2007:

Changes in 2007:

tested Courtesy Notices and Autonotices, had autonotice timing changed to 10:30am.

January 23rd upgraded to 2006

some minor problems;

- new links appearing in search results,
- LOC_ pages not working, and
- suppressed items showing in the reserve module (all "known issues") and major problem;
- URL links in records presenting a blank page. One week, and two priority upgrades and one phone call later the patch for the known but undocumented problem was installed (took about 10 minutes). All fixed now.
- established z39.50 searching/downloading of RLG Name and Subject Authorities

Autonotices trialed and up and running 30/1/07.

Archived 15975 order records

BIT formed in August to investigate My Millennium, WebPac PRO and Encore

25th of September first full staff patron load from HR system (still a partial manual process)

26th of September went live with Reading history and Preferred searches

Forthcoming Events:
