Developments in 2008

- Release 2007 installed July 2008: Implementation of Release 2007 caused issues: accessing scanned articles and the inability to view in the WebOpac.
- server slowness when accessing WebOpac-not resolved prior to implementation of new server

Beta testing of Release 2007 1.1 resolved issue noted above, but testing R2007 1.1 also caused item records/patron records to be locked when in Innreach circulation

Millennium Server: Implementation of new Sun Solaris 2.10 server in September 2008

Content Café implemented October 2008

Proposed modules:

Millennium Scheduler
