Deakin Business School – now in the top 1% of business schools worldwide!

Deakin University's Business School has earned the prestigious EQUIS accreditation through the European Foundation for Management Development. The recognition places Deakin in the top 1 per cent of business schools worldwide, and only the 3rd with EQUIS accreditation in Victoria.

Deakin Business School was given three commendations as part of the EQUIS accreditation, the first for its focus on corporate social responsibility, the second for driving the digital frontier and the third for student satisfaction. This accreditation reflects the quality of education and experience provided to Deakin students and makes our graduates more employable.

Cancelled course – Bachelor of Laws, Warrnambool Campus

Please be advised that Deakin University has cancelled the offering of the Bachelor of Laws: Warrnambool Campus, 1400714061, Law (CSP). The cancelling of this course means that it is no longer available.

Deakin has drafted communication to send to students who listed the above course as one of their VTAC preferences for 2020 and has recommended students consider applying for the same course which is offered at:

- Geelong Waterfront Campus – 1400414061 (CSP)
- Cloud Campus – 1400614061 (CSP)
- Melbourne Burwood Campus – 1400514061 (CSP)

For students who have listed Bachelor of Laws, Warrnambool, as one of their VTAC preferences, their other course preferences will be considered within the normal VTAC processes and are unaffected by this change. No further action is required by affected students at this time. However, if they wish to do so, students also have an opportunity to review and change their course preferences by 14 December in time for the December selection round. There will be no automatic conversion of a Warrnambool law preference to a Geelong law preference.

If you have any queries about this or would like to discuss it further please contact buslaw@deakin.edu.au.

New degrees in business and psychology

Apply behavioural insights and data-driven science to solve business problems with Deakin's two new courses combining studies in psychology with marketing or human resource management.

The Bachelor of Marketing (Psychology) combines principles from complementary disciplines to unlock creative marketing solutions, and will provide graduates with a unique skill set that's in demand across all industries. This unique course offers a dual expertise in marketing and psychology, and is accredited by the Australian Marketing Institute (AMI), and Australian Psychological Accreditation Council (APAC) which will provide a recognised pathway towards becoming a registered psychologist.

The Bachelor of Human Resource Management (Psychology) provides insight into understanding the fundamentals of both psychological science – including why people think and act as they do – and human resources – including how businesses manage, direct and organise employees to ensure both engagement and profitability. The course is accredited by the Australian Human Resource Institute (AHRI) and is currently seeking accreditation from Australian Psychological Accreditation Council (APAC).
