and online education

¹ ARWU (ShanghaiRanking Academic Ranking of World Universities) 2023, THE (Times Higher Education), World University Rankings 2023, QS World University Rankings 2024.

Acknowledgement of Country

Deakin University acknowledges the Traditional Custodians of all the unceded lands, skies and waterways on which Deakin students, staff and communities come together. As we learn and teach through virtually and physically constructed places across time, we pay our deep respect to the Ancestors and Elders of Wadawurrung Country, Eastern Maar Country and Wurundjeri Country, where our physical campuses are located. We also acknowledge the many First Nations from where students join us online and make vital contributions to our learning communities.

What postgraduate study can do for you

Become an expert in your field to drive your career forward

In a world that doesn't stand still, neither can you. Postgraduate study expands your employment opportunities, giving you the skills and expertise to progress your career. Employers value the professional skills and strategic thinking developed through studying at a postgraduate level.

▶ Gain industry experience while you study

Whether you're changing or progressing your career, Deakin's progressive, industry-immersed learning opportunities enable you to develop the skills you need while securing industry knowledge and extending your professional networks. The industry experience you gain during your course will also help you make the shortlist for your ultimate job.

▶ Secure your position in industry with professional recognition

Many of our courses are industry-accredited. This means that the knowledge and skills you learn align with the latest industry practice and employers and professional associations will recognise your qualifications.

▶ Expand your professional network

An extensive professional network provides lifelong benefits and is essential for career development and advancement. Through networking opportunities that Deakin facilitates, you'll meet industry leaders, fellow students, employers, mentors and experts in your chosen field.

▶ Stand out from the crowd

A postgraduate qualification helps you differentiate yourself from your peers, equipping you with skills and experience that drive you above and beyond the competition and demonstrate to employers your commitment to ongoing learning to advance your career.

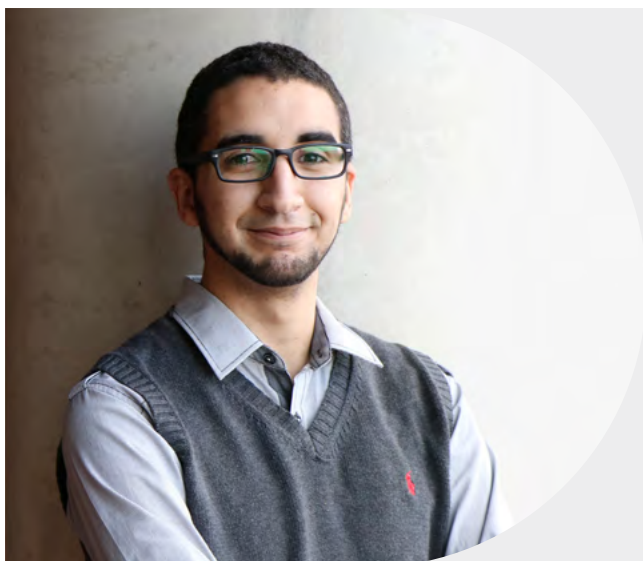

▶ Increase your earning potential

As a postgraduate student, you can build on the expertise you developed in your undergraduate degree and increase your earning potential. On average, those with a postgraduate qualification earn as much as \$25,800 more per year than their undergraduate counterparts.¹

▶ A career switch

The workplace learning opportunities offered in many of our postgraduate courses can provide you with the skills you need to move into a new and exciting field of employment. Gain experience in a new sector or industry while you enhance your employability and take the next step in your career.

¹ Graduate Outcomes Survey 2022 (GOS), Quality Indicators for Learning and Teaching (QILT).

'As a younger university, Deakin offers the ability to take on specialised degrees and areas of study that would be almost impossible at other universities, focusing on not only the content of the degree, but also making the experience itself a valuable one to take into an ever-evolving globalised economy.'

Ayoub Bouguettaya
PhD, Psychology

Get ahead with Deakin

▶ Courses that are linked with industry

A hands-on, industry-led approach is at the heart of our course design. We work closely with industry and business so you get:

- course content shaped by industry experts and matched to current industry practice
- guest speakers who are experts in their field
- a well-recognised qualification that stands out to employers.

▶ Industry placements to make you job ready

Enhance your employability and be ready for your next career move with:

- industry-based learning opportunities
- fieldwork
- professional experiences.

Deakin's industry partnerships with organisations across Australia and internationally give you practical skills that add depth to your resume and are sought after by employers.

▶ Study when and where it suits you

You don't need to change your lifestyle to study our postgraduate courses. With many flexible study options, you can choose to study:

- your whole course or some units online¹
- full time or part time
- intensive study units² – with just a few contact days per trimester.

deakin.edu.au/flexible-study

▶ Learn from leaders in their field

Our outstanding academic staff and research supervisors are active participants and influencers in their fields. This ensures our courses stay relevant and reflect changing industry needs, so you can be sure you're getting the best of theory and current workplace practices. This is why we're Victoria's #1 university for teaching quality.³

▶ Scholarships for all types of students

Deakin offers an extensive range of postgraduate scholarships that recognise and reward your achievements, no matter your background or interest area. Our scholarships can make postgraduate study more accessible for you, setting you on the right path to success at university. We also offer Deakin alumni a 10% reduction on fees for full-fee-paying courses.

deakin.edu.au/scholarships

▶ Join a dynamic, digital community with cutting-edge tech

For more than 50 years, we've been perfecting distance and online learning. We use cutting-edge technology to provide personal and flexible learning experiences for our students, so you'll be fully supported. Deakin's tech support is the highest-rated of any university in Australia.⁴

At the Deakin Clinical Exercise Centre, our Master of Clinical Exercise Physiology students work alongside accredited exercise physiologists to conduct assessments and create exercise programs for real clients.

► Fast-track your studies

You may be able to use your previous qualifications and experience to gain recognition of prior learning. This recognition allows you to shorten your postgraduate course and lower course costs, which could mean reducing your masters degree from two years full time to one year full time.

deakin.edu.au/recognition-of-prior-learning

Some courses allow you to complete a unit with just a few contact days per trimester. These intensive workshops and seminars give you face-to-face peer discussion and networking, but the condensed contact hours give you extra flexibility to keep up your other commitments.

Visit deakin.edu.au/business/intensive-units to find out more information about intensive units available in many business courses.

► Take a short course or earn microcredentials

Want to upskill in areas of demand to make yourself more competitive in the job market? You can undertake a short course, a single unit or earn microcredentials in a variety of study areas without the time and cost commitment of a full degree.

Designed to give you maximum flexibility in minimum time, our flexible, fast and affordable online short courses give you the skills you need now and can be stacked together as credit towards a full Deakin postgraduate degree.

deakin.edu.au/short-courses

► Study through FutureLearn

Another postgraduate study option available at Deakin is via FutureLearn, a global social learning platform, which gives you a taste of the online learning experience with a range of free short courses to fit around your work and lifestyle commitments.

Visit deakin.edu.au/futurelearn to find out what courses and microcredentials are available via FutureLearn.

► What other support services are there?

From study support and career planning, to counselling and childcare – we offer a range of support services to ensure your success no matter your situation.

Visit deakin.edu.au/support-services to find out how we can support you on your journey.

► Values shaping our learning community

At Deakin, we work towards creating an environment of inclusion where we value our diversity, embrace difference and nurture a connected, safe and respectful community. Through the activation of our Diversity, Equity and Inclusion Strategy 2025, we want everyone – our students, staff and local community partners – to feel part of our ambitious agenda.

To find out more about our range of services and programs, visit deakin.edu.au/diversity-and-inclusion.

- 1 Subject to availability; please refer to individual course details on the Deakin website.
- 2 Some intensive study units and residentials are mandatory, while others are optional. Please refer to individual course details on the Deakin website.
- 3 2022 Student Experience Survey, Quality Indicators for Learning and Teaching (QILT).
- 4 According to the Voice Project IT Service Quality Support Benchmark Survey.

Access world-class facilities

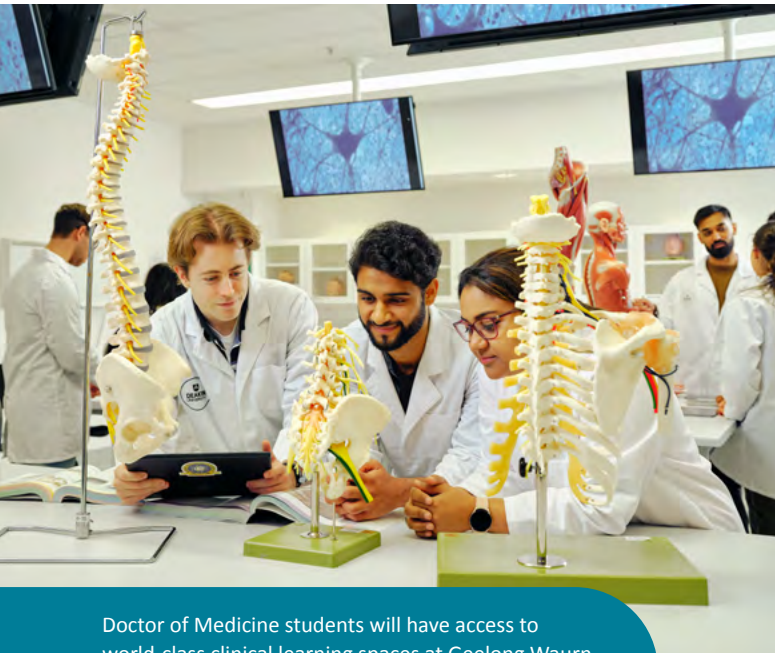

Experience leading-edge learning spaces at Victoria's #1 university for facilities and resources.¹

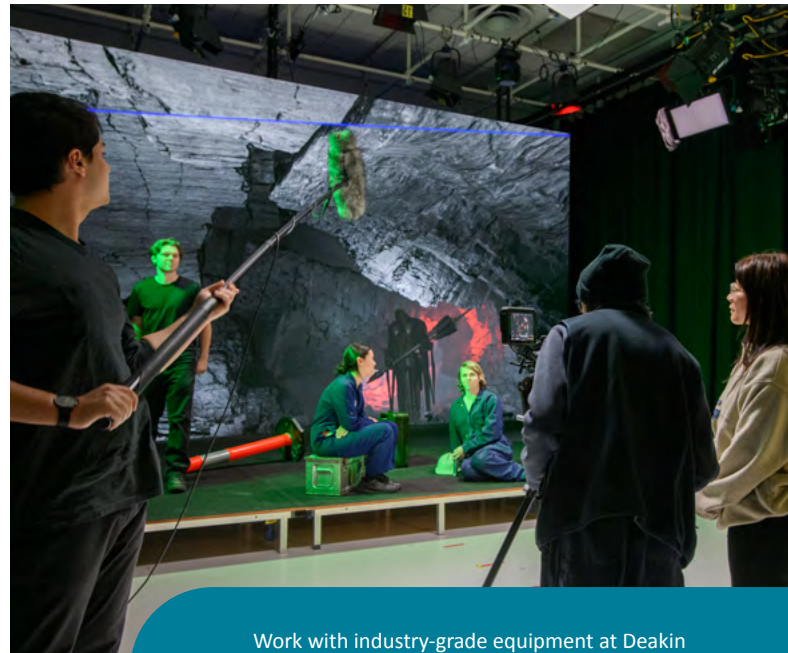

Deakin's engineering precinct at the Geelong Waurn Ponds Campus features over \$8 million worth of high-end teaching equipment and cutting-edge technologies.

Discover our world-class Specialised Indoor Exercise and Sport Science Building at the Melbourne Burwood Campus, complete with four levels of state-of-the-art facilities, including a climate chamber.

Doctor of Medicine students will have access to world-class clinical learning spaces at Geelong Waurn Ponds campus, Warrnambool campus or the East Grampians Health Service in Ararat.

Work with industry-grade equipment at Deakin Studios (Burwood) – our virtual production, television, film and animation studio.

¹ 2022 Student Experience Survey, Quality Indicators for Learning and Teaching (QILT).

Choose Deakin for flexible course options

Many of our courses offer the opportunity to exit early from the masters program with a graduate certificate or graduate diploma if your circumstances change.¹

Take advantage of our flexible course options

Work towards a masters over time or choose to exit sooner with a graduate certificate or a graduate diploma.¹

Find out more about Deakin's flexible study options at deakin.edu.au/study/ways-to-study/flexible-study-options

¹ Not all courses have exit points available; please refer to individual course details on the Deakin website.

² Masters qualifications can require up to 16 credit points.

Premium online learning

Digital is in our DNA, with more than 50 years of experience in distance and online learning

Choose one of our industry-shaped online courses and secure your place in the future of work alongside our dynamic community of 60,000+ students online.

deakin.edu.au/study-online

How it works

We bring the classroom to you using advanced technology. Studying via our premium online learning platform gives you access to lectures, seminars and resources, and allows you to participate in live-streamed seminars and class discussions, chat with staff and students and submit assignments online.

Whether you're a busy professional or want to structure your study around other commitments, our premium interactive platform will help you make the most of your study time. More than 78,000 online students (and counting!) have graduated from Deakin.

Access a range of support services – from home

As an online student, you'll have access to a full range of personal services to support your health and wellbeing, so that you can succeed in your studies and make the most of university life.

Our services include an extensive suite of career services, financial support and free counselling – all available for you to access without ever having to come on campus.

Learn via our premium online platform with Australia's highest rated tech support¹

DeakinSync makes your transition to online study a smooth one. It's your online campus where you'll find everything you need to manage your enrolment and get prepared.

All Deakin students connect and collaborate through DeakinSync, so you'll always have access to the Deakin community, no matter where you are in the world.

When you're on DeakinSync you can:

- access your learning materials, reading lists and study guides
- participate in online lectures, seminars and live chats
- manage your enrolment and fees, and access your student email
- access expert library research support
- access digital library resources 24/7
- access all sorts of study and personal support resources
- connect with career support
- access IT assistance with Australia's top-rated tech support¹ (even outside regular hours).

Unit sites are the centre of your learning experience at Deakin. In most unit sites you will:

- participate in live-streaming lectures, tutorials, seminars, discussion forums and chats
- watch a welcome video from your unit chair and access staff contact details
- submit your assignments and check your grades
- find online activities that you may need to complete, e.g. quizzes
- take advantage of content that is accessible via desktop, tablet or mobile.

For most online courses, you can even sit your end-of-trimester assessments online.

Why more than 6,500 research degree candidates have chosen Deakin

Deakin offers two main research degrees

DOCTOR OF PHILOSOPHY (PHD)

- 3 years full time
- Make an original, significant contribution to knowledge in your chosen discipline
- Supervised research project
- Written thesis

MASTERS BY RESEARCH

- 1–2 years full time
- Can be a stepping stone to a PhD
- Make an original contribution to knowledge
- Written thesis

'As one of Australia's leading universities, Deakin has strong global linkages and delivers world-class research across our faculties, institutes and research centres. If you want to connect with brilliant minds, pursue research that delivers positive and lasting impact, and maximise your job opportunities, you'll thrive at Deakin.'

Professor Iain Martin
Vice-Chancellor

Did you know?

Our research graduates get the jobs you want. Dr Alex Cummaudo completed his PhD at Deakin's Applied Artificial Intelligence Institute and is now a Machine Learning Engineer at REA Group, Australia.

Boost your expertise and skills on a global scale with a Deakin research degree. Access our world-class facilities, expert supervisors and collaborate with like-minded universities and researchers worldwide.

100% of Deakin research is rated at or above world standard¹

Ranked in the top 20 universities in Australia for academic reputation² and journal citations

Proudly ranked in the top 1% of universities worldwide³

500+ partner organisations across 65 countries

Home to cutting-edge facilities, including the world's most advanced carbon fibre and composite research facility

Our international research network is ranked in the top 20 in Australia⁴

2000+ research experts, some ranked among the top 1% globally⁵

Welcoming high-performing research candidates from 75 countries

#1 university in Australia for educational experience⁶

Home to four faculties, seven research institutes and seven strategic research and innovation centres

Home to world-class research

Deakin has a connected approach to solving global challenges. We bring together different schools of thinking and connect people across the University to translate ideas into impactful solutions for some of the biggest, most complex issues facing our world.

Our research is guided by Deakin's five impact themes

Enabling a sustainable world

By placing sustainability at the centre of all our research, we are helping to prioritise the protection of all species, advance a circular economy and support the transition to sustainable energy solutions.

This approach applies to our research in land, air and marine ecosystems, renewable energy and resource management technologies, resulting in positive social and economic outcomes for our local and global communities.

Improving health and wellbeing

Improved health and wellbeing underpin the success of any society and we're driving research that improves lives – locally and globally – in meaningful ways.

Our research addresses the world's most significant health challenges at individual and population levels. In collaboration with global partners and local communities, we're working to highlight inequities, improve healthcare systems of prevention and management, and identify potential innovative technological solutions. We're focused on promoting equality, enhancing individual lives and sustaining broader communities.

Advancing society and culture

Building a better future requires reflection as well as progression. At Deakin, we believe connection with Australia's heritage, First Nations' knowledge and intercultural histories should inform our solutions for a sustainable and inclusive society. Using multidisciplinary approaches, we're looking to the past and the future to strengthen inclusive societies, prioritise education and build resilient communities.

Designing smarter technologies

We're developing practical technology with ethical foundations to support a sustainable, progressive society.

Our research focuses on a human-centred approach to developing ethical and practical technologies for education, health, manufacturing and defense. We're creating impactful technologies that improve people's lives and play a key role in Australia's economic future by delivering valuable outcomes for industry and the community.

Building safe and secure communities

From strengthening community resilience to the development of advanced cyber security, our cross-disciplinary research builds ethical and innovative solutions to global security problems.

Ensuring safe communities is a complex task. From extremist and violent behaviours, to the increasing threat of cyber-crime, to personal and global security, a collaborative approach is needed now more than ever. Our researchers work with communities, organisations and government to develop leading technologies and translational knowledge that results in safer communities.

Our research institutes

Deakin's research institutes and Strategic Research and Innovation Centres (SRICs) undertake large scale, world-class research across our five impact themes. Each theme develops tangible outcomes for society, culture and the economy.

Deakin research institutes:

- Alfred Deakin Institute for Citizenship and Globalisation (ADI)
- Applied Artificial Intelligence Institute (A2I2)
- Institute for Frontier Materials (IFM)
- Institute for Health Transformation (IHT)
- Institute for Intelligent Systems Research and Innovation (IISRI)
- Institute for Mental and Physical Health and Clinical Translation (IMPACT)
- Institute for Physical Activity and Nutrition (IPAN).

Redefine your future at Deakin

Do you dream of unlocking more job opportunities and a higher earning potential? Whether you're a domestic student completing your honours year, completing your masters by coursework, or in the workforce, a Deakin research degree is an exciting chance to undertake high-impact research and succeed in a global career you're passionate about.

12 smart reasons to choose us for a research degree

Here's how Deakin delivers best-in-class support for our domestic research candidates:

- 1 UNLOCK HIGHER EARNING POTENTIAL**
On average, those with a postgraduate qualification earn as much as \$25,800 more per year than their undergraduate counterparts.¹
- 2 GAIN NEW CAREER OPPORTUNITIES**
Some roles are only available to those with a research degree. Our graduates work in the organisations you want to, from the World Health Organisation, to CSRIO, to Ford.
- 3 ABOVE SECTOR AVERAGE FINANCIAL SUPPORT**
With hundreds of research scholarships available, our recipients will enjoy a fee-free tuition, receive an above university average \$33,500 per annum stipend (tax exempt) and a \$5,000 travel allowance.
- 4 ATTAIN SKILLS VALUED BY EVERY EMPLOYER**
Our research graduates are highly regarded by business and industry across the globe.
- 5 FLEXIBILITY TO WORK AROUND YOUR CURRENT COMMITMENTS**
Allowing you to study when and how you want, where possible.
- 6 LEARN FROM WORLD-LEADING RESEARCHERS AND SUPERVISORS**
Our experts are ranked among the top 1% globally.²
- 7 FEE WAIVER**
If you're an Australian citizen, permanent visa holder or New Zealand citizen, you won't pay tuition fees for your research degree.
- 8 YOU'LL ACCESS OUR VAST RESEARCH COMMUNITY**
Comprising 500+ leading organisations across 65 countries.
- 9 ACCESS OUR WORLD-CLASS FACILITIES**
Using cutting-edge equipment you'll enhance your skills.
- 10 AN UNRIVALLED EDUCATIONAL EXPERIENCE**
Deakin is ranked #1 in Australia's state of Victoria for student satisfaction³, #1 for educational experience⁴, and #1 for teaching quality.⁴
- 11 STUDY AT A WORLD-LEADING UNIVERSITY**
Deakin is ranked in the top 1% of universities globally.⁵
- 12 TURN YOUR IDEA INTO REALITY**
At Australia's #1 university for equity held in start-up and spin-out companies, our research degree candidates can turn their research ideas into practical solutions.

We're here to support your research aspirations

Keen to take on a PhD?

We're ready to help you with all aspects of taking on a research degree.

Whether you're looking for work with your dream industry partner, flexible study options, upskilling programs to increase your employability, or assistance with grant applications, we've got you covered. Plus, we've got the right people to guide and support you, including writing mentors and free mental health support with experienced psychologists and social workers.

And because cost-of-living shouldn't stop you from studying, we have hundreds of scholarships available with full-time recipients receiving a tax-free stipend of \$34,400¹ each year.

1 2024 stipend rate.

Did you know?

Many PhD candidates come from the full-time workforce to boost their career potential. Ramunas McRae left the corporate world to study a PhD to help prevent adverse mental health outcomes in the Deaf community.

Our PhD candidates are making their mark

With a Deakin PhD, your career will go beyond academia.

Learn how Dr Jacquelyn Baker's (pictured) PhD earned her a role at the Geelong Heritage Centre.

Check out our PhD stories: deakin.edu.au/research-student-stories

Our research community will cheer you on every step of the way

'At Deakin, we have a supportive research environment with wonderful supervisors and the machines at the Applied Artificial Intelligence Institute are phenomenal.'

Hung Duy Tran
PhD in artificial intelligence

'Deakin understands students' needs and situations. From providing support in terms of conference or field work travel, to immediate IT assistance, Deakin ensures we are taken care of.'

Amrita Kamath
PhD in science education

'My primary supervisor, Professor Kathryn Backholer, was a massive support throughout my entire PhD. Even though we're based on different campuses, she was never more than a phone call away and she even supported me with seeking other opportunities, including working with the United Nations.'

Oliver Huse
PhD in preventative health and nutrition

Did you know?

By enrolling in Deakin's Cotutelle PhD Program, you not only study and have a supervisory team at two global universities, but you will also earn a PhD from both institutions. This is Nurul Neesa Idris who is studying a PhD at both Deakin and the Universiti Teknologi Petronas in Malaysia.

Evolve beyond the everyday

Data science and analytics

Become an in-demand specialist in this rapidly growing field. Learn directly from experienced professionals to gain a competitive edge in business and learn how to turn big data into big insights.

FEATURED COURSE

Master of Data Science S777

The sheer volume and complexity of data already at the fingertips of businesses and research organisations gives rise to challenges that must be solved by tomorrow's graduates. With modern organisations placing increasing emphasis on the use of data to inform day-to-day operations and long-term strategic decisions, Deakin's Master of Data Science equips you for a career in this fast-growing sector.

Graduates of this course may find careers as:

- analytics programmers
- business advisors and strategists
- business analysts
- data analysts
- data scientists
- market research analysts
- marketing managers
- marketing specialists.

Education and teaching

Be a flexible and agile educator. Learn from the best at Australia's #1 university for education and educational research.⁹ Understand learners, grow your professional network, engage, share, collaborate and acquire the leadership skills to be a professional educator.

FEATURED COURSE

Master of Education (Leadership and Learning)

The Master of Education (Leadership and Learning) is a postgraduate degree for qualified teachers and educators looking to develop and enhance leadership capabilities. Leaders in education are challenged to inspire new ways of thinking and learning in our communities. In this course, your interest and passion for educational leadership will be explored through practical learning experiences, supported by teaching staff with extensive research and education expertise.

Career opportunities include:

- school principal
- school assistant principal
- lead school teacher
- year group coordinator
- higher education manager
- early childhood director
- school or faculty/department manager

Engineering

Design and innovation are at the heart of engineering at Deakin. Our future-focused courses go beyond the classroom by giving you the skills and experience to create innovative solutions to real-world problems. Whether you're building robots in our state-of-the-art lab spaces or solving complex problems on an industry placement, our courses will help you develop the practical skills necessary to advance in your dream career.

FEATURED COURSE

Master of Engineering (Professional)

Study the Master of Engineering (Professional) and develop the research, technical and problem-solving skills to design and implement engineering projects as part of a professional team. Throughout this degree you'll acquire advanced engineering skills and the forward-thinking and entrepreneurial skills employers are looking for. You'll strengthen and extend your understanding of engineering through the pursuit of specialised study, graduating with an in-demand expert skill set.

With an international skills shortage in the engineering industry, and roles expected to rise significantly in the next five years, Deakin graduates are in demand both in Australia and further abroad. Graduates of this course may find career opportunities associated with their study area in a wide range of industries.

Environment and sustainability

Do you want to build a rewarding career affecting positive change? Develop specialist knowledge in environmental management, health and environmental science for a career addressing important sustainability issues. Gain the skills to address national and global sustainability issues and implement strategies that balance environmental, social and economic considerations.

FEATURED COURSE

Master of Sustainability

Deakin's Master of Sustainability gives you the skills to engage in the development and implementation of practical solutions to complex sustainability challenges. The flexible structure of the course provides you with the opportunity to build the degree for the career you want. You'll first acquire a solid foundation in sustainability before tailoring your studies through the pursuit of a specialisation in either Environmental Management, Health and Environment or Sustainable Regional Development.

Depending on your elected area of expertise, you may choose to pursue employment as an officer, manager or consultant in areas including environmental protection, cultural and natural heritage management, environmental conservation, land and water management, natural resource management, agriculture, communication and planning.

Food, nutrition and dietetics

Shape the future of Australia's food industry; discover the relationship between food, nutrition, human health and disease prevention. Graduate with the skills, confidence and industry recognition needed to make a positive impact on the health and wellbeing of others.

FEATURED COURSE

Master of Human Nutrition

Study the Master of Human Nutrition to gain an expert understanding of the relationship between nutrition and health. Then, develop skills to translate this evidence-based knowledge into advice, policy and research that improves the health and wellbeing of whole populations. To truly understand the connection between nutrition and health, you'll draw on studies from a variety of related disciplines, such as food science, biochemistry, physiology, epidemiology, psychology, public health and politics. Combining this knowledge allows you to examine nutrition from different angles, which is particularly beneficial when providing advice to audiences from diverse backgrounds.

Career opportunities include:

- community nutritionist
- nutrition consultant
- nutrition promotion officer
- product developer
- sensory analyst

Health and community services

Over half a million new jobs across healthcare and social assistance are projected by 2033.¹⁶ Study a postgraduate health and community services degree with Deakin and develop an in-depth understanding of global and domestic health challenges and be ready to make a difference. You'll graduate with the skills needed to manage a clinic or hospital, lead projects promoting mental health, or even shape policy at a government level.

FEATURED COURSE

Master of Health Management

Build valuable skills in leadership, resourcing and program management, enabling you to improve healthcare delivery and contribute to healthier communities with Deakin's Master of Health Management. Whether you see yourself managing a clinic or hospital, leading programs promoting mental wellbeing, or shaping policy at a government level, you'll be prepared to take the next step in your career in health. Alternatively, if you're working in a non-healthcare related sector, this course will enable you to make a smooth career shift into health management.

Career opportunities include:

- public health departments
- hospital management
- nursing home management
- clinic management
- mental health organisations
- community health centres

Information technology and cyber security

Whether you want to investigate cyber-attacks or identify hidden patterns in big data, our IT courses offer an immersive learning experience. A postgraduate IT degree advances your employment opportunities in almost any industry. You'll develop transferable skills in critical thinking, analysis, investigation, problem solving and evidence-based decision making.

FEATURED COURSE

Master of Cyber Security

In an increasingly digital world, cyber attacks are an everyday occurrence. As a result, cyber security professionals are in high demand globally to protect organisations in all sectors from increasingly sophisticated cyber threats. Deakin's Master of Cyber Security equips you with the specialised skills to investigate and combat cyber crime and prepares you for a successful career in cyber security anywhere in the world.

Career options are varied, you could work anywhere in the world as a:

- business continuity or IT security engineer
- consultant
- information security auditor
- project manager
- security analyst
- security system developer or programmer
- security system manager.

Law

Prepare for a first-class law career at one of Victoria's top 3 law schools.²⁰ Learn from leading scholars in administrative law, constitutional law, human rights, criminal law, climate and energy law, and develop your practical skills by completing a unit at Deakin Law Clinic.

FEATURED COURSE

Juris Doctor **M729**

Deakin's Juris Doctor (JD) provides a strong foundation for a career in law. Designed for non-law graduates, this prestigious law program offers a solid grounding in core areas of legal knowledge and practice and includes an interesting range of contemporary electives. Sharpen your critical thinking and expand your knowledge by undertaking this distinctive online degree.

A Juris Doctor qualification meets the academic requirements for admission to legal practice in Victoria, as well as some other Australian and international jurisdictions.

Law touches every aspect of society, and the career opportunities reflect this.

Medicine

Clinically contextualised learning is a key theme of medicine at Deakin. This means that while you're at university, you'll solve the kinds of problems that you'll encounter in professional practice. Our courses also includes placements in a range of medical environments, from hospitals and general practices to community healthcare settings.

FEATURED COURSE

Doctor of Medicine (MD) H911

Apply to the Doctor of Medicine and set yourself up for a range of rewarding careers, from general practice to pathology, paediatrics to surgery. The course has a unique focus on rural and regional medicine, Indigenous health and patient-centred communication skills. Our students develop the foundational skills essential for any career in medicine and are also given the opportunity to experience healthcare in multiple specialist areas. Our Doctor of Medicine has an emphasis on rural and regional medicine and aims to satisfy the critical shortage of doctors in regional areas – making graduates highly employable.

In order to qualify as Registered Medical Practitioners with the Medical Board of Australia, our graduates are currently undertaking accredited internships at a number of prominent Victorian and interstate hospitals. After successfully completing an intern year, graduates can apply for entry to specialty training programs that lead to a broad range of medical careers including in the specialty of General Practice or the emerging Rural Generalist program.

Nursing and midwifery

Advance your career with one of the largest and most established nursing schools in Australia ranked 16th in the world.²⁴ Key nurses, midwives, clinicians and researchers inform our postgraduate nursing and midwifery courses and ensure student learning experiences are modern and evidence-based.

FEATURED COURSE

Master of Mental Health Nursing H779

Deakin's new Master of Mental Health Nursing is designed for registered nurses looking to advance their career in mental health nursing, or registered nurses looking to move into mental health nursing from another speciality area. Designed in consultation with industry, this course will provide you with advanced practical skills and knowledge to support your practice in mental health with a focus on contemporary consumer initiatives.

Nurses who successfully complete the Master of Mental Health Nursing, and who undertake the thesis stream, have the opportunity to extend their research career by undertaking a PhD.

You may find roles across leadership or as a senior clinician within a mental health service. Graduates may find work in a range of community and inpatient mental healthcare settings, including:

- acute public mental health
- private mental health
- child and adolescent mental health
- aged care services
- forensic services
- mother and baby services.

Psychology and mental health

Build on your existing knowledge and skills to provide meaningful help and support to people experiencing life challenges with our postgraduate counselling and psychology courses. Our strong ties with industry ensure our psychology and counselling courses are relevant to workforce needs and the meet the requirements of accrediting bodies.

FEATURED COURSE

Graduate Diploma of Psychological Science

Follow your passion and explore a rewarding career change. If you're looking to move into psychology, but the idea of committing to a three-year undergraduate degree seems a bit daunting, the Graduate Diploma of Psychological Science is your perfect option. Designed for students who have completed an undergraduate degree in a discipline other than psychology, the course introduces you to the fundamentals of psychology and human behaviour while fast-tracking your journey to provisional registration.

Career opportunities, after further study:

- clinical psychology
- clinical neuropsychology
- community psychology
- counselling psychology
- forensic psychology
- organisational psychology
- sport and exercise psychology.

Science

Unlock scientific discoveries and help build a better future. From stem cell research to pioneering advances in biotechnology, build the specialist skills to stand out in emerging fields of science.

FEATURED COURSE

Master of Biotechnology (Professional) **S713**

Become an in-demand biotechnology expert and create innovative solutions to global issues when you study a Master of Biotechnology (Professional) at Deakin. From pioneering medical advancements to cutting-edge solutions to food, agricultural and environmental problems, you'll gain advanced technical skills to build a global career effecting positive change. Graduate with the high-level biotechnology knowledge, practical laboratory and fieldwork experience, and professional networks you need to succeed in a booming industry.

Depending on your chosen area/s of expertise, you can make an impact across a wide range of careers, including as a:

- agriculture technologist
- bioinformatician animal scientist
- botanist
- chemist
- food scientist
- material scientist
- medical scientist
- molecular biologist
- researcher
- trainee patent attorney.

Sport

Join the global leader in sport²⁸ and gain the skills and industry networks to play a pivotal role in Australia's golden decade of sport. Deakin's diverse postgraduate sport courses range from management to clinical exercise, so you'll be able to take your career to new heights, on or off the field.

FEATURED COURSE

Master of Applied Sport Science **H707**

Deakin's industry-leading Master of Applied Sport Science prepares you for the full spectrum of challenges faced by sport scientists and high performance managers working at all levels of sport, from local to elite level. You will graduate with 220 hours of professional practice, or with the knowledge and skills to pursue entry into a PhD. Valuable professional development opportunities through our partnerships and your placements, as well as training in leadership and cultural development skills will give you an edge in a competitive job market. You'll study at the #1 sport science school in the world, access world-class facilities and establish key industry networks that will help move your career forward.

Career opportunities include:

- high-performance manager
- sport scientist
- strength and conditioning coach
- rehabilitation coach
- sport performance analyst.

- 1 Course duration is the length of the course in years, based on completing the course full time (eight subjects per year). Part-time (PT) and fast-track study options may also be available. Visit deakin.edu.au/courses to find out more information.
- 2 Trimester 1 commences March, Trimester 2 commences July and Trimester 3 commences November.
- 3 2024 indicative tuition fees are based on course duration and the number of credit points required to complete the course. Tuition fees are subject to change and do not include non-tuition costs such as the Student Services and Amenities Fee (SSAF) or represent the entire cost of the course if completed over a number of years.
- 4 Duration of course depends on your professional experience and previous qualifications.
- 5 Trimester intake available for part-time students only.
- 6 Trimester intake available for full-time students only.
- 7 The 2024 indicative annual Commonwealth Supported Place (CSP) fee is based on course duration and the number of credit points required to complete the course. This fee should be used as a guide only and is subject to change. CSP is not guaranteed year-on-year.
- 8 Fees range from \$1100 to \$1980 per credential.
- 9 U.S. News & World Report, Best Global Universities Subject Rankings 2022–2023.
- 10 To receive a teaching registration, you must complete the Master of Applied Learning and Teaching (Secondary) degree.
- 11 The course duration will differ depending on the trimester you commence your course. See the course webpage for more information.
- 12 Students applying to all initial teacher education courses are required to sit the Casper test, a non-academic assessment. Find out more at deakin.edu.au/casper.
- 13 While this course is offered online it does have on-campus requirements. Please see the course webpage for further information.
- 14 This course is available at the National Indigenous Knowledges, Education, Research and Innovation (NIKERI) Institute. Find out more at deakin.edu.au/nikeri.
- 15 CSP rate available for NIKERI students only.
- 16 2023 Employment Projections – for the ten years to 2033, Jobs and Skills Australia.
- 17 Some attendance is required at the National Centre for Farmer Health, Deakin centre, affiliated industry or other physical site.
- 18 Limited CSP places are available for this course.
- 19 Trimester 3 intake is online only.
- 20 QS World University Rankings by Subject 2023.
- 21 AFR BOSS Best Business Schools 2023.
- 22 Rural Training Stream (RTS) students only. A blended learning offering of online and campus face-to-face. Find out more at deakin.edu.au/rts.
- 23 Semester 2 is only available to students with approved recognition of prior learning (RPL).
- 24 ShanghaiRankings Ranking of Academic Subjects 2023.
- 25 This course is 1.5 years in a combination of full-time and part-time study.
- 26 Please note that in some instances, students may require slightly longer to complete their placement or research thesis.
- 27 Waterfront campus offering currently under review and may not be available in 2025.
- 28 #1 sport science school in the world – ShanghaiRanking's Global Ranking of Sport Science Schools and Departments 2021, 2022 and 2023. #7 in the world for sports-related subjects – QS World University Rankings by Subject 2023.

- 1 Course duration is the length of the course in years, based on completing the course full time.
- 2 This course is a hybrid, fee-paying course in which students undertake coursework in their first year and a major research project in their second year. See the course webpage for more information about fees and entry requirements.
- 3 Candidates will spend at least six months at both Deakin University and University of Copenhagen. They will also have academic supervisors from both universities.
- 4 Meeting minimum entry requirements does not guarantee an offer of a place in this course. Entry is based on competitive selection and there may be limited places available.
- 5 Delays in either completion of the research thesis or in accessing or completing placements may mean that the duration of the course is extended.

Fee-free research degrees

Did you know that if you're an Australian citizen or permanent visa holder, or a New Zealand citizen, you won't need to pay tuition fees for your research degree? Depending on what your research topic is, extra funding may be available to support you during your candidature. For more information, visit deakin.edu.au/research-fees-funding-and-scholarships.

'My PhD at Deakin has been a really positive experience. I've been able to confront and overcome several challenges, primarily to do with large-scale field experiments, which will help me through my career as an ecologist. I did my undergraduate degree at Deakin and what stood out was the friendly and approachable staff, who encouraged me to do my PhD.'

Darcy James Watchorn
PhD, Environmental Science
