EXPLORE THE WORLD OF HEALTH AT DEAKIN

The term 'health' refers to more than just the absence of disease; it encompasses our physical, mental, social and spiritual wellbeing. This diversity is reflected in Deakin's health courses. We offer courses covering the fields of health sciences, food and nutrition, exercise and sport science, medicine, nursing and midwifery, occupational therapy, optometry, psychology, public health and health promotion, and social work.

As a Deakin student you will have flexible study options and the ability to gain hands-on industry experience, preparing you for employment in the real world. Our courses are informed by advisory boards, which ensure the curriculum we're delivering produces graduates who are highly sought-after for a variety of roles in the health sector. The advisory boards have representation from senior professionals in the health industry, who arrange clinical placements and identify opportunities for research.

This booklet provides you with an overview of Deakin's health-related courses, including key features, course structures and the career opportunities you can expect after completing a Deakin health degree.

Choosing a university course is an important decision – and we are here to help. We encourage you to gather as much information as possible to help you make an informed decision about which course is best for you.

If you need more information, please contact us on 1300 DEGREE (1300 334 733), email enquire@deakin.edu.au or visit deakin.edu.au.

We look forward to seeing you at Deakin!

Using this guide

This booklet provides you with detailed information about Deakin's undergraduate courses in health (for domestic students), including study areas, career opportunities, course overviews and course structures. It is designed to be read in conjunction with the *2014 Undergraduate Course Guide*, which gives an overview of all of Deakin's undergraduate courses, study options, support services and campuses.

Deakin University also produces course guides specifically for international students. To request a copy phone Deakin International on +61 3 9627 4877 or email deakin-international@deakin.edu.au.

Applying to Deakin is easy

You can apply for most of Deakin's undergraduate courses (bachelor's degrees) commencing in Trimester 1 through the Victorian Tertiary Admissions Centre (VTAC).^{*} We also offer courses commencing at other times of the year, for example Trimester 2 (commencing in August) and Trimester 3 (commencing in November), that require a direct application to Deakin. Whether you are a current Year 12, TAFE, private provider or mature-age student, currently studying at another university, in the workforce, taking a gap year or a graduate, visit www.vtac.edu.au or deakin.edu.au/study-at-deakin for details.

^{*} Some courses commencing in Trimester 1 require direct application to Deakin. Please check the course entry requirements carefully.

Find out more

If you need more information, please phone 1300 DEGREE (1300 334 733), email enquire@deakin.edu.au or visit deakin.edu.au.

You can also connect with us on social media, order other publications and visit us. Turn to page 40 for more information.

HEALTH AT DEAKIN

Jobs – it's a health boom!

Job growth in the health sector is strong and continues to increase as public health issues such as obesity, heart disease, diabetes, sedentary lifestyles and ageing populations affect health care systems not only in Australia but around the world. Between 2007 and 2012, job growth in the health sector has out-paced all other employment areas with 300 000 new jobs created in Australia.#

We have a diverse range of courses

Deakin offers a diverse range of health-related courses, which cover fields including health sciences, food and nutrition, medicine, nursing and midwifery, occupational therapy, optometry, psychology, public health and health promotion, social work and exercise and sport science.

Gain practical experience

Practical work experience programs are an important part of many Deakin health courses. Conducted in a range of settings, these programs provide the opportunity to gain hands-on industry experience under the supervision of qualified practitioners, preparing you for employment in the real world.

We are connected with industry and future employers

Deakin health has strong partnerships with organisations such as the World Health Organization, Australian Drug Foundation, Dairy Australia, Department of Human Services, VicHealth, various major international food companies, hospitals and other universities. These partnerships ensure that our courses remain relevant to workplace needs and provide you with the opportunity to learn from industry guest lecturers.

Source: Eureka Report, www.eureka-report.com.au/graphs/list?page=4^.

Our staff are experienced in the industry

At Deakin we are committed to providing excellence in all our courses, so we employ key clinicians and researchers who are qualified, enthusiastic teachers with broad international links and experiences. This ensures teaching is current and based on contemporary research and evidence-based practice.

You will learn from lecturers with specialist skills developed through their work with external organisations, their research and their community involvement. This experience both reflects and informs the teaching programs, ensuring our graduates are highly regarded for their knowledge, communication skills, professionalism, enthusiasm and problem-solving capabilities.

You can tailor your degree

Deakin's health courses allow you to choose elective units from the Faculty of Health or any of the other faculties in the University (subject to availability and timetabling). You can select a combination that suits your interests and tailor your degree towards your desired career. A number of combined courses are offered, enabling you to acquire two degrees in less time than it would take to complete the degrees separately, broadening your career options.

Engage in multidisciplinary learning

Deakin health students engage in multidisciplinary learning. For example, nursing students work with students from a range of other health disciplines, including medicine, occupational therapy, social work and dietetics. This experience introduces you to working in multidisciplinary teams and helps to develop an understanding of the expertise and role of different health professionals.

Our research makes a difference

The research profile of Deakin health staff is facilitated by collaborative relationships with numerous hospitals, clinics, health care networks, communities and support centres, and these partnerships enable us to provide our students with excellent opportunities to pursue their own research.

Our staff have many years of supervision experience and are enthusiastic in encouraging research degrees.

Many of our courses are professionally accredited

Many of Deakin's health courses are professionally accredited with organisations such as the Nutrition Society of Australia, Occupational Therapy Australia, the World Federation of Occupational Therapists, the Australian Association of Social Workers and the Australian Medical Council.

We offer a range of scholarships

Deakin University offers scholarships for academic excellence, access and equity, accommodation and Aboriginal and Torres Strait Islanders, ensuring higher education is accessible for all members of the community. For more information on scholarships, please visit deakin.edu.au/scholarships.

Scholarships are also available through the Nursing and Allied Health Scholarship and Support Scheme (NAHSSS). For more information about this scheme, please contact Services for Australian Rural and Remote Allied Health by email sarrah@sarrah.org.au or visit www.sarrah.org.au.

Experience the world while you study

Give your degree a competitive edge with a Deakin Study Abroad Program. The Study Abroad and Exchange Office offers various programs including exchange, study abroad, short-term study programs, study tours and international volunteering opportunities, which allow you to study overseas for a few weeks, a trimester, or a year as part of your Deakin degree.

The Faculty of Health offers study tours to Vietnam, Cambodia and the Netherlands.

For more information on study abroad, please visit deakin.edu.au/current-students/student-exchange/exchange.

Study honours

Honours is a specialised year of study that allows you to draw together the theory and practical skills gained in previous undergraduate studies and develop an in-depth knowledge of your particular discipline through research, additional coursework and training in research techniques. It includes a combination of coursework (lectures, seminars, assignments) and a research project. In the project, students work with a supervisor and gain an insight into research.

Honours can offer you a competitive edge in the job market along with providing a pathway into a higher degree – many honours students go on to complete a PhD or other advanced qualifications.

The following health-related honours programs are available at Deakin University:

- Bachelor of Applied Science (Psychology) (Honours)[^]
- Bachelor of Exercise and Sport Science (Honours)
- Bachelor of Food and Nutrition (Honours)
- Bachelor of Health and Medical Science (Honours)
- Bachelor of Health Sciences (Honours)
- Bachelor of Nursing (Honours)
- Bachelor of Occupational Therapy (Honours)*
- Bachelor of Public Health and Health Promotion (Honours)
- Bachelor of Social Work (Honours).*

For more information on honours degrees, please visit deakin.edu.au/honours.

[^] From 2014, this course may be renamed the Bachelor of Psychological Science (Honours) (subject to approval).

* The honours year in the Bachelor of Occupational Therapy and the Bachelor of Social Work is a separate stream within the fourth year of each degree program.

DID YOU KNOW?

The Faculty of Health runs a Peer Mentoring Program as part of its commitment to providing new students with the best possible transition into university life. By joining the Peer Mentoring Program, first-year students will receive support and guidance from more senior students in their course. The program runs across all campuses and is open to students from all courses offered by the Faculty of Health.

For more information please visit deakin.edu.au/health/peer-mentoring.

AN ELITE ATHLETE FRIENDLY UNIVERSITY

As a member of the Elite Athlete Friendly University (EAFU) Network, Deakin is dedicated to supporting elite athletes in their quest to achieve academic success alongside the demands of training and competition.

We enable recognised elite athlete students to negotiate assessment deadlines, lecture and tutorial attendance and study loads to integrate with sporting commitments. Student athletes may also be able to take several leaves of absence in order to meet sporting commitments and extend the amount of time normally allowed to complete a course.

For more information, please visit deakin.edu.au/future-students/why-deakin/eafu.

Geelong campuses = Geelong Warrn Ponds Campus and Geelong Waterfront Campus.

D = Deakin Learning Hub in Dandenong.

GE = Graduate entry through Graduate Entry Medical School Admissions System (GEMSAS), not VTAC.

R/C = A range of criteria are used for selection.

N/A = Not available or not applicable. The course is offered at this campus. Where no ATAR is available it may mean that other admission requirements apply.

Please refer to the course entry for more information.

** Applicants must apply directly to Deakin University. Refer to page 10 for more information.

If a clearly-in ATAR is not listed it means the course is not available at that campus.

For more information on ATARs, please visit deakin.edu.au/future-students/year12.

HEALTH SCIENCES

We offer flexibility you can take advantage of

Deakin's Bachelor of Health Sciences is ideal if you are not sure what you want to study but know you're interested in a career in health. The flexible nature of this degree provides a range of exciting opportunities and equips graduates with the skills needed to work in a variety of valuable settings within the health sector.

The course allows you to concentrate your studies on two specialised health-related areas* – exercise science; family, society and health; food studies; health promotion; nutrition; people, society and disability; physical activity and health; psychology; health and sustainability; environmental health; medical biotechnology; or sport coaching – and explore complementary study areas that appeal to your interests and career aspirations. This enables you to acquire specialist knowledge and transferable skills that will make you highly sought-after by employers.

You can also diversify your employment opportunities by undertaking elective units from any area of the University. This flexible degree is an excellent option for those looking to discover their passion in the health sector and also provides a pathway to further professional studies at postgraduate level.

* Please note the availability of major sequences at each campus varies.

Take alternative pathways

You can model your Bachelor of Health Sciences to mimic the structure of other Deakin health degrees. For example, you can study major sequences in exercise science, physical activity and health, and sport coaching, and have similar studies to the exercise and sport science degree. Taking the major sequences in food studies and nutrition is similar to undertaking the food and nutrition degree. Alternatively you can study all the core subjects of the recognised psychology major sequence.

Gain practical experience

If you are interested in the possibility of enhancing your employment prospects by consolidating your knowledge and skills through realistic field experience, you may choose to undertake an industry placement unit. This unit is available as an elective unit in the final year of the course, depending on the major sequences you choose to study.

You can study where you want to live

Deakin's Bachelor of Health Sciences is offered at the Melbourne Burwood Campus, the Geelong Waurn Ponds Campus, and the Warrnambool Campus, so you also have the flexibility of choosing where you want to study.

Students also have the opportunity to complete a Bachelor of Health Sciences degree off campus and be supported by the Deakin Learning Hub in Dandenong. See page 10 for more information.

We offer many postgraduate opportunities

Depending on the major sequences and elective units you choose, your Bachelor of Health Sciences can be an alternative pathway to more advanced study in dietetics, public health, health promotion, medicine, psychology and other allied health areas.

Melbourne Burwood Campus

HEALTH SCIENCES

WHERE DO OUR GRADUATES GO?

Career outcomes for Bachelor of Health Sciences graduates are diverse and depend on the major sequences and electives chosen.

Some of our graduates are working in the following roles:

- case manager
- family and community support worker
- health and sport marketing officer
- health educator
- health promotion officer
- health public relations officer
- health writer
- nutritionist
- program coordinator
- project officer
- sport coach
- sport journalist.

Recent Deakin health sciences graduates have found employment in a range of organisations including, but not limited to, the following:

- Barwon Health
- Breast Cancer Network Australia
- Burwood Health Care
- Cancer Council
- City of Casey
- Colac Otway Shire Council
- Community health services
- Department of Human Services
- East Gippsland Shire Council
- Health clinics
- Hospitals
- Jenny Craig
- Parks Victoria
- Prostate Cancer Foundation of Australia
- VicHealth
- WorkCover.

BACHELOR OF HEALTH SCIENCES **3 B G W**

DEAKIN CODE	ATAR	INDICATIVE FIRST YEAR FEE
H300	B 71.60 G 51.00 W 56.55	\$7640 (CSP) ¹
YEAR 12 PREREQUISITES		NON-YEAR 12 REQUIREMENTS
VCE units 3 and 4 – a study score of at least 30 in English (ESL) or 25 in any other English.		VTAC Personal History online. Some applicants only: STAT Multiple Choice.

This flexible degree is an excellent option for those looking to discover their passion in the health sector. It equips you with the specialist knowledge and transferable skills that will make you highly sought-after for employment in a variety of valuable settings within the health sector.

The course enables you to concentrate your studies on two specialised health-related areas while exploring complementary study areas that appeal to your interests and career aspirations. You can also diversify your employment opportunities by undertaking elective units from any area of the University.

Depending on the major sequences and electives you choose, you may have the opportunity to undertake an industry placement unit to consolidate your knowledge and enhance your employment prospects.

An honours year is available upon completion of this degree.

Career opportunities

Career opportunities for Bachelor of Health Sciences graduates are diverse and depend on the major sequences and electives chosen. Depending on the study areas you choose, you may qualify to work in areas such as health promotion, health education, community health, project management, program planning, case management, counselling, family and community support, housing services, regional health service planning, sports psychology, sports nutrition and sports development.

The Bachelor of Health Sciences, with a major sequence in medical biotechnology and appropriate elective units, is one of the suitable pathways for application to Deakin's graduate-entry medicine program – for more details refer to the Bachelor of Medicine Bachelor of Surgery course description on page 34.

Work-Integrated Learning

You may enhance your employment prospects and consolidate your knowledge and skills through an industry placement unit. Depending on the major sequences and elective units you choose to study, this option may be available in the final year of your course.

Course structure

You must complete 24 credit points of study, including at least 16 credit points from the Faculty of Health. Within these 16 credit points you must complete two core units, which provide you with the opportunity to engage in multidisciplinary learning, and two major sequences chosen from the list in the next column.

Core units

HBS107 Understanding Health
 HBS108 Health Information and Data

Major sequences

- Environmental health **B**
- Exercise science **B G X**
- Family, society and health **B X**
- Food studies **B**
- Health and sustainability **B**
- Health promotion **B G W X**
- Medical biotechnology **G**
- Nutrition **B G W**
- People, society and disability **B X**
- Physical activity and health **B G W**
- Psychology **B G W X**
- Sport coaching **B**

ENVIRONMENTAL HEALTH **B**

This major sequence enables you to explore and apply theoretical and practical skills in the interface between public health and the quality of the environment (e.g. the impact of pollutants on bodily functions), and provides a basic understanding of human physiology and genetics relevant to the interactions of humans with the environment.

If you undertake the health and sustainability and environmental health major sequences, you will be provided with a solid base for employment as an environmental health officer.

Level 1

HBS107 Understanding Health
 HSN101 Food: Nutrition, Culture and Innovation
 SLE111 Cells and Genes

Level 2

HSH205 Epidemiology and Biostatistics 1
 SLE234 Microbiology

Level 3

SLE342 Risks to Healthy Environments
 SLE312 Toxicology

EXERCISE SCIENCE **B G X**

This major sequence provides you with a sound understanding of the core sciences underpinning both competitive sport and recreational physical activity. A variety of learning approaches is adopted, allowing you to integrate your sporting interests with your studies, as well as matching these with your employment objectives.

Level 1

HBS109 Human Structure and Function
 HSE102 Functional Human Anatomy

Level 2

HSE201 Exercise Physiology
 HSE202 Biomechanics

Level 3

HSE301 Principles of Exercise Prescription
 HSE302 Exercise Programming

> Continued on next page ...

HEALTH SCIENCES

FAMILY, SOCIETY AND HEALTH **B X**

This major sequence focuses on the household and family as a setting for public health. It explores the issues facing households and families, including the link between healthy human development and healthy households, economic wellbeing and health, and the need for supportive environments. It is ideal for students wishing to work in welfare, health promotion or with organisations offering support services and resources for families.

Level 1

HBS108 Health Information and Data
HSH105 Understanding Families and Health

Level 2

HSH206 Human Development and Healthy Families
HSH207 Socio-Economic Status and Health

Level 3

HSH306 People, Health and Place
HSH313 Contemporary Health Issues

FOOD STUDIES **B**

This major sequence provides knowledge of food, ranging from the science of food composition to community issues such as genetically modified foods and food law. This understanding will be useful for a range of careers, including those in industry, health services, business and the mass media.

Level 1

HSN101 Food: Nutrition, Culture and Innovation
HSN104 The Science of Food

Level 2

HSN204 Food Microbiology and HACCP
HSN209 Food Security and Safety

Level 3

HSN309 Food Policy and Regulation
HSN315 Food Manufacturing and Process Innovation

HEALTH AND SUSTAINABILITY **B**

This major sequence will enable you to explore and apply theoretical and practical skills in the crucial relationships between personal and public health, sustainability and the health of the natural and built environment. If you undertake both the health and sustainability and environmental health major sequences, you will be provided with a solid base for employment as an environmental health officer.

Level 1

HSH112 Local and Global Environments for Health
SLE121 Environmental Sustainability

Level 2

HSH201 Planning and Evaluation 1
SHD201 Creating Sustainable Futures

Level 3

HSH302 Politics, Policy and Health
HSH340 People, Health and Planning

HEALTH PROMOTION **B G W X**

This major sequence will equip you with a sound knowledge of the causes of health and illness, and provide you with effective strategies to help prevent illness. You will gain practical skills in health education and communication, health planning and management.

Level 1

HBS107 Understanding Health
HBS110 Health Behaviour

Level 2

HSH201 Planning and Evaluation 1
HSH218 Planning and Evaluation 2

Level 3

HSH302 Politics, Policy and Health
HSH313 Contemporary Health Issues

MEDICAL BIOTECHNOLOGY **G**

This major sequence will provide specialist knowledge and technical skills relevant to pharmaceuticals, diagnostics, vaccines and other medical innovations, as well as the health and medical research underpinning these areas. If you undertake this major sequence, you will be well prepared for careers in the pharmaceutical and biotechnology industries, academia, government laboratories and hospitals.

Level 1

HMM101 Introduction to Medical Biotechnology
HMM102 Principles of Gene and Genomic Technology

Level 2

HMM201 Medical Nanotechnology
HMM202 Molecular Diagnostics

Level 3

HMM302 Innovations in Medical Biotechnology
HMM305 Cell and Tissue Engineering

NUTRITION **B G W**

Studies in nutrition will provide a sound knowledge of the biological basis of human nutrition and the relationship between diet, health and disease.

Level 1

HBS109 Human Structure and Function
HSN101 Food: Nutrition, Culture and Innovation

Level 2

HSN201 Principles of Nutrition
HSN202 Lifespan Nutrition

Level 3

HSN301 Diet and Disease
HSN302 Population Nutrition

For more information and to click through to unit descriptions, please visit deakin.edu.au/courses.

PEOPLE, SOCIETY AND DISABILITY **B X**

Completion of this major sequence will give you an opportunity to expand your job opportunities by being better informed about positive options and techniques to assist and support people with a disability.

Level 1

HDS101 Communication and Diversity
 HDS106 Diversity, Disability and Social Exclusion

Level 2

HDS209 Diversity in Childhood and Adolescence
 HDS210 Diversity At Work

Level 3

HDS301 The Effective Practitioner
 HDS310 Human Rights and Advocacy

PHYSICAL ACTIVITY AND HEALTH **B G W**

This major sequence provides you with an understanding of how behaviour influences health, with a particular emphasis on the relationships between physical activity and health.

Level 1

HBS107 Understanding Health
 HBS110 Health Behaviour

Level 2

HSE203 Exercise Behaviour
 HSE212 Physical Activity Promotion and Evaluation

Level 3

HSE313 Understanding Children's Physical Activity
 HSE316 Physical Activity and Population Health

PSYCHOLOGY **B G W X**

This major sequence develops your understanding of a range of topics in psychology, which is the science concerned with unravelling questions about human behaviour and mental processes.

6-credit-point major sequence

This six-unit major sequence is designed to complement other studies within the Bachelor of Health Sciences. It does not meet the requirements for entry into fourth-year studies in psychology, nor does it lead to a professional qualification in psychology.

Level 1

HPS111 Introduction to Psychology A
 HPS121 Introduction to Psychology B

Level 2

Select two elective units from the following:

HPS201 Research Methods in Psychology A
 HPS202 Child and Adolescent Development
 HPS203 Understanding the Mind
 HPS204 Introduction to Social Psychology
 HPS205 Behavioural Neuroscience

Level 3

Select two elective units from the following:

HPS301 Research Methods in Psychology B
 HPS307 Personality
 HPS308 Psychopathology

10-credit-point major sequence

If you wish to pursue registration as a psychologist you can meet your undergraduate study requirements by taking this 10-unit major sequence. Following successful completion of this major sequence, you may be eligible to apply for a fourth-year of study in psychology (either honours in psychology or a Graduate Diploma of Psychology).

Level 1

HPS111 Introduction to Psychology A
 HPS121 Introduction to Psychology B

Level 2

HPS201 Research Methods in Psychology A
 HPS202 Child and Adolescent Development
 HPS203 Understanding the Mind
 HPS204 Introduction to Social Psychology
 HPS205 Behavioural Neuroscience

Level 3

HPS301 Research Methods in Psychology B
 HPS307 Personality
 HPS308 Psychopathology

SPORT COACHING **B**

This major sequence will provide you with the skills, knowledge and techniques in sport coaching that will enable you to assist and support athletes and teams in a variety of settings.

Level 1

HSE105 Principles of Sport Coaching
 HSE106 Introduction to Sport Coaching Practice

Level 2

HSE204 Motor Learning and Development
 HSE205 Advanced Sport Coaching Theory and Practice

Level 3

HSE305 Issues in Sport Coaching
 HSE321 Sport Coaching and Development Practicum

HEALTH SCIENCES

JESSICA BRIEN

BACHELOR OF HEALTH SCIENCES – MAJOR SEQUENCES IN FAMILY, SOCIETY AND HEALTH AND NUTRITION MELBOURNE BURWOOD CAMPUS

'The Bachelor of Health Sciences is a good course if you know you want to have a career in health, but aren't sure what specific area you want to go into. I knew I wanted to study something in nutrition, however I didn't want to be tied down only doing nutrition. So the Bachelor of Health Sciences really appealed to me because I got to major in another area of my choice, being family, society and health. Only two units out of the entire course are compulsory and the rest are up to me to choose.

I have access to the library, books, study support and course advisers basically at my doorstep. As part of the nutrition element of my course, I frequently attend classes in laboratories where we deal with different kinds of foods, chemicals and high-class equipment. I also have classes in big kitchens, like a school's food technology classroom, but bigger and better!

When I graduate I plan on completing a Graduate Certificate of Public Health Nutrition.'

BACHELOR OF HEALTH SCIENCES IN DANDENONG 3 X

DEAKIN CODE	ATAR	INDICATIVE FIRST YEAR FEE
H300D	X N/A	\$7640 (CSP) ¹
YEAR 12 PREREQUISITES		NON-YEAR 12 REQUIREMENTS
VCE units 3 and 4 – a study score of at least 30 in English (ESL) or 25 in any other English. Minimum ATAR of 50. Application form and personal statement. See note below.		Application form and personal statement. See note below.

Since 2012, Deakin has been offering a health sciences degree in a supported community environment – at the Deakin Learning Hub in Dandenong. This newly developed community learning facility provides a support service and resource centre to ensure you receive the assistance you need throughout your studies.

This exciting initiative provides you with the flexibility to complete a Bachelor of Health Sciences off campus, while having access to academic staff in Dandenong who will offer support, guidance and advice throughout your studies.

Take advantage of this flexible degree and the unique support available at the Deakin Learning Hub in Dandenong to make the most of your studies and build your degree towards the exciting and diverse career opportunities that exist in the health industry.

Career opportunities

Career opportunities for Bachelor of Health Sciences graduates are diverse and depend on the major sequences and electives chosen. Depending on the study areas you choose, you may qualify to work in areas such as health promotion, health education, community health, project management, program planning, case management, counselling, family and community support, housing services and regional health service planning.

Course structure

You must take two of the major sequences supported by the Deakin Learning Hub in Dandenong.

Core units

HBS107 Human Structure and Function
HBS108 Health Information and Data

Major sequences

- Family, society and health
- Health promotion
- People, society and disability
- Psychology

For more information, including a description of these major sequences and a list of units they contain, please refer to the Bachelor of Health Sciences course entry on page 7.

D = Deakin Learning Hub in Dandenong.

N/A Refer to page 4.

NOTE: All applicants must apply directly to Deakin University using the approved application form. For more information (including application closing dates) and to apply, please visit deakin.edu.au/dandenong.

ASSOCIATE DEGREE OF ARTS, BUSINESS AND SCIENCES[^] **2** **G*** **W**

DEAKIN CODE	INDICATIVE FIRST YEAR FEE
A200	\$6590 (CSP) [†]

YEAR 12 PREREQUISITES AND NON-YEAR 12 REQUIREMENTS
 There are no prerequisite studies for this course. You will need to complete an application form including a detailed personal statement. You also need to attend an information session including completion of a literacy exercise as part of an interview process.

The Associate Degree of Arts, Business and Sciences will help you develop skills in research, written communication, group presentations, critical thinking and learning technologies, which increase your chances of success at university. The key advantage of the associate degree is that it provides a supported transition to tertiary study. It allows for entry into a range of target degrees (as approved by Deakin University) offered at the Warrnambool Campus, Geelong Waterfront Campus, Geelong Waurin Ponds Campus, or via off-campus study. Completion of the associate degree may give you up to 18 months credit towards one of these target degrees.

Career opportunities

The associate degree can open doors to employment in a range of fields including administration, marketing, business, management, banking, finance, community work, health, natural resource management and science. You also have the option of continuing your studies to complete a bachelor's degree, which will provide access to a wide range of careers and employment opportunities.

Course structure

To graduate from the Associate Degree of Arts, Business and Sciences, you must complete a minimum of 16 credit points, comprising core units and elective units. If you are studying through a partner TAFE these credit points can also include credits gained through subjects studied as part of your TAFE diploma course.

The core units will focus on the knowledge and skills you need to be a successful university student. They will provide you with an introduction to studying at university from the perspective of three different disciplines or subjects, and ensure that you become a more self-directed learner. They will also provide support for your study in other subject areas, particularly through the development of academic writing, critical thinking and information technology skills.

In addition to the core units, you will select four electives in your first year and eight in your second year, from units offered by the Faculties of Arts and Education; Business and Law*; Science, Engineering and Built Environment; and Health.

Major sequences in arts, business, education, health and science are available.

You will be guided with your subject selection to ensure you choose units that will provide the maximum credit when using the associate degree as a pathway to a bachelor's degree or to optimise employment opportunities.

If you study this course through the Warrnambool Campus or Geelong Waurin Ponds Campus* you will also have the option to complete a mentored work placement in your final trimester. This is a great way to gain real-life work experience and enhance your employment opportunities.

Core units – for the course offered at the Warrnambool and Geelong Waurin Ponds Campuses*

Level 1

EAD101 Learning for a Knowledge Society
 EAD102 E-Literacy for Contemporary Learning
 EAD104 Work and the Sustainable Society (2 credit points)
plus four elective units from the list below

Level 2

Select eight first or second level units of a target bachelor's degree.

Elective units

You may choose from a range of units offered at levels 1 and 2 from the Warrnambool Campus, Geelong Waurin Ponds Campus* (or off campus) as listed below, or the Work Placement unit, which is recommended for those intending to finish at the end of level 2.

ACV101 Studio Art: Painting A
 ACV102 Studio Art: Painting B
 AIA105 Visions of Australia – Time and Space From 1700 to 2010
 AIA106 Populate or Perish: Australia's People
 ALC101 Contemporary Communication: Making Sense of Text, Image and Meaning
 ALC102 Contemporary Communication: Making Sense of New Media
 ALW117 Writing for Professional Practice
 ASC101 Introduction to Sociology A
 ASC102 Introduction to Sociology B
 EAD103 Independent Study (recommended)
 EAD105 Applied Community Project (recommended)
 HBS107 Understanding Health
 HBS108 Health Information and Data
 HBS110 Health Behaviour
 MAA103 Accounting for Decision Making
 MAE102 The Global Economy
 MIS101 Business Information Systems
 MMM132 Management
 SLE102 Physical Geography
 SLE103 Ecology and the Environment

Work placement unit

EAD201 Work Placement (2 credit points)

[^] As part of the Deakin at Your Doorstep initiative, this course is offered at the Warrnambool Campus or Geelong Waurin Ponds Campus*. The University also offers the course through its TAFE partners at their campuses in Bairnsdale, Craigieburn, Dandenong, Mornington Peninsula, Portland, Swan Hill and Wangaratta.

* Faculty of Business and Law units are offered from the Geelong Waterfront Campus.

HEALTH SCIENCES

COMBINED COURSES

BACHELOR OF HEALTH SCIENCES/ BACHELOR OF ARTS 4 B

DEAKIN CODE	ATAR	INDICATIVE FIRST YEAR FEE
D391	B 74.20	\$6990 (CSP) ¹
YEAR 12 PREREQUISITES	NON-YEAR 12 REQUIREMENTS	
VCE units 3 and 4 – a study score of at least 30 in English (ESL) or 25 in any other English.	VTAC Personal History online. Some applicants only: STAT Multiple Choice.	

The Bachelor of Health Sciences/Bachelor of Arts is a flexible degree that provides a range of exciting opportunities and equips graduates with the skills needed to work in a variety of valuable settings. This course is an excellent option for those looking to discover their passion in health and the arts and also provides a pathway to further professional studies at postgraduate level.

The course allows you to undertake complementary studies in both these areas while exploring particular areas of interest. You choose how to structure your course and could combine, for example; exercise science with dance, politics and policy studies with nutrition, sport coaching with media and communication, food studies with journalism, or sociology with health promotion.

Career opportunities

As a graduate of this combined course you will have the knowledge and skills to pursue a diverse range of career opportunities. The type of options available to you will depend on the major sequences you take within your course.

An arts degree provides skills for a wide range of careers. Graduates may find careers in international relations, journalism, professional writing, advertising, media, photography, multimedia, publishing, public relations, personnel and industrial relations, government, administration, policy development, research, community services, ethnic affairs, psychology, social work, community development, education, policing, the security industry, performing arts (including dance and drama) and visual arts.

For information about the career opportunities related to health sciences, please refer to the Bachelor of Health Sciences course entry on page 7.

DID YOU KNOW?

Experience has shown that employers often prefer graduates who have studied combined courses, as these graduates are highly regarded for their breadth of knowledge.

Work-Integrated Learning

As part of the Bachelor of Health Sciences component of this course, you can enhance your employment prospects and consolidate your knowledge and skills through an industry placement unit. Depending on the major sequences you choose to study, this option may be available in the final year of your course.

Course structure

You must complete 32 credit points of study, including 16 credit points from the Bachelor of Arts and 16 credit points from the Bachelor of Health Sciences.

Within the 16 credit points from the Bachelor of Health Sciences, you must complete two core units offered by the Faculty of Health, which provide you with the opportunity to engage in multidisciplinary learning, and two major sequences.

Bachelor of Health Sciences core units and major sequences

Refer to page 7 for the core units and major sequences available in the Bachelor of Health Sciences.

Bachelor of Arts major sequences

Within the 16 credit points from the Bachelor of Arts, you must complete at least 4 credit points at level 3 and at least one major sequence from the list below.

- Animation B
- Anthropology X
- Arabic B X
- Australian studies B X
- Children's literature B X
- Chinese B
- Criminology X
- Dance B
- Drama B
- Film studies B
- History B X
- Indonesian B X
- International relations B X
- Journalism B X
- Language and culture studies B X X *
- Literary studies B X
- Media and communication B X
- Middle East studies B X
- Philosophy B X
- Photography B
- Politics and policy studies B X
- Professional and creative writing B
- Public relations X
- Sociology B X
- Visual arts B

* A full major sequence in Chinese is not available in off-campus mode.

> Dance major sequence offered to Bachelor of Teaching(Secondary)/Bachelor of Arts (D347) students and students enrolled in Bachelor of Creative Arts courses only from 2013.

For more information on these major sequences, please refer to the *2014 Undergraduate Arts, Humanities and Social Sciences Career Booklet*.

BACHELOR OF INFORMATION SYSTEMS/ BACHELOR OF HEALTH SCIENCES **4** **B** **G** **F**^o

DEAKIN CODE	ATAR	INDICATIVE FIRST YEAR FEE
D368	B N/A G F N/A	\$8370 (CSP) ¹
YEAR 12 PREREQUISITES	NON-YEAR 12 REQUIREMENTS	
VCE units 3 and 4 – a study score of at least 30 in English (ESL) or 25 in any other English.	VTAC Personal History online, academic results and GPA or interview.	

The Bachelor of Information Systems/Bachelor of Health Sciences is a flexible degree that provides a range of exciting opportunities and equips graduates with the skills needed to work in a variety of settings. It is an excellent option for those looking to discover their passion in the health and information systems areas and also provides a pathway to further professional studies at postgraduate level.

Career opportunities

As a graduate of this combined course you will have the specialised knowledge and skills required to build a career as an information systems professional in an industry sector of your choosing. You will also have the ability to pursue a diverse range of career opportunities within the health sector. The type of options available to you will depend on the major sequences you take within the health sciences component of this combined course.

For information about the career opportunities related to health sciences, please refer to the Bachelor of Health Sciences course entry on page 7.

Information systems professionals have access to employment in just about every Australian industry, including all levels of government. This course is designed to give you essential business skills, as well as expertise in information systems, enabling you to achieve specialist information systems career roles such as project manager, business analyst, security analyst, database developer, web designer and information systems project leader.

Work-Integrated Learning

As part of the Bachelor of Health Sciences component of this course, you can enhance your employment prospects and consolidate your knowledge and skills through an industry placement unit. Depending on the major sequences you choose to study, this option may be available in the final year of your course.

As part of the Bachelor of Information Systems component of this course, the Faculty of Business and Law offers Work-Integrated Learning, which covers business internships, community-based volunteering, industry-based learning and international study opportunities. More information can be found at deakin.edu.au/buslaw/wil.

For more information and to click through to unit descriptions, please visit deakin.edu.au/courses.

Course structure

You must complete 32 credit points of study, including 16 credit points from the Bachelor of Information Systems and 16 credit points from the Bachelor of Health Sciences.

The 16 credit points from the Bachelor of Information Systems must include the 16 credit points of core units.

Within the 16 credit points from the Bachelor of Health Sciences, you must complete two core units offered by the Faculty of Health, which provide you with the opportunity to engage in multidisciplinary learning, and two major sequences.

Bachelor of Health Sciences core units and major sequences

Refer to page 7 for the core units and major sequences available in the Bachelor of Health Sciences.

Bachelor of Information Systems units

Core units

MCA010 Communication for Academic Studies (0 credit points)
 MIS101 Business Information Systems
 MIS171 Business Analytics
 MIS201 Business Requirements Analysis
 MIS202 Managing Data and Information
 MIS211 IS Services, Infrastructure and the Cloud
 MIS231 Professional Ethics in the Digital Age
 MIS271 Business Intelligence
 MIS276 Design Thinking
 MIS291 Community Based Volunteering A
 MIS312 eBusiness Strategies
 MIS332 People, Work and Technology
 MIS352 Enterprise Systems
 MIS398 Project Management
 MIS399 Capstone Project

Plus 2 credit points of Work-Integrated Learning chosen from:

MIS390 Business Internship A
 MIS391 Business Internship B
 MIS394 Industry Based Learning in Business A
 MIS395 Industry Based Learning in Business B
 MIS396 Industry Based Learning in Business C
 MIS397 Industry Based Learning in Business D

^o Students enrolled at the Geelong Waterfront Campus will be required to undertake some health sciences units at the Geelong Waurn Ponds Campus.

N/A Refer to page 4.

¹ The indicative first year fee is an approximate indication of the cost of this course in the first year of full-time study for a Commonwealth Supported Place (CSP). We can't specify the exact figure, because fees are charged per unit, not per course, so the actual fees may vary depending on what units you choose to study.

The fees quoted in this booklet are for Australian students in 2013, and may change for 2014 and later years. You can find more information about fees on our website at deakin.edu.au or at studyassist.gov.au. For information on fees for international students, please visit deakin.edu.au/international.

BUSINESS SCHOLARS PROGRAM

If you enrol in a business degree in the Faculty of Business and Law, you may apply for the Business Scholars Program. For more information, please visit deakin.edu.au/buslaw/student-scholarships.

FOOD AND NUTRITION

Deakin's Bachelor of Food and Nutrition gives you an understanding of the nature of food and the importance of nutrition for health. Throughout the course, you will gain an understanding of human nutrition and the complexity of current issues relating to food and human health, including cardiovascular disease, nutrition, and ageing, children's food habits, social and physiological aspects of food and nutrition, and bone health. You will learn about the nutrition and health implications of food composition and processing, and gain practical experience in the development of new food products directed at specific health purposes.

Get a career, not just a job

There is increasing community interest in the issues of nutrition and health, and a growing demand for specialists in these fields. Deakin's Bachelor of Food and Nutrition is a comprehensive course that addresses all aspects of human nutrition and health to provide you with the knowledge and skills to work in a range of occupations in private, business or community settings.

Our courses are professionally recognised

As a graduate or enrolled student of this course, you can apply for membership of the Nutrition Society of Australia (NSA). Students who choose to undertake the food science major sequence may also be eligible for membership of the Australian Institute of Food Science and Technology (AIFST).

We offer the largest nutrition course in Victoria

Deakin's Bachelor of Food and Nutrition is the largest nutrition course in Victoria. Based at our Melbourne Burwood Campus, this course offers the largest number of Commonwealth Supported Places of all Victorian universities with a nutrition program, and provides a pathway to postgraduate study in dietetics for those interested in a career in this area.

Study nutrition without VCE chemistry

Deakin's Bachelor of Food and Nutrition provides you with greater flexibility, while reducing the need to study VCE chemistry as a prerequisite for entry. That's great news if you're interested in a career in nutrition, but aren't so enthusiastic about studying chemistry at school.

Gain practical experience

If you are interested in the possibility of enhancing your employment prospects by consolidating your knowledge and skills through real field experience in the area of food and nutrition, you may choose to take advantage of Deakin's industry partnerships as part of a practicum placement in the final year of your degree.

WHERE DO OUR GRADUATES GO?

After successfully completing the Bachelor of Food and Nutrition, you will be prepared for careers requiring knowledge of nutrition, health, food analysis, sensory analysis, product development, food safety and food manufacture. If you complete the food science major sequence, you will also be well suited to careers in the food industry where your knowledge of nutrition and food composition will facilitate the creation of food products for specific dietary requirements. You may also gain employment in diverse areas including food policy, food regulation, consumer education and awareness campaigns, private practice and community nutrition.

USEFUL WEBSITES FOR CAREERS IN FOOD AND NUTRITION

INCORPORATE FOOD AND NUTRITION STUDIES IN A HEALTH SCIENCES DEGREE

If you are interested in incorporating food and nutrition studies in a Bachelor of Health Sciences or related combined courses you are encouraged to consider the nutrition and food studies major sequences.

For more information about the Bachelor of Health Sciences, related combined courses and the major sequences available, refer to page 7 of this booklet.

All of our campuses offer places to socialise, grab a coffee and take time out.

FOOD AND NUTRITION

JESSICA PICKERSGILL

BACHELOR OF FOOD SCIENCE AND NUTRITION*
MELBOURNE BURWOOD CAMPUS

'After attending open days at many universities, Deakin was the only one I felt truly comfortable at. The uni itself has a much more relaxed and friendly vibe, along with great teaching staff, which made my decision even easier.

Deakin has tailored this course to help students understand what a career is like in the industry. The teaching staff proved to be invaluable resources for me and were always willing to go that extra step in order to help out.

I completed two internships in my final year at Deakin. Both were three weeks' full-time work at Golden Circle and Heinz. The internships were by far my favourite part of the course and the experience I gained and connections I made are invaluable to the progression of my career.

During my bachelor's degree, I came to realise the great need for food scientists/nutritionists in our society. In the future I aim to help those who need diet modifications to improve their health.'

* Now Bachelor of Food and Nutrition.

BACHELOR OF FOOD AND NUTRITION 3 B

DEAKIN CODE	ATAR	INDICATIVE FIRST YEAR FEE
H315	B 74.50	\$8370 (CSP) ¹
YEAR 12 PREREQUISITES	NON-YEAR 12 REQUIREMENTS	
VCE units 3 and 4 – a study score of at least 30 in English (ESL) or 25 in any other English.	VTAC Personal History online. Some applicants only: STAT Multiple Choice.	

This comprehensive course addresses all aspects of human nutrition and food science, with a strong emphasis on consumer health. Elective study, in complementary areas such as health promotion, psychology, physical activity and health or exercise science, adds diversity to your degree and may be chosen from any area of the University (subject to availability and timetabling). If you are interested in a career in the food industry it is recommended that you undertake a food science major sequence. You may also choose to undertake an industry placement elective unit.

This course provides an opportunity to complete the prerequisites for the Master of Dietetics.

An honours year is available upon completion of this degree.

Professional recognition

Enrolled students and graduates can apply for membership of the Nutrition Society of Australia (NSA). If you choose to undertake the food science major sequence, you may also be eligible for membership of the Australian Institute of Food Science and Technology (AIFST).

Career opportunities

After successfully completing this course, you will be well prepared for careers requiring knowledge of nutrition, health, food analysis, sensory analysis, product development, food safety and food manufacture. If you complete the food science major sequence you will also be well suited to careers in the food industry where your knowledge of nutrition and food composition will facilitate the creation and marketing of food products that help to improve health. You may also gain employment in diverse areas including food policy, food regulation, consumer education and awareness campaigns, private practice, nutrition counselling and community nutrition.

Work-Integrated Learning

If you are interested in the possibility of enhancing your employment prospects by consolidating your knowledge and skills through realistic field experience, you are encouraged to consider undertaking an industry placement. You can do this by choosing to complete HSN311 Food Science and Nutrition Practicum as an elective unit in your final year.

For more information and to click through to unit descriptions, please visit deakin.edu.au/courses.

For the latest information about new courses at Deakin University, please visit deakin.edu.au.

Course structure

You must complete 24 credit points of study, including 16 core units, one compulsory unit (worth 0 credit points) and 8 elective units.

Level 1

HSN010 Food and Nutrition Laboratory Safety (0-credit-point safety unit)
 HBS107 Understanding Health
 HBS109 Human Structure and Function
 HSN101 Food: Nutrition, Culture and Innovation
 HSN103 Food: the Environment and Consumers
 HSN104 The Science of Food
 HSN106 Food Fundamentals
 SLE133 Chemistry in Our World[^]

or

SLE155 Chemistry for the Professional Sciences[^]
 plus one elective unit

Level 2

HSN201 Principles of Nutrition
 HSN202 Lifespan Nutrition
 HSN209 Food Security and Safety
 HSN210 Nutrition and Food Promotion
 plus four elective units

Level 3

HSN301 Diet and Disease
 HSN302 Population Nutrition
 HSN305 Assessing Food Intake and Activity
 HSN309 Food Policy and Regulation
 HSN313 Sensory Evaluation of Foods
 plus three elective units

Elective units

HSN204 Food Microbiology and HACCP
 HSN206 Food Analysis and Quality Assurance
 HSN212 Functional Foods and Biotechnology
 HSN213 Current Controversies in Food and Nutrition
 HSN307 Sports Nutrition: Theory and Practice
 HSN308 Food, Nutrition and Society
 HSN311 Food and Nutrition Practicum
 HSN315 Food Manufacturing and Process Innovation
 HSN320 Trends in Product Development
 HSN360 International Perspectives in Food and Nutrition
 SLE155 Chemistry for the Professional Sciences*
 SLE212 Biochemistry*
 SLE222 Biomechanical Metabolism*

[^] Students who have not completed Year 12 Chemistry or equivalent may choose to undertake SLE133 Chemistry in Our World. Students who have completed Year 12 Chemistry or equivalent may choose to undertake SLE155 Chemistry for Professional Sciences.

* Students interested in undertaking the prerequisites for application to the Master of Dietetics are required to complete these units.

1 The indicative first year fee is an approximate indication of the cost of this course in the first year of full-time study for a Commonwealth Supported Place (CSP). We can't specify the exact figure, because fees are charged per unit, not per course, so the actual fees may vary depending on what units you choose to study.

The fees quoted in this booklet are for Australian students in 2013, and may change for 2014 and later years. You can find more information about fees on our website at deakin.edu.au or at studyassist.gov.au. For information on fees for international students, please visit deakin.edu.au/international.

DID YOU KNOW?

You don't need to study VCE chemistry as a prerequisite for entry to Deakin's Bachelor of Food and Nutrition. That's great news if you're interested in a career in nutrition but aren't so enthusiastic about studying chemistry at school.

Melbourne Burwood Campus

OCCUPATIONAL THERAPY

Occupational therapists have specialised knowledge to promote health and wellbeing through occupation. Using their understanding of occupation and health, occupational therapists work collaboratively with people who might have limitations, including those caused by injury, health conditions, delayed development or the effects of ageing. Occupational therapy interventions are designed to enhance participation in everyday life and may include activities or assistive devices, or modification of home or work environments, to facilitate active engagement in work, home, social and leisure activities.

Growing employment opportunities

Employment opportunities for occupational therapists continue to grow due to shortages of qualified practitioners in many areas of practice and in many regions around Australia and internationally.

Our courses are professionally recognised

You can travel around the world with your occupational therapy qualification from Deakin. Deakin's Bachelor of Occupational Therapy is accredited by Occupational Therapy Australia and the World Federation of Occupational Therapists, enabling you to practise professionally in Australia and overseas.

Access purpose-built facilities

You will be taught in Deakin's purpose-built facilities at the Geelong Waterfront Campus, which have been developed to simulate real-life settings and enable you to gain the knowledge and skills required to help a client manage their entire day in modified home and office environments.

Gain practical experience

You will undertake a variety of practicum placements throughout the four years of the course, commencing in your first year. Fieldwork provides you with the opportunity to gain valuable skills and experience under the supervision of qualified practitioners, which will enable you to practise confidently as an occupational therapist. You will complete a minimum of 1000 hours of practical experience. Fieldwork is conducted in a range of settings including schools, hospitals, clinics, community health organisations and industry.

In a host agency, you can play a meaningful role in a variety of activities, including planning programs and events, undertaking needs assessments, developing evaluation tools, counselling, group work, completing literature reviews and producing promotional materials. Placements begin shortly after you commence your first year of study.

Study honours

For eligible students there is an opportunity to study an honours year as part of the four-year course. Honours can offer you a competitive edge in the job market along with providing a pathway into a higher degree – many honours students go on to complete a PhD or other advanced qualifications.

Occupational therapy students benefit from our on-campus clinical skills laboratory.

DID YOU KNOW?

The average minimum salary for occupational therapists in Australia is approximately \$63,000.*

* Source: MyCareer.com.au, <http://content.mycareer.com.au/salary-centre/healthcare/occupational-therapy-rehabilitation>.

WHERE DO OUR GRADUATES GO?

As a graduate of this course you will be able to assist people of all ages to engage in any aspect of daily living. You will help them achieve independence at home, at work and in the community, and help them enhance their quality of life.

You may work with children who have physical or intellectual disabilities, in aged care or with people who have had accidents or are suffering from medical problems. You may work in areas including acute, psychiatric or rehabilitation hospitals, schools, community health, mental health, the workplace (such as in occupational health and safety and vocational rehabilitation), government, private practice or teaching and research.

Recent Deakin occupational therapy graduates have found employment in a range of organisations including, but not limited to, the following:

- ACT Health
- Alfred Health
- Bairnsdale Regional Health Service
- Barwon Health
- Bellarine Community Health
- Cerebral Palsy Education Centre
- CRS Australia
- Department of Education
- Department of Health
- Eastern Health
- Occupational Rehabilitation Services
- Special schools
- St John of God Hospital
- St Vincent's Health
- Vision Australia
- Western Australian Health Services
- Western District Health
- Western Health
- Wimmera Health Care Group.

USEFUL WEBSITES FOR CAREERS IN OCCUPATIONAL THERAPY

Occupational Therapy Australia

OCCUPATIONAL THERAPY

BACHELOR OF OCCUPATIONAL THERAPY 4 F

DEAKIN CODE	ATAR	INDICATIVE FIRST YEAR FEE
H355	F 72.15	\$8030 (CSP) ¹
YEAR 12 PREREQUISITES	NON-YEAR 12 REQUIREMENTS	
VCE units 3 and 4 – a study score of at least 30 in English (ESL) or 25 in any other English.	VTAC Personal History online. Some applicants only: STAT Multiple Choice.	

This course draws upon Deakin's core strengths in health education to ensure you receive a relevant, practical occupational therapy (OT) education that meets changing workforce needs. As a Deakin OT graduate you will be internationally accredited and well prepared to practise in metropolitan, regional and rural locations.

You will benefit from our on-campus clinical skills laboratory that simulates real life settings and enables you to gain the knowledge and skills required to help clients manage their entire day in modified home and office environments. You will also consolidate your skills through a series of supervised placements, which commence shortly after you begin your studies.

Selected students will have the opportunity to complete an honours year as part of this course.

Professional recognition

This course is accredited by Occupational Therapy Australia and the World Federation of Occupational Therapists. As a Deakin OT graduate you will be eligible for membership of these organisations and well prepared to practise professionally throughout Australia and internationally.

Career opportunities

Employment opportunities for occupational therapists have never been greater due to shortages of qualified practitioners in many areas of practice and in many regions around Australia and internationally. As a graduate of this course you will be able to assist people of all ages to engage in any aspect of daily living. You will help them achieve independence at home, at work and in the community, and help them enhance their quality of life. You may work with children who have physical or intellectual disabilities, in aged care or with people who have had accidents or are suffering from medical problems. You may work in areas including acute, psychiatric or rehabilitation hospitals, schools, community health, mental health, the workplace (such as in occupational health and safety and vocational rehabilitation), government, private practice or teaching and research.

Work-Integrated Learning

You will undertake a minimum of 1000 hours of practicum placements throughout the four years of the course, commencing in year one. Fieldwork is conducted in a range of settings including schools, hospitals, clinics, community health organisations and industry.

Work placement requirements

In accordance with Department of Human Services policy^{*}, occupational therapy students are required to undertake a Police Record Check prior to work placements in each calendar year of their course. In accordance with the Working with Children Act 2005^{**}, all students are required to undertake a Working with Children Check at commencement of the course. If you fail to obtain a Police Record Check and a Working with Children Check prior to the commencement of the work placement you will not be able to undertake the work placement. You may also be required to declare your immunisation status to satisfy the requirements of health organisations where you will be undertaking your work placement. All expenses associated with the work placement are your responsibility.

^{*} Department of Human Services Policy on Working with Children Check and Police Record Check can be found at: www.dhs.vic.gov.au/facs/bdb/fmu/service-agreement/4.departmental-policies-procedures-and-initiatives/4.6-police-record-check-policy-including-working-with-children-check.

HSO403 Promoting Occupational Engagement through Assistive Technology
 HSO405 Work Integrated Learning B (2 credit points)
 HSO411 OT Honours Proposal, Ethics and Literature
 HSO414 OT Honours Analysis and Critique
 HSO416 Honours Research Project (3 credit points)

1 The indicative first year fee is an approximate indication of the cost of this course in the first year of full-time study for a Commonwealth Supported Place (CSP). We can't specify the exact figure, because fees are charged per unit, not per course, so the actual fees may vary depending on what units you choose to study.

The fees quoted in this booklet are for Australian students in 2013, and may change for 2014 and later years. You can find more information about fees on our website at deakin.edu.au or at studyassist.gov.au. For information on fees for international students, please visit deakin.edu.au/international.

MELANIE BENNETT

BACHELOR OF OCCUPATIONAL THERAPY
 GEELONG WATERFRONT CAMPUS

'I knew I wanted to do something in the health field but don't like blood and gore, so when I went to the Deakin Open Day and heard about occupational therapy it sounded perfect.

At Deakin there are lots of opportunities to practice the skills you have learnt in the course. We had hoists, wheelchairs, and a whole room full of equipment. We also got to do some splinting in tutorial classes in second and third year which was cool.

I am now working in early intervention at Pinarc Disability Support, and loving it. I really wanted to work with children in a community health setting, and get a lot of support in my job – so I couldn't ask for anything more as a new graduate! I am also funded to work in community therapy with people of all ages with disabilities. It has been good to keep learning in both the paediatric and adult sides of occupational therapy.

Occupational therapy is such a broad profession and you can make such a huge difference in people's lives. It's really rewarding and interesting.

PUBLIC HEALTH AND HEALTH PROMOTION

Public health and health promotion combines a range of activities directed at improving the health of people in the population. Some well-known public health and health promotion activities include those run by organisations such as SunSmart, TAC and QUIT. Public health and health promotion seeks to understand and act on the social and environmental factors that cause poor health, together with the factors that create and sustain good health.

As a Deakin public health and health promotion student you will acquire the knowledge and skills to tackle population health issues. You will develop an understanding of evidence-based practice, program planning and evaluation, health education, the media, determinants of health, community engagement, and policy development and analysis, while promoting the health of populations and communities.

Growing employment opportunities

Public health and health promotion are growing fields of employment in Australia and around the world. Graduates work with children, adults, disadvantaged groups and employees. The field relies on diverse approaches, including community engagement, health education, policy development and the media to combat factors that can cause poor health.

You can expand your career options

The Bachelor of Public Health and Health Promotion is also offered as part of combined courses that give you the opportunity to gain knowledge and skills in a complementary discipline such as nursing or commerce. Studying a combined course enables you to acquire two degrees in less time than it would take to complete the degrees separately, further expanding your career options.

Gain practical experience

Deakin's Bachelor of Public Health and Health Promotion focuses on developing the capacity of individuals and communities to improve the health and wellbeing of the population. In addition to attending lectures and tutorials, you will undertake the public health and health promotion practicum unit in your final year. This practicum unit will enable you to consolidate your knowledge and skills through realistic field experience, which assists you to be work-ready after graduation.

Melbourne Burwood Campus

INCORPORATE HEALTH PROMOTION STUDIES IN A HEALTH SCIENCES DEGREE

If you are interested in incorporating health promotion studies in a Bachelor of Health Sciences or related combined courses, you are encouraged to consider the health promotion major sequence.

For more information about the Bachelor of Health Sciences, related combined courses and the major sequences available, refer to page 7 of this booklet.

WHERE DO OUR GRADUATES GO?

Public health and health promotion are growing fields, with graduates finding exciting employment both in Australia and internationally. You may work with children, adults, disadvantaged groups and employees, to develop and implement activities to combat factors that cause poor health, and support and sustain good health.

As a graduate, you may find employment in areas such as alcohol and other drug use, chronic illness (for example asthma, arthritis and heart disease), health and wellbeing, healthy eating, homelessness, mental health, physical activity, smoking cessation and social inclusion.

You may qualify to work in positions such as advocacy and mediation worker, community development officer, health educator, health policy developer, health promotion coordinator, health promotion officer, health researcher, partnerships coordinator, planning officer, program development officer, program evaluator, program manager (in community health, local council and other organisations), project officer, social planning officer or women's health officer.

PUBLIC HEALTH AND HEALTH PROMOTION

BACHELOR OF PUBLIC HEALTH AND HEALTH PROMOTION 3 B

DEAKIN CODE	ATAR	INDICATIVE FIRST YEAR FEE
H313	B 55.85	\$8150 (CSP) ¹
YEAR 12 PREREQUISITES		NON-YEAR 12 REQUIREMENTS
VCE units 3 and 4 – a study score of at least 30 in English (ESL) or 25 in any other English.		VTAC Personal History online. Some applicants only: STAT Multiple Choice.

Public health and health promotion seeks to understand and act on the social and environmental factors that cause poor health as well as the factors that create and sustain good health. The field relies on diverse approaches, including community engagement, policy development, research, education and the media, to combat factors that cause poor health within populations. This is a growing field, with graduates finding exciting government and private sector roles across Australia and internationally.

Practical work placements provide you with the opportunity to gain valuable experience and further develop your skills in the field, to prepare you for your career in the health sector.

An honours year is available upon completion of this degree.

Professional recognition

Graduates will be eligible to apply for membership of the Public Health Association of Australia (PHAA).

Career opportunities

Graduates of the Bachelor of Public Health and Health Promotion may qualify to work in positions including health promotion officer, community development officer, social planning officer, health educator, women's health officer, health policy developer, planning officer, health researcher, program development officer or program evaluator in a number of sectors and organisations.

Work-Integrated Learning

Undertaking a Public Health and Health Promotion Practicum unit in the final year of your course enables you to consolidate your skills through realistic field experience, which assists you to be work-ready after graduation.

Course structure

You must complete 24 credit points of study, including three foundation health units, 13 core units in public health and health promotion and eight elective units.

Level 1

HBS107 Understanding Health
HBS108 Health Information and Data
HBS110 Health Behaviour
HSH111 Introduction to Public Health and Health Promotion
HSH112 Local and Global Environments for Health
HSH113 Social Perspectives on Population Health
plus two elective units

Level 2

HSH201 Planning and Evaluation 1
HSH205 Epidemiology and Biostatistics 1
HSH208 Professional Practice 1
HSH212 Professional Practice 2
HSH216 Epidemiology and Biostatistics 2
HSH218 Planning and Evaluation 2
plus two elective units

Level 3

HSH302 Politics, Policy and Health
HSH303 Public Health and Health Promotion Practicum
HSH313 Contemporary Health Issues
HSH319 Population Health: a Research Perspective
plus four elective units

Elective units

Elective units may be selected from any faculty in the University (subject to availability and timetabling).

Health promotion elective units

HSH105 Understanding Families and Health
HSH206 Human Development and Healthy Families
HSH207 Socio-Economic Status and Health
HSH210 Social Diversity and Health
HSH306 People, Health and Place

You will be taught by staff who have industry experience and who have been recognised as leaders and innovators in their fields.

COMBINED COURSES

BACHELOR OF NURSING/ BACHELOR OF PUBLIC HEALTH AND HEALTH PROMOTION **4** **B**

DEAKIN CODE	ATAR	INDICATIVE FIRST YEAR FEE
D381	B 72.20	\$6880 (CSP) ¹
YEAR 12 PREREQUISITES		NON-YEAR 12 REQUIREMENTS
VCE units 3 and 4 – a study score of at least 30 in English (ESL) or 25 in any other English.		VTAC Personal History online. Some applicants only: STAT Multiple Choice.

By combining these courses you will develop your skills and gain specialised knowledge in the provision of nursing care and health promotion services.

In addition to the knowledge and skills acquired through our Bachelor of Nursing degree, you will study a wide range of units that provide the knowledge base for public health and health promotion practice such as environmental health, health sociology, planning and evaluation, epidemiology, biostatistics and research. You will learn to apply public health and health promotion strategies to populations at risk of disease, and will gain a broader understanding of the major health issues that are facing Australia and the world – such as obesity, diabetes, cancer and heart disease.

An honours year is available upon completion of this degree.

Professional recognition

This course is specifically designed to fulfil the registration requirements for Registered Nurse (Division 1) of the Nursing and Midwifery Board of Australia (NMBA). Graduates will also be eligible to apply for membership of the Public Health Association of Australia (PHAA).

Career opportunities

Public health and health promotion are growing fields of employment in Australia and around the world. Upon completion of this combined course you will be qualified to work in areas such as health education, human services, and health policy development and implementation, in addition to pursuing roles as a registered nurse in a range of work areas. Your knowledge of the social and environmental factors that affect the health of individuals and populations will prepare you for a career in a range of clinical and community settings such as public health, schools, rehabilitation, health education, voluntary organisations, patient support agencies or working abroad.

Work-Integrated Learning

You will benefit from our purpose-built Clinical Simulation Centre and undertake a variety of clinical placements that begin in Trimester 1 of your first year. In addition, you will complete a Public Health and Health Promotion Practicum unit that will provide an in-depth, working understanding of public health and health promotion principles and approaches in the field.

Clinical placement requirements

In accordance with Department of Human Services policy*, nursing students are required to undertake a Police Record Check prior to work placements in each calendar year of their course. In accordance with the Working with Children Act 2005**, all students are required to undertake a Working with Children Check at commencement of the course. If you fail to obtain a Police Record Check and/or a Working with Children Check by the date specified each year by the School of Nursing and Midwifery you will not be able to undertake the required related work placement. You may also be required to declare your immunisation status to satisfy the requirements of health organisations where you will be undertaking your work placement. All expenses associated with the work placement are your responsibility.

* Department of Human Services Policy on Working with Children Check and Police Record Check can be found at: www.dhs.vic.gov.au/facs/bdb/fmu/service-agreement/4.departmental-policies-procedures-and-initiatives/4.6-police-record-check-policy-including-working-with-children-check

** Department of Justice 2007, Working with Children Act 2005, Victoria, Australia, retrieved 16 June 2008.

Course structure

You must complete 32 credit points of study, including 19 credit points specific to nursing and 13 credit points specific to public health and health promotion.

Level 1

HBS109 Human Structure and Function
 HNN112 Principles of Nursing Care
 HNN114 Health Assessment
 HNN120 The Discipline of Nursing: Contemporary Issues and Trends 1
 HNN122 Nursing Management and Interventions 1 (2 credit points)
 HSH111 Introduction to Public Health and Health Promotion
 HSH112 Local and Global Environments for Health

Level 2

HBS108 Health Information and Data
 HNN215 Quality Use of Medicines in Nursing
 HNN222 Mental Health Nursing (2 credit points)
 HNN227 Nursing Management and Interventions 2 (2 credit points)
 HSH208 Professional Practice 1
 HSH212 Professional Practice 2

Level 3

HNN217 Nursing in Community Settings
 HNN300 Child and Adolescent Nursing
 HNN318 Nursing Management of the Older Person
 HSH113 Social Perspectives on Population Health
 HSH201 Planning and Evaluation 1
 HSH205 Epidemiology and Biostatistics 1
 HSH216 Epidemiology and Biostatistics 2
 HSH218 Planning and Evaluation 2

Level 4

HNN301 Mental Health Promotion
 HNN319 Nursing Management of Chronic Illness
 HNN320 The Discipline of Nursing: Contemporary Issues and Trends 2
 HNN325 Comprehensive Nursing Management and Interventions (2 credit points)
 HSH302 Politics, Policy and Health
 HSH303 Public Health and Health Promotion Practicum
 HSH319 Population Health: a Research Perspective

PUBLIC HEALTH AND HEALTH PROMOTION

BACHELOR OF PUBLIC HEALTH AND HEALTH PROMOTION/BACHELOR OF COMMERCE 4 B

DEAKIN CODE	ATAR	INDICATIVE FIRST YEAR FEE
D388	B 77.55	\$8710 (CSP) ¹
YEAR 12 PREREQUISITES	NON-YEAR 12 REQUIREMENTS	
VCE units 3 and 4 – a study score of at least 30 in English (ESL) or 25 in any other English.	VTAC Personal History online. Some applicants only: STAT Multiple Choice.	

Health is crucial to the wellbeing of individuals and society, with numerous career opportunities worldwide for health and community services professionals. Businesses are also recognising the importance of the health of employees and the communities they deal with.

This combined course provides you with a thorough understanding of the importance of health education, the factors influencing health practices, and strategies to promote the health of individuals and groups. You will also gain a professional business qualification incorporating aspects of management, marketing, human resources or finance, depending on the major sequence you take in the commerce component of your degree.

Professional recognition

Deakin's Bachelor of Commerce is internationally recognised and the EPAS accredited by the European Foundation for Management Development (EFMD).

The Bachelor of Commerce component of this course can lead to accreditation with many professional bodies, such as the Certified Practising Accountant (CPA) Program of CPA Australia, entry into the CA program of the Institute of Chartered Accountants in Australia (ICAA), the Association of Chartered Certified Accountants (ACCA), the Institute of Public Accountants Professional Accounting Program, the Australian Computer Society (ACS), the Economics Society of Australia and the Australian Marketing Institute, providing you meet the specified requirements within the course. Graduates will also be eligible to apply for membership of the Public Health Association of Australia (PHAA).

Career opportunities

As a graduate of the Bachelor of Public Health and Health Promotion/Bachelor of Commerce you may find employment in either of these professional areas and work with groups such as children, adults, the disadvantaged and employees.

Knowledge of business and health issues assists with executive management positions within the health industry that have policy development, budget and staff management responsibilities.

For more information on career outcomes for the Bachelor of Public Health and Health Promotion, see page 24.

For more information on career outcomes for the Bachelor of Commerce, please refer to the *2014 Undergraduate Business Career Booklet*.

Work-Integrated Learning

As part of the Bachelor of Public Health and Health Promotion component of this course, you can undertake a Public Health and Health Promotion Practicum unit in the final year of your course. This enables you to consolidate your skills through realistic field experience, which assists you to be work-ready after graduation.

As part of the Bachelor of Commerce component of this course, the Faculty of Business and Law offers Work-Integrated Learning, which covers business internships, community-based volunteering, industry-based learning and international study opportunities. For more information, please visit deakin.edu.au/buslaw/wil.

Course structure

You must complete 32 credit points of study, including 16 credit points from the Bachelor of Public Health and Health Promotion and 16 credit points from the Bachelor of Commerce.

Of the 16 public health and health promotion credit points, 13 are core units in public health and health promotion and three are foundation units offered by the Faculty of Health, which provide you with the opportunity to engage in multidisciplinary learning.

Of the 16 credit points specific to commerce, 11 are core units (of which, one is worth 0 credit points). The remaining six credit points are elective units that must be taken from the Faculty of Business and Law to comprise a major sequence and a minimum of 4 credit points at level 3.

Level 1

HBS107 Understanding Health
HBS108 Health Information and Data
HBS110 Health Behaviour
HSH111 Introduction to Public Health and Health Promotion
plus four commerce units

Level 2

HSH112 Local and Global Environments for Health
HSH113 Social Perspectives on Population Health
HSH208 Professional Practice 1
HSH212 Professional Practice 2
plus four commerce units

Level 3

1 The indicative first year fee is an approximate indication of the cost of this course in the first year of full-time study for a Commonwealth Supported Place (CSP). We can't specify the exact figure, because fees are charged per unit, not per course, so the actual fees may vary depending on what units you choose to study.

The fees quoted in this booklet are for Australian students in 2013, and may change for 2014 and later years. You can find more information about fees on our website at deakin.edu.au or at studyassist.gov.au. For information on fees for international students, please visit deakin.edu.au/international.

ELIZABETH O'LOUGHLIN

BACHELOR OF PUBLIC HEALTH AND HEALTH PROMOTION
 MELBOURNE BURWOOD CAMPUS

'I really enjoyed the online support and assistance from Deakin lecturers and teachers. They were always willing to help me through any issues I had. I believe Deakin equipped me with the knowledge and confidence to continue my professional development.

With Deakin's help I was able to travel to Cambodia for three weeks to immerse myself in the remote rural Chup Veary Commune. Whilst volunteering my time with HOPE Project Cambodia, I was able to learn about their not-for-profit programs and see first-hand the benefits achieved for the local families. This experience was invaluable and has confirmed my desire to work with marginalised people in any country I find myself living and working.

I now work as a community programs project officer for the PapScreen Victoria program, where I work with a team of health professionals and community workers to reach marginalised women and help overcome the barriers they face in accessing cervical screening.

I really enjoy building relationships with external stakeholders and working together to implement effective and sustainable strategies to assist people in the community to have better access to health.'

» Read more about Elizabeth's experience at deakin.is/elizabeth-oloughlin.

SOCIAL WORK

Social work is concerned with enhancing the wellbeing of people in their social environments. It is a broad profession with diverse practices that may include working with individuals, families, groups, communities and organisations. Deakin's Bachelor of Social Work focuses on human rights, anti-oppressive practice and diversity, using critical reflection. The field education component of the course prepares you to practise in a full range of settings in which social workers are employed, while giving particular attention to rural practice settings. Among a larger set of possibilities, social workers can find employment in counselling, case management, education, community development and policy development.

Social work at Deakin is unique

The Bachelor of Social Work provides a progressive, innovative and broad-based approach to social work with emphasis on communities, women's issues, community development and social development from urban to rural and local to global contexts. The course values critically reflective practice, which sets it apart from other social work programs in Australia.

Complete your studies via off-campus study

In addition to traditional face-to-face teaching, all undergraduate social work subjects are taught in off-campus mode, and can be taken as part of a full-time or part-time degree. You can take advantage of this flexibility to study social work when, where and how you like, and to fit your study in with your work and personal commitments. Perhaps you'll choose to undertake your entire course on campus, in off-campus mode, or combine on and off-campus study.

Gain practical experience

Fieldwork provides you with the opportunity to gain valuable skills and practical experience under the supervision of qualified social work practitioners. During the course you will complete a minimum of 1000 hours of fieldwork placements that are conducted in a variety of communities and workplaces in metropolitan and regional settings. One of the two fieldwork placements offered will have a rural focus.

There are growing employment opportunities

Social work is part of a growing human services field, with graduates working across local, state and federal government departments; in private and non-government human services organisations; and in various advocacy, policy-making and tribunal capacities.

Our course is professionally accredited

Deakin's Bachelor of Social Work is an Australian Association of Social Workers (AASW) accredited qualification. It is an entry qualification into the social work profession and has been determined to meet the Australian Social Work Education and Accreditation Standards (ASWEAS).

As a Deakin student, you will learn in a friendly and supportive environment.

WHERE DO OUR GRADUATES GO?

As a Deakin social work graduate you may be involved in activities as diverse as policy development and research, counselling, family therapy, drug and alcohol counselling, community development and refugee assistance. Social workers also work as program managers or coordinators, as advocates, facilitators, activists or consultants. You may work in specialist areas such as health, housing or education, or with groups such as the aged, women, youth or multicultural populations.

As a graduate, you may qualify to work in positions such as:

- careers counsellor
- case manager
- child and family counsellor
- child protection officer
- community development access officer
- community development and education officer
- community strengthening officer
- community support and inclusion officer
- community welfare coordinator
- disability support coordinator
- diversity officer
- drug and alcohol case manager
- family relationship adviser
- mental health coordinator
- policy and planning adviser
- rehabilitation consultant
- school counsellor
- youth projects officer.

Recent Deakin social work graduates have found employment in a range of organisations including, but not limited to, the following:

- Amnesty International
- Barwon Health
- Bethany Community Support
- Centacare, Canberra
- Clinical Services, Corrections Victoria
- CRS Australia
- Department of Education, Victoria
- Department of Human Services
- Glastonbury Child and Family Services
- Goulburn Valley Health
- Hume City Council
- MacKillop Family Services
- World Vision.

DID YOU KNOW?

The average minimum salary for social workers in Australia is approximately \$60 000.*

H330	F 61.65 X N/A	\$6420 (CSP) ¹
YEAR 12 PREREQUISITES	NON-YEAR 12 REQUIREMENTS	
VCE units 3 and 4 – a study score of at least 30 in English (ESL) or 25 in any other English.	VTAC Personal History online. Some applicants only: STAT Multiple Choice.	

Deakin's Bachelor of Social Work emphasises rural and regional communities; race and gender issues; equity, power and diversity issues; social and community development; and anti-oppressive and empowerment approaches to social work practice and social policy.

During the course you will study areas related to social and behavioural sciences, sociology, politics, psychology, health sciences, law, social work theory and practice, social policy and research.

Selected students have the opportunity to complete an honours year as part of this course.

Professional recognition

Deakin's Bachelor of Social Work is an Australian Association of Social Workers (AASW) accredited qualification. It is an entry qualification into the social work profession and has been determined to meet the Australian Social Work Education and Accreditation Standards (ASWEAS). The AASW recognises Deakin's social work program's commitment to 'critically reflective practice', which sets it apart from other social work programs in Australia. As a Deakin social work graduate you will be eligible to apply for membership of the AASW and seek employment throughout Australia.

Career opportunities

Social work is part of a growing human services field, with graduates working across local, state and federal government departments; in private and non-government human services organisations; and in various advocacy, policy making and tribunal capacities.

You may be involved in activities as diverse as policy development and research, counselling, family therapy, drug and alcohol counselling, community development and refugee assistance. Social workers also work as program managers or coordinators, as advocates, facilitators, activists or consultants. KATE ROBINSON

BACHELOR OF SOCIAL WORK
 GEELONG WATERFRONT CAMPUS

'The approachability of the social work staff was really refreshing. I could walk into my lecturers' offices and have a chat about anything; my friends at other universities couldn't do that.

The social work course is designed in such a way that every student develops a better understanding of the world that surrounds them. I've learnt about politics, and sociology has opened up a whole other way of interpreting conversations, interactions and issues not just in my own environment but globally as well.

I am now employed as a social worker with the Department of Education and Early Childhood Development. I work across 12 primary, secondary and special education schools in rural and regional areas. I deliver a range of services including education programs, early intervention, assessment, complex case management, professional learning workshops for teaching staff and community development. I've also been involved in planning and delivering a forum focused on a range of issues confronting youth in my local area, and I'm part of a Critical Incident Response Team, which provides support to the school and extended community during tragic circumstances.'

MEDICINE

Deakin medicine

The Deakin Medical School, based at the Geelong Warrn Ponds Campus, is the first rural and regional medical school in Victoria. Deakin's Bachelor of Medicine Bachelor of Surgery (BMBS) is a four-year, graduate-entry program that will prepare you for practice in a range of health care settings. A graduate-entry program requires successful completion of an undergraduate degree as a prerequisite to entry.

Meeting workforce demands

There is currently a significant medical workforce shortage throughout Australia, particularly in rural, regional and outer metropolitan locations. As a Deakin medicine graduate you will be in high demand for internships in Victoria and other states, and well prepared to enter specialty training programs in all areas of medicine, as well as work in a wide range of hospital or ambulatory settings in Australia or overseas. You will also be well placed to pursue a career in medical research.

Undertake problem-based learning

In Deakin's medicine course, the main teaching method is Problem-Based Learning (PBL). You will analyse real cases in small groups to learn the basic sciences required to practise medicine. There is a strong emphasis on information technology, which has become an essential part of clinical practice, and on early clinical experience, including simulation-based teaching.

Engage in multidisciplinary learning

Deakin's Bachelor of Medicine Bachelor of Surgery program has a strong emphasis on inter-professional learning. Medical students work with students and practitioners from a range of other health disciplines, including nursing, psychology, social work, occupational therapy and dietetics. This experience introduces you to working in multidisciplinary teams and helps develop an understanding of the expertise and role of different health professionals.

Diverse major study areas

Four themes are carried through the Bachelor of Medicine Bachelor of Surgery: knowledge of health and illness; doctor and patient; doctors, people, cultures and institutions; and ethics, law and professional development.

The predominant theme during the first two years – 'knowledge of health and illness' – is delivered in the following eight systems-based topics:

- human biology
- infection, defense and repair
- cardiorespiratory
- renal/gastrointestinal
- endocrine and lifecycle
- musculoskeletal and metabolism
- brain and behaviour
- transition to clinical practice.

Engage in clinical learning

The first two years of the course use a systems approach and Problem-Based Learning tutorials with a focus on inter-professional learning. During this time, you will be based at Deakin's Geelong Warrn Ponds Campus and will also attend clinical sites (hospitals, general practices, community health centres) in the Geelong region.

During the third and fourth years, training will be delivered in clinical settings in one of four Clinical Schools – the Greater Green Triangle Clinical School (centred on Warrnambool), the Grampians Clinical School (centred on Ballarat), the Greater Geelong Clinical School (centred on Geelong), and the Eastern Health Clinical School in Box Hill. The Integrated Model of Medical Education in Rural Settings (IMMERSe) gives some third-year students the opportunity to spend an entire year of study attached to a general practice in one of a number of regional centres in Western Victoria, including Ararat, Bacchus Marsh, Camperdown, Casterton, Colac, Daylesford, Hamilton, Horsham and Stawell, where students are able to develop strong community engagement.

There is also an opportunity to study interstate or overseas during an elective term in fourth year for those with a desire for broader horizons.

There is special emphasis on rural and regional medicine

As a Deakin medicine student you will have the opportunity to become familiar with the role of rural and regional general practitioners, specialists and other health professionals. You will develop networks in regional areas and become familiar with the way medicine is practised in the country, along with the challenges and rewards associated with it.

Pathways to medicine

Several undergraduate programs at Deakin provide pathways for entry into the Deakin graduate-entry medicine program, particularly when appropriate major sequences and elective units are chosen. Deakin teaches a full range of health disciplines including nursing, public health and health promotion, health sciences, dietetics, occupational therapy, psychology, exercise science and biomedical science.

WHERE DO OUR GRADUATES GO?

As a graduate, you will be in high demand for internships and well prepared to enter specialty training programs for a diverse range of medical careers including accident and emergency, anaesthesia, dermatology, general practice, geriatric medicine, intensive care, internal medicine, obstetrics and gynaecology, occupational medicine, ophthalmology, paediatrics, oncology, cardiology, neurology, pathology, histopathology, microbiology, psychiatry, public health medicine, radiology, rehabilitation medicine, sexual health, sports medicine or surgery. Other possible career paths include medical research, academia, and hospital and government medical administration.

Deakin's first cohort of Bachelor of Medicine Bachelor of Surgery students completed their degree at the end of 2011 and all were successful in gaining an internship. In order to qualify as registered medical practitioners with the Australian Medical Council (AMC) these graduates are currently undertaking accredited internships at a number of Victorian and interstate hospitals belonging to health care organisations including:

- Albury Wodonga Health
- Alfred Health
- Austin Health
- Ballarat Health Services
- Barwon Health
- Bendigo Health Care Group
- Eastern Health
- Gippsland Rural Intern Training Program
- Goulburn Valley Health
- Melbourne Health
- Mildura Base Hospital
- Murray to Mountains Intern Program
- Northern Health
- Peninsula Health
- South West Healthcare, Warrnambool
- Southern Health
- St Vincent's Health Australia.

Following successful completion of their intern year, they will be able to apply for entry to specialty training programs for a diverse range of medical careers.

TRAUDI ALMHOFER

BACHELOR OF MEDICINE BACHELOR OF SURGERY
GEELONG WAURN PONDS CAMPUS

'I remember having a discussion with my high school careers counsellor. "Have you ever thought about studying medicine?" he said. I laughed and thought there was no way I was ever going to be capable of getting into an undergraduate medical course. So I decided to study nursing instead and worked in several hospitals over a few years. I always enjoyed the patient contact but grew increasingly frustrated by the lack of autonomy so I began to look at other possible career paths. Law? Pilot? Florist?

Choosing to study medicine at Deakin was the best decision I could have made. I am now a resident at St Vincent's Hospital in Melbourne where I work closely with more senior doctors, assisting them in their daily tasks. It is a very well supported position, which gives me autonomy over the basic care of my patients, with the security of knowing there is always help available for the more complex aspects of my patients' needs.

I am loving my job. Every day is different and exciting, and I am constantly inspired by the strength and spirit of the people I meet. I wouldn't want to be doing anything else!

ADMISSION REQUIREMENTS

All applicants for the Deakin medicine program are required to sit the Graduate Australian Medical School Admissions Test (GAMSAT) as a prerequisite for admission. For details about GAMSAT including testing dates visit www.gamsat.acer.edu.au.

Accredited by the Australian Medical Council (AMC), Deakin's Bachelor of Medicine Bachelor of Surgery is a four-year graduate-entry program, with an emphasis on the early development of clinical, communication and procedural skills; diagnosis and management of chronic diseases; and multidisciplinary teamwork. The course is distinctive and innovative, and aims to contribute to the improvement of the health and wellbeing of Australians by training doctors who are skilled and motivated to pursue a career in medicine in rural and regional areas, either as specialists or general practitioners.

The first two years of the course will be based at the Geelong Waurn Ponds Campus and in clinical settings around Geelong, where the curriculum will be delivered using a system-based approach and Problem-Based Learning tutorials with a focus on inter-professional learning. During the third and fourth years, training will be delivered in clinical settings in one of four clinical schools.

Professional recognition

Deakin's Bachelor of Medicine Bachelor of Surgery is accredited by the Australian Medical Council (AMC). Graduates who satisfactorily complete an accredited intern year following successful completion of this course will qualify as registered medical practitioners in Australia and New Zealand.

Career opportunities

For a list of possible career opportunities and organisations that have taken our graduates for their intern year, please refer to page 33.

Course structure

The course is only available on a full-time basis.

Level 1

HME101 Medicine 1A
HME102 Medicine 1B

Level 2

HME201 Medicine 2A
HME202 Medicine 2B

Level 3

HME301 Medicine 3A
HME302 Medicine 3B

Level 4

HME401 Medicine 4A
HME402 Medicine 4B

Work-Integrated Learning

The Bachelor of Medicine Bachelor of Surgery features extensive hands-on experience in real-life clinical settings, commencing early in your first year.

Work placement requirements

In accordance with Department of Human Services policy*, all medicine students are required to undertake a Police Record Check prior to clinical placements in each calendar year of their course. In accordance with the Working with Children Act 2005**, all students are required to undertake a Working with Children Check at commencement of the course. If you fail to obtain a Police Record Check and Working with Children Check prior to the commencement of your clinical placement, you will not be able to undertake the clinical placement.

You will be asked to undergo serological testing prior to enrolment.

You may also be required to declare your immunisation status to satisfy the requirements of health organisations where you will be undertaking your clinical learning experience.

* Department of Human Services Policy on Working with Children Check and Police Record Check can be found at: www.dhs.vic.gov.au/facs/bdb/fmu/service-agreement/4.departmental-policies-procedures-and-initiatives/4.6-police-record-check-policy-including-working-with-children-check.

** Department of Justice 2007, Working with Children Act 2005, Victoria, Australia, retrieved 16 June 2008.

Selection criteria

Selection criteria include academic record (Grade Point Average – GPA), Graduate Australian Medical School Admissions Test (GAMSAT) results, and interviews. Bonuses are available for applicants who can substantiate a rural and regional background, prior clinical experience and/or financial disadvantage experienced during their undergraduate degree.

Pathways into medicine

Several undergraduate programs at Deakin provide pathways for entry into the Deakin graduate-entry medicine program, particularly when appropriate major sequences and elective units are chosen. Deakin teaches a full range of health disciplines including nursing, public health and health promotion, health sciences, dietetics, occupational therapy, psychology, exercise science and biomedical science.

The Graduate Australian Medical School Admissions Test (GAMSAT)

The Graduate Australian Medical School Admissions Test (GAMSAT) has been developed by the Australian Council for Educational Research (ACER) in conjunction with the Consortium of Graduate Medical Schools to assist in the selection of students for graduate-entry medical programs. It is designed to assess applicants' capacity to undertake studies in an intellectually demanding course and is open to any student who has completed an undergraduate degree. More information is available on the GAMSAT website at www.gamsat.acer.edu.au.

For more information about the Bachelor of Medicine Bachelor of Surgery, including information about Commonwealth Supported Places and how to apply, please refer to the *2014 Medicine Study Area Booklet* or visit the School of Medicine website at deakin.edu.au/medicine.

For the latest information about new courses at Deakin University, please visit deakin.edu.au.

For more information and to click through to unit descriptions, please visit deakin.edu.au/courses.

RELATED COURSES

Biomedical science **B G**

Gain the theoretical foundation and scientific skills to expand and apply your knowledge of human biology and health. You will study units in basic biology, biochemistry, genetics, human physiology, immunology, microbiology and molecular biology, with an emphasis on causes, diagnosis and treatment of disease at the molecular, cellular and system levels.

Please refer to the *2014 Undergraduate Science Career Booklet* or visit deakin.edu.au/courses for more information.

Engineering science **G**

Deakin's new Bachelor of Engineering Science brings together studies in engineering, physiology, exercise, and sport science in a qualification that could lead to a variety of exciting career opportunities in the fields of sports or medical technology, with a focus on human performance. The course provides you with the theoretical foundation, technical skills and expertise needed to design and develop sports equipment, instrumentation and other sports-related products as well as medical and physiological instrumentation, prosthetics, and other health care devices.

Please refer to the *2014 Undergraduate Engineering Career Booklet* or visit deakin.edu.au/courses for more information.

Health and physical education **B G**

Deakin's health and physical education course prepares you for a career in secondary health and physical education. Additional teaching methods may be taken from a range of discipline areas including biology, chemistry, dance, drama, mathematics and history.

Please refer to the *2014 Undergraduate Education Career Booklet* or visit deakin.edu.au/courses for more information.

Nursing **B F W**

Deakin's nursing courses cover a wide range of study areas including acute care/sub-acute care, aged care, anatomy and physiology, chronic illness, community nursing, health sciences, medication management, mental health, nursing issues, trends and practice in nursing, and paediatric and adolescent nursing. Our courses prepare you for practice in a range of health care settings and equip you with the knowledge and skills to adequately care for patients with a variety of complex illnesses. Clinical placements and skills training account for 50 per cent of the course contact hours and are undertaken in various metropolitan, rural and regional health care settings.

Please refer to the *2014 Undergraduate Nursing and Midwifery Career Booklet* or visit deakin.edu.au/courses for more information.

Psychology **B G W X**

Psychology at Deakin will provide you with a strong foundation in areas such as: the assessment of personality and cognitive abilities; the factors that underpin successful interpersonal relationships and group processes; and the major determinants of individual and social mental health and wellbeing.

Please refer to the *2014 Undergraduate Psychology Career Booklet* or visit deakin.edu.au/courses for more information.

Sport **B G X**

Deakin offers a range of innovative sport programs in exercise and sport science, health and physical education (teaching) and the business of sport. Career opportunities in this rapidly growing area are vast and varied, and a network of our graduates is already working in the sport industry.

Please refer to the *2014 Undergraduate Sport Career Booklet* or visit deakin.edu.au/courses for more information.

Vision science and optometry **G**

Offered as two sequential degrees, the Bachelor of Vision Science and Master of Optometry, Deakin's optometry program can be completed in three-and-a-half years of full-time study and leads to registration as an optometrist – the primary health care professional involved in detection and management of eye disease, dispensing corrective lenses, and rehabilitation of conditions of the visual system. Together these courses provide you with a comprehensive understanding of the practise of optometry, with strong foundations in science, interprofessional health practice, practice management and commercial awareness, so that graduates are well equipped for a variety of employment opportunities. The course has an emphasis on patient-centred, problem-based learning approaches that enable you to develop the knowledge and practical skills to confidently practise as a professional optometrist.

Please refer to the *2014 Optometry Career Booklet* or visit deakin.edu.au/courses for more information.

ENTRY OPTIONS

Gaining entry into Deakin is not just for people who have recently completed Year 12. International Baccalaureate (IB) students, TAFE students, people who have completed a single unit(s) of study, those who are currently in the workforce and those who have completed or partially completed studies at another tertiary institution or private provider can also apply to study at Deakin, providing they have met certain criteria.

These alternative entry options are referred to as pathway programs and take into consideration previous qualifications or your time in the workforce.

The flowchart below outlines the various groups that can apply for Deakin health courses and examples of the options that are available to you on your journey as a student, depending on your chosen area of study. Some of these groups and options are explained further on pages 37–38.

Please note applicants are subject to entry requirements. For more examples of pathways into Deakin University, please visit deakin.edu.au/pathways.

Geelong Waterfront Campus

TAFE pathways

If you have completed a diploma or advanced diploma, you may be eligible for up to 12 credit points towards a related Deakin degree. In most cases, this will reduce the number of units you need to complete to obtain your Deakin qualification. The assessment of credit is based on a number of factors and is determined on an individual basis. To find out what credit you may be entitled to, please visit deakin.edu.au/courses/credit.

Deakin has formal pathway programs and special credit arrangements with its four partner TAFEs (Box Hill Institute and Chisholm in Melbourne, South West TAFE in Warrnambool and The Gordon in Geelong) however if you have completed a qualification at a non-partner TAFE, you can still apply to Deakin.

Similarly, if you have completed or partially completed a degree at another university and wish to study at Deakin, you can apply to study with us and may be eligible for credit towards your Deakin degree.

Deakin's Associate Degree of Arts, Business and Sciences

The Associate Degree of Arts, Business and Sciences (Deakin at Your Doorstep), is a two-year, full-time (or part-time equivalent), 16-credit-point program specifically designed for students who would benefit from a supported entry to tertiary study.

The associate degree course structure provides flexible pathways into tertiary education, and can be used as a guaranteed pathway into a range of Deakin degrees at the Warrnambool Campus, Geelong Waterfront Campus, Geelong Waurin Ponds Campus or off campus. The degree may also be taken as a stand-alone, two-year exit qualification.

Students studying the associate degree at one of our partner TAFE campuses – Advance in Bairnsdale, Chisholm in Dandenong and Rosebud, Kangan Institute at Hume Global Learning Centre in Craigieburn, Sunraysia in Swan Hill, GOTAFE in Wangaratta and South West TAFE in Portland – will study the course concurrently with a diploma qualification.

For more information, please visit deakin.edu.au/doorstep.

DID YOU KNOW?

Deakin offers a range of scholarships to support students in their studies. For more information, please visit deakin.edu.au/scholarships.

Melbourne Institute of Business and Technology (MIBT)

Deakin University and the Melbourne Institute of Business and Technology (MIBT) have been in partnership for more than 15 years. MIBT can provide an excellent pathway to Deakin for students who do not meet the admission requirements for Deakin University courses. MIBT is located at Deakin's Melbourne Burwood Campus, Geelong Waterfront Campus and Geelong Waurin Ponds Campus, allowing you the opportunity to gain access to Deakin's facilities and services and get involved in uni life while studying at MIBT.

MIBT may provide a direct pathway to second-year study at Deakin (conditions apply). MIBT diplomas are equivalent to the first year of a Deakin University undergraduate degree. On successful completion of a diploma and meeting University academic entrance criteria, you may be eligible for entry to second year of the relevant Deakin University undergraduate health degree.

Single unit (non-award) study

You may wish to undertake a single unit of study at Deakin (without being enrolled or accepted into a course). These units are subject to fees and do not lead to a degree, but may be credited towards a degree if you succeed in gaining entry to a course at a later stage.

For more information, please visit deakin.edu.au/study-at-deakin/apply/other-types-of-application/apply-for-a-single-subject.

ENTRY OPTIONS

CHOICE OF CAMPUS

One of the great things about Deakin is that we have four campuses throughout Victoria. Many of our courses are offered at more than one campus and the ATAR required for each campus often differs, but the same high-quality degree is delivered no matter which campus you study at. This provides you with more entry options and enables you to transfer your studies from one campus to another.

PATHWAYS TO A CAREER IN DIETETICS

Deakin health courses provide a number of pathway options for further study. Graduates who successfully complete the Bachelor of Food and Nutrition plus electives in biochemistry and biochemistry metabolism; or the Bachelor of Health Sciences with a nutrition major, plus electives in biochemistry, biochemistry metabolism and food composition; will meet the admission requirements to apply for entry into the Master of Dietetics.

PATHWAYS TO A CAREER IN MEDICINE

Successful completion of the Bachelor of Food and Nutrition; Bachelor of Vision Science; Bachelor of Occupational Therapy; Bachelor of Public Health and Health Promotion (or public health and health promotion combined courses); or Bachelor of Health Sciences (or health sciences combined courses) including a major sequence in medical biotechnology and appropriate elective units, are some of the many pathways for graduates to apply for entry into Deakin's graduate-entry Bachelor of Medicine Bachelor of Surgery, offered at the Geelong Waurn Ponds Campus.

PATHWAYS TO OTHER HEALTH AREAS

Appropriate studies in health sciences can provide an excellent pathway for application into postgraduate courses in public health nutrition, dietetics, coaching and counselling, public health, health promotion, human nutrition, social work and psychology.

Melbourne Burwood Campus

HOW TO APPLY

Applying to study at Deakin University is easy. Whether you are a current Year 12 student, TAFE graduate, mature-age student, non-school leaver, or international student studying VCE in Australia, you can apply to study a Deakin undergraduate course through the Victorian Tertiary Admissions Centre (VTAC) (unless stated otherwise in the VTAC CourseSearch www.vtac.edu.au or under the individual course entries in this booklet).

Please note, all applicants for the Bachelor of Health Sciences in Dandenong must apply directly to Deakin University using the approved application form. For more information and to apply, please visit deakin.edu.au/dandenong.

When you are applying for a course, make sure you check all of the entry requirements carefully. Most courses have prerequisites and some have additional requirements that you will need to complete to be eligible for selection into that course. For prerequisite and extra requirement information, please visit the VTAC website www.vtac.edu.au.

For more information on how to apply, including special consideration and deferment, please visit deakin.edu.au/study-at-deakin/apply.

DID YOU KNOW?

If your application to study at Deakin is successful but it's not the right time for you to commence university, you can defer your studies in most Deakin courses for up to two years. This means you can postpone your studies to work, travel or volunteer and still retain your university place. For more information, please visit deakin.edu.au/study-at-deakin/apply/enrol-defer-withdraw-or-transfer.

DR RUSSELL KEAST

ASSOCIATE PROFESSOR
SCHOOL OF EXERCISE AND NUTRITION SCIENCES
MELBOURNE BURWOOD CAMPUS

'Undergraduate food and nutrition students need sensory evaluation capability as part of their basic knowledge upon graduation. However, to be a specialist in sensory evaluation I encourage students to undertake an honours year and postgraduate studies, such as a PhD. Those who join the sensory research team are highly valued locally and internationally. The area of sensory evaluation is globally under-represented, so our graduates are highly respected and sought after.'

Food and nutrition studies incorporate a highly successful work placement unit, which runs in the third year of the degree program. We link with the major food industry and nutrition sector employers. Students get essential industry experience and we find all students gain a lot from this. A significant proportion gain full-time work directly from the work placement unit.

We are constantly talking with industry, ensuring that the direction of food and nutrition meets employers' needs. We have a very strong Advisory Board that meets three times a year to help ensure our program is future-proof for industry requirements.'
