# Graduate Certificate of CHARTERED ACCOUNTING FOUNDATIONS

Deakin University offers graduates an opportunity to pursue this highly regarded professional qualification.

## Course summary

**Mode of delivery:** off campus      **Duration:** one year to 18 months part time      **Commence:** trimester 1, 2009

**Fees:** one unit will be pro rata at .50 of the full fees, refer to [www.deakin.edu.au/fees](http://www.deakin.edu.au/fees)

## Course overview and admission requirements

The Graduate Certificate of Chartered Accounting Foundations (GCCAF) has been developed to meet the requirements of the Institute of Chartered Accountants in Australia. It is designed for individuals who hold a non-accounting bachelor degree and wish to pursue a career in chartered accounting. The course is supported by the Institute and will enable students to acquire a basic grounding in financial accounting, management accounting, finance, taxation, audit and corporations law. Having completed the GCCAF, a non-accounting graduate is able to enter the Institute's Graduate Diploma of Chartered Accounting (GradDipCA). The Institute's GradDipCA is available in Australia, Singapore and Malaysia only.

## Professional recognition

Upon successful completion of this course, non-accounting graduates will have acquired basic grounding in six core knowledge areas which will allow them to enter The Institute of Chartered Accountants GradDipCA (the CA Program). To be eligible to enrol in the GradDipCA, applicants need to be employed by an Institute-approved employer in Australia, Singapore or Malaysia; be working in a relevant accounting role for at least six months; and have a Chartered Accountant mentor.

## Course structure

The course comprises four credit points of study (eight core units at 0.5 credit points each). Duration of the course is one year to 18 months part-time, off-campus study. Deakin's innovation in flexible learning enables students to study from any location worldwide.
