## Message from the Chancellor

On behalf of the Deakin University community, my congratulations to you, your families, and to all who have worked so hard towards achieving the success we now celebrate with you.

Like you, I am a Deakin alumnus, and I believe you will find as I have, that your Deakin qualification will be a valuable asset as you explore the opportunities ahead of you. Your Deakin degree will empower you to search for new opportunities with the confidence you can contribute, with the knowledge you are ready, and the resilience that will enable you to overcome the inevitable challenges and unexpected setbacks.

Your graduation marks the completion of your current academic journey, but it also signals the start of a new phase of your lives and your careers. Deakin is proud to have played its part in providing the skilled graduates who will make meaningful contributions to the world, fostering the creativity and skills which will generate the new ideas and enterprise necessary to face the global challenges of the 21st century.

To view these messages in other languages, use your mobile device to scan this code or visit [deakin.edu.au/students/studying/graduation/congratulations](https://deakin.edu.au/students/studying/graduation/congratulations).

Mr John Stanhope AM

Be proud of your achievement, you are a Deakin graduate and Deakin graduates are the truest evidence of the quality of the Deakin experience; they are a continued inspiration to Council, to staff, to each other and to future graduates.

I encourage you to keep in touch with your University. You'll find that Deakin's alumni community of over 325,000 graduates will be an invaluable resource for you as you embark on this next stage of your career. I hope you will take advantage of and contribute to this extraordinary community who all began their professional lives at Deakin.

Congratulations and best wishes for the future.

**Mr John Stanhope AM**  
Chancellor

## Message from the Vice-Chancellor

My sincere congratulations on your graduation from Deakin University.

Today, alongside family, friends and peers, we acknowledge your efforts, your sacrifices, and your success, and we welcome you to the Deakin alumni community. We should never underestimate the importance of a university journey, and the serious achievement of a student's graduation.

I hope you have enjoyed your time at Deakin, met and collaborated with talented and passionate people, made friends, were challenged, formed new perspectives and knowledge, and developed new skills. A Deakin education is known for being innovative and inclusive and we want you to take these qualities into the world. The years ahead will require an open, flexible mind that can respond to change, and find and create opportunities.

We look forward to seeing where your Deakin degree takes you. Your learning did not begin with our University, and it does not end with your graduation. I urge you to continue to be curious and to seek solutions. It is this questing for greater expertise and deeper understandings that will shape the future, along with the qualities and values that Deakin holds dear: integrity, bravery, inclusivity, diversity, community responsibility and social justice.

Professor Iain Martin

Foster your ambition; have confidence in your talents and abilities and revel in each new experience.

Congratulations to each of you and to your families. I wish you well in your future endeavours, and I hope that one day, your career journey brings you back to Deakin as continuing students, as colleagues, as mentors, as supporters and as friends.

**Professor Iain Martin**  
Vice-Chancellor and President

# Welcome to Deakin University Graduations

## Welcome!

We would like to warmly welcome you to Deakin University's graduation ceremony. This program lists every student graduating, including those not in attendance and graduating in absentia. The graduation ceremony will run for approximately 90 minutes and ushers are available at the venue doors to provide information and assistance. All guests should be seated 15 minutes before the ceremony start time. Please ensure your mobile phone is switched off prior to entering the venue and that you familiarise yourself with the emergency evacuation procedures, located at the back of this program. We hope you enjoy the ceremony.

## 欢迎光临!

热烈欢迎您参加迪肯大学毕业典礼。此典礼适用于所有毕业生，包括不参加和缺席毕业生。毕业典礼将持续90分钟，现场门前会有礼仪人员介绍情况和提供帮助。所有嘉宾需在典礼开始前15分钟就坐。进入现场前，请关闭手机，并熟悉紧急疏散程序。程序内容请见典礼介绍册封底。愿您度过美好典礼时光。

## आपका स्वागत है!

हम डीकिन विश्वविद्यालय के स्नातक समारोह में गर्मजोशी के साथ आपका स्वागत करते हैं। इस कार्यक्रम में हरेक विद्यार्थी सूचीबद्ध है जो आज स्नातक की उपाधि प्राप्त करेगा। इनमें वे विद्यार्थी भी शामिल हैं जो उपस्थित नहीं हैं और इन एब्सेंशिया उपाधि प्राप्त कर रहे हैं। स्नातक समारोह लगभग 90 मिनटों तक चलेगा। जानकारी और सहायता प्रदान करने के लिए आयोजन-स्थल के द्वारों पर स्वागतकर्ता मौजूद हैं। समारोह शुरू होने के 15 मिनट पहले सभी अतिथि बैठे होने चाहिए। कृपया यह सुनिश्चित करें कि आयोजन-स्थल में प्रवेश करने से पहले आपने अपना मोबाइल फोन स्विच-ऑफ कर दिया है तथा आपातकालीन निकासी प्रक्रियाओं से खुद को परिचित कर लिया है, जोकि इस कार्यक्रम के पीछे दी गई हैं। हम उम्मीद करते हैं कि आप समारोह का आनंद उठाएंगे।

## Chào mừng quý vị!

Chúng tôi nồng nhiệt chào đón quý quan khách đến dự buổi lễ tốt nghiệp trường Đại học Deakin. Tờ chương trình này liệt kê tất cả sinh viên tốt nghiệp, kể cả sinh viên không đến dự lễ và sinh viên tốt nghiệp theo diện vắng mặt. Buổi lễ tốt nghiệp này dài khoảng 90 phút và người chỉ chỗ ngồi sẽ túc trực tại các cửa ra vào hội trường để giải đáp thắc mắc và giúp đỡ. Tất cả quan khách nên an tọa 15 phút trước giờ khai mạc. Xin quý vị nhớ tắt điện thoại di động trước khi vào hội trường và quý vị đã đọc và hiểu thủ tục di tản trong trường hợp khẩn cấp theo thông tin ở mặt sau tờ chương trình này. Chúng tôi mong quý vị sẽ thấy thích thú với buổi lễ này.

## Selamat Datang!

Kami ucapkan selamat datang di Upacara Wisuda Deakin University. Pada buku acara ini tercantum nama semua mahasiswa yang diwisuda, termasuk mereka yang tidak bisa hadir dan diwisuda in absentia. Upacara wisuda akan berlangsung sekitar 90 menit; informasi dan bantuan bisa diperoleh dari petugas penerima tamu di pintu keluar/masuk ruangan. Semua tamu sudah harus berada di tempat duduk masing-masing 15 menit sebelum upacara dimulai. Jangan lupa untuk mematikan telepon selular sebelum memasuki ruangan, dan pelajari prosedur evakuasi darurat yang tercetak di bagian belakang buku acara. Selamat mengikuti upacara.

## مرحباً بكم!

نود أن نرحب بكم ترحيباً حاراً في حفل تخرج جامعة ديكن. يتضمن هذا البرنامج جميع الطلاب الذين تخرجوا، بما في ذلك الذين لم يحضروا وتخرجوا غيابياً. سيستمر الحفل حوالي 90 دقيقة وسيتواجد مرشدون على أبواب الدخول لتقديم المعلومات والإرشاد. يجب على جميع الحضور الجلوس في مقاعدهم قبل بدء الحفل بـ 15 دقيقة. كما يرجى التأكد من إغلاق الهواتف المحمولة قبل الدخول إلى مكان الحفل وأنكم قد تعرفتم بأنفسكم على إجراءات إخلاء الطوارئ، الموجودة في الجزء الخلفي من هذا البرنامج. نأمل أن تستمتعوا بالحفل.

# The Graduation Ceremony

## 'Kim barne barre Wadawurrung Dja' Welcome to Wadawurrung Country

Deakin University would like to acknowledge the Wadawurrung People, the traditional custodians of the land and the Wathaurong community where this graduation ceremony is taking place. We pay our respects for their continued care of the land and further extend that respect to elders past and present.

## Order of Ceremony

Processional music heralds the arrival of the Academic Procession for the graduation ceremony.

At the commencement of this music, graduands and guests are asked to stand and remain standing for the National Anthem.

The Master of Ceremonies will open proceedings and the Chancellor (or representative) will deliver the opening address. The Vice-Chancellor (or representative) will then introduce the guest speaker who will deliver the occasional address.

The Chancellor (or representative) will then make a formal declaration conferring the awards of the University on the graduates, both present and in absentia, and will invite graduates to proceed to the stage according to the order published in the program.

A Faculty Executive Dean (or representative) will read out the names of graduates being presented to the Chancellor (or representative).

At the conclusion of the presentation of the graduates, a representative of the graduating students will deliver a brief response.

The Vice-Chancellor (or representative) will deliver the closing address. Following the closing address, there will be a musical performance.

At the conclusion of the ceremony guests are requested to stand while the stage party and graduates leave the hall.

Refreshments will then be served in the marquee in the John Hay Courtyard.

## The University Mace

Maces were originally medieval weapons carried by bodyguards to kings and sergeants-at-arms. Much later, the mace became of ceremonial rather than practical significance and organisations such as civic corporations and universities adopted the mace as a symbol of the rule of legal authority.

The University's mace is displayed at meetings of the University Council and on such ceremonial occasions as conferring ceremonies. The bearer of the mace, in academic processions, 'guards' the Chancellor. Deakin's mace was presented to the University by Mr Donald Thomson, Sir Wilfred Brookes and Mr Norman Stephen (Alcoa Australia).

## The Academic Procession

In academic processions, the order of precedence on entry is from junior to most senior. The Chancellor, therefore, is the last member of the procession, followed by the mace-bearer. The Deakin Academic Procession and stage party usually consists of:

### Chancellor:

Mr J. Stanhope AM, BCom *Deakin*, FAICD, FAIM, FCPA, FICA, FHRM

### Deputy Chancellors:

Ms C. Boyer-Spooner

Dr L. Roberts AO

Members of the University Council

Honorary degree recipients

Members of the University Executive:

### Vice-Chancellor and President:

Professor I. Martin, MD, MEd, MBChB, FRCS

### Deputy Vice-Chancellor Research:

Alfred Deakin Professor J. Owens, BSc(Hons) *UQld*, PhD *UQld*

### Deputy Vice-Chancellor Academic:

Alfred Deakin Professor E. Johnson, B Ag Sci (Hons) *Melb*, PhD *Melb*.

Faculty Executive Deans:

### Acting Executive Dean of the Faculty of

#### Arts and Education:

A/Professor M. Kelly, BA *Swinburne*, GDipTraining&Devt *Melb*, PhD *Monash*

### Acting Executive Dean of the Faculty of Business and Law:

Professor Jenni Lightowlers, BA Dip Ed *UWA*, LLB (Hons), LLM *Uni Melb*, Hon Doc *Deakin*

### Executive Dean of the Faculty of Health:

Alfred Deakin Professor R. Huxley MA, DPhil *Oxon*

### Executive Dean of the Faculty of Science, Engineering and Built Environment:

Professor N. Birbilis, B. Eng(Hons), PhD *Monash*, FIEAUST, FASM, FNACE, FISE, FECS

### Executive Vice-President Futures:

Mr K. Selway, BBus (Marketing) *Monash*, GDip (Management) *Victoria UT*, FAICD

### Executive Vice-President Resources:

Ms K. Parker, BBus (Accounting) *Monash*, GCert (IT) *Swinburne*, FCPA, GAICD

Pro Vice-Chancellors

Academic Board:

### Chair of the Academic Board:

Professor C. Hickey, DipTeach *Monash*, BPE *UWA*, MEd *UWA*, PhD *Deakin*, FACHPER

Heads of schools and academic staff of the faculties participating in the ceremony.

Academically qualified professional staff of the University.

# Academic Dress

Academic dress is an important reminder of the long history of universities in western civilisation. The three main elements of academic dress are the gown, the hood and the head-dress, which were all once articles of everyday outer dress. Both gowns and hoods, when in common use, were often lined and this lining was decorative, as well as practical. In medieval times, the higher the rank of the wearer, the more sumptuous the gown.

In universities there is still a difference in the apparel of scholars of various ranks reflecting the origins of the academic dress. Today's academic head-dress evolved from various hats and bonnets of earlier times. Deakin University's academic dress, like that of most Australian universities, derives from dress worn at the Universities of Oxford and Cambridge.

## Deakin University Ceremonial Dress

**Chancellor** – a navy blue gown trimmed with gold bullion braid, sleeves trimmed with four gold ornaments and gold bullion braid around the bottom hem, a navy blue bonnet lined with gold satin, with gold braid and two gold metallic tassels.

**Vice-Chancellor and President** – a navy blue gown with five bars of gold bullion braid on the sleeves and a navy blue tudor bonnet identical to that of the Chancellor.

### Alfred Deakin Professor

Academic staff who have been awarded the title Alfred Deakin Professor will wear academic regalia befitting their highest qualification as well as an Alfred Deakin Professor stole which will be worn over the top of the gown.

## Deakin University Academic Dress

**Higher Doctorate** – a red gown with gold silk front facings finishing at the front yoke line, sleeves fully lined with gold silk and turned back at the front seam, together with a red hood lined with gold silk and a red bonnet with gold tassels.

**Doctor of Philosophy** – a royal blue gown with red silk front facings finishing at the front yoke line, sleeves fully lined with red silk and turned back at the front seam, together with a royal blue hood lined with red silk and a royal blue bonnet with red tassels.

**Professional Doctorate** – a royal blue gown with the relevant discipline colour silk front facings finishing at the front yoke line, sleeves fully lined with the relevant discipline colour silk and turned back at the front seam, together with a royal blue hood lined with silk of the relevant discipline colour, and a royal blue bonnet with blue tassels.

**Master by Research** – a navy blue master gown, Cambridge hood lined with silk of the relevant award colour and trimmed with two white pipes, colour is shown on both shoulders, and a navy blue trencher trimmed with white binding and white tassels.

**Master by Coursework with Honours** – a navy blue master gown, Cambridge hood lined with the appropriate coloured silk and trimmed with two white pipes, colour is shown on both shoulders, and a navy blue trencher with navy blue tassels.

**Master by Coursework** – a navy blue master gown, Cambridge hood lined with the appropriate coloured silk and trimmed with one white pipe, colour is shown on both shoulders, and a navy blue trencher with navy blue tassels.

**Graduate Diploma** – a navy blue bachelor gown, Oxford hood lined with the appropriate coloured silk and trimmed with one white pipe, colour is shown on the left shoulder only, and a navy blue trencher with navy blue tassels.

**Graduate Certificate** – a navy blue bachelor gown, Oxford hood lined with the appropriate coloured silk and trimmed with the same colour pipe, colour is shown on the left shoulder only, and a navy blue trencher with navy blue tassels.

**Bachelor Degree with Honours** – a navy blue bachelor gown, Oxford hood lined with the appropriate coloured silk and trimmed with two white pipes, colour is shown on the left shoulder only, and a navy blue trencher with navy blue tassels.

**Bachelor Degree** – a navy blue bachelor gown, Oxford hood lined with the appropriate coloured silk, colour is shown on the left shoulder only, and a navy blue trencher with navy blue tassels.

**Associate Degree** – a navy blue bachelor gown, Oxford hood lined with the appropriate coloured silk, colour is shown on the left shoulder only, and no trencher.

**Diploma or Advanced Diploma** – a navy blue bachelor gown, stole of the appropriate colour and no trencher.

#### **Aboriginal and/or Torres Strait**

**Islander Stole** – a silk stole in the colours of the relevant Indigenous flag may be worn under the hood or stole of the relevant award.

## **Regalia Colours**

Architecture	Oyster grey
Arts	Cherry red
Commerce	Buttercup
Education	Emerald
Engineering	Orange
Health sciences	Glacier blue
Information technology	Wisteria
Law	Garnet
Medicine	Ivory
Nursing	Peacock green
Science	Spectrum blue
Social work	Spectrum violet

All participants in the graduation ceremony must wear the appropriate academic dress for their qualification or for the position they hold at the University.

## **Deakin Award Appellations**

In the official abbreviations of our awards, Deakin University is abbreviated to *Deakin*. For example, BCom *Deakin*.

# Honorary Degree Recipients

Honorary degrees are conferred by the University Council on the recommendation of the Vice-Chancellor, following consideration by the Honorary Degrees Committee.

## 2020

Dr Andrew Rogers – *Deakin Honorary Doctorate*  
Emeritus Professor Jane den Hollander AO – *Deakin Honorary Doctorate*  
Professor Robert Howe – *Deakin Honorary Doctorate*  
Dr Janette Grenfell – *Deakin Honorary Doctorate*  
Dr Geraldine Atkinson – *Deakin Honorary Doctorate*  
Dr Andrew Fairley AM – *Deakin Honorary Doctorate*  
Dr Duncan Stalker OAM – *Deakin Honorary Doctorate*

## 2019

Dr Helene Bender AM – *Deakin Honorary Doctorate*  
Dr Peter Meehan – *Deakin Honorary Doctorate*  
Professor Richard Tinning – *Deakin Honorary Doctorate*  
Magistrate Rosemary E Falla – *Deakin Honorary Doctorate*  
Dr Jill Smith AM – *Deakin Honorary Doctorate*  
Dr Melinda Smith OAM – *Deakin Honorary Doctorate*  
Emeritus Professor Joe Graffam – *Deakin Honorary Doctorate*  
Dr Robert Costa – *Deakin Honorary Doctorate*  
Dr Cadel Evans AM – *Deakin Honorary Doctorate*  
Dr Tony Ellwood AM – *Deakin Honorary Doctorate*  
Dr Peter Norden AO – *Deakin Honorary Doctorate*  
Dr Andrew Norton – *Deakin Honorary Doctorate*  
Dr Kiran Mazumdar-Shaw – *Deakin Honorary Doctorate*

## 2018

Emeritus Professor Judith Brett – *Deakin Honorary Doctorate*  
Dr Todd Harper AM – *Deakin Honorary Doctorate*  
Hon. Dr Barry Owen Jones AC – *Deakin Honorary Doctorate*  
Professor Mervyn King SC – *Deakin Honorary Doctorate*  
Dr Jane Martin – *Deakin Honorary Doctorate*  
Dr Tabaré Vázquez – *Deakin Honorary Doctorate*

## 2017

Air Chief Marshal Mark Binskin AC – *Deakin Honorary Doctorate*  
Dr Elizabeth Broderick AO – *Deakin Honorary Doctorate*  
His Excellency Charles Lepani CBE – *Deakin Honorary Doctorate*  
Professor Viswanathan Mohan – *Deakin Honorary Doctorate*  
Professor Budaraju Srinivasa Murty – *Deakin Honorary Doctorate*  
Dr Paul Tobias – *Deakin Honorary Doctorate*  
Hon. Dr Judith Troeth AM – *Deakin Honorary Doctorate*  
Hon. Dr Ranil Wickremesinghe – *Deakin Honorary Doctorate*

## 2016

Professor Michel Armand – *Deakin Honorary Doctorate*  
Dr Bill Forrest AM – *Doctor of Letters*  
Hon. Dr Julia Gillard AC – *Doctor of Laws*  
Professor Jenni Lightowlers – *Deakin Honorary Doctorate*  
Dr David Morgan AO – *Doctor of the University*  
Lieutenant General David Morrison AO (Retd) – *Deakin Honorary Doctorate*  
Dr Dalal Smiley – *Doctor of Laws*  
Emeritus Professor Gillian Triggs – *Deakin Honorary Doctorate*  
Professor Yongxian Zhang – *Deakin Honorary Doctorate*

## 2015

Dr Megan Clark AC – *Doctor of Science*  
Professor Brad Dunstan – *Doctor of Science*  
Professor Bevis Hutchinson – *Doctor of Science*  
Dr Leon Kempler AM – *Doctor of Science*  
Dr Sue Nattrass AO – *Doctor of Letters*  
Dr Tim Soutphommasane – *Doctor of Letters*  
Emeritus Professor David Stokes AM – *Doctor of the University*  
Dr Helen Szoke AO – *Doctor of Laws*  
Dr David Thodey AO – *Doctor of Science*  
Dr Kurt Zuelke – *Doctor of Science*

## 2014

Mr Peter Alsop – *Master of Science*  
Dr Mukesh Dhirubhai Ambani – *Doctor of Science*  
Hon. Dame Quentin Bryce AD CVO – *Doctor of Laws*  
Emeritus Professor Max Charlesworth AO – *Doctor of Letters*  
Hon. Dr Simon Crean – *Doctor of Laws*  
Dr Baba Kalyani – *Doctor of Science*  
Hon. Dr Jeffrey Kennett AC – *Doctor of Laws*  
Hon. Dame Carol Kidu DBE MP – *Doctor of Laws*

# The Performers

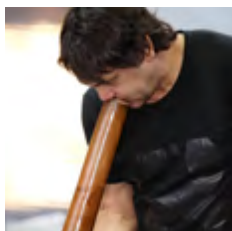

Deakin's graduation ceremonies include a number of live musical performances, including the National Anthem and a musical arrangement at the conclusion of the ceremony. These are the biographies of the artists who perform at the ceremonies. Performers may vary between ceremonies.

## Michael Cristiano

Michael Cristiano is one of Australia's most highly acclaimed performers, composers and record producers. As a producer, his name can be found on numerous multi-platinum selling albums by such artists as The Seekers, Judith Durham, Silverchair, Andre Rieu, Mirusia and Gene Pitney amongst many other big names. As a performer, he is renowned for his on-stage presence, unique, soulful voice and virtuoso guitar skills that continue to wow audiences

worldwide. He is one of the country's most respected musicians and composers and has taken home many prestigious music awards. In 2019, The Seekers founding members Athol Guy, Keith Potger and Bruce Woodley joined Michael at his Soundplant recording studio to revisit songs they'd sung in earlier years, and a few they wish they'd sung. The resulting album "Back To Our Roots" was released to rave reviews and "The Original Seekers" (as they were now known) embarked on a sell-out national tour. With a string of ARIA Number one albums to his production portfolio and a new solo album in the works, he continues to be one of the brightest and dynamic stars on the Australian music scene, dedicating his time and unique skills to both his own projects and those of emerging artists and established veterans alike.

## Ron Murray

Ron Murray is a Wamba Wamba man (Swan Hill area) living at Yapeen, near Castlemaine in central Victoria on Jaara country. He has performed as a didgeridoo soloist widely in Australia and also in New York, Jordan, Canada and New Zealand. Ron has performed for Queen Elizabeth II, Yusuf Islam (Cat Stevens), Sir Bob Geldoff and Muhammed Ali. Musical highlights include performing at the world premiere of American composer Phillip Glass' Voices for Didgeridoo,

Organ and Narrator (2001) with Mark Atkin, Calvin Bowman and Joy Murphy-Wandin at the Lincoln Center Festival, New York. Ron regularly performs as a foundation member of the Deep Listening band, a collaboration of Indigenous and non-Indigenous musicians and artists based on the Indigenous philosophy of Dadirri.

## Mary Catanchin

Singer-Guitarist Mary Catanchin is well known throughout Melbourne for her soaring voice and solo acoustic shows. Throughout the past ten years she has forged a solid career performing for corporate clients in venues such as Crown Palladium, The Melbourne Convention and Exhibition Centre, Federation Square, Etihad Stadium and the Melbourne Cricket Ground. The 2020 and 2021 lockdowns found Mary experimenting with vocal

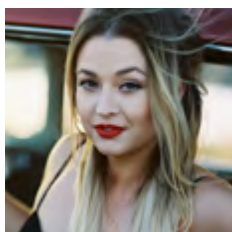

and percussion looping to create lush harmonies and beats on the fly, resulting in a unique layered sound which she now incorporates into her shows. You can find Mary playing weekly at some of Melbourne's busiest public venues in the CBD such as Crown Casino as well as fronting Radio Star, a popular Cover Band playing at Lamby's Geelong and many other Melbourne venues.

## Jessica Markovski

Jessica Markovski is a singer/songwriter from Geelong. Her passion for composing and performing is continuously giving her opportunities with her solo career. With her daily compositions taking place, Jessica is currently recording and releasing her original compositions, alongside, is involved in commercial modeling and acting. Praised for her remarkable ability to play numerous instruments and her musicianship, she has established and is

consistently greeted with exceptional accolades by world known musicians. Touring Europe and America with 'The Sweethearts', playing at festivals such as Summerfest, Jazz A Vienne, Porretta Soul festival and being invited to play at the Legendary BB King's café in Memphis Tennessee, gives her the honor to achieve even higher musical standards to succeed in the music industry. Jessica is a Deakin University student studying health science, majoring in exercise science and medical biotechnology and continues to engage in the music scene with residencies across Geelong and Melbourne. She aspires to a career in health and science.

## Ashleigh Watson

Ashleigh Watson is an independent retro soul singer/songwriter based in Melbourne. Originally from a jazz background, she found her passion for Motown and soul music when she joined all girl soul band 'The Sweethearts' at just 14 years of age performing with them twice at the prestigious Porretta Soul Festival Italy and Montreaux Jazz Festival Switzerland. In 2013, Ashleigh was invited to participate in the distinguished Hollywood Immersive Music

Course in LA working on her original material with numerous hit songwriters. The support she received ignited her passion to expand her craft and in 2015 her first EP 'Lolita' was released gaining international airplay and much critical acclaim. Over the past few years she has also become a recurring session vocalist on The Voice Australia, X-Factor and the upcoming album for musical act, 'Owl Eyes'. Ashleigh has had great success with several of her original songs signing to music libraries across the globe. Most recently, her first single "Little Love" scored a placement on episode one, season two of hit ABC TV show "Harrow".

# The University

## Alfred Deakin

Deakin University was named in honour of Alfred Deakin (1856–1919), a remarkable Australian statesman, leading figure of the federation movement and three-time Prime Minister of Australia.

Alfred Deakin was a man of broad vision. Praised as a political leader, he was an outstanding orator, accomplished lawyer, a journalist, poet, an intellectual and an idealist motivated by a sense of duty to his country.

The son of English migrants, Alfred Deakin was born and educated in Melbourne, studying law at the University of Melbourne. He embarked upon a career in journalism with *The Age* and was a prolific reader of literature, philosophy, law and science, earning most of his income as a writer of social and political commentaries.

In 1879, Alfred Deakin launched his political career and became a successful Liberal candidate for the Victorian Parliament. A believer in democratic social reform, he became the acknowledged leader of the Australian Federation movement in Victoria. He was an active campaigner, a delegate at the federal conventions, member of the constitutional drafting committee and colonial representative in London.

Alfred Deakin was Deputy Prime Minister and Attorney-General in Australia's first government and, in 1903, he became Prime Minister. His many achievements include the establishment of the High Court of Australia, the introduction of labour and social reforms, the promulgation of new technologies such as irrigation and wireless telegraphy, support for the exploration of Antarctica and the introduction of financial support for Australian writers.

Alfred Deakin

The values of innovation, leadership, scholarship and reform embodied in Alfred Deakin are also fundamental values of Deakin University.

## About Deakin University

Deakin University is one of Australia's most progressive universities, leading in the innovative use of digital technologies and online learning. As a public not-for-profit university, Deakin has achieved a balance of high-quality research with an education experience that is consistently rated as one of the best in the country.

Established with the Deakin University Act of 1974 as Victoria's fourth university and the first in regional Victoria, today it has approximately 60,000 students from across Australia and from more than 130 countries; 20,000 students choose to study online.

Deakin has a student-focused culture with a well-deserved reputation for student satisfaction and for being accessible and flexible, providing opportunities for learners at all stages of their lives and careers.

Deakin is renowned for developing award-winning partnerships with industry, governments, communities, professional associations and other education providers. Building on successes across Australia, Deakin has more than 500 active partnerships in 57 countries supporting education and research collaboration. Deakin's alumni networks also stretch across the globe, with more than 325,000 members.

## Building on the University's success

Deakin University's Strategic Plan – Deakin 2030: Ideas to Impact – provides a bold framework, while remaining true to the University's founding goals:

- to develop lasting and mutually beneficial relationships with rural and regional communities, in particular those in Geelong and Western Victoria
- to offer an educational experience that will widen participation and support students from diverse backgrounds

These important aims continue to be a priority for Deakin University. However, in a world that is globally connected and in which information abounds and is more accessible than ever, innovation and excellence will remain defining characteristics that benefit all our students and staff.

At Deakin, we harness the power of ideas to transform the way we live and think. We nurture a rich and complex ideas ecosystem that delivers lasting value for our students and communities.

What makes us Deakin:

- We excel in both education and research
- We value both excellence and equity
- We are leaders in digital capability
- We are agile and responsive to community need
- Indigenous knowledges and ideas inform our future
- We deliver impact locally and globally
- We seek new opportunities that align with our community commitments

For all these reasons, Deakin University occupies an important place in the Australian higher education landscape.

# The Deakin Story

## 1974–1984

Deakin was established by the Victorian Parliament in 1974 as a 'university in the Geelong area'. Deakin began teaching on 1 April 1977.

Deakin University was named after Alfred Deakin, who served as Prime Minister three times between 1903 and 1910 and was a significant figure in the achievement of Australian Federation.

When it was established, Deakin incorporated two existing Geelong-based institutions – the Geelong State College and the Gordon Institute of Technology.

Deakin had approximately 2500 students in its first year (1977), rising to 4800 in 1980.

By 1984, Deakin had consolidated its operations at the Geelong Warrnambool Campus.

## 1990–1991

Deakin's growth outside Geelong began in 1990 when it amalgamated with the Warrnambool Institute of Advanced Education. This continued in 1991 when it amalgamated with Victoria College, which operated from Burwood, Toorak and Clayton.

## 1993

Deakin was one of the first Australian universities to embrace professional and continuing education to corporate clients, establishing Deakin Australia (now DeakinCo.) in 1993.

## 1996

In the mid-1970s, the woolstores on the waterfront in central Geelong was one site considered and rejected for the proposed university that was to become Deakin. In 1996, this idea came to fruition with the opening of the Geelong Waterfront Campus.

## 2008

In 2008, the Deakin University School of Medicine opened, becoming Victoria's first rural and regional medical school.

## 2012

February 2012 saw the first intake of students in the new Bachelor of Vision Science/Master of Optometry degree.

## 2013–2019

During a period of rapid growth between 2013 and 2019, new buildings and major improvements included:

- the iconic gateway building at the Melbourne Burwood Campus
- Centre for Advanced Design Engineering Training at the Geelong Waurin Ponds Campus
- expansion of student accommodation across all campuses.

## 2014

In March 2014, the University declared it would be a smoke-free environment.

In May, the \$34 million globally unique cutting-edge carbon fibre research and innovation facility, Carbon Nexus, officially opened at the Geelong Waurin Ponds Campus.

In December, Deakin celebrated its 200,000th graduate.

## 2016

In January 2016, John Stanhope AM assumed the position of Deakin's Chancellor, taking over from David Morgan who served as Chancellor for 10 years.

In April, the Deakin Business School received accreditation by The Association to Advance Collegiate Schools of Business International, the longest serving global accrediting body for business schools in the world.

In August, the Deakin University Community Bank® initiative with Bendigo Bank was launched – the first collaboration of its kind between a university and a financial institution.

Deakin partnered with FutureLearn to offer full degrees online and short free courses through FutureLearn's global platform.

# The Deakin Story *continued*

## 2017

In 2017 Deakin ranked 213 globally by the prestigious Academic Ranking of World universities.

Also in this year, the expanded TERI-Deakin Nanobiotech Centre was opened by the Prime Minister.

In 2017 Deakin University and LeMond Composites joined forces in a \$58m deal to revolutionise the use of carbon fibre across the world.

Soon after, in 2019, Deakin opened two new institutes: the Institute for Health Transformation and the Deakin Applied Artificial Intelligence Institute.

## 2018

In 2018 Deakin officially launched its Innovation Hub ManuFutures.

Deakin partnered with AusNet Services to establish a 7.25 MW smart microgrid at its Geelong Waurun Ponds campus.

The 2018 Excellence in Research for Australia rankings saw Deakin performing at or above world standard in 100% of its research (up from 90% in 2015).

Centre for Advanced Design  
Engineering Training at the Geelong  
Waurun Ponds Campus.

## 2019

In March 2019, Deakin celebrated 25 years of engagement in India. Deakin was the first international university to establish an office in India.

In July, Deakin's seventh Vice-Chancellor, Professor Iain Martin begins in the role, taking over from Professor Jane den Hollander AO who served for nine years.

Also in this year, Deakin appointed its inaugural Pro Vice-Chancellor Indigenous Strategy, Professor Mark Rose.

Deakin was awarded an Athena SWAN Bronze Institution Award in recognition of its commitment to advancing the careers of women, trans and gender diverse individuals in STEMM disciplines; in the same year, Deakin received the 'Employer of Choice for Gender Equality' citation for the 13th consecutive year.

## 2020

In December 2020, the University launched its new ten-year strategic plan, *Deakin 2030: Ideas to Impact*.

The Hydrogen Training Testbed at the Hycel Technology Hub in Warrnambool was launched.

In March, Deakin launched NIKERI – the National Indigenous Knowledges Education Research Innovation Institute. The following year, the Vice-Chancellor's Indigenous Advisory Council was established.

## 2021

In 2021, Deakin established ten platforms for discovery and innovation, funded by the Victorian Higher Education State Investment Fund, the Commonwealth Government, Deakin and its partners.

In April, Deakin launched the Renewable Energy Microgrid at the Waurn Ponds Campus, the largest ever solar farm on an Australian university, which will help to achieve Deakin's goal of being carbon neutral by 2025 and carbon negative by 2030.

Between 2019 and 2021, significant infrastructure developments included:

- Nyaal at Waurn Ponds, an immersive teaching facility, and
- the new Law Building at Burwood.

# The Campuses

Deakin is a large university with all the accompanying resources and infrastructure, but its campuses are small enough to retain their own character and sense of community. Each of our campuses offers a unique atmosphere – from the inspiring architecture and bayside appeal of our Geelong Waterfront Campus, to the cafe culture of our Melbourne Burwood Campus, the spectacular coastal location at our Warrnambool Campus or the mix of activity and open space at our Geelong Waurin Ponds Campus.

## Melbourne Burwood Campus

This thriving campus is Deakin's largest. Located 15km from the Melbourne CBD, it boasts open and inviting spaces for socialising and studying, innovative architecture and wireless locations. An ambitious building program has resulted in a new complex of spacious modern buildings, including the gateway building situated on Burwood Highway and the state-of-the-art Indoor Exercise and Sport Science Teaching Building, completed in 2019. Refurbishment of older buildings, a library extension, expansion of residential accommodation, a 250-seat lecture theatre and a large landscaped central courtyard have all created a campus that is well-resourced and well-designed. The campus is home to the Deakin University Art Gallery and the Deakin *Motion.Lab*, a state-of-the-art motion capture facility that produces 3D animation and special effects, similar to those used in films such as *Avatar* and *The Lord of the Rings*.

## Geelong Waurin Ponds Campus

Deakin's Geelong Waurin Ponds Campus is located 8km from the centre of the historic port city of Geelong, which is 72km south-west of Melbourne. Geelong is Victoria's largest regional city with a population close to 225,000.

Set among extensive landscaped grounds, the Geelong Waurin Ponds Campus boasts hectares of native trees, grassy lawns, lakes and avenues. There are many specialist facilities at this campus, including an outstandingly resourced library, audiovisual production studios, research laboratories and an extensive computer centre. The Waurin Ponds Estate provides first-class conference and convention facilities.

Also located at the Geelong Waurin Ponds Campus is the Geelong Future Economy Precinct. The Precinct draws on over 15 years of investment in developing the research expertise and facilities in areas such as carbon and ultra-fine fibre, nanotechnology and composite materials, as well as robotics, pattern recognition and data analytics. Some of Australia's, and the world's, leading advanced manufacturers now call the Precinct home.

## Geelong Waterfront Campus

The Geelong Waterfront Campus is Deakin's newest campus, located on the beautiful foreshore of Corio Bay in the central business district of Geelong. Originally built in 1893, the historic woolstore building has undergone extensive redevelopment to create a modern and impressive campus centre.

The centrepiece of the campus is Costa Hall, a concert hall of international standard, where a number of university ceremonies, cultural performances and community functions take place, including Deakin's graduation ceremonies.

Also located at this campus is the refurbished Sally Walker Building, which houses the Alfred Deakin Prime Ministerial Library and the Alfred Deakin Research Institute. The Alfred Deakin Research Institute is an interdisciplinary teaching and research centre covering political science, public policy and governance, international relations, globalisation, journalism and communications.

## Warrnambool Campus

Warrnambool is the commercial, cultural and educational heart of south-west Victoria. A premier tourist destination, it boasts stunning coastlines, renowned surf beaches and is the state's foremost site for whale watching.

Located 262km from Melbourne, the campus is set on 114 sprawling hectares on the banks of the picturesque Hopkins River. Our lecturers, students and staff at the Warrnambool Campus form a real community, where communication is open and informal.

Campus facilities include a comprehensive library, excellent teaching and learning spaces, a cafe, gymnasium, bookshop and golf course. Located just 5km from the centre of Warrnambool, the campus ensures that Deakin contributes to the vitality of the local community in the tradition of many university cities.

# Welcome to the Deakin Alumni Community

Congratulations on completing your degree! You're joining a global alumni community of over 300,000 Deakin graduates, and we are delighted to welcome you.

We recognise the dedication it has taken to reach this important milestone and are proud of your accomplishments. And as you embark on your journey into your future careers, further studies and home life, Deakin will be here for you.

Scan the QR code or go to **[deakin.is/welcoming-alumni](https://deakin.is/welcoming-alumni)** to find out more about our Deakin Alumni program, including how to:

- Access Deakin's award-winning career service, available to you for free, for life.
- Continue your lifelong learning journey through our programs and benefits.
- Get involved and make a difference for current and future Deakin students.

You will always be welcome at Deakin and we can't wait to see what you accomplish in the future.

Rebecca Berg

Director, Alumni Engagement

Tuesday 20 June 11am

## Order of Proceedings

The procession will enter at 11pm.

Guests for those who are able to are asked to stand as the procession enters and to be seated for the Welcome to Country.

### **Acting Executive Dean**

Associate Professor Meghan Kelly, Acting Executive Dean – Faculty of Arts and Education

### **Mace Bearer**

Director of Faculty Services, Arts and Education – Ms Ciara Boyd

### **Welcome Address**

Mr John Stanhope AM, Chancellor

### **Occasional Address**

Ms Megan Gilmour

### **The Conferring of Awards**

Chancellor presiding, assisted by Professor Chris Hickey, Chair Academic Board

### **The Presentation of Awards**

University Reader, Dr Fiona Swee-Lin Price

### **Graduate Response**

Ms Megan Grech

### **Closing Address**

Vice-Chancellor and President, Professor Iain Martin

## Ms Megan Gilmour

The Occasional Address will be delivered by Ms Megan Gilmour.

Megan Gilmour is a social innovator, global changemaker, tech entrepreneur and champion for human-centred solutions to complex social problems.

In 2010, after a 25-year career in government, publishing, and international aid and development, Megan's path took an abrupt turn when her son was diagnosed with a life-threatening illness.

Given her extensive experience in addressing system-wide change and global social issues, she thought she was prepared for what lay ahead, but living in the hospital system as a parent proved to be a confronting and disempowering experience.

Megan quickly saw that creating real social impact required human connection over bureaucracy, programs and dollars. In 2012, with her son in recovery, she completed her Master's Degree at Deakin University and resolved to tackle one of the glaring inequities her son faced over the two years he fought his illness – isolation due to time away from school. She co-founded Missing School, a now internationally-known not-for-profit.

Following that, she authored publications on matters of Australian national interest and co-authored an Australian-first report on school connection for kids with complex medical or mental health conditions. The report received a Prime Minister's statement of support in 2015 and generated over 160 media articles. This led to Megan initiating the first Australian government report on the issue and guiding its governance methodology. When government asked "what's the solution?", she set her mind to designing a world-first education innovation that connects absent students to their classrooms through telepresence robots.

The seeds for Megan's unique ability to implement human-centred solutions to system-wide problems were planted at an early age. A fiery redhead with a rebellious spirit, Megan was born and raised in Sydney's multicultural heartland. With daily exposure to different cultures, ideas and influences, she forged a strong sense of social justice that lead her to leave school at 15, attend business school and begin a career in government that saw her rise through the ranks to become the NSW Finance Minister's youngest staff member.

Within just a few years Megan was working in international development, and later spearheaded multi-million dollar initiatives to address complex social and development issues across 24 countries.

Megan teaches and mentors changemakers to build enterprises for social good, and has co-founded tech startups in the global development and assistive robot sector to support aged care, disability, education, health, and industry. She has just launched Seen&Heard, an initiative to focus a decade of success on scaling-up connective technology (from robots to far-reaching teleconference tools) with the ultimate goal of solving school isolation for some of Australia's most vulnerable students by 2025.

Megan's work has been recognised nationally and internationally. In 2018, she was a finalist for the ACT Australian of the Year Awards. She has also been recognised as one of AFR's 100 Women of Influence, and was awarded the Telstra ACT Business Woman of the Year for Purpose and Social Enterprise in 2019. She is also a Churchill Fellow (with studies in six countries) and a 2020 Deakin University Alumna of Year.

A leader in governance and systems, research and capacity building for students missing school because of serious illness, in 2021 Megan released a policy impact paper written for Policy Futures: A Reform Agenda, University of Queensland and the Winston Churchill Memorial Trust, then activated a national policy result.

As a keynote speaker and media spokesperson, Megan's inspirational and unconventional journey is powerfully motivating. Her big picture perspective and ability to cause lasting social change at scale through the power of human connection and innovation uniquely places her to shift audiences beyond passive observers to active changemakers.

## Doctoral Degrees

### Doctor of Philosophy – PhD

#### Elizabeth Abugri

##### **Whose thesis is entitled:**

‘Improving Children’s Addition and Subtraction Understanding Through Conceptual Instructional Methods.’

##### *Summary*

This research investigated the effects of conceptually based instructional methods that shaped children’s understanding of number concepts in addition and subtraction. Recording children’s difficulties and the factors that attribute to it, the results pointed to a provision of effective instruction and teaching resources being crucial to supporting a child’s understanding in mathematics.

#### Mifrah Ahmad

##### **Whose thesis is entitled:**

‘An Experience-based Co-Design Model for Designing Educational Games: Teachers and Game Designers Perspectives.’

##### *Summary*

This study investigated a novel co-design process to improve the design of educational games, based on the lived experiences of game designers and teachers. The research produced an experience-based co-designing model as a tool to enable collaboration between stakeholders in various fields of education and game design.

##### **Principal Supervisor:**

Dr George Aranda

#### Daniel Kuai Shen Auson Ortega

##### **Whose thesis is entitled:**

‘The Rain Ants of Sarayaku.’

##### *Summary*

This research inverts the colonial image of army ants. Inspired by the weaving performances of the Amazonian community of Sarayaku, novel representations of these ants as rain messengers are produced through technology-based performances that combine multispecies ethnography with decolonial tactics using electronic media, machine algorithms, and olfactory experiments.

##### **Whose thesis is entitled:**

‘Domestic Students and Internationalisation at Home in Australian Secondary Schools.’

##### *Summary*

This study investigated internationalisation at home from the perspective of domestic students. While evidence was found of engagement between domestic and international students, reciprocal relationships were rarely formed. Findings indicated that intercultural interactions were shaped by discourses of whiteness and associated forms of privilege, as well as limited opportunities for critical thinking around internationalisation across the delivered curriculum.

## Maya Rita Cordeiro

### Whose thesis is entitled:

'Measuring Performance in Small and Medium Non-Government Organisations.'

### Summary

"This research investigated performance measurement practice in 50 small and medium-sized non-government organisations (NGOs), using a framework derived from the NGO literature, organisational behaviour theories and emerging insights from the investigation. Findings suggest three internal organisational factors contribute to strengthening measurement practice: staff agency, shared values and informal capacity building.

### Principal Supervisor:

### School:

Humanities and Social Sciences

## John Stuart Cumming

### Whose thesis is entitled:

'Obsession, Sabotage, Recognition: Counter Cinema in Melbourne Post-Punk Independent Filmmaking.'

### Summary

This thesis by Prior Publication in Creative Practice investigates three short experimental films made by the candidate in the 1980s. The films and accompanying exegesis examine 'Obsession', 'Recognition' and 'Sabotage' within the theoretical frame of oppositional counter cinema in the context of experimental film making in Melbourne's post-punk cultural milieu.

## Laura Janice Gobey

### Whose thesis is entitled:

'Constructions of Migrant Youth in Australian Youth Policies.'

### Summary

This research investigated constructions of migrant youth in Australian government and third-sector youth policies. It focused on discourses around responsibility, aspirations and citizenship, as well as the relationship between government and the third sector. It found that there were tensions between neoliberal and paternalistic discourses, and between individualist and structuralist understandings of migrant youth.

### Whose thesis is entitled:

'Revitalising Hydraulic Civilisation: Crisis and State Power in Postconflict Sri Lanka.'

### Summary

This thesis considers state and farmer responses to a drought that unfolded during Sri Lanka's post-war reconstruction. President Sirisena's approach to reconstruction was to revitalise hydraulic civilisation. As the drought progressed, antagonisms between farmers and government intensified, threatening to derail Sirisena's project. The pursuant crisis revealed the ongoing tension between democratisation and centralisation in Sri Lanka.

### Principal Supervisor:

Associate Professor Rohan Bastin

Education

## Anton Karl Kozlovic

### Whose thesis is entitled:

“‘You Will Forgive Me if I Speak Bluntly’: Reading The Day the Earth Stood Still (1951) as a Profoundly Christian Subtextual Film.’

### Summary

This thesis investigated Robert Wise's SF classic The Day the Earth Stood Still (1951) to challenge claims that it was (a) an alien invasion film, (b) anti-atomic, and (c) anti-war. Instead, Klaatu was revealed as a Christ-figure and his modern-day intimate contacts as the subtextual equivalents of Jesus's ancient associates.

### Principal Supervisor:

Professor Sean Redmond

### School:

Communication and Creative Arts

## Deborah Anne Lee-Talbot

### Whose thesis is entitled:

'Kaleidoscopic Archives: a History about London Missionary Society Records, 1813–2022.'

### Summary

This thesis examines records using social history and archival theory to illuminate obscured knowledge and the fracturing of experiences across imperial archives. Ultimately, this thesis demonstrates how, in the mid-twentieth century, Australian scholars curated these historic imperial records concerning the Pacific Islands into a modern archive that reflected the gendered, racialised and imperial knowledge.

### Principal Supervisor:

Associate Professor Tiffany Shellam

### School:

Humanities and Social Sciences

## Salai Biak Za Lian Ching

### Whose thesis is entitled:

'Language Maintenance among the Diasporic Hakha Chin Community in Melbourne.'

### Summary

This thesis explores language use of the Hakha Chin speech community in Melbourne. Key findings identify factors that influence future intergenerational language maintenance. Christianity is closely linked to the community's identity and social practices and is a key factor in the future viability of the language in its diaspora community.

### Principal Supervisor:

Dr Alistair Welsh

### School:

Humanities and Social Sciences

## Rouven Eric Link\*

### Whose thesis is entitled:

'Narratives of Cultural Diversity Among Older White People in Rural Australia.'

### Summary

This study investigated the ways older white people living in rural Australia construct narratives about engaging with people from diverse backgrounds and Aboriginal people. It considered how whiteness shaped these narratives by focusing on notions of rurality, multiculturalism and Indigeneity. The findings point to the ways whiteness constrains possibilities for the emergence of conviviality in rural Australia.

Humanities and Social Sciences

## Shelise Marjorie-Rose Robertson

### Whose thesis is entitled:

'Calculated Investors: John Arbuthnot, Hans Sloane, John Woodward and Slavery.'

### Summary

This thesis investigates the works of John Arbuthnot, Hans Sloane, and John Woodward in light of their investments in the Royal African Company and slavery during the eighteenth century. It finds that each investor's works contain rhetorics of 'calculated ignorance' that obscured their relationships with the trade.

### Principal Supervisor:

Associate Professor Geoff Boucher

Communication and Creative Arts

## Arif Mohammad Saba

### Whose thesis is entitled:

'Norm Contestation in International Relations: The Responsibility to Protect and China.'

### Summary

This thesis studied dynamics of norm contestation in International Relations by examining China's contestation of the Responsibility to Protect norm. It found that China has influenced the development of the norm in important ways. A 'reflexive theory' of norm contestation is developed that captures three different dynamics of contestation.

### Whose thesis is entitled:

'Leadership in Early Childhood Education in Singapore.'

### Summary

This study aims to investigate selected early childhood leaders' perspectives on enablers and barriers of their roles to be effective leaders in Singapore. A mixed-methods approach was employed to achieve the aims of the study. Results of this study have implications for early childhood leaders' personal and professional development and implications for professional recognition of effective leaders in Singapore.

## Ena Herni Wasli

### Whose thesis is entitled:

'Using Drama Methodology to teach Traditional Malay Literature in Brunei.'

### Summary

This thesis investigates the use of drama as a pedagogical approach in the teaching and learning Malay Literature in Brunei to adapt to the newly implemented Brunei National Curriculum, National Education System for the 21st Century. The result concluded that the drama activities influenced the students' performance significantly to more collaborative group work.

## Linda Wollersheim

### **Whose thesis is entitled:**

‘Comparing the Politics of Energy Transition Discourses in Germany and Australia.’

### *Summary*

This research scrutinises the strategies adopted by energy transition actors to build legitimacy for their approaches, technologies, novelties, and social innovations. The findings highlight the powerful role of discourse, suggesting that the manner in which actors aim to build discursive legitimacy within transitions fulfills a critical yet understudied role in these dynamic, multi-causal and multifaceted transformation processes.

## Scott Michael Pearce

### **Whose thesis is entitled:**

‘Frontier Myths on Film 1900–1950: Whiteness as Racialised Exceptionalism in American and Australian Westerns.’

### *Summary*

This research argues that the Western film genre promoted white privilege through narratives about exceptional white figures consolidating their hold on an oft stated savage frontier. These films, that articulated whiteness as human and non-whiteness as Other, resonated with Australian audiences and provided a clear narrative structure for their Australian counterparts.

### **Principal Supervisor:**

Professor Sean Redmond

### **School:**

Communication and Creative Arts

## John Robert Rose

### **Whose thesis is entitled:**

Communities, Cartophily, Clubs: a Carbophilic Sports-Focused Case Study of Australian Society 1900–1963.’

### *Summary*

This thesis explores the nexus between card collecting (cartophily) and Australian society during the period 1900 to 1963 with a particular focus on the celebrity status of Australian Rules footballers and the use of images of footballers in marketing various products. The thesis provides insight into the historical development of this phenomenon, highlighting the phases and the expansion of this industry in Australia over time.

Tuesday 20 June 4pm

## Order of Proceedings

The procession will enter at 4pm.

Guests for those who are able to are asked to stand as the procession enters and to be seated for the Welcome to Country.

### **Associate Dean**

Associate Dean, Teaching and Learning, Professor Michelle Harvey – Faculty of Science Engineering and Built Environment

### **Mace Bearer**

Director of Faculty Services, SEBE – Ms Linda Scammells

### **Welcome Address**

Mr John Stanhope AM, Chancellor

### **Occasional Address**

Ms Elaine Carbines AM

### **The Conferring of Awards**

Chancellor presiding, assisted by Professor Doug Creighton, Deputy Chair Academic Board

### **The Presentation of Awards**

University Reader, Dr Fiona Swee-Lin Price

### **Graduate Response**

Mr Daniel Bryan

### **Closing Address**

Vice-Chancellor and President, Professor Iain Martin

## Award of Honorary Degree

The honorary degree of Deakin Honorary Doctorate will be conferred upon Ms Elaine Carbines AM for distinguished service to Geelong and the Barwon Region, especially in the areas of regional development, support of Deakin University and protection of the environment.

### Ms Elaine Carbines AM

The Occasional Address will be delivered by Ms Elaine Carbines AM.

Elaine Carbines was born in Manchester, England. She completed her primary schooling there before her family migrated to Australia in the late 1960s.

The family initially lived on a migrant hostel before settling in the eastern suburbs of Melbourne where Elaine attended Mitcham High School. She commenced her tertiary education, the first in her family to do so, at Monash University, completing an Arts degree and later a Diploma of Education.

Elaine began her teaching career at Banyule High School in 1979 where she taught English, History and French. She taught there for ten years before leaving to have her children, Hannah and Scott.

In 1993, Elaine, husband Shane and their young children, moved to Geelong. She established herself as a valued community member taking on various leadership roles and recommenced her teaching career at local Geelong state secondary schools before being preselected to run in the 1996 state election as the ALP candidate for the seat of Bellarine. Although unsuccessful at that election, she was elected as the Member for Geelong Province in 1999.

Elaine thoroughly enjoyed representing the Geelong region community in state parliament. She was promoted to the position of Parliamentary Secretary for Education and later, Parliamentary Secretary for Environment.

Her time as an MP taught Elaine much about the political process and she oversaw the development of several key government strategies including the Great Ocean Rd Region Strategy, Coastal Spaces Project, the Live Music Taskforce, and the Cutting Red Tape in Planning Project.

Losing her seat in 2006, Elaine then worked for three years as the Manager of Parks and Marine Relations at Parks Victoria where she led stakeholder relations plus multiple community engagement projects across the state.

In 2010, Elaine was appointed CEO of G21 – Geelong Region Alliance, an alliance of the five local government areas in the wider Geelong region. For ten years she led the development and implementation of strongly supported regional strategic plans including land use, growth, infrastructure, public transport, health and wellbeing. She also advocated strongly for investment in the region working closely with other key stakeholders including Deakin University.

Under her leadership, G21 actively pursued and secured Victoria's only City Deal - the \$500m Geelong and Great Ocean Road City Deal focusing on the visitor economy. Having a deep commitment to social justice, Elaine led the development of the award-winning public policy initiative, GROW (G21 Region Opportunities for Work), in conjunction with the Give Where You Live Foundation to address disadvantage in the G21 region.

Leaving G21 at the end of 2020, Elaine holds several directorships including being Deputy Chair of both Ports Victoria and Barwon Water.

Elaine's contribution throughout her career has been recognised through several awards including:

- Member of the Order of Australia 2020 (for significant contribution to conservation and the environment)
- Committee for Geelong Leader of the Year 2020 (for outstanding leadership to the Geelong Community)
- IPAA National Fellow 2022 (for outstanding contribution to the practice of public administration in Australia)

## Doctoral Degrees

### Doctor of Philosophy – PhD

#### **Muhammad Waseem Altaf**

##### **Whose thesis is entitled:**

‘Protection of Microgrids with Renewable Energy Sources.’

##### *Summary*

This thesis proposes a microgrid protection framework to mitigate different protection issues such as dynamics in fault current magnitude, protection blinding, false tripping, islanding detection, dc-link protection, and reconnection issues in the renewable energy-based microgrid. All these issues were addressed by developing appropriate protection and control schemes to ensure seamless and reliable operation of the microgrid.

##### **Principal Supervisor:**

Dr Mohammad Taufiqul Arif

##### **School:**

Engineering

#### **Wenli Bai**

##### **Whose thesis is entitled:**

‘Adsorbent/photocatalyst Functionalised Textiles for Indoor Air Purification.’

##### *Summary*

This thesis investigated interior textiles, biomass waste material and TiO<sub>2</sub>/SiO<sub>2</sub> nanocomposites as adsorbents/photocatalysts and their immobilisation onto textile substrates to eliminate indoor air pollutants.

The findings can help improve indoor air quality, which is essential for boosting human health and is in demand for developing medical, athletic, and indoor textiles.

##### **Principal Supervisor:**

Associate Professor Christopher Hurren

##### **Institute:**

Frontier Materials

#### **Joseph Connor Bawden**

##### **Whose thesis is entitled:**

‘Insights into Photoredox Catalysis with Ruthenium(II) and Iridium(III) Complexes.’

##### *Summary*

This thesis examines the use of light as a source of energy for chemical reactions, such as the synthesis of pharmaceuticals, through a process known as photoredox catalysis. This thesis involved spectroscopic and electrochemical analysis of the intermediates of the catalytic cycles, to elucidate the critical reaction pathways and enable the design of more efficient photocatalysts.

##### **Principal Supervisor:**

Professor Paul Francis

##### **School:**

Life and Environmental Sciences

## Karolina Biernacka

### Whose thesis is entitled:

'An Investigation of Novel Solid State Electrolytes for Sodium Batteries.'

### Summary

This thesis investigated a new family of Organic Ionic Plastic Crystal based on Hexamethylguanidinium Bis(fluorosulfonyl) imide, and studied the impact of adding sodium bis(fluorosulfonyl)imide salt. The study evaluated the thermal properties, ionic conductivity, ion diffusion, and electrochemical stability of the various electrolyte compositions.

### Principal Supervisor:

Professor Maria Forsyth

### Institute:

Frontier Materials

## Berta Blanch Lazaro

### Whose thesis is entitled:

'Epidemiology and Pathology of Beak and Feather Disease Virus.'

### Summary

This thesis revealed that wild crimson rosellas, a common Australian parrot, have a much higher prevalence and intensity of infection than previously known. In contrast to other parrots, infected crimson rosellas do not get sick and are able to clear the virus, at least, from some tissues like blood.

### Principal Supervisor:

Professor Kate Buchanan

### School:

Life and Environmental Sciences

## Nicholas John Bradsworth

### Whose thesis is entitled:

'Conservation of an Apex Predator in Urban Environments.'

### Summary

This study investigated the spatial ecology of an elusive, nocturnal apex predator, the powerful owl (*Ninox strenua*). GPS transmitters were attached to owls around Greater Melbourne, Australia to discover important habitat allowing owls to roost, move and survive in urban environments.

### Principal Supervisor:

Associate Professor Raylene Cooke

Life and Environmental Sciences

## Harrison James Burgin

### Whose thesis is entitled:

'Primary Defects in ECHS1 Cause Mitochondrial OXPHOS Defects.'

### Summary

This research investigates ECHS1, a mitochondrial enzyme involved in the breakdown of short-chain fatty acids. Patients deficient in this enzyme may exhibit a combination of defects in both fatty acid metabolism and energy production. This thesis advances knowledge in the biochemistry and pathophysiology of ECHS1 deficiency and the secondary dysfunction associated with it.

### Principal Supervisor:

Dr Matthew McKenzie

### School:

Life and Environmental Sciences

## Marco Rodrigo Calderon Loor

### Whose thesis is entitled:

'Land Change: Continental Scale Trends and Local Scale Impacts.'

### Summary

This thesis analyzes historical and future land change dynamics in Australia and impacts of land change and environmental factors on the carbon balance of South American tropical mountainous ecosystems. Outputs from this thesis can be used as inputs for land management, policy formulation, and global sustainability modelling more broadly.

### Executive Supervisor:

Professor Brett Bryan

### Co-supervisor:

Dr Michalis Hadjikakou

### School:

Life and Environmental Sciences

## Oliver Dalby

### Whose thesis is entitled:

'Incorporating Spatial Ecology into Seagrass Restoration to Improve Success.'

### Summary

This thesis compiles geostatistical considerations useful to guiding seagrass restoration in Western Port, Victoria, Australia. Specifically, a focus is placed on identifying i) contemporary seagrass distributions and recent changes through time, ii) environmentally suitable areas to host restoration, and iii) estimates of dispersal and genetic connectivity to improve restoration success.

### Principal Supervisor:

Associate Professor Craig Sherman

### School:

Life and Environmental Sciences

## Ipshita Das

### Whose thesis is entitled:

'Developing a Novel Algorithm for the Condition Assessment of Utility Timber Poles.'

### Summary

This research presents a novel statistical algorithm for the condition assessment of utility timber poles using advanced signal processing techniques and machine learning algorithms. The developed algorithm can determine the health conditions of the poles with high precision and accuracy which can be implemented for field application.

### Principal Supervisor:

Dr Mahbube Subhani

### School:

Engineering

## Morgan Rhys Ellis

### Whose thesis is entitled:

'Invasive Species Ecology of the Northern Pacific Seastar (*Asterias Amurensis*).'

### Summary

This thesis examines the invasive ecology of the Northern Pacific Seastar, *Asterias amurensis*. This includes understanding their diets through DNA metabarcoding, and investigating the interactions of native prey and description of the anti-predatory exudate released by *Cominella lineolata*. Finally, an eDNA assay was improved and validated to better understand the invasive distribution.

### Principal Supervisor:

Dr Ty Matthews

### School:

Life and Environmental Sciences

## Florant Baptiste Exertier

### Whose thesis is entitled:

'Atomic Tomography of Near-Native Hydrated-State Biological Material.'

### Summary

This research tackled the issue of sub-atomic characterisation of hydrated biological materials in the near-native state using atom probe tomography. Graphene coating, a novel preparation technique, was utilised and developed. Thin vitreous water layers were analysed, and *Escherichia coli* cells were partially rehydrated and characterised using this method.

### Principal Supervisor:

Associate Professor Ross Marceau

### Institute:

Frontier Materials

## Lorenzo Galletta

### Whose thesis is entitled:

'Avian Incubation Behaviour and Embryonic Physiology under Heatwave Conditions.'

### Summary

This thesis quantified the effects of high temperature (as experienced during heatwaves) on parental incubation behaviour and embryonic physiology of a passerine bird. The findings suggest that heatwaves may affect the development of avian embryos, but also gives some pointers at possible rapid adaptation mechanisms.

### Principal Supervisor:

Professor Kate Buchanan

### School:

Life and Environmental Sciences

## Md Ahsan Habib

### Whose thesis is entitled:

'Physiological Time Series Analysis Using Deep Learning Techniques.'

### Summary

This thesis investigates the challenges of using deep learning (DL), an advanced AI technique, in physiological time series data in terms of DL models' lack of generalisability, limited training data and lack of decision-making interpretability. It proposed interpretable model design and optimisation methods, and data augmentation techniques as solutions.

### Principal Supervisor:

Professor John Yearwood

### School:

Information Technology

## Fera Tri Hartanti

### Whose thesis is entitled:

'Framework for Trusted Smart Government.'

### Summary

This thesis develops a trust management framework that enables smart government to better understand citizens' needs, service effectiveness, and service quality, while engaging and improving citizens' well-being. This research contributes to the public service innovation knowledge base and provides evidence for improving smart government services in developing countries.

### Principal Supervisor:

Professor Jemal Abawajy

### School:

Information Technology

## Monowar Hossain

### Whose thesis is entitled:

'Model Parameters and State of Charge Estimation of Li-Ion Battery for Energy Management Applications in Solar PV-Battery Based Micro-Grid.'

### Summary

This thesis proposes novel model parameter estimation techniques for the Li-ion batteries considering their resiliency on temperature and C-rate effects. The proposed techniques are then augmented with the advance non-linear Kalman filters for improved SoC estimation of batteries. Finally, this thesis presents a novel SoC-based energy management and control technique for the grid-tied solar PV-battery based micro-grid.

### Principal Supervisor:

Associate Professor Enamul Haque

### School:

Engineering

## Priyanshu Jain

### Whose thesis is entitled:

'Development of Nano-Immobilised Enzyme System for High Value Omega-3 Concentration.'

### Summary

This thesis investigated a sustainable and improved approach for polyunsaturated fatty acid (PUFA) concentration in algal lipids using enzyme-enabled nano-systems. Thus, the nano-biocatalysts were prepared on two distinct silica nanostructures, and their enzymatic activities were compared. The thesis therefore paves the way forward towards the discovery of indigenous microalgal strains and the development of advanced nano-biocatalysts for omega-3 enrichment.

### Principal Supervisor:

Professor Colin Barrow

### School:

Life and Environmental Sciences

## Amirhossein Javanshir

### Whose thesis is entitled:

'A Multi-Objective Spiking Neural Network.'

### Summary

This study investigated a multi-objective optimisation framework to create high-accuracy and low-latency Spiking Neural Networks (SNNs). It expanded the knowledge base by addressing several challenges in applying SNNs to real-world applications. The findings showed that SNNs can be fast, efficient, and accurate in embedded applications.

### Principal Supervisor:

Professor Abbas Kouzani

### School:

Engineering

## Monalisa Kalita

### Whose thesis is entitled:

'Extraction and Characterisation of Silk Sericin and its Potential Applications.'

### Summary

This study investigated a chemical free degumming method for silk fibres and sericin extraction. It demonstrated the effect of various factors on the gelation kinetics and rheological properties of sericin. The findings pointed the role of molecular weight, concentration, pH, temperature and time on the gelation and thermoreversibility of sericin.

### Principal Supervisor:

Associate Professor Rangam Rajkhowa

### Institute:

Frontier Materials

## Donggun Kim

### Whose thesis is entitled:

'Rational Design of All-Solid-State Lithium Metal Batteries.'

### Summary

This research designed and investigated key components in the solid-state batteries, including electrolyte, lithium anode, and their interface. Lithium metal anode dictated the safety and longevity of the solid-state cell. Results obtained in this work suggest that functionalised boron nitride with a carefully designed cell structure could renovate the performances and stability of solid-state batteries.

### Principal Supervisor:

Professor Ying (Ian) Chen

### Institute:

Frontier Materials

## Divya Susan Koshy

### Whose thesis is entitled:

'Sericin and Laccase Hybrid Nanoflowers for the Biocatalytic Degradation of Ciprofloxacin in Water.'

### Summary

This thesis covered a detailed study on silk industry waste to create sericin and laccase hybrid nanoflowers for the biocatalytic degradation of ciprofloxacin in water. The results indicated efficient degradation and may pave the way for antibiotics remediation in effluents from pharmaceutical industries using a circular economy and green approach.

### Principal Supervisor:

Associate Professor Rangam Rajkhowa

### Institute:

Frontier Materials

## Man Li

### Whose thesis is entitled:

'Weighted Dynamic Time Warping for Time Series Analysis.'

### Summary

This thesis proposed a novel similarity measure for time series data, such as traffic flow or stock prices, and examines its impact on clustering, classification and prediction tasks. The proposed similarity measure surpasses the existing benchmark measures and can offer valuable insights for decision-making in practical applications.

### Principal Supervisor:

Dr Ye Zhu

### School:

Information Technology

## Shu Li

### Whose thesis is entitled:

'Detection and Prevention of Harmful Information Propagation in Cyberspace.'

### Summary

This study investigated hateful user detection on social networks. By investigating and combining users' content and behaviour properties, as well as users' relationship properties, this thesis designed and constructed effective models to represent users. The experiments on real datasets verified the effectiveness of these methods for detecting hateful users on social networks.

### Principal Supervisor:

Professor Gang Li

### School:

Information Technology

## Sneha Subhas Malunavar

### Whose thesis is entitled:

'Solid-State Polymer Electrolytes for Sodium Ion Battery Technology.'

### Summary

This study addressed the gaps in electrolyte materials in sodium-ion battery systems by introducing three different solid-state polymer electrolytes based on organic ionic plastic crystals, ionic block copolymers and mixed co-cations. The electrolytes demonstrated good fundamental properties and cycling performance. The findings provide new insights for developing sodium-ion battery technology.

### Principal Supervisor:

Professor Maria Forsyth

### Institute:

Frontier Materials

## Mostafa Mir

### Whose thesis is entitled:

'Construction Noise Effects on Physiological and Psychological Health of Workers.'

### Summary

This research investigated the health effects of construction noise on workers. Wearable sensors and data science techniques were used to explore the physiological and psychological impacts of construction noise. The findings of the research contribute to improve construction workers' health and wellbeing.

### Executive Supervisor:

Associate Professor Farnad Nasirzadeh

### Co-supervisor:

Professor Anthony Mills

### School:

Architecture and Built Environment

## Juan Esteban Muriel

### Whose thesis is entitled:

'Simulation-Optimisation of Last-Mile Logistics Decisions.'

### Summary

This thesis focuses on the development of simulation and optimisation methods to support the decision-making process in last-mile logistics. Findings include that parking illegally balances the traffic flow and the additional cruising time, reinforcement learning can be applied to improve the decision-making process of vehicles and traffic flow and cruising time can be used to optimise the parking infrastructure.

### Executive Supervisor:

Associate Professor Vicky Mak

### Co-supervisor:

Professor Douglas Creighton

### School:

Engineering

## Minh Tri Nguyen

### Whose thesis is entitled:

'Machine Learning for Drug-Target Interaction Prediction.'

### Summary

This thesis proposes deep learning frameworks to learn and decode the drug-target interaction. The deep learning model is inspired by the drug-target interaction mechanism and exploits a rich external data resource. This facilitates drug-target interaction modelling as well as a better understanding of this crucial interaction in the drug discovery framework.

### Principal Supervisor:

Dr Thin Nguyen

### Institute:

Applied Artificial Intelligence

## Mohammad Kamruzzaman Khan Prince

### Whose thesis is entitled:

'Design and Control of a Grid Connected Permanent Magnet Synchronous Generator-Based Wind Energy Conversion System.'

### Summary

This thesis investigated the grid-integration challenges of a permanent magnet synchronous generator-based wind turbine to improve stability, power quality, and grid code compliance. It covers the design and control aspects, including multi-level converters, solid state transformers, nonlinear model predictive control, modified third-order harmonic filter, and coordinated control schemes with static synchronous compensator and supercapacitor energy storage.

### Executive Supervisor:

Dr Mohammad Taufiqul Arif

### Co-supervisor:

Associate Professor Md Enamul Haque

### School:

Engineering

## Rahul Vishnu Sabnis

### Whose thesis is entitled:

'Functionalised Oxide Nanomaterials for the Propagation of Agriculturally Important Microorganisms.'

### Summary

This study investigated the beneficial use of fabricated metal oxide nanoparticles for the progressive growth of plant growth promoting bacteria. The research successfully isolated an efficient method of utilising nanoparticles as nutrient additives for bacteria. The nanoparticles induced the production of antifungal metabolites to be used against fungal pathogens. This study has potential applications in sustainable agriculture.

### Principal Supervisor:

Associate Professor Wenrong Yang

### School:

Life and Environmental Sciences

## Riddhi Sarkar

### Whose thesis is entitled:

'Repair of Nickel-base Superalloy Components using Direct Energy Deposition.'

### Summary

This study investigates the use of direct energy deposition (DED) process to repair Inconel 718 components. Inconel parts repaired using optimised parameters exhibited mechanical performance comparable to the wrought Inconel tested under 4-point bend and cyclic loading. The columnar DED microstructure is modified using inoculants, resulting in a finer microstructure with improved strength.

### Principal Supervisor:

Professor Daniel Fabijanic

### Institute:

Frontier Materials

## Hanna Scheuffele

### Whose thesis is entitled:

'Climate Change and "Shrinking" Fish: The Roles of Temperature and Body Mass In Oxygen-Limited Metabolism.'

### Summary

This thesis investigates the effects of temperature on the metabolism and body mass in fish, with special emphasis on variable temperature regimes. A combination of meta-analytical, experimental and molecular techniques were used to test hypotheses aiming to explain thermal effects on maximum body size and to explore the acclimation capacity of fish to a warming climate.

### Principal Supervisor:

Associate Professor Timothy Clark

### School:

Life and Environmental Sciences

## Shagun

### Whose thesis is entitled:

'Urban Stormwater Quality Modelling of Residential Catchments Located in Different Climate Zones.'

### Summary

This study investigated the characterisation and modelling of stormwater quality for a residential catchment with variable climatic condition. The finding helped with understanding the factors that are significant in governing performance of stormwater quality modelling under different climatic conditions and offered important knowledge for management and control of stormwater pollution in residential catchments of temperate and tropical zones.

### Principal Supervisor:

Associate Professor Lloyd Chua

### School:

Engineering

## Uttara Shankar

### Whose thesis is entitled:

'Effect of Different Light Regimes on the Growth and Metabolite Productivity in Microalgae.'

### Summary

This thesis explored the impact of light as a key input in the form of either flashing or different wavelengths of light on the growth rates and metabolite profiles of three species of microalgae and describes the changes observed. Microalgae are a growing source of bioactive compounds and renewable energy.

### Principal Supervisor:

Associate Professor Damien Callahan

### School:

Life and Environmental Sciences

## Maryam Shirdashtzadeh

### Whose thesis is entitled:

'Variations in Bacterial Community over Different Hydrological Time Scales in an Urban Constructed Wetland.'

### Summary

This study investigated variations in bacterial communities and their responses to constructed wetland hydrology and physicochemical changes. The findings showed that hydraulic retention time may play an important role in sustaining the impact of storm events on nutrient attenuation in wetlands, and that the microbial community, in terms of both abundance and composition, recovers slowly beyond the retention period.

### Executive Supervisor:

Associate Professor Lloyd Chua

### Co-supervisor:

Associate Professor Lambert Brau

### School:

Engineering

## Jhonatan Gerardo Soto Puelles

### Whose thesis is entitled:

'Interactions of Inhibitors with Surfaces for the Mitigation of Microbiologically Influenced Corrosion.'

### Summary

This thesis is focused on the corrosion inhibition mechanism of the environmentally friendly compound cetrimonium 4OH-cinnamate and its derivatives hindering corrosion and biocorrosion. The findings show a carrier mechanism by which cetrimonium micelles facilitate the approach of the aromatic compounds towards the metal surface.

### Principal Supervisor:

Dr Anthony Somers

### Institute:

Frontier Materials

## Emma Elizabeth Sumner\*

### Whose thesis is entitled:

‘Responses of Australian Alpine Plants to Heat, Frost and Drought.’

### Summary

This thesis provides an evaluation of alpine plant community responses to drought and warming, with a particular focus on the physiological plasticity of heat and freezing tolerance.

### Principal Supervisor:

Associate Professor Susanna Venn

### School:

Life and Environmental Sciences

## Natalie Szin-Bruno

### Whose thesis is entitled:

‘Investigation Of Cellular Interactions with Electroactive Polymer/Lubricin Coatings.’

### Summary

This study investigated the use of lubricin (a natural protein involved in joint lubrication), as a bio-inspired, anti-fouling coating for use on implantable medical devices. The findings demonstrated that lubricin coatings are able to significantly reduce cell attachment, and thus fouling, which has enormous potential to increase the longevity and performance of bionic implants.

### Principal Supervisor:

Associate Professor Wren Greene

### Institute:

Frontier Materials

## Yi Mei Tan

### Whose thesis is entitled:

‘Tools and Techniques for Restoring Zostera Muelleri in Temperate Australia.’

### Summary

This study used field- and mesocosm-based trials to investigate the tools and techniques to restore the seagrass, *Zostera muelleri*, to Western Port, Victoria; and the factors affecting its growth and survival. The findings highlight the viability of seed-based approaches compared to more labour-intensive shoot-based ones, and the need to further understand the seagrass-microbiome relationship, especially in relation to restoration.

### Principal Supervisor:

Associate Professor Craig Sherman

### School:

Life and Environmental Sciences

## Ali Vahabi

### Whose thesis is entitled:

‘Prediction of Brief Clarity’s Influence on Design-Bid-Build Project Performance.’

### Summary

This research developed two simulation methods of PDRI-SD and fuzzy-SD, by which the influence of brief clarity on design-bid-build project cost and time are predicted. Predicting the brief clarity’s impact on project performance at an early stage of the project delivery aids in determining mitigation strategies for potential cost overruns and delays.

### Executive Supervisor:

Associate Professor Farnad Nasirzadeh

### Co-supervisor:

Professor Anthony Mills

### School:

Architecture and Built Environment

## Simon Raoul Leslie Vajda

### Whose thesis is entitled:

'Model Driven White Force Automation.'

### Summary

This thesis presents the Describe, Collect, Analyse, Recommend and Report (DCARR) framework for multi-hierarchical task decomposition and task description for quantitative measures of cognitive functions. DCARR was developed for the purposes of identification and ranking of candidate tasks for automation implementation within complex domains.

### Executive Supervisor:

Professor Kon Mouzakis

### Co-supervisor:

Dr Simon Parker

### Institute:

Applied Artificial Intelligence

## Lanka Hewage Dinushke Shaminda Weerasiri\*

### Whose thesis is entitled:

'Characterisation of Hydrodynamics in Vacuum Fluidised Beds.'

### Summary

This research shed light on the fundamental behaviour of the low pressure fluidisation process and presents approaches to optimise the quality of fluidisation and heat transfer. The proposed modified Ergun equation is used to describe the cause, mechanism and remedy for inhomogeneous fluidisation through experimental and numerical studies.

### Principal Supervisor:

Dr Subrat Das

### School:

Engineering

## Qi Zhong

### Whose thesis is entitled:

'Ownership Authentication of Deep Neural Network Models with Watermarking.'

### Summary

This thesis investigates copyright protection for deep learning models using watermarking in a black-box setting. It explores three key objectives of the deep neural network (DNN) watermarking research community: preserving decision boundaries, improving watermark robustness, and removing watermarks. Various techniques, such as backdoor methods, frequency-domain watermarking, continual learning and attention alignment, were employed to achieve representative results.

### Principal Supervisor:

Dr Leo Zhang

### School:

Information Technology

## Lu Zhou

### Whose thesis is entitled:

'New Methods for DDoS Attacks Detection.'

### Summary

This research introduces three methods to detect and mitigate cyber-attacks. New machine learning methods have been applied in this research. The detection accuracy has been improved while the detection time has been reduced. This research promotes the development of cyber attack detection and mitigation in cyber security.

## Masters by Research

### Master of Architecture (Research) – MArch(Res)

#### Oskar Johnson Casasayas

##### **Whose thesis is entitled:**

'Improving the Environmental Sustainability Outcomes of Australia's Infrastructure Projects through Information Management.'

##### *Summary*

This research investigates the opportunity of improving environmental sustainability outcomes of Australia's infrastructure projects through information management. Key findings conclude that there is a significant opportunity for investment in information management to support improved environmental sustainability outcomes. Addressing this opportunity, a series of actions were developed to support government, industry, and academia in driving change across the infrastructure sector.

##### **Executive Supervisor:**

Dr M. Reza Hosseini

Architecture and Built Environment

### Master of Engineering (Research) – MEng(Res)

#### Jinzhao Chen

##### **Whose thesis is entitled:**

'Identifying Transient Pressure Amplification in Water Networks.'

##### *Summary*

This thesis identified transient pressure amplification in water networks. The study theoretically analysed the superposition of transient pressure waves in a rider-main system and validated the results with numerical models. An algorithm was developed for the identification of transient pressures within water networks of any topology. Furthermore, the findings extend to pressure data reconstruction with a virtual sensor algorithm.

##### **Principal Supervisor:**

Dr James Gong

##### **School:**

*\* Award conferred at previous graduation round.*

# Faculty of Health

Wednesday 21 June 11am

Wednesday 21 June 11am

## Order of Proceedings

The procession will enter at 11am.

Guests for those who are able to are asked to stand as the procession enters and to be seated for the Welcome to Country.

### **Head of School**

Professor Brad Aisbett, Head of School, Exercise and Nutrition Sciences

### **Mace Bearer**

Director of Faculty Services, Health –  
Ms Deryn Vahl-Meyer

### **Welcome Address**

Mr John Stanhope AM, Chancellor

### **The Conferring of Awards**

Chancellor presiding, assisted by Professor Chris Hickey,  
Chair Academic Board

### **The Presentation of Awards**

University Reader, Dr Fiona Sweet-Lin Price

### **Graduate Response**

Ms Lisa Melleuish

### **Closing Address**

Vice-Chancellor and President, Professor Iain Martin

# Faculty of Health

## Doctoral Degrees

### Doctor of Philosophy – PhD

#### Joshua Andrew Allen

##### **Whose thesis is entitled:**

‘Anticipating Clinical Deterioration: Patient Characteristics and System Factors.’

##### *Summary*

This thesis reports the findings of a mixed methods study exploring the patient characteristics and system factors that contribute to patient deterioration in acute healthcare. Study findings identified a range of factors that interact to increase the risk of clinical deterioration in individual patients and hospital wards.

##### **Executive Supervisor:**

Professor Judy Currey

##### **Co-supervisor:**

Professor Liliana Orellana

##### **School:**

Nursing and Midwifery

#### Melissa Sharon Bujtor

##### **Whose thesis is entitled:**

‘Lifestyle Behaviours and Well-Being in Children and Adolescents.’

##### *Summary*

This thesis utilises advanced statistical techniques to examine the relationship between combined modifiable lifestyle behaviours and well-being in children and adolescents. The findings may have implications for interventions aimed at improving young people’s health and well-being, contributing to the promotion of healthy lifestyles among the youth.

##### **Principal Supervisor:**

Associate Professor Susan Torres

##### **School:**

Exercise and Nutrition Sciences

#### Gabrielle Anne Burdeu

##### **Whose thesis is entitled:**

‘Nurses’ Decision Making in Response to Patient Changes.’

##### *Summary*

This thesis describes nurses’ assessment and management decisions in response to patient changes that occur as usual consequence of acute illness. The cues nurses use and their decisions to recognise and respond to improvement and deterioration were explored. Nurses make safe decisions that protect patients from harm and promote recovery.

##### **Principal Supervisor:**

Professor Julie Considine

##### **School:**

Nursing and Midwifery

#### Wendy Crebbin

##### **Whose thesis is entitled:**

‘Learning and Teaching Clinical Decision Making in Surgery.’

##### *Summary*

This study of learning and teaching clinical decision making in surgery was guided by two questions: what are the experiences needed for a doctor to evolve from a novice to some level of expertise; and, how can this information be used to enhance teaching? The key finding was that there is a series of identifiable steps in learning.

##### **Principal Supervisor:**

Professor David Watters

##### **School:**

Medicine

## Johanna Frances Donkers

### Whose thesis is entitled:

'Social Work and Climate Change: Narratives from Australian Practitioners.'

This study explored the question 'How can social work practitioners be supported to engage with the paradigmatic shift to eco-social work, in response to climate change?' Research methodology drew from critical ethnography and critical reflection. Outcomes highlighted the imperative for greater support for frontline practitioners at the personal, cultural and structural levels in response to the climate crisis.

### Principal Supervisor:

Dr Kim Robinson

### School:

Health and Social Development

## Laerke Mygind Gronfeldt

### Whose thesis is entitled:

'From Neighbourhoods to Neurons: Nature Availability and Childhood Socioemotional Development.'

### Summary

This research investigated the association between nature availability and childhood socioemotional functioning. Nature availability associated with stronger father-infant bonding in the first year of life, with better emotional functioning for children aged two to five years, and better theory of mind competences for children aged five to 12 years.

### Principal Supervisor:

Professor Peter Enticott

### School:

Psychology

## Dominika Barbara Howard

### Whose thesis is entitled:

'Sexting and Body Image Among Young Australian Adults.'

### Summary

This research explored the relationship between body image and sexting among young Australians aged 18–25 years. Body-dissatisfied individuals sent sexts less frequently but were more likely to engage in pressured and unwanted sexting.

The findings indicated that body image satisfaction and self-efficacy were crucial to young people's online sexual agency.

### Principal Supervisor:

Dr Bianca Klettke

### School:

Psychology

## Asnake Ararsa Irenso

### Whose thesis is entitled:

'The Role of Community-Based and Intrahousehold Social Networks in Supporting Complementary Feeding Practices in Ethiopia.'

### Summary

This thesis examined the role of women groups, family members, and anyone living together in complementary feeding practices. The functional women's group was a viable support source to improve solid food quality, while household influence varies with members' attributes and relationships. This implies that interventions should consider the caregiver's personal circles.

### Principal Supervisor:

Associate Professor Rachel Laws

### School:

Exercise and Nutrition Sciences

## Tess Maree Murphy Jaeger

### Whose thesis is entitled:

'Fear of Self and Concealment in Obsessive-Compulsive Phenomena.'

### Summary

This thesis is concerned with elucidating the role of negative self-evaluative beliefs, self- and symptom-concealment in OCD symptoms and related phenomena, as experienced within the general population. Findings support the role of distinctive feared-self beliefs and a tendency toward concealment that are consistent with prominent cognitive models of OCD.

### Principle Supervisor:

Dr Jeromy Anglim

### School:

Psychology

## Lasse Jensen

### Whose thesis is entitled:

'Feedback in Online Higher Education.'

### Summary

This thesis examines feedback processes in online higher education using digital ethnography, revealing three types of feedback encounters: elicited, formal, and incidental. Outcomes indicate that productive feedback encounters challenge students' assumptions and occur when they are open to such challenges. This research contributes to understanding feedback as a contextual process, offering insights applicable to both online and campus education.

### Executive Supervisor:

Professor Margaret Bearman

### Co-supervisor:

Professor David Boud

### School:

Education

## Nazgol Karimi

### Whose thesis is entitled:

'Digitally-delivered Interventions for Improving Healthy Eating Behaviours among Socioeconomically Disadvantaged People with Type 2 Diabetes.'

### Summary

This research developed, implemented, and explored the feasibility, effectiveness, and acceptability of EatSmart, a 12-week, evidence-based, theoretically grounded, fully automated digitally-delivered healthy eating behaviour change support program. EatSmart sought to help disadvantaged people living with type 2 diabetes to eat healthily on a budget in order to better self-manage their condition.

### Principal Supervisor:

Emeritus Professor Kylie Ball

### School:

Exercise and Nutrition Sciences

## Bridget Kenny

### Whose thesis is entitled:

'Sub-Clinical Depression and Sub-Clinical Eating Disorders in Early Adolescence.'

### Summary

This thesis provides insight into the relationship between depressive symptoms and eating disorder (ED) symptoms in early adolescence. Influential symptoms (e.g., avoidance of social eating, irritability) are identified and evidence is provided to suggest young adolescents who experience depressive symptoms are at risk for developing ED symptoms over the subsequent 12-month period.

### Executive Supervisor:

Professor Marj Moodie

### Co-supervisor:

Professor Jo Williams

### School:

Health and Social Development

## Melissa Morgan Lane

### Whose thesis is entitled:

'The Role of Ultra-Processed Food Consumption in Relation to Depressive Outcomes.'

### Summary

This thesis used meta-analytic, observational and interventional data to investigate ultra-processed food consumption in the prevalence, aetiology and treatment of depression. The collective findings pointed to greater ultra-processed food consumption as a risk factor for (or when reduced, a protective factor against) depression.

### Executive Supervisor:

Dr Wolf Marx

### Co-supervisor:

Dr Tetyana Rocks

### School:

Medicine

## Steven Robert Litherland

### Whose thesis is entitled:

'Predictors of Male Barroom Aggression and what is Masculinity?'

### Summary

This thesis examined predictors of male barroom aggression quantitatively and the meanings of masculinity qualitatively. It found alcohol use to be the strongest predictor of barroom aggression, with amphetamine-type stimulants and personality traits also acting as greater risk factors than masculinity. Further, masculinity appears to have evolved in a contemporary Australian context, comprising more gender-neutral "human qualities".

### Principal Supervisor:

Professor Peter Miller

### School:

Psychology

## Eloise-Kate Victoria Litterbach

### Whose thesis is entitled:

'Family Mealtime Screen Use, in Australian Families with Young Children.'

### Summary

This thesis explores the use of screens, such as, television, tablets, and phones, during mealtimes in Australian families with young children. Mealtime screen use was associated with children's diets later in life. Families use screens at mealtimes for diverse reasons and reducing such behaviours was challenging for families.

### Principal Supervisor:

Dr Alison Spence

### School:

Exercise and Nutrition Sciences

## Elton Henry Savio Lobo

### Whose thesis is entitled:

'Developing Technological Support for Caregivers of People Living with Stroke.'

### Summary

This research contributes towards providing an updated understanding of the needs of informal stroke caregiver and methods towards converting the needs into usable mHealth functions using approaches such as participatory design, computer-supported collaborative work and living lab. The design methodology can be used by researchers to develop interventions that can support the informal caregiver's health and well-being, while also indirectly influencing the care provided to the person living with stroke.

### Principal Supervisor:

Associate Professor Mohamed Abdelrazek

### School:

Information Technology

## Caitlin Mary Macmillan

### Whose thesis is entitled:

'Donor-Conceived Adults' Perceptions of Parenting, Adjustment, and Parent-Offspring Relationships.'

### Summary

This thesis systematically assessed parenting, adjustment and relationship dynamics from donor-conceived adults' perspectives and made comparisons to spontaneously-conceived adults. Cross-sectional comparisons were made among donor-conceived participants based on circumstances of donor conception discovery. Results suggest being donor-conceived may have some beneficial effect on recalled parenting, but an adverse effect on adjustment and parent-offspring relationships.

### Principal Supervisor:

Associate Professor Mark Stokes

### School:

Psychology

## Amelia Jane McGuinness

### Whose thesis is entitled:

'Improving Outcomes for Children and Youth Affected by Sexual Exploitation.'

### Summary

This thesis improves outcomes for children and young people affected by child sexual exploitation (CSE), through advancing conceptualisation, aetiology, and intervention. Three publications provide a global definition of CSE, assess correlates, and pilot an intervention. The thesis extends the evidence-base, providing a deeper understanding of CSE, offering insight for future trauma-informed prevention and intervention.

### Executive Supervisor:

Dr Bianca Klettke

### Co-Supervisor:

Dr Kate Hall

### School:

Psychology

## Kanika Mehta

### Whose thesis is entitled:

'A Multipronged Approach to Identify Risk Factors and Biomarkers for Poor Cognition.'

### Summary

This thesis comprised a systematic review and meta-analysis appraising existing literature for prospective associations between depression and cognitive decline, and bone loss and cognitive decline. These associations were further investigated in a population-based cohort of cognitively unimpaired participants followed by the identification of plasma protein markers associated with cognitive function.

### Principal Supervisor:

Associate Professor Veer Gupta

### School:

Medicine

## Amalie Sogaard Nielsen

### Whose thesis is entitled:

'Use and Non-Use of Digital Patient-Reported Outcomes Among People with Inflammatory Bowel Disease.'

### Summary

This study offers a comprehensive understanding of patients' attitudes towards digital patient-reported outcomes (PROs) by combining mixed methods and drawing on theories of digital health literacy. It reveals how patients' expectations and concerns impact their willingness to use these technologies and explores the mechanisms that underpin their decision-making processes.

### Principal Supervisor:

Professor Lisa Hanna

### School:

Health and Social Development

## Ethan Lynn Pitman

### Whose thesis is entitled:

'Dissection of the Assembly and Operation of the Plasmodium Export Machinery.'

### Summary

This thesis aimed to further explore Plasmodium Falciparum's essential protein export complex, the Plasmodium Translocon of Exported Proteins (PTEX), to assist in identifying new druggable targets to combat malaria. This research utilised reverse genetic and molecular techniques to identify possible new PTEx components and the essential sequences that make up the PTEx core constituents EXP2 and HSP101.

### Principal Supervisor:

Professor Tania De Koning-Ward

### School:

Medicine

## Caroline Rosenberg\*

### Whose thesis is entitled:

'An Exploration of Humour in Workplace Leadership.'

### Summary

This study investigated humour use in the workplace leadership context. A framework was developed to explain the capabilities of appropriate humour use, and its connection with leadership effectiveness in the workplace. This was achieved by aligning the key elements of humour use with cognitive intelligence, emotional intelligence, and leadership capabilities.

### Principal Supervisor:

Associate Professor Arlene Walker

### School:

Psychology

## Stephanie Kate Sprogis

### Whose thesis is entitled:

'Exploring the Pre-Medical Emergency Team Tier of Rapid Response Systems.'

### Summary

This study investigated the design and use of a hospital patient safety system called the pre-Medical Emergency Team review. Findings revealed policy-practice gaps arising from health professionals' discretionary decisions and system-based barriers to effective use. Nurses had a vital leadership role in remediating early clinical deterioration to promote patient safety.

### Principal Supervisor:

Professor Julie Considine

### School:

Nursing and Midwifery

## Thomas Trevor Stubbs

### Whose thesis is entitled:

'The Commercial Determinants of Cigarette Smoking and E-cigarette Use among Young People in the ASEAN Region: A Case Study with Young Male Smokers in Cambodia.'

### Summary

This thesis explored the commercial determinants of smoking and e-cigarette use among young people in the Association of Southeast Asian Nations. The findings show that tobacco companies continue to use illegal and legal marketing to influence young people's attitudes and consumption behaviours surrounding smoking and brands, and that e-cigarettes have become increasingly appealing, accessible, and popular.

### Principal Supervisor:

Professor John Toumbourou

### School:

Psychology

## Benjamin Mitchell Wood

### Whose thesis is entitled:

'Health Implications of Market Power in the Food Manufacturing Sector.'

### Summary

This thesis developed and applied tools to analyse market power in the global food manufacturing sector in support of broader research efforts to understand power imbalances that structurally influence population health and health equity. The thesis shows that curbing excessive market power is an important systemic, upstream, and equitable solution to partially tackle many complex threats to public health.

### Principal Supervisor:

Professor Gary Sacks

### School:

Health and Social Development

## Doctor of Psychology (Clinical) – DPpsych(Clin)

**Daniel Reich**

### **Whose thesis is entitled:**

‘Mindfulness with Individuals at Risk for Psychosis.’

### *Summary*

This thesis investigated the use of mindfulness with individuals at risk for psychosis. Three phases were followed with the final phase producing clinical practice recommendations that support ways to maximise the safety and efficacy of mindfulness strategies for this group, including via the use of trauma-sensitive mindfulness, compassion practices, and youth-friendly material.

### **Executive Supervisor:**

Associate Professor Subhadra Evans

### **Co-supervisor:**

Associate Professor Melissa O’Shea

### **School:**

Psychology

## Doctor of Medicine – MD

Rachel Maree Mahony

## Masters Degree by Research

## Master of Applied Science (Research) – MAppSc(Res)

**Jessica Maree Campbell**

### **Whose thesis is entitled:**

‘The Lived Experience of Compound Carers in the Western Suburbs of Melbourne: A Qualitative Approach.’

### *Summary*

This study investigated the lived experience of compound carers residing in the Western Suburbs of Melbourne. The findings were presented with an occupational perspective of health using the Pan Occupational Paradigm. It provides occupational therapists with considerations to improve the health and well-being of compound carers in their practice.

### **Principal Supervisor:**

Associate Professor Genevieve Pepin

### **School:**

Health and Social Development

## Hugh Cameron Gillies

### **Whose thesis is entitled:**

‘Remote Follow-Up of Hip and Knee Arthroplasty Patients: A New Model of Care.’

### *Summary*

This research explores the provisional safety and clinical effectiveness of a novel model of care utilising remote monitoring of arthroplasty patients. Registry audit and survey data of patients receiving either knee or hip arthroplasty over a 3 year period were included with the model showing both clinical effectiveness without identifying any early safety concerns.

### **Executive Supervisor:**

Dr Stephen Gill

### **Co-supervisor:**

Professor Richard Page

### **School:**

Medicine

## Anastasia Soula Eyre\*

### **Whose thesis is entitled:**

‘Examining the Extent to which Therapeutic Life Story Work Improves the Behavioural and Emotional Issues of Children in Residential Out of Home Care (OOHC).’

### *Summary*

This thesis is comprised of two studies. The first is a systematic review undertaken to identify and evaluate existing evidence on the use of Life Story Work (LSW) interventions with children in out of home care (OOHC) (n=8). The second examines the extent to which Therapeutic LSW improves the behavioural and emotional issues of children in residential OOHC.

# Faculty of Business and Law

Wednesday 21 June 4pm

Wednesday 21 June 4pm

## Order of Proceedings

The procession will enter at 4pm.

Guests for those who are able to are asked to stand as the procession enters and to be seated for the Welcome to Country.

### **Acting Executive Dean**

Professor Jenni Lightowlers, Acting Executive Dean –  
Faculty of Business and Law

### **Mace Bearer**

Director of Faculty Services, Business and Law –  
Mr Matthew McDonough

### **Welcome Address**

Dr Lyn Roberts AO, Deputy Chancellor

### **Occasional Address**

Mr Peter Niblett

### **Mayoral Address**

Cr Trent Sullivan, Mayor City of Greater Geelong

### **The Conferring of Awards**

Chancellor presiding, assisted by Professor Chris Hickey,  
Chair Academic Board

### **The Presentation of Awards**

University Reader, Dr Fiona Swee-Lin Price

### **Graduate Response**

Mr Brendan Hallinan

### **Closing Address**

Vice-Chancellor and President, Professor Iain Martin

## Award of Honorary Degree

The honorary degree of Deakin Honorary Doctorate will be conferred upon Mr Peter Niblett for his eminent contribution to Geelong and region and to Deakin University as a distinguished graduate and the first alumnus appointed to the University Council and for providing distinguished service as a member of Council from 2009 to 2019 and Deputy Chancellor in 2019.

### Mr Peter Niblett

The Occasional Address will be delivered by Mr Peter Niblett.

Peter Niblett is a distinguished graduate and the first alumnus appointed to the Deakin University Council and he is an integral part of the Deakin University story.

Mr Niblett has provided distinguished service to Deakin and the broader Geelong community and region over the past 36 years as a member of Council from 2009 to 2020 and as a Deputy Chancellor in 2020, Chair of the Audit and Risk Committee from 2019 to 2020 and as a member of various other Committees and governance bodies.

Mr Niblett was honoured as the University's Alumni of the Year in 2015 for outstanding achievements to the community and profession. He has made an outstanding contribution to business (internationally and within Australia), the profession, and education, and the impacts of his activities and achievements are far reaching and highly respected.

Mr Niblett is a Chartered Accountant and is currently an Independent Non-Executive Director having retired from EY (Ernst & Young) in November 2016. He is the Chair of the Audit and Risk Committee at the Victorian Auditor-General's Office.

Mr Niblett is motivated by mentoring, coaching and counselling young people in all aspects of their lives and is passionate about Diversity and Inclusiveness and more importantly, the empowerment of individuals for sustainable success.

## City of Greater Geelong Mayor Cr Trent Sullivan

The Mayoral Address will be delivered by the City of Greater Geelong Mayor, Councillor Trent Sullivan.

Trent Sullivan has been Mayor of the City of Greater Geelong since November 2022.

He had served as Deputy Mayor for the previous two years, and has represented the Bellarine Ward since he was first elected to the Council in 2017.

Mayor Sullivan leads several Council committees and portfolios, including:

- Aboriginal and Torres Strait Islander Partnerships
- Commonwealth Games
- Kilangiti (formerly Karreenga) Aboriginal Advisory Committee.

He is passionate about our local community, and is working to ensure everyone has the opportunity to live a happy and healthy life.

# Faculty of Business and Law

## Doctoral Degrees

### Doctor of Philosophy - PhD

**Islam Mohamed Mahmoud  
Mohamed Ibrahim Khalil**

**Whose thesis is entitled:**

‘Three Essays on Education and Health Economics.’

*Summary*

This thesis examines how early life experiences and decisions regarding education and childbearing affect own and offspring’s outcomes. It finds that policy changes targeting the lower end of the educational distribution suggest a weak education-health gradient. Moreover, the research confirms that being born to an adolescent mother decreases the likelihood of surviving early childhood.

**Principal Supervisor:**

Associate Professor Debdulal Mallick

**Department:**

Economics

**Minh Nhat Nguyen**

**Whose thesis is entitled:**

‘Three Essays on Climate Finance.’

*Summary*

This thesis examined the influence of climate-related information on stock markets and its impact on asset allocation in the long term, considering the effects of climate risks. The study found a significant relationship between climate risks and stock markets. The findings have important implications for investors seeking to mitigate the impact of climate risks on their portfolios.

**Principal Supervisor:**

Dr Ruipeng Liu

**Department:**

Finance

**Shruti Verma**

**Whose thesis is entitled:**

‘Rebranding Announcements and Corporate Outcomes.’

*Summary*

This thesis examined the impact of rebranding announcements on corporate outcomes including analysts’ forecast properties, lenders’ loan contracting decisions, and stock price informativeness. After the announcement, firms access favourable outcomes which improves understanding of rebranding process and provides link between this marketing construct and behaviour of financial market participants.

**Principal Supervisor:**

Professor Ferdinand Gul

**Department:**

Accounting

# NIKERI Institute

Deakin University is proud to have the largest number of Aboriginal and Torres Strait Islander students of any Victorian university.

The National Indigenous Knowledges Education Research and Innovation (NIKERI) Institute commenced in 1991 and offers programs that are structured around off-campus community-based delivery, supported by on-campus intensive study blocks and complemented by local tutors in their home communities.

This approach to course delivery promotes access and equity for Indigenous Australian students. Students from all areas of the country – rural, remote and metropolitan, and across all age ranges, particularly mature age – are able to undertake studies without compromising their family and community obligations.

In November 2019, the Institute won the prestigious Dreamtime Education Award for 'Education Institute of the Year'.

# Get Social! #DeakinGrad

# Evacuation Assembly Points

## Costa Hall, Geelong Waterfront Campus

## Evacuation procedures

**On the sounding of the alert tone:**

**Beep ... beep ...**

- Stand by and wait for further instruction

**On the sounding of the evac tone:**

**Woop ... Woop ... Evacuate Now**

- Follow directions of fire warden
- evacuate all occupants
- proceed to the assembly area on instruction of the chief warden
- remain at the assembly area and report any missing persons or personal items.

**Do not re-enter the building until the fire brigade declares it safe to do so.**

## 疏散程序

**当响起哔... 哔... 警报声时:**

- 请准备就绪等候进一步指示

**当响起呜... 呜... 撤离警报声时,  
立即撤离:**

- 遵从消防安全员指示
- 全体人员撤离
- 根据消防指挥指示前往集合点
- 停留在集合点, 报告缺失人员或个人物品

**在消防人员宣布可安全进入建筑物之前,  
不得进入。**

## निकासी प्रक्रियाएँ

चेतावनी की आवाज **बीप... बीप...** सुनाई देने पर:

- तैयार रहें और आगे के निर्देशों की प्रतीक्षा करें

निकासी की आवाज **वूप... वूप... Evacuate Now** सुनाई देने पर:

- फायर वार्डन के निर्देशों का पालन करें
- सभी मौजूद व्यक्तियों को बाहर निकालें
- मुख्य वार्डन के निर्देश पर सामूहिक स्थल की ओर जाएँ
- सामूहिक स्थल में खड़े रहें और किसी भी लापता व्यक्ति या निजी वस्तु के बारे में सूचित करें।

**जब तक फायर ब्रिगेड भवन में प्रवेश करना सुरक्षित घोषित न करे, तब तक प्रवेश न करें।**

## THỦ TỤC DI TÀN

**Khi nghe tiếng kêu báo động:**

**Bíp ... bíp ...**

- Chuẩn bị sẵn sàng và đợi để được hướng dẫn thêm

**Khi nghe tiếng hụ báo động di tản:**

**Woop ... woop ... Di tản ngay bây giờ**

- Làm theo lời hướng dẫn của giám thị hỏa hoạn
- Di tản tất cả mọi người
- Đi đến nơi tập hợp theo lời hướng dẫn của giám thị trưởng
- Lưu lại tại nơi tập hợp và báo cáo bất kỳ người nào không có mặt hoặc đồ đạc cá nhân bị thất lạc.

**Đừng trở vào tòa nhà cho đến khi đội cứu hỏa tuyên bố là an toàn để trở vào.**

## PROSEDUR EVAKUASI

**Jika terdengar nada peringatan:**

**Bip ... Bip ...**

- Berdiri dan tunggu petunjuk selanjutnya

**Jika terdengar nada tanda evakuasi:**

**Wup ... wup ... Evakuasi Sekarang**

- Ikuti arahan petugas pemadam kebakaran.
- Evakuasi semua yang ada di dalam ruangan.
- Pergi ke lokasi berkumpul sesuai perintah kepala tim pemadam kebakaran.
- Jangan beranjak dari lokasi berkumpul, dan laporkan jika ada orang atau barang pribadi yang tertinggal.

**Jangan kembali ke dalam gedung sebelum tim pemadam kebakaran memastikan kondisi sudah aman.**

## إجراءات الإخلاء

**عند سماع صوت جرس التنبيه:**

**بييب ... بييب ...**

- استعد وانتظر مزيداً من التعليمات

**عند سماع صوت إنذار الإخلاء:**

**وووب ... وووب ... الإخلاء الآن**

- اتبع إرشادات المُختص بالحرائق
- إخلاء جميع الموجودين
- انتقل إلى منطقة التجمع وفقاً لتعليمات الموظف المسؤول عن الإخلاء
- البقاء في منطقة التجمع، والإبلاغ عن أي شخص مفقود أو أغراض شخصية مفقودة.

**لا تدخل المبنى مرة أخرى حتى يعلن مسئول الإطفاء أن الأوضاع آمنة للقيام بذلك.**
