

# CLOUD (ONLINE) LEARNING IN 2015

Melbourne | Geelong | Warrnambool | Cloud (online)

We believe your education shouldn't be limited by geography or time. Our approach to cloud (online) study (previously known as off-campus study) means you can study wherever and whenever it suits you – without the need to be in a particular place at a particular time. Whether you're exploring other countries, waiting for a train or living in another part of Australia – we help you learn where and when it suits you.

At Deakin, cloud (online) study is an integral part of our fabric. It's in our DNA. Founded on a commitment to off-campus teaching in the 1970s, we continue to push the development of this important method of study – by harnessing new and emerging technologies to give you visual, media-rich, interactive learning experiences.

Through this flexibility, and our personal approach to learning, we help you to develop a broader set of life skills, giving you a wider choice of occupations, preparing you for career changes and allowing you to pursue all the advantages that come with tertiary education, including higher salaries.

You can phone us on 1300 DEGREE (1300 334 733), email us at [enquire@deakin.edu.au](mailto:enquire@deakin.edu.au), visit [deakin.edu.au](http://deakin.edu.au) or contact us through social media at [facebook.com/DeakinUniversity](https://www.facebook.com/DeakinUniversity) or [twitter.com/Deakin](https://twitter.com/Deakin).

We look forward to you studying at Deakin!

**The Deakin team**

**University is important, but we know you have a life beyond study. At Deakin you can study most courses full time or part time, at one of our campuses, learning sites or TAFE partner sites or via the cloud to enable you to find the study/life/work balance that suits you best. We're also optimising our use of technology in course delivery, creating even more flexibility in terms of how, when and where you can study.**

### Cloud (online) learning

Cloud (online) learning allows you to learn wherever you are – whether that's in your office, at home, or while travelling and experiencing the world. To make this possible, we provide a learning experience that makes full use of today's technologies, including a broad range of media-rich study materials that you can access 24/7 through Deakin's virtual learning environment – CloudDeakin. Deakin is a leader in cloud (online) learning and understands that this mode is the preferred way to combine study with life, family and work commitments.

### Online resources and tools

CloudDeakin is the University's virtual learning platform environment, which harnesses new and emerging technologies to provide highly visual, media-rich, interactive learning experiences. This adds another dimension to your cloud (online) experience and helps prepare you for success in the workplace by ensuring you are comfortable with current technologies and confident in your own ability to adapt and acquire new skills.

CloudDeakin allows you to connect with teaching staff, mentors, peers and employers, which is key to a positive learning experience.

### CloudDeakin

CloudDeakin incorporates a range of spaces and tools to enliven the learning experience. It provides you with:

- a portfolio tool for storing, organising, reflecting on and sharing your learning with others (using the CloudDeakin ePortfolio)
- a home page leading you to unit sites, where there is a range of tools available, including audio and video resources
- access to units and courses, including assessment items, using tools such as discussions and quizzes
- the ability to submit assignments online
- access to all readings in a contained list within the content tool
- a forum to engage with unit chairs, tutors and other students in virtual classrooms (using eLive)
- a space to listen and watch recorded lectures from your desktop or via a tablet or mobile device (using EchoSystem)
- the capacity to create and manage blogs (using Drupal) and wikis (using Mediawiki)
- a tool to manage academic integrity (using Turnitin).

# HOW DOES CLOUD (ONLINE) STUDY WORK?

**Cloud (online) study brings the campus to you, giving you the freedom to choose where and when you want to study.**

## Course materials

As a cloud (online) student, almost all of the learning resources you require are available via CloudDeakin. Depending on your faculty/school/unit chairs, additional information and supplementary learning resources may be sent to you by mail.

## Textbooks

Your unit chair will also advise you if you need to purchase a textbook/s. You can also access a student booklist, which lists the materials required for all units, which you can access a number of ways, including the DUSA bookshop and the library.

Many of your course readings are available online and accessible in your unit on CloudDeakin or through the library website. Find readings, such as book chapters and journal articles, via your CloudDeakin unit page, or by searching for your unit code in the library search box.

The library also makes many textbooks available, some as e-books. Check availability using the library website, as textbooks are often in the reserve collection (two-hour loan) or in the general collection as one or seven day loans.

For more information, please visit [deakin.edu.au/library/access-borrow](http://deakin.edu.au/library/access-borrow).

## DUSA bookshop

You can buy books online or by visiting a campus DUSA bookshop. The DUSA bookshop also offers a good second-hand books service.

For more information, please visit [www.dusabookshop.com.au](http://www.dusabookshop.com.au).

## Exams and assessment

Assessment at university varies in delivery, including assignments, presentations, exams and other modes. Units can be assessed using different methods, so simply refer to your unit guide for instructions.

You may find that some of your units have an exam as part of your assessment. When the exam timetable is released, you can view your exam location and time through StudentConnect.

For more information, please visit [deakin.edu.au/students/assessments](http://deakin.edu.au/students/assessments).

Exams may be held at a campus, as well as at many interstate and international exam locations. These can be found at [deakin.edu.au/students/assessments/off-campus-examinations](http://deakin.edu.au/students/assessments/off-campus-examinations).

## Student computing requirements

You need to have access to and be able to use internet-connected devices, with minimum standards for your computer and connectivity, as well as computing capability, required for effective cloud (online) study at Deakin.

For more information, please visit [deakin.edu.au/current-students/it-support/computer-standards](http://deakin.edu.au/current-students/it-support/computer-standards).

## Full-time or part-time study

You can study full time or part time depending on the number of credit points you take in each trimester. Every unit you enrol in has a credit point rating (most units are equivalent to 1 credit point). If you are enrolled in 3 or more credit points in a trimester you are deemed to be a full-time student for that trimester. You can switch between full-time and part-time study throughout your degree, to suit your personal situation.

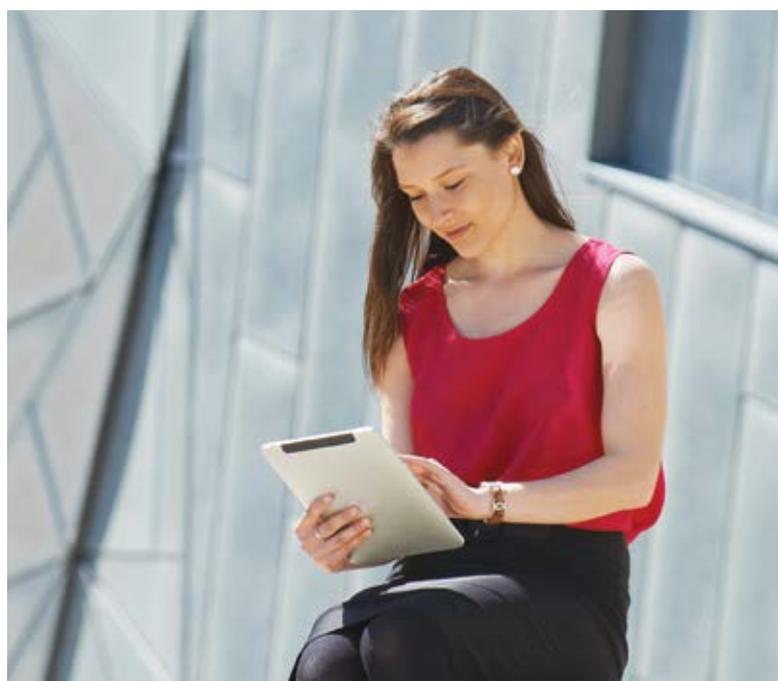

## DeakinMobile

The DeakinMobile app provides students with useful information, including news and events, campus maps, CloudDeakin, library, STAR, ePortfolio, DeakinCard and more. Available for:

iPhones – [bit.ly/TY0xM7](http://bit.ly/TY0xM7)

Android devices – [bit.ly/S647pQ](http://bit.ly/S647pQ)

[deakin.edu.au/software/DeakinMobile](http://deakin.edu.au/software/DeakinMobile)

# CLOUD (ONLINE) COURSES

Course name   course code	Years full time   intake options <sup>2</sup>
<b>Architecture and built environment</b>	
<b>POSTGRADUATE DEGREES BY COURSEWORK</b>	
Master of Construction Management   S791	1   T1 T2 T3
Exit options are available at the graduate certificate (4 credit points) and graduate diploma (8 credit points) levels.	
Master of Construction Management (Professional)   S792	2   T1 T2 T3
Exit options are available at the graduate certificate (4 credit points), graduate diploma (8 credit points) and master's (12 credit point) levels.	
Master of Planning (Professional)   S764	2   T1 T2 T3
Exit options are available at the graduate certificate (4 credit points), graduate diploma (8 credit points) and master's (12 credit point) levels.

**Important notes:**

Information correct at May 2014. Deakin University reserves the right to alter, amend or delete course offerings and other information listed.

- 1 Courses also offered through the Institute of Koorie Education, which uses community-based delivery.
  - 2 Most courses start in Trimester 1. This column indicates whether you have the option of commencing your studies in Trimester 1, Trimester 2 or Trimester 3. Not all units are offered in every trimester.
  - 3 Availability of units may be limited in Trimester 3.
  - ‡ Masters course lengths may vary in response to requirements under the Australian Qualifications Framework. Applicants should refer to the handbook ([deakin.edu.au/handbook](http://deakin.edu.au/handbook)) for the latest information.
  - ~ Study streams include nursing management and leadership, advanced clinical practice and the specialty practice areas of cardiac care, critical care, emergency care, intensive care and perioperative nursing.
  - ‡ Trimester 2 intake may be available subject to sufficient enrolments and is at the discretion of the Head of School.
  - n For trimester commencement options, please visit [deakin.edu.au/handbook](http://deakin.edu.au/handbook).
- PT – Part time  
 FT – Full time  
 T1 – Trimester 1  
 T2 – Trimester 2 – Trimester 2 intake may be available subject to sufficient enrolments and is at the discretion of the Head of School.  
 T3 – Trimester 3  
 RD – Research degrees: Applications for candidature without scholarship can be made at any time. Applications for candidature and scholarship must be made by the application deadline. Commencement of candidature is not confined to Deakin's trimesters. For more information, please visit [deakin.edu.au/study-at-deakin/important-dates/research-degree-dates](http://deakin.edu.au/study-at-deakin/important-dates/research-degree-dates).

Cloud (online) learning allows you to learn wherever you are – whether that's in your office, at home, or while travelling and experiencing the world.

# FREQUENTLY ASKED QUESTIONS

## Are cloud (online), off-campus study, distance education or correspondence different modes of study?

No, they are simply different terms for the one type of study mode.

## Is there any difference in the quality of the degree that I will receive if I study cloud (online) instead of at a campus?

No, students enrolled in cloud (online) study at Deakin study the same course as campus students. The only difference is that as a cloud (online) student you study when, where and how you like and tailor your study around your work and personal commitments.

## Will it state that I studied via cloud (online) mode on my degree (testamur)?

No, you will receive the same certificate that our campus students receive once you graduate.

## Are there any differences in the cost of a campus degree versus cloud (online) degree?

No, the course that you study via cloud (online) mode is the same as a campus course.

## What does the online orientation involve?

For students new to Deakin or new to cloud (online) study, an online orientation is available providing relevant information on a range of topics including:

- exams and assessment
- Deakin Card
- CloudDeakin
- course materials and textbooks
- library
- study skills
- student services
- Deakin University Student Association (DUSA).

## Are all courses and units available in cloud (online) study mode?

Not all courses or units are available through cloud (online) study – please visit [deakin.edu.au](http://deakin.edu.au) for the latest cloud (online) course information. Cloud (online) study is not available to international students unless they are living outside of Australia, or if it's in addition to a full-time, campus study load.

## Can I change study modes?

Life can change quickly – what suits you in March might not work so well in August. But we're known for our flexibility. Many courses give you the option to switch between campus study and cloud (online) study (and back again) as your circumstances change. Likewise, you can switch between full-time and part-time study if you need to, provided your course is available in both study modes.

## How do I submit my assessments as a cloud (online) student?

Depending on your faculty and the units you're studying, assignments are submitted in different ways. For example, you might have to submit one assignment online and another by post. Always double check your unit guide so that you're submitting your assignment correctly.

As a cloud (online) student, it's crucial you understand how to submit your assignments and the importance of a cover sheet. At the beginning of the trimester, make sure you record not only the due dates of your assignments, but also when you need to post them to ensure they are received by the due date.

For more information, please refer to your Unit Chair.

## How do I find out about exams?

Some of your units may have an exam as part of the assessment, so it's vital that you read through the University's examination information site. This site provides you with details on exam timetables and locations, as well as important exam instructions. For more information, please visit [deakin.edu.au/students/assessments](http://deakin.edu.au/students/assessments).

## What type of computer do I need to have access to?

In general, any desktop or laptop computer purchased in the last two years should be capable of meeting most learning needs at Deakin. Mobile devices such as tablets and smartphones may also enable access to many common communication and learning experiences, however, there are likely to be aspects of most courses where their computing capability is insufficient.

A minimum standard device suitable for most courses can:

- use a system such as Windows 7 or later, Mac OSX 10.6 or later
- run a modern browser (e.g. Internet Explorer 9, Firefox 14, Safari 5.1, Chrome)
- Run Java and in some cases Flash (iOS devices, i.e. iPads, iPhones, do not run Flash)
- run programs to create documents, spreadsheets and presentations
- connect to a wireless network
- enable the use of a web camera and headset.

For the latest information on technology requirements, please visit [deakin.edu.au](http://deakin.edu.au).

## What computer skills are required?

Generally, you will be expected to be able to:

- access text, image and audio files on the web
- communicate using email and attachments
- create basic documents, spreadsheets and presentations
- manage and backup files using common file formats
- use a common operating system to install and uninstall software, as well as manage software and settings.

Refer to the information on CloudDeakin on the front inside cover to find out how Deakin uses technology to enhance your cloud (online) study experience.

# FIND OUT MORE

## Can I sit my exams overseas?

There are a number of overseas locations where you can sit Deakin exams, including Brunei, Canada, China, Fiji, France, India, Indonesia, Ireland, Italy, Japan, Korea, Malaysia, New Zealand, the Philippines, Papua New Guinea, Saudi Arabia, Singapore and Switzerland.

For the latest information, please visit [deakin.edu.au/students/assessments/off-campus-examinations](https://deakin.edu.au/students/assessments/off-campus-examinations).

## I live a long way from a Deakin campus – can I still get access to library materials and resources?

There is a wide range of library services available to cloud (online) students, including an extensive electronic collection and a number of borrowing options to support you. We offer online tutorials to assist you to find scholarly information sources for your assignments and research. Resources can also be posted to you.

Expert library staff are available to help you, whether it's online, via phone, email or our social media pages. When working on assignments, check out our library resource guides – subject-specific guides to journal articles, e-books, websites, videos and more – designed to help you locate valuable scholarly information relevant to your study or research. Our library resource guides can be accessed at any time from [deakin.libguides.com](https://deakin.libguides.com).

## Can I borrow items from libraries at other universities?

Being an Australian university student entitles you to borrow from other university and TAFE libraries in addition to Deakin. Ask the library for assistance or visit [deakin.edu.au/library/access-borrow-from-other-libraries.php](https://deakin.edu.au/library/access-borrow-from-other-libraries.php).

## Where else can I connect with Deakin?

Deakin has a number of learning centres and hubs around Victoria, including Werribee, Dandenong and Craigieburn, where you can drop in and meet fellow students, utilise learning spaces and access wifi and computer facilities.

## I am an Australian living overseas, how do I apply?

It doesn't matter whether you live in Australia or overseas, you apply the same way. Please visit [deakin.edu.au](https://deakin.edu.au).
