Construction management

# Architecture and construction management

**DEAKIN**  
UNIVERSITY

2024 Undergraduate

# Take control of your career

With experienced and accessible lecturers and cutting-edge facilities, you'll explore innovative ideas, design and technology at Deakin. Choose one of our globally recognised architecture and construction management courses and be inspired to create and collaborate, so you can graduate with the skills employers are looking for.

## Acknowledgement of Country

Deakin University acknowledges the Traditional Custodians of all the unceded lands, skies and waterways on which Deakin students, staff and communities come together. As we learn and teach through virtually and physically constructed places across time, we pay our deep respect to the Ancestors and Elders of Wadawurrung Country, Eastern Maar Country and Wurundjeri Country, where our physical campuses are located. We also acknowledge the many First Nations from where students join us online and make vital contributions to our learning communities.

# Your future in architecture and construction management

## Develop the skills employers want

Study architecture hands-on. From day one of your course, you'll:

- build models
- develop drawing, digital design and communication skills
- explore urban ecologies
- examine professional architects' projects.

While studying construction management, you'll experience practical learning in all aspects of the industry including:

- building economics and law
- property markets and economics
- building technology
- measurement and estimating
- project management
- quantity surveying.

Our architecture students work closely with our construction management students, gaining a unique understanding of both disciplines. These insights into each other's work are invaluable when our students graduate, and begin to communicate, liaise and work together in the fields of construction and architecture.

## Gain professional recognition

Your Deakin qualifications are recognised nationally by industry through course accreditations. All of our courses are regularly examined by key professional groups, including the:

- Australian Institute of Architects (AIA)
- Australian Institute of Building (AIB)
- Australian Institute of Quantity Surveyors (AIQS)
- Architects Accreditation Council of Australia (AACA)
- Architects Registration Board of Victoria (ARBV)
- Chartered Institute of Building (CIOB)
- Royal Institution of Chartered Surveyors (RICS).

Our Bachelor of Design (Architecture) and Master of Architecture are also recognised internationally, for example, by the Board of Architects Malaysia. Through these courses, you'll also have an opportunity to undertake a discipline-specific industry placement, so you can get on-the-job training.

## Get a world-class education

Deakin is ranked in the top 1% worldwide for its architecture and built environment courses, based on the 2022 QS World University Rankings by Subject, which are informed by academic and employer reputation, as well as research impact. So when you choose Deakin, you can be confident you're securing a world-class education – and a bright future.

# Your future in architecture and construction management

## Get a career you can count on

Known for their adaptability, design and technical knowledge, our graduates are well regarded in their professions, with the initiative and ability to hit the ground running.

Our graduates find employment in a range of areas and industries, including:

- commercial
- contract administration
- industrial
- project management
- residential.

Our Bachelor of Design (Architecture) emphasises practical learning and is designed to meet the needs of students who want to complete the Master of Architecture and practise as qualified architects. They can be employed in private architectural practices, government organisations, property development, or other building and design fields.

[deakin.edu.au/archi-cm](https://deakin.edu.au/archi-cm)

## Experience state-of-the-art facilities

The School of Architecture and Built Environment has undergone major refurbishment under the direction of Kerstin Thompson Architects, resulting in an inspiring learning space that has won three prestigious Australian Institute of Architects awards for design excellence. The a+b studio and workshop provide students, academics and researchers with a place to design and build models, encouraging experimentation with technology, materials and processes. The workshop is fully equipped with 3D printers, laser cutters, CNC routers and traditional tools and machinery. The interdisciplinary space offers access to a variety of digital and analogue tools, with an open-plan studio design facilitating project collaboration.

## Explore our industry connections

We have strong industry links within our courses, which can lead to field trips, site visits and guest lectures from built environment professionals. You will have a number of opportunities to gain valuable work experience during your studies, and form real professional networks that will help ensure you graduate work ready. Recent students have undertaken industry experience with:

- Brookfield Multiplex
- DesignInc Architecture
- Grimshaw Architects
- Kane Constructions
- Peddle Thorp Architects
- Rendine Constructions.

## Do you want to register as an architect?

New in 2023, the Bachelor of Design (Architecture)/ Master of Architecture (page 11) provides a packaged education pathway for those interested in pursuing professional registration. After successfully completing this vertical degree, you will be on your way to becoming a registered architect. For more information about professional registration, please refer to the Architects Registration Board of Victoria (ARBV).

[deakin.edu.au/course/D306](https://deakin.edu.au/course/D306)

Design and build architectural models in state-of-the-art facilities.

# Your future in architecture and construction management

## Join our Peer Support Network (PSN)

Sign up to the Faculty of Science, Engineering and Built Environment's PSN in your first year at Deakin to get support and guidance from more senior students in your course. You'll learn about the support services and facilities available, while gaining useful tips about studying at Deakin.

## Gain international experience

Intercultural Dialogue through Design (iDiDe) is an international design workshop where students work in collaborative studio groups with academics, architects and built environment professionals, to collaboratively respond to a socially conscious architectural brief. Students have travelled to Malaysia, India, Thailand, Sri Lanka and Indonesia.

During your course, you may have the opportunity to apply to join this study group, where you will work within a different cultural context. The program seeks to create an international awareness in participants.

## Be rewarded for your hard work

A Deakin scholarship is more than just a financial boost. It is our chance to acknowledge your accomplishments and reward your hard work, setting you on the path to success at university.

Our extensive scholarship program includes three key scholarships:

- Vice-Chancellor's Academic Excellence Scholarship
- Deakin Scholarship for Excellence
- Deakin Student Support Scholarship.

We also offer a range of donor and government-funded scholarships. Each is unique with differing criteria, rewarding aspiring students from diverse backgrounds.

[deakin.edu.au/scholarships](https://deakin.edu.au/scholarships)

## Award-winning university career service<sup>1</sup>

DeakinTalent will prepare you to secure the jobs of tomorrow. Our award-winning service is available to you from day one and will support you for the rest of your career. You'll have lifetime access to career coaching, industry networking opportunities and a comprehensive suite of digital resources helping you develop the most employable version of yourself.

[deakintalent.deakin.edu.au](https://deakintalent.deakin.edu.au)

<sup>1</sup> Australian Graduate Recruitment Industry Awards 2017, 2018, 2019, 2020 winner for most popular career service in Australia; Employability award, 2021 Australian Financial Review Higher Education Awards.

## Inspired and innovative learning spaces

Explore architecture and construction management facilities at our award-winning Geelong Waterfront campus.

Scan to explore

## Showcase your talents at PaperSpace

The School of Architecture and Built Environment annually exhibits outstanding work from students studying the bachelor or masters degree at a public exhibition known as PaperSpace.

The exhibition is an excellent opportunity for the public, students, staff, industry, family and friends to celebrate our students' achievements and hard work.

Watch PaperSpace take shape at [deakin.edu.au/paperspace](https://deakin.edu.au/paperspace).

# Your future in architecture and construction management

## Designing for the real world – tiny houses with a big impact

Working with world-first construction technology to build sustainable tiny houses for a local not-for-profit is a lucrative opportunity for most architects. So, what happens when the same opportunity is offered to architecture and design students before they even hit the job market?

This is Deakin's tiny house project, Prefab21, an innovative solution to the shortage of rental accommodation for homeless men in Geelong and the result of a unique collaboration between Deakin, Geelong company FormFlow and homeless short-term accommodation provider Samaritan House Geelong. The result is a prefabricated tiny house that's architecturally advanced, comfortable, sustainable and affordable.

Students were at the centre of the project, taking charge of design and building under the mentorship of Deakin academics.

'This professional, real-world project really emulates what architects do in the real world,' says Professor Richard Tucker from Deakin's Faculty of Science, Engineering and Built Environment.

The benefits are many: the opportunity to collaborate with real clients, hone technical skills in a real-world setting, connect with industry, hit the ground running come graduation and make a meaningful difference to the community.

The students worked on everything from design and architectural detailing to sourcing solar power and sustainable water management to take the design to fruition.

## Preparing for life after Deakin

Getting involved with Prefab21 has prepared students to hit the ground running after graduation.

'This opportunity has helped me further develop the skills required to take a project from sketch to its built form. With the project being a success, it has led to my developed relationship with FormFlow in collaborating on new projects,' Andrew Galea, a Bachelor of Design (Architecture) student says.

'We are looking forward to more students getting the opportunity to work on collaborative projects in the local and regional community,' Professor Tucker says.

'The dynamism of working with real clients on a real project in which your design decisions have a real impact on cost, schedule, constructability and, ultimately, how the occupants will engage with your architecture was an opportunity I wouldn't have otherwise had.'

**Andrew Galea**

Bachelor of Design (Architecture) student

## Bachelor of Design (Architecture)

**S342** **WF** 70.00 **3** T1, T2

Deakin's Bachelor of Design (Architecture) is a path of discovery, exploring the creative possibilities of architectural design and its potential to make a positive impact on the built environment. Discover architectural ideas through cutting-edge content, develop your creativity and gain a practical understanding of the built environment and its relationship with the community through meaningful and sustainable design, from houses to high-rise projects.

### Professional recognition

When followed by successful completion of an accredited Master of Architecture, the Bachelor of Design (Architecture) is accredited within Australia by the:

- Architects Accreditation Council of Australia (AACA)
- Architects Registration Board of Victoria (ARBV)
- Australian Institute of Architects (AIA).

This course has also been validated and recognised by the Board of Architects Malaysia (Lembaga Arkitek Malaysia), and included on their 'List of Recognised Architectural Programmes'.

### Careers

Deakin architecture graduates work across the globe, from the UK, Berlin and Oslo to China, Dubai and the US. Our graduates have pursued the following roles:

- 3D architectural modeller
- architectural consultant or designer
- design coordinator.

Graduates who wish to pursue a career as a registered architect can continue onto further studies in a Master of Architecture. Once you have completed postgraduate studies and gained your registration to practise, you can pursue a career as a practising architect and work in private architectural firms, government organisations, property development, or other building and design fields.

[deakin.edu.au/course/master-architecture](https://deakin.edu.au/course/master-architecture)

### Work experience

You can apply to undertake a discipline-specific industry placement as an elective option of your course.

[deakin.edu.au/sebe/wil](https://deakin.edu.au/sebe/wil)

### Related course

New in 2023, the Bachelor of Design (Architecture)/Master of Architecture (page 11) provides a packaged education pathway for those interested in pursuing professional registration.

[deakin.edu.au/course/D306](https://deakin.edu.au/course/D306)

### Course structure

This 24-credit-point course consists of 19 core units (22 credit points) and two elective units.

	Trimester 1	Trimester 2
<b>Year 1</b>	Art and Society Architecture Communication 01: Drawing Architecture Design Studio 01: Thoughtscapes Building Materials Science	Architecture Communication 02: Modelling Architecture Design Studio 02: Matterscapes (2 credit points) Construction and Structures 1
<b>Year 2</b>	Utopian Ideals in the Modern World Architecture Design Studio 03: Earthscapes Construction and Structures 2 Elective	Austral-Asian Architecture Architecture Design Studio 04: Publicscapes (2 credit points) Building Environmental Studies
<b>Year 3</b>	Architecture Communication 03: Documentation Architecture Design Studio 05: Hybridscales Building Environmental Services Contemporary Architecture	Architecture Design Studio 06: Superstudio (2 credit points) Construction and Structures 3 Elective

## Bachelor of Construction Management (Honours)

S346 **WF** 60.40 **4** T1, T2

Develop an in-depth understanding of the business of construction, from economics and law to technology. Deakin's Bachelor of Construction Management (Honours) equips you with market-ready skills for construction management, quantity surveying and property development. Work confidently across projects large and small, with a strong focus on practical learning, you will develop the initiative and ability to hit the ground running.

### Professional recognition

As a graduate of this course you'll have completed the academic requirements for membership of:

- Australian Institute of Building (AIB)
- Australian Institute of Quantity Surveyors (AIQS)
- Chartered Institute of Building (CIOB)
- Royal Institution of Chartered Surveyors (RICS).

This course is recognised for practice in more than 50 countries, so you can take your career around the world.

### Fast-track your studies

This course can be taken as an accelerated program. By taking selected units during Trimester 3, you can complete this course in three years of full-time study instead of four, so you can join the workforce sooner.

### Careers

As a Bachelor of Construction Management (Honours) graduate, you'll find career opportunities in roles including:

- construction manager
- contract administrator
- estimator
- project manager
- quantity surveyor.

### Work experience

There are opportunities to undertake a discipline-specific industry placement as an elective option as part of your course. You'll also participate in some core units with major assessments involving collaborative project work, such as Built Environment Integrated Research.

## Study, live and work overseas

Get the support to study, work and live in another region of the world during your studies thanks to the Australian Government. These overseas study programs encourage international cooperation and collaboration throughout the world, giving the next generation of Australians a hands-on experience living and working within other cultures as part of the global community.

Take the opportunity to experience places like the USA, Japan, the UK, Canada, Nepal, Sri Lanka, Germany, France, India, Sweden, Denmark, Colombia or Mexico. It will give you the chance to put your career goals in a global context, ready for the jobs of the future.

[deakin.edu.au/overseas-study](https://deakin.edu.au/overseas-study)

## Combined courses

### Bachelor of Design (Architecture)/Bachelor of Construction Management (Honours)

D364 WF 80.70 5 T1, T2

Deakin's Bachelor of Design (Architecture)/Bachelor of Construction Management (Honours) is a unique degree that combines studies in key aspects of the built environment. Explore architectural ideas and design approaches while learning how to manage construction projects, no matter their scale or scope. Gain in-depth knowledge and skills in architecture, design, construction and project management, while exploring your options for a diverse career in the built environment industry.

#### Professional recognition

The construction management stream of this course is professionally accredited by industry, with graduates qualifying for membership of:

- Australian Institute of Building (AIB)
- Australian Institute of Quantity Surveyors (AIQS)
- Chartered Institute of Building (CIOB)
- Royal Institution of Chartered Surveyors (RICS).

The architecture stream is recognised in Australia by the following organisations, provided graduates go on to complete an accredited Master of Architecture course:

- Architects Accreditation Council of Australia (AACA)
- Architects Registration Board of Victoria (ARBV)
- Australian Institute of Architects (AIA).

#### Fast-track your studies

This course can be taken as an accelerated program. By taking selected units during Trimester 3, you can complete this course in four years of full-time study instead of five, so you can join the workforce sooner.

#### Careers

This cross-discipline course gives you more options for your future career.

Career opportunities include:

- 3D architectural modeller
- architectural consultant or designer
- construction manager
- contract administrator
- estimator
- project manager
- quantity surveyor.

Upon graduating, if you'd like to become a practising architect, you'll need to complete an accredited Master of Architecture course and gain your registration to practise. You'll then be able to work in architectural practices, government, property development, or building and design fields.

[deakin.edu.au/course/master-architecture](https://deakin.edu.au/course/master-architecture)

#### Course structure

This 40-credit-point course consists of 36 core units (totalling 39 credit points) and one level 2 or above elective unit (1 credit point).

	Trimester 1	Trimester 2
<b>Year 1</b>	Building Materials Science Art and Society Architecture Design Studio 01: Thoughtscapes Architecture Communication 01: Drawing	Construction and Structures 1 Architecture Communication 02: Modelling Architecture Design Studio 02: Matterscapes (2 credit points)

## Get to Geelong easily

If you're based in Melbourne, the commute to the Geelong Waterfront Campus is quick and easy. From Docklands, a daily ferry takes 90 minutes, or by the regional rail link from Southern Cross station, you'll be there in under an hour. If you're driving from Melbourne's west, you might find your commute's only an hour.

Find out more about our locations at [deakin.edu.au/locations](https://deakin.edu.au/locations) and our accommodation options by visiting [deakin.edu.au/accommodation](https://deakin.edu.au/accommodation).

'I was attracted to the double degree because I wanted to explore and experiment with all stages and aspects of the construction process from both a practical and creative sense. We get to understand the design from conception to completion, as well as the processes involved in completing these projects.'

**Kelly O'Halloran**

Bachelor of Design (Architecture)/  
Bachelor of Construction Management (Honours) graduate

## The student experience

Hear from our students about studying architecture and construction management in a UNESCO city of design at [deakin.yt/acm-geelong](https://deakin.yt/acm-geelong).

Set on Corio Bay, Deakin's Geelong Waterfront Campus is home to innovative architecture and cutting-edge facilities.

# Courses

## Bachelor of Design (Architecture)/Bachelor of Property and Real Estate<sup>1</sup>

D307 WF NEW 4.5 T1, T2

Set yourself apart with Deakin's Bachelor of Design (Architecture)/Bachelor of Property and Real Estate. This cross-disciplinary course combines the creative possibilities of architectural design with the practical skills and real-world experience needed to build a successful career in the growing property sector. Discover architectural ideas through cutting-edge content and build complimentary skills in property valuation, development and more.

### Professional recognition

Both single degree courses are professionally accredited by multiple professional bodies including the Australian Property Institute (API), Royal Institute of Chartered Surveyors (RICS) and Architects Accreditation Council of Australia (AACA).

### Work experience

This course includes a compulsory work-integrated learning (WIL) unit.

### Careers

Graduate with in-demand cross-disciplinary skills, ready to make an impact in this exciting and diverse industry. Explore career opportunities across building design and property in a variety of roles including:

- 3D architectural modeller
- architectural consultant or designer
- asset manager
- design coordinator
- facilities manager
- owners corporation manager
- portfolio manager
- property adviser
- property developer
- property valuer.

Upon graduating, if you'd like to become a practising architect, you'll need to complete an accredited Master of Architecture course and gain your registration to practise. You'll then be able to work in architectural practices, government, property development, or building and design fields.

[deakin.edu.au/course/master-architecture](https://deakin.edu.au/course/master-architecture)

## #1 Victorian university for course satisfaction

Year on year, Deakin's students have the highest course satisfaction rate of all Victorian universities.<sup>1</sup> We've ranked this highly for the past 13 years, with our students being particularly happy with our:

- teaching
- learning resources
- student support
- skills development
- learner engagement.

<sup>1</sup> Australian Graduate Survey 2010–2015, Graduate Outcomes Survey 2016–2022, Quality Indicators for Learning and Teaching (QILT).

### Course structure

This 36-credit-point course consists of 20 core credit points in Bachelor of Design (Architecture) and 15 core credit points plus 1 credit point work-integrated learning (WIL) course elective for Bachelor of Property and Real Estate.

	Trimester 1	Trimester 2

## Bachelor of Construction Management (Honours)/Bachelor of Property and Real Estate<sup>1</sup>

D336 B / WF<sup>2</sup> 68.00 S T1, T2

One of the most highly regarded programs on offer, Deakin's Bachelor of Construction Management (Honours)/Bachelor of Property and Real Estate offers a professionally recognised qualification that combines site skills with business execution. Explore building practice, technology, economics and law, property market analysis and valuation. Learn how to drive growth and make strong commercial decisions, understand regulations and manage construction projects of any size.

### Professional recognition

Both single degree courses are professionally accredited by multiple professional bodies including the:

- Australian Institute of Building (AIB)
- Australian Institute of Quantity Surveyors (AIQS)
- Australian Property Institution (API) for Certified Practising Valuer (CPV) status
- Chartered Institute of Building (CIOB)
- Royal Institution of Chartered Surveyors (RICS).

### Work experience

There are opportunities to undertake a discipline-specific industry placement as part of your course. You'll also participate in some core units with major assessments involving collaborative project work, such as Built Environment Integrated Research.

### Careers

With this qualification, you'll be able to specialise in all facets of the construction management and property and real estate markets including commercial, industrial and residential property. Career opportunities include:

- construction manager
- contract administrator
- estimator/quantity surveyor
- owners corporation manager
- portfolio manager
- property adviser
- property developer
- property valuer
- real estate agent.

### Course structure

This 40-credit-point course consists of 15 core units and one work-integrated learning (WIL) course elective from the Bachelor of Property and Real Estate and 23 core units (24 credit points) from the Bachelor of Construction Management (Honours).

	Trimester 1	Trimester 2
<b>Year 1</b>	Introduction to Property Fundamentals of Finance Building Materials Science Law for Commerce	Economic Principles Property Law and Practice Introduction to Property Development Accounting for Decision Making

## Bachelor of Design (Architecture)/Master of Architecture **D306** **WF** **NP** **5** **T1, T2**

Discover architectural ideas through cutting-edge content, develop your creativity and gain a practical understanding of the built environment and its relationship with the community through meaningful and sustainable design. This five-year course provides a packaged education pathway for those interested in pursuing architectural professional registration. You will gain practical skills in a studio environment and develop your ability to communicate your design ideas under the guidance of passionate staff.

### Course structure

This 40-credit-point course comprises 24 credit points from the Bachelor of Design (Architecture) (see page 5), plus an additional 16 credit points, including:

- 10 core units (13 credit points)
- three course electives (3 credit points).

### Careers

After successful completion of the Bachelor of Design (Architecture)/Master of Architecture, followed by an additional two years of work experience under the supervision of a registered architect, you will be ready to apply for registration with the Architects Registration Board of Victoria (ARBV) and the Australian Institute of Architects (AIA).

As a registered architect, you will then be qualified to pursue a career as a practising architect and work in a private architectural practice, government organisations, property development or other building and design fields.

- Ready to find out more? Visit our course webpage for full details including pre-course and entry requirements, unit selection options and campus and trimester availability for domestic and international students, and more. [deakin.edu.au/course/D306](https://deakin.edu.au/course/D306)

## Gain a scholarship to help you fund your degree

### IGNITED Scholarship

If you're female and about to start an undergraduate degree in areas including engineering, information technology or construction management, you could be eligible for an IGNITED Scholarship. A portion of the course fees will be reimbursed and recipients are also assigned an academic mentor. [deakin.edu.au/ignited-scholarship](https://deakin.edu.au/ignited-scholarship)

See the full range of scholarships available at [deakin.edu.au/scholarships](https://deakin.edu.au/scholarships).

## Award recipients for the promotion of gender equity in STEMM

Deakin has received the prestigious Athena SWAN Bronze Institution Award for its programs that encourage more women to study, research and work in Science, Technology, Engineering, Mathematics and Medicine (STEMM).

The Athena SWAN program is run by Science in Australia Gender Equity (SAGE), and the Bronze award recognises Deakin's extensive work in promoting gender equity, inclusivity and diversity.

To progress into the Master of Architecture level of studies from undergraduate architecture, students must achieve a Weighted Average Mark (WAM) of 65. Students achieving a WAM between 55 and 64 have the opportunity to submit a portfolio of relevant work and personal statement for consideration to potentially progress into the master level of studies. Students cannot progress to the postgraduate level of study without completing all 24 credit points at undergraduate level. A WAM of less than 55 results in an alternative exit from D306 Bachelor of Design (Architecture)/Master of Architecture with the award: S342 Bachelor of Design (Architecture).	<b>WF</b> NP	5	T1, T2	\$8301	\$37,000

\$28,400<sup>10</sup> \$38,000

- The 2023 indicative domestic/Commonwealth Supported Place (CSP) fees and the indicative international fees are based on a typical enrolment of two trimesters of full-time study, or 8 credit points, unless otherwise indicated. These fees should be used as a guide only and are subject to change in 2024. The fees displayed do not reflect the entire cost of the course if it's completed over a number of years and do not include the Student Services and Amenities Fee or course-related equipment costs.
  - Leads to professional recognition as an architect when followed by successful completion of an approved Master of Architecture program.
  - Visit our course webpage for full details including pre-course and entry requirements, unit selection options and campus and trimester availability for domestic and international students, and more.
  - Recent secondary education applicants include current Year 12 students in 2023, as well as Year 12 graduates from 2022 and 2021.
  - International student entry requirements can be found at: [deakin.edu.au/international-students](https://deakin.edu.au/international-students).
  - For information about non-Year 12 applicant categories and associated admission requirements, please refer to the individual course webpage.
  - Completion of this course can be fast-tracked by undertaking units in Trimester 3, effectively reducing the duration of study by up to one year.
  - This course is not available to international students.
  - Delivery of this course is across multiple campuses; see course webpage for further details.
  - Full fee paying place.
- N/A means not applicable.  
NEW means new course in 2024, so ATAR/indicative domestic fee are not available.  
NP means not published – less than five offers made to recent secondary education applicants.
