Changes in 2010

- Development partner for Encore Reporter.
- Installed Zebra thermal printers using print templates to produce spine labels.
- Implemented Millennium Scheduler module which is being used for regular list creation and data output, although we are having problems with tasks using the existing search from the review file instead of the saved search linked to the task.
- Implemented External Patron Verification module to enable access to My Library functions using the University standard Unikey login.
- Additional scope to enable call number browsing of material in storage.
- Updated catalogue to include new University branding.
- Implemented 2 additional self check units.
- Currently testing self bookings.
- Currently reviewing system codes and authorisations.

Forthcoming Events

- Launch Airpac for smartphones.
- Convert to Unicode storage.
- Continued work as Encore Reporter development partner.
