ARCHITECTURE AND BUILT ENVIRONMENT
Discover architecture and built environment at Deakin University

If you are seeking a career that could see you creating sustainable design concepts for our towns and cities, or project managing large-scale commercial developments, Deakin’s architecture and construction management courses can help make your dream a reality.

Architecture and construction management are dynamic and vibrant professions which offer you a range of exciting career possibilities, both in Australia and internationally.

As well as studies in architecture and construction management at both undergraduate and postgraduate level, Deakin’s School of Architecture and Building also offers career pathways into a range of rewarding professions through postgraduate study opportunities in planning, urban design, landscape architecture and facilities management.

The courses relate directly to the industry’s role in understanding the changing nature of the environments in which we live, especially with regard to the ecological, societal and economical challenges we face. The built environment professions need to confront these challenges positively, and Deakin’s courses equip you to engage with this responsibility.

Our courses incorporate an excellent mix of hands-on practice and theory, providing you with the skills and knowledge to become a highly sought-after built environment professional.

This booklet will tell you about the undergraduate courses we offer in architecture and built environment, their key features and the career opportunities you can expect from completing a degree at Deakin.

Choosing a university course is an important decision – and we are here to help. We encourage you to gather as much information as possible to help you make an informed decision about which course is best for you.

If you need more information, please contact us on 1300 DEGREE (1300 334 733), email enquire@deakin.edu.au or visit deakin.edu.au.

We look forward to seeing you at Deakin!

2013 Undergraduate Course Guide

This guide provides an overview of the undergraduate courses Deakin offers, and information about how to apply, our campuses, student services and study options, such as part time and off campus.

To order a copy of this or any other brochure, phone 1300 DEGREE (1300 334 733).

To view brochures online visit deakin.edu.au/future-students/brochures.

---

Undergraduate eBrochure

Deakin has a range of undergraduate career booklets which provide more information on areas of study, career opportunities, course overviews and course structures. These career booklets are available in the following areas:

- architecture and built environment (this booklet)
- arts, humanities and social sciences
- business
- education
- engineering
- environment
- health
- information technology
- law
- nursing and midwifery
- optometry
- psychology
- science
- sport.

Find out more in our new interactive eBrochure available from deakin.edu.au/ebrochure/undergrad, the Apple App Store and Google play.

Contact us

Phone 1300 DEGREE (1300 334 733) to speak with a student adviser. You can also contact us via email at enquire@deakin.edu.au.

There are many opportunities throughout the year to visit Deakin, experience a campus tour and talk with representatives face-to-face.

For more information on event dates visit deakin.edu.au.

2012 Open Day dates are listed on the back cover of this booklet.
Using this booklet

This booklet provides you with detailed information about Deakin’s undergraduate courses in architecture and built environment (for domestic students), including study areas, career opportunities, course overviews and course structures. It is designed to be read in conjunction with the 2013 Undergraduate Course Guide, which gives an overview of all of Deakin’s undergraduate courses, study options, support services and campuses.

Deakin University also produces course guides specifically for international students. To request a copy phone Deakin International on 03 9244 5095.
Architecture and built environment at Deakin

Unique study environment
At the School of Architecture and Building you will be studying in first-class facilities. The School is located at Deakin's Geelong Waterfront Campus, a stunning heritage-listed complex which has won three highly-prized Australian Institute of Architects awards for design excellence. Facilities include an expansive modern design studio, fully equipped workshop, a photographic studio and computer laboratories. You will also have access to the latest computer-aided design software, and the processes of parametric modelling. At Deakin, we incorporate the very latest technology – in both design and construction – to support you on your path to becoming a built environment professional.

Hands-on learning
Hands-on learning is a feature of our courses. As an architecture student you will study architecture from day one: building models, studying professional architects’ projects, and learning drawing, digital design and communication, and photography. You will discover how to turn imaginative ideas into spatial objects using design, technology, philosophy and electronic media.

If you’re studying construction management, you will experience hands-on learning in all aspects of the industry, including cost estimation, project management, construction methods, contracts and scheduling. Construction projects need managers with good skills in problem solving, critical thinking, entrepreneurship, teamwork and communication. At Deakin you will have the opportunity to develop and refine these skills with real world challenges.

Deakin graduates are highly regarded by employers
Deakin’s courses in architecture and construction management have an excellent reputation in the profession. Employers seek talented graduates who are multi-skilled and our combined course in design (architecture) and construction management gives our graduates an additional advantage in the industry, placing them at the forefront of contemporary debates concerning energy use, workplace design and climate change adaptation.

Industry experience
Industry placements and internships are a feature of Deakin courses, helping you to form industry networks and gain valuable work experience before you graduate.

Highly-acclaimed staff
In the School of Architecture and Building you will learn from lecturers who are highly experienced in the built environment industry. Our staff conduct research, publish widely and have extensive industry connections. The School’s considerable research activity has been recognised by peer review with the award of Australian Research Council and Science, Technology and Innovation grants for projects in various fields. Several School staff have been rewarded with prizes for their hard work and dedication, including the F E Crowle Award for Teaching Excellence, the AIQ Chapter President’s Gold Medal, Vice-Chancellor’s Awards for Outstanding Achievement in Teaching, and highly sought-after Australian Learning and Teaching Council Awards.

Integrated, multidisciplinary learning
The programs in Deakin’s School of Architecture and Building allow you to pursue your chosen field from day one, giving you the distinct advantage of being able to take classes that include both architecture and construction management students.

By studying in multidisciplinary teams you will learn to work with allied professions in the building industry right from the beginning of your studies. This helps equip you with the professional understanding needed to work effectively in the complex multidisciplinary teams of today’s construction industry.

Unique combined course
Deakin’s combined course in design (architecture) and construction management takes an innovative, integrated approach that gives you cross-discipline career capability and recognition and provides you with increased options in your future career. The combined course can be followed by the Master of Architecture (Design) to further enhance your career opportunities. Graduates may find lucrative careers in the built environment field with many options in areas of architecture and construction management.

Professional accreditation
Deakin’s courses in architecture and built environment can provide you with qualifications professionally accredited by a range of organisations including the Australian Institute of Architects, Architects Accreditation Council of Australia, Architects Registration Board of Victoria, Royal Institution of Chartered Surveyors, Chartered Institute of Building, Australian Institute of Building, and Australian Institute of Quantity Surveyors. This high level of accreditation translates into excellent job and career opportunities for Deakin graduates. Please refer to individual course details for more information.

Accelerated programs
The Bachelor of Construction Management and Bachelor of Design (Architecture)/Bachelor of Construction Management may be taken as accelerated programs.

By taking selected units during Trimester 3, the Bachelor of Construction Management can be completed in three years instead of four and the Bachelor of Design (Architecture)/Bachelor of Construction Management can be completed in four years instead of five.

You enrol in the same course and course code as the relevant straight program, and entirely at your discretion, enrol in the units offered during Trimester 3, enabling you to complete your degree sooner.

Scholarships
Deakin University offers scholarships for academic excellence, access and equity, accommodation and Aboriginal and Torres Strait Islanders, ensuring higher education is accessible for all members of the community. The Faculty of Science and Technology offers Dean’s Scholars Program scholarships for architecture and construction management students, which aim to recognise, reward and nurture high-achieving students who have recently completed Year 12 and who have been admitted through VTAC. For more information on scholarships, please visit deakin.edu.au/scholarships.

Industry awards
There are numerous coveted industry awards available to architecture students, with monetary and practical industry prizes attached including:

- the Australian Institute of Architects McGlashan Everist Graduate Prize in Architecture – awarded to the outstanding graduate student who successfully achieves a balance between design excellence and construction and practice excellence
- the Peddle Thorp Architects Award – recognising excellence in the final-year design unit in the architecture program
- the Peddle Thorp Architects Prize – awarded to the first-year student with the highest ATAR.
Built environment professionals have the opportunity to contribute to the creation of beautiful, meaningful, and sustainable environments that can enhance our lives. Deakin’s architecture and construction management graduates are highly sought-after by a range of organisations including private architecture firms, government organisations, property development companies and large construction firms both in Australia and internationally.

Architects work in all aspects of the built environment from design to construction and evaluation on a vast range of projects – from houses to major buildings, city and landscape planning and urban design. Construction management graduates can work in various construction roles such as construction management, quantity surveying, estimation and project management.

Recent Deakin graduates have been employed by a range of organisations including, but not limited to, the following:

» Australand  
» Becton Construction  
» Bovis Lendlease  
» Daryl Jackson Architecture  
» Denton Corker Marshall  
» Elenberg Fraser Architects  
» Fender Katsilidis Architects  
» Grocon  
» ISIS Group Australia Pty Ltd  
» Jackson Clements Burrows Architects  
» McGlashan Everist  
» Mirvac Group  
» Multiplex  
» Peddle Thorp Architects.

Where do our graduates go?

Study abroad

Give your degree a competitive edge with a Deakin Study Abroad Program. Architecture and built environment students can undertake an exchange for one or two trimesters with international and interstate universities. You are given full credit for the study you successfully complete elsewhere, so there is no delay in completing your Deakin degree. For more information, please visit deakin.edu.au/future-students/student-exchange/exchange.

EMPLOYER PROFILE

James Doyle  
Commercial Manager  
Corporate and Sustainability  
ISIS Group Australia Pty Ltd

‘ISIS is a national construction company, specialising in fit-out and refurbishment projects in the commercial, educational, health, hotel and retail sectors. ISIS operates in all mainland capital cities. It employs 500 staff with a turnover in excess of $500 million annually.

ISIS employs a number of Deakin University graduates each year allowing the theory learned in classes to be more easily applied to the workplace.

We find that Deakin University graduates bring to our company enthusiasm, good communication skills and strong industry knowledge.’

Major study areas

Architecture
Architecture is a professional discipline that embodies all creative fields concerning the design of our physical environment, whether residential, cultural, commercial or industrial. Deakin’s courses in architecture comprise cutting-edge content from the latest research and are designed with a global perspective. Study areas include architectural design, architectural research, art and architecture history and theory, building technology and construction, computer modelling, digital and manual graphics and drawing, environmental technology, urban ecology studies and professional architectural practice.

Construction management
Construction management is a professional construction-related discipline that is concerned with the effective procurement of built facilities in the context of time, cost and quality objectives and the growing imperative for sustainable development. Deakin’s courses in construction management comprise an excellent mix of hands-on practice and theory and integrated studies in technology and building management. Study areas include, building economics and law, building technology, computing, contract administration, measurement and estimation, professional practice and project management.

**Year 12 prerequisites**

VCE units 3 and 4 – a study score of at least 25 in English (ESL) or 20 in any other English.

**Non-Year 12 requirements**

Personal Particulars Form (deakin.edu.au/scitech/ab) and a VTAC Pi form.

The Bachelor of Design (Architecture) comprises cutting-edge content from the latest research and has a global perspective. The course places emphasis on real application, allowing you to study architecture from day one, and is designed to meet the needs of students who want to complete the Master of Architecture and practise architecture.

You will explore architectural ideas, history, philosophy, design and communication and building science and technology.

**Professional recognition**

This program is accredited (within Australia) by the Australian Institute of Architects, the Architects Registration Board of Victoria and the Architects Accreditation Council of Australia, when followed by successful completion of the Master of Architecture (S700).

**Career opportunities**

Private architectural practices, government organisations and private companies in property development, building and design.

**Course structure**

You must complete 24 credit points of study including 18 core units.

- **Level 1**
  - SRA010 Safety Induction Program (0 credit point safety unit)
  - SRA143 Art and Society
  - SRC163 Graphic and Coded Communication 1
  - SRC221 Computer Aided Modelling
  - SRD163 Architecture Design 1A
  - SRD164 Architecture Design 1B (2 credit points)
  - SRT151 Construction and Structures 1
  - SRT153 Building Materials Science

- **Level 2**
  - SRA215 Utopian Ideals in the Modern World
  - SRA224 Austral-Asian Architecture
  - SRD263 Architecture Design 2A
  - SRD264 Architecture Design 2B (2 credit points)
  - SRT251 Construction and Structures 2
  - SRT257 Building Environmental Studies 1
    
  **plus one elective unit**

- **Level 3**
  - SRC362 Project Documentation
  - SRD363 Architecture Design 3A (2 credit points)
  - SRD364 Architecture Design 3B
  - SRT351 Construction and Structures 3
  - SRT358 Building Environmental Services

  **Plus two elective units, one of which must be chosen from the following:**
  - SRA323 Contemporary Architecture
  - SRA341 The City

### Master of Architecture

<table>
<thead>
<tr>
<th>Deakin code</th>
<th>Indicative first year fee</th>
</tr>
</thead>
<tbody>
<tr>
<td>S700</td>
<td>$8060 (CSP) 1</td>
</tr>
<tr>
<td></td>
<td>$22 280 (Fee) 2</td>
</tr>
</tbody>
</table>

**Prerequisites**

Applicants will normally have successfully completed an accredited undergraduate program comprising at least three years of study in the area.

The Master of Architecture provides students with specialist education, building upon an established background in architecture and built environment studies. It offers advanced studies in cultural, technological, design aesthetic, theoretical knowledge, and develops the ethical, evaluative and research frameworks which underpin the architecture field.

The Master of Architecture degree is designed to allow students with a three-year undergraduate degree in architecture to complete the final units required to fulfill the academic requirements required for professional accreditation and registration as an architect.

**Professional recognition**

This program is accredited (within Australia) by the Australian Institute of Architects, the Architects Registration Board of Victoria and the Architects Accreditation Council of Australia.

**Course structure**

You must complete 16 credit points of study including the following core units.

- SRA760 Urban Ecologies
- SRD763 Architectural Design in Urban Contexts
- SRD764 Urban Design Studio
- SRD765 Architectural Design and Resolution
- SRD766 Architecture Design Masterclass (2 credit points)
- SRR750 Built Environment Professional Practice
- SRR762 Cost Planning
- SRR711 Thesis (Architecture) (2 credit points)
- SRR782 Research Methods
- SRT750 Sustainable Futures
- SRT757 Building Systems and Environment
- SRV799 Built Environment Integrated Project

**Plus one history/theory elective unit chosen from the following:**

- SRA716 Shifting Views: The Making of Australia’s Identity
- SRA742 Urban Perspectives
- SRA743 Trans-National Mega Projects

**Plus one elective unit from any level seven SR- coded units.**

### Flexible study options

Genuine flexibility is a key feature of our courses. You can study most courses full time or part time, and choose specialist areas as you progress through your course to tailor your degree to match your career goals. Deakin’s use of technology in course delivery, our trimester system and deferment option enhance our flexible approach to education, ensuring your study fits in with your work and lifestyle commitments.

For more information, please visit [deakin.edu.au/online-offcampus](http://deakin.edu.au/online-offcampus).
Courses

Bachelor of Construction Management

Deakin code: VTAC code: Indicative first year fee: ATAR:
S346 15571 (CSP) $8050 (CSP) 1 74.20

Year 12 prerequisites:
VCE units 3 and 4 – a study score of at least 25 in English (ESL) or 20 in any other English.

Non-Year 12 requirements:
Personal Particulars Form (deakin.edu.au/scitech/ab) and a VTAC Pi form.

Deakin’s Bachelor of Construction Management meets the requirements for professional recognition by the building profession.

The course provides an excellent mix of hands-on practice and theory and integrated studies in technology and building management including building economics and law, project management, building technology, measurement and estimation, quantity surveying and building practice. The course develops progressively from the elementary concepts underlying planning and management of building production and technical studies through to the complexities and interrelationships of modern construction practices.

The Bachelor of Construction Management is awarded at pass or honours level to high achieving students.

Professional recognition
This program is industry accredited by prestigious professional organisations including: The Royal Institution of Chartered Surveyors, Chartered Institute of Building, Australian Institute of Building, and the Australian Institute of Quantity Surveyors. Graduates of the construction management course qualify for membership of all the above professional institutions, providing a global passport for work in this field in Australia and overseas.

Career opportunities
Construction manager, estimator, planner and quantity surveyor in a building company or sub-contracting organisation. Opportunities also exist in the property and maintenance divisions of companies that are responsible for large property portfolios.

Work-Integrated Learning
You will be required to complete 80 days of industry-based experience to meet Australian Institute of Building professional requirements. The work experience units replace elective units.

Course structure
You must complete 32 credit points of study including 28 core units.

Level 1
SRA010 Safety Induction Program (0 credit point safety unit)
SRE170 Construction Finance
SRM165 Information Systems in Construction
SRM181 Project Management 1
SRT141 Building Safety
SRT153 Building Materials Science
SRT151 Construction and Structures 1
SRT159 Technology Projects 1
SRT259 Technology Projects 2

Level 2
SRE272 Measurement and Estimating 1
SRE372 Measurement and Estimating 2
SRM161 Contract Administration 1
SRM261 Contract Administration 2
SRM281 Project Management 2
SRT251 Construction and Structures 2
SRT257 Building Environmental Studies 1
SRT351 Construction and Structures 3

Level 3
SRE270 Building Economics
SRE373 Measurement and Estimating 3
SRT358 Building Environmental Services
SRM310 Project Planning and Scheduling
SRM381 Project Management 3
SRR2462 Building Cost Planning plus two elective units

Level 4
SRE464 Building Project Evaluation
SRM461 Contract Administration 3
SRM489 Professional Practice
SRR401 Honours Thesis A
SRR402 Honours Thesis B (2 credit points)
SRV599 Built Environment Integrated Project plus one elective unit

Bachelor of Construction Management (accelerated program)
The Bachelor of Construction Management may be taken as an accelerated program. By taking selected units during Trimester 3, the course can be completed in three years. You enrol in the same course and course code as the straight construction management program, but choose to enrol in the units offered during Trimester 3.

STUDENT SNAPSHOT

Christopher Grima
Bachelor of Design (Architecture)/Bachelor of Construction Management
Geelong Waterfront Campus

‘I chose Deakin firstly because of its reputation in the industry for providing the most practical graduates. Secondly, it is the only university in the area that offers an architecture/construction management combined course. Studying two areas of the industry allows me more flexibility with my career path.

The units are structured to give you a taste of every career linked with the industry and the lecturers are always there for support. The learning doesn’t stay at uni – there are constant field trips too. I have been able to create a pathway for myself into the architecture industry that if I hadn’t gone to Deakin, would not have been possible.’

Check out our Undergraduate eBrochure, available from deakin.edu.au/ebrochure/undergrad, the Apple App Store and Google play.
Science and Technology (Dean’s Scholars Program)

</tr>
</tbody>
</table>

Year 12 prerequisites: Applicants must refer to the prerequisites for their specific architecture or construction management course preference. A minimum ATAR of 90.00* is required.

* Minimum ATAR and interviews are also taken into consideration.

The Dean’s Scholars Program aims to recognise, reward and nurture high-achieving students. A minimum ATAR of 90.00 is required for entry into this course. Scholarships will be awarded annually across the Faculty to Year 12 students admitted to the program through VTAC. Successful applicants will also be offered a professional development program and have a high chance of being selected for the Science and Technology Industry-Based Learning (IBL) Program.

Course structure
You are able to select any one of the undergraduate degrees offered by the Faculty of Science and Technology through this single, campus-based VTAC preference. Refer to specific course entries from the list of architecture and construction management courses. Refer also to the campus of offer for each course within the specific course entries.

Master of Architecture (Design)

Prerequisites
The Master of Architecture (Design) is available to students who have completed an accredited four-year program in architecture, or to qualified practising architects or architecture academics who may wish to upgrade their qualifications, and to graduates of extended undergraduate courses. Graduates of appropriate three-year courses should apply for the Master of Architecture taken over two years as the professional architecture program.

Course structure
You must complete 8 credit points of study comprising the following core units.

- SRA760 Urban Ecologies
- SRD763 Architectural Design in Urban Contexts
- SRD766 Architecture Design Masterclass (2 credit points)
- SRM750 Built Environment Professional Practice
- SRR711 Thesis (Architecture) (2 credit points)
- SRV799 Built Environment Integrated Project

Dr Flavia Marcello
Lecturer, School of Architecture and Building

Dr Flavia Marcello teaches in the areas of design, and architectural history and theory. She comes to Deakin University along a varied path that includes living and working in Rome, working in curriculum development for higher education, and managing professional development programs for practicing architects.

She is an expert on Rome’s architectural and urban development and other areas of interest include spatial practices within architecture both as ephemera and as an integral element of urban space, and relationships between education and sustainable practice.
**Combined course**

**Bachelor of Design (Architecture)/Bachelor of Construction Management**

Deakin's Bachelor of Design (Architecture)/Bachelor of Construction Management offers an excellent mix of hands-on practice and theory, with study areas including building economics and law, project management, building technology, measurement and estimation, quantity surveying, architectural ideas, history, philosophy, design, sustainability and communication, and building science and technology.

**Professional recognition**

The construction management stream of this combined course is industry accredited by prestigious professional organisations including: The Royal Institution of Chartered Surveyors, Chartered Institute of Building, Australian Institute of Building, and the Australian Institute of Quantity Surveyors. Graduates of the construction management course qualify for membership of all the above professional institutions, providing a global passport for work in this field in Australia and overseas.

The architecture stream of this combined course is accredited (within Australia) by the Australian Institute of Architects, the Architects Registration Board of Victoria and the Architects Accreditation Council of Australia, when followed by successful completion of the Master of Architecture (Design) (S701).

**Career opportunities**

Deakin graduates are highly regarded and are readily accepted into the architecture and building industry. This combined course ensures you graduate with both architecture and construction management specialisations and will facilitate your entry into private architectural firms or government organisations, as well as property development companies, building companies and large manufacturing firms. You may also start your own practice.

**Work-integrated Learning**

You will be required to complete 80 days of industry-based experience to meet Australian Institute of Building professional requirements. The work experience units replace elective units.

- SRE464 Building Project Evaluation
- SRM461 Contract Administration 3
- SRM489 Professional Practice
- SRG462 Building Cost Planning
- SRR401 Honours Thesis A
- SRT358 Building Environmental Services

**Bachelor of Design (Architecture)/Bachelor of Construction Management (accelerated program)**

The Bachelor of Design (Architecture)/Bachelor of Construction Management may be taken as an accelerated program. The accelerated program provides an avenue for you to complete the five-year course in four years by undertaking study during Trimester 3. You enrol in the same course and course code as the normal program, but choose to enrol in the units offered in Trimester 3.

---

1. The indicative first year fee is an approximate indication of the cost of this course in the first year of full-time study for a Commonwealth Supported Place (CSP). We can’t specify the exact figure, because fees are charged per unit, not per course, so the actual fees may vary depending on what units you choose to study.

2. The fees quoted in this booklet are for Australian students in 2012, and may change for 2013 and later years. You can find more information about fees on our website at deakin.edu.au. For information on fees for international students, please visit deakin.edu.au/international.
How to apply

Applying to study at Deakin University is easy. Whether you are a current Year 12 student, TAFE graduate, mature-age student, non-school leaver, or international student studying VCE in Australia, you can apply to study a Deakin undergraduate course through the Victorian Tertiary Admissions Centre (VTAC) (unless stated otherwise in the admission guidelines).

When you are applying for a course, make sure you check all of the entry requirements carefully. Most courses have prerequisites and some have additional requirements that you will need to complete to be eligible for selection into that course. For prerequisite and extra requirement information, please visit the VTAC website www.vtac.edu.au.

For more information on how to apply, including special consideration and deferment, check out our Undergraduate eBrochure at deakin.edu.au/ebrochure/undergrad or visit deakin.edu.au/future-students/applications-enrolments.

STUDENT SNAPSHOT

Aaron Cody
Bachelor of Design (Architecture)/ Bachelor of Construction Management
Geelong Waterfront Campus

‘The attraction of this course for me was the mix between the real world application of the construction management component, and the design aspect of the architecture component.

The course equips you with the ability to analyse, challenge and understand the creative arts, architecture, and the built environment. It really does change the way you perceive the world.

When I started the course, I saw things for their face value. But now I can look at a building, for instance, and I know what’s inside and how it functions.’
Pathways

Pathway programs provide alternative entry options which take into consideration previous qualifications or your time in the workforce. Deakin has pathway options for a range of applicants including current Year 12 students, International Baccalaureate (IB) students and non-school leavers. Examples for architecture and built environment students include:

**Year 12**
- Enrol in single units

**TAFE**
- For example, complete a: Diploma of Building and Construction, or Diploma of Building Design and Technology.

**Workforce**
- Complete single units

**Apply for university entry via VTAC**

**Enrol in**
- Bachelor of Construction Management
- or
- Bachelor of Design (Architecture)
- or
- Bachelor of Design (Architecture)/Bachelor of Construction Management

Obtain a Grade Point Average of 65 per cent or higher in your completed TAFE course and you may receive Credit for Prior Learning towards your Deakin course. For specific details, refer to the Credit for Prior Learning Database deakin.edu.au/courses/credit/search.

**Complete**
- Bachelor of Construction Management
- or
- Bachelor of Design (Architecture)
- or
- Bachelor of Design (Architecture)/Bachelor of Construction Management

**Postgraduate studies including**
- Master of Architecture
- Master of Architecture (Design)
- Master of Construction Management
- Master of Facilities Management
- Master of Landscape Architecture
- Master of Planning (Professional)
- Master of Urban Design

**Career options**
- architect
- chartered building surveyor
- chartered facilities manager
- chartered quantity surveyor
- construction manager
- contract administrator
- development manager
- estimator
- project manager

Please note applicants are subject to entry requirements.

For more examples of pathways into Deakin University, please visit deakin.edu.au/pathways.

10. Check out our Undergraduate eBrochure, available from deakin.edu.au/ebrochure/undergrad, the Apple App Store and Google play.
TAFE pathways
If you complete a diploma or advanced diploma at TAFE in a field similar to the Deakin course of your choice, you can then apply for the Deakin course and you may receive credit for your TAFE qualification. In most cases, this will reduce the number of units you need to complete to obtain your Deakin qualification. Plus, upon graduation, you’ll have not one, but two qualifications.

Deakin has pathway programs and special credit arrangements with its partner TAFEs (Box Hill Institute in Melbourne, South West TAFE in Warrnambool and The Gordon in Geelong) however all TAFE qualifications are considered for application to Deakin.

The assessment of credit is based on a number of factors and is determined on an individual basis.

To find out what credit you are entitled to, please visit deakin.edu.au/courses/credit.

Single unit study (non-award)
You may wish to undertake a single unit of study at Deakin (without being enrolled or accepted into a course). These units are subject to fees and do not lead to a degree, but may be credited towards a degree if you succeed in gaining entry to a course at a later stage.

For more information, please visit deakin.edu.au/future-students/applications-enrolments/applications/single-subject.

Honours
The Bachelor of Construction Management is awarded at honours level to students who achieve an outstanding academic result on completion of their degree.

Honours can offer you a competitive edge in the job market along with providing a pathway into a higher degree – many honours students go on to complete a PhD or other advanced qualifications.

For more information on honours degrees, please visit deakin.edu.au/honours.

For more information on pathways into Deakin University, please visit deakin.edu.au/pathways.

STUDENT SNAPSHOT
Hayden Djakic
Bachelor of Design (Architecture)
Geelong Waterfront Campus, 2010
Now: studying a masters degree at Deakin

‘I chose to study at Deakin because of the facilities and atmosphere of the Geelong Waterfront Campus. Deakin also has a very respected and hands-on architecture course. The things I enjoy most about my course are the diverse ideas that are brainstormed, allowing a “think-tank” of concepts. This allows you to bounce your ideas off a number of people so you always get the best outcome.

I’ve had the opportunity to talk with people from all over the world about my designs in some of our studio projects. This has allowed me to keep my computer skills up-to-date, as well as increasing my own knowledge of the subject. I plan to continue tutoring while completing my two-year masters degree. I then hope to work with a professional firm completing private housing and commercial structures.’
a+b studio at the Geelong Waterfront Campus

In this superb studio space created at Deakin’s award-winning Geelong Waterfront Campus, the emphasis is on collaboration and interaction, enabling construction management and architecture students at all year levels to work in the same studio, discuss their work, and easily attend each other’s presentations. The studio is also used as a teaching and research laboratory for measuring sustainable use of energy. The a+b studio is available for students 24-hours a day, 7 days a week.

Check out our Undergraduate eBrochure, available from deakin.edu.au/ebrochure/undergrad, the Apple App Store and Google play.
Deakin will hold additional events for prospective students and parents. Please visit deakin.edu.au/future-students for updates.
