Offer meaningful help and support

Explore the human mind and understand the process behind behavioural change. Our psychology courses draw on the ‘human element’ – the ability to listen and empathise – with an emphasis on learning through real-life opportunities. With our unique partnerships, peer-mentoring and transition-to-work activities, you’ll graduate with a resume full of valuable real-world experience, ready to pursue a career you’re passionate about.

Your future in psychology

Join the #1 university for skills development
Gain a competitive edge in the workplace with real-world expertise and practical skills. Take part in relevant work experience in psychology and participate in transition-to-work activities like:

• developing a professional portfolio
• writing a resume
• honing your interview skills.

Deakin’s ranked the #1 university for skills development in Victoria¹, which means you’ll graduate highly skilled, work-ready and in-demand from employers.

¹ 2018 Student Experience Survey.

Explore our industry connections
Our close ties with industry mean that you get courses matched to current industry practice, and work placement opportunities so that you graduate work-ready. Our industry partnerships involve collaborations with government agencies, public and private organisations, hospitals and other universities including:

• Barwon Health
• Eastern Health
• FBG Group
• National Australia Bank
• People Measures
• PeopleScape.

Choose psychology at Deakin
Undergraduate psychology at Deakin leads the way among Victorian universities, and is ranked by students to be significantly above the national benchmark for education experience, learning resources and teaching quality. Graduate satisfaction for psychology at Deakin also ranks higher than for all other Victorian universities.²

² Quality Indicators for Teaching and Learning 2018.
Your future in psychology

Get professional recognition
All of our psychology courses meet the relevant requirements of the Psychology Board of Australia and the Australian Psychological Society (APS), and are accredited by the Australian Psychology Accreditation Council (APAC). Being professionally recognised means that you’ll graduate with excellent job and career opportunities.

Travel overseas
See the world with an international internship, exchange, study tour or volunteer placement. Get a competitive edge in the workplace and gain credit towards your degree by studying overseas at a Deakin partner university, located in more than 40 different countries. Visit deakin.edu.au/overseas-study for more information on where in the world your Deakin degree can take you.

Fast-track your degree
Deakin splits the year into three trimesters and undergraduate psychology is taught across all of them. By taking advantage of the subjects offered in Trimester 3, you can fast-track your studies to complete a three-year psychology degree in just two years of full-time study, meaning you can start your career or postgraduate studies in psychology sooner.

Study when and where you want
Join the thousands of students currently studying online at Deakin’s Cloud Campus. You’ll learn psychology with the same top teachers as on-campus students, with the ultimate flexibility to study anywhere, anytime.

Join our Peer Mentoring Program
Sign up to the Faculty of Health’s Peer Mentoring Program in your first year at Deakin to get support and guidance from more senior students in your course.

deaquin.edu.au/health-mentoring

‘Researching human behaviour and then learning to apply what I’ve learnt to real life situations fascinates me. Psychology is such a broad field and can take you into a variety of career opportunities. This flexibility and diversity when working with people is what excites me to pursue a career within this field. Deakin recognises the importance of providing opportunities and first-hand experiences within the health field.’

Dinsha Parmar
Bachelor of Psychology (Honours) student

Pursue a rewarding career
Deakin’s psychology graduates embark on varied careers, and have gone on to work with organisations like:

- Alzheimer’s Australia
- Australian Unity
- Barwon Health
- Bellarine Psychology
- Box Hill Hospital
- Cancer Council
- Centre for Behavioural Research in Cancer
- Centelink
- Corrections Victoria
- CRS Australia
- Department of Education
- Department of Human Services
- Department of Justice
- Eastern Health
- Geelong Football Club
- Inner East Mental Health Services Association
- Monash IYF
- Olympic Park Sports Medicine Centre
- People @ Work
- Private schools
- Specialist children’s services
- Youth Substance Abuse Service.

Courses to careers
Visit explore.deakin.edu.au to kickstart your course and career exploration. With more than 600 paired courses and careers, it’s the perfect destination for you to discover your future career.

deaquin.edu.au/studypsychology
Disciplines

Your dream course starts here. Take a look through our disciplines (also known as study areas) to choose your area of expertise. Knowing which discipline you’re interested in helps career advisers find the best course for your interests. Corresponding courses are featured in the following pages, so you can learn more about what you’ll study, work experience opportunities and the types of careers you could pursue. When you choose a course, you can then pick which discipline to specialise in within that course. Visit deakin.edu.au for detailed discipline and course information, including a description of the units within each degree.

Psychology

Study the mind and its processes, behaviour and mental states. There’s increasing emphasis on mental health in the modern world and employment prospects in the area continue to grow accordingly.

With undergraduate psychology, you take two distinct paths: further study in pursuit of full registration as a psychologist, or employment that doesn’t require registration as a psychologist, such as in education or counselling.

Qualified psychologists can work in a variety of settings, including:
- clinical
- forensic
- organisational
- educational
- health
- clinical
- neuropsychology
- sport and exercise
- community
- counselling.

The contexts in which you can work are just as varied, including:
- private practice
- hospitals
- businesses
- schools
- universities
- government agencies
- community sport
- various research groups.

You don’t have to go on to full registration to enjoy the benefits of studying psychology. Your understanding of human behaviour and the skills that you develop throughout your course are sought-after by most employers, and valuable in almost any occupation. This, together with the critical thinking and communication skills our students develop, make our graduates highly employable in many industries, including:
- community services
- counselling
- education
- health services
- protective services.

Criminology

Investigate how crime can be minimised or prevented by harnessing the insight of a number of disciplines (such as psychology and history). You’ll also examine why some behaviours are defined as criminal and why certain people become criminals.

Deakin has one of the few dedicated criminology courses in Australia, offering specialised study for students seeking a career in the criminal justice system. Study topics that you won’t be able to elsewhere, including:
- security
- surveillance
- terrorism
- policing.

deaakin.edu.au/psychology

Pathways to full registration

To gain registration as a provisional psychologist, you need to complete four years of academic study in psychology, which is recognised by the Psychology Board of Australia.

This usually consists of an approved three-year undergraduate psychology sequence, followed by an approved fourth year of study (such as Deakin’s Graduate Diploma of Psychology or an honours year in psychology). You can then apply for provisional registration with the Psychology Board of Australia and associate membership of the Australian Psychological Society (APS).

To gain full registration, provisional psychologists must then complete either two years of supervised practice or a minimum two years of further study (with supervised practice completed outside the degree), it’s at this stage that you can specialise in a particular area of psychology that appeals to your interests and career aspirations.

- Bachelor of Psychological Science
- Bachelor of Arts (Psychology)
- Bachelor of Health Sciences
- Bachelor of Nursing/Bachelor of Psychological Science
- Bachelor of Health Sciences/Bachelor of Arts
- Graduate Diploma of Psychological Science

Pathway 1

Complete

Apply for

A fourth year of study in psychology (either Graduate Diploma of Psychology or honours in psychology)

Pathway 2

Under supervision of a registered psychologist for two years

Complete

A master’s or doctorate that includes work placement

Pathway 3

Full registration with the Psychology Board of Australia and full membership of the Australian Psychological Society (APS)

Pathway 4

Provisional registration with the Psychology Board of Australia and associate membership of the Australian Psychological Society (APS)

The opportunity to volunteer at the Deakin Focus Clinic has been really positive. It has a strong strengths-based emphasis within a brief intervention family therapy framework. The senior psychologists working at the clinic are also Deakin lecturing staff, so you are well prepared for when you go on placement. The support and supervision is amazing, it’s been a safe space for me to learn and reflect on my practice as I develop clinical skills.

Emma Stephens
Bachelor of Arts/Bachelor of Science graduate
Bachelor of Arts (Honours) (Psychology) graduate
Doctor of Psychology (Clinical) student

1 Students must select the 10 credit-point major in psychology.
2 Only on completion of fourth year in the Bachelor of Psychology (Honours) can provisional registration be applied for.
3 This pathway information is correct as at February 2019. Please see the Psychology Board of Australia website for further details: www.psychologyboard.gov.au.
Elective options in this course include:

- addiction
- cognitive neuroscience
- coaching and counselling
- the social psychology of relationships.

Gain broad skills to prepare yourself for employment in a variety of roles, including:

- clinical psychologist
- cognitive neuroscientist
- counsellor
- forensic psychologist
- organisational psychologist
- rehabilitation counsellor
- sport and exercise psychologist
- youth psychologist.

These positions can be found in:

- private clinics and practices
- public and private hospitals
- corporate organisations
- schools and universities
- government departments and agencies
- sporting clubs and institutes
- social research organisations.

### Careers

Following the completion of your bachelor’s degree, taking the next step towards becoming a psychologist involves applying for an honours year (e.g. Deakin's Bachelor of Psychological Science (Honours) or Graduate Diploma of Psychology). Once completed, you'll be able to register as a provisional psychologist with the Psychology Board of Australia.

If your passion isn't to complete further study to become a registered psychologist, there are still many diverse career options available, including:

- child protection, counselling, family support, human services, marketing, not for profit aid, public health and social work.

If you choose to pursue full registration as a psychologist, you may find employment in a variety of roles, including:

- criminal psychologist
- educational and developmental psychologist
- family therapist
- forensic psychologist
- health and community psychologist
- organisational psychologist
- rehabilitation counsellor
- sport and exercise psychologist
- youth psychologist.

These positions can be found in:

- private clinics and practices
- public and private hospitals
- corporate organisations
- schools and universities
- government departments and agencies
- sporting clubs and institutes
- social research organisations.

### Work experience

You have the opportunity to strengthen your employment prospects and knowledge by undertaking a psychology internship unit in your second year of study.

### Bachelor of Psychology (Honours)

Study the mind and its processes, behaviour and mental states. With increasing focus on mental health in contemporary society, career prospects for psychology graduates are strong and varied. The honours year included in this course prepares you for provisional registration as a psychologist with the Psychology Board of Australia (PBA), and sets you on the pathway to full registration.

### Professional recognition

All of the psychology courses offered at Deakin meet the requirements of the Psychology Board of Australia (PBA) and the Australian Psychological Society (APS), translating into excellent job and career opportunities for our graduates. Deakin's Bachelor of Psychological Science is accredited by the Australian Psychology Accreditation Council (APAC).

### Registration

See pathways to full registration information on page 5.

### Careers

If you’re ready to take your psychology career further, the option to become a fully registered psychologist is available by undertaking a master’s or doctorate qualification in psychology. If you choose to pursue full registration as a psychologist, you may find employment in a variety of roles, including:

- clinical psychologist
- cognitive neuroscientist
- counsellor
- criminal psychologist
- educational and developmental psychologist
- family therapist
- forensic psychologist
- health and community psychologist
- mental health officer
- organisational psychologist
- rehabilitation counsellor
- social worker
- sport and exercise psychologist
- youth psychologist.

The contexts in which you work may include:

- private clinics and practices
- public and private hospitals
- business corporate organisations
- schools and universities
- government departments and agencies
- community sporting clubs and institutes
- various social research organisations.

If your passion isn’t to complete further study to become a registered psychologist, there are still many diverse career options available, including:

- child protection, family support, human services, marketing and communications,
- not-for-profit aid, public health, social work and youth work.

### Work experience

You have the opportunity to strengthen your employment prospects and knowledge by undertaking a psychology internship unit in your second year of study.

### Bachelor of Psychological Science

Gain insight into why people think, feel and behave the way they do. You’ll uncover all aspects of human behaviour and personality, giving you the best possible foundation for further study in psychology to apply for provisional registration, or to pursue a range of careers in the fast-growing health sector.

### Add diversity to your degree

Elective options in this course include:

- addiction
- cognitive neuroscience
- coaching and counselling
- the social psychology of relationships.

Gain broad skills to prepare yourself for employment in a variety of areas.

### Majors

- Child and family
- Forensic studies
- Organisational studies

### Professional recognition

All of the psychology courses offered at Deakin meet the requirements of the Psychology Board of Australia (PBA) and the Australian Psychological Society (APS), translating into excellent job and career opportunities for our graduates. Deakin’s Bachelor of Psychological Science is accredited by the Australian Psychology Accreditation Council (APAC).

Courses

Bachelor of Arts (Psychology)

Study the Bachelor of Arts (Psychology) and learn about human behaviour, cognitive processes, and the factors that influence all of us to think and act in different ways. You’ll also develop essential skills in critical thinking and problem solving as you gain knowledge in your areas of study in the humanities, social sciences and creative arts.

Professional recognition
Deakin’s Bachelor of Arts (Psychology) is accredited by the Australian Psychology Accreditation Council (APAC) and recognised by the Psychology Board of Australia (PBA). This recognition allows you to pursue further study, which can lead to professional registration.

Registration
See pathways to full registration information on page 5.

Careers
Completing this degree will give you important skills valued by employers such as critical analysis and systematic thinking. With both cross-disciplinary and specialist knowledge, you’ll have the ability to confidently enter a variety of fields including:

• creative arts
• education
• historical and cultural heritage
• human resources
• law enforcement
• media and communication
• politics and government
• social service.

To take your career in psychology to the next level, you may opt to continue with further study, which can lead to professional registration.

This will broaden your career opportunities, including specialist fields of psychology such as:

• clinical psychology
• forensic psychology
• organisational psychology
• education
• developmental psychology
• health and community psychology
• cognitive neuroscience
• counselling
• other specialist areas.

Honours
An honours year is available for high-achieving students, upon completion of this degree. An honours year in psychology is useful if you’re pursuing a career as a psychologist or if you’re preparing for postgraduate study. The research and analytical skills you’ll develop in your honours year strengthen the quality of your research projects and become indispensable tools in your future career.

deakin.edu.au/studypsychology

Learn in the real world
Experience is invaluable as you get to draw on the “human element” – the ability to listen and empathise. At Deakin, you’ll learn from real life through our unique partnerships, peer mentoring and transition-to-work activities.

‘My course is niche, with a major in both psychology and dance. Within my work at the Deakin Child Study Centre, I’m researching how dance can be made more accessible for those living with intellectual, physical and developmental disabilities. Within this position I also teach contemporary dance to a group of autistic children, and am developing resources for educating teachers, carers and children. I feel like I’m living my dream to use dance to effect positive change in the world around me.’

Hannah Friebel
Bachelor of Arts (Psychology) student
Research Assistant within Deakin School of Psychology

deakin.edu.au/courses/bachelor-arts-psychology

1 Available as a minor (6 credit point) unit sequence only.
2 Offered to Geelong Waurn Ponds Campus students by combination of online and campus-based learning.
3 A full major sequence in Chinese is not available at the Cloud Campus.
4 This course structure should be used as a guide only and advice should be sought when selecting units.
A rewarding career in a health-related field gives you the chance to reduce health disparity and to help people – whether in Australia or overseas – to lead fuller, healthier and happier lives.

Study a major in psychological science or psychology for professional development within the Bachelor of Health Sciences and explore a range of career opportunities across the health and human services sector.

Registration
See pathways to full registration information on page 5.

Careers
This flexible degree allows you to combine study areas that you’re passionate about, and benefit from workplace learning to become a registered psychologist. To practise as a psychologist, you must complete an undergraduate degree with a major in psychology, followed by a fourth year of study in psychology (honours in psychology or a Graduate Diploma of Psychology) that is accredited by the Australian Psychology Accreditation Council (APAC).

Psychological science
This major prepares you for postgraduate training towards becoming a registered psychologist. To practise as a psychologist, students must complete an undergraduate degree with a major in psychology, followed by a fourth year of study in psychology (honours in psychology or a Graduate Diploma of Psychology) that is accredited by the Australian Psychology Accreditation Council (APAC).

Psychology for professional development
This major prepares you for work in complementary professional fields upon graduation. Careers immediately available to health sciences graduates can be divided broadly into community work, coaching and counselling individuals and groups, and health and human services consulting.

Psychological science
Combining Deakin’s Bachelor of Criminology/Bachelor of Psychological Science develops your understanding of human behaviour, and helps to build the skills you need to become a competent and successful nurse. Armed with a wealth of real-world knowledge through your clinical placements, you’ll graduate ready for work as a registered nurse and be able to pursue further study towards qualification as a registered psychologist.

Professional recognition
On successful completion of your course, you’ll be eligible to apply for registration as a registered nurse with the Nursing and Midwifery Board of Australia (NMBA).

You’ll also have gained a three-year undergraduate psychology sequence that is accredited by the Australian Psychology Accreditation Council (APAC) and recognised for registration purposes by the PBA, enabling you to undertake additional study in pursuit of provisional registration.

Careers
As a registered nurse with psychology experience, you’ll be a unique graduate who can pursue career opportunities around the world, in a range of work settings, including:

- mental health rehabilitation
- youth work
- careers counselling
- community development and work/life counselling
- hospitals
- homes
- hospices
- aged care settings
- clinics
- schools
- universities
- community health centres
- government agencies and private industries.

Alternatively, if you’re interested in pursuing a professional career in psychology, your next step involves enrolment into an approved “fourth year” of psychology study (such as Deakin’s Graduate Diploma of Psychology or honours in psychology), after which you may apply for provisional registration with the Psychologist Board of Australia (PBA) and seek associate membership of the Australian Psychological Society (APS).

Bachelor of Nursing/Bachelor of Psychological Science
In order to gain full registration, provisional psychologists can then complete either two years of supervised practice, or two years of postgraduate study (such as Deakin’s Master of Psychology, Doctor of Psychology or Doctor of Philosophy (PsyD) with supervised practice component (with the degree)).

Registration
See pathways to registration information on page 5.

Work experience
As part of the Bachelor of Nursing component of this course, work placements are conducted throughout your course beginning in Trimester 1 of your first year. This exposure to the clinical environment gives you extensive opportunities to develop clinical skills under the supervision of registered nurses and lets you experience being part of a multidisciplinary health care team. You gain clinical experience in a variety of settings, including acute/sub-acute care, medical and surgical care, aged care, rehabilitation, paediatrics, community nursing and mental health nursing, spending approximately 21 weeks in various health care settings, including hospitals and community health centres in metropolitan, rural and regional areas.

Clinical placement requirements
In accordance with Department of Human Services policy, nursing students are required to undertake a Police Record Check before work placements in each calendar year of their course. In accordance with the Working with Children Act 2005, all students are required to undertake a Working with Children Check at the start of their course. If you fail to obtain a Police Record Check and/or a Working with Children Check by the date specified each year by the School of Nursing and Midwifery, you will not be able to undertake the required work placement. You may also be required to declare your immunity status to satisfy the requirements of health organisations where you will be undertaking your work placement. All expenses associated with the work placement are your responsibility.

Bachelor of Health Sciences/Bachelor of Arts
Build a degree tailored to your interests with a Bachelor of Health Sciences/Bachelor of Arts. This flexible degree will allow you to major in fields from both health sciences and arts, tapping into unique course combinations and career opportunities.

If you wish to pursue registration as a psychologist, you can complete the 10-credit-point psychology major in this degree. deakin.edu.au/study-at-deakin/find-a-course/psychology
