property.

The course will provide students with the opportunity to develop and refine their core professional skills, particularly related to property development and valuation. Students will develop an important understanding of who the various stakeholders in the property and real estate market are, and how they collaborate to co-ordinate, organise, develop and manage property in broader society.

Students in the course are 'engaged' with the material, the lecturers and other students via the use of cutting edge technology which can be accessed from any global location.

The course brings together a range of built environment disciplines from sustainable construction to property management to provide a broad perspective on issues of relevant international significance.

A focus on sustainability and its economic, social and environmental underpinnings in the broad property market giving the course particular significance and relevance, while case studies provide opportunity for critical reflection and analysis.

Relevance to current and proposed 'real life' initiatives in the context of case study research is an important part of the course. Students will gain specialist skills through practical experience and benefit from cutting-edge research and close cooperation with the property industry.

Students will graduate equipped with a high level understanding of the theoretical, policy, evaluative and research frameworks that underpin the property and real estate profession.

For graduates with a cognate undergraduate degree this course is a CPV accredited 100% external postgraduate course which is delivered via flexible delivery.

Graduates with a cognate degree such as: Commerce, Business, Planning, Architecture, Construction, Quantity Surveying, Law or Engineering will have satisfied the academic requirements for Certified Property Valuer (CPV) status membership of the Australian Property Institute (API).

### Professional recognition

The Graduate Diploma of Property is recognised and professionally accredited by the Australian Property Institute (API). Graduates have satisfied the academic requirements for Certified Property Practitioner (CPP) status, Certified Property Manager (CPM) status and Certified Development Practitioner (CDP) status. In addition graduates who commenced study with a cognate undergraduate degree will satisfy the academic requirements for Certified Practising Valuer (CPV) status of the API.

# Graduate Diploma of Leadership

<b>AWARD GRANTED</b>	Graduate Diploma of Leadership
<b>CAMPUS</b>	Off campus
<b>DURATION</b>	1 year full-time or part-time equivalent
<b>DEAKIN COURSE CODE</b>	M638

## COURSE OVERVIEW

The Graduate Diploma of Leadership is designed to create a deep understanding, at both tacit and explicit levels, of this important organisational role. The course is largely experiential and is aimed at fostering cognitive and behavioural habits which lead to appropriate actions where innovation and influence are required. Course content is underpinned with an exploration of current directions in thinking and research in this very dynamic field of research.

The course embraces a variety of approaches to teaching and learning ranging from didactic (lectures, course notes, formal assessment, etc.) to experiential (intensive residential units) and includes study and reflection on personal challenges, for example, in an outdoor 'adventure' program in the Audacious Leadership unit.

## COURSE OVERVIEW

The Graduate Diploma of Accounting provides you with the opportunity to undertake graduate studies towards membership of CPA Australia or entry into the CA Program.

The course will provide you with the skills, technical knowledge and understanding required in accounting and finance, and their application within the broader world of business.

Upon completing the Graduate Diploma of Accounting you can progress to the Master of Professional Accounting, Master of Commerce, or Master of Professional Accounting/Master of Commerce.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

or units from the Master of Professional Accounting, Master of International Finance and the Master of Financial Planning .

Other postgraduate units may be taken subject to the approval of the Course Team Chair.

*Notes:*

*1 Required by CPA Australia for Associate (foundation level) Membership.*

*2 Required by the Institute of Chartered Accountants in Australia for entry to the CA Program.*

*3 For candidates who have completed an accredited degree in Australia, this unit may be taken as part of the CPA program. Other students must complete the unit before becoming an Associate Member of CPA Australia.*

Students should carefully note the trimesters when units are offered to ensure that all required units can be completed in the appropriate time frame.

Students who wish to enter the CA or CPA programs are advised that it is their responsibility to ensure that they take the appropriate units required for entry.

Students who have completed prior undergraduate or graduate units in accounting or other core knowledge areas are advised to have their qualifications assessed by their preferred professional organisation to ensure they complete the correct units.

### Credit for Prior Learning

Credit for prior learning into the Graduate Diploma of Accounting may be granted to students who have successfully completed appropriate postgraduate studies. There are negotiated credit for prior learning arrangements in place for CPA members.

## COURSE OVERVIEW

Deakin's distinctive MBA is one of Australia's premier business education programs. For 30 years, the Deakin MBA has been offering relevant skills, contemporary knowledge and real experience, while developing the business leaders of tomorrow.

Coherent themes of teamwork, sustainability, globalisation and social and regulatory responsibility run through the entire MBA program. The focus is on profit with principles, which means graduates understand the importance of ethical behaviour and sustainable decision-making. The program content is informed by research, scholarship and industry engagement.

### Real learning experiences

The Deakin MBA program is renowned for its experiential learning opportunities. Innovative teaching techniques include our intensive Residential Units where you can complete a unit in one week. You can also choose to enrich your degree with study tours offered in Australia, China, Europe and the United States.

The Deakin MBA can be undertaken full-time or part-time and in any combination of off-campus, on-campus, residential and overseas study modes. Whatever you choose, the Deakin MBA is designed to be a stimulating and satisfying study experience.

## COURSE OVERVIEW

Deakin's Master of Commerce is a discipline-based coursework degree with common core units in Accounting, Business Process Management, Economics for Managers and Finance. It is designed for graduates of any discipline, as a first qualification in business.

The course is suitable for graduates in diverse fields (e.g. arts, science, nursing or education) who wish to prepare themselves for a professional career by gaining a thorough knowledge of the key business disciplines.

As part of the Master of Commerce you must complete at least one specialisation as listed. By choosing appropriate units within the Master of Commerce, you may satisfy the professional requirements of CPA Australia, Institute of Chartered Accountants in Australia (ICAA), the Institute of Certified Management Accountants (ICMA) or associate membership requirements of the Australian Computer Society (ACS).

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The MCom is a 12 credit point degree. Students will be required to complete a core of 4 credit points and at least one specialisation of 4 credit points, which may include a core unit, chosen from the range of specialisations offered.

To complete the degree students may choose any units from the full range of MCom units offered. It will be possible to complete more than one specialisation. Students may also choose to exit the Master of Commerce early with either a Graduate Certificate of Commerce (consisting of any four Master of Commerce units) or a Graduate Diploma of Commerce (consisting of any eight Master of Commerce units).

Commerce graduates would normally be precluded from one or more of the core units and required to undertake substitute units from the full range of MCom units. These students are expected to specialise in an area other than their undergraduate major(s).

## COURSE OVERVIEW

The Master of Information Systems course has been developed in response to the rapid growth in the use of information systems and eCommerce applications by businesses and governments internationally. The course provides specialist skills in the business-oriented principles and practices of information systems and eCommerce. It focuses on the strategic use of information in a business and policy context, supported by a sound technical understanding and capability in specific areas of information systems, particularly eBusiness, supply chain management, and project management. The course is primarily aimed at IT professionals who wish to extend their expertise in information systems and eCommerce, as well as graduates from other disciplines who wish to understand the implications of eCommerce in their business. The course meets the needs of students from different backgrounds and incorporates extremely flexible methods of delivery combining the use of high quality off-campus study materials with periods of intensive face-to face learning, as well as the option to undertake many units entirely through electronic teaching.

### Course rules

The program consists of 12 credit points, including 3 credit points of core units; Information Systems units amounting to 5 credit points which may be grouped to form an Information Systems specialisation; and Information Systems units or elective units amounting to 4 credit points which may be grouped to form an Information Systems or Interdisciplinary specialisation. (Students can only complete an interdisciplinary specialisation if they are also completing an Information Systems specialisation.)

The flexible structure allows students to choose a combination of units most relevant to their interests and needs, via coursework and minor thesis, coursework and business project or coursework alone. Additionally, the wide choice of electives further enhances students' options.

## COURSE OVERVIEW

The Master of Commercial Law is open to graduates of any discipline, or to non-graduates who have sufficient qualifications or relevant commercial experience. The course is designed for students who have a general interest in commercial law and those who wish to learn more about specific areas of law, particularly within Australia. Units cover key areas such as corporations law, income tax, international commercial law, internet law, corporate governance and trade practices.

There are also opportunities to learn in different ways. Chinese Commercial Law, for instance, is a popular unit that may be undertaken intensively by participating in the two-week China Study Tour offered in July each year. Other units may be studied in the ore traditional on-campus mode or by distance education. In addition, acknowledging the value of interdisciplinary studies, student may select three units offered by other faculties - most are commercial in nature and some have an international focus.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

## COURSE OVERVIEW

The functions and principles of management within arts and cultural organisations are the focus of this course. It examines the role of arts management in creating opportunities for arts and cultural organisations to be vital, viable and responsive to stakeholders, as well as the critical role of arts marketing in ensuring the arts engage diverse audiences and stakeholders. The Masters program also explores the role of cultural projects and events in creating vibrant and dynamic cities and destinations, along with the financial reporting and analysis work that underpins all organisations and programs.

As with the Graduate Certificate in Arts and Entertainment Management, students will gain the skills and knowledge to provide leadership and direction to the arts in Australia; contribute to the growing internationalisation of the arts; direct vibrant and sustainable arts organisations; and enable innovative programs that provide participatory opportunities for arts engagement. Study for the Masters program is more extensive, also providing opportunities to examine governance, entrepreneurship, strategy and human resource management.

Study within this course combines both the theory and practice of arts management, through a combination of reading, research and practical assignments. The Masters program offers students the opportunity to engage with a range of industry representatives, gain exposure to the work of cutting edge practitioners and thinkers, and integrate their work and learning. Students are also able to build on their practical skills and industry experience through an internship.

Within the Masters program students are able to specialise in areas of arts management such as audience development, marketing, and cultural heritage and tourism.

## COURSE OVERVIEW

The Master of Leadership is designed to create a deep understanding, at both tacit and explicit levels, of this important organisational role. The course is largely experiential and is aimed at fostering cognitive and behavioural habits which lead to appropriate actions where innovation and influence are required. Course content is underpinned with an exploration of current directions in thinking and research in this very dynamic field of research.

The course embraces a variety of approaches to teaching and learning ranging from didactic (lectures, course notes, formal assessment, etc.) to experiential (intensive residential units) and includes study and reflection on personal challenges, for example, in an outdoor 'adventure' program in the Audacious Leadership unit.

## COURSE OVERVIEW

Deakin's Master of Financial Planning (MFP) is a professionally oriented course specifically designed to meet the education needs of the financial planning industry. The MFP is aimed at those aspiring to join the financial planning industry as well as those currently employed in the industry. The MFP seeks to build the financial planning abilities, skills and knowledge of the individual student. Students will be required to collect, analyse and synthesise financial planning information. Students will then use their skills to prepare financial planning solutions and to effectively communicate these solutions to the client. The MFP emphasises the professional responsibilities of the financial planner both in an ethical and in a compliance sense. The MFP is built on an extensive body of financial planning knowledge and culminates in the preparation of a comprehensive Statement of Advice for a client.

## COURSE OVERVIEW

Deakin's Master of Business Analytics is a collaborative education program with industry. The course develops business analytics professionals with a broad skill set that enables them to develop analytics based solutions for business.

### Industry relevant:

The Deakin business analytics program has been developed in partnership with industry and a significant component of the course is delivered by business analytics professionals in the form of practice modules. The course introduces students to a range of internationally recognised business intelligence and analytics tools and has a very strong practice focus. You will also have access to analytics certification programs by market leaders IBM, SAS and Microsoft.

## COURSE OVERVIEW

Research master degrees may be undertaken in all five Schools of the Faculty: School of Accounting, Economics and Finance, The School of Information and Business Analytics, School of Law, School of Management and Marketing and Deakin Graduate School of Business. They are available full time or part time, and on campus or off campus (if appropriate). Research degrees undertaken in the School of Law lead to the award of Master of Laws (by major thesis), or Doctor of Philosophy.

A member of the academic staff will be appointed as principal supervisor for each candidate for a higher degree by research. Associate supervisors, either internal or external, may be appointed to assist the principal supervisor. Candidates will be required to meet certain attendance requirements. A candidate is required to complete a thesis embodying the results of research carried out in the field of study specified at the time of enrolment.

For further information about the DBA, including important advice about the application process and deadlines, please refer to <http://www.deakin.edu.au/buslaw/courses/dba.php>

## COURSE OVERVIEW

The Doctor of Business Administration is designed to provide students with an advanced understanding of key business disciplines and research methodologies relevant to business. It also aims to develop critical thinking and the ability to apply theoretical understanding and research results to business problems. It will develop advanced research skills and the ability to communicate research outcomes, improve professional practice in a range of business disciplines and provide students with the opportunity to pursue individual research projects.

### Research information

The Doctor of Business Administration is designed for experienced senior managers who wish to develop their analytical, managerial and research skills and hence their ability to operate in business. Through independent study and supervised research it will also enhance students' ability to pursue original research and present the results of that research in an appropriate form. As a professional doctorate, the DBA in its coursework and research components is oriented towards the needs of business professionals and designed to improve professional practice in a range of business disciplines.

# Bachelor of Engineering Science

<b>AWARD GRANTED</b>	Bachelor of Engineering Science
<b>CAMPUS</b>	Offered at Geelong Waurin Ponds Campus
<b>DURATION</b>	3 years full-time or part-time equivalent
<b>DEAKIN COURSE CODE</b>	S302

## COURSE OVERVIEW

The Bachelor of Engineering Science is designed to develop technology-focused scientists capable of creating engineering solutions to sport and medical related problems. The course provides you with the theoretical foundation, technical skills and expertise needed to design and develop sports equipment, instrumentation and other sports related products as well as medical and physiological instrumentation, prosthetics, and other healthcare devices.

The course is designed for technically-minded students who are seeking a modern and specialised educational experience unique in Australia. You have the opportunity to take part in industry-based learning, internships and a final-year project to help you gain workplace experience and develop valuable networks. The units are mostly prescribed, with engineering, physiology and exercise and sport science units studied at each level.

The course has a common first year that will allow you to make an informed decision when choosing one of the areas listed below to specialise in.

- Sports technology - electrical
- Sports technology - mechanical
- Medical technology

Graduating students have the opportunity to undertake further studies in honours (research) and PhD programs.

### Career opportunities

Graduates will be able to work in a wide range of industries, such as equipment manufacturers, professional sports associations, research institutions, medical instrumentation, prosthetics and health organisations.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The course comprises a total of 24 credit points, which must include the following:

- Ten credit points of core units (HBS109, SED102, SEE103, SEP122, SIT190, SLE111, SLE131, HSE202, SLE251, SEJ344)
- Three Safety Induction Program units (0 credit points)
  - o HSE010 Exercise and Sport Laboratory Safety;
  - o SEE010 Safety Induction Program; and
  - o SLE010 Laboratory and Fieldwork Safety Induction Program

- At least one major study from:
  - o Sports Technology – Electrical (10 credit points)
  - o Sports Technology – Mechanical (10 credit points)
  - o Medical Technology (9 credit points)
- The remaining units can be undertaken as elective units chosen from any units across the University, provided unit rules (including prerequisites and campus restrictions) have been met, and noting the following:
  - o No more than 10 credit points at level 1, and
  - o At least 6 level 3 units, of which 4 must be course grouped.
  - o Elective offerings can be used to broaden the focus from sport performance to include physical activity and public health applications of engineering to assessment of physical activity and also development of tools/technologies to promote physical activity. Such electives may include HSE203, HSE316 and HSE212.

## COURSE STRUCTURE

### Sports technology - electrical (unit set code MJ-S000055)

In this major, you will specialise in electrical engineering studies. The course is tailored to industry needs and has close links through strong research programs, cutting-edge technology and facilities, and project-based learning. You can access state-of-the-art robotics and sensor systems, and through your final-level projects, gain an introduction to the emerging haptics research and sensors area. Graduates may be employed as electronic control systems scientists or robotics scientists, and work in areas including human performance monitoring and control system design.

### Sports technology - mechanical (unit set code MJ-S000056)

Product development and innovation are important drivers for the Australian sports industry. To help meet this need, this course provides a relevant degree that brings together knowledge of leading computer-aided engineering technologies and advanced materials. The course draws heavily on Deakin's world-class research teams in design and advanced materials, with a practical hands-on approach that includes an opportunity to work on various research projects in your final year and gain a solid understanding of product and process modelling and designing for sustainability. Graduates may find career opportunities as sports equipment designers, in support roles in engineering organisations and in Occupational Health and Safety (OH&S) roles.

## Medical technology (unit set code MJ-S000057)

In this major, you will specialise in medical technology studies. The medical device and diagnostics industry is the focus of this major. This is an industry that is expected to advance rapidly into new fields of science and engineering, facilitating new innovations in biomedical and health care systems. Graduates of this program may find career opportunities in technology sectors with a focus on human health, including medical devices and diagnostics systems intended to be used for the prevention, monitoring and treatment of a disease, injury or physiological process.

# Bachelor of Information Technology (Mobile and Apps Development)

<b>AWARD GRANTED</b>	Bachelor of Information Technology (Mobile and Apps Development)
<b>CAMPUS</b>	Offered at Melbourne Burwood Campus
<b>DURATION</b>	3 years full-time or part-time equivalent
<b>DEAKIN COURSE CODE</b>	S303

*(This course is offered on campus only in 2013 and will be offered on and off campus from 2014 onwards)*

## COURSE OVERVIEW

The Bachelor of Information Technology (Mobile and Apps Development) focuses on theories, technologies and skills required to design and develop apps on modern mobile platforms, giving you the knowledge to help you thrive in this fast-growing field. It is designed for students who are interested in the broad aspects of mobile apps design and development – from frontend mobile devices all the way to the backend systems that support mobile apps.

The course provides you with suitable foundation training in key IT skills, specialised skills in mobile apps design and development, as well as generic professional skills such as writing, communication and ethical skills. It covers key mobile apps technologies from two major platforms: Android and iOS (Apple's mobile operating system). In addition to technology-specific skills, you will also learn cross-platform development skills through the latest HTML5, backend cloud computing services (e.g. maps) and frontend JavaScript frameworks.

### Career opportunities

As the uptake of broadband and mobile devices increases, industries of all types are developing new mobile apps to satisfy the needs of its customers. Developments in mobile devices are also shaping the way businesses and their employees work. Collectively, these consumer-to-consumer, business-to-consumer and business-to-business needs are driving a demand for mobile apps developers.

Graduates of this course may find career opportunities in roles such as iOS developer, iPhone application developer, Android developer, iOS web developer, mobile developer, mobile applications architect, mobile deployment officers and mobile applications programmer.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The course comprises a total of 24 credit points, which must include the following:

- 16 credit points of core (prescribed) units
- 8 credit points of elective units
- Completion of SIT010 Safety Induction Program (0 credit-point compulsory unit)
- Level 1 – maximum of 10 credit points
- Level 2 and 3 – minimum of 14 credit points over both levels
- Level 3 – minimum of 6 credit points of which at least 4 must be SIT Course Grouped units

## COURSE STRUCTURE

### Level 1

#### Trimester 1

SIT101	Fundamentals of Information Technology (B, G, X)
SIT105	Critical Thinking and Problem Solving (B, G, X)
SIT120	Introduction to Apps Design (B)
SIT010	Safety Induction Program (B, G, X) *

*Plus one elective unit*

#### Trimester 2

SIT102	Introduction to Programming (B, G, X)
SIT103	Introduction to Database Design (B, G, X)
SIT104	Introduction to Web Development (B, G, X)

SIT202	Computer Networks (B, G, X)
SIT203	Web Programming (B, G, X)
SIT207	Android Programming ^

*Plus one elective unit*

### Level 3

#### Trimester 1

SIT374	Project Management (B, G, X)
SIT305	Advanced Apps Development #

*Plus two elective units*

#### Trimester 2

SIT302	Project (B, G, X)
SIT313	Mobile Computing (B, X)

*Plus two elective units*

*\*Note: SIT010 is a 0 credit point safety induction unit.*

*^ Not available until 2014*

*# Not available until 2015*

*#Recommended elective units:*

SIT151	Game Fundamentals (B, G, X)
SIT153	Introduction to Game Programming (B, G, X)
SIT162	Interactive Media Systems (B, X)
SIT182	Introduction to Computer Security (B, G, X)
SIT322	Distributed Systems (B, G, X)
SIT323	Practical Software Development (B, G, X)

*# Recommended elective units may have their individual prerequisites that students must satisfy through either completing the units within the course and/or by undertaking additional elective units.*

# Bachelor of Architectural Technology

<b>AWARD GRANTED</b>	Bachelor of Architectural Technology
<b>CAMPUS</b>	The Gordon – East Geelong Campus/Deakin University – Geelong Waterfront Campus
<b>DURATION</b>	3 years full-time or part-time equivalent
<b>DEAKIN COURSE CODE</b>	S304

*(Students commence this course at The Gordon in East Geelong and then complete the requirements of the course at Deakin University's Geelong Waterfront Campus)*

## COURSE OVERVIEW

The Bachelor of Architectural Technology is a unique offering from Deakin University's School of Architecture and Built Environment and The Gordon's Advanced Design and Building department.

The course is designed to provide you with practical skills as well as theoretical knowledge. Your studies at The Gordon will provide you with a combination of theory and hands-on skills, including field trips and your final year at Deakin will enhance your studies with a focus on theoretical learning. This blend of knowledge will help you, as a graduate, play a pivotal role in the construction phase of project delivery in collaboration with other professional disciplines in the built environment sector.

As a graduate of the Bachelor of Architectural Technology, you will be a professionally qualified architectural technologist. You will have developed diverse and practical skills, giving you the capability to be involved in commercial, industrial or domestic projects covering the full scope of construction, from new work, renovations and alterations to fit out, refurbishment and retrofit.

This is a 24-credit-point course studied concurrently through Deakin and The Gordon in East Geelong. Ten credit points of university studies are undertaken at Deakin concurrently with the equivalent of 14 credit points at The Gordon. You will commence your first year studies at The Gordon in February. Under normal, full-time progression, second year studies are undertaken concurrently at The Gordon and Deakin, and third year studies are undertaken at Deakin. As the course is delivered by two institutions, start and end dates for study periods will vary. Please expect classes to commence early February 2013.

### Career opportunities

Architectural technology is an expanding field in Australia with an established profile internationally. As a graduate of the Bachelor of Architectural Technology, you may find challenging and exciting career opportunities nationally and overseas in architectural practices, property development companies, domestic and commercial design and construction organisations and allied fields, as well as with industry associations and government authorities.

You could also find career opportunities in research, manufacturing, academia and government ministerial departments.

## COURSE RULES

The course comprises 24 credit points, which must include the following:

- equivalent of 14 credit points from units undertaken at The Gordon's East Geelong Campus;
- equivalent of 10 credit points from units undertaken at Deakin University including:

SRA010	Safety Induction Program (S)
SRM281	Project Management 2 (S)
SRM261	Contract Administration 2 (S)
SRC362	Project Documentation (S)
SRT358	Building Environmental Services (S, X)

SRD264	Architecture Design 2B (S)
SRT351	Construction and Structures 3 (S)
SRR311	Built Environment Research Project (S)

*Plus two level 3 electives*

Note: you must complete the requirements of The Gordon component within years one and two of enrolment while completing 2 credit points of study at Deakin in the second year as an on-campus student. You will complete a further 8 credit points of study as an on-campus student at Deakin in your third year of study.

## COURSE OVERVIEW

The Bachelor of Science (BSc) is available as a single degree course or as a combined degree course with Arts, Commerce, Engineering and Law and Teaching (Secondary). Approved major sequences within the BSc are as follows:

**Biology (B, G)**  
**Biotechnology (G)**  
**Chemistry (B, G)**  
**Earth Science (B)**  
**Environmental Science (B)**  
**Forensic Biology (G)**  
**Information Technology (B, G)**  
**Mathematical Modelling (B, G)**  
**Nanotechnology (G)**  
**Psychology (B, G)**  
**Zoology (G)**

The various science majors may also be taken as part of any other course allowing 8 credit points of elective units.

The Bachelor of Science is also offered as a specialist, single degree course in the areas of Biological Science and Biomedical Science on the Melbourne Burwood Campus. A common course structure applies to the BSc award, but there is variation in the number of specified units required across the specialist areas. Refer to the specialist course structures listed later in this section for the specific requirements.

## COURSE RULES

To be awarded the Bachelor of Science degree, a student must pass 24 credit points, of which 16 must be selected from science course-grouped units as set out below by campus:

### Geelong students

- three compulsory Science Skills units
- completion of SLE010 Laboratory and Fieldwork Safety Induction Program (0-credit-point compulsory unit)
- at least one 8 credit point Science major sequence
- three Professional Practice units
- up to 4 credit points of Industry-based Learning (IBL) (STP221, STP222, STP321, STP322), is optional
- out of the remaining 10 credit points, 8 may be selected from units offered by any area of the University.

### Core Science Skills units

SLE111	Cells and Genes (B, G, W)
SLE131	Principles of Chemistry
SEP122	Physics for the Life Sciences (B, G)

### Professional Practice units

Choose one unit from:

SIT191	Introduction to Statistics (G, X)
SEB121	Engineering Practice (G, X)
SLE251	Research Methods and Data Analysis (B, G, W)
HPS201	Research Methods in Psychology A (B, G, W, X)

Plus

EES101	Communicating Science (B, G)
--------	------------------------------

Plus choose one unit from:

SEB323	Unit description is currently unavailable
SLE335	Industrial Applications of Science (G)

### Melbourne students

- At least one 4 credit point Science minor sequence (2 credit points at level one and 2 credit points at level two)
- completion of SLE010 Laboratory and Fieldwork Safety Induction Program (0-credit-point compulsory unit)
- at least one 8 credit point Science major sequence
- three Professional Practice units
- up to 4 credit points of Industry Based Learning (IBL) (STP221, STP222, STP321, STP322) is optional
- out of the remaining 9 credit points, 8 may be selected from units offered by any area of the University

### Professional Practice units

Choose one unit from:

SLE251	Research Methods and Data Analysis (B, G, W)
SIT191	Introduction to Statistics (G, X)
HPS201	Research Methods in Psychology A (B, G, W, X)

Plus

EES101	Communicating Science (B, G)
and	
SLE352	Community Science Project (B)

### Science Minor Study

Students must complete four units from within one of the Bachelor of Science major sequences, including at least two units from each of levels 1 and 2.

Of the 24 credit points required for the degree, up to 10 credit points may be taken at level 1, at least 14 credit points must be taken over levels 2 and 3, and there must be at least 6 credit points at level 3 of which at least 4 must be in science course-grouped units.

Units that count towards the science course-grouped units are based on the Bachelor of Science major sequences and Professional Practice units. In summary, all units commencing with the following codes are science course-grouped: SBB, SBC, SBF, SBS, SEK, SEP, SIT, SQA, SQB, SQE, SQP, STP and HPS; and the units SHD201/SHD301. Students should seek advice from their enrolment officer for specific details.

The course structure offers students the flexibility to articulate into a combined Bachelor of Science course, such as the Bachelor of Teaching (Science)/Bachelor of Science at Melbourne after the first year of the course.

The Professional Practice stream, plus the optional industry-based learning placement allows students to gain valuable work experience, giving them the opportunity to apply and consolidate knowledge

gained in their course, experience workplace culture and workplace practices, explore career options and develop a professional network.

### Major sequences

Biology (B, G)  
 Biological Chemistry (B)  
 Biotechnology (G)  
 Chemistry (G)

 Nanotechnology (G)  
 Psychology (B, G)  
 Zoology (G)

The various science majors may also be taken as part of any other course allowing 8 credit points of elective units.

### Details of major sequences

#### Biology (B, G) - unit set code MJ-S000008

There are a broad range of biology units available, which allow students to focus on one or more of the following areas: animal/plant biology, physiology/cell biology, or biochemistry/molecular biology.

#### Level 1

SLE111 Cells and Genes (B, G, W)  
 SLE132 Biology: Form and Function (B, G)  
 SLE010 Laboratory and Fieldwork Safety Induction Program (B, G, W)

#### Level 2

Minimum of two units from:  
 SBB2-coded units  
 SQB2-coded units\*

#### Level 3

Minimum of two units from:  
 SBB3-coded units  
 SQB3-coded units\*  
 SLE311 Chemical Hazards (ONLINE)  
 SLE312 Toxicology (ONLINE)  
 SLE314 Research Project (B, G, W)

\*Students may complete a maximum of two SQB units as part of the 8 credit point Biology major sequence. Students are required to complete a minimum total of six units from levels 2 and 3 within the major which may include a maximum of 2 SQB units at levels 2 and 3. Prerequisites apply.

#### Biological Chemistry (B) - unit set code MJ-SU00012

The Biological Chemistry major provides the fundamental language of chemistry and chemistry arithmetic essential for students wishing to understand the more chemically oriented facets of modern biology.

**Level 1**

SLE131	Principles of Chemistry
SLE152	Chemistry of Life
SLE010	Laboratory and Fieldwork Safety Induction Program (B, G, W)

**Level 2**

SLE212	Biochemistry (B, G)
SLE222	Biochemical Metabolism (B, G)
One of:	
SLE214	Organic Chemistry (B, G)
SBC232	Unit description is currently unavailable *
One of:	
SLE213	Introduction to Spectroscopic Principles (G)
SBC231	Unit description is currently unavailable ^

**Level 3**

SLE311	Chemical Hazards (ONLINE)
SLE312	Toxicology (ONLINE)

\* Not offered in 2011

^ Not offered in 2010 and 2011

**Biotechnology (G) - unit set code MJ-S000026**

The Biotechnology major is designed such that students will learn how to apply aspects of modern genetics and microbiology to areas of increased importance such as the production of medicine, foods and feed stocks, chemicals, diagnosis of disease and the management of wastes.

**Level 1**

SLE152	Chemistry of Life
SLE010	Laboratory and Fieldwork Safety Induction Program (B, G, W)

**Level 2**

SEV216	Unit description is currently unavailable *
SLE212	Biochemistry (B, G)
SLE254	Genetics (B, G, W)
SLE234	Microbiology (B, G)

**Level 3**

SLE321	Molecular Biology Techniques (B, G)
SLE333	Unit description is currently unavailable
SLE335	Industrial Applications of Science (G)

\* Not offered in 2011

**Chemistry (G) - unit set code MJ-S000009**

The Chemistry major introduces students to the four major sub-disciplines of chemistry; analytical, inorganic, organic and physical chemistry. Students should note that the following major sequence does not qualify students for professional registration with the Royal Australian Chemical Institute (RACI).

**Level 1**

SLE131	Principles of Chemistry
SLE152	Chemistry of Life
SLE010	Laboratory and Fieldwork Safety Induction Program (B, G, W)

**Level 2**

Choose two or more units from the following: prerequisites apply:

SLE212	Biochemistry (B, G)
SLE222	Biochemical Metabolism (B, G)
SLE213	Introduction to Spectroscopic Principles (G)
SLE214	Organic Chemistry (B, G)
SLE229	Introduction to Separation Science (G)

**Level 3**

Choose two or more units from the following: prerequisites apply:

SLE311	Chemical Hazards (ONLINE)
SLE312	Toxicology (ONLINE)
SLE316	Analytical Chemistry (G)
SLE318	Synthetic and Medicinal Chemistry (G)

*Note: A minimum of six of the above units must be chosen from levels 2 and 3 within the major.*

**Earth Science (B) - unit set code MJ-S000010**

The Earth Science major involves an integrated study of our planet and its environments, both past and present; an understanding of the interacting natural systems that operate on and within our planet; and an examination of the evolution of our planet over the immense perspective of time.

**Level 1**

SLE136	History of Life (B)
SLE102	Physical Geography (B, G)

**Level 2**

SLE231	Hydrology and Water Resources Management (B)
SLE237	Biogeography (B)
SLE239	Introduction to Geographic Information Systems (B)

**Level 3**

SLE395	Palaeobiology (B)
SLE305	Catchment and Coastal Management (B)
SLE342	Risks to Healthy Environments (B)

**Environmental Science (B) - unit set code MJ-S000011**

There are a broad range of Ecology and Environmental Science units available, including areas such as plant and animal conservation, environmental assessment and monitoring, property management planning, natural resource management and land rehabilitation, marine and freshwater biology, integrated pest management, environmental economics, fisheries management and aquaculture. Note that many of the units/areas of study are campus specific.

**Level 1**

Any two level 1 SQA/SQB/SQE-coded units

**Level 2**

Any two level 2 SQA/SQB/SQE-coded units

**Level 3**

Any two level 3 SQA/SQB/SQE-coded units

Plus an additional two level 2 or level 3 SQA/SQB/SQE coded units.

*Note: Prerequisites apply.*

### Forensic Biology (G) - unit set code MJ-S000024

The Forensic Biology major incorporates an integrated study of biology with laboratory techniques, which are of relevance to forensic investigators.

#### Level 1

SLE112	Fundamentals of Forensic Science (G)
SLE132	Biology: Form and Function (B, G)
SLE010	Laboratory and Fieldwork Safety Induction Program (B, G, W)

#### Level 2

SLE211	Principles of Physiology (B, G)
SLE221	Anatomy and Physiology (B, G)
SLE254	Genetics (B, G, W)
SLE208	Forensic Biology (G)

#### Level 3

SLE321	Molecular Biology Techniques (B, G)
SLE312	Toxicology (ONLINE)

*Note: prerequisites apply.*

### Information Technology (B, G, X) - unit set code MJ-S000029

The Information Technology major allows students to gain a thorough grounding in the basic skills of computing, such as computer programming and software engineering. At the same time the program provides theoretical understanding and experience necessary to enable graduates to keep abreast of the rapidly changing field.

#### Level 1

SIT101	Fundamentals of Information Technology (B, G, X)
SIT103	Introduction to Database Design (B, G, X)

#### Level 2

MSC228	Unit description is currently unavailable
SIT202	Computer Networks (B, G, X)

*plus any level 2 SIT-coded unit*

#### Level 3

SIT301	IT Practice (ONLINE)
SIT302	Project (B, G, X)

*plus any level 3 SIT-coded unit*

### Mathematical Modelling (B, G\*, X) - unit set code MJ-S000007

The Mathematical Modelling major study may be included in any undergraduate degree which allows 8 credit points to be undertaken outside of the specified degree. A Mathematical Modelling major can be studied independently in the Bachelor of Arts or Bachelor of Science.

#### Level 1

SIT192	Discrete Mathematics (B, G, X)
SIT194	Introduction to Mathematical Modelling (B, G, X)

#### Level 2

SIT281	Cryptography (B, G, X)
SIT291	Mathematical Methods for Information Modelling (B, X)
SIT292	Linear Algebra and Applications to Data Communications (B, X)

**Level 3**

- SIT302 Project (B, G, X)  
 SIT392 Public-Key Cryptography (B, X)  
 SIT399 Advanced Topics in Mathematics (B, X)

\* Note: Students at Geelong Waurin Ponds Campus will need to take some units in off-campus mode.

**Multimedia Technology (B) - unit set code MJ-S000048**

Multimedia technology is a growing area of technology that deals with designing, authoring, communicating and using multimedia information.

**Level 1**

- SIT161 Principles of Interactive Media (B)  
 SIT162 Interactive Media Systems (B, X)

**Level 2**

- SIT253 Audio and Visual Game Elements (B, G, X)  
 SIT263 Interface Design (B, X)

**Level 3**

- SIT361 Multimedia Systems and Technology (B)  
 SIT362 Advances in Interactive Media  
 SIT363 Authoring of Interactive Media (B)  
 SIT364 Multimedia Delivery Systems (B)

**Nanotechnology (G) - unit set code MJ-S000027**

Nanotechnology is an emerging science that involves manipulating molecules like tiny 'building blocks' to develop new materials. The science will change the way we live, having an enormous impact on medicine, health, electronics, new materials and the environment. Students gain a fundamental understanding of materials science, chemistry and biology in the context of nanoscale applications. The focus is on problem-solving and manipulating molecules to help design new products.

**Level 1**

- SEK101 Unit description is currently unavailable  
 SEM111 Engineering Materials 1 (G, X)  
 SLE010 Laboratory and Fieldwork Safety Induction Program (B, G, W)

**Level 2**

- SEK211 Unit description is currently unavailable  
 SEK212 Unit description is currently unavailable  
 SEK203 Unit description is currently unavailable

**Level 3**

- SEK301 Unit description is currently unavailable  
 SEK302 Unit description is currently unavailable  
 SEK320 Unit description is currently unavailable

**Psychology (B, G) - unit set code MJ-SH00008**

Students enrolled in the Bachelor of Science degree may undertake an 8 credit-point major sequence in psychology offered by the Faculty of Health. For details of the Psychology major sequence, please refer to H300 Bachelor of Health Sciences.

**Zoology (G) - unit set code MJ-S000025**

Students taking this major will study the biology of animals from a number of aspects ranging from an understanding of how animals work, their evolution and their relationship with the environment.

**Level 1**

SLE111	Cells and Genes (B, G, W)
SLE132	Biology: Form and Function (B, G)
SLE010	Laboratory and Fieldwork Safety Induction Program (B, G, W)

**Level 2**

SLE204	Animal Diversity (B, G)
SLE254	Genetics (B, G, W)
SLE263	Marine and Coastal Ecosystems (G, W)

**Level 3**

SLE315	Comparative Animal Physiology (W, ONLINE)
SLE397	Sensory Neurobiology and Behaviour (G)
SLE370	Evolution (B, X)

## COURSE OVERVIEW

Deakin's Bachelor of Science allows you to start with a broad program then specialise as you progress through the course, developing your interests and career aspirations.

Science at Deakin is not just about laboratory work, but prepares you for a range of real-life settings in which today's science graduates work. You will gain experience through practical programs undertaken in modern teaching laboratories.

The course is available as a single degree course or as a combined degree course with Arts, Commerce, Engineering, Law and Teaching (Science). Approved major sequences within the Bachelor of Science include Biology, Biological Chemistry, Chemistry, Environmental Science, Mathematical Modelling and Zoology. See below for which major sequences are offered at which campus.

As part of the course you will complete a Laboratory Safety and Fieldwork Induction Program, as well as Professional Practice/Science Skills units. The Professional Practice stream, plus an optional Industry-Based Learning placement, will allow you to gain valuable work experience, giving you the opportunity to apply and consolidate what you are learning in your course, as well as experience workplace culture and workplace practices, explore career options and develop a professional network.

## CAREER OPPORTUNITIES

Graduates of this course may find career opportunities in government institutions, in roles such as quality assurance, occupational health and safety, research, planning, management or marketing; science related industries, working in pharmaceutical production or pharmaceutical sales; biomedical science areas such as research or hospital and laboratory science; quality assurance in analytical and diagnostic laboratories; the food industry in quality control; environment and natural resources, teaching, information technology, mathematics or science journalism to name a few.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The course comprises a total of 24 credit points, which must include the following:

- at least 16 credit points from science course grouped units (which includes all core and optional core units, all units within the approved science majors)
- 7 core science units
- At least one 8 credit point approved Science major sequence
- Completion of SLE010 Laboratory and Fieldwork Safety Induction Program (0 credit-point compulsory unit)
- Level 1 – up to 10 credit points

- Level 3 - at least 6 credit points (at least 4 must be Science course grouped)
- Up to 8 cp of electives may be selected from units offered by any area of the University

 SLE372 Evolutionary Ecology (G)

**Biological Chemistry (B, G) - unit set code MJ-SU00012**

The biological chemistry major sequence provides the fundamental language of chemistry and chemistry arithmetic for students wishing to understand the more chemically-oriented facets of modern biology.

Students must complete 8 units from the following (must include a minimum of 2 credit points at level 2 and a minimum of 2 credit points at level 3):

SLE155 Chemistry for the Professional Sciences (B, G)  
 SLE210 Chemistry the Enabling Science  
 SLE212 Biochemistry (B, G)  
 SLE214 Organic Chemistry (B, G)  
 SLE222 Biochemical Metabolism (B, G)  
 SLE213 Introduction to Spectroscopic Principles (G)  
 SLE235 Chemical Systems \*  
 SLE311 Chemical Hazards (ONLINE)

SLE312	Toxicology (ONLINE)
SLE344	Chemistry Research Project (B, G, W) ^

\* SLE235 is offered in Trimester 3 in alternate years (even numbered years)

^ Students would normally be expected to have an approved academic standard of distinction average in level 2 chemistry studies. Please contact your Course Advisor prior to enrolling in this unit.

### Chemistry (G) - unit set code MJ-S000009

This major sequence provides an introduction to the synthesis, separation, detection and measurement of chemical substances, their properties and reactions.

SLE155	Chemistry for the Professional Sciences (B, G)
SLE210	Chemistry the Enabling Science
SLE213	Introduction to Spectroscopic Principles (G)
SLE214	Organic Chemistry (B, G)
SLE229	Introduction to Separation Science (G)

Plus at least 3 from the following list:

SLE212	Biochemistry (B, G)
SLE235	Chemical Systems *
SLE316	Analytical Chemistry (G)
SLE318	Synthetic and Medicinal Chemistry (G)

Either:

SLE311	Chemical Hazards (ONLINE) or
SLE312	Toxicology (ONLINE)

\* SLE235 is offered in Trimester 3 in alternate years (even numbered years)

### Environmental Science (B) - unit set code MJ-S000011

This major sequence focuses on the technical science aspects of environmental science, and aims to provide an even balance between environmental studies on the geosphere, hydrosphere, atmosphere and biosphere.

SLE103	Ecology and the Environment (B, G, W)
SLE102	Physical Geography (B, G)
SLE202	Landscape Evolution (B)
SHD301	Creating Sustainable Futures (B)

One of:

SLE237	Biogeography (B) or
SLE231	Hydrology and Water Resources Management (B)

One of:

SLE322	Landscape Ecology (B) or
SLE317	Australian Vegetation and Its Management (B)

Plus 2 'restricted elective' units from the following list (at least 1 unit from level 2 or 3):

SLE151	Biodiversity: A Global Perspective (B)
SLE101	Techniques in Environmental Science (B) ^
SLE239	Introduction to Geographic Information Systems (B)
SLE204	Animal Diversity (B, G)
SLE203	Plant Biology (B)

SLE220	Wildlife Ecology (B)
SLE237	Biogeography (B)
SLE231	Hydrology and Water Resources Management (B)
SLE322	Landscape Ecology (B)
SLE317	Australian Vegetation and Its Management (B)
SLE342	Risks to Healthy Environments (B)

^ *recommended elective*

### **Mathematical Modelling (B, G, X) - unit set code MJ-S000007**

Studies in mathematical modelling provide you with a strong critical knowledge base and develops powers of analysis, logical thinking and problem solving, as well as a high level of numerical ability.

SIT192	Discrete Mathematics (B, G, X)
SIT194	Introduction to Mathematical Modelling (B, G, X)
SIT281	Cryptography (B, G, X)
SIT291	Mathematical Methods for Information Modelling (B, X)
SIT292	Linear Algebra and Applications to Data Communications (B, X)
SIT396	Complex Analysis (B, G, X)
SIT392	Public-Key Cryptography (B, X)
SIT399	Advanced Topics in Mathematics (B, X)

### **Zoology (G) - unit set code MJ-S000025**

Study the biology of animals from several aspects ranging from an understanding of how animals function, their evolution and their relationship with the environment.

SLE111	Cells and Genes (B, G, W)
SLE132	Biology: Form and Function (B, G)
SLE204	Animal Diversity (B, G)
SLE254	Genetics (B, G, W)
SLE205	Vertebrate Structure, Function and Evolution (B, G)

## COURSE OVERVIEW

The Bachelor of Biological Science aims to produce high-quality graduates with generic skills, theoretical knowledge and relevant, wide-ranging practical experience in both the laboratory and the field, to gain employment either in the biological field, a related science field or to succeed in further study.

This recently revised course provides the opportunity to study and conduct research projects in zoology, cell and molecular biology, genetics, physiology or ecology to gain real-life experience in your profession. A series of professional practice units will introduce you to a career in biology, while a work placement gives you an insight into laboratory science, field science or an approved alternative. You will also have the opportunity to apply for an Industry Based Learning or Internship placement which will allow you to apply and consolidate knowledge gained in your course, experience workplace culture and workplaces practices, explore career options and develop a professional network.

This course has a first year of foundation units followed by a second year focusing on biodiversity and organismal biology. Using electives from second and third year, you are able to pursue a particular interest in biology either by selecting a major in Zoology or Cell and Molecular Biology, or by tailoring your degree with elective units which you may choose from a range of second and third-year biology units or units from any other faculty within the University.

An honours year is available for high-achieving students upon completion of this degree.

### Career opportunities

Biological scientists are employed in a vast range of areas including those within the general health and medical industry (hospital scientists, analytical and diagnostic laboratory scientists and research scientists), food and agriculture-based industries, animal health, quarantine, wildlife biology, environmental consulting, museums, herbaria and the emerging biotechnology industries.

### Fees and charges

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The course comprises a total of 24 credit points, which must include the following:

- 15 core units (including 1 restricted level 1 unit and 1 Professional Practice unit at level 3)
- 9 elective units
- Completion of SLE010 Laboratory and Fieldwork Safety Induction Program (0 credit-point compulsory unit)
- level 1 - up to 10 credit points

### Cell and Molecular Biology Major: unit set code MJ-S000031

The cell and molecular biology sequence is designed to provide a focused understanding of advanced molecular cell biology, microbiology and human molecular genetics. This sequence will also prepare you to focus and acquire theoretical and practical skills in molecular biology.

Students can use their elective units to obtain a Cell and Molecular Biology Major by completing the following units:

SLE111	Cells and Genes (B, G, W) *
SLE155	Chemistry for the Professional Sciences (B, G)
SLE206	Molecular Cell Biology (B) *
SLE212	Biochemistry (B, G)

## COURSE OVERVIEW

Deakin's Biomedical Science covers the science underpinning medical applications, from basic biology to specific disease processes. Students gain the theoretical foundation and scientific skills to expand and apply their knowledge of human biology and health, with an emphasis on causes, diagnosis and treatment of disease at the molecular, cellular and system levels. The course gives students relevant and wide-ranging practical experience in the laboratory, ensuring students have both theoretical knowledge and practical skills required for a diverse range of careers or further study. The Bachelor of Biomedical Science is a vibrant, relevant and topical program that provides a flexible, innovative and comprehensive course. Our multidisciplinary approach, and a number of electives at all levels, enable students to learn about their chosen fields of study from both scientific and health perspectives.

The course comprises core areas of study in a broad range of topics including anatomy and physiology, biochemistry, biology, cell biology, medical microbiology and immunology, molecular and cell biology, molecular and human genetics and pathophysiology.

Students will also complete a professional practice unit involving an experiential learning component and have the option to apply for an Industry Based Learning placement, which will allow them to apply and consolidate knowledge gained in their course, experience workplace culture and workplaces practices, explore career options and develop a professional network.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The course comprises a total of 24 credit points, which must include the following:

- 12 credit points of core units (you must complete all units);
- 2 credit points of optional core units at level 3 (you must choose the relevant number of units from a prescribed list);
- 3 credit points of restricted electives at level 1 (you must choose the relevant number of elective units from a prescribed list);
- 1 credit point of professional practice at level 3;
- 6 credit points of free electives (you may choose any unit offered in the University, subject to meeting the unit prerequisites, which can be used to undertake a major study in a specialised area (refer to the list of relevant majors below);
- SLE010 Laboratory and Fieldwork Safety Induction Program (0 credit points);
- No more than 10 credit points at level 1;
- At least 6 level 3 units, of which 4 must be course grouped to the Faculty of Science, Engineering and Built Environment.

## MAJOR SEQUENCES

Students have the option of using their elective units to complete a major. Recommended major sequences for students in the Bachelor of Biomedical Science include:

- Cell and Molecular Biology (B)
- Environmental Health (B) (NEW from 2013)
- Infection and Immunity (G) (NEW from 2013)
- Medical Biotechnology (G) (NEW from 2013)

## COURSE OVERVIEW

Deakin's Bachelor of Forensic Science aims to provide formal training in the skills and techniques essential to modern forensic science, including the examination and presentation of scientific evidence.

The course combines studies in biology, chemistry, biochemical and chemical analysis, statistical analysis and molecular biology. You will also undertake studies in criminology, including the examination and interpretation of evidence and courtroom skills.

The course has extensive industry links with local and Australian forensic organisations, and features guest lecturers and site visits in collaboration with leading forensic organisations.

Graduates may also have the opportunity to go on to further study and enter honours and postgraduate programs.

Students and graduates of this course are eligible to apply for membership of the Australian and New Zealand Forensic Science Society (ANZFSS).

### Career opportunities

As a graduate of the Bachelor of Forensic Science, career opportunities exist in forensics, insurance investigation, risk analysis, research science, in government institutions and in chemical, food and pharmaceutical industries.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

## Details of major sequences

Students must complete a major sequence in either Forensic Biology or Forensic Chemistry on top of the core unit requirements:

### Forensic Biology - unit set code MJ-S000049

The forensic biology major aims to provide you with the specific biological skills that are very important in the forensic science workplace. These biological-based skills complement the generic forensic science attributes developed in the core units of the course. Study in this area may lead to a career based on entomology, human anatomy and DNA based forensic science.

## COURSE OVERVIEW

The Bachelor of Information Technology (Honours) has been designed for high achieving students with an interest in continuing on to a research degree in IT after completing their undergraduate studies. Successful completion of the Bachelor of Information Technology (Honours) will enable you to apply to undertake a PhD in the field. You will be required to maintain a 70% average to progress to the honours year, otherwise you may exit with a Bachelor of Information Technology degree.

The course offers the option to either choose an honours project that is a continuation of your third year capstone project, or do a research project to prepare for postgraduate research, potentially leading to a career in research.

You will be assigned an academic mentor in IT for the duration of your study to guide, enrich and extend your student experience. The course also provides the opportunity to attend research seminars to broaden your knowledge in IT and experience at first-hand the cutting edge IT research happening at Deakin and in the wider research community.

The advanced coursework and research skills gained during the course are attributes highly valued by organisations seeking to employ graduates in consultancy, management, research and academia.

All Bachelor of Information Technology courses at Deakin open the door to a wide range of career opportunities in IT related fields. Students taking the Bachelor of Information Technology (Honours) can gain broad expertise in the field or develop specialised skills by undertaking a major sequence in a specified area of IT.

### Equipment requirements

Students must have access to a suitable computer and a network connection. Information about the hardware and software requirements may be obtained from the School of Information Technology's website [www.deakin.edu.au/it](http://www.deakin.edu.au/it), or by telephone on 03 5227 2536.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The course comprises a total of 32 credit points, which must include the following:

- 8 core IT units
- minimum of 16 IT Course Grouped Units
- completion of SIT010 Safety Induction Program (0 credit-point compulsory unit)
- at least one IT Major Sequence
- up to 10 electives (which may be used to complete a second major study)

- level 1 - maximum of 10 credit points
- levels 2 and 3 - minimum of 14 credit points over both levels
- level 3 - minimum of 6 credit points of which at least 4 must be a SIT/course-grouped units PLUS
- 8 credit points consisting of Honours (research) units

Students will be required to maintain a 70% average to remain in the course – those who fail to meet this academic hurdle will be transferred to the generic Bachelor of Information Technology degree.

## Major sequences

Students must complete at least one major from the following areas:

Computer Science (B, G, X)  
 Game Development (B, G, X)  
 Interactive Media Design (B)  
 Networking (B, G)  
 Security (B, G, X)

## COURSE OVERVIEW

The Bachelor of Information Technology is available as a single degree in the School of Information Technology, and as a combined degree with Engineering and also Business Information Systems.

This course provides a thorough grounding in the basic skills of computing, such as computer programming and software engineering. At the same time the program provides the theoretical understanding and experience necessary to enable graduates to keep abreast of this rapidly changing field. Graduates not only develop a thorough knowledge of the discipline, its theoretical underpinnings and its technical skills, but also develop a body of experience, build useful systems and lead project teams. Through the study of a core set of information technology units common to all Bachelor of Information Technology degrees at Deakin University and the selection of a variety of elective studies (both IT course-grouped and units from other disciplines) students can tailor their studies to their own interests and specific career aspirations. On completion of the Bachelor of Information Technology, graduates will be able to work in a wide range of jobs, including object-oriented and procedural programmer, database and web designer and manager, network manager, component integrator, project manager, consultant, system analyst, multimedia designer, games developer and web programmer.

### Equipment requirements

Students must have access to a suitable computer and a network connection. Information about the hardware and software requirements may be obtained from the School Information Technology's website [www.deakin.edu.au/sebe/it](http://www.deakin.edu.au/sebe/it), or by telephone on 03 9244 6699.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

To be awarded the Bachelor of Information Technology, a student must pass 24 credit points including eight prescribed IT core units plus an additional eight IT course-grouped units. The remaining eight credit points may be selected from units offered by any area of the University.

Students should note that they must also comply with the following rules:

- level 1 - up to 10 credit points
- levels 2 and 3 - at least 14 credit points over both levels
- level 3 - at least 6 credit points of which at least 4 must be in course-grouped units (ie SIT- coded units).

The Bachelor of Information Technology is also offered in the following specialist areas, of which students can choose to undertake a major sequence: computer science and software development, games design and development, IT security and multimedia technology.

### Major sequences

Students may choose to use their electives to major in one of the following areas:

**Computer Science and Software Development**  
**Games Design and Development**  
**IT Security**  
**Multimedia Technology**  
**Web and Mobile Technologies**

## COURSE OVERVIEW

Deakin's Bachelor of Information Technology (Computer Science and Software Development) will provide you with an understanding of the technology on which systems are built, as well as how to develop software systems and applications, and form an environment to acquire skills needed for software development.

The course supports students who wish to master software development and will prepare you for both research and development by providing you with a background of software understanding, software design, programming languages, data structures and databases, operating systems, networks, distributed systems and software engineering.

The course is structured so that the intellectual material will remain current for a number of years despite the fact that computer languages and technology change rapidly. You will learn to develop, implement and maintain information systems, databases and computer networks of considerable size and complexity in commercial, industrial or administrative environments.

### Equipment requirements

Students must have access to a suitable computer and a network connection. Information about the hardware and software requirements may be obtained from the School of Information Technology's website [www.deakin.edu.au/sebe/it](http://www.deakin.edu.au/sebe/it), or by telephone on 03 9244 6699.

# Bachelor of Information Technology (Computer Science and Software Development)

<b>AWARD GRANTED</b>	Bachelor of Information Technology (Computer Science and Software Development)
<b>CAMPUS</b>	Offered at Melbourne Burwood Campus, Off campus
<b>DURATION</b>	3 years full-time or part-time equivalent
<b>CRICOS COURSE CODE</b>	049956K
<b>DEAKIN COURSE CODE</b>	S327

## COURSE OVERVIEW

Deakin's Bachelor of Information Technology (Computer Science and Software Development) will provide you with an understanding of the technology on which systems are built, as well as how to develop software systems and applications, and form an environment to acquire skills needed for software development.

The course supports students who wish to master software development in the industry and reasoning and data environments.

You will learn to develop, implement and maintain information systems, databases and computer networks of considerable size and complexity in commercial, industrial or administrative environments. You will also be well-prepared to pursue research and development with the computer science foundation necessary for the development of new software products such as those found on modern smart phones and smart appliances.

The course is structured so that the intellectual material will remain current for a number of years despite the fact that computer languages and technology change rapidly.

An honours year is available for high-achieving students upon completion of this degree.

### Professional recognition

The Bachelor of Information Technology (Computer Science and Software Development) is professionally accredited with the Australian Computer Society (ACS).

### Career opportunities

You may find employment as a software developer, software analyst, software engineer, database administrator, web designer, network and systems manager, component integrator, tester, system analyst, and IT consultant. You will also be suited to employment in areas of systems programming, software development, data communications, management, maintenance of computer systems and development of information systems.

### Equipment requirements

Students must have access to a suitable computer and a network connection. Information about the hardware and software requirements may be obtained from the School of Information Technology's website [www.deakin.edu.au/sebe/it](http://www.deakin.edu.au/sebe/it), or by telephone 03 9244 6699.

### Fees and charges

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen

- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The course comprises a total of 24 credit points, which must include the following:

- 16 core units
- 8 elective units
- Completion of SIT010 Safety Induction Program (0 credit-point compulsory unit)
- level 1 - maximum of 10 credit points
- levels 2 and 3 - minimum of 14 credit points over both levels
- level 3 - minimum of 6 credit points of which at least 4 must be SIT Course Grouped units

## COURSE OVERVIEW

The Bachelor of Information Technology (Professional Practice) is designed to recognise, reward and nurture high achieving students. The course enables you to experience full-time work in the IT industry as part of your degree.

As part of your course you will spend between six months and a year in Deakin's Industry-Based Learning (IBL) Program. This will be credited as part of your degree.

Depending on the length of the IBL placements undertaken, you can complete the course in a minimum of three years, or for students taking the option to complete a longer industry placement, the course can be completed in four years.

Courses offering work experience in industry are highly sought after by employers and students alike, as they play a critical role in the development of employability skills and job readiness of graduates. IBL gives you the opportunity to experience first-hand the day-to-day work environment as an IT professional, learn about the wide range of career outcomes available to IT graduates and apply what you learn in the classroom to an actual working environment, making you job-ready when you graduate.

Further opportunities for professional development, in the form of practical workshops and networking events, will be offered to you throughout the course to maximise your career outcomes. You will be assigned an academic mentor from the School of Information Technology for the duration of the course to enrich and extend the student experience.

You will be required to maintain a 70% average to remain in the course, otherwise may exit with a Bachelor of Information Technology degree.

### Equipment requirements

Students must have access to a suitable computer and a network connection. Information about the hardware and software requirements may be obtained from the School of Information Technology's website [www.deakin.edu.au/sebe/it](http://www.deakin.edu.au/sebe/it), or by telephone on 03 9244 6699.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The course comprises a total of 24 credit points, which must include the following:

- 8 core IT units
- minimum of 16 SIT Course Grouped Units
- completion of SIT010 Safety Induction Program (0 credit-point compulsory unit)
- at least one IT Major Sequence
- up to 8 electives (which may be used to complete a second major study)
- level 1 - maximum of 10 credit points
- levels 2 and 3 - minimum of 14 credit points over both levels
- level 3 - minimum of 6 credit points of which at least 4 must be SIT units

### PLUS

a minimum of 2 credit points (6 months) and a maximum of 3 credit points (12 months) in IBL or Internship Units

- IBL unit - STP301 (pre-requisites apply)
- Internship unit - STP351

Students will be required to maintain a 70% average to remain in the course – those who fail to meet this academic hurdle will be transferred to the generic Bachelor of Information Technology degree.

## Major sequences

Students must complete at least one major from the following areas:

**Computer Science (B, G, X)**

**Game Development (B, G, X)**

**Interactive Media Design (B)**

**Networking (B, G)**

**Security (B, G, X)**

**Software Development (B, G, X)**

**Mathematical Modelling (B, G, X)**

## COURSE STRUCTURE

### Core Units

SIT010	Safety Induction Program (B, G, X)
SIT101	Fundamentals of Information Technology (B, G, X)
SIT103	Introduction to Database Design (B, G, X)
SIT104	Introduction to Web Development (B, G, X)
SIT105	Critical Thinking and Problem Solving (B, G, X)
SIT202	Computer Networks (B, G, X)
SIT223	Information Technology Professional Skills (B, G, X)
SIT302	Project (B, G, X)
SIT374	Project Management (B, G, X)

*Note: SIT010 is a 0 credit point safety induction unit.*

Students should consult their course advisor to ensure their course plan meets the course rules detailed above.

## Details of major sequences

### Computer Science - unit set code MJ-S000046

This major sequence focuses on the theory of computing and information technology. The theoretical concepts provide the necessary rigor for software design and problem solving, enhancing students who are interested in possessing strong analytical skills necessary in managerial and consultancy positions.

SIT102	Introduction to Programming (B, G, X)
--------	---------------------------------------

SIT192	Discrete Mathematics (B, G, X)
SIT222	Operating Systems Concepts (B, G, X)
SIT232	Object-Oriented Development (B, G, X)
<i>AND two of:</i>	
SIT322	Distributed Systems (B, G, X)
SIT323	Practical Software Development (B, G, X)
SIT340	Research and Development in Information Technology (B, X)

### Game Development - unit set code MJ-S000042

The game development major sequence provides you with the necessary foundation of skills and knowledge to develop modern computer game software. You will learn how to structure and develop solutions to the complex problems faced by professional game developers, using industry standard programming languages, libraries and development environments to create a range of games and virtual environments.

SIT151	Game Fundamentals (B, G, X)
SIT190	Introductory Mathematical Methods (B, G, X) **
SIT204	Mathematics and Physics for Games (B, G, X)
SIT153	Introduction to Game Programming (B, G, X)
SIT354	Real-Time Graphics and Rendering (B, G, X)
SIT255	Advanced Game Development (B, G, X)
SIT353	Multiplayer and Networked Games (B, G, X)

**\*\*NOTE:** *students who have completed Mathematical Methods 3 and 4 or equivalent may choose to replace SIT190 with an elective unit*

### Interactive Media Design - unit set code MJ-S000043

Combining both technical IT and creative skills, this major cuts across traditional disciplines, allowing you to develop a package of complementary skills that extend the core studies in IT into the design and development of interactive media. You will learn how to design and author multimedia information, create electronic documents, design and manipulate databases and information systems, and develop in-demand interactive media project management skills.

SIT161	Principles of Interactive Media (B)
SIT162	Interactive Media Systems (B, X)
SIT263	Interface Design (B, X)
SIT253	Audio and Visual Game Elements (B, G, X)
SIT361	Multimedia Systems and Technology (B)
SIT363	Authoring of Interactive Media (B)

### Networking - unit set code MJ-S000047

The networking major sequence focuses on the planning, design and management of modern day computer networks. Emphasis is on the provisioning of both local and wide area networks that carry converged data, voice and video traffic. The major sequence incorporates the Cisco Certified Networking Associate (CCNA) curriculum that trains you in the skills needed to construct and maintain network infrastructures to effectively support organisational needs.

SIT182	Introduction to Computer Security (B, G, X)
SIT272	Internet Core and Enterprise Routing (B, G)
SIT203	Web Programming (B, G, X)
SIT382	System Security (B, G, X)
SIT377	Advanced Network Design and Engineering (B, G)
<i>AND One of:</i>	
SIT322	Distributed Systems (B, G, X)
SIT340	Research and Development in Information Technology (B, X)

### Security - unit set code MJ-S000041

This critical aspect of IT is the focus of this major sequence. Emphasis is placed on issues such as computer security, cryptography, system security and security management.

SIT182	Introduction to Computer Security (B, G, X)
SIT192	Discrete Mathematics (B, G, X)
SIT281	Cryptography (B, G, X)
SIT284	I.T. Security Management (B, G, X)
SIT382	System Security (B, G, X)
SIT384	Corporate Computer and Network Security (B, G, X)

*Highly recommended elective unit:*

SIT190	Introductory Mathematical Methods (B, G, X)
--------	---

### Software Development - unit set code MJ-S000044

This major sequence will equip you with the hands-on skills required to implement a piece of software on different types of computing platforms from mobile devices to high performance servers. Graduates will be able to implement complex software, databases and networks in real-world rapid changing environments.

SIT102	Introduction to Programming (B, G, X)
SIT232	Object-Oriented Development (B, G, X)
SIT221	Classes, Libraries and Algorithms (B, G, X)
SIT203	Web Programming (B, G, X)
SIT321	Software Engineering (B, G, X)
SIT323	Practical Software Development (B, G, X)

### Mathematical Modelling (B, G, X) - unit set code MJ-S000007

Studies in mathematics provide you with a strong critical knowledge base and develops powers of analysis, logical thinking and problem solving, as well as a high level of numerical ability. This major sequence offers traditional subjects (calculus, algebra and discrete mathematics) and modern topics (information security and cryptography, operations research). It provides a solid background in the discipline and practical skills learned through applying mathematics in a variety of applications.

SIT192	Discrete Mathematics (B, G, X)
SIT194	Introduction to Mathematical Modelling (B, G, X)
SIT281	Cryptography (B, G, X)
SIT291	Mathematical Methods for Information Modelling (B, X)
SIT292	Linear Algebra and Applications to Data Communications (B, X)
SIT396	Complex Analysis (B, G, X)
SIT392	Public-Key Cryptography (B, X)
SIT399	Advanced Topics in Mathematics (B, X)

## COURSE OVERVIEW

Deakin's Bachelor of Information Technology (Multimedia Technology) will enable you to develop, implement and maintain information systems, databases and computer networks of considerable size and complexity in commercial, industrial or administrative environments.

The course will introduce you to fundamental principles, together with tools and techniques needed to design multimedia information and deploy multimedia systems. The course emphasises state-of-the-art standards and engages in significant hands-on experience with leading multimedia authoring packages. You may also take an elective stream in the area of Media Arts, through the School of Communication and Creative Arts. The course has been devised to provide a creative complement to the information technology-focused units in this course.

### Equipment requirements

Students must have access to a suitable computer and a network connection. Information about the hardware and software requirements may be obtained from the School Information Technology's website [www.deakin.edu.au/sebe/it](http://www.deakin.edu.au/sebe/it), or by telephone on 03 9244 6699.

## COURSE OVERVIEW

This course focuses on enhancing students' hands-on ability to build computer games through developing an understanding and appreciation of concepts in software technology relevant to games, including graphic engines, input devices, system analysis and design, object-oriented programming, game programming, networks, and simulation engines; scientific concepts from computer science and related fields, including game simulation and modelling, graphics, artificial intelligence, real-time rendering, audio/visual systems, and game theory; art and design principles for games, including software engineering, human computer interaction, game production, graphic design, music and sound effects, and games and society.

Graduates of the course can expect to work in a wide range of information technology jobs including game designer, game developer or game programmer, project manager, component integrator, multimedia system designer and developer or consultant.

## COURSE OVERVIEW

Deakin's Games Design and Development course provides you with the skills and knowledge to thrive in this dynamic and fast-growing field.

This course enhances your hands-on ability to design and develop computer games ranging in complexity from small interactive apps, larger PC and console based systems and massive multiplayer systems. Through this course you develop an understanding and appreciation for concepts in game design and software technology relevant to games. Topics include game programming, real-time computer graphics and rendering, artificial intelligence, networked games, audio/visual systems, game simulation and modelling, human computer interaction, game production, graphic design, music and sound effects, game theory, art and design principles for games, system analysis and design, software engineering, object-oriented programming, games and society and scientific concepts from computer science and related fields.

An honours year is available for high-achieving students upon completion of this degree.

### Professional recognition

The Bachelor of Information Technology (Games Design and Development) is professionally accredited with the Australian Computer Society (ACS).

### Career opportunities

You will be qualified to work in a wide range of IT jobs, including game designer, game developer or game programmer, project manager, component integrator, multimedia system designer and developer or consultant.

### Equipment requirements

Students must have access to a suitable computer and a network connection. Information about the hardware and software requirements may be obtained from the School of Information Technology's website [www.deakin.edu.au/sebe/it](http://www.deakin.edu.au/sebe/it), or by telephone 03 9244 6699.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The course comprises a total of 24 credit points, which must include the following:

- 17 core units
- 7 elective units
- Completion of SIT010 Safety Induction Program (0 credit-point compulsory unit)

- level 1 - maximum of 10 credit points
- levels 2 and 3 - minimum of 14 credit points over both levels
- level 3 - minimum of 6 credit points of which at least 4 must be SIT Course Grouped units

## COURSE OVERVIEW

Deakin's Bachelor of Information Technology (IT Security) will provide you with a sound knowledge and understanding of general issues, concepts and practices in IT, particularly in the area of IT security.

You will learn in a leading-edge study environment, and graduate as a qualified IT professional who is eminently employable. You will gain practical and theoretical knowledge in this critical aspect of IT with an emphasis on understanding and assessing the need for IT security in a working environment, knowledge of the security solutions available – what they are and how they work – and understanding the business, ethical and legal implications of risk management. There is also an emphasis on analysis, investigation, problem-solving, development and technical skills related to IT security.

You will also be encouraged to develop generic skills, enabling you to be an effective and efficient employee.

### Equipment requirements

Students must have access to a suitable computer and a network connection. Information about the hardware and software requirements may be obtained from the School of Information Technology's website [www.deakin.edu.au/sebe/it](http://www.deakin.edu.au/sebe/it), or by telephone 03 9244 6699.

## COURSE OVERVIEW

The Bachelor of Information Technology (Web and Mobile Technologies) has been developed in recognition of the need for a stronger emphasis on the distributed nature of information technology; new programming methodologies and paradigms; the need for providing information for all users; and the development of internet and mobile technologies. This course offers a modern and learning-oriented program in information technology, with a particular focus on the selected area of web and mobile technologies, particularly those associated with distributed systems and applications; computer networks; web applications and web services development; building mobile applications; IT, in particular web and mobile use in organisations and computer security.

## COURSE OVERVIEW

The Bachelor of Design (Architecture) comprises cutting edge content from the latest research and is designed with a global perspective. The course places emphasis on real application, allowing you to study architecture from day one.

You will explore architectural ideas, history, philosophy, design and communication as well as building science and technology. The course is designed to meet the needs of students who ultimately intend to complete the Master of Architecture and practise architecture, but alternative units may be taken if you wish to pursue a different career direction.

Some of the units you will study include Graphic and Coded Communication, Building Materials Science, Architecture Design, Computer Aided Modelling and Construction and Structures.

### Professional recognition

This program is accredited (within Australia) by the Australian Institute of Architects, the Architects Registration Board of Victoria and the Architects Accreditation Council of Australia, when followed by successful completion of the Master of Architecture, S700.

## COURSE OVERVIEW

Deakin's Bachelor of Construction Management is offered to students wishing to gain employment in management positions in construction and allied industries in Australia and overseas. The course consists of four years of academic study. You will be provided with an excellent mix of hands-on practice and theory and integrated studies in technology and building management, including building economics and law, project management, building technology, measurement and estimation, quantity surveying, building surveying and building practice. The course develops progressively from the elementary concepts underlying planning and management of building production and technical studies through to the complexities and interrelationships of modern construction practices.

### Professional recognition

This course is professionally accredited by industry. As a graduate of this course you will have completed the academic requirements for membership of the Australian Institute of Building (AIB), the Australian Institute of Quantity Surveyors (AIQS), the Chartered Institute of Building (CIOB) and the Royal Institution of Chartered Surveyors (RICS). It is recognised for practice in over 50 countries, providing a global passport for work in this field in Australia and overseas.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis

- 28 core units
- Completion of SRA010 Safety Induction Program (0-credit-point compulsory unit)
- Level 3 units – at least 6 credit points
- Level 1 units – no more than 10 credit points

The Bachelor of Construction Management may be completed in less than four years by taking selected units in trimester 3, This also provides for greater flexibility in your studies.

The Bachelor of Construction Management may be awarded at pass or honours level. Normally an overall level of academic performance at 60% or greater is required to be eligible for honours.

## COURSE OVERVIEW

In Deakin's Bachelor of Engineering you undertake common subjects in your first year before choosing to specialise in Civil, Mechanical or Mechatronics and Robotics engineering. This format allows you to make a more informed decision and gain a broad base of knowledge in engineering.

The course places great emphasis on the practical application of engineering and scientific principles to produce industry-ready engineers, immediately employable and capable of adapting to an ever-changing future. It is designed to maximise your employment prospects, meeting both your needs and those of the engineering profession. As a graduate of the Bachelor of Engineering you will become a life-long learner capable of building your career upon a solid foundation of knowledge.

You will learn generic skills including entrepreneurship; innovation and leadership; project management; technical report writing and presentation; comprehension and communication; an understanding of the ethical basis of the engineering profession and practice; developing an understanding of contemporary technical and professional issues in the practice of engineering; and an understanding of complex problems and producing innovative solutions beneficial to their organisation and society.

You will also learn specific skills such as a sound, fundamental understanding of the scientific principles underlying technology; understanding the basic principles underlying the management of physical, human and financial resources; acquiring the mathematical and computational skills necessary for the solution of theoretical and practical problems and for meeting future changes in technology; and an understanding of the social, cultural, global and environmental responsibilities of the professional engineer.

The Engineering Scholars Program enables high-achieving students to study Civil, Mechanical or Mechatronics and Robotics sequences with extra opportunities for paid industry internships or research placements and access to an assigned mentor that are not available in other engineering courses. [Click here](#) for more information on the Engineering Scholars Program (S368).

### Articulation and credit transfer

Flexible entry and exit points allow students to upgrade their qualifications and to obtain credit for previous studies/experience. Applicants with appropriate TAFE qualifications or other approved post-secondary studies may apply for credit for prior learning. Credit may be considered for skills obtained in the workforce or by informal means.

### Attendance requirements

The accrediting body, Engineers Australia, has specified that a minimum on-campus attendance

requirement for off-campus students be set at one campus session of two weeks duration for each year of equivalent full-time study. Students will complete this requirement by undertaking the following sequence of units (see unit descriptions for SEB121, SEB322\*, SEB323 and SEJ442\*\* below).

These units include a two-week program which includes presentations by industry professionals, site visits and teamwork activities as well as the opportunity to complete unit practical work requirements.

\* SEB324 will replace SEB322 from 2012

\*\* SEJ446 will replace SEJ442 from 2013

## Collaborative programs

### KDU College

The University has established an alliance with KDU College Malaysia to offer the Bachelor of Engineering to students located in Penang. Information about this program can be obtained from the Faculty of Science, Engineering and Built Environment, telephone 03 5227 2134 or email KDU College [www.kdupg.edu.my](http://www.kdupg.edu.my)

## Combined degrees

The Bachelor of Engineering is also available as a combined degree with commerce, information technology and science.

## Equipment requirements

Off-campus students must have access to a personal computer with internet access and be able to run software in a Windows XP, vista or 7 environment.

Information about the hardware and software requirements may be obtained from the School of Engineering, telephone 03 9244 6699

## Pass and honours degrees

The Bachelor of Engineering may be awarded at pass or honours level.

To be awarded the Bachelor of Engineering with honours:

- students shall normally complete a course of study satisfying the requirements of the degree of Bachelor of Engineering, including an approved major project with a written report assessed by an internal panel; and
- have been awarded a weighted average mark across level 2, 3 and 4 science and engineering units exceeding a minimum value determined by the Faculty Board.

The weighted average mark will be used to determine the grade of honours to be awarded.

## Work experience

Before students will be deemed eligible to graduate they must obtain an aggregate of at least 12 weeks of suitable practical experience during their program. Work experience would normally be gained during the vacation periods. Further details are contained in the unit description for SEP490 Engineering Work Experience. This course rule will apply to students entering the program from 2005. However, all students are encouraged to meet this requirement.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The course comprises a total of 32 credit points, which must include the following:

- 28 core units and 4 elective units (this includes 2 highly recommended 4th year units SET401 and SET402 Advanced Topics 1 and 2)
- general electives can be taken outside the Faculty of Science, Engineering and Built Environment
- completion of SEE010 Safety Induction Program (0 credit-point compulsory unit)
- a maximum of 10 credit points at Level 1
- completion of SEP490 – 12 Week Engineering Work Experience (0 credit points)
- on-campus requirement for professional practice component –off-campus students MUST attend for approximately a two week period in the subjects: SEB121, SEB323, and both on and off campus students MUST attend SEB322 and SEJ442 (combined)

Streams within the Bachelor of Engineering

The first level is mainly common and students enrol into a particular stream and select a major area of study at the end of the first level.

Students complete 28 core units and 4 elective units.

### Civil - unit set code MJ-S000037

Civil Engineering degree gives you the building blocks to design, construct and maintain our community. Learn to plan and build the infrastructure systems that are necessary for our day-to-day life. Civil Engineers are responsible for the design, construction and project management of roads, airports and railways; water supply and sewerage systems; water resources management; and buildings and other infrastructures. This course covers the broad range of civil engineering disciplines including engineering materials, structural engineering, water engineering, geotechnical engineering and transport engineering. Graduates can expect to gain employment in a wide range of organisations such as construction companies, water authorities, local government bodies, public works departments and as consulting engineers.

### Mechanical - unit set code MJ-S000039

Product development and innovation are the key drivers for Australian industry. To meet this need, Deakin's mechanical engineering degree brings together leading computer-aided engineering technologies and advanced materials to provide one of the most relevant mechanical engineering degrees in Australia. The automotive industry, in particular, has been involved in the design of the degree, and graduates can look forward to a high level of employment in this industry and supplier companies, as well as other leading manufacturing and design companies. The degree draws heavily on Deakin's world-class research teams in automotive engineering and advanced materials, with a practical hands-on approach that includes an opportunity to work on the Formula Society of Automotive Engineering (FSAE) race car, designed and built by our degree students. Along the way, students will develop project management, communication and financial management skills, as well as a solid understanding of product and process modelling and designing for sustainability.

# Bachelor of Engineering

<b>AWARD GRANTED</b>	Bachelor of Engineering
<b>CAMPUS</b>	Offered at Geelong Waurm Ponds Campus, Off campus
<b>DURATION</b>	4 years full-time or part-time equivalent
<b>CRICOS COURSE CODE</b>	075868E
<b>DEAKIN COURSE CODE</b>	S367

Please note that as of 2014, S367 Bachelor of Engineering will be revised as follows, please refer to the 2014 Online Handbook:

- S460 Bachelor of Civil Engineering (Honours)\*
- S461 Bachelor of Electrical and Electronics Engineering (Honours)\*
- S462 Bachelor of Mechanical Engineering (Honours)\*
- S463 Bachelor of Mechatronics Engineering (Honours)\*

\* Please note that the courses above are not available to international on campus students, pending CRICOS registration.

## COURSE OVERVIEW

Deakin's Bachelor of Engineering places great emphasis on the practical application of engineering and scientific principles to produce industry-ready engineers, who are immediately employable and capable of adapting to an ever-changing future.

You will undertake common subjects in your first year, providing you with a broad knowledge base, before choosing to specialise in civil, electrical and electronics, mechanical or mechatronics and robotics engineering.

You will learn generic skills including entrepreneurship, innovation and leadership, project management, technical report writing and presentation, and comprehension and communication, as well as develop an understanding of the ethical basis of the engineering profession and practice, contemporary technical and professional issues in the practice of engineering, and complex problems and producing innovative solutions beneficial to an organisation and society.

You will also gain a sound, fundamental understanding of the scientific principles underlying technology; learn the basic principles underlying the management of physical, human and financial resources; acquire the mathematical and computational skills necessary for solving theoretical and practical problems and for meeting future changes in technology; and gain an understanding of the social, cultural, global and environmental responsibilities of the professional engineer.

An Engineering Scholars Program is available to students who achieve an ATAR of 80 and above, all of the sequences in the Bachelor of Engineering with extra opportunities for paid industry internships or research placements and mentoring from our world-class researchers or professional engineers working in industry. The Engineering Scholars Program does not include a paid scholarship; however, students are strongly encouraged to apply for scholarships.

### Professional recognition

Deakin's Bachelor of Engineering is accredited by Engineers Australia, which gives the degree international recognition, allowing graduates to practise as professional engineers in many countries around the world.

### Articulation and credit transfer

Flexible entry and exit points allow students to upgrade their qualifications and to obtain credit for previous studies/experience. Applicants with appropriate TAFE qualifications or other approved post-secondary studies may apply for credit for prior learning. Credit may be considered for skills obtained in the workforce or by informal means.

### Attendance requirements

In order to satisfy course accreditation requirements, as specified and administered by Engineers Australia, all off-campus enrolled students are required to participate in on-campus learning activities equivalent to a minimum duration of one full academic week for every trimester of effective full time study in order to ensure that graduates possess and have demonstrated the minimum necessary knowledge and skill base, engineering application abilities, and professional skills, values and attitudes at successful completion of the course to be sufficiently prepared to enter professional engineering practice.

Off-campus enrolled students are therefore required to attend on-campus conducted activities for all units in the course (with the exception of units SEE010 and SEP490) during the corresponding Engineering Practice Week in a trimester. Engineering Practice Week is conducted in week 9 of each trimester. Attendance at on-campus activities is compulsory and failure to attend will result in a fail grade being awarded for the respective affected unit(s) for that particular trimester.

### Combined courses

The Bachelor of Engineering is also available as a combined courses with commerce, information technology and science.

### Equipment requirements

Off-campus students must have access to a personal computer with internet access and be able to run software in a Windows XP, vista or 7 environment.

Information about the hardware and software requirements may be obtained from the School of Engineering, telephone 03 9244 6699.

### Engineering professional practice sequence

A series of professional practice units have been introduced as core requirements of the Bachelor of Engineering. These four units (one at each year level) are intended to enable students to increase their awareness of various generic engineering, technological and professional practice skills, and how those skills are applied in the workplace. There will be an emphasis on group activities and assessment and a focus on the 'real' world.

### Pass and honours degrees

The Bachelor of Engineering may be awarded at pass or honours level.

To be awarded the Bachelor of Engineering with honours:

- students shall normally complete a course of study satisfying the requirements of the degree of Bachelor of Engineering, including an approved major project with a written report assessed by an internal panel; and
- have been awarded a weighted average mark across level 2, 3 and 4 science and engineering units exceeding a minimum value determined by the Faculty Board.  
The weighted average mark will be used to determine the grade of honours to be awarded.

### Work experience

Before students will be deemed eligible to graduate they must obtain an aggregate of at least 12 weeks of suitable practical experience during their program. Work experience would normally be gained during the vacation periods. Further details are contained in the unit description for SEP490 Engineering Work Experience.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The course comprises a total of 32 credit points, which must include the following:

- 30 core units and 2 Engineering elective units (this includes 2 highly recommended 4th year units SET401 and SET402 Advanced Topics 1 and 2)
- completion of SEE010 Safety Induction Program (0 credit-point compulsory unit)
- a maximum of 10 credit points at Level 1
- completion of SEP490 – 12 Week Engineering Work Experience (0 credit points)
- on-campus requirement for professional practice component –off-campus students MUST attend for approximately a two week period in the subjects: SEB121, SEB223, and both on and off campus students MUST attend SEB324 and SEJ446 (combined)

Electrical and electronic engineers are responsible for the design, construction, protection, and project management of power generation, distribution, transmission, scheduling and usage, automation and control.

This program covers the broad areas of electrical and electronic engineering disciplines including renewable electrical power generation, smart distribution, urban, industrial, rural and regional power usage, the role of energy production and efficiency in climate change. This course has been designed to attract students who can be trained to fulfil the shortage of electrical and electronic engineers. It also is designed to encourage responsible use of electrical power in a changing climate. Students learn and practice on industry standard tools in world class facilities. The program also has strong links with the electrical and renewable energy engineering industry providing students a true professional engineering practice.

## COURSE OVERVIEW

The Bachelor of Engineering (Engineering Scholars Program) is available to students who have achieved an ATAR score of 80.00 (or equivalent). It is designed to extend high-achieving students by providing them with opportunities to work with Deakin's leading researchers and industry partners on cutting-edge projects. Students will be assigned a mentor and have additional opportunities for paid industry internships or research placements.

In Deakin's Bachelor of Engineering you undertake common subjects in your first year before choosing to specialise in Civil, Electrical and Electronics, Mechanical or Mechatronics and Robotics engineering. This format allows you to make a more informed decision and gain a broad base of knowledge in engineering.

The course places great emphasis on the practical application of engineering and scientific principles to produce industry-ready engineers, immediately employable and capable of adapting to an ever-changing future. It is designed to maximise your employment prospects, meeting both your needs and those of the engineering profession. As a graduate of the Bachelor of Engineering you will become a life-long learner capable of building your career upon a solid foundation of knowledge.

You will learn generic skills including comprehension and communication; technical report writing and presentation; project management; entrepreneurship; innovation and leadership; an understanding of the ethical basis of the engineering profession and practice; developing an understanding of contemporary technical and professional issues in the practice of engineering; and an understanding of complex problems and producing innovative solutions beneficial to their organisation and society.

You will also learn specific skills such as a sound, fundamental understanding of the scientific principles underlying technology; understanding the basic principles underlying the management of physical, human and financial resources; acquiring the mathematical and computational skills necessary for the solution of theoretical and practical problems and for meeting future changes in technology; and an understanding of the social, cultural, global and environmental responsibilities of the professional engineer.

## COURSE OVERVIEW

Deakin's Bachelor of Zoology and Animal Science provides students with a broad understanding of the current field of zoology, with an emphasis on exposure to the latest cutting-edge research and the development of a range of practical and evidence-based decision-making skills. As a graduate you may find career opportunities in a range of areas including zoological research, environmental monitoring and management, wildlife biology, private environmental consulting, government quarantine, museums, and universities. Successful completion of the course may also lead to opportunities for further study including postgraduate research training both in Australia and overseas.

During the course you will learn about the diversity, ecology, behaviour, physiology, biochemistry, genetics and evolutionary biology of animals from amoeba through to zebra. This learning will be complemented by a number of practical and field based learning experiences. The potential effects that environmental change may have on the evolution, genetics, disease and physiology of animals is an important part of the course; environmental change will affect all areas of zoology. The social and economic impact that human activity has on animals and their ecosystems and vice versa will also be highlighted. The course has a strong focus on Australian fauna and its unique importance in the global environment and is underpinned by the latest research in zoology.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The course comprises a total of 24 credit points, which must include the following:

- 16 credit points of core (prescribed) units
- 8 credit points of electives (which can be taken from any area of the University, or can be used to specialise in another area)
- SLE010 Laboratory and Fieldwork Safety Induction Program (0 credit points)
- No more than 10 credit points at level 1
- At least 6 level 3 units, of which 4 must be course grouped to the Faculty of Science, Engineering and Built Environment units.

## COURSE OVERVIEW

The Bachelor of Environmental Science (Freshwater Biology and Management) is a course of study designed to provide theoretical and practical expertise in a range of biological, ecological and environmental processes and issues in the freshwater environment. The Bachelor of Environmental Science (Freshwater Biology and Management) is designed to enable graduates to contribute in a professional capacity to the study and management of waterways in Australia and overseas. The objectives and general philosophy of the course are to provide knowledge, understanding and skills in the interdisciplinary study of the interactions of freshwater organisms with their living and non-living environments; the influence of biotic, physical and chemical processes on the dynamics of freshwater ecosystems; consideration of the impacts of humans on, and management of, the freshwater environment and its resources. This unique course is delivered in a novel way to ensure that students are provided with an undergraduate experience that is exciting and provides marketable skills. The course includes hands-on work, field-based practical experiences, and training in high demand professional skills in a variety of freshwater habitats in western Victoria.

Students who do well in their Bachelor of Environmental Science (Freshwater Biology and Management) studies may apply to undertake a fourth (honours) year. Honours courses lead to the postgraduate research degrees of Master of Science and Doctor of Philosophy.

### Course expenses

In addition to student contribution fees, students may be required to meet their own expenses in connection with food and accommodation while on fieldwork.

## COURSE OVERVIEW

Deakin's Bachelor of Environmental Science (Wildlife and Conservation Biology) was the first course to be offered in Victoria with a major focus on the biology of wildlife and conservation.

Content focuses on 'real-world' problem solving and applied solutions to wildlife and conservation issues. The course is designed to provide theoretical and practical expertise in a range of discipline areas such as biodiversity, wildlife ecology, landscape and vegetation management, conservation, animal biology and park management.

The course is designed to enable graduates to contribute in a professional capacity to the study and management of wildlife populations both in Australia and overseas. You will be provided with knowledge, understanding and skills required for a career in this vibrant interdisciplinary field.

The hands-on focus of the course features field-based experiences such as extended wildlife field studies trips and regular practical classes. You must complete a professional work placement and are actively encouraged to volunteer in local, regional and international environmental programs. The strong focus on skills, professional development and volunteering will prepare you for an exciting career in the industry.

An honours year is available for high-achieving students upon completion of this degree.

### Career opportunities

As a graduate of the Bachelor of Environmental Science (Wildlife and Conservation Biology) you will be qualified for a career in wildlife conservation and management, and environmental science, and ready to take up challenging roles such as wildlife officer, conservation officer, wildlife manager, park ranger, project officer, research scientist, wildlife biologist, conservation biologist and landscape ecologist.

### Course expenses

In addition to student contribution fees, students may be required to meet their own expenses in connection with food and accommodation while on fieldwork.

## COURSE OVERVIEW

Deakin's Bachelor of Fisheries and Aquaculture is one of only a few courses to offer fisheries and aquaculture as a combined undergraduate program. The course provides you with comprehensive training in fisheries resource management, aquaculture management, and fisheries biology, with a focus on environmental sustainability, particularly renewable resource exploitation and culture of marine and freshwater species. You will learn about fisheries and aquaculture from a global perspective, including topics such as fish markets, nutrition and farm certification processes, the history of Australian fisheries, fisheries methods and impacts of fishing. The course also includes studies in marine and freshwater biodiversity, ecology and behaviour, research methods, Geographic Information Systems (GIS) and remote sensing, and environmental chemistry. Fieldtrips and professional practice activities provide you with the opportunity to gain practical, hands-on skills. The course is focused on developing graduates with strong research and management capabilities with skill sets for a wide variety of work environments. In addition to employment in the fisheries and aquaculture fields, as a graduate you may also find career opportunities in areas such as food and agriculture-based industries, quarantine, wildlife biology, government environmental monitoring, private environmental consulting and museums. Graduating students have the opportunity to undertake further studies in existing honours and PhD programs.

## COURSE OVERVIEW

Deakin's Bachelor of Environmental Science (Environmental Management) will provide you with a comprehensive understanding of the functioning and management of the complex interactions between the biological, physical, social, economic and political worlds.

Environmental managers work with natural, rural and urban systems, and their natural and human communities. They monitor environmental health – to guard against the degrading impacts of overuse and waste disposal – as well as planning activities and developing policy to achieve the best outcome for the environment and our society.

The course focuses on providing you with practical and relevant skills that will be invaluable to your future careers. Fieldwork and industry-based learning are incorporated into all aspects of course delivery. You will experience a combination of hands-on and theoretical learning and have access to state-of-the-art facilities including sustainability assessment tools and a Geographic Information Systems (GIS) laboratory.

Government and industry partners regularly contribute to the course to ensure graduates are job ready. You will have the opportunity to apply for the Department of Sustainability and Environment Cadetship Program, Industry Based Learning scholarships and Earthwatch projects during your degree, and the Department of Sustainability and Environment Graduate Recruitment program on completion of your degree. Once you have gained experience working in the environmental industry, you will be eligible to become a Certified Environmental Practitioner through the Environment Institute of Australia and New Zealand.

## COURSE OVERVIEW

The Bachelor of Environmental Science (Environmental Management and Sustainability) provides you with the skills and knowledge to manage the interaction between people and the environment, and to satisfy society's needs for clean water, fresh air and healthy soils through the sustainable use of natural resources, environments and ecosystem services.

Environmental management is a multidisciplinary field which focuses on finding solutions to the world's most pressing environmental problems. This course will provide you with a comprehensive understanding of the functioning and management of the complex interactions between the biological, physical, social, economic and political worlds.

You can design your own career direction in environmental management by choosing elective units to specialise in areas of study such as wildlife management, coastal and marine management, and environmental sustainability.

There is a focus on providing you with practical and relevant skills that will be invaluable to your future career, with fieldwork and industry-based learning incorporated into all aspects of the course. You will experience a combination of hands-on and theoretical learning and have access to state-of-the-art facilities including sustainability assessment tools and a Geographic Information Systems (GIS) laboratory.

- up to 8 electives can be taken outside the Faculty of Science, Engineering and Built Environment

### Major sequences

Students have the option of using their elective units to complete a major. A recommended major sequence for students in the Bachelor of Environmental Science (Environmental Management and Sustainability):

- Environmental Health (B) (NEW from 2013)

## COURSE STRUCTURE

### Level 1

#### Trimester 1

- SLE103 Ecology and the Environment (B, G, W)  
 SLE121 Environmental Sustainability (B)  
 SLE010 Laboratory and Fieldwork Safety Induction Program (B, G, W) \*

*plus two elective units*

#### Trimester 2

- SLE102 Physical Geography (B, G)  
 SLE101 Techniques in Environmental Science (B)

*Plus two elective units*

\* SLE010 is a compulsory 0-credit point unit

### Level 2

#### Trimester 1

- SLE231 Hydrology and Water Resources Management (B)  
 SLE201 Society and Environment (B)  
 SLE239 Introduction to Geographic Information Systems (B)

*plus one elective unit*

#### Trimester 2

- SLE207 Environmental Planning and Impact Assessment (B)  
 SLE226 Research Methods (B)

*plus two elective units*

**Level 3****Trimester 1**

- SLE301 Professional Practice (B, W)  
 SLE303 Managing Environmental Projects (B)

*plus two elective units*

**Trimester 2**

- SLE308 Policy Instruments for Sustainability (B)  
 SLE305 Catchment and Coastal Management (B)

*plus two elective units.*

Students are required to select at least three of their elective units from the prescribed list below.

- SHD201/SHD301 Creating Sustainable Futures (B)  
 SLE202 Landscape Evolution (B)  
 SLE332 Geographic Information Systems (B)  
 SLE114 Introduction to Parks and Wildlife Conservation (B)  
 SLE215 Ecotourism and Interpretation (B)  
 SLE216 Bushfire Management (B)  
 SLE320 Sustainability and Waste Management (B)  
 SLE328 Oceans, Coasts and Climate Change (X)  
 SLE342 Risks to Healthy Environments (B)  
 SLE317 Australian Vegetation and Its Management (B)  
 SLE322 Landscape Ecology (B)

**Details of major sequences****Environmental Health (B) - unit set code MJ-S000059**

With a focus on healthy environments and healthy people, this major is recommended for students interested in working in public health policy, environmental health and related areas.

- SLE111 Cells and Genes (B, G, W)  
 HBS107 Understanding Health (B, G, W, X)  
 HSN101 Food: Nutrition, Culture and Innovation (B, G, W)  
 SLE234 Microbiology (B, G)

<b>DURATION</b>	3 years full-time or part-time equivalent
<b>CRICOS COURSE CODE</b>	053749E
<b>DEAKIN COURSE CODE</b>	S399

## COURSE OVERVIEW

Deakin's Bachelor of Environmental Science (Marine Biology) will provide you with a unique opportunity to study temperate marine biology, in a marine environment that has some of the highest biological diversity in Australia.

You will undertake fieldwork in natural marine environments on the Victorian coast throughout your course, providing you with an exciting and hands-on program of study.

You can also experience the environment first hand through state-of-the-art, remotely operated underwater vehicles which beam images back to the boat as they are being generated on the sea floor. These images are to bring the marine environment to life, giving you the opportunity to participate in activities like identifying marine plants and animals as the underwater vehicle runs across a reef or along the seabed. The course has a strong ecological focus, linking biological and oceanographic processes in the study of marine environments.

The combination of knowledge and skills gained from this course will give you the capacity as a graduate to contribute significantly to the management of the marine environment in Australia and overseas.

### Course expenses

In addition to student contribution fees, students should be aware that they may be required to meet their own expenses in connection with food and accommodation while on fieldwork.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

The course comprises a total of 24 credit points, which must include the following:

- 20 core units
- 4 elective units
- Completion of SLE010 Laboratory and Fieldwork Safety Induction Program (0 credit-point compulsory unit)
- level 1 - up to 10 credit points
- level 3 - at least 6 credit points of which at least 4 must be science course-grouped

**AWARD GRANTED****CAMPUS** Offered at Geelong Waurin Ponds Campus**DURATION** 1 year full-time or part-time equivalent**DEAKIN COURSE CODE** S402*Intake into this Honours program is from 2016 onwards*

## COURSE OVERVIEW

The Bachelor of Engineering Science (Honours) course is designed for high-achieving students on completion of the Bachelor of Engineering Science.

The course is designed for Bachelor of Engineering Science (Honours) graduates who wish to undertake an honours year to enhance employment prospects or as a pathway to a higher degree by research, use their studies as an excellent foundation to graduate entry program such as medicine, or to undertake an Engineers Australia accredited postgraduate degree for students wanting to become professional engineers.

Normally an overall level of academic performance at 65% or greater in level 3 units within the Bachelor of Engineering Science is required to be eligible to join the honours program.

## COURSE RULES

To be awarded a Bachelor of Engineering Science (Honours), students must complete a total of 8 credit points. (The learning tasks and weightings are based around the division of marks rather than credit points. The consistent marking scheme allows us to more adequately benchmark our students against each other. Students will enrol in four, 2-credit point 'administrative' (discipline based) honours units.)

*Please note that not all specialisms are available in both on and off campus modes. Refer to details below. There will be no intake into this course in 2014.*

## COURSE OVERVIEW

The Graduate Certificate of Applied Science has been designed to increase your breadth and depth of knowledge, and application of skills, in contemporary scientific processes, as well as in a specialisation chosen from the following areas:

- Occupational Hygiene
- Sustainable Water Management
- Environmental Management

The course will offer an integrated suite of units that will cover industrial/environment health, sustainability, environment and/or waste management, chemical hazards and water treatment and management.

Depending on your specialisation, the course aims to provide you with a critical understanding and ethical awareness of issues related to occupational hygiene and environmental and resource management, including an understanding of legislation and the administration of policy in your field.

You will learn the ability to integrate risk, environmental and resource management core concepts into practical applications in your chosen field, and implement appropriate methods of management to a range of situations involving occupational hygiene and natural resource use.

## FEES AND CHARGES

## COURSE OVERVIEW

Deakin University is part of a consortium which has developed a suite of postgraduate programs in water resources management.

The Graduate Certificate of Water Resources Management can be undertaken as an exit point from the Graduate Diploma or Master of Water Resources Management or as a stand-alone qualification. The course will provide students with an opportunity to increase their knowledge and application of skills in the area of water resources management.

For further information about the full range of units offered through the consortium contact <http://www.icewarm.com.au>

### Equipment requirements

Students must have access to the Internet, a microcomputer, modem and printer to provide, via the telephone network, communication with Deakin University's on-campus computers. Prospective students may wish to contact the School of Engineering to obtain information about the hardware and software requirements, telephone 03 9244 6699.

<b>AWARD GRANTED</b>	Graduate Certificate of Construction Management
<b>CAMPUS</b>	Off campus (This course is an exit option only)
<b>DURATION</b>	One year part-time
<b>DEAKIN COURSE CODE</b>	S591

## COURSE OVERVIEW

The Graduate Certificate of Construction Management is made up of 4 credit points of study which blend innovative practice and leading edge research using a case based approach to learning.

Deakin's post-graduate construction management courses provide students with the understanding, knowledge and skills in a variety of roles in quantity surveying and construction management. The course is suitable for personnel involved in the procurement of built facilities as consultants or contractors, as well as people in government departments and commercial organisations who are responsible for the procurement of such facilities.

The courses have been designed to suit the needs of two types of graduates:

- Graduates from a built environment and engineering background who are seeking to up-skill.
- Graduates who have completed an undergraduate degree from an unrelated discipline, wanting to formalise their entry into the construction management profession through an accredited construction management and quantity surveying pathway.

Students will work in a multi-disciplinary context with topics that are at the forefront of the built environment industry, such as: Project Feasibility Evaluation, Cost Planning, Professional Business Practice, Construction Measurement, Commercial Construction Organisation, Design Management, Legal Risk Management, Sustainability, Urban Ecologies and Strategic Construction Procurement.

The courses are designed to provide the specialist skills related to the theoretical, policy, evaluative and research frameworks that underpin the construction professions.

The Graduate Certificate of Construction Management can only be completed as an exit option from the Master of Construction Management.

# Graduate Diploma of Occupational Hygiene

<b>AWARD GRANTED</b>	Graduate Diploma of Occupational Hygiene
<b>CAMPUS</b>	Exit option only
<b>DURATION</b>	Two years part-time
<b>DEAKIN COURSE CODE</b>	S626

*Note: offered to continuing students only. Continuing student should contact their course advisor for further information.*

## COURSE OVERVIEW

The course comprises an articulated program of units at the graduate certificate and graduate diploma level. Occupational hygiene is concerned with the recognition, evaluation and control of environmental factors associated with the workplace that may cause illness, impaired health and wellbeing, or significant discomfort and inefficiency amongst workers or members of the public. Environmental factors can be chemical, physical, biological, ergonomic and psychosocial in nature. Evaluating the influence of these environmental factors on human beings involves measurement of exposure and dose, use of environmental and biological monitoring techniques and assessment of the physiological response to the dose, reference to exposure standards and use of toxicological principles. Suitable control methods are then selected to reduce exposure to any adverse environmental factors.

An occupational hygienist usually holds a degree in chemistry, physics, engineering, biology (with some chemistry) or related physical and biological sciences and through special studies can recognise occupational factors that cause illness or inefficiency and understand their effect on human beings; evaluate the magnitude of these factors and of the response of an exposed population's response to them; and prescribe methods to eliminate, control or reduce the influence of the adverse factors.

## FEES AND CHARGES

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

Students must complete 8 credit points, including four coursework units, project units and a practice unit. The practice unit covers areas of advanced occupational hygiene practice, and commences with a one week period of attendance at the Geelong campus for practical work and project-planning workshops. The project consists of two units (SEN701 and SEN702) of 1 credit point each comprising a single project in an approved area of occupational hygiene. If possible, the project should be carried out at the student's place of employment.

- Graduates who have completed an undergraduate degree from an unrelated discipline, wanting to formalise their entry into the construction management profession through an accredited construction management and quantity surveying pathway.

Students will work in a multi-disciplinary context with topics that are at the forefront of the built environment industry, such as: Project Feasibility Evaluation, Cost Planning, Professional Business Practice, Construction Measurement, Commercial Construction Organisation, Design Management, Legal Risk Management, Sustainability, Urban Ecologies and Strategic Construction Procurement.

The courses are designed to provide the specialist skills related to the theoretical, policy, evaluative and research frameworks that underpin the construction professions.

The Graduate Diploma of Construction Management can only be completed as an exit option from the Master of Construction Management.

## COURSE OVERVIEW

The Master of Urban Design aims to provide a postgraduate pathway that promotes a high standard of skill and knowledge acquisition in developing innovative sustainable design solutions for the urban environment. The course promotes a high level of strategic thinking for implementing effective change management practices and is designed for graduates who wish to practice as an urban designer in order to improve the quality and development of our towns and city scapes. Students will:

- evaluate theory and practice within contemporary international contexts
- critique historical and current practices through inquiry and rigorous analytical methods
- integrate and apply theory and practice-based knowledge and skills within a collaborative design studio.

Opportunities are provided to undertake an authentic case study and to reflect and critique current or proposed practices through a design thesis and work place assessment.

### Career opportunities

Urban design is a trans-discipline profession which sits at the juncture of urban planning, architecture and landscape architecture, and is informed by the dynamic interaction of the social, economic, political, cultural and environmental pressures of the industry.

Graduates may find employment in various fields of the built environment, in the public and private sectors. The program aims to produce professionals who provide leadership, challenge conventional thinking and use theory and critical reflective practice within our complex urban environments.

Graduates will have a developed understanding across a range of disciplines and will be equipped to collaborate on projects in delivering integrated solutions for both the public and private realms. This course has been developed for people who wish to practice as an urban designer in order to improve the quality and development of our towns and city scapes, and will enable students to augment their professional skills in place-making, advanced integrated design, sustainable urban ecologies, and change-management practices.

### Alternate Exits

Graduate Diploma of Urban Design (S602)  
Graduate Certificate of Urban Design (S502)

<b>CAMPUS</b>	Offered at Geelong Waterfront Campus
<b>DURATION</b>	2 years full-time or part-time equivalent
<b>CRICOS COURSE CODE</b>	075364G
<b>DEAKIN COURSE CODE</b>	S703

## COURSE OVERVIEW

Deakin University's Master of Landscape Architecture has been developed for people who want to practise as a landscape architect and who have a passion to improve the quality and development of our towns, cityscapes and regional landscapes.

Focused upon sustainability and its economic, social and environmental underpinnings, the course addresses the creation of quality places in response to current and future environmental and lifestyle challenges, and enables opportunities for you to specialise in project management, public art curatorship and management, cultural heritage, urban design, and change management planning.

Distinguishing characteristics of this course include its engagement with ecology, spirit of place, people, Indigenous thought and urban design to inform and craft places of renewal, stimulation, healing and respect.

This course meets the challenges of an ever-changing urban, regional and rural environment. As a graduate, you will be a practice-rich professional equipped with the skills to successfully deliver and lead in the creation and restoration of landscapes and provide leadership by challenging conventional thinking within complex environments.

The Master of Landscape Architecture has been designed in direct consultation with the Australian Institute of Landscape Architects, potential employers, industry, government and professional representatives to ensure it meets the needs of prospective employers.

### Professional recognition

The Master of Landscape Architecture is accredited by the Australian Institute of Landscape Architects (AILA, [www.aila.org.au](http://www.aila.org.au)). Graduates satisfy the educational requirements for AILA graduate membership as the first step towards applying for professional recognition as an AILA Registered Landscape Architect.

### Career opportunities

As a graduate of Deakin's Master of Landscape Architecture, you may find employment in all fields of landscape architecture and landscape planning in both private practice and government entities.

The Master of Landscape Architecture has been designed in direct consultation with AILA, potential employers, industry, government and professional representatives. As a graduate of the course, you will have a developed understanding across a range of disciplines and will be equipped to collaborate on projects in delivering integrated solutions. Career opportunities for graduates may be found in all fields of landscape architecture and landscape planning, in both the public and private sectors.

## COURSE RULES

To qualify for the Master of Landscape Architecture, students must successfully complete 16 credit points of study, including:

- 11 core units (13 credit points); and
- 3 credit points of electives

## Specialisations

Specialisations are available in the following areas:

- Architecture
- Public Art
- Cultural Heritage
- Project Management
- Planning
- Urban Design

## COURSE STRUCTURE

Students are required to complete 13 credit points of core units from the list below followed by 3 credit points of elective units.

### Core Units

SRA760	Urban Ecologies (S, X)
SRD761	Designing Urban Environments (X)
SRL731	Landscape Narrating and Meaning (S)

# Master of Applied Science

<b>AWARD GRANTED</b>	Master of Applied Science
<b>CAMPUS</b>	Offered at Geelong Waurin Ponds Campus, Off campus
<b>DURATION</b>	1.5 years full-time or part-time equivalent
<b>DEAKIN COURSE CODE</b>	S705

*Please note that not all specialisms are available in both on and off campus modes. Refer to details below.*

*There will be no intake into this course in 2014.*

## COURSE OVERVIEW

The Master of Applied Science has been designed to increase your breadth and depth of knowledge, and application of skills, in contemporary scientific processes, as well as in a specialisation chosen from the following areas:

- Occupational Hygiene
- Sustainable Water Management
- Environmental Management

The course will offer an integrated suite of units that will cover industrial/environment health, sustainability, environment and/or waste management, chemical hazards and water treatment and management.

Depending on your specialisation, the course aims to provide you with a critical understanding and ethical awareness of issues related to occupational hygiene and environmental and resource management, including an understanding of legislation and the administration of policy in your field.

You will learn the ability to integrate risk, environmental and resource management core concepts into practical applications in your chosen field, and implement appropriate methods of management to a range of situations involving occupational hygiene and natural resource use.

The course will also provide a pathway for students who wish to undertake a doctorate degree.

**Professional recognition**

Students seeking professional accreditation from the Australian Institute of Occupational Hygienists (AIOH) via the Occupational Hygiene studies will be required to successfully complete all course-grouped and 2 project based units.

### Alternate Exits

Graduate Certificate of Applied Science (S505)

Graduate Diploma of Occupational Hygiene (S626)

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

To qualify for the award of Master of Applied Science, you must successfully complete 12 credit points including the completion of one of the specialisms below.

## Specialisations

Specialisms are available in the following areas:

- Occupational Hygiene (X) ^
- Sustainable Water Management (G, X)
- Environmental Management (X)

^ requires attendance at a short on-campus intensive study period at the Geelong Waurn Ponds Campus; otherwise it is fully off-campus.

## COURSE OVERVIEW

Deakin University's postgraduate Engineering program has been designed to strengthen, build on and extend your understanding of the engineering principles required to build successful engineering careers in Australia and overseas.

Students will gain technical skills, a positive approach to problem solving and the ability to work as a team to enable them to start work on complex projects immediately.

You can choose from specialisms in Mechanical Engineering, Electronics Engineering or Civil Engineering. The specialisms all provide expertise in areas of high demand for graduates.

The program's focus on practical experience and a supervised research project or industry project provides you with advanced project management skills. This experience equips you with the ability to apply your skills and knowledge to practical, industrially focussed problems.

The Master of Engineering can be undertaken as a stand-alone or exit qualification from the Master of Engineering (Professional) program.

### Equipment requirements

Students must have access to the Internet, a microcomputer, modem and printer to provide, via the telephone network, communication with Deakin University's on-campus computers. Prospective students may wish to contact the School of Engineering to obtain information about the hardware and software requirements, telephone 03 9244 6699.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

To be awarded the degree of Master of Engineering, a student must successfully complete units with a total value of 12 credit points, including the following:

*Two common core units from:*

SEB711 Developing Innovation (G, X)  
 SEN705 Unit description is currently unavailable  
 SIT764 Project Management (B, G, X)

and

A four credit point specialism in one of:

Mechanical Engineering (Product Design and Development)  
 Mechanical Engineering (Automotive Engineering)  
 Electronics Engineering (Automation and Control Systems)  
 Electronics Engineering (Automotive Intelligent Systems)  
 Civil Engineering (Water Engineering)

and

Six elective units at level 7 (across the Faculty/University)

or

SEN701 Professional Project 1 (G, X)

SEN702 Professional Project 2 (G, X)

plus four approved elective units at level 7 (across the Faculty/University).

Note: Units SEN719/SEN720 are optional for those with an average grade of 70% or greater in their first eight units.

<b>DEAKIN COURSE CODE</b>	S751

## COURSE OVERVIEW

Deakin University's postgraduate Engineering program has been designed to strengthen, build on and extend your understanding of the engineering principles required to build successful engineering careers in Australia and overseas.

As a student, you will gain technical skills, a positive approach to problem solving and the ability to work in a team, enabling you to start work on complex projects immediately.

You can choose from specialisms in Mechanical Engineering, Electronics Engineering, Civil Engineering, Water Engineering, Electrical and Renewable Energy Engineering. The specialisms all provide expertise in areas of high demand for graduates.

The program's focus on practical experience and a supervised research project or industry project provides you with advanced project management skills. This experience equips you with the ability to apply your skills and knowledge to practical, industrially focussed problems.

The Master of Engineering (Professional) enables you to partner with industry and form professional networks. You may undertake a trimester of paid industry-based learning and a trimester of an industry-based project.

### Alternative exits

S550.,S750.

### Equipment requirements

Off-campus students must have access to a personal computer with internet access and be able to run software in a Windows XP, vista or 7 environment.

Information about the hardware and software requirements may be obtained from the School of Engineering, telephone 03 9244 6699.

## FEES AND CHARGES

Unit fees can be viewed within individual unit descriptions. You can search for a unit using the Unit Search.

Please be aware:

- Fees are calculated on a per unit basis
- Fees charged will depend on the individual units chosen
- Fees per unit/credit point may increase annually due to rises in the cost of course delivery and services

## COURSE RULES

To be awarded the Master of Engineering (Professional), a student must successfully complete units with a total value of 16 credit points as detailed below.

## COURSE STRUCTURE

Seven core units:

SEB711	Developing Innovation (G, X)
SEB712	Managing Innovation (G, X)
SIT764	Project Management (B, G, X)
SET721	Sustainable Engineering (G, X)
SEN700	Research Methodology (G, X)
SEN719	Engineering Project 1 (G, X) (2cp)
SEN720	Industry Project 2 (2cp)

plus

*A four credit point specialism in one of:*

**Mechanical Engineering**  
**Electronics Engineering**  
**Civil Engineering**  
**Water Engineering**  
**Electrical and Renewable Energy Engineering**

plus

three elective units at level 7 (across the University)

# Master of Water Resources Management

<b>AWARD GRANTED</b>	Master of Water Resources Management
<b>DURATION</b>	1.5 years full-time or part-time equivalent
<b>DEAKIN COURSE CODE</b>	S755

*Note: offered to continuing students only. Continuing student should contact their course advisor for further information. Please also refer to a related course S705 Master of Applied Science*

## COURSE OVERVIEW

Deakin University is part of a consortium which has developed a suite of postgraduate programs in water resources management that encompass the necessary breadth and depth of expertise from five leading Australian universities; Central Queensland University, Deakin University, Flinders University, The University of Adelaide and University of South Australia. Collaboration from industry will also ensure that the programs are relevant, contemporary and leading-edge. For further information about the full range of units offered through the consortium, contact ICE WaRM (external site).

The Master of Water Resources Management is designed to provide students with an opportunity to increase the breadth and depth of their knowledge and application of skills in the area of water resources management (WRM). The multidisciplinary nature of the course addresses the complex, interdisciplinary aspects of managing resources by helping students integrate the biological and physical sciences (which identify and measure problems) with engineering (which defines technological alternatives) and law and the social sciences (which assess needs and potential for institutional response). A student gains breadth in relevant planning and management areas while developing depth in an area of specialty. The Master of Water Resources Management will prepare students for employment as water resources management professionals.

The wide variety of specialised coursework electives and study options enable the creation of a program of study that meets individual needs. The option to undertake an industry project as part of the Masters program has been designed to assist students in becoming professionally aware through quality interaction with industry leaders.

### Equipment requirements

Students must have access to the Internet, a microcomputer, modem and printer to provide, via the telephone network, communication with Deakin University's on-campus computers. Prospective students may wish to contact the School of Engineering to obtain information about the hardware and software requirements, telephone 03 9244 6699.

## COURSE OVERVIEW

The Master of Planning has been designed as an introduction to the challenges of an ever-changing urban, regional and rural environment. The course offers the opportunity of cross-faculty specialisation in six key areas which are central to facilitating strategic change on complex planning issues locally, regionally and globally.

As a graduate of the course, you will be able to grasp the complexity of projects and understand the broad range of participants that need to work together to achieve sound and effective planning outcomes. You will have a developed understanding of planning across a range of disciplines and will be equipped to collaborate on projects and on processes that deliver integrated solutions for both the public and private sectors.

The Master of Planning is relevant if you have a related undergraduate degree or significant professional experience in this field and are looking to up-skill, enhance or broaden your qualifications. It is also suitable if you are seeking a career change and have successfully completed an undergraduate degree in another discipline.

The Healthy Cities specialism can only be completed in the on-campus mode at the Melbourne Burwood Campus.

## COURSE RULES

To qualify for the award of Master of Planning, you must successfully complete 12 credit points from the units listed below.

- 8 core units; and
- 4 credit points of elective units

### Major sequences

Specialisations are available in the following areas:

**Urban Design (S)**

**Urban Change Brokering (X)**

**Healthy Cities (B)**

**Cultural Heritage (X)**

**Public Policy and Governance (X)**

**Environmental Management (X)**

## COURSE OVERVIEW

The Master of Planning (Professional) has been designed to meet the challenges of an ever-changing urban, regional and rural environment and to produce professionally qualified graduates who are analytical, informed and committed to improving the quality of the urban environment. The course offers the opportunity of cross-faculty specialisation in six key areas (Urban Design, Urban Change Brokering, Healthy Cities, Cultural Heritage, Public Policy and Governance and Environmental Management), which are central to facilitating strategic change on complex planning issues locally, regionally and globally.

As a graduate, you will be able to grasp the complexity of projects and understand the broad range of disciplines and fields that need to work together to achieve innovative, sound and effective planning outcomes. You will have a developed understanding of planning across a range of disciplines and will be equipped to collaborate on projects and in processes that deliver integrated solutions for both the public and private sectors.

The Master of Planning (Professional) is relevant if you have a related undergraduate degree or significant professional experience in this field and are looking to up-skill, enhance or broaden your professional qualifications. It is also suitable if you are seeking a career change and have successfully completed an undergraduate degree from another discipline.

### Professional recognition

The Master of Planning (Professional) has professional accreditation from the Planning Institute of Australia (PIA).

### Career opportunities

There is a critical shortage of skilled, qualified and experienced practitioners, especially in rural and regional areas, who are able to plan, design, and manage sustainable social and urban change. Due to the immense change in the planning and design industry, government and professional bodies are increasingly calling for graduate programs which address this complex array of changes in an integrated way.

The Master of Planning (Professional) can provide you with the skills that will enable you to work across diverse sectors of the planning industry, with the potential to find employment in all aspects of the built environment within the public and private sectors.

<b>AWARD GRANTED</b>	Master of Biotechnology (Honours)
<b>CAMPUS</b>	Offered at Geelong Waurin Ponds Campus
<b>DURATION</b>	2 years full-time or part-time equivalent
<b>CRICOS COURSE CODE</b>	075864J
<b>DEAKIN COURSE CODE</b>	S771

## COURSE OVERVIEW

This cutting-edge course provides hands-on experience of the latest techniques in biotechnology research as well as up-to-date bio-processing and production technologies involving mammalian cells, stem cells and other cultures.

Students will gain experience operating cell-culture bioreactors similar to those in industrial-scale production facilities. An important component of this course is that each unit includes industry involvement through guest lecturers who bring an industry perspective of research and commercialisation into the biotechnology environment. Industry involvement will also include on-site visits for some units. The core units in this course cover a wide range of emerging topics in biotechnology and, importantly, business skills.

The Master of Biotechnology (Honours) has a strong industry focus and students undertake 8 credit points in Industry-Linked Research Project units.

Graduates may choose to articulate into a higher degree by research. Alternatively, students may choose to early exit with a Graduate Certificate or Master of Biotechnology.

## FEES AND CHARGES

## COURSE OVERVIEW

Deakin's postgraduate IT courses provide a combination of leading-edge theory and technical knowledge plus hands-on practical experience to prepare you for a successful career as an IT professional in Australia and around the world.

The Master of Information Technology is designed to provide specialised information technology skills by giving you up-to-date knowledge of recent developments in computing technology, as well as covering the technical and theoretical foundations of these topics, giving you the opportunity to apply this knowledge in practice.

The course provides a leading-edge study environment, helping you to become a qualified IT professional with the skills required by employers. As a graduate, you will possess a sound knowledge and understanding of general issues, concepts and practices in IT and a broad knowledge and understanding of the technological aspects of IT. You will also be encouraged to develop a raft of generic skills enabling you to be an effective and efficient IT professional.

Students enrolled in the Master of Information Technology can elect to exit from the program after completion of four units. Students electing to do this will qualify for the Graduate Certificate of Information Technology. Students electing to exit after completion of eight units will qualify for the Graduate Diploma of Information Technology. Students who seek this option will be eligible to seek membership with the Australian Computer Society at the associate level.

### Equipment requirements

Students must have access to a suitable computer and a network connection. Information about hardware and software requirements may be obtained from the School of Information Technology's website [www.deakin.edu.au/sebe/it](http://www.deakin.edu.au/sebe/it) or by telephone 03 9244 6699.

## COURSE RULES

To be awarded the Master of Information Technology, a student must successfully complete units with a total value of 12 credit points (including 2 core units, one 4-credit point specialism and elective units selected from the list of general units).

Students who hold an undergraduate degree in a non-computing field will be required to take a compulsory core of four foundation units: \*SIT771, SIT772, SIT773 and SIT774 in place of electives.

## Specialisations

There are four specialised streams:

**Network Computing**

**Software Development**

**IT Security**

**IT Services**

## COURSE STRUCTURE

Two core project units:

SIT764 Project Management (B, G, X)

SIT782 Practical Project (B, X)

and

*A four credit point specialism in at least one of the following:*

**Network Computing**

**Software Development**

**IT Security**

**IT Services**

and

*The remaining credit points must be selected from SIT7-units as listed under general units.*

*\* All students entering the Master of Information Technology with a non-computing undergraduate degree will be required to undertake the four compulsory foundation units.*

## Foundation units

### Trimester 1

SIT771 Object-Oriented Development (B, X) \*

SIT773 Software Design and Engineering (B, X) \*

### Trimester 2

SIT772 Database and Information Retrieval (B, X) \*

SIT774 Web and Internet Programming (B, X) \*

## General units

SIT701 Internet Core and Enterprise Routing (B)

SIT702 Advanced Network Design and Engineering (B)

SIT703 Advanced Digital Forensics (B, X)

SIT704 Advanced Topics in Digital Security (B, X)

SIT717 Enterprise Business Intelligence (B, X)

SIT725 Advanced Software Engineering (B, X)

SIT735 Communications Network Security (B, X)

SIT737 Service Oriented Architectures and Technologies (B, X)

SIT740 Research and Development in Information Technology (B, X)

SIT751 Java Network Programming (B, X)

SIT763 IT Security Management (B, X)

SIT775 IT Services in Organisations (B, X)

SIT780 eSystems Software Development (B, X)

SIT783 Linux and Open Source Software (B, X)

SIT784 Mobile and Ubiquitous Computing (B, X)

SIT794 Services Management (B, X)

## Details of specialisations

### Network Computing specialism - unit set code SP-S000021

Plan, install and manage both local area networks and wide area networks with a strong focus on network design, routing protocols and switching concepts. The specialism incorporates the CISCO

CCNA curriculum which prepares students for the CCNA industry certification. There is a strong focus on application development for networked systems and supporting user mobility from both application and network perspectives.

SIT701	Internet Core and Enterprise Routing (B)
SIT702	Advanced Network Design and Engineering (B)
SIT751	Java Network Programming (B, X)
SIT784	Mobile and Ubiquitous Computing (B, X)

### Software Development specialism - unit set code SP-S000023

Gain theoretical and practical skills in current trends in the analysis, design and implementation of complex and large-scale software systems. Designed with input from industry leaders, there is a strong focus on the development of high quality software using methodologies, tools, techniques and management principles relevant to industry. There is emphasis on the development of web-based and distributed applications and the use and development of open source software.

SIT725	Advanced Software Engineering (B, X)
SIT751	Java Network Programming (B, X)
SIT780	eSystems Software Development (B, X)
SIT783	Linux and Open Source Software (B, X)

### IT Security specialism - unit set code SP-S000028

Develop skills in securing data, communications and infrastructure as well as investigating, analysing and providing solutions to computer crime. Students gain an understanding of problem solving, communication and technical capabilities related to Information Technology Security and the legal, regulatory and ethical contexts in which these skills are used. The security units provide a solid foundation in areas including information security, internet and network security, access controls and firewalls. In conjunction with work experience, the units prepare students towards certification as a Certified Information Systems Security Professional on completion of the CISSP exam administered by The International Information Systems Security Certification Consortium (ISC)2.

SIT703	Advanced Digital Forensics (B, X)
SIT704	Advanced Topics in Digital Security (B, X)
SIT735	Communications Network Security (B, X)
SIT763	IT Security Management (B, X)

### IT Services specialism - unit set code SP-S000048

Designed in partnership with IBM, to develop specialised information technology skills by providing up-to-date knowledge of recent developments in computing technology and practical IT consulting skills. Learn about cutting-edge work in computer science, operation research, business strategy, management sciences, social and cognitive sciences and the legal sciences to develop the skills needed in a services-led economy.

SIT737	Service Oriented Architectures and Technologies (B, X)
SIT775	IT Services in Organisations (B, X)
SIT794	Services Management (B, X)
SIT717	Enterprise Business Intelligence (B, X)

<b>DURATION</b>	1.5 years full-time or part-time equivalent
<b>CRICOS COURSE CODE</b>	073320B
<b>DEAKIN COURSE CODE</b>	S781

## COURSE OVERVIEW

The Master of Networking and Security is an interdisciplinary course that covers network computing, information systems, cryptography, ubiquitous computing, digital forensics and law.

This course will provide you with the advanced skills needed to successfully design, maintain and manage network infrastructure and applications; to effectively secure the infrastructure, information systems and assets; and to investigate any network and information security breaches through digital forensic techniques.

By undertaking postgraduate study in two related fields that are widely recognised as critical to the successful provision of IT infrastructure, you will be able to effectively support the achievement of strategic business goals.

# Master of Construction Management

<b>AWARD GRANTED</b>	Master of Construction Management
<b>CAMPUS</b>	Offered at Geelong Waterfront Campus, Off campus
<b>DURATION</b>	One year full-time (3 trimesters) or part-time equivalent
<b>CRICOS COURSE CODE</b>	079320J
<b>DEAKIN COURSE CODE</b>	S791

## COURSE OVERVIEW

The Master of Construction Management is made up of 12 credit points of study which blend innovative practice and leading edge research using a case based approach to learning.

The course provides students with the understanding, knowledge and skills in a variety of roles in quantity surveying and construction management and is suitable for personnel involved in the procurement of built facilities as project managers, design managers, construction managers or quantity surveyors as well as people in government departments and commercial organisations who are responsible for the procurement of such facilities.

The course has been designed to suit the needs of two types of graduates:

- Graduates from a built environment and civil engineering background who are seeking to upskill.
- Graduates who have completed an undergraduate degree from an unrelated discipline, wanting to enter the construction management profession through an accredited quantity surveying, project manager, construction management pathway.

The course is designed to provide the specialist skills related to the theoretical, policy, evaluative and research frameworks that underpin the construction professions.

Students will work in a multi-disciplinary context with topics that are at the forefront of the built environment industry, such as: Project Feasibility Evaluation, Cost Planning, Professional Business Practice, Construction Measurement, Commercial Construction Organisation, Design Management, Legal Risk Management, Sustainability, Urban Ecologies and Strategic Construction Procurement.

The course is distinguished by its flexible delivery mode. It brings together a range of built environment disciplines to look at issues of true international significance in terms of procurement and contractual options, project financing and sustainability economics.

The course has been designed so that students have the opportunity to exit with a Graduate Certificate of Construction Management (four credit points) or Graduate Diploma of Construction Management (eight credit points).

### Professional recognition

The course is professionally accredited by the Royal Institution of Chartered Surveyors (RICS).

### Career opportunities

Graduates will find career opportunities in the fields of quantity surveying and construction management with a wide spectrum of employers which include construction companies, quantity surveying, project management and construction consultants. In addition, they will also be eligible for relevant positions in client organisations in the property development arms of government departments and commercial companies such as banks, retailers and manufacturers.

Graduates who wish to do so will be able to pursue their careers overseas in Europe, Asia, the Middle East and North America.

# Master of Construction Management (Professional)

<b>AWARD GRANTED</b>	Master of Construction Management (Professional)
<b>CAMPUS</b>	Offered at Geelong Waterfront Campus, Off campus
<b>DURATION</b>	Two years full-time (5 trimesters) or part-time equivalent
<b>CRICOS COURSE CODE</b>	079321G
<b>DEAKIN COURSE CODE</b>	S792

## COURSE OVERVIEW

The Master of Construction Management (Professional) will extend the specialised construction management skills and attributes obtained in the Master of Construction Management.

The suite of postgraduate construction management courses is designed to provide the specialist skills related to the theoretical, policy, evaluative and research frameworks that underpin the construction professions. The course provides a challenging environment in which you will be encouraged to develop your understanding, knowledge and skills, and inculcated with a sense of being an independent learner in your career.

Students will work in a multi-disciplinary context with topics that are at the forefront of the built environment industry, such as: Project Feasibility Evaluation, Cost Planning, Professional Business Practice, Construction Measurement, Commercial Construction Organisation, Design Management, Legal Risk Management, Sustainability, Urban Ecologies and Strategic Construction Procurement. Career opportunities

As a graduate of this course, you will find career opportunities in the fields of quantity surveying, project management and construction management with a wide range of employers, including construction companies and consultancies. You will also be qualified for relevant positions in client organisations, in the property development arms of government departments, and in commercial companies such as banks, retailers and manufacturers.

Construction management professionals are generally highly mobile and the Royal Institution of Chartered Surveyors (RICS) accreditation provides an immediate, readily recognised international qualification. Graduates who wish to do so will be able to pursue their careers in Europe, Asia, the Middle East and North America. This course is relevant to experienced mid career construction professionals who are seeking to extend themselves into future leadership positions within the industry.

## Master of Architecture (Research)

<b>AWARD GRANTED</b>	Master of Architecture (Research)
<b>CAMPUS</b>	Offered at Geelong Waterfront Campus, Off campus
<b>DURATION</b>	2 years full-time or part-time equivalent
<b>CRICOS COURSE CODE</b>	070375M
<b>DEAKIN COURSE CODE</b>	S800

### COURSE OVERVIEW

The Master of Architecture (Research) permits individual research investigations in the architecture discipline. The course is normally completed in 1 - 2 years of full time study (or equivalent) and will suit graduates seeking to extend and deepen their knowledge on a chosen topic through independent, sustained and academically-supervised research. Students will develop advanced skills in critical thinking, analysis and research methodologies under the supervision of internationally recognised supervisors as they produce a written thesis dissertation of approximately 60,000-80,000 words. The School of Architecture and Built Environment has specialisms in socio-cultural ecology, tectonic ecology and construction ecology themes. Students can choose topics from various areas including architectural history and theory, environmental building science, professional practice and parametric modelling and should contact the School for guidance on developing research proposals when making their applications. Information regarding Scholarships, entry requirements and application procedures can be found on the Deakin website.
