## AAE900 – Research Framing and Development

*Enrolment modes:*

*Trimester 1: Cloud (online)*

*Trimester 2: Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 0*

*EFTSL value: 0.000*

*Trimester 1 Unit Chair: Andrea Gallant*

*Trimester 2 Unit Chair: Andrea Gallant*

*Trimester 3 Unit Chair: Andrea Gallant*

*Cohort rule: Must be enrolled in one of A900, A800, E900 or E850*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 3 hours per week to engage with online unit material and participate in scheduled weekly online discussions. Regular meetings and discussions with PhD Supervisors.*

### Content

This research unit is intended to support and extend PhD supervision by acting as a guide that will provide provocations and stimulus material for candidates to discuss with their supervisors and with the HDR candidate cohort and coordinators. The unit has been designed to provide opportunities for candidates to begin their research journey with greater clarity, precision and an articulated awareness of discipline-specific approaches and styles.

The unit material is aimed at developing: an understanding of the contribution HDR research makes to knowledge; a critical analysis of relevant thesis literature; the candidates' research position within their field; and finally, an articulation of candidates' theoretical and conceptual frameworks within their knowledge field, and how these frameworks are reflected in the adaptation and implementation of selected research methodologies and analysis processes.

Overall, the aim is to further develop candidates' abilities to construct and apply discipline knowledge and research skills that demonstrate autonomy, authoritative judgement, adaptability and responsibility as an apprentice expert scholar/practitioner.

The unit's single item of summative assessment culminates in colloquia, where the candidate's research progress (written and oral) will be examined and evaluated by an academic panel in order to confirm candidature.

### Assessment

- A conventional thesis: 6000-word research framing document to be assessed. In order for the panel of examiners to effectively determine the candidate's research skills development, discipline knowledge and the underpinning and theoretical and conceptual framing of the research an appendix (approximately 9000 words) will need to accompany the research framing document.
  - Appendix 1 – Literature review highlighting the theoretical framing
  - Appendix 2 – Conceptual framing highlighting methodology choices and analysis process to be undertaken
- A research thesis in the Creative Arts accompanied by an exegesis: 6000-word research framing document.

## AAI018 – Academic Integrity

*Enrolment modes:*

*Trimester 1: Cloud (online)*

*Trimester 2: Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 0*

*EFTSL value: 0.000*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: STP050, MAI010, HAI010*

*Scheduled learning activities – cloud (online): This is a 0-credit point unit required of all Arts&Ed students which needs to be completed individually online*

### Content

AAI018 is a core unit in all Faculty of Arts and Education courses. The unit learning and assessment activities provides students with guidance on what constitutes academic integrity. It will allow students to develop knowledge, skills and good practice principles to avoid plagiarism and collusion and thereby maintain academic integrity.

### Assessment

#### Prior to Trimester 3 2019

To be eligible to obtain a pass in this unit, students must achieve a mark of 100% in an online multiple-choice test within the first three weeks of commencement of the trimester.

## From Trimester 3 2019

To be eligible to obtain a pass in this unit, students must complete an online multiple-choice test within the first three weeks of commencement of the trimester. The test is divided into Parts A and B. Students must achieve 8/8 on Part A and a minimum of 5/7 on Part B to satisfy the unit requirements.

## AAR410 – Critical Creative Research Methods

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong)\*, Cloud (online)\**

*Trimester 2: Cloud (online)\**

*\* Offered at Waurin Ponds (Geelong), and Cloud (online) mode subject to agreement with the Honours Co-ordinator*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Alyson Miller*

*Trimester 2 Unit Chair: Alyson Miller*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALX491, AAR710*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 x 2 hour seminar equivalent*

### Content

Topics to be addressed in this unit include:

- what is research?
- the location of print and non-print resources;
- finding, reviewing and appropriating others' research;
- paradigm shifts – new research questions and ways to answer them;
- collaborative and cross arts/interdisciplinary possibilities;
- ethical issues in arts research;
- participant observation – the subjective voice in research;
- journalising and recording research;
- writing research and funding proposals and reports;
- structuring an effective exegesis; and
- sharing and publicising research.

## Assessment

- Annotated Bibliography (1400 words or equivalent) – 35%
- Abstract (600 words or equivalent) – 15%
- Research paper and presentation (2000 words or equivalent) – 50%

## AAR412 – Honours Research Theory A

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Helen Young*

*Cohort rule: Must be enrolled in A400*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AAR411, AAR712, ALL479, ALW492*

*Scheduled learning activities – campus: 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities (1 x 2 hour seminar per week equivalence)*

### Content

This unit provides an introduction to a wide range of influential theories and positions in arts theory and analysis.

Topics to be addressed in this unit may include:

- Structuralist theory
- Psychoanalytical theories
- Post-structuralism
- Media and communications theory
- Theory of the image
- Marxist and literary theory
- New historicism
- Feminism and gender studies
- Post colonialism

### Assessment

- Essay (2000 words or equivalent) – 50%
- Essay (2000 words or equivalent) – 50%

## AAR413 – Honours Literature Discipline Unit

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Jodi McAlister*

*Cohort rule: Must be enrolled in A400*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALL485*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 x 2 hours seminar equivalent*

### Content

Students undertaking this unit will advance their disciplinary knowledge of Literature. The unit consists of guided reading and seminars, whereby students in Literary Studies and Children's Literature will explore a particular period of literary history, genre, and/or style.

### Assessment

Written Assessment (4000 words) – 100%.

## AAR414 – Honours Writing Discipline Unit

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Karen Le Rossignol*

*Cohort rule: Must be enrolled in A400*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALL485*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials.*

### Content

Students undertaking this unit will advance their disciplinary knowledge of writing. The unit consists of guided reading and seminars, whereby students in writing will explore relevant combinations of writing theory, genre and/or style.

### Assessment

- Research and writing exercise (2000 words or equivalent) – 50%
- Research and writing exercise (2000 words or equivalent) – 50%

## AAR422 – Honours Research Theory B

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Antonia Pont*

*Prerequisite: AAR412*

*Corequisite: Must be enrolled in A400*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 3 x 5 hour presentations to group; 7 x 2 hour seminars; 1 x 2 hour Welcome seminar*

*Scheduled learning activities – cloud (online): Online learning experiences equivalent to above via CloudDeakin*

### Content

This unit is the companion unit of AAR412 Honours Research Theory A. It allows students to undertake an in-depth study of the genealogy of a theory or theoretical trajectory and to present and share their research with their peers. The focus of their study should be pertinent to their thesis, and contribute to the rigour of enquiry surrounding their topic area. All students are required to contribute to, and participate in, the presentation practicals and seminars (or online equivalent).

*Note: Teaching will take place in a number of locations suited to the learning activities. This takes advantage of Deakin's broader teaching spaces and the special nature of this unit of study – as preparation for Honours and Masters Thesis work.*

## Assessment

- Presentation Preparation Task & Quiz (500 words or equivalent) – 15%
- In-class or Online Video Presentation (1200 words equivalent) – 30%
- Peer-response tasks & symposia contributions (750 words equivalent) – 15%
- Written Paper (1800 words) – 40%

## ACA100 – Art and Performance: New Directions for Creative Practice

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Misha Myers*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week and 1 x 2 hour Seminar per week*

## Content

This unit will introduce students to key ideas and approaches that underpin the creative practices of contemporary art and performance. The unit will examine how critical feedback processes work across art and performance and, how to use these approaches to improve and strengthen creative practice. It will also investigate the necessary skills required to develop self-reflexive approaches to creativity through workbooks, blogs and related formats. Differences between discipline and multi-discipline-based creative work and solo and collaborative practices will also be addressed.

## Assessment

- Creative practice task 1 (1200 words equivalent) – 30%
- Creative practice task 2 (1200 words equivalent) – 30%
- Workbook (1600 words equivalent) – 40%

## ACA101 – Art and Performance: Roles of the Artist

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Annika Koops*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week and 1 x 2 hour Seminar per week*

## Content

This unit will examine what an artist does and how this role shapes our understanding of the value of culture in society. It will investigate the range of modes, media and strategies artists use to develop creative practices of ambition and value that together speak to salient contemporary issues for the 21st century. It will place special emphasis on identifying and developing the necessary skill-set for creativity across thinking, making and contextualizing creative forms. Through a series of practice-based projects involving critical thinking, students will emerge well-equipped to work in a range of creative industries and bring creative solutions to other industries.

## Assessment

- Creative Practice 1 (1200 words or equivalent) – 30%
- Creative Practice 2 (1200 words or equivalent) – 30%
- Workbook (1600 words or equivalent) – 40%

## ACA201 – Production Design for Screen and Performance

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Yoni Prior*

*Prerequisite: Students must complete one of ACF106, ACD101, ACD102 or ACP103*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

## Content

This unit offers an introduction to the aesthetics, theory and practice of set, spatial and costume design for dance, drama, film, television and live art installations. Students will learn to consider the scenic and aesthetic components of a project at a conceptual and practical level by applying the distinct skills of stage and screen production designers. Specialised workshops will be undertaken by experienced practitioners in the design and construction of set models, stage objects and props, and costume for live performance and screen production. For their final folio task, students will conduct research and develop a substantial design brief to demonstrate a detailed and creative response to the demands of genre, dramaturgical interpretation and location in live or screen production.

## Assessment

- Case Study – Research and Analysis of Existing Design for Stage or Screen (1000 words or equivalent) – 25%
- Practical Exercise and Class Presentation (1000 words or equivalent) – 25%
- Detailed Design Brief and Folio (2000 words or equivalent) – 50%

## ACA202 – Acting and Directing for Screen

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Donna McRae*

*Prerequisite: Students must complete ACP109 and ACP103 OR ACF103 and ACF106*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week and 1 x 2 hour Seminar per week*

## Content

This unit will begin with screenings and close analysis of examples of acting and directing for the screen. These examples will set some of the narrative, formal and stylistic criteria to be applied to exercises and tasks designed to explore different methods of working. The unit is designed to give students a practical understanding and overview of techniques and tools required to act in or direct a screen based work.

*Note: Commences 2019*

## Assessment

- Acting and Directing exercise and presentation – 20%
- Acting and Directing exercise and filmed presentation – 40%
- Presentation/Tutorials – 40%

## ACA203 – The Art and Design of Sound

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Martin Potter*

*Prerequisite: Students must complete two level 1 units from the following courses: A351, A356, A357, A359, A352*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour*

*Seminar per week for 11 weeks*

## Content

The unit aims to develop students' conceptual, technical and design skills in professional sound design and production for dance, drama, animation, film, television and art installations. Students will work toward the creation of a major sound production. In preparing and developing the project, the following topics will be covered: the theory of sound recording and production, studio recording processes and post production workflows, preparation and presentation of sound for performance, microphone choices and techniques, digital editing and mixing, signal processing, acoustics and psychoacoustics.

*Note: Commencing 2019*

## Assessment

- Acoustic and Psychoacoustic Test – 20%
- Research Paper (1300 words) – 30%
- Sound project – 50%

## ACA210 – Creative Studio 2A

*Year: 2020 unit information*

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Misha Myers*

*Trimester 2 Unit Chair: Misha Myers*

*Trimester 3 Unit Chair: Misha Myers*

*Prerequisite: ACA100 and ACA101*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 4 hour practical per week*

### Content

This studio-based unit focuses on developing compositional, contextual and critical thinking that is vital for the realisation of arts practice (individual or collaborative). Through in-progress showings and critiques of work developed within particular creative, conceptual and resource restraints the unit will inform, support and challenge the ongoing development of professional arts practice.

*Note: Commences 2021*

### Assessment

- Research Task: Annotated Bibliography & Workshop Demonstration (1600 words equivalent) – 20%
- Exhibition/Performance (4000 words equivalent) – 50%
- Online Portfolio (2400 words equivalent) – 30%

## ACA211 – Creative Studio 2B

*Year: 2020 unit information*

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Misha Myers*

*Trimester 2 Unit Chair: Misha Myers*

*Trimester 3 Unit Chair: Misha Myers*

*Prerequisite: ACA100 and ACA101*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 4 hour practical per week*

### Content

This studio-based unit considers what creative work is, who it is for and where it takes place. Students will propose, present and critically evaluate and reflect on creative work which engages with a specific community and/or industry brief through the medium of their discipline. Aspects of formulating a feasible concept; researching and writing a professional proposal and; planning and managing the logistical requirements of a project will be explored in depth. Final presentations of work will be presented to a public audiences relevant to the context of the work.

*Note: Commences 2021*

### Assessment

- Project Proposal Presentation (1600 words equivalent) – 20%
- Presentation of Creative Work (4000 words equivalent) – 50%
- Project Evaluation and Documentation (2400 words equivalent) – 30%

## ACA309 – Creative Careers and Contexts

*Year: 2020 unit information*

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: David Cross*

*Trimester 2 Unit Chair: David Cross*

*Trimester 3 Unit Chair: David Cross*

*Prerequisite: ACA210 and ACA211*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour class per week*

### Content

In this unit students will be encouraged to reflect upon and analyse the changing roles of artists in society through direct engagement with professional practitioners and workplaces across a range of creative arts disciplines. Students will draw on this knowledge to gain a real world understanding of professional practice and identify opportunities for further employment within the contemporary cultural economy. Students will learn the appropriate practical, administrative, marketing and self-management skills required to

launch and maintain their careers as creative artists in their chosen discipline. They will develop a career development strategy that can be used to demonstrate the essential skills and knowledge for a future job application, successful pitch for funding or, development of a self run project.

*Note: Commences 2022*

### Assessment

- Professional Practice Case Study (2000 words equivalent) – 50%
- Careers and Context Strategy (2000 words equivalent) – 50%

## ACA310 – Creative Studio 3A

*Year: 2020 unit information*

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: David Cross*

*Trimester 2 Unit Chair: David Cross*

*Trimester 3 Unit Chair: David Cross*

*Prerequisite: ACA210 and ACA211*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 4 hour practical per week*

### Content

This unit builds on the knowledge, understanding and skills developed in the previous second year creative studio to support students to extend and challenge their creative practice. Working within a particular discipline or across disciplines, this unit will focus on building the skills and knowledge required to develop an independent, critical and professional art and performance practice with an emphasis on concept/design, process, portfolio, development and the production of a substantial piece of creative work.

*Note: Commences 2022*

### Assessment

- Project Proposal (1600 words equivalent) – 25%
- Individual Workbook (1600 words equivalent) – 25%
- Assessment 3 (Individual and Group) – Portfolio and Presentation of Final Work (3200 word equivalent) – 50%

## ACA311 – Creative Studio 3B

*Year: 2020 unit information*

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Jondi Keane*

*Trimester 2 Unit Chair: Jondi Keane*

*Trimester 3 Unit Chair: Jondi Keane*

*Prerequisite: ACA210 and ACA211*

*Corequisite: ACA397*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 4 hour practical per week*

### Content

This unit supports students to be increasingly autonomous learners, and provides a framework within which they are encouraged to set the agenda for their trajectory through, and beyond, the final year of the course to work in professional of exhibition, presentation and production of their work. Students have an opportunity to work independently and deepen their knowledge by working individually or collaboratively with others either within or venturing beyond discipline bounds to present/exhibit work within a professional industry showcase.

*Note: Commences 2022*

### Assessment

- Project Proposal (1600 words equivalent) – 20%
- Assessment 2 (Individual and Group) – Work-in-progress Showing (3200 words equivalent) – 40%
- Assessment 3 (Individual and Group) – Resolved Final Work (3200 words equivalent) – 40%

## ACA397 – Exhibition and Performance

*Year: 2020 unit information*

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Jondi Keane*

*Trimester 2 Unit Chair: Jondi Keane*

*Trimester 3 Unit Chair: Jondi Keane*

*Prerequisite: ACA210 and ACA211*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*1 x 1 hour practical in weeks 1–6*

*1 x 3 hour practical in weeks 7–10*

*2 x 6 hour practical in weeks 11–12*

### Content

Through project-based learning students will learn how to organise, manage and deliver a festival of exhibitions and performances of work developed in this unit with staff supervision and guidance. In this unit students will gain high level business and management skills involved in presenting their work professionally including promotion and marketing, publishing, budget management, team work, etc.

*Note: Commences 2022*

### Assessment

- Assessment 1 (Individual and Group) – Collateral working group (2000 words equivalent per student) – 50%
- Assessment 2 (Individual and Group) – Organising committee for final exhibition and/or performance (2000 words equivalent per student) – 50%

## ACA401 – Advanced Creative Practice A

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Donna McRae*

*Prerequisite: Approval from Unit Chair to enrol*

*Corequisite: Nil*

*Incompatible with: ACA701*

*Scheduled learning activities – campus:*

*This unit is to be undertaken entirely with the student's creative project supervisor or supervisory team plus, for:*

*Trimester 1: 1 x 4 hour Seminar in weeks 1 & 8*

*Trimester 2: 1 x 4 hour Seminar in weeks 1 & 8*

### Content

Students will begin to develop and work on a creative arts project in their chosen discipline. This project will continue into ACA402 Advanced Creative Practice B. This work will be undertaken with supervision. The course work and assessment in this unit that will support the development of the project, will be framed by three questions: Who Am I? Where do my ideas come from? And what do I do? These questions focus on the ideas that artist are responding to a cultural context in which their work is the response to the issues and ideas circulating and gaining currency or that go undetected. The question of an individual's context and relationship to history and culture will be explored through a series of special seminars, site visits, reading, viewing, reflection and the making of creative work where students seek out what their creative identify is and how this identity is shaped by their culture. This investigation will also drive the development of the creative work.

### Assessment

- Reflective Journal (800 words) – 20%
- Oral presentation (4000 words) – 50%
- Work-in-Progress (2400 word equivalent) – 30%

## ACA402 – Advanced Creative Practice B

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 2 Unit Chair: Donna McRae*

*Prerequisite: Permission to enrol from the unit chair*

*Corequisite: Nil*

*Incompatible with: ACA702*

*Scheduled learning activities – campus: This unit is to be undertaken entirely with the student's creative project supervisor or supervisory team plus: Trimester 2 – 1 x 4 hour Seminar in weeks 1 & 8*

### Content

This unit will support the creative research through a focus on aspects of student learning designed to enable self and group-critique situations. The critiques will generate and drive creative production by initiating a circuit of production, critically engaged feedback, self-reflection to stimulate new research and revised creative production. From group and individual critiques, students will be asked to identify the skills and areas of knowledge that need to be addressed in their own creative projects. The critique sessions will function as a hothouse incubator designed to strengthen the links between the student's own creative process and the reception and interpretation of work and foster connections between individual arts practice and the wider community of practice. Finally, the critiques allow students to investigate new perspectives that will broaden their approach and focus decisions concerning the direction and effectiveness of their creative arts research projects. These same skills and self-critical reflections become crucial for students looking for employment in the creative industries. This unit builds upon the work done in ACA401 Advanced Creative Arts Practice A, which focuses on an individual's creative formation and relationship with the history of ideas and emphasizes skills of critical engagement, constructive evaluation and informed interpretation.

### Assessment

- Two-stage critique (submitted in two stages: Work-in-progress and resolved work) (4000 word equivalent) – 50%
- Working Journal (2000 word equivalent) – 25%
- Develop and demonstrate to your supervisor (orally) a critical engagement with your creative practice and its place within your chosen discipline area (2000 word equivalent) – 25%

## ACA403 – Creative Arts Research Project

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 2 Unit Chair: Rose Woodcock*

*Prerequisite: Must pass 3 units in ACA401, ACA410 and ACA411*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

### Content

This unit will support you to develop your research essay. The choice of research topic will be in direct response to the work undertaken in ACA401 Advanced Creative Practice A and the development of key themes, issues and ideas developed from oral and written discussions within ACA410 Contemporary Debates in the Creative Arts. The essay will sit alongside the creative work produced in Trimester 2 that will have been brought to resolution in ACA402 Advanced Creative Practice B. The final essay will take the form of a mini-dissertation rather than an exegetical account of the working process and creative practice. The aim is to produce a publishable piece of research that addresses a key idea, issues or theme in the creative arts.

### Assessment

- Essay plan (1600 word equivalent) – 20%
- Lit Review & Extended bibliography (1600 words) – 20%
- Research Essay (4800 words) – 60%

## ACA410 – Contemporary Debates in Creative Arts

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Torika Bolatagici*

*Prerequisite: Permission to enrol from the unit chair*

*Corequisite: Nil*

*Incompatible with: ACA710*

*Scheduled learning activities – campus: 1 x 2 hour*

*Seminar per week*

### Content

This unit introduces key debates, ideas and histories of contemporary arts movements and practices in a structured framework. This will support learning about how interpretations of creative arts practice and discourses may be used as a means to both inform and explain creative work and approaches. Within this context a key aim is to also emphasise the development of knowledge and skills for critical engagement, evaluation and interpretation to conceive a creative arts research project.

### Assessment

- Oral presentation – (800 words equivalent) – 20%
- Annotated Bibliography (1200 words) – 30%
- Research Essay (2000 words) – 50%

## ACA411 – Investigating Creative Methods

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Rea Dennis*

*Prerequisite: Permission to enrol from the unit chair*

*Corequisite: Nil*

*Incompatible with: ACA711*

*Scheduled learning activities – campus: 1 x 2 hour*

*Seminar per week*

### Content

This unit will prepare students with the key language, concepts and approaches for scholarly writing on creative arts research and practice. Students will learn how to formulate creative research questions and their relationship to the modes and language of methodology in the creative arts. Students will investigate participant observation to learn about the subjective voice in practice-led research aligned with role of material thinking. The unit teaches students how to find, review and learn from other's research whilst also acting ethically in research practice. The unit will culminate in the production of the formal research proposal.

### Assessment

- Presentation (800 words) – 20%
- Review (1200 words) – 30%
- Research Proposal (2000 words) – 50%

## ACA701 – Creative Studio A

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Olivia Millard*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ACA401*

*Scheduled learning activities – campus: 1 x 4 hour*

*Practical each week*

### Content

In this 2 credit point unit, students will engage in creative practice inquiry in order to apply and enhance creative process skills such as thinking through making, critical discursive practices, and the iterative nature of artistic practice. The principle focus is to enable students to better understand the means through which they might initiate and establish a creative practice approach to research through small-scale practical creative outcomes. Students will participate in practical exercises and be expected contribute to the culture of the studio through active participation and in the exercising of critical thinking within the process of creative practice inquiry; and in the presentation to peers. Over the course of the trimester students will deepen their understanding of the context of the creative practice experiments (e.g. situating the work within relevant contemporary discourses and the real-world).

Learning occurs in studio workshops and is supported by practical homework, reading, writing, discussion, viewing others' work, and maintaining a critical journal.

### Assessment

- Assessment 1: (Individual) – Creative Journal (4000 word equivalent) – 40%
- Oral presentation and written statement (4000 word equivalent) – 40%
- Creative Work-in-progress 20% – (2000 word equivalent)

## ACA702 – Creative Studio B

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 2 Unit Chair: Kate Hunter*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ACA402*

*Scheduled learning activities – campus: 1 x 4 hour Practical per week*

### Content

In this 2-credit point unit, students will engage in a series of creative practice investigations based on set provocations and selected case studies. Students work incrementally within the practical studio environment to experiment, test, and adjust their working processes and present their findings. The unit supports students to developing their practice languages, present work for feedback, reflect on what the practice reveals, and relate this to key readings. Student learning will inform the development their own manifesto for creative practice.

### Assessment

- Reflective Journal (2000 words) – 20%
- Critical Creative Practice (4000 words equivalent) – 40%
- Poster (4000 word equivalent) – 40%

## ACA703 – Advanced Creative Research Project A

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Rea Dennis*

*Prerequisite: ACA701 Advanced Creative Practice A and ACA702 Advanced Creative Practice B*

*Corequisite: ACA704 and Must be enrolled in A759*

*Incompatible with: Nil*

*Scheduled learning activities – campus: No timetable entry. Students work in regular consultation with their supervisor, as well as conducting independent research, writing and creative practice. There will also be group and individual critique sessions of creative practice.*

### Content

In this Research Unit students work on their creative practice research project. In combination with ACA704 Advanced Creative Research Project B the student completes a 4 credit point research project in the second year of study. The research project is comprised of a major creative work (16,000 word equivalent) and an exegesis (4000 words).

This unit is to be undertaken with the student's creative project supervisor or supervisory team in a critically reflexive context of self and group critiques

### Assessment

The creative research project is comprised of a Creative Submission (16,000) and Exegesis (4000) resulting in an overall submission equivalent to 20,000 words. This work will be completed over 2 units (ACA703 and ACA704) – 100%.

### Hurdle requirement

Hurdle task (Individual) – Production Blueprint (1000 words).

## ACA704 – Advanced Creative Research Project B

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waterfront (Geelong)*

*Trimester 2: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Rea Dennis*

*Trimester 2 Unit Chair: Torika Bolatagici*

*Prerequisite: Nil*

*Corequisite: ACA703 and Must be enrolled in A759*

*Incompatible with: ALX704*

*Scheduled learning activities – campus: Students work in regular consultation with their supervisor as well as conducting independent research, writing and creative practice*

### Content

In this Research Unit students conclude and submit their research project. The research project will be a combination of a major creative work and exegesis that the student commenced in or completed in tandem with ALX703 Creative Research Project A.

### Assessment

The creative research project (16,000) and exegesis (4000) is 18,000–20,000 words equivalent. This work will be completed over 2 units (ACA703 and ACA704), 100%.

## ACA710 – Contemporary Debates in the Creative Arts

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Torika Bolatagici*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in A559, A659 or A759*

*Incompatible with: ACA410*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

### Content

This unit introduces key debates, ideas and histories of contemporary arts movements and practices in a structured framework which will support student learning about how interpretations of creative arts practice and discourses may be used as a means to both inform and explain their own creative work and approaches. Within this context a key aim for this unit is to also emphasise the development of knowledge and skills for critical engagement, evaluation and interpretation of creative practice and the connection to conceiving a creative arts research project.

### Assessment

- Oral presentation (10 minutes) (equivalent to 1000 words) – 20%
- Annotated Bibliography (1500 words) – 30%
- Research Essay (2500 words) – 50%

## ACA711 – Methods and Design for Creative Arts Research

*Offering information: This unit is to be taken in Year 2 of studies*

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Rea Dennis*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in A659 or A759*

*Incompatible with: ACA411*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

### Content

This unit will introduce students to the way in which creative practice is applied within a research project. Students will engage with the language for creative arts research and learn how key concepts and approaches are applied. Students will formulate research questions and design their creative practice research project. Skills in written and oral critical thinking are honed as students engage with the foundations of thinking through making that is fundamental to creative practice research. The unit will culminate in the production of the formal research proposal.

## Assessment

- Presentation (1000 words) – 20%
- Review (1500 words) – 30%
- Research proposal (2500 words) – 50%

## ACA712 – Transgressive Acts in Cinema, Art, Performance

*Enrolment modes:*

*Trimester 2: Burwood (Melbourne)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Glenn D'Cruz*

*Trimester 3 Unit Chair: Glenn D'Cruz*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week and 10 hours of self-directed reading and independent study per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 5 scheduled online seminars*

## Content

This unit examines the relationship between art and censorship with a particular focus on transgressive filmmakers, artists, performers and choreographers who have invoked the concept of 'artistic license' to defend their work against charges of sedition, obscenity or blasphemy. The unit will engage students with social, institutional, and discursive rules that operate within censorship debates with a particular focus on censorship and: citizenship; pornography; popular culture; propagandist art; and race. Students will be expected to critique the practices culture jamming, 'hacktivism' and internet censorship. The unit will also investigate government and philanthropic bodies use soft and hard power to exert control over arts and artists.

## Assessment

- Assessment 1 (Group) – Group Seminar Presentation/Demonstration (1500 words equivalent) – 30%
- Case Study (1250 words) – 25%
- Creative Portfolio (2250 words) – 45%

## ACA715 – Creative Enterprise Project

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Anne Wilson*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in course A535, A539, A559, A634, A638, A639, A659, A661, A664, A743, A759 or A764*

*Incompatible with: ALR715*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including: 1 x 2 hour Seminar per week equivalent.*

## Content

This unit aims to develop skills to support establishing a creative project/enterprise. It will assist the student in preparing for a transformed twenty first century work environment in the creative industries and communications – with focus on entrepreneurship, creative business planning and research into current theory on creative/cultural industry context. This includes strategic and creative approaches to marketing and promotion, with an overview of basic organizational and financial planning. It will include developing skills in pitch presentation related to students' creative practice.

## Assessment

- Presentation – pitch with written curatorial/capability documentation (1500 words or equivalent) – 30%
- Industry-based project – marketing plan (1000 words or equivalent) – 20%
- Folio Creative Project Plan (2500 words or equivalent) – 50%

## ACC100 – Communication in Everyday Life

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Luke Heemsbergen*

*Trimester 2 Unit Chair: Luke Heemsbergen*

*Trimester 3 Unit Chair: Julie Freeman*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALC101*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities x 2 hours per week. This will include a range of activities including recordings, and synchronous and asynchronous participation in online classroom activities.*

### Content

This unit explores the power of media in shaping public interest, and the opportunities and challenges created in the network society. Students will learn key communication theories, concepts and analytical methods that will assist them through their degrees. The unit also incorporates an introduction to work integrated learning whereby students are encouraged to consider traditional and non-traditional communication and media roles, and reflect upon the skills and strategies needed for future careers.

### Assessment

- Seminar Exercises (1200 words or equivalent) – 30%
- Considering Careers (1200 words or equivalent) – 30%
- Essay (1600 words or equivalent) – 40%

## ACC200 – Freelancing in the Arts

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waterfront (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Karen Le Rossignol*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ACC301*

*Scheduled learning activities – campus: 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including: 1 x 2 hour seminar per week equivalent.*

### Content

This unit is targeted to developing skills for freelancing across the creative arts. There is a focus on project-based and applied learning through three elements: exploration of case studies linked to creative industries theory, government policy and arts social/cultural issues; practice in pitch presentations for career development; and development of a group project taking a client briefing from concept through marketing and basic budgeting to proposal presentation. The emphasis in the unit is on the combination of developing both the freelance skills for creative arts practice, and capacities to work to client briefs for a range of arts projects.

*Note: Pipelining unit proposed final year of offer 2019*

### Assessment

- Presentation pitch equivalent (1200 words or equivalent) – 30%
- Presentation on case studies (oral and written) (1200 words or equivalent) – 30%
- Assessment 3 (Group of 2–3 students and Individual) – Group project from client briefing plus evaluative reflection (1600 words or equivalent) – 40%

## ACC213 – Media Law and Ethics

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Janine Little*

*Trimester 2 Unit Chair: Janine Little*

*Prerequisite: Two units at level 1*

*Corequisite: Nil*

*Incompatible with: ALR205 and ALJ313*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities x 2 hours per week. This will involve a range of activities including seminar recordings, and synchronous and asynchronous participation in online classroom activities.*

### Content

This unit provides students with groundwork practical knowledge to deal with legal and ethical issues that may arise from their work as communication professionals or as users of media communication. The unit takes a problem-based learning (case study) approach to working with students to develop an understanding of laws and regulations that influence journalism in Australia; highlight potential problem areas for journalists, focusing in particular on privacy, defamation, contempt of court; copyright; the Competition and Consumer Act and the ethical obligations of journalists as media professionals.

### Assessment

- Essay (2000 words or equivalent) – 50%
- Essay (2000 words or equivalent) – 50%

## ACC302 – Advertising: Desire, Consumption and the Attention Economy

*Enrolment modes: Trimester 2 Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: David Marshall*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALC202 and ALC314*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative activities including seminar overview (recordings provided) and online seminar tasks (combined 2 hour per week equivalence)*

### Content

This unit traces the influence of historical patterns on contemporary advertising and promotional cultures to provide a distinctive means of analysing the construction of consumer identities and brand-based communities. Particular attention is given to the problems and potentialities of the attention economy in the rapidly changing context of our contemporary digital screen media culture. Students will investigate real-world industry practices and processes. Highlighting that advertising requires many of the skills underpinning related media industries, including journalism, public relations, marketing, and media arts, the unit reveals how the new promotional cultures and entertainment economies undermine distinctions between previously separate industries and necessitate the rise of the 'media professional'.

*Note: Commencing 2020*

### Assessment

- Critique (2000 words or equivalent) – 50%
- Essay (2000 words or equivalent) – 50%

## ACC303 – Communication Research Practices

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Toija Cinque*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALC303*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and discussion forums.*

### Content

This unit focuses on research skills that can be applied to professional practice in diverse media and cultural industries. Examining how to collect, analyse, and interpret quantitative and qualitative data, the unit enables students to gain practical experience in using research methods such as participant observation, focus groups, and various digital methods, including online surveys, ratings analysis, data visualisation and social media analytics. Students will critique the benefits and limitations of different media research methods, negotiate ethical considerations, and solve real-world problems by conducting industry-relevant research.

### Assessment

- Assessment 1 – Participant observation exercise (equivalent to 800 words) – 20%
- Assessment 2 – Focus group simulation and critical reflection (equivalent to 1200 words) – 30%
- Assessment 3 – Online data analysis project (equivalent to 2000 words) – 50%

## ACC317 – Communication and Creative Arts Internship A

*Enrolment modes: Trimester 1, Trimester 2 and Trimester 3: Internship unit*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Bronwyn Kirby*

*Trimester 2 Unit Chair: Bronwyn Kirby*

*Trimester 3 Unit Chair: Bronwyn Kirby*

*Prerequisite: This internship unit can only be undertaken after the successful completion of 12 credit points (or equivalent) of which at least 4 must be core units in the course or major in which the student is enrolled and seeking the placement. Students also require permission from the Head of Discipline and/or Unit Chair who will take into account a range of factors including academic history and the nature of the placement. Enrolment in an internship unit is dependent on the availability of a suitable workplace or equivalent and agreed project or program of work.*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Online independent learning and a minimum of 100 internship placement hours with an approved host organisation.*

### Content

This Internship unit, available to all students in Communication and Creative Arts courses, is an internship placement with an approved host organisation. Internships may be undertaken across a very broad range of industries such as creative arts industry sectors, corporate/government/community organizations, associations and practitioners involved in the fields of writing/publishing/editing, visual communication design, dance/performance/theatre production, film, video, television, radio, sound, animation, web design, photography, visual arts, and communications/digital media.

Students may take both of the Communication and Creative Arts Internships A & B (ACC317 & ACC318), subject to approval, either sequentially or at the same time to enable longer or more intensive placement, or to experience two different placements.

*Please note that in Trimester 3 only, the Professional and Creative Writing stream option is not available.*

Note: All students must complete the following three-step internship application process:

1. Prepare: Complete the ArtsEd Pre-Internship Program in CloudDeakin.
2. Secure: Identify, research and contact potential host organisations. Negotiate your tasks, goals, hours, and supervision arrangements.
3. Register: \*Apply online to have your internship approved. Students cannot commence their internship or enrol in this unit until they have applied online and received approval from the Faculty of Arts and Education Work Integrated Learning team.

\* Please note that internship applications need to be registered at least two weeks before commencing an internship. Students will have the best success if they commence their research, planning and preparation early.

Please contact the Faculty of Arts and Education WIL Team for more information – prepare, secure and register an internship: [deakin.edu.au/artsed-wil](http://deakin.edu.au/artsed-wil)

### Assessment

- Workplace Profile (1,600 or equivalent) – 40%
- Internship Reflection, Skills Review and Resume (2400 or equivalent) – 60%

## ACC318 – Communication and Creative Arts Internship B

*Enrolment modes: Trimester 1, Trimester 2 and Trimester 3: Internship unit*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Bronwyn Kirby*

*Trimester 2 Unit Chair: Bronwyn Kirby*

*Trimester 3 Unit Chair: Bronwyn Kirby*

*Prerequisite: This internship unit can only be undertaken after the successful completion of 12 credit points (or equivalent) of which at least 4 must be core units in the course or major in which the student is enrolled and seeking the placement. Students also require permission from the Head of Discipline and/or Unit Chair who will take into account a range of factors including academic history and the nature of the placement. Enrolment in an internship unit is dependent on the availability of a suitable workplace or equivalent and agreed project or program of work*

*Corequisite: Nil*

*Incompatible with: AAV384, ACD321, ACM321, ACP321, ACV309, ALC313, ALJ322, ALW351, ALX321*

*Scheduled learning activities – campus: Online independent learning and a minimum of 100 internship placement hours with an approved host organisation.*

### Content

### Assessment

- Workplace profile (1600 words or equivalent) – 40%
- Internship Reflection (2000 words or equivalent) – 50%
- Behavioural Interview Preparation (600 words or equivalent) – 10%

## ACC319 – Communication and Creative Arts Study Tour

*Enrolment modes:*

*Not offered 2019, reoffered 2020*

*Trimester 3: Study Tour unit*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Meghan Kelly*

*Prerequisite: Student must contact Unit Chair to enrol*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: To be advised*

### Content

Students will be invited to attend a study tour program to adapt the Australian Indigenous Design Charter: Communication Design to an International Indigenous Design Charter: Communication Design. This process will involve the engagement of first nations participants in Australia and other countries. The results of this workshop will be presented to the world Design Summit in Montreal, 2017

*Note: This unit is an elective unit open to a select cohort of Indigenous students for a project investigating Indigenous knowledge in communication design practices*

### Assessment

- Assessment 1: 2 x Reports 1500 words – 40% each
- Assessment 2: Reflective document 1000 words – 20%

## ACC320 – Communication Internship A: Placement

*Enrolment modes:*

*Trimester 1: Placement / WIL*

*Trimester 2: Placement / WIL*

*Trimester 3: Placement / WIL*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Bronwyn Kirby*

*Trimester 2 Unit Chair: Bronwyn Kirby*

*Trimester 3 Unit Chair: Bronwyn Kirby*

*Prerequisite: You must have completed at least twelve credit points of study including one of the following groups:*

- *Public Relations – ACC100, ALR103, ALR104, ALR207 or ALR210*
- *Journalism – ACC100, ALJ111, ALJ112, ALJ216*
- *Digital Media – ACC100, ALM101, ALM102, ALC215*
- *Advertising – ACC100, ALA101, ALA102 and one of ALA201 ALA202, ALA203*

*Please see Note below for further special requirements needed for this unit.*

*Corequisite: Nil*

*Incompatible with: ALR382*

*Scheduled learning activities – campus: Internship*

*Placement: 100 hours min.*

### Content

You will gain firsthand experience in a professional workplace related to your chosen field of study. An internship is a bridge between university and the professional world; it provides an invaluable opportunity to develop the discipline-specific and transferable skills valued by employers. Your internship will be the foundation for career direction learning in ACC321 Communication Internship B: Career Development.

*Note: You will be given access to enrol in the unit once you complete the steps outlined below. Placements must be registered with the ArtsEd Work Integrated Learning team at least two weeks before commencing any placement hours.*

Prior to commencing your placement you MUST have:

- completed the online ArtsEd Pre-internship Program in CloudDeakin
- submitted an online internship application; and
- received approval by the ArtsEd Work Integrated Learning team and Unit Chair

For information see: [deakin.edu.au/students/faculties/artsed/work-integrated-learning/internships/process](http://deakin.edu.au/students/faculties/artsed/work-integrated-learning/internships/process)

It is strongly recommended that ACC320 be completed in the trimester prior to ACC321.

### Assessment

- Report (1600 words or equivalent) – 40%
- Exercise (2400 words or equivalent) – 60%

## ACC321 – Communication Internship B: Career Development

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Bronwyn Kirby*

*Trimester 2 Unit Chair: Bronwyn Kirby*

*Prerequisite: ACC320*

*Corequisite: Nil*

*Incompatible with: ALR382*

*Scheduled learning activities – campus: 1 x 2 hour weekly seminar*

*Scheduled learning activities – cloud (online): Learning experiences are delivered via CloudDeakin*

### Content

This unit is all about you and your career development as you build on your internship experience. You will undertake valuable self-awareness activities, learn how to articulate your value to an employer, identify employment and networking opportunities and learn how to specifically tailor job applications. Most importantly, this unit develops the knowledge and skills to enable you to strategically manage your career from graduation and throughout your professional career.

*Note: It is recommended students study ACC321 Communication Internship B: Career Development in the trimester following completion of ACC320 Communication Internship A: Placement.*

### Assessment

- Presentation and peer review (1600 words or equivalent) – 40%
- Career Portfolio (2400 words or equivalent) – 60%

## ACC700 – Communication and Creative Arts Internship

*Enrolment modes: Trimester 1, Trimester 2 and Trimester 3: Internship unit*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Alexia Maddox*

*Trimester 2 Unit Chair: Alexia Maddox*

*Trimester 3 Unit Chair: Mark Sheehan*

*Previously: ALX721*

*Prerequisite: Must have completed at least 4 credits of study in a Graduate Diploma or Masters program within the School of Communication and Creative Arts and have permission from the Unit Chair to enroll.*

*Corequisite: Nil*

*Incompatible with: ALX721*

*Scheduled learning activities – campus: Online independent learning and a minimum of 100 internship placement hours with an approved host organisation*

### Content

This Internship unit, available to all students in Communication and Creative Arts courses, is an internship placement with an approved host organisation. Internships may be undertaken across a very broad range of industries such as creative arts industry sectors, corporate/government/community organizations, associations and practitioners involved in the fields of writing/publishing/editing, visual communication design, dance/performance/theatre production, film, video, television, radio, sound, animation, web design, photography, visual arts, and communications/digital media.

*Note: All students must complete the following three-step internship application process:*

1. Prepare: Complete the ArtsEd Pre-Internship Program in CloudDeakin.
2. Secure: Identify, research and contact potential host organisations. Negotiate your tasks, goals, hours, and supervision arrangements.
3. Register: \*Apply online to have your internship approved. Students cannot commence their internship or enrol in this unit until they have applied online and received approval from the Faculty of Arts and Education Work Integrated Learning team.

*\* Please note that internship applications need to be registered at least two weeks before commencing an internship. Students will have the best success if they commence their research, planning and preparation early.*

Please contact the Faculty of Arts and Education WIL Team for more information – prepare, secure and register an internship: [deakin.edu.au/artsed-wil](http://deakin.edu.au/artsed-wil)

### Assessment

- Workplace profile (2000 words or equivalent) – 40%
- Internship Reflection (2000 words or equivalent) – 40%
- Elevator Pitch (1000 words or equivalent) – 20%

## ACC717 – Law, Media and Communication

*Enrolment modes:*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Janine Little*

*Trimester 3 Unit Chair: Usha Rodrigues*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALJ724*

*Scheduled learning activities – campus: 1 x 2 hour*

*Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities x 2 hours per week equivalent. This will involve a range of activities including seminar recordings, and synchronous and asynchronous participation in online classroom activities.*

### Content

This unit aims to provide insight into the legal rights and risks of professional communicators in journalism, public relations, and media practice. The unit will focus in particular on legal issues such as defamation, copyright and intellectual property, media freedom, privacy, and ethics. Globally relevant comparisons will be made with the Australian setting.

### Assessment

- Essay (2500 words or equivalent) – 50%
- Essay (2500 words or equivalent) – 50%

## ACD101 – Introduction to Contemporary Dance Practice A

*Enrolment modes: No longer available for enrolment*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Shaun McLeod*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AAP111, ACD201, ACD401*

*Scheduled learning activities – campus: 2 x 1.5 hour*

*Studio and 1 x 1.5 hour Seminar per week*

### Content

This unit aims to introduce students to the aesthetic and physical challenges of techniques and choreography in contemporary dance art. The subject combines classes in contemporary dance technique with classes in dance composition. Technique classes, while physically and technically challenging are designed to cater to a broad range of dance backgrounds with the aim of giving students an embodied understanding of key physical principles of contemporary dance. A composition seminar will present and discuss a range of works from the modern, post-modern and contemporary dance repertoire. Students will also begin to engage with the philosophical and social issues underpinning contemporary dance practices through specific readings and discussion.

### Assessment

- On-going assessment in technique classes according to stated criteria (Attendance of at least 90% of practical classes is compulsory) – 30%
- Written assignment (1200 words) – 30%
- Research Portfolio (1600 word equivalent) – 40%

## ACD102 – Introduction to Contemporary Dance Practice B

*Enrolment modes: No longer available for enrolment*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Sally Gardner*

*Prerequisite: ACD101 or ACD201*

*Corequisite: Nil*

*Incompatible with: AAP112, ACD202, ACD402*

*Scheduled learning activities – campus: 3 x 1.5 hour*

*Studio and 1 x 2 hour Studio per week*

### Content

The unit continues and extends students' examination of the fundamental principles of contemporary dance technique and composition. It aims to provide students with a practical and embodied understanding of current approaches to contemporary dance, further development of students' choreographic experience and continued studies in theoretical and historical perspectives of contemporary dance. Two practical classes per week in contemporary dance technique will extend students' knowledge of kinaesthetic awareness, physical alignment, musicality, spatial awareness and physical control within dynamic and energetic movement phrases.

Students will also be introduced to the fundamental principles of contact improvisation. Studies in dance theory and dance technique will explore the impact and influence of contact improvisation on the development of contemporary dance practice since its inception in the early 1970's. In choreographic seminars and assignments, students will undertake movement observation and creation.

### Assessment

- On-going assessment in technique classes according to stated criteria (Attendance of at least 90% of practical classes is compulsory) – 30%
- Assessment 2 – Examined choreographic studies – 30%
- Essay and Portfolio – 40%

## ACD103 – Dance and Screens

*Year: 2020 unit information*

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Shaun McLeod*

*Trimester 2 Unit Chair: Shaun McLeod*

*Trimester 3 Unit Chair: Shaun McLeod*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour practical per week*

### Content

Students will study how dance functions in screen-based forms of expression, such as in film and television and the pop-culture realm of dance in music video. With a critical eye to prevailing issues, aesthetic tropes and the ways dance has been employed 'in-frame', choreographic workshops will enable students to devise movement in groups, experiment with framing this movement with a camera, and finally, create their own dance for screen.

*Note: Commences 2020*

### Assessment

- Work-in-progress video task (800 words equivalent) – 20%
- Assessment 2 (Group) – Practical video assignment (2000 words equivalent) – 50%
- Research task (1600 words equivalent) – 30%

## ACD104 – Exploring Dance Styles From Hip Hop to Bollywood

*Year: 2020 unit information*

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Olivia Millard*

*Trimester 2 Unit Chair: Olivia Millard*

*Trimester 3 Unit Chair: Olivia Millard*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour practical per week*

### Content

Students will learn two out of several different cultural dance styles (such as, Hip-Hop, Indian dance, Indigenous dance) through practical, studio-based dance classes. A transcultural workshop will practically examine ways in which the cultural attributes of the different styles can be brought together in choreographic and performance-based ways as a means of enabling cross-cultural dialogue.

*Note: Commences 2020*

### Assessment

- Dance style class content (1200 words equivalent) – 30%
- Choreographed response to transcultural workshops (1800 words equivalent) – 40%
- Written reflective task (1500 words equivalent) – 30%

## ACD207 – Improvisation in Movement and Dance

*Year: 2020 unit information*

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne)*

*Trimester 3: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Shaun McLeod*

*Trimester 2 Unit Chair: Shaun McLeod*

*Trimester 3 Unit Chair: Shaun McLeod*

*Prerequisite: Must have completed two units at level 1*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Trimester 1: 1 x 3 hour practical per week*

*Trimester 3: Intensive mode: This unit is taught intensively weeks 2–3 at Burwood (Melbourne), 1 x 3 hour practical Monday-Friday Week 2; 1 x 3 hour practical, Monday-Thursday, 1 x 6 hour practical Friday Week 3*

## Content

This unit focuses on ways in which students can cultivate an embodied sensibility through dance and movement improvisation. Utilising improvisation and ‘somatic’ practices, the practical classes will allow students to learn through internally-focused experiences of movement, interactions with others, kinaesthetic imagination and physical self-enquiry. Improvisation will also be practiced as a form for performance thus offering students the opportunity to watch and reflect on the experiences of others.

*Note: Commences 2020*

## Assessment

- Workshop participation (1600 words equivalent) – 40%
- Improvised performance (1200 words equivalent) – 30%
- Research task (1500 words equivalent) – 30%

## ACD208 – Dance Beyond the Studio

*Year: 2020 unit information*

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Olivia Millard*

*Trimester 2 Unit Chair: Olivia Millard*

*Trimester 3 Unit Chair: Olivia Millard*

*Prerequisite: Must have completed two level 1 units*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour practical per week*

## Content

This unit offers students the chance to embrace dance that happens beyond the studio through modes of

performance, installation, flash-mob, public events, political activism, educational workshops, therapeutic activity, video, online publication etc. Students will investigate areas of dance in socially applied and participatory art practices, dance and disability studies, dance education, dance therapy, or dance and well-being and apply their dance and choreographic skills to work in an ‘external’ context with a diverse range of possible requirements or outcomes.

*Note: Commences 2021*

## Assessment

- Written project proposal (1200 words or equivalent) – 20%
- Public project (2000 words or equivalent) – 50%
- Written reflective task (1500 words or equivalent) – 30%

## ACD307 – Specialised Technique and Dance Performance

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Olivia Millard*

*Prerequisite: ACD204 or equivalent studies approved by the Unit chair*

*Corequisite: Nil*

*Incompatible with: AAP315, ACD407*

*Scheduled learning activities – campus: 2 x 1.5 hour Studio per week, 1 x 2 hour Studio per week*

## Content

Students will undertake regular technique classes, which increasingly refer to resources for building kinaesthetic imagination and articulation. These resources can include developmental movement, ideokinesis, and release technique. Composition seminars introduce experimental approaches used by post-modern dance artists in the second part of the twentieth century. Readings in dance history leading to written discussion of an essay question also focus on this period.

## Assessment

- Assessment 1 – Ongoing progress and development in contemporary dance technique and contribution to choreographic workshops – 35%
- Assessment 2 – Two assessed composition assignments – 35%
- Written assignment (1200 words) – 30%

## ACD308 – Choreographic Research and Performance

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Olivia Millard*

*Prerequisite: ACD307*

*Corequisite: Nil*

*Incompatible with: AAP316*

*Scheduled learning activities – campus: 2 x 1.5 hour Studio per week, 1 x 2 hour Studio per week*

### Content

Students will undertake regular technique classes, which increasingly refer to resources for building kinaesthetic imagination and articulation. These resources can include developmental movement, ideokinesis, and release technique. Students will design and carry out individual choreographic research projects comprising a performance work and accompanying written exegesis. Through self-directed reading and consultation with the Unit Chair, students will write an exegesis, which contextualises and reports on their choreographic process in relation to available research in the field.

### Assessment

- Assessment 1 – Choreographic research project (practical and essay) – 55%
- Assessment 2 – Ongoing progress and development in contemporary dance technique and contribution to choreographic seminars – 45%

### Content

In this capstone unit, students will research, practice, and utilise specific approaches to choreographic practice in their relation to significant dancer-choreographers in the contemporary dance field. These approaches to choreographic practice will enable students to develop processes and content towards the creation of the live performance of a major choreographic group work in trimester 2 in the companion unit ACD310 (2 credit points). Students will engage with different dance-making approaches with the aim of discovering what processes best suit their interests in choreography, and the particular circumstances of their own cultures, contexts, experiences, capacities and bodies. A series of assignments will give students practical experience in creating from within the given choreographic processes and assessing their relevance and application to the emerging aims of their group project. Assignments will be shown as informal presentations in class. During and towards the end of this unit groups will be established and will develop ideas and establish approaches towards the major choreographic project that will be created and performed in the unit ACD310. This proposal will be formally presented at the end of the Trimester.

### Assessment

- Assessment 1 – Choreographic showing 1 with oral presentation – 35%
- Assessment 2 – Choreographic showing 2 with oral presentation – 35%
- Assessment 3 – Group presentation of draft project – 30%

### Hurdle requirement

Attendance requirement of 80% of seminars or workshops.

## ACD309 – Major Choreographic Project A: Process

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Ollivia Millard*

*Prerequisite: ACD204*

*Corequisite: ACD307*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Studio per week, 1 x 3 hour student-led work on assigned task*

## ACD310 – Major Choreographic Project B: Performance

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 2 Unit Chair: Olivia Millard*

*Prerequisite: ACD309*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 2 x 3 hour Studio per week. Performances in week 12.*

## Content

This unit gives students the opportunity to work in groups to make a single, major choreographic work for the duration of the trimester, leading to public performance of the work at the end of the trimester. Students will also be responsible for many aspects of the production processes involved in the delivery of live performance (publicity, music copyright, costuming, fund-raising if required, and so on). The unit extends and develops the choreographic processes and physical practices explored in the unit ACD309. The specific choreographic projects developed and presented by groups of students in ACD309 are developed and rehearsed in this unit, concluding in the public performance. It is the culmination of the Bachelor of Contemporary Arts – Dance degree in which choreographic and technical skills, and intellectual understanding, are synthesised in the creation of a choreographic work.

## Assessment

- Assessment 1 – Written proposal-discussion-report (2400 words) – 30%
- Assessment 2 – Work-in-progress showing of choreographic work – 20%
- Assessment 3 – Performance of choreographic work to public audience – 50%

## ACD311 – Contemporary Dance in New York Study Tour

*Enrolment modes: Offered in alternate years 2020, 2022*  
*Trimester 3: Study tour*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Shaun McLeod*

*Prerequisite: ACD101, ACD102, ACD203, ACD204 and permission from the unit chair to enrol. Please note that study tour units may not run each year. Enrolment is always subject to a selection process and approval by the Unit chair as places are limited. Therefore students should always identify another unit as an alternative to a study tour unit when planning their course or major*

*Corequisite: Nil*

*Incompatible with: Nil*

*In-person attendance requirements: Delivery method: intensive mode over 2 weeks*

*Total Contact hours per week:*

*Week 1: 5 days x 5 hours per day class contact hours*

*Week 2: 4 days x 5 hours per day class contact hours*

*Also includes evening excursions (2–3 evenings per week x 3 hours per evening) and other cultural excursions*

## Content

Students will travel to New York City and participate in an intensive training module in contemporary dance practices over a two-week period. Classes will be designed and taught by New York-based artists and teachers so as to give a clear, physical understanding of current practices, interests and aesthetic preferences in contemporary dance techniques, choreography and performance. Local Universities will host the classes. Students will also be expected to attend performances and other cultural activities as they emerge during the study tour.

## Assessment

- Assessment 1 – Pre-departure research project and class presentation – 20%
- Assessment 2 – Assessment of practical work based on participation in the studio classes and workshops – 50%
- Assessment 3 – Reflective task (1200 words) – 30%

## ACF103 – Writing with the Camera

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne)*

*Trimester 2: Burwood (Melbourne)*

*Trimester 3: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Elizabeth Baulch*

*Trimester 2 Unit Chair: Elizabeth Baulch*

*Trimester 3 Unit Chair: Elizabeth Baulch*

*Previously: ACM112 Writing with the Camera*

*Prerequisite: Nil*

*Corequisite: Must be in an Arts or Arts combined course or M325*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Trimester 1: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

*Trimester 2: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

*Trimester 3: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

*In-person attendance requirements: Students must attend and participate in project-based activities at the Burwood campus on the scheduled days during the trimester, commencing in week 1*

## Content

This unit is an introduction to the foundations of film and video practice and aims to equip students with the necessary technical skills to undertake further production units. It explores the technology of high definition video cameras and non-linear digital editing software. It is a practical unit that requires attendance to participate in the assessment activities; a series of camera, audio and editing exercises that will contribute to the development of industry standard production skills.

Topics will include:

- digital video camera operation
- industry standard framing, composition and visual language
- basic lens theory
- recording and working with audio in digital video
- non-linear editing and data management
- constructing sequences: overlay and continuity

## Assessment

- Topic Tests (800 words or equivalent) – 20%
- Folio 1 (1200 words or equivalent) – 30%
- Folio 2 (2000 words or equivalent) – 50%

## ACF104 – Screening History

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Victoria Duckett*

*Previously: ACM120, ALC106*

*Cohort rule: Must be enrolled in Associate Degree of Arts, Bachelor of Arts, Bachelor of Arts (Media and Communication) or Bachelor of Creative Arts course*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ACM120, ALC106*

*Scheduled learning activities – campus: 1 x 1 hour class per week, 1 x 2 hour Screening per week, 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including: 1 x 1-hour class per week, 1 x 2-hours screening per week, 1 x 1-hour seminar per week equivalent*

## Content

This course introduces students to the history of screen culture. It highlights the interests that today shape the ways we interpret and understand our shared cinematic past. Topics explored include early cinema, film genres, feminist film, queer cinema, experimental film and transmedia. We use seminal films to explore these topics.

## Assessment

- A presentation task (1600 words or equivalent) – 40%
- Online quiz (2 parts/sessions) (800 words or equivalent) – 20%
- Final essay (1600 words or equivalent) – 40%

## ACF106 – Screen Practices

*Enrolment modes:*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Martin Potter*

*Trimester 3 Unit Chair: Martin Potter*

*Previously: ACM116/ACM134 Screen Practices*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials.*

## Content

This unit examines the issues and practices associated with film and video production. It explores the ways in which film and video production practices have developed from their historical traditions to their contemporary practices. Topics to be addressed in this unit includes: film and video histories; forms, genres, narrative, documentary and experimental practices in relation to mise-en-scene, cinematography, editing and sound.

## Assessment

- Close Analysis 1 (2000 words or equivalent) – 50%
- Close Analysis 2 and Script or Video Essay (2000 words or equivalent) – 50%

## ACF107 – Principles of Animation

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne)*

*Trimester 2: Burwood (Melbourne)*

*Trimester 3: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Rosemary Woodcock*

*Trimester 2 Unit Chair: Rosemary Woodcock*

*Trimester 3 Unit Chair: Rosemary Woodcock*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AMC104*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

### Content

In this unit students explore the making of animation through a range of techniques, methods and approaches for a variety of animation practices. Students will study established principles of 2D animation (Timing, Squash and Stretch, Staging, etc.) and story-telling, learn under-camera techniques (time-lapse and stop-motion), and develop basic project management skills to take an idea from storyboard to animated short film. The unit allows students to focus on specific interests, such as experimental non-narrative, or character and story-based animation.

*Note: Student enrolment quotas apply to this unit*

### Assessment

- Assignment 1 – Exercises – 25%
- Assignment 2 – Storyboard Project – 30%
- Assignment 3 – Short Film Project – 45%

## ACF201 – Short Fiction Film

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne)*

*Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Vikrant Kishore*

*Trimester 2 Unit Chair: Liz Baulch*

*Previously: ACM213 Genre Form and Structure*

*ACA213/ACM413 Media Production: Form and Structure*

*Prerequisite: ACF103, ACF106*

*Corequisite: Only available to students enrolled in course A351 Bachelor of Film Television and Animation*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Class weeks 1–7 and 1 x 3 hour Seminar weeks 1–11*

*In-person attendance requirements: Students must attend and participate in project-based activities at the Burwood campus on the scheduled days during the trimester, commencing in week 1.*

### Content

This unit will enable students to develop methods and approaches of realising ideas into short fiction film works. It will require students to demonstrate understandings of the language of film and video and to locate filmic form and structure within the discourses of genre, style and aesthetic practice.

The unit will cover topics such as teamwork and team management, consensus decision making, collaborative idea development, production roles and responsibilities and the processes and practices of production management. This will provide the context in which students make a 5-minute production, shot on digital film and post-produced using digital picture and sound editing systems. Through this production, students will be required to review and analyse their working methods and their production, to make judgements about the feedback they receive and to develop appropriate responses.

### Assessment

- Line Producer Evaluations (1200 words or equivalent) – 30%
- Peer & Self-Assessment (800 words or equivalent) – 20%
- Production Process: Planning, Execution & Review (2000 words or equivalent) – 50%

## ACF202 – Documentary Production

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne)*

*Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Vikrant Kishore*

*Trimester 2 Unit Chair: Vikrant Kishore*

*Previously: ACM217/ACM317 Documentary Production Practice*

*Prerequisite: Students must complete: ACF103*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour*

*Seminar per week*

*In-person attendance requirements: Students must attend and participate in project-based activities at the Burwood campus on the scheduled days during the trimester, commencing in week 1.*

### Content

The topics to be addressed in this unit includes: contemporary practices, audiences and institutions, modalities of documentary, power and ethics in documentary practice; distinctions between documentary, news, infotainment, and other non-narrative forms; the identification of source material including archive material, and production techniques specific to documentary making.

*Note: Student enrolment quotas apply to this unit*

### Assessment

- Project Pitch (1200 words equivalent – written and oral presentation) – 30%
- Assessment 2 (Group) – Proposal and Treatment (1200 words) – 30%
- Assessment 3 (Group) – Documentary Production (1600 words) – 40%

## ACF205 – Television Studio Production

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne)*

*Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Elizabeth Baulch*

*Trimester 2 Unit Chair: Elizabeth Baulch*

*Previously: ACM237 Television Production*

*Cohort rule: Only available to students enrolled in an Arts or Arts combined course or M325*

*Prerequisite: One of ACF103, ACM112*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour*

*seminar per week*

*In-person attendance requirements: Students must attend and participate in project-based activities at the Burwood campus on the scheduled days during the trimester, commencing in week 1.*

### Content

This unit enables students to develop an understanding of the principles and practices of television studio production through practice. By examining the context and evolution of historical and contemporary production practices, students will develop understandings of the formats and creative possibilities associated with studio production genres. Exercises and projects replicate real world productions and challenges in an industry level broadcast studio. Multi-camera studio production requires teamwork and collaboration with the emphasis placed on the development of pre-production planning, production management and studio production skills. This is a practical unit that requires attendance to participate in the assessment activities.

### Assessment

- Assessment 1 – Project Production Tasks – 60%
- Assessment 2 – Project Evaluations – 40%

## ACF206 – Contemporary Topics in Screen Cultures

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Victoria Duckett*

*Cohort rule: Only available to students enrolled in an Arts or Arts combined course*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALC216, AMC236*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hours screening per week, 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): Independent and collaborative learning activities including: 1 x 1 hour Class per week, 1 x 2 hours screening per week, 1 x 1 hour Seminar per week equivalent.*

### Content

Film festivals are of increasing importance to filmmakers, industry professionals, audiences, and scholars alike. Emerging over 70 years ago to drive the global distribution of film, festivals now play a pivotal role in our understanding of local and international screen culture. Festivals also inform our appreciation of the creative industries economy. This course offers a critical introduction to film festivals today. Exploring major international festivals (such as the Berlinale, Cannes, Venice, and the Sundance Film Festival) the unit also addresses more marginal and/or online forums (Cinema Ritrovato (Bologna), Le Giornate del Cinema Muto (Pordenone), and Webfests such as the Vancouver and Melbourne Webfest). Topics we will explore include: festival programming and organization, issues of film production and film distribution, the relationship between festivals and the city, festivals and celebrity culture, Webfests, and the future of festivals

### Assessment

- Assessment 1 (Group or Individual) – Film/Webfestival presentation (1200 words or equivalent – 10 minutes for an individual, 15 minutes for a group) – 30%
- Plan a short film festival program (1600 words or equivalent) – 40%
- Program review (1200 words or equivalent) – 30%

## ACF207 – Animation Project

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Dirk de Bruyn*

*Prerequisite: ACF107*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

### Content

This is a project-based unit. Students both individually and as a group are set tasks of creating and producing a short animation film in response to and framed by a set piece of spoken recorded sound. The unit focuses on the relationship between sound and image, including lip-syncing technique responses to a spoken word recording. This is a real-world application that requires students to acquire and apply knowledge as required by the specific needs of their project. Problems range from creating narrative film ideas, selecting animation styles in keeping with storyline, creating animatics and resolving sync-sound issues related to a character's mouth movements. Students further enhance their skills in archival research and character development. Use of animation strategies and technologies developed in other animation units are applied in this unit. An important challenge for the project in this unit is to produce a narrative for an occurrence or event for which there is no visual moving image record.

*Note: Commencing 2019*

### Assessment

- Assessment 1 – In class exercises – 20%
- Assessment 2 – Storyboard and Animatic – 30%
- Assessment 3 – Animation Project – 50%

## ACF208 – Cinematography

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: John Cumming*

*Cohort rule: Student must be enrolled in A351 Bachelor of Film, Television and Animation*

*Prerequisite: ACF103 and ACF106*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour*

*Seminar per week.*

*In-person attendance requirements: Students must attend and participate in project-based activities at Burwood Campus on the scheduled days during the trimester, commencing in week 1.*

### Content

In this specialist film production unit, students will acquire knowledge and skill in the aesthetic practices and technical processes associated with high-level digital cinematography and in the operation of professional cinema-quality digital camera and lighting equipment.

Acting as a Cinematographer/Director of Photography during in-class exercises and out-of-class assignment work, each student will learn to interpret scripted narrative scenes and design shot sequences for studio and location settings. They will exercise leadership by directing classmate-assistants and solve problems as they use available light and cine lights, decide upon camera angle, lens choice and camera movement. By editing their shots, students will test and evaluate the effectiveness of their sequence design and shot composition and validate or revise the creative, technical and logistic decisions they have made.

By performing the roles of Assistant Camera, Gaffer and Grip for classmates, students will gain further teamwork experience and valuable entry-level professional skills.

### Assessment

- Folio of exercises (1200 words equivalent) – 30%
- Cinematographer's show reel and documentation (2000 word equivalent) – 50%
- Quizzes (800 words equivalent) – 20%

## ACF209 – Experimental Screens

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: John Cumming*

*Prerequisite: ACF103*

*Corequisite: Nil*

*Incompatible with: ACF301*

*Scheduled learning activities – campus: 1 x 2 hour*

*Seminar per week for 11 weeks*

### Content

This unit examines the global, historical and cultural context and practice of small-scale independent screen production for a range of contexts including cinema, small screens, inter-disciplinary performance-based (Theatre/Dance & Drama) or installation (Visual Arts, Photography). This is the kind of practice that students can continue when they graduate.

Students will be challenged in this unit by the unconventional processes, styles, forms and presentation methods of experimental film, video art and inter-disciplinary practice. Approaches will be introduced to enable a multi-layered, analytic and creative engagement between the individual, the media they are working with and listener-viewer-participants.

Students will undertake a research project on innovative screen-based practice and an individual, experimental production project. Through this practical creative work, students hone basic production skills in camerawork, sound recording, multi-track sound design and editing. Assessment tasks incorporate live and online presentation and sharing of formative peer feedback prior to submission.

*Note: Commencing 2019*

### Assessment

- Assessment 1 – Research report (1600 words) – 40%
- Assessment 2 – Production Project (2400 words) – 60%

## ACF210 – Postproduction

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Martin Potter*

*Prerequisite: ACF103 and ACF106*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour*

*Seminar per week*

### Content

This unit will introduce students to advanced techniques and process of post-production in film, television and animation. It will cover workflow planning and digital file management through the various stages of picture and sound editing to final output. The unit will also examine editing techniques and the creative possibilities of picture and sound editing.

*Note: Commencing 2019.*

*Student enrolment quotas apply to this unit. No further enrolments are available from 2 July for Trimester 2 2019 as quota has been reached.*

### Assessment

- Assessment 1 – Folio 1 (20% each exercise listed below) – 60%
  - Exercise A. Strict Continuity Cutting
  - Exercise B. Cutting Dialogue
  - Exercise C. The Ellipse Edit
- Assessment 2 – Folio 2 (20% each exercise listed below) – 40%
  - Exercise A. Working with and Animating Still Images
  - Exercise B. From Data to Grading

## ACF211 – Screen Careers

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Elizabeth Baulch*

*Prerequisite: Students must complete 2 units from ACF103, AMC100, ACF106, ACF107*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

### Content

This unit will cover the contemporary structures and arrangements of working in the film, television, animation and screen content industries. It will introduce students to the multiple roles within the business, financing, creative, production and distribution of content. Students will be challenged to consider where their place might be in these industries and investigate possible career paths.

### Assessment

- Assessment 1 – Research presentation (1600 words) – 40%
- Assessment 2 – Career plan (1600 words) – 40%
- Assessment 3 – Professional Pitch video recording – 20%

## ACF212 – Visual Effects and Motion Graphics

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Simeon Taylor*

*Prerequisite: ACF107 or ADD102*

*Corequisite: Nil*

*Incompatible with: AMC203*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

### Content

In this unit students investigate the intersections of live action and digital animation techniques through a range of concepts and practical approaches based on industry standards. Students develop hands-on experience in chroma-key (green-screen) studio principles, including techniques for lighting subjects, directing action, and compositing a range of digital media assets for a variety of creative outcomes. Students learn how to animate text for film titles and create visual effects for animation, game design, and live action film practices. The convergence of 2D, 3D and virtual image spaces with live-action content compels students to consider and explore the possibilities of a dynamic contemporary media ecology.

*Note: Commencing 2019*

### Assessment

- Folio 1: Motion Graphics (2000 words or equivalent) – 50%
- Folio 2: Visual Effects (2000 words or equivalent) – 50%

## ACF301 – Independent Production Practice

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: John Cumming*

*Previously: ACM318, ACM418*

*Cohort rule: Only available to students enrolled in an Arts or Arts combined course or M325*

*Prerequisite: ACF202*

*Corequisite: Nil*

*Incompatible with: ACF209*

*Scheduled learning activities – campus: 1 x 2 hour*

*Seminar per week*

### Content

This unit examines the global, historical and cultural context and practice of small-scale independent film production of the kind that students can engage in when they graduate.

Building on critical skills acquired by all students in AF104 Moving Pictures: Screening Film History, students will be challenged in this unit by the unconventional processes, styles, forms and presentation methods of experimental film and video art. A set of approaches will be introduced to enable analytic research and creative practice.

Students will undertake directed research into an aspect of screen-based art and will develop a project proposal of their own. Each student will make an innovative short production. All students will hone basic production skills learnt in ACF103 Writing with the Camera and ACF202 Documentary Production Practice by doing their own camerawork, sound recording, multi-track sound design and editing.

Assessment tasks incorporate live and online presentation, and providing and synthesising peer feedback.

### Assessment

- Assessment 1 – Research Project and peer evaluation (1600 words plus reference list) – 40%
- Assessment 2 – Individual Production project – 60%

## ACF302 – Developing a Project: Ideas to Scripts

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Donna McRae*

*Prerequisite: ACF202*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour*

*Seminar per week*

### Content

The unit will begin with screenings and analysis of examples of short form narrative film. These examples will set some of the narrative, formal and stylistic criteria within which project proposals will be reviewed. Students will then be taken through a process of self-reflection and resource gathering to find then pitch story ideas. The refined idea will be scripted to create a short narrative film script of 5-8 minute duration.

### Assessment

- Assessment 1 – The Pitch (written synopsis of 400 words, based on verbal pitch given in class) (800 words equivalent) – 20%
- Assessment 2 – First Draft Script (5-8 minute script and 3 act structure) – 60%
- Assessment 3 – Detailed document outlining 2nd draft script outline and notes (800 words) – 20%

## ACF303 – Narrative Film and Television Project

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 2 Unit Chair: John Cumming*

*Cohort rule: Only available to students enrolled in A300 or A351*

*Prerequisite: Any two level 2 units from ACF202, ACF205, ACF212, ACF207.*

*Incompatible with: ACF307, ACF308*

*Scheduled learning activities – campus: 1 x 2 hour Class per week, 1 x 3 hour Seminar per week*

## Content

This capstone unit enables Film & Television students to apply their skill and knowledge to realising and managing major screen productions. Produced primarily in teams, projects may be short narrative films, short documentary films, experimental screen works, or television studio productions. Learning activities and assessment deadlines are determined by the project timeline and individual production responsibilities. Throughout the production students will be required to evaluate their working methods and project, to interpret and respond to feedback and to develop strategies to improve their work and working methods. Individual student portfolios will include production items created during pre-production, production and post-production including the necessary deliverables for public presentation of their work.

*Please note: A300 students will be required to complete their assessment tasks working with film equipment aligned with studies in their major and A351 students will work with different film equipment aligned with their course.*

## Assessment

- Assessment 1 (Group) – Major Project (3200 word equivalent) – 40%
- Individual Portfolio (3200 word equivalent) – 40%
- Team performance Evaluation (1600 word equivalent) – 20%

## ACF307 – Major Screen Project A – Development

*Enrolment modes: Not offered in 2019*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Donna McRae*

*Trimester 2 Unit Chair: Donna McRae*

*Cohort rule: Student must be enrolled in A351 Bachelor of Film, Television and Animation*

*Prerequisite: ACF211 and two level 2 ACF coded units*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour class, 1 x 1 hour screening, 1 x 3 hour seminar (weeks 1–6), 1 x 3 hour seminar (weeks 7–11).*

*In-person attendance requirements: Students must attend and participate in project-based activities at the Burwood campus on the scheduled days during the trimester, commencing in week 1.*

## Content

In this, the first of two capstone units, Film, Television and Animation students will develop projects aimed at selection for production in Major Screen Project B. Projects will usually be between 4 and 8 minutes in duration. They may be short fiction animation or live-action (drama), experimental or documentary films, web-series episodes or TV Studio productions in a format other than drama. This development work takes place with two assessment tasks. The first task is supported with screenings and close analysis of screen productions which will set some of the narrative, structural and stylistic criteria which students will use in the development of their own individual project ideas. Individual ideas will be developed and refined in student script/concept/animatic editing circles before being developed through to the first draft with development notes and look-book. The second assessment task will refine these ideas through 2nd draft as a script, a one-minute animation, a test TV pilot or a folio of project development work associated with a key creative production role.

*Note: Commencing 2020*

## Assessment

- Folio 1 – 50%
- Folio 2 – 50%

## ACF308 – Major Screen Project B – Production

*Enrolment modes:*

*2020: Trimester 2: Burwood (Melbourne)*

*2021: Trimester 1: Burwood (Melbourne), Trimester 2: Burwood (Melbourne)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: John Cumming*

*Trimester 2 Unit Chair: John Cumming*

*Prerequisite: ACF307*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class, 1 x 1 hour Screening, 1 x 3 hour Seminar (weeks 1–6), 1 x 3 hour Seminar (weeks 7–11).*

*In-person attendance requirements: Students must attend and participate in project-based activities at the Burwood campus on the scheduled days during the trimester, commencing in week 1.*

## Content

This is the second of two capstone specialist production units for Film, Television and Animation. It is an opportunity for students to specialise in one of the production roles that most interest them such as producing/production management, directing, production design/art direction, animation, cinematography, sound design and editing/post-production, or television studio, independent video, experimental or documentary production.

Students are encouraged to practice those developed skills they aim to practice in the industry on completion of their Degree. Projects made in this unit will usually be limited to productions developed and selected during the last trimester in which the unit Major Screen Project A was offered. These projects are tightly scheduled through pre-production, production and post-production to completion. Pre-production will be completed in the first weeks of this unit.

*Note: Commencing 2020*

## Assessment

- Production Role Folio (4800 words or equivalent) – 60%
- Production Role – Completed Project (1600 words or equivalent) – 20%
- Completed Project (1600 words or equivalent) – 20%

## ACF320 – The Australian Moving Image

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Victoria Duckett*

*Previously: AAM219/AAM319*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Class per week, 1 x 1 hour Seminar per week*

## Content

This unit is an exploration of Australian cinema with a particular focus on the dynamic relationship between screen culture and the changing patterns of Australian community, identity, and the fabric of everyday life. The unit especially considers how competing ideas of national identity are negotiated through the diverse practices and activities of Australian screen culture. In addition to engaging with these processes of contemporary Australian cinema, students will also look at filmmaking methods and techniques through chosen films.

*Note: Offered Cloud (online) from 2020*

## Assessment

- Assessment 1 – Seminar Presentation (2000 word equivalent) – 50%
- Assessment 2 – Written Essay (2000 words), OR Audio-Visual Essay (4–5 minutes, 2000 words equivalent) – 50%

## ACF700 – Writing with the Camera

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne)*

*Trimester 2: Burwood (Melbourne)*

*Trimester 3: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Elizabeth Baulch*

*Trimester 2 Unit Chair: Elizabeth Baulch*

*Trimester 3 Unit Chair: Elizabeth Baulch*

*Previously: ACM112/ACM712*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Trimester 1: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

*Trimester 2: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

*Trimester 3: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

*In-person attendance requirements: Students must attend and participate in project-based activities at the Burwood campus on the scheduled days during the trimester, commencing in week 1.*

## Content

This unit is an introduction to the foundations of film and video practice and aims to equip students with the necessary technical skills to undertake further production units. It explores the technology of high definition video cameras and non-linear digital editing software. It is a practical unit that requires attendance to participate in the assessment activities; a series of camera, audio and editing exercises that will contribute to the development of industry standard production skills.

Topics include:

- digital video camera operation and handling
- industry standard framing, composition and visual language
- basic lens theory
- recording and working with audio in digital video
- non-linear editing and data management
- constructing sequences: overlay and continuity

## Assessment

- Assessment 1 – Topic Tests – 20%
- Assessment 2 – Folio 1 – 30%
- Assessment 3 – Folio 2 – 50%

## ACF701 – Television Studio Production

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne)*

*Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Elizabeth Baulch*

*Trimester 2 Unit Chair: Elizabeth Baulch*

*Previously: ACM237/ACM711*

*Prerequisite: ACF700 or ACM712*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour*

*Seminar per week*

*In-person attendance requirements: Students must attend and participate in project-based activities at the Burwood campus on the scheduled days during the trimester, commencing in week 1.*

## Content

This unit enables students to develop an understanding of the principles and practices of television studio production through practice. By examining the context and evolution of historical and contemporary production practices, students will develop understandings of the formats and creative possibilities associated with studio production genres. Exercises and projects replicate real world productions and challenges in an industry level broadcast studio. Multi-camera studio production requires teamwork and collaboration with the emphasis placed on the development of pre-production planning, production management and studio production skills. This is a practical unit that requires attendance to participate in the assessment activities.

## Assessment

- Critical Evaluations (1500 words or equivalent) – 30%
- Minor Project (1250 words equivalent) – 25%
- Major Project (2250 words or equivalent) – 45%

## ACF702 – Television Commercial Production

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: John Cumming*

*Previously: ACM717*

*Prerequisite: ACF700 or ACM712*

*Corequisite: ALR733*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour*

*Seminar per week*

## Content

The television commercial (TVC) is a significant screen industry activity that is used to promote products, services ideas and brand identities. TVC producers draw upon ideas and techniques from all genres of film and television making and often seek to turn social values and trends to the benefit of their corporate clients. The unit aims to provide students with experience of design and production in this short format, within the discipline of client briefs and tight schedules. The practical skills and knowledge gained should enhance student's capacity to critically analyse television advertising and better understand its social, political and cultural function. Students will gain experience in pitching ideas and sharing research through individual and/or team presentations.

Topics to be addressed in this unit include:

- The TVC form and its sub-genres including social advocacy and community service announcements
- The structure of the television advertising industry, its client base, professions and creative teams
- Techniques of propaganda and persuasion in the short form
- The design and creation of multi-layer messages and meaning in audio-visual media
- Creating, and working creatively to, a tightly specified, research-based brief
- Writing, producing and directing short format film and video to a budget and a time-line
- The production process: development, pre-production, production, post production and delivery

## Assessment

- Tests on prescribed reading – 20%
- Research essay on an aspect of television commercial production (1500 words plus reference list) – 30%
- Assessment 3 (Group) – Major team TVC project. Team presentation of a folio of three versions of a television commercial of 15, 30 and 60 seconds duration. Assessment includes scheduled presentation of a concept pitch, script, storyboard, rough-cut, fine-cut and final-cut, peer evaluation, individual performance of one key production role and one supporting production role – 50%

## ACF703 – Fractured TV: Audiences, Formats, Technology and Regulation

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Toija Cinque*

*Previously: ACM714*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour*

*Seminar per week*

## Content

This unit examines key drivers influencing television and its role in the media landscape. Through the lens of technology and technological determinism, regulatory systems, audience behaviour, trans-media and the rise of global TV formats, students will understand how television is changing and the implications for television program forms and production.

## Assessment

- Assessment 1 – Report (1000 words) – 20%
- Assessment 2 – Online discussion (equivalent 1000 words) – 20%
- Assessment 3 – Case study (3000 words) – 60%

## ACF704 – Talking Heads: Personality and Persona On Screen

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Vikrant Kishore*

*Previously: ACM715*

*Prerequisite: ACF701*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour*

*Seminar in weeks 1–4, 6–10, Plus 1 x 2 hour Seminar in weeks 5 & 11*

## Content

Talking heads are a major feature of television and online content, across all forms and formats of programs. This Unit will examine the skills and techniques of talking to a camera. Topics covered will include: Interview preparation and research, the live studio interview: interviewing in the field, preparing scripts and reading auto cues, spontaneous presentations to camera, panel anchoring, and presentation style and performance.

The Unit is relevant to those who want to be in front of the camera or behind the camera.

## Assessment

- Sample of recorded interviews and interview preparation work from exercises (2500 words or equivalent) – 50%
- Sample of anchoring and presentations and preparation and planning documentation drawn from exercise work (2500 words or equivalent) – 50%

## ACF705 – Documentary Production Practice

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Vikrant Kishore*

*Previously: ACM718*

*Prerequisite: ACF700*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour*

*Seminar per week*

### Content

In this unit students will undertake the production of a documentary either initiated by them or offered by external organisations. This production will be undertaken in teams using appropriate strategies for collaboration in creative teams. This process will include the development of a proposal encompassing an exploration of the sources of documentary ideas, individual perspectives, the relationship between themes and social institutions and balancing the needs of sponsors and audiences. Treatments will be developed through several drafts that respond to feedback and critique. Students will then plan, schedule and shoot their productions. The post-production process will involve regular critical screenings through which students will explore the formal and structural demands of documentary story-telling.

### Assessment

- Project Pitch (1500 words or equivalent – written and oral presentation) – 30%
- Assessment 2 (Group) – Proposal and Treatment (1500 words or equivalent) – 30%
- Assessment 3 (Group) – Documentary Production (2000 words or equivalent) – 40%

## ACG103 – Design Skills

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waterfront (Geelong)*

*Trimester 3: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Joel Zika*

*Trimester 3 Unit Chair: Joel Zika*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Trimester 1:*

*1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

*In-person attendance requirements: Trimester 3:*

*Intensives – 3 x 1 hour Class & 3 x 2 hour Seminar in weeks 3–5, 2 x 1 hour Class and 2 x 2 hour Seminar in week 6.*

### Content

This unit introduces students to the digital tools necessary for visual communication design through a combination of practical skills and theory exploring the design elements and principles. Students will be introduced to the Adobe imaging suite. Consideration will be given to the theoretical concepts and implications of digital technology as they relate to art and design processes. Techniques include digital mark making, graphic illustration, design elements and principles, creative thinking and layout explored through practical projects.

### Assessment

- Design Project – 30%
- Research Project – 30%
- Design Project – 40%

## ACG304 – Design and Collaboration

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 2 Unit Chair: Maria Bates*

*Prerequisite: ACG207 and one of ACG204, ACG208*

*Corequisite: Nil*

*Incompatible with: ADD301*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

### Content

Collaboration ensures design is not simply seen as a service industry but clearly defines the role of a designer as integral to project success. Students form collaborations with clients, their audience and each other to resolve complex creative projects from conception to completion. This unit will provide the opportunity for Visual Communication Design students to work in a studio setting and to connect with industry and commercial partners through real-world projects to solve real-world problems. Students will get the opportunity to exhibit their work in a public environment at the completion of the unit.

### Assessment

- Assessment 1 – Project Concept and Strategy – 40%
- Assessment 2 – Visual Design Campaign – 40%
- Assessment 3 – Exhibition and Public Display – 20%

## ACG305 – Design Practice

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Tonya Meyrick*

*Prerequisite: ACG207 and one of ACG204, ACG208*

*Corequisite: Nil*

*Incompatible with: ADD302*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

### Content

This unit will consider the broader applications of graphic design and visual communication in a multi-faceted contemporary environment. Students will be provided with a range of design problems and briefs from a variety of arenas such as typography, identity, branding and publication and will be required to choose four to complete. The choice of briefs will allow students to develop their folio with demonstrated skills in selected areas of focus. In an interdisciplinary context, students will investigate the consideration and implications of the cultural appropriation of technologies and design applications. Students will experiment and develop outcomes and solutions that include but are not limited to installation, projection, experiential, spatial, time-based and site-specific work. Students will research designers and artists who work within an interdisciplinary context on both a local and international stage, developing an alternative methodology that creates unique models of production. Students will test and apply their methodology, enabling them to produce work that engages the community, recipients and market on an innovative and interesting level.

### Assessment

- Assessment 1 – Research and Design – 50%
- Assessment 2 – Research and Design – 50%

## ACG307 – Global Design Strategies

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Meghan Kelly*

*Prerequisite: ACG207 and one of ACG204, ACG208*

*Corequisite: Nil*

*Incompatible with: ADD303*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

### Content

This unit will focus on a global perspective to visual communication design. Students will be introduced to more conceptual considerations of graphic design by exploring design in this broader context. Discussions will include the impact of stakeholders and the recipient in relation to the communication process, as well as the social and ethical responsibilities of designers to understand the impact of their design solutions. Students will be expected to conduct independent research to create individualistic design solutions for a cultural organization in a country or culture other than their own. Students will be required to position their submissions with a detailed understanding of the cultural significance of their work, supported by detailed research to defend their design decisions.

### Assessment

- Research Proposal (800 words or equivalent) – 20%
- Design Project (1600 words or equivalent) – 40%
- Design Project (1600 words or equivalent) – 40%

## ACG308 – Screen & Design Industry Project

*Enrolment modes: Trimester 3: Industry led professional project*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Maria Bates*

*Prerequisite: Student completed 8 units of credit, at time of application and permission from the unit chair to enrol. Please note that industry led professional project units may not run each year. Enrolment is always subject to a selection process and approval by the Unit Chair as places are limited. Therefore students should always identify another unit as an alternative to a study tour unit when planning their course or major.*

*Corequisite: Nil*

*Incompatible with: Nil*

*In-person attendance requirements: Students will on average spend 96 hours (16 days of structured activity x 6 hours p/day approx.) over the duration of the industry led professional project unit on group related and individual activities and assignment-related tasks, followed by independently directed assessment activity during the remaining weeks of the trimester (between 40–55 hours approximately)*

### Content

The Screen & Design Industry Project engages students with new ideas and approaches to creative screen & design practice in and beyond their discipline knowledge, through the experience of encountering and critiquing traditions that inform contemporary professional practice.

The program structure and delivery gives students experience working with and being led by industry professionals on creative projects that address real-world problems within a cross-cultural perspective.

The program is designed to provide students the unique challenge of unfamiliar and/or different creative thinking and practical methods. It offers the opportunity to relate such thinking and methods to cultural specificity and its traditions and practices other than their own.

The project process will follow a design thinking methodology. However, ideation and creative outcomes should incorporate multi-disciplinary knowledge and skills, ensuring a broad range of students are able to link learning outcomes to their specific discipline across Screen and Design practices. The professionals involved in guiding the students are from a variety of creative backgrounds and bring extensive experience and knowledge to the project and its process. Project responses should engage audiences through storytelling and motion, using a variety of technology to solve the assigned design problem.

### Assessment

- Assessment 1 – Field Research Project – 20%
- Assessment 2 – Project Proposal: Presentation with support doc – 40%
- Assessment 3 – Creative Project: Creative exhibition – 40%

## ACG702 – Digital Publishing

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Tonya Meyrick*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1-hour class per week, 1 x 2-hour seminar per week*

*Scheduled learning activities – cloud (online):*

*Cloud(online): Online independent learning activities including: 1 x 1-hour class per week*

### Content

This unit will begin by exploring and understanding typography and how it applies to Visual Communication Design. Students will develop and explore techniques to apply and manipulate design from hand to digital format. Focus will be on use of the design elements and principles, grids, forms and structures, the anatomy of typefaces, font families, font designers and typeface design. Considerations will include the applications and implications of selecting and applying typography to a variety of design solutions using both hand rendered craft techniques and digital methods.

### Assessment

- Research Project (1500 words or equivalent) – 30%
- Design Project (1500 words or equivalent) – 30%
- Research Brief (2000 words or equivalent) – 40%

## ACG703 – Design and Digital Skills

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Maria Bates*

*Trimester 3 Unit Chair: Tonya Meyrick*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials.*

### Content

This unit will begin with exploring and understanding the creative process and how it applies to Visual Communication Design. Students will develop techniques to apply and manipulate design from hand to digital format. Focus will be on the design elements and principles, developing skills in vector based image making, digital symbols and patterns and creative thinking techniques while working with the Adobe publishing suite.

### Assessment

- Assessment 1 – Design Project – 30%
- Assessment 2 – Research Project – 30%
- Assessment 3 – Design Project – 40%

## ACG706 – Designing for Web Environments

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Maria Bates*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials.*

### Content

This unit explores the theory and practices of designing for interactivity and the web. Students will critique and design strategic, interactive and energetic solutions that carefully consider site, audience, navigation and engagement. Central to this understanding is the transition from traditional forms of publishing to innovative and contemporary methods of practice.

### Assessment

- Assessment 1 – Research Project – 30%
- Assessment 2 – Design Project – 30%
- Assessment 3 – Design Project – 40%

## ACG708 – Design Thinking and Problem Solving

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Russell Kennedy*

*Trimester 3 Unit Chair: Joel Zika*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Trimester 1:  
1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online):  
Trimester 3: Online independent and collaborative  
learning activities including weekly engagement with  
materials.*

### Content

This unit will investigate 'design thinking' as a strategic methodology and problem solving process. Taking a multidiscipline/interdisciplinary approach, students will be required to use 'design thinking' as a problem solving process, which taps into processes that have been traditionally overlooked in favour of more conventional problem solving practices. 'Design thinking' also allows people who are not trained as designers to use creative tools to address a vast range of challenges. 'Design thinking' methods will require students to adopt a human-centered approach to innovation that draws on their skills to integrate the needs of people, the possibilities of technology, and the requirements of business and society as a whole. Students will be placed in teams, the final assessments will a combination of presentation or pitch and exhibition format. Students will use 'Design Thinking' methods in an attempt to solve a 'wicked problem'.

### Assessment

- Assessment 1 – Research Project (1500 word equivalent) – 30%
- Assessment 2 – Project Proposal (1000 word equivalent) – 20%
- Assessment 3 – Project (2500 words equivalent) – 50%

## ACG709 – Strategic Branding and Design

*Enrolment modes: Trimester 2: Burwood (Melbourne),  
Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Maria Kneebone-Bates*

*Prerequisite: ACG702 and/or ACG703*

*Corequisite: Nil*

*Incompatible with: ACG208, ACG307*

*Scheduled learning activities – campus: 1 x 2 hour  
Seminar per week*

*Scheduled learning activities – cloud (online): Online  
independent and collaborative learning activities  
including weekly engagement with materials.*

### Content

This unit will investigate branding beyond the logo and slogan. Taking a multidiscipline approach to branding, students will be required to launch, rebuild or reinvigorate a brand. After informing direction through research of theories and practice, exploring existing brand strategies and innovative concepts, students will be placed in teams to construct and, where possible, implement a branding strategy. The final assessments will a combination of presentation or pitch and exhibition format. Of significance, this project will be required to base the brand strategy on addressing the five senses; sight, sound, taste, touch and smell.

### Assessment

- Assessment 1 – Research Project (1500 word equivalent) – 30%
- Assessment 2 – Project Proposal (1000 word equivalent) – 20%
- Assessment 3 – Project (2500 words equivalent) – 50%

## ACI101 – Analogue Photography

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne)*

*Trimester 2: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Danica Chappell*

*Trimester 2 Unit Chair: Danica Chappell*

*Previously: ACM101 Still Images*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

### Content

This unit provides students with an introduction to photographic practice and camera handling techniques using 35mm format. Students will study the work of Australian and international photographers with consideration to both historical and contemporary practice. The prescribed assignments will allow students to reflect the skills, concepts and ideas discussed in classes, seminars, gallery visits and readings, as well as providing the opportunity for students to develop and express their own views and concepts.

Students enrolled in this unit are advised to obtain their own manual 35mm camera with the following specifications:

- Manual controls (you must be able to change the aperture and shutter speed)
- Built in light meter
- Standard lens (approx. 50mm)
- Hot shoe or synch point for flash unit

A number of cameras are available for a limited short term loan from the School of Communication and Creative Arts.

### Assessment

- Assessment 1 – Camera Handling – 20%
- Assessment 2 – The Formal Vision – 30%
- Assessment 3 – Thematic Series – 50%

## ACI102 – Digital Photography

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waterfront (Geelong)*

*Trimester 3: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Ross Coulter*

*Trimester 3 Unit Chair: Patrick Pound*

*Previously: ACM102*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Trimester 1: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

*Trimester 3: 1 x 4 hour Seminar per week for 6 weeks*

### Content

This unit introduces ideas and processes associated with digital photography.

The construction and manipulation of photographic images is creatively and critically explored through a variety of conceptual frameworks. Workflow techniques include the fundamentals of using Digital Single Lens Reflex (DSLR) cameras, color management, RAW image processing, scanning, photo compositing in Photoshop, and the production of exhibition quality prints. Assignments and lectures provide students with an overview the medium's history and contemporary issues.

*Note: Student enrolment quotas apply to this unit*

### Assessment

- Assessment 1 – Photographic Strategies (2400 words or equivalent) – 60%
- Assessment 2 – Montage (1600 words or equivalent) – 40%

## ACI201 – Alternative Imaging

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waterfront (Geelong), \*CBD*

*Note: \*CBD refers to Institute of Koorie Education; Community Based Delivery*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Danica Chappell*

*Previously: ACM207*

*Cohort rule: Must be enrolled in an Arts or Arts combined course*

*Prerequisite: ACI102 and ACI101*

*Corequisite: ACI203*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

### Content

This unit extends the knowledge and learning achieved in ACI102 (formerly ACM102) and ACI101 (formerly ACM101) and compliments the skills acquired in ACI203 (formerly ACM203) by introducing a range of alternative formats and processes as well as hybrid approaches between digital and analogue imaging technologies.

Students will undertake a number of exploratory creative productions from the unit topics which includes large format analogue cameras, instant materials, primitive imaging – pinhole, toy and non-camera, analogue colour systems, stereo and panoramic imaging, etc. Students will also undertake a research paper and presentation which addresses the unit themes.

### Assessment

- Assessment 1 – Production assignment #1 – 35%
- Assessment 2 – Production assignment #2 – 35%
- Assessment 3 – Research paper and presentation (1200 words) – 30%

## ACI202 – Digital Imaging 2: Advanced

*Enrolment modes:*

*Trimester 2: Burwood (Melbourne), Waterfront (Geelong)*

*Trimester 3: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Ross Coulter*

*Trimester 3 Unit Chair: Patrick Pound*

*Previously: ACM202*

*Prerequisite: ACI102*

*Corequisite: Nil*

*Incompatible with: Nil*

*In-person attendance requirements:*

*Trimester 2: 11 Week Program – 1 x 1 hour Class per week, 1 x 2 hour Seminar per week.*

*Trimester 3: (Intensive) – 2 x 1 hour Class per week and 2 x 2 hour Seminar (weeks 1–5), 1 x 1 hour Class per week 1 x 2 hour Seminar (week 6).*

### Content

This unit will examine what is 'behind the screen'; the history, contemporary use, techniques and constructs of the digitally mediated image in a convergent new media context. Advanced camera craft and options for RAW file capture will be introduced enabling sophisticated image processing and fine printing techniques. Students will conduct some activities through the construction of an online identity in experiments with the uncanny and with representation. Ethical, social and political implications of digital imaging will be examined.

*Note: This unit is subject to demand and laboratory space available*

### Assessment

- Inside Out (600 words or equivalent) – 15%
- About Face (1200 words or equivalent) – 30%
- Identity Online (2200 words or equivalent) – 55%

## ACI203 – Darkroom Practices

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waterfront (Geelong)*

*Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Ross Coulter*

*Trimester 2 Unit Chair: Sean Loughrey*

*Previously: ACM203*

*Cohort rule: Must be enrolled in an Arts or Arts combined course*

*Prerequisite: ACI101*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour*

*Seminar per week*

### Content

Students are introduced to medium format cameras, hand held exposure meters, black and white processing and printing. Topics include advanced exposure and image sequencing. Media output includes silver-based and digital. Emphasis is placed equally on technical refinement coupled with conceptual and editing skills. Students will also be shown approaches for researching and presenting a seminar paper on a significant photographic practitioner.

*Note: Student enrolment quotas apply to this unit*

### Assessment

- Assessment 1 – Formalism and Field work (1200 words or equivalent) – 30%
- Assessment 2 – Research Presentation and Essay (800 words or equivalent) – 20%
- Assessment 3 – Folio (2000 words or equivalent) – 50%

## ACI204 – Contemporary Documentary and Narrative Photography

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waterfront (Geelong), \*CBD*

*Note: \*CBD refers to Institute of Koorie Education; Community Based Delivery*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Torika Bolatagici*

*Previously: ACM204*

*Cohort rule: Must be enrolled in an Arts or Arts combined course*

*Prerequisite: ACI102*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Cloud Class per week, 1 x 2 hour Seminar per week*

### Content

This unit focuses on photographic narrative and visual storytelling in the context of contemporary art practice, photobooks and social documentary. Students undertake a number of individual exercises working towards the development of a group documentary project. Students will also present a research paper reflecting issues and ideas discussed in classes and seminars. Working methods and equipment choice will be dictated by the project and students may choose from a range of camera formats. Emphasis is placed on exploring the role of documentary photography in contemporary culture, the social, ethical and legal considerations of documentary photography as well as presentation technique, seriality, materiality and installation. Critique sessions will be held regularly to discuss work in progress and offer feedback to students.

### Assessment

- Photo Essay (1200 word equivalent) – 30%
- Research Presentation (800 word equivalent) – 20%
- Assessment 3 (Group) – Documentary photo essay (2000 word equivalent) – 50%

## ACI205 – Photographic Lighting 1: Natural and Artificial Lighting

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Sean Loughrey*

*Previously: ACM205 Lighting Design 1: Natural and Artificial Lighting*

*Prerequisite: ACI101 and ACI102*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

### Content

ACI205 introduces students to the fundamentals of natural and artificial lighting. Through series class presentations, demonstrations and practical exercises students will gain the knowledge and skills required to creatively utilise the material of light within the photographic image.

The unit also include an introduction to evaluating and working with ambient natural and artificial lighting, including: small strobe flash, portable studio style flash, light painting and various experimental approaches, low light photography and mixed (natural and artificial) lighting. Technical exercises cover advanced meter reading and colour referencing, basic light shaping, direction control and quality of light.

A variety of genres are explored including standard portraiture and film noir, landscape and urban photography. The history and theory of lighting in relation to significant practitioners will be considered in relation to the creative practice assignments.

### Assessment

- Assessment 1 – Ambient natural lighting project – 20%
- Assessment 2 – Genre lighting design project – 30%
- Assessment 3 – Lighting skills folio – 50%

## ACI301 – Experimental Photography and Creative Practice

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Patrick Pound*

*Previously: ACM328*

*Cohort rule: Must be enrolled in an Arts or Arts combined course*

*Prerequisite: ACI201 or ACM207*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

### Content

Photography was born through the unification of art and science. It has a rich history of experimentation, serendipity, subversive and synthetic approaches to the medium and its content.

This unit encourages students to reflect upon the process of experimentation within creative practice and its implications with respect to aesthetics, style and content. Avant-garde and experimental photography and the convergence of photography (both analogue and digital) with other mediums such as painting, sculpture, installation and sound will be investigated in both a historical and contemporary international and Australian context.

Students will undertake an in depth experimental investigation during the production of a substantial creative work.

Topics in this unit include: the history of avant-garde and experimental photography; the convergence of photography and other mediums in both a historical and contemporary context; review in Australian and international contemporary experimental photographic practice; the desire for the cutting edge: experimental art and the individual practitioners desire for originality and style in a Modern and Post-Modern context.

### Assessment

- Assessment 1 – Preliminary project – 20%
- Assessment 2 – Research paper (1000 words) – 20%
- Assessment 3 – Major project 1: 1 tutorial, 10–15 images and 500 words – 60%

## ACI302 – Photographic Lighting 2: Studio Lighting

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Anne Wilson*

*Previously: ACM335*

*Cohort rule: Must be enrolled in an Arts or Arts combined course*

*Prerequisite: ACI205 plus one other unit from one of ACI201, ACI202, ACI203, ACI204*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

### Content

In this unit students are shown how the Photographic Studio is a constructed and stylised space separate from the external found world. The studio offers a potential for synthetic visualization plus an element of experiential and professional practice not found in other units. From its origins of portrait painting, through the post-war period of creative advertising and arriving in the contemporary tableau and psycho-dramatic style, studio photography is a technical and artistic discipline for students with professional and creative aspirations.

Topics in this unit include:

- The conventions of the portrait: formal, informal, experimental, and nude
- Lighting set-ups
- Lens and camera choice
- Still-life and table-top techniques
- Tableau and constructed space
- The found studio
- Genre recreation

### Assessment

- Assessment 1 – Lighting Workshop – 20%
- Assessment 2 – Genre recreation and Research Paper – 30%
- Assessment 3 – Major Production Assignment – 50%

## ACI303 – New Worlds: Intersections of Art and Science

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Danica Chappell*

*Previously: ACC308*

*Cohort rule: Must be enrolled in an Arts or Arts combined course*

*Prerequisite: Any 4 units from ACI201, ACI202, ACI203, ACI204, ACI205*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

### Content

In this unit art and science are brought together to make New Worlds. The emphasis is on lens-based technology as both scientific instrument and artistic medium. The course will examine the methodologies that construct the worldviews of science and art, and means by which scientific methods can be used for artistic purpose and vice-versa. Pseudo-science, scientific hoaxes, and science fiction and its mythologies are also subject to investigation and creation. Lectures will present examples of artists exploring science and scientists who use or investigate art or discover aesthetic means of visualising data. Photography exists only because of scientific and artistic interest in recording the phenomena of light. Learning the history of its development will provide understandings that can be put to work in the studio practice, and workshops will lead students in technical experimentation. Learning will equip students to make basic scientific documentation by means including microscopy, astro-photography, forensic imaging, as well as to critically analyse scientific claims and visual data. Assignment and folio outcomes are expected to be both artistic and scientific. Collaboration and teamwork will facilitate discovery.

### Assessment

- Assessment 1 – Time and Space: micro/macro – 20%
- Assessment 2 – ArtLab: creative production and 1:1 tutorial – 60%
- Assessment 3 – ArtLab: report (800 words) – 20%

## ACI304 – Folio and Professional Practice

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 2 Unit Chair: Torika Bolatagici*

*Previously: ACM334*

*Prerequisite: Any 4 units from ACI201, ACI202, ACI203, ACI204, ACI205*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

### Content

Students will explore a range of solutions for the development and presentation of a portfolio of their work. These will include print, book formats, virtual portfolios, CV and ancillary support material. Other issues explored will include the development of an artist statement, curatorial and thematic groupings, sequencing and seriality, editing, marketing and promotion, identifying target audiences, working with galleries and curators, image banks and archives, self-promotion and defining the creative self as distinct. This unit will also consider various pathways to employment and professional practice including commercial and fine arts industries, working as a solo creative practitioner, studio and artist-run spaces and cooperatives, community arts and funding bodies, national and global opportunities, competitions and professional associations.

Students will prepare a major portfolio and other promotional material for a professional public presentation event in which various representatives from photographic industries friends and relatives will be invited to attend.

### Assessment

- Assessment 1 – Career Pathways Research (1600 words equivalent) – 20%
- Assessment 2 – Extending the vision: creative series project (1600 words equivalent) – 20%
- Assessment 3 – Professional Practice Exposition (4800 words equivalent) – 60%

## ACI700 – Introduction to Digital Photography

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Anne Wilson*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities 1 x 3 hour Seminar per week equivalent*

### Content

This unit examines the photo-based image as a cultural, social and technical artefact. It examines representation in the digital and analogue realms. Production techniques include digital photography – both referent-based and non-referent-based subjects, digital montage, conceptualisation, conceptual approaches and virtual realities. Production activities are designed to develop visual and digital literacy and photo compositing software skills with an emphasis on high quality output and presentation for screen and print.

This unit encourages the development of a range of skills including:

- basic digital photography
- image retouching
- colour correction
- use of layers and masks
- scanning reflective and transmissive materials
- technical and creative photo-compositing
- preparing images for screen-based viewing and print
- conceptual and creative photography
- typography and the relationship between text and image
- critical and intellectual analysis

### Assessment

- Assessment 1 – Composition, capture and interpret – 30%
- Assessment 2 – Montage – 30%
- Assessment 3 – Conceptual Strategies – 40%

## ACO410 – Communication Research Methods

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Cloud (online)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Deirdre Quinn-Allan*

*Trimester 2 Unit Chair: Deirdre Quinn-Allan*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALR732*

*Scheduled learning activities – campus: Trimester 1:  
1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online Independent and Collaborative learning activities x 2 hours per week. This will include a range of activities including seminar recordings and synchronous and asynchronous participation in online classroom activities*

### Content

This unit is designed for students who will undertake research in Communication disciplines such as Advertising, Digital Media, Journalism, Media Production/Design, Public Relations and Media Studies.

Students engage with theoretical frameworks to inform research design, ethics, sampling, measurement, data collection, analysis, and interpretation of results.

Students will be introduced to common research methods such as surveys, depth interviews, content analysis, and textual analysis. These are selected as typical methods commonly used for exploratory and descriptive research in communication and allied media industries.

With a focus on all stages of the research process students will be able to develop and present a research proposal for a quantitative and/or qualitative research project intended to inform policy, decision making and professional practices related to communication disciplines.

### Assessment

- Research and Writing Exercise (2400 words or equivalent) – 30%
- Research Methods Exercise (2400 words or equivalent) – 30%
- Research Proposal (3200 words or equivalent) – 40%

## ACO411 – Communication Concepts

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Deirdre Quinn-Allan*

*Trimester 3 Unit Chair: Deirdre Quinn-Allan*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Trimester 1:  
1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online Independent and Collaborative learning activities x 2 hours per week. This will include a range of activities including seminar recordings and synchronous and asynchronous participation in online classroom activities.*

### Content

This unit provides a comprehensive introduction to the study of communication by examining its various definitions, approaches and application to communication practices in advertising, journalism, public relations and media production. Students will engage with methods of critical and interpretive analysis and research related to communication texts, technologies, audiences and the historical, social, economic and political contexts within which they function from the perspectives of power, ideology, post structuralism, and representations of class, culture, gender, race and ethnicity and other differences in the media and society. The unit will also address issues that shape and influence technological adoption, policy-making, legislation and the practical, ethical and legal implications of new communication technologies, media ownership patterns and convergence.

### Assessment

- Close reading and analysis (1600 words or equivalent) – 20%
- Progress report and annotated bibliography (3200 words or equivalent) – 40%
- Literature Review (3200 words or equivalent) – 40%

## ACO412 – Advanced Communication Research A

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Deirdre Quinn-Allan*

*Trimester 2 Unit Chair: Deirdre Quinn-Allan*

*Prerequisite: ACO410 and permission from the unit chair*

*Corequisite: Nil*

*Incompatible with: Nil*

### Content

This unit consists of the preparatory phase of the Honours research project, and is the first of the four research units. Full time students will generally undertake this unit at the same time as ACO413 and then complete ACO414 and ACO415 in the next trimester of study.

This unit will address the research project from the point of view of identifying a coherent research problem, rationale for the study (why it is an important area for study or investigation), its heuristic value (its potential impact on the discipline/society) and identify the suitable theoretical perspectives required to provide a context to the study. This process will involve a preliminary critical literature review to identify the main theories and covering laws applicable to the proposed study. This unit completes the first part of the Honours thesis with up to 4000 words drafted toward the final project.

### Assessment

First part of the Research Project Report of up to 4000 words.

## ACO413 – Advanced Communication Research B

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Deirdre Quinn-Allan*

*Trimester 2 Unit Chair: Deirdre Quinn-Allan*

*Prerequisite: Nil*

*Corequisite: ACO412*

*Incompatible with: Nil*

### Content

This unit will complete the second part of the Honours thesis/Research project with a document consisting of up to 4000 words. Specifically, this unit will see the completion of a literature review. Students will examine and critically review existing research on the chosen topic from the field of study. The methodology section of the project is also to be completed within this unit. The literature review and proposed methodology submitted to the allocated supervisor for review. Students will submit application for ethics clearance (if applicable) within this unit in preparation for their data collection and analysis in ACO414.

### Assessment

Complete Part 2 of the Research Project Report in 4000 words, consisting of the completed literature review and methodology sections.

## ACO414 – Advanced Communication Research C

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Deirdre Quinn-Allan*

*Trimester 2 Unit Chair: Deirdre Quinn-Allan*

*Trimester 3 Unit Chair: Deirdre Quinn-Allan*

*Prerequisite: ACO412. This unit is the third unit of the honours research project and enrolment in it cannot take place until a student has completed ACO412 Advanced Communication Research A and ACO413 Advanced Communication Research B unless all four research units are undertaken concurrently then a waiver may be sought.*

*Corequisite: Nil*

*Incompatible with: Nil*

### Content

Students enrolled in this unit continue their independent research project begun with ACO412 Advanced Communication Research A and ACO413 Advanced Communication Research B. In this unit students will collect their research data and undertake data analysis in accordance with approved processes and subject to any ethics approval. Students will apply data analysis techniques learned in ACO410 Communication Research Methods. The unit chair and allocated supervisor will advise the student in this respect as necessary.

This unit will complete the third part of the honours research project with a draft document of up to 4000 words comprising the data analysis, findings and discussion sections and will be submitted to the allocated supervisor for review.

### Assessment

Complete Part 3 of the Research Project of up to 4000 words, consisting of the draft preliminary data analysis, findings, discussions and alternative explanations to the findings.

## ACO415 – Advanced Communication Research D

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Deirdre Quinn-Allan*

*Trimester 2 Unit Chair: Deirdre Quinn-Allan*

*Trimester 3 Unit Chair: Deirdre Quinn-Allan*

*Prerequisite: Nil*

*Corequisite: ACO414*

*Incompatible with: Nil*

### Content

This unit will see the completion of the research project and its final written report: either a communication project combined with an exegesis (16,000 words); or a 16,000 word scholarly thesis. In consultation with their supervisor, each student will integrate feedback from previously completed sections of their research undertaken in units ACO412 Advanced Communication Research A, ACO413 Advanced Communication Research B and ACO414 Advanced Communication Research C and present for examination a report which identifies a coherent research problem, rationale for the study (why it is an important area for study or investigation), its heuristic value (its potential impact on the discipline/society) and identify the suitable theoretical perspectives required to provide a context to the study. The report will be based on original research involving theoretical, interpretative and analytical work.

### Assessment

Completion of the research project and its final written report which is ready for examination. The research project will either be a communication project combined with an exegesis (16,000 words), or a 16,000 word scholarly thesis.

## ACP103 – Foundations of Acting and Performance

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Kate Hunter*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ACP177*

*Scheduled learning activities – campus: 1 x 1 hour Class per week and 1 x 2 hour Seminar per week*

### Content

Through practical workshops students will develop the essential skills required for acting and performance at a foundation level with specific focus on presence, impulse, energy and imagination. Through the practical application and analysis of two core actor-training methods, particular focus will be placed on questions of the boundaries between self and character, truth and fiction, text and subtext, as well as outside-in versus inside-out methods of constructing a role. Students will explore techniques to prepare a performance to camera as well as live to stage.

### Assessment

- Research Essay (1600 words or equivalent) – 40%
- Performance Exercise 1 (1200 words or equivalent) – 30%
- Assessment 3 (Group and Individual) – Performance Exercise 2 (1200 words or equivalent) – 30%

## ACP109 – Improvisation: Principles in Action

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne)*

*Trimester 3: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Kate Hunter*

*Trimester 3 Unit Chair: Shaun McLeod*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Trimester 1: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

*In-person attendance requirements: Trimester 3: Intensives over 5 days in Week 11*

### Content

This foundation unit provides grounding in improvisation practices. Languages and forms. Students will explore improvisation as creativity and learn a range of approaches to improvisation. A practical workshop-based unit with a strong individual emphasis, it makes demands on students to apply the technical information in a range of frames and to experience various phenomena that are physically and emotionally central in improvisation practices. Content will range from historical and contemporary improvisational forms, such as the archetype-based satire of the Commedia Dell'Arte (and its extended use in sub-genres of satire and farce), to contemporary applications such as theatre sports and stand-up comedy. Theoretical and historical perspectives will be explored through the working methods of notable practitioners in the field, including the relationship to genre, material conditions, cultures and historical contexts in which they were developed. The unit content is responsive and will include things like the development of personal concentration, the release of imagination, spontaneity and freedom, adaptation and flexibility, playfulness, mood, sensibility in non-verbal communication, role play and characterisation, and character-based play making, with attention to the difference between improvisation as performance and improvisation as part of performance-making processes such as the rehearsal of written play texts, filmed narratives etc.

### Assessment

- Assessment 1 – Workshop practice and Reflective Log (1600 words or equivalent) – 40%
- Assessment 2 – Online Presentation (1600 words equivalent) – 40%
- Assessment 3 – Improvised Performance (800 words or equivalent) – 20%

## ACP110 – Performance Laboratory

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Miles O'Neil*

*Cohort rule: Must be enrolled in A357*

*Prerequisite: ACP109*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 2 x 1.5 hour practical workshops*

### Content

This unit aims to address certain paradoxes that arise in the practice and theory of acting, particularly in the context of contemporary drama.

Through close analysis of the work of key practitioners, students will investigate paradoxical elements in live performance such as imitation (mimesis), reproduction, interpretation, spontaneity, presence and remediation.

### Assessment

- Assessment 1 – 2 x Performance exercise (3–5 minutes) – 50%
- Assessment 2 – Case Study (1200 words equivalent) – 30%
- Assessment 3 – Documentation and Reflection (800 words or equivalent) – 20%

## ACP205 – Performance, Image, Site

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Kate Hunter*

*Prerequisite: Students must complete one unit from ACP109, ACV101, ACI101, ACF103, ACP177, ACD101, ACM112, ACM101, ACG101*

*Corequisite: Nil*

*Incompatible with: ACP305*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

### Content

This unit focuses upon site based creative practices and offers 'real world' and dynamic practical outcomes for students. Students participate in a series of seminars and workshops regarding contemporary understandings of site and public space in the investigation and activation of their creative practices. Students explore a new politics of spectatorship and participation through an interdisciplinary investigation of immersive performance, live art, visual installation, promenade and spectacle performance, and public participation. Students will work intensively in project groups to creatively develop a major work in a chosen site gaining experience in project development and activation as well as the logistical considerations and OHS management of site based art and performance practices.

### Assessment

- Creative Development (1200 words or equivalent) – 30%
- Research Essay (1200 words or equivalent) – 30%
- Major Project Outcome and Supporting Documentation (1600 words or equivalent) – 40%

## ACP206 – Adaptation and Solo Performance

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Glenn D'Cruz*

*Prerequisite: Students must complete two level one units from A357, or A300*

*Corequisite: Nil*

*Incompatible with: ACP306*

*Scheduled learning activities – campus: 1 x 2 hour Class per week, 1 x 2 hour Seminar per week*

### Content

Through the close study of a selected dramatic text, students will apply methods of textual analysis, and processes for the realisation of text as performance. Structuralist and post-Structuralist reading strategies will be used to investigate issues of interpretation, adaption, authorial intent and directorial authority. Students will undertake a case study of an artist or company working in the field of contemporary cross-cultural performance. The continuum between performed self and constructed character will be analysed, drawing on contemporary performance practice in areas of mono drama and stand-up comedy.

## Assessment

- Assessment 1 (Group) – Practical performance exercise (800 words or equivalent) – 20%
- Case Study Analysis Report (1600 words or equivalent) – 40%
- Solo Performance project (1600 words or equivalent) – 40%

## ACP207 – Practical Approaches to Dramatic Text

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Glenn D'Cruz*

*Prerequisite: Students must have completed two level 1 units*

*Corequisite: Nil*

*Incompatible with: ACP101*

*Scheduled learning activities – campus: 1 x 1 hour Class per week and 1 x 2 hour Workshop per week*

## Content

This unit provides students with practical strategies for reading and rehearsing dramatic texts for performance. It explicates various approaches to textual analysis with a focus on the relationships between dramatic codes and conventions and their theatrical counterparts. More specifically, the unit will analyse the dramatic elements of plot, story, character, theme and language with reference to different modes of rehearsal and actor/director relationship with reference to systems of rehearsal developed by Stanislavski, Brecht, Grotowski as well as contemporary practitioners such as Robert LePage, Robert Wilson and Tadashi Suzuki. It will also examine the strengths and limitations of these systems for postdramatic and devised performance. Students will also engage with close readings of key realistic and non-realistic dramatic texts of the last 120 years (primarily from the Western tradition of dramatic literature), and participate in workshops exercises designed to develop practical approaches to researching and developing characters for performance. The unit will also focus on the roles of the director and dramaturg in contemporary performance.

## Assessment

- Assessment 1 – Class Presentation – 20%
- Assessment 2 – Research Paper (1300 words) – 30%
- Assessment 3 – Performance Project – 50%

## ACP208 – Theatre and Creative Technologies

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Misha Myers*

*Trimester 2 Unit Chair: Misha Myers*

*Trimester 3 Unit Chair: Misha Myers*

*Prerequisite: Must have completed two level 1 units*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour practical per week*

## Content

This unit explores the performance and production of theatre using new digital technologies to create media-rich performances and experiences or as new platforms and sites for theatrical action. Through practical workshops students will investigate the issues, challenges and skills of performing and creating content for theatrical events that involve a mix of live and recorded action, move between virtual and physical worlds and involve interaction between performers and audiences and performers and technology in situations including networked, online, virtual/augmented reality, immersive, mobile and located tools, devices and environments.

*Note: Commences 2021*

## Assessment

- Assessment 1 (Individual and Group) – Digital Performance Pitch (800 words equivalent) – 20%
- Assessment 2 (Individual and Group) – Digital Performance Playtest (1600 words equivalent) – 40%
- Assessment 3 (Individual and Group) – Digital Performance Prototype & Portfolio (1600 words equivalent) – 40%

## ACP210 – Performance Laboratory (B): Performance Composition

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Miles O'Neil*

*Prerequisite: ACP110*

*Corequisite: Nil*

*Incompatible with: ACP101*

*Scheduled learning activities – campus: 2 x 2 hour*

*Seminar per week*

### Content

This unit is an experimental, practical laboratory where students investigate fundamental aspects of dramaturgy and composition for live performance commencing with core principles of time, space and frame. Using industry relevant strategies in a dynamic, interactive environment, students interrogate methodologies of composition and develop a solid vocabulary for the creation of new work from conception and stimulus; research and development; contemporary practices of documentation, framing and editing, through to performance and reflection.

*Note: Commencing 2019*

### Assessment

- Assessment 1 – Major Performance Task – 40%
- Assessment 2 – Video Documentary of a dramaturgical process – 20%
- Assessment 3 – Industry map and critical analysis of two contemporary devised works (1600 words) – 40%

## ACP281 – Page to Stage: Major Performance Project

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Glenn D'Cruz*

*Prerequisite: ACP103*

*Corequisite: Nil*

*Incompatible with: ACP280*

*Scheduled learning activities – campus: 1 x 3 hour*

*Practical per week (Weeks 1–11).*

*The public performance outcome will be a single in-class matinee performance in week 11, and a single evening performance in week 11. A Technical rehearsal will occur in scheduled class time in week 10.*

### Content

Topics to be addressed in this unit include: the nature of dramatic language; play- structure and theatrical style; and the ways in which these elements work together to create dramatic meaning. Emphasis will be given to further development of individual performing skills and to enhancing students' understanding of dramaturgical processes and strategies. The unit production will be directed by a director with professional experience as a theatre director. Productions will not be longer than 45mins and will emphasise inventive production solutions within limited resource constraints and production values (minimal set, props, lighting and costumes) to promote problem-solving skills. .

### Assessment

- Written research task (1200 words or equivalent) – 30%
- Performance Documentation (800 words or equivalent) – 20%
- Rehearsal Process and Performance (2000 words or equivalent) – 50%

## ACP323 – Out of the Box: Theatre in Alternative Contexts

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Kate Hunter*

*Prerequisite: One of ACP279, ACP205 or ACP206*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour*

*Seminar per week*

### Content

The unit explores the ways in which performance and theatre are cultural practices that offer a range of opportunities for students to develop creative projects where social concepts such as inclusivity, participation, and civic engagement are key features. Contemporary practices and theory associated with applied and socially engaged performance are explored through current industry examples.

Students examine the means of performance to address issues such as identity and emplacement. This unit also introduces students to practice that focuses on specific audiences: for example drama and disability, theatre for young people, theatre in education and the application of performance techniques for training and development. Theory and practice relating to ethics, facilitation, reflective practice, and bespoke project planning is also covered. Students will work in teams to design and delivery a performance, event or performance-based program for specific audience.

## Assessment

- Assessment 1 (Group of 4–5 students) – Project Brief (800 words or equivalent) – 20%
- Practical Project (2400 words or equivalent) – 60%
- Critical evaluation of major project (800 words or equivalent) – 20%

## ACP324 – Ensemble Performance: Dramaturgy and Devising (A)

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Misha Myers*

*Prerequisite: ACP378*

*Corequisite: Must be enrolled in A357*

*Incompatible with: ACC316*

*Scheduled learning activities – campus: 1 x 3 hour*

*Seminar per week*

## Content

This unit introduces students to advanced principles of ensemble devising through an array of methods and approaches. It aims to extend skills in practices of ensemble devising as a means of dramatic composition and expression. Students will engage with a series of experiments that make demands on them to work with a range of different ensembles, and within a select number of devising approaches. The unit will extend students to undertake research, develop and co-lead various processes associated with the principles and definitions of dramaturgy and ensemble creation. The unit aims to nurture an appreciation and experience of group dynamics, collaboration and ensemble work as a basis for theatre making and performing; including ensemble management principles, and project development. Students will be expected to experiment with their emerging understanding of working practices and principles of both devised theatre making and

ensemble practices. Students will investigate the dynamics of working in project teams to conceptualise a performance project, and for undertaking the preliminary stages of preparation of a project through the development of a proposal that clearly articulates the conceptual terrain including content and method, identifies the necessary research and planning, and sets the timeline for development and realisation.

## Assessment

- Assessment 1 – Research Informed Workshop – 15%
- Assessment 2 – Performance Critique (1000 words) – 25%
- Assessment 3 – Demonstration + Proposal Presentation – 60%

## ACP326 – Ensemble Performance: Dramaturgy and Devising (B)

*Enrolment modes:*

*Trimester 3: Burwood (Melbourne)*

*Trimester 2: Burwood (Melbourne) – Please consult with the Course Director for enrolment*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Misha Myers*

*Trimester 3 Unit Chair: Misha Myers*

*Prerequisite: ACP378 and ACP324*

*Corequisite: Must be enrolled in A357*

*Incompatible with: Nil*

*In-person attendance requirements:*

*Trimester 2: In negotiation with Course Director.*

*Trimester 3: Run as an intensive mode for 11 hours over week 1, 2 & 3 PLUS Assessment during the Catalyst Festival in Week 4 (Monday-Saturday)*

## Content

This unit requires students to work within a specific ensemble to realise a performance project through devising. Drawing on the learning from ACP324, student project teams will execute their proposed project from conception, research, planning and development, to presentation. Under staff supervision, ensembles will undertake micro-practice tasks to realise their performance vision within stringent industry standard parameters for time and resource management. Processes must include application of relevant principles of dramaturgy and the demonstration of an articulate vocabulary in devising, including research and development strategies, toward the realisation of their ideas as theatrical performance.

Teams will be required to ensure that appropriate attention is given to principles and practices of ensemble creation and ensemble management, as well as pre-production, production management, and the overall documentation of their creative project. Each student will submit an individual written critique of the specific and targeted professional learning they have achieved throughout the creative project.

### Assessment

- Assessment 1 – Workshop practice – 40%
- Assessment 2 – Performance and Documentation – 60%

## ACP378 – Out of the Ether: Devised Theatre

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 2*

*Previously coded as: ACP204*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Yoni Prior*

*Prerequisite: One of ACD211, ACP279, ACP205 or ACP206*

*Corequisite: Nil*

*Incompatible with: ACP204*

*Scheduled learning activities – campus: 1 x 4 hour Seminar and 1 x 3 hour Seminar per week*

### Content

Students will be presented with a project proposal and work under the direction of the lecturer to develop and present a major original performance work. Students are introduced to methods for devising theatre in group contexts based on the work of influential contemporary performance practitioners and the needs of the project, and will document and evaluate the creative process. The unit prepares students for independent, small team-based devising projects in later units.

### Assessment

- Assessment 1 (Group) – Contribution to Group Performance Making (4000 words or equivalent) – 50%
- Assessment 2 – Public Performance (800 words or equivalent) – 10%
- Assessment 3 – Research, Documentation and Evaluation of Process (3200 words or equivalent) – 40%

## ACR101 – Introducing Crime and Criminology

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waterfront (Geelong), Waurin Ponds (Geelong), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*Previously coded as: ASL113*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Chris Linke*

*Trimester 3 Unit Chair: Andrew Groves*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ASL113*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour Class per week (recordings provided), 1 x 1 hour online Seminar per week*

### Content

This unit introduces students to the various ways in which we think about and respond to crime and its control. It introduces some of the key frameworks for understanding and explaining crime and examines some of the main types of crime. Examples include crimes between persons, groups and organisations, and crimes at local, national and international levels. The unit also provides a foundation for future study in criminology subjects.

### Assessment

- Quiz – 10%
- Online Exercise -10%
- Research and Writing Exercise (1500 words) – 40%
- Examination (2 hours) – 40%

## ACR102 – Introducing Crime and Criminal Justice

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waterfront (Geelong), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*Previously coded as: ASL111*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Andrew Groves*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ASL111*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour Class per week (recordings provided), 1 x 1 hour online Seminar per week*

### Content

This unit provides an introduction to the structures and procedures of the criminal justice system from a critical perspective. The unit outlines the major characteristics of the investigation, prosecution, adjudication and correctional processes within the criminal justice system, and the key issues which impinge on contemporary criminal justice administration in Australia. The conduct of police investigations, prosecutorial decision-making and the executive administration of the prison system are explored. The unit adopts an interdisciplinary approach to the study of criminal justice institutions and practices, and critically assesses the effectiveness of the system using contemporary criminological/socio-legal evidence.

### Assessment

- Portfolio (400 words) – 10%
- Report (400 words) – 10%
- Research and Writing Exercise (1500 words) – 40%
- Examination (2 hours) – 40%

## ACR201 – Issues in Criminal Justice

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*Previously coded as: ASL204, ASL304*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Danielle Tyson*

*Prerequisite: ACR101 and ACR102 plus 2 credit points at any level*

*Corequisite: Nil*

*Incompatible with: ASL204, ASL304*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour Class per week (recordings provided), 1 x 1 hour online Seminar per week*

### Content

This unit is a core unit in Criminology. It builds on ACR101 and ACR102 to critically examine a host of issues relating to criminal justice, including notions of justice, issues in policing, corrections and punishment. The unit requires students to engage with core debates in criminology in relation to the operations of the criminal justice system.

### Assessment

- Online Exercises – 10%
- Assessment 2 (Group) – Group Assignment (1600 words) – 40%
- Report (2000 words) – 50%

## ACR202 – Criminology Theory

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*Previously coded as: ASL209, ASL309*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Bree Carlton*

*Prerequisite: ACR101 and ACR102 plus 2 credit points at any level*

*Corequisite: Nil*

*Incompatible with: ASL209, ASL309*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour Class per week (recordings provided), 1 x 1 hour online Seminar per week*

## Content

This unit introduces the major theories of criminology which have informed research, legislative and law enforcement debates in Western jurisdictions since the eighteenth century. It examines the role of theory and critical research questions which attempt to explain why crime has occurred, and the structure and functions of the various aspects of the criminal justice system and its agents. A combination of theoretical and applied examples is provided in order to illustrate the importance of, and contradictions between, various theoretical approaches informing our understanding of crime in contemporary society.

## Assessment

- Research and Writing Exercise (1000 words) – 25%
- Online Exercises (1000 words) – 25%
- Essay (2000 words) – 50%

## ACR203 – Crime, Victims and Justice

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*Previously coded as: ASL224*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Mary Iliadis*

*Prerequisite: 4 credit points at any level*

*Corequisite: Nil*

*Incompatible with: ASL224*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour Class per week (recordings provided), 1 x 1 hour online Seminar per week*

## Content

This unit examines different categories of victims, theoretical perspectives on victimisation and the key issues that arise in the treatment of victims at various stages of the criminal justice process.

Topics covered include victim typologies, sexual assault victimisation, victims of violent crime, victims of international crimes, victims at the border and victims of the Australian criminal justice system. The unit encourages students to critically consider the ways that victims are responded to by the various agencies of the criminal justice system, the media and the community.

## Assessment

- Research and Writing Exercise (1000 words) – 25%
- Report (1000 words) – 25%
- Essay (2000 words) – 50%

## ACR204 – Crime, Media and Justice

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*Previously coded as: ASL205*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Ian Warren*

*Prerequisite: 4 credit points at any level*

*Corequisite: Nil*

*Incompatible with: ASL205*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour Class per week (recordings provided), 1 x 1 hour online Seminar per week*

## Content

This unit engages with core issues shaping popular perceptions and representations of crime. Crime is literally everywhere in the media. It occupies the majority of prime-time television. It fills the majority of newspapers. Crime news is increasingly shared through social media. Crime documentaries and literature play important roles in theoretical and applied criminology. But to what extent can we equate what we read, hear or view with the realities of crime? The unit engages with core issues shaping criminology as we unravel the complex relationship between crime, media and justice.

## Assessment

- Presentation (1000 words) – 25%
- Assessment 2 (Group) – Group Assignment (1000 words) – 25%
- Report (2000 words) – 50%

## ACR210 – Crime, Surveillance and Society

*Offering information: Final year of offer 2019*

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*Previously coded as: ASL225*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Chris Linke*

*Trimester 3 Unit Chair: Danijel Sormaz*

*Prerequisite: 4 credit points at any level*

*Corequisite: Nil*

*Incompatible with: ASL225, ACR310*

*Scheduled learning activities – campus: 4–5 x 3 hour Seminars per Trimester*

*Scheduled learning activities – cloud (online): 4–5 x 3 hour online Seminars per Trimester*

### Content

This unit introduces students to the concept of surveillance as a key and largely overlooked element of modern criminological theory, policy and practice. Surveillance is historically embedded within early criminological theory, but more recently has become a standard policy response that connects intelligence, new technology and rapid information flows to convey an appearance of an efficient and responsive justice system. However, critical surveillance theory also recognises the problems of focusing on technology alone given the broader expansion of ‘governance through crime’ in recent times. Contemporary surveillance policies intersect with many fields, including crime prevention, the management of dangerous spaces and people, the more routine forms of accountability impacting on police and other justice personnel, and the various domestic and international principles of individual rights to privacy. The centrality of these issues in interpreting current developments and driving future research, policy and practice across the justice sector is examined in the context of the growing impact of risk in the criminological landscape.

### Assessment

- Class/Online Exercises – 25%
- Presentation (1000 words) – 25%
- Report (2000 words) – 50%

## ACR211 – Crime Prevention and Security

*Enrolment modes: Trimester 1 (alternate years 2020, 2022) and Trimester 3 (alternate years 2019, 2021) Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*Previously coded as: ASL221, ASL321*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Vicky Nagy*

*Trimester 3 Unit Chair: Danielle Tyson*

*Prerequisite: 4 credit points at any level*

*Corequisite: Nil*

*Incompatible with: ASL221, ASL321, ACR311*

*Scheduled learning activities – campus: 4–5 x 3 hour Seminars per Trimester*

*Scheduled learning activities – cloud (online): 4–5 x 3 hour online Seminars per Trimester*

### Content

This unit introduces students to the various ways in which we think about and respond to crime prevention and reduction. The unit examines the key policies and practices that have developed in Australia and internationally to address the ‘problem of crime’. Examples include strategies to manipulate physical environments to reduce ‘opportunities’ for crime as well as measures taken to manage so-called ‘at-risk’ populations. In examining these approaches, the unit also develops an appreciation of the political, social, economic and cultural values expressed through crime prevention and reduction policies and programmes.

### Assessment

- Report (2000 words) – 50%
- Presentation (2000 words) – 50%

## ACR212 – Crime, Surveillance and Technology

*Enrolment modes: Trimester 1 (alternate years 2019, 2021) and Trimester 3 (alternate years 2020, 2022)  
Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Darren Palmer*

*Trimester 3 Unit Chair: Darren Palmer*

*Prerequisite: Any 4 credit points at level 1*

*Corequisite: Nil*

*Incompatible with: ACR312, ASL223*

*Scheduled learning activities – campus: 4–5 x 3 hour Seminars per Trimester*

*Scheduled learning activities – cloud (online): 4–5 x 3 hour online Seminars per Trimester*

### Content

This unit examines new and emerging surveillance technologies and the impact these have for traditional notions of crime and security problems. Examples include the increasing use of video surveillance, facial recognition software, unmanned drones, smart televisions and mobile webcams. While some of these technologies have been developed as deliberate tools for surveillance, many have been developed for other purposes (such as webcams and smart televisions) but have the result of providing for increasing means of technological surveillance. The unit examines the effects of these technologies in relation to crime and security problems as well as society more broadly.

### Assessment

- Report (2000 words) – 50%
- Assessment 2 (Group) – Group Assignment (2000 words) – 50%

## ACR213 – Crime, Terrorism and Security

*Offering information: Final year of offer 2019*

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*Previously coded as: ASL208, ASL308*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Imogen Richards*

*Trimester 3 Unit Chair: Morgan Butcher*

*Prerequisite: 4 credit points at any level*

*Corequisite: Nil*

*Incompatible with: ASL208, ASL308, ACR313*

*Scheduled learning activities – campus: 4–5 x 3 hour Seminars per Trimester*

*Scheduled learning activities – cloud (online): 4–5 x 3 hour Seminars per Trimester*

### Content

This unit provides an introduction to the broad subject of terrorism, including key definitions, and historical and contemporary examples, with a critical appraisal of its social and political effects. Students will develop an informed understanding of criminological debates about terrorism, and the problems that emerge from its classification as a high-profile form of political violence. The unit examines criminal justice responses to actual and perceived risks of terrorism, and investigates the complex relationships between legal, law enforcement, and other counter-terrorist actors. Through practical exercises, students will examine the need for governments, counter-terrorist authorities and civil society to carefully balance the responsibilities and rights of perpetrators and victims of terrorism, and understand the implications of counter-terrorist strategies on contemporary civilian life. On completion of this unit, students will be able to explain key patterns associated with terrorism and counter-terrorist policy, and analyse recent developments in a range of domains.

### Assessment

- Report (2000 words) – 50%
- Presentation (1000 words) – 25%
- Class/Online Exercises – 25%

## ACR301 – International and Comparative Criminal Justice

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*Previously coded as: ASL222, ASL322*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Brandy Cochrane*

*Prerequisite: ACR101 and ACR102 plus 4 credit points at level 2*

*Corequisite: Nil*

*Incompatible with: ASL222, ASL322*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour Class per week (recordings provided), 1 x 1 hour online Seminar per week*

### Content

This unit introduces students to a range of theoretical and applied material on cross-cultural, transnational and international criminology. The problems of transnational and international crime are issues for all nations. Historically, most crime control debates focus on the national rather than transnational or international problems. This dilemma is particularly evident in the prosecution of foreign nationals in culturally distinct justice systems. The concept of global justice is framed within the growing concern about transnational crime, and the lack of discrete institutions to deal with these problems. The unit aims to encourage students to think critically about whether current arrangements for dealing with transnational crime are adequate, and to propose new models designed to resolve these problems. It draws on a combination of databases, policy documents, legal cases and empirical studies.

### Assessment

- Research and Writing Exercise (2000 words) – 50%
- Essay (2000 words) – 50%

## ACR302 – Criminology Research

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*Previously coded as: ASL214, ASL310, ASL314*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Clare Farmer*

*Prerequisite: ACR101, ACR102 and ACR202 plus any 4 credit points at level 2*

*Corequisite: Nil*

*Incompatible with: ASL214, ASL310, ASL314*

*Scheduled learning activities – campus: 5–6 x 3 hour Seminar per Trimester*

*Scheduled learning activities – cloud (online): 5–6 x 3 hour online Seminars per Trimester*

### Content

This unit examines issues concerning designing criminological research, including research ethics, methodology and data collection, theoretical approaches to research, reviewing existing literature, presenting research findings and the politics of criminological research. The unit explores research methods from a critical perspective, using a combination of evidence from Australia, the United Kingdom and the United States. On successful completion of this unit, students will have acquired the skills to conceptualise and operationalise a research topic, and design a research proposal to investigate a range of criminological issues. The unit is also the 'capstone' for students completing a Criminology major sequence or Bachelor degree.

### Assessment

- Research and Writing Exercise (1200 words) – 30%
- Class/Online Exercises (800 words) – 20%
- Assessment 3 (Group) – Group Assignment (2000 words) – 50%

## ACR303 – Criminology Practicum

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 2*

*Previously coded as: ASL311*

*EFTSL value: 0.250*

*Trimester 2 Unit Chair: Emma Ryan*

*Prerequisite: For students commencing from 2014: ACR101, ACR102, ACR201 and ACR202 plus 4 credit points at level 2. For students commencing prior to 2014: Any four credit points of ASL/ACR coded units (including one of ASL209 or ACR202).*

*Corequisite: Must be enrolled in A329, D380, D390, D335, D329*

*Incompatible with: ASL311*

*Scheduled learning activities – campus:*

*Burwood Campus: Weeks 1, 3–9, 11: 2 hour Seminar, Week 2: 3 hour Seminar, Week 10: Presentation Week  
Geelong Campus: Weeks 1, 3–9, 11: 2 hour Seminar held at Waurin Ponds (Geelong) Campus, Week 2: 3 hour Seminar held at Waterfront (Geelong) Campus  
Week 10: Presentation Week*

*Scheduled learning activities – cloud (online):*

*Weeks 1, 3–9, 11: 2-hour online Seminar (recording provided), 1 x 1-hour online seminar per week  
Week 2: 3-hour online Seminar (recording provided)  
Week 10: Online Presentation Week*

### Content

This unit draws together key concepts, themes and debates in criminology and applies them to current issues. The unit offers students an insight into the working environment of key employers of criminology graduates and prepares them for employment in criminology-related industries. The regular seminars will be accompanied with online activities and discussions where students will bridge the divide between ‘theory’ and ‘practice’. Students will be required to complete tasks that simulate the research and policy work required within criminology-related industries, and complete research and writing exercises that will serve as a resource for career development and progression beyond graduation.

### Assessment

- Research and writing exercise (1200 words) – 15%
- Research and writing exercise (1200 words) – 15%
- Presentation (1600 words) – 20%
- Report (4000 words) – 50%

## ACV101 – Contemporary Art Practice: Body

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waterfront (Geelong)*

*Trimester 3: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Simon Grennan*

*Trimester 3 Unit Chair: Simon Grennan*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ACF101, AAV123, ACV401*

*Scheduled learning activities – campus:*

*Trimester 1:*

*Weeks 1, 3, 5 and 7: 1 x 1 hour Class*

*Weeks 1 to 11: 1 x 3 hour Seminar*

*Trimester 3:*

*Week 1: 1 hour introductory session*

*Week 4, 5, 6: (2 x 4 hour pracs per week, total of 8 hours per week)*

*Week 7: 2 x 3 hour practical*

### Content

This unit prompts students to explore techniques in a variety of media and concepts through a focus on the body as an enduring subject in art. Investigating key ideas in contemporary art such as notions of identity, subjectivity, performativity, mediation and representation-students are introduced to the fundamental elements and principles of art through classes, workshops, studio intensive weeks, critical discussions and seminars. Student will be expected to develop concepts, technical approaches and problem-solving skills in order to resolve a series of artworks. One of the main tools used to develop a body of work is the workbook/journal which acts as a place to gather information, contextualize ideas, experiment and reflect upon your own work. The workbook/journal is a crucial aspect of developing an art practice that demonstrates technical dexterity and an ability to engage with and critique contemporary society. This ongoing process begins the artistic investigation of the changing nature of the role of the artist in a globalised culture.

### Assessment

- Assessment 1 – Research journal of written and visual support documentation (1600 word equivalent) – 40%
- Assessment 2 – Examination of a folio of original art works – 60%

## ACV102 – Contemporary Art Practice: Space

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Annika Koops*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ACF102, AAV124, ACV402*

*Scheduled learning activities – campus: 1 x 1 hour Class for 4 weeks, 1 x 3 hour Seminar per week*

### Content

Through considering notions of space and landscape, time and materiality students are given the opportunity to focus their practice through traditional media of painting and drawing and/or extend their practice to video and installation. This relationship between traditional and contemporary practices allows students to broaden their engagement with the materials and histories of art, while exploring different art making strategies. In response to a given assignment brief which will be explored through a series of media-handling workshops, students can elect to work towards different material outcomes and develop specific technical skills. In critical seminars, consultations and studio intensive weeks, students will be supported in the critical framing and production of their folio works in two major assignment briefs that explore the lived, projected, represented, temporal and contested notions of space. The aim of this unit is to find the balance of ideas and techniques so as to focus on developing particular skills and conceptual approaches that students can use to develop a sustainable arts practice in level 2 and 3 units.

### Assessment

- Minor Works and Journal (1600 words or equivalent) – 40%
- Major Work and Refined Journal (2400 words or equivalent) – 60%

## ACV115 – Drawing and the Body in Visual Arts

*Year: 2020 unit information*

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Simon Grennan*

*Trimester 2 Unit Chair: Simon Grennan*

*Trimester 3 Unit Chair: Simon Grennan*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour practical per week*

### Content

Through a focus on the body (human or otherwise), this studio-based unit introduces students to key skills and concepts used within the discipline of drawing in the visual arts. Along with gaining competency and control of perceptual drawing techniques, the unit explores the ways in which contemporary drawing engages and challenges the viewer through various means: for example through unexpected combinations of subject matter, format, style, scale, process, and material. The unit treats the development of perception, observation, expression, communication, ideation, and imagination as integrated aspects of all forms of drawing. The program is structured around weekly drawing topics designed to build observational skills, develop media strategies, and introduce basic conceptual frameworks for generating work. Lecturer presentations and demonstrations, group discussion and critiques also form an integral aspect of seminar activities.

*Note: Commences 2020*

### Assessment

- Drawing folio 1 (1600 words equivalent) – 40%
- Drawing folio 2 (1600 words equivalent) – 40%
- Work Book (800 words equivalent) – 20%

## ACV205 – Contemporary Art Practice: Pluralism

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Cameron Bishop*

*Prerequisite: ACV101 or ACF101 or equivalent*

*Corequisite: Nil*

*Incompatible with: ACF203, AAV217*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

### Content

In this unit students are asked to reflect on their own motivations in relation to current debates around contemporary art practice and the role of the artist. Students will research key themes and debates in contemporary art practice and explore processes, materials and conceptual possibilities for contemporary art practice, with an emphasis placed on their interdisciplinary relationships in studio and gallery contexts.

In negotiation with staff, students will be encouraged to contextualize their practice in terms of its relation to current concerns in art and culture. By understanding the collective nature of ideas, students must also understand how their individual approach operates in relation to history and contemporary society. Through this process, students will develop projects that engage with this expanded field of contemporary art. The projects may be realised in paintings, drawings, performance, sculpture, archival and documented research, video, photography and installation.

This unit combines structured studio workshops and key readings with independent investigations, facilitating the development of a self-directed contemporary art practice. A key focus is critical discussion and inquiry in visual arts practice through studio critiques, class presentations, studio consultations and gallery visits. These learning situations are designed to assist students in the development and articulation of a personal understanding of visual arts practice, the artist's position in critical discourse and the gallery's place in a contemporary society.

### Assessment

- Assessment 1 – Visual Art Journal/Professional Research Portfolio including written statements, Research and Presentation (1600 words) – 40%
- Assessment 2 – Investigations, Studies, Major work(s) and exhibition (equivalent to 2400 words) – 60%

## ACV206 – Contemporary Art Practice: Abstraction

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Simon Grennan*

*Prerequisite: ACV102 or ACV205 or equivalent*

*Corequisite: Nil*

*Incompatible with: ACF204, AAV218*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

### Content

In this unit students are asked to explore notions of abstraction and reflect on their process with regard to collaboration. In negotiation with staff students will be encouraged to experiment and collaborate to make work using different materials and a variety of media including painting, drawing, performance, video, photography and installation. The process can draw upon direct observation, documentation and archival materials. Students will research key themes and debates in contemporary art practice and explore processes, materials with an emphasis on interventionist strategies and developing work in a public context.

Combining structured studio workshops and seminars with independent and collaborative investigations allows for abstraction to focus on form and sensation, interpreted through materiality or everyday activities. Key readings and critical discussions will be addressed in the seminars and the journals provide a tool through which to experiment and synthesize ideas and materials into a resolved series of folio works.

### Assessment

- Assessment 1 – Folio – 60%
- Assessment 2 – Journal and Exercises (1600 word equivalent) – 40%

## ACV207 – Materialising the Image: Visual Art and Photography Since 1989

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Cameron Bishop*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

### Content

This unit investigates theoretical discourses surrounding visual arts practice post-1989. Events of 1989 such as the fall of the Berlin Wall (hastening the end of the Cold War Period), Tiananmen Square, the beginnings of the World Wide Web, AIDS activism, the Exxon Valdez oil spill and the aftermaths of the Chernobyl nuclear disaster-all mark the year as a seminal one in historical, political, social and cultural terms. It also marks the emergence of a new era of shifting borders, the triumph of the virtual (and burgeoning digital media), re-considerations of notions of gender and identity, and the predominance of a postmodern view that held fragmentation and pluralism over the grand narratives of progress. The period challenges the boundaries of perceived high and low art and these significant changes impact upon the role and development of contemporary art.

### Assessment

- Assessment 1 – Minor essay (1200 words) – 30%
- Assessment 2 – Independently created visual artwork (1200 word equivalent) – 30%
- Assessment 3 – Curatorial brief (1600 word equivalent) – 40%

## ACV210 – Integrated Practice 1

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: David Cross*

*Prerequisite: ACV101*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

### Content

This unit gives students the opportunity to develop their skills in producing art in public spaces. It allows for students to take risks with their creative practice, but in a contextualised and supported learning environment. Working with experts in the field of public art, and conceptualising and revealing narratives in different public contexts, students will develop a project that builds on, problematises and/or challenges conventional approaches to art in public spaces. Both options give students the opportunity to develop key technical and conceptual skills through workshops, lectures, studio intensive weeks, critical discussion and seminars. Students will engage with many facets of public art while developing projects that respond to and question contemporary issues around: place-making; contemporary visual narratives; public spaces; social practice; the artist as provocateur; collaboration; spectacle and the object.

### Assessment

- A journal/workbook of visual and written work (1600 word equivalent) – 40%
- Folio of original artworks (2400 word equivalent) – 60%

## ACV212 – Digital Practices and the Visual Arts

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Cameron Bishop*

*Trimester 2 Unit Chair: Cameron Bishop*

*Trimester 3 Unit Chair: Cameron Bishop*

*Prerequisite: Must have completed two level 1 units*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour practical per week*

### Content

In this unit students will investigate the interplay between art and technology. Applying creative practice to build knowledge and skills around the issues and motivations that drive the use of digital technologies in contemporary art students will focus on the link between innovation and production of new technologies, the cultural context of the technologies and the way artists extend, appropriate or critique these technologies as part of their practice. Exploring the intersection of old and new technologies students will frame their work in historical and contemporary, software and hardware contexts. Upon completion of this unit students will be able to apply understandings and interpretations of art's emergence and possibilities in the digital sphere. Drawing on a range of subject areas including data art, embodiment and technology, subjectivity and aesthetics, the event and spectacle, the unit aims to expand critical knowledge of cultural practices while developing advanced skills making art in, and critically engaging with, the digital sphere. The key skills third year students require for their move into creative industries are the ability to initiate and sustain enquiry and interpretation through practice-led approach (thinking through making). Students will undertake a number of practical exercises, discussions and writing tasks that critically discuss art's relationship to technology.

*Note: Commences 2021*

### Assessment

- Workbook (800 words equivalent) – 20%
- Folio 1 (1600 words equivalent) – 40%
- Folio 2 (1600 words equivalent) – 40%

## ACV213 – Modelling and the Visual Arts

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Jondi Keane*

*Trimester 2 Unit Chair: Jondi Keane*

*Trimester 3 Unit Chair: Jondi Keane*

*Prerequisite: Must have completed two level 1 units*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour practical per week*

### Content

This unit explores approaches to the use of models and modelling as critical tool and practice in visual arts. The unit will bring together material and conceptual considerations that are required in model-making and the ideas used when produce a 'model', maquette, prototype, study, etc. The learning activities will involve the use of drawing, modelling objects in clay, making maquettes (scale models) of installations or exhibitions, and other aspects of 3D modelling processes. This approach will make the assumptions regarding spatial relationships, proportion and materiality evident and allow students to analyse and articulate the cultural significance and perspectives involved in devising a modelling/model-making project.

*Note: Commences 2021*

### Assessment

- Workbook (800 words equivalent) – 20%
- Studio work (1600 words equivalent) – 40%
- Assessment 3 (Group) – Studio work collaborative project (1600 words equivalent) – 40%

## ACV214 – Art and Technology

*Enrolment modes:*

*Trimester 2: Burwood (Melbourne)*

*Trimester 3: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Annika Koops*

*Trimester 3 Unit Chair: Shaun McLeod*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 1 hour Seminar per week*

### Content

This unit encourages students to investigate the interplay between art and technology by focusing on the way that old technologies reflect the ideas and values of the historical period in which they were invented and therefore, new technologies reflect contemporary ideas and values. The structure of the unit is based on the notion that artists are detectives, ethnographers, explorers and test pilots, who are crucial to the development of emerging technology and their cultural implications. For example: the invention of the camera obscura (1400's) and the convex (or black) mirror (1700's) are tied to historical ideas about vision, depiction and notion of landscape painting. This relationship between the historical and cultural context is what assists students to explore contemporary art-production through historical and theoretical research, essay writing, creative work and collaborative projects. The aim is for students to understand these connections first-hand and enable them to develop critical skills and apply their creative capacities required for pursuing careers in the creative arts.

### Assessment

- Technology Log – Report (1200 words or equivalent) – 30%
- Essay (1400 words or equivalent) – 35%
- Assessment 3 (Group) – Image/Object Production (1400 words or equivalent) – 35%

## ACV307 – Contemporary Art Practice: Research

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Jondi Keane*

*Prerequisite: ACV205 or ACV206 or equivalent*

*Corequisite: Nil*

*Incompatible with: ACF306, ACV407*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

### Content

The focus of this unit is on artistic processes and the development of a sustainable creative practice. It is crucial at third year for students to move from working on guided assignments to the development of one's own creative practice. Through studio enquiry, critical seminars and debate, students are expected to generate their own research question and studio inquiry and to develop a professional proposal for the trimester. With technical assistance and critical guidance offered by staff, students are asked to generate their own studio investigation by adhering to a work plan, developing a creative journal and testing a range of solutions independently and/or collaboratively. At third year level, students are expected to have the material and conceptual skills to be able to realise the technical propositions they set for themselves and engage in sophisticated exchange, studio dialogue, both in class and online. The development of the project work can be interdisciplinary in nature and span painting, drawing, video, performance, public art and installation. It is expected that research and studio inquiry will be undertaken in response to workshops, seminars and during studio intensive weeks.

### Assessment

- Journal (equivalent to 1400 words) – 35%
- Major Folio (equivalent to 2000 words) – 50%
- Minor folio (equivalent to 600 words) – 15%

## ACV310 – Integrated Practice 2

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Simon Grennan*

*Prerequisite: ACV205*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar*

### Content

In Integrated Practice 2 students synthesise their practice with a key thematic subject area of contemporary art research – in 2018 this is Artists' Books. The unit questions traditional notions of the book as simply the carrier or container of a text and introduces students to creative strategies that will guide the construction of their own artists' book. It re-examines expectations of what a book is through exploration of: form (e.g. scrolls, accordion, pop-ups, single sheet, sculptural); technique (painting, printmaking, collage, photography, written word, typography); narrative devices; and various modes of distribution (as unique or as multiples). The unit foregrounds the relationships between content and form, and text and image, and expects students to synthesise their ideas in a practice-led research context. In addition to developing artworks, students will employ the creative journal as a key means of contextualising their ideas in experimentation and critical reflection.

### Assessment

- Journal/workbook (1600 word equivalent) – 40%
- Folio (2400 word equivalent) – 60%

## ACV311 – Visual Arts History and Theory in the Expanded Field

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Cameron Bishop*

*Prerequisite: ACV207*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 5 x 1 hour lecture, 5 x 1 hour seminar, 6 x 2 hours seminars*

### Content

Visual Arts History and Theory in the Expanded Field will examine how art in the postdigital age operates and will require students to examine key contexts for the production and reception of contemporary art. Extending the content of the second year history and theory unit, this unit will explore and discuss digital creative practices and build knowledge around the issue and motivation that drive the use of new technologies in art. Upon completion of this unit students will be able to apply understandings and interpretations of post-digital work in order to contest them and incorporate them in practice. Drawing on a range of subject areas including data art, embodiment and technology, subjectivity and aesthetics, the event and spectacle, the unit aims to expand critical knowledge of cultural practices while developing advanced skills in writing and debate. The key skills third year students require for their move into creative industries are the ability to initiate and sustain enquiry and interpretation through practice-led approach (thinking through making). Students will undertake a number of practical exercises and writing tasks connected to persuasive writing as well as an oral presentation on a chosen subject area. The unit will focus on the skills of professional practice and critical context for connecting the digital identity to art world applications.

### Assessment

- Essay (2000 words) – 50%
- Oral Presentation (1000 word equivalent) – 25%
- Professional Practice Exercise (1000 words) – 25%

## ACV312 – Contemporary Art Practice: Production

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 2 Unit Chair: Jondi Keane*

*Prerequisite: One unit from: ACV205, ACV206*

*Corequisite: Nil*

*Incompatible with: ACV308*

*Scheduled learning activities – campus: 1 x 3 hour*

*Seminar per week*

### Content

In this 2 credit point capstone unit, students will focus on professional practice by consolidating the work they have done to date and focusing on the career and industry context into which they aspire. Because the unit is 2cp –and accounts for a significant portion of the students' study commitment for the trimester – the management of time is paramount in order to develop artwork, design a professional digital portfolio and collectively devise and organisation the final exhibition. To that end, students will research and discuss the integration of multiple disciplines, team management principles, creative methodology, project development, pre-production and production management. Students will then apply appropriate strategies and creative management processes in the realisation of their creative work and final exhibition. Building on T1 units that stress artistic process and sustainable practice, this production unit requires students to propose and complete a creative arts project that aspires to the standard of emerging artists, cultural producers or educators in their chosen industry contexts.

### Assessment

- Project Proposal and Research Presentation (1600 words or equivalent) – 40%
- Work in progress showing – Creative Practice and Digital Portfolio (400 words or equivalent) – 10%
- Exhibition of Creative Work and Final Digital Portfolio (2000 words or equivalent) – 50%

## ACX701 – Communication Concepts

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Jian Xu*

*Trimester 2 Unit Chair: Jian Xu*

*Trimester 3 Unit Chair: Kristin Demetrious*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ACO411*

*Scheduled learning activities – campus: 1 x 2 hour*

*Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including: 2-hour online seminar per week (recordings provided)*

### Content

This core unit focuses on the ways in which communication processes and practices can be understood in the context of present day media industries. Students are exposed to a wide range of concepts and theoretical approaches, applying these through flexible assessment tasks that enable the development of essential academic and professional skills. Engaging with the complexities of contemporary media and the world in which we live and work, students are encouraged to orient their study of communication concepts to directly inform both their personal interests and professional aspirations.

### Assessment

- Assessment 1 (Group of 3–4 students) – Group presentation and individual reflection (3500 words or equivalent) – 35%
- Autoethnography (2500 words or equivalent) – 25%
- Essay and audio reflection (4000 words or equivalent) – 40%

## ACX702 – Applied Research Methods for Communication

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Alexia Maddox*

*Trimester 2 Unit Chair: Alexia Maddox*

*Trimester 3 Unit Chair: Alexia Maddox*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ACO410, ALR732*

*Scheduled learning activities – campus: 1 x 2 hour*

*Seminar per week*

*Scheduled learning activities – cloud (online):*

*Online independent and collaborative learning activities including, 2-hour online seminar per week (recordings provided)*

### Content

This core unit is designed to introduce students to the range of research methods that are applied within communication research and within the communication industries. In this unit students will develop their ability to critically assess the credibility of an evidence-base (from data collection through to data analysis). Students will also learn how to develop and conduct quantitative and qualitative research approaches (such as content analysis and surveys) and engage audiences, consumers and organisations through stakeholder interviews and focus groups. The combination of learning presented in this unit, from critical thinking to research capacity, is designed to support students in asking cutting edge questions and creatively responding to industry challenges. Through the assessment tasks students will develop a valuable portfolio, evidencing skills in research conduct and reflective professional practice. This foundation unit will provide students with a competitive edge through supporting specialised knowledge development.

### Assessment

- Critical review of an original study (2000 words or equivalent) – 20%
- Case study proposal for industry problem (4000 or equivalent) – 40%
- Research methods portfolio (4000 or equivalent) – 40%

## ACX703 – Developing a Communication Research Project

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Katrina Clifford*

*Trimester 2 Unit Chair: Alexia Maddox*

*Trimester 3 Unit Chair: Katrina Clifford*

*Prerequisite: ACX701 and ACX702 and course director approval to enrol*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour*

*Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities, 2-hours per week equivalence*

### Content

This unit is designed as the entry point into the professional capstone program for students in the Master of Communication. The unit synthesises and builds on the research principles and practices introduced in the core units of the course to develop the capacity of students for independent project work and the design of a viable proposal for their major specialisation-specific research project (professional or academic), which is normally undertaken in the following trimester of study. The unit focuses on the essentials of project design, planning and management; methods to enable the identification and resolution of problems within research projects; pitching and pilot-testing project ideas; developing a command of the literature relevant to the field of study; discerning the specific needs of and effectively engaging with diverse audiences, including clients and industry partners; and strategies for effectively communicating project outcomes and research findings. Copyright, ethics and the conduct of ethical research will also be covered. By the conclusion of the unit, students should have a research proposal and project plan ready for implementation in consultation with their supervisor(s) in their research project units. Note: Students articulating into the Master of Communication from a specialist diploma should seek Course Director advice on course mapping prior to enrolling in the unit.

## Assessment

- Literature Review (2000 words or equivalent) – 40%
- Project Pitch (1000 words or equivalent) – 20%
- Research Proposal and Project Plan (2000 words or equivalent) – 40%

## ACX704 – Academic Research Project 1

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Katrina Clifford*

*Trimester 2 Unit Chair: Katrina Clifford*

*Prerequisite: ACX703 and approval of Course Director to enrol*

*Corequisite: ACX705, ACX706*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour consultation per fortnight in agreement with your supervisor in addition to independent research and writing*

## Content

This unit is the commencement phase through which Master of Communication students develop a major academic research project as a capstone to their course. The academic research project units (ACX704/705/706) are a combined, three-unit learning experience which full-time students will normally undertake in a single trimester. Students will work on a research project whose topic is relevant to their course specialisation, and will regularly consult with their supervisor to present and receive feedback on their project drafts. Preliminary work and design of the academic research project will be undertaken in ACX703 Developing a Communication Research Project.

A formal result is not recorded against ACX704/705/706 until the student has completed and submitted the academic research project and its examination is complete.

*Note: Student enrolment in ACX704/705/706 is only by approval of the Course Director, based on academic performance in ACX703, and the availability and agreement of a supervisor*

## Assessment

Written thesis completed over the academic research project units ACX704, ACX705, ACX706 (15,000–18,000 words) – 100%.

## ACX705 – Academic Research Project 2

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Katrina Clifford*

*Trimester 2 Unit Chair: Katrina Clifford*

*Prerequisite: ACX703 and approval of Course Director to enrol*

*Corequisite: ACX704 and ACX706*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour consultation per fortnight in agreement with your supervisor in addition to independent research and writing.*

## Content

This unit is the middle phase through which Master of Communication students develop a major academic research project as a capstone to their course. The academic research project units (ACX704, ACX705, ACX706) are a combined, three-unit learning experience which full-time students will normally undertake in a single trimester.

Students will work on a research project whose topic is relevant to their course specialisation, and will regularly consult with their supervisor to present and receive feedback on their project drafts. Preliminary work and design of the academic research project will be undertaken in ACX703 Developing a Communication Research Project.

A formal result is not recorded against ACX704, ACX705, ACX706 until the student has completed and submitted the academic research project and its examination is complete.

*Note: Student enrolment in ACX704, ACX705, ACX706 is only by approval of the Course Director, based on academic performance in ACX703, and the availability and agreement of a supervisor.*

## Assessment

Written thesis completed over the academic research project units ACX704, ACX705, ACX706 (15,000–18,000 words) – 100%.

## ACX706 – Academic Research Project 3

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Katrina Clifford*

*Trimester 2 Unit Chair: Katrina Clifford*

*Prerequisite: ACX703 and approval of Course Director to enrol*

*Corequisite: ACX704, ACX705*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour consultation per fortnight in agreement with your supervisor in addition to independent research and writing*

### Content

This unit consists of the completion phase through which Master of Communication students finalise a major academic research project as a capstone to their course. The academic research project units (ACX704/705/706) are a combined, three-unit learning experience which full-time students will normally undertake in a single trimester. Students will work on a research project whose topic is relevant to their course specialisation, and will regularly consult with their supervisor to present and receive feedback on their project drafts. Preliminary work and design of the academic research project will be undertaken in ACX703 Developing a Communication Research Project.

A formal result is not recorded against ACX704/705/706 until the student has completed and submitted the academic research project and its examination is complete.

*Note: Student enrolment in ACX704, ACX705, ACX706 is only by approval of the Course Director, based on academic performance in ACX703, and the availability and agreement of a supervisor.*

### Assessment

Written thesis completed over the academic research project units ACX704, ACX705, ACX706 (15,000–18,000 words) – 100%.

## ACX707 – Professional Research Project 1

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Katrina Clifford*

*Trimester 2 Unit Chair: Jian Xu*

*Prerequisite: ACX703*

*Corequisite: ACX708*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour seminar per week for the combined units ACX707 and ACX708*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities, combined 2-hour per week equivalence for ACX707 and ACX708*

### Content

ACX707 Professional Research Project 1 and ACX708 Professional Research Project 2 are studied together as a combined, two-unit learning experience through which Master of Communication students complete a major professional practice-focused research project as a capstone to their course.

Students must undertake Professional Practice Research 1 & 2 together in a single trimester.

The professional research project is defined through an individual learning agreement and project plan between each student and the Unit Chair, and must be on a topic relevant to the student's course specialisation. The outputs agreed in this contract are then assessed together to produce a single grade and mark achieved for both units of study.

The industry focus and applied nature of the research project provides students with targeted skill development and an understanding and experience of professional communication issues and project management; facilitating their career development and enhancing employability. The professional research project can include, but is not limited to, activities and outputs such as a screen production, visual design, digital media output, a public relations campaign or communications strategy, journalism portfolio, industry white paper or policy analysis.

Preliminary work and design of the professional research project will be undertaken in ACX703 Developing a Communication Research Project.

## Assessment

- Professional Research Project (7000 words or equivalent) – 70%
- Essay (3000 words) – 30%

## ACX708 – Professional Research Project 2

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Katrina Clifford*

*Trimester 2 Unit Chair: Jian Xu*

*Prerequisite: ACX703*

*Corequisite: ACX707*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour seminar per week for the combined units ACX707 and ACX708*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities, combined 2-hour per week equivalence for ACX707 and ACX708*

- Essay (3000 words) – 30%

## ADA101 – Designing 3D Motion

*Enrolment modes:*

*Trimester 2: Burwood (Melbourne)*

*Trimester 3: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Simeon Taylor*

*Trimester 3 Unit Chair: Simeon Taylor*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AMC101*

*Scheduled learning activities – campus: Trimester 2: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

*In-person attendance requirements: Trimester 3: Intensives – 5 x full day seminars (9am–1pm and 2pm–4pm) in weeks 2, 3, 4, 6 and 7. Classes are delivered in the Seminars.*

## Content

In this unit students can throw motion straight onto a character and see it come to life. The unit caters for students from a wide range of disciplinary backgrounds, and looks at aspects of motion capture and animation. Students are introduced to the process of capturing information from the real world, and then coalescing and refining it into a digital animated performance. Motion capture provides an instrument to capture information that can then be used to drive digital performance.

Students will learn how to both direct a performance and capture it through various means. Then process and modify it to achieve the desired vision. They will do this through directing live performers and capturing their movements. The unit caters for students with and without technological or computing backgrounds.

### Assessment

- Tests – 20%
- Case Study – 40%
- Performance Project – 40%

## ADA102 – Designing 3D Environments

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Jack Parry*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

### Content

Students will explore aspects of animation design through the creation of virtual objects and animated environments in this introductory 3D computer animation unit. Consideration will be given to how these elements can express a meaningful visual experience as students consider form, visual identity, aesthetics, and layout. Students gain a solid understanding of 3D techniques in modelling, texturing, animation, lighting, composition and rendering.

### Assessment

- Object design and 3D model to a specific brief – 50%
- Environment design and implementation to a specific brief – 50%

## ADA201 – Creating 3D Characters

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Simeon Taylor*

*Prerequisite: ADA102*

*Corequisite: Nil*

*Incompatible with: AMC226*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

### Content

This is an intermediate 3D animation unit. Students explore creative character design with reference to the principles of design, anatomy and character development. They will gain an understanding of how to design, model and texture characters. They will also explore a number of different rigging strategies and then proceed to rig their own characters with controllers so that they can be animated to fulfill a specific brief.

### Assessment

- Character design plan, rationale and model – 40%
- Character rig – 30%
- Animation (emote test) – 30%

## ADA202 – Animation, Performance and Capture

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Simeon Taylor*

*Prerequisite: ADA101*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

### Content

In this unit students learn how to make characters come alive and create a complete character performance that includes the full range of human emotion. They will cover methods of facial capture and how that capture can be used to drive both humanoid, and more abstract forms of character in compelling ways.

Building upon the skills learnt in Designing 3D Motion, students will learn advanced animation and motion editing techniques. Students will then look at the combination of both face and body animation to create a complete and emotionally appealing performance.

### Assessment

- Tests – 20%
- Case Study – 40%
- Performance Project – 40%

## ADA203 – Interactive Animation Design Studio

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Simeon Taylor*

*Prerequisite: Students must have completed 4 units at level 1*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

### Content

This unit is an experimental studio based class exploring new innovative technologies relating to interactivity, AR, and VR. Students get the opportunity to make use of these technologies in combination with skills they've gained elsewhere to create exciting and novel design solutions. The main output of the unit is a major project responding to an open brief allowing students to develop their own interests within design, 3D animation and interactivity.

### Assessment

- Pitch – 30%
- Test – 20%
- Assessment 3 (Group) – Project – 50%

## ADA204 – Advanced Motion Graphics

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Simeon Taylor*

*Prerequisite: One of ADA102, ADD103 or ACF212*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

### Content

This unit focuses on the techniques and skills needed to create visually exciting motion graphics. Students will cover a variety of techniques encompassing both 3D animation and compositing to produce dynamic, complex, animated graphics. They will look at case studies in advertising, promotion, television and film to develop an aesthetic and technical comprehension of current trends in motion graphics. Students will have the opportunity to focus on their own area of interest and develop their own unique style.

*Note: Commences 2019*

### Assessment

- Exercises – 30%
- Case Study – 30%
- Assessment 3 – Final Project – 40%

## ADD101 – Design Thinking

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waterfront (Geelong), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Russell Kennedy*

*Trimester 2 Unit Chair: Russell Kennedy*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: MIS276*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 11 scheduled online seminars. Online independent and collaborative learning of 150 hours. Online students must attend/review online seminars and participate in discussions and activities as required for assessment.*

## Content

This unit will investigate 'design thinking' as a strategic methodology and problem solving process. Taking a multi-discipline, interdisciplinary approach, students will be required to use 'design thinking' as a problem solving process. 'Design thinking' methods will require students to adopt a human-centered approach to innovation that draws on their skills to integrate the needs of people, the possibilities of technology, and the requirements of business and society as a whole. Students will work individually and in workshop teams, the final assessments will be a combination of research and practice outcomes. Students will use 'Design thinking' methods to address a 'wicked problem'.

## Assessment

- Research Essay. Discover different design thinking methodology (1200 words) – 30%
- Collaborative Workshop: Defined problem and document activities using the 5 steps Design Thinking process (1200 words or equivalent) – 30%
- Final Report of Process. Incorporate a descriptive analysis critically evaluating the design thinking method and workshop results (1600 words) – 40%

## ADD102 – Design Skills and Technologies 1

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Joel Mark Zika*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in A343, A344, or A345*

*Incompatible with: ACG103*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

## Content

This unit introduces students to the tools necessary to represent ideas through static and moving imagery. This is achieved through a combination of research and experimentation with processes on and off the computer. Students will be introduced to techniques for composition, mark making, digital imaging, storyboarding and animation.

Practical and research projects will require students to: understand and apply design principles, create a digital composition, build an animated sequence. A research report will take the form of a concept plan and time based storyboard.

## Assessment

- Practical Project – 30%
- Research presentation/storyboard – 30%
- Practical Project – 40%

## ADD103 – Design Skills and Technologies 2

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Jack Parry*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in A343, A344 or A345*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

## Content

This unit explores the differences implicit in the processes and tangible outcome of objects in the virtual and material realm. You will have the opportunity to design an object, make it in a 3D software program, create a 3D printable file and then bring the object into a game engine. How people interact with and receive your designed objects, in their different virtual and physical states, will be a key consideration in our creative, practical and theoretical investigations.

## Assessment

- Practical project – 30%
- Research presentation – 30%
- Practical project – 40%

## ADD104 – Design Laboratory

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Russell Kennedy*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in A343, A344, A345 or A355*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour*

*Seminar per week*

### Content

This unit introduces students to a range of case studies of new technology in the design process. Students are required to work in team to integrate this knowledge into a design project, apply cutting edge technology and prepare a case study on technology in the design process. The unit will feature a combination of industry research, team building, experimentation and application as students employ the concepts of agile team structures to find and apply new technology to solve a design problem.

### Assessment

- Research/case study – 30%
- Assessment 2 (Group) – Team pitch presentation – 30%
- Practical project – 40%

## ADD201 – Designing User Experience

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Tonya Meyrick*

*Prerequisite: Students must have completed four credit points at level 1 in the following courses A343, A344 or A345*

*Corequisite: Nil*

*Incompatible with: ACG203 Designing User Experience*

*Scheduled learning activities – campus: 1 x 2 hour*

*Seminar per week*

### Content

In this unit, we explore the practices and techniques of designing user experiences. Emergent technologies have a profound impact on practices of reading, experiencing and consuming media. This unit addresses this dynamic situation introducing user experience design for human centred and agile environments, which leverage emergent technologies, consumer electronics and/or mobile devices. Learning about and utilising visual communication design, navigation, flow, information, semiotic hierarchy, and data will be negotiated through consultation, research and practical exercises. This unit is geared towards the production of strategies and design processes to capitalise on new developments. Here, we focus on understanding and implementing digital project management practices, wire framing, design patterns, visual design comps, whilst working with the Adobe Creative Suite.

*Note: Commencing 2019*

### Assessment

- Research Case Study – 30%
- Research Proposal – 30%
- Project Presentation – 40%

## ADD202 – Design Strategies

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Maria Bates*

*Prerequisite: Students must have completed four credit points at level 1 in courses A343, A344 or A345*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour*

*Seminar per week*

### Content

Design is a business. Strategic design is thinking about design from the perspective of an organisation to determine what to do, why to do it and how to substantiate it. Many times the ideas an organisation may want to pursue may not be the best option and other options can be considered.

This unit will investigate concepts of strategic design, understanding strategy is tied closely to innovation. After informing direction through research of theories and practice, exploring existing strategies and innovative concepts, students will be required to launch, rebuild or reinvigorate a product, app or brand and sell this idea to others. Taking a multi-discipline approach to problem solving, the final assessment will be an innovative presentation or pitch demonstrating the strategic approach to problem solving.

*Note: Commencing 2019*

## Assessment

- Research project – 20%
- Strategic Designing (Ideation and prototyping of your innovative solution) – 40%
- Presentation/Pitch (Convince us of your idea in a well-designed presentation/pitch) – 40%

## ADD203 – Professional Practice in Design

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Joel Zika*

*Prerequisite: Students must have completed two credit points from ADD101, ACG103, ADD102 and ADD103*

*Corequisite: Nil*

*Incompatible with: ACG207*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

## Content

In this unit students will concurrently investigate two topic areas. The first is the professional role of a designer in industry considering their many extended roles and responsibilities. Areas explored will include liaison with printers including prepress preparation and production. This area will also include issues associated with client liaison, project management, freelance contracts, ethics and copyright law. The second topic area will focus on preparing students for industry including career path planning, professional practice branding and positioning. Students will develop their own self-promotion material and a portfolio as well as discuss topics such as interview techniques, employment issues and presentation skills.

*Note: Commencing 2019*

## Assessment

- Assessment 1 – Practical Research (written): Research Essay (1200 words) – 30%
- Assessment 2 – Project Design/Individual (visual) (1200 words or equivalent) – 30%
- Assessment 3 – Produce Practical Assignment (digital narrative), and ppt or pdf slide presentation (10 slides min) (1600 words) – 40%

## ADD301 – Collaborative Design Project

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 2 Unit Chair: Russell Kennedy*

*Prerequisite: Students must complete four credit points at level 2 in courses A343, A344 or A345*

*Corequisite: Nil*

*Incompatible with: ACG304*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

## Content

In this unit, students explore the practices and processes for multidisciplinary design collaboration. Students will form multidisciplinary teams that will collaborate with each other, their clients and the target audience to resolve complex creative projects from conception to completion. This unit will provide the opportunity for students from all Bachelor of Design courses to work in a studio setting to connect with industry and commercial partners. They will work on real-world projects to solve real-world problems through design. The process of collaboration identifies design and designers as integral to the development and success of any project. This unit identifies effective design collaboration as integral to development and the success of any project. Students will get the opportunity to exhibit their work in a public environment at the completion of the unit.

*Note: Commencing 2020*

## Assessment

- Assessment 1 – Practical Research (written): Research Essay (2400 words) -30%
- Assessment 2 – Project Design/Individual and Team (visual) (2400 words or equivalent) – 30%
- Assessment 3 – Produce Practical Assignment (digital narrative) (3200 words) – 40%

## ADD302 – Individual Design Portfolio

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Meghan Kelly*

*Prerequisite: Students must have completed four level 2 units in courses A343, A344 or A345*

*Corequisite: Nil*

*Incompatible with: ACG305*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

### Content

This unit takes its focus on your portfolio to critically evaluate and improve the work you will present when applying for employment opportunities. Students will undertake a process of critical evaluation and reflection collectively and individually to analyse and evaluate current design work. Students will then take focus on improvement and refinement followed by additional content to advance their folio.

*Note: Commencing 2020*

### Assessment

- Assessment 1 (Self and peer evaluation) – Evaluation of your folio – 20%
- Improve a brief – 40%
- Add a new brief – 40%

## ADD303 – Design to Change the World

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Meghan Kelly*

*Prerequisite: Students must have completed four credit points at level 2 in courses A343, A344 or A345*

*Corequisite: Nil*

*Incompatible with: ACG307*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

### Content

This unit will focus on the requirement of design to act as an agent of change. Design has matured as an industry and designers are required to do more than develop and materialise ideas using contemporary technologies. Design practitioners are now called on to conceptualise experiences and facilitate social, cultural, environmental and economic outcomes that can improve the human condition.

This unit will unpack and expand on the World Economic Forum statement that, “Design is an agent of change that enables us to understand complex changes and problems, and to turn them into something useful. Tackling today’s global challenges will require radical thinking, creative solutions, and collaborative action (World Economic Forum, Global Agenda Council on Design, 2009).

Students will explore design as an agent of change by researching design activism and design thinking to analyse systemic problems that empower and deliver creative outcomes to complex challenges. Students will be presented with a selection of wicked, social problems and will be required to consider ways of combining different design disciplines to address these issues using design as an agent for change; addressing big picture problems in the world and taking a step towards change.

*Note: Commencing 2020*

### Assessment

- Investigative research – 40%
- Presentation – 20%
- Final Document – 40%

## ADH700 – Introduction to International and Community Development

*Enrolment modes: Trimester 1: Cloud (online)\**

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Yamini Narayanan*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ADS701*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 x 1 hour Online Seminar per week*

## Content

This unit is a foundational unit in International and Community Development. It provides an in-depth introduction to concepts and practices of human development. It introduces students to key debates in development thinking, addressing social inequality, poverty, and exclusion, as a basis for understanding local, national and global efforts to promote justice, reduce poverty, and build environments for people to lead productive, creative and fulfilling lives. This unit critically evaluates human development from a variety of perspectives, including international development as a global project, trans-formative or development alternatives, and community development. Utilising a series of rich case studies this unit engages students in the current and emerging debates, about individual, community, organisational and institutional policy and practice in striving for human development outcomes. Students will gain an appreciation of the multidisciplinary nature of development studies, the linkages and disconnects between development approaches, and the complex nature of working across human visions of modernity, and traditional cultures in an increasingly globalised world.

*Note: \*This unit uses the FutureLearn online learning platform. Learn more about studying through FutureLearn.*

Students are recommended to complete this unit in their first year of study.

## Assessment

- Assessment 1 – Critical Case Study Analysis (1500 words) – 30%
- Assessment 2 – Online Comments and Short Answer Questions (1000 words or equivalent) – 20%
- Assessment 3 – Critical Essay (2500 words) – 50%

## ADH701 – The Humanitarian World

*Enrolment modes: Trimester 1: \*Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Daniel McAvoy*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AHLL701, AHL701*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 hour per week*

## Content

This unit is an enhanced Cloud (online) unit consisting of four modules. The introduction provides an overview of the history and development of humanitarian assistance. The first module explores the history of humanitarianism followed by the principles, theories, and values that inform current practices in the field in the second module. In the third module, we will learn about the various actors involved in the humanitarian system and analyse the emerging trends. Finally, we will critically discuss some of the dilemmas faced by the humanitarian sector. Through the use of case studies and interaction with humanitarian experts from around the world, we will examine the importance of ethical practice to successful humanitarian outcomes. This will include the study of relevant case studies across geographical and cultural contexts.

*Note: \*This unit uses the FutureLearn online learning platform. Learn more about studying through FutureLearn.*

## Assessment

- Assessment 1 – Journal (1000 words) -20%
- Assessment 2 – Report (1500 words) – 30%
- Assessment 3 – Research and Writing Exercise (2500 words) – 50%

## ADH702 – Humanitarian – Development Nexus

*Enrolment modes: Trimester 3: Cloud (online)\**

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Nazanin Zadeh-Cummings*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 hour per week*

## Content

This unit provides a critical understanding of the nexus between relief, rehabilitation and development. It will explore the reasons for existing divisions, the resulting problems and the way this approach can undermine development gains and hinders resilience building.

Learners will critically examine the international processes that led to a strengthened focus on the Humanitarian-Development Nexus (HDN), discourse around the HDN, related re-examination of international relief and development architectures, funding models and practices. We will draw upon critiques and case studies to critically analyse the concepts of an HDN in theory and on the ground and examine challenges and opportunities that the HDN poses for humanitarian and development practitioners.

*Note: \*This unit uses the FutureLearn online learning platform. Learn more about studying through FutureLearn.*

## Assessment

- Learning Journal (1000 words) – 20%
- Country Analytical Report (2000 words) – 40%
- Project Concept Note (2000 words) – 40%

We conclude by considering the way in which humanitarians engage communities in the generation and use of evidence, and the opportunities presented by new technologies for better community engagement. The assessment tasks will provide students with the opportunity to critically engage with the issues discussed, as well as to apply their learning to a practical task of a nature required in humanitarian practice.

*Note: \*This unit uses the FutureLearn online learning platform. Learn more about studying through FutureLearn.*

## Assessment

- Essay (2000 words) – 40%
- Learning Journal (1000 words) – 20%
- Evaluation Proposal (2000 words) – 40%

## ADH703 – Evidence and Decision Making in Humanitarian Action

*Enrolment modes: Trimester 2: Cloud (online)\**

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Nazanin Zadeh-Cummings*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 x 1 hour Online Seminar per week*

## Content

This unit explores the generation of evidence in humanitarian action, and its use as a basis for humanitarian decision making. We begin by considering the nature of decision making in humanitarian crises: how, by whom, and on what basis, are decisions made? We then further explore the nature of humanitarian decision making through an examination of two decision making 'case studies': decisions regarding whether, when and how to respond in response to early warnings of crisis, and decisions regarding how to target humanitarian aid. We then consider the nature of evidence used in humanitarian crises, ethical considerations associated with its collection, and the main ways in which it is generated (namely, through assessments, monitoring and evaluation).

## ADH712 – Food Security

*Enrolment modes: Trimester 1: Cloud (online)\**

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Maree Pardy*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AID612, AID712, ADS712*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 x 1 hour per week*

## Content

Ending hunger, ensuring food security and sustainable food production, as well as improving nutrition is a complex challenge. This unit equips students with a critical understanding of food systems, links from food production to consumption, secure and safe access to food for all, and food utilisation.

The unit considers diverse understandings of food, from rights based approaches embedded in the food sovereignty discourse, to food security, and food as a commodity. It explores sustainable development, environmental and resource management and conservation, and agricultural/rural production systems, as well as aid and trade.

Linkages between social, environmental and economic influences on development will be investigated, alongside critical review of debates on population, conflict and natural disasters, resource scarcity, poverty, and equality. Theoretical debate will be used to inform practical analysis and case studies of policy and programme responses, in development, emergency relief, and community contexts, globally and locally.

*Note: \*This unit uses the FutureLearn online learning platform. Learn more about studying through FutureLearn.*

## Assessment

- Research and writing exercise (2000 Words) – 40%
- Research and writing exercise (3000 words) – 60%

## ADH714 – Gender and Development

*Enrolment modes: Trimester 2: Cloud (online)\**

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Maree Pardy*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AID614, AID714, ADS714*

*Scheduled learning activities – cloud (online): Learning experiences are via FutureLearn and will include 7 scheduled online seminars PLUS online independent and collaborative discussions and learning activities*

## Content

Topics to be addressed in this unit include: key debates in gender and development (human rights, feminisation of poverty, historical treatment of gender and development); major theories of gender, sexuality and power; gender and development institutions; case studies (gender-based violence, gender and economic participation, health and reproduction, education).

*Note: \*This unit uses the FutureLearn online learning platform. Learn more about studying through FutureLearn.*

## Assessment

- Essay (1500 words) – 25%
- Presentation (1500 words) – 25%
- Report (2000 words) – 50%

## ADH716 – Humanitarian Settlement

*Enrolment modes: Trimester 2: Cloud (online)\**

*Credit point(s): 1*

*Previously coded as: ADS716, AHA716*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Daniel Mcavoy*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ASD716, AHA716*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 hour per week*

## Content

In the context of unprecedented levels of forced displacement of refugees and other populations in need of protection, there is a need for countries to identify clear humanitarian policies, protocols and practices for integration and settlement of refugees. This unit aims to provide the student with an understanding of the history and concepts of refugee and refugee resettlement, the refugee experiences of resettlement and refugee resettlement policies and practices. The unit critically examines the potential on principles of community development to facilitate refugee resettlement and foster autonomous action amongst refugee groups.

Topics to be addressed in this unit include:

- The concepts of refugee and refugee resettlement
- International, United Nations and Australian policies of refugee resettlement
- What it means to be a refugee: refugee experiences
- Refugee resettlement programs
- How to facilitate refugee settlement into local communities
- How to facilitate autonomous action and independence amongst refugee groups
- Refugee related trauma

*Note: \*This unit uses the FutureLearn online learning platform. Learn more about studying through FutureLearn.*

## Assessment

- Report (1500 words) – 30%
- Journal (1000 words) – 20%
- Essay (2500 words) – 50%

## ADH717 – Sustainability and Development

*Enrolment modes: Trimester 3: Cloud (online)\**

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Max Kelly*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ADS717*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 x 1 hour per week*

### Content

This unit consists of an enhanced cloud (online) experience that engages with the issues of sustainability in development contexts. The unit will explore the discourse of sustainability and how this is understood, theorised and practiced in development programs and projects. The unit will interrogate the importance of sustainability across policy and practice and the significance of working closely with affected communities in order to achieve sustainable outcomes that are meaningful to the people concerned. The key issue of planetary boundaries will be explored through the use of simulation exercises and case studies and how this can and has influenced outcomes in development. Concepts such as complexity theory, sustainable development and ecological understandings will engage students in a critical debate on sustainability across different development contexts.

*Note: \*This unit uses the FutureLearn online learning platform. Learn more about studying through FutureLearn.*

### Assessment

- Essay (2000 words) – 40%
- Project (3000 words) – 60%

## ADH724 – Disaster Risk Reduction and Management in Humanitarian Contexts

*Enrolment modes: Trimester 3: Cloud (online)\**

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Nazanin Zadeh-Cummings*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AHA724*

*Scheduled learning activities – cloud (online): \*This unit uses the FutureLearn online learning platform. Learn more about studying through FutureLearn.*

### Content

This unit explores the concepts of disaster risk reduction (DRR) and management, and the relationship between disasters, climate change and resilience. It considers the key international frameworks and institutional structures relevant to DRR, and examines a range of program interventions and approaches used to manage disaster risk. The unit includes a particular focus on community-based disaster risk reduction, and on strategies to ensure that interventions respond to the needs of vulnerable groups. We also examine the importance of national disaster management institutions, laws, policies and plans, and consider the importance of national government preparedness for requesting and receiving international humanitarian assistance. The unit considers international and national financing mechanisms relevant to DRR, and the way in which DRR interventions are monitored and evaluated. Throughout the unit we will be considering a range of case studies from different parts of the world, to illustrate the concepts and the issues discussed.

### Assessment

- Journal (1000 words) – 20%
- Assessment 2 (Group) – DRR Strategy (2000 words) – 40%
- Essay (2000 words) – 40%

## ADH733 – The Economic Development Record

*Enrolment modes: Trimester 1: Cloud (online)\**

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Damien Kingsbury*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AID231, AID331, AID731, AID733, ADS733*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 x 1 hour Online Seminar per week*

### Content

The unit examines the progress of thinking about the meaning of development and development strategies as these have been revealed in the international development experience since 1950. The perspective taken is cross-disciplinary, but focuses on material measures of development and economic indicators. Current events are considered in the historical context of long term trends in international development.

*Note: \*This unit uses the FutureLearn online learning platform. Learn more about studying through FutureLearn.*

### Assessment

- Assessment 1 – Essay (2000 words) – 40%
- Assessment 2 – Essay (3000 words) – 60%

## ADH790 – Research Project Capstone

*Enrolment modes: Trimester 1: FutureLearn – Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Matthew Clarke*

*Prerequisite: AER730 plus 4 ADH coded units*

*Corequisite: Must be enrolled in A705*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): This unit uses the FutureLearn online learning platform.*

### Content

This unit will be run as a fully cloud based unit on FutureLearn. Resources will be provided via the unit site and will include a Unit Guide, Study Guide, cloud concepts and other electronic resources. News relating to the subject will be communicated via the unit site on FutureLearn. All course materials and communication will take place on the unit site and guidance will be provided to assist students to achieve the unit learning outcomes.

*Note: \*This unit uses the FutureLearn online learning platform. Learn more about studying through FutureLearn.*

### Assessment

- Research and Writing Exercise (2000 words) – 40%
- Research Essay (5000 words incorporating Assessment 1) – 60%

## ADS701 – Introduction to International and Community Development

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Yamini Narayanan*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ADH700*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 x 1 hour per week.*

### Content

This unit is a foundational unit in International and Community Development. It provides an in-depth introduction to concepts and practices of human development. It introduces students to key debates in development thinking, addressing social inequality, poverty, and exclusion, as a basis for understanding local, national and global efforts to promote justice, reduce poverty, and build environments for people to lead productive, creative and fulfilling lives.

This unit critically evaluates human development from a variety of perspectives, including international development as a global project, trans-formative or development alternatives, and community development. Utilising a series of rich case studies this

unit engages students in the current and emerging debates, about individual, community, organisational and institutional policy and practice in striving for human development outcomes.

Students will gain an appreciation of the multidisciplinary nature of development studies, the linkages and disconnects between development approaches, and the complex nature of working across human visions of modernity, and traditional cultures in an increasingly globalised world.

*Note: Students are recommended to complete this unit in their first year of study*

## Assessment

- Assessment 1 – Critical Case Study Analysis (1500 words) – 30%
- Assessment 2 – Online Comments and Short Answer Questions (1000 words or equivalent) – 20%
- Assessment 3 – Critical Essay (2500 words) – 50%

## ADS704 – Community Development Theory and Practice A

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Maree Pardy*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ADS304, ASD704, ASD704*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities and discussions including 1 scheduled online Seminar per week.*

## Content

This unit aims to enable students to develop an understanding and critical appreciation of the theory and practice of community development. Students will understand the key themes, concepts, principles and theoretical foundations of community development and be able to identify and analyse practice issues in community development. Students explore the principles and theories informing community development. They investigate the forms of community development and some of the processes operating in community organisations. Community development and practice is placed in the context of wider theoretical issues.

Debates about the nature of contemporary society, including the role of the state and the welfare state, the market and civil society, and modernity and postmodernity, sets the framework for analysis of the tensions in community development. Positions and arguments are discussed in relation to concrete examples and case studies in community development.

## Assessment

- Essay (1000 words) – 20%
- Assessment 2 (Group) – Group Assignment (2500 words) – 50%
- Essay (1500 words) – 30%

## ADS705 – Participatory and Community Development Practice

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Helen Dalton*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ASD605, ASD705*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 x 1 hour per week*

## Content

The focus of this unit is community development in practice. Students examine the sites of community development, the processes through which community development take place and the skills required for effective community development work. The first part of the unit explores the changing context of CD practice, some key theoretical considerations leading to praxis (action plus reflection), the merits of top-down, bottom-up and knowledge partnering in CD, before turning our attention to building practical skills in participatory development. Emphasis is placed on how community development skills can be articulated and developed in ways that facilitate the empowerment of communities to take control of and responsibility for their own development.

## Assessment

- Essay (2000 words or equivalent) – 40%,
- Problem solving exercise and critical reflection (3000 words or equivalent) – 60%

## ADS711 – Non-Government Organisations and other Development Actors

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*Previously coded as: AID711*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Anthony Ware*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AID611, AID711*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 x 1 hour per week*

### Content

This unit provides an in-depth exploration of the history, trends, types and roles of development agencies and other actors in the development sector.

This unit explores the role of civil society in positive change, critically evaluating the formation, role and effectiveness of 'third sector' or Non-Government Organisations (NGOs) in both Australia and internationally. It then also examines the history, diversity and effective roles of a diversity of other types of development agencies, including multilateral agencies, government agencies and donors, philanthropic trusts, for-profit contractors and corporate entities. The trajectory of interrelationships in the sector is considered, as are the roles of donors, governments, international structures, profit-making agencies, community-based organisations and indigenous local organisations.

Students will gain an appreciation of the complexity of the sector, the diversity of actors and roles, the strengths and weaknesses of various actors, and how these interests are reconciled in practice.

### Assessment

- Report (1000 words) – 20%
- Research and Writing Exercise (1000 words) – 20%
- Report (3000 words) – 60%

## ADS715 – Cross Cultural Communication and Practice

*Enrolment modes: Trimester 3: Cloud (online)*

*Credit point(s): 1*

*Previously coded as: ASD715*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Max Kelly*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ASD715*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 x 1 hour per week*

### Content

This unit focuses on the diversity of cultures, how difference between ethnic groups is constructed and how to respond appropriately to difference. It provides the student with an understanding of the principles of cross-cultural communication and practice and development of cultural competency as community development practitioners in different cultural settings. Students will be encouraged to apply and analyse their experiences as case-studies.

Topics to be addressed in this unit include:

- the meanings of culture and how it affects community development practice;
- the meanings of cultural competence;
- cultural conflict;
- cross-cultural communication skills;
- cross-cultural teamwork in community development;
- building culturally competent community partnerships;
- cross-cultural negotiation and conflict resolution.

### Assessment

- Essay (2000 words) – 40%
- Essay (3000 words) – 60%

## ADS720 – Arts and Sports-based Approaches to Community Development

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Vicki-Ann Ware*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 x 1 hour per week*

### Content

A growing number of development, arts and sports practitioners are utilising arts and sports as a platform or tool for engaging communities in development conversations and activities, to improve psycho-social wellbeing in disadvantaged, conflict-affected, or traumatised post-disaster communities. Arts are also sometimes used as a development communication tool. But do they lead to effective change? In what contexts are they more effective? And are they ever ineffective or even harmful? This unit explores these alternative approaches to development, introducing the current evidence base to investigate where these approaches can enhance or detract from development. The unit will also provide students with a critical yet practical focus on current methods for applying these tools to their own professional context. Case studies of current organisations utilising these approaches will be analysed.

Topics will include: an introduction to the theory of arts-based and sports-based development; similarities and differences between arts- and sports-based interventions; the nature of the current evidence base and issues in measuring impact; some major approaches to implementing these approaches, and key practitioners working in the area; the strengths and weaknesses of these approaches, including key areas where they are currently implemented (e.g. education for disengaged youth, peacebuilding, negotiation, political dialogue, identity formation); and future directions in research.

### Assessment

Two papers, one on arts-based approaches and one on sports-based approaches to development:

- Essay: Critical assessment of the theory underpinning an arts- or sports-based development intervention (2000 words) – 40%
- Research and Writing Exercise: Problem solving exercise to design an arts-/sports-based approach to addressing a practical development issue (3000 words) – 60%

## ADS721 – Policy and Advocacy in Development Contexts

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Vicki-Ann Ware*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 x 1 hour per week*

### Content

Much of today's poverty, social exclusion, inequality, structural barriers to full participation in society, and underdevelopment – whether in developed or developing countries – is in part driven by poor government policy and governance. Addressing those issues will thus require changes in policy processes and outcomes. Therefore, sound government policy has an important role to play in alleviating poverty and inequality. This unit explores the role NGOs can have in contributing to improved policy development processes, both from the inside, and through advocacy.

In this unit, we explore areas such as the role of policy in reinforcing unequal social structures, the importance of policy for building more equitable societies, and how to work with governments at all levels, in both developed and developing contexts, to improve policy processes and outcomes. Using case studies and existing research, we will investigate approaches to building policy and community consultation capacity in developing country governments, as well as how NGOs in any context can advocate for policy change to improve the lives of disempowered populations.

## Assessment

Two papers, including one critical essay and one policy/advocacy design exercise:

- Essay: Critical assessment of the potential role of NGOs in contributing to more effective, pro-poor policy processes and outcomes in your choice or developing or developed country context (2000 words) – 40%
- Research and Writing Exercise: Problem solving exercise to design a strategy for either a) building policy and community consultation capacity in a developing country government; or b) advocating to improve policy processes and outcomes on behalf of a disadvantaged community in Australia (3000 words) – 60%

## ADS722 – Private Sector Development: Corporations, Social-Enterprise and Microfinance

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Anthony Ware*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 x 1 hour per week*

## Content

This unit explores a range of 'private sector' approaches to development. The 'private sector' is that part of the economy which is run by private individuals or groups, usually (but not always) as a means of enterprise for profit, and is not controlled by the State. Private sector approaches explored in this unit include: corporate social responsibility (CSR) and corporate philanthropy, social enterprise, 'bottom of the pyramid' business, inclusive business/shared value business, microenterprise (including self-employed sole traders) and microfinance for microenterprise microentrepreneurs. This unit also considers NGO-government-corporate partnerships for development (such as public-private partnerships). This unit will evaluate the scholarship and practice of each of these approaches to development, critically analysing them in the light of the known causes and drivers of poverty

and inequality, the issues of entrenched disadvantage and structural barriers, and the principles/theories of development effectiveness and empowerment.

## Assessment

- Case Study Evaluation (2000 words or equivalent) – 40%
- Critical Essay: Strategy Paper (3000 words or equivalent) – 60%

## ADS723 – The Development Project Cycle

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Helen M Dalton*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ADS707 and ADS708*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 x 1 hour per week*

## Content

This unit is designed to enable students to design, implement and assess the effectiveness of projects and programmes within the context of community development. The Development Project Cycle provides a critical overview of the project cycle in international and community development work. It enables you to conduct needs assessment and strategic planning, design programmes to respond to strategic needs, prepare grant and other submissions to resource projects, and introduces you to monitoring, evaluation and impact assessment. You will explore a range of case studies to develop both practice skills and your ability to assess the strengths and weaknesses of existing approaches to managing the project cycle.

## Assessment

- Report: Needs assessment framework, based on a theory of change, for own choice case study (1000 words) – 20%
- Essay: Analysis of paradigms and their impacts upon project design and assessment of effectiveness (1500 words) – 30%
- Report: Monitoring and evaluation strategy (2500 words) 50%

## ADS733 – The Economic Development Record

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Damien Kingsbury*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AID231, AID331, AID731, AID733, ADH733*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 x 1 hour per week*

### Content

The unit examines the progress of thinking about the meaning of development and development strategies as these have been revealed in the international development experience since 1950. The perspective taken is cross-disciplinary, but focuses on material measures of development and economic indicators. Current events are considered in the historical context of long term trends in international development.

### Assessment

- Essay (2000 words) – 40%
- Essay (3000 words) – 60%

## ADS734 – Political Development Record

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*Previously coded as: AID734*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Damien Kingsbury*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AID231, AID331, AID731, AID734*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 x 1 hour per week*

### Content

The unit examines the progress of thinking about the meaning of development and development strategies as these have been revealed in the international development experience since 1950. The perspective taken is cross-disciplinary, but focuses on the role of political thinking and decision as a key indicator of progress. Attention will be given to the idea of the nation and the state, the role of civil and political rights in political development, and notions of representation, participation and accountability, rule of law. Current events are considered in the historical context of long term trends in international development.

### Assessment

- Essay (2500 words) – 50%
- Essay/Report (2500 words) – 50%

## ADS753 – International and Community Development Internship

*Enrolment modes: Trimester 1, Trimester 2 and Trimester 3: Internship unit*

*Credit point(s): 2*

*Previously coded as: AID753*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Anthony Ware*

*Trimester 2 Unit Chair: Yamini Narayanan*

*Trimester 3 Unit Chair: Max Kelly*

*Prerequisite: The internship unit is subject to completion of core units and has special application requirements. Students should contact the unit chair in the first instance for further information.*

*Corequisite: Nil*

*Incompatible with: AID752, AID753*

*Scheduled learning activities – campus: This unit will include a minimum of 300 supervised placement hours. No formal class attendance is required, but learning resources are provided.*

### Content

The Internship unit offers students an opportunity to gain first hand work experience in a region or employment sector closely associated with topics studied at university, and to explore the practical applications of their academic study. Students are expected to complete a minimum of 300 hours (40 x 7.5) or 8 weeks full-time (or part time equivalent) of work experience in their chosen site.

The unit provides a framework for student assessment of their knowledge, skills and work choices in relation to the practices and implementation of selected topics in International and Community Development.

The structure of the unit includes:

- Pre-placement planning and organisation, including recommended reading,
- In field contact and ongoing reporting via journal and CloudDeakin discussions,
- Post fieldwork project report.

Supervision of the student in the internship will include:

- Initial interviews to establish the student's needs and areas of employment interest,
- Agreement on placement,
- Briefing by the supervisor on the tasks outlined in the project, and the focus of major assessment,
- Academic supervision is conducted using a range of asynchronous and synchronous online technologies and individual mentoring as required.

*Note: Internship enrolment is subject to completion of specified prerequisite units and special application requirements.*

Interested students should look at the Faculty Student Mobility website information [deakin.edu.au/arts-ed/internships](https://deakin.edu.au/arts-ed/internships) and are strongly advised to complete the pre internship modules: <https://d2l.deakin.edu.au/login.asp?target=/d2l/lms/legacy/selfregistration.d2l?ou=6605>

## Assessment

Students enrolled in this unit receive an ungraded pass/fail result based on assessment of the following:

- Pre-departure Report (1500 words)
- Journal (2500 words)
- Report (6000 words)

## ADT201 – Digital Technologies Design Studio

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Simeon Taylor*

*Prerequisite: Students must have completed four credit points at level 1 in courses A343, A344, A345 or A346*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour seminar per week*

## Content

Digital Technologies Design Studio considers the breadth of applications of digital technology in an evolving contemporary environment. This involves negotiating the expectations of industry and the functions, processes, languages and materials of working with technologies understanding the intersection of theory with practice as students address a range of complex problem solving projects.

## Assessment

- Research Investigation – 30%
- Presentation Proposal – 20%
- Project Presentation – 50%

## ADV101 – Drawing and Illustration

*Enrolment modes:*

*Trimester 2: Burwood (Melbourne), Waterfront (Geelong)*

*Trimester 3: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Tonya Meyrick*

*Trimester 3 Unit Chair: Tonya Meyrick*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ACV113, ACG276*

*Scheduled learning activities – campus: Trimester 2: 1 x 2 hour Seminar per week*

*In-person attendance requirements: Trimester 3: (Intensive mode) 2 x 2 hour Seminar per week (Weeks 2–6), 1 x 2 hour Seminar per week (Week 7)*

## Content

Drawing skills and the speed in which you get ideas on the page, are still essential skills regardless of the broad digital environment. Conceptualising and communicating ideas in sketch form, through to having the ability to demonstrate a complex idea quickly and easily, drawing is still a process that is valuable to a design thinker. In this unit, students will think fast and draw fast with work completed in class time. There will be time to choose your best ideas and develop them further as folio pieces but the challenge in this unit will be to conceptualise ideas and put them on paper maximising this most essential communication tool.

## Assessment

- Assessment 1 – Drawing Skills – 25%
- Assessment 2 – Think fast, draw fast – 50%
- Assessment 3 – Refinement of Two Idea – 25%

## ADV102 – Typography and Publication Design

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Tonya Meyrick*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ACG102*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

## Content

Typography is an essential component to communication and this unit explores the theory and application of forms and structures of typography including the anatomy and applications of type and font families across print, digital and web applications. This unit will address and engage with the impact and implications of selecting and applying typography to a variety of design scenarios in historical and a multifaceted contemporary setting. This unit introduces and reinforces industry standard typography practices for both print and screen based environments. Student creative thinking ideation and project strategies for design briefs are developed to enable the advancement of information technology skills, design thinking and design construction methods. This unit engages self-directed learning in conjunction with a focus on attention to discipline specific scholarly research, conceptual analysis, and global industry practice.

## Assessment

- Assessment 1 – Research Case study – 30%
- Assessment 2 – Research Proposal – 30%
- Assessment 3 – Project Presentation – 40%

## ADV201 – Web Design and Interactivity

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waterfront (Geelong), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Maria Bates*

*Trimester 3 Unit Chair: Joel Zika*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ACG206*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 11 scheduled online seminars. Online independent and collaborative learning of 150 hours. Online students must attend/review online seminars and participate in discussions and activities as required for assessment.*

## Content

This unit explores the applications and implications of designing for interactivity and the web. Central to this understanding is the relationship between design principles and the efficient usability in an interactive environment. Students will learn to design and construct strategic, interactive, energetic and visually imaginative solutions that carefully consider site, audience, navigation structure and engagement.

## Assessment

- Research presentation (1200 words or equivalent) – 30%
- Practical project/mock up (1200 words or equivalent) – 30%
- Practical project (1600 words or equivalent) – 40%

## ADV202 – Branding Design

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waterfront (Geelong)*

*Trimester 3: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Maria Bates*

*Trimester 3 Unit Chair: Maria Bates*

*Prerequisite: Students must have completed four credit points at level 1 in courses A343, A344, A345 or A346*

*Corequisite: Nil*

*Incompatible with: ACG208*

*Scheduled learning activities – campus: 1 x 2 hour*

*Seminar per week*

### Content

The unit will introduce the key concepts involved in building a visual brand strategy culminating in the development of a style guide for a real world business. Students will learn branding theories and practices including marketing, positioning, business practices, visual consistencies, stakeholders and practical design issues. These topic areas will be explored in part through a redesign problem for a real world company or organisation.

### Assessment

- Research Project – 30%
- Proposal – 30%
- Creative Project – 40%

## ADV203 – Visual Communication Design Studio

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Tonya Meyrick*

*Prerequisite: Students must have completed four credit points at level 1 in courses A343, A344, A345 or A346*

*Corequisite: Nil*

*Incompatible with: ACG204*

*Scheduled learning activities – campus: 1 x 2 hour*

*Seminar per week*

### Content

Visual communication studio considers the broader applications of visual communication in an evolving contemporary environment. This involves negotiating the expectations of industry and the functions, processes, languages and materials of a range of complex design scenarios. Students work with project strategy, incorporating practical and theoretical considerations for physical and digital systems of branding properties and environmental design. This includes the independent and self-directed development of project scope, from inception and ideation and managing workflow, to provide a range of solutions. Demonstrating outcomes within budgets and on time. In this unit students evaluate and report on industry expectations as well as the expectations of users and target audiences in different market segments. This enables students a better understanding and develop the abilities to design for and meet complex client expectations within a visual communication design studio practice.

*Note: Commencing 2019*

### Assessment

- Assessment 1 – Research Investigation – 30%
- Assessment 2 – Project Presentation 1 – 30%
- Assessment 3 – Project Presentation 2 – 40%

## AEI101 – Producing Entertainment

*Enrolment modes: No longer available for enrolment*

*Credit point(s): 1*

*Trimester 1 Unit Chair: Victoria Duckett*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour*

*Seminar per week*

### Content

This unit is an introduction to the major concepts and approaches that constitute entertainment production studies. It uses a series of key questions to critically address the materials, industries, individuals and circuits of cultural production that are implicated in entertainment production today. The unit asks: What is entertainment? Who produces entertainment? How and where does entertainment circulate and spread? What systems, industries, and individuals determine the production of entertainment?

Giving attention to local and global circuits of cultural production (as well as to the intersections and overlaps between these), students are encouraged to analyse the increasingly democratic and inclusive nature of the producer's function.

### Assessment

- Assessment 1 – Research Project (1600 words or equivalent) – 40%
- Assessment 2 – Analytical Presentation (2400 words or equivalent) – 60%

## AEI203 – Distributing Entertainment

*Enrolment modes: No longer available for enrolment*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Cohort rule: This unit is only available to students enrolled in A332 – Bachelor of Entertainment Production*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour*

*Seminar per week*

### Content

This unit provides students with the skills necessary to understand the material practices of entertainment distribution. Building upon the knowledge gained in AEI102, it explores distribution as a changing process of spatialisation that links consumers, technologies, and entertainments. Students will be able to identify, analyse, evaluate and map spatial and temporal variables in entertainment distribution.

### Assessment

- Assessment 1 – Choose an entertainment venue or product (i.e. live sport, live theatrical cinema, film, a specific cinema). Identify its key spatial and temporal variables (1000 words equivalent) – 25%
- Assessment 2 – Research, collect and present the data background to your chosen entertainment venue or product (1000 words equivalent) – 25%
- Assessment 3 – Using the software provided in class, map the data you have collected and present it to the class (2000 words equivalent) – 50%

## AEI204 – Programming Entertainment

*Enrolment modes: No longer available for enrolment*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Prerequisite: AEI101*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour*

*Seminar per week*

### Content

This unit is an introduction to the programming of entertainment. It introduces students to the ethical, political and business contexts of entertainment production. Students will acquire the conceptual and practical skills necessary to select and curate entertainment. These skills will be tested through the making and evaluation of a curated event, festival or entertainment

### Assessment

- Assessment 1 – Research and Plan an entertainment event (1000 words or equivalent) – 25%
- Assessment 2 – Programming for an entertainment event (2000 words or equivalent) – 50%
- Assessment 3 – Evaluate an entertainment event (1000 words or equivalent) – 25%

## AER730 – Why Research Matters

*Enrolment modes:*

*Trimester 1: FutureLearn – Cloud (online)*

*Trimester 2: FutureLearn – Cloud (online)*

*Trimester 3: FutureLearn – Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1, 2 and 3 Unit Chair:*

*Contact [dlf-futurelearn@deakin.edu.au](mailto:dlf-futurelearn@deakin.edu.au)*

*Corequisite: Must be enrolled in A705*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 hour per week*

## Content

This unit will further develop your research skills so you will be able to solve problems on a global scale and make evidence-based decisions. You will explore several case studies highlighting research at two of Australia's leading research institutions, Deakin and Griffith Universities, to help you understand the real-world application of research methods and techniques.

You will receive credit for this unit by completing the 'Why Research Matters: Evidence at Work' Program on FutureLearn with learners from all around the world.

During the FutureLearn program, you will:

- Use data to make evidence-based recommendations that address real world problems
- Assess various research approaches and perspectives in broadening your understanding of a problem
- Practise common research techniques including interviewing, coding and statistical analysis
- Develop a framework for ethical governance of a research project
- Plan the implementation of your own research project

You will be assessed on your development of a feasible research proposal, which you will work towards throughout the program by keeping a portfolio of potential research topics, approaches and refined research questions.

*Note: This unit uses the FutureLearn online learning platform. Learn more about studying through FutureLearn.*

## Assessment

- Research Proposal Outline – Peer Review and Educator Review (Formative and Summative) – 10%
- Literature Review (Summative) – 60 %
- Research Proposal Presentation – Video and automatic asynchronous Interview (Summative) – 30%

## Hurdle requirement

A pass is required in each assessment task to pass the unit.

Students will receive a bursary towards this unit which will reduce the unit fee to \$990. This bursary will be applied to recognise the unique nature of delivery for the unit which will be co-taught with Griffith University and delivered through FutureLearn.

## AGS101 – Sex and Gender: Ideas That Changed the World

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)*

*Trimester 3: Cloud (online), Burwood (Intensive)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Daniel Marshall*

*Trimester 3 Unit Chair: Daniel Marshall*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Trimester 1:*

*1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online):*

*Trimester 1:*

*Online independent and collaborative learning activities including: 1 x 1 hour Class per week and 1 x 2 hour Seminar equivalent.*

*Trimester 3:*

*Online independent and collaborative learning activities including Class and Seminar activities*

*In-person attendance requirements: Trimester 3:*

*Campus (Intensive): 1 x 1 hour Class, 1 x 2 hour Seminar (Week 1), 2 x 1 hour Class, 2 x 2 hour Seminar (Weeks 3, 5, 8, 9, 10)*

## Content

Sex and gender are everywhere in today's society. From the question 'where do babies come from?' to growing up and developing our identity, to the contemporary public contexts of the books we read, the films we watch, our lives online and the politics which govern us, sex and gender are central. This abundance tells us that sex, sexuality and gender mean many different things to different people. More than this, they take on a variety of different meanings in different cultural contexts and at different points in history. This unit will provide you with an essential introduction to key ideas, writers and thinkers in gender and sexuality studies, approaching sex, sexuality and gender not as unchanging, universal facts, but as ideas that vary and develop. We will also focus on developing your analytical skills in critical reading, and on analysing representations of gender and sexuality in everyday culture and a range of textual forms, including novels, poetry, films and historical/archival materials. Topics to be introduced in this unit include: feminism in popular culture; histories and

cultural politics of masculinity and heterosexuality; LGBTIQ rights movements; canonical feminist/queer texts and theories; transnational flows in knowledge and local histories; and contemporary controversies in sex, sexuality and gender.

## Assessment

- Assessment 1: (Individual) – Portfolio (Weeks 1–5) (1200 words or equivalent) – 30%
- Assessment 2: (Individual) – Portfolio (Weeks 6–11) (1200 words or equivalent) – 30%
- Assessment 3: (Individual) – Essay (1600 words or equivalent) – 40%

## AGS102 – Histories of Sex and Gender

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Ann Vickery*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including: 1 x 1 hour Class per week (recordings provided) and 1 x 2 hour Seminar equivalent.*

## Content

This unit will provide a detailed introduction to histories of sexuality and gender in Australia while also situating these histories in their broader international and cultural contexts. Through a critical engagement with histories of feminism, masculinities, heterosexuality and LGBTIQ (lesbian, gay, bisexual, transgender, intersex, queer) life, this unit will provide the student with an understanding of the historical emergence of different ways of understanding – and fighting over – sexual practices, sexuality and gender. For example, the unit will examine a variety of political topics, including feminist struggles, gay liberation, transgender rights and changing understandings of masculinity and the family. The unit's focus on histories of sexuality and gender will be explored through the use of a transdisciplinary combination of creative, critical, theoretical and historical resources, including literature, films, television, art, and archival materials.

## Assessment

- Report (1000 words or equivalent) – 25%
- Exercise (1000 words or equivalent) – 25%
- Essay (2000 words or equivalent) – 50%

## AGS200 – Cultural Studies of Sex and Gender

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Daniel Marshall*

*Prerequisite: Complete four level 1 units*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including: 1 x 1 hour Class per week (recordings provided) and 1 x 2 hour Seminar equivalent.*

## Content

Sexuality and gender are often said to be part of our everyday culture, including identity, family, relationships, consumption, work, fashion, popular culture and leisure activities. But what do we mean by this notion of 'everyday culture', and how have sexuality and gender historically been studied as lived experiences in culture? This unit will draw on historical and contemporary research into cultural experiences and expressions of sexuality and gender, with a focus on youth, to examine how culture, sexuality and gender are produced, lived and studied as embodied forms of knowledge. From the 'invention' of the teenager to subcultural youth studies of the 1970s, and from girl studies to contemporary online cultures, this unit will look at a wide variety of diverse cultural enactments and practices linked to young people, gender and sexuality. The unit will introduce the student to key theoretical and conceptual resources and ideas in cultural studies and studies of gender and sexuality in culture. The unit's focus on cultural studies of sexuality and gender will be explored through the use of a transdisciplinary combination of creative, critical, theoretical and historical resources, including literature, films, television, art, archival materials and cultural practices of everyday life.

## Assessment

- Assessment 1 (Group) – Report Assignment (1600 words or equivalent) – 40%
- Essay (2400 words or equivalent) – 60%

## AGS300 – Theories of Sex and Gender

*Offering information: Commencing 2020*

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Daniel Marshall*

*Prerequisite: AGS200 or with approval of the unit chair*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

## Content

This unit completes the core sequence of units in the Gender and Sexuality Studies major which have focused on histories of, and contemporary approaches within, gender and sexuality studies. The unit focuses on innovative and influential theoretical approaches to the study of sexuality and gender across disciplines. It is divided into three modules (bodies, feelings, and practices). With reference to influential sexological, anthropological and psychoanalytic theories of sexuality and gender from the late nineteenth and early-twentieth centuries, this unit contextualizes and deploys contemporary theoretical engagements with bodies, feelings and practices as understood through the prism of gender and sexuality. The unit will help prepare students for undertaking their own independent creative and critical work, as well as Honours study in the field.

*Note: Commencing 2020*

## Assessment

- A plan for an imaginary research project (1600 words or equivalent) – 40%
- Research Essay (2400 words or equivalent) – 60%

## AHA716 – Humanitarian Settlement

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*Previously coded as: ADS716*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Daniel Mcavoy*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ASD716, ADH716*

*Scheduled learning activities – campus: 1 x 1 hour seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 hour per week*

## Content

In the context of unprecedented levels of forced displacement of refugees and other populations in need of protection, there is a need for countries to identify clear humanitarian policies, protocols and practices for integration and settlement of refugees. This unit aims to provide the student with an understanding of the history and concepts of refugee and refugee resettlement, the refugee experiences of resettlement and refugee resettlement policies and practices. The unit critically examines the potential on principles of community development to facilitate refugee resettlement and foster autonomous action amongst refugee groups.

Topics to be addressed in this unit include:

- The concepts of refugee and refugee resettlement
- International, United Nations and Australian policies of refugee resettlement
- What it means to be a refugee: refugee experiences
- Refugee resettlement programs
- How to facilitate refugee settlement into local communities
- How to facilitate autonomous action and independence amongst refugee groups
- Refugee related trauma

*Note: This is a campus based unit, for cloud based delivery for students in course A567 (FutureLearn) ADH716 is available as an alternate unit. FutureLearn is an online learning platform. Learn more about studying through FutureLearn.*

## Assessment

- Report (1500 words) – 30%
- Journal (1000 words) – 20%
- Essay (2500 words) – 50%

## AHA721 – Dynamics and Dilemmas of the Humanitarian Sector

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Rebecca Barber*

*Prerequisite: Nil*

*Corequisite: AHL701 unless previously completed*

*Co/pre-requisite rule waived for A767 students enrolled from Trimester 1, 2019*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1.5 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 x 1 hour Online Seminar per week*

### Content

This unit provides a critical understanding of the key policy issues currently facing the humanitarian sector, with a focus on geo-political trends and their implications for the delivery of principled humanitarian action in conflict contexts.

We begin by examining the legal frameworks relevant to humanitarian crises, including international law on the use of force and the quasi-legal doctrines of humanitarian intervention and the responsibility to protect, and international human rights and humanitarian law. We then consider the securitization and politicization of aid, including discussion of stabilization operations and civil-military relations, and we discuss the evolving role of the UN in humanitarian crises – from peacekeeping to ‘integrated missions’. We also examine the rules and practicalities related to humanitarian access, including by examining the implications of counter-terrorism legislation. We finish by discussing the dynamics and dilemmas likely to face humanitarian practitioners working in conflict contexts into the future.

### Assessment

- Learning Journal (1000 words) – 20%
- Assessment 2 – total 40%, comprising:
  - (Group) – Policy Brief (2500 words) – 30%
  - (Individual) – Individual reflection on group task (300 words) – 10%
- Analytical essay (2000 words) – 40%

## AHA722 – Applied Humanitarian Assistance: From Theory to Practice

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Daniel Mcavoy*

*Prerequisite: Nil*

*Corequisite: AHL701 unless previously completed*

*Co/pre-requisite rule waived for A767 students enrolled from Trimester 1, 2019*

*Incompatible with: Nil*

*Scheduled learning activities – campus: All students will be required to complete 18 hours of self-paced preparatory work in the three weeks prior to the intensive.*

*Scheduled learning activities – cloud (online): This unit will also engage students in enhanced online presence through CloudDeakin. Students will undertake online exercises, case studies, virtual simulations, cloud concept presentations and student-led discussions.*

*In-person attendance requirements: All students are required to attend a 5 day intensive (8 hours per day) at Burwood (Melbourne).*

*Intensive located learning will engage students through visits to local case study sites, guest speakers from the Humanitarian and Emergency Management sectors, classes and seminars.*

### Content

This unit consists of an intensive campus based module that introduces key issues in humanitarian contexts. While these issues will inevitably change over time, the unit will address current and emerging issues that are affecting humanitarian responses. The located intensive learning will include visits to local case study areas to explore implementation, political, geographic, organisational, and power issues involved in humanitarian and emergency responses to complex disaster situations. Students will also be introduced to international case studies of humanitarian responses and the contexts in which they occur.

The second aspect to this unit will be delivered via Cloud (online) and include the use of virtual case studies to examine the issues of disaster preparedness and the Disaster Risk Management Cycle (DRMC) across different physical and cultural contexts. We will also examine the role of different stakeholders in pre-disaster and

post-disaster phases and how community development principles can inform and strengthen the processes involved. Further, we will explore the role of the media in disasters and emergency response. Finally, the role of response coordination processes will be critically analysed to strengthen understandings of the importance of including all stakeholders including local communities to achieve the best outcomes possible in all phases.

## Assessment

- Assessment 1 – Literature Review (1500 words) – 30%
- Assessment 2 – Group Assignment (2000 words) – 40%
- Assessment 3 – Journal (1500 words) – 30%

## AHA723 – Fundamentals of Humanitarian Management

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1  
EFTSL value: 0.125*

*Trimester 2 Unit Chair: Nazanin Zadeh-Cummings*

*Prerequisite: Nil*

*Corequisite: AHL701 unless previously completed  
Co/pre-requisite rule waived for A767 students enrolled from Trimester 1, 2019  
Incompatible with: Nil*

*Scheduled learning activities – campus: Burwood:  
6 x 2 hour seminars (plus additional webinars via CloudDeakin)*

*Scheduled learning activities – cloud (online): Learning experiences are via CloudDeakin (including access to recordings of on-campus seminars)*

## Content

This unit explores specific issues and challenges faced by humanitarian organisations and managers operating in humanitarian contexts. Topics examined include: the discourse of ‘professionalisation’ in the sector and its implications for education, training and capacity-building of workers and volunteers in the humanitarian sector; aid worker resilience, well-being and self-management; organisational change, learning and innovation; issues related to operational management in the field; people-management in the humanitarian sector; and safety and security of humanitarian workers. Topics will be explored through the use of case studies to highlight the importance of building trust, communication, accountability, decision making, coordination and teamwork when working in complex humanitarian emergencies.

## Assessment

- Journal (1000 words) – 20%
- Assessment 2 (Group 2–3 students) – Assignment (1500 words) – 30%
- Essay (2500 words) – 50%

## AHA724 – Disaster Risk Reduction and Management in Humanitarian Contexts

*Enrolment modes: Trimester 3: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1  
EFTSL value: 0.125  
Trimester 3 Unit Chair: Nazanin Zadeh-Cummings*

*Prerequisite: Nil*

*Corequisite: AHL701*

*Co/pre-requisite rule waived for A767 students enrolled from Trimester 1, 2019  
Incompatible with: ADH724*

*Scheduled learning activities – campus: 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 x 1 hour Online Seminar per week*

## Content

This unit will be delivered via Cloud (online). It will introduce the concept of risk reduction and management across local and international contexts. It will also include case studies to explore how Disaster Risk Reduction (DRR) programmes are put into practice as well as the examination of Disaster Risk Management (DRM) outcomes from humanitarian and emergency responses locally and internationally. The unit will include the use of cloud concept presentations, virtual case studies and simulations to examine the issues of disaster preparedness and DRR across different physical and cultural contexts. Students will also critically examine the role of different stakeholders in pre- and post-disaster phases and the strength of community development-based disaster risk management processes. Another key component of the learning in this unit will be exploring the role of security and social risk as key components of risk management processes in humanitarian contexts.

## Assessment

- Journal (1000 words) – 20%. Typically due in week 5
- Group Assignment: DRR Strategy (2000 words) – 40%. Typically due in week 9
- Essay (2000 words) – 40%. Typically due in week 12

## AHA725 – Project and Financial Management in Humanitarian Contexts

*Enrolment modes: Trimester 3: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Sonia Brockington*

*Prerequisite: Nil*

*Corequisite: AHL701 unless previously completed*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Burwood: To be advised*

*Scheduled learning activities – cloud (online): Learning experiences are via a combination of Cloud (online) and intensive campus mode delivery.*

*In-person attendance requirements: Intensive: Students are also required to attend 5 days on campus.*

*Intensive located learning will engage students through visits to local case study sites, guest speakers from the Humanitarian and Emergency Management sectors, classes and seminars. This unit will also engage students in enhanced online presence through CloudDeakin. Students will undertake online exercises, case studies, virtual simulations, cloud concept presentations and student-led discussions.*

### Content

This unit consists of an intensive campus based module that introduces students to project and financial management processes in the humanitarian and emergency management sectors. Students will visit NGOs to explore how projects are managed at headquarter and field level and how systems have influenced organisational responses and outcomes for affected communities. The second aspect to this unit will be delivered via Cloud (online) and includes the theory behind the project and financial management and some of the opportunities and challenges that arise in complex humanitarian responses. This unit will include a critical examination of donor understandings and how these are influenced by political, social and economic factors leading to impacts on response, transition and development outcomes for affected communities. Other key learning in this unit will engage students in designing projects proposals and presenting them to various stakeholders.

### Assessment

- Assessment 1 – total 50%, comprising:
  - Part A (Group) – Project proposal (2500 words) – 40%
  - Part B (Individual) – Personal reflection (500 words) – 10%
- Assessment 2 – Presentation (10 minutes) – 20%
- Assessment 3 – Essay (2000 words) – 30%

## AHA726 – Humanitarian Assistance Internship

*Enrolment modes: Trimester 1, Trimester 2 and Trimester 3: Internship unit*

*Credit point(s): 4*

*EFTSL value: 0.500*

*Trimester 1 Unit Chair: Daniel McAvoy*

*Trimester 2 Unit Chair: Helen Martin*

*Trimester 3 Unit Chair: Helen Martin*

*Prerequisite: AHA721, AHA722, AHA724 and permission from unit chair to enrol*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Timelines for the Internship are to be negotiated with the Host Organisation by the student, as part of the process of securing the Internship. These are then presented to the Academic Supervisor and Student Mobility Office.*

### Content

In this internship unit, students are expected to complete a minimum of 487.5 hours (65 x 7.5) or 13 weeks full-time (or part time equivalent) of work experience in an organisation associated with humanitarian assistance operations. The structure of the unit includes pre-placement planning and organisation, including recommended reading; in-field contact and ongoing reporting via learning log and CloudDeakin discussions; a negotiated project plan and report of relevance to the organisation and student, and a post internship reflective report. Supervision of the student in the internship will include initial interviews to establish the student's needs and areas of interest in the humanitarian sector, agreement on internship between the student, organisation and university, and briefing by the identified organisation supervisor on the tasks outlined in the internship and the focus of major assessment. Academic supervision is conducted using a range of asynchronous and synchronous online technologies and individual mentoring as required.

Support is also provided to organisation-based supervisors to enhance the learning opportunities available to the student and the organisation.

## Assessment

- Assessment 1 – Journal (4000 words) – 30%
- Assessment 2 – Report (5000 words) – 40%
- Assessment 3 – Research and Writing Exercise (4000 words) – 30%

## AHL701 – The Humanitarian World

*Year: 2018 unit information*

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Cloud (online)*

*Trimester 3: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Daniel McAvoy*

*Trimester 2 Unit Chair: Sonia Brockington*

*Trimester 3 Unit Chair: Sonia Brockington*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AHLL701, ADH701*

*Scheduled learning activities – campus: 11 x 2 hour seminar plus 6 x 1 hour online seminar per trimester*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 hour per week*

## Content

This unit is an enhanced Cloud (online) unit consisting of four modules. The introduction provides an overview of the history and development of humanitarian assistance. The first module explores the history of humanitarianism followed by the principles, theories, and values that inform current practices in the field in the second module. In the third module, we will learn about the various actors involved in the humanitarian system and analyse the emerging trends. Finally, we will critically discuss some of the dilemmas faced by the humanitarian sector. Through the use of case studies and interaction with humanitarian experts from around the world, we will examine the importance of ethical practice to successful humanitarian outcomes. This will include the study of relevant case studies across geographical and cultural contexts.

## Assessment

- Journal (1000 words) – 20%
- Report (1500 words) – 30%
- Research and Writing Exercise (2500 words) – 50%

## AHL702 – Developing Humanitarian Leadership

*Enrolment modes:*

*Trimester 2 – Cloud (online) Intensive*

*Trimester 3 – Cloud (online) Intensive*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Phil Connors*

*Trimester 3 Unit Chair: Phil Connors*

*Cohort rule: Must be enrolled in A540 – Graduate*

*Certificate of Humanitarian Leadership*

*Prerequisite: AHL701*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 x 1 hour Online Seminar per week*

*In-person attendance requirements: Intensive: Students are also required to attend 5 days on campus*

*Intensive located learning will engage students through visits to local case study sites, guest speakers from the Humanitarian and Emergency Management sectors, classes and seminars. This unit will also engage students in enhanced online presence through CloudDeakin. Students will undertake online exercises, case studies, virtual simulations, cloud concept presentations and student-led discussions.*

## Content

This unit consists three modules:

- The first module will be an introduction to theories of leadership and the development of understanding of how these inform leadership practices in achieving effective delivery of humanitarian operations in complex emergencies. Through the use of guest lecturers who have a background in high level strategic leadership in all aspects of humanitarian and emergency response situations we will explore the role of leadership in influencing the successful outcome of operational delivery.
- In the second module we will explore the principles, theories and ethics that inform current leadership practice in the field and reflect on the importance of building high performing teams and engaging with

the opportunities to work with local communities to build local capacities in the delivery of humanitarian operations.

- The third module will involve the demonstration of leadership and team work skills in a simulated humanitarian operational response over a twenty four hour period.

This will be followed by debrief sessions and critical evaluations of teams and individuals in a supported learning environment.

*Note: This unit is a combination of Cloud (Online) and intensive campus mode delivery*

## Assessment

- Assessment 1 – Reflective Learning Log (2000 words) – 40%
- Assessment 2 – Participation in team work exercises (1000 words or equivalent) – 20%
- Assessment 3 – Observation of leadership skills and knowledge in simulation (2000 words or equivalent) – 40%

# AHL703 – Leadership in Humanitarian Operations

*Enrolment modes:*

*Trimester 1 – Cloud (Online)*

*Trimester 3 – Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Phil Connors*

*Trimester 3 Unit Chair: Phil Connors*

*Cohort rule: Must be enrolled in A540 – Graduate*

*Certificate of Humanitarian Leadership*

*Prerequisite: AHL701 and AHL702*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 x 1 hour Online Seminar per week*

## Content

This unit will provide you with key tools and analysis to enhance your strategic leadership skills when carrying out emergency responses in various contexts.

The unit will explore leadership through 6 different topics:

1. The position of humanitarianism in relation to major geopolitical trends.
2. The different types of disasters and will consider some of the lessons and good practices that the humanitarian community has identified following different types of relief and recovery responses.
3. Further analysis/development of the 'Humanitarian System', building on the themes covered in AHL701. A complex environment with many actors: from the UN to (I)NGOs to donors and, increasingly, regional intergovernmental agencies, government entities, and emerging non-Western donors.
4. Aspects of urbanisation in various parts of the world.
5. The development of humanitarian strategy from the perspective of "where to start?".
6. The strategic aspects of Support Services that you will need to consider when leading a humanitarian response.

## Assessment

- Assessment 1 – Learning Journal (2 parts) (1500 words total) – 30%
- Assessment 2 – Critical analysis (1500 words total) – 30%
- Assessment 3 – Analytical report (2000 words or equivalent) (Team Work) – 40%

# AHL704 – Demonstrating Strategic Leadership in Humanitarian Contexts

*Enrolment modes:*

*Trimester 1 – Cloud (online) – Intensive*

*Trimester 3 – Cloud (online) – Intensive*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Sophie Perreard*

*Trimester 3 Unit Chair: Phil Connors*

*Cohort rule: Must be enrolled in A540 – Graduate*

*Certificate of Humanitarian Leadership*

*Prerequisite: AHL701*

*Corequisite: AHL701*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 x 1 hour Online Seminar per week*

*In-person attendance requirements: Intensive: Students are also required to attend 5 days on campus*

*Intensive located learning will engage students through visits to local case study sites, guest speakers from the Humanitarian and Emergency Management sectors, classes and seminars. This unit will also engage students in enhanced online presence through CloudDeakin. Students will undertake online exercises, case studies, virtual simulations, cloud concept presentations and student-led discussions.*

## Content

This unit is an intensive on campus unit consisting of two modules.

- The first module will be an overview of leadership theory and a critical review of strategic leadership behaviours in the context of the humanitarian sector. The emphasis will be on communication and team building in the context of delivery of operations in a complex humanitarian emergency. A key component of this will be the importance of working with other international organisations and the importance of coordination in the efficient and effective delivery of humanitarian outcomes. Another focus will be on the central role of working with local organisations and populations in planning and delivery of humanitarian responses.
- The second module will consist of a four day simulation exercise in which you will work in teams to develop a strategic response to an unfolding humanitarian emergency. This will necessitate the demonstration of strategic leadership behaviours in formulating and implementing all aspects of a response to the emergency including working with other organisations in a coordinated way to maximise response outcomes for the benefit of affected populations.

*Note: This unit is a combination of Cloud (Online) and intensive campus mode delivery*

## Assessment

- Assessment 1 – Reflective Learning Log (2000 words) – 40%
- Assessment 2 – Participation in team work, debriefing and reflective learning exercises (1000 words or equivalent) – 20%
- Assessment 3 – Observation of strategic leadership behaviours in simulation (2000 words or equivalent) – 40%

# AHL705 – Management of Humanitarian Health Programs

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Sonia Brockington*

*Prerequisite: Nil*

*Corequisite: AHL701 can be done before or at the same time*

*Co/pre-requisite rule waived for A767 students enrolled from Trimester 1, 2019*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Learning experiences are via CloudDeakin plus 5 online Blackboard Collaborate sessions will be conducted during the trimester.*

## Content

This unit will explore the project management cycle, trends in the humanitarian sector and how these apply to health program management in complex humanitarian crises.

Students will apply learning to real life case studies, taking into account inter-agency coordination, stakeholder and donor relationships, organisational and governance requirements, and monitoring and evaluation of health programs to meet public and clinical health issues in complex humanitarian environments.

## Assessment

- Assessment 1 – Essay (2000 words) – 40%
- Assessment 2 – Team Report (3000 words) – 50%
- Assessment 3 – Self-Reflection (500 words) – 10%

## AIA105 – Visions of Australia: Time and Space From 1700 to 2010

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrnambool, Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Sarah Pinto*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour class per week (recordings provided), online independent and collaborative learning activities equivalent to 1 x 1 hour per week*

### Content

This unit in Australian Studies takes a long historical and broad geographical view of Australia. From the age of European expansion and “discovery”, it considers key moments in Australia’s history – its convict foundation, battles for territory between settlers and the indigenous population, the gold rushes, Federation, Depression, war and reconstruction, the Whitlam era of reform to the resurgence of conservatism – and interconnects these to some vital spaces. Thus AIA105 examines how indigenous land uses were replaced by different forms of agriculture in the 19th century, defying the environmental realities of the continent; how Melbourne became one of the great Victorian cities in the 1880s; how suburbs emerged along consumerism and gendered domestic ideals; how the conservation movement intersected with indigenous land rights; and how Australia engaged with a globalising world in the late 20th century. Along with these transformations of space over time, went different visions of Australia – as a yeoman democracy, as the workingman’s paradise, as the suburban dream, the lucky country and as a reconciled land of diversity. How and why these changes occurred will be explored through classes, readings, field work and online in a rich mix of text, visual materials and applied learnings.

### Assessment

- Online/class exercises (1000 words) – 30%
- Essay (1500 words) – 35%
- Essay (1500 words) – 35%

## AIB151 – Arabic 1A

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Hakeem Kasem*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1.5 hour Class per week, 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1.5 hour Class per week (recordings provided), 1 x 2 hour online Seminar per week*

### Content

This unit is designed to provide a practical and basic introduction to modern standard Arabic for students who have no acquaintance with the language so that they have the confidence to communicate effectively at the threshold levels, involving listening and speaking in the first instance, followed by the ability to read and write. The language teaching is extensive, based on audio-visual methods, in order to give students a sound training in both spoken and written Arabic. An overview of the Arabic language, its historical changes and development, the place of Arabic in the Semitic languages group and in Islam and the notion of ‘diglossia’ are explained as general background.

*Note: It is not expected that students have prior knowledge of the language.*

### Assessment

#### Campus:

- Online and Written Exercises (800 words or equivalent) – 30%
- Assessment 2 (Individual or groups of 2–3 students) – Class Participation and Presentation (5–10 minutes) – 10%
- Oral Test (10 minutes) – 20%
- Test (online (75 minutes) and written (90 minutes)) – 40%

#### Cloud (online):

- Online and Written Exercises (800 words or equivalent) – 30%
- Writing Exercise (200 words) – 20%
- Assessment 3 (Individual – Mid-Trimester Oral Test (7 minutes) – 10%
- Final-Trimester Oral Test (10 minutes) – 20%
- Assessment 5 (Individual) – Test (75 minutes) – 20%

## AIB152 – Arabic 1B

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrn Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Hakeem Kasem*

*Prerequisite: AIB151*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1.5 hour*

*Class per week, 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1.5 hour Class per week (recordings provided), 1 x 2 hour online Seminar per week*

### Content

As in Arabic 1A, a great deal of emphasis will be given to the development of practical skills in the use of language. This is a continuation of the work covered in the first trimester and will consolidate and build on the sentence patterns and vocabulary previously acquired. Cultural topics will be discussed in conjunction with the language material.

### Assessment

#### Campus:

- Online and Written Exercises (1000 words or equivalent) – 30%
- Assessment 2 (Individual or groups of 2–3 students) – Class Participation and Presentation (5–10 minutes) – 10%
- Oral Test (10 minutes) – 20%
- Test (online (75 minutes) and written (90 minutes)) – 40%

#### Cloud (online):

- Online and Written Exercises (1000 words or equivalent) – 30%
- Writing Exercise (300 words) – 20%
- Mid-Trimester Oral Test (7 minutes) – 10%
- Final-Trimester Oral Test (10 minutes) – 20%
- Assessment 5 (Individual) – Test (75 minutes) – 20%

## AIB251 – Arabic 2A

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrn Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Hakeem Kasem*

*Prerequisite: AIB152 or permission from unit chair to enrol*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1.5 hour*

*Class per week, 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1.5 hour Class per week (recordings provided), 1 x 2 hour online Seminar per week*

### Content

As in AIB152 Arabic 1B, emphasis will be given to the development of practical language skills for aural comprehension and expression. The basic communicative functions, syntactic patterns and vocabulary acquired will be considerably broadened and consolidated. The vocabulary range of students will be expanded by exposing them to a variety of reading material from prescribed textbooks and from the current press.

### Assessment

#### Campus:

- Online and Written Exercises (1600 words or equivalent) – 30%
- Assessment 2 (Individual or groups of 2–3 students) – Class Participation and Presentation (7–10 minutes) – 10%
- Oral Test (10 minutes) – 20%
- Test (online (75 minutes) and written (90 minutes)) – 40%

#### Cloud (online):

- Online and Written Exercises (1600 words or equivalent) – 30%
- Writing Exercise (400 words) – 20%
- Mid-Trimester Oral Test (10 minutes) – 10%
- Final-Trimester Oral Test (15 minutes) – 20%
- Assessment 5 (Individual) – Test (75 minutes) – 20%

## AIB252 – Arabic 2B

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Hakeem Kasem*

*Prerequisite: AIB251 or permission from unit chair to enrol*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1.5 hour*

*Class per week, 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1.5 hour Class per week (recordings provided), 1 x 2 hour online Seminar per week*

### Content

This unit continues the work undertaken in AIB251 Arabic 2A and introduces students to more advanced texts in Arabic. It will also cover the remainder of essential aspects of Arabic grammar so that by the end of this unit students will have acquired a strong language foundation. Students will increase their oral fluency by participating in discussions dealing with a wide range of topics and issues. By reading a variety of styles used by novelists and journalists, students will be sensitised to discourse structures of Arabic unlike those familiar to them in English.

### Assessment

#### Campus:

- Online and Written Exercises (1800–2000 words or equivalent) – 30%
- Assessment 2 (Individual or groups of 2–3 students) – Class Participation and Presentation (7–10 minutes) – 10%
- Oral Test (10 minutes) – 20%
- Test (online (75 minutes) and written (90 minutes)) – 40%

#### Cloud (online):

- Online and Written Exercises (1800–2000 words or equivalent) – 30%
- Writing Exercise (600 words) – 20%
- Mid-Trimester Oral Test (10 minutes) – 10%
- Final-Trimester Oral Test (15 minutes) – 20%
- Assessment 5 (Individual) – Test (75 minutes) – 20%

## AIB309 – Advanced Arabic Language Skills

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Hakeem Kasem*

*Prerequisite: AIB306 or AIB352 or equivalent*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 x 1 hour scheduled online seminar per week*

### Content

This unit is designed for students who have already reached a high level of proficiency in Arabic. It aims at enhancing the students' ability to comprehend and express ideas in Modern Standard Arabic, both orally and in writing. The focus of the unit is on language skills useful for research and a range of professional careers.

Written sources will include recorded Modern Standard Arabic discourse material. These will offer a wide range of subjects, register and style. Formal and informal speech, idiomatic expressions, proverbs and figurative language will be a focus. Selection of current affairs material from a variety of sources will be examined in order to acquaint students with a wide range of lexical and idiomatic variants.

By the end of this unit, students should have mastered quite complex structures in Arabic and should be able to perform both orally and in writing at an advanced level.

### Assessment

- Essay (2000 words) – 50%
- 2 x Research and Writing Exercises (600 words each, 15% each) – 30%
- Presentation (800 words or equivalent) – 20%

## AIB310 – Introduction to Translation Skills

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Hakeem Kasem*

*Prerequisite: AIB306 or AIB352 or equivalent*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 7 x 1 hour scheduled online seminars.*

### Content

This unit is designed for students who have already reached a high level of proficiency in Arabic. It aims at enhancing the students' ability to comprehend and express ideas in Modern Standard Arabic, both orally and in writing. The focus of the unit is on the translation skills from English into Arabic and vice versa.

Written sources will include Modern Standard Arabic discourse material. These will offer a wide range of subjects, register and style. Selection of current affairs material from a variety of sources will be examined in order to acquaint students with a wide range of lexical and idiomatic variants.

Topics to be addressed in this unit include:

- Concept of equivalence, register, idiomatic usage, contrastive approaches as an element of translation.
- Use of dictionaries and reference materials.
- Some theoretical consideration in translation.

### Assessment

- Continuous Translation Assessment (4 x 300 words) – 40%
- Translation Project A: translation into Arabic (1500 words) – including critical introduction – 40%
- Translation Project B: translation into English (500 words) – including critical introduction – 20%

## AIB351 – Arabic 3A

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrn Ponds (Geelong), Cloud (online)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Zouhir Gabsi*

*Prerequisite: AIB252 or AIB205*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1.5 hour Class per week, 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1.5 hour Class per week (recordings provided), 1 x 2 hour online Seminar per week*

### Content

Students will increase their listening and speaking skills of Modern Standard Arabic, enabling them to participate in discussions on a wide variety of topics with confidence. The unit provides further practice in more advanced forms of oral and written expression. Students will be expected to develop a high standard of fluency in speech and reading and an ability to analyse complex grammatical structures. The basic syntactic patterns and vocabulary acquired will be consolidated and will involve the use of more complex linguistics. Class material will be chosen from contemporary writing: newspapers, magazines, journal articles and short stories.

### Assessment

#### Campus:

- Online and Written Exercises (2500–3000 words or equivalent) – 30%
- Assessment 2 (Individual or groups of 2–3 students) – Class Participation and Presentation (10–15 minutes) – 10%
- Oral Test (15 minutes) – 20%
- Final Online Test (75–90 minutes) – 20%
- Assessment 5 (Individual) – Final Written Test (90 minutes) – 20%

#### Cloud (online):

- Online and Written Exercises (2500–3000 words or equivalent) – 30%
- Writing Exercise (1000 words) – 20%
- Mid-Trimester Oral Test (15 minutes) – 15%
- Final-Trimester Oral Test (15 minutes) – 15%
- Assessment 5 (Individual) – Test (75–90 minutes) – 20%

## AIB352 – Arabic 3B

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 2 Unit Chair: Zouhir Gabsi*

*Prerequisite: AIB351*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1.5 hour Class per week, 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1.5 hour Class per week (recordings provided), 1 x 2 hour online Seminar per week*

### Content

In this unit, students will be introduced to online Arabic newspapers reading. Emphasis will be on writing in Modern Standard Arabic (MSA). Emphasis continues to be on the acquisition of practical language skills for spoken communication, non-verbal communication and aural comprehension. The basic syntactic patterns and vocabulary acquired in the previous unit will be consolidated.

### Assessment

#### Campus:

- Online and Written Exercises (2500–3000 words or equivalent) – 30%
- Assessment 2 (Group of 2–3) – Class Participation and Presentation (10–15 minutes) – 10%
- Oral Test (15 minutes) – 20%
- Final Online Test (75–90 minutes) – 20%
- Assessment 5 (Individual) – Final Written Test (90 minutes) – 20%

#### Cloud (online):

- Online and Written Exercises (2500 words or equivalent) – 30%
- Writing Exercise (1000 words) – 20%
- Mid-Trimester Oral Test (15 minutes) – 15%
- Final-Trimester Oral Test (15 minutes) – 15%
- Assessment 5 (Individual) – Test (75–90 minutes) – 20%

## AIC181 – Chinese 1A

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Xiangshu Fang*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class and 1 x 2 hour seminar*

### Content

The unit is designed for beginners who wish to achieve basic practical language skills for oral and written comprehension and expression in Standard Chinese (Mandarin). It aims at correct pronunciation, fluent speech and a systematic grounding in the basic sentence patterns. The official Pinyin Romanization is used and the standard writing system (the simplified characters) is introduced. Students will learn how to express greetings, exchange names and discuss in simple terms their families, occupations, daily routines and study programs. They will also be able to communicate on the above subjects in the Chinese script. Cultural topics will be discussed in conjunction with the language material.

*Note: No prior knowledge of the language is required*

*This unit is not available to speakers of Chinese as a first language.*

### Assessment

- Writing Exercises – 20%
- Assessment 2 (Group) – Group Presentation – 20%
- Oral Test – 20%
- Examination (2 hours) – 40%

## AIC182 – Chinese 1B

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrn Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Xiangshu Fang*

*Prerequisite: AIC181 or permission from Unit Chair*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class, 1 x 2 hour Seminar per week*

### Content

This is a continuation of the work covered in Chinese 1A and will consolidate and build on the communication skills acquired in the first trimester. Emphasis will continue to be placed on correct pronunciation and fluent speech. Students will be introduced to more complex grammatical constructions. The unit focuses on mastery of spoken and written Chinese required to function at a basic level of communication in a range of contexts. Cultural topics will be discussed in conjunction with the language material.

*Note: This unit is not available to speakers of Chinese as a first language.*

### Assessment

- Writing Exercises – 20%
- Assessment 2 (Group) – Group Presentation – 20%
- Oral Test – 20%
- Examination (2 hours) – 40%

## AIC281 – Chinese 2A

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrn Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Fengqi Qian*

*Prerequisite: AIC182 or permission from Unit Chair*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week, 1 x 2 hour Class per week*

### Content

The unit aims at developing and refining students' communicative skills in and interactive use of Chinese achieved in AIC182. It will continue to focus on listening, speaking, reading and writing in the Chinese language. Students will learn to use Chinese in everyday situations and will be introduced to background knowledge of the Chinese culture and society. Topics to be covered include various aspects of daily life in contemporary China.

*Note: This unit is not available to speakers of Chinese as a first language.*

### Assessment

- Assessment 1 (Group – Pair) – Writing Exercises – 20%
- Presentation – 20%
- Oral Test – 20%
- Examination (2 hours) – 40%

## AIC282 – Chinese 2B

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrn Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Fengqi Qian*

*Prerequisite: AIC281 or permission from unit chair*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week, 1 x 2 hour Class per week*

### Content

In this unit, students will further develop and expand their communicative skills acquired in Chinese 2A and will be introduced to more advanced texts in Chinese. The acquisition of basic vocabulary and grammar will be further broadened and consolidated. Students will also acquire background knowledge of the Chinese culture and society. Topics to be covered include various aspects of daily life in contemporary China.

*Note: This unit is not available to speakers of Chinese as a first language.*

### Assessment

- Assessment 1 (Group – Pair) – Writing Exercises – 20%
- Presentation – 20%
- Oral Test – 20%
- Examination (2 hours) – 40%

## AIC283 – Chinese 2C

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Fengqi Qian*

*Prerequisite: Chinese language background*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week*

### Content

This is the first unit in the advanced Chinese major sequence. It aims at developing students' practical skills to use the Chinese language and improving their understanding of how the Chinese language works. Emphasis will be placed on the practical language use in both written and oral forms. Topics to be covered include a range of social and cultural issues and current affairs. In addition to textbooks, materials will also be drawn from contemporary writing, newspapers and journal articles.

### Assessment

- Presentation – 20%
- Assessment 2 (Group) – Writing Exercises – 20%
- Oral Test – 20%
- Examination (2 hours) – 40%

## AIC284 – Chinese 2D

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Fengqi Qian*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week*

### Content

This unit aims at further developing students' practical skills to use the Chinese language and improving their understanding of how the Chinese language works. Emphasis will be placed on the practical language use in both written and oral forms.

Topics to be covered include a range of social and cultural issues and current affairs. In addition to textbooks, materials will also be drawn from contemporary writing, newspapers and journal articles.

### Assessment

- Writing Exercises – 20%
- Assessment 2 (Group) – Presentation – 20%
- Oral Test – 20%
- Examination (2 hours) – 40%

## AIC381 – Chinese 3A

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrn Ponds (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Xiangshu Fang*

*Prerequisite: AIC282 or AIC287 or equivalent or permission from unit chair*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Burwood: 1 x 1 hour Class and 1 x 1 hour Seminar, 1 x 2 hour Seminar and 1 x 1 hour Seminar per week*

*Warrn Ponds: 1 x 1 hour Class and 1 x 1 hour Seminar, and 1 x 2 hour Seminar per week*

### Content

This unit will further develop the Chinese four-macro skills i.e. listening, speaking, reading and writing achieved in AIC282. On completion of the unit, students should be able, with the assistance of dictionaries, to use Chinese language to understand a range of social and cultural issues and express their own opinions about China and the world in both oral and written forms.

*Note: This unit is not available to speakers of Chinese as a first language.*

### Assessment

- Writing Exercises – 20%
- Assessment 2 (Individual & Group & Pair) – Seminar Exercises – 20%
- Oral Test – 20%
- Examination (2 hours) – 40%

## AIC382 – Chinese 3B

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 2 Unit Chair: Xiangshu Fang*

*Prerequisite: AIC381 or equivalent or permission from unit chair*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Burwood: 1 x 1 hour Class and 1 x 1 hour Seminar, 1 x 2 hour Seminar and 1 x 1 hour Seminar per week*

*Waurin Ponds: 1 x 1 hour Class and 1 x 1 hour Seminar, and 1 x 2 hour Seminar per week*

### Content

This unit builds on the skills and knowledge developed in AIC381, by further developing the Chinese four-macro skills i.e. listening, speaking, reading and writing. On completion of the unit, students should be able, with the assistance of dictionaries, to use Chinese language to understand a range of social and cultural issues and express their own opinions about China and the world in both oral and written forms.

*Note: This unit is not available to speakers of Chinese as a first language.*

### Assessment

- Writing Exercises – 20%
- Assessment 2 (Individual & Group & Pair) – Seminar Exercises – 20%
- Oral Test – 20%
- Examination (2 hours) – 40%

## AIC383 – Chinese 3C

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Guo-Qiang Liu*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week, 1 x 1 hour Class per week*

### Content

This unit is designed for students who have already reached a high level of competence in the Chinese language. It aims at enhancing the ability of students to comprehend and express complex ideas in spoken and written Standard Chinese (Mandarin or Putonghua). The focus of the unit is on language skills useful for a range of professional careers, such as teaching, academic research, industry, trade and commerce. In addition to the prescribed textbook, other teaching material will be selected from contemporary Chinese newspapers, films, television and radio broadcasts, as well as from sources on the internet. This unit is also suitable for Chinese background students who are dialect speakers wishing to master Putonghua.

### Assessment

- Presentation – 20%
- Assessment 2 (Group – Pair) – Writing Exercises – 20%
- Oral Test – 20%
- Examination (2 hours) – 40%

## AIC384 – Chinese 3D

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 2 Unit Chair: Guo-Qiang Liu*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week, 1 x 1 hour Class per week*

### Content

This is a complementary unit for AIC383, designed for students who have already reached a high level of competence in the Chinese language. It aims at enhancing the ability of students to comprehend and express complex ideas in spoken and written Standard Chinese (Mandarin or Putonghua). The focus of the unit is on language skills useful for a range of professional careers, such as teaching, academic research, industry, trade and commerce. Teaching material will be selected from contemporary Chinese newspapers, films, television and radio broadcasts, as well as from sources on the internet. This unit is also suitable for Chinese background students who are dialect speakers wishing to master Putonghua.

## Assessment

- Presentation – 20%
- Assessment 2 (Group – Pair) – Writing Exercises – 20%
- Oral Test – 20%

## AIC385 – Chinese for Business Purposes A

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Guo-qiang Liu*

*Prerequisite: AIC382 or equivalent or permission from unit chair*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class and 1 x 1 hour Seminar per week*

## Content

This unit will focus on the practical international trade operations in which Greater China engages, such as: inquiry, negotiation over price, checking credit, placing orders, reaching agreement and so on. On the completion of the unit, students should be able to have a sound knowledge on how to use Chinese language, with the assistance of dictionaries, in business and trading environments.

*Note: This unit is not available to speakers of Chinese as a first language.*

## Assessment

- Assessment 1 (Individual & Group & Pair) – Writing Exercises – 20%
- Assessment 2 (Group & Pair) – Seminar Exercises – 20%
- Oral Test – 20%
- Examination (2 hours) – 40%

## AIC386 – Chinese for Business Purposes B

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Guo-qiang Liu*

*Prerequisite: AIC382 or equivalent or permission from unit chair*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class and 1 x 1 hour Seminar per week*

## Content

This unit will focus on the practical international trade operations in which Greater China engages, such as: methods of payment, packing, loading, shipping, customs declaration and clearance, and so on. On the completion of the unit, students should be able to have a sound knowledge on how to use Chinese language, with the assistance of dictionaries, in business and trading environments.

*Note: This unit is not available to speakers of Chinese as a first language.*

## Assessment

- Assessment 1 (Individual & Group & Pair) – Writing Exercises – 20%
- Assessment 2 (Group & Pair) – Seminar Exercises – 20%
- Oral Test – 20%
- Examination (2 hours) – 40%

## AIC387 – Advanced Chinese for Business Purposes C

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Fengqi Qian*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class and 1 x 1 hour Seminar per week*

## Content

This unit is aimed at background speakers of Chinese who wish to pursue a China-related career. It aims to consolidate and extend the practical language skills especially in the fields of commerce, tourism and industry. Emphasis of the program is on how to develop a Chinese essay with a research component, in which Greater China engages. Students will also learn how to present their research findings.

## Assessment

- Reading Exercises – 20%
- Assessment 2 (Group) – Presentation – 20%
- Essay – 60%

## AIC389 – Advanced Chinese for Business Purposes D

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Fengqi Qian*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class and 1 x 1 hour Seminar per week*

## Content

## AIE153 – Historical Foundations of the Middle East

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Sally Totman Marshall*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Class per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour Class per week (recordings provided)*

## Content

This unit explores the broad history of the Middle East from ancient times until the 20th century. It starts with an examination of how popular culture and in particular Hollywood films influence the way we view the region. The unit will then provide a history of the region and how this unique part of the world has generated political and religious clashes over the centuries. This background will provide students with the basis for a much better understanding of how the region functions today. No prior study of the Middle East is required.

## Assessment

- Quiz – 10%
- Essay – 50%
- Examination (2 hours) – 40%

## AIE154 – Modern Middle East Politics

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Sally Totman Marshall*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Class per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour Class per week (recordings provided)*

## Content

This unit examines the events that have contributed to the current state of affairs in the Middle East. Starting from the end of World War II this unit will explore how the region's borders were shaped and how friction between local, regional and international actors have resulted in the conflicts and dilemmas still playing out today. The unit uses a geographical approach to examine states such as Iran, Iraq, Syria, Lebanon, Egypt, Libya, and Saudi Arabia as well as the future of the region in the context of the Arab Spring, energy security, and Western foreign policy.

## Assessment

- Assessment 1 (Individual and Group) – Simulation, (10% individual and 50% team) – 60%, or Report – 60%
- Examination (2 hours) – 40%

## AIE255 – Issues in Middle East Politics

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrn Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Mat Hardy*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Class per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour Class per week (recordings provided)*

## Content

This unit takes a thematic approach to examining the modern Middle East and the West's relationship to the region. Each week we examine a different theme of importance to the Middle East, such as human rights, refugees, women's rights, democracy, globalisation, the media, terrorism and resource politics.

## Assessment

- Assessment 1 (Individual and Group) – Simulation, (10% individual and 50% team) – 60%, or Report – 60%
- Examination (2 hours) – 40%

## AIE334 – China: From Empire to Republic

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Xiangshu Fang*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AIE234, AIE434*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

## Content

The unit examines the source of Chinese civilisation, foundations of traditional Chinese society and patterns of dynasties' transition. It seeks to engage students in a search for a broad understanding of China's continuous struggles for modernisation since the Opium War. The unit will focus on the period between the late imperial era in the early nineteenth century and the founding of the People's Republic of China in 1949 as a vehicle for studying the enduring legacies of the past-in-the-present.

## Assessment

- Class Exercise (600 words) – 15%
- Assessment 2 (Group) – Group Presentation – 20%
- Essay (1800 words) – 35%
- Examination (2 hours) – 30%

## AIE335 – Modern China: Liberation, Cultural Revolution and Reform

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Xiangshu Fang*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AIE235, AIE435*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

## Content

The unit presents a study of the development of 'New China' under the leadership of the Communist Party through an examination of the political system, different models of economic construction, social restructuring, mass campaigns and the place given to dissent. The unit will focus on the Great Leap Forward, Cultural Revolution and the current economic reform. It seeks to engage students in analysing the issues that China is confronted with, such as rapid urbanization, mass domestic migration, food security and safety, environment, cultural heritage reservation, and ideological dilemma.

## Assessment

- Assessment 1 (Group) – Group Presentation (10 minutes) – 20%
- Seminar Exercise (600 words) – 15%
- Essay (1800 words) – 35%
- Examination (2 hours) – 30%

## AIE364 – The Arab-Israeli Conflict

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrn Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Mat Hardy*

*Prerequisite: AIE153 or AIE154 or AIE255 or with permission from the unit chair*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Class per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour Class per week (recordings provided)*

## Content

The Arab-Israeli Conflict has remained one of the most complex issues in global politics and international relations for decades. This unit will examine the history of this conflict, from the beginning of Jewish nationalism to the present time. Combining a chronological and thematic approach, we will examine the birth of the state of Israel and the ensuing Palestinian refugee movement, the various wars between Israel and its neighbours, the rise of Palestinian nationalism and militancy, the peace process, and options for the future.

## Assessment

- Assessment 1 (Individual and Group) – Simulation, (10% individual and 50% team) – 60%, or Report – 60%
- Assessment 2 – Research and Writing Exercise – 40%

## AIE365 – Middle East Study Tour

*Enrolment modes: Trimester 3: Study Tour*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Mat Hardy*

*Prerequisite: Students must have completed one units from AIE153, AIE154, AIE255, AIE363, AIE364 and permission from the unit chair to enrol*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Delivery methods – intensive mode, but supported also through Cloud-based resources and activities. Total contact hours: Pre-departure Online (Cloud) module (integral to preparation and pre-tour assignment work): approximately 3 hours. Pre-departure session: 8 hours. In country: 14 days x 8 hours = 112 hours. Total: 120 hours (excluding flights)*

*In-person attendance requirements:*

## Content

A Faculty-led study tour to Jordan and Qatar that aims at creating intercultural and political understanding by offering a first-hand view of life in two Arab monarchies at opposite ends of the economic spectrum. With a focus on professional interaction, the itinerary includes meetings with NGOs, United Nations bodies, diplomats, media organisations and academics, as well as sites of historic and natural interest. Students will be required to reflect on their experiences during the tour and compare them to their preconceptions of the region as well as explore their career ambitions for life after university.

*Note: Study tours will be confirmed by April 2019.*

*Contact the Work Integrated Learning (WIL) team for queries: ARTSED Work Integrated Learning.*

## Assessment

- Pre-departure Report (1500 words)
- Final Report (2500 words)

## AIF142 – Conversational Indonesian B

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Paul Thomas*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 2 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 x 1 hour per week*

### Content

This unit will continue the focus of AIF146. Students' knowledge of vocabulary, grammar and sentence patterns will be expanded and the skills to use them will be developed further. Topics of conversation will be expanded to include day to day affairs: family and friends, home and community environment. Students will be encouraged and trained to use the language not only to talk about Indonesia and its people and way of life but also about themselves, their society and way of life. Writing skills will be developed further using more complex patterns.

*Note: Online teaching methods require internet access. For Cloud (online) mode, use of Blackboard Collaborate is required for assessable work and requires a high speed broadband connection*

### Assessment

#### Campus:

- Seminar Exercises – 20%
- Online Exercises – 20%
- Oral Test – 20%
- 2 x Essay (250 words each – 10% each) – 20%
- Assessment 5 (Individual) – Test – 20%

#### Cloud (online):

- Online Exercises – 30%
- 5 x Quiz – 20%
- 2 x Essay (250 words each – 12.5% each) – 25%
- Test – 25% each

## AIF145 – Conversational Indonesian

*Enrolment modes: Trimester 3: Cloud (online)*

*Credit point(s): 2*

*EFTSL value: 0.25*

*Trimester 3 Unit Chair: Alistair Welsh*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AIF141, AIF142, AIF146*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 x 1 hour per week*

### Content

This unit introduces students to the Indonesian language. It assumes no prior knowledge of the language. Students will acquire knowledge of basic Indonesian vocabulary, grammar and sentence construction and the skills to use them in a conversational and communicative manner fluently, naturally and confidently.

The unit focuses on proper pronunciation and natural intonation. Writing skills will be introduced as well. Students will become familiar with the Indonesian writing system through regular written assignments. Relevant aspects of Indonesian culture required for proper communication will be introduced.

*Note: Not available to students who are waiting on an offer from VTAC for the current year*

### Assessment

- Online Exercises – 20%
- 5 x Quiz – 20%
- 2 x Essay (250 words each – 10% each) – 20%
- Oral Test – 20%
- Assessment 5 (Individual) – Test – 20%

## AlF146 – The Language, Culture and People of Indonesia

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Ismet Fanany*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AlF141*

*Scheduled learning activities – campus: 2 x 1 hour Class per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 x 1 hour per week*

### Content

The unit will explore the great diversity of the many ethnic groups and their culture, language and traditions that make up the nation and people of Indonesia. Culture is not limited to traditional cultures of Indonesia that is often associated with the wayang or shadow puppet performance, traditional dances, gamelan ensemble, etc. An emphasis will also be given to contemporary, modern culture of Indonesia that includes movies and television, youth culture, etc. as well as the nature and impact of technology such as mobile phone and social media on the contemporary Indonesian society. These, along with the traditional culture and mindset, play a very significant role in the development, change, and use of the language. Students will read materials on these topics and watch videos, movies and other relevant materials. Students will engage in discussion about what all this diversity means to Indonesia and Indonesians, the way they live and communicate, and the relevance of all this to the study of Indonesia, Indonesian, as well as other fields of study.

### Assessment

- Seminar/Online Exercises (1000 words equivalent) – 30%
- Essay (2000 words) – 40%
- Test (1000 words equivalent) – 30%

## AlF241 – Formal and Informal Indonesian A

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Alistair Welsh*

*Prerequisite: AlF142 or AlF145 or permission from unit chair*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 2 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 x 1 hour per week*

### Content

This unit provides students with an appreciation of formal and informal styles of Indonesian. Students will study the use of spoken language primarily through dialogues and discussion. More formal styles of language that are common in writing are also introduced. Complex aspects of Indonesian grammar will be explored, in particular the use of affixes. Language common in certain fields such as health, education and travel will be covered. Relevant aspects of customs and culture that enhance communication skills will also be introduced.

*Note: Online teaching methods require internet access. For Cloud (online) mode, use of Blackboard Collaborate is required for assessable work and requires a high speed broadband connection.*

### Assessment

#### Campus:

- Seminar Exercises – 20%
- Quizzes – 20%
- Oral Test – 15%
- 2 x Essay (250 words each – 15% each) – 30%
- Assessment 5 (Individual) – Test – 15%

#### Cloud (online):

- Online Exercises – 30%
- Quizzes – 20%
- 2 x Essay (250 words each – 15% each) – 30%
- Test – 20%

## AIF242 – Formal and Informal Indonesian B

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Alistair Welsh*

*Prerequisite: AIF241 or permission from unit chair*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 2 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 x 1 hour per week*

### Content

This unit extends students' appreciation and use of formal and informal styles of Indonesian. Students will study the use of spoken language primarily through dialogues and discussion and formal language through the study of contemporary, authentic texts similar to those used in the Indonesian media. By the end of this unit, students will have covered key aspects of Indonesian grammar and had the opportunity to use them. Students will also gain insights into Indonesian culture, including aspects of Islam and the notion of national and regional identities as reflected through the use of national and regional languages.

*Note: Online teaching methods require internet access. For Cloud (online) mode, use of Blackboard Collaborate is required for assessable work and requires a high speed broadband connection.*

### Assessment

- 2 x Essay (250 words each – 15% each) – 30%
- Test – 20%

## AIF320 – Indonesian Society Through Literature

*Enrolment modes: Offered in alternating odd years 2019, 2021*

*Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Alistair Welsh*

*Prerequisite: AIF342 or permission of the Unit Chair*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Online independent and collaborative learning activities equivalent to 1 x 1 hour per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 x 1 hour per week*

### Content

Students will read, discuss, and analyse short works of modern Indonesian literature (short stories), excerpts from longer works (novellas, novels), selected excerpts from older works (novels, short stories), and selected passages in translation in terms of content, language use, and style. Discussion will centre on the social and cultural content of the works and on nature of expression. Specifically, students will be guided to develop an understanding of the choices writers make about language use, the meanings these choices convey to readers, and the social and affective content of the work (to the native speaker reader as well as to themselves). Equally important, they will be encouraged to consider alternate and multiple meanings embedded in language as a way of gaining a deeper understanding of Indonesian society and culture.

### Assessment

- Presentation (500 words equivalent) – 20%
- Online Exercises – 10%
- 2 x Essay (1000 words each – 15% each) – 30%
- Report (2000 words) – 40%

## AlF321 – Contemporary Issues in Indonesia

*Enrolment modes: Offered in alternating odd years 2019, 2021*

*Trimester 1: Burwood (Melbourne), Waurm Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Alistair Welsh*

*Campus contact: Alistair Welsh (Waurm Ponds (Geelong), Cloud (online))*

*Ismet Fanany (Burwood (Melbourne))*

*Prerequisite: AlF342 or permission of the Unit Chair*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 x 1 hour per week*

### Content

As an advanced third year unit, Indonesian language is used to explore and analyse a range of contemporary issues in Indonesia. Issues studied will have relevance to various professional settings including education, development and the media. Content will extend to complex issues where students will undertake individual research to report on an area of interest in greater detail. Discussion and analysis will be undertaken in writing and in spoken form. This unit is highly suitable for students who are considering further study, such as Honours.

### Assessment

- Presentation – 20%
- Online Exercises – 20%
- Quizzes – 30% each
- Essay (1000 words) – 20%
- Assessment 5 (Individual) – Presentation (500 words equivalent) – 10%

## AlF341 – Professional and Academic Indonesian A

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurm Ponds (Geelong), Cloud (online)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Ismet Fanany*

*Prerequisite: AlF242 or with permission of the Unit Chair*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 2 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 x 1 hour per week*

### Content

This unit will prepare students to use the language styles appropriate for professional and academic activities in Indonesia. Students will read unedited original articles on topics of current interest in Indonesian society including education, employment, business, tourism and work. These topics reflect issues of current importance to both Indonesia and Australia. Students will learn to discuss these subjects intelligently and in an informed way, including the comparable field in Australia, both orally and in writing.

### Assessment

#### Campus:

- Seminar Exercises – 20%
- Online Exercises – 30%
- Oral Test – 20%
- 2 x Essay (500 words each) – 15% each

#### Cloud (online):

- Online Exercises – 20%
- Quizzes – 30%
- 2 x Essay (500 words each) – 15% each
- Test – 20%

## AIF342 – Professional and Academic Indonesian B

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 2 Unit Chair: Paul Thomas*

*Prerequisite: AIF341, or with permission of the Unit Chair*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 2 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 x 1 hour per week*

### Content

This unit will focus on a range of current themes as in AIF341 Professional and Academic Indonesian A. These topics reflect issues of current importance in Indonesia. At the end of this unit students will be capable of communicating with Indonesians on a range of topics in professional and academic environments. Students will also be able to discuss the Australian situation with the same degree of ability and complexity.

### Assessment

#### Campus:

- Online Exercises – 30%
- Seminar Exercises – 20%
- 2 x Essay (500 words each) – 15% each
- Oral Test – 20%

#### Cloud (online):

- Online Exercises – 20%
- Quizzes – 30%
- 2 x Essay (500 words each) – 15% each

## AIF345 – Indonesian for Business Purposes

*Enrolment modes:*

*Trimester 3: Cloud (online) – Not offered Trimester 3 2019 – reoffered 2020*

*Trimester 1: Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online) – Offered in alternating even years 2020, 2022*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Ismet Fanany*

*Trimester 3 Unit Chair: Alistair Welsh*

*Prerequisite: AIF342 or permission from unit chair*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 x 1 hour per week*

### Content

This is an advanced unit intended for students who have already developed a high level of ability in the Indonesian language. It focuses on the language required to function in a business setting using Indonesian and provides students with an understanding of the language and culture of business communication in Indonesia.

### Assessment

- Seminar/Online Exercises (1000 words equivalent) – 20%
- 4 x Online Exercises (1500 words equivalent) – 40%
- Report (1500 words) – 40%

## AIF354 – History and Development of the Indonesian Language

*Enrolment modes:*

*Trimester 3: Cloud (online) – Not offered Trimester 3 2019 – reoffered 2020*

*Trimester 2: Burwood (Melbourne), Waurm Ponds (Geelong), Cloud (online) – Offered in alternating even years 2020, 2022*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Alistair Welsh*

*Prerequisite: AIF342 or permission from Unit Chair*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 x 1 hour per week*

### Content

This unit will explore how the Indonesian language came into being. Knowledge of its history and development will give students the ability to extract more meaning from contemporary language use and also improve access to older documents. Changes and standardisation of Indonesian spelling, syntax and structure as part of the Malay language and culture will also be studied to allow students to understand the way in which the national languages of Indonesia, Malaysia, Brunei and Singapore are related and interact both historically and in the present time.

### Assessment

- Seminar/Online Exercises (500 words equivalent) – 20%
- 4 x Seminar/Online Exercises (2000 words equivalent) – 40%
- Report (1000 words) – 40%

## AI103 – People and Place: An Introduction to Human Geography

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurm Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Louise Johnson*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 hour per week and one full-day excursion (7 hours per trimester)*

*In-person attendance requirements: Excursion: One full day in the field (7 hours per trimester)*

### Content

This unit will introduce students to the many components of the human-environment relation explored by Human Geographers. Beginning with the notion of a “natural disaster”, it will focus on those economic, social and cultural dimensions which shape the perception and management of a disaster. From this global starting point, the unit will consider the emergence of industrial and urban societies, the dissemination of such economic and spatial systems to create patterns of uneven development and contemporary debates around national and local inequality, human mobility and sustainability. Study will occur through both abstract and field-based studies. Students will emerge with an array of skills (cartographic, statistical, observational), geographical knowledge and engage in contemporary debates around socio-spatial inequality, the human-nature-animal divide and the future of human settlements.

### Assessment

- 2 x Seminar Exercises (15% each, 600 words each, total 1200 words) – 30%
- Assessment 2 (Group) – Group Assignment (1200 words) – 30%
- Report (1600 words) – 40%

## ALG211 – Geographies of Heritage and Tourism

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Steven Cooke*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 3 scheduled online seminars during the trimester*

### Content

The use of the past in the present is a key issue in contemporary society. Whether in debates over the representations of the past in museums, the role of heritage in social cohesion and post-conflict reconciliation, the impact of tourism on people and places, or the changes brought about by rapid urban development to our historic towns and cities, heritage is a place where questions of power, agency, identity and social and cultural change are played out.

This unit will examine how museums, memorials, historical sites and historic urban landscapes and how are understood, used and managed. Drawing on perspectives from cultural and historical geography, but also cultural studies and sociology, this unit will provide students with a critical understanding of the geographies of heritage and tourism.

Topics include: the Birth of the museum; Museums and architecture; The poetics and politics of display; Heritage and identity; Marginalised heritage; Heritage, tourism and urban redevelopment; Understanding tourists and tourism; Tourism and commodification; Tourism and the past, and Dark heritage and tourism: war and genocide.

### Assessment

- Assessment 1 (Group) – Report (1000 words) – 25%
- Presentation (1000 words equivalent) – 25%
- Essay (2000 words) – 50%

## ALG300 – Australian Urban Geography: National and International Perspectives

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrn Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Louise Johnson*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AIA301*

*Scheduled learning activities – campus: 1 x 2 hour Class per week plus Excursion: One full day in the field (7 hours per trimester)*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 x 1 hour per week and one full-day excursion (7 hours per trimester)*

### Content

This unit seeks to provide a foundational overview of the history, theory and practice of urban geography in Australia and internationally. The unit will begin with a consideration of urbanisation in the contemporary world before detailing the various ways in which urban geographers have approach the study of cities over the last century. The unit will then focus on a number of key dimensions which structure cities in Australia, North America and Asia – their economies, politics, culture and social order – using Australian cities as a basis of comparison with others. Finally the unit will engage with a range of contemporary issues which bedevil Australian urban planners – residential segregation, urban renewal, economic viability, mobility and environmental sustainability – and some of their solutions.

### Assessment

- Seminar/Online Exercises (1500 words) – 30%
- Assessment 2 (Group) – Report (1000 words) – 30%
- Essay (1500 words) – 40%

## AIH107 – World History Between the Wars 1919–1939

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Bart Ziino*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AIH260, AIH360*

*Scheduled learning activities – campus: 1 x 2 hour Class per week, 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour class per week (recordings provided), 1 x 1 hour online seminar per week*

### Content

This unit examines the major episodes, developments and figures of the interwar period (1919-1939) in Twentieth Century World history. At the same time it is intended to introduce students to the study of history and the Deakin history major. While this is developed as a discrete unit it is intended also to provide an introduction to the trimester two unit so that together, the trimester one and two of the first level will provide an extended survey of the twentieth century. In this unit students will investigate the causes, nature and impact of the major changes that emerged after World War One. Topics in this unit will include a study of the major political structures that emerged including popular democracy, fascism and communism, the major events such as the Paris Peace Conference of 1919, the Great Depression and the Origins of the Second World War, the major personalities such as Stalin, Hitler and Roosevelt and a selection of significant social and cultural developments which shaped everyday life in this period including the emergence of mass production, a consumer society, and technologically-based mass entertainment.

### Assessment

- Essay (1000 words) – 25%
- Essay (2000 words) – 50%
- Tests (1000 words or equivalent) – 25%

## AIH108 – The Cold War World: 1945–1991

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Clare Corbould*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AIH109, AIH208, AIH408*

*Scheduled learning activities – campus: 1 x 2 hour Class per week, 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour class per week (recordings provided), 1 x 1 hour online seminar per week*

### Content

Framed by the beginning and end of the great ideological divide between the communist east and the capitalist west – the Cold War – the unit will lead you through the major political and social changes that occurred between 1945 and 1991: the fall of the iron curtain across Europe, life in the communist countries, the Vietnam war and the eventual demise of European communism. Against this backdrop of world tension the unit will examine the rise of new nations in Asia, Africa and the Pacific and the development of the social movements of environmentalism, feminism and grass roots activism.

### Assessment

- Essay (1000 words) – (25%)
- Essay (2000 words) – (50%)
- Online/Seminar Exercises (1000 words or equivalent) – 25%

## AIH205 – Sex and Gender in the British Empire

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Joanna Cruickshank*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AIH305, AIH405*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 hour class per week (recordings provided), 1 x 1 hour online seminar per week*

### Content

This unit focuses on questions of gender and sexuality within the British Empire, from the eighteenth to twentieth centuries. Looking at colonies across the world, in India, Africa, Australasia and the Pacific, we ask what roles women and men were expected to play, how women and men actually behaved, what sex and sexuality had to do with the Empire and how imperial power itself was gendered. Students will study the ways in which gender is relevant to understanding intellectual, political and social change in the history of the British Empire. Topics include: gender and indigenous peoples; masculinity and militarism; gender, convicts and slaves; sexuality and intimacy in the empire; race and gender; colonial families; feminism in the empire and gender in everyday life.

### Assessment

- Quiz – 20%
- Essay (2000 words) – 40%
- Essay (2000 words) – 40%

## AIH238 – Australia and the Two World Wars

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Bart Ziino*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AIH232/332, AIH233/333, AIH338*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour class per week (recordings provided), 1 x 1 hour online seminar per week*

### Content

This unit examines critically several themes about the role that Australia played in the two world wars and the impact of those wars on Australian society. The themes to be studied include:

- the debate over fighting 'other peoples' wars';
- the methods by which different wars were fought;
- the soldiers' experience of war and return;
- conscription, conscientious objection and popular opposition;
- dissent in wartime;
- gender and war;
- aftermath of wars, including repatriation, broken bodies, broken minds, grief and loss;
- citizenship issues and war, including internment of aliens;
- the impact of war on the Australian state, national policies and the economy;
- the representing of Australia's wars, including film;
- comparisons with the war experiences of other nations and the ANZAC legend;
- memory of war.

### Assessment

#### On Campus

- Essay (1500 words) – 30%
- Essay (2000 words) – 50%
- Presentation (500 words) – 20%

#### Online (Cloud)

- Essay (1500 words) – 30%
- Essay (2000 words) – 50%

## AIH240 – History: Interpreting the Past

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Bart Ziino*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class, 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour Class (recordings provided), 1 x 1 hour online seminar per week*

### Content

This unit introduces students to major trends in the thought and practice of history, from the ancient Greeks to the formulation of ‘contemporary history’. Students will examine the integral relationship between the study of history and understanding the contemporary world. They will become familiar with the major differences between historical approaches, the impact of mass literacy, and differing conceptions of time and space. Students will also engage with the multiple methods of identifying and interrogating historical sources which underpin different approaches to historical practice.

### Assessment

- Essay (1600 words) – 40%
- Essay (2400 words) – 60%

## AIH264 – The Holocaust

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Tony Joel*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AIH251, AIH252, AIH351, AIH352, AIH364, AIH464*

*Scheduled learning activities – campus: 6 two-hour seminars – Weeks 1, 3, 5, 7, 9, 11*

*Scheduled learning activities – cloud (online): 6 two-hour online seminars – Weeks 1, 3, 5, 7, 9, 11*

### Content

Topics addressed include: the growth of antisemitism; the emergence of Hitler and the Nazi Party; the persecution of German Jews and other supposedly inferior “racial” groups; Hitler’s motivations for initiating the Second World War; the persecution of Jews in Poland following the Nazi invasion, particularly the effects of ghettoisation; victims’ responses to persecution; the development of the Nazis’ so-called “euthanasia” programs; the “war of annihilation” following Hitler’s invasion of the Soviet Union; mass shootings of Jews and other Soviet civilians; the Nazis’ development of state-sanctioned, industrialised mass killing through the establishment of death camps; the “Auschwitz experience”; and the post-war aftermath of the Holocaust.

### Assessment

#### Campus:

- Seminar Exercises (2000 words) – 50%
- Presentation (2000 word equivalent) – 50%

#### Cloud (online):

- Online Exercises (2000 words) – 50%
- Presentation (2000 words) – 50%

## AIH267 – Conflict and Its Legacies in Modern Asia

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: David Lowe*

*Prerequisite: Students must have completed at least 8 credit points. Otherwise by permission of the unit chair*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 6 three-hour seminars during trimester (Weeks 1, 3, 5, 7, 9, 11)*

*Scheduled learning activities – cloud (online): 1 x 1.5 hour online seminar per week*

## Content

This unit will focus on conflicts in Asia in the 20th century. It will explore contested histories and memories of these conflicts, including those of current political/strategic importance such as Chinese-Japanese tensions over remembering the Second World War, the legacies of imperialism and war in Korea and Taiwan, and Indonesian difficulties in remembering the mass killings of 1965. It encourages students to view the work of historians in the context of public interest, and in the related context of the project of contemporary history – the unfinished business of the past.

## Assessment

- Seminar/Online Exercises (2000 word equivalent) – 50%
- Essay (2000 words) – 50%

of freedom and the early roots of the civil rights movement; mobility and violence during the era of Jim Crow segregation; leadership and grassroots organising in the Civil Rights movement; Black Power and Black Feminism; and “post-racial” America up to Black Lives Matter. The primary and secondary materials, including in assessments, will enable students to follow interests in black culture, eg music and fiction, and/or politics including issues such as mass incarceration and police brutality.

*Note: Commencing 2019*

## Assessment

- Quizzes (800 words or equivalent) – 20%
- Class Exercises (1200 words or equivalent) – 30%
- Essay (2000 words or equivalent) – 50%

## AIH276 – African American History From Slavery to Black Lives Matter

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Clare Corbould*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour class per week, 1 x 1 hour seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour Class (recordings provided), 1 x 1 hour Online Seminar per week*

## Content

Students in this unit will learn about the history and culture of African Americans, a significant minority group in the world's superpower. Throughout the unit we will address two related questions: 1. how is it that in a nation based on the world's first and most expansive assertion of democracy and rights there is such glaring inequality based on race? 2. How have African Americans shaped their own experiences given these circumstances? Topics will include: the Atlantic slave trade and the experience of slave transportation; labour, religion, family, and community from the colonial era to the “antebellum” period; the role of free black people and slaves in the American Civil War; the meanings

## AIH288 – Exploring Australia's Indigenous Pasts

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Tiffany Shellam*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AIH388*

*Scheduled learning activities – campus: 1 x 1 hour Class and 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour class per week (recordings provided), 1 x 1 hour online seminar per week*

## Content

This subject examines the history of encounters between Indigenous and non-Indigenous Australians, since 1788. Students will be introduced to a wide variety of such cross-cultural encounters, the different contexts in which they occurred, the way these encounters have been represented and the issues involved in studying them. The subject will focus on a number of Indigenous leaders and communities; non-Indigenous migrants, missionaries and colonial administrators. Specific studies will focus on locations throughout Australia and themes including land and violence; dispossession and control; missionary and humanitarian ventures; government policies and ideologies; friendship and negotiation; language and education; children and gender.

Throughout the course, students will be encouraged to reflect on the political nature of representing Indigenous pasts in histories, museum displays, public memorials, the media and universities and reflect on the ongoing nature of the history of colonialism in Australia.

## Assessment

- Quizzes – (500 words or equivalent) – 10%
- Essay (2000 words) – 50%
- Essay (1500 words) – 40%

## AIH326 – Australia's Empire: Colonialism in Papua New Guinea

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Helen Gardner*

*Prerequisite: Students must have completed at least 8 credit points. Otherwise by permission of the unit chair*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour seminar per week (recordings provided)*

## Content

This unit will explore Australia's colonial rule of Papua and New Guinea from the late 19th century to independence in 1975. It will do so through an explicit analysis of the diverse and complex archives that are used to write colonial histories. We will examine the imperial competition that led to the annexation of the region in 1884 and the theories of racial determinism that forged the first Australian administration. We will explore Papua New Guinean responses to the spread of Christian missions and affiliated services such as education, and examples of anti-colonial sentiment against Australian rule. Students will track how the Kokoda campaign changed both Papua New Guineans and Australians as decolonisation spread in the wake of World War Two. Finally, we will examine the rising nationalism of Papua New Guineans in the 1960s and the end of Australian rule in 1975.

## Assessment

- Seminar Exercises (1000 words) – 30%
- Presentation (500 words) – 20%
- Essay (2500 words) – 50%

## AIH389 – The French Revolution and the Struggle for Freedom

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Greg Burgess*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AIH289*

*Scheduled learning activities – campus: 1 x 1 hour class per week, and 1 x 1 hour seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour class per week (recordings provided), 1 x 1 hour online seminar per week.*

## Content

The French Revolution of 1789 was, above all, a struggle for freedom, as the people rose against a despotic monarchy and an oppressive social system to demand their natural rights to liberty and equality. But what did freedom mean to the people? How was freedom given substance in the political structures of the new, revolutionary regime? This unit will study the meaning of freedom from the Enlightenment and the American Revolution to its influence on the emerging revolutionary mentality of late-eighteenth France. It will examine how the revolutionary struggle between the monarchy, nobility, church and the bourgeoisie saw freedom realised. Freedom was expressed in a statement of rights, which declared that all men were born free and equal. Freedom then had to be defended and protected. And freedom had limits. Were women truly free? Could Jews and Protestants be free in a Catholic country? Could a revolution based on freedom justify the abomination of slavery? What did freedom mean for the people if their society remained profoundly unequal in wealth and power? This unit will explore these questions. It will examine the struggle for freedom as a great social struggle with a profound legacy that still resonates today.

## Assessment

- 5 x Seminar/Online Exercises (2000 words) – 50%
- Essay (2000 words) – 50%

## AIH399 – Making History

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrn Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Jonathan Ritchie*

*Prerequisite: Three (3) History AIH coded units*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour seminar per week (recordings provided), 1 x 1 hour online seminar per week*

### Content

This exciting third level history unit is the capstone to the history major and is only available to those who have already completed three history units. It has been devised to enhance your skills in historical interpretation and analysis and is taught by staff deeply involved in the production of history. The unit is team taught and is comprised of two modules. The first explores the archive as a repository of specific documents that shape and determine the historical narrative. Students will explore government archives, private archives and church archives through new theoretical approaches. The second module will be taught by historian practitioners who will introduce you to historical sources relevant to their current research. This module will change from year to year but may include Indigenous and Australian history, Pacific, European or French history. Students may tackle themes of colonisation, decolonisation, politics, war and memory.

### Assessment

- Essay (2000 words) – 50%
- Essay (2000 words) – 50%

## AIM703 – Introduction to Heritage Planning

*Enrolment modes: Trimester 3: Cloud (online)\**

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Steven Cooke*

*Prerequisite: AIM734 or AIM705 or permission from the unit chair*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 hour per week, including a minimum of 1 scheduled online seminar each trimester*

### Content

1. The Emergence of Heritage Planning in Australia
2. Current Approaches to Heritage Planning in Australia
3. Indigenous Heritage and Planning
4. Heritage Planning in the Asia Pacific Region
5. Defining Heritage Places and Precincts
6. The Planner's Tool Kit for Heritage Planning 1
7. The Planner's Tool Kit for Heritage Planning 2
8. Heritage Listing and the Property Market
9. The Economic Effects of Heritage Listing
10. Contemporary Issues in Heritage Planning
11. Communities and Heritage Planning. This amounts to compression of the topics on law and the property market; and addition of specific topics on Asia-Pacific and Indigenous issues in planning

*Note: \*Offered in alternating even years 2020, 2022*

### Assessment

- Essays, 100%, totalling 5000 words

## AIM704 – Heritage, Development and Tourism in the Asia-Pacific Region

*Enrolment modes: Offered in alternate years 2019, 2021  
Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Steven Cooke*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Learning experiences are via CloudDeakin*

### Content

#### Module 1: Cultural Tourism

- Dimensions of global tourism
- What is tourism and who are the tourists?
- A brief history of tourism
- Definitions of cultural tourism
- Issues of culture and tourism

#### Module 2: Sustainability and Cultural Tourism

- Economic, socio-cultural and physical effects of tourism
- Tourism and host cultures
- Sustainable development and sustainable tourism in Australia

#### Module 3: Cultural Tourism: Policy and Practice Issues

- Case studies from the Asia-Pacific region

### Assessment

- Assessment 1 – Essay (2500 words) – 50%
- Assessment 2 – Essay (2500 words) – 50%

## AIM705 – Conservation Management Planning

*Enrolment modes: Trimester 2: Burwood (Melbourne),  
Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Kristal Buckley*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: On campus students are required to attend 4 days of intensive classes during the trimester*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 hour per week, including a minimum of 1 scheduled online seminar each trimester*

### Content

The Unit introduces the practices of cultural heritage management for places and landscapes, and develops practical and critical skills related to values-based management. While focused on Australian practices, these are considered within global and regional contexts. The Study Guide topics consider a wide array of heritage places, including buildings and cities, archaeological sites, Indigenous cultural heritage, industrial heritage, sacred places and landscapes.

### Assessment

- Assessment 1 – Quiz 1 – 10%
- Assessment 3 – Report (2000 words) – 40%
- Assessment 3 – Quiz 2 – 10%
- Assessment 4 – Essay (2000 words) – 40%

## AIM708 – World Heritage and International Heritage Practice

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Kristal Buckley*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: On campus students are required to attend 4 days of intensive Classes during the trimester*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 hour per week, including a minimum of 1 scheduled online seminar each trimester*

### Content

The unit will introduce international heritage practices in cultural heritage through a focus on the implementation of the World Heritage Convention and other UNESCO Conventions and programs. The Unit will familiarise students with the strengths and weaknesses in the philosophy, system and processes of World Heritage; and will identify key contemporary issues including the divergence in heritage approaches between different world regions, the intense tourism pressures on World Heritage sites and the need for more effective monitoring mechanisms. The unit will develop student skills in identifying and interpreting the outcomes and futures for international heritage systems.

### Assessment

- Assessment 1 – Quiz 1 – 10%
- Assessment 2 – Report (2000 words) – 40%
- Assessment 3 – Quiz 2 – 10%
- Assessment 4 – Essay (2000 words) – 40%

## AIM709 – Intangible Heritage

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Kristal Buckley*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Students are required to attend 4 days of intensive Classes during the trimester*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 hour per week, including a minimum of 1 scheduled online seminar each trimester*

### Content

Consideration of the intangible dimensions of cultural heritage places, objects and practices is a rapidly emerging field, involving theoretical, conceptual and practical learning drawn from multiple disciplines and perspectives.

This unit both explores and questions the duality of 'tangible' and 'intangible' in international and local heritage scholarship and practice. Issues of cultural diversity, traditional knowledge, human rights and commodification are explored; and the tools of documentation, transmission and legal protection are critically examined, as well as the mechanisms and processes established by UNESCO's 2003 Convention for the Safeguarding of the Intangible Cultural Heritage.

### Assessment

- Assessment 1 – Quiz – 10%
- Assessment 2 – Essay (2500 words) – 50%
- Assessment 3 – Presentation (2000 words) – 40%

## AIM714 – Cultural Landscapes

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Kristal Buckley*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 hour per week, including a minimum of 1 scheduled online seminar each trimester*

### Content

Cultural landscapes is a key framework for heritage assessment and management in Australia, the Asia-Pacific region and in international heritage systems. This unit is based on the understanding and application of 'cultural landscape approaches' to a broad range of contexts. Development and critical evaluation of practical approaches is complemented by consideration of landscape theories, Indigenous and non-western perspectives.

The unit includes case studies of urban, industrial and rural landscapes, challenging the duality of nature/culture and tangible/intangible in heritage practices.

### Assessment

- Assessment 1 – Essay (2500 words) – 50%
- Assessment 2 – Essay (2500 words) – 50%

## AIM715 – Virtual Heritage

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Andrea Witcomb*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Students are required to attend 4 days of intensive classes during the trimester as well as to make use of online resources*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 hour per week, including a minimum of 1 scheduled online seminar each trimester*

### Content

This unit focuses on the theory, history and practice of virtual heritage. In it we will study how museums and heritage sites have engaged with the opportunities afforded by the 'digital revolution'. We will look into the early history of this engagement to understand the debates that developed around the introduction of digital media in museums. We will look into current practices and seek to understand how they are changing our understanding both of heritage and the cultural institutions that are charged with identifying, preserving and displaying it. We will do so by exploring a range of applications, in different institutional contexts and in different countries through reading and by visiting different sites. Finally, we will seek to use our new knowledge and understanding to develop an imaginary brief that encapsulates best practice for one aspect of this new world heritage institutions find themselves in – the development of a multimedia interactive.

### Assessment

- Assessment 1 – Essay (2500 words) – 50%
- Assessment 2 – Report (2500 words) – 50%

## AIM717 – Heritage in the Field

*Enrolment modes: Trimester 1, Trimester 2 and Trimester 3: Internship unit*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Jonathan Sweet*

*Trimester 2 Unit Chair: Jonathan Sweet*

*Trimester 3 Unit Chair: Steven Cooke*

*Prerequisite: Students need to seek permission from the unit chair to enrol*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Learning experiences are via CloudDeakin*

*Internship: Students will also be required to complete a minimum of 10 days placement*

## Content

This unit allows students to develop knowledge and skills through experiential learning. The learning occurs through programs and projects that are available in locations external to Deakin. Subject to approval from the Unit Chair, students may undertake the unit through participation in an appropriate program, such as:

- Internships and practical placements in Australia or internationally. This may include UNESCO, ICOMOS or other internships, archaeological site excavations, or placements in professionally-staffed museum or heritage organisations. Internships and practical placements involve working on one or more projects, as agreed with the host institution. Students are required to spend a minimum of 10 working days on the placement. This can be undertaken full-time (e.g. over a minimum of two weeks) or on a part-time basis.
- In-country study tours. Such tours are conducted by Deakin staff, usually during the Australian summer. Recent tours have been to China and Laos.
- In-country educational programs. Student participation in these programs is coordinated by Deakin staff. The programs provide study opportunities in conjunction with partner educational institutions outside Australia.
- Other projects or programs that may arise from time to time.

*Note:*

1. Students must contact the unit chair prior to enrolling in this unit
2. This unit may not be taken as part of courses A529 or A585
3. This unit may not be taken in the first trimester of enrolment in a Cultural Heritage or Museum Studies course
4. Students may need to fund their own travel and accommodation costs
5. Students who have already completed AIM724 or AIM711 should seek approval from the Course Director for their study plan, prior to enrolling in this unit
6. Online teaching methods require internet access

## Assessment

- Assessment 1 – Pre-departure Report (1000 words) – 20%
- Assessment 2 – Journal (1500 words) – 30%
- Assessment 3 – Essay (2500 words) – 50%

## AIM718 – Cultural Heritage and Museums Studies Field School

*Enrolment modes: Trimester 3: Field School*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Jonathan Sweet*

*Prerequisite: AIM721, AIM723*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: To be advised*

## Content

The Kelabit Highlands Community Museum Development Project is an ongoing collaboration between the Rurum Kelabit Sarawak (RKS) and Deakin University (DU). In this program, post-graduate Cultural Heritage and Museum Studies students and undergraduate Visual Design and Communications students will work with community representatives to address the need for an interpretive scheme for the community museum that is being developed by the RKS.

## Assessment

- Quiz – 10%
- Assessment 2 (Group) – Group Assignment -50%
- Essay (2000 words) – 40%

## AIM722 – Collections and Curatorship

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Jonathan Sweet*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: SQM613*

*Scheduled learning activities – campus: On campus students are required to attend 4 days of intensive classes during the trimester*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 hour per week, including a minimum of 1 scheduled online seminar each trimester*

## Content

There are three main themes:

### 1. Significance assessment and collection development

- Assessment of significance of movable cultural heritage and museum acquisitions
- Ethical and legal implications of moving, acquiring or disposing of an object or collection
- Theoretical and practical guidance for development of management policies for movable cultural heritage and the development of museum collections

### 2. Managing collections: cataloguing and documentation

- Legal documentation, registration and cataloguing of movable cultural heritage and museum objects
- Records management, identifying and using appropriate information systems
- Documentation for object management

### 3. Care and conservation of objects

- Strategies and plans for care of collections and movable cultural heritage
- Conservator's role
- Emergency preservation of movable cultural heritage

## Assessment

- Assessment 1 – Report (2000 words) – 40%
- Assessment 2 – Quiz (500 words) – 10%
- Assessment 3 – Report (2500 words) – 50%

## AIM723 – Heritage Interpretation

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Jonathan Sweet*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: SQE640, SQM617*

*Scheduled learning activities – campus: On campus students are required to attend 4 days of intensive classes during the trimester*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 hour per week, including a minimum of 1 scheduled online seminar each trimester*

*In-person attendance requirements: Campus: On campus students are required to attend 4 days of intensive classes during the trimester*

## Content

Today, “heritage” must be “interpreted”. The invention of cultural heritage shifted what were once objects, places and traditions in daily life into an artificial domain. They exist now in institutions such as historic sites and museums, curated by professionals, and presented to the public via exhibitions and guided tours, featuring old and new technologies. Thus interpretive communication forms are coloured by the political implications of constructing versions of meaning, such as national identity. This unit addresses the ethical challenges of shaping public knowledge of cultural heritage via interpretation – grounded in the concepts of significance, authenticity and learning. Key issues are public accountability, cultural diversity and social justice.

## Assessment

- Assessment 1 – Report (2500 words) – 50%
- Assessment 2 – Report (2500 words) – 50%

## AIM727 – Exhibitions

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Andrea Witcomb*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: SQM617*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 hour per week, including a minimum of 1 scheduled online seminar each trimester*

## Content

- Topic 1: Histories of Display: The role and function of Exhibitions
- Topic 2. Exhibitions as a form of communication
- Topic 3. Mission, Vision and policies
- Topic 4. Developing an exhibition brief
- Topic 5. Exhibition project management
- Topic 6. Audience Involvement and collaboration
- Topic 7. Working with exhibition designers
- Topic 8. Something to see, read and do: Interpretation and Public Programs
- Topic 9. The run up to opening day: Fabrication, installation, travelling exhibitions and marketing
- Topic 10. Looking back: Audience Studies

## Assessment

- Assessment 1 – Essay (1000 words) – 20%
- Assessment 2 – Report (2500 words) – 50%
- Assessment 3 – Essay (1500 words) – 30%

## AIM733 – Applied Heritage Project

*Enrolment modes: Trimester 3: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Steven Cooke*

*Prerequisite: Students must contact unit chair for permission to enrol and must have completed 4 credit points of study*

*Corequisite: Nil*

*Incompatible with: AIM718*

*Scheduled learning activities – campus: Learning experiences are via CloudDeakin*

*In-person attendance requirements: Learning experiences are by students attending a 5 day intensive at a field school*

### Content

This unit provides students with an opportunity to work as a team on a specific heritage project. The project, developed in consultation with industry partners, will allow students to demonstrate a holistic approach to the identification, conservation, interpretation and management of cultural heritage.

### Assessment

- Quiz – 10%
- Assessment 2 (Group) – Assignment (2000 words) – 40%
- Essay (2500 words) – 50%

## AIM734 – Understanding Significance

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Jonathan Sweet*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Students are required to attend 4 days of intensive classes during the trimester*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 hour per week, including a minimum of 1 scheduled online seminar each trimester*

### Content

How do we know what objects, places and traditions societies ought to preserve? What counts as heritage? Who decides? This unit investigates philosophical and sociological approaches to the problems of knowledge as encountered in museum and heritage practice. It addresses the challenges of knowing what is of historical, aesthetic, architectural, social, spiritual and scientific significance – the concept employed in contemporary heritage/museum practice to establish thresholds of value for preservation. Hence the unit focuses on identifying and evaluating objects collected by museums and galleries; structures and landscapes preserved in the physical world; knowledge, beliefs and traditions valued in social practice within and across cultures. It also stresses that assessment of significance is a socially constructed knowledge product, relying on multiple sources and informed by collegial interaction.

### Assessment

- Assessment 1 – Report (2500 words) – 50%
- Assessment 2 – Report (2500 words) – 50%

## AIM735 – Leadership in Museums and Heritage Organisations

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Steven Cooke*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AIM725, AIM726*

*Scheduled learning activities – campus: On campus students are required to attend 4 days of intensive classes during the trimester*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 hour per week, including a minimum of 1 scheduled online seminar each trimester*

## Content

This unit provides students with an introduction to the skills and knowledge necessary to successfully work in the heritage industry. As such, it complements the other units in the CHMS program by providing an opportunity to reflect on the specific business and operational needs of the heritage sector. It will cover such topics as governance, strategic planning, leadership, and project management. It articulates to elective units in the management stream, with options available from the Faculty of Business and Law.

## Assessment

- Assessment 1 – Report (1500 words) – 30%
- Assessment 2 – Group Assignment (2000 words) – 40%
- Assessment 3 – Report (1500 words) – 30%

## AIM736 – Museums, Heritage and Society

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Jonathan Sweet*

*Corequisite: Nil*

*Incompatible with: AIM701, AIM721*

*Scheduled learning activities – campus: Students are required to attend 4 days of intensive classes during the trimester*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 hour per week, including a minimum of 1 scheduled online seminar each trimester*

*In-person attendance requirements:*

## Content

The use of the past in the present has become a key debate within contemporary society. Contestations over representations of the past by/in museums, critiques of the power of heritage to legitimate particular world views, debates about multiculturalism and social inclusion, all bring concerns over social/communal identity to the fore. Through concepts such as text, representation, and performance, the unit aims to explore the history and contemporary nature of heritage practices and institutions showing how we can apply theoretical concerns to the understanding and management of museums and cultural heritage. It introduces key definitions and ideas, many of which are

explored in more detail in other units of the program. Central is the concept that 'cultural heritage' may apply to objects, places and traditions, whether managed by museums, national parks, urban planning schemes, tourism attractions or a host of other environments.

## Assessment

- Assessment 1 – Essay (2000 words) – 40%
- Assessment 2 – Presentation (3000 words) – 60%

## AIP107 – Introduction to Politics

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrnambool (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Peter Ferguson*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1-hour Class per week, 1 x 1-hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1-hour Class per week (recordings provided), 1 x 1-hour online Seminar per week*

## Content

Introduction to Politics familiarises students with some of the main elements of politics and political analysis by examining the key components of contemporary political systems. These are state and civil society actors and institutions, the main ideas that shape them, and the way these actors, institutions and ideas manage key contemporary political issues, such as human rights, gender, race, the environment and welfare provision. The unit develops four threshold concepts that will both deepen students' understanding of politics and provide them with the analytical tools to pursue further study in the politics and policy studies discipline. These threshold concepts are: first, that the allocation of resources in society and the values people hold are the product of the interaction between actors, institutions and ideas at different levels from the local to the global. Second, these interactions are shaped by issues of power, justice, order, conflict, legitimacy, accountability, sovereignty, governance and decision-making. Third, the understanding and practice of politics is shaped by competing political ideologies. Fourth, knowledge and truth are contested, partial and subjective and look very different from the perspective of different actors, thus leading to political contestation and conflict.

## Assessment

- Assessment 1 – Research and Writing Exercise (500 words) – 15%
- Assessment 2 – Essay (2000 words) – 50%
- Assessment 3 – Report (1500 words) – 35%

## AIP116 – Visions and Values in Politics

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Geoffrey Robinson*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1-hour Class per week, 1 x 1-hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1-hour Class per week (recordings provided), 1 x 1-hour online Seminar per week.*

## Content

This unit introduces students to the major political ideologies that have shaped government and politics in the modern western world. The historical evolution of political ideas and movements, their contemporary relevance and popular support is examined. The unit will provide students with a basic knowledge of key political ideas and concepts. In addition, students are encouraged to develop their capacities to identify and evaluate political arguments, and apply them in understanding contemporary political debates. Topics include liberalism, conservatism, socialism and a range of other ideologies.

## Assessment

- Assessment 1 – Report (1500 words) – 40%
- Assessment 2 – Essay (1500 words) – 40%
- Assessment 3 – Class/Online Exercises – 20%

## AIP208 – Government and Politics of the United States

*Enrolment modes: Trimester 1: Burwood (Melbourne), Wurn Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Zim Nwokora*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Class per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour Class per week (recordings provided)*

## Content

This unit aims to provide students with a broad and rigorous introduction to government and politics in the United States. The unit will draw on three approaches to this subject matter. First, students will be introduced to influential theories developed by political scientists to explain observations about American politics. Second, students will be introduced to historical material to illustrate change and continuity in the operations of American government and politics. Third, students will be encouraged to read contemporary commentary (usually by journalists) about American politics. An important purpose of the unit, however, is to enable students to think critically about such commentary, drawing on their theoretical and historical knowledge. The course will be structured around the study of key American political institutions and policy areas, and devote significant attention to the turbulent struggles for power in American politics.

## Assessment

- Assessment 1 – Report (1500 words) – 40%
- Assessment 2 – Essay (2500 words) – 60%

## AIP209 – Asylum Challenges in Australia and Asia

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Amy Nethery*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Class per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour Class per week (recordings provided)*

### Content

The issue of asylum is one of the most pressing and intractable policy issues of our time. Asia has the largest number of asylum seekers and refugees in the world, and among the least developed laws and policies. In contrast Australia has developed an extensive policy response, and many of these policies have a broad reach across the region. In this unit we examine the impact of historical, political and structural factors of asylum policy in Australia and Asia. We evaluate the policy instruments – domestic, bilateral and regional – available to address the issue. We pay special attention to policies addressing asylum seekers who travel by boat. Finally, we assess the geo-political outcomes of these policies, and what they mean for asylum seekers and refugees.

### Assessment

- Assessment 1 – Report (1000 words) – 25%
- Assessment 2 – Report (1000 words) – 25%
- Assessment 3 – Essay (2000 words) – 50%

## AIP211 – Politics of Development

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Samantha Balaton-Chrimes*

*Prerequisite: AIP107 and AIP116*

*Corequisite: Nil*

*Incompatible with: AIS302*

*Scheduled learning activities – campus: 1 x 2 hour class per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour class per week (recordings provided)*

### Content

This unit explores key phenomena that have shaped the way in which the Global North (in which Australia sits) and the Global South relate to each other: colonialism, capitalism and development. In doing so, the unit introduces students to important areas of political theory, including international political economy, post-colonialism, and development theory. The unit draws extensively on case studies from Africa and Latin America, with some case studies also from Asia.

### Assessment

- Assessment 1 – Research and Writing exercises x 3 – 15% (5% each)
- Assessment 2 – Presentation – 35%
- Assessment 3 – Essay (2000 words) – 50%

## AIP230 – Understanding Public Policy

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Andrew Vandenberg*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Class per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour Class per week (recordings provided)*

### Content

In this unit, we study public policy from three key viewpoints:

- We investigate the relationship between government and citizens, the role of policy in the lives of citizens, and contribution of different actors to the policy making process.
- We examine various areas of public policy in depth, analysing each in terms of policy development; actors; institutions; instruments; context (political, social, economic, historical); and human impact.
- We develop skills central to policy work, including preparing policy briefings and conducting policy analysis.

### Assessment

- Assessment 1 – Research and Writing Exercise (500 words) – 10%
- Assessment 2 – Report (750 words) – 20%
- Assessment 3 – Report (750 words) – 20%
- Assessment 4 – Essay (2000 words) – 50%

## AIP243 – Europe's Political Transformation

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Andrew Scott*

*Prerequisite: AIP107 or AIP116*

*Corequisite: Nil*

*Incompatible with: AIP246*

*Scheduled learning activities – campus: 1 x 2 hour Class per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour Class per week (recordings provided)*

### Content

The formation of the European Union (EU) in the decades since World War Two has been a remarkable achievement of international cooperation in a continent ravaged by conflicts for centuries. There has been a spread of member states from six to nearly 30; and increased governance of citizens by the Brussels-based, supra-national European parliament and commission. Nations like the Ukraine want to join, to gain democracy. Yet some complain the EU does not have enough democracy. This, the differences between northern and southern European traditions, and tensions between the nations which are in and out of the Euro currency zone, pose threats to the continent's continued co-operation.

This unit surveys political changes which have swept – and challenges now confronting – Europe, namely: whether it is better to separate the finances including currencies of northern European nations like Germany from southern European nations like Greece; whether Nordic nations' high welfare states and gender equality are best served by being in the EU; and whether Britain should leave the EU to better preserve its distinctive culture. Political challenges posed to Europe by higher immigration, and greater ethno- religious diversity, will be studied; as will political lessons which Europe may offer the wider world.

### Assessment

- Seminar or online Exercises (2000 words or equivalent) – 50%
- Essay (2000 words or equivalent) – 50%

## AIP245 – Environmental Politics

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Peter Ferguson*

*Prerequisite: AIP107 or AIP116*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour class per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour class per week (recordings provided)*

### Content

Environmental problems, such as climate change, constitute one of the biggest policy challenges facing governments around the world. The difficulty which many states, including Australia, have had in implementing effective policy responses to this environmental challenge is one of the key political puzzles of the twenty first century. This unit explores the ways in which state, non-state and international organisations understand environmental problems and the diverse policy actions that have been proposed and/or taken in response. Five main themes are covered. These are: the unique challenge environmentalism poses to existing political ideologies and forms of political organisation; the relationship between the economy and environment; globalisation and the environment; international environmental politics; and the politics of climate change. These themes highlight both continuities and discontinuities with existing local, national and global political structures created by environmental problems. A range of specific issues such as sustainable development, carbon trading, consumption, environmental justice and the environmental implications of economic growth, trade and finance are also explored, using Australian and international case studies.

### Assessment

- Assessment 1 – Report (1500 words) – 40%
- Assessment 2 – Essay (2500 words) – 60%

## AIP247 – Media and Politics: Campaign Strategies

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Maria Rae*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AIP204*

*Scheduled learning activities – campus: 1 x 2 hour Class per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour Class per week (recordings provided)*

### Content

In the Information Age, the media plays a critical role in the political process. This unit has two key goals. Firstly, it seeks to provide a comprehensive overview of the complex relationship between the media and politics, taking into account contemporary academic theories and debates, practical examples and real world issues, and the evolution of this relationship via new technologies. Secondly, this unit seeks to engage students in an ongoing learning process in which they will develop and refine media skills relevant to running a political campaign (such as creating fictional Twitter, YouTube and Facebook accounts).

## AIP301 – Political Parties and Social Movements

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Geoffrey Robinson*

*Prerequisite: One unit at level 2 in the Politics and Policy Studies major, or equivalent, or with the permission of the Unit Chair*

*Corequisite: Nil*

*Incompatible with: AIP207*

*Scheduled learning activities – campus: 1 x 2 hour Class per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour Class per week (recordings provided)*

## Content

A contrast between declining interest in formal politics and increasing interest in the less formal politics of social movements poses challenges to conventional understandings of what should be the main form of democratic mobilisation, organisation and expression. Why are so many people in advanced First World countries cynical about politicians? What can political parties do about this? What has been happening to the nature, operation and function of political parties?

This unit will further students' knowledge of political parties and social movements by surveying the histories and various configurations of political parties in Australia and other countries. It will also examine how other forms of mobilisation, including social movements, help to revitalise democracy. Topics include: labour movements and parties of labour; conservative and liberal parties; centrist parties; agrarian parties; civil rights and indigenous peoples' rights movements; student radicalism including in the "sixties"; green movements and parties; feminist movements; new-right movements and neo-liberal parties; xenophobic populist parties; and the anti-corporate or global economic justice movement and Occupy Wall Street movements.

## Assessment

- Assessment 1 – Essay (2000 words) – 50%
- Assessment 2 – Essay (2000 words) – 50%

## AIP703 – Political Values and Public Policy

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Geoff Robinson*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 x 1 hour per week.*

## Content

A range of ideological traditions shape contemporary public policy: classical ideologies of liberalism, socialism and conservatism underpin institutions such as the market economy, the welfare state and nationalism. Newer ideologies with a focus on personal authenticity and meaning such as feminism, political religion and multiculturalism have informed public policy since the 1970s. Public policy reflects both these traditions and the tensions within them: is feminism about equality or difference, does liberalism imply the right to espouse illiberal views, is sustainable economic growth an oxymoron, can governments foster social cohesion?

The unit considers classic thinkers but also contemporary policy intellectuals and politicians together with forms of governmentality such as human rights commissions and carbon pricing. The unit will consider particular areas of policy debate such as: environmental sustainability, the rise of 'rights culture', social cohesion/antiterrorism and income redistribution/welfare dependence. The benefits of this proposed unit will include helping policy practitioners to better locate their work experiences in longer-term and broader philosophical debates.

## Assessment

- Essay (3000 words) – 60%

## AIP704 – Making Policy

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Andrew Scott*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AIP747*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 hour per week*

## Content

This unit explains the process of Policy Making as distinct from most other units in this degree which are concerned with policy content and particular policy issues. This unit therefore considers, and critically engages with, a conventional classification of eight stages in 'the policy cycle'. Students will be encouraged to identify into which stages of the cycle various particular policy activities are best classified. The relative importance in determining outcomes of different 'policy actors' will be discussed and analysed. The need for effective policy evaluation, and challenges in how to achieve this, will be given particular attention.

## Assessment

- Research and writing exercise (2000 words) – 40%
- Research essay (3000 words) – 60%

## AIP740 – Policy Lessons From Overseas

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Andrew Scott*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AIL772, AIP240, AIP340, AIP440, AIP640, AIP772*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 x 1 hour per week.*

## Content

Public policy analysis is increasingly becoming internationally comparative. This unit will therefore analyse current Australian public policy in key fields and consider ideas for changes of policy direction in those fields drawing on lessons from overseas. In the introductory week we establish the premises for this unit and outline the possibilities of students arguing for and against the directions discussed in nine further weekly policy topics, prior to concluding and reflecting in the final week. These topics will cover: Early Childhood Education and Care; the equitable provision of vocational education in schools; innovation policy; skills retraining for mature-age workers displaced by job losses; taxation and regulation of natural resource wealth to meet national revenue challenges; healthier and more sustainable urban design; more balanced population distribution through regional development; the importance of aesthetics, ergonomics and nature in people's workplace environments; greater emphasis on prevention of crime and the rehabilitation of persons convicted of crimes; and effective foreign policy including provision of extensive and quality foreign aid.

## Assessment

- Essay (2000 words) – 40%

## AIP746 – Challenges to Democratic Governance

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Benjamin Isakhan*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AIP446*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 x 1 hour per week.*

### Content

This unit introduces students to the challenges of governance in modern politics, approaching this through different theoretical approaches to democracy advocated for local, national, regional and transnational levels of politics. Governance will be considered in relation to the issues arising from the fields of:

- Public policy and administration
- International and transnational politics and comparative politics.

Attention is directed to debates over the criteria of good governance to be found in theories of democracy and neoliberalism, together with the challenges posed by neoliberal ideas of the state and economy. In this way the unit also offers an introduction to democratic politics more broadly

### Assessment

- Essay (2000 words) – 40%
- Essay (3000 words) – 60%

## AIP748 – Intergovernmental Relations

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Geoffrey Robinson*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 x 1 hour per week.*

### Content

Federal systems of government such as Australia's are modern political devices for achieving unity between diverse political communities. Inevitably, intergovernmental relations between the tiers of government in federations are fraught with tensions over the ways in which power and responsibility are shared between them. Globalisation has added to such internal pressures on federations as complex, often entrenched 'trans-boundary' policy issues and the pressing needs of local and regional communities. This unit explores the case for reform of the Australian federation in the light of the democratic values and purposes it was supposed to embody. In exploring this case, we also take note of the experiences of other countries.

### Assessment

- Essay (2000 words) – 40%
- Essay (3000 words) – 60%

## AIP773 – Governance and Accountability

*Enrolment modes: Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Zim Nwokora*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AIL773*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 x 1 hour per week.*

### Content

Accountability is central to ideas and practices of effective governance but, in the face of at times quite fundamental challenges and changes, traditional modes of governance and accountability are being re-evaluated, and in important ways re-invented. This unit explores these developments in a critical and analytic manner. It locates management within its context of political, legal, fiscal and ethical accountability to diverse stakeholders. A key aim is for students to develop a critical understanding of the complex and at times competing array of accountabilities at play today, at the same time exploring ways of responding effectively, imaginatively and ethically to these demands.

## Assessment

## AIP780 – Managing Public Expenditure

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Amy Nethery*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 x 1 hour per week.*

## Content

Students will develop an understanding of the overall federal budget process, including how the budget is constructed, techniques for budget management and preparation, and the determination of government priorities.

Topics include the role of central budget agencies particularly the Cabinet Expenditure Review Committee, Senate and House of Representatives Estimates Committees, the scrutiny of government expenditure, Treasury and economic management, and changes to Commonwealth agency budgetary and financial management processes.

We examine the continuing quest to increase the 'rationality' of resource allocation, along with issues such as the nature of 'budgeting control', and the place of non-financial performance information in resource allocation.

- Presentation (1500 words) – 30%
- Essay (2500 words) – 50%

## AIP781 – Political Communication

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Maria Rae*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 x 1 hour per week.*

## Content

This unit is concerned with the interplay of communication and politics, including the transactions that occur among citizens, between citizens and their governments, and among officials within governments. We examine the 'media logic' which pervades contemporary politics and the capacity of different actors to mould public opinion and the policy agenda, and the role here of modern communication technologies. At a more institutional level the unit explores closely the imperative of effective communication within governments, the associated issues and challenges.

## Assessment

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 x 1 hour per week.*

## Content

As a principle, democracy has never been more popular. For those who have it, democracy offers a grab-bag of rights and freedoms not found in other regime types; for those who want it, democracy holds the promise of a better life free from the constraints of oppressive forms of power. But where does democracy come from and what challenges loom ahead for this sophisticated form of governance? This unit invites students to challenge their assumption about the nature, history and contemporary practise of democracy – both in the “West” and elsewhere. It provides an alternative narrative about the complex and contested history of democracy and offers nuanced insights into some of the greatest challenges facing democracy today such as: Islam and democracy; democracy and “mixed regimes”; new theories of democracy; and questions about its future.

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities equivalent to 1 x 1 hour per week.*

## Content

This unit aims to provide students with a comprehensive introduction to competition in political settings and over political objects. The unit will focus on political competition in domestic settings (i.e., not competition between nation-states), and draw on theoretical and empirical material from the sub-discipline of Comparative Politics. The course material will be organized around four themes. First, students will have the opportunity to explore foundational questions, in particular (a) what makes competition in politics different from competition in the economic marketplace and (b) what implications follow from these differences. Secondly, students will gain an understanding of the variety of patterns of political competition across both democratic and non-democratic settings. This theme will draw heavily on the scholarship on political party systems, which has been an influential framework for understanding the basic parameters of political competition across countries. Building on this, students will consider the regulation of political competition and, specifically, the relationship between constitutional rules and the emergence and development of political party systems. Fourthly, the course will devote attention to the relationship between the various types of political party systems and important public policy outcomes.

### Content

This unit introduces students to key themes, structures, actors and issues in contemporary international politics. These include the challenges of state violence and terrorism, borders and people movements, crises in the global economy, human rights and the global order, and the challenges of nationalism and globalisation.

### Assessment

- Assessment 1 – Report (1000 words) -20%
- Assessment 2 – Essay (2000 words) – 50%
- Assessment 3 – Exam – 30%

## AIR102 – War, Terrorism and Humanitarian Responses

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Dean Coldicott*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour class per week, 1 x 1 hour seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour class per week (recordings provided) and 1 x 1 hour online seminar per week*

### Content

This unit introduces students to the changing nature of security and responses to insecurity. Students first study the key concepts in international security: power and conflict. We examine debates about the changing nature of warfare and the role of political violence and terrorism in the international system. Following this, students consider the effect of contemporary conflict and political violence on the individuals caught up in the violence. In this, we examine the concept of human security: humanitarian intervention, health, aid, and development and security. The unit is designed to help students think, talk and write about conflict, insecurity and responses to it in an informed and critical manner.

### Assessment

- Assessment 1 – Individual Presentation (800 words equivalent) – 20%
- Assessment 2 – Essay (2000 words) – 50%
- Assessment 3 – Test (2 hours) – 30%

## AIR200 – Global Capitalism and Power

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Chengxin Pan*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AIR236*

*Scheduled learning activities – campus: 1 x 1-hour class per week and 1 x 1-hour seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1-hour class per week (recordings provided) and 1 x 1-hour online seminar per week*

### Content

This unit considers how the field of global political economy helps comprehend the crises and problems facing the contemporary operation of global capitalism. It considers the key agents, structures and institutions which shape global capitalism. The unit critically examines key political and ethical problems such as global financial crises, global poverty, corporate power, climate change and unaccountable global governance.

### Assessment

- Seminar Exercises (1600 words) – 40%
- Essay (2000 words or equivalent) – 50%
- Presentation (400 words or equivalent) – 10%

## AIR202 – Australia and the Changing Asia-Pacific

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: David Hundt*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AIR205 and AIR243*

*Scheduled learning activities – campus: 1 x 2 hour class per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour class per week (recordings provided)*

### Content

This unit introduces students to the evolution of Australia's engagement with the Asia-Pacific region. Since Federation, Australia has struggled to define its relationship with its northern neighbours. Some governments have called for Australia to distance itself from the region, while others have sought to strengthen ties. In any case, the region has been essential to Australia's national interests. This unit shows how a growing range of issues – from security and regionalism, to trade and development, and to human rights and asylum seekers – are binding Australia and the region more closely, despite any misgivings on the part of some Australians. It also considers Australia's relations with key players in three sub-regions: Northeast Asia, Southeast Asia, and South Asia. The unit will introduce students to how policymakers design foreign policy, the issues they grapple with, and the key partners with whom they engage when attempting to implement it.

### Assessment

- Essay (2500 words) – 60%
- Examination (2 hours) – 40%

## AIR203 – Human Rights in World Politics

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Costas Laoutides*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AIR234*

*Scheduled learning activities – campus: 1 x 1 hour class per week, 1 x 1 hour seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1-hour class per week (recordings provided) and 1 x 1-hour seminar per week*

### Content

The unit explores the evolution of the modern human rights regime as well as some of the major debates about the role of human rights in international relations, such as: the dichotomy between individual and group rights; discussion on Universalism and Relativism; the relation between state sovereignty, violence and human rights. Accordingly the unit focuses on critically applying these debates to contemporary issues of human suffering such as: genocide, forced migration, state terrorism. The unit will then examine international mechanisms of addressing human wrongs in world politics such as humanitarian intervention and the International Criminal Court. The unit will conclude with recent challenges on human rights coming from the changing nature of warfare in the twenty first century, to this end the role of private military companies and the use of artificial intelligence in the battlefield will be explored.

### Assessment

- Assessment 1 – Online Quiz – 20%
- Assessment 2 – Research Essay (1500 words) – 40%
- Assessment 3 – Test (1000 words) – 40%

## AIR204 – Great Power Relations

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrn Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: David Hundt*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AIR205, AIR245 and AIR345*

*Scheduled learning activities – campus: 1 x 1 hour class and 1 x 1 hour seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour class per week (recordings provided) and 1 x 1- hour online seminar per week*

### Content

International relations and world order are to a large extent defined and shaped by great power relations. In the 21st century no other great power relationship is more important and more complex than that between the United States and China, the two largest economies in the world. With the US and China as Australia's strongest ally and its largest trading partner respectively, the stake is particularly high for Australia.

Will the U.S. and China be able to cooperate in confronting a raft of global challenges or will their competition lead to hegemonic conflict or even war?

Is the twenty-first century the American or Chinese Century?

To understand such pressing questions, this unit surveys the evolution, dynamics, opportunities, problems, and challenges of this fascinating and important bilateral relationship, as well as some common theoretical and analytical perspectives on great power relations more broadly.

### Assessment

- Assessment 1 – Essay (2000 words) – 50%
- Assessment 2 – Exam – 50%

## AIR242 – Key Concepts in International Relations

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Sally Totman Marshall*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AIR342*

*Scheduled learning activities – campus: 1 x 1 hour class per week, 1 x 1 hour seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour class per week (recordings provided) and 1 x 1 hour online seminar per week*

### Content

The nature and purpose of the study of international relations is now widely contested. This is reflected in the diversification of theoretical approaches in the field. Conventional perspectives (realism, neorealism), once largely unchallenged, now face both reformist (liberalism, rationalism) and critical (Marxism, postmodernism) rivals. This unit focuses on the evolution of international thought last century by concentrating on the debates and disputes between competing intellectual perspectives. The approaches of various theoretical traditions to the central actors and issues in global politics-such as human rights, war, sovereignty, markets and the environment are a central focus of the unit.

### Assessment

- Assessment 1 – Essay – 60%
- Assessment 2 – Exam – 40%

## AIR292 – Study Tour: America and the International System

*Offering information: This unit is offered in alternate years 2020, 2022.*

*Enrolment modes: Trimester 3: Study Tour*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Dean Coldicott*

*Prerequisite: Successful completion of 2 units from AIR101, AIR102, AIR108 or AIR120 plus completion of at least 2 level 2 International Relations/Middle East Studies units. Students must have completed at least 8 credit points in their course, otherwise by permission of Unit chair. All students to seek permission from unit chair to enrol.*

*Corequisite: Nil*

*Incompatible with: Nil*

*In-person attendance requirements: Delivery methods: intensive mode, but supported also through Cloud-based resources and activities. Pre-departure readings: 4 hours. Pre-departure workshop session (conducted by Study Abroad Office), including preparation: 8 hours. In country: 10 days x 8 hours = 80 hours. Total: approx. 92 hours*

### Content

This unit provides an experiential approach to learning about America's role in the international political system and the role of International Organisations such as the UN, IMF and World Bank. Via their learning about key aspects of American history, politics and culture, students are encouraged to explore and reflect upon how American history, culture and politics informs the study of International Relations as a discipline and their own understanding of contemporary international politics.

*Note: Study tours will be confirmed by April 2019.*

*Contact the Work Integrated Learning (WIL) team for queries: ARTSED Work Integrated Learning.*

### Assessment

- Pre-departure Report (1000 words) – 30%
- Journal (1000 words) – 30%
- Presentation – 40%

## AIR348 – Activists Beyond Borders

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Danielle Chubb*

*Prerequisite: At least two units at Level 2 in the International Relations major, or equivalent, or with the permission of the Unit Chair*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1-hour Class per week, 1 x 1-hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1-hour class per week (recordings provided) and 1 x 1-hour online seminar per week*

### Content

This unit critically examines the nature, effectiveness and implications of transnational activism in world politics. In the first part of the unit, students analyse debates around global agenda setting and transnational activists. Conceptual issues around strategies, effectiveness, state-activist interaction and the politics of representation are then applied to the practice of international relations through a series of case studies in the second part of the unit.

### Assessment

- Assessment 1 – Seminar exercises (1500 words) – 20%
- Assessment 2 – Essay (1800 words) – 40%
- Assessment 3 – Group assignment (3500 words [approx. 700 words per student]) – 40%

## AIR349 – Diplomacy and the United Nations

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrn Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Dean Coldicott*

*Prerequisite: At least two units at Level 2 in the International Relations major, or equivalent, or with the permission of the Unit Chair*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour class per week, 1 x 1 hour seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour class per week (recordings provided) and 1 x 1 hour online seminar per week*

*In-person attendance requirements: Participation in Model United Nations Summit (on a Saturday during trimester – exact date will be advised in Week 1)*

### Content

This unit challenges you to put yourself in the shoes of a diplomat and negotiate a multilateral agreement at the United Nations. The unit explores the nature of diplomacy in a globalizing world and investigates the forms and effectiveness of a range of political and policymaking efforts to address current issues in world politics. Throughout the unit, students work in small groups representing an assigned nation to establish a national position on a number of key issues and negotiate with other groups. These diplomatic efforts culminate in the Model United Nations Summit towards the end of the unit.

The unit will be delivered via a series of lectures, workshops and participation in a Model United Nations Summit (on-campus or via the Cloud).

### Assessment

- Assessment 1 – Class/Online Exercises (approx. 800 words) – 20%
- Assessment 2 – Simulation -40%
- Assessment 3 – Report (2000 words) – 40%

## AIR701 – China and the World

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Baogang He*

*Prerequisite: D305 students must have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%, otherwise Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour Seminar per week (recordings provided)*

### Content

China plays an increasingly important role in global politics and is Australia's biggest trading partner. Its international relations generally and foreign policy in particular have attracted growing interest from scholars and students alike.

Specifically, this unit will examine the sources and nature of Chinese power, Chinese views of its national identity, global role and responsibility, Chinese nationalism and strategic culture, China's major foreign relationships and regional responses to China's rise, as well as the impact of these interactions on the U.S., regional balance of power, global political, economic and normative order, energy and resources, environment, and Chinese domestic political economy.

### Assessment

- Assessment 1 – Essay (1500 words) – 30%
- Assessment 2 – Essay (2500 words) – 50%
- Assessment 3 – Class/Online Exercises (1000 words) – 20%

## AIR707 – The United Nations and International Organisation

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Scott Burchill*

*Prerequisite: D305 students must have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%, otherwise Nil*

*Corequisite: Nil*

*Incompatible with: AIP725, AIR489, AIR725, AIR789*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour Seminar per week (recordings provided)*

### Content

This unit aims to further students understanding of the politics of contemporary global governance and the United Nations. The first part of the unit explores the history and key drivers of international organisations within world politics. Students will become aware of the key theories and concepts of co-operation and apply them to international organisations such as the United Nations, International Monetary Fund, World Bank and the World Trade Organisation. The second part of the unit examines the roles of international organisations in their interactions with governments and non-governmental organisations in respect to recent campaigns which seek to address humanitarian atrocities, global poverty, and environmental degradation.

### Assessment

- Presentation (1500 words or equivalent) – 30%
- Report (2500 words or equivalent) – 50%
- Seminar Exercises (1000 words) – 20%

## AIR712 – Australian Foreign Policy

*Enrolment modes: Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Scott Burchill*

*Prerequisite: D305 students must have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%, otherwise Nil*

*Corequisite: Nil*

*Incompatible with: AIP612, AIR612*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 x 1-hour online Seminar per week (recording provided)*

### Content

The external and internal forces which influence Australia's foreign policy decision makers are explored along with Australia's multiple identities as a 'middle power', 'ANZUS ally' and as 'part of the region'. The conceptual frameworks are applied to major foreign policy issues, including human rights, the environment, trade policy and military security.

## AIR717 – International Conflict Analysis

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Costas Laoutides*

*Prerequisite: D305 students must have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%, otherwise Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour Seminar per week (recordings provided)*

## Content

This unit provides an overview of the field of conflict analysis and resolution. The unit examines the causes of interstate and intrastate conflict, and examines a number of methods for peaceful conflict resolution. It explores issues such as civil conflict, secessionist conflict, humanitarian intervention, peace building as well as international efforts of mediation and arbitration. The unit employs several theoretical approaches and draws on a number of case studies in order to tackle the dynamics of conflict and peace in international relations.

- Assessment 2 – Quizzes – 30%
- Assessment 3 – Test (2000 words) – 30%

## AIR720 – Transnational Activism and Policy

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Steven Slaughter*

*Prerequisite: D305 students must have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%, otherwise Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour Seminar per week (recordings provided)*

## Content

This unit is a critical examination of transnational aspects of global governance. It considers the ways that officials and activists attempt to promote cooperation and coordination between states, International Organisations and civil society in order to address global policy problems.

The first part of the unit considers the nature of transnational governance with respect to the formation and operation of transnational policy networks and transnational civil society by focusing upon the role of officials, experts and activists operating within global governance.

The second part of the unit examines the politics of transnational governance by focusing upon specific contemporary global policy problems related to the stability of global capitalism, the sustainability of the environment and the provision of social justice. It also considers how these transnational processes could be reformed to be more effective and accountable.

## Assessment

- Assessment 1 – Research and Writing Exercise (2000 words) – 40%
- Assessment 2 – Report (2000 words) – 40%
- Assessment 3 – Presentation – 20%

## AIR726 – Human Rights in World Politics

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Costas Laoutides*

*Prerequisite: D305 students must have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%, otherwise Nil*

*Corequisite: Nil*

*Incompatible with: AIP726, AIR426*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour Seminar per week (recordings provided)*

## Content

The unit investigates the emerging human rights agendas in world politics. It identifies the ethical foundations of human rights claims and their political interplay with the states system, non-state actors and international law. It examines key issues in respect to political and civil rights, economic and social rights, and the concept of 'global citizenship' in relation to various case studies.

## Assessment

- Assessment 1 – Essay (2000 words) – 40%
- Assessment 2 – Group Assignment (Report) – 30 %
- Assessment 3 – Group Assignment (Presentation) – 30%

## AIR728 – Global Political Economy

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*Trimester 1 Unit Chair: Scott Burchill*

*Prerequisite: D305 students must have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%, otherwise Nil*

*Scheduled learning activities – campus: 1 x 2 hour*

*Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour*

*Seminar per week (recordings provided)*

### Content

The unit begins by examining a range of theoretical approaches to international political economy (neo-liberalism, neo-mercantilism, and neo-Marxism), then examines the post-war history of the world economy, and concludes with an examination of contemporary issues and problems such as trade, debt, class, regional economies and organisations including ASEAN and APEC and transnational corporations.

### Assessment

- Assessment 1 – Essay (2500 words) – 50%
- Assessment 2 – Class/Online Exercises – 20%
- Assessment 3 – Test (1500 words) – 30%

## AIR729 – Human Security in Global Politics

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*Trimester 1 Unit Chair: Sally Totman Marshall*

*Prerequisite: D305 students must have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%, otherwise Nil*

*Corequisite: Nil*

*Incompatible with: AIP729*

*Scheduled learning activities – campus: 1 x 2 hour Class per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour Class per week (recordings provided)*

### Content

This unit aims to develop understanding of key human security issues in contemporary world politics. Attention is given to the securitization of issues such as refugees, the environment and health in foreign policy, with an emphasis on the challenge to states' security in the post-Cold War world. The unit will examine how the state and international organisations attempt to resolve human security crises. In particular, the unit aims to link human security issues with public policy frameworks by focussing on the role of government, NGOs and public opinion.

### Assessment

- Assessment 1 – Report (2500 words) – 40%
- Assessment 2 – Research and Writing Exercises (20% each, 750 words x 2) – 40%
- Assessment 3 – Class/Online Exercises – 20%

## AIR732 – Terrorism in International Politics

*Enrolment modes: Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Scott Burchill*

*Prerequisite: D305 students must have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%, otherwise Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 x 1-hour online Seminar per week (recording provided)*

### Content

Terrorism is commonly identified as a growing threat in today's world. This unit considers the evolution of terrorism as an expression of alienation, and as a form of political violence in the context of the modern international system. It also examines the dilemmas associated with, and limitations of, conventional responses to terrorism and the tools of counter terrorism. The unit then examines specific types of terrorism including maritime, biological, and suicide terrorism.

### Assessment

- Assessment 1 – Essay (2000 words) – 40%
- Assessment 2 – Report (2000 words) – 40%

## AIR742 – International Relations Theory

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Steven Slaughter*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AIR242, AIR342, AIR723*

*Scheduled learning activities – campus: 1 x 2 hour*

*Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour*

*Seminar per week (recordings provided)*

### Content

This unit focuses on the evolution of international thought in the twentieth century by concentrating on the debates and disputes between competing intellectual perspectives in International Relations theory. The origins of the discipline of International Relations will be analysed, and the traditional perspectives of liberalism, realism, neo-realism and the English School will be explained and critically evaluated for their contemporary relevance. Critical alternatives to the traditional perspectives will then be examined in the form of Marxism and more recent perspectives of critical theory, post-modernism, constructivism and feminism. These theoretical traditions will be examined in light of key issues in world politics – such as security, globalisation, global governance, and human rights.

### Assessment

- Seminar Exercises (2500 words) – 50%
- Essay (2500 words or equivalent) – 50%

## AIR747 – Contemporary International Politics

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: David Hundt*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AIP660, AIR660, AIR760*

*Scheduled learning activities – campus: 1 x 2 hour*

*Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour*

*Seminar per week (recordings provided)*

### Content

This unit investigates key developments in contemporary international politics. It introduces the main perspectives to understanding world politics and the main elements of world politics: the state, society of states, international law and globalisation. The second part of the unit examines the key issues in world politics such as security in a globalising world, human rights, humanitarian assistance, violence and environmental governance. It asks if the way we address these issues and the correlated development and growth of contemporary global governance reflects a greater concern for justice in global politics.

### Assessment

- Essay (3000 words) – 50%
- Research and Writing Exercise (1500 words) – 30%

*Scheduled learning activities – campus: 1 x 2 hour*

*Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour*

*Seminar per week (recordings provided)*

### Content

This unit examines power, conflict and the security states, societies and individuals. We begin by examining the causes of war and the evolution of strategic thought from classical times to the present. This leads to a discussion of both traditional and alternative theoretical frameworks of analysis.

We then focus on current debates within the field: nuclear strategy (including the deterrence or defence debate arising from ballistic missile defence), proliferation of weapons of mass destruction, regional conflicts and the development of grand strategy by the great powers. We conclude by focusing on emerging issues on the security agenda, such as migrations, energy, transnational crime and ecological deterioration.

### Assessment

- Assessment 1 – Class/Online Exercises – 20%
- Assessment 2 – Writing Exercise (1500 words) – 30%
- Assessment 3 – Group Assignment – 50%

## AIR753 – Regionalism in International Politics

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Steven Slaughter*

*Prerequisite: D305 students must have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%, otherwise Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour*

*Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour*

*Seminar per week (recordings provided)*

### Content

This unit examines the changing nature of regionalism in international politics. We begin by examining the theoretical approaches to regionalism from early functionalist approaches to the constructivist 'New Regionalism' theory. We will then assess the development of regional cooperation in three main areas; economics; politics; and, security and defence. Key regional organisations in Europe, the Americas, Africa, Middle East, South Asia, Southeast Asia and Central Asia as well as emerging groupings will be examined and compared. The unit will focus on the nature of regional engagement in these areas and reasons as to the divergence in regionalism among the regions.

### Assessment

- Assessment 1 – Essay (2000 words) – 40%
- Assessment 2 – Report (2000 words) – 40%

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Scott Burchill*

*Trimester 2 Unit Chair: Scott Burchill*

*Trimester 3 Unit Chair: Scott Burchill*

*Cohort rule: This unit is only available to students enrolled in A726, A723 or D305*

*Prerequisite: 8 credit points in the Master of Arts (International Relations), plus permission from unit chair*

*Corequisite: Nil*

*Incompatible with: AIR791*

*Scheduled learning activities – campus: 150–160 hours of work experience in their chosen site.*

*Internship: Students will also be required to complete an internship.*

### Content

The purpose of the unit is to allow campus based students who have completed 8 credit points of their Master of Arts (International Relations) and who are in their final trimester of study, to take up a work or volunteer placement within a host organisation in Australia or overseas. The placement will assist them to gain an understanding of a workplace environment associated with their area of study, as well as undertake a specific project which makes a meaningful contribution. The basic principle of the Internship is that it should further the interests of both the students and the host organisation.

The Internship unit offers students an opportunity to gain first hand work experience in a region or employment sector closely associated with topics studied at university, and to explore the practical applications of their academic study. Students are expected to complete a 150–160 hours of work experience in their chosen site. The unit provides a framework for student assessment of their knowledge, skills and work choices in relation to the practices and implementation of selected topics in International Relations.

Note: Internship enrolment is subject to completion of specified prerequisite units and special application requirements. Interested students should look at the Faculty Student Mobility website information and are strongly advised to complete the pre internship modules

### Assessment

Students enrolled in this unit receive an ungraded pass/fail result based on assessment of the following:

To undertake work or volunteer placement within a host organisation in Australia or overseas and complete the following:

- Assessment 1 – Pre-departure Report (1000 words) – 10%
- Assessment 2 – Journal (2500 words) – 25%
- Assessment 3 – Final Report (6500 words) – 65%

## AIS101 – Intercultural Communication

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waterfront (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Tony Chalkley*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour recorded Class, 1 x 1 hour online seminar per week*

### Content

Effective intercultural communication is a vital personal and professional skill in the C21. This unit provides a practical introduction to intercultural communication in order to assist students in developing their intercultural competence. Through a combination of classes, guided discussion, reflection and practice, students will develop an understanding of what culture and communication is, how culture influences communication, and what it means to be an effective intercultural communicator. The unit is divided into three parts: the meaning of culture and cultural dimensions; developing intercultural communication competency; negotiating and resolving cultural conflicts. The unit draws on literature from the fields of social psychology, cultural anthropology, international business and communication, and is action-orientated, with students encouraged to draw on their own experiences as well as the case studies and examples presented during the unit.

### Assessment

- Essay (1000 words) – 30%
- Quizzes – 20%
- Report (2200 words) – 50%

## AIS201 – International Studies @ Work

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waterfront (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Katherine Barrand*

*Cohort rule: Must be enrolled in A306, A326, A326S, D323, or D338*

*Prerequisite: For students who commenced their course prior to 2012: Completion of at least two units at Level 1. For students commencing from 2012: AIS101 and [ALW117 or AIX117]. Please note that these prerequisites cannot be waived*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1–2 hour online seminar per week*

### Content

The primary aim of this unit is to guide and assist students enrolled in the Bachelor of International Studies in making informed decisions about their study and subsequent work-career options, and to help them identify and develop key employability skills and attributes. As such, the unit is concerned with career development learning, and encompasses four main elements: self-awareness, opportunity awareness, decision making, and transition learning. Drawing directly on the experiences and insights of representatives from industry we look at career opportunities and related developments in the field of international studies, ranging from the government sector and private enterprise, through to non-government organisations both within Australia and overseas. We consider what is involved in establishing your 'profile' and gaining an edge when it comes to securing a job and laying the foundations for a career, and work with students in developing their own e-portfolios. We also address a range of key workplace skills and attributes, including presenting information (oral, visual), report writing, teamwork, undertaking different types of research, and analysing information.

### Assessment

- Presentation – 20%
- Class/Online Exercises (1600 words) – 40%
- Report (1600 words) – 40%

## AIS203 – Immersion Program: Japanese Politics, Society and Culture

*Enrolment modes: Trimester 3: Study Tour*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Katherine Barrand*

*Prerequisite: Students must have completed 8 credit points of study at level 1, otherwise by permission of Unit chair. All students to seek permission from unit chair to enrol.*

*Corequisite: Nil*

*Incompatible with: Nil*

*In-person attendance requirements: Delivery methods – intensive mode, but supported also through Cloud-based resources and activities*

*Pre-departure fully online module in Cloud (integral to preparation and pre-tour assignment work): 4 hours*

*Pre departure workshop session (conducted by Study Abroad Office), including preparation: 8 hours*

*In country: 10 days x 8 hours = 80 hours*

*Total: approx. 92 hours*

### Content

This unit focuses on developing students' understanding of Japanese society and politics. Based at Musashi University in Tokyo, via a program of guest lectures, seminars, workshops and field trips students will both gain insights into Japan's distinctive culture and be encouraged to utilise these insights to reflect upon their own culturally-embedded understandings and consider how they can enhance their intercultural communication skills and competencies.

*Note: Study tours will be confirmed by April 2019. Contact the Work Integrated Learning (WIL) team for queries: ARTSED Work Integrated Learning.*

### Assessment

- Pre-departure Report (1000 words) – 30%
- Journal (1000 words) – 30%
- Final Report (2000 words) – 40%

## AIS204 – Gender, Globalisation and Development

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waterfront (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Maree Pardy*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AIS302*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour Class (recordings provided), 1 x 1 hour online seminar per week*

### Content

This unit draws from two key fields of scholarship, gender and globalisation and gender and international development, to explore how gender fundamentally shapes our experiences of the world, from everyday interactions to international politics. The unit introduces students to important contemporary debates to stimulate a conceptual and practical encounter with globalisation, international development and security from a gender perspective. It will cover areas such as: global flows of goods, people, finance, images and ideas; new global sexualities; femininities and masculinities; gender, race and global cultures; gender and labour; gender and poverty; gender, religion and globalisation; sexuality rights; transnational feminisms and the gendered dimensions of international institutions. The unit will impart conceptual and practical tools to apply a gender perspective and analysis to the domains of theory, culture, politics, policy, organisations and employment.

### Assessment

- Class Exercise – 20%
- Report – 40%
- Essay (1500 words) – 40%

## AIS303 – International Studies Capstone Portfolio

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Waterfront (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Alison Burns*

*Trimester 2 Unit Chair: Alison Burns*

*Prerequisite: A306 and A326 course students:*

*completion of at least 16 credit points including AIS101, AIX117 and AIS201 OR*

*D338 and D323 course students: completion of at least 10 credit point on the BIS side of the degree including AIS101, AIX117 and AIS201*

*Corequisite: Must be enrolled in A306, A326, D323 or D338*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour online seminar per week (recordings provided)*

### Content

This unit supports students to develop and present a personalised Graduate Portfolio that documents their learning experiences during their course and evidences achievement of the Bachelor of International Studies Course Learning Outcomes. Development and presentation of the portfolio will enable students to develop a coherent account their studies and activities and articulate the skills and attributes that they have developed through completion of the Bachelor of International Studies. This will be achieved via reflection on students' formal and informal learning experiences and consideration of their significance for personal and professional development. Students will learn how to create, curate and maintain a professional online presence that reflects their identity as a Bachelor of International Studies graduate and effectively showcases their knowledge, experience, skills and attributes, and will also learn how to orally present this information in professional interview situations. It is strongly recommended that students complete at least 2 credit points of international experience prior to enrolment.

### Assessment

- Report (1000 words) – 25%
- Portfolio (2000 words) – 50%
- Presentation (10 minutes) – 25%

## AIS330 – International Internship A

*Enrolment modes: Trimester 1, Trimester 2 and Trimester 3: Internship unit*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Katherine Barrand*

*Trimester 2 Unit Chair: Katherine Barrand*

*Trimester 3 Unit Chair: Katherine Barrand*

*Cohort rule: This unit is available only to students enrolled in A306, A326, D323 or D338*

*Work experience in industry: This is a Work Experience in Industry (WEI) unit*

*Prerequisite: AIS201 and permission from the Unit Chair. Please note that these prerequisites cannot be waived.*

*Corequisite: Nil*

*Incompatible with: AIR331, AIR330, AIS331, MIS390 MIS391*

*Scheduled learning activities – campus: Internship: Students will be required to complete a minimum of 20 days either on a full-time or part-time basis*

### Content

In consultation with the unit chair and the international host organisation, students develop an individualised plan for their internship. This plan is designed to develop skills associated with the major or minor sequences, which the student is undertaking. The unit offers the students the opportunity to gain direct experience of institutional culture and practice in overseas public and private organisations and to explore the practical applications of their international studies program.

*Note:*

- 1. Students may undertake an internship placement overseas OR with a suitable internationally-oriented organisation in Australia. Those undertaking placements overseas have the 2cp (AIS330) and 4cp (AIS331) options available to them*
- 2. Placements undertaken within Australia are restricted to the 2cp unit (AIS330)*
- 3. Internship units are normally undertaken in third year (or equivalent) and are subject to completion of specified prerequisite units and special application requirements. Interested students should contact the Unit Chair in the first instance for further information*
- 4. Online teaching methods require internet access.*

### Assessment

- Pre-departure Report (2000 words) – 25%
- Journal (2000 words) – 25%
- Report (3500 words) – 45%
- Presentation (500 words) – 5%

## AIS331 – International Internship B

*Enrolment modes: Trimester 3: Internship unit*

*Credit point(s): 4*

*EFTSL value: 0.500*

*Trimester 3 Unit Chair: Katherine Barrand*

*Cohort rule: This unit is available only to students enrolled in A306, A326, D323 or D338*

*Work experience in industry: This is a Work Experience in Industry (WEI) unit*

*Prerequisite: AIS201 and permission from the Unit Chair. Please note that these prerequisites cannot be waived.*

*Corequisite: Nil*

*Incompatible with: AIR330, AIR331, AIS330, MIS390, MIS391*

*Scheduled learning activities – campus: Internship: Students will be required to complete a minimum of 8 weeks (40 working days) on a full-time basis*

### Content

In consultation with the unit chair and the international host organisation, students develop an individualised plan for their internship. This plan is designed to develop skills associated with the major or minor sequences, which the student is undertaking. The unit offers the students the opportunity to gain direct experience of institutional culture and practice in overseas public and private organisations and to explore the practical applications of their international studies program.

*Note:*

- 1. Students may undertake an internship placement overseas OR with a suitable internationally-oriented organisation in Australia. Those undertaking placements overseas have the 2cp (AIS330) and 4cp (AIS331) options available to them*
- 2. Placements undertaken within Australia are restricted to the 2cp unit (AIS330)*
- 3. Internship units are normally undertaken in third year (or equivalent) and are subject to completion of specified prerequisite units and special application requirements. Interested students should contact the Unit Chair in the first instance for further information*
- 4. Online teaching methods require internet access*

### Assessment

- Pre-departure Report (4000 words) – 25%
- Journal (4000 words) – 25%
- Report (7000 words) – 45%
- Presentation (600 words) – 5%

## AIX117 – Professional Writing for Work

### Enrolment modes:

Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)

Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)

Trimester 3: Burwood (Melbourne), Cloud (online)

Credit point(s): 1

EFTSL value: 0.125

Trimester 1 Unit Chair: Angela Osborne

Trimester 2 Unit Chair: Julie Freeman

Trimester 3 Unit Chair: Julie Freeman

Prerequisite: Nil

Corequisite: Nil

Incompatible with: ALW117, ALW217, EAD110

Scheduled learning activities – campus: 1 x 2 hour Seminar per week

Scheduled learning activities – cloud (online): Online learning independent and collaborative learning activities including 1 x 2 hour seminar equivalent.

### Content

This unit focuses on developing flexible and transferable communication, writing and research skills for employability in a twenty-first century work environment. Students will explore ways of professionally representing themselves, organisations and community or social issues within the context of their own discipline-specific work requirements. They will use online techniques and tools and imaginative digital world workplace scenarios to prepare themselves for professional, organisational and online writing for specific purposes in workplace contexts.

### Assessment

- Research report on social issue (discipline-specific) (2000 words or equivalent) – 50%
- Assessment 2 (Group and Individual) – Online writing folio (2000 words or equivalent) – 50%

## AIX160 – Introduction to University Study

### Enrolment modes:

Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)

Trimester 3: Cloud (online)

Credit point(s): 1

EFTSL value: 0.125

Trimester 1 Unit Chair: Petra Brown

Trimester 3 Unit Chair: Petra Brown

Prerequisite: Nil

Corequisite: Nil

Incompatible with: ASC160, EAD102, EAD103, EAD110, EAD111

Scheduled learning activities – campus: 1 x 1 hour class per week, 1 x 2 hour seminar in weeks 1–3, 1 x 1 hour seminar in weeks 4–8, no on campus seminars weeks 9–11

Scheduled learning activities – cloud (online): 1 x 1 hour per week (recordings provided), 1 hour online seminar per week

### Content

This unit helps students to develop the skills required for successful university study. They incorporate: (1) self-regulation and organisational skills, including learning styles and strategies, time management, and note-taking and revision; (2) information retrieval and evaluation skills, including efficient searching of the library catalogue, journal databases, and the internet, evaluating information, and academic reading techniques and; (3) communication skills, including: written skills through essay and report planning, structure and writing, and oral and visual presentation skills.

### Assessment

- Test (1600 words or equivalent) – 40%
- Research and Writing Exercise (800 words or equivalent) – 20%
- Research and Writing Exercise (1600 words) – 40%

## AIX290 – Australia Today: An Introduction to Australia

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne)*

*Trimester 3\*: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Sarah Pinto*

*Trimester 3 Unit Chair: Peter Ferguson*

*Cohort rule: This unit is available to International students and Exchange students only*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AIX292, AIX390, AIX392*

*Scheduled learning activities – campus: Trimester 1: 1 x 1 hour Class per week, 1 x 1 hour Seminar per week*

*In-person attendance requirements: Trimester 3:*

*Intensive mode commencing early January. There will be 6 x 1 hour Class, 6 x 1 hour Seminar, and 5 x 2 hour site visits across two weeks in early January (dates to be confirmed).*

### Content

The unit studies current debates, issues and concerns in the understanding of contemporary Australian society and culture. It focuses on the interests of international students who need skills and understandings for work and study in Australia. Through an introduction to the key issues facing Australians today, the unit aims to develop students' skills for working and communicating in the international context; locate Australia in various global contexts, within the British Empire, Asia, the global economy, politics and international relations; and take an international perspective on diversity and difference in Australian culture and society, through a range of studies of popular culture, histories, settlement, landscape and people.

*Note: \*In Trimester 3 only, this unit is offered in intensive mode commencing early January at Burwood (Melbourne) only*

### Assessment

- Class Exercise (1000 words) – 25%
- Report (1000 words) – 25%
- Essay (2000 words) – 50%

## AIX493 – Honours Research Design

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrn Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Peter Ferguson*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in A400 or A401*

*Incompatible with: AIX492, ASP491*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour Blackboard Collaborate Seminar per week*

### Content

This unit shows students how to specify the topic of their thesis research in the social sciences and humanities, how to delimit the literature of other research relevant to the topic, how to summarise the literature of other research, and how to develop an argument about where the gaps are that need to be filled with further research.

### Assessment

- Research and Writing Exercise (1000 words) – 20%
- Literature Review (2000 words) – 40%
- Research Proposal (2000 words) – 40%
- Graded as pass or fail only

## AIX494 – Honours Thesis Presentation

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrn Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Maria Rae*

*Prerequisite: AIX493*

*Corequisite: Must be enrolled in A400 or A401*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 2 hour Seminars per week*

*Scheduled learning activities – cloud (online): 2 hour Blackboard Collaborate Seminar per week*

## Content

This unit requires students to construct and present working papers on the progress of their thesis. Students will also undertake reviews of other students' work, in seminars or via the cloud.

## Assessment

- Provide feedback on a fellow students' draft chapter (1500 words of comments) – 30%
- Provide feedback on a fellow students' draft chapter (1500 words of comments) – 30%
- Respond verbally to critique of a draft chapter (4 minutes) – 20%
- Respond verbally to critique of a draft chapter (4 minutes) – 20%

Graded as pass or fail only

## AIX495 – Honours Thesis A

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Samantha Balaton-Chrimes*

*Trimester 2 Unit Chair: Samantha Balaton-Chrimes*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in A400*

*Incompatible with: AIH495, AIH496, AIH497, AIP495, AIP496, ASC495, ASC496, ASC497, ASL495, ASL496, ASL497, ASP495, ASP496, ASS495, ASS496, ASS497*

*Scheduled learning activities – campus: Contact with research supervisor as required*

*Scheduled learning activities – cloud (online): Contact with research supervisor as required*

## Content

The student, while working with a supervisor, will commence to research, prepare and submit an Honours dissertation to meet the disciplinary requirements of the program the student is enrolled in.

## Assessment

Thesis to be submitted on the completion of both AIX495 and AIX496 (14,000–16,000 words) – 100%

## AIX496 – Honours Thesis B

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Samantha Balaton-Chrimes*

*Trimester 2 Unit Chair: Samantha Balaton-Chrimes*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in A400*

*Incompatible with: AIH495, AIH496, AIH497, AIP495, AIP496, ASC495, ASC496, ASC497, ASL495, ASL496, ASL497, ASP495, ASP496, ASS495, ASS496, ASS497*

*Scheduled learning activities – campus: Contact with research supervisor as required*

*Scheduled learning activities – cloud (online): Contact with research supervisor as required*

## Content

The student, while working with a supervisor, will commence to research, prepare and submit an Honours dissertation to meet the disciplinary requirements of the program the student is enrolled in.

## Assessment

Thesis to be submitted on the completion of both AIX495 and AIX496 (14,000–16,000 words) – 100%

## AIX497 – Honours Theory and Debates in the Discipline

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Sam Balaton-Chrimes*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in A400 or A401*

*Incompatible with: AIH439*

*Scheduled learning activities – campus: 2 hour Seminars per week*

*Scheduled learning activities – cloud (online): 2 hour BlackBoard Collaborate seminar per week*

## Content

This unit initiates students into the theories underpinning their specific discipline. Students will be introduced to the influential theorists of their discipline area and the historical and contemporary methodological and theoretical debates that have challenged and directed their specific discipline.

## Assessment

- Research and Writing Exercises (2000 words or equivalent) – 40%
- Essay (3000 words) – 60%

## AIX499 – Honours, Reading in the Discipline

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrn Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Samantha Balaton-Chrimes*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in A400 or A401*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour Blackboard Collaborate seminar per week*

## Content

This unit expands students' breadth of knowledge about their discipline. Students work in discipline groups and respond to set readings and research activities.

## Assessment

- Research and Writing Exercises (2000 words or equivalent) – 40%
- Essay (3000 words) – 60%

## AIX701 – Research Project

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Elizabeth Braithwaite*

*Trimester 2 Unit Chair: Elizabeth Braithwaite*

*Cohort rule: Must be enrolled in course version*

*A652CD, A723, A727, A729, A757, A767, A785, A787, A787B, D305*

*Prerequisite: AIX706 and permission from the Unit Chair to enrol. D305 students must also have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%.*

*Corequisite: This unit is only open to students in the School of Humanities and Social Sciences post graduate masters courses (international relations, politics and policy, international and community development, cultural heritage and museum studies, humanitarian assistance)*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Contact with research supervisor as required. Students will on average spend 150 hours over the trimester undertaking the teaching, learning and assessment activities for this unit*

*Scheduled learning activities – cloud (online): Contact with research supervisor as required. Students will on average spend 150 hours over the trimester undertaking the teaching, learning and assessment activities for this unit*

## Content

There is no prepared content in this unit. It is a research unit in which students, in consultation with an appointed supervisor, carry out research tasks to develop new knowledge themselves.

## Assessment

Research Essay (5000 words) – 100%

## AIX702 – Dissertation A

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Elizabeth Braithwaite*

*Trimester 2 Unit Chair: Elizabeth Braithwaite*

*Prerequisite: AIX706 and either AIX707 or AIX708 and permission from the Unit chair to enrol. D305 students must also have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%. Students planning to take this unit in International Relations, International and Community Development, Politics and Policy, Cultural Heritage or Humanitarian Assistance must seek permission from the Unit Chair. Students must normally have a distinction average or higher in their previous coursework, and enrolment is subject to the availability of a supervisor. The unit is normally to be undertaken in the last year of a student's study.*

*Corequisite: AIX703*

*Incompatible with: AIX704, AIX705, AID754, AID755, AIM731, AIP752, AIR718, AIR752, AIR780, AIR781, AIR782, AIR783, ASP780*

*Scheduled learning activities – campus: Contact with research supervisor as required.*

*Scheduled learning activities – cloud (online): Contact with research supervisor as required*

### Content

Topics that can be addressed in this unit are restricted to areas in which staff in the relevant disciplines have expertise. This unit may be taken in the disciplines of International Relations, International and Community Development, or Politics and Policy.

*Note: In order to enrol, students must first secure the permission of the Unit Chair by preparing a satisfactory project proposal that outlines aims, approach, structure and primary and secondary sources. Enrolment is also subject to the availability of a supervisor.*

*Completion of both AIX702 and AIX703 must be undertaken over two trimesters.*

### Assessment

There are no formal assessment requirements in, or an exit point providing formal credit, from, AIX702. Assessment for the overall Dissertation, comprising units AIX702 and AIX703, is a research dissertation of 20,000 words (100%) applicable at completion of AIX703.

Course Members at the CDSS should contact the Course Director for confirmation of specific requirements.

## AIX703 – Dissertation B

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Elizabeth Braithwaite*

*Trimester 2 Unit Chair: Elizabeth Braithwaite*

*Prerequisite: Students require Unit Chair permission to enrol. D305 students must also have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%. Students planning to take this unit in International Relations, International and Community Development, Politics and Policy, Cultural Heritage or Humanitarian Assistance must seek permission from the Unit Chair. Students must normally have a distinction average or higher in their previous coursework, and enrolment is subject to the availability of a supervisor. The unit is normally to be undertaken in the last year of a student's study.*

*Corequisite: AIX702*

*Incompatible with: AID754, AID755, AIM732, AIP752, AIR718, AIR752, AIR780, AIR782, AIR783, ASP780*

*Scheduled learning activities – campus: Contact with research supervisor as required.*

*Scheduled learning activities – cloud (online): Contact with research supervisor as required.*

### Content

Topics that can be addressed in this unit are restricted to areas in which staff in the relevant disciplines have expertise. This unit may be taken in the disciplines of International Relations, International and Community Development, or Politics and Policy.

*Note: In order to enrol, students must first secure the permission of the Unit Chair by preparing a satisfactory project proposal that outlines aims, approach, structure and primary and secondary sources. Enrolment is also subject to the availability of a supervisor.*

*Completion of both AIX702 and AIX703 must be undertaken over two trimesters.*

### Assessment

There are no formal assessment requirements in, or an exit point providing formal credit, from, AIX702. Assessment for the overall Dissertation, comprising units AIX702 and AIX703, is a research dissertation of 20,000 words (100%) applicable at completion of AIX703.

Course Members at the CDSS should contact the Course Director for confirmation of specific requirements.

# AIX704 – Research Paper A

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Elizabeth Braithwaite*

*Trimester 2 Unit Chair: Elizabeth Braithwaite*

*Prerequisite: AIX706 and permission from the Unit chair to enrol. D305 students must also have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%. Students planning to take this unit in International Relations, International and Community Development, Politics and Policy, Cultural Heritage or Humanitarian Assistance must seek permission from the Unit Chair. Students must normally have a distinction average or higher in their previous coursework, and enrolment is subject to the availability of a supervisor. The unit is normally to be undertaken in the last year of a student's study.*

*Corequisite: Students planning to take this unit in International Relations, International and Community Development, Politics and Policy, Cultural Heritage or Humanitarian Assistance must seek permission from the Unit Chair. Students must normally have a distinction average or higher in their previous coursework, and enrolment is subject to the availability of a supervisor. The unit is normally to be undertaken in the last year of a student's study*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Contact with research supervisor as required. Students will on average spend 150 hours over the trimester undertaking the teaching, learning and assessment activities for this unit*

*Scheduled learning activities – cloud (online): Contact with research supervisor as required. Students will on average spend 150 hours over the trimester undertaking the teaching, learning and assessment activities for this unit*

## Content

There is no prepared content in this unit. It is a research unit in which students, in consultation with an appointed supervisor, carry out research tasks to develop new knowledge themselves.

*Note: In order to enrol, students must first secure the permission of the Unit Chair by preparing a satisfactory project proposal that outlines aims, approach, structure and primary and secondary sources. Enrolment is also subject to the availability of a supervisor.*

*Completion of both AIX704 and AIX705 must be undertaken over two trimesters.*

## Assessment

There are no formal assessment requirements in AIX704 Research Paper A. Assessment for the overall research piece, comprising units Research Paper A and B, is a research paper of 10,000 words (100%) due at completion of AIX705 Research Paper B.

# AIX705 – Research Paper B

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Elizabeth Braithwaite*

*Trimester 2 Unit Chair: Elizabeth Braithwaite*

*Prerequisite: AIX706 and permission from the Unit chair to enrol. D305 students must also have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%.*

*Corequisite: Students planning to take this unit in International Relations, International and Community Development, Politics and Policy, Cultural Heritage or Humanitarian Assistance must seek permission from the Unit Chair. Students must normally have a distinction average or higher in their previous coursework, and enrolment is subject to the availability of a supervisor. The unit is normally to be undertaken in the last year of a student's study. Must be enrolled in A716, A723, A726, A727, A729, A757, A785, A787, or D305 and unit AIX704. Incompatible with: AIX702, AIX703*

*Scheduled learning activities – campus: Contact with research supervisor as required. Students will on average spend 150 hours over the trimester undertaking the teaching, learning and assessment activities for this unit*

*Scheduled learning activities – cloud (online): Contact with research supervisor as required. Students will on average spend 150 hours over the trimester undertaking the teaching, learning and assessment activities for this unit*

## Content

There is no prepared content in this unit. It is a research unit in which students, in consultation with an appointed supervisor, carry out research tasks to develop new knowledge themselves.

## Assessment

There are no formal assessment requirements in AIX704 Research Paper A. Assessment for the overall research piece, comprising units Research Paper A and B, is a research paper of 10,000 words (100%) due at completion of AIX705 Research Paper B.

## AIX706 – Research Design

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Chengxin Pan*

*Trimester 2 Unit Chair: Andrew Vandenberg*

*Prerequisite: This is a core unit for students enrolled in international relations, politics and policy, international and community development, cultural heritage and museum studies, and humanitarian assistance). Students should complete this unit in the first available trimester of their course. D305 students must have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%, otherwise Nil.*

*Corequisite: This unit is only open to students in the School of Humanities and Social Sciences postgraduate masters courses and is a core unit in international relations, politics and policy, international and community development, cultural heritage and museum studies, humanitarian assistance). Must be enrolled in A716, A723, A726, A727, A729, A757, A765, A767, A785, A787 or D305.*

*Incompatible with: AIS706, AIS707*

*Scheduled learning activities – campus: 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 x 2 hour online seminar per week*

*Students will on average spend 150 hours over the trimester undertaking the teaching, learning and assessment activities for this unit*

### Content

Research Design offers students research training. It guides students on how to specify a question or problem that is important and requires research to resolve or address. It also guides students on various ways to review other researchers' work and conclude on why further research is needed. Students are introduced to the importance of an appropriate method for gathering relevant data, and then interpreting the data according to an appropriate methodology. Students apply this training to design a research proposal within their own area of study.

### Assessment

- Assessment 1 – Students undertake a methodical review of other researcher's work relevant to their general topic and conclude on the importance of further research about a specific topic (2500 words) – 50%
- Assessment 2 – Students write a research proposal in which they outline the problem context, briefly review other research, and specify: a particular problem; data that is relevant to addressing the problem; a method for collecting the data; a methodology for interpreting it; tentative conclusions or argument; and an outline of chapters or sections (2500 words) – 50%

## AIX707 – Qualitative Research

*Enrolment modes:*

*Trimester 1: Cloud (online)*

*Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Grazyna Zajdow*

*Trimester 2 Unit Chair: Grazyna Zajdow*

*Prerequisite: D305 students must have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%, otherwise Nil*

*Corequisite: Nil*

*Incompatible with: ASC741, ASC743*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 x 1 hour scheduled online seminar per week.*

### Content

This unit is designed to equip students with the practical skills needed to conceptualise, plan and carry out qualitative research. Qualitative methods covered include participant observation, unstructured interviewing (focus groups, in-depth), digital/online research, and mixed method approaches. The benefits and limitations of various methods will be assessed. Students will be trained in devising qualitative research tools and frameworks, with consideration given to the ethical, cultural and gendered dimensions of qualitative data collection.

### Assessment

- Assessment 1 – Research and Writing Exercise (2500 words) – 50%
- Assessment 2 – Report (2500 words) – 50%

## AIX708 – Quantitative Research

*Enrolment modes:*

*Trimester 1: Cloud (online)*

*Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Matteo Vergani*

*Trimester 2 Unit Chair: Andrew Singleton*

*Prerequisite: D305 students must have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%, otherwise Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including including video seminar presentations; Q & A seminars*

### Content

This unit takes a practical approach to assessing, designing and carrying out quantitative research. The purpose and rationale for undertaking survey research will be considered, and participants will develop practical skills in conducting quantitative analysis using the SPSS data analysis program. Topics covered include survey design, statistical analysis, sampling techniques and strategies, measuring social variables, administration of questionnaires and response rates. The uses and limitations of each technique will be explored. No previous quantitative data analysis skills or training are required.

### Assessment

- Assessment 1 – Data Analysis using SPSS (Exercises x 5, 10% each) – 50%
- Assessment 2 – Research and Writing Exercise using pre-existing database – 50%

## ALA101 – Advertising Principles and Practices

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Ben Crockett*

*Trimester 3 Unit Chair: Earvin Cabalquinto*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour class per week and 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): online independent and collaborative learning activities including, 1 x 1 hour class per week (recordings provided), online learning tasks (2 hour per week equivalence)*

### Content

This unit will introduce students to the theory and practice of contemporary advertising by exploring the industry's history and rapidly changing nature in the digital era. The social, ethical and regulatory contexts of advertising are established to encourage students to become reflective future producers or consumers of advertising messages. The strategic imperatives of advertising and notions of effectiveness are examined to build students' abilities to solve communication problems that are commonly faced by private, public and non-for-profit sector clients.

### Assessment

- Quizzes (800 words or equivalent) – 20%
- Assessment 2 (Group of 3 – 4 students) – Presentation (1200 words or equivalent) – 30%
- Research and Planning Report (2000 words) – 50%

## ALA102 – Creative Brand Communication

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Richie Barker*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative activities including seminar overview (recordings provided) and online seminar tasks (combined 2 hour per week equivalence)*

### Content

Students will explore the nexus of creativity and strategy that is fundamental to successful brand communication. They will examine the nature of creativity in the communication industry and practitioner approaches to the creative process. The advertising messages produced by international brands will be analysed to help students prepare for global mobility as future practitioners. Students will be introduced to the key creative roles within communication companies and build the research, planning and ideation skills required of contemporary practitioners.

*Note: Student enrolment quotas apply*

### Assessment

- Seminar Exercises (800 words or equivalent) – 20%
- Essay (1600 words or equivalent) – 40%
- Portfolio (1600 words or equivalent) – 40%

## ALA201 – Art Direction and Visualisation

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Ben Crockett*

*Prerequisite: ALA101 or ALA102*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative activities including seminar overview (recordings provided) and 1 x 2 hour Seminar equivalent.*

### Content

This unit considers the role of the art director in advertising by exploring of the tools and creative collaborations required to achieve a strong visual impact. The principles of advertising design will be examined to help students judge and articulate the efficacy of creative material in local and global contexts. Students will learn how to gather and apply research on product and service offerings, work as a team to solve creative challenges and execute the visual elements of an advertising campaign across traditional and digital media channels. Examination of creative presentation techniques will reveal the techniques required to 'sell' advertising solutions to clients.

*Note: Commences 2019*

*Student enrolment quotas apply*

### Assessment

- Seminar Exercises (1200 words or equivalent) – 30%
- Critique (800 words or equivalent) – 30%
- Assessment 3 (Group) – Portfolio and Presentation (1600 words or equivalent) – 40%

## ALA202 – Copywriting and Ideation

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Richie Barker*

*Prerequisite: ALA101 or ALA102*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative activities including seminar overview (recordings provided) and online seminar tasks (combined 2 hour per week equivalence)*

### Content

This unit builds students' ability to solve complex communication problems and develop creative copy and concepts for both traditional and new media platforms. Students will explore approaches to ideation that emphasise the social and cultural contexts in which advertising is produced and learn to prepare strategically sound copy platforms. Consumer-focused research and creative strategies will be examined to enable students to critique spoken and textual messaging and apply this insight to the development of 'big ideas' that are communicated through persuasive advertising concepts and copy.

*Note: Commencing 2019*

### Assessment

- Writing Exercises (1600 words or equivalent) – 40%
- Copy and Concept Critique (800 words or equivalent) – 20%
- Portfolio (1600 words or equivalent) – 40%

## ALA203 – Integrated Communication

*Enrolment modes:*

*Trimester 2: Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Deirdre Quinn-Allan*

*Trimester 3 Unit Chair: Ross Monaghan*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALR310*

*Scheduled learning activities – campus:*

*Trimester 2: 1 x 2 hour seminar per week*

*Trimester 3: 5 x 5 hour intensives in weeks 1, 3, 6, 8, 10*

*Scheduled learning activities – cloud (online):*

*Trimester 2 & 3: Online independent and collaborative learning activities x 2 hours per week. This will involve a range of activities including seminar recordings and synchronous and asynchronous participation in online classroom activities.*

### Content

Successful brands are capable of building long-term relationships with consumers across a selection of paid, shared, earned and owned media in addition to interpersonal forms of communication. This unit focuses on research and planning processes that reveal how advertising works in conjunction with other promotional functions. An integrated approach to understanding aligned fields such as digital media, social media, public relations, direct marketing and sales promotion will enhance your ability to develop research-driven strategies that solve complex communication problems for organisations. Using both theory and industry models, you will identify and apply consumer insights that inform strategy-driven choices on media selection, message strategy, tactical recommendations and evaluation techniques.

*Note: Commencing 2019*

*Quota applies to the Trimester 2 Burwood offering.*

*Quota full as of 4 July 2019*

### Assessment

- Assessment 1 (Group of 3–5 students) – Research and planning report (1200 words per student equivalence) – 30%
- Integrated Communication Plan (2000 words or equivalent) – 50%
- 2 Quizzes (800 words or equivalent) – 20%

## ALA301 – Creative Advertising Campaigns

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 2 Unit Chair: Ben Crockett*

*Prerequisite: ALA202 or ALA201 and ALA203*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities x 4 hours per week. This will include a range of synchronous and asynchronous activities and participation in the online classroom.*

### Content

This unit consolidates students' knowledge of the theory and practice of advertising and aligned communication practices by placing them in a simulated agency environment. Students will work in collaborative teams to develop a comprehensive advertising program and creative executions in response to challenging real-world communication problems. The unit presents students with an opportunity to enhance work-readiness, hone formal presentation and client liaison skills, and further build their folios of strategy development, copywriting and/or art direction work.

*Note: Commencing 2020*

### Assessment

- Self-branding Project (equivalent 1200 words) – 30%
- Presentation and Contribution (equivalent 1200 words) – 30%
- Assessment 3 (Group) – Campaign Project (equivalent 1600 words) – 40%

## ALA302 – Transmedia Storytelling

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Richie Barker*

*Prerequisite: ALA203 or MMK295*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative activities including seminar overview (recordings provided) and online seminar tasks (combined 2 hour per week equivalence)*

### Content

This unit explores the theory and practice of organisational transmedia storytelling and instructs students on the production of content that earns audience attention across traditional and digital advertising channels. The unit emphasises the value of developing an overarching narrative that is fragmented across a series of platforms with each making a unique contribution. Students will be introduced to transmedia storytelling theory, learn about the application of digital media by brands, apply strategies that bolster social media engagement and identify advertising related trends in digital media.

*Note: Commencing 2020*

*Students wishing to complete the Public Relations major in 2019 undertake an approved Public Relations placement in ACC317 Communication and Creative Arts Internship A instead of ALA302. Please contact [quinn-allan@deakin.edu.au](mailto:quinn-allan@deakin.edu.au) for approval and information about the process as soon as possible.*

### Assessment

- Journal (1400 words) – 35%
- Assessment 2 (Group) – Presentation (equivalent 1200 words) – 30%
- Written project (equivalent 1400 words) – 35%

## ALC104 – Media Genres: Negotiating Textual Forms and Pleasures

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Sean Redmond*

*Trimester 3 Unit Chair: Sean Redmond*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 hour of scheduled online seminar; plus 1-hour weekly class recording*

### Content

This unit introduces students to the ways in which certain media carry similar codes and conventions, pleasures and expectations. It will examine how these conventions can be produced by the media industries and read and consumed by audiences. The unit will involve the close textual analysis of media genres; examine the way audiences relate to and interact with media genres; and will explore the way media industries promote and sell genres for commercial reasons. Case studies vary from year to year and may include genres such as comedy, horror, science fiction, melodrama, soap opera, the game show, fan fiction, fantasy role-playing games, and gaming apps.

### Assessment

- Assessment 1 – Genre creative assignment (2000 words) – 50%
- Assessment 2 – Genre pitch (2000 words) – 50%

## ALC202 – Advertising: Desire, Consumption and the Attention Economy

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: David Marshall*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ACC302, ALC314*

*Scheduled learning activities – campus: 11 x 1 hour class and 11 x 1 hour seminar per week*

*Scheduled learning activities – cloud (online): 11 x 1 hour class (recordings provided) and 11 x 1 hour seminar per week*

### Content

This unit offers students a hands-on engagement with how the advertising industry constructs consumer identities and brand-based communities. Particular attention is given to the problems and potentialities of the attention economy in the rapidly-changing context of our contemporary digital screen media culture. Various practical exercises allow students to investigate real-world industry practices and processes. Highlighting that advertising requires many of the skills underpinning related media industries, including journalism, public relations, marketing, and media arts, the unit reveals how the new promotional cultures and entertainment economies undermine distinctions between previously separate industries and necessitate the rise of the 'media professional'.

### Assessment

- Assessment 1 – Virtual gallery of advertising content and critique (equivalent to 2000 words) – 50%
- Assessment 2 – Media strategy analysis and critical reflection (equivalent to 2000 words) – 50%

## ALC215 – Global Media

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Jian Xu*

*Trimester 3 Unit Chair: Earvin Cabalquinto*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALC315*

*Scheduled learning activities – campus:*

*Trimester 1: 1 x 2 hour Seminar per week*

*Trimester 3: 5 x 5 hour intensives in weeks 1, 3, 6, 8, 10*

*Scheduled learning activities – cloud (online):*

*Trimester 1: Online independent and collaborative learning activities including: 2 hour online seminar per week (recordings provided).*

*Trimester 3: Online independent and collaborative learning activities x 2 hours per week. This will involve a range of activities including recordings and synchronous and asynchronous participation in online classroom activities*

### Content

This unit introduces students to the practices and theories of global media in the digital era. Students will consider the diversity and complexities of global media by examining media content, audiences, industries, cultures, politics and powers across the world. Students will have the opportunity to deepen their understanding of global media through a comparative perspective, building knowledge and skills that will assist them in solving problems relevant to professional media practices across cultures and nations.

### Assessment

- Photographic Essay and reflection (2000 words or equivalent) – 50%
- Critical essay (2000 words or equivalent) – 50%

## ALC302 – Digital Media Entrepreneurship

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 2 Unit Chair: Earvin Cabalquinto*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in A333*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 2 hour scheduled online workshop*

### Content

This capstone unit provides Bachelor of Communication (Media) students with an opportunity to explore and experience the ways in which a practitioner operates in a particular media industry (such as television, film, gaming, digital media, etc.). Students examine current industry processes and funding models (with particular attention given to crowdfunding), developing a major project in a particular area of interest. In doing so, students obtain hands-on experience in researching, designing and producing material for a hypothetical project in a way that mirrors how contemporary media industries operate, honing key skills that are crucial for jobs in the media industries of the future.

### Assessment

- Assessment 1 – Project proposal and pitch development (equivalent to 4000 words) – 50%
- Assessment 2 – Social media plan and project funding design (equivalent to 4000 words) – 50%

## ALC304 – The Celebrity Industries: Star Images, Fan Cultures and Performance

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Sean Redmond*

*Trimester 3 Unit Chair: Sean Redmond*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour*

*Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 2 x scheduled online seminars*

### Content

This unit provides students with an opportunity to contribute in critical and creative ways to contemporary understandings of the celebrity industries. The unit will explore the construction and marketing of celebrity images; parasocial desire and identity making; celebrity gossip; political celebrity; stardom; and online fan cultures. The unit culminates in an informal symposium – an event that is collectively planned, implemented, and partly co-ordinated by students.

### Assessment

- Audio-visual presentation (means of communicating content) 5 minute duration with 750 word exegesis – 50%
- Essay (2000 words or equivalent) – 50%

## ALC305 – Media Ecologies

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Toija Cinque*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in A300 or A333*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour*

*Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities 1 x 2 hour seminar per week equivalent*

### Content

This unit enables students to explore the past, present and future of media, engaging with various approaches to understanding the complex relations between former models of mechanic and industrial media production and the continuous transformation and fragmentation of the ways in which contemporary media are produced, regulated, consumed, and interacted with. Students analyse the many ecologies of media and the environmental impact that media consumption habits and the expanding quantity and quality of media devices have upon the Earth. The unit maps the trajectory and evolution of media gadgets with a view to understanding how they translate into the actor-networks, value creation processes, and social exchanges which shape our culture today. Students identify a significant media ecosystem in consultation with teaching staff and put into practice a range of theoretical perspectives to examine the particular area/example of their choosing, resulting in an innovative project that enables the visualisation of patterns of media transformation and social interaction, and builds skills and knowledge pertinent to media theory and practice.

### Assessment

- Assessment 1 – Media in the past: media archaeology exercise (equivalent to 1000 words) – 25%
- Assessment 2 – Media ecologies of the present: media Ecosystem Exercise (equivalent to 1000 words) – 25%
- Assessment 3 – The future of media: creative research project (equivalent to 2000 words) – 50%

## ALC701 – Social Media Principles and Practices

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Adam Brown*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour seminar per week and extensive online interactions via social media. Delivery of unit content via videos, podcasts, live broadcasts, and a range of other media are a core part of the unit in place of classes.*

*Scheduled learning activities – cloud (online): Online Independent and collaborative learning activities including 1 x 2 hour online seminar per week and extensive online interactions via social media. Delivery of unit content via videos, podcasts, live broadcasts, and a range of other media are a core part of the unit in place of classes.*

### Content

This unit enables students to develop an in depth understanding of the complexities of social media spaces and behaviours as they relate to contemporary media and cultural industries. Incorporating a hands-on approach to learning with/about digital media platforms, students will create and share online content through interactive and collaborative assessment. Designed to enhance students' professional skills and digital competencies, the unit's subject matter and approach is particularly flexible to cater to student interests, passions, and current or future career pathways.

### Assessment

- Online exercise (1000 words or equivalent) – 20%
- Portfolio output (1500 words or equivalent) – 30%
- Assessment 3 (Group of 3–5 students) – Collaborative digital media project (2500 words or equivalent) – 50%

## ALC702 – Making Online Communities

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Luke Heemsbergen*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including: 1 x 2 hour Seminar per week equivalent.*

### Content

This unit will explore netnography as a tool for understanding community dynamics and social patterns of interaction online, with a particular focus on mapping the emergence of online cultures. Students will study communities and social engagement in virtual environments from an interdisciplinary perspective, drawing insights from media studies, sociology, anthropology, and psychology. Social media management techniques will also be analysed as part of an integrated approach to online engagement strategies. Technological affordances of media will be also explored in relation to the design of online social interaction experiences.

### Assessment

- Research project: Case selection, critical relevance and fieldwork plan (2500 words or equivalent, Harvard referencing) – 50%
- Research report: Undertake research and write up results (2500 words or equivalent, Harvard referencing) – 50%

## ALC703 – Digital Curation

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Earvin Cabalquinto*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 2 hour scheduled online workshop*

### Content

This unit enables students to explore and examine the various definitions and applications of digital curation as a media practice, with a focus on the design and development of creative content strategies. Artistic curation processes and techniques will be explored as a model of practice from which students will learn how to creatively select and assemble media elements to create personal or brand identities, stories, and narratives. Students will analyse and experiment with curatorial modes of information discovery and collection. A hands-on approach to the practice of digital curation will develop students' editorial prowess and aesthetic sensibility through their curation of a digital content gallery.

### Assessment

- Assessment 1 – Research project (equivalent to 2500 words) – 50%
- Assessment 2 – Digital content strategy and gallery (equivalent to 2500 words) – 50%

## ALC708 – Blogging and Online Communication Techniques

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Adam Brown*

*Trimester 3 Unit Chair: Adam Brown*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Trimester 1: 1 x 2 hour seminar per week and extensive online interactions via social media. Delivery of unit content via videos, podcasts, live broadcasts, and a range of other media are a core part of the unit in place of classes.*

*Trimester 3: 4 x 4 hour intensives will be held instead of weekly seminars.*

*Scheduled learning activities – cloud (online):*

*Trimester 1: 1 x 2 hour online seminar per week and extensive online interactions via social media. Delivery of unit content via videos, podcasts, live broadcasts, and a range of other media are a core part of the unit in place of classes.*

*Trimester 3: Online Independent and collaborative learning activities including 1 x 2 hour online seminar per week and extensive online interactions via social media. Delivery of unit content via videos, podcasts, live broadcasts, and a range of other media are a core part of the unit in place of classes.*

### Content

This unit enables students to explore, analyse, and experience present day blogging and other online communication practices in diverse contexts. A critical and creative approach to learning with/about digital media platforms is facilitated through various hands-on media-making activities. Engaging in a highly interactive way with the potential benefits of digital media for personal and professional use, students learn how to expand their online portfolios, contribute to media debates in the real world, and build a dynamic online identity.

### Assessment

- Portfolio output 1 (equivalent to 1500 words) – 30%
- Portfolio output 2 (equivalent to 1500 words) – 30%
- Portfolio output 3 (equivalent to 2000 words) – 40%

## ALJ111 – News Reporting 1

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Kristy Hess*

*Trimester 3 Unit Chair: Kristy Hess*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Trimester 1: 1 x 2 hour seminar per week*

*Trimester 3: Intensive over 4 days on the Burwood campus (2018/2019 dates to be advised)*

*Scheduled learning activities – cloud (online):*

*Trimester 1 and 3: Online and independent learning activities including 1 x 2 hour seminar equivalent.*

*This will include recordings, and synchronous and asynchronous learning activities*

### Content

This unit is an introduction to the practice and theory of multimedia journalism. It sets the social, professional and legal context for journalism practice, and introduces students to the convention of news writing and reporting stories. Students will also focus on combining text with photos and audio clips to produce news stories; critically examining their own production processes, and learn to report multimedia news stories to a deadline.

### Assessment

- Research file (800 words or equivalent) – 20%
- Practical work (1600 words or equivalent) – 40%
- Multimedia news story (1600 words or equivalent) – 40%

## ALJ112 – News Reporting 2

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Alison McAdam*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities (1 x 2 hour per week equivalence)*

### Content

This unit in the practice and theory of multimedia journalism focuses on news reporting processes. It outlines professional, social and legal factors that impact on reporting of local, regional and national news. The unit introduces students to key news beats, including reporting stories about politics, business, sport and local newsworthy events and issues. Students will build contacts in their preferred news beat/s and engage with social media tools to report and produce their news stories. They will also gain skills in reporting a news story (to a deadline) for broadcast and online media platforms.

### Assessment

- Social Media Reporting (800 words or equivalent) – 20%
- Photojournalism news story (1600 words or equivalent) – 40%
- Assessment 3 (Individual): Video news story (1600 words or equivalent) – 40%

## ALJ216 – Feature Writing

*Enrolment modes:*

*Trimester 2: Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Matthew Ricketson*

*Trimester 3 Unit Chair: Alison McAdam*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALJ316, ALJ416*

*Scheduled learning activities – campus:*

*Trimester 2: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online):*

*Trimester 2 and 3:*

*Online independent and collaborative learning + 1 hour scheduled online workshop*

## Content

In this unit students are expected to combine journalism skills with academic techniques of research. The aim this trimester is to develop research and writing skills to a level where the student can produce feature articles suitable for publication. There is strong emphasis on finding original information from sources ranging from interviews to the Internet.

*Note: Quota applies to the Trimester 2 Burwood offering. Quota full as of 4 July 2019*

## Assessment

- Assessment 1 – Feature-story tasks (2000 equivalent) – 50%
- Assessment 2 – Feature story (2000 words) – 50%

## ALJ218 – Audio Journalism

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: John Mullen*

*Prerequisite: ALJ112*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning including 3 scheduled online workshops*

## Content

Students will learn the techniques of researching, writing, interviewing, recording and editing for audio news and current affairs. These skills will be tested through students creating their own broadcast current affairs pieces. Students will also analyse the broadcasting landscape of Australia by writing an essay

in which they will evaluate the content of particular audio news and current affairs programs. They will learn about the editorial policies and the financing of different broadcast companies and reflect on how these affect the content that is offered in terms of news and current affairs.

## Assessment

- Assessment 1 – One practical assignment (equivalent to 2000 words) – 50%
- Assessment 2 – One essay (2000 words) – 50%

## ALJ220 – Journalism in Society

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Lisa Waller*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning including 2 scheduled online workshops*

## Content

This unit introduces students to the critical analysis of journalism and news media. It employs media and communication theories along with practical exercises to give students critical understanding of what it means to be a professional working in the field of journalism. Students will articulate, analyse and evaluate the news media and the role of journalism in society from a range of historical and contemporary perspectives, including that of the journalist, the audience and the industry.

## Assessment

- Assessment 1 – Group presentation (20 minutes) – 25%
- Assessment 2 – Practical assignment (1000 words) – 30%
- Assessment 3 – Essay (2000 words) – 45%

## ALJ221 – Video Journalism

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: John Mullen*

*Prerequisite: ALJ111 or ALJ112*

*Corequisite: Nil*

*Incompatible with: ALJ319*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning including 3 scheduled online workshops*

### Content

This unit is about the production of video journalism for delivery via broadcast, online or mobile media and the important information role that news and current affairs programs play in society. In addition to learning about the social, political and economic impact of video journalism, you will learn and practice that skills of researching, interviewing, reporting, writing and filming to produce credible news and current affairs. You will also be introduced to the production techniques needed to compile news reports for different broadcast and narrowcast media.

### Assessment

- Essay (1600 words or equivalent) – 40%
- Video current affairs story (2400 words or equivalent) – 60%

## ALJ304 – Local Journalism

*Enrolment modes:*

*Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Usha Rodrigues*

*Trimester 3 Unit Chair: Usha Rodrigues*

*Prerequisite: ALJ111*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Trimester 2: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online):*

*Trimester 2 and 3: Online and independent learning activities, 2 hours per week. This will include recordings, synchronous and asynchronous learning activities*

### Content

This unit explores the practice and theory of local and community journalism in Australia and western societies. It outlines the practices and approaches adopted by these types of news outlets and their relationship to the 'mainstream' media. The unit encourages students to debate the importance of these forms of journalism in an increasingly globalised and digitised media world. Students will develop pieces of journalism in a variety of styles and be encouraged to publish their work in relevant print, broadcast or online contexts. They will also critically engage with the norms and conventions shaping journalistic practices and how they relate to these aspects of journalism and discuss some of the key differences between commercial and not-for-profit outlets.

### Assessment

- Assessment 1 – Field report (2000 words) – 50%
- Assessment 2 – Practical work (2000 words equivalent) – 50%

## ALJ313 – Journalism Law and Ethics

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Deirdre Quinn-Allan*

*Prerequisite: Students must have completed two units at level 2*

*Corequisite: Nil*

*Incompatible with: ACC213*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities 1 x 2 hours per week. This will involve a range of activities including seminar recordings, and synchronous and asynchronous participation in online classroom activities.*

## Content

This unit provides students with groundwork practical knowledge to deal with legal and ethical issues that may arise from their work as journalists. The unit takes a problem-based learning (case study) approach to working with students to develop an understanding of laws and regulations that influence journalism in Australia, highlight potential problem areas for journalists, focusing in particular on privacy, defamation, contempt of court, copyright and the ethical obligations of journalists.

*Note: Commencing 2020*

*Students wishing to complete the Journalism major in 2019 undertake an approved Journalism placement in ACC317 Communication and Creative Arts Internship A instead of ALJ313. Please contact [quinn-allan@deakin.edu.au](mailto:quinn-allan@deakin.edu.au) for approval and information about the process as soon as possible.*

## Assessment

- Written Assignment (2000 words or equivalent) – 50%
- Written Assignment (2000 words or equivalent) – 50%

## ALJ330 – News Production 1

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Alison McAdam*

*Prerequisite: Students must have completed two level 2 ALJ coded units*

*Corequisite: Nil*

*Incompatible with: ALJ302 and ALJ303*

*Scheduled learning activities – campus: 1 x 1 hour class and 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning + 1 hour scheduled online workshop*

*All students regardless of mode of study will need to attend virtual editorial meetings on a weekly basis.*

## Content

This is one of two capstone journalism units. Along with ALJ331, this unit engages students in the day-to-day operations of a multi-location, multimedia news publication. In this context students will learn to deal with the practical, intellectual, professional, creative, social, ethical and legal issues of online and social media news and current affairs publishing, individually and

in concert with their peers. Students will learn how to respond appropriately to real-world news events that require necessary problem-solving and critical-thinking and creative skills to be resolved. Students will reflect on the news gathering, writing and production skills needed as well as the ability to work effectively as a team.

## Assessment

- Assessment 1 – Multimedia portfolio (2800 words equivalent) – 70%
- Assessment 2 – Reflective essay (1200 words) – 30%

## ALJ331 – News Production 2

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Alison McAdam*

*Prerequisite: Students must have completed two level 2 ALJ coded units*

*Corequisite: Nil*

*Incompatible with: ALJ302 and ALJ303*

*Scheduled learning activities – campus: 1 x 1 hour class and 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning + 1 hour scheduled online workshop*

*All students regardless of mode of study will need to attend virtual editorial meetings on a weekly basis.*

## Assessment

- Assessment 1 – Multimedia portfolio 70% (2800 words equivalent)
- Assessment 2 – Reflective essay 30% (1200 words)

## ALJ710 – Multimedia Journalism

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: John Mullen*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities x 2 hours per week. This will include a range of activities including seminar recordings, and synchronous and asynchronous participation in online classroom activities.*

### Content

Journalists are increasingly working in a multimedia environment where their work appears on multiple platforms. This unit provides students with an understanding of the complexities of this current media environment. It develops newsgathering and news writing skills required of the contemporary journalist working in a multimedia newsroom.

### Assessment

- Multimedia project (2000 word or equivalent) – 40%
- News gathering, news stories and reflective essay (3000 words or equivalent) – 60%

## ALJ712 – Broadcast Journalism

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: John Mullen*

*Trimester 3 Unit Chair: Alison McAdam*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities x 2 hours per week. This will include a range of activities including seminar recordings, and synchronous and asynchronous participation in online classroom activities.*

### Content

Students in this unit will learn the techniques of researching, writing, interviewing, reporting, recording, filming and editing for radio and television news and current affairs. These skills will be tested through students creating their own radio and television news and current affairs stories.

### Assessment

- Assessment 1 – Radio current affairs story (equivalent to 1500 words) – 30%
- Assessment 2 – Television interview package (equivalent to 1500 words) – 30%
- Assessment 3 – Television news story (equivalent to 2000 words) – 40%

## ALJ721 – International News

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Usha Rodrigues*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities, 1 x1 hour class per week via collaborate and discussion forum*

### Content

This journalism studies unit introduces students to the theories and practice of international journalism. It will examine the imperatives of global news flows, and the impact social, political, economic and technological factors have on reporting and distribution of international news. The unit will explore the changing role of foreign correspondents and the need to develop an understanding and sensitivity to different cultures and values of countries in which they work. The unit will also engage with the breakdown of roles between the journalist, media organisations and the interactive audience.

## Assessment

- Evaluating International News Coverage event/s or Issues/s (2000 words or equivalent) – 40%
- Critical Analysis of a Topic/Issue in International Journalism, (3000 words or equivalent) – 60%

## ALJ722 – Investigative and Narrative Journalism

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Matthew Ricketson*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities 1 x 2 hour seminar per week equivalent*

## Content

Investigative and narrative journalism differ from news in their aim to not simply report the day's news but to dig into events and issues. They diverge in emphasis and presentation. Investigative journalism's primary aim is to scrutinise those in positions of power and authority; narrative journalism's primary aim is to tell a true story exploring events and issues in their complexity and people in their full humanity. The power inherent in investigative and narrative journalism throws up important, knotty issues. Is investigative journalism's role simply to expose problems, or suggest solutions, or both? How do investigative journalists overcome obstacles like restrictive defamation and national security laws? How do they manage the fallout when they get something seriously wrong? For narrative journalists: how do they balance their need to maintain editorial independence with the closeness to key sources that comes from gaining the deep level of trust required to construct a work of narrative journalism? Are there limits to the kinds of narrative approach journalists can take when representing actual people and events? If practitioners present their long-form journalism in a narrative style, is it read as non-fiction or, because it reads like a novel, is it read as a novel?

## Assessment

- Investigative Briefing Paper (2500 words or equivalent) – 50%
- Piece of Investigative or Narrative Journalism (2500 words or equivalent) – 50%

## ALJ728 – Feature Writing

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Lisa Waller*

*Trimester 3 Unit Chair: Matthew Ricketson*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Trimester 1: 1 x 2 hour Seminar per week*

*Trimester 3: 4 x 5.5 hour intensive workshops (weeks 2, 5, 8, 10)*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning including 3 scheduled online workshops*

## Content

This unit provides students with the skills to report, interpret and comment in depth on public affairs and to work as specialists in different branches of journalism including business, politics, religious affairs, ethnic affairs journalism, crime and police reporting. This unit enables students to develop skills in the gathering and writing of feature items. It also helps students develop advanced reporting and analytical skills essential to longer-form journalism and feature writing.

## Assessment

- One research file and news feature (2000 word equivalent) – 40%
- Part A: News feature idea pitch (500 word equivalent) and Part B: News feature (2500 word equivalent) – 60%

## ALJ729 – Newsroom Practice

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Kristy Hess*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALJ111*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning including regular posted activities and feedback and 2 x 1 hour workshops scheduled online during weeks 6, 9 & 11*

### Content

This unit aims to help students gain an understanding of modern professional practice in newsrooms and in particular to gain an understanding of news values and news writing. This unit introduces students to the professional practices of the modern newsroom with particular focus on the news format, news angles and news writing including the theoretical underpinnings of the editorial process. Students will undertake a variety of news writing exercises.

### Assessment

Students will be expected to produce three hard news assignments that will include research files and interview notes

- Assessment 1 – Assignment 1 (1500 words) – 30%
- Assessment 2 – Assignment 2 (1500 words) – 30%
- Assessment 3 – Assignment 3 (2000 words) – 40%

## ALL101 – The Stories We Tell: Inventing Selves and Others

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Briohny Doyle*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALL401*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 x 1 hour Class per week (recorded video) 1 x 2 hour discussion group participation per week*

### Content

This unit will equip students with the vocabulary needed to talk about literary texts and invite students to think about the vital role that fictions play in giving shape to our identities. The unit approaches literature and literary study as important pathways to unlocking our identities and understanding our lives, affirming the potential for transformation of the self that literary texts and study offer. Set texts include classics from literature, contemporary film works and avant garde texts.

### Assessment

- Assessment 1 – Introduction to Literary Studies Cloud (online) Quiz – 15%
- Assessment 2 – 1000 word creative essay with 500 word critical appendix – 30%
- Assessment 3 – 1500 word critical essay – 40%
- Assessment 4 – Group Online Forum Conversation – 15%

## ALL102 – From Horror to Romance: Genre and Its Revisions

*Enrolment modes:*

*Trimester 2: Burwood (Melbourne), Warrnambool (Geelong), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Maria Takolander*

*Trimester 3 Unit Chair: Maria Takolander*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALL402*

*Scheduled learning activities – campus:*

*Trimester 2: 1 x 1 hour class per week, 1 x 2 hour seminar per week*

*Trimester 3: 1 x 1 hour Cloud Class per week, 1 x 2 hour seminar (face to face on campus) per week*

*Scheduled learning activities – cloud (online):*

*Trimester 2: Online independent and collaborative learning activities including: 1 x 1-hour class per week (recordings provided), 2-hour online seminar per week equivalent*

*Trimester 3: Online independent and collaborative learning activities including: 1 x 1-hour class per week (recordings provided), 2-hour online seminar per week equivalent*

### Content

This unit invites students to analyse popular genres such as horror, crime, autobiography, science fiction, and romance. Storytelling is a fundamental means through which humans make sense of the world, and genres provide common templates for story-telling and meaning-making. This unit will investigate the origins of genres and their revision across time, highlighting how genre stories are involved in cultural struggles over meaning. The unit will take a historical and comparative approach, but it will also introduce students to relevant interdisciplinary fields such as gender studies and media studies. Encompassing novels, films, poetry, comics, and interactive digital narratives, set texts include Bram Stoker's *Dracula*, Charlotte Brontë's *Jane Eyre*, Sylvia Plath's *Ariel*, Ana Lily Amirpour's *A Girl Walks Home Alone at Night*, Kelly Sue DeConnick's and Valentine de Landro's *Bitch Planet*, and The Fullbright Company's *Gone Home*. Students will write their own piece of genre fiction, as well as undertaking a multimedia presentation and a critical essay exploring genre and its revisions.

### Assessment

- Presentation (800 words or equivalent) – 20%
- Exercise (1600 words or equivalent) – 40%
- Essay (1600 words or equivalent) – 40%

## ALL153 – Literature for Children and Young Adults

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Warrnambool, Warrnambool (Geelong), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Paul Venzo*

*Trimester 3 Unit Chair: Paul Venzo*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALL253*

*Scheduled learning activities – campus:*

*Trimester 1: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

*Trimester 3: 3.5 hours x 2 days per week x 3 weeks*

*Scheduled learning activities – cloud (online):*

*Online independent and collaborative learning activities including 3 x 1-hour scheduled online seminars before assessments 1, 2, and 3. 11 x 1-hour class recordings provided*

### Content

Children learn about themselves and others from their families, their educational settings and from texts – the books, films and other media – they consume. Our focus in this unit is on how children's texts position their readers, paying attention to the narrative strategies they use and the ideologies they promote. The unit provides an overview of children's literature, its origins and its place within children's culture and socialising practices. It engages with a wide range of genres and texts (picture book, novel, and screen) from a variety of cultural traditions. This first year unit introduces students to key concepts essential to the analysis of children's texts.

*Note: Student enrolment quotas apply to this unit*

### Assessment

- Essay – (1400 words or equivalent) – 35%
- Assessment 2 (Individual or Group) – Essay (1400 words or equivalent) – 35%
- Test (1200 words or equivalent) – 30%

## ALL154 – Power Politics and Texts for Young People

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Paul Venzo*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALL254*

*Scheduled learning activities – campus: 1 x 2 hour Seminars per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 3 x 1-hour scheduled online seminars before assessments 1, 2, and 3. 11 x 1-hour class recordings provided*

### Content

Children's texts offer models for ways of living in the world by positioning children to identify with characters who want certain things and who behave in specific ways that lead them to success. Never innocent of politics, narratives presented to children tell them about the world and their place within broader cultural institutions. Using theories that interrogate the construction of power and mechanisms of control in contemporary societies, this unit looks at the role children's texts play in inducting children into value systems. Students will analyse the extent to which children's texts express or contest the politics of our time.

### Assessment

- Exercise (1000 words or equivalent) – 25%
- Essay (1000 words or equivalent) – 25%
- Essay (2000 words or equivalent) – 50%

## ALL202 – Writing Modern Worlds

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: David McCooey*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALL432*

*Scheduled learning activities – campus: 1 x 1-hour Class per week, 1 x 2-hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including: 1 x 1-hour class per week (recordings provided)*

### Content

This unit focuses on the emergence and development of literary modernisms, introducing students to a predominantly British-based modernist tradition as well as alternative cultural and regionally specific literary modernisms. The unit will consider literary modernisms in light of the text's relationship with the past; war; the everyday; and the demise of mimesis and the subsequent articulation of the autonomy of art. It also considers how literary modernisms reflect and critique their contexts of cultural production, and the role of the metropolis, mass culture, gender, sexuality, race, and class. The unit also considers features of late modernism and of interrelated postmodernism such as self-reflexivity, irony, parody, metafiction, and intertextuality. Writers studied include T.S. Eliot, Virginia Woolf, Samuel Beckett, F. Scott Fitzgerald, and Michael Cunningham.

### Assessment

- Assessment 1 – Critical essay (1500 words) – 40%
- Assessment 2 – Critical OR Creative essay (1500 words) – 40%
- Assessment 3 – Class/Online exercise – 20%

## ALL228 – The Golden Age in Children's Literature

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Warrnambool, Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Sue Chen*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week including recordings on DeakinAir.*

*Scheduled learning activities – cloud (online): Independent and collaborative learning activities including 1 x 2 hour Seminar equivalent per week, recordings on DeakinAir and independent discussions based on weekly exercises.*

## Content

This unit introduces students to study some of the classics of children's literature. A major focus of this unit is on how changing attitudes to children, and the educational purposes of literature for children, are reflected in a range of texts published between the late fourteenth and early twentieth centuries. As canonical children's literature continues to be read by children today – and influences the contemporary texts produced for them – this unit pays particular attention to the interrelationship between the social, cultural and political values of past and present.

## Assessment

- Test (600 words or equivalent) – 15%
- Essay (1400 words or equivalent) – 35%
- Essay (2000 words or equivalent) – 50%

## ALL230 – Re-Imagining Literature for Young People

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Leonie Rutherford*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALL330, ALL430, ALL630*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning experiences including 1 x 2 hour seminar equivalent*

## Content

Young people engage with multimodal narratives across a range of genres – stories that are heard, read, performed, screened, and interacted with. The first children's literature was adapted, and often appropriated, from texts for adults: tales, romances or plays. Building on the study of narrative and genre from earlier units, this unit examines the transformation of texts within and across media, including adaptations of Shakespeare, picture books, graphic and prose novels, film and digital media texts. It introduces students to concepts such as fidelity, media specificity of narrative techniques, cultural context, cross-writing for broader audiences, and multimodal engagement.

In addition, it provides students with techniques for critiquing these texts, their narrative discourse, marketing, and role in pedagogical, as well as entertainment, contexts.

## Assessment

- Essay (1200 words or equivalent) – 30%
- Exercise (1000 words or equivalent) – 25%
- Essay (1800 words or equivalent) – 45%

## ALL255 – Fantasy Literature

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Geoff Boucher*

*Prerequisite: Students must have completed one level 1 unit in Literary Studies, Children's Literature or Creative Writing*

*Corequisite: Nil*

*Incompatible with: ALL274*

*Scheduled learning activities – campus: 1 x 1 hour class per week, 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including: 1 x 1 hour class (recordings provided) and 1 x 2 hour seminars equivalent*

## Content

This unit examines fantasy literature through a study of texts across a broad historical period. It aims to bring together adult and children's fantasy to explore how these two genres operate. It introduces students to the literary fantastic through texts such as *Frankenstein*, *"Carmilla"* and *The Turn of the Screw* as well as contemporary fantasy literatures like *Coraline* and *Northern Lights*. Students will explore the relationship between fantasy texts and historical anxieties surrounding sexual transgression, madness, race and the death of God. Students will learn to read fantasy texts through theoretically informed frameworks and to think critically about the importance of the fantastic in literature.

## Assessment

- Essay (2000 words) – 50%
- Choice of choice of creative response or essay (2000 words) – 50%

## ALL256 – Gender, Sex and Literature

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Ann Vickery*

*Prerequisite: One unit from: AGS101, AGS102, ALL101, ALL102, ALL153, ALL154*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour online independent and collaborative learning activities per week*

### Content

This unit will examine three major themes: feminisms, sexualities, and contemporary controversies. Students will critically reflect on a wide variety of literary engagements with gender and sexuality, including representations of masculinity, heterosexuality, families and love. Beginning with a focus on historical representations of gender and sexuality in Anglophone writing from the nineteenth century, this unit will study key figures and texts in feminist and queer literature. The unit will engage theoretical resources from feminist, queer and postcolonial studies to examine questions of class, race and ability. The unit is taught and assessed through an interdisciplinary approach to studying literature, drawing on archival, historical and cultural resources. Texts studied include: *The Yellow Wallpaper*, *The Picture of Dorian Gray*, *A Room of One's Own*, *Zami*, *Loaded*, and *The Argonauts*.

### Assessment

- Exercise (700 words, 15%), Online Exercise (300 words, 10%)
- Exercise (1000 words) – 25%
- Essay (2000 words) – 50%

## ALL260 – Australian Literature

*Enrolment modes:*

*Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Lyn Mc Credden*

*Trimester 3 Unit Chair: Lyn Mc Credden*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Trimester 2: Burwood: 1 x 1 hour Class plus 1 x 2 hour*

*Seminar per week, Waurin Ponds: 1 x 1 hour Class (recordings provided at Geelong) plus 1 x 2 hour Seminar (Weeks 1, 2, 3, 4, 5, 8, 10, 11). 1 x 2 hour seminar equivalent online delivery (Weeks 6, 7, 9).*

*Trimester 3: 1 x 2-hour seminar week 1, 1 x 4-hour seminar in weeks 2, 4, 6, 8, 10*

*Scheduled learning activities – cloud (online):*

*Trimester 2: Independent and Collaborative learning activities, including 1 x 1-hour Class (recordings provided) and 1 x 2-hour Seminar equivalent.*

*Trimester 3: Cloud: Independent and collaborative learning activities including: 1 x 2-hour Seminar equivalent.*

### Content

This unit introduces students to a range of Australian fiction, poetry and drama. A detailed understanding of writing genres and forms, and of Australian literary history, will entail readings of both early and contemporary texts. Students will learn to approach literary texts through thematic and theoretical focuses, with specific attention to Indigenous writing.

### Assessment

- Exercise (2000 words or equivalent, including 500 word reflection on peer feedback) – 50%
- Essay (2000 words or equivalent) – 50%

## ALL275 – Shakespeare Today

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrn Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Alyson Miller*

*Prerequisite: Students must have completed one level 1 Literary Studies unit*

*Corequisite: Nil*

*Incompatible with: ALL316, ALL375*

*Scheduled learning activities – campus: 1 x 1 hour class per week (recordings provided at Geelong), 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): Independent and collaborative learning activities equivalent to 3 hours per week, including 1 x 1 hour class per week (recordings provided)*

### Content

Today, Shakespeare is probably the most important literary figure in any language. The unit tracks the influence of Shakespeare by tracing out the expanding shock wave of his presence around the world and in different media. We look at Latin American, African and Asian Shakespeare's, at feminist and queer Shakespeare's, at Shakespeare as an inspiration for contemporary novels, and, of course, at what happens when Shakespeare goes to the movies. We also explore "the Bard" as a political football kicked around in debates on cultural value, and at the cultural anxieties that the authorship question unleashes. By comparing six key texts of Shakespeare with current inspirations, adaptations, translations and variations, students get to grips with Shakespeare's plays and poems in a way that focuses on the way that his work that has kept its sting. Students will be asked to critically analyse the way that a play or group of poems has been adapted in contemporary culture or positioned in current debates. Then they will have the opportunity to discover for themselves and explore in depth an innovative contemporary Shakespeare, and report back on their findings in a research report.

### Assessment

- Essay (2000 words or equivalent) – 50%
- Report (2000 words or equivalent) – 50%

## ALL301 – Global Literatures: Literary Interventions in the Present Situation

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrn Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Emily Potter*

*Prerequisite: Students must have completed one level 2 unit*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour seminar per week plus a series of lectures online*

*Scheduled learning activities – cloud (online): 11 x 1 hour class (recordings provided) + 11 x 1 hour (equivalent) online seminar via discussion board*

### Content

This unit will read and analyse a range of global literatures that focus on present world issues and contexts. It asks students to consider crucial issues in the contemporary world order, such as terrorism, poverty, capitalism, fundamentalism and relations between individuals and nation states.

*Note: Commencing 2019*

### Assessment

- Assessment 1 (Individual and Group) – Research Critique and Reflection (2000 words or equivalent) – 50%
- Research Essay 2 (2000 words or equivalent) – 50%

## ALL326 – Gender, Sexuality and Texts for Young People

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Kristine Moruzi*

*Prerequisite: Successful completion of at least one second year literature or gender and sexuality unit*

*Corequisite: Nil*

*Incompatible with: ALL226, ALL626*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 x 2 hour online seminar equivalent per week*

### Content

Both traditional and new media texts incorporate representations of the child that are gendered, sexualised, pathologised and commodified. In this unit, students critically engage with a range of texts representing the child as embodied subject, and research and respond to the politics of representation. Building on their understanding of narrative theory, ideology, power and identity as they operate in literature and other textual forms, students investigate how texts intervene in the construction of the embodied child as a gendered and sexual subject.

### Assessment

- Assessment 1 – Written exercise (2000 words) – 50%
- Assessment 2 – Critical essay (2000 words) – 50%

## ALL350 – Children's literature around the world

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Sue Chen*

*Prerequisite: Students must have completed at least one Children's Literature or Literary Studies unit at second year level*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 x 2 hour seminar equivalent*

### Content

This unit explores the role of culture, language and nation in children's literature in the context of a range of international forces and factors. Historical and contemporary children's literature is subject to both culture-specific influences and the broader cultural, linguistic, economic and political dynamics driven by imperialism, globalisation and transnationalism. This unit examines how ideas travel through transnational children's literature in regard to its circulation, commodification, translation, canonicity and ideology, and its implications for young people's understanding of nation and identity in the global context. This is a capstone unit: students undertaking this unit will draw on knowledge and skills acquired in previous children's literature units to complete a major or minor sequence.

### Assessment

- Assessment 1 (Group of 2–4 students) – Group Project (1200 words or equivalent) – 30%
- Quiz (800 words or equivalent) – 20%
- Essay (2000 words or equivalent) – 50%

## ALL375 – Shakespeare: Six Plays, Six Worlds

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Alyson Miller*

*Prerequisite: Successful completion of at least one second year literature unit*

*Corequisite: Nil*

*Incompatible with: ALL275, ALL316*

*Scheduled learning activities – campus:*

*Burwood: 1 x 2 hour Seminar plus access to an Echo recording of the Geelong lecture*

*Waurin Ponds: 1 x 1 hour Class plus 1 x 2 hour Seminar*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning including 11 scheduled online workshops*

## Content

This unit explores a selection of playscripts by Shakespeare. The eight plays selected for close study embody radically different visions of life (or “worlds”).

Four strands are interwoven in this study:

1. The time and mentality of the period of the performances of the plays themselves in London of the late sixteenth and early seventeenth century;
2. Some major responses to Shakespeare himself which remain culturally influential frameworks (or ideologies), particularly those associated with key intellectual movements since the early nineteenth century onwards up to our own times;
3. Ways of reading and performing the plays themselves, taking account of the physical characteristics of the stage for which Shakespeare wrote (especially The Theatre, The Globe, and Blackfriars); and
4. Adaptations of the plays, ranging from cinematic renditions to modern stage versions.

## Assessment

- Assessment 1 – Critical Analysis (2000 words) – 50%
- Assessment 2 – Thematic essay or creative-exegetical project (2000 words) – 50%

## ALL376 – Classics and Trash

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Cassandra Atherton*

*Prerequisite: Successful completion of at least one second year literature unit*

*Corequisite: Nil*

*Incompatible with: ALL316*

*Scheduled learning activities – campus: 1 x 1 hour class per week (recordings provided at GEELONG), 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): Independent and collaborative learning activities equivalent to 3 hours per week, including 1 x 1 hour class per week (recordings provided)*

## Content

This unit charts the development of texts over time to examine how and why some reach canonical status and are considered ‘classics’, while others are labelled ‘trash’ or ‘cult’. Examination of texts such as *Wuthering Heights*, *Pride and Prejudice* and *Breakfast at Tiffany’s* will be examined against Bloom’s, Harris’, Kermode’s and Guillory’s analysis of the Western canon and in response to challenges to the Western canon. These texts will be examined alongside anime such as *Ponyo*, television series including *True Blood* and *My Crazy Ex-Girlfriend* and popular versions of classic texts such as *The Lizzie Bennet Diaries*. Concepts of high, low and pop culture will also be studied with examples from dance and music in movies.

## Assessment

- Assessment 1 comprises:
  - (Individual) – Exercise (400 words or equivalent); and
  - (Group 4–5 Participants) Discussion (400 word or equivalent) – 20%
- Exercise (1600 words or equivalent) – 40%
- Essay (2000 words or equivalent) – 40%

## ALL381 – Reading the End of Nature

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Cloud (online) – No longer offered at Burwood in Trimester 3, offered Cloud (online) only*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Emily Potter*

*Trimester 3 Unit Chair: Emily Potter*

*Prerequisite: One Literary Studies unit at second year level*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x recorded online class per week, 1 x 2-hour seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including: 1 x recorded online class per week plus online discussion (equivalent 2 hours) per week*

## Content

This unit responds to the current environmental crisis to critically consider the role of literature in both producing and responding to 'the end of nature'. This ending relates to ways of seeing, thinking and writing about nature that have reached their historical limit and can no longer be sustained. Ranging across themes such as 'the pastoral', 'the disaster', 'decolonisation', 'animals' and 'the post-human', the unit encourages students to critically consider these and other concepts as historically and culturally contingent, and to understand the ways in which literary texts – including fiction, non-fiction and film across a range of genres – generate, contest and perform these concepts. Ultimately, students will be asked to reflect on what reading at the end nature might mean outside of the text, in a world facing what Swedish student activist Greta Thunberg calls 'climate breakdown', and how reading and political action might go hand in hand.

*Note: Previously called "Literary Ecologies: (Re) Imagining Our Place in the World"*

## Assessment

- Assessment 1: (Individual) – Essay (1500 words or equivalent) – 40%
- Essay (2000 words or equivalent) – 50%
- Assessment 3 (Group 4–5 participants) – Class/Online Exercise (500 word or equivalent) – 10%

## ALL701 – Retelling Myths and Tales: Classic to Contemporary

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*Previously coded as: ALL601*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Helen Young*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALL601*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including participation in weekly forum discussions and guided readings.*

## Content

This unit tracks the traditional genres from which children's literature in English draws: myth, hero tale, folk tale and fairy tale. It explores how these originally oral tales have been adapted as a children's genre, taking into account: historical and national variants; novel-length and Hollywood adaptations; and contemporary incarnations for adolescents and adults, from Batman to Buffy and beyond.

This unit introduces students to a range of theoretical resources for the interpretation of the historical and cultural assumptions these tales encode about gender, race, class, nationality and the environment.

## Assessment

- Assessment 1 – Essay 1 (1750 words) – 35%
- Assessment 1 – Essay 2 (2500 words) – 50%
- Assessment 1 – Online exercise (4 x 185–200 words) – 15%

## ALL702 – Criticism of Literature for Children: A Variety of Approaches

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*Previously coded as: ALL602*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Sue Chen*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALL602*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 4 scheduled online seminars*

## Content

This unit considers a number of theoretical approaches to the study of text and places the study of children's literature within this context. Alongside the theoretical texts which they are asked to read, students will analyse a range of children's books of various genres and periods, so integrating theory with practice.

## Assessment

- Exercises Literature Critique (1500 words) – 30%
- Essay (1500 words) – 30%
- Essay (2000 words) – 40%

## ALL705 – Vision and Revision: Short Stories Now

*Enrolment modes:*

*Trimester 2: Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Maria Takolander*

*Trimester 3 Unit Chair: Maria Takolander*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning including 1 scheduled online workshop*

### Content

This unit studies contemporary short stories from Australia and around the world to examine how 'revision' – of stories, characters, voices, genres, and forms – underlies creative 'vision'. With an emphasis on formal innovation and the digital publishing environment, revisionism is explored as a central methodology of creative practice. Texts studied include Tom Cho's *Look Who's Morphing*, Ceridwen Dovey's *Only the Animals*, The Collected Stories of Lydia Davis, Ryan O'Neill's *The Weight of a Human Heart*, Jennifer Egan's *A Visit from the Goon Squad*, and Penguin's *We Tell Stories*. Students will write diverse assessment pieces designed for an online portfolio.

### Assessment

- Exercises (1500 words or equivalent) – 30%
- Essay (1500 words or equivalent) – 30%
- Exercises (2000 words or equivalent) – 40%

## ALL706 – Historical Fiction

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Helen Young*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including participation in weekly forum discussions and guided readings 1 x 2 hour Seminar equivalent*

### Content

The unit offers the opportunity to discuss in depth a wide range of literary and multi-media historical fiction texts (for example novels, film, television, and video-games) in the context of recent literary and historiographical debates. We will explore the theoretical, political and practical concerns that drive the intersection of history and fiction in literary practice and the literariness of screen and interactive media. Classes will encourage students to discuss both their critical and theoretical essays and/or their creative work. Texts and media may vary from year to year.

### Assessment

- Critical essay (2500 words or equivalent) – 50%
- Critical essay OR creative work (2000 words or equivalent) – 40%
- Workshop/online activity (500 words or equivalent) – 10%

## ALL708 – The Picture Book: Reading and Writing

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Sue Chen*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALL408, ALL608*

*Scheduled learning activities – campus: 1 x 2 hour Seminar in weeks 3, 6, and 9*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 x 2 hour seminar equivalent*

### Content

Students will study the picture-book from an aesthetic and semiotic perspective, considering the ways in which visual and verbal text interact to produce various kinds of meaning. Nineteenth and early twentieth-century illustrated books are discussed in relation to their artistic and literary contexts, leading to a focus on recent and contemporary picture books. Students will be given the option of writing a picture-book text and will receive instruction in this form of writing.

### Assessment

- Essay (2000 words or equivalent) – 40%
- Assessment 2 (Group of 2–4 students) – Book reviews (1000 words or equivalent) – 20%
- Picture-book text or essay (2000 words or equivalent) – 40%

## ALL721 – Writing Fiction for Young Adults

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Paul Venzo*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALL725, ALL726*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning including 2 x 2 hour scheduled online workshops*

### Content

This unit is designed for students interested in reading and writing narratives for teenage readers. Students will select a genre in which to write a creative fiction, for example fantasy, gritty realism, romance, or adventure. They will frame their understanding of contemporary genre conventions by analysing a selection of recently published books and utilizing this context in the production of their own creative work: either a short story or a chapter intended as part of a longer work.

### Assessment

- Essay and Exercise (2500 words or equivalent) – 50%
- Exercise (2500 words or equivalent) – 50%

## ALL722 – Texts for Young Adults

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Kristine Moruzi*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 x 2 hour online seminar equivalent per week*

### Content

This unit focuses on novels and films for young adults, an increasingly prominent market segment. Students will consider young adults as an implied audience and identify the ideological thrusts and socialising agendas in texts, identifying the ways in which novels map the processes of maturity to adulthood. Attention is paid to theories dealing with notions of adolescence as a cultural and historical construct, and to the ways in which discursive modes create subjectivities that have the potential to reinforce and remodel identity and power structures, both within texts and in contemporary culture.

### Assessment

- Assessment 1 (Group of 2–3 students) – Review (500 words or equivalent) – 10%
- Essay (2000 words or equivalent) – 40%
- Choice of essay or exercise (2500 words or equivalent) – 50%

## ALL727 – Sex, the Body, and American Poetry

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Cassandra Atherton*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour class per week (recording provided), 3 x 3 hour scheduled seminar in weeks 3, 6, and 9*

*Scheduled learning activities – cloud (online): Online and independent collaborative learning activities including 1 x 1 hour class per week (recording provided) and 1 x 2 hour online seminar equivalent*

### Content

This unit will introduce students to how poets have navigated and transformed cultural understandings surrounding sex, gender, and the body. Focusing on writing from the United States, students will consider how the poetic has been mobilised in different historical periods to explore aspects of desire, intimacy, subjectivity, and intersectionality. Students will be familiarised with a range of forms, techniques, and literary movements (such as transcendentalism, modernism, Confessional, the Beats, and New York School). Through critical and creative approaches, students will also gain insights into aspects of voice, agency, and audience. Writers studied will include Walt Whitman, Emily Dickinson, T.S. Eliot, Sylvia Plath, Frank O'Hara, Allen Ginsberg, Audre Lorde, Joy Harjo, and Maggie Nelson.

### Assessment

- Exercise (1500 words or equivalent) – 30%
- Exercise (1500 words or equivalent) – 30%
- Portfolio and Critique OR Essay (2000 words or equivalent) – 40%

## ALL728 – Literary Narratives

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Jodi McAlister*

*Cohort rule: This unit is only available to students enrolled in A764 – Master of Arts (Writing and Literature)*

*Prerequisite: ALX705*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities includes 1 x 2 hour seminar equivalent*

### Content

Students undertaking this unit will develop advanced disciplinary knowledge of literary studies through an in-depth examination of fiction, prose, and/or poetry.

Through guided reading and seminars, students in Literary Studies and Children's Literature will explore a range of texts focused on a particular literary history, genre, and/or style.

### Assessment

- Research and writing exercise (2500 words or equivalent) – 50%
- Research and writing exercise (2500 words or equivalent) – 50%

## ALL743 – Foundations in Narrative Theory

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Leonie Rutherford*

*Trimester 2 Unit Chair: Leonie Rutherford*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALL603*

*Scheduled learning activities – campus: 1 x 2 hour Seminar in weeks 3, 6, and 9*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning including 2 scheduled online workshops*

## Content

Drawing on both theoretical texts and works of fiction, this unit examines the critical application of key aspects of narrative theories to fiction for adults and children. Topics include:

- types of narration, point of view and focalisation in narrative;
- beginnings and endings;
- narrative time;
- characterisation;
- theory of genres and modes; and
- Metafiction and experimental fiction.

## Assessment

- Critique (1000 words or equivalent) – 20%
- Critique (1000 words or equivalent) – 20%
- Essay (3000 words or equivalent) – 60%

# ALL784 – Writing and Film

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Nic Velissaris*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities*

## Content

Writing and film-making are intricately connected activities. Books are made into films. Films have their genesis in the written word as screen plays, treatments, synopses and pitches, and are written about in reviews, critiques, analyses, histories and promotions. They also inspire writing in the form of creative responses in poetry, novels, plays and blogs. Films from a diverse range of genres, cultures and historical periods will be interpreted using a combination of cultural and film theory.

The unit engages students in the interplay between writing and film whereby, through the production of critical and creative responses to films, students learn to interrogate cinematic representation and to hone their skills in writing for, about and back to film.

## Assessment

- Essay (2000 words or equivalent) – 40%
- Folio of 'creative' writing (2500 words or equivalent) – 50%
- Online Exercises (500 words or equivalent) – 10%

# ALM101 – Making Social Media

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)*

*Note: Enrolment into this unit must be completed by the end of week 1 of trimester due to early assessment deadlines.*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Adam Brown*

*Trimester 3 Unit Chair: Adam Brown*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALC203*

*Scheduled learning activities – campus:*

*Trimester 1: 1 x 2 hour seminar per week and extensive online interactions via social media. Delivery of unit content via videos, podcasts, live broadcasts, and a range of other media are a core part of the unit in place of classes.*

*Trimester 3: 4 x 4 hour intensives will be used instead of weekly seminars.*

*Scheduled learning activities – cloud (online): 1 x 2 hour online seminar per week and extensive online interactions via social media. Delivery of unit content via videos, podcasts, live broadcasts, and a range of other media are a core part of the unit in place of classes.*

## Content

This unit enables students to explore and experience present day digital media culture in critical and creative ways. The unit is built on multi-platformed content, delivery and assessment, providing a user-friendly engagement with social media that facilitates practical, hands-on work in micro-blogging, blogging and podcasting.

Creating and sharing different forms of media content, students learn how to communicate across various online platforms as part of a highly interactive community. Highlighting the benefits of media-making for personal and professional use, the unit allows students to develop their portfolios and discover how to use social media to strategically build a dynamic online identity.

### Assessment

- Online exercise (equivalent to 800 words) – 20%
- Portfolio output 1 (equivalent to 1600 words) – 40%
- Portfolio output 2 (equivalent to 1600 words) – 40%

## ALM102 – Making Video

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Note: Enrolment into this unit must be completed by the end of week 1 of trimester due to early assessment deadlines.*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Adam Brown*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALC105*

*Scheduled learning activities – campus: 1 x 2 hour seminar per week and extensive online interactions via social media. Delivery of unit content via videos, podcasts, live broadcasts, and a range of other media are a core part of the unit in place of classes.*

*Scheduled learning activities – cloud (online): 1 x 2 hour online seminar per week and extensive online interactions via social media. Delivery of unit content via videos, podcasts, live broadcasts, and a range of other media are a core part of the unit in place of classes.*

### Content

This unit enables students to critically and creatively engage with present day digital media culture, with a particular emphasis on making videos. Highlighting the crucial importance of creating audio-visual content for different purposes and audiences, the unit guides students through various video-making practices and strategies. Emphasising the benefits of making videos in a wide range of industry settings, the unit allows students to develop their portfolios and learn how to use video to strategically build a dynamic online identity.

### Assessment

- Online exercise 1 (equivalent to 800 words) – 20%
- Online exercise 2 (equivalent to 1200 words) – 30%
- Portfolio output (equivalent to 2000 words) – 50%

## ALM202 – Quantified Media

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Toija Cinque*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week and online media activities*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning and online media activities (1 x 2 hour Seminar per week equivalent).*

### Content

This unit enables students to explore and experience the contemporary data-driven era of social media visibility, big data and personal engagement with quantified media. Students engage in modes of enquiry that examine emerging cultural, political, economic, literary, digital, educational footprints and social media sightlines. The unit presents the current dilemmas and issues that are central to the critical understanding of quantified media and our emerging Quantified Self via digital analytics. Students learn how to gather data to analyse and evaluate information to complete a range of scaffolded activities in pursuit of broadening knowledge or finding solutions to unpredictable and sometimes complex problems.

### Assessment

- Assessment 1 – Quantified Media Analytical Essay – 25%
- Assessment 2 – Digital Media Portfolio Exercise – 25%
- Assessment 3 – Data Collection and Final Output Conclusion – 50%

## ALR103 – Introduction to Public Relations

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Emma Bennett*

*Trimester 3 Unit Chair: Ross Monaghan*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALC103, ALR203, ALR403, ALRM103*

*Scheduled learning activities – campus:*

*Trimester 1: 1 x 2 hour seminar per week*

*Trimester 3: 5 x 5 hour intensive workshops (Weeks 1, 3, 6, 8 and 10)*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 2 hours of online engagement per week equivalent (including recorded classes, online activities and discussions)*

### Content

This unit is an introduction to public relations theory and practice. Students will learn how to apply public relations and communication theories to real world scenarios and produce content relevant to different public relations roles and functions. Topics include media relations, employee relations, community relations, ethics, research and planning. This unit provides a foundation for further study in the field of public relations.

### Assessment

- Online quiz – 20%
- Essay (1500 words) – 30%
- Planning Project (2000 words) – 50%

## ALR104 – Strategic Communication and Writing

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waterfront (Geelong), Waurn Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Ross Monaghan*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Burwood and Waurn Ponds Campus: 1 x 1 hour class per week, 1 x 2 hour seminar per week*

*Waterfront Campus: 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including, 1 x 1-hour recorded class per week, 2-hour online seminar per week.*

### Content

This unit develops foundation skills and knowledge required for understanding public relations as a strategic and communications function within organisations. Students will learn how to conduct effective research to solve public relations problems and develop written tactics for traditional and new media channels that encourage mutual understanding between organisations and their publics. Concepts and applied learning in this unit will be relevant to all students interested in the way businesses, public sector bodies and NGOs communicate within complex and changing social contexts and an increasingly networked and digital society.

### Assessment

- Quiz (800 words or equivalent) – 20%
- Assessment 2 (Group) – Research and writing project (1600 words or equivalent) – 40%
- Portfolio (1600 words or equivalent) – 40%

## ALR210 – Media Relations Strategy

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Emma Bennett*

*Trimester 3 Unit Chair: Mark Sheehan*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALR206 and ALR207*

*Scheduled learning activities – campus:*

*Trimester 1: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online):*

*Trimester 1: Learning experiences are via CloudDeakin*

*In-person attendance requirements:*

*Trimester 3: Intensive over 3.5 days at the Burwood campus*

### Content

The unit examines the theoretical and practical foundations of media from the perspective of the communication professions. The unit will examine the use of media in a range of organisational contexts including liaison with news outlets and the use of social media. Unit content incorporates the latest theories and trends in media consumption and creation and will ensure students are able to effectively manage future developments.

*Note: Commencing 2019*

### Assessment

- Assessment 1 – Media kit (1600 word equivalent) – 40%
- Assessment 2 – Social media project (2400 word equivalent) – 60%

## ALR276 – Ethical Communication and Citizenship

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Kristin Demetrious*

*Trimester 3 Unit Chair: Kristin Demetrious*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Trimester 1: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online*

*independent and collaborative learning activities: 1 x 2 hours per week equivalent. This will involve a range of activities including seminar recordings and synchronous and asynchronous participation in online classroom activities.*

### Content

The unit examines organisational use of public communication and its links with citizenship, responsibility and accountability, paying particular attention to activism and new approaches in public relations and community engagement. Using case studies of consultation with local and regional communities, it explores how organisations use formal and informal communication in an environment of social, cultural and political change and increasing globalisation.

### Assessment

- Minor Essay (1200 words or equivalent) – 30%
- Pressure Point Simulation and online exercises (1200 words or equivalent) – 30%
- Major Essay (1600 words or equivalent) – 40%

## ALR279 – Public Relations Management

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Sharyn McDonald*

*Prerequisite: One unit from: ALR103, ALR104, ALR276*

*Corequisite: Nil*

*Incompatible with: ALC279, ALR479, ALR604*

*Scheduled learning activities – campus: 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative activities including seminar overview (recordings provided) and online seminar tasks (combined 2 hours per week equivalence)*

### Content

This unit examines how identities and reputations are formed, impacted and rebuilt with a focus on crisis communication and relationship management. Students are presented with the opportunity to critically explore a range of contemporary cases across a range of industries/sectors, including but not limited to, sport, tourism, entertainment, fashion and communications. A range of theories, tools and techniques will be introduced to help students effectively identify potential and emerging issues, monitor and manage communication, and conceptualise proactive and reactive strategies.

*Note: This unit makes considerable use of information technology. It is recommended that students have access to computer facilities. Online teaching methods require internet access.*

### Assessment

- Report (1600 words or equivalent) – 40%
- Assessment 2 (Group of 3–4 students) – Group Presentation (1200 words or equivalent) – 30%
- Examination (2 hours) – 30%

## ALR300 – Public Relations Campaigns and Practice

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 2 Unit Chair: Emma Bennett*

*Prerequisite: Students must complete one of ALR103 or ALR104 and one of ALR210 or ALR207.*

*Corequisite: Nil*

*Incompatible with: ALC300, ALC400, ALR400*

*Scheduled learning activities – campus:*

*Burwood: 1 x 1 hour class per week and 1 x 2 hour*

*Seminar per week*

*Waurin Ponds: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including: 1 x 1-hour class per week (recordings provided), online learning tasks (2 hour per week equivalence)*

### Content

The unit provides students with the opportunity to design a public relations campaign from start to finish. The unit requires major fieldwork on a campaign of the student's choice designed to apply and extend knowledge of public relations practice. Topics as background for the campaign proposal include theory and models; research; planning; public opinion; presentations and evaluation. Campaigns can be proposed based on the particular interest area of the student.

### Assessment

- Research report (1600 words or equivalent) – 20%
- Assessment 2 (Group) – Pitch presentation – 10% (10 minutes, 800 words equivalent)
- Assessment 3 (Group) – Campaign proposal – 40% (3200 word equivalent)
- Examination (2 hours) – 30%

## ALR311 – Communication Management in Asia

*Enrolment modes: Not offered 2017. Re-offered 2018 subject to School approval*

*Trimester 3: Study tour*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Mark Sheehan*

*Prerequisite: Any unit from the disciplines of public relations; media and communication or journalism or cognate areas and permission from unit chair to enrol. Please note that study tour units may not run each year. Enrolment is always subject to a selection process and approval by the Unit Chair as places are limited. Therefore students should always identify another unit as an alternative to a study tour unit when planning their course or major.*

*Corequisite: Nil*

*Incompatible with: Nil*

*In-person attendance requirements: 70 Hours (includes intensive and pre-departure)*

*This is a two week intensive overseas study tour. Face to face contact and lectures will be delivered in various settings and venues in Kuala Lumpur and Singapore – 70 hours*

### Content

The unit is a study tour, and as such it is premised on the idea that taking students out of the classroom and putting them in real life situations makes them more motivated, allows them to see the relevance and meaning of public relations in action. The intention, then, is not to replace traditional pedagogy, but to augment it. Much international content revolves around case studies which focus on PR outcomes but does not stress the in-country or national difference in responding to communication management situations. This unit seeks to situate students in these scenarios while absorbing national standards of practice and scholarship of PR.

### Assessment

- Assessment 1 – Essay and annotated bibliography – 30%
- Assessment 2 – Consultancy – 30%
- Assessment 3 – Presentation – 40%

## ALR383 – Lobbying, Advocacy and Public Opinion

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Deirdre Quinn Allan*

*Prerequisite: Any second level ALR unit*

*Corequisite: Nil*

*Incompatible with: ALC381, ALR381, ALR481, ALR681*

*Scheduled learning activities – campus: 1 x 1 hour Class per week; 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour Class per week (recording via CloudDeakin); Online independent and collaborative learning activities x 2 hours per week. This will include a range of activities including seminar recordings, and synchronous and asynchronous participation in online classroom activities.*

### Content

The public interest which is sometimes quoted in professional codes of public relations practice and conduct is a cliché and a myth; in fact the civil society in which we live is an amalgam of competing interests. It is within this contested arena that public affairs practitioners operate in order to advocate for particular institutional views and resource allocations in the battle for favourable policy outcomes. So this unit examines the ways in which public relations and communication professionals working within third sector, business and government sector organisations seek to communicate via lobbying and campaigning in order influence public opinion and government policy.

*Note: Students in this unit should have access to a computer linked to the internet and should be able to load software from Deakin's Software Library*

### Assessment

- Assessment 1 (Group) – Background Briefing (1200 words or equivalent) – 30%
- Lobbying Strategy (2000 words or equivalent) – 50%
- Quizzes (800 words or equivalent) – 20%

## ALR700 – Public Relations Campaigns

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Mark Sheehan*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALR600*

*Scheduled learning activities – campus:*

*Burwood campus: 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 x 2 hours seminar equivalent*

### Content

Public relations campaigns are the planned and structured efforts to influence the behaviour, beliefs or attitudes of identified target publics. This unit is designed to apply and extend the knowledge of the public relations campaign, a key component of public relations practice. Students will examine the theories and models which work behind major campaigns and critically analyse existing campaigns.

### Assessment

- Essay (2000 words or equivalent) – 40%
- Industry Based Project (3000 words or equivalent) – 60%

## ALR701 – Public Relations Writing and Tactics

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Ross Monaghan*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALR601*

*Scheduled learning activities – campus: 1 x 2-hour seminar per week.*

*Scheduled learning activities – cloud (online):*

*Cloud (online): Online independent and collaborative learning activities including 1 x 1-hour class per week (recordings provided), 1-hour online seminar per week.*

### Content

Students learn to write by writing and rewriting.

The unit blends the strategic with the practical in a range of public relations writing tasks including media releases, newsletters and speeches and web-writing.

While strategic planning and thinking is a major component, creativity in developing and implementing communication solutions to PR problems is encouraged.

### Assessment

- Planning and Writing Exercise (2500 words or equivalent) – 50%
- Portfolio of Written Tactics (2500 words or equivalent) – 50%

## ALR703 – Digital Marketing

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Earvin Cabalquinto*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online Independent and Collaborative learning activities 1 x 2 hour per week. This will include a range of activities including seminar recordings, and synchronous and asynchronous participation in online classroom activities.*

### Content

Digital Marketing is concerned with the promotion of products and services to customers and/or key stakeholders via digital media delivered across a wide array of technology platforms. While many organisations also integrate digital marketing tactics and strategy with traditional marketing communication efforts, emergent and evolving platform technologies can prove to be disruptive, changing business models and marketing practice. Within such contexts successful marketers are those who are able to develop new skill sets and modes of practice and who can sort the fads from the trends.

At the same time, the ways in which customers and stakeholders adopt and use digital platforms continues to evolve and challenge marketer assumptions and practices. This unit will examine how organisations employ digital media to understand and reach priority audiences; to build brand engagement and equity; and to manage the blurring of boundaries between digital marketing and effective customer service via the Internet, mobile and social media channels.

### Assessment

- Report (2000 word equivalent) – 40%
- Industry-based project (3000 word equivalent) – 60%

## ALR704 – Reputation Management: Crisis, Risk and Responsibility

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Sharyn McDonald*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALR279, ALR604*

*Scheduled learning activities – campus: 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative activities including seminar overview (recordings provided) and online seminar tasks (combined 2 hours per week equivalence)*

### Content

Crisis, issue, and, reputation management can impact all sectors and industries. The growth of global technology and social media see reputations altered at a rapid pace and issues amplified to reach global audiences. This unit will focus on managing evolving stakeholder expectations whilst dealing with anticipated or unexpected events. Students are presented with the opportunity to critically explore contemporary cases involving celebrities, global organisations and public figures. A range of tools and techniques, including social responsibility, ethical behaviour, proactive and reactive strategies will be introduced to help prepare students to manage this challenging field.

### Assessment

- Essay (2000 words or equivalent) – 40%
- Report (3000 words equivalent) – 60%

## ALR710 – Marketing Communication

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Richie Barker*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALR610, ALR310, ALR410*

*Scheduled learning activities – campus: 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative activities including seminar overview (recordings provided) and online seminar tasks (combined 2 hour per week equivalence)*

### Content

The unit will provide an overview of the key elements of the marketing process with an emphasis on integrating public relations and marketing strategies in the formulation of campaigns. Key elements of the marketing process to be examined include analysis of the marketing environment, consumer behaviour, marketing research methods and forecasting, market segmentation and the implementation of the promotional mix (advertising, sales promotion, direct marketing, public relations, personal selling). Particular attention will be drawn to the role of public relations in the promotional mix and to the concepts of relationship marketing and social cause marketing.

### Assessment

- Promotional Plan (2000 words or equivalent) – 40%
- Promotional Report (3000 words or equivalent) – 60%

## ALR718 – Public Relations, Activism and Social Change

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Sharyn McDonald*

*Prerequisite: D305 students must have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%, otherwise Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative activities including seminar overview (recordings provided) and online seminar tasks (combined 2 hours per week equivalence)*

## Content

This unit pays special attention to the public relations industry in managing conflict and social change at different stages of modernity and contexts. Drawing on a number of activist case studies, the unit emphasises a socio-cultural understanding and analysis through a 'critical public relations' lens in order to understand 'PR' and its impacts, especially for marginalised groups. This assists students to analyse movements for social change and communication campaigns through a range of novel perspectives.

## Assessment

- Written Assignment (1500 words or equivalent) – 30%
- Written Assignment (2500 words or equivalent) – 50%
- Presentation (digital or oral, 1000 words or equivalent) – 20%

## ALR731 – Public Relations Theory and Practice

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Sharyn McDonald*

*Trimester 3 Unit Chair: Ross Monaghan*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALR631*

*Scheduled learning activities – campus: 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative activities including seminar overview (recordings provided), online seminar tasks (combined 2 hours per week equivalence)*

## Content

This unit presents a broad overview of public relations from the history of the profession, contemporary practice and future considerations. Various theoretical concepts are examined to gain an understanding of how public relations has evolved over time and how this can influence forms of communication. You will examine the role of the public relations practitioner and the organisations/sectors in which they operate. The public relations process is examined in stages from research and planning to implementation and evaluation. There is a strong emphasis on professional codes and ensuring ethical considerations underpin communication tools and techniques used.

## Assessment

- Essay (2000 words or equivalent) – 40%
- Essay (3000 words or equivalent) – 60%

## ALR733 – Advertising Theory and Practice

*Trimester 1: 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online):*

*Trimester 1 and 3: Online independent and collaborative learning activities 2 hours per week. This will include a range of activities including seminar recordings, and synchronous and asynchronous participation in online classroom activities.*

*In-person attendance requirements:*

*Trimester 3: Campus: 5 x 5 hour intensives over weeks 1, 3, 6, 8, 10*

## Content

Advertising is a dynamic form of marketing communication that is both complex and evolving. This unit will examine advertising from a range of theoretical and applied perspectives to understand its role as a persuasive communication technique.

The unit also situates advertising in the context of global, economic, regulatory and cultural perspectives which shape advertising practices and how advertising is perceived and understood by various audiences (target and non-target). The unit begins with a focus on the broader role of advertising in society and then examines more practical aspects of advertising planning and execution within the context of Integrated Marketing Communication.

## Assessment

- Essay (2500 word or equivalent) – 50%
- Report (2500 word or equivalent) – 50%

## ALR782 – Public Affairs and Opinion Formation

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Kristin Demetrious*

*Corequisite: Nil*

*Incompatible with: ALR383*

*Scheduled learning activities – campus: 1 x 2 hour seminar each week (Weeks 1 to 11 inclusive)*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities 1x2 hour per week.*

## Content

Topics to be addressed include:

- Theories of public opinion formation
- Structures of government in Australia
- Government policy formation processes
- Lobbying, government relations and public affairs activities
- Peak industry bodies and their activities
- NGOs and their activities – the ‘third sector’
- Think tanks and their activities
- Political communication
- The role of media in opinion formation
- Trends in public participation in policy formation
- Trends in public concerns over risk, the environment, and political literacy
- The ethics of influencing public opinion
- Comparing Australian public opinion processes globally.

## Assessment

- Essay (1500 words or equivalent) – 30%
- Plan (1000 words or equivalent) – 20%
- Industry Based Project (2500 words or equivalent) – 50%

## ALS100 – Spanish 1A

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Ramon Lopez Castellano*

*Trimester 2 Unit Chair: Ramon Lopez Castellano*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour class, 2 x 1 hour seminar and 1 x 1 hour computer-based seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour class per week (recordings provided), 1 x 1.5 hour online seminar per week*

## Content

This unit will give students an introduction to basic vocabulary, grammar, and sentence structure of Spanish for use in everyday contexts and daily activities. Students will be familiarised with the sociolinguistic and sociocultural aspects of Spanish communication at a basic level. In addition, this unit introduces the diversity of the Hispanic world through the study of the histories, societies and cultures of Spanish-speaking countries. This unit assumes no prior knowledge or study of the language.

*Note: Student enrolment quotas apply to this unit for campus modes. No student enrolment quotas for Cloud (online) offering.*

*This unit assumes no prior knowledge or study of the language.*

## Advanced Standing in Spanish

Non-VCE students with prior knowledge of Spanish (such as heritage-speakers) can contact the Spanish Program Coordinator to organise a placement test preferably before the commencement of trimester.

The test evaluates students' proficiency in Spanish so that, if and when adequate prior knowledge is demonstrated, advanced standing in Spanish can be granted and specific unit pre-requisites can be waived. Non VCE-students with prior knowledge of Spanish are then able to enrol at the most suitable level.

### Assessment

- Quizzes (1500 words) – 25%
- Writing Exercise (300 words) – 20%
- Oral Test – 25%
- Test – 30%

## ALS150 – Spanish 1B

*Enrolment modes:*

*Trimester 2: Burwood (Melbourne), Waurin Ponds*

*(Geelong), Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Israel Holas*

*Trimester 3 Unit Chair: Israel Holas*

*Prerequisite: ALS100 or equivalent*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 3 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour Class per week (recordings provided), 1 x 1.5 hour online Seminar per week*

### Content

This unit will advance students' competency of basic vocabulary, grammar, and sentence structure of Spanish in extended social contexts and daily activities. Students will continue to learn the sociolinguistic and sociocultural aspects of Spanish communication at a basic level. In addition, this unit will build on the students' knowledge of the Hispanic world through the study of the histories, societies and cultures of Spanish-speaking countries. This unit assumes one semester of prior tertiary study of the language or the equivalent.

*Note: This unit assumes one semester of prior tertiary study of the language or the equivalent.*

### Advanced Standing in Spanish

Non-VCE students with prior knowledge of Spanish (such as heritage-speakers) can contact the Spanish Program Coordinator to organise a placement test preferably before the commencement of trimester.

The test evaluates students' proficiency in Spanish so that, if and when adequate prior knowledge is demonstrated, advanced standing in Spanish can be granted and specific unit pre-requisites can be waived. Non VCE-students with prior knowledge of Spanish are then able to enrol at the most suitable level.

### Assessment

- Quizzes (1500 words) – 25%
- Writing Exercise (300 words) – 20%
- Oral Test – 25%
- Test – 30%

## ALS200 – Spanish 2A

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Ramon Lopez Castellano*

*Prerequisite: ALS100 and ALS150 at Deakin or equivalent level of proficiency demonstrated by sitting a language placement test*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week and 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour Class per week (recordings provided), 1 x 1.5 hour online Seminar per week*

### Content

This unit will further students' knowledge of Spanish vocabulary, grammar, and sentence structure for use in everyday contexts and for use in specific activities. Students will be exposed to the sociolinguistic and sociocultural aspects of Spanish communication at a continuing (low intermediate) level. In addition, this unit will further explore the diversity of the Hispanic world. This unit assumes one year of prior knowledge or study of the language – ALS100 and ALS150 or equivalent.

### Assessment

- Writing Exercises – 40%
- Writing Exercises – 20%
- Oral Test. To take place after the end of term, during the Study Period – 20%
- Final Test. To take place during the exam period, after the Oral test – 20%

## ALS225 – Introduction to the Spanish-Speaking World

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Israel Holas*

*Prerequisite: Two units: ALS100 and ALS150 at Deakin or equivalent level of proficiency demonstrated by sitting a language placement test*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour Class per week (recordings provided), 1 x 1.5 hour online Seminar per week*

### Content

This unit will focus on extra-linguistic contents in Spanish. The unit explores the contemporary Spanish-speaking world through literary texts, films, historical documents, and cultural artefacts. It will provide an overview of the richness, heterogeneity and complexity of Spain and Latin America through authentic texts in Spanish.

### Assessment

- Online/Seminar Exercises – 10%
- Writing Exercise (450- 500 words) – 25%
- Presentation – 20%
- Essay (in English), (2000 words) – 45%

## ALS250 – Spanish 2B

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Elena Alonso Mira*

*Prerequisite: ALS100, ALS150 and ALS200 at Deakin or equivalent level of proficiency demonstrated by sitting a language placement test*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2-hour Seminar per week and 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour Class per week (recordings provided), 1 x 1.5 hour online Seminar per week*

### Content

This unit will continue to develop students' knowledge of, and competency in, Spanish. The Unit will further expose students to the sociolinguistic and sociocultural aspects of Spanish communication at a continuing intermediate level. In addition, this unit will present about, and encourage students to critically engage with, the diversity of the Hispanic world through the study of the histories, societies and cultures of Spanish-speaking countries. This unit assumes 1.5 years of prior knowledge or study of the language – ALS100, ALS150, ALS200 or equivalent.

### Assessment

- Writing Exercises – 40%
- Writing Exercise – 20%
- Oral Test. To take place after the end of term, during the Study Period – 20%
- Final Test. To take place during the exam period, after the Oral test – 20%

## ALS300 – Intermediate Spanish 3A

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Elena Alonso Mira*

*Prerequisite: ALS100, ALS150, ALS200, ALS250*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week and 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour Class per week (recordings provided), 1 x 1.5 hour online Seminar per week*

### Content

This Unit will advance students' fluency and competence in Spanish to a high intermediate level. Students will continue to learn and practice important grammatical and lexical components of the Spanish language, while further exploring the societies and cultures of the 'Spanish-speaking world'. This unit assumes two years of prior knowledge or study of the language (CERFL A2/B1).

## Assessment

- Online Exercises – 30%
- Writing Exercises – 30%
- Final Oral Test – 20%
- Final Test (incl. Listening section) – 20%

## ALS325 – Cultures of Resistance in the Spanish-Speaking World

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrn Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Israel Holas*

*Prerequisite: All 4 units: ALS100, ALS150, ALS200, ALS250*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour class per week, 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour class per week (recordings provided), 1 x 1.5 hour online seminar per week.*

*All students are required to dedicate up to 10 hours a week to their Spanish Studies: 3 compulsory hours of class-time (as above); 3 hours of independent study and research, homework, revision, and online problem-based exercises; and 3 or more hours of immersion in Spanish (through films, music, literature, etc.).*

## Content

This Unit will advance students' fluency and competence in Spanish to a high-intermediate level, low-advanced level. The unit explores cultural texts and artefacts to determine what they say about the societies and cultures of Latin America and Spain throughout the 20th and 21st centuries. The unit examines narrative fiction, poetry, film and socio-political movements to gain a deeper understanding of the issues and conditions of these societies. Students learn about the traditions of Latin America and Spain from authentic materials in Spanish. Overall, the unit offers a panoramic view of the Spanish-speaking world through its cultural representations. (CERFL B1/B2)

## Assessment

- Online Exercises – 20%
- Assessment 2 (Group) – Group Presentation (15–20 min) – 20%
- Presentation Write-up (800 words) – 25%
- Essay (1500 words) – 35%

## ALS350 – Advanced Spanish 3B

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrn Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Israel Holas*

*Prerequisite: ALS100, ALS150, ALS200, ALS250, ALS300*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week and 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour Class per week (recordings provided), 1 x 1.5 hour online Seminar per week*

## Content

This Unit will advance students' fluency and competence in Spanish to a high-intermediate level, low-advanced level. Students will continue to learn and practice important grammatical and lexical components of the Spanish language while further exploring the societies and cultures of the 'Spanish-speaking world'. The unit organises the teaching and learning of grammar and vocabulary around key issues and features of Latin America and Spain. The unit examines the socio-linguistic conventions of Spanish by looking at a range of topics related to the contemporary world. This unit assumes two and a-half years of prior knowledge or study of the language (B1).

## Assessment

- Online Exercises – 30%
- Writing Exercises – 30%
- Presentation – 20%
- Test – 20%

## ALS360 – Selected Topics in Spanish

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Israel Holas*

*Prerequisite: 4 units: ALS200, ALS225, ALS250, ALS300*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x combined 3 hour Class/Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour Class per week (recordings provided), 1 x 1 hour online Seminar per week*

### Content

This unit will introduce students to Latin American and Spanish literary traditions and movements through the study of the short story form in Spanish. The unit examines a range of literary forms and styles, whilst at the same analysing the portrayal of Latin American and Spanish reality and culture as (re) presented in short fiction. Key authors and traditions are presented chronologically in order to emphasise continuity and rupture within literary lineages, and as a means of tracing historical and social developments in the Spanish-speaking world. Students are given the opportunity to experience the cultural diversity of Latin America and Spain through some of its most emblematic literary works from Argentina, Chile, Colombia, Cuba, Mexico, Peru, Uruguay and Spain.

### Assessment

- Essay (1000 words) – 25%
- Presentation (15 minutes) – 25%
- Journal (2000 words) – 50%

## ALS370 – Advanced Topics in Spanish

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Ramon Lopez Castellano*

*Prerequisite: All 4 units: ALS200, ALS225, ALS250, ALS300*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): 1 x 2 hour online seminar per week*

### Content

This unit is designed to provide students with the necessary skills to develop a research question and complete a self-directed project in Spanish. Students completing this unit will undertake a self-directed research project under the supervision of the Unit Chair and/or other teaching staff. The unit will guide the development and expansion of the research project on topics related to the Spanish-speaking world (literature, history, culture, biography, etc.). Each student will develop a unique research question, and will complete the research and writing of the project in Spanish. Throughout the trimester students will develop in-depth knowledge of a particular aspect of the Spanish-speaking world, as well as develop and enhance their research skills as they work toward the completion of a research paper in Spanish. This is a unit for advanced students of the language.

### Assessment

- Research and Writing Exercise (1000 words) – 20%
- Oral Presentation – 20%
- Research Essay (3000 words) – 60%

## ALW101 – Writer’s Toolkit: Craft and Creativity

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Antonia Pont*

*Trimester 3 Unit Chair: Antonia Pont*

*Prerequisite: Nil*

*Corequisite: This unit is only available to students enrolled in a Faculty of Arts and Education course or D311, D312, D313, D326, D346, D347, D370, D391*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Trimester 1: 1 x 1 hour class per week, 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online):*

*Trimester 1 and 3: Online independent and collaborative learning activities including 1 x 1 hour class per week (recordings provided), 2 hour online seminar per week*

*In-person attendance requirements:*

*Trimester 3: Campus: Intensive mode – up to 4 hours of seminars in weeks 1, 2, 3, 5, 8, 11*

### Content

This is a unit that combines the practice of attentive reading with creative writing. Students are exposed to a wide range of literary texts, as well as to a suite of crucial skills and craft elements that found creative writing of a professional standard. Students also write about their work and the processes involved in its composition, introducing critical thinking and modes of expression that will support them during and beyond their degree.

### Assessment

- Sketching with Words (500 words) – 10%
- Memory as Seed (1500 words) – 40%
- Place as Encounter (1500 words) – 40%
- Participation, peer discussion/engagement and collegial contributions – 10%

## ALW102 – Writing Spaces: Paradigms and Provocations

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Briohny Doyle*

*Prerequisite: Nil*

*Corequisite: This unit is only available to students enrolled in a Faculty of Arts and Education course or D311, D312, D313, D326, D346, D347, D370, D391*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 x 1 hour class per week (recorded video provided), 2 hours per week participation in online discussion and workshoping forums.*

### Content

This unit extends the work undertaken in ALW101. Key texts occur in the narrative ‘spaces’ of screenplay, creative essay, poetic drama, and extended fiction, but are also framed as social interventions. Through interrelated reading and writing practice, students are encouraged to produce work that traverses creative and analytical modes, and responds to the critical concepts of the unit.

### Assessment

- Assessment 1 – Writing with Intent (project statement + creative piece) (1600 words) – 40%
- Assessment 2 – Theory as Seed (creative piece + exegesis) (2000 words) – 50%
- Assessment 3 – Participation and seminar – 10%

## ALW205 – The Role of the Editor

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Emmett Stinson*

*Prerequisite: ALW101 and ALW102*

*Corequisite: Nil*

*Incompatible with: ALW305*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning including 11 scheduled online workshops*

### Content

The unit provides an overview of the editor's role at each stage of the publishing process, from developmental editing to proofreading and indexing. Students are introduced to the study of the concepts of editing as well as the craft, both on paper and using computers. The unit has a strong focus on copyediting skills, but students are also encouraged to extend their understanding of style, genre and audience. Class exercises and assessment provide experience in editing for book publishing, magazines and websites.

### Assessment

- Usage Quizzes (800 words or equivalent) – 20%
- Editorial Research Task (1200 words or equivalent) – 30%
- Editing Assignment (2000 words or equivalent) – 50%

## ALW223 – The Lyric Essay: Playing with Ideas

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Briohny Doyle*

*Prerequisite: ALW101 and ALW102*

*Corequisite: This unit is only available to students enrolled in a Faculty of Arts and Education course or D311, D312, D313, D326, D346, D347, D370, D391*

*Incompatible with: ALW323, ALW306*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 2 hours participation per week (approximate) in online discussion and workshop forums.*

### Content

This is a unit of reading and writing creative nonfiction, which explores the personal essay as a form of nonfiction narrative. The unit focuses on reading and analysis of creative nonfiction models, on their breadth and depth and the uses to which writers put the form. Students are encouraged to experiment with structure, style and voice and to target specific readerships when writing their own nonfiction narratives.

### Assessment

- Assessment 1 – Creative folio (1000 words) – 25%
- Assessment 2 – Manuscript (2000 words) – 50%
- Assessment 3 – Engagement with feedback processes (1000 words) – 25%

## ALW225 – Designing Fictions

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Cassandra Atherton*

*Trimester 3 Unit Chair: Cassandra Atherton*

*Prerequisite: ALW101 and ALW102*

*Corequisite: This unit is only available to students enrolled in a Faculty of Arts and Education course or D311, D312, D313, D326, D346, D347, D370, D391*

*Incompatible with: ALW325*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including: 1 x 2-hour online seminar per week in the form of response to seminar based discussion boards.*

## Content

This unit explores technical and discursive aspects of fiction-writing, with reference to highly regarded texts. The unit involves much exploration of creativity and experimentation; improvisation and revision. Students must be prepared to do considerable practical work in and out of seminars. Each student will submit a complete original work or works of fiction. This work may be presented in a number of forms, including short story, hypertext, fiction for installation or exhibition, for example.

## Assessment

- Report on unit readings (1200 words or equivalent) – 30%
- Original Work or series of Works of Fiction (2,000 words or equivalent) – 50%
- Seminar responses to students' work and participation (800 words or equivalent) – 20%

## ALW227 – Scriptwriting: Character, Event, Consequence

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Nic Velissaris*

*Prerequisite: Students must have passed any two (2) Arts units prior to enrolling in this unit*

*Corequisite: Nil*

*Incompatible with: ALW327, ALW308*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities (1 x 2 hour Seminar per week equivalent)*

## Content

Students will further examine the fundamentals of dramatic writing introduced in ALW102. They will develop work in any genre using these fundamentals. Students are encouraged to experiment in a range of styles with focus on the collaborative nature of scriptwriting. Presentation of work-in-progress and subsequent redrafting are part of this process.

## Assessment

- Exercise scriptwriting (1200 words or equivalent) – 30%
- Assessment 2 (Individual and Group) – Participation in Script Feedback (800 words) – 20%
- Scriptwriting Final Script Exercise (2000 words) – 50%

## ALW242 – Poetry: Events in Language

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: David Mc Cooley*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities 1 x 2 hour equivalent.*

## Content

Poetry is typically turned to at times when individuals or communities struggle at the edge of expression, trying to understand extremities of feeling and circumstance, whether these be desire, joy, sadness, outrage, fear, despair, doubt or regret. Poetry can also be our preferred mode when we seek to articulate our relationship with the Other, experiences of intimacy and separation, the boundaries of the self, and the question of mortality. This unit introduces students to a range of modes and forms of poetry. Through both creative and critical approaches, students will be encouraged to explore the content, performance and impact of a range of examples.

## Assessment

- Exercise of Creative artifact OR Critique (1500 words or equivalent) and Online Exercise (500 words or equivalent) – 50%
- Portfolio (1000 words or equivalent) and Critique (1000 words or equivalent); OR Essay (2000 words or equivalent) – 50%

## ALW251 – Writing for Games: Designing Quests and Characters

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Nic Velissaris*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including: 1 x 2 hour Seminar per week equivalent.*

### Content

What is the role of the writer in digital storytelling? In this age of “gamification,” what are the new constraints and opportunities presented to writers or storytellers by digital narratives? This unit invites students to explore how gaming culture involves the telling of stories in both ancient and innovative ways. Learning about the narrative pattern of the fantasy quest and the enduring importance of character, students will explore various fantasy games to identify how the quest narrative and characterisation play structural roles. They will also use basic software to design their own quest narrative, working in teams to develop an appreciation of the cross-modal and collaborative practice of games writers. (No coding experience necessary.)

### Assessment

- Presentation (oral and written) on researched case studies equivalent (1600 words or equivalent) – 40%
- Assessment 2 (Group) – Assignment text-based quest narrative (1600 words or equivalent) – 40%
- Evaluative report (800 words or equivalent) – 20%

## ALW252 – Writing for Young People

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Jodi Mc Alister*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour seminar per week for 11 weeks (including independent and collaborative learning activities)*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities (asynchronous, approximately 2 hours work per week)*

### Content

This unit introduces students to the production of creative writing for young people. Students will engage with a variety of genres and narrative approaches, through the study of creative and critical texts relevant to child and young adult literature. Students undertaking this unit will learn to draft and pitch their work, identifying and applying key concepts around genre, audience and narration. This knowledge will be showcased in a final assessment: a substantial piece of creative writing for young people.

### Assessment

- Journal (1000 words or equivalent) – 25%
- Research and Writing Exercise (1000 words or equivalent) – 25%
- Exercise (2000 words or equivalent) – 50%

## ALW394 – Studio Writing Project

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrn Ponds (Geelong), Cloud (online)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 2 Unit Chair: Karen Le Rossignol*

*Prerequisite: Two level 2 ALW units*

*Corequisite: Must be enrolled in A316*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour class, 1 x 1 hour seminar, 1 x 2 hour practical studio per week*

*Scheduled learning activities – cloud (online):*

*Independent and collaborative learning activities including: 1 x 1 hour class, 1 x 1 hour seminar and 1 x 2 hour practical work per week equivalent*

### Content

This unit will offer development of a longer creative project, shaping the process from concept through research to narrative artefact. It will include developing skills in the management of creative projects in a practice-based approach. The genre for the project may be negotiated, and could include fiction, creative nonfiction, poetry, script, experimental or interdisciplinary writing. The unit will incorporate ongoing small group workshops on the developing project, and seminar discussions on industry-related issues.

*Note: This unit is a core and capstone unit for the Bachelor of Arts (Professional and Creative Writing)*

It is not available to students in A300 or related double degrees D311, D312, D313, D326, D370, and D391

### Assessment

- Research Proposal (1600 words or equivalent) – 20%
- Presentation Seminars (1600 words or equivalent) – 20%
- Exercise Creative Research Project (4800 words or equivalent) – 60%

## ALW395 – Experimental Writing Lab

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrn Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: David McCooey*

*Prerequisite: Two level 2 ALW units*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week for 6 weeks plus 1 x 2 hour Seminar per week for 11 weeks*

### Content

This unit explores the history and techniques of experimental writing, and encourages students to produce experimental writing of their own that challenges conventional modes of literary expression and presentation. Students will be exposed to a variety of historical and contemporary examples (both text-based and multimedia) of experimental writing. Students will engage with the experimental writing practices of various historical avant-garde movements (such as Surrealism and Oulipo), as well as experimental writing practices in the digital realm.

### Assessment

- Exercise (1000 words or equivalent) – 25%
- Essay (1000 words or equivalent) – 25%
- Exercise (2000 words or equivalent) – 50%

## ALW396 – Producing Digital Anthologies: From Concept to Publication

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrn Ponds (Geelong), Cloud (online)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Indigo Perry*

*Prerequisite: Nil*

*Corequisite: This unit is only available to students enrolled in a Faculty of Arts and Education course or D311, D312, D313, D326, D370, D391*

*Incompatible with: ALW321, ALW326, ALW393*

*Scheduled learning activities – campus: 2 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): Online learning independent and collaborative learning activities (2 x 2 hour seminar per week equivalent)*

## Content

This unit offers students the opportunity to explore fiction and nonfiction writing to a given theme or concept, plus editing and production skills for an online anthology. In the fiction/nonfiction component, we focus on addressing a commissioned theme or concept applying innovative ideas and observations in the writing and workshop process. The editing/publishing component focuses on the compilation of content for an anthology; structuring, designing and preparing initial marketing for a publication and its specified readership; and applying legal principles to publication decisions. At the end of the unit, students will demonstrate skills in preparing fiction/nonfiction to a given theme or concept, working with a small group to edit and publish a digital anthology, and individually evaluating the process in relation to the writing/publishing industry.

## Assessment

- Final draft fiction/nonfiction manuscript (3200 words or equivalent) – 40%
- Assessment 2 (Group) – Group digital anthology (4000 words equivalent) – 50%
- Evaluative report on editing and publishing process (800 words or equivalent) – 10%

## ALW725 – Writing Manifestos

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Karen Le Rossignol*

*Cohort rule: This unit is only available to students enrolled in A764 – Master of Arts (Writing and Literature)*

*Prerequisite: ALX705*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): Online learning independent and collaborative learning activities including 1 x 2 hour seminar equivalent*

## Content

Students undertaking this unit will develop advanced disciplinary knowledge of creative and/or professional writing through an in-depth exploration of the individual writer's life and the motivations for creative writing.

Through guided reading and seminars, students in writing will explore relevant combinations of writing theory, genre and/or style.

## Assessment

- Research and writing exercise (2500 words or equivalent) – 50%
- Research and writing exercise (2500 words or equivalent) – 50%

## ALW730 – Creative Nonfiction: the Personal Essay

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Indigo Perry*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALW601, ALW630*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online learning independent and collaborative learning activities including 1 x 2 hour seminar equivalent*

## Content

This unit is designed to provide skills in writing the creative nonfiction form, as well as an understanding of the theoretical contexts and subtexts that underpin creative nonfiction writing. Particular emphasis will be focussed on the personal essay as a form of creative nonfiction narrative. Intensive discussion of ideas and work-in-progress will be undertaken, as will critical reading and analysis of a range of published materials.

## Assessment

- Exercise: portfolio & reflection (1500 words or equivalent) – 30%
- Exercise: Personal Essay (2500 words or equivalent) – 50%
- Class exercises: engagement with feedback processes (1000 words or equivalent) – 20%

## ALW732 – Fiction Writing: Story, Structure and Starting Out

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Patrick West*

*Trimester 3 Unit Chair: Patrick West*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALW602, ALW632*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 x 2 hour seminar equivalent*

### Content

This unit explores technical and discursive aspects of fiction-writing, with reference to highly regarded texts. The unit involves much exploration of creativity and experimentation, improvisation and revision. Students must be prepared to do considerable practical work in Seminars, or online in the case of Cloud (online) students. Each student will submit a complete original work or works of fiction. This work may be presented in a number of forms, including short story, hypertext, and fiction for installation or exhibition, for examples.

### Assessment

- Exercise: Reflection (1500 words or equivalent) – 30%
- Exercise: Fiction Story (3000 words or equivalent) – 60%
- Class Exercises: Workshop Participation (500 words or equivalent) – 10%

## ALW734 – Script Writing

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Nic Velissaris*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALW603, ALW634*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 x 2 hour seminar equivalent*

### Content

This unit introduces the principles and techniques of script writing. Student will choose to focus either on writing for film (and television) or play-writing. Students will explore the concepts of dramatic construction, exposition, character development, dialogue, suspense and resolution.

### Assessment

- Script Writing Exercise (2000 words or equivalent) – 40%
  - Part A: Creating Character Biographies (600 words) – 15%
  - Part B: Exploring conflict and major script proposal (1400 words) – 25%
- Assignment 2 (Individual) – Major Script (2500 words or equivalent) – 50%
  - Part A: Script equivalent (2000 words)
  - Part B: Reflection equivalent (500 words)
- Assignment 3 (Individual) – Writing a Plot Summary (500 words or equivalent) – 10%

## ALW736 – Experiments in Writing

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Indigo Perry*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALW604, ALW636*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 x 2 hour seminar equivalent*

### Content

Introduction to the methods and concepts underlying the poetic nature of strong writing in both poems and prose form. Students will read, discuss and demonstrate the use of devices such as metaphor, diction, narrative variety, voice and dialogue in poems, prose poems,

fiction and non-fiction works. The unit will explore how writers combine these poetic devices into a flexible practice across genre and then students will develop a folio of original work in their chosen combination of such practices. Emphasis will also be placed on each student writing towards a personal poetic.

### Assessment

- Exercise: Writing Your Poetics (500 words or equivalent) – 10%
- Creative Writing Portfolio (3000 words or equivalent) – 60%
- Exercise: Writing, Reading and Participation Journal (1500 words or equivalent) – 30%

## ALW738 – Editing

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Emmett Stinson*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALW607, ALW638*

*Scheduled learning activities – campus: 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including: 1 x 2 hour seminar per week equivalent*

### Content

This unit aims to give students a grounding in key editorial principles and skills. Students are encouraged to develop their understanding of the relationship between editor, author and reader by focusing on project appraisal, copy-editing and structural editing. The unit will acquaint students with the ethical responsibilities of editors, authors and publishers, particularly with regard to copyright and defamation. The unit is also designed to assist writers to refresh their technical skills and deepen their understanding of the editing and publishing process.

### Assessment

- Topic-Based Editorial Quizzes (1000 words or equivalent) – 20%
- Appraisal assignment (1500 words or equivalent) – 30%
- Editing assignment (2500 words or equivalent) – 50%

## ALW739 – Publishing

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Emmett Stinson*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALW607, ALW639*

*Scheduled learning activities – campus: 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 x 2 hour seminar equivalent*

### Content

The unit extends students' understanding of the publishing industry and processes. It provides students with an understanding of how authors' proposals for publication are reviewed by acquisitions editors and examines trends in publishing in Australia and internationally. It provides knowledge on topics and trends such as intellectual property and defamation law, production processes and new forms of publishing. Students work collaboratively to present a book or electronic publishing company and to showcase proposals for publication.

### Assessment

- Class Exercises (1000 words equivalent) – 20%
- Research Assignment (2000 words or equivalent) – 40%
- Publishing Profile and Marketing Plan (2000 words or equivalent) – 40%

## ALW740 – Foundations in Professional and Creative Writing

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Karen Le Rossignol*

*Trimester 2 Unit Chair: Briohny Doyle*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 x 2 hour seminar equivalent*

## Content

This project-based unit introduces students to the foundations of Professional and Creative Writing through a combination of historical, conceptual and practical approaches to creativity, craft, form, theory, and publication. In-depth knowledge in each of these domains, combined with the capacity to see the connections between them, will equip students to maximise their own writing abilities through the medium of innovative contributions to local, national and international writing industries. Writers must be both professional and creative to thrive in a knowledge economy in which the figure of the Specialist Writer has largely been replaced with that of the Portfolio Writer. Thus, this unit will provide students with the skills, insights and vocabularies they need to be able to operate professionally and creatively across a range of writing forms, tasks and platforms. Layered into this aspect of learning will be close attention to the challenges and opportunities that globalization brings for the twenty-first century writer, in particular as these relate to the changing nature of solo and collaborative writing projects, to the challenge of catering to cross-cultural audiences, and to strategic choices for traditional and/or digital modes of writing dissemination. The unit will mainly focus on the production, development and editing of short prose.

## Assessment

- Exercise: Reflective Report (1500 words or equivalent) – 30%
- Exercise: Prose Writing Project (3000 words or equivalent) – 60%
- Class Exercises: Participation in online or class workshopping (500 words or equivalent) – 10%

# ALX420 – Honours Research Project A

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong)\*, Cloud (online)\**

*Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong)\*, Cloud (online)\**

*\* subject to availability of a supervisor*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Kristine Moruzi*

*Trimester 2 Unit Chair: Kristine Moruzi*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in A400*

*Incompatible with: AAR415, AAR416, AAR417*

*Scheduled learning activities – campus: 1 x 1 hour every two weeks in negotiation with supervisor*

*Scheduled learning activities – cloud (online): 1 x 1 hour every two weeks in negotiation with supervisor*

## Content

This unit consists of the preparatory phase of the Honours research project, and is the first of the four Honours Thesis units (A, B, C and D). The student will work with a supervisor to design their research topic, locate and review relevant research literature, and present and receive feedback on draft work in progress. The content of this unit will be determined by negotiation between the supervisor and the student. The Honours Thesis project may take the form of a written thesis (14–16,000 words) or a creative work and exegesis (6000 words).

## Assessment

The research project dissertation will be 14,000–16,000 words, or equivalent. This work will be completed over 4 units (ALX420, ALX421, ALX422, ALX423), 100%.

## ALX421 – Honours Research Project B

### Enrolment modes:

Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong)\*, Cloud (online)\*

Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong)\*, Cloud (online)\*

\* subject to availability of a supervisor

Credit point(s): 1

EFTSL value: 0.125

Trimester 1 Unit Chair: Kristine Moruzi

Trimester 2 Unit Chair: Kristine Moruzi

Prerequisite: ALX420, AAR412

Corequisite: Must be enrolled in A400 and be enrolled in, or have completed, ALX420

Incompatible with: AAR415, AAR416, AAR417

Scheduled learning activities – campus: 1 x 1 hour every two weeks in negotiation with supervisor

Scheduled learning activities – cloud (online): 1 x 1 hour every two weeks in negotiation with supervisor

### Content

This unit is the second of the four Honours Thesis Units (A, B, C and D). The student will work with a supervisor to refine their research topic, locate and review relevant research literature, and present and receive feedback on draft work in progress. The content of this unit will be determined by negotiation between the supervisor and the student. The Honours Thesis project may take the form of a written thesis (14–16,000 words) or a creative work and exegesis (6000 words).

### Assessment

The research project dissertation will be 14,000–16,000 words, or equivalent. This work will be completed over 4 units (ALX420, ALX421, ALX422, ALX423), 100%.

## ALX422 – Honours Research Project C

### Enrolment modes:

Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong)\*, Cloud (online)\*

Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong)\*, Cloud (online)\*

\* subject to availability of a supervisor

Credit point(s): 1

EFTSL value: 0.125

Trimester 1 Unit Chair: Kristine Moruzi

Trimester 2 Unit Chair: Kristine Moruzi

Prerequisite: AAR412 and ALX420

Corequisite: Must be enrolled in or completed ALX421

Incompatible with: AAR415 and AAR416 and AAR417

Scheduled learning activities – campus: 1 x 1 hour every two weeks in negotiation with supervisor

Scheduled learning activities – cloud (online): 1 x 1 hour every two weeks in negotiation with supervisor

### Content

This unit is the third of the four Honours Thesis Units (A, B, C and D). The student will work with a supervisor to advance their research, and present and receive feedback on draft work in progress. The content of this unit will be determined by negotiation between the supervisor and the student. The Honours Thesis project may take the form of a written thesis (16,000 words) or a creative work and exegesis (6000 words).

### Assessment

The research project dissertation will be 14,000–16,000 words, or equivalent. This work will be completed over 4 units (ALX420, ALX421, ALX422, ALX423), 100%.

## ALX423 – Honours Research Project D

### Enrolment modes:

Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong)\*, Cloud (online)\*

Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong)\*, Cloud (online)\*

\* subject to availability of a supervisor

Credit point(s): 1

EFTSL value: 0.125

Trimester 1 Unit Chair: Kristine Moruzi

Trimester 2 Unit Chair: Kristine Moruzi

Prerequisite: AAR412 and ALX420

Corequisite: Must be enrolled in A400 and must be enrolled in or completed ALX422

Incompatible with: AAR415, AAR416, AAR417

Scheduled learning activities – campus: 1 x 1 hour every two weeks in negotiation with supervisor

Scheduled learning activities – cloud (online): 1 x 1 hour every two weeks in negotiation with supervisor

## Content

This unit consists of the completion phase of the Honours research project, and is the last of the four Honours Thesis Units (A, B, C and D). The student will work with a supervisor to present and receive feedback on the final draft, and to revise, edit and prepare their thesis for submission. The content of this unit will be determined by negotiation between the supervisor and the student. The Honours Thesis project may take the form of a written thesis (14–16,000 words) or a creative work and exegesis (6000 words).

## Assessment

Thesis (14,000–16,000 words) – 100%

## ALX705 – Critical and Creative Research Methods

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Alyson Miller*

*Trimester 2 Unit Chair: Alyson Miller*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ALX709, AAR410, AAR412, AAR710 and AAR712*

*Scheduled learning activities – campus: 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities (1 x 2 hour seminar per week equivalence)*

## Content

This unit introduces students to the research methods, approaches and skills that will assist them in the conduct of the research for, and production of, their Masters Research project. It focuses on defining research and tackling issues concerned with the practice of research. It is a unit designed to complement the students' individual research projects and includes sessions on locating print and non-print sources, journalising and recording research and ethical issues in arts research. This unit provides students with the opportunity to develop and effectively structure their research project by considering paradigm shifts that result from research and providing collaborative and cross/arts interdisciplinary possibilities. Students will review others' research and participate in sharing and publicising research.

## Assessment

- Annotated Bibliography (1750 words or equivalent) – 35%
- Research Proposal (1000 words) – 15%
- Project Outline (2250) – 50%

## ALX720 – Minor Research Project

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Kristine Moruzi*

*Trimester 2 Unit Chair: Kristine Moruzi*

*Prerequisite: ALX705*

*Corequisite: Must be enrolled in A764*

*Incompatible with: Nil*

## Content

This unit enables students to undertake a two credit-point independent research project on a topic of their choice negotiated with their supervisor. Critical projects will be 10,000 words and will be based on primary and secondary sources. Creative projects will be comprised of a 7000-word (or equivalent) creative artefact and a 3000-word critical exegesis or artist statement.

## Assessment

Minor Research Project of 9000–10,000 words

## ALX722 – Masters Research Project A

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Cassandra Atherton*

*Trimester 2 Unit Chair: Alyson Miller*

*Cohort rule: Must be enrolled in A764*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in or completed ALX705*

*Incompatible with: ALX720*

*Scheduled learning activities – campus: Online independent and collaborative learning activities including: 1 x 2 hour online seminar equivalent per week in the form of contribution to live discussion boards and individual feedback on projects via email*

## Content

This 1 credit point unit consists of the preparatory phase of the Masters research project, and is the first of the four Masters Thesis Units (A, B, C and D). This unit introduces students to the requirements of the Research Project. In this unit, students will be provided with assistance in locating a supervisor and in starting work on their individual project. The content of this unit will be determined by negotiation between the unit chair, the individual supervisor and the student.

In this unit a chapter draft of 4000 words or equivalent will be submitted to receive feedback and assessment to guide your final research project submission. This mark will not impact on the assessment of your Masters research final project as it serves as formative assessment to inform your progress. Students are required to complete the thesis (4 credit points) in a maximum of two trimesters and should contact Postgraduate Student Support if assistance with course planning is required.

## Assessment

(Individual) – Chapter draft (4000 words or equivalent) – 100%.

## ALX723 – Masters Research Project B

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Kristine Moruzi*

*Trimester 2 Unit Chair: Kristine Moruzi*

*Cohort rule: Must be enrolled in A764 course*

*Prerequisite: ALX705*

*Corequisite: Must be enrolled in or completed ALX722*

*Incompatible with: ALX720*

## Content

This unit entails independent research conducted individually under the guidance of a supervisor. Students and supervisors meet on a regular basis, either located (on-campus) or cloud (skype, phone and email). Students are responsible for the location and synthesis of knowledge and information resources that will produce their project outcomes using cloud and located resources and creative and critical methods

specific to their individual project. The unit guide, general resources relating to thesis writing, preparation and submission of the thesis, and information on higher degrees by research will be provided on CloudDeakin.

*Note:*

- 1. Students are required to complete the thesis (4 credit points) in a maximum of two trimesters and should contact Postgraduate Student Support if assistance with course planning is required*
- 2. There is no formal assessment requirement or an exit point providing a credit point for this unit. An XA result is recorded until the student has completed ALX722 Masters Thesis Unit A, ALX723 Masters Thesis Unit B, ALX724 Masters Thesis Unit C and ALX725 Masters Thesis Unit D*

## Assessment

The research project dissertation will be 18,000–20,000 words, or equivalent. This work will be completed over 4 units (ALX722, ALX723, ALX724, ALX725), 100%.

## ALX724 – Masters Research Project C

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Kristine Moruzi*

*Trimester 2 Unit Chair: Kristine Moruzi*

*Cohort rule: Must be enrolled in A764 course*

*Prerequisite: ALX705*

*Corequisite: Must be enrolled in or completed ALX723*

*Incompatible with: ALX720*

## Content

This 1 credit point unit is the third of the four Masters Thesis Units (A, B, C and D). The student will work with a supervisor to refine their research topic, locate and review relevant research literature, and present and receive feedback on draft work in progress. The content of this unit will be determined by negotiation between the supervisor and the student. The Masters Thesis project may take the form of a written thesis (18–20,000 words) or a creative work and exegesis (8000 words).

## Assessment

The research project dissertation will be 18,000–20,000 words, or equivalent. This work will be completed over 4 units (ALX722, ALX723, ALX724, ALX725), 100%

## ALX725 – Masters Research Project D

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Waurn Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Kristine Moruzi*

*Trimester 2 Unit Chair: Kristine Moruzi*

*Cohort rule: Must be enrolled in A764 course*

*Prerequisite: ALX705*

*Corequisite: Must have enrolled in or completed ALX724*

*Incompatible with: ALX720*

## Content

This 1 credit point unit consists of the completion phase of the Masters research project, and is the last of the four Masters Thesis Unit (A, B, C and D). The student will work with a supervisor to present and receive feedback on the final draft, and to revise, edit and prepare their thesis for submission. The content of this unit will be determined by negotiation between the supervisor and the student. The Masters Thesis project may take the form of a written thesis (18,000–20,000 words) or a creative work and exegesis (8000 words).

## Assessment

Dissertation (18,000–20,000 words) – 100%

*Scheduled learning activities – campus: 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 x 2 hour seminar equivalent*

## Content

This unit provides an introduction to a selection of theoretical, historical and philosophical perspectives and positions. Students will become familiar with a range of influential ideas pertinent to their discipline and acquire understanding of how historical, philosophical and theoretical discourses and concepts can be used as frameworks for analysis. Topics addressed in this unit may include theories of power, gender, creativity, language and literature in a range of historical and contemporary perspectives.

## Assessment

- Essay (2500 word count or equivalent) – 50%
- Essay (2500 word count or equivalent) – 50%

## ALX727 – Masters Research Theory B

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Antonia Pont*

*Prerequisite: Must have completed ALX705 and ALX726*

*Corequisite: Must be enrolled in A764*

*Incompatible with: AAR422*

*Scheduled learning activities – campus: 1 x 2 hour Welcome Seminar, 3 x 5 hour presentation to be confirmed, 7 x 2 hour Seminar (weeks 2, 3, 4, 6, 8, 9, 10).*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 3 x 5 hour presentation or equivalent and 1 x 2 hour seminar equivalent.*

*NB: Teaching will take place in a number of locations suited to the learning activities. This takes advantage of Deakin's broader teaching spaces and the special nature of this unit of study as preparation for Honours and Masters Thesis work.*

## ALX726 – Masters Research Theory A

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Helen Young*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in A764*

*Incompatible with: AAR412, AAR411, AAR712, ALL479, ALW492*

## Content

This unit is the companion unit of ALX726 Masters Research Theory A. It allows students to undertake an in-depth study of the genealogy of a theory or theoretical trajectory and to present and share their research with their peers. The focus of their study should be pertinent to their thesis but not its central topic, and it should contribute to the rigour of enquiry surrounding and supporting their main topic area. All students are required to contribute to, and participate in, the presentation practicals and seminars (or online equivalent).

*Note: Enrolments for this unit close on the Friday prior to Week 1 of trimester 2 in any year of offering.*

## Assessment

- Presentation Preparation Task & Quiz (750 words or equivalent) – 15%
- In-class or Online Video Presentation and Participation (2250 words or equivalent) – 45%
- Written Paper (2000 words or equivalent) – 40%

## AMC204 – 3D Character Animation

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Jack Parry*

*Prerequisite: one of ACM138, AMC102 or AMC228*

*Corequisite: Nil*

*Incompatible with: ACM240*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

## Content

Students explore character performance and animation with ready-made 3D computer characters. Whole body animation and facial animation are studied and applied to create short animations that consider a character's intention, goals and its expression of visible emotion and thought.

## Assessment

- Assessment 1 – Research essay (800 word equivalent) – 20%
- Assessment 2 – Folio of original works – 60%
- Assessment 3 – Research Journal (800 word equivalent) – 20%

## AMC228 – Building 3D Objects and Worlds

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Jack Parry*

*Previously: ACM138*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ACM138, ACM238, ADA102*

*Scheduled learning activities – campus: Trimester 1: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

## Content

This is an introductory 3D computer animation course, which provides students the technical and conceptual knowledge of how to build objects through modelling, texturing and surface properties. By creating objects and considering lighting and camera movements students will build a virtual world and animate it. Narrative will also be explored through the design and layout of virtual objects and animated spaces and how these, in themselves, can express an intriguing story.

*Note: Student enrolment quotas apply to this unit*

## Assessment

- Assessment 1 – Object Design – 20%
- Assessment 2 – Object – 30%
- Assessment 3 – Storyboard – 20%
- Assessment 4 – Animated Sequence – 30%

## AMC300 – Pre-Production and Project Pitch

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Dirk De Bruyn*

*Prerequisite: Two level 2 Animation units from A343 or A351*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Practical per week*

## Content

This is a project-based unit that brings together the tools and skills, developed from earlier units and integrates these elements at a more refined and professional level. Students develop and refine a pitch for an animation that they conceive from its beginning. They spend time researching and developing the concept, creating the soundtrack and storyboards, and then integrate these elements into an animatic which they then pitch. There is the option in this unit to then continue and create the animated production in a sequential unit.

## Assessment

- Assessment 1 – Proposal (800 word equivalent) – 20%
- Assessment 2 – Work in progress – 30%
- Assessment 3 – Pitch and Animatic – 50%

## AMC327 – Designing Animated Worlds

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne)*

*Trimester 3: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Simeon Taylor*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ACN203*

*Scheduled learning activities – campus:*

*Trimester 1: 1 x 3 hour Seminar per week*

*Trimester 3: Intensive for 5 weeks in November/December*

## Content

This unit explores how content creation technologies are used to build animated, graphic and photographic environments. The unit engages students in understanding how elements such as game engines, 'apps' and digital and analogue interfaces, animation and motion capture techniques are used to build and navigate animated design worlds. Students work individually and in groups to construct short animations designed for contemporary multi-platform delivery systems, informed by skills developed in earlier units. Themes include character and story development, the emergence of 'machinima' as a game-based creative art practice and the use of maps, mazes and labyrinths within the architecture of game worlds. This unit does not require knowledge of computer programming.

## Assessment

- Assessment 1 – Exercises – 40%
- Assessment 2 – Individual Animation – 20%
- Assessment 3 – Group Presentation – 40%

## AMC339 – Documentary Animation

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Dirk De Bruyn*

*Previously: ACM239*

*Prerequisite: One level 1 unit plus one level 2 unit from AMC or ACM coded units*

*Corequisite: Nil*

*Incompatible with: ACM239, AMC200*

*Scheduled learning activities – campus: 1 x 3 hour*

*Seminar per week*

## Content

Students produce a short individual and group animation based on pre-developed scripts and storyboards, grounded in actual contemporary and/or historic events. This project-based unit enlists personal, present-day or archival sound recordings incorporating the spoken word and expressing aspects of the identified historic or contemporary episode to be 're-animated'. Students utilise and enhance skills in archival research, character development and lip-sync in the emerging genre of documentary animation. The unit examines how animation is currently used to support and enhance traditional documentary forms of storytelling, and to communicate events for which there is no visible trace or record, tackling the contemporary dilemma of the 'truth' of the digital image. Students build on image documenting practices in response to the proliferation of 2D and 3D image manipulation and recording strategies now resident in digital media, to develop their own storytelling style and approaches, using a diverse range of animation techniques, with a special emphasis on recording, communicating or articulating real phenomena. Students will have access to digital SLR cameras to capture data in the field, taking animation out of the studio and into the street, recording real incidents and situations through time-lapse, pixilation and other surveillance strategies.

## Assessment

- Assessment 1 – Presentation of class exercises: group and individual storyboard presentation (equivalent 1200 words) – 30%
- Assessment 2 – Research essay (equivalent 1000 words) – 25%
- Assessment 3 (Group) – Project (equivalent 600 words) – 15%
- Project (equivalent 1200 words) – 30%

## AMC340 – Major Creative Project

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 2 Unit Chair: Dirk De Bruyn*

*Prerequisite: ACM327 or AMC300 and at least one level 1 ACM or AMC unit and two level 2 ACM or AMC units from within the A353 compulsory core units*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 4 hour*

*Seminar per week*

## Content

This unit follows from and completes creative work carried out in the first trimester unit AMC300 and forms the second half of a two-unit creative research and production module. Students will engage in professional creative production tasks involving (team) management principles, research methodology, project development, pre-production and production management on projects followed through to their realisation. Under staff supervision, students individually or in groups will develop their project from work already carried out in AMC300 (e.g. proposal, conception, research and planning) to full development and presentation in the form of a major project (short film). Peer review is an important part of the professional development of creative arts practitioners. Students are expected to work toward folio standards to produce a short film that could be accepted and screened in a number of industry contexts, such as an animation festival (e.g. MIAF). All students will present their final work in a formal screening context.

## Assessment

- Assessment 1 – Proposal (pitch) (5 minute oral presentation) – 20%
- Assessment 2 – Work in progress report (1600 word equivalent) – 20%
- Assessment 3 – Major creative project: presentation screening – 50%
- Assessment 4 – Post Production Script (800 word equivalent) – 10%

## APE101 – Create Your Own Career

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Waurin Ponds*

*(Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Alison Burns*

*Trimester 2 Unit Chair: Alison Burns*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: MWL101*

*Scheduled learning activities – campus: 1 x 2 hour*

*Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour*

*Class per week (recordings provided), 1 x 1 hour online*

*Seminar per week*

## Content

This unit introduces students to three key principles of professional development planning – how to identify, research and pursue their preferred career path and how to develop their employability and professional skills throughout their studies and working life. The self-awareness section works on identifying their strengths and weaknesses, what they want from work and how to find potential careers. The industry awareness sections mentors students through researching an industry by interviewing a professional their preferred field. The decision making section helps them identify steps they can take during their degree to improve their employability. The work integrated learning sections helps them to explore opportunities to undertake internships, volunteer, study overseas or travel to build their experience and skills. This is designed to prepare students who wish to undertake APE201 Individual Professional Project and APE202 Team Professional Project or any other internship units within their own degree

## Assessment

- Seminar exercises ((1600 words (4 x 400 words)) – 40%
- Report 1 (career interview and reflection), (1200 words) – 30%
- Report 2 (professional development plan), (1200 words) – 30%

## APE201 – Individual Professional Project

*Enrolment modes:*

*Trimester 1: Cloud (online)*

*Trimester 2: Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Tony Chalkley*

*Trimester 2 Unit Chair: Alison Burns*

*Trimester 3 Unit Chair: Tony Chalkley*

*Prerequisite: Students must have approval from the Unit Chair to enrol in this unit and must have completed*

*4 credit points*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Online independent and collaborative learning activities and 80–100 hours of experiential placement. No formal class attendance is required*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities and 80–100 hours of experiential placement. No formal class attendance is required*

## Content

This unit provides students with the opportunity to undertake an approved project in order to gain experience of an appropriate professional/workplace environment and awareness of the skills and attributes that are required to operate effectively in it. In consultation with the placement supervisor, students will develop a project proposal with clear activities, goals and outcomes. Once approved, students will then implement the planned project, documenting the key activities and milestones. Upon completion of the project, students will conduct an evaluation, assessing attainment of the goals and outcomes and identifying actions and opportunities for further professional development in order to enhance graduate employability.

Approval is subject to completion of an online application that includes a draft project proposal and the availability of suitable projects and supervisory arrangements.

## Assessment

- Research and Writing Exercise (1000 words) – 25%
- Journal (1000 words) – 25%
- Report (2000 words) – 50%

## APE202 – Team Professional Project

*Enrolment modes:*

*Trimester 1: Cloud (online)*

*Trimester 2: Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Tony Chalkley*

*Trimester 2 Unit Chair: Tony Chalkley*

*Trimester 3 Unit Chair: Tony Chalkley*

*Prerequisite: Students must have approval from the Unit Chair and must have completed 4 credit points*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: This unit will include 80–100 hours of project-related activities. No formal class attendance is required, but learning resources are provided.*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities. Students will participate in work experience as part of a small team.*

## Content

This unit provides students with the opportunity to undertake an approved group (2–6 members) project in order to gain experience of an appropriate professional/workplace environment, and awareness of the skills and attributes that are required to operate effectively in it and in a team. In consultation with the placement supervisor, students will develop a project proposal with clear activities, goals and outcomes. Once approved, students will then implement the planned project, documenting the key activities and milestones. Upon completion of the project, students will conduct an evaluation, assessing attainment of the goals and outcomes, reflecting on the experience of working in a team and identifying actions and opportunities for further professional development in order to enhance graduate employability.

Approval is subject to completion of an online application that includes a draft project proposal and the availability of suitable projects and supervisory arrangements. If APE201 has already been undertaken, the project cannot be in the same professional/workplace environment or on the same topic.

## Assessment

- Assessment 1 – Research and Writing Exercise (1200 words) – 30%
- Assessment 2 – Journal (600 words per student) – 15%
- Assessment 3 – Report (2200 words) – 55%

## APE301 – Professional Practice Internship

*Enrolment modes:*

*Trimester 1: Cloud (online)*

*Trimester 2: Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Tony Chalkley*

*Trimester 2 Unit Chair: Tony Chalkley*

*Trimester 3 Unit Chair: Tony Chalkley*

*Prerequisite: Students must have approval of the Unit Chair and have completed APE201 or APE202*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: This unit will include 100–160 supervised placement hours. No formal class attendance is required, but learning resources are provided.*

*Scheduled learning activities – cloud (online): This unit will include 100–160 supervised placement hours. No formal class attendance is required, but learning resources are provided.*

## Content

This unit provides students with an opportunity to undertake an internship with an approved organisation as a means to develop the student's ability to apply disciplinary knowledge, employ transversal skills in professional settings, and evidence attainment of graduate attributes that enhance future employment prospects and independent career planning.

Internship units are normally undertaken in third year (or equivalent) and enrolment is subject to completion of specified prerequisite units and special application requirements. Interested students should look at the Faculty Student Mobility website information ([deakin.edu.au/arts-ed/internships/](http://deakin.edu.au/arts-ed/internships/)) and are strongly advised to complete the pre-internship modules.

## Assessment

- Report (1000 words) – 20%
- Journal (1500 words) – 30%
- Final report (2000 words) – 40%
- Presentation (2 mins) – 10%

## ASC101 – Introduction to Sociology A

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrn Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Bernie East*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ASC201, ASC401*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 hour Class per week (recordings provided), 1 x 1 hour online Seminar per week*

## Content

The unit provides an introduction to sociology and introduces students to sociological concepts and theories in order to develop a sociological outlook. A main purpose of the study of sociology is to trace the relationship of the individual to the social world. This unit will take specific and familiar areas of interest for the beginning student, and through them develop ways of thinking sociologically. The unit will introduce students to some of the central questions asked by sociologists regarding the nature of society as a means of introducing students to the sociological perspective.

## Assessment

- Class/Online Exercises (1000 words or equivalent) – 25%
- Essay (1600 words) – 40%
- Examination (2 hours) – 35%

## ASC102 – Introduction to Sociology B

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Bernie East*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ASC202, ASC402*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1-hour Class per week (recordings provided), 1 hour online Seminar per week*

*IKE (CBD): Online independent and collaborative learning activities including fortnightly online workshops, as per Cloud (online) students' scheduled learning commitments. Students must also attend and participate in 2 x 5 day (10 days) intensives at the Institute of Koorie Education, Waurin Ponds (Geelong) Campus.*

### Content

This unit follows a module format wherein it addresses issues concerning sport, youth and deviance. By looking at trends including race and gender in sport, the impact of technology, work, and alcohol on youth, and examples of historical and contemporary deviance, students will develop an understanding of how these can be addressed sociologically. Importance is given to whether individual choice is the most significant determinant in outcomes or whether we are impacted by the structural influences in our lives.

### Assessment

- Class/Online Exercises (1000 words or equivalent) – 25%
- Essay (1600 words) – 40%
- Examination (2 hours) – 35%

## ASC206 – Sociology of Health

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Bernie East*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ASC209, ASC236, ASC306, ASC309, ASC336*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 hour Class per week (recordings provided), 1 x 1 hour online Seminar per week*

### Content

This unit involves an exploration of health across multiple dimensions. This includes a focus on the social patterns of health and illness, which focuses on describing and providing explanations for the differences between major social groups. The unit also addresses social groups in health care, which focuses on the development and current roles of several major occupational groups in the health care system. Social issues in health care, which provides a sociological perspective on a range of pressing health issues, is also a focus of this unit.

### Assessment

- Seminar/Online Exercises (800 words or equivalent) – 20%
- Essay (1600 words) – 40%
- Test (1600 words or equivalent) – 40%

## ASC210 – Youth Culture and Identity

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Bernie East*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour Class per week (recordings provided), 1 x 1 hour online Seminar per week*

## Content

This subject introduces major sociological approaches to youth. The emphasis on transition and culture respectively will focus on the experience of young people in the 21st century in relation to identity (digital and subcultural), family, school, work, relationships, and location. Students will integrate the various sociological approaches and review the impact of young people as consumers and citizens. Students will also evaluate the operations of globalisation and related inequalities on this group of social actors.

## Assessment

- Presentation (800 words or equivalent) – 20%
- Essay (2000 words) – 50%
- Test (1200 words or equivalent) – 30%

## ASC211 – Religion and Social Change

*Enrolment modes: Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Anna Halafoff*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): 1 x 1 hour Class per week (recordings provided), 1 x 1 hour online Seminar per week*

## Content

Religion was catapulted into the public mind at the turn of the 21st Century, following the tragic events of September 11, 2001. Religions have long played a role in promoting both cultures of peace and cultures of violence. Notable examples include religiously inspired social movements such as Gandhi's Satyagraha movement in India, the Civil Rights movement in the USA, and the global multifaith movement. From the 1970s onward, due to processes of globalisation, many societies have also become increasingly religiously diverse and everyday religion and spirituality continue to play a role in many people's lives.

All of these factors have led to a questioning of secularisation theory, which had predicted the decline of religious influence from public and political life. More recently, however, the rise of New Atheism, the public scrutiny of religious organisations and an increasing number of people declaring themselves to have no religious affiliation indicates that those who were quick to declare a new post-secular age may have been mistaken. This Unit will explore and critically evaluate the current state of religion in society, and the role of religious movements in social change, both peaceful and violent.

## Assessment

- Essay (1000 words) – 25%
- Presentation (1000 words) – 25%
- Report (2000 words) – 50%

## ASC233 – International Migration and Multicultural Societies

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrn Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Vince Marotta*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ASC333, ASC433, ASC633*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour Class per week (recordings provided), 1 x 1 hour online Seminar per week*

## Content

In examining social issues and processes of profound importance in today's world, this unit focuses on international migration in a globalising world and the consequent effects of the mixing of different peoples. Migratory processes and the motivation to migrate are investigated in terms of global economic, cultural and political linkages. The unit adopts a comparative approach in understanding the impact that migration has had on western and non-western countries. It delves into and scrutinizes some of the issues arising from international migration: such as racism, the plight of refugees, our understanding of citizenship, the impact of religious diversity, inter-culturally and multiculturalism. In addition, the unit examines constructions of national identity and ethnicity arising from migration.

## Assessment

- Class/Online Exercises (1200 words or equivalent) – 30%
- Class/Online Exercises (800 words or equivalent) – 20%
- Essay (2000 words) – 50%

## ASC250 – Contemporary Social Research

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Andrew Singleton*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ASC161, ASC350, ASC450, ASC461*

*Scheduled learning activities – campus: 1 x 2 hour Class per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour online Seminar per week*

## Content

The unit enables students to explore different modes of social science research. It comprises:

1. Key concepts in social research, including research design, ethics and sampling
2. Qualitative and ethnographic approaches, including in-depth interviews, participant observation and data analysis
3. Social surveys, including survey design, sampling, data analysis and reporting

## Assessment

- Report (2000 words) – 50%
- Report (2000 words) – 50%

## ASC287 – Love, Sex and Relationships

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Bernie East*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ASC387, ASC487*

*Scheduled learning activities – campus: Burwood & Waurin Ponds: 1 x 1 hour Class per week, 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour Class per week (recordings provided), 1 x 1 hour online Seminar per week*

## Content

In the last quarter of the 20th century, major shifts in the structure of families have occurred in Australia and other Western countries. A number of trends such as changes to fertility rates, rates of marriage, remarriage and divorce and the growth of single households have had a major impact on the composition of families and the recasting of intimate relationships.

As a consequence there is now a great deal of diversity in people's living arrangements.

The unit comprises four modules which focus upon unheralded changes in the definitions of families, sexuality and caring relationships in the context of the sociological imagination, sociological theories of gender and relationships, sexuality and emotion and the blurring of public/private boundaries in everyday life.

## Assessment

- Essay (1600 words) – 40%
- Seminar/Online Exercises (800 words or equivalent) – 20%
- Test (1600 words or equivalent) – 40%

## ASC304 – Culture and Control: Boundaries and Identities

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrn Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Grazyna Zajdow*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ASC204, ASC263, ASC404*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour Class per week (recordings provided), 1 x 1 hour online Seminar per week*

*IKE (CBD): Online independent and collaborative learning activities including fortnightly online workshops, as per Cloud (online) students' scheduled learning commitments. Students must also attend and participate in 2 x 5 day (10 days) intensives at the Institute of Koorie Education, Warrn Ponds (Geelong) Campus.*

### Content

This unit deals with the sociological issues related to deviance and social control in two ways. One approach involves examining theories of social control and the construction of marginal identities as these relate to conceptions of culture and the social world. The concepts will also be examined as powerful assumptions in changing professional practice. The second approach includes in-depth case studies which illustrate the various theoretical issues. These case studies include such topics as prisons and punishment, homelessness, women and medical science, madness, and drug and alcohol use and abuse.

### Assessment

- Seminar/Online Exercises (1000 words or equivalent) – 25%
- Essay (1000 words) – 25%
- Essay (2000 words) – 50%

## ASC308 – Social Theory Rewired: Power, Passion and Post Humanism

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Vince Marotta*

*Prerequisite: ASC101, ASC102*

*Corequisite: Nil*

*Incompatible with: ASC203, ASC408*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour Class per week (recordings provided), 1 x 1 hour online Seminar per week*

### Content

Many sociologists envisage advanced societies entering a new phase, the transition from modernity to postmodernity. This unit examines theories of modern and postmodern societies. A range of illustrative social developments are studied through which the student will be able to:

- develop critical thinking through analytical and conceptual thought;
- practice interpretation of theoretical texts;
- demonstrate reasoned points of view;
- design and produce critical and evaluative written work;
- locate social theory within contemporary issues and critically evaluate its place in political and democratic traditions.

### Assessment

- Class/Online Exercises (600 words or equivalent) – 15%
- Essay (2000 words) – 50%
- Test (1400 words or equivalent) – 35%

## ASC320 – Sex, Crime and Justice in An Electronic Age

*Enrolment modes: Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Grazyna Zajdow*

*Prerequisite: At least eight credit points towards your degree*

*Corequisite: Nil*

*Incompatible with: ASL320*

*Scheduled learning activities – cloud (online): 1 x 1 hour online Seminar per week*

### Content

This fully on-line unit will explore the way that electronic modes of communication and the emergence of virtual communities are transforming the way we live. This unit examines issues such as the presentation of the self in virtual networks, social relations online, new forms of criminal behaviour and the regulatory responses to these developments. Importantly, the techniques of social science research and theory will be used to evaluate and understand these developments. This unit will enable students to research the area and critically enhance their capacity to understand how virtual forms of communication and interaction raise new dilemmas for the study of crime and justice, social relations and identity. A range of disciplines (sociology, criminology and gender studies) are used to understand these changes and provide the means to actively participate in deliberation on how living in the electronic age produces both continuity and change to our sense of self, society and space.

*Note: While this unit will discuss the social changes around sexual identity and the internet, as well as sex crimes on the net, students will not be required to, nor be able to, access internet pornography sites. University policy clearly states that users of university servers are prohibited from accessing pornographic or other such sites and the unit team thoroughly endorses this policy.*

### Assessment

- Journal (1200 words) – 30%
- Report (2000 words) – 50%
- Quiz (800 words or equivalent) – 20%

## ASC346 – Media, Stories and Power

*Enrolment modes: Not offered 2019, re-offered Trimester 1 2020*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ASC246, ASC446*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour Class per week (recordings provided), 1 x 1 hour online Seminar per week*

### Content

Employing a variety of theoretical perspectives, the unit analyses the social, cultural, economic and political features of mass media. These paradigms are approached from a specifically sociological perspective covering various aspects of the media industries, texts, audiences and newer technologies. Topics include:

- Is the media just 'big business'?
- Can the media influence people's attitudes and behaviour?
- Do advertisements work?
- Is the news factual?
- Why are soap operas so popular?
- Has the media enhanced citizenship and democracy?
- Will the Internet be a liberating technology?

### Assessment

#### Campus:

- Essay (1600 words) – 40%
- Class Exercises (800 words or equivalent) – 20%
- Test (1600 words or equivalent) – 40%

#### Cloud (online):

- Essay (1600 words) – 40%
- Quiz (800 words or equivalent) – 20%
- Test (1600 words or equivalent) – 40%

## ASP109 – Freedom and Power: Existentialism and Beyond

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Patrick Stokes*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ASP209*

*Scheduled learning activities – campus: 1 x 1 hour Class per week and 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1-hour Class per week (recordings provided), 1 x 1 hour online Seminar per week*

### Content

Over the course of this unit, students will develop specific knowledge of some of the key ideas in French existentialist philosophy. The philosophies of Camus, Sartre, and de Beauvoir will be given particular attention, focusing on their views of freedom, anguish (or anxiety), mortality, authenticity, and value. In conclusion, we look at some subsequent objections to their views concerning the role of power in our lives.

### Assessment

- Quizzes – 20%
- Essay 1 (1500 words) – 40%
- Essay 2 (1500 words) – 40%

## ASP129 – Love, Sex and Death

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Patrick Stokes*

*Trimester 3 Unit Chair: Petra Brown*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ASP229, ASP329*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour Class per week (recordings provided), 1 x 1 hour online Seminar per week*

### Content

This unit consists of three modules. The first is a philosophical exploration of the concept of love in its various forms: romantic love, family love, friendship, and divine love. Our focus will be on romantic love. The second module explores sexuality, its place in a well-lived life, and the moral concepts that have grown up around it. Related social issues such as pornography and homosexuality are also discussed. We will also debate same-sex marriage. The third module explores death as an existential issue for the living of life, medical definitions of death and ethical issues related to killing such as abortion and euthanasia. The notion of life after death is also explored.

### Assessment

- Assessment 1 (Group) – Group Assignment – 20%
- Essay (1500 words) – 40%
- Essay (1500 words) – 40%

## ASP208 – Introduction to Logical Reasoning

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Cathy Legg*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ASP308*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour Seminar per week (recordings provided)*

### Content

The capacity to evaluate and construct arguments is an invaluable skill across all disciplines, including philosophy, politics, science, law, business and media. This unit provides an introduction to the principles of critical thinking and reasoning. Students will learn a range of critical thinking techniques, including how to detect common reasoning errors and construct sound arguments, with a focus upon practical applications and a view to the benefits that these skills have beyond the university as well as in academic contexts.

The later weeks of the unit explore some of the theory behind valid argumentation by teaching some introductory tools of analysis in formal logic (covering basic elements of both propositional and predicate logic). This unit will therefore be of interest to students of philosophy, as well as many other disciplinary areas.

### Assessment

- Quizzes (1000 words) – 25%
- Research and Writing Exercise x 2 (500 words each) – 12.5% each
- Examination (2 hours) – 50%

## ASP210 – Plato and Nietzsche

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Sean Bowden*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ASP105, ASP213, ASP313, ASP307, ASP405*

*Scheduled learning activities – campus: 1 x 1 hour Class, 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): Cloud (online) 1 x 1 hour Class per week (recordings provided), 1 x 1 hour online Seminar per week*

### Content

The unit will explore the very beginnings of the Western philosophical tradition in the work of Socrates as described by Plato in about 400BCE. Plato raises issues about the nature of ultimate reality and its importance for our moral and social lives. He describes how Socrates was put to death for teaching philosophical ideas that challenged the authority of tradition. For his part, Nietzsche, in the late 19th century, challenged the hegemony of the philosophical tradition that Plato inaugurated and asked us to accept the stresses of human life without recourse to metaphysical consolations.

### Assessment

- Assessment 1 (Group of 3–4 students) – Group Presentation (800 words or equivalent) – 20%
- Research and Writing Exercise (1200 words) – 30%
- Essay (2000 words) – 50%

## ASP214 – Justice and Equality

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*Trimester 1 Unit Chair: George Duke*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ASP314, ASP319, ASP320, ASP414*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour Class per week (recordings provided), 1 x 1 hour online Seminar per week*

### Content

This introduction to political philosophy will provide an overview of a number of contemporary views regarding justice, liberty, equality, and democracy. In particular, the unit will involve a detailed consideration of Marxism, Utilitarianism, Liberalism, Libertarianism, Communitarianism, and Discourse Ethics.

### Assessment

- Class/Online Exercises (600 words) -15%
- Research and Writing Exercise (1000 words) -25%
- Essay (2400 words) – 60%

## ASP215 – Philosophy, Happiness, and the Good Life

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), CBD\*, Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Matthew Sharpe*

*Prerequisite: Any first year Arts unit*

*Corequisite: Nil*

*Incompatible with: ASP213/313, ASP315, ASP415*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour online Seminar per week*

## Content

In this course, we look at some basic life questions everyone faces: what is happiness, and how do we attain it? Is pleasure the goal of life? Is fame the best thing to aspire to? Is strength of character enough to be happy, or do we need good luck? Should we moderate, or try to conquer emotions like anger? Is it ever right to lie? Is altruism the key to a good life, or pursuing self-interest? Each week, competing answers to these questions are examined, and students are prompted to engage with a host of the most important Western philosophers: Socrates, Aristotle, the Stoics, Cicero, Epicureanism, Natural Law, Hume, Kant and utilitarianism.

*Note: \*CBD refers to Institute of Koorie Education; Community Based Delivery*

## Assessment

*Burwood: 1 x 1 hour Class per week, 1 x 1 hour Seminar per week*

*Geelong: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour Class per week (recordings provided), 1 x 1 hour online Seminar per week*

## Content

This course will introduce you to the core ideas of psychoanalysis, and consider how theory continues to cause and shape debates about the world we live in today.

Module 1 examines over seven weeks the key psychoanalytic theories of Sigmund Freud and Jacques Lacan, two of the most influential thinkers of the last 100 years. You will learn about Freud's theories of slips, dreams, sexuality, and the unconscious; and Lacan's ideas of the imaginary, symbolic, and Real.

Module 2 then critiques and applies psychoanalytic theory to questions surrounding science, feminism, the rise of populism today, and contemporary popular culture and social media.

### Content

This unit consists of three modules. The first explores a number of issues in the philosophy of film, such as the nature of film and its status as an artform, the distinct kinds of experiences film provides us with, and whether film can 'do' philosophy and in what sense. The second module focuses on some modern philosophical approaches to art and aesthetic experience and addresses issues such as the nature of beauty and the sublime, the transformative power of art, and the relation between art and truth. The third and final module explores the relation between art and politics in the work of several contemporary philosophers.

- Quiz (800 words or equivalent) – 20%

## ASP263 – Buddhist Studies in India

*Enrolment modes: Trimester 3: Study Tour\**

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Leesa Davis*

*Prerequisite: One unit from: ASR100, ASC211, ASP227, ASR205 and ASR207. Students can enrol only after being accepted into the study tour. Please note that study tour units may not run each year. Enrolment is always subject to a selection process and approval by the Unit Chair as places are limited. Therefore students should always identify another unit as an alternative to a study tour unit when planning their course or major.*

*Corequisite: Nil*

*Incompatible with: Nil*

*In-person attendance requirements:*

*Pre-departure:*

*Whole day pre-departure workshop/information session*

*CloudDeakin module Introduction to Tibetan*

*Buddhism and Culture*

*Three x 2 hour pre-departure seminars on*

*Buddhist philosophy*

*In India: Classes, Seminars 3 weeks of 5 days, 5 hours per day, plus additional cultural programs.*

## Content

An intensive experiential introduction to Buddhist philosophy, Tibetan Buddhist hermeneutics and Tibetan history and culture. Students study at the Central Institute of Higher Tibetan Studies (CIHTS) and are taught by staff of that institute. Lectures on Tibetan politics, art, music and medicine are also given; and students participate in various ancillary activities, including Indian cultural programs, tours of Varanasi and travel to important Buddhist and Hindu sites in India. Each student is assigned a student colleague drawn from the student body of CIHTS who will help in acculturation and give a 'student's eye view' of Tibetan culture.

*Note: \*Not offered 2019, re-offered 2020 subject to School approval. Contact the Work Integrated Learning (WIL) team for queries: ARTSED Work Integrated Learning.*

## Assessment

- Online Exercises (1000 words) – 25%
- In-country Journal and Test (2000 words) – 50%

## ASP309 – 20th Century French Philosophy

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrn Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Sean Bowden*

*Prerequisite: Must have passed at least one ASP-coded level 2 unit*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): Cloud (online) 1 x 1 hour Class per week (recordings provided), 1 x 1 hour online Seminar per week*

## Content

The unit will explore the rich period of philosophy that emerged from France in the 20th century. Students will come to grips with the work of philosophers such as Bergson, Canguilhem, Foucault, Deleuze, Derrida and Cixous. In doing so, students will come to understand the diverse philosophical views produced in 20th century France as unified by a concern to articulate a relationship between 'life' and 'thought'.

Finally, students will be asked to reflect on the ways in which the relation between life and thought remains a concern for philosophy, and to themselves engage with this problematic.

## Assessment

- Seminar/Online Exercises (400 words or equivalent) – 10%
- Assessment 2 (Group of 4–5 students) – Group Assignment (1400 words or equivalent) – 35%
- Essay (2200 words) – 55%

## ASP326 – Language and Reality

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Cathy Legg*

*Prerequisite: Must have passed at least one ASP-coded level 2 unit*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour Seminar per week (recordings provided)*

## Content

Do we ever really know what someone else's words mean? How does language "hook onto" the world? What is the connection between language and truth? Do different languages create different realities? If humans are distinguished from other animals by the way we use language, as many believe, how does this work, exactly? In addressing these questions, this unit will explore some influential theories about language developed by twentieth century philosophers, many of whom famously foregrounded philosophy of language as the gateway to all other philosophical problems. Focusing on key figures such as Frege, Russell, Wittgenstein, Gadamer, Rorty, Brandom and Habermas, this unit will critically examine some of philosophy's recent contributions to the understanding of language and communication.

## Assessment

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 scheduled online seminar per week.*

### Content

This unit introduces students to the major 'world religions': Hinduism, Buddhism, Judaism, Christianity and Islam. The unit explores these religions by looking at their historical development, basic ideas, practices and sacred texts. In addition, students are introduced to a range of philosophical issues that arise within these religious traditions, such as: karma and rebirth; the relation between self and world, and self and God; different conceptions of God; and different conceptions of salvation or liberation.

*Note: Previously coded ASP102*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Class per week*

*Scheduled learning activities – cloud (online): 1 hour class per week (recordings provided), 1 x 1 hour online seminar per week*

### Content

This unit examines contemporary trends in spirituality and religion (including New Religious Movements, no religion, and world religions) and how these find expression in the global digital age. It also examines how popular culture – supernatural and magical movies, books, TV – is implicated in the experience of religion and spirituality, particularly among young people. The unit is informed by theories of secularisation, re-enchantment, cultural appropriation, the network society, globalisation and gender.

*Scheduled learning activities – campus: 1 x 2 hour Class per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 scheduled online seminar per week.*

## Content

Buddhism is a complex, multi-dimensional religious tradition that is far more diverse in philosophies, doctrines and practices than is generally realized. Buddhism is perhaps also unique amongst World Religions in that many of its core ideas, practices, and spiritual understandings have been taken out of their traditional religious contexts and adapted, appropriated, and employed in secular and non-religious contexts.

This unit introduces students to the rich tapestry of traditions, doctrines, and practices that are found throughout the Buddhist world: both in their traditional and modern expressions. In the traditional contexts we look at the “how” of Buddhist practice by exploring diverse meditation practices and their accompanying philosophical underpinnings. In modern expressions we look at how adaptations and appropriations of ancient Buddhist practices such as “mindfulness” have fed into contemporary adaptations of “engaged Buddhism” and “eco-dharma” and how these ideas are impacting on modern worldviews and ideas of “well-being”. We also consider other contemporary expressions of Buddhism such as secular Buddhism, agnostic Buddhism, and atheistic Buddhism.

Students will have the optional opportunity to experiment with Buddhist meditation practices such as insight meditation and Zen meditative techniques.

*Scheduled learning activities – cloud (online): 1 hour class per week (recordings provided), 1 x 1 hour online seminar per week*

## Content

The questions of gender and sexuality in Islam have for a long time been a points of contestation both within Muslim communities in their country of origin and in the West. This unit will provide an entry point into these debates and look to give students a firm grounding of the key issues as they pertain to Islam, gender and sexuality. It will begin with an exploration of the key texts (Qur'an & Sunna) and the different ways that these are interpreted across the Muslim world to define the roles of men and women and their relationship with God. Alongside this, the unit will survey a range of key debates, such as Islamic feminism, gender justice, women's leadership and homosexuality. The unit will also include the exploration of Muslim masculinities and how changes in this space are impacting gender dynamics in Islam.

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 scheduled online seminar per week.*

## Content

The popularity of Tibetan Buddhism in the West, advocated by celebrities such as Richard Gere, raises interesting questions about the appeal of this particular “religion”. Concurrently, a rising trend in practices grounded in Tibetan Buddhism, such as meditation and mindfulness, are distinctly presented as “not-religious”. What is Tibetan Buddhism, and how can we begin to further understand the complexities of this conceptual and practical system, with its distinct history, culture, language and philosophy?

In this unit, Tibetan Buddhism is presented according to two broad approaches: the first, which sets a general introduction to the unit, is trans-disciplinary and includes an exploration of historical adaptations of Buddhism in Tibetan regions and philosophical underpinnings to the various traditions of Tibetan Buddhism, among others. The second focuses on the ethnography of Buddhism in Tibetan cultural areas and beyond. By examining rich and in-depth cultural and symbolic practices of Tibetan Buddhism and highlighting the complexities of this continually adapting system, we develop critical insights on the nature of “religion” in Tibetan cultural areas and compare these with adopted practices in supposedly secular societies.

Note: Commencing 2019

### Content

Islam is often presented in the media and in some academic discourses as a monolith; a notion that has taken on increased currency since the advent of 9/11, which popularised Samuel Huntington’s ‘Clash of Civilisations’ thesis. This unit will look to dispel this misconception by introducing students to the many ‘houses’ of Islam around the world and the significant variations that abound with regards to how Islamic tradition is interpreted and applied in contemporary societies. In doing so, the unit will explore topics such as Islamic liberalism, jihad, extremism, shari’a, sectarianism, and Sufism.

It will critically analyse how these concepts are incorporated into the socio-political scene in different Muslim countries and minority contexts. The unit also includes key approaches to the study of Islam.

## ASR300 – Religion, Rights and Governance

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Anna Halafoff*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class (recordings provided), 1 x 1 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour Class (recordings provided), 1 x 1 hour Online Seminar (recordings provided) per week*

### Content

Religion has played a prominent role in the public sphere in the last two decades due to processes of globalisation and mediatisation. Societies are increasingly religiously diverse and non-religious, largely as a result of widespread movement of people, and global media is increasingly shaping our societies and influencing public policies. In addition, religion has frequently been the subject of public debate and concern regarding issues of radicalisation, values, gender equity and environmental risks. This unit examines the nexus between religion, rights, and governance, through the study of theories of managing and governing religious diversity. These theories will then be applied to a range of public policy issues pertaining to religion and education, sexuality, animal rights and countering extremism in and beyond Australia.

*Scheduled learning activities – cloud (online): 1-hour class per week (recordings provided), 1-hour online seminar per week*

### Content

Anthropology asks the ultimate question for human beings: what does it mean to be human? Because of this, anthropology is the science that must understand both the physical and the metaphysical dimensions of human existence: how we both create and relate to our environment. The subject commences with an examination of the foundational issues for anthropologists including the nature of human culture, the nature of humans as an evolved species, and the critical importance of human rationality and belief. Examples of human societies and cultures are drawn from Africa, Asia, Europe, the Americas, Australia and the Pacific.

*Scheduled learning activities – campus: 1 x 1-hour class per week, 1 x 1-hour seminar per week.*

*Scheduled learning activities – cloud (online): 1-hour class per week (recordings provided), 1-hour online seminar per week.*

### Content

ASS102 continues the introduction to Anthropology commenced by ASS101, but can be taken first by mid-year commencing students. The subject examines other foundational issues for anthropologists including the relationship between violence and conflict and the human social order and the complexity of human communication in such diverse areas of human practice as symbolic communication, belief systems and myth and ritual. Examples of human societies and cultures are drawn from Africa, Asia, Europe, the Americas, Australia and the Pacific.

## ASS203 – Being Human (With the Nonhuman)

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Gillian Tan*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1-hour class per week, 1 x 1-hour seminar per week*

*Scheduled learning activities – cloud (online): 1-hour class per week (recordings provided), 1-hour online seminar per week*

### Content

This unit introduces students to the various ways that “being human” is understood and experienced among different groups of people, particularly in their classifications of, and relationships with, nonhumans, such as animals and deities. A framework of what it means to be human often presupposes a certain definition of consciousness. For the most part, this is predicated on the subjective “I” and a corollary understanding of the individual. But is this framework universal? How do people in non-modern societies, for example, convey what it means to be human? This unit explores the multiple ways of “being human” and suggests that one articulation reveals itself through relationships with nonhumans. By examining how nonhumans are included into society – through kinship structures, for example – and the implications on notions of personhood and consciousness, this unit opens up the possibilities of what it means to be human while simultaneously clarifying its scope.

*Scheduled learning activities – cloud (online): 1-hour class per week (recordings provided), 1-hour online seminar per week.*

### Content

For the first time in human history, more people live in cities than outside of them. Cities around the world swell and transform. New ones spring up virtually overnight. The anthropology of the twenty-first century, therefore, must be an urban anthropology. Meanwhile, these transformations in habitation and migration reflect a sea shift in global economies and political systems with parallel implications for diverse people in far-flung corners of the world. New kinds of cities emerge to reflect this shared landscape, from sleek financial centres to cosmopolitan postcolonial crossroads to industrial megalopolises. An urban anthropology, therefore, must be an anthropology of global connectedness. This unit will explore the intersection of these two approaches.

We will ask a range of questions. What are cities and how are they constructed, socially and materially? How do urban environments remake everyday life, and vice versa? How does space become place? How do cities facilitate the comings and goings of people, things, and ideas around the world? The unit will feature the work of anthropological researchers, urban ethnographers, and other social scientists who have wrestled with these questions. In addition, students will conduct their own experiential research in their own urban environments.

*Scheduled learning activities – cloud (online): 1-hour class per week (recordings provided), 1-hour online seminar per week*

### Content

According to the World Health Organisation, poverty is the most powerful and dangerous disease in the world today. Its presence cannot be dissociated from global epidemics such as HIV/AIDS or from violence including ethnic and racial as well as gender violence. The alleviation of poverty remains the key problem for global action and human development. In this unit, students learn about how anthropologists analyse poverty and apply their knowledge to remedial action in the global environment. Topics include the culture of poverty, the history of the concept of poverty, the causes of poverty and also its effects. Students learn how anthropologists engage with global organisations such as the WHO, the UN and other non-government organisations committed to development and the eradication of poverty. The global development industry is examined critically as an aspect of contemporary capitalism and world trade that has generated certain discourses such as relative deprivation, sustainable development and the Human Development Index in its attempts to understand poverty as a global phenomenon consisting of local and varied instances.

## ASS206 – Medical Anthropology

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: David Giles*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ASS306*

*Scheduled learning activities – campus: 1 x 1-hour class per week, 1 x 1-hour seminar per week.*

*Scheduled learning activities – cloud (online): 1-hour class per week (recordings provided), 1-hour online seminar per week*

### Content

The study of human knowledge systems in the area of health and illness lies at the heart of anthropology as a whole. Medical anthropology is thus central to the discipline and is also a major point of articulation between anthropology and other sciences. In this unit, students will learn the key concepts and approaches in medical anthropology through both the study of non-western medical knowledge systems as well as the study of western medicine, or biomedicine, as a distinctive cultural system. Through detailed case studies of different medical phenomena and how humans act in relation to these phenomena, students will examine health and healing from a cross-cultural perspective. Fundamental concepts such as the division between mind and body, the idea of disease pathology, plural medical systems and culture-bound syndromes will be examined. Special emphasis is given to studying developing or third world contexts where disparities in wealth and resources impact upon health.

## ASS233 – Myth and Ritual

*Enrolment modes: Trimester 2\*: Burwood (Melbourne), Warrn Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Rohan Bastin*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1-hour class per week, 1 x 1-hour seminar per week.*

*Scheduled learning activities – cloud (online): 1-hour class per week (recordings provided), 1-hour online seminar per week*

### Content

An introduction to the anthropology of religion. The unit examines the comparative study of cosmology, myth and ritual systems and their importance in the history of anthropological thought. The unit focuses predominantly on forms, recurrent themes and cross-cultural comparisons of myth. Through the analysis of creation myths, eternal return, and the concept of mythical archetypes such as trickster and hero, the unit critically evaluates different theoretical approaches centring on concepts of mythical thought and the human unconscious. Attention then shifts to the nature of ritual and to the relationship (or not) between ritual and myth. Themes explored include sacrifice, ritual time (and eternal return), life crisis, festival and performance, trance and ritual virtuality. Through the study of these phenomena the unit concludes with some initial propositions concerning anthropology and religious experience.

## ASS234 – Environmental Anthropology

*Enrolment modes: Trimester 1\*: Burwood (Melbourne), Warrn Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Tanya King*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1-hour class per week, 1 x 1-hour seminar per week.*

*Scheduled learning activities – cloud (online): 1-hour class per week (recordings provided), 1-hour online seminar per week*

### Content

The unit explores the intersections that occur between philosophy, public policy and the 'natural environment' in different cultural settings. Beginning with an historical account of the development of philosophical attitudes towards the 'natural environment', the course proceeds to consider shifts in cultural and utilitarian relationships to the environment, and concludes with a discussion of contemporary issues in natural resource management and environmental policy. While an important focus is on current trends in environmental philosophies and policies, close attention is given to the lived experiences of those involved in environmental issues, including indigenous groups, primary producers (farmers, fishers), scientists, natural resource managers and policy makers. This unit thus offers a philosophically informed, yet practically grounded perspective for those studying environmental management, those interested in broad, philosophical debates about the environment, as well as those with a general interest in environmental issues. Practical examples will be drawn from different parts of the world.

*Note: \*Offered in Trimester 2 only in 2020*

## ASS329 – Anthropology of Crime and Violence

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: David Giles*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ASS229*

*Scheduled learning activities – campus: 1 x 1-hour class per week, 1 x 1-hour seminar per week.*

*Scheduled learning activities – cloud (online): 1-hour class per week (recordings provided), 1-hour online seminar per week.*

### Content

Violence and crime, their forms and controls, are fundamental to human social existence and are central to theories regarding the nature of humanity, society and the state. The anthropology of crime and violence addresses these points from a comparative cross-cultural perspective. Emphasis is given to the situational nature of violence and human conflict with case studies of warfare, state-based violence, sexual violence, genocide and ethnic conflict. A key proposition in this subject is that attempts to define human violence as an aspect of a transcendental human nature -- an element of humanity as a whole -- tend to conflate specific instances with laboratory-like definitions. Instead, the unique social, cultural and historical situations must be grasped in all their complexity before we can generalise about the nature of human types. In the same way, the issue of what constitutes crime in a cross-cultural framework must commence with a broad grasp of the social and cultural context.

## ASS330 – Cyborg Anthropology

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Roland Kapferer*

*Previously: Human Possibilities in the Age of Digital Communication*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1-hour class per week, 1 x 1-hour seminar per week.*

*Scheduled learning activities – cloud (online): 1-hour class per week (recordings provided), 1-hour online seminar per week*

### Content

The contemporary revolution in digital information and communication technologies has transformed the worlds of human experience and interaction. Recent social movements and popular uprisings are also increasingly mediated through digital technologies and this has led to ongoing debates concerning the regulation and governance of the Internet. In this unit, students will be introduced to anthropological perspectives that engage these issues. What do new technological discoveries and the interaction of embedded technologies tell us about human beings of today? How are human beings imagined and how is human potential being reconceived in the digital age? What will human beings look like and how will they behave in the future? This course will open up new and exciting ways of thinking about the nature of human being in the context of rapid technological and cultural change, as well asking how human experiences of love, death, culture, gender, identity, community, the body, mind, work and leisure are being transformed in the context of new technologies. Cyborg anthropology is about the world transforming event of modern technological development – it is about the new beings that human beings are becoming.

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 scheduled online seminar per week.*

### Content

This unit addresses the subject of poverty in the contemporary world and introduces students to anthropological perspectives on the cross-cultural and local dimensions of this complex social and economic issue. In this unit, students learn about the ways in which anthropologists analyse poverty and how they apply this knowledge critically towards effective remedial action in the global environment. In particular, the unit emphasizes the distinctive approaches that anthropologists bring to this field of study, and how these perspectives both complement and diverge from other approaches (e.g., development studies, aid intervention, and activism).

Topics include the culture of poverty, the history of the concept of poverty, the causes of poverty and also its effects. Students will explore how anthropologists engage with global organisations such as the WHO, the UN and other non-government organisations committed to development and the eradication of poverty. The global development industry is examined critically as an aspect of contemporary capitalism and world trade that has generated certain discourses such as relative deprivation, sustainable development and the Human Development Index in its attempts to understand poverty as a global phenomenon consisting of local and varied instances.

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 scheduled online seminar per week.*

### Content

The study of human knowledge systems in the area of health and illness lies at the heart of anthropology as a whole. Anthropologists seek a holistic understanding of what constitutes health and illness in various societies, belief about the workings and causes of disease, approaches to remedies and cures, understandings of the body, the role of economic, political, spiritual and other social factors in relation to the health of individuals and societies. Appreciating the diversity of approaches to health and illness is key to the role of medical anthropologists and this branch of the discipline forms a major point of articulation between anthropology and other sciences. In this unit, students will learn and critique key concepts and approaches in medical anthropology, as well as anthropological debates in the field, through both the study of non-western medical knowledge systems as well as the study of western medicine, or biomedicine, as a distinctive cultural system. Through detailed case studies of different medical phenomena and how humans act in relation to these phenomena, students will examine health and healing from a cross-cultural perspective. Special emphasis is given to studying developing world contexts where disparities in wealth and resources impact upon health.

### Content

This unit introduces students to the sociological analysis of contemporary sport. It focuses on key trajectories in both traditional professionalised sports (e.g. basketball, football, cricket) and emerging lifestyle sports and pastimes (e.g. parkour, roller derby, gaming) in Australia and internationally. The unit draws on sociological theories and research on sports celebrities, sport audiences, sport media, sports administration, corruption, gambling, race, gender and globalisation to understand and explain these patterns.

## AST256 – Sport in History

*Enrolment modes: Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Tony Joel*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: AIH256, AIH356, AIH456, AIJ203*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 5 x 2 hour scheduled online seminars*

### Content

Are Australians peculiar in their interest in sport? The unit studies the evolution of sport since classical times, and its different roles in society over time. Major changes in forms of sport are examined in relation to political, social, cultural, religious, and economic developments in society. Theories and interpretations of sport's role in society throughout history are examined, taking into consideration issues including class, gender, ethnicity, and power. Information and case studies are drawn from a diverse range of sports and countries, with students offered a chance to pursue particular interests. By the completion of the unit, you should know whether sport is only a game.

*Note: Bachelor of Arts course elective in the History major*

### Assessment

- Quiz (400 words) -20%
- Essay (1800 words) – 40%
- Presentation (1800 words) – 40%

## EAA301 – Personalising Learning: a Transdisciplinary Approach

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Ben Whitburn*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Learning experiences are delivered via CloudDeakin*

### Content

This unit consolidates understandings relating to the concept of personalised learning and how it relates to the curriculum, assessment and program planning for students with additional learning needs. It is designed to engage students in discussions about ideas of conformity, diversity, labelling, exclusion and inclusion. This unit will introduce students to the wide network of community supports and a transdisciplinary approach to supporting learners including the child mental health care system, the Department of Human Services, allied health workers and Child Protection. Students will learn how to use a variety of assessment tools and employ teaching and support strategies and support networks to assess and plan for learners with additional needs.

They will develop skills in collaborating with families and communicating clearly with parents providing evidence for meeting the APST 5 and 7.

### Assessment

- Assessment 1 – Analysis of transdisciplinary reports for communication with parents (1600 words) – 40%
- Assessment 2 – Construction of an individual learning plan (2400 words) – 60%

## EAD110 – Communication Skills for Study and Work

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrnambool, Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Emma Charlton*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in A250, E200 or A200*

*Incompatible with: AIX117, AIX160, ALW117, ALW227, ASC160, EAD103*

*Scheduled learning activities – campus: 1 x 1 hour Class and 1 x 2 hour Seminar per week*

### Content

This unit will equip students with communication skills for tertiary study and the workplace. Students will learn how to make written and oral presentations, and practise these skills. Students will develop written communication skills in summarising, essay writing, referencing, sitting exams and avoiding plagiarism and collusion. Oral communication skills covered include threading together ideas into a presentation and developing these in a logical manner, engaging the audience, using appropriate vocabulary, speaking voice and eye contact.

### Assessment

3200 total words of assessment comprising:

- Assessment 1 – Summary of academic article (480 words) – 15%
- Assessment 2 – Oral presentation (equivalent to 620 words) – 20%
- Assessment 3 – Argumentative essay (1300 words) – 40%
- Assessment 4 – In-class test (equivalent to 800 words) – 25%

## EAD111 – Digital Literacy: Finding, Evaluating and Interpreting Information

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrnambool, Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Piper Rodd*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ASC160, AIX160, EAD102, EAD103*

*Scheduled learning activities – campus: 1 x 1 hour Class and 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

This unit will equip students with digital literacy skills for tertiary study and the workplace. Students will learn how to find, evaluate, use and disseminate digital information. Skills covered include using effective search strategies to find academic articles in online databases, presenting numerical data in table and graph forms, and produce digital resources that integrate material in a variety of formats. Students will also be familiarised with the principles for responsible online communication and online activity.

*Note: Students enrolled in A250, E200 or A200 must enrol on the Burwood (Melbourne), Warrnambool or Waurin Ponds (Geelong) campuses or seek written permission from the Course Director for Cloud (online) enrolment.*

*Students enrolled in courses other than A250, E200 or A200 must enrol Cloud (online) only.*

### Assessment

3200 total words of assessment comprising:

- Assessment 1 – Finding Online Resources Activity – 10%
- Assessment 2 – Report (950 words) – 30%
- Assessment 3 – Excel Skills Activity – 10%
- Assessment 4 – Online resource creation (equivalent to 1600 words) – 50%

## EAD112 – Critical Thinking and Problem Solving: Using Analysis to Develop Solutions

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrnambool, Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Emma Charlton*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class and 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including some scheduled Collaborate sessions and weekly engagement with materials and responses in discussion forums.*

### Content

This unit will equip students with critical thinking and problem solving skills for tertiary study and the workplace. Students will learn how to analyse and evaluate academic arguments and identify their strengths and weaknesses. They will learn to analyse issues, identify problems, and propose approaches to finding solutions.

*Note: Students enrolled in A250, E200 or A200 must enrol on the Burwood (Melbourne), Warrnambool or Waurin Ponds (Geelong) campuses or seek written permission from the Course Director for Cloud (online) enrolment.*

*Students enrolled in courses other than A250, E200 or A200 must enrol Cloud (online) only.*

### Assessment

3200 total words of assessment comprising:

- Assessment 1 – Essay (1900 words) – 60%
- Assessment 2 – Oral presentation and defence – 20%
- Assessment 3 – Quiz – 20%

## EAD113 – Teamwork: Working Constructively with Others

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrnambool, Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Emma Charlton*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

This unit will equip students with teamwork skills for tertiary study and the workplace, including education teacher pathways. Students will learn how to be a good team member and practise working constructively with others in a team. Teamwork depends upon a range of skills such as negotiation, leadership, communication, intercultural awareness, and time management, all of which will be covered in this unit.

*Note: Students enrolled in A250, E200 or A200 must enrol on the Burwood (Melbourne), Warrnambool or Waurin Ponds (Geelong) campuses or seek written permission from the Course Director for Cloud (online) enrolment.*

*Students enrolled in courses other than A250, E200 or A200 must enrol Cloud (online) only.*

### Assessment

3200 total words of assessment comprising:

- Assessment 1 – Review (640 words) – 20%
- Assessment 2 – Analysis (960 words) – 30%
- Assessment 3 – Group media presentation – 50%

## ECA100 – Engaging and Exploring Arts Education

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrnambool, Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Dawn Joseph*

*Cohort rule: This unit is only available to students enrolled in: E200 – Associate Degree of Education; and E359 – Bachelor of Education Primary 2017 onwards commencing students*

*Prerequisite: For E200 students: Must have passed at least three units from EAD110, EAD111, EAD112, EAD113*

*Corequisite: Nil*

*Incompatible with: ECA209*

*Scheduled learning activities – campus: 1 x 2 hour Seminar and 1 hour online class per week*

### Content

The Arts (Performing Arts and Visual Arts) are essential to students' creative and expressive development in the primary school. In this unit you will engage with, and explore specific Art disciplines and practices. Through practical workshops based on content from the Victorian Curriculum-Foundation to Level 6, and using digital technologies and unit material, you will build skills, knowledge and understanding of the Arts. As pre-service teachers you will learn as 'artist and as audience' and through 'making and responding'. This unit introduces you to ways of incorporating Arts learning in primary school settings from a range of cultures, times and locations including Aboriginal and Torres Strait Islander peoples. The unit also aims to build your confidence and competence in teaching and learning the Arts.

### Assessment

- Assessment 1 – Music: written and practical work (1300 words or equivalent) – 33%
- Assessment 2 – Visual Arts: written and practical work (1300 words or equivalent) – 33%
- Assessment 3 – Drama/Dance: written and practical work (1400 words or equivalent) – 34%

## ECA210 – Music Studies: Earth, Wind and Fire

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrnambool, Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Dawn Joseph*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ECA110, ECA310*

*Scheduled learning activities – campus: 1 x 3 hour seminar per week*

### Content

Music Studies is an elective offered to students across all faculties. The elements of Earth, Wind and Fire in the title captures essence of expanding student's theory, aural and practical skills whilst engaging them in a non-Western genre. Students will increase their knowledge base of melody, harmony and aural acquisition skills. In addition, they will experience practical music making using classroom instruments, indigenous instruments (African and Aboriginal), songs, movement, digital technologies and ensemble performance. This unit also includes group instrumental lessons (dependent on staff either keyboard and or guitar) to develop and increase student's technical skills, sight-reading, and performance ability. Unique to this unit, is a focus study drawing together the elements of Earth Wind and Fire by studying Indigenous music (African music and culture at Burwood and Australian Aboriginal music and culture at Waurin Ponds and Warrnambool).

*Note: Commencing 2019*

### Assessment

- Assessment 1 – Theory – 20%
- Assessment 2 – Practical – 30%
- Assessment 3 – Research Project – 50%

## ECA304 – Arts Education Specialisation Study

*Enrolment modes: Trimester 3: Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Shelley Hannigan*

*Prerequisite: One of ACV101 or ACV102*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 4 x 6 hour intensives*

*Learning experiences are also via CloudDeakin*

### Content

This unit focuses on ways of teaching and learning in the Arts specialisation areas. Students will explore, experience and investigate socio-cultural perspectives in the Performing and Visual Arts. They will enhance their skills, knowledge and understandings of inclusive approaches to teaching in their Arts specialisation area. The unit also fosters designing learning activities that include digital technologies for educational purposes and settings.

### Assessment

- Assessment 1 – Arts curriculum and pedagogy assignment (2000 words or equivalent) – 50%
- Assessment 2 – Arts Education portfolio (2000 words or equivalent) – 50%

## ECA431 – Arts Education Discipline Study 1

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Dawn Joseph*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

This unit is part of a sequence undertaken by students completing an Arts methodology specialisation for teaching in secondary schools (Dance, Drama, Music, Visual Arts). The focus is on identifying contemporary arts curriculum initiatives in the post primary years 7–10 of compulsory education and within various contexts such as the classroom, the whole school and the broader community. Students will consider and critique a range of influences and initiatives in the curriculum of their arts discipline area, with a focus on the Australian Curriculum. The unit prepares students to research and apply skills required to design and develop lesson and unit sequences. They will develop assessment strategies, resources for teaching the art form, and engage with selected technologies as both a creative process and a teaching and learning medium. Students will develop critical and creative thinking skills, interpersonal communication and intercultural understanding as they analyse, reflect and build a philosophy of arts education.

Note: Arts discipline methodology specialisations are available for Campus and Cloud (online) study as follows:

- Visual Arts – available at Burwood (Melbourne) or Cloud (online)
- Music – available at Burwood (Melbourne) or Cloud (online)
- Dance – available at Burwood (Melbourne)
- Drama – available at Burwood (Melbourne)
- Media – available at Burwood (Melbourne)

### Assessment

- Assessment 1 – Curriculum Development: Appropriate to the specific arts education area, students design, and develop lesson and unit sequences and devise a range of assessment procedures and evaluation processes – 50%
- Assessment 2 – Portfolio: Appropriate to the specific arts education area students develop and present a portfolio of resource materials including audio/video, or CD presentations, annotated work samples, exemplary curriculum examples and written reports of seminar presentations – 50%

## ECA432 – Arts Education Discipline Study 2

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Merinda Kelly*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

*Scheduled learning activities – cloud (online): This unit shares all resources and weekly material with on campus students. Time engaging in independent study is expected to total an equivalent of 8–10 hours per week. This includes engagement with teaching and learning materials, responding to tasks, activities, posting and responding to others in forums, and participating in online discussions.*

### Content

This unit is the second in a sequence undertaken by students completing an arts methodology specialisation for teaching in secondary schools (Dance, Drama, Music, or Visual Arts). The focus is on identifying contemporary arts curriculum initiatives in the senior years 11–12 of secondary schooling within contexts such as the classroom, the whole school and the broader community. Students will consider and critique a range of influences and initiatives in the Senior Secondary curriculum of their arts discipline area, with a focus on the curriculum of relevance to their proposed teaching context. The unit prepares students to interpret, design and develop practical and theoretical learning experiences and lessons. They will explore resources, pedagogical frameworks and teaching strategies that will enable them to prepare students to meet prescribed coursework and examination requirements.

ECA432 students should note that arts discipline methodology specialisations are available strictly as follows:

- Visual Arts – available Burwood (Melbourne) or Cloud (online)
- Music – available Burwood (Melbourne) or Cloud (online)
- Dance – available Burwood (Melbourne) on-campus only
- Drama – available Burwood (Melbourne) on-campus only
- (Students choosing Media enrol in ECA736)

Note:

- Dance, Drama and Media offered Burwood (Melbourne) only
- Music and Visual Arts offered Burwood (Melbourne) and Cloud (online)

### Assessment

- Assessment 1 – Portfolio: Selection of artefacts (including digital), linked to contemporary theories of teaching and learning, focused on aspects of the selected arts discipline for senior secondary (2000 words or equivalent) – 50%
- Assessment 2 – Curriculum and Assessment Project: Design senior secondary curriculum unit, incorporating school based assessment procedures (2000 words or equivalent) – 50%

## ECA433 – Arts Education Discipline Study 3

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Merinda Kelly*

*Cohort rule: Must be enrolled in D347, E356, E359, E365, E377 or E455*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

*Scheduled learning activities – cloud (online): This unit shares all resources and weekly material with on campus students. Time engaging in independent study is expected to total an equivalent of 8–10 hours per week. This includes engagement with teaching and learning materials, responding to tasks, activities, posting and responding to others in forums, and participating in online discussions.*

### Content

This unit aims to provide students with opportunities to enhance and enrich knowledge, skills and strategic approaches to learning and teaching in their selected specialist discipline (Dance, Drama, Music or Visual Art). Students undertake individual and collaborative explorations and exercises to navigate areas of high relevance to creative arts education, and the application of the arts for learning.

Digital technologies, methodologies and creative pedagogies are applied and tested within diverse educational, social and cultural contexts. Students have agency in negotiating an assessment project of relevance to their specific learning interests and aspirations. This unit also lays the foundations for future research-based projects of relevance to each student's chosen specialisation.

ECA433 students should note that arts discipline methodology specialisations are available for campus and Cloud (online) study strictly as follows:

- Visual Arts – available at Burwood (Melbourne) or Cloud (online)
- Music – available at Burwood (Melbourne) or Cloud (online)
- Dance – available at Burwood (Melbourne)
- Drama – available at Burwood (Melbourne)

Note:

- Dance and Drama offered Burwood (Melbourne) only
- Music offered Burwood (Melbourne) and Cloud (online)
- Visual Arts offered Burwood (Melbourne), Warrnambool, and Cloud (online)

### Assessment

- Portfolio of curriculum resources (2000 words or equivalent) – 50%
- Negotiated Research Project (2000 words or equivalent) – 50%

## ECA434 – Arts Education Discipline Study 4

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Jo Raphael*

*Cohort rule: Must be enrolled in D347, E356, E359, E365, E377 or E455*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Burwood: 1 x 3 hour Seminar per week*

*Scheduled learning activities – cloud (online): This unit shares all resources and weekly material with on campus students. Time engaging in independent study is expected to total an equivalent of 8–10 hours per week. This includes engagement with teaching and learning materials, responding to tasks, activities, posting and responding to others in forums, and participating in online discussions*

### Content

In this unit participatory studio-based experience informed by aesthetic and critical debate in diverse social and cultural contexts will enable students to further enhance their reflective practice in their arts specialisation. Students undertake research projects in their arts specialisation (Dance, Drama, Music or Visual Art) that may include: a practical arts teaching project; a project based in an educational setting other than a school; an action research project designed to improve teaching or solve a problem; or a review of literature on a particular issue related to the arts.

Note:

- Dance and Drama offered Burwood (Melbourne) only
- Visual Arts offered Burwood (Melbourne) and Cloud (online)
- Music offered Burwood (Melbourne) and Cloud (online)

### Assessment

Two Assessment Tasks – Each 50%.

Assessment tasks appropriate to the specific arts education area will be chosen from: Individualised research project, folio submission presentations, curriculum project with written report and presentation, arts practice performance and demonstrations, teaching simulations within a virtual learning environment. All assessment will be criterion referenced.

## ECA435 – Arts Education Discipline Study 5

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Dawn Joseph*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour*

*Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

This unit is part of a sequence undertaken by students completing an Arts methodology specialisation for teaching in secondary schools (Dance, Drama, Music, Media Arts or Visual Arts). The focus is on identifying contemporary arts curriculum initiatives in the post primary years 7–10 of compulsory education and within various contexts such as the classroom, the whole school and the broader community. Students will consider and critique a range of influences and initiatives in the curriculum of their arts discipline area, with a focus on the Australian Curriculum. The unit prepares students to research and apply skills required to design, and develop lesson and unit sequences. They will develop assessment strategies, resources for teaching the art form, and engage with selected technologies as both a creative process and a teaching and learning medium. Students will develop critical and creative thinking skills, interpersonal communication and intercultural understanding as they analyse, reflect and build a philosophy of arts education.

Note: Arts discipline methodology specialisations are available for Campus and Cloud (online) study as follows:

- Visual Arts – Burwood (Melbourne) or Cloud (online)
- Music – Burwood (Melbourne) or Cloud (online)
- Dance – Burwood (Melbourne)
- Drama – Burwood (Melbourne)
- Media Arts – Burwood (Melbourne)

### Assessment

- Assessment 1 – Curriculum Development: Appropriate to the specific arts education area, students design, and develop lesson and unit sequences and devise a range of assessment procedures and evaluation processes – 50%
- Assessment 2 – Portfolio: Appropriate to the specific arts education area students develop and present a portfolio of resource materials including audio/video, or CD presentations, annotated work samples, exemplary curriculum examples and written reports of seminar presentations – 50%

## ECA436 – Arts Education Discipline Study 6

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Merinda Kelly*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour*

*Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

This unit is part of a sequence undertaken by students completing an arts methodology specialism for teaching in secondary schools. The focus is on identifying contemporary arts curriculum initiatives in the post primary years 7–10 of compulsory education and within various contexts such as the classroom, the whole school and the broader community. Students will consider and critique a range of influences and initiatives in their selected specialist curriculum, including the National Curriculum: The Arts and AUSVELS: The Arts, contemporary arts education theory, practice and research. They will participate in curriculum planning and development, the scaffolding of teaching methodologies, assessment strategies and engage with selected technologies as both a creative process and a teaching and learning medium. Implementation of arts teaching techniques and strategies in the classroom will be supported by school observations and experiences.

Note:

- Dance, Drama and Media offered Burwood (Melbourne) only
- Music and Visual Arts offered Burwood (Melbourne) and Cloud (online)

## Assessment

- Assessment 1 – Journal Report: Reflective, analytical journal entries, linked to contemporary theories of teaching and learning, focusing on aspects of selected arts discipline teaching and learning observed during engagement with field experience settings in various educational settings: VCE, Vet/VCAL and I, VCAL, VET, Music Industry Skills and International Baccalaureate – 40%
- Assessment 2 – Curriculum and Assessment Project: Appropriate to the selected specialism, elaborate a set of principles to structure a unit based on, for example, a selected VCE study design, incorporating school based assessment procedures – 60%

Students are required to implement a sequence (during school experience), the outcomes of which are submitted in a report. Students may use forms of ICT to support documentation.

## ECA731 – Arts Education Curriculum Study 1

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)\**

*Offering information: \*Dance, and Drama not available in Cloud (online) mode*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Dawn Joseph*

*Cohort rule: Must be enrolled in D303, E760, E763, E763T or E765*

*Prerequisite: D303 students must have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%, otherwise Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

## Content

Arts discipline methodology specialisations are available for Campus and Cloud (online) study as follows:

- Visual Arts – available at Burwood (Melbourne) or Cloud (online)
- Music – available at Burwood (Melbourne) or Cloud (online)
- Dance – available at Burwood (Melbourne)
- Drama – available at Burwood (Melbourne)

This unit is part of a sequence undertaken by students completing an Arts methodology specialisation for teaching in secondary schools (Dance, Drama, Music or Visual Arts). The focus is on identifying contemporary arts curriculum initiatives in the post primary years 7–10 of compulsory education and within various contexts such as the classroom, the whole school and the broader community. Students will consider and critique a range of influences and initiatives in the curriculum of their arts discipline area, with a focus on the Australian Curriculum. The unit prepares students to research and apply skills required to design, and develop lesson and unit sequences. They will develop assessment strategies, resources for teaching the art form, and engage with selected technologies as both a creative process and a teaching and learning medium. Students will develop critical and creative thinking skills, interpersonal communication and intercultural understanding as they analyse, reflect and build a philosophy of arts education.

## Assessment

- Assessment 1 – Curriculum Development: Appropriate to the specific arts education area, students design, and develop lesson and unit sequences and devise a range of assessment procedures and evaluation processes (equivalent to 2500 words) – 50%
- Assessment 2 – Portfolio: Appropriate to the specific arts education area, portfolio submissions with ICT based teaching and learning presentations (equivalent to 2500 words) – 50%

## ECA732 – Arts Education Curriculum Study 2

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Offering information: Dance and Drama not available in Cloud (online) mode*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Merinda Kelly*

*Cohort rule: Must be enrolled in D303, E760, E763, E763T or E765*

*Prerequisite: ECA731 or ECA735. D303 students must also have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

*Scheduled learning activities – cloud (online): This unit shares all resources and weekly material with on campus students. Time engaging in independent study is expected to total an equivalent of 8–10 hours per week. This includes engagement with teaching and learning materials, responding to tasks, activities, posting and responding to others in forums, and participating in online discussions.*

### Content

This unit is the second in a sequence undertaken by students completing an arts methodology specialisation for teaching in secondary schools (Dance, Drama, Music, or Visual Arts). The focus is on identifying contemporary arts curriculum initiatives in the senior years 11–12 of secondary schooling within contexts such as the classroom, the whole school and the broader community. Students will consider and critique a range of influences and initiatives in the Senior Secondary curriculum of their arts discipline area, with a focus on the curriculum of relevance to their proposed teaching context. The unit prepares students to interpret, design and develop practical and theoretical learning experiences and lessons. They will explore resources, pedagogical frameworks and teaching strategies that will enable them to prepare students to meet prescribed coursework and examination requirements.

ECA732 students should note that arts discipline methodology specialisations are available strictly as follows:

- Visual Arts – available Burwood (Melbourne) or Cloud (online)
- Music – available Burwood (Melbourne) or Cloud (online)
- Dance – available Burwood (Melbourne) on-campus only
- Drama – available Burwood (Melbourne) on-campus only
- (Students choosing Media enrol in ECA736 on-campus only)

Students will engage with selected technologies integral to the creative process, learning and teaching in their discipline area. They will develop critical and creative thinking skills, interpersonal communication and intercultural understanding as they continue to analyse, reflect and build a philosophy of arts education.

### Assessment

- Assessment 1 – Portfolio: Selection of artefacts (including digital), linked to contemporary curriculum and theories of teaching and learning, focused on aspects of the selected arts discipline for senior secondary (2500 words or equivalent) – 50%
- Assessment 2 – Curriculum and Assessment Project: Design senior secondary curriculum unit, incorporating school-based assessment procedures (2500 words or equivalent) – 50%

## ECA733 – Arts Education Curriculum Study 3

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Offering information: Dance and Drama not available in Cloud (online) mode*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Merinda Kelly*

*Cohort rule: Must be enrolled in a Master of Teaching course*

# ECA734 – Arts Education Curriculum Study 4

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Offering information: Dance and Drama not available in Cloud (online) mode*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Jo Raphael*

*Cohort rule: Must be enrolled in a Master of Teaching course*

*Prerequisite: ECA733*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

*Scheduled learning activities – cloud (online): This unit shares all resources and weekly material with on campus students. Time engaging in independent study is expected to total an equivalent of 8–10 hours per week. This includes engagement with teaching and learning materials, responding to tasks, activities, posting and responding to others in forums, and participating in online discussions.*

## Content

This unit aims to immerse students in creative practice, aesthetic and critical debate in teaching and learning within their chosen arts discipline area (Dance, Drama, Music or Visual Art). Students research, analyse and apply a range of skill based strategies including digital technologies and pedagogies that inform and underpin teaching and learning within diverse social and cultural contexts. Students negotiate, design and undertake individual projects that may be practical or research-based, and may include independent investigation of their chosen arts specialisation in formal and informal education settings. ECA734 students should note that arts discipline methodology modules are available for campus and Cloud (online) study as follows:

- Dance – Burwood (Melbourne)
- Drama – Burwood (Melbourne)
- Music – Burwood (Melbourne), or Cloud (online)
- Visual arts – Burwood (Melbourne) or Cloud (online)

## Assessment

- Assessment 1 – Portfolio: Essay or portfolio or presentation appropriate to the specific arts education area (2000 words or equivalent) – 40%
- Assessment 2 – A negotiated research project: Focus on a project appropriate to the specific arts education area (4000 words or equivalent) – 60%

## ECA735 – Arts Education Curriculum Study 5

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Dawn Joseph*

*Cohort rule: Must be enrolled in D303, E760, E763, E763T or E765*

*Prerequisite: D303 students must have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%, otherwise Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

This unit is part of a sequence undertaken by students completing an Arts methodology specialisation for teaching in secondary schools (Dance, Drama, Media Arts, Music or Visual Arts). The focus is on identifying contemporary arts curriculum initiatives in the post primary years 7–10 of compulsory education and within various contexts such as the classroom, the whole school and the broader community. Students will consider and critique a range of influences and initiatives in the curriculum of their arts discipline area, with a focus on the Australian Curriculum. The unit prepares students to research and apply skills required to design, and develop lesson and unit sequences. They will develop assessment strategies, resources for teaching the art form, and engage with selected technologies as both a creative process and a teaching and learning medium. Students will develop critical and creative thinking skills, interpersonal communication and intercultural understanding as they analyse, reflect and build a philosophy of arts education.

Arts discipline methodology specialisations are available for Campus and Cloud (online) study as follows:

- Visual Arts – Burwood (Melbourne) or Cloud (online)
- Music – Burwood (Melbourne) or Cloud (online)
- Dance – Burwood (Melbourne)
- Drama – Burwood (Melbourne)
- Media Arts – Burwood (Melbourne)

*Note: Dance, Drama and Media Studies not available in Cloud (online) mode*

### Assessment

- Assessment 1 – Curriculum Development: Essay on Curriculum Development appropriate to the specific arts education area (2500 word count equivalent) – 50%
- Assessment 2 – Portfolio: Portfolio appropriate to the specific arts education area (2500 word count equivalent) – 50%

## ECA736 – Arts Education Curriculum Study 6

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Merinda Kelly*

*Cohort rule: Must be enrolled in D303, E760, E763, E763T or E765*

*Prerequisite: ECA731 or ECA735. D303 students must also have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

ECA736 students should note that arts discipline methodology specialisms are available for Campus and Cloud (online) study strictly as follows:

- Dance – available at Burwood (Melbourne)
- Drama – available at Burwood (Melbourne)
- Media- available at Burwood (Melbourne)
- Music – available at Burwood (Melbourne), or Cloud (online)
- Visual Arts – available at Burwood (Melbourne), or Cloud (online)

This unit focuses on the post-compulsory years of schooling, years 11 and 12, and aims to develop students' abilities to research, create, implement and critically evaluate innovative teaching and learning practices in their selected specialism. Students actively participate in blended, located and cloud based (online) teaching and learning environments and with digital technologies.

They engage in critical and analytical discourse to devise and evaluate arts classroom practice and workplace simulations that integrate pedagogy, curriculum and technology.

*Note: Dance, Drama and Media studies not available in Cloud (online) mode*

### Assessment

- Curriculum Development: essay on Curriculum Development appropriate to the specific arts education area (2500 words or equivalent) – 50%
- Portfolio: portfolio appropriate to the specific arts education area (2500 words or equivalent) – 50%

## ECB704 – Commerce and Business Studies Curriculum Study B

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Rose Buchanek*

*Prerequisite: EHU701*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): 3 hours online independent and collaborative learning per week*

### Content

This unit is designed to equip students to effectively and competently teach Commerce and Business Studies at the senior years/post compulsory level. The main areas of study explored are Accounting, Business Management, Economics and Legal Studies. This unit will examine the structure of senior years/post compulsory studies through a focus on the content and approaches outlined in each of the studies. The areas covered include teaching at post compulsory level, teaching strategies, assessment practices and requirements and regulations of teaching at senior level. It will also include information on curriculum planning and the uses of various information technologies appropriate for teaching senior years in this field.

### Assessment

- Year 11 Media Analysis Assessment Task, Rubric and Report (2500 words or equivalent) – 50%
- Year 12 Backward Design Revision Sequence (2500 words or equivalent) – 50%

## ECE110 – Child Development 1

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Natalie Robertson*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in E330*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Burwood: 1 x 2 hour seminar per week. 1 x 1 hour online workshop per week*

*Scheduled learning activities – cloud (online): Attendance at 2 Cloud Conferences per trimester, 1 x 1 hour online workshop per week, 3 x 1 hour online class per trimester (recordings provided)*

### Content

Analysis of selected theories of child development relevant to the birth to twelve years of age focusing on the holistic nature of development from conception to birth and the critical nature of early and later development. Domains of development – physical, psychosocial, and cognitive will be examined and how development may be fostered in home and care contexts. Students will critique Piaget's theory of sensory motor development analysing what is currently applicable to the birth – three age group. In addition, the work of the Neo-Piagians will be examined to determine how it has extended the work of Piaget. Students will develop understanding of attachment theory by critiquing the work of Bowlby and Ainsworth. Tools for assessment will be investigated, including observation techniques and appropriate documentation. Brain growth and function will be analysed with reference to influences on development including, nature-nurture debates, attachment theory, temperament and psycho-social well-being in infants, toddlers and children.

### Assessment

- Assessment 1 – Literature Critique Part A (400 words) – 10%
- Assessment 2 – Literature Critique Part B (1200 words) – 30%
- Assessment 3 – Essay (2400 words) – 60%

## ECE111 – Curriculum 1: Pedagogies and Play

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Natalie Robertson*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in E330*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Burwood: 1 x 2 hour seminar per week. Students will also engage in a 1 hour online workshop per week*

*Scheduled learning activities – cloud (online):*

*Attendance at 2 Cloud Conferences per trimester, 1 x 2 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

### Content

An understanding of early curriculum theory and its implementation is essential for the early childhood professional. The emergence of Belonging, Being & Becoming: The Early Years Learning Framework of Australia has given a new stimulus for examining early childhood curriculum. There are many different organizational and cultural contexts of early childhood and these differ also according to the age range of service provision. Current models of curriculum exist in early childhood centres in Australia and these will be reviewed critically. Students need to understand and apply the principles of curriculum development. As a reflective and critical practitioner they need to be able to make provision for the children in many diverse cultures of multicultural Australia. In addition, there are many contemporary curriculum issues that are important considerations for curriculum design, including attachment theory, the primary caregiver concept and circle of security, continuity in curriculum design, early childhood pedagogies, and assessing developmental learning outcomes, supporting the culture of the home and establishing supportive, respectful and responsive relationships in work with children, families and communities.

### Assessment

- Assessment 1 – Literature Critique (400 words) – 10%
- Assessment 2 – Curriculum Evaluation (1600 words) – 40%
- Assessment 3 – Curriculum Project (2000 words) – 50%

## ECE112 – Curriculum 2: Planning and Assessment for Teaching and Learning

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Karen Guo*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in E330*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Burwood: 1 x 2 hour seminar per week. 1 x 1 hour online workshop per week*

*Scheduled learning activities – cloud (online):*

*Attendance at 2 Cloud Conferences per trimester, 1 x 2 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

### Content

This unit will provide students with the ability to critically analyse and synthesise pedagogical principles of assessment and planning to reflect contemporary understandings of teaching and learning for children under two years of age. By critiquing their theoretical knowledge and understandings of assessment and planning, students will develop and broaden their competencies as teachers to incorporate the perspectives and aspirations of children under two and their families. Students will engage in critical reflection on the influences of their own values, beliefs and understandings about teaching and learning. They will develop the abilities to incorporate different understandings from their own world views when assessing and planning for children's learning. This will include the ability to recognise and respond to learning for individual children in a way that is inclusive of the child's own social and cultural understandings.

### Assessment

- Electronic Resource (2000 words) – 50%
- Planning for Learning (2000 words) – 50%

## ECE116 – Promoting Health, Wellbeing and Nutrition

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Llewellyn Wishart*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in E330 or E420*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Burwood: 1 x 2 hour seminar per week. 1 x 1 hour online workshop per week*

*Scheduled learning activities – cloud (online):*

*Attendance at 2 Cloud Conferences per trimester, 1 x 2 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

### Content

The unit examines health, safety, nutrition and wellbeing of infants, toddlers and children in the early years. The unit examines legislative, regulatory and curriculum provisions as specified in ACECQA NQF, VEYLDF & Victorian Curriculum in relation to health, safety, wellbeing, nutrition, physical activity and physical education and what compliance is required to meet regulations, quality and curriculum standards specified at state and national level. Other content includes the appraisal of nutritional needs of infants and young children, including food allergies, cultural requirements of families and provision for these. The interrelationship between health, safety, nutrition and physical activity requirements in early childhood education and care contexts are considered. The application of licencing, NQF and curriculum standards are investigated including: hygiene practices, preventative health and safety routines, sleep and rest, immunisation, communicable diseases, management of sick children, food safety, physical education and health promotion. The role of the educator and teacher is examined as an agent promoting the health, safety and wellbeing of children.

### Assessment

- Assessment 1 – Literature critique (400 words) – 10%
- Assessment 2 – Regulation and policy design (1600 words) – 40%
- Assessment 3 – Family handbook (2000 words) – 50%

## ECE120 – Contemporary Perspectives of Education

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Karen Guo*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in E330*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Burwood: 1 x 2 hour seminar per week. 1 x 1 hour online workshop per week*

*Scheduled learning activities – cloud (online):*

*Attendance at 2 Cloud Conferences per trimester, 1 x 1 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

### Content

Students will undertake a journey of understanding, critically evaluating the ongoing development of Early Childhood and Early Years Education in international and Australian contexts. They will identify and analyse connections between historical and contemporary philosophical and theoretical perspectives and educational practice in early childhood and primary settings. Students will also develop comprehensive knowledge about the principles of practice embedded within legislative, regulatory practices and curriculum documents. Students will be able to critique and discuss these in relation to contemporary contexts of teaching and learning, as part of the ongoing development of their own educational philosophy and capacity for reflective practice.

### Assessment

- Assessment 1 – Early Childhood Contextual Review – 40%
- Assessment 2 – Critical analysis (2400 words) – 60%

## ECE130 – Partnerships with Families and Communities

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Kerry Archdall*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in E330*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Burwood: 1 x 2 hour seminar per week. 1 x 1 hour online workshop per week*

*Scheduled learning activities – cloud (online):*

*Attendance at 2 Cloud Conferences per trimester, 1 x 2 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

### Content

This unit will increase students' understandings about the potential for children's learning when teachers develop partnerships with families and communities. Students will examine theoretical perspectives of partnership and investigate how partnerships can be developed. Models of partnership will be deconstructed and critically analysed to develop students' understandings of the role of the teacher in leading collaborative relationships. The students will develop their own understandings of the communication, cultural competencies and leadership skills they can apply to form partnerships. This will incorporate critical self-reflection to explore their own values and beliefs about teaching and learning.

### Assessment

- Assessment 1 – Review (2000 words) – 50%
- Assessment 2 – Resource (2000 words) – 50%

## ECE140 – Creative Arts 1: Young Children and the Arts

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Fiona Phillips*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in E330*

*Incompatible with: ECE240*

*Scheduled learning activities – campus:*

*Burwood: 1 x 2-hour seminar per week. Students will also engage in a 1 hour online workshop per week*

*Scheduled learning activities – cloud (online):*

*Attendance at 2 Cloud Conferences per trimester, 1 x 2 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

*In-person attendance requirements: Students must attend and participate in face to face practical learning activities at the Waurin Ponds campus on the scheduled day during the trimester*

### Content

In this unit, engagement with online study materials and participation in practical workshops and seminars will enable students to critically appraise current trends in early year's arts teaching, learning and research. The Arts curriculum framework for the unit is underpinned by the aims and learning outcomes outlined in the current National Curriculum and articulated in the Victorian curriculum: The Arts and the Victorian Early Years Framework (VEYLF). This provides an Arts curriculum focus for beginning teachers, in a unit concerned with concepts of how young children actively engage with arts making and responding, of exploring concepts of creativity, and the use of imagination and thinking skills. The unit focuses on children's continuing arts sequential developmental engagement with Arts learning from the early years through the primary years of schooling. It embraces the concept of the arts as central to children's individual, sensory, cognitive, emotional, physical development located within diverse socio cultural environments.

Students will participate in artistic practice and aesthetic responding processes to inform their professional understanding of theoretical frameworks central to the creative arts processes in visual art, media arts, music and the performing arts. They will apply this knowledge in planning teaching and learning programs that support young children's engagement in and through the arts. They will devise ways to foster learning in and through the arts enabling young children to develop thinking skills and to participate in creative processes, using both traditional arts materials and techniques and selected multimedia and digital technologies to express ideas about themselves and their worlds.

Students will build on the concept that children's exploration and development of personal interwoven narratives and visual, aural, oral and kinaesthetic symbols enable them to express their ideas and feelings and give artistic form to thought and imagination.

Throughout the unit, students will identify and apply teaching approaches and learning strategies including play based and intentional learning relevant to both formal and informal early years' educational settings. Students will design and develop a Creative Arts program that supports the intellectual, social and cultural development of the whole child.

### Assessment

- Assessment 1 – E-Portfolio: Arts Advocacy (2000 words or equivalent) – 50%
- Assessment 2 – Web based Creative Arts Program (2000 words or equivalent) – 50%

## ECE211 – Mathematical Learning in the Early Years

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Virginia Kinnear*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in E330*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Burwood: 1 x 3 hour seminar per week*

*Scheduled learning activities – cloud (online):*

*Attendance at 2 Cloud Conferences per trimester, 1 x 2 hour online workshop per week, 3 x 1 hour online class per trimester (recordings provided)*

### Content

This unit supports students in building young children's mathematical concepts and thinking by developing students' own understanding of the concepts underpinning mathematics. Students will be introduced to relevant educational theorists such as Montessori and Vygotskii. It will explore teaching and assessment strategies for developing mathematical concepts, understanding and skills such as numbers, measurement, patterns, two and three dimensional objects, and locations. Students will participate in practical work to enable them to create engaging and effective mathematical learning environments for all children in prior-to -school settings and Foundation to Year 2. Technology skills for educators including programmable toys and robotics such as Bee-Bot with pre-school children will be investigated through playful explorations.

### Assessment

- Assessment 1 – (1200 words) – 30%
- Assessment 2 – (1200 words) – 30%
- Assessment 3 – (1600 words) – 40%

## ECE212 – Curriculum 3: Planning and Assessment for Teaching and Learning

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Karen Guo*

*Prerequisite: Must have passed 5 credit points at level 1 including ECE111 and ECE112*

*Corequisite: Must be enrolled in E330*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Burwood: 1 x 2 hour seminar per week. 1 x 1 hour online workshop per week*

*Scheduled learning activities – cloud (online):*

*Attendance at 2 Cloud Conferences per trimester, 1 x 2 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

## Content

This unit provides a context for the student to explore the relationship between documentation, planning and assessment for learning with children aged 3–12 years. It builds on the students' existing experience and knowledge of young children to support the development of responsive and respectful pedagogies that respect the child as an individual and support children as confident and involved learners. The unit will critique contemporary theoretical perspectives and curriculum approaches influencing early childhood pedagogy and practice both in Australia and globally, with a focus on child-centred practice as a context for learning. Students will continue to construct understandings about developing effective relationships and successful teaching interactions with children. They will also continue to develop teaching practices that promote children's inquiry, thinking and problem-solving skills to become confident and competent learners within their own cultural contexts, and develop their capacity to design and assess dynamic and challenging learning environments for both individual and groups to achieve optimum learning outcomes.

## Assessment

- Assessment 1 – (2000 words) – 50%
- Assessment 2 – (2000 words) – 50%

## ECE216 – Children's Health, Wellbeing and Physical Education

*Enrolment modes: This unit will not be offered in Trimester 1 2019*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Llewellyn Wishart*

*Prerequisite: Must have passed 5 credit points at level 1 including ECE116*

*Corequisite: Must be enrolled in E330*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Burwood: 1 x 1 hour Practical per week, 1 x 2 hour Seminar per week. Learning experiences are also delivered by CloudDeakin*

*Warrnambool and Deakin Learning Centres:*

*Students are required to attend compulsory 3 x 3 hour intensives. Learning experiences are also via CloudDeakin*

## Content

The unit provides an overview of the theories of development in early childhood (birth to 8 years), with an emphasis on physical activity, physical development and the significant influences on development, health and wellbeing at this stage of the life span. The unit also discusses all the practical measure that early childhood and primary schools need to take in ensuring children's health and wellbeing in various contexts.

## Assessment

- Assessment 1 – Research Journal (600 words) – 15%
- Assessment 2 – Problem Based Learning Task (1400 words) – 35%
- Assessment 3 – Project/Program Development Task (2000 words) – 50%

## ECE220 – Science 1: Science and Environmental Awareness for Young Children

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: George Aranda*

*Prerequisite: Must have passed 5 credit points at level 1*

*Corequisite: Must be enrolled in E330*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Burwood: 1 x 1 hour class per week, 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): Students are required to attend 2 cloud conferences per trimester. 1 x 2 hour online workshops per week*

## Content

The content is organised around key science concepts cognitively appropriate for babies, toddlers and pre-school children. A range of issues are addressed:

- Science understandings relevant to the early childhood settings;
- The nature of science and its relationship to society and the environment;
- The nature of learning in science and the environment; teaching approaches and strategies for linking science with the other curriculum areas;
- Assessing children's understandings;
- Contemporary issues in curriculum provision and the teaching of science and the environment through play.

Aspects of science that are relevant to early childhood and primary educators are presented – for example, investigation of living things, materials, properties of water, air, electricity and magnetism, light, sound. Environmental concepts are integrated throughout the program. This unit will identify teaching approaches and strategies for supporting learning in early childhood settings. It will demonstrate, through practical activities applied through play, how young children develop their scientific and environmental understandings.

### Assessment

- Assessment 1 – Portfolio activities (equivalent 800 words) – 20%
- Assessment 2 – Probing children's understandings (1200 words) – 30%
- Assessment 3 – Research activity and report (2000 words) – 50%

## ECE230 – Language and Literacy Development in Early Childhood

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Sarah Ohi*

*Prerequisite: Must have passed 5 credit points at level 1*

*Corequisite: Must be enrolled in E330*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Students are required to attend 3 x 3-hour on-campus Seminars per trimester. Weekly learning experiences are also via Cloud Deakin.*

*Scheduled learning activities – cloud (online): Attendance at 2 Cloud Conferences per trimester, 3 x 3-hour online Seminars per trimester. Weekly learning experiences are also via Cloud Deakin.*

### Content

This unit aims to provide students with an in depth understanding of how language and emergent literacy develop in infants and young children. Students investigate theories and approaches to supporting early language and literacy development in children from birth to 8 years and consider their implications for practice. They also learn to assess, monitor and plan for children's language and literacy development.

Topics covered include definitions of language and literacy, the components of spoken language, language development, the role of adult-child interaction in children's language learning, the importance of home literacy practices, accessing quality children's literature and digital texts, storytelling, concepts about print, knowledge of the alphabet, phonemic and phonological awareness and mastering control of writing implements. Students become familiar with how to plan engaging learning experiences and provide supportive environments as a means of nurturing children's development in these areas, with the ultimate goal being that children will become effective communicators.

### Assessment

- Assessment 1 – Oral language development (2000 words) – 50%
- Assessment 2 – Early Literacy development (2000 words) – 50%

## ECE241 – Creative Arts 2: Music and Visual Arts

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Fiona Phillips*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in E330*

*Incompatible with: ECE440*

*Scheduled learning activities – campus: 1 x 2 hour seminar per week. Students will also engage in a 1 hour online workshop per week*

*Scheduled learning activities – cloud (online): Attendance at 2 On campus Cloud Conferences per trimester, 1 x 1 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

### Content

This unit is designed to introduce students to the theory and practice of learning and teaching in and through the visual arts and music. This occurs initially through the development of personal skills in arts practice, exploring and responding to the arts and secondly, in the construction of curricula materials for teaching in and through the visual art and music. Throughout the unit students participate in arts based learning experiences in order to develop personal professional skills and knowledge.

Students will also develop practical skills in the use of e technologies and digital media both for creative expression and for the development of digital e-learning artefacts.

This work is informed by a study of current state, national and international arts education initiatives and research. Throughout the unit, links are made between relevant theories of teaching and learning and their application in contemporary places of learning and teaching both in, and through, the Arts with a focus on music and visual art. Students are encouraged to consider the importance of the arts in interdisciplinary education and are made more aware of where the arts can overlap and combine with other learning areas to support outcomes, in particular the cross curriculum priority of Australian and Torres Strait Islander culture, history, knowledge and perspectives.

### Assessment

- Assessment 1 – Visual art Portfolio (equivalent to 2000 words) – 50%
- Assessment 2 – Music Portfolio (equivalent to 2000 words) – 50%

## ECE312 – Lifespan Development

*Enrolment modes:*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Nicole Downes*

*Trimester 3 Unit Chair: Nicole Downes*

*Prerequisite: Must have passed 5 credit points at level 1 including ECE110*

*Corequisite: Must be enrolled in E330*

*Incompatible with: ECE210*

*Scheduled learning activities – campus:*

*Trimester 2: Burwood: 1 x 2 hour seminar per week.*

*Students will also engage in a 1 hour online workshop per week*

*Trimester 3: Burwood: 3 x 6 hour intensive. 1 x 1 hour online workshop per week*

*Scheduled learning activities – cloud (online):*

*Trimester 2: Attendance at 2 Cloud Conferences per trimester, 1 x 2 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

*Trimester 3: Attendance at 2 Cloud Conferences per trimester, 1 x 2 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

### Content

This unit will investigate the similarities and differences in childhood development. It will focus on individuals with physical, cognitive, or emotional differences and abilities. It will examine differences created by social structures such as family, class, gender, and culture.

The unit will also examine learning theories and their application to teaching context birth – 12 years. Approaches to catering for children with different developmental needs will be provided for critical reflection and discussion. Major theoretical perspectives and current debates related to development will be examined.

*Note: \*CBD refers to Institute of Koorie Education – Community Based Delivery*

### Assessment

- Assessment 1 – Developmental Autobiography (2000 words) – 50%
- Assessment 2 – Focus Report (2000 words) – 50%

## ECE320 – Science 2: Science and Design Technology

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online), Deakin Learning Centres*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Wendy Jobling*

*Prerequisite: ECE220*

*Corequisite: Must be enrolled in E330*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Burwood: 1 x 1 hour class, 1 x 2 hour seminar per week*

*Deakin Learning Centres: 2 x 2 hour intensives, 1 x 2 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

*Scheduled learning activities – cloud (online):*

*Attendance at 2 Cloud Conferences per trimester, 1 x 2 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

### Content

This unit provides students with key pedagogical and theoretical knowledge related to the teaching of science to children in primary school settings. Students will critically engage with relevant curriculum documents and develop teaching strategies appropriate to the teaching of science.

## Assessment

- Assessment 1 – Portfolio – science activities (800 words) – 20%
- Assessment 2 – Teaching for quality learning in science (2000 words) – 50%
- Assessment 3 – Integrated science and technology design task (1200–2000 words) – 30%

## ECE330 – Multiliterate Learners in Early Years and School Environments

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online), Deakin Learning Centres*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Andrew Eyers*

*Campus contact: Andrew Eyers (Burwood (Melbourne))  
Maria Nicholas (Waurin Ponds (Geelong), Warrnambool,  
Deakin Learning Centres)*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in E330*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Burwood: T1: 1 x 2 hour seminars per week. Students will also engage in a 1 hour online workshop per week  
Deakin Learning Centres: 2 x 2 hour face to face intensive per trimester, 1 x 1 hour online workshop per week, 6 x 1 hour online class per trimester (recordings provided)*

*Scheduled learning activities – cloud (online):*

*Attendance at 2 Cloud Conferences per trimester, 1 x 1-hour online workshop per week, 6 x 1-hour online class per trimester (recordings provided)*

## Content

This unit is designed to prepare teachers of literacy and English in the information age. Students will examine the development of listening, speaking, reading and writing/creating print, digital and multimodal texts in the early and later years of schooling. Students will research the needs of diverse young literacy learners and contemporary literacy and English teaching practice and will engage with a variety of pedagogical and assessment approaches, and explore a range of literacies encountered by young learners including visual and digital literacies. Reflection on personal learning and performance is a core aspect of the unit.

## Assessment

- Assessment 1 – Engagement with a literacy teaching program (2000 words) – 50%
- Assessment 2 – Engagement with a literacy learner (2000 words) – 50%

## ECE340 – Creative Learning Through the Arts

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Fiona Phillips*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in E330*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Burwood: 1 x 2 hour seminar per week. Students will also engage in a 1 hour online workshop per week*

*Scheduled learning activities – cloud (online):*

*Attendance at 2 Cloud Conferences per trimester, 1 x 1 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

## Content

This unit introduces students to teaching and learning in, about and through the arts in early childhood. Students engage with creative theories and pedagogies by being immersed in music visual arts, and media arts. A focus of the unit is on students developing their competencies as teachers, artists and researchers in the arts. By exploring both discipline-specific concepts and knowledge and integrated curriculum approaches, students gain an understanding of how to plan and implement creative arts experiences in educational programs. Students will extend practical skills in the use of e technologies and digital media both for creative expression and for the development of digital e-learning artefacts. Their work is informed by current national and international debate on creativity and arts education initiatives and research including, but not limited to, STEM to STEAM, Creativity and Innovation and Cultural identity.

## Assessment

- Report (1800 words or equivalent) – 40%
- Resource and Curriculum Package (2200 words or equivalent) – 60%

## ECE345 – Integrated Science and Technology Education

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online), Deakin Learning Centres*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Coral Campbell*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in E330*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Burwood: 1 x 1 hour Class per week, 1 x 2 hour*

*Seminar per week*

*Deakin Learning Centres: Learning experiences are via CloudDeakin. Students are also required to attend 3 x 3 hour intensives at the Waurn Ponds campus or Deakin Learning centres*

*Scheduled learning activities – cloud (online): Learning experiences are via CloudDeakin. Students are also required to attend 3 x 3 hour intensives at the Waurn Ponds campus or Deakin Learning centres*

### Content

This unit is designed to develop an informed and critical perspective on the ways in which science & technology (DCT & ICT) might relate to real world problems. The key ideas underpinning this unit are the integration of exemplars of digital and design resources within the key ideas of science and/or mathematics, using critical engagement with relevant research literature to determine the most effective use of these resources. The unit provides participants with the challenge to improve their personal digital/ICT skills whilst giving them ideas which can be incorporated into most integrated science/technology areas. Participants will be introduced to range of digital tools, devices and the Australian Maker movement.

### Assessment

- Assessment 1 – Readings responses (1200 words) – 30%
- Assessment 2 – Essay (1600 words) – 40%
- Assessment 3 – Presentation (10 minutes) – 30%

## ECE360 – Protective Education and Child Well-Being

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online), Deakin Learning Centres*

*Trimester 3: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Nicole Downes*

*Trimester 3 Unit Chair: Nicole Downes*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in E330*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Trimester 1: Burwood: 1 x 2 hour seminar per week. Students will also engage in a 1 hour online workshop per week*

*Deakin Learning Centres: 2 x 2 hour face to face intensive per trimester, 1 x 2 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

*Trimester 3: Burwood: 3 x 6 hour intensive. 1 x 1 hour online workshop per week*

*Scheduled learning activities – cloud (online):*

*Trimester 1: Attendance at 2 Cloud Conferences per trimester, 1 x 2 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

*Trimester 3: Attendance at 2 Cloud Conferences per trimester, 1 x 2 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

### Content

In this unit, students will be introduced to relevant legislation, policies and practices essential to securing children's safety, with children's rights and professional ethics forming a conceptual framework. Child maltreatment and child protection will provide a major focus together with appropriate responses via policies, ethical practices, statutory requirements and preventive curriculum work. Attendant professional roles and obligations will be considered. Key topics include:

- Children's rights and the UN Convention on the Rights of the Child;
- Australian Early Childhood Association's Code of Ethics: professional implications;
- Child maltreatment and its impact on child development, e.g. trauma and learning;
- Professional and legal responsibilities for notification and support;
- Types of child maltreatment, their dynamics, and availability of community resources;

- Indicators of the various types of child abuse; supportive handling of disclosures of abuse, responding appropriately via child abuse prevention; policy, protocols and personal safety teaching.

## Assessment

- Development of a Child Safe Policy (1600 words) – 40%
- Response to case study scenario (1600 words) – 40%
- Online/in class participation (800 words) – 20%

## ECE370 – Guiding Engaged, Resilient Learners

*Enrolment modes:*

*Trimester 1: Burwood, Cloud (online), Deakin Learning Centres (online)*

*Trimester 3: Burwood, Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Kerry Archdall*

*Trimester 3 Unit Chair: Kerry Archdall*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in E330*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Trimester 1: Burwood: 1 x 2 hour seminar per week. Students will also engage in a 1 hour online workshop per week*

*Deakin Learning Centre: 2 x 2 hour face to face intensive per trimester, 1 x 2 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

*Trimester 3: Burwood: 3 x 6 hour intensive. 1 x 1 hour online workshop per week*

*Scheduled learning activities – cloud (online):*

*Trimester 1: Attendance at 2 Cloud Conferences per trimester, 1 x 2 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

*Trimester 3: Attendance at 2 Cloud Conferences per trimester, 1 x 2 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

## Content

This unit aims to introduce developmentally responsive approaches to the promotion of prosocial behaviours in early childhood and primary settings. Students are encouraged to explore children's behaviour as communication and to develop strategies and environments which support children's emerging capacities for self-regulation.

Topics include: the major dimensions of social-emotional development, for example, temperament, attachment, self-concept, empathy, relationships with parents, peers and teachers and the need to actively teach social skills (e.g. turn taking and sharing). Challenging behaviours are explored through the formulation of individualised behaviour management plans based on observation, analysis and interpretation and the use of positive strategies and educational planning in a manner which fosters children's ability to self-regulate in early childhood and school settings.

## Assessment

- Assessment 1 – Evaluating the learning environment (2000 words) – 50%
- Assessment 2 – Individualised Learning Plan (2000 words) – 50%

## ECE404 – Inclusive Education for Young Children

*Enrolment modes:*

*Trimester 2: Burwood (Melbourne), Cloud (online), Deakin Learning Centres*

*Trimester 3: Burwood (Melbourne), Cloud (online), Deakin Learning Centres*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Nicole Downes*

*Trimester 3 Unit Chair: Nicole Downes*

*Cohort rule: Student must be enrolled in course E330*

*Prerequisite: Students must have completed 10 credit points*

*Corequisite: Nil*

*Incompatible with: ECE350, ECE465*

*Scheduled learning activities – campus:*

*Trimester 2: Burwood: 1 x 2 hour seminar per week. Students will also engage in a 1 hour online workshop per week*

*Deakin Learning Centres: 2 x 2 hour face to face intensive per trimester, 1 x 2 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

*Trimester 3: Burwood: 3 x 6 hour intensive. 1 x 1 hour online workshop per week*

*Deakin Learning Centres: 2 x 2 hour face to face intensive per trimester, 1 x 2 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

*Scheduled learning activities – cloud (online):*

*Trimester 2: Attendance at 2 Cloud Conferences per trimester, 1 x 2 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

*Trimester 3: Attendance at 2 Cloud Conferences per trimester, 1 x 2 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

## Content

This unit informs students' practice in the promotion of inclusion and equity of children and their families who experience or may be at risk of vulnerability. Through critical inquiry into contemporary theories, policies and practices on inclusive education and diversity, this unit develops students' understanding of a range of differences that can influence children's engagement and learning outcomes in early childhood and school contexts (e.g., individual ability, disability, family structure, social, socioeconomic, cultural and religious). The unit also aims to develop students' awareness, knowledge and skills of why and how inclusive education can be created. Rights-based pedagogical approaches which position teachers as change agents frame the unit. Topics include conceptualizing inclusivity, social justice, policies and discourses on the rights of children, indigenous community, people with disabilities, working with children who are gifted, and children's social, cultural and linguistic diversity. PSTs will engage with legislation, the ECA Code of Ethics and the VIT Code of Conduct to examine the challenges, contexts and issues that inform inclusive practice.

## Assessment

- Assessment 1 – Literature review (1500 words) – 40%
- Assessment 2 – Report (1500 words) – 40%
- Assessment 3 – Online peer discussion (1000 words) – 20%

# ECE420 – Supporting Children Making Transitions

*Enrolment modes:*

*Trimester 2: Burwood (Melbourne), Cloud (online), Deakin Learning Centres (online)*

*Trimester 3: Burwood (Melbourne), Cloud (online), Deakin Learning Centres (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Carole Lanting*

*Trimester 3 Unit Chair: Carole Lanting*

*Cohort rule: Must be enrolled in E330*

*Prerequisite: Students must have completed 10 credit points before they can enrol in this unit.*

*Corequisite: Nil*

*Incompatible with: ECE350*

*Scheduled learning activities – campus:*

*Trimester 2: Burwood: 1 x 2 hour seminar per week.*

*Students will also engage in a 1 hour online workshop per week*

*Deakin Learning Centres: 2 x 2 hour face to face intensive per trimester, 1 x 2 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

*Trimester 3: Burwood: 3 x 6 hour intensive. 1 x 1 hour online workshop per week*

*Deakin Learning Centres: 2 x 2 hour face to face intensive per trimester, 1 x 2 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

*Scheduled learning activities – cloud (online):*

*Trimester 2: Attendance at 2 Cloud Conferences per trimester, 1 x 2 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

*Trimester 3: Attendance at Cloud Conferences per trimester, 1 x 2 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

## Content

This unit focuses on knowledge and skills teachers require to be able to support children making transitions, whether the transition is from home to early childhood education and care (ECEC) settings, moving from one age group in ECEC settings to another, from ECEC settings to school, participating in before or after school programs, or from home to school. The unit will examine the teacher's role in supporting children's transition, including preparing children for transition, planning transition activities that maintain children's sense of agency and adhering to relevant curriculum and policy guidelines. It will focus on how to develop positive relationships with families, local community members and other professionals to ensure transition practices are inclusive and equitable. As part of this unit PSTs will critique key stakeholder perspectives, analyse transition policies and develop a transition plan.

## Assessment

- Assessment 1: (Individual) – Policy Critique (2000 words) – 50%
- Assessment 2: (Individual) – Transition Plan (2000 words) – 50%

## ECE430 – Teacher as Researcher

*Enrolment modes:*

*Trimester 1: Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Natalie Robertson*

*Trimester 3 Unit Chair: Natalie Robertson*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in E330*

*Incompatible with: ESE499*

*Scheduled learning activities – cloud (online): 1 x 1 hour Online Collaboration session per month, learning experiences are also via CloudDeakin*

*Professional Experience: Students will be required to attend 35 hours of industry experience*

### Content

This unit involves students undertaking supervised individual or small group projects relevant to their specialist early years teaching course and profession. The specific topic must be negotiated with and approved by the staff member appointed to supervise the project. The project involves posing important questions, implementing their specialised knowledge in 35 hours of practice, conducting a relevant literature review, investigating and reporting findings. It is expected that students will develop a deeper understanding of their specialised early years' discipline area, and will research and apply established theories to a body of knowledge or practice. Also they will critically analyse and communicate research findings in their chosen area. The format of the final presentation is a matter for joint discussion and agreement between the student and the supervisor.

### Assessment

- Assessment 1 – Research plan (800 words) – 20%
- Assessment 2 – Literature Critique (1600 words) – 40%
- Assessment 3 – Final presentation (1600 words) – 40%

## ECE455 – Effective Primary Mathematics Learning

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online), Deakin Learning Centres*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Virginia Kinnear*

*Prerequisite: For students commencing from 2017 – ECE211. For students commencing prior to 2017 – ECE113.*

*Corequisite: Must be enrolled in E330*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Burwood: 1 x 3 hour seminar per week  
Deakin Learning Centres: 2 x 2 hour face to face intensive per trimester, 1 x 2 hour online workshop per week, 3 x 1 hour online class per trimester (recordings provided)*

*Scheduled learning activities – cloud (online): Attendance at 2 Cloud Conferences per trimester, 1 x 2-hour online workshop per week, 3 x 1-hour online class per trimester (recordings provided)*

### Content

Topics to be addressed in this unit include:

- children's construction of mathematical concepts in the social environment of the home, classroom and wider community;
- the role of play in mathematical development;
- the development of children's early mathematical concepts;
- the four operations for whole numbers;
- fundamental concepts of vulgar fractions;
- the development of concepts for the measurement of length, area, mass, time, and volume/capacity;
- choosing and using effective resources for learning primary mathematics;
- the use of calculators in primary mathematics;
- involving parents in children's learning of mathematics;
- appropriate ways of incorporating the use of a range of learning technologies in the teaching of primary mathematics;
- assessing and reporting children's mathematical development; and
- state, national and international policies, programmes, and resources for developing and assessing children's mathematical development.

### Assessment

- Assessment 1 – (equivalent to 800 words) – 20%
- Assessment 2 – (equivalent to 1200 words) – 30%
- Assessment 3 – (equivalent to 2000 words) – 50%

## ECE491 – Perspectives of Management and Leadership

*Enrolment modes:*

*Trimester 2: Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Naomi David*

*Trimester 3 Unit Chair: Naomi David*

*Cohort rule: Must be enrolled in course E330*

*Prerequisite: Students must have completed 10 credit points before enrolling in this unit*

*Corequisite: Nil*

*Incompatible with: ECE390*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including scheduled online seminars once a month. In addition to this there are 3 additional online sessions to support assessment development.*

### Content

This unit will give students knowledge about educational leadership. Students will find and review appropriate literature about leadership in educational settings and apply this to contexts of their choosing. They will review and critique scholarly literature and will synthesise their findings identify strategies that leaders in a specific role in educational leadership might apply to problem-solving and consider the knowledge's and skills they would need to fulfil such a role. Unit content will include student's research into legislative areas in both the early childhood and primary sectors. Furthermore, students will discuss leadership as a means to increase their professional learning through their own and others teaching performance, as well as children's learning. Student's will engage in professional learning through the development of a collaborative ePortfolio will provide opportunities for self and professional critique by the means of networking and research. Students will engage with the ECA Code of Ethics and the VIT Code of Conduct to review ethical dilemmas and seek to understand professional responsibilities and the implications of ethical decision-making in leadership.

### Assessment

- Assessment 1 – Literature Review (2400 words) – 60%
- Assessment 2 – Portfolio, group task (1600 words equivalent per student) – 40%

## ECE761 – Early Childhood Pedagogy, Curricula and Programmes

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Anne-Marie Morrissey*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in E760, E761 or E764*

*Incompatible with: Nil*

*Scheduled learning activities – campus: This unit is based on a Blended Learning delivery approach. You are expected to participate in all learning experiences designed and scheduled for you on campus (seminars, classes or incursions) or other learning contexts (excursions) and engage in associated online learning resources along with independent study for a combined equivalent engagement of 8–10 hours per week. This will include equivalent of 3 hours per non placement week of structured on campus learning activities or equivalent hours in intensive delivery.*

*Scheduled learning activities – cloud (online): This unit shares the Blended Delivery modules and resources with on campus students. Time engaging in learning activities is expected to total a combined equivalent of 8–10 hours per week. This includes engagement with materials, responses to tasks, regular forum posting and responding to others, scheduled synchronous online discussions and independent study. Your expected participation in scheduled synchronous discussions is a minimum of 3 hours per trimester.*

### Content

Students will examine past and present early childhood theorists and contexts to determine the manner and extent to which ideas about childhood, children and teaching have been influential in shaping the practice of early childhood educators. The unit investigates the ways in which children's prior experiences shapes their interactions with their environments; it outlines the key characteristics of creative environments; and it provides opportunities for students to work with diverse media and materials in the construction of creative and rich learning environments.

### Assessment

- Assessment 1 – Critical reflection on a curriculum model – 50%
- Assessment 2 – Planning and evaluation of a learning environment – 50%

## ECE762 – Language and Literacy

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Sarah Ohi*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in E760, E761 or E764*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Burwood: 1 x 3 hour Seminar per week over 3 weeks*

*Scheduled learning activities – cloud (online):*

*Online independent and collaborative learning activities including 3 x 3 hour scheduled Collaborate sessions and weekly engagement with materials and responses in discussion forums.*

### Content

Topics covered in this unit include how infants, toddlers and young children develop language and literacy skills; the influence of family and community contexts on children's acquisition of language; pedagogical strategies for addressing and promoting children's literacy; programming for language and literacy activities; identifying and utilising appropriate resources to further language and literacy development with children birth to five years in early childhood settings.

### Assessment

- Assessment 1 – Short answer or multiple-choice quiz on key concepts – 10%
- Assessment 2 – Portfolio of inquiry based tasks – 60%
- Assessment 3 – Small group oral presentation based on research on a negotiated issue – 30%

## ECE763 – Science and Environmental Awareness

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Wendy Jobling*

*Campus contact: Lihua Xu (Cloud (online))*

*Wendy Jobling (Burwood (Melbourne))*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in E760, E761 or E764*

*Incompatible with: ECE402*

*Scheduled learning activities – campus:*

*Burwood: 1 x 3 hour Seminar per week*

*Scheduled learning activities – cloud (online):*

*Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

This unit provides students with key pedagogical and theoretical knowledge related to the teaching of science and environmental understandings to children in early childhood educational settings. Students will engage with relevant curriculum documents and develop teaching strategies appropriate to the teaching of science and environmental understanding.

### Assessment

- Assessment 1 – Probing Children's understandings (1800 words) – 30%
- Assessment 2 – Teaching for Quality Learning in Science and other disciplines – Research Reports (3000 words) – 50%
- Assessment 3 – Four seminar/On-line responses (1200 words) – 20%

## ECE764 – Young Children's Mathematics

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Virginia Kinnear*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in E760, E761 or E764*

*Incompatible with: ECE302*

*Scheduled learning activities – campus:*

*Burwood: 1 x 3 hour Seminar per week, learning experiences are also via CloudDeakin*

*Scheduled learning activities – cloud (online):*

*Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

This unit develops specialist knowledge and understanding of current theories, curricula and practice in early year's mathematics learning and teaching, and examines how mathematics relates to all aspects of children's lives.

Particular foci are young children's mathematical competencies and potential and the development of foundational mathematical concepts, skills and dispositions early mathematical thinking and reasoning, and language.

Students will participate in practical work in professional settings to enable them to design, plan for and assess inclusive, engaging and effective mathematical learning environments for children in prior-to-school settings.

## Assessment

- Foundation knowledge for practice: Written paper that identifies and evaluates mathematical beliefs, knowledge and practices for planning effective mathematical learning experiences with young children (1600 words) – 40%
- Planning for the implementation and assessment of a mathematics learning sequence: Building on AT1, students plan for a sequence of mathematics learning experiences, and critically reflect on the mathematical learning purpose and its assessment (2400 words) – 60%

## Pre-reading

A Good Start to Numeracy, which is available from:  
[http://research.acer.edu.au/learning\\_processes/3/](http://research.acer.edu.au/learning_processes/3/)

And from the Deakin University library: Hughes, A. (2010). *Developing play for the under 3s* (2nd Ed). Routledge, London. Hughes, A. (2009). *Problem solving, reasoning and numeracy in the Early Years Foundation Stage*. Routledge, London.

## Essential

Montessori mathematics resources Sample Treasure Basket

## ECI226 – Professional Teaching Practice and Child Study (Birth to 3 Years)

*Enrolment modes:*

*Trimester 1: Off Shore*

*Trimester 2: Off Shore*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Bonnie Yim*

*Trimester 2 Unit Chair: Bonnie Yim*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in E331*

*Incompatible with: ECP226, ECP410, IND201*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 3 x 2 hour scheduled intensive Collaborate sessions and weekly engagement with materials and responses in discussion forums.*

## Content

This unit will provide students with opportunities to engage with the education and care of children from birth to two years of age. Students will engage with infants and very young children, teachers and families and will be able to critically analyse and reflect on the components of quality environments and programmes for infants and very young children. Students will be able to make critical connections between theory and practice, and incorporate their understandings about the local/national/international legislative and regulatory requirements, including the accreditation requirements, and curriculum documents in the context of teaching, learning and care for children from birth to three years of age.

## Assessment

- Assessment 1 – Online Contribution (equivalent to 1600 words) – 20%
- Assessment 2 – Reflective Journal (2400 words) – 30%
- Assessment 3 – Critical self-review (equivalent to 4000 words) – 50%

## ECI305 – Professional Experience (3–6 Years)

*Enrolment modes: Trimester 2: Off Shore*

*Final year of offer 2019*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Karen Guo*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in E331*

*Incompatible with: ECP305*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including some scheduled Collaborate sessions throughout the trimester and weekly engagement with materials and responses in discussion forums.*

## Content

This unit will provide students with opportunities to teach and observe interactions between teachers and children from three to six years of age. Students will engage with children and teachers and will be able to critically analyse and reflect on the components of quality environments and curriculum. Students will be able to make critical connections between theory and practice, and incorporate their understandings about the local/national curriculum and the teachers' standards in the context of their own competencies.

## Assessment

- Assessment 1 – Reflective Journal (1600 words) – 40%
- Assessment 2 – Assessment and planning for learning (2000 words) – 50%
- Assessment 3 – Online discussion (400 words) – 10%

## ECI320 – Science and Design Technology

*Enrolment modes: Trimester 1: Off Shore*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Wendy Jobling*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in E331*

*Incompatible with: ECE320*

*Scheduled learning activities – cloud (online): Learning experiences are via CloudDeakin. Students are also required to attend 4 hours a day for 5 days.*

## Content

This unit provides students with key pedagogical and theoretical knowledge related to the teaching of science to children in primary school settings. Students will critically engage with relevant curriculum documents and develop teaching strategies appropriate to the teaching of science.

## Assessment

- Assessment 1 – Portfolio – science activities (800 words) – 20%
- Assessment 2 – Teaching for quality learning in science (2000 words) – 50%
- Assessment 3 – Integrated science and technology design task (1200 words) – 30%

## ECI330 – Multiliterate Learners in Early Years and School Environments

*Enrolment modes: Trimester 1: Off Shore*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Angela Mcniven*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in E331*

*Incompatible with: ECE330*

*Scheduled learning activities – cloud (online): Learning experiences are via CloudDeakin. Students are also required to attend 5 x 4 hour intensives.*

## Content

This unit is designed to prepare teachers of literacy and English in the information age. Students will examine the development of listening, speaking, reading and writing/creating print, digital and multimodal texts in the early and later years of schooling. Students will research the needs of diverse young literacy learners and contemporary literacy and English teaching practice and will engage with a variety of pedagogical and assessment approaches, and explore a range of literacies encountered by young learners including visual and digital literacies. Reflection on personal learning and performance is a core aspect of the unit.

## Assessment

- Assessment 1 – Engagement with a literacy learner (2000 words) – 50%
- Assessment 2 – Engagement with a literacy teaching program (2000 words) – 50%

## ECI350 – Transition Case Study

*Enrolment modes: Trimester 2: Off Shore*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 2 Unit Chair: Anna Kilderry*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in E331*

*Incompatible with: ECE350*

*Scheduled learning activities – cloud (online): Learning experiences are via CloudDeakin. Students are also required to attend 4 hours per day for 5 days.*

## Content

This unit explores research-based and experience-based issues of transition in early childhood education. Reading, discussions, and different sources of data will be used to identify key elements for individual case studies. Ethical considerations and methods of data collection are also undertaken. Students will contribute to a bibliography and present a case study proposal.

## Assessment

- Assessment 1 – Critique of Stakeholder perspectives (2500 words) – 30%
- Assessment 2 – Literature review (2500 words) – 30%
- Assessment 3 – Case study final report (3000 words) – 40%

## ECI390 – Management and Leadership

*Enrolment modes: Trimester 1\*: Off Shore*

*Credit point(s): 1*

*Trimester 1 Unit Chair: Bonnie Yim*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in E331*

*Incompatible with: ECE390*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 3 x 2 hour scheduled intensive Collaborate sessions and weekly engagement with materials and responses in discussion forums.*

## Content

This unit will give students industry experience related to the early childhood profession. Students will find appropriate placements in settings where they can learn more about and/or practice of professional advocacy, leadership and management. These include local, state, regional, and cluster offices; professional associations; union offices, child care or kindergarten management committees or parent and community organisations; local and regional press offices; vocational training institute and other registered training providers; health and social advocacy agencies; professional networks; parent associations; and migrant services. Placements need to be approved as able to provide work experience that will help broaden students' knowledge and experience of leadership and management.

*Note: \*Final year of offer 2019*

## Assessment

Assessment 1 – Situated learning (35 hours) – 100%

## ECL210 – Multiliterate Learners in Early Years Environments

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrnambool, Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Maria Nicholas*

*Previously: Language and Literacy: The Early Years*

*Cohort rule: Must be enrolled in E359 or E200*

*Campus contact: Andrew Evers (Burwood (Melbourne))*

*Maria Nicholas (Waurin Ponds (Geelong))*

*Terri Redpath (Warrnambool)*

*Prerequisite: For E359 students: Must have passed 5 credit points at level 1. For E200 students: Must have passed at least three units from EAD110, EAD111, EAD112, EAD113*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week. Learning experiences are also via CloudDeakin.*

## Content

This is the second in a four-unit sequence within the Bachelor of Education (Primary) degree designed to prepare primary school teachers of literacy and English in the information age. This unit examines the development of listening, speaking, reading and writing/creating print, digital and multimodal texts in the early years of schooling (Prep-2). Through fieldwork in young learners' homes and schools, and engagement with theoretical frameworks, students research the needs of diverse young literacy learners and contemporary literacy and English teaching practices in the early years of schooling. Students engage with a variety of pedagogical and assessment approaches and explore a range of literacies encountered by young learners including visual and digital literacies. Reflection on personal learning and performance is a core aspect of the unit.

## Assessment

- Engagement with an Early Years learner – 40%
- Engagement with an Early Years teaching program – 40%
- Assessment 3 (Group) – Group Multimodal Presentation – 20%

## ECL306 – Teaching and Learning Languages in Primary Contexts

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Michiko Weinmann*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in A225, A221, A222, A223 or A224 including enrolment in one unit from A221, A222, A223 or A224*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

*Learning experiences are also via CloudDeakin*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities*

### Content

This unit provides an extensive overview of contemporary languages teaching methodology, in particular how it relates to primary contexts. It considers the ways that languages are learnt by diverse students in different contexts. This unit aims to develop a comprehensive understanding of the context of languages education with a view to critically evaluating and reflecting on the history of the discipline, the contemporary policy context the implementation of current approaches to pedagogy provision, in particular integrated approaches such as CLIL. In this unit students explore languages acquisition theory and its implications for languages teaching and a wide range of languages teaching methodologies. Students will apply different strategies for teaching assessment and evaluation and implement these in their assessments.

*Note: Commencing 2019*

### Assessment

- Assessment 1 – Evaluative report (2000 words) – 50%
- Assessment 2 – Lesson plans with introduction and rationale (equivalent to 2000 words) – 50%

## ECL307 – Introduction to the International Baccalaureate Primary Years Programme (IBPYP)

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Claire Charles*

*Prerequisite: Nil*

*Corequisite: ETP300*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour seminar per week.*

### Content

This unit will introduce students to key philosophy, principles and theories relating to the International Baccalaureate Primary Years Programme. Its position as an international curriculum will be analysed and concepts such as international mindedness will be considered. Students will develop an understanding of transdisciplinary inquiry and learn how to develop an inquiry unit. They will consider the way the IBPYP aims to develop the whole child through the Learner Profile and reflect on this curriculum model of holistic learning. The relationship between curriculum planning, assessment and learning in the IBPYP will be examined.

### Assessment

- Assessment 1 – Folio of PYP Elements (Individual) (2000 words equivalent) – 50%
- Assessment 2 – Transdisciplinary Inquiry Unit (Group) (2000 words equivalent) – 50%

## ECL310 – Multiliterate Learners in Middle Years Environments

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrnambool, Warrnambool (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Joanne Quick*

*Previously: Developing Language and Literacy: The Middle Years*

*Campus contact: Andrew Evers (Burwood (Melbourne))*

*Jo Quick (Warrnambool (Geelong))*

*Terri Redpath (Warrnambool)*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

*Learning experiences are also via CloudDeakin*

### Content

This is the third in a four-unit sequence within the Bachelor of Education (Primary) degree designed to prepare primary school teachers of literacy and English in the information age. This unit examines the development of listening, speaking, reading and writing/creating print, digital and multimodal texts in the middle years of primary schooling (Years 3 to 6). Through fieldwork in middle year's learners' language and literacy learning environments, and engagement with theoretical frameworks, students research the needs of diverse literacy learners and contemporary literacy and English teaching practices in the middle years of schooling.

Students engage with a variety of pedagogical and assessment approaches and explore a range of literacies encountered by middle year's learners including visual and digital literacies. Students will also critically analyse and reflect on these approaches and range of literacies to plan effective teaching and learning programmes for middle year's learners. Reflection on personal learning and performance is a core aspect of the unit

### Assessment

- Assessment 1 – Literacy Learning Profile (2000 words) – 50%
- Assessment 2 – Literature-based Plan (2000 words) – 50%

## ECL350 – Teaching EAL/D Students

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Rod Neilson*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

The aim of this unit is to provide knowledge and skills to help deal effectively with learners for whom the mainstream medium of instruction is a second or additional language. Given the importance of English both locally and internationally and the increasing flow of people in the globalised economy, every teacher is engaged to a greater or lesser extent in bilingual education or second or additional language teaching. This elective looks at how teaching in English-medium schools can be structured to meet the language needs of learners for whom it is a second or additional language and to enhance the cross-cultural understanding and skills of all.

*Note: Commences 2019*

### Assessment

- Assessment 1 – Research Essay (2000 words) – 50%
- Assessment 2 – Case Study report (2000 words) – 50%

## ECL351 – Diversity, Language and Literacy

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Anne Cloonan*

*Prerequisites: For E330 BEd (EYs) students: ECE230 and ECE330. For E359 BEd (Prim) students: ECL210 and one of ALM101 or ALL230*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Learning experiences are via CloudDeakin*

### Content

This unit aims to develop an understanding of the impact of cultures, cultural identities and diversity on language and literacy teaching and learning. Participants explore diverse texts including digital and print Aboriginal and Torres Strait Islander, migration and other cultural narratives, poems, songs, films, websites, etc. Participants will become familiar with a range of curriculum documents and policy documents related to diversity, language and literacy and will use these to inform teaching practice. Pedagogical approaches that support language and literacy learning and development of intercultural understanding in diverse primary classrooms will be explored.

Specifically this unit includes:

- the building of knowledge of contemporary literacy learner identities and diverse contexts for learning
- the development of intercultural understanding through language, literature and literacy
- the development of knowledge about and curation of print and digital resources for language and literacy teaching
- analysis of National and State curriculum policy including general capabilities and cross curriculum priorities
- exploration of literacy pedagogies for students with diverse learning needs in print and multimodal environments.

### Assessment

- Assessment 1 – Interview with a primary school teacher and textual audit of resources for a literacy unit (2000 words) – 50%
- Assessment 2 – Planning and teaching for diversity (2000 words) – 50%

## ECL410 – Literacy Teacher – Researchers in New Times

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrnambool, Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Kirsten Hutchison*

*Campus contact: Kirsten Hutchison (Burwood (Melbourne))*

*Louise Paatsch (Waurin Ponds (Geelong))*

*Terri Redpath (Warrnambool)*

*Prerequisite: ECL210 and ECL310*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 3 hour weekly Workshop, located in schools (6 weeks) and on campus (5 weeks)*

*Learning experiences are also via CloudDeakin*

### Content

This is the fourth in a four-unit sequence within the Bachelor of Education (Primary) degree designed to prepare primary school teachers of literacy and English in the information age. The unit emphasises the development of research skills as a key dimension of effective literacy teaching. The content of this unit is focused on the development and articulation of each student's personal theory of literacy teaching and learning, through critical engagement with empirical research and reflective practice. Students examine and critique current issues associated with the teaching of Literacy including the role of new technologies in literacy teaching, teaching English as Second Language (ESL), Integration policies and programs, the literacy needs of Indigenous learners, inclusive teaching and learning within socio-culturally and linguistically diverse communities, working with parents, schools and wider communities. Participants consider and revisit the use of a range of assessment strategies in literacy teaching and how additional assistance in literacy can be implemented in the classroom. Emphasis is given to accessing the professional resources available and how these might support beginning teachers in their daily work, the role of professional associations, ongoing professional development and support networks available to beginning teachers.

### Assessment

- Assessment 1 – Critical Reflection (2000 word essay) – 50%
- Assessment 2 – Group Investigation and Presentation (2000 word research report and presentation) – 50%

## ECL461 – English Education A

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Jo O'Mara*

*Cohort rule: Must be enrolled in D347, E359, E360, E365, E377 or E455*

*Literature studies sub-major or equivalent is strongly recommended. In addition, at least two credit points in language/linguistics studies are also strongly recommended for D347 students*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

The unit examines issues in the teaching of language/English curriculum in the middle and final years of compulsory education, linking to work completed in the early years of schooling and looking forward to the teaching of English at senior levels. There are four interrelated studies comprising development of oracy and literacy skills, English curricular models, teaching literature/cultural studies in both print and non-print forms and the analysis of language development theories. Attention will also be given to the study of the relationships between language and learning.

*Note: Waurin Ponds (Geelong) course enrolled students are advised to enrol in the Cloud (online) mode of this unit*

### Assessment

- Assessment 1 – A group oral presentation (approximately half hour duration) – 50%
- Assessment 2 – A major assignment linking theories of English teaching to classroom practice in the English area – 50%

Assessment will total 4000 words or equivalent.

## ECL462 – English Education B

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Lucinda McKnight*

*Cohort rule: Must be enrolled in D347, E365, E377, or E455*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including completing seminar work (1 x 2hrs per week) and participating in discussion forums (1 x 1hr per week).*

### Content

The unit focuses primarily on the teaching of English in the post-compulsory years, with particular, but not exclusive, reference to senior English and Literature. It consolidates work completed in curriculum studies in ELE404/ECL461, particularly in relation to oracy, the teaching of texts and the development of response in the senior years, the presentation of issues and argument and the further development of writing. Models of assessment and reporting at this level will be examined, and major external influences and issues affecting the English curriculum, past and present, will be reviewed.

*Note: Students enrolled at Waurin Ponds (Geelong) are advised to enrol in the Cloud (online) version of this unit*

### Assessment

Assessment will be two assignments linking theory and practice:

- Assessment 1 – Planning for and Teaching Writing (2000 words or equivalent) – 50%
- Assessment 2 – Assessing and Responding to Students' Writing (2000 words or equivalent) – 50%

## ECL761 – English Education A

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Jo O'Mara*

*Cohort rule: Must be enrolled in D303, E760, E763, E763T, E764 or E765*

*Prerequisite: Literature studies sub-major or equivalent.*

*D303 students must have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%, otherwise Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 3 hour seminar per week (readings and recordings provided)*

### Content

This unit focuses on the practices of being a secondary English teacher, approaches to teaching different elements of the English curriculum and issues in the teaching of language/ English curriculum. The course focuses on how to develop students' skills in speaking, listening, reading, viewing and writing in the middle years of compulsory education, looking forward to the teaching of English at senior levels. Attention will also be given to lesson planning, English curricular models, teaching literature/cultural studies in both print and non-print forms and the analysis of language development theories.

### Assessment

- Written assignment (2500 words) – 50%
- Assessment 2 (Group) – Oral Presentation (duration approximately 30 minutes) – 50%

## ECL762 – English Education B

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Lucinda McKnight*

*Cohort rule: Must be enrolled in D303, E760, E763, E763T, E764 or E765*

*Prerequisite: ECL761. D303 students must also have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including completing seminar work (1 x 2hrs per week) and participating in discussion forums (1 x 1hr per week).*

### Content

The unit focuses primarily on the teaching of English in the post-compulsory years, with particular, but not exclusive, reference to senior English and Literature. It consolidates work completed in curriculum studies in ECL761, particularly in relation to oracy, the teaching of texts and the development of response in the senior years, the presentation of issues and argument and the further development of writing. Models of assessment and reporting at this level will be examined, and major external influences and issues affecting the English curriculum, past and present, will be reviewed.

### Assessment

- Assessment 1 – Planning for and Teaching Writing (2500 words or equivalent) – 50%
- Assessment 2 – Assessing and Responding to Students' Writing (2500 words or equivalent) – 50%

## ECM710 – An Inquiry Based Approach to Leading with Data and Evidence

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Shaun Rawolle*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning experiences including one optional scheduled weekend intensive each year.*

### Content

Alongside the growth of public accountability, education institutions have available to them a wide and growing range of data sources that provide evidence of student learning and help pinpoint trends across schools and education institutions. The growth of data and evidence in education poses great opportunities for education leaders, and increasing demands on leaders to draw on data and evidence judiciously to navigate institutions and make informed decisions about strategy and direction. Successful leaders of education institutions do this in challenging times and in anticipation of future circumstances. This unit considers the broader context in which the call for data and evidence sits, including greater public scrutiny of education institutions for trends in learning outcomes, and expectations of the broader community for schools to lead communities. This unit considers the link between data sources and evidence which support an inquiry-based approach to leadership, to support the identification of strengths and weaknesses of education institutions, and to support specific changes. The first half of the unit considers the growth of evidence based and data informed leadership, highlighting the centrality of leadership in crafting narratives which make sense of trends and identifying challenges and opportunities for education institutions. The second half of the unit considers the role of the leadership in decision making drawing on data and evidence informed change processes.

### Assessment

- Assessment 1 – Report outlining a leadership plan for an education institution informed by data and evidence (2500 words or equivalent) – 50%
- Assessment 2 – Presentation and report proposing and supporting changes in an education institution (2500 words or equivalent) – 50%

## ECM711 – Education Governance and Policy

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Julie Rowlands*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning experiences including one optional scheduled weekend intensive each year.*

### Content

This unit has two key components. The first component focuses on education policy at global, national and local levels. Considered through the lens of new policy sociology and theories of policy enactment in particular, students reflect critically on theory, practice and current public sector and education policy environments. There is a particular focus on the equity implications of policy and policy work.

The second component of the unit aims to develop understandings of the specific legal, regulatory and policy issues relating to the governance and leadership of Australian education organisations. It highlights issues relating to performance measurement, accountability, risk management and the way these affect both contemporary education work and the roles and responsibilities of education leaders. It presents a comparative account of approaches and issues within different education sectors, with an aim to develop knowledge and dispositions necessary to adapt to changes in expectations about education institutions by governments, education communities and the community more generally.

At its conclusion, the unit situates education governance within the broader policy context.

### Assessment

- Assessment 1 – A report that takes the form of a draft submission to a potential review of current and/or future education policy as it pertains to the education sector in which you are currently working (2500 words or equivalent) – 50%
- Assessment 2 – An essay that critically analyses one example of education governance failure reported in the media (2500 words or equivalent) – 50%

## ECM712 – Education Leadership in Changing Times

*Enrolment modes:*

*Trimester 1: Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Andrea Gallant*

*Trimester 3 Unit Chair: Julie Rowlands*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning experiences including one optional scheduled weekend intensive each year*

### Content

This unit focuses on the enactment of education leadership in the present context where there are technological advances, mass communications, increasingly diverse student populations, growth of knowledge-based societies, globalisation of the economy and cultures, and a further added pressure, rising consumer expectations. These forces impact on the demands facing leaders and require more than an adjectival leadership perspective. 21st Century leaders need to be able to critique leadership approaches as regards their effectiveness and the contexts in which they might be more appropriate. Education leadership is truly facing changing times.

Four key areas are presented in this unit. First, students are introduced to education leadership approaches (e.g. instructional, distributed, transformational leadership etc.) and published empirical data and other evidence evaluating their effectiveness. Second, students examine literature and discourses around leading education institutions, particularly in the digital era. Third, the unit critically examines the literature and data around leading change in education institutions with a particular focus on rapid and significant change. Fourth, students consider the notion of leadership impact and what this might look like in contemporary education institutions.

### Assessment

- Assessment Task 1 – Interview report (2500 words) – 50%. Interview a principal/leader asking them to identify the changing context of their workplace (e.g. schools) and how they interpret and enact leadership. Compare their answers to leadership theories and present the comparative findings.

- Assessment Task 2 – leadership conference paper or staff professional learning presentation (2500 words) – 50%:
  - Choice A paper title: Effective leadership tends to be indirect as they work through their staff *OR*
  - Choice B paper title: How do leaders influence others and quality teaching? *OR*
  - Choice C paper title: Leadership as a wicked problem.

## ECM713 – Education Leadership Development and Capacity Building

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Julie Rowlands*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning experiences including one optional scheduled weekend intensive each year*

### Content

This unit addresses multiple dimensions associated with leading strategy and change, and workforce planning and development, within an education context. It undertakes a critical review of approaches to education leadership in the areas of strategic leadership and change management; building leadership teams; staff recruitment, selection and appointment; teacher attrition and retention; and workforce development and capacity building. The unit highlights the sometimes disparate relationship between theory and practice in each of these areas and the ways this might impact on the work of education leaders. Students are encouraged to draw on unit resources to develop practical approaches to addressing matters relating to change management and workforce development in their current and potential future workplaces. There is an emphasis on the equity implications of staff employment and development.

## Assessment

- Assessment Task 1 – A research paper that takes the form of critical review of strategic planning and change management as it pertains to your current education sector. The essay should include reference to research findings on the relationship between theory and practice within this field and the potential implications for education leaders (2500 words) – 50%
- Assessment Task 2 – A report that takes the form of a draft submission to a school council meeting (or university or VET council as applicable) proposing a strategy developed in response to a key issue in contemporary education workforce planning and development. Justify your choice of the key issue to be addressed by drawing on a de-identified example from the education sector in which you are currently employed, and relevant literature (2500 words) – 50%

## ECN704 – Applied Learning: Theories and Practice

*Enrolment modes:*

*Trimester 1: Cloud (online)/intensive for E730 students only*

*Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Gayle Jenkins*

*Trimester 2 Unit Chair: Gayle Jenkins*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online):*

*Trimester 1: Learning experiences are via Cloud Deakin. A minimum of two Blackboard Collaborate sessions will be conducted during the trimester.*

*Trimester 2: Online independent and collaborative learning activities equivalent of 2 hours per week.*

*In-person attendance requirements:*

*Trimester 1: The unit also includes a required intensive block of 4 days (4 x 6 hours) with site-based workshops that are based in Waurn Ponds campus.*

## Content

This unit focuses on the increasingly significant role being played by applied learning in 21st Century education and training settings and investigates the reasons for this development. The unit examines the theory and practice of applied learning as a pedagogical phenomenon and as a curriculum-structuring concept.

It draws on state, national and international contexts, both current and historic, to examine the ways in which teaching and learning is given an applied focus. The unit examines contemporary understandings about applied learning in a variety of national and international contexts, including schools, TAFEs, Universities, Polytechnics and Adult and Community Education (ACE) contexts.

## Assessment

- Assessment 1 – Critical Analysis (2500 words) – 50%
- Assessment 2 – Applied Learning Program Proposal (2500 words) – 50%

## ECN720 – Youth Cultures and Learning Pathways

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Cheryl Ryan*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Learning experiences are via Cloud Deakin. A minimum of two Blackboard Collaborate sessions will be conducted during the trimester.*

*In-person attendance requirements: The unit also includes a required intensive block of 4 days (4 x 6 hours) with site-based workshops that are based in Waurn Ponds campus.*

## Content

The unit is designed to provide students with a critically informed understanding of youth cultures, and the implications for teachers in responding to the wellbeing needs of young people. It will examine identity formation including the identities of young people as learners, workers and members of peer groups and families. The unit analyses discourses of 'risk' in post-compulsory education and training, adulthood transitions; national and international approaches to 'the youth issue'; and critique of transition and pathway logics and the expression of these in contemporary youth policies.

## Assessment

- Assessment 1 – Report (3000 words) – 60%
- Assessment 2 (Group of 3–4 students) – Presentation and Report (2000 words) – 40%

## ECN721 – Introduction to Teaching: Middle Years

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Kellie Tobin*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ECJ721*

*Scheduled learning activities – cloud (online): Learning experiences are via Cloud Deakin. A minimum of two Blackboard Collaborate sessions will be conducted during the trimester.*

*Students will also be required to attend a 15 day professional experience placement.*

*In-person attendance requirements: The unit also includes a required intensive block of 4 days (4 x 6 hours) with site-based workshops that are based in Waurn Ponds campus.*

### Content

The unit will introduce essential knowledge and skills required for commencing teaching, including an overview of the physical, social and intellectual development of students and how these impact students' learning. Students are introduced to current research into how young people learn, their diversity as learners and the implications for teaching. The program of study will include recent developments pertaining to Australian schooling systems, relevant legislation impacting education, teachers and young people, and the Australian Curriculum and its implementation in Australian schools.

The unit will adopt a particular focus on the middle years of schooling and examine in detail the knowledge and skills required to plan for teaching and learning activities in middle years of the Australian curriculum. It will prepare students to commence a school-based professional experience placement relevant to their specialist teaching areas and address the essential professional knowledge to undertake this activity safely and productively, including an introduction to the Australian Standards for Teachers, the legal and ethical requirements of Australian teachers, and an understanding of schools as institutional work sites.

### Assessment

- Assessment 1 – Critical Analysis (1500 words) – 30%
- Assessment 2 – Learning Activity Plan (2500 words) – 50%
- Assessment 3 – Critical Self-Reflection (1000 words) – 20%

### Hurdle requirement

Satisfactory completion of the professional experience placement is required in order to pass this unit.

## ECN722 – Assessment Frameworks and Equity in the Workplace

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Gayle Jenkins*

*Cohort rule: Must be enrolled in E592, E730, E732, E737, E740, E770, E771 or E792*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

This unit addresses adult education and workplace training, focussing specifically on assessment and training issues for people of diverse backgrounds including those from non-English speaking backgrounds. The unit addresses diversities in training needs in terms of cultures, contexts, purposes and frameworks, including the Australian Qualifications Framework, Training Packages and the assessment of dispositional skills. Topics to be addressed in this unit include: assessment and evaluation in training and the workplace, competency based assessment and training, recognition of current competencies, an examination between trainer expertise and assessment approaches and equity in assessment.

### Assessment

- Assessment 1 – Essay based on theories examined in the unit readings (3000 words) – 50%
- Assessment 2 – Essay based on theories examined in the unit readings and related to a particular context (3000 words) – 50%

## ECN723 – Middle Years Teaching Strategies (Years 5–9)

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Adam Usher*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ECJ722*

*Scheduled learning activities – cloud (online): Learning experiences are via Cloud Deakin. A minimum of two Blackboard Collaborate sessions will be conducted during the trimester.*

*Students will also be required to attend a 15 day professional experience placement.*

*In-person attendance requirements: The unit also includes a required intensive block of 4 days (4 x 6 hours) with site-based workshops that are based in Waurn Ponds campus.*

### Content

This unit examines in detail the foundational theories of learning, motivation, cognitive and physical development essential for teachers to know and understand in the 21st Century. It investigates the advanced application of these theories in developing effective planning, teaching and assessment strategies relevant to individual subject specialist areas in the middle years of schooling (Years 5 to 9) within the Australian Curriculum framework.

The unit applies key curriculum organising principles informing specialist teaching in the middle years and the practical implications for content selection and organisation when adopting an applied learning approach. Particular attention is given to developing formative and summative assessment strategies within middle year's specialist subjects, and the purpose of providing timely and appropriate feedback to students. Questions of equity in assessment are investigated, with regard to the diversity of student groups and abilities within the middle years of schooling.

The unit also addresses practical strategies for creating and maintaining a supportive and safe learning environment. Analysis of evidence-based evaluation strategies and approaches to critical self-assessment and peer feedback are examined.

### Assessment

- Assessment 1 – Prepare a suitably sequenced middle year's curriculum program (3000 words) – 60%
- Assessment 2 – Evaluation of Program Effectiveness (2000 words) – 40%

### Hurdle requirement

Satisfactory completion of the professional experience placement is required in order to pass this unit.

## ECN724 – Later Years Teaching Strategies (Years 10–12)

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Adam Usher*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): It is expected that students will engage weekly with online materials for a minimum of two hours. This may include but is not limited to the following: Black Board Collaborate, discussion boards, online readings and online modules.*

*A minimum of two Blackboard Collaborate sessions will be conducted during the trimester.*

*In-person attendance requirements: The unit also includes a required intensive block of 4 days (4 x 6 hours) with site-based workshops that are based in Waurn Ponds campus.*

*This intensive is designed to meet the needs of students undertaking an initial teacher qualification.*

### Content

This unit will enable students to develop advanced knowledge and skills relevant to the planning, facilitation and assessment of their specialist subject areas in the later years of schooling. Students undertake a detailed and critical analysis of an authentic VCE curriculum program in their specialist teaching area which is currently being delivered to a cohort of students in schools. Particular attention is given to the use of applied learning approaches, examining effective strategies for personalising students' learning experiences, and the safe and effective use of ICT to support later year's students' learning.

Students apply their knowledge of effective learning principles and later year's curriculum design to prepare an engaging and safe curriculum program which meets the specific learning outcomes of their own specialist VCE curriculum subject areas and demonstrates application of effective assessment principles. The unit requires students to prepare an overview of professional associations and relevant professional resources supporting their specialist teaching areas in the middle years.

Students are required to work closely with their school-based Later Years specialist teaching subject mentors and Site Directors in the Deakin University Alliance schools where professional experience will be undertaken.

### Assessment

- Assessment 1 – Prepare a later years curriculum program (3000 words) – 60%
- Assessment 2 – Evaluation of Program Effectiveness (2000 words) – 40%

## ECN725 – Teaching Strategies for Vocational Pathways

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Gayle Jenkins*

*Cohort rule: Must be enrolled in E530 or E730*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ECJ723*

*Scheduled learning activities – cloud (online): Learning experiences are via CloudDeakin.*

*It is expected that students will engage weekly with online materials for a minimum of two hours. This may include but is not limited to the following: Black Board Collaborate, discussion boards, online readings and online modules.*

*Students will also be required to attend a 15 day professional experience placement.*

*In-person attendance requirements: This unit includes an intensive block of 4 days (4 x 6 hours) with site-based workshop.*

### Content

The focus of this unit is the curriculum, learning environments, pedagogy and assessment approaches that are responsive to the student learning needs within the VCAL, VET and other relevant programs preparing young people for vocational pathways beyond school. The unit includes advanced knowledge and skills of the VCAL curriculum framework, including its levels and strands, and effective strategies for designing, teaching and assessing VCAL programs that are responsive to individual cohorts of students. Particular consideration is given to the quality assurance strategies required of teachers preparing students for vocational pathways, with a particular emphasis on the VCAL Quality Assurance assessment processes. Pre-service teachers (PSTs) will also explore the vocational pathways and support systems available to young people as they negotiate their way from school through to their future education training and employment. PSTs will identify how their own skills, knowledge and experience can be utilised in the development of engaging, safe, vocationally oriented applied learning programs which incorporate community participation and personal development. PSTs are particularly encouraged in this unit to recognise potential links between their own specialised teaching methods and opportunities to be involved in later years vocational learning programs.

### Assessment

- Assessment 1 – Plan and Implement a VCAL Learning Activity (3000 words) – 60%
- Assessment 2 – Case Study (2000 words) – 40%

### Hurdle requirement

Satisfactory completion of the professional experience placement is required in order to pass this unit.

## ECN726 – Teaching Literacy and Numeracy

*Enrolment modes: Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Adam Usher*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Learning experiences are via CloudDeakin.*

*It is expected that students will engage weekly with online materials for a minimum of two hours. This may include but is not limited to the following: Black Board Collaborate, discussion boards, online readings and online modules.*

*In-person attendance requirements: This unit includes an intensive block of 4 days (4 x 6 hours). These intensives are designed to meet the needs of students undertaking an initial teacher qualification.*

## Content

This unit will enable students to understand contemporary research informing the improvement of young peoples' literacy and numeracy engagement, including the methods of research and approaches to data collection.

The unit will examine how relevant data are analysed and subsequently used to inform policy development and the creation of effective approaches to teaching literacy and numeracy. Students will analyse authentic examples of literacy and numeracy data to identify students' learning needs and apply a range of applied learning strategies to support and develop the literacy and numeracy skills of their students across the middle and later year's curriculum.

There will also be an emphasis on recognising and catering for specific literacy and numeracy learning needs of individual students within specialist subject areas, including an audit of teaching strategies supporting literacy and numeracy development across the curriculum.

## Assessment

- Assessment 1 – Case Study (2000 words) – 40%
- Assessment 2 – Evaluation of Literacy and Numeracy Strategies (1500 words) – 30%
- Assessment 3 – Critical Review (1500 words) – 30%

## ECN727 – Working with Data for School Improvement

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Gayle Jenkins*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Learning experiences are via Cloud Deakin. A minimum of two Blackboard Collaborate sessions will be conducted during the trimester.*

*In-person attendance requirements: The unit also includes a required intensive block of 4 days (4 x 6 hours) with site-based workshops that are based in Waurin Ponds campus.*

## Content

This unit will enable participants to identify, interpret and apply the key sources of data which are available to teachers and school leaders to inform school improvement, innovation and the individual practice of teachers. Participants investigate authentic case studies of school improvement and examine how data has been collected, analysed and applied to generate effective improvement in practice and a broader culture of evidence-informed learning. Participants apply this knowledge to analyse individual student assessment data available to them and use the information to design learning strategies aimed at improving student learning outcomes and teaching practice, including communication with parents and other stakeholders. Participants draw on the research literature, current legislation and relevant policies to debate the ethical and professional issues that impact on the collection, use and reporting of data informing school performance and student learning.

## Assessment

- Assessment 1 – Case Study of School Improvement (2500 words) – 50%
- Assessment 2 – Critical Examination of Assessment Practice (2500 words) – 50%

## ECN728 – Indigenous Students and Cultural Diversity

*Enrolment modes: Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Kellie Tobin*

*Cohort rule: Must be enrolled in an Education course*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Learning experiences are via Cloud Deakin. A minimum of two Blackboard Collaborate sessions will be conducted during the trimester.*

*In-person attendance requirements: The unit also includes a required intensive block of 2 days (2 x 6 hours) with site-based workshops that are based in Waurin Ponds campus.*

## Content

This unit takes a ‘shared history’ approach to understanding diverse cultural practices in education. Focus is given to developing the cultural competence of teachers in creating and developing an inclusive classroom for learning. Particular emphasis is given to the experiences of Aboriginal & Torres Strait Islander students, the migrant and refugee experience of education, teaching refugees and people from cultural and linguistically diverse backgrounds with limited experience of formal schooling.

The unit takes an historical inquiry approach into the impact of the stolen generation and colonisation of Australian Aboriginal & Torres Strait Islander people and the subsequent policy implications for education. An understanding of global migration patterns, immigration, Australian multiculturalism and its impact on education policy is uncovered. Deliberation will be given to understanding how cultural discourses and concepts of “whiteness” can impact on people’s rights. Knowledge, relevant skills and tools will be developed to help education practitioners recognise and respond to this kind of cultural dominance and discrimination.

Students are encouraged to develop a critically reflexive practice about their own developing culturally inclusive practice as future teachers and how they can apply this practice in schools, sites of education and education policy.

## Assessment

- Literature Review (2500 words) – 50%
- Critical Reflection (2500 words) – 50%

# ECN729 – Teaching Aboriginal and Torres Strait Islander Students

*Enrolment modes: Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Kellie Tobin*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

*In-person attendance requirements: This unit also includes intensive/s held at Geelong Waurin Ponds campus, date/s to be advised*

## Content

This unit equips students to think reflexively about Indigenous peoples, cultures and human rights in a contemporary Indigenous landscape, and develops an understanding of and respect for indigenous knowledge systems as a starting point for developing effective strategies for teaching. Opportunity is provided to explore and understand the theoretical concepts of race and racism and its impact on Indigenous peoples in Australia.

The unit not only involves a focus on histories, cultures and political contexts facing Indigenous peoples, but also an understanding and sensitivity to what is essentially required to engage and work with young Indigenous learners and communities in ways that are culturally responsive and respectful.

## Assessment

- Assessment 1 – Literature Evaluation (2000 words) – 40%
- Assessment 2 – Creation of a Learning Experience and Report (3000 words) – 60%

## ECN730 – Introduction to Teaching: Later Years

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Gayle Jenkins*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Learning experiences are via Cloud Deakin. A minimum of two Blackboard Collaborate sessions will be conducted during the trimester.*

*Students will also be required to attend a 15 day professional experience placement.*

*In-person attendance requirements: The unit also includes a required intensive block of 4 days (4 x 6 hours) with site-based workshops that are based in Waurn Ponds campus.*

### Content

This unit will enable students to develop an overview of the range of curriculum documents and programs relevant to a broad range of later year's settings, including VCE, VCAL, VET, IB and CGEA. Students examine how curriculum documents are applied in their specialist teaching areas and will develop the knowledge and skills required to prepare learning activities meeting the curriculum and assessment requirements.

The unit introduces students to the role of teachers and specialist subjects in supporting later year's decision making in regard to further education, training and employment. Students will develop an understanding of the range of learning needs encountered among later year's students and of strategies to assist their learning. Students compare and contrast the similarities and differences that exist within the different later years curricula.

Finally the unit will enable students to develop safe, creative and productive learning environments in the later years to sustain engagement across the diverse range of students they may encounter, using all of the resources that are available including ICT, networks and partnerships. Students work closely with their school-based Later Years specialist teaching subject mentors and Site Directors in the Deakin University Alliance schools where professional experience will be undertaken.

### Assessment

- Planning and Implementing an Extended Learning Activity (2500 words or equivalent) – 50%
- Case Study (2500 words or equivalent) – 50%

### Hurdle requirement

Satisfactory completion of the professional experience placement is required in order to pass this unit.

## ECN731 – Becoming a Teacher in the 21st Century: From Novice to Graduate

*Enrolment modes: Trimester 1\*: Cloud (online)/intensive for E730 students only*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Trace Ollis*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Learning experiences are via Cloud Deakin. A minimum of two Blackboard Collaborate sessions will be conducted during the trimester.*

*Students will also be required to attend a 20 day professional experience placement.*

*In-person attendance requirements: The unit also includes a required intensive block of 4 days (4 x 6 hours) with site-based workshops that are based in Waurn Ponds campus.*

### Content

This teacher performance assessment unit aims to challenge and deepen your understanding of teaching as a profession, through studying the dimensions of teachers' professional lives, including professional relationships within schools and other community education settings. As teachers-in-training you will be assisted to identify the historical, cultural and political forces that have shaped, and are reshaping, the roles and expectations of teachers working for education institutions in the middle and the post-compulsory years of education and training. You will be introduced to new ways of conceptualising your professional practice as educators and trainers of young people in contemporary settings, with a particular focus your developing professional practice and moving from novice teacher to graduate.

You will be introduced to current theories of professional development and lifelong learning which will explore the potential of individuals to influence organisational change processes. Finally, you will be made aware of approaches and methods for analysing professional practice within the context of your own work environments and career pathways.

*Note: \*Commencing 2020*

## Assessment

- Auto ethnographic Critical Reflection of Teacher Practice (2000 words or equivalent) – 40%
- Assessment 2 (Individual and Group) – Professional Portfolio and Professional Development Plan (4000 words or equivalent) – 60%

## ECP128 – Professional Knowledge (0–2 Years)

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online), CBD\**

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Karen Guo*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in E330*

*Incompatible with: ECP127*

*Scheduled learning activities – campus: Burwood: 1 x 2 hour seminar per week. Students will also engage in a 1 hour online workshop per week*

*Scheduled learning activities – cloud (online): Attendance at 2 Cloud Conferences per trimester, 1 x 1 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

## Content

This unit will provide students with opportunities to engage with the education and care of children from birth to two years of age. In a professional experience placement, students will engage with infants and very young children, teachers and families and will be able to critically analyse and reflect on the components of quality environments and programmes for infants and very young children. Students will be able to make critical connections between theory and practice, and incorporate their understandings about the National Quality Framework legislative and regulatory requirements, including the child care accreditation requirements and National and Victorian Curriculum documents in the context of teaching, learning and care for children from birth to two years of age.

*Note: \*CBD refers to Institute of Koorie Education – Community Based Delivery*

## Assessment

- Assessment 1 – Reflective Journal (1600 words) – 40%
- Assessment 2 – Critical Analysis of Quality Teaching and Learning (2400 words) – 60%

## Hurdle requirement

Satisfactory completion of the professional experience placement is required in order to pass this unit.

## ECP227 – Professional Practice 1 (3–5 Years)

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Kerry Archdall*

*Prerequisite: Must have passed 5 credit points at level 1*

*Corequisite: Must be enrolled in E330*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Burwood: 1 x 2 hour seminar per week. Students will also engage in a 1 hour online workshop per week*

*Scheduled learning activities – cloud (online): Attendance at 2 Cloud Conferences per trimester, 1 x 2 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

## Content

This unit will provide students with opportunities to engage with the education and care of children from 3–5 years of age. In a professional experience placement, students will engage young children, teachers and families and will be able to critically analyse and reflect on the components of quality environments and programmes for young children.

Students will be able to make critical connections between theory and practice, and incorporate their understandings about the National Quality Framework legislative and regulatory requirements (including the child care accreditation requirements), and National and Victorian Curriculum documents in the context of teaching, learning and care for children from 3–5 years of age.

## Assessment

- Assessment 1 – Setting professional goals (equivalent to 1000 words) – 25%
- Assessment 2 – Critically reflective journal (equivalent to 1000 words) – 25 %
- Assessment 3 – Investigation of professional knowledge and practice (equivalent to 2000 words) – 50%

## ECP228 – Professional Practice 2 (3–5 Years)

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Kerry Archdall*

*Prerequisite: Must have passed 5 credit points at level 1 & ECP227*

*Corequisite: Must be enrolled in E330*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Burwood: 1 x 2 hour seminar per week. Students will also engage in a 1 hour online workshop per week*

*Scheduled learning activities – cloud (online): Attendance at 2 Cloud Conferences per trimester, 1 x 2 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

## Content

This unit will provide students with opportunities to engage with the education and care of children from 3–5 years of age and apply theories of child development in practical contexts. In a professional experience placement, students will observe and engage with young children, teachers and families and will be able to critically analyse and reflect on the components of quality environments and programmes for young children.

Students will be able to make critical connections between theory and practice, and incorporate their understandings about the National Quality Framework legislative and regulatory requirements (including the child care accreditation requirements), and National and Victorian Curriculum documents in the context of teaching, learning and care for children from 3–5 years of age.

## Assessment

- Assessment 1 – Professional objectives (equivalent to 1000 words) – 25%
- Assessment 2 – Critically reflective journal (equivalent to 1000 words) – 25%
- Assessment 3 – Investigation of professional knowledge and practice (equivalent to 2000 words) – 50%

## ECP303 – Child Protection

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Nicole Downes*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ECP703*

*Scheduled learning activities – campus: 1 x 1 hour class per week. 1 x 2 hour seminar per week.*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including some scheduled Collaborate sessions throughout the trimester and weekly engagement with materials and responses in discussion forums.*

## Content

This unit enables students to understand the nature and extent of child abuse within our society, develop plans for school based child protection, practise the application of knowledge about child abuse and the child protection system via case examples and demonstrate familiarity with community resources available to schools.

The unit focuses on the prevention, detection and notification of suspected child abuse and neglect. The role of schools in prevention programs, support of victims and notification requirements will be examined.

*Note: Student enrolment quotas apply to this unit*

## Assessment

- Assessment 1 – A report about policy and practice of child protection at their school (or alternative community setting) (1600 words) – 40%
- Assessment 2 – A case study about child abuse identification, disclosure and notification (2000 words) – 50%
- Assessment 3 – Class participation: Students will be expected to participate on a regular basis and to complete a small partner/team-based task to assist class-work either by campus mode or via CloudDeakin (400 words or equivalent) – 10%

## ECP327 – Professional Engagement 1 (Primary School 1)

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online), Warrnambool, Deakin Learning Centres*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Jo Zampatti*

*Prerequisite: ECP228*

*Corequisite: Must be enrolled in E330.*

*E330.3 students must be enrolled in ALL153 or ECE345*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Burwood: 1 x 2-hour seminar per week. Students will also engage in a 1-hour online workshop per week*  
*Deakin Learning Centres: 2 x 2-hour face to face intensive per trimester, 1 x 2-hour online workshop per week, 2 x 1-hour online class per trimester (recordings provided)*

*Scheduled learning activities – cloud (online):*

*Attendance at 2-cloud conferences per trimester, 1 x 2-hour online workshop per week, 2 x 1-hour online class per trimester (recordings provided)*

### Content

This unit will provide students with opportunities to observe interactions between teachers and children during the primary school years and to teach in these settings. It will give students the opportunity to apply the child development theories in Life Span Development compare development across a wider age range than previously experienced.

In a professional experience placement, students will observe, assess and engage with children, and will engage with teachers. Students will be able to critically analyse and reflect on the components of quality environments and programmes. Students will be able to make critical connections between theory and practice, and incorporate their understandings about the school's Curriculum and the Graduate Standards for Teachers in the context of their own competencies. The unit will provide opportunities to manage behaviour and plan for the teaching and learning of children in school contexts. Students will also be provided with opportunities to reflect on the differences and similarities between the primary school context and working with children under the age of five in child care and preschool.

### Assessment

- Curriculum and application: critique and reflection (1600 words) – 40%
- Planning for and reflecting on learning (2400 words) – 60%

### Hurdle requirement

Satisfactory completion of the professional experience placement is required in order to pass this unit.

## ECP400 – Building Leadership Capacity in the School and Wider Community

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrnambool, Wauran Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: To be advised*

*Prerequisite: One of ESM303, EES300, ECL351, EEO301, ECA304, EEI301, EEH302 or ECL306*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week and 1 x 2 hour Seminar per week*

### Content

This unit is designed to help students become active leaders in their discipline specialisation area. The aim is to create the conditions in which students can confidently lead education projects based on their discipline specialisation within their school or wider community. This unit will allow students to demonstrate and apply their knowledge and skills by designing projects that are suitable for specific school or wider community contexts.

Students will work individually and in groups, establishing relationships with their peers, the school and/or the wider community. Students will design, develop, implement and critically evaluate an education project, making connections to, and drawing on, different theories of leadership within education.

*Note: Commencing 2020*

## Assessment

- Assessment 1 – In small groups, students design and develop an education project proposal involving the school or wider community. Based on specific disciplinary knowledge and drawing on theories of leadership, the project proposal will reflect research on the educational value, goals and warrant for the project as well as an outline of the physical and human resources in the school or wider community that will be utilised in the implementation of the project (1700 words) – 45%
- Assessment 2 – In the same small groups, lead a CloudDeakin discussion about one of the unit readings on theories of leadership within education (equivalent to 600 words) – 10%
- Assessment 3 – Individually, to implement the project proposal in a specific school or wider community context and then to critically evaluate the implementation process (equivalent to 1700 words) – 45%

## ECP410 – Professional Teaching Practice and Child Study (0–3 Years)

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online), Deakin Learning Centres*

*Trimester 3: Burwood (Melbourne), Cloud (online), Deakin Learning Centres*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Carole Lanting*

*Trimester 3 Unit Chair: Natalie Robertson*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in E330*

*Incompatible with: ECP226*

*Scheduled learning activities – campus:*

*Trimester 1: Burwood: 1 x 2 hour seminar per week.*

*Students will also engage in a 1 hour online workshop per week*

*Deakin Learning Centre: 2 x 2 hour face to face intensive per trimester, 1 x 2 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

*Trimester 3: Burwood: 3 x 6 hour intensive. 1 x 1 hour online workshop per week*

*Deakin Learning Centre: 2 x 2 hour face to face intensive per trimester, 1 x 2 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

*Scheduled learning activities – cloud (online):*

*Trimester 1: Attendance at 2 Cloud Conferences per trimester, 1 x 2 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

*Trimester 3: Attendance at 2 Cloud Conferences per trimester, 1 x 2 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

## Content

This unit will provide students with opportunities to engage with the education and care of children from birth to two years of age. In a professional experience placement, students will engage with infants and very young children, teachers and families and will be able to critically analyse and reflect on the components of quality environments and programmes for infants and very young children. Students will be able to make critical connections between theory and practice, and incorporate their understandings about the National Quality Framework legislative and regulatory requirements, including the child care accreditation requirements, and National and Victorian Curriculum documents in the context of teaching, learning and care for children from birth to two years of age.

## Assessment

- Assessment 1 – Report and child study (2000 words) – 50%
- Assessment 2 – Journal (2000 words) – 50%

## ECP427 – Professional Engagement 2 (Primary School 2)

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online), Deakin Learning Centres*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Edwina El Hachem*

*Prerequisite: ECP327*

*Corequisite: Must be enrolled in E330*

*E330.3 students must be enrolled in SLE209 or ECL351*

*Incompatible with: Nil*

*Scheduled learning activities – campus: All students will be required to attend a 25 day professional experience placement, which is a hurdle task.*

*Burwood: 1 x 3 hour seminar per week.*

*Deakin Learning Centres: 2 x 2 hour face to face intensive per trimester, 1 x 2 hour online workshop per week (recordings provided)*

*Scheduled learning activities – cloud (online): All students will be required to attend a 25 day professional experience placement, which is a hurdle task. Attendance at 2 Cloud Conferences per trimester, 1 x 2 hour online workshop per week (recordings provided)*

## Content

This unit will provide students with opportunities to teach and observe interactions between teachers and children during the primary school years. In a professional experience placement, students will engage with children and teachers and will be able to critically analyse and reflect on the components of quality learning environments and programmes.

Students will be able to make critical connections between theory and practice, and incorporate their understandings about school Curriculum and the Graduate Standards for Teachers in the context of their own competencies.

## Assessment

- Curriculum and application: critique and reflection (1600 words) – 40%
- Assessment and planning for learning (2400 words) – 60%

## Hurdle requirement

Satisfactory completion of the professional experience placement is required in order to pass this unit.

# ECP703 – Child Protection

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Claire Spicer*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ECP303*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

## Content

This unit prepares teachers (and allied professionals) for their statutory obligations in preventing, identifying, responding to and notifying suspected child abuse. The unit seeks to develop teachers' (and other professionals') competence in the area of school-based child protection in particular.

Knowledge and skills in recognising all forms of child abuse and understanding the contexts in which it occurs will be developed throughout the unit. The operation of child protection services will be examined and the potential for teachers' effective collaboration explored. Teachers will be encouraged to apply their research and analysis skills in a variety of ways, for example, designing professional development offerings in child protection, incorporating personal safety education in the curriculum, forging community links and evaluating school policy and procedures against relevant policy/legislative frameworks.

Topics to be addressed in this unit include: Mandatory reporting/notification of child abuse, researching and analysing child maltreatment (causes and effects), appropriately responding to disclosures of abuse, curriculum in prevention education, child protection resources, community services and policy (school/departmental/system), diversity and heightened vulnerability (e.g. children with disability, children in out-of-home care and cultural factors).

## Assessment

- Assessment 1 – Report: Research and analysis of the child protection literature to facilitate the appropriate identification, response and reporting of suspected child abuse, together with a justification of the expanded contribution of schools and teachers to community work (3000 words) – 40%
- Assessment 2 – Application: Designing a program/policy to respond to contextual needs in schools (or other settings) based on an evaluation of current practice. For example, the design of either a personal safety curriculum component, a staff professional development program or an evaluation of child protection policy (3000 words) – 50%
- Assessment 3 – CloudDeakin Participation: Contributions, based on unit readings and activities as a team member/individual to online discussions via CloudDeakin – 10%

## Hurdle requirement

Hurdle requirements for E734 and E744SP students only:

1. Completion and documentation of 2 days of professional development relating to child protection practice.
2. Knowledge of relevant child and family support services within the community.

Students who fail a hurdle requirement will be ineligible for a Pass Conceded grade for that unit and will receive a result of no more than 44% for that unit, waived under special consideration arrangements.

# ECP711 – Creativity and the Arts in Childhood

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 3: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Jo Raphael*

*Trimester 3 Unit Chair: Jo Raphael*

*Prerequisite: Nil*

*Corequisite: Nil*

*or E764 course students ECE761*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Burwood:*

*Trimester 1: 1 x 2 hour Seminar and 1 x 3 hour Practical per week x 6 weeks plus engagement with online unit topics, materials and activities.*

*Trimester 3: 1 x 2 hour Seminar and 1 x 3 hour Practical per week x 4 weeks with Cloud (online) independent engagement with online unit topics, materials, responses to tasks, activities, regular forum posting and responding to others, scheduled synchronous online discussions and independent study expected to be an additional 3 hours per week x 11 weeks.*

*Scheduled learning activities – cloud (online): This unit shares all resources and weekly material with on campus students. Time engaging in independent study is expected to total an equivalent of 8–10 hours per week. This includes engagement with on-line unit topics, teaching and learning materials, responding to tasks, activities, posting and responding to others in forums, and participating in online discussions.*

## Content

This unit engages students in practical and theoretical studies based on learning about and through the Arts: visual arts, drama, music, dance and media arts, in early childhood and the primary years of schooling. Students engage in their own arts processes and reflect critically and creatively on a selected methodologies, pedagogies and philosophies as a basis for professional practice. Using a range of technologies students extend their knowledge of creative media, techniques and processes appropriate for young children. Practice-led seminars focus on knowledge of current educational practices and curriculum in arts education and provide opportunities for students to engage, guide, scaffold and assess children's creative expression in an arts-centred curriculum and in diverse social and cultural settings.

*Note: Trimester 3 is offered as a combination of compulsory campus based intensives at Burwood (Melbourne) and Cloud based (online) learning*

## Assessment

- Arts Education position paper (2000 words) – 40%
- Arts Education Curriculum Resource E-portfolio or Website (3000 words or equivalent) – 60%

## Hurdle requirement

Hurdle requirements for MEd(SEN) and E744SP students only:

1. Completion and documentation of 2 days of professional development relating to the Practicum Case Study.
2. Knowledge of relevant support services related to the field Students who fail a hurdle requirement will be ineligible for a Pass Conceded grade for that unit and will receive a result of no more than 44% for that unit, waived under special consideration arrangements.

# ECP712 – Social, Physical and Emotional Health and Wellbeing

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Cloud (online)*

*Trimester 3: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Llewellyn Wishart*

*Trimester 2 Unit Chair: Llewellyn Wishart*

*Trimester 3 Unit Chair: Llewellyn Wishart*

*Prerequisite: Nil*

*Corequisite: Nil*

*or E764 course students ECE761*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Burwood:*

*Trimester 1: 1 x 2 hour Practical and 1 x 3 hour Seminar per week x 8 weeks*

*Trimester 3: 1 x 2 hour Practical and 1 x 3 hour Seminar per week x 4 weeks and Cloud (online) learning*

*Scheduled learning activities – cloud (online):*

*Trimester 1: 1 x 3 hour scheduled Cloud Seminar per week x 8 weeks*

*Trimester 2: 1 x 3 hour scheduled Cloud Seminar per week x 8 weeks*

## Content

This unit explores the theories and related issues in the promotion of well-being through health, movement and physical education in early childhood and primary education. The unit will provide an overview of the theories of development in the early years, with an emphasis on health and well-being issues at this stage of the life span.

The unit is designed to provide students with the knowledge and skills to critically examine theory, practice and relevant curriculum and regulatory frameworks and apply these to programs that enhance the social, physical and emotional health and well-being of children in the early years. For early childhood education students this also includes an emphasis upon the principles and practices of inclusive education and early intervention.

In evaluating and designing programs students will critically explore the context for learning in early childhood and primary health education, including an examination of the roles of the learner, family, community and teacher.

*Note: Trimester 3 is offered as a combination of compulsory campus based intensives at Burwood (Melbourne) and Cloud based (online) learning*

## Assessment

- Assessment 1 – Evaluation Report: Students will critically evaluate examples of health and wellness programs in early childhood settings, schools and/or the wider community. Through comparison and contrast of two existing programs (one local and one international) students will critically analyse and review the rationale, structure, philosophy and pedagogical approaches to teaching health and wellness taking into account the broader sociocultural, health and policy context from which the programs arise – 40%
- Assessment 2 – Resource Development Project: Students will be required to design for a selected target group a resource, project or program plan, for an early childhood or primary school setting related to children's social, physical, emotional health and wellbeing. For example, this could be a project, unit of work, website, wiki, or program plan – 60%

## ECS471 – History and Humanities: Curriculum Study A

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Kerri Garrard*

*Cohort rule: Must be enrolled in D342, D344, D347, D389, E377, E359, E360, E365 or E455*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour*

*Seminar per week and 1 x 1 hour self-directed engagement with Cloud seminar Resources*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning the equivalent of 3 hours per week*

## Content

This unit aims to prepare students to teach confidently across the Humanities disciplines including History, Geography and Economics and interdisciplinary areas including Civics and Citizenship offered in Years 7–10 in schools. The unit will develop students' understanding of various elements of the national and Victorian curricula including Cross-curriculum Priorities and General Capabilities relevant to the Humanities. The unit aims to develop students' knowledge of practical aspects; engage with a range of effective pedagogical approaches and design teaching and learning sequences and assessment tools informed by literature. This unit demonstrates and utilises a range of contemporary teaching and learning resources and technologies to illustrate practical strategies in Humanities.

## Assessment

- History Teaching and Learning Report (2000 words or equivalent) – 50%
- Assessment 2 (Partners) – Collaborative Humanities Unit Outline (2000 words each or equivalent) – 50%

## ECS472 – History and Humanities: Curriculum Study B

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Kerri Garrard*

*Prerequisite: ECS471*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week, 1 x 1 hour self-directed engagement with Cloud Seminar Resources*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning the equivalent of 3 hours per week*

### Content

This unit is designed to equip students to effectively and competently teach Humanities education at the senior secondary/post compulsory level. The national/VCE studies are History, Geography, Economics, Sociology, Philosophy and International Politics. This unit will examine the structure of national senior secondary / VCE/post compulsory curriculum through a focus on the content and approaches outlined in each of the studies. The areas covered include teaching at post compulsory level, teaching strategies, curriculum design, assessment practices and requirements and regulations of teaching Humanities at the senior secondary level. Students will be expected to design teaching to embed higher order skills of critical thinking, problem solving, evaluation, synthesis and understanding specific discipline based skills and pedagogies. Students are expected to work with assessment tasks, SACs and back mapping to show competencies in assessment.

### Assessment

- Preparation of a Unit 1 or 2 VCE School-assessed Coursework (SAC) task with Rubric and Report (2400 words or equivalent) – 60%
- Design of a Unit 3–4 Revision Sequence using Backward Design approach and Report (1600 words or equivalent) – 40%

## EDE798 – Cloud and Online Learning Practice

*Enrolment modes: Trimester 3: Cloud (online)\* – No longer offered Trimester 3 2019 – Commences in Trimester 1 2020*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Fran Bussey*

*Prerequisite: EEE726*

*Corequisite: Must be enrolled in E598 or E798*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities*

### Content

This unit will enable students to consolidate and demonstrate their capacity to apply their knowledge and skills relevant to their digital learning and assessment contexts. It provides the opportunity to reflect critically on teaching and learning goals informed by principles of effective learning and assessment in digitally-enabled learning environments, and draw on evidence to develop and implement strategies supporting continuous improvement.

*Note: \*This unit uses the FutureLearn online learning platform. Learn more about studying through Future Learn.*

*Commencing 2019*

### Assessment

- Assessment 1 (Group) – Audit/analysis – 2500 words – 40%
- Project Plan – 2500 words – 40%
- Teaching and learning development plan – 20%

## EDU101 – Education, Knowledge and Society

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Piper Rodd*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Burwood: 1 x 1 hour class, 1 x 2 hour seminar across 9 weeks*

*Scheduled learning activities – cloud (online):*

*Online independent and collaborative learning activities*

### Content

This unit investigates how educational experiences may be understood in terms of formal and informal human activities and compares the different principles underpinning these educational experiences. It considers the development of professional knowledge in Education and the development of a range of educational institutions that serve an educational purpose in modern society, including those institutions serving different stages of human development such as: early childhood Education, schooling, training, higher Education and adult and community Education. The unit considers key theories informing the sociology of Education and how these theories can be applied to analyse the relationship between the human activity of Education, the individual and society.

### Assessment

- Assessment 1 – Multimedia presentation (1600 words equivalent) – 40%
- Assessment 2 – Analytic Essay (2400 words) – 60%

## EDU102 – From Aristotle to ATARS: the History, Philosophy and Future of Education

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Piper Rodd*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Burwood:*

*1 x 1 hour Class per week 1–9:*

- Week 1–4: Burwood students are expected to attend in person for 1 x 1 hour Class per week
  - Week 5–9: CloudDeakin Content
- 1 x 2 hour Seminar week 1–9*

*Scheduled learning activities – cloud (online):*

*Online independent and collaborative learning activities including weekly online seminars and weekly engagement with materials and responses in discussion forums.*

### Content

This unit investigates how key ideas about Education have developed throughout human history and analyses how these ideas have been influenced by significant historical events. It considers the changing role that Education has played in the development of human civilisation since the early days of the ancient Greeks, and considers the development of different philosophical perspectives informing educational activity. The unit develops an understanding of what can be considered to be the threshold principles in the contemporary discipline of Education.

### Assessment

- Assessment 1 – Multimedia presentation (2000 words) – 50%
- Assessment 2 – Analytic Essay (2000 words) – 50%

## EDU201 – Educational Psychology

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrn Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Edwina El Hachem*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour class, and 1 x 2 hour seminar per week held in weeks 1–6 and 8–10*

*Scheduled learning activities – cloud (online): 1 x 1 hour class (recordings provided), and 1 x 2 hour online scheduled seminar per week held in weeks 1–6 and 8–10*

### Content

This unit investigates how the field of psychology is applied to the work of educators to better understand how people learn and become motivated to engage in educational activities. It considers key theories of educational psychology and examines how these theories have informed our understanding of learning and teaching in a range of educational contexts. The unit compares different approaches to educational psychology research as case studies, and applies examples of these approaches to analyse educational problems of practice.

### Assessment

- Assessment 1 – Essay (2000 words) – 50%
- Assessment 2 – Report (2000 words) – 50%

## EDU202 – Educators and Learners

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Shelley Hannigan*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour class, 1 x 2 hour seminar across 9 weeks*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities*

### Content

This unit examines how educators' work can be understood in terms of curriculum design, developing and conducting teaching/learning activities, and assessing evidence of students' learning. It considers contemporary theories informing these dimensions of Education and considers how educators form productive learning relationships. These elements of educators' work are considered in their applications to a range of educational contexts, including working with children, adolescents, and adult learners. The unit considers how this knowledge can be applied to designing educational programs that are responsive to the needs of different learners and their local contexts.

### Assessment

- Assessment 1 – Case Study (2000 words) – 50%
- Assessment 2 – Program design (2000 words equivalent) – 50%

## EDU203 – Literacy, Numeracy and Education

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Joanne Quick*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Burwood: 1 x 1 hour class, 1 x 2 hour seminar across 9 weeks*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities*

### Content

This unit investigates the concepts of literacy and numeracy and how these impact the educational outcomes of learners in a broad range of educational settings. It considers government policy developments in relation to literacy and numeracy in a range of communities, and the subsequent implications for people working in Education-related environments. The unit includes different approaches to teaching literacy and numeracy that can be used to improve the educational outcomes for learners in schooling and adult learning contexts.

It explores the challenges faced by educators working with communities whose literacy and numeracy skills are relatively low compared to the broader population.

### Assessment

- Assessment 1 – Essay (1600 words equivalent) – 40%
- Assessment 2 – Case Study (2400 words) – 60%

## EDU301 – Culture, Diversity and Participation in Education

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Lucinda McKnight*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Burwood: 1 x 1 hour class, 1 x 2 hour seminar across 9 weeks*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities*

### Content

This unit explores how, in work, play and our everyday lives, we teach each other about inclusivity, about who belongs. In an Australia already inhabited, before British colonisation, by diverse Indigenous language groups, we are of different races, genders, sexualities, abilities, ages and socioeconomic backgrounds. We may align ourselves with different religions and politics. Online we encounter and identify with further diversity. We all learn in many different ways, and through multiple pedagogical interactions. Using the arts and popular culture, as well as critical theory, research and policy, the unit thinks about how these diversities might affect participation in both formal and informal educational spaces. The unit proposes that design principles for learning (linked to students' interests) can respect and welcome in diversity, enable empathy and create belonging. Above all, the unit aims to increase students' capacity to make a social justice impact through developing engaging and inclusive resources in their planned professional practice. Whether students are aspiring to work in, for example, advertising, media, creative arts, museums and galleries, administration or education, or any other field, this unit will support the development of cultural insights. It will also provide the skills to think critically, creatively and in interdisciplinary ways, about audience needs and the politics of who we include and exclude.

### Assessment

- Assessment 1 – Resource design (2600 words equivalent) – 60%
- Assessment 2 – Reflective essay (1400 words) – 40%

## EDU302 – Education and Humanitarian Development

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Kate Harvie*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Burwood: 1 x 1 hour class, 1 x 2 hour seminar across 9 weeks*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities*

### Content

This unit examines the critical role of Education in the provision of humanitarian assistance in a range of developing nations and natural disaster circumstances, and investigates global organisations and their policies and strategies targeting educational assistance in these circumstances. It explores the broad approaches to educational provision in humanitarian circumstances and considers case studies detailing how educators work with a range of non-government organisations and local communities to facilitate capacity building through Education. The unit critically examines issues faced by educators working in humanitarian contexts and seeks to develop knowledge and skills required of educators contributing to educational humanitarian assistance.

### Assessment

- Assessment 1 – Reflective essay (1600 words) – 40%
- Assessment 2 – Resource design (2400 words equivalent) – 60%

## EDU303 – Education, Communication and Technology

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: George Aranda*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Burwood:  
1 x 1 hour class, 1 x 2 hour seminar across 9 weeks*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities*

### Content

This unit examines contemporary developments in information and communication technology (ICT) and considers how these have impacted the broad field of Education. It investigates new affordances and issues for learning that have been created by global developments in ICT and looks at how educators have responded to create effective learning environments for a range of educational settings. The unit provides an opportunity to synthesise knowledge about effective teaching and learning with contemporary developments in ICT. Students will develop understandings and skills in the design and appraisal of digital learning resources to meet the requirements of contemporary learning contexts.

### Assessment

- Essay (2000 words) – 50%
- Digital resource design (2000 words equivalent) – 50%

## EDX478 – Theory in Education Research

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrnambool, Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Bonnie Yim*

*Cohort rule: Must be enrolled in E421 or E430*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: EXR478*

### Content

This unit investigates key social theories and their application to the field of contemporary educational research. It draws on a range of research case studies to profile these theories and then undertakes an in-depth analysis of the theories and conceptual frameworks being used by the researchers. Students undertake a detailed examination of how these theories and ideas frame research problems and are assimilated into the conduct of research.

### Assessment

- Written report 1, 40%, 1600 words
- Written report 2, 60%, 2400 words

## EDX479 – Independent Reading Study

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrnambool, Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Bonnie Yim*

*Cohort rule: Must be enrolled in E421 or E430*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: EXR479*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities*

### Content

This unit is investigates the advanced knowledge and skills required of a researcher to generate a substantive literature review. Students negotiate to undertake a critical review of the literature informing their specific field of inquiry for their honours research.

### Assessment

- Written report 1, 40%, 1600 words
- Written report 2, 60%, 2400 words

## EDX701 – Research Design Development and Method

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Bonnie Yim*

*Trimester 2 Unit Chair: Lihua Xu*

*Trimester 3 Unit Chair: Matt Thomas*

*Prerequisite: Prerequisite: Students enrolled in E760E, E760P, E760S, E760T, E761, E762, E763, E763T need to have completed:*

- *8 credit points, including;*
- *two (2) units EEE751 & EEE752, plus;*
- *two (2) units from EPR701, EPR702, EPR711, EPR712, EPR721, EPR722, EPR731, EPR732, and;*
- *have a WAM of 70.*

*Corequisite: Nil*

*Incompatible with: EXR782*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly online seminars and weekly engagement with materials and responses in discussion forums.*

### Content

Research Design, Development and Method is a research training unit that introduces students to the research process including designing research in education, the development of specific research questions, selection of appropriate research methods to address these questions, examples of quantitative and qualitative approaches and the gathering, analysis and interpretation of data, ethical issues and research integrity.

### Assessment

- *Assessment 1 – Literature Review (2000 words) – 40%*
- *Assessment 2 – Research Plan (3000 words) – 60%*

### Hurdle requirement

Satisfactory completion of the Human Research Ethics online training and quiz is required in order to pass this unit.

## EDX703 – Research Paper A

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Cloud (online)\**

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Shaun Rawolle*

*Trimester 2 Unit Chair: Julianne Lynch*

*Trimester 3 Unit Chair: Matt Thomas*

*Prerequisite: Two units from EXR781, EXR791, AIX708, EDX701, EDX702, EDX712. Note: prerequisites cannot be waived*

*Corequisite: Nil*

*Incompatible with: EDX705, EDX706, EXR783, EXR796, EXR798, EXR799*

*Scheduled learning activities – campus: Interactions with your supervisor may involve meeting in person (face-to-face), telephone meetings, video meetings, the online exchange of documents, or other suitable channels.*

*The mode of contact and frequency of meetings should be negotiated with your supervisor in the first week of Trimester. General unit resources are provided on the Cloud site.*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities*

### Content

In this unit you commence the research project for your Research Paper (which will be completed in EDX704). This is a supervised unit where you work closely with an allocated research supervisor via regular meetings and document exchange.

*Note: On successful completion of EDX704 Research Paper Part B students will be awarded 2 credit points.*

Research Paper Part A and Part B are usually undertaken in sequential trimesters. Concurrent enrolment in Research Paper A and B may be considered after consultation with the Research Pathways Coordinator.

*\* Trimester 3 subject to the availability of appropriate supervisors and in consultation with the Unit Chair*

### Assessment

There are no formal assessment requirements for this unit. Assessment for the overall research piece, comprising units Research Paper A and B, is a research paper of 12,000 words (100%) due at completion of EDX704 Research Paper B.

## EDX704 – Research Paper B

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (Online)*

*Trimester 2: Burwood (Melbourne), Cloud (Online)*

*Trimester 3: Burwood (Melbourne), Cloud (Online)\**

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Shaun Rawolle*

*Trimester 2 Unit Chair: Julianne Lynch*

*Trimester 3 Unit Chair: Matthew Thomas*

*Prerequisite: Two units from EXR781, EXR791, AIX708, EDX701, EDX702, EDX712*

*Corequisite: Nil*

*Incompatible with: EDX705, EDX706, EXR783, EXR797, EXR798, EXR799*

*Scheduled learning activities – campus: Interactions with your supervisor may involve meeting in person (face-to-face), telephone meetings, video meetings, the online exchange of documents, or other suitable channels. The mode of contact and frequency of meetings should be negotiated with your supervisor, continuing the work done in EDX703. General unit resources are provided on the Cloud site.*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities*

### Content

In this unit you finish the research project that was started in EDX703 (Research Paper Part A). This is a supervised unit where you work closely with an allocated research supervisor via regular meetings and document exchange.

*Note: On successful completion of EDX704 Research Paper Part B students will be awarded 2 credit points.*

Research Paper Part A and Part B are usually undertaken in sequential trimesters. Concurrent enrolment in Research Paper A and B may be considered after consultation with the Research Pathways Coordinator.

*\* Trimester 3 subject to the availability of appropriate supervisors and in consultation with the Unit Chair*

### Assessment

Research Paper (12,000 words), reporting work done in EDX703 and EDX704, and due at completion of EDX704 – 100%.

## EDX705 – Minor Thesis A

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Cloud (online)\**

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Shaun Rawolle*

*Trimester 2 Unit Chair: Julianne Lynch*

*Trimester 3 Unit Chair: Matthew Thomas*

*Prerequisite: Two units from EXR781, EXR791, AIX708, EDX701, EDX702, EDX712*

*Corequisite: Nil*

*Incompatible with: EDX703, EDX704, EXR783, EXR798, EXR796, EXR797*

*Scheduled learning activities – campus: Interactions with your supervisor may involve meeting in person (face-to-face), telephone meetings, video meetings, the online exchange of documents, or other suitable channels. The mode of contact and frequency of meetings should be negotiated with your supervisor in the first week of Trimester. General unit resources are provided on the Cloud site.*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities*

### Content

In this unit you commence the research project for your Minor Thesis (which will be completed in EDX706 Minor Thesis B). EDX705 and EDX706 are supervised units where you work closely with an allocated research supervisor via regular meetings and document exchange.

*Note: On successful completion of EDX706 Minor Thesis Part B students will be awarded 4 credit points.*

Minor Thesis Part A and Part B are usually undertaken in sequential trimesters. Concurrent enrolment in Minor Thesis A and B may be considered after consultation with the Research Pathways Coordinator.

*\* Trimester 3 subject to the availability of appropriate supervisors and in consultation with the Unit Chair*

### Assessment

There are no formal assessment requirements in this unit. Assessment for the overall research piece, comprising units Minor Thesis A and B, is a research paper of 20,000 words (100%) due at completion of EDX706 Minor Thesis Part B.

## EDX706 – Minor Thesis B

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Cloud (online)\**

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Shaun Rawolle*

*Trimester 2 Unit Chair: Julianne Lynch*

*Trimester 3 Unit Chair: Matthew Thomas*

*Prerequisite: Two units from EXR781, EXR791, AIX708, EDX701, EDX702, EDX712*

*Corequisite: Nil*

*Incompatible with: EDX703, EDX704, EXR783, EXR799, EXR796, EXR797*

*Scheduled learning activities – campus: Interactions with your supervisor may involve meeting in person (face-to-face), telephone meetings, video meetings, the online exchange of documents, or other suitable channels.*

*The mode of contact and frequency of meetings should be negotiated with your supervisor in the first week of Trimester. General unit resources are provided on the Cloud site.*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities*

### Content

In this unit, students continue the tasks commenced in EDX705 Minor Thesis Part A.

Assessment for the overall research piece, comprising units Minor Thesis A and B, is a minor thesis of 20,000 words (100%) due at completion of EDX706 Minor Thesis Part B.

*Note: On successful completion of this unit students are awarded 4 credit points.*

Minor Thesis Part A and Part B are usually undertaken in sequential trimesters. Concurrent enrolment in Minor Thesis A and B may be considered after consultation with the Research Pathways Coordinator.

*\* Trimester 3 subject to the availability of appropriate supervisors and in consultation with the Unit Chair*

### Assessment

A 20,000 word Minor Thesis – 100%, reporting research completed across EDX705 Minor Thesis A and EDX706 Minor Thesis B, due at completion of this unit.

## EDX707 – Independent Research Project for Professional Practice

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Trace Ollis*

*Trimester 2 Unit Chair: Zosia Golebiowski*

*Trimester 3 Unit Chair: Trace Ollis*

*Prerequisite: EXR782 or EDX701*

*Corequisite: Nil*

*Incompatible with: EXR783*

*Scheduled learning activities – campus:*

*Trimester 1 and 2: Students meet regularly with a supervisor while carrying out an independent research project*

*Trimester 3: 1 x 4 hour Seminar for 6 weeks*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities*

### Content

This unit provides students with the opportunity to apply knowledge of research design and method by undertaking an independent research project relevant to professional practice in education. Students will work closely with an appointed research supervisor to carry out an independent research project contributing new knowledge in the field of education.

*Note: This unit is ordinarily taken in the final trimester of study*

Trimester 3 offering is subject to the availability of appropriate supervisors and in consultation with the Unit Chair.

### Assessment

(Individual) – Research Essay (6000 words) – 100%.

## EDX712 – Theory and Methodology in Education Research

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Shaun Rawolle*

*Trimester 2 Unit Chair: Mary Dixon*

*Trimester 3 Unit Chair: Amanda Keddle*

*Prerequisite: EDX701. It is strongly recommended that EDX701 be completed prior to EDX712, however the two units may be taken concurrently on approval of the Course Director due to the highly pressurised nature of this option.*

*Corequisite: Nil*

*Incompatible with: AIX708, EDX702*

*Scheduled learning activities – campus: Trimester 1: 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): Weekly independent and collaborative learning activities. A minimum of two Blackboard Collaborate sessions will be conducted during the trimester. Time engaging in learning activities is expected to total a combined equivalent of 8–10 hours per week.*

### Content

This unit is designed to assist students to develop their understanding and skills in applying contemporary theories and methodologies in education research, including qualitative, quantitative, blended and mixed methodologies. Students' knowledge and skills are developed through an engagement with different theoretical, analytic and conceptual frameworks, and considerations of research ethics when applied to research problems. The benefits and limitations of various research design elements, including theories, methodologies, methods and analytic instruments will be examined from multiple research perspectives or contexts. A research proposal is developed.

### Assessment

- Assessment 1 – Group Methodology Website (2000 words) – 40%
- Assessment 2 – Research Proposal (3000 words) – 60%

## EEA211 – Navigating the Visual World

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrnambool (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Shelley Hannigan*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Burwood (Melbourne): 8 x 3 hour studio during trimester*

*Warrnambool (Geelong): 8 x 3 hour studio during trimester*

### Content

This unit navigates the visual world with a focus on visual art and design. Topics include: light, perception, optical illusions and ways in which cultural and social conditions determine the production and consumption of visual culture.

The unit explores how we use images to express ourselves, reflect society and culture, communicate, have aesthetic experiences experience and learn. It also looks at the important role of the audience, viewer or other participants, in art.

Through studio practice and seminars or cloud learning experiences, students will develop understandings of the relationship between meaning and cultural context, identify aspects of the relationship between cultural production and social conditions, articulate concepts of contemporary theory in visual culture in their writing and locate aspects of their own practice within a defined cultural context.

### Assessment

- PowerPoint Presentation of Annotated Activities (2000 word count equivalence) – 50%
- Thematic Suite of Artworks (2000 word count equivalence) – 50%

## EEA311 – Primary Arts Education: Focussed Study

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrnambool, Waurin Ponds (Geelong)*

*Burwood: Dance, Drama, Visual Arts/Media, Music  
Waurin Ponds: Dance/Drama, Music, Visual Arts/Media  
Warrnambool: Music, Visual Arts/Media*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Jo Raphael*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in E359*

*Incompatible with: ECA410, EEA410, EEA411*

*Scheduled learning activities – campus: 1 x 3 hour  
Seminar per week*

### Content

In their selected specialism, students will engage in the theoretical and practical application of a range of arts discipline forms within various social and cultural contexts. The emphasis will be on ways of implementing these in arts discipline specific lessons that also incorporate assessment and record keeping strategies. Within a studio and computer lab environment, students will have practical experience with a range of techniques, technologies and processes relevant to their chosen arts discipline. The outcomes of these practical explorations will provide students with teaching and learning support materials that may be incorporated into the development of arts curricula, for teaching within the Arts and in the broader curriculum. Students develop experiential knowledge and understandings that will assist them in designing and implementing arts programs within current State/National curricula guidelines and informed by selected international arts education best practice.

*Note: Commencing 2019*

### Assessment

Assessment will vary according to the selected discipline-based arts curriculum area but will total 4000 words or equivalent. Assessment will focus on students' demonstration of knowledge and skills relating to the selected art form and to apply appropriate teaching methodologies to classroom teaching as well as curriculum design and development in the selected discipline art strand.

## EEA411 – Primary Arts Education: Focussed Study

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrnambool, Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Jo Raphael*

*Campus contact: Fiona Phillips (Warrnambool)*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in E359*

*Incompatible with: ECA410, EEA311, EEA410*

*Scheduled learning activities – campus: 1 x 3 hour  
Seminar per week*

### Content

In their selected specialism, students will engage in the theoretical and practical application of a range of arts discipline forms within various social and cultural contexts. The emphasis will be on ways of implementing these in arts discipline specific lessons that also incorporate assessment and record keeping strategies. Within a studio and computer lab environment, students will have practical experience with a range of techniques, technologies and processes relevant to their chosen arts discipline. The outcomes of these practical explorations will provide students with teaching and learning support materials that may be incorporated into the development of arts curricula, for teaching within the Arts and in the broader curriculum. Students develop experiential knowledge and understandings that will assist them in designing and implementing arts programs within current State/National curricula guidelines and informed by selected international arts education best practice.

*Note: Final year of offer, please select alternate unit EEA311 from 2020*

### Assessment

Assessment for each arts discipline area will total 4000 words (or equivalent):

- Written and practical work (2000 words) – 50%
- Written and practical work (2000 words) – 50%

## EEC381 – Classroom and Behaviour Management

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Wendy Kortman*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

Classroom and behaviour management strategies play an important role in the creation and maintenance of effective learning environments. A diverse and changing student cohort means teachers in the twenty-first Century need a detailed understanding of the diverse factors impacting upon student and group behaviour and a robust set of strategies for creating positive, effective classroom management plans.

This unit provides students with opportunities to reflect upon the strengths and weaknesses of diverse behaviour management strategies and to develop their own behaviour management plan.

### Assessment

- Assessment 1 – Analysis of behaviour management theories and application of strategies. Student's will analyse, in essay form, a chosen theory of behaviour management and evaluate the theory's effectiveness by applying the theory to a behaviour management strategy or intervention. Essay (2000 words equivalent) – 50%
- Assessment 2 – Behaviour Management Today – Students will develop a plan or advice on an issue of behaviour management for a particular group/class. In the plan students will outline their behaviour management philosophy (with a rationale and justification); they will identify key prevention and intervention strategies; they will reflect upon the extent to which the plan caters for a diverse student group (2000 words) – 50%

## EEE308 – Curriculum, Assessment and Reporting: Primary

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrnambool, Waurin Ponds (Geelong)*

*Credit point(s): .75*

*EFTSL value: 0.094*

*Trimester 2 Unit Chair: Claire Charles*

*Prerequisite: Nil*

*Corequisite: EEP302*

*Incompatible with: EXE202, EEE202*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

### Content

This is the fourth of six compulsory Education Studies units in the Bachelor of Education (Primary). The purpose of this unit is to develop knowledge and understanding of the role of curriculum, assessment and reporting in realising the purposes and possibilities of schooling. This requires a thorough understanding of the processes of curriculum design, development, implementation and assessment and reporting and a critical awareness of the creative role of curriculum and assessment in empowering schools to respond to social change. The internationalisation of curriculum and a range of varying curriculum models will be also explored.

In preparation for school experience students will explore models of weekly, unit, and trimester program schemers. The sharing of other models used in school settings will be included in the debriefing after placement. Debriefing will also include discussion of other problematic issues raised by students.

*Note: Pipelining from 2014 – for continuing students only*

### Assessment

- Assessment 1 – Reflective Report: Students are to articulate their reflective responses to the readings and unit materials (1000 words) – 25%
- Assessment 2 – Seminar Presentation: Students will work in small groups (4 members) to present a 20 minute presentation on Assessment for Learning (1000 words) – 25%
- Assessment 3 – School Analysis: Students will collect, collate and analyse information from their teaching round to contribute to their understanding of curriculum, assessment and reporting practice in schools (2000 words) – 50%

## EEE401 – Professional Relationships

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrnambool, Waurin Ponds (Geelong)*

*Credit point(s): .75*

*EFTSL value: 0.094*

*Trimester 1 Unit Chair: Josephine Lang*

*Cohort rule: Must be enrolled in E359.3*

*Campus contact: Josephine Lang (Burwood (Melbourne))*

*Edwina El Hachem (Waurin Ponds (Geelong))*

*Vivienne Stevens (Warrnambool)*

*Prerequisite: Nil*

*Corequisite: EEP401 or EEE401*

*Incompatible with: EXE505, EEE505, EXE401*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

### Content

This unit will focus on the functions and roles of assessment in the process of learning and how it may be used to positively support learning. The unit will examine the complexity of assessment from multiple contexts such as international and national testing as well as the practices within the classroom. Preservice teachers will review, refine and develop their knowledge and skills associated with being an assessment literate teacher, which will include, for example, to: critically reflect on the purposes and roles of diverse assessment strategies and their impacts on student learning processes as well as their influence on curriculum and pedagogical practices; understand how to record and represent students' assessment data; analyse and interpret diverse assessment data and how it informs learning and teaching; provide and analyse feedback on student learning; examine how to engage in classroom assessment practices in order to make consistent and comparable judgements of students' assessment tasks and the place of reporting on student learning.

This unit relies upon the Professional Experience Placements that are associated with the fourth year program.

### Assessment

- Assessment 1 – Diversity in Assessment: Analysing Functions & Roles (equivalent to 1600 words) – 40%
- Assessment 2 – Designing Assessment for Learning (equivalent to 2400 words) – 60%

## EEE402 – Transition to Beginning Teaching

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrnambool, Waurin Ponds (Geelong)*

*Credit point(s): .75*

*EFTSL value: 0.094*

*Trimester 2 Unit Chair: Edwina El Hachem*

*Campus contact: Peter O'Keefe (Burwood (Melbourne))*

*Dianne Toe (Waurin Ponds (Geelong))*

*Gaelene Hope-Rowe (Warrnambool)*

*Prerequisite: Nil*

*Corequisite: EEP402 or EEE402*

*Incompatible with: EXE505, EEE505, EXE402*

*Scheduled learning activities – campus: 3 x 3 hour Classes (Week 3, 6 & 9), 1 x 2 hour Seminar per week, Whole day conference (Final assessment in Week 11)*

*Professional experience: Students will be required to complete a 20 day professional experience placement*

### Content

This is the last of six units in the Education Studies Major. It focuses on the transition from being a student teacher-in-preparation to being a beginning teacher. One aim of the unit is to consolidate the links between theory and practice emphasised in all Units of the Education Major. Another aim is to ensure that graduating students have the knowledge to take their place on the staff in a school. A third aim is to ensure that students are conceptually prepared to recognise schools as institutions and communities of learners and are able to negotiate confidently within them as beginning teachers.

The unit attends to the notion of teachers as reflective practitioners and practitioner researchers who undertake ongoing enquiry while they deal with the everyday practice of teaching.

A part of this unit is spent in schools.

*Note: Pipelining from 2014 – for continuing students only*

### Assessment

- Assessment 1 – Review of Past Learning, Oral Presentation and Showcase Portfolio (equivalent to 2400 words) – 60%
- Assessment 2 – Professional Development Project (equivalent to 1600 words) – 40%

## EEE726 – Digital Learning, Design and Assessment

*Enrolment modes:*

*Trimester 1: Cloud (online)\**

*Trimester 2: Cloud (online)\**

*Trimester 3: Cloud (online)\**

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Chie Adachi*

*Trimester 2 Unit Chair: Lisa Milne*

*Trimester 3 Unit Chair: Lisa Milne*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in course E575, E598 or E798*

*Incompatible with: EEE731*

*Scheduled learning activities – cloud (online):*

*Collaborative and interactive learning activities will be undertaken via FutureLearn each week throughout the unit.*

### Content

This unit examines principles and theories of digital learning, including the role of digital technologies in contemporary educational contexts. A broad range of digital learning strategies are presented through case studies to analyse how these approaches are aligned with learning outcomes, assessment and learning activities. Specific attention is given to the use of digital learning strategies that promote active, equitable and personally engaging learning experiences for learners from diverse backgrounds. Participants are asked to design and reflect on a digital learning intervention for their own professional context which demonstrates their understanding of relevant educational theories. Participants reflect on their own practice and also provide peer feedback to other participants enrolled in the unit, in order to develop critical thinking and evaluative judgement skills.

*Note: \*This unit uses the FutureLearn online learning platform. Learn more about studying through FutureLearn.*

### Assessment

- Digital Learning intervention plan (2500 words or equivalent) – 50%
- Assessment 2 (Individual, with Group Component) – Professional practice action plan (2500 words or equivalent) – 50%

## EEE730 – Contextualising Learning and Teaching in Higher Education

*Enrolment modes:*

*Trimester 2: Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Cheryl Ryan*

*Trimester 3 Unit Chair: Cheryl Ryan*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: EEE710*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

In this unit students will investigate major policy drivers in Higher Education and how these translate into their teaching practice. Students will investigate key learning theories and contemporary assessment practices through Cloud-based resources and case studies and critically apply this knowledge to reflect on their own teaching and to the identification of relevant problem/s of practice and suggest solutions to these.

### Assessment

- Assessment 1 – Critical analysis and reflection (equivalent to 2500 words) – 50%
- Assessment 2 – Investigation and presentation (equivalent to 2500 words) – 50%

## EEE731 – Designing, Teaching and Assessing Higher Education Programs

*Enrolment modes:*

*Trimester 1: Cloud (online)*

*Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Damian Blake*

*Trimester 2 Unit Chair: Damian Blake*

*Incompatible with: EEE726*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

## Content

This unit examines important principles of curriculum design in higher education, including the development of discipline-specific learning outcomes that are appropriate for the level of the course, intended audience and relevant professional standards. A broad range of teaching, learning and assessment strategies are presented through contemporary case studies which also examine how these approaches are aligned with the intended curriculum. Participants are asked to design a curriculum for their own higher education context which demonstrates appropriate alignment between intended learning outcomes and the teaching, learning and assessment program. Specific attention is given to the use of technology-mediated and located teaching strategies that promote active, equitable and personally engaging learning experiences for students from diverse backgrounds. Participants critique their own programs and also provide peer feedback to colleagues enrolled in the unit.

## Assessment

- Assessment 1 – Curriculum Design (equivalent to 2500 words) – 50%
- Assessment 2 – Rubric Design (equivalent to 2500 words) – 50%

## EEE732 – HDR Supervision

*Enrolment modes: Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Chris Hickey*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning including two (2) scheduled online workshops*

## Content

This unit is designed to provide an introduction to a variety of issues connected with Higher Degree by Research (HDR) supervision. It is aimed at those who are new, or relatively new, to the process of supervising research students (Doctoral, Masters, and Honours). Underpinning the Unit is a recognition of the distinctive pedagogic (teaching and learning) nature of HDR supervision as a research training pathway for academe and/or industry. The unit provides an overview of contemporary HDR pedagogy, recognising different discipline areas and their different research cultures, practices and challenges.

The unit aims to develop participants' awareness of requirements and regulations for doctoral degrees, identify issues and research cultures in their particular discipline areas, and support their understanding of the guidance and monitoring process required in an effective supervisory relationship. The unit is formally recognised as a part of the 'fast track' process to gaining eligibility to undertake Principal Supervision.

## Assessment

- Assessment 1 – Research reflection (2500 words) – 50%
- Assessment 2 – Research document folio (equivalent to 2500 words) – 50%

## EEE733 – The Scholarship of Learning and Teaching

*Enrolment modes:*

*Trimester 1: Cloud (online)*

*Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Rosalyn Black*

*Trimester 2 Unit Chair: Rosalyn Black*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Cloud learning will be supported by a rich range of resources including discussions, links to useful readings, case studies of the scholarship of teaching and learning in practice and examples of previous students' inquiries.*

## Content

This unit aims to have participants further their knowledge about the scholarship of teaching, and to orient them towards inquiry-based reflection and improvement of teaching as a scholarly pursuit. Topics include critical reflection on, and inquiry into, teaching practice; methodologies and research methods including ethical issues and practices, associated with researching teaching; and report writing and communication of research into teaching.

## Assessment

- Assessment 1 – Inquiry proposal (2000 words) – 40%
- Assessment 2 – Written report and oral presentation (3000 words equivalent) – 60%

## EEE751 – Teaching: Promoting Successful Learning

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 3 D303/D304 only: Burwood Intensives, Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Mary Dixon*

*Trimester 3 Unit Chair: Jill Loughlin*

*Cohort rule: Must be enrolled in D303, D304, E760, E761, E762, E763, E764, or E765*

*Prerequisite: D303 and D304 students must have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%, otherwise Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Burwood: This unit is based on a Blended Learning delivery approach. This will include 1 x 3 hour seminar per non-placement week plus associated online learning resources along with independent study for a combined equivalent engagement of 8–10 hours per week.*

*Scheduled learning activities – cloud (online): This unit shares the Blended Delivery modules and resources with on campus students. Engagement with materials, responses to tasks, forum posting and independent study is expected to be a combined equivalent of 8–10 hours per week.*

### Content

Students will examine ways in which teaching and learning can be guided by an understanding of young children's and young people's identities, and the socio-cultural factors that help shape these. They will explore identity categories, including social class, ethnicity, Aboriginal and Torres Strait Islander people, and gender and the ways in which these categories influence children's learning and educational practices. They will examine how different learning and developmental theories can inform the curriculum and classroom teaching, and become familiar with the literature and research underpinning these theories as well as a range of related pedagogical frameworks.

### Assessment

- Assessment 1 – Professional learning/ teaching identities (2000 words or equivalent) – 40%
- Assessment 2 – Ethnographic portrait (3000 words or equivalent) – 60%

## EEE752 – Planning and Assessment with Diverse Learners

*Enrolment modes:*

*Trimester 1: Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Bernadette Walker-Gibbs*

*Trimester 2 Unit Chair: Kate Johnstone*

*Cohort rule: Must be enrolled in D303, D304, E760, E761, E762, E763, E764, or E765*

*Prerequisite: D303, D304, E760E, E760S, E760T, E761, E763 and E763T students: Completion of 4 Master of Teaching core units including EEE751.*

*E760P, E760PE, E760PS, E762, E764 and E765 students: Completion of 4 core units including EEE751 and EPL746*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Burwood: This unit is based on a Blended Learning delivery approach. You are expected to participate in all learning experiences designed and scheduled for you on campus (seminars, classes or incursions) or other learning contexts (excursions) and engage in associated online learning resources along with independent study for a combined equivalent engagement of 8–10 hours per week. This will include equivalent of 3 hours per non placement week of structured on campus learning activities or equivalent hours in intensive delivery.*

*Scheduled learning activities – cloud (online): This unit shares the Blended Delivery modules and resources with on campus students. Time engaging in learning activities is expected to total a combined equivalent of 8–10 hours per week. This includes engagement with materials, responses to tasks, regular forum posting and responding to others, scheduled synchronous online discussions and independent study. Your expected participation in scheduled synchronous discussions is a minimum of 3 hours per trimester.*

### Content

Students will investigate contemporary issues in teaching, assessment and curriculum development. They will consider and develop pedagogical approaches and curriculum perspectives to address the learning needs of a diverse range of students with particular attention to culturally diverse learners including Aboriginal and Torres Strait Islander (ATSI) learners.

## Assessment

- Assessment 1 – Articulation of Practice: Text Analysis (2500 words equivalent) – 50%
- Assessment 2 – Designing, Planning and Assessment in a Learning Sequence (2500 words) – 50%

## EEE753 – Becoming a Professional Educator

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Andrew Skourdoumbis*

*Trimester 2 Unit Chair: Jill Loughlin*

*Trimester 3 Unit Chair: Sue Bennett*

*Cohort rule: Must be enrolled in D303, D304, E760, E761, E762, E763, E764 or E765*

*Prerequisite: Completion of 8 Master of Teaching Core*

*Units including:*

- EEE751 and EEE752,
- one of EPR711, EPR721, EPR731 or EPR741, and;
- one of EPR712, EPR722 or EPR732

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Burwood: 6 x 3 hour Seminar (seminars do not run during placement)*

*Scheduled learning activities – cloud (online):*

*Engagement with on-line activities and discussion forums equivalent to 6 x 3 hours*

## Content

This unit aims to deepen students' understandings and develop the skills needed to be a member of the teaching profession. It has four foci. The first will address the key dimensions of the professional relationship. These include parent/carer partnerships and relationships with professional teaching networks and broader communities. The second focus of the unit is an introduction to research methods, specifically action research. The third focus of the unit will address professional ethics and responsibilities. It focuses on developing students' understandings and ability to apply the key principles described in codes of ethics and conduct for the teaching profession. The final focus will address essential legislative and administrative knowledge for the beginning teacher.

It aims to enhance students' understanding of the relevant legislative, and administrative policies and processes required for teachers in early childhood settings and schools.

## Assessment

- Essay: Analysis of an ethical dilemma (1250 words or equivalent) – 25%
- Issue Based Investigation in Schools: Action Research Proposal (2500 words) – 50%
- Test: legal responsibilities (1250 words or equivalent) – 25%

## EEG302 – Place, Culture and Teaching in a Global Context

*Enrolment modes: Trimester 3: Cloud (online)*

*See below for enrolment details*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Emma Rowe*

*Prerequisite: This unit requires students to apply for, and be accepted into, a Global Education Program. For more information on the application process go to: [www.deakin.edu.au/gep](http://www.deakin.edu.au/gep). Students cannot enrol in the unit without written approval*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): The student contact hours are flexible and are based on student engagement and output. This unit is a trimester 3 unit, but it will require students to be engaged with the learning resources throughout the year, as dependent upon the Global Education Program which they are completing. Please contact the Unit Chair for further advice.*

*Teaching Placement: Students will be required to complete a minimum of 100 hours (maximum 120 hours) within a school and/or relevant education organisation/experience.*

*Learning resources are available via CloudDeakin*

## Content

This unit aims to support a place-based learning experience such as the Global Education Program to develop an in-depth understanding of place, culture and how context influences curriculum and teaching practices. Students are challenged to critically reflect on their emerging teacher identity, positionality in the world and preconceptions of places and people.

This reflection is in conversation with broader notions of social (and spatial) justice, equity, values, and power. An aim is to develop the reflective teaching practices and competences required for respectful intercultural understandings, engagement and dialogue. Students design, implement and evaluate teaching strategies, resources and educational programs that are responsive to the learning needs of diverse learners from different cultures, communities and/or contexts.

### Assessment

- Assessment 1 – A Handbook for Teaching, multimedia group task (2000 words equivalent) – 50%
- Assessment 2 – Individual reflection report (2000 words) – 50%

### Hurdle requirement

Satisfactory completion of the professional experience placement is required in order to pass this unit.

## EEG402 – Teaching in a Global World

*Enrolment modes: Trimester 3: Waurn Ponds (Geelong) and Burwood (Melbourne) offered in intensive mode*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Heather Wallace*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: This unit is taught in on-campus, intensive face-to-face mode and students are expected to actively participate all intensive days. This will include 4 x 6 hour intensive learning sessions and ½ day presentation (on campus).*

### Content

This unit explores the implications for teaching in an increasingly globalised world through issues such as internationalisation, interdependence, social justice and human rights, identity and cultural diversity, peace building and conflict resolution, and sustainable futures. Students review the literature on a selected issue, and critically evaluate a resource designed to address the concept and relevant curriculum. Students also research and develop resources and teaching approaches that respond to the diverse learning needs of a selected a classroom context and for a particular cohort, for example, refugee, EAL, or ATSI students.

An aim is to develop reflective practitioners who understanding of the complexities and considerations for teaching in a diverse range of educational contexts.

This unit will assist with developing practical knowledge of how the International Baccalaureate programmes are designed, interpreted and implemented.

*Note: You are able to undertake this study as part of the IB PYP pathway or as an elective in your program.*

### Assessment

- Assessment 1 – Resource Evaluation Report (equivalent to 2000 words) – 50%
- Assessment 2 – Presentation at a Teaching in a Global World Conference (2000 words) – 50%

## EEG701 – Contemporary Issues in International Education

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Kirsten Hutchison*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

This unit seeks to further the understanding of developments in international education inclusive of the broader social, cultural and educational contexts leading to the development of new institutional formations in global education. Students will explore specific sectors in education inclusive of schools, post-secondary, higher education and international education such as the International Baccalaureate (IB).

The unit will expect students to critically explore concepts such as globalization, transnationalism and mobility that shape the development of education in international contexts. It also seeks to familiarise students with the various issues that influence international education and have impact on shaping and transforming the development of professional standards, assessment, accreditation, certification, etc.

These issues will be placed within the context of various explanations of the processes of cosmopolitanism, globalisation and the emergence of global capital, global society, global citizenship, and international schooling.

## Assessment

- Assessment 1 – Individual presentation: What are the issues relevant to international education? You may refer to a specific sector in education such as school based, post-secondary, higher education or IB. (20 minute presentation and a 1000 word report (2500 words or equivalent)) – 50%
- Assessment 2 – Research task: Conduct research into international education referring specifically to your chosen sector – school based, post-secondary, higher education or IB. Your task is to critically explore concepts such as globalization, transnationalism and mobility that shape the development of education in international contexts and how these are shaping the internationalisation of education. (2500 words) – 50%

## EEG702 – Professional Learning Theory and Practice in International Education

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Kirsten Hutchison*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

## Content

The internationalisation of education necessitates that professional educators rethink their approaches to professional learning. Professional learning takes place within contexts of cultural and educational diversity in which educators negotiate their work and pedagogical practices.

This unit will critically explore the changing nature of professionalism in a range of international educational contexts. Students will critically reflect on their own knowledge and practices in the light of current learning theories and contemporary practices in international

educational classrooms and contexts. The unit will require students to investigate the implications of the rising expectations on teachers that require them to be learners, researchers and networkers, implementing research based policy and practice within international education contexts and teacher labour markets.

The unit draws on comparative sociology to theorise professionalization and educational practices that are emerging from global educational markets, for example IBO. It will require students to analyse and theorize about teachers' professional learning needs in international contexts, apply these learnings to their own practices and relate these to student learning outcomes.

## Assessment

- Assessment 1 – Essay: A critical analysis of theory and practice in contemporary international education contexts (2500 words) – 50%. Students will critically analyse how contemporary practices in international educational classrooms and contexts are informed by current learning theories. They will demonstrate a critical understanding of the changing nature of professionalism in the international context.
- Assessment 2 – Essay: A theorised philosophy and plan for effective teaching in the international context (2500 words) – 50%. Students will develop and present a professional philosophy and teaching plan that are appropriately analysed and theorised for the international context. They will link theory and practice and provide a well-researched argument that shows how the plan will improve student learning outcomes.

## EEG703 – Governance and Capacity Building in International Education

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Kirsten Hutchison*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

## Content

Schools, unlike other commercial and industrial businesses, have learning as their central focus. This unit concentrates attention on the ways in which systematic educational processes, both internal and external, can be managed in ways that enhance the processes of teaching and learning in the context of international schools. The variety of International Schools is examined in terms of the educational needs of students in particular communities and the match or mismatch between educational needs and system provisions are considered. The various forms of support and legitimisation of curriculum and assessment processes offered by various governmental, non-governmental, independent and transnational agencies is also considered as are the brokering arrangements between such schools and other educational institutions.

## Assessment

- Assessment 1 – A case study of either a) educational systems that support teaching and learning or b) the human and physical resources that support the educational objectives of a school, with particular attention to the implications of its claim to be 'international' (3000 words) – 50%
- Assessment 2 – A case study of either a) the relationship between the school and its 'international' community or b) the relationship between the school and the networks of support to which it is affiliated internationally (3000 words) – 50%

## EEG704 – Internationalising Curriculum in Education

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Kirsten Hutchison*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

## Content

Curriculum and assessment are processes that lie at the heart of schooling. Many attempts are currently being made to internationalise these processes- either by the extension of 'national' systems into international contexts or by the establishment of 'supra-national' systems such as the International Baccalaureate. This competition for influence is examined within the processes of globalisation, democratisation and inclusion which provide the current context for international schooling. Examples and case studies are provided and students are expected to contribute examples of these processes at work in international schools with which they are familiar.

## Assessment

- Assessment 1 – Case study (3000 words) – 50%
- Assessment 2 – Action plan (3000 words) – 50%

## EEH101 – Health and Physical Education Studies

*Enrolment modes: Enrolments close early March 2018.*

*Student enrolment quotas apply to this unit.*

*Trimester 1: Burwood (Melbourne), Waurn Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Leanne Coll*

*Cohort rule: Must be enrolled in E377*

*Students from other courses may take the unit with permission of the course director*

*Campus contact: Jacqui Peters (Burwood (Melbourne))*

*Leanne Coll (Waurn Ponds (Geelong))*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ESH101*

*Scheduled learning activities – campus: 1 x 1.5 hour*

*Class per week, 1 x 1.5 hour Practical per week*

## Content

This unit begins by investigating the history of physical education, health and sport within an education context and noting the shift towards a more integrated model of HPE. The areas of congruence, tensions and challenges for PE identities are explored. A focus on physical activity and the relationship to children's health status and present day health and physical education programs are examined. This is achieved through teacher modelling, student observation and teaching physical education lessons in a school setting.

Students will also analyse the benefits, role and history of health in education and explore the risks to students and identity within a health context, school and broader community.

Students will also explore the work of the teacher in relation to the key principles described in the code of ethics and conduct for the teaching profession and the relevant legislative, administrative and organisational policies and processes required for teachers according to school stage. Students participate in practical classes to enhance their knowledge and skills in traditional and student-centred approaches to learning through a variety of sports (including SEPEP and game-centred approaches) and reflect on the shift from participant to teacher.

### Assessment

- Exploring biographies in Health and Physical Education (1200 words or equivalent) – 30%
- Assessment 2 (Group) – Risk Management and Unit Preparation (1200 words or equivalent) – 30%
- Lesson planning and Reflective practice report (1600 words or equivalent) – 40%

## EEH102 – The Art and Science of Movement

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrn Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Naomi Symington*

*Cohort rule: Must be enrolled in E377*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ESH102*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

*Learning experiences are also via CloudDeakin*

### Content

This unit uses dance and gymnastics to explore the science and art of movement education and performance skills. Inclusivity and critical analysis are used to explore both the theoretical and practical perspectives.

Through dance and gymnastics seminars students investigate how to structure a safe learning environment that includes mutual respect, support, inclusivity and co-operative participation in health and physical education. Emphasis is also placed on student understanding of skill progression, sequence and transfer in dance, gymnastic and foundation skills. In small groups, students research health issues and investigate the role of creativity and communication in production of a movement piece.

Through research and discussion, students develop and apply knowledge and understanding of key themes explored through participation in practical activities. This is achieved through teacher modelling, student observation, discussion and participation in the seminars.

*Note: Student enrolment quotas apply to this unit*

### Assessment

- Assessment 1 – Gymnastics review (1000 words) – 25%
- Assessment 2 – Task cards (1000 words) – 25%
- Assessment 3 – Research journal and Dance and Gymnastics Collaborative Performance (x 3) (2000 words) – 50%

## EEH103 – Foundations of Sport and Exercise Pedagogy and Practice

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrn Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Sacha Bosman*

*Cohort rule: This unit is only available to students enrolled in E377 – Bachelor of Health and Physical Education, E377 – Bachelor of Physical Education*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: HBS109*

*Scheduled learning activities – campus: 1 x 1.5 hour Class per week and in alternate weeks a practical or Seminar session 1.5 hours in duration*

## Content

This unit in sport, exercise and movement pedagogy and practice provides foundational content and interdisciplinary perspectives about the ways in which core discipline knowledge in anatomy and physiology applies to teaching about and for movement experiences in various contexts. As core content that underpins Human Movement, the unit will provide disciplinary studies in anatomy and physiology with a focus on building knowledge, skills and expertise drawn on in the teaching about, and instructional approaches relevant to, human movement. It develops knowledge in anatomical and physiological language, cell and tissue structure and function and a focused exploration of body systems relevant to human movement (e.g., cardiovascular, respiratory, musculo-skeletal and nervous systems). Further, the unit provides opportunity to develop key pedagogical skills in setting achievable learning goals that are developmentally appropriate and contextually relevant for learners, and to identify practices in organising effective teaching and learning sequences for human movement.

## Assessment

- Assessment 1 – Mid-trimester online test – 20%
- Assessment 2 – Sport and Exercise Pedagogy:  
Online instructional presentation – 30%
- Assessment 3 – Examination – 50%

## EEH116 – Primary Physical Education

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Warrnambool, Warrnambool (Geelong)*

*Trimester 3: Burwood (Melbourne), Warrnambool (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Shannon Cunningham*

*Trimester 3 Unit Chair: Naomi Symington*

*Prerequisite: E200 students: Must have passed at least three units from EAD110, EAD111, EAD112, EAD113*

*Corequisite: Nil*

*Incompatible with: EEH216*

*Scheduled learning activities – campus:*

*Trimester 1: 1 x 1 hour class and 1 x 2 hour practical per week*

*In-person attendance requirements:*

*Trimester 3: Intensives held at Melbourne Burwood and Geelong Warrnambool*

*Burwood: Monday 11th November, Tuesday 12th*

*November, Wednesday 13th November, Monday 18th*

*November and Tuesday 19th November 2019*

*Warrnambool: Monday 13th January to Friday 17th*

*January, 2020*

## Content

This unit is designed to familiarise students with contemporary curriculum and pedagogy in the area of physical education as taught in the primary school. It focuses particularly the primary physical education component of the Australian Curriculum: Health and Physical Education.

This unit aims to:

- Engage pre-service primary teachers with the Australian primary school physical education curriculum,
- Discuss a rationale for the importance of physical education in Victorian and Australian primary schools.
- Familiarise pre-service teachers with various components of a quality primary physical education program.
- Implement age-appropriate / primary school physical education classes through effective yearly, term and lesson planning using current curriculum documents.
- Equip pre-service teachers with the skills, knowledge and confidence to provide successful physical education experiences for their primary school aged students

*Note: Trimester 3 offering – student enrolment quotas apply.*

*Trimester 3: Warrnambool students to attend intensive at Geelong (Warrnambool) or Burwood (Melbourne).*

## Assessment

- Assessment 1 (Group) – Presentation: small group video task demonstrating understanding of curriculum and pedagogy in PE (equivalent to 1000 words per group member) – 40%
- Reflective journal compiled across this unit. The journal will be a weekly response to prompt questions and collection of notes, answers, ideas, artefacts and reflections drawn from lectures, practical classes & readings (approximately 3000 words) – 60%

## EEH202 – Youth Health and Student Wellbeing

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Claire Stonehouse*

*Cohort rule: Must be enrolled in E377*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

### Content

This unit allows pre-service teachers to explore a range of youth health and wellbeing issues that can impact on young people's ability to take advantage of educational opportunities, and to reflect upon and explore their own values and attitudes to a range of issues that can be personally confronting, such as alcohol and other drugs, mental health, and wellbeing and safety.

This unit develops teamwork skills that mimic a school curriculum planning environment. Through the use of specific case studies of a range of youth, including those from diverse linguistic, cultural, religious and socioeconomic backgrounds, emphasis is placed on understanding the ways in which diversity shapes learning in the school context, particularly in terms of health and wellbeing.

The unit also provides the opportunity to engage with a number of approaches to working with young people and other stakeholders in the schools, and exposure to a variety of current policy and practice, curriculum, initiatives and programs that are currently being utilised in schools and other agencies around health and wellbeing issues.

### Assessment

- Assessment 1: (Group) – Report on a current Student Wellbeing issue (800 words per student or equivalent) – 20%
- Assessment 2: (Group) – Team meetings (1000 words per student or equivalent) – 25%
- Assessment 3: (Individual) – Reflection (2200 words per student or equivalent) – 55%

## EEH203 – Sport and Exercise Practice

*Enrolment modes:*

*Trimester 1: Waurin Ponds (Geelong)*

*Trimester 1: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Sacha Bosman*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in E359*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1.5 hour Workshop per week, 1 x 1.5 hour Class per week*

### Content

This unit focuses on sport, exercise and movement. The unit will provide an overview of basic anatomical and physiological language and terminology, organisation of the human body, cell and tissue functioning and will introduce various structure and functions associated with body systems pertinent to movement contexts (e.g. cardiovascular, respiratory, musculo-skeletal and nervous systems).

Practical classes will provide skills in instruction across various movement contexts including fitness education, aquatics and water safety, sport and games. The practical classes will specifically seek to develop skills in setting achievable learning goals that are developmentally appropriate and contextually relevant and to identify practices in organising effective teaching and learning sequences for physical skills in these various contexts.

*Note: Student enrolment quotas apply to this unit*

### Assessment

- Assessment 1 – In class Progress Test – 20%
- Assessment 2 – Online presentation (15 minutes in duration) – 30%
- Assessment 3 – Final written examination (90 minutes in duration) – 50%

## EEH217 – Student Health and Wellbeing

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrnambool, Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Claire Stonehouse*

*Prerequisite: For E200 students: Must have passed at least three units from EAD110, EAD111, EAD112, EAD113*

*Corequisite: Must be enrolled in E359 or E200*

*Incompatible with: EEH316*

*Scheduled learning activities – campus: 1 x 3 hour Seminar*

### Content

This unit prepares students to teach Health Education in the primary school setting and addresses the mandatory requirements a teacher has for Student Wellbeing.

Student Wellbeing has increasingly become a central focus for schools, and current policy frameworks state that it is a responsibility of every classroom teacher.

The aim of this compulsory unit is to develop students' understanding of some of the issues that impact on student well-being, the contemporary policy contexts related to this area and the implications for their practice. Students will be expected to identify current education initiatives, including state policies together with national and global initiatives. The unit will prepare students to teach Health Education in the Victorian Curriculum. It addresses cross-curricular approaches to Health Education, in an increasingly crowded curriculum.

### Assessment

- Assessment 1 (Group) – Essay (800 words per student or equivalent) – 20%
- Assessment 2 (Group) – Team Meetings Report (1000 words per student or equivalent) – 25%
- Reflection Essay (2200 words or equivalent) – 55%

## EEH301 – Nutrition, Growth and Development for Health Educators

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Natalie Hendry*

*Prerequisite: EEH202 OR EEH217*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

### Content

This unit will explore a range of issues related to nutrition, growth and development relevant to health and physical educators. Central to the unit will be the discipline study of nutrition, including the classification of nutrients; food intake and its relationship to activity; lifespan nutrition; nutrition and lifestyles; growth and development; Recommended Dietary Intakes (RDI); health implications of nutrient deficiencies and diet-related disease; sociocultural factors that shape food choices; public health promotion related to nutrition; sport and exercise nutrition requirements; supplement analysis; and hydration techniques.

In preparing educators for the work of this discipline in schools, this unit will focus on the important work of developing functional, interactive and critical health literacies in keeping with the tenets of the Victorian Curriculum. Students will also have the opportunity to engage in the numeracy demands of the mathematics of nutrition. A strengths-based approach to teaching health will be explored, equipping the students with the discipline knowledge, skills and understandings required to teach health in a contemporary classroom.

### Assessment

- Assessment 1 – Presentation (10 minutes) – 20%
- Assessment 2 – Report (1200 words) – 30%
- Assessment 3 – Dietary analysis (2000 words equivalent) – 50%

## EEH302 – Health and Physical Education in the Curriculum

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Jacqui Peters*

*Prerequisite: One of EEH217, EEH203 or HBS110*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1.5 hour class per week for 9 weeks, 1 x 1.5 hour practical per week for 9 weeks*

### Content

This unit will consist of online, theory and practical components. The unit will focus on the understanding of the theoretical foundation of pedagogy as well as curriculum and assessment issues in Years P-6 HPE, including the various ways in which curriculum is organized, in order to help develop understanding of the concepts, substance and structure of the content and teaching strategies of HPE. Students will have the opportunity to discuss and critique the work in schools in engaging in the prac-theory nexus. Specifically, policies and frameworks that guide planning, teaching and assessment of HPE that organise content into an effective learning and teaching sequence to be applied in a real learning context in a primary school will be explored. The unit will also focus on the challenges of classroom management and teaching within a diverse classroom and catering for individuals' needs, in both the physical education environment and in the health classroom.

*Note: Commencing 2019*

### Assessment

- Assessment 1 – Contemporary issues in HPE – Journal task (2000 words equivalent) – 50%
- Assessment 2 – Risk Management and Lesson Preparation (Group task) (1000 words equivalent) – 25%
- Assessment 3 – Reflective practice report (1000 words) – 20%

## EEH315 – Teaching Sexuality and Relationship Education

*Enrolment modes:*

*Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong)*

*Trimester 3: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Debbie Ollis*

*Trimester 3 Unit Chair: Debbie Ollis*

*Cohort rule: Students must to be enrolled in an initial teacher education course*

*Prerequisite: 16 credit points of study. Students with Recognition of Prior Learning as part of their 16 credit points must seek approval from the Unit Chair*

*Corequisite: Nil*

*Incompatible with: Nil*

*In-person attendance requirements:*

*Trimester 2: intensive offering for 6 weeks – weeks 1–3 and 7–9. 6 hours per week for E377 only students at Burwood (Melbourne) and Geelong (Waurin Ponds) unless negotiated with unit chair.*

*Trimester 3: intensive offering for 6 days – 13–15, 18–20 November 2019 (6 hours per day)*

*Assessment day – week of 4 December 2019 for E359 and E377 students.*

### Content

Sexuality does not suddenly emerge at secondary schools. Primary school age students live in a social context where they are exposed to messages about sexuality on a daily basis in the media through television, music, and advertising and from their peers. Sex is often joked about and discussed in derogatory or stereotypical ways. The correct information about human sexuality, including the positive aspects, is often kept hidden from children.

Generally children who receive a comprehensive sexuality education from an early age:

- Understand and accept with confidence physical and emotional changes
- Feel positive about their bodies
- Appreciate individual difference
- Are more likely to make informed and responsible sexual decisions in later life
- Feel good about themselves and their gender
- Are capable of communicating about sexual matters
- Understand appropriate and inappropriate behaviour
- Are less vulnerable to exploitation and sexual abuse (Family Planning, Queensland 1996).

Sexuality education can be confronting and challenging for teachers and currently there is very little professional development in the area of health and sexuality education, particularly for primary teachers. Current programs in primary schools are often taken by outside agencies in one off blocks. This approach does not provide any continuity in teaching and goes against research that suggests classroom teachers are the best people to teach sexuality education. Research also indicates that secondary school teachers find this a difficult area to teach. Graduating teachers need to be equipped with the knowledge, skills and confidence to integrate sexuality education content, issues and activities in health education programs in line with the Victorian Curriculum and student wellbeing policies and practice. Teachers need skills to provide effective teaching and learning activities, assess resources, deal with potentially sensitive issues with students and allay possible parental concerns. This unit is taught in intensive mode and includes the following content:

- Setting the context: the current situation;
- Discourses in sexuality education;
- Physiological aspects of sex and sexual health;
- Frameworks and policies;
- Gender and sexuality;
- Gender and sexual diversity;
- Cultural and religious diversity;
- Developing age appropriate approaches;
- Dealing with sensitive issues;
- Whole school approaches to sexuality education.

*Note: Student enrolment quotas apply to the Trimester 3 Burwood (Melbourne) offering of this unit*

### Assessment

- Assessment 1 – Resource Development (2000 words) – 50%
- Assessment 2 – Micro-teaching presentation (2000 words equivalent) – 50%

## EEH401 – Professional Issues in Health and Physical Education

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrnambool (Geelong)*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Cassandra Iannucci*

*Cohort rule: Must be enrolled in E377*

*Campus contact: Burwood (Melbourne): Natalie Lander  
Warrnambool (Geelong): Leanne Coll*

*Prerequisite: EPP203 and EPP303 OR EEH201*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1.5 hour  
Class per week for 7 weeks, 1 x 1.5 hour Seminar for 7 weeks*

*Learning experiences are also via CloudDeakin*

### Content

This unit focuses on professional issues critical to students' future as health and physical educators. In this unit, students will identify evidence-seeking questions related to the field of HPE and consider how these have influenced, or are likely to influence, pedagogical approaches to HPE in schools. Opportunities will then be provided for students to explore the important role that theory and evidence-based practice plays in reflecting on, debating and responding to their selected professional issue. Students will also engage in learning experiences and assignment tasks aimed towards preparation for future careers through understanding the role of the Australian Professional Teacher Standards; responsible engagement with technology; access to and ethical and social justice issues; policies and practices in schools; working in diverse religious, linguistic, cultural and socioeconomic contexts; and the role of the DET, community and parents in their work as teachers.

### Assessment

- Assessment 1 (Group of 4 – 5 students) – Professional Issues Debate (2500 words or equivalent) – 50%
- Assessment 2 Individual – Professional Portfolio (2500 or equivalent) – 50%

## EEH403 – Inclusivity and Diversity in HPE Movement Contexts

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Cassandra Iannucci*

*Prerequisite: EEH455*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*1 x 3 hour Seminar per week (Week 1 and 11)*

*1 x 1.5 hour Seminar and 1 x 1.5 hour prac per week (Weeks 2–5).*

### Content

This unit will consist of theory and practical components designed to challenge students to consider their work in health and physical education in relation to students with diverse educational needs.

Students will undertake a voluntary experience within a school for students with special educational needs to bring to life the challenges of catering for diverse groups. They will also undertake a site visit and theoretical studies in Aboriginal and Torres Strait Islander education with a view to better understanding the health and education challenges for this group. Practical and theoretical activities will be driven by a strengths-based approach, in keeping with the underlying principles of the Australian Curriculum.

Students will undertake a range of practical activities that challenge them to think about health and physical education in light of lifelong physical activities. These include challenge, adventure and open-water aquatic activities, suitable for a diverse range of participants and contexts.

*Note: Commencing 2019*

### Assessment

- Assessment 1 – Literature Review (2000 words or equivalent) – 50%
- Assessment 2 – Learning plan (2000 words or equivalent) – 50%

## EEH404 – Health: a Family and Community Focus

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Claire Stonehouse*

*Prerequisite: EEH202*

*Corequisite: Must be enrolled in E377*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour*

*Seminar per week for 7 weeks*

### Content

This unit offers an approach to health education that focuses on the role of families and communities. Building both can have a positive impact on the school community.

Students will define family in the 21st Century and be taken through a life span approach to family and community health. Considerations such as health promotion, Government initiatives, policies and practices, health status and health priorities will help guide this unit. This issues will take a local community to international approach.

The unit will address key health issues across the lifespan (drug use, mental health, Respectful Relationships, heart diseases, motor vehicle accidents gambling, etc.) and discuss relationships between class, gender, sexuality, location, age, ability, indigeneity, ethnicity, etc.

### Assessment

- Assessment 1 (Group) – ATSI Resource (1200 word count or equivalent) – 30%
- Assessment 2 (Group) – Presentation (1200 words or equivalent) – 30%
- Essay (1600 or equivalent) – 40%

## EEH405 – Senior Physical Education: Curriculum Study

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrnambool (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Kate Moncrieff*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ESH405*

*Scheduled learning activities – campus: 1 x 2-hour seminar per week, 1 x 1-hour practical per week*

### Content

This unit brings together professional content and assessment knowledge into the delivery of senior physical education as a curriculum area in schools. This unit has a strong experiential base so the teacher education student develops confidence and is able to engage with a range of student needs. This unit also brings theory into practice in the evaluation and teaching of VCE units of work in physical education for senior students.

The unit focuses on the VCE Physical Education (PE) Study Design and explores a variety of school assessed coursework opportunities. There is a particular emphasis on how to link VCE PE theory and practical activities. The unit also explores the planning and implementation of other senior physical education curricula such as VET, VCAL and IB.

### Assessment

- Assessment 1 – Seminar presentation (1600 words) – 40%
- Assessment 2 – VCE Physical Education Unit of Work (2400 words) – 60%

## EEH406 – Home Economics: Curriculum Study A

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Claire Stonehouse*

*Cohort rule: Must be enrolled in E377*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour seminar per week*

### Content

This unit introduces students to the Years 7–10 home economics curriculum. Historical perspectives of home economics in the curriculum will be explored in order to understand the various forms in which the learning area has and does appear in contemporary school programs. Food preparation and science, nutrition, family and health and human development will be brought to life through practical and theoretical experiences. Students will have the opportunity to practise a range of Home Economics skills, whilst also examining the knowledge and understandings required of this learning area. Literacy and numeracy skills and notions of sustainability will be embedded in this unit as a means of demonstrating the cross-curricular priorities and general capabilities that need to be considered by the practising teacher.

### Assessment

- Assessment 1 – Report (1600 words) – 40%
- Assessment 2 – Unit of work (2400 words equivalent) – 60%

## EEH407 – Home Economics: Curriculum Study B

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Leanne Compton*

*Cohort rule: Must be enrolled in E377*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour seminar per week*

### Content

This unit explores a range of issues relating to food from both theoretical and practical perspectives and the ways in which curriculum, teaching, learning and assessment in this method area is mobilised in school contexts. Curriculum areas examined include food safety, properties of foods, planning and preparation of foods, food processing, food controls, product development and emerging trends in food growth and management. Home Economics is explored as it is represented in the senior curriculum within the broader framework of Food and Technology. Teaching, learning and assessment within the senior school Food and Technology curriculum are examined in line with the requirements of VCE.

### Assessment

- Assessment 1 – Presentation – 40%
- Assessment 2 – Curriculum design (2400 words equivalent) – 60%

## EEH455 – Approaches to Teaching Health and Physical Education

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrnambool (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Kate Moncrieff*

*Cohort rule: Must be enrolled in E377*

*Prerequisite: EEH201 and EPP203 for students who commenced E377 course from 2011*

*Corequisite: Nil*

*Incompatible with: ESH355, ESH455*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

*Students are required to participate as a mentor which requires a two hour mentoring/professional development session as required during five weeks of trimester*

### Content

This unit will address topics including:

- learner attitudes, needs and motivations for engaging in school based health and physical education (HPE).
- Further examination of the three learning domains as they apply to HPE
- components of effective teaching of HPE from Years 5-12 including planning and Assessment
- critical reflection upon past and present notions of effective teaching and the comparison of these to a models based approach
- the thorough investigation of several approaches to teaching HPE through participation in practical seminars and engaging with new HPE Content
- an examination of the role of reflective practice and personal evaluation to their own teaching and recognition of their own development through the mentoring of junior colleagues
- the opportunity to experience designing and implementing a unit of work based upon a selected pedagogical approach to teaching.

### Assessment

- Assessment 1 – Journal (800 words) – 20%
- Assessment 2 – Part A – Instructional models (1600 words) – 40%
- Assessment 3 – Part B – Instructional models (1600 words) – 40%

## EEH531 – Promoting Student Wellbeing

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Jacqui Peters*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: EEH530, EXC530*

*Scheduled learning activities – campus: 1 x 3 hour seminar per week*

### Content

Student wellbeing has increasingly become a central focus for schools, and currently policy frameworks state that student wellbeing is a responsibility of every classroom teacher. This unit aims to provide students with an understanding of young people and their wellbeing, contemporary policy contexts, as well as skills in developing supportive classroom strategies and practices. On completion of the unit students should be able to:

- understand a range of contemporary theoretical perspectives that inform understandings of young people and their health and wellbeing issues/needs
- understand the complex and multiple factors that contribute to young people's health and wellbeing status
- understand the broad role that schools play in young people's lives
- understand the role that schools can have in promoting and enhancing the health and wellbeing of young people
- understand contemporary frameworks that shape current school based interventions and practices in the field of adolescent health and wellbeing
- understand their role as a classroom teacher in the promotion of wellbeing
- develop and implement strategies at the classroom level that contribute to the promotion of wellbeing
- develop helping skills and networking/referral skills
- critically engage with the broad area of adolescent health promotion

### Assessment

- Assessment 1 – Case Study: Written case study of a student wellbeing issue, developed from a review of literature and student research – 50%
- Assessment 2 – Group Presentation: Group presentation of student wellbeing promotion strategies – 50%

## EEH730 – Promoting Student Wellbeing

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne)*

*Trimester 2: Cloud (online)*

*Trimester 3: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Natalie Hendry*

*Trimester 2 Unit Chair: Natalie Hendry*

*Trimester 3 Unit Chair: Leanne Coll*

*Cohort rule: Must be enrolled in D303, D304, E760 or E763*

*Prerequisite: D303 and D304 students must have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%, otherwise Nil*

*Corequisite: EPR702 or EPR732*

*Incompatible with: EXC530, EXC730*

*Scheduled learning activities – campus:*

*Trimester 1: 1 x 3 hour seminar per week (no seminars during placements)*

*Trimester 3: Online independent and collaborative learning activities. Students must attend and participate in 5 x full day seminars at the Burwood (Melbourne) campus on the scheduled days during the trimester*

*Scheduled learning activities – cloud (online):*

*Trimester 2: Online independent and collaborative learning activities including 1 x scheduled 1 hour online seminar per fortnight (no online seminar during placements)*

*Trimester 3: Online independent and collaborative learning activities. Students must attend and participate in 5 x full day seminars at the Burwood (Melbourne) campus on the scheduled days during the trimester*

### Content

Promoting Student Wellbeing is a compulsory unit designed to assist pre-service teachers to critically explore the relationship between health, wellbeing and education. In particular, students will engage in critical analysis about the social, political and curricular frameworks related to wellbeing and health. This unit is designed to engage students in teaching and learning experiences that not only build knowledge and understanding of health and wellbeing issues but also require students to reflect and explore their own values, experiences and attitudes to a range of issues that can be personally confronting. Students will consider how they influence teaching and learning, and how schools may protect, support and affirm the wellbeing of young people, teachers and their broader school communities.

The unit has important and critical direct links to teaching practice both inside and outside the classroom.

## Assessment

- Critical literature review (2500 words) – 50%
- Assessment 2 (Group of 2–4 students) – Digital object toolbox and podcast (2500 words or equivalent) – 50%

## EEI202 – Communication and Diverse Learners

*Enrolment modes: Trimester 1: Warrnambool, Waurn Ponds (Geelong), Burwood*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Edwina El Hachem*

*Cohort rule: This unit is only available to students enrolled in E359 – Bachelor of Education (Primary) course version commencing 2017*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 3 x 3 hour Classes (Week 4, 6 & 8), 1 x 2 hour Seminar per week during weeks 1-8 and 11.*

## Content

This unit aims to broaden students' knowledge and understanding of the various aspects of language and communication, and how they impact on learning and social and emotional development in diverse learners. It will evaluate the range of communication practices required to build strong relationships with parents, professional learning teams, allied professionals and the wider community in order to foster an inclusive environment for learning. Specifically, students will adopt an analytical approach to understanding the relationship between communication, language and literacy and learners with additional needs.

Students will engage with the theories of language and communication acquisition and apply these to individuals of different ages, language, social and cultural backgrounds, and language and communication abilities. Children with communication challenges will be highlighted, including those with ASD, language delays, hearing impairment, Acquired Brain Injuries and Mutism. The role of teachers in supporting children's language and communication skills through assessment and planning will be investigated.

*Note: Student enrolment quotas apply to this unit*

## Assessment

- Report (2000 words or equivalent) – 50%
- Critique (2000 words or equivalent) – 50%

## EEI301 – Personalising Learning: a Transdisciplinary Approach

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrnambool, Waurn Ponds (Geelong)*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Claire Spicer*

*Prerequisite: One of EEI202 or HDS106*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 3h seminar per week*

## Content

This unit consolidates understandings relating to the concept of personalised learning and how it relates to the curriculum, assessment and program planning for students with additional learning needs. It is designed to engage students in discussions about ideas of conformity, diversity, labelling, exclusion and inclusion. This unit will introduce students to the wide network of community supports and a transdisciplinary approach to supporting learners including the child mental health care system, the Department of Human Services, allied health workers and Child Protection.

Students will learn how to use a variety of assessment tools and employ teaching and support strategies and support networks to assess and plan for learners with additional needs. They will develop skills in collaborating with families and communicating clearly with parents providing evidence for meeting the APST 5 and 7.

*Note: Commencing 2019*

## Assessment

- Assessment 1 – Analysis of transdisciplinary reports for communication with parents (1600 words) – 40%
- Assessment 2 – Construction of an individual learning plan (2400 words) – 60%

## EEI302 – Role of Multimodal Therapies in Special Education

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrn Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Shelley Hannigan*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour*

*Seminar per week*

### Content

The role of mixed and multimodal therapies that assist and support children with additional needs is essential in enhancing a child's learning, social skills, emotional regulation and behavioural skills. This unit will introduce students to a range of therapies, including, but not limited to, equine, sand-tray, visual and tactile arts, drama, dance and music.

Therapeutic and education approaches will be explored and applied in workshops, during student fieldwork, placements or other educational contexts (working with a friend's child, relative or in an out of school activity) to support the role of therapies as pedagogical approaches to education.

Students will complete a reflective journal to keep track of their personal and pedagogical growth. They will develop skills in collaborating with peers by exploring therapeutic interventions and the impact on a child's learning, socialisation, emotional and behavioural development.

*Note: Commencing 2019*

### Assessment

- Assessment 1 – Therapeutic intervention and reflective journal (1600 words) – 40%
- Assessment 2 – Case study report and presentation (2400 words) – 60%

## EEI322 – Teaching the Learner with Special Needs in the General Education Classroom

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Claire Spicer*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour*

*Seminar per week*

### Content

This Unit is designed to highlight differing physical and cognitive needs and abilities of students in the general primary classroom. A high level overview will be given on topics such as gifted and talented education, learning difficulties and physical differences. Identification of special needs and teacher strategies will be covered.

### Assessment

- Assessment 1 – An analysis of one category of difference (1200 words) – 30%
- Assessment 2 – A report of a student with special needs observed in a general primary classroom (1600 words) – 40%
- Assessment 3 – A seminar presentation and plan (1200 words) – 30%

## EEI700 – Practicum Case Study

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Kim Davies*

*Cohort rule: Must be enrolled in E734 (commenced prior to 2018) or E744SP*

*Prerequisite: An approved teaching qualification*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

## Content

The unit requires participants to draw on their theoretical knowledge and professional understanding to develop and implement IEPs that utilize an understanding of appropriate pedagogy to promote an inclusive learning environment employing strength-based strategies for individual students. The content of this unit is designed to demonstrate, how IEPs can be more than a document but part of a process that can influence positive learning environments to engage students more successfully in their learning. Students complete the equivalent of a 15 day placement where they develop and implement an IEP as part of an inclusive school-based program for at least one student in a specific curriculum area.

## Assessment

- Assessment 1 – Submission of an initial IEP plan – 40%
  - Part A: Research, preliminary planning and analysis of data for the development of an IEP case study for a student that will be implemented in part B
  - Part B: The plan to be endorsed by the school supervisor
- Assessment 2 – Implementation: School evaluation of the implementation of the case study – 60%

## Hurdle requirement

Hurdle requirements for E734 and E744SP students only:

1. Completion and documentation of 2 days of professional development relating to the Field.
2. Knowledge of relevant support services related to the field.

Students who fail a hurdle requirement will be ineligible for a Pass Conceded grade for that unit and will receive a result of no more than 44% for that unit, waived under special consideration arrangements

# EEI703 – Personalised Program Planning

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Claire Spicer*

*Cohort rule: Students enrolled in E734 must have commenced after 2018*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online learning experiences are via CloudDeakin*

*Students will participate in regular BlackBoard Collaborate sessions throughout the trimester and participate in 15 days field experience across the trimester in an inclusive education context*

## Content

Personalised Program Planning emphasises the provision of high quality educational opportunities for all learners. The unit materials will support students to apply their developing theoretical knowledge and professional understandings to design, implement and evaluate inclusive Individual Learning Plans (ILP's), drawing upon learner's strengths, interests and abilities, to promote the learning success of diverse populations of students.

The unit will demonstrate how ILP's can be implemented as part of larger pedagogical and curricula processes that promote positive learning experiences and inclusive learning contexts. Students will consider the importance of involving key stakeholders (like learners and their families/carers) as partners in personalised learning programs like ILP's. Students in EEI703 will also complete a 15 day placement where, with support and supervision, they will develop, implement and review an ILP as part of a school-based program in an inclusive learning context. This initial inclusive educational placement lays the foundations for subsequent field work undertaken in EEI704 and EEI705 and contributes to the 45 days of practicum undertaken throughout the Master of Specialist Inclusive Education.

Students will upload a selection of course outputs into their curated E-Portfolio.

## Assessment

- Assessment 1 (Individual task) – Draft ILP (3000 words or equivalent) – 40%
- Assessment 2 (Individual task) – Placement implementation of ILP including daily planning and reflection (3000 words or equivalent) – 60%

## EEI704 – Advanced Inclusive Practice

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Genee Marks*

*Cohort rule: Students enrolled in E734 must have commenced after 2018*

*Prerequisite: EIE702, EEI703*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online learning experiences are via Cloud Deakin.*

*Students will participate in regular BlackBoard Collaborate sessions throughout the trimester and participate in 15 days field experience across the trimester in an inclusive education context.*

### Content

Advanced Inclusive Practice is the second unit in the major unit sequence of the Master of Specialist Inclusive Education. In this unit we extend the work commenced in 'EIE702 Teaching and Learning in the Inclusive Classroom' to continue to develop a deep theoretical and research-informed knowledge base of the principles and practice of inclusive education across a variety of educational contexts. Students will enhance their developing repertoire of inclusive pedagogies, augmenting their existing practice with an advanced range of analytic skills, curriculum design and assessment tools and individual, group and community strategies.

This unit also incorporates 15 days of field work undertaken in an inclusive educational context.

Students will upload a selection of course outputs into their E-Portfolio.

### Assessment

- Inclusivity Audit (equivalent to 1300 words) – 40%
- Action Plan (equivalent to 1300 words) – 40%
- Assessment 3 (Group) – Cloud Deakin collaboration, peer support and feedback (equivalent to 400 words) – 20%

## EEI705 – Practicum: Specialist Inclusive Education

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Wendy Kortman*

*Cohort rule: Students enrolled in E734 must have commenced after 2018*

*Prerequisite: EEI703, EEI704*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

Practicum: Specialist Inclusive Education is the capstone unit in the Master of Specialist Inclusive Education, drawing together and providing the opportunity to apply, enhance and refine the theoretical understandings and professional inclusive practice expertise of students through a 15 day placement in a specialist education setting, with the support and supervision of the unit lecturer and the professional placement mentor. Students will facilitate inclusive learning experiences and educational success for particular students and groups of students with diverse learning needs, strengths and abilities in both whole school and classroom contexts.

This capstone unit provides students with an opportunity to demonstrate through a curated E-Portfolio their deep understanding of the theory, principles of inclusive education as they are realised in specialist inclusive practices.

*Note: Trimester 1 enrolments for this unit close on 15th February*

*Please refer to the Professional Experience Office website for further information regarding your professional experience placement.*

### Assessment

- Teaching practicum in specialist education setting assessed by supervising mentor in consultation with unit lecturer – 50%
- E-Portfolio curated to include evidence of critical reflections upon practicum experiences and developments in professional practice, professional identity and understanding of the principles and practice of inclusive education – 50%

## EEI714 – Individualised Program Planning

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Claire Spicer*

*Cohort rule: Must be enrolled in E734 (commenced prior to 2018), E544, E700 or E744SP*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

The content of this unit focuses on the contemporary emphasis of quality educational opportunities for all learners. The subject matter is chosen primarily for practicing professional educators who are involved in the daily challenges and complexities of catering for individual learners within diverse student populations.

The processes of planning and implementing individual education programs (IEPs) supporting students with diverse needs are explored to develop understandings of how these programs can be incorporated into inclusive classroom contexts. The emphasis in this unit is to understand that IEPs are more than a document but part of a process that can influence and change pedagogy and related curriculum implementation. Subsequently, assessment for learning and strategies for teaching diverse student populations will be critically analysed.

Students will also consider the value of key stakeholders including families and students as partners in developing individual and personalised learning processes. The inter-related components of an IEP building on students' current competencies, identified strengths, inclusive goals and assessment for further program planning are integral features of the content of this unit. Emphasis is also placed on the contribution of new knowledge promoting change that drives practice and the work of educators in the field through engaging in preliminary research and on-line discussion reflecting this research.

### Assessment

- Assessment 1 – On-line discussion and literature review (3000 words) – 50%
- Assessment 2 – PowerPoint presentation: The development of one IEP with a PowerPoint presentation targeted to colleagues and/or parents (3000 words or equivalent) – 50%

### Hurdle requirements for E734 and E744SP students only:

Completion and documentation of 2 days of professional development relating to the Field

- Professional development related to IEP planning and implementation
- Researching and documenting key networks in this field, e.g. AASE

Students who fail a hurdle requirement will be ineligible for a Pass Conceded grade for that unit and will receive a result of no more than 44% for that unit, waived under special consideration arrangements.

## EEI715 – Effective Classroom Management: Positive Learning Environments

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Wendy Kortman*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

This unit investigates contemporary issues relating to effective classroom management and develops advanced knowledge and skills to understand the variables that influence learning, including school based barriers to social inclusion. It encourages students to conduct a full ecological analysis of all factors that influence effective behaviour management. It concentrates on building teacher skill rather than focusing on student deficits. Drawing on theoretical and practical understandings that underpin the notions of social behaviour within classrooms, participants will examine and compare a variety of models and consider pedagogy, principles and teacher strategies that promote effective behaviour management. Critical to the examination of teacher strategies are a number of topics that include an understanding of the purpose of behaviour, the impact of teacher responses, the problem of ownership and the ability to identify the social needs of students.

The assignments encourage participants to reflect on their own practice to formulate an effective discipline plan.

## Assessment

- Assessment 1 – Group work providing an analysis of a chosen model (2000 words) – 40%
- Assessment 2 – Case Study (2500 words) – 60%

## Hurdle requirement

Completion and documentation of 2 days of professional development relating to effective classroom management.

Students who fail a hurdle requirement will be ineligible for a Pass Conceded grade for that unit and will receive a result of no more than 44% for that unit, waived under special consideration arrangements.

# EEI716 – Practicum: Special Educational Needs

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Wendy Kortman*

*Cohort rule: Must be enrolled in E734 (commenced prior to 2018) or E744SP*

*Prerequisite: An approved teaching qualification*

*Scheduled learning activities – cloud (online):*

*Professional experience: Students will be required to complete a 15 day professional experience placement. Students who are currently teaching may complete 15 days in their own setting if supervised by a specialist educator. However, Deakin encourages students to complete a maximum of 5 days in an alternative setting to their normal workplace if possible.*

*Learning experiences are also via CloudDeakin*

## Content

The content of this unit centres on the ability of students to facilitate an optimum learning environment for individual students with diverse learning needs within both whole school and classroom contexts. Students need to demonstrate an understanding of key educational and social goals for individual learners and plan accordingly utilising existing skills and strengths of individual learners.

This will include:

- Planning and implementation of the required educational program that will ensure access and success;
- Provision of a positive learning environment for all students that is strength based and inclusive;
- Demonstrate forward-thinking ability to increase the participation of students in the educational programs and social life of the school;
- Demonstrate advanced knowledge of teaching models and strategies that will contribute to quality teaching and learning;
- Utilise skills to evaluate the student programs and outcomes.

Students must complete a minimum of 15 days of supervised professional experience placement.

## Assessment

- Assessment 1 – Professional experience placement: A 15 day special education placement assessed by the supervising teacher that incorporates: skilled planning and preparation relating to curriculum knowledge, strategies and evaluation for ongoing planning; effective classroom management and communication skills; the development of a positive learning environment meeting individual student needs within an inclusive environment and professional interaction within the school community – 50%
- Assessment 2 – Reflective Journal: Submission of a reflective journal outlining participants own role and an evaluation of their own practice demonstrating: knowledge of the educational and social goals for each student; ability to facilitate an optimum learning environment for each individual student through the identification and analysis of existing skills and strengths for ongoing planning; skill to determine appropriate curriculum and strength based strategies for individual learners that will promote success and positive, inclusive learning environments; demonstrate ability to increase the participation of students in the educational and social life of the school; skills to evaluate programs and student outcomes by reflecting on their own professional practice and planning and liaison with all key stakeholders in support teachers – 50%

## Hurdle requirements for E734 and E744SP students only:

Completion and documentation of 2 days of professional development relating to the Practicum Case Study.

Students who fail a hurdle requirement will be ineligible for a Pass Conceded grade for that unit and will receive a result of no more than 44% for that unit, waived under special consideration arrangements.

## EEL201 – Literacy Across the Curriculum

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Andrew Eysers*

*Cohort rule: For students commencing in course D347 from 2011*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ECL302, EEL302*

*Scheduled learning activities – campus: 1 x 1 hour Class and 1 x 2 hour Seminar in Schools per week*

### Content

This unit aims to develop students' awareness of the role of language and literacy in learning, introduce them to the reading and writing processes, broaden their understanding of the language demands of their particular teaching area and equip them with strategies to develop students' language. It will focus on: definitions of language and literacy; theories of reading and writing processes; oral language and its importance in learning; teacher talk and its role in student learning; second language learning and the second language learner; the language of texts and genres across KLAS, the development of teaching strategies which promote oral language in small group and large group settings and language and technology.

*Note: \*2019 will be the final year of offer for this unit.*

### Assessment

- Assessment 1 – A reflection on classroom practice with a focus on how literacy is integrated across discipline areas (1600 words) – 40%
- Assessment 2 – A case study that presents original qualitative research or that presents original curriculum that integrates literacy across discipline areas (2400 words) – 60%

## EEL702 – New and Traditional Literacies and Diverse Student Needs

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Anne Cloonan*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

This unit draws on contemporary knowledge of diversity of student learning needs and the teaching and learning of new and traditional literacies. In contemporary classrooms, diversity is increasingly appreciated in terms of the funds of knowledge students bring to learning and the desirability of student voice. In the contemporary communications environment, the nature of texts and meaning-making is being altered by new technologies requiring expanded definitions of literacy.

Through the use of core and elective materials, this unit involves participants in investigating ways in which teachers can engage the diverse students they work with in developing new and traditional literacies. Core materials engage participants with current debates, issues in the field, teaching strategies and resources and emphasise the importance of drawing on students' strengths and funds of knowledge, empowering them through a range of literate practices.

Through engagement with elective materials, participants select an area of specialisation and employ research skills to self-source materials related to their selected area. They may focus on developing ways of engaging and teaching literacies to students with particular educational needs or choose to investigate a literacies related issue. Within the selected specialisation, participants research, develop, implement and reflect on a school-based application of their learning.

## Assessment

- Assessment 1 – Critical reflection essay on research readings on a negotiated topic (2500 words) – 50%
- Assessment 2 – Application of learning (series of lessons OR presentation): Application of learning based on research (design, implementation and reflection on a series of literacy sessions or a digital resource to support personalised student learning) (2500 words or equivalent) – 50%

### Hurdle requirements for Master of Education (Special Education Needs) students only:

Completion and documentation of 2 days of professional development relating to the Practicum Case Study. Knowledge of relevant support services related to the field.

Students who fail a hurdle requirement will be ineligible for a Pass Conceded grade for that unit and will receive a result of no more than 44% for that unit, waived under special consideration arrangements.

## EEM401 – Numeracy Across the Curriculum

*Offering information: Please note 2019 is the final year this unit will be offered*

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Zara Ersozlu*

*Cohort rule: For students commencing in courses D347 from 2011*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ESM300, EEM301*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including structured online tasks and interactions and weekly engagement with materials and responses in discussion forums.*

## Content

This unit focuses on numeracy across the curriculum and aspects of professional ICT literacy and online pedagogy. The topics to be addressed include: the nature of numeracy; the professional numeracy and ICT literacy demands of the teaching profession; the role of numeracy within the different curriculum areas and the inherent numeracy demands and opportunities within these for secondary students, together with ways in which these demands can be addressed by teachers; a whole school approach to numeracy, the potential and limitations of online pedagogy.

*Note: Final year of offer 2019, students to contact Student Services [artsed@deakin.edu.au](mailto:artsed@deakin.edu.au)*

## Assessment

- Assessment 1 – Individual written assignment relating to the numeracy demands and opportunities in one of the student's chosen curriculum areas and strategies for meeting these (equivalent to 1600 words) – 40%
- Assessment 2 – A cross curriculum group development, presentation and peer assessment of a website, PowerPoint or wiki presentation relating to a whole school approach to numeracy (equivalent to 1200 words) – 30%
- Assessment 3 – An online learning task portfolio consisting of a number of short written pieces in response to tasks detailed on the CloudDeakin site (equivalent to 1200 words) – 30%

## EEO211 – Humanities Education in the 3–6 Primary Levels

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrnambool, Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Heather Wallace*

*Campus contact: Kate Harvie (Burwood (Melbourne))*

*Heather Wallace (Waurin Ponds (Geelong))*

*Terri Redpath (Warrnambool)*

*Prerequisite: Must have passed 8 credit points.*

*Additionally, for E200 only: Must have completed at least three of EAD110, EAD111, EAD112, EAD113.*

*Corequisite: Must be enrolled in E359.5 – course version commencing from 2017*

*Incompatible with: ECS310, EEO310, EEO210, EEO311, ECS501*

*Scheduled learning activities – campus: 1 x 1-hour Class and 1 x 2-hour Seminar per teaching weeks. In addition students are expected to attend a 3-hour excursion/fieldtrip, dates to be advised.*

## Content

This is the first of two Humanities units within your course. In this unit, we focus on the ways in which curriculum in the 3–6 primary levels in Geography, History, Economics and Business, and Civics and citizenship can be taught in creative and innovative ways. Humanities learning areas, cross-curriculum priorities and capabilities will be explored through inquiry pedagogies for rich learning.

## Assessment

- Humanities Journal: Prompts and provocations (2400 words or equivalent) – 60%
- Assessment 2 (Paired) – Curriculum map and sequence of lessons (1600 words or equivalent) – 40%

# EEO301 – Sustainability, Inquiry and Action – a Humanities Perspective

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrnambool, Warrnambool (Geelong)(Intensives)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Rebecca Cairns*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in E359*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Burwood: 1 x 3 hours seminar per week*

*In-person attendance requirements:*

*Warrnambool: 4 days x 6 hours (intensives)*

## Content

This is the third unit in the Humanities, Arts, and Social Sciences (HASS) specialisation sequence. The unit models an interdisciplinary approach to curriculum design and inquiry (action-oriented) pedagogy. The unit draws on the HASS disciplines – Geography, History, Economics and Business, and Civics and Citizenship – to understand and analyse the social, cultural, political, economic and environmental elements of sustainability.

Through a project-based investigation of a sustainability issue locally relevant to a primary school context, students critically engage with, and apply their understanding of, contemporary theories and different perspectives on sustainability education to design and implement a proposal for action. A focus will be on expanding students' understanding, and critical appraisal, of resources, curriculum, and teaching and learning strategies that will assist them in teaching for sustainable futures through HASS.

*Note: Commencing 2019*

## Assessment

- Assessment 1 – Group project proposal (1600 words) – 40%
- Assessment 2 – Individual evaluation report (2400 words) – 60%

# EEO311 – Learners Living in Their World: Humanities Perspectives

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrnambool, Warrnambool (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Kate Harvie*

*Campus contact: Kate Harvie (Burwood (Melbourne))*

*Chris Speldewinde (Warrnambool (Geelong))*

*Terri Redpath (Warrnambool)*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in E359.4 – course version commencing prior to 2017*

*Incompatible with: ECS310, EEO310, EEO210, ECS501, EEO211*

*Scheduled learning activities – campus:*

*Burwood, Warrnambool & Warrnambool: 1 x 1 hour Class per week (weeks 1–3) and 1 x hour Online per week (weeks 6–11) and 1 x 2 hour Seminar per week for 9 weeks*

## Content

This unit is the first of two Humanities and Social Sciences (HASS) units which focus on expanding students' understandings of HASS resources, curriculum development and teaching within a primary classroom, where learners and teachers are positioned as inquirers in the world. Building upon the discipline unit undertaken in the first year of studies (AIA105), this unit aims to increase student's awareness of the diversity of peoples and groups who live in Australia, and the different ways in which world-views are developed.

To this end, critical civics and citizenship understandings are constructed through experiences of Indigenous, Local, National, Asian, and Global and Sustainability perspectives. This unit focuses with special interest on children in the lower primary grades.

## Assessment

- Assessment 1 – Unit Planning, group task (1600 words equivalent per student) – 40%
- Assessment 2 – Learning Resource Collection (2400 words equivalent) – 60%

## EEO320 – Humanities Education Across the Primary Levels

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Heather Wallace*

*Prerequisite: ECE212*

*Corequisite: Must be enrolled in E330*

*Incompatible with: ECE465, ECS310, ELE501, EEO310, EEO210, ECS501, EEO311*

*Scheduled learning activities – campus:*

*Burwood: 1 x 2 hour seminar per week, 1 x 1 hour online workshop per week*

*Deakin Learning Centres: 2 x 2 hour intensives, 1 x 2 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

*Scheduled learning activities – cloud (online):*

*Attendance at 2 Cloud Conferences per trimester, 1 x 2 hour online workshop per week, 2 x 1 hour online class per trimester (recordings provided)*

## Content

This unit explores Humanities and Social Sciences (HASS) and has the aim of expanding students' understandings of humanities resources, curriculum development and teaching within a primary classroom, where learners and teachers are positioned as inquirers in the world. This unit aims to increase student's awareness of the diversity of peoples and groups who live in Australia, and the different ways in which world-views are developed. To this end, critical civics and citizenship understandings are constructed through experiences of Indigenous, Local, National, Asian, and Global and Sustainability perspectives. This unit focuses with special interest on children in the primary grades.

## Assessment

- Assessment 1 – Learning Resource Collection (2400 words equivalent) – 60%
- Assessment 2 – Inquiry unit planning (small group) (1600 words equivalent per student) – 40%

## EEO410 – Learners Inquiring in and About Their World: Human Disciplines

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Warrnambool*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Kate Harvie*

*Campus contact: Kate Harvie (Burwood (Melbourne))*

*Heather Wallace (Waurin Ponds (Geelong))*

*Kate Harvie (Warrnambool)*

*Prerequisite: EEO311 or EEO211*

*Corequisite: ETP400 or ETP401*

*Incompatible with: EEO210, EEO310*

*Scheduled learning activities – campus: 1 x 2 hour*

*Seminar per week. 1 x 1 hour online lecture/s per week.*

## Content

This unit focuses on the curriculum development and knowledge of Humanities, Societies and Environments learning within a primary classroom, where learners and teachers are positioned as inquirers in the world. In this unit, we focus on the ways in which Geography, History, Futures & Economics and Business can be taught in creative and innovative ways. We also build upon the Civics and Citizenship and Worldviews and religions components of the Humanities curriculum. Cross curriculum priorities of: Aboriginal and Torres Strait Islander history and culture; Asia and Australia's engagement with Asia; and Sustainability will also be considered.

## Assessment

- Inquiry planner (Group), lesson plan and mini lesson (Individual) (equivalent 2000 words) – 50%
- Weekly prompt tasks and provocations (equivalent 2000 words) – 50%

## EEP202 – Primary School Experience 2

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrnambool, Waurin Ponds (Geelong)*

*Credit point(s): .25*

*EFTSL value: 0.031*

*Trimester 2 Unit Chair: Sue Bennett*

*Cohort rule: For students who commenced from 2007 in course E359*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: EXP202*

*Scheduled learning activities – campus: Professional experience: Students will be required to complete a 10 day professional experience placement*

### Content

This unit will give students practical school experience related to the primary school teaching profession.

### Assessment

On completion of a minimum of 10 full days of school experience, and a satisfactory assessment by supervising teacher (and university staff), students will attain an Ungraded Pass (UP).

## EEP301 – Primary School Experience 3

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrnambool, Waurin Ponds (Geelong)*

*Credit point(s): .25*

*EFTSL value: 0.031*

*Trimester 1 Unit Chair: Sue Bennett*

*Cohort rule: For students who commenced 2007 or later in course E359*

*Prerequisite: Nil.*

*Corequisite: EEE307 or EEH316*

*Incompatible with: EXP301*

*Scheduled learning activities – campus: Professional experience: Students will be required to complete a 10 day professional experience placement*

## Content

This unit will give students practical school experience related to the primary school teaching profession.

### Assessment

On completion of a minimum of 10 full days of school experience, and a satisfactory assessment by supervising teacher (and university staff), students will attain an Ungraded Pass (UP).

## EEP302 – Primary School Experience 4

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrnambool, Waurin Ponds (Geelong)*

*Credit point(s): .25*

*EFTSL value: 0.031*

*Trimester 2 Unit Chair: Sue Bennett*

*Cohort rule: For students who commenced 2007 or later in course E359*

*Prerequisite: Nil.*

*Corequisite: EEE308*

*Incompatible with: EXP302*

*Scheduled learning activities – campus: Professional experience: Students will be required to complete a 10 day professional experience placement*

### Content

This unit will give students practical school experience related to the primary school teaching profession.

### Assessment

On completion of a minimum of 10 full days of school experience, and a satisfactory assessment by supervising teacher (and university staff), students will attain an Ungraded Pass (UP).

## EEP401 – Primary School Experience 5

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong), Warrnambool*

*Credit point(s): .25*

*EFTSL value: 0.031*

*Trimester 1 Unit Chair: Josephine Lang*

*Cohort rule: For students who commenced from 2007 in course E359*

*Prerequisite: Nil*  
*Corequisite: EEE401*  
*Incompatible with: EXP401*

*Scheduled learning activities – campus: Professional experience: Students will be required to complete a 15 day professional experience placement*

## Content

This unit will give students practical school experience related to the primary school teaching profession.

## Assessment

On completion of a minimum of 10 full days of school experience, and a satisfactory assessment by supervising teacher (and university staff), students will attain an Ungraded Pass (UP).

# EEP402 – Primary School Experience 6

*Enrolment modes:*  
*Trimester 1: Warrnambool, Waurin Ponds (Geelong)*  
*Trimester 2: Burwood (Melbourne)*

*Credit point(s): .25*  
*EFTSL value: 0.031*  
*Trimester 1 Unit Chair: Dianne Toe*  
*Trimester 2 Unit Chair: Dianne Toe*  
*Cohort rule: For students who commenced from 2007 in course E359*

*Prerequisite: Nil*  
*Corequisite: EEE401*  
*Incompatible with: EXP402*

*Scheduled learning activities – campus: Professional experience: Students will be required to complete a 15 day professional experience placement*

## Content

This unit will give students practical school experience related to the primary school teaching profession.

## Assessment

On completion of a minimum of 15 full days of school experience, and a satisfactory assessment by supervising teacher (and university staff), students will attain an Ungraded Pass (UP).

# EEP403 – Primary School Experience 7

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrnambool, Waurin Ponds (Geelong)*

*Credit point(s): .25*  
*EFTSL value: 0.031*  
*Trimester 2 Unit Chair: Dianne Toe*  
*Cohort rule: For students who commenced from 2007 in course E359*

*Prerequisite: Nil*  
*Corequisite: EEA410*  
*Incompatible with: EXP403*

*Scheduled learning activities – campus: Professional experience: Students will be required to complete a 15 day professional experience placement*

## Content

This unit will give students practical school experience related to the primary school teaching profession.

## Assessment

On completion of a minimum of 15 full days of school experience, and a satisfactory assessment by supervising teacher (and university staff), students will attain an Ungraded Pass (UP).

# EES245 – Primary Science Education 1

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrnambool, Waurin Ponds (Geelong)*

*Credit point(s): 1*  
*EFTSL value: 0.125*  
*Trimester 1 Unit Chair: Lihua Xu*

*Prerequisite: For E359 students: Must have passed 5 credit points at level 1. For E200 students: Must have passed at least three units from EAD110, EAD111, EAD112, EAD113.*

*Corequisite: Must be enrolled in course E200 or E359*  
*Incompatible with: EES240, EES345*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

## Content

This unit introduces students to contemporary principles and issues in the teaching of science, and extends their understandings and critical appreciation of science and its importance in primary school education. The unit will consist of content sequences designed to support students learning to clarify their own understandings of the nature of science and their own dispositions towards science learning, and to plan and implement effective teaching sequences. Engagement with children in small group teaching situations will occur at points designed to support and extend their understandings and skills in planning and teaching science.

The content will include:

1. Key concepts in science drawn from physical, chemical, biological and earth sciences; investigative processes in science; and approaches to supporting students learn these concepts at different stages of primary schooling.
2. Components of contemporary Australian science curricula and how these can be interwoven to design activity sequences that lead to quality learning in science.
3. Science for a sustainable future; socially responsible scientific literacy; science-society-technology-environment interactions.
4. Contemporary theories of learning in science including constructivist and conceptual change perspectives; the role of representation and modelling; scientific reasoning; and the nature of science.

## Assessment

- Research Report (2000 words) – 50%
- Lesson Plan (1200 words or equivalent) – 30%
- Seminar Tasks (800 words or equivalent) – 20%

## EES300 – Science, Technology, Engineering and Mathematics (STEM) Education

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrnambool, Warrnambool Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: George Aranda*

*Prerequisite: One of SLE111, SLE133 or SLE123*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour seminar per week (Weeks 1, 3, 6, 8 and 10)*

## Content

This unit aims to develop in students an understanding of integrating Science, Technology, Engineering and Mathematics (STEM) in the Primary school curriculum and approaches to its implementation. Topics to be addressed include: defining STEM education; integrating STEM curriculum areas to allow for effective development of skills and knowledge by primary students; using digital technologies within STEM projects; integrating STEM across the primary school curriculum; inquiry and STEM; assessing STEM, resources and safety, and linking STEM with industries and communities.

*Note: Commencing 2019*

## Assessment

- Assessment 1 – Development and presentation of a suitable STEM project for a primary classroom (2000 words) – 50%
- Assessment 2 – Research Assignment video/multimedia resource, 1600 words, 40% and reflection (400 words) – 10%

## EES301 – Digital Technologies: Programming and Robotics

*Enrolment modes: Not offered 2019, re-offered 2020  
Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: George Aranda*

*Prerequisite: Students must have passed 12 credit points*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Learning experiences are via CloudDeakin, including a 6 hour/one day intensive in Week 11*

## Content

Digital Technologies provide a powerful way for people to move from being consumers of technology to creating digital solutions in an increasingly digital world. In educational contexts, digital technologies promote logical and critical reasoning in order to solve problems, encourages teamwork, and encourages students to design creative answers and innovative solutions. There are concerted efforts by education providers, such as schools and education centres, to engage learners with digital technologies.

Robotics allows for digital solutions to influence 'real-world' space, in order to streamline processes, interact with real-world problems or remotely engage in dangerous environments. Using digital and robotic applications, this unit introduces students to processes associated with coding, allows them to plan and problem-solve and how they can use digital and robotic applications within an educational context.

### Assessment

- Assessment 1 (Pairs) – Online Coding Challenges – 40%
- Robotic Task, (presented in the intensive) – 20%
- Designing a coding curriculum – 40%

## EES345 – Primary Science Education 1

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrnambool, Waurin Ponds (Geelong)*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Lihua Xu*

*Campus contact: Seamus Delaney (Burwood (Melbourne))*

*Lihua Xu (Waurin Ponds (Geelong))*

*Sandra Herbert (Warrnambool)*

*Prerequisite: Students must have passed 12 credit points including 4 credit points at level 2*

*Corequisite: Must be enrolled in course E359*

*Incompatible with: EES240, EES245*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

### Content

This unit introduces students to contemporary principles and issues in the teaching of science, and extends their understandings and critical appreciation of science and its importance in primary school education. The unit will consist of content sequences designed to support students learning to clarify their own understandings of the nature of science and their own dispositions towards science learning, and to plan and implement effective teaching sequences. Engagement with children in small group teaching situations will occur at points designed to support and extend their understandings and skills in planning and teaching science.

The content will include:

1. Key concepts in science drawn from physical, chemical, biological and earth sciences; investigative processes in science; and approaches to supporting students learn these concepts at different stages of primary schooling.
2. Components of contemporary Australian science curricula and how these can be interwoven to design activity sequences that lead to quality learning in science.
3. Science for a sustainable future; socially responsible scientific literacy; science-society-technology-environment interactions.
4. Contemporary theories of learning in science including constructivist and conceptual change perspectives; the role of representation and modeling; scientific reasoning; and the nature of science.

### Assessment

- Assessment 1 – Research Report (2000 words) – 50%
- Assessment 2 – Lesson Plan (equivalent 1200 words) – 30%
- Assessment 3 – Seminar Tasks- 20%

## EES440 – Primary Science Education 2

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Warrnambool*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Linda Hobbs*

*Campus contact: Seamus Delaney (Burwood (Melbourne))*

*Linda Hobbs (Waurin Ponds (Geelong))*

*Rebecca Greene (Warrnambool)*

*Prerequisite: Two units: One of EES245, EES345; plus one of ETS302, ETP302, ETP303.*

*Corequisite: Nil*

*Incompatible with: ESS340, EES340*

*Scheduled learning activities – campus: The unit is delivered either in schools or on campus: 3 hour Seminars in schools (approximately 9 weeks) and 2 hour Seminars on campus (approximately 2 weeks)*

## Content

The purpose of the unit is to build upon the ideas from Primary Science Education 1 but cover further content and extend into new pedagogical and curriculum strategies. The unit will incorporate extended experience working with small groups of primary school children, planning and implementing and reflecting on activity sequences. The focus would be on the planning of learning sequences to explore ideas in a more extended fashion: integration, higher order thinking and reasoning in science, planning extended investigations, design and creativity, e-learning, using community resources, the literacies of science, and formative and summative assessment. The role of science in the education of the whole child will be explored, and issues in integrating science with other content areas will be explored.

## Assessment

- Unit plan rationale (1600 word equivalent) – 40%
- Reports of unit outcomes (2400 word equivalent) – 60%

## EHI701 – History A

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Kerri Garrard*

*Prerequisite: D303 students must have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%*

*Corequisite: Nil*

*Incompatible with: ECS771*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning the equivalent of 2 hours per week*

## Content

This unit aims to prepare students to confidently teach History at Years 7–10 in schools. The unit will develop students' understanding of various elements of the national and Victorian curricula including Cross-curriculum Priorities and General Capabilities relevant to History and Humanities.

The unit aims to develop students' knowledge of theoretical and practical aspects; engage with a range of pedagogical approaches and design teaching and learning sequences and assessment tools informed by research.

This unit demonstrates and utilises a range of contemporary teaching and learning resources and technologies to illustrate both theoretical principles and practical strategies in History and Humanities.

## Assessment

- History Teaching and Learning Report (2500 words or equivalent) – 50%
- Assessment 2 (Partners) – Collaborative Humanities Unit Design (2500 words or equivalent) – 50%

## EHI702 – History B

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Kerri Garrard*

*Prerequisite: D303 students must also have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%*

*Corequisite: Nil*

*Incompatible with: ECS772*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning the equivalent of 2 hours per week*

## Content

This unit is designed to equip students to effectively and competently teach History at the senior secondary/post compulsory level. This unit will examine the structure of senior secondary curriculum for national/VCE history through a focus on the content and approaches outlines in each of the studies. The areas covered include teaching at post compulsory level, teaching strategies, assessment practices and requirements and regulations of teaching at senior secondary/post compulsory level. It will also include information on curriculum planning and the uses of various information technologies appropriate for teaching senior secondary in this field.

## Assessment

- Year 11 Historiography Assessment Task, Rubric and Report (2500 words or equivalent) – 50%
- Year 12 Backward Design Digital Revision Resource (2500 words or equivalent) – 50%

## EHU701 – Humanities Societies and Environments A

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Rose Buchanek*

*Prerequisite: D303 and D304 students must have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%, otherwise Nil*

*Corequisite: Nil*

*Incompatible with: ECS721*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week, 1 x 1 hour online independent and collaborative learning per week*

*Scheduled learning activities – cloud (online): 3 hours online independent and collaborative learning per week*

### Content

This unit aims to prepare students to confidently teach across the Humanities disciplines such as History, Geography and Economics and interdisciplinary areas such as Civics and Citizenship offered in Years 7–10 in schools. The unit will develop students' understanding of various elements of the state and national curriculum including Cross-curriculum Priorities and General Capabilities relevant to the Humanities. The unit aims to develop students' knowledge of theoretical and practical aspects; engage with a range of pedagogical approaches and design teaching and learning sequences and assessment tools informed by research. This unit demonstrates and utilises a range of contemporary teaching and learning resources and technologies to illustrate both theoretical principles and practical strategies in Humanities.

### Assessment

- Assessment 1 – Humanities Teaching and Learning Report: Individual (2500 words) – 50%
- Assessment 2 – Digital Resource and Learning Sequence: Partners (2500 words each) – 50%

## EHU702 – Humanities Societies and Environments B

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Rose Buchanek*

*Prerequisite: EHU701. D303 and D304 students must also have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%, otherwise Nil.*

*Corequisite: Nil*

*Incompatible with: ECS772*

*Scheduled learning activities – campus: 1 x 2 hour Seminar per week, 1 x 1 hour online independent and collaborative learning per week*

*Scheduled learning activities – cloud (online): 3 hours online independent and collaborative learning per week*

### Content

This unit is designed to equip students to effectively and competently teach Humanities at the senior years/post compulsory level. The main areas of study explored are History, Geography, Sociology, Legal Studies Economics and Politics. This unit will examine the structure of senior years/post compulsory studies through a focus on the content and approaches outlined in each of the studies. The areas covered include teaching at post compulsory level, teaching strategies, assessment practices and requirements and regulations of teaching at senior years/post compulsory level. It will also include information on curriculum planning and the uses of various information technologies appropriate for teaching senior years in this field.

### Assessment

- Year 11 Assessment Task, Rubric and Report (2500 words) – 50%
- Year 12 Backward Design Revision Sequence (2500 words) – 50%

## EIE701 – Personalising Learning

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Ben Whitburn*

*Trimester 3 Unit Chair: Ben Whitburn*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: EEI714*

*Scheduled learning activities – campus: 1 x 2 hour*

*Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

This unit aims to advance students' theoretical understanding of the social construction of difference as it relates to lifelong learning. It is designed to advance students' understanding of teacher and learner identity via the concepts of conformity and diversity. This unit will explore concepts relating to inclusion and exclusion in a range of educational settings such as early childhood, primary and secondary schooling, further and higher education, and community settings. Theories and models of personalised learning will be evaluated for their fit to context in terms of how they can identify and support individual needs and learning across the lifespan. Students will evaluate information using critical and analytical thinking and judgment to acquire key understandings of inclusive pedagogy. Features of collaborative planning and informed analysis of learner strengths are emphasised to support the continuum of lifelong learning. Students demonstrate that they can articulate the links between theory and practice by collaborating with peers, providing peer feedback and presentations based in recent and research informed evidence.

*Note: H708 course enrolled students are encouraged to enrol in the Cloud (online) offering of this unit*

### Assessment

- Assessment 1 – Film or book review (2000 word equivalent) – 40%
- Assessment 2 – Literature review (3000 word equivalent) – 60%

## EIE702 – Teaching and Learning in the Inclusive Classroom

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Ben Whitburn*

*Trimester 2 Unit Chair: Ben Whitburn*

*Cohort rule: Students enrolled in E734 must have commenced after 2018*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour*

*Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 4 x 2 hour seminars (recordings provided)*

*All students have access to extensive module material on the unit site, and assessment advisory information.*

### Content

This unit provokes teachers to think about their role in working within a heterogeneous classroom – a classroom that is dependent on a fine-grained balance of nuanced knowledge and practice to support inclusive development. These include educational policies and obligations, learner needs, school and community-based services and programs, accessible technologies, and pedagogies of differentiation. The unit is designed to advance students' understanding of learners' needs while acknowledging relevant historical, cultural, political and social contexts pertaining to the design and delivery of curriculum and assessment that encompasses the strengths of every student. Through summative assessment tasks, teachers will conceptualise how the heterogeneous classroom functions to support inclusion in their professional context, before considering individualised planning, curriculum and assessment design, and collaborative practice. All teachers are expected to participate in a paired assignment to complete an aspect of the unit mark, upon which they will have opportunity to critically reflect to consider how collaboration shapes teacher practice.

### Assessment

- Assessment 1 – Integrated and Interactive Concept Map (2000 words) – 40%
- Assessment 2 – Co-created Critical Review (2000 word equivalent) – 40%
- Assessment 3 – Reflection (1000 word equivalent) – 20%

## EIE703 – Designing Engagement for Learning

*Enrolment modes:*

*Trimester 1: Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Genee Marks*

*Trimester 2 Unit Chair: Genee Marks*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 2 x 3 hour*

*Seminars in weeks 1–4*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

Central to this unit is the focus on engaging students for learning. The unit explores the concept of diverse learners and the complexity of learning in the act of designing engagement for learning. This unit investigates contemporary learning theories and the interplay with teaching and learning and the relationships that are nurtured as a consequence. The unit reflects critically on the multi-faceted challenges of the 21st century classrooms where the teacher is required to understand and examine their own teacher beliefs and how these are shaping their classroom landscape and the learning of their students; and in some cases, the need to explore how to change their teacher beliefs and/or practices to support the development and learning of their students.

### Assessment

- Assessment 1 – Designing accessibility to and engagement for learning (3000 words or equivalent) – 60%
- Assessment 2 – Teacher Beliefs: Reflecting on a Critical Incident (2000 words or equivalent) – 40%

## EIE704 – Supporting Communication in Inclusive Classrooms

*Enrolment modes:*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Genee Marks*

*Trimester 3 Unit Chair: Genee Marks*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Trimester 2: 2 x 3 hour Seminars in weeks 1–4*

*Trimester 3: 1 x 2 hour seminars in weeks 1–11*

*Scheduled learning activities – cloud (online):*

*Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums*

### Content

This unit aims to advance students' understanding of the critical role of communication within inclusive educational settings. Students will develop a deep understanding of language and communication and how they impact on both student learning and social and emotional development. This unit will adopt a critical approach to the analysis of teacher communication skills and their role in building teacher-learner and family relationships in inclusive classrooms, while evaluating the range of communication practices required to build strong relationships with parents, professional learning teams, allied professionals and the wider community.

The role of teacher-learner communication in supporting positive classroom behaviour and interaction, and the impact of social and cultural diversity on the development of communicative competence will be explored.

Students will reflect on their communication skills in diverse contexts, critically analyse various tools for assessment of learner communication skills and plan learning to support students in literacy (including speaking and listening) and social interaction. Using case studies, key understandings of the impact of learning challenges on communication skills, including ASD, speech and language disorders and hearing loss will be developed. Working collaboratively, students will develop sophisticated understandings of these learners, enabling them to plan and design an effective learning program.

## Assessment

- Assessment 1 – Guided reflection: Guided reflections on communication in school environments (15%, equivalent to 750 words) and 1750 word written report with strong links to theory detailing a personal framework to guide and support inclusive communication practices, 35%
- Assessment 2 – Case Study including mini presentation: 1750 word case study of a learner's communication skills, 35% and "mini presentation" in preparation for the final case study submission (15%, equivalent to 750 words)

## ELL101 – Language: Speech and Sounds

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Hossein Shokouhi*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

## Content

This unit is designed for students beginning their study of linguistics. Students will be introduced to modern linguistic study and its major theoretical and methodological issues, in particular those relating to phonetics and phonology. Topics include an overview of language and communication, how languages have evolved and the position of English in relationship to other languages. A major focus is the sounds of English, how they are produced, and how linguists transcribe these sounds in order to study spoken language. Through a small project, students will learn how to investigate a selected aspect of spoken language in a community of interest and relevance to them, such as a friendship group, a family, a sporting or leisure group, an education setting, or a workplace.

## Assessment

- Assessment 1 – Quiz and online activity (equal 1200 words) – 30%
- Assessment 2 – Assignment (1800 words) – 45%
- Assessment 3 – Final exam (equal 1000 words) – 25%

## ELL102 – Language: Words and Structure

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Hossein Shokouhi*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

## Content

Successful communication requires us to understand and produce a wide range of written texts. This unit introduces students to the ways in which written texts are constructed, both at the level of the word and sentence and at the whole text level. It looks at how written language has developed across time, and how it continues to change. It examines how words are created, borrowed, how they change and die, and how this influences the grammar of sentences and texts. Another major focus is on the clause and its types, and the sentence and its constituents. Finally, the unit discusses the concepts of discourse and discourse coherence, and styles of writing in terms of contemporary practices as well as historical and spatial variation. Through a small project, students will learn how to investigate an aspect of written language of interest and relevance to them in environments such as the workplace, an education setting, family, hobby group or various types of online communities.

## Assessment

- Assessment 1 – Quiz and online activity (equal 1200 words) – 30%
- Assessment 2 – Assignment (1800 words) – 45%
- Assessment 3 – Final exam (equal 1000 words) – 25%

## ELN010 – Australian Literacy Test

*Enrolment modes:*

*Trimester 1: Cloud (online)*

*Trimester 2: Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 0*

*Trimester 1 Unit Chair: Jo Collins*

*Trimester 2 Unit Chair: Jo Collins*

*Trimester 3 Unit Chair: Jo Collins*

*Prerequisite: D303 and D304 students must have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%, otherwise Nil*

*Corequisite: Must be enrolled in initial teacher education courses: E330, E359, E377, D303, D304, E762, E763, E764, E765, E730*

*Incompatible with: Nil*

### Content

This zero credit unit addresses the requirement by the Teaching Profession's program accreditation standards that specifies preservice teachers are to demonstrate personal literacy competencies related to working within teaching contexts. The test is administered externally by the Australian Council for Educational Research (ACER).

The literacy test contains questions based on reading texts (e.g. identify, interpret, evaluate) as well as assesses technical skills of writing (e.g. syntax and grammar, spelling). This test forms one of two parts of the Australian Literacy and Numeracy Tests for Initial Teacher Education students (LANTITE).

Students are expected to complete the tests in the first year for undergraduate courses and first trimester for postgraduate courses. This will assist in satisfactory course progression should you need additional support and/or test attempts.

For further details of the test, visit ACER at: <https://teacheredtest.acer.edu.au>

### Assessment

Literacy Test, 2 hours plus 30 minute registration process.

### Fee information

NB: This is a zero (0) credit point unit and is a requirement to support your teacher registration. For this reason a Deakin unit fee is not applied to this unit. However you will be required to pay the fee for sitting the test with ACER.

This unit is in addition to the credit points undertaken as part of your course.

## ELN011 – Australian Numeracy Test

*Enrolment modes:*

*Trimester 1: Cloud (online)*

*Trimester 2: Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 0*

*Trimester 1 Unit Chair: Jo Collins*

*Trimester 2 Unit Chair: Jo Collins*

*Trimester 3 Unit Chair: Jo Collins*

*Prerequisite: D303 and D304 students must have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%, otherwise Nil*

*Corequisite: Must be enrolled in initial teacher education courses: E330, E359, E377, D303, D304, E762, E763, E764, E765, E730*

*Incompatible with: Nil*

### Content

This zero credit unit addresses the requirement by the Teaching Profession's program accreditation standards that specifies preservice teachers are to demonstrate personal numeracy competencies related to working within teaching contexts. The test is administered externally by the Australian Council for Educational Research (ACER).

The numeracy test contains questions in three areas: number and algebra; statistics and probability; and measurement and geometry. This test forms one of two parts of the Australian Literacy and Numeracy Tests for Initial Teacher Education students (LANTITE).

Students are expected to complete the tests in the first year for undergraduate courses and first trimester for postgraduate courses. This will assist in satisfactory course progression should you need additional support and/or test attempts.

For further details of the test, visit ACER at: <https://teacheredtest.acer.edu.au>

### Assessment

Numeracy Test, 2 hours plus 30 minute registration process.

### Fee information

NB: This is a zero (0) credit point unit and is a requirement to support your teacher registration. For this reason a Deakin unit fee is not applied to this unit. However you will be required to pay the fee for sitting the test with ACER.

This unit is in addition to the credit points undertaken as part of your course.

## ELT700 – Education Business Planning and Capacity Building

*Enrolment modes:*

*Trimester 2: Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Katrina Broadhead*

*Trimester 3 Unit Chair: Katrina Broadhead*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Learning experiences are via CloudDeakin. Students will undertake online exercises, case studies, debates (using technology-based mediums) and student-led discussions.*

### Content

Although most education settings are not-for-profit organisations, business planning is as important in this context as in profit-driven corporations. This unit focuses on essential educational determinations in developing business plans for schools. Educational business planning and capacity building discusses the rationale and objectives for education business plans and investigates how these can be used as a tool for organisational capacity building.

The unit aims to be practical and of immediate relevance, where participants tie together the vision and mission statements, strategic goals and budget considerations and think about how all this is going to be achieved within their actual school context.

### Assessment

- Written Report: Comparative analysis of business planning practices (2500 words) – 50%
- Part a) Presentation (10 minutes), Part b) Written Report (1500 words) – 50%

## ELT701 – Governance in Education

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Joanne Henriksen*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Learning experiences are via CloudDeakin. Students will undertake online exercises, case studies, debates (using technology-based mediums) and student-led discussions*

### Content

This unit examines the roles, responsibilities and liabilities of educational board members/councillors and educational leaders. It focuses on the role of governance in schools, due diligence, fiduciary duty, risk management, conformance, performance and accountability, and managing the competing demands of diverse stakeholders in education. Topics and debates relating all aspects of school governance are discussed and activities and assignments in this unit relate directly to participants' work contexts.

### Assessment

- Assessment 1: (Individual) – Case Study Critique (2500 word count) – 50%
- Assessment 2: (Individual) – Critical Analysis of Governance Practices (2500 word count) – 50%

## ELT702 – Leading Strategy and Change in Education

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Joanne Henriksen*

*Trimester 2 Unit Chair: Joanne Henriksen*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Learning experiences are via CloudDeakin. Students will undertake online exercises, case studies, debates (using technology-based mediums) and student-led discussions.*

## Content

This unit introduces considerations for planning, executing, monitoring and reviewing strategic direction in schools. Strategic plans in education are context dependent, take account of school-based goals for improvement in teaching and learning, and embrace broader political, economic and education policy imperatives. They are both influential in and responsive to short-term and long-term local needs and aspirations as well as external requirements. This unit also investigates research on leading and managing major change. First and second order change, issues such as resistance to change, strategies to ensure successful change and case studies of experiences in change management will be discussed.

## Assessment

- Critical Analysis of Theory and Practice (2000 word count) – 40%
- Strategic Change Proposal (3000 word count) – 60%

## ELT703 – Understanding Funding and Finance for Educational Outcomes

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Liz Stewart*

*Trimester 2 Unit Chair: Katrina Broadhead*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Learning experiences are via CloudDeakin. Students will undertake online exercises, case studies, debates (using technology-based mediums) and student-led discussions*

## Content

Understanding funding and finance for educational outcomes places educational considerations at the basis of financial planning and management in schools. The range of financial matters confronting educational leaders include the broad policy environment and its political and economic bases, short and long term financial imperatives to achieve school success, sustainability and improvement goals, and accountability for reporting to a range of stakeholders. Topics and debates relating to educational investment, school funding, budgets, forecasting, financial decision-making, reporting, accountabilities and return on investment are

discussed in relation to educational strategy, policies and outcomes. The unit covers school funding and financing issues and debates at the macro, meso and micro levels. It demonstrates that education – its aims, purposes, outcomes, policies, practices and funding – is a politicised and contested area in the public arena. Activities and assignments in this unit relate directly to participants' work contexts.

## Assessment

- Critical review of theory and practice – 50%
- Critical analysis of a funding and finance practices – 50%

## ELT711 – Theories and Models of Leadership: Introduction

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Bernadette Walker-Gibbs*

*Cohort rule: Must be enrolled in E760, E761, E762, E763, or E763T*

*Prerequisite: Must have passed 8 credit points including 4 units from: EEE751, EEE752, EPR701, EPR702, EPR711, EPR712, EPR721, EPR722, EPR731, EPR732*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

## Content

This unit specifically aims to develop understandings of a range of contemporary leadership theories with a view to critically reflecting on leadership qualities, skills, attributes and ethics as enacted in a wide range of educational contexts. The unit actively considers the complexities of educational leadership and change and, in particular, leadership planning and curriculum change. It also enables the generation and evaluation of emerging leadership skills and ambitions within the context of relevant professional standards.

## Assessment

- Assessment 1 – A 3000 word essay in the form of a critical review of specified leadership theories – 50%
- Assessment 2 – A 3000 word essay in the form of a critical response to one of four provided leadership scenarios – 50%

# ELT712 – Leadership Communities of Learners

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Liz Rouse*

*Cohort rule: Must be enrolled in E760, E761, E762, E763, or E763T*

*Prerequisite: Must have passed 8 credit points including 4 units from: EEE751, EEE752, EPR701, EPR702, EPR711, EPR712, EPR721, EPR722, EPR731, EPR732*

*Corequisite: Nil*

*Incompatible with: ECL756*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 3 hours per week undertaking weekly tasks within the cloud site.*

## Content

This unit is the second of four and introduces students to the concept of Leadership in Learning Communities (LLC) and its practical applications. It compliments ELT711 unit (which runs consecutively and introduces leadership theories). ELT712 prepares the students to undertake a leadership case study in ELT713 by engaging them within virtual learning communities. Engagement requires them to draw links between the LC theories and practical applications (praxis) as they relate to leading pedagogical approaches in learning environments.

## Assessment

- Assessment 1 – Critical Analysis of scenarios – 50%
- Assessment 2 – Two online learning community discussions based on theories and critical reflections – 50%

# ELT713 – Researching the Leadership of Teaching

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Mary Dixon*

*Cohort rule: Must be enrolled in E760, E761, E762, E763, or E763T*

*Prerequisite: Must have passed 8 credit points including 4 units from: EEE751, EEE752, EPR701, EPR702, EPR711, EPR712, EPR721, EPR722, EPR731, EPR732*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): This Unit is a delivered entirely online. Students will be expected to commit the equivalence of 3 hours per week to engaging with the study guide and online discussions. Engagement with materials, responses to tasks, forum posting and independent study is expected. In total a combined equivalent of 8–10 hours per week.*

## Content

This unit will be informed by the experience of engaging with a teacher leader ('shadowing') in an appropriate educational setting; data gathered through observations, interviews and daily conversations will form the basis for an analysis of the experience. Links to ELT711, ELT712 will inform the student's analysis, along with the new readings provided.

You will undertake a case study of teacher leadership in a particular learning context. You will be introduced to ethical issues, and how to prepare for a case study investigation.

Ethnographies of leadership involves the study and application of key leadership theories to authentic teacher leadership situations as you conduct a case study of a teacher in a leadership role and his or her school context. Through this process you will develop skills in researching, analysing and reporting on context-based learning. 'Knowledge of research principles and methods' and 'Communication skills to justify and interpret theoretical propositions, methodologies, conclusions and professional decisions...' are skills that, in line with the requirements set by the Australian Qualification Framework (AQF), graduates of a Master's degree are expected to have. Successful completion of the assessment tasks in this unit will enable you to demonstrate these skills and knowledge.

## Assessment

- Assessment 1 – A daily log of observations and reflective comments undertaken during the experience of shadowing a leading teacher in an educational setting for a minimum of 15 days (2500 words) – 50%
- Assessment 2 – Transcription and analysis of a semi-formal interview with the subject teacher that demonstrates competencies in data collection and analysis and results in preparation of a 2500 word article ready to be submitted for publication in a professional journal – 50%

## ELT714 – Leadership of Teaching Profile

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Mary Dixon*

*Cohort rule: Must be enrolled in E760, E761, E762, E763, or E763T*

*Prerequisite: Must have passed 8 credit points including 4 units from: EEE751, EEE752, EPR701, EPR702, EPR711, EPR712, EPR721, EPR722, EPR731, EPR732*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): This Unit is delivered entirely online. Students will be expected to commit the equivalence of 3 hours per week to engaging with the study guide and online discussions. Engagement with materials, responses to tasks, forum posting and independent study is expected. In total a combined equivalent of 8–10 hours per week.*

### Content

This unit involves a self-study that will be the basis for creating a teacher leadership profile. The readings are based on teacher leadership, AITSL teacher standards and self-study (developing professional knowledge via a critical inquiry process with a critical friend).

In this unit you will transcribe and analyse a critical moment in your self-study dialogue. The report will highlight a critical moment illustrating a professional growth moment: where you were positioned before the growth moment and contrast this to where you are presently positioned as a teacher leader. You will then be asked to prepare your teacher leadership profile: demonstrating your current development as a teacher leader and your future plans for professional leadership development. Using the AITSL standards indicating how you meet the graduate standards and that you have a pedagogical plan to assist you in achieving the milestones of proficient, highly accomplished and leading teaching.

### Assessment

- Critical Moment Analysis report (1500 words or equivalent) – 40%
- Teacher Leadership Profile (3500 words or equivalent) – 60%

## EPL746 – Primary Literacy

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Kirsten Hutchison*

*Campus contact: Kirsten Hutchison (Burwood (Melbourne))  
Maria Nicholas (Cloud (online))*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: EEL745*

*Scheduled learning activities – campus: 1 x 3 hour*

*Seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour class per week (recordings provided), 2 x 1 hour online workshops per week*

### Content

This unit emphasises the concurrent development of teaching capacities and theoretical understandings, drawing on contemporary knowledge about the diversity of students learning needs and the teaching and learning of new and traditional literacies. It explores the stages and dimensions of reading and writing development and assessment in the early and middle years, including word identification strategies, cueing systems and the development of spelling, grammar and punctuation knowledge. A range of approaches to literacy teaching and programming are introduced and participants become familiar with the processes of lesson planning, reflection and assessment of learning within Victorian and other relevant national and international curriculum frameworks. Core materials engage students with current debates and issues in the teaching of literacy, language and literacy and explore teaching strategies and resources. Core materials and assessment tasks emphasise the importance of research informed teaching and building on the diverse types of knowledge about literacy that students bring to school from their homes and communities.

### Assessment

- Assessment 1 – Literacy Learner Profile (2500 words or equivalent) – 50%
- Assessment 2 – Planning and Teaching Literacy (2500 words or equivalent) – 50%

## EPM742 – Fostering Primary Children’s Mathematical Development

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Wanty Widjaja*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

The unit adopts a framework of children as learners who construct their own understanding of mathematics in the home, the classroom and the wider community. The unit aims to promote students’ understanding of how children’s mathematical concepts develop in the key areas of mathematics – number, measurement, space and chance and data. Students will explore the development of effective learning programs to support children’s construction of mathematical concepts. Students will be introduced to a range of effective teaching strategies and aids, as well as effective ways of incorporating the use of learning technologies. State, national and international curriculum materials will be referred to and used extensively.

### Assessment

- Assessment 1 – Collaborative report based on interviews with children (2000 words equivalent) – 40%
- Assessment 2 – Teaching plan based on interview data collected for Assessment 1 (1500 words equivalent) – 30%
- Assessment 3 – Literature review (1500 words equivalent) – 30%

## EPO701 – Primary Humanities, Societies and Environments

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Ros Black*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ECS501*

*Scheduled learning activities – campus: 1 x 2 seminar per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour activities per week (recordings provided)*

### Content

In this unit, we focus on the ways in which core aspects of the Humanities curriculum such as History, Geography, Civics and Citizenship, and Economics and Business can be taught in creative and integrated ways in the primary classroom. We also draw upon interdisciplinary perspectives to inform an approach to Humanities teaching and learning that develops young learners’ knowledge and understanding of Aboriginal and Torres Strait Islander Histories and Cultures, Asia and Australia’s Engagement with Asia, and Sustainability, as well as their ethical and/or intercultural capabilities.

### Assessment

- Assessment 1 (Individual or Paired) – Curation of Humanities Resources Part A: (2500 words equivalent) – 50%
- Assessment 2 (Individual or Paired) – Curation of Humanities Resources Part B: (2500 words equivalent) – 50%

## EPP101 – Teacher-Learner Identity

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Scott Webster*

*Cohort rule: Must be enrolled in E377, D347 or D351*

*Campus contact: Scott Webster (Burwood (Melbourne))*

*Jillian Crompton (Waurin Ponds (Geelong))*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

### Content

This unit is an introduction to the nature of education with a specific focus on learning and teaching. This unit will also engage students with some of the theoretical work of 'identity' and how this relates to the discipline of education. It demonstrates the multiple and complex ways that teaching and learning are constructed in the community, in schools and society. This unit will require students to examine and explore the relationships between their ontological, axiological and epistemological beliefs. The unit will require students, individually and collaboratively, to position these beliefs against the broader purposes of schooling.

### Assessment

- Assessment 1 – Weekly Tasks (1200 word equivalent) – 30%
- Assessment 2 – Identity Transition (800 word equivalent) – 20%
- Assessment 3 – Reflections on Education (2000 word equivalent) – 50%

## EPP102 – Learning-Teaching Communities

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong)*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Emma Rowe*

*Cohort rule: Must be enrolled in E377, D347 or D351*

*Campus contact: Emma Rowe (Burwood (Melbourne))*

*Eve Mayes (Waurin Ponds (Geelong))*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week when not on professional experience placement.*

*Professional experience: Students will be required to complete a 10 day professional experience placement.*

### Content

This unit accommodates in-depth and contextualised discussion of aspects of educational theory and practice. Students will consider discourses of education as they relate to particular teaching/learning communities and explore the sociological nature of educational inquiry as it relates to schooling. The unit develops an understanding of the educational framework that underpins context in schooling, and also gain a familiarity with the theory/practice nexus in schooling and education. Students will analyse the various interpretations of sociologies of education regarding the nature of schooling, and discuss aspects of policy enacting in school communities and its influence in education more broadly. They will also engage with aspects of socio-cultural theory to develop an understanding of communities of practice for effective learning and teaching in contemporary times.

### Assessment

- Assessment 1 – Reading Summary, Peer Presentation and Reflective Essay (2000 words) – 50%
- Assessment 2 – Collaborative Research Task (2000 words) – 50%

### Hurdle requirement

Satisfactory completion of the professional experience placement is required in order to pass this unit.

## EPP203 – Professional Experience in Health and Physical Education: Curriculum Study A

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrnambool (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Jacqui Peters*

*Cohort rule: Must be enrolled in E377*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: EPP207*

*Scheduled learning activities – campus: 1 x 2 hour Class per week for 10 weeks, 1 x 2 hour Seminar per week for 5 weeks.*

*Professional experience: Students will be required to complete a 10 day professional experience placement. This involves 1 full week then 1 day per week for 5 weeks. Note the day per week is a Monday in 2019, so students will not be able to select seminars for other units on that day.*

*Study days subject to demand.*

### Content

This unit will consist of online, theory and practical components as well as a practicum experience. The unit will focus on the understanding of the theoretical foundation of pedagogy as well as curriculum and assessment issues in Years 7–10 HPE, including the various ways in which curriculum is organized, in order to help develop understanding of the concepts, substance and structure of the content and teaching strategies of HPE. Specifically, policies and frameworks that guide planning, teaching and assessment of HPE that organise content into an effective learning and teaching sequence to be applied in a real learning context in a secondary school will be explored. The unit will also focus on the challenges of classroom management and teaching within a diverse classroom and catering for individuals' needs, in both the physical education environment and in the health classroom.

### Assessment

- Contemporary issues in HPE – Portfolio task Part A (1200 words or equivalent) – 30%
- Assessment 2 (Group Task) – Unit Preparation (1200 words or equivalent) – 30%
- Contemporary issues in HPE – Portfolio task Part B (1600 words or equivalent) – 40%

## EPP204 – Understanding Learning, Learners and Classroom Relationships

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrnambool (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Sue Bennett*

*Cohort rule: Must be enrolled in E377*

*Prerequisite: Must have passed two units in EPP101, EPP102 and EPP203*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week for 8 weeks, 1 x 2 hour Seminar per week for 8 weeks*

*Students will be required to complete a 10 day professional experience placement*

### Content

This unit explores and critiques the institutional and psychological discourses that influence and define learners in schools. The students will examine how different developmental and learning theories can be accommodated in the curriculum and classroom teaching, and become familiar with the literature and research underpinning these theories and begin to make links to pedagogical approaches. They will be able to apply these understandings to the development of their classroom management repertoire and the promotion of successful learning. Students will adopt a range of ways of seeing learners from the theoretical literature from this unit and will critique these through revisiting the place of their own beliefs and philosophical stance.

### Assessment

- Assessment 1 – Responses to seminar tasks (1000 words) – 25%
- Assessment 2 – Report (1400 words) – 35%
- Assessment 3 – Report (1600 words) – 40%

### Hurdle requirement

Satisfactory completion of the professional experience placement is required to pass this unit.

## EPP207 – Pedagogy

*Offering information: Please note 2019 is the final year this unit will be offered*

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Emma Rowe*

*Cohort rule: Must be enrolled in D347 or D351*

*Prerequisite: EPP101 or EPP102*

*Corequisite: Nil*

*Incompatible with: EPP203*

*Scheduled learning activities – campus: 1 x 3 hour*

*Seminar per week*

*Professional experience: Students will be required to complete a 10 day professional experience placement*

### Content

This is the third of the six units in the education studies major. In this unit students will inquire into pedagogy and its relation to curriculum and education. Therefore there will be an engagement with the philosophical, social and ethical aspects relating to intervening in the lives of individual learners. Students will use the broader issues and discourses raised in previous units to inform an articulation of a professional perspective of pedagogy and to be able to justify this in relation to the curriculum and discourse of education. Some contested interpretations of pedagogy will be explored and critiqued.

This unit includes 10 days professional experience – paired placement. During these days the preservice teacher will:

- undertake an orientation to the school environment.
- in pairs and with supervisor, team teach at least two lessons a day for a class, small groups of students or with individuals.
- attend meetings, be involved in yard duty, school activities and any opportunities for engagement with the broader school community.
- keep a journal (electronic and/or hardcopy) in which evidence of their planning, observations, collected documents, participation in school activities and reflections are kept. Pre-service teachers will be expected to share their journal with their supervising teachers and appropriate University teaching staff.

### Assessment

- Assessment 1 – Critical reflection – 30%
- Assessment 2 – Pedagogical practice (teaching in seminar) – 30%
- Assessment 3 – Learning Journal – 40%

### Hurdle requirement

Satisfactory completion of the professional experience placement is required in order to pass this unit.

## EPP303 – Health and Physical Education: Curriculum Study B

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Cassandra Iannucci*

*Prerequisite: EEH101 and EPP203*

*Corequisite: Must be enrolled in E377*

*Incompatible with: ESH404*

*Scheduled learning activities – campus: 1.5 hour Class per week, 1.5 hour Practical per week*

*Students will be required to complete a 15 day professional experience placement*

### Content

This unit will consist of online, theory and practical components. It will focus on secondary health and physical education discipline and curriculum issues. Specifically, students will further develop their understanding of curriculum and assessment with a particular focus on the use of information and communications technology in teaching and learning. Integration of health and physical education and literacy and numeracy embedded in health and physical education contexts as specific requirements of the Victorian Curriculum will also be explored. Practical activities in this unit will centre on developing a sound understanding of thematic units of work drawn from game sense, major games and lifelong physical activities with a particular focus on ball games.

### Assessment

- Assessment 1 – Scope and sequence plan (2000 words equivalent) – 50%
- Assessment 2 – Assessment tool design (2000 words equivalent) – 50%

### Hurdle requirement

Satisfactory completion of the professional experience placement is required to pass this unit.

## EPP304 – Ways of Knowing Children and Adolescents

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Scott Webster*

*Cohort rule: Must be enrolled in E377, D347 or D351*

*Prerequisite: Two units from EPP101, EPP102, EPP203, EPP207*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week and 1 x 2 hour Seminar per week when not on professional experience placement*

*Professional experience: Students will be required to complete a 15 day professional experience placement*

### Content

This is the fourth of the six units in the education studies major. This unit explores and critiques the institutional and psychological discourses that influence and define learners in schools. The students will examine how different developmental and learning theories can be accommodated in the curriculum and classroom teaching, and become familiar with the literature and research underpinning these theories as well as a range of related pedagogical models. They will be able to apply these understandings to the development of their classroom management repertoire and the promotion of successful learning. The unit includes discussion of school assessment processes as systemic ways of knowing and representing learners. The unit will involve in-depth and contextualised discussion of the ways learners are 'known' in classrooms. Students will adopt a range of ways of seeing learners from the theoretical literature from this unit and the previous unit on pedagogy. The students will finally critique these revised ways of seeing learners through revisiting the place of their own beliefs and philosophical stance.

### Assessment

- Assessment 1 – Responses to seminar tasks (700 words or equivalent) – 25%
- Assessment 2 – Analysis of a school policy (1000 words or equivalent) – 35%
- Assessment 3 – 'Reading' professional practice (1100 words or equivalent) – 40%

### Hurdle requirement

Satisfactory completion of the professional experience placement is required in order to pass this unit.

## EPP305 – Policy, Schooling and Society

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Bernadette Walker-Gibbs*

*Cohort rule: Must be enrolled in E377, D347 or D351.*

*D347 students must have completed or are completing their Secondary Curriculum Studies A for their 1st teaching method area.*

*D351 students must have completed or are completing their Secondary Curriculum Studies 2A for their 2nd teaching method area.*

*Prerequisite: EPP207*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Burwood: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

*Professional experience: Students will be required to complete a 10 day professional experience placement*

### Content

This is the fifth of six units in the education studies major. This unit aims to engage students in the larger discourses of education policy as lived out in the school environment. The students will explore and critique how schools respond to public policy initiatives, community and societal demands and profiles. Students will engage with theoretical understandings from the political, economic and social domains.

The contact hours are interspersed to accommodate in-depth and contextualised discussion of the policy agenda and environment. This unit includes 10 days professional experience – 2 days per week for 5 weeks in the same secondary setting as Trimester 1. During placement the preservice teacher will: teach lessons at junior and/or senior levels of the school in both methods [one method for Arts (D347)] for a total of 2 lessons per day; observe 2 lessons per day (one in each method where two methods taken) and other areas- attend meetings, be involved in yard duty, school activities and any opportunities for engagement with the broader school community; attend a School Council meeting where possible; keep a journal (electronic and/or hardcopy) in which evidence of their planning, observations, collected documents, participation in school activities and reflections are kept. Pre-service teachers will be expected to share their journal with their supervising teachers and appropriate University teaching staff.

## Assessment

- Assessment 1 – Teacher case study (1500 words) – 50%
- Assessment 2 – Student case study (1500 words) – 50%

## Hurdle requirement

Satisfactory completion of the professional experience placement is required in order to pass this unit.

# EPP401 – Curriculum Assessment and Policy in Contemporary Schooling

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Amanda Mooney*

*Prerequisite: Students must have passed three units in EPP101, EPP102, EPP203, EPP204 or EPP207*

*Corequisite: Must be enrolled in E377*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

*Students will be required to complete a 10 day professional experience placement*

## Content

This unit engages in the larger discourses of education policy, particularly Assessment as lived out in the school environment. Students will engage with some of the theoretical understandings of Assessment (As, Of and For) and particular assessment strategies. Students will become familiar with how assessment/data is used to drive teaching and learning, its use in the evaluation of teaching programs to improve student learning, types of and timing of feedback, and its broader role in reporting and record keeping in relation to student achievement. Students will also explore and critique how schools respond to public policy initiatives and community and societal demands and profiles.

## Assessment

- Assessment 1 – Case study (2000 words) – 50%
- Assessment 2 – Case study (2000 words) – 50%

## Hurdle requirement

Satisfactory completion of the professional experience placement is required to pass this unit.

# EPP405 – Professional Identity and Curriculum Work

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Eve Mayes*

*Cohort rule: Must be enrolled in E377*

*Prerequisite: EPP401 – For students in current course version of E377 commencing from 2016.*

*EPP305 – For students in pipelining course version of E377 only*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per fortnight, 1 x 3 hour Seminar per week (21 hours)*

*Professional experience: Students will be required to complete a 25 day professional experience placement*

## Content

This is the sixth of the six units in the Education Studies Major. This unit is the final Education Studies Major unit. The unit engages with the transition from pre-service teacher to in-service teacher. The students will revisit their professional stance as it has developed from the beliefs articulated in Year 1 through to this final stepping off point.

They will gather evidence, document, analyse and reflect on practice to investigate and examine the role of the teacher and professional standards in secondary contexts. Students will select key teaching, learning and assessment artefacts aligned with the relevant professional standards, and build their professional portfolio to provide evidence of their professional identity and understanding of curriculum as community and complexity. Ethical and legal imperatives in teachers work will also be addressed. Students will be involved in online communication with staff and peers as they develop their final professional portfolio entries.

This unit includes 25 days professional experience – a five week block in trimester 2, in a secondary setting. During these days the pre-service teacher will:

- undertake an orientation to the school environment
- plan units of work/whole class program for a class at junior and/or senior levels of the school using an appropriate format for extended planning as discussed with supervising teachers
- teach lessons for a class at junior and/or senior levels of the school; the equivalent of 2 x 50 minute lessons per day (one in each method) over the 25 day period.

- observe lessons: equivalent of 1 x 50 minute lesson in each method, per day, over the duration of the placement
- become fully involved in the life and operations of the school, as per a beginning teacher
- conduct 3–5 parent/student/teacher interviews

*Note: Commencing 2019*

## Assessment

- Assessment 1: (Individual) – Professional Decision Making Task (400 words) – 10%
- Assessment 2: (Individual) Teaching Performance Assessment (3600 words) – 90%

## Hurdle requirement

Satisfactory completion of the professional experience placement is required in order to pass this unit.

# EPP406 – Professional Identity and Curriculum Work

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrn Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Eve Mayes*

*Cohort rule: Must be enrolled in E377, D351 or D347.*

*E377 students must have completed or are completing their Senior Health and Human Development Curriculum Studies*

*D347 students must have completed or are completing their Secondary Curriculum Studies B for their 2nd teaching method area*

*D351 students must have completed or are completing their Secondary Curriculum Studies 2B for their 1st teaching method area*

*Campus contact: Audrey Statham (Burwood (Melbourne)) Jo Williams (Warrn Ponds (Geelong))*

*Prerequisite: EPP305*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per fortnight, 1 x 3 hour Seminar per week (21 hours)*

*Professional experience: Students will be required to complete a 15 and 20 day professional experience placements*

## Content

This is the sixth of the six units in the Education Studies Major. This unit is the final Education Studies Major unit. The unit engages with the transition from pre-service teacher to in-service teacher. The students will revisit their professional stance as it has developed from the beliefs articulated in Year 1 through to this final stepping off point.

They will gather evidence, document, analyse and reflect on practice to investigate and examine the role of the teacher and professional standards in secondary contexts. Students will select key teaching, learning and assessment artefacts aligned with the relevant professional standards, and build their professional portfolio to provide evidence of their professional identity and understanding of curriculum as community and complexity. Ethical and legal imperatives in teachers work will also be addressed. Students will be involved in online communication with staff and peers as they develop their final professional portfolio entries.

This unit includes 35 days professional experience – 15 days before trimester 2, and a four week (20 day) block in trimester 2, in a secondary setting. During these days the pre-service teacher will:

- undertake an orientation to the school environment
- plan units of work/whole class program for a class at junior and/or senior levels of the school using an appropriate format for extended planning as discussed with supervising teachers
- teach lessons for a class at junior and/or senior levels of the school; the equivalent of 2 x 50 minute lessons per day (one in each method) over the 35 day period
- observe lessons: equivalent of 1 x 50 minute lesson in each method, per day, over the duration of the placement
- become fully involved in the life and operations of the school, as per a beginning teacher
- conduct 3–5 parent/student/teacher interviews

## Assessment

- Assessment 1: (Individual) – Professional Decision Making Task (400 words) – 10%
- Assessment 2: (Individual) Teaching Performance Assessment (3600 words) – 90%

## Hurdle requirement

Satisfactory completion of the professional experience placement is required in order to pass this unit.

## EPR704 – Internship

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 4*

*EFTSL value: 0.500*

*Trimester 1 Unit Chair: Liz Rouse*

*Trimester 2 Unit Chair: Liz Rouse*

*Prerequisite: Successful completion of 12 credit points with a minimum WAM of 65 across:*

- *two (2) units EEE751 & EEE752, plus*
- *two (2) units from EPR701, EPR702, EPR711, EPR712, EPR721, EPR722, EPR731, EPR732*

*Students must also contact Student Services prior to enrolling in this unit.*

*Corequisite: Must be enrolled in E760, E761, E762, E763, or E763T*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Learning experiences are via CloudDeakin*

*Internship: Students are required to complete a minimum of 10 weeks in conjunction with host organisation*

*Scheduled learning activities – cloud (online):*

*Learning experiences are via CloudDeakin*

*Internship: Students are required to complete a minimum of 10 weeks in conjunction with host organisation*

### Content

The Internship unit offers pre-service teachers in their final trimester an extended opportunity to gain experience working semi-independently as a teacher in either an early childhood centre, or a primary or secondary school. Participants will have completed successfully the Deakin Authentic Teacher Assessment (ATA). During the Internship, participants will be required to demonstrate competence in the core work of teachers, i.e. planning, assessing and evaluating for learning; selecting and utilising appropriate pedagogies and technologies; recording and reporting on student progress to key stakeholders, building appropriate relationships with students and colleagues and participating in the life of the school and community.

In the Internship, participants will teach and work for 10 weeks, in order to further develop and consolidate their knowledge and skills in the daily work of teachers. During this time, they will be provided with academic supervision and support through both face-to-face consultations and online communication.

Over the course of the internship, participants will be required to keep a learning log where they raise concerns and questions for discussion with supervisors and/or online communication to regularly reflect on their own learning as well as the progress of their students.

*Note: This unit cannot be repeated if failed*

### Assessment

Students enrolled in this unit will receive an ungraded pass/fail result based on submission of a professional teaching portfolio. The portfolio covers the following four areas: School context, Teaching: Design Implementation and teaching relationships and Analysis, reflection and Action.

## EPR711 – Planning for Learning in Professional Experience

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Julie Arnold*

*Trimester 2 Unit Chair: Julie Arnold*

*Prerequisite: Nil*

*Corequisite: EEE751 & must be enrolled in E761*

*Incompatible with: EPR721, EPR731, EPR741*

*Scheduled learning activities – campus:*

*Burwood: This unit is based on a Blended Learning delivery approach. You are expected to participate in all learning experiences designed and scheduled for you on campus (seminars, classes or incursions) or other learning contexts (excursions) and engage in associated online learning resources along with independent study for a combined equivalent engagement of 8–10 hours per week. This will include equivalent of 3 hours per non placement week of structured on campus learning activities or equivalent hours in intensive delivery.*

*Scheduled learning activities – cloud (online):*

*This unit shares the Blended Delivery modules and resources with on campus students. You are expected to actively participate in online forum discussions including posting your responses to critically reflective learning tasks created for Cloud students in the learning modules and regular and engaged responses to the questions/ comments of others. Engagement with materials, responses to tasks, forum posting and independent study is expected to be a combined equivalent of 8–10 hours per week.*

*In-person attendance requirements:*

*Professional Experience: Preservice teachers will also be required to attend 10 days\* of Professional Experience in Early Years setting with Birth to 2 year old learners.*

*Please note that ALL Professional Experience days must be successfully completed to pass this unit.*

*\* Professional Experience Days are indicative only and subject to change. Preservice Teachers are advised to check the most current Professional Experience Calendars for specific details and dates*

*Additional for placement units: During Professional Experience placements, students are frequently required to undertake planning and preparation outside of the full time teaching day.*

## Content

This unit focuses on exploring learners in context. Over the trimester, Preservice Teachers will examine their own learning processes to develop skills in becoming a reflective practitioner. Preservice Teachers will develop an awareness of the importance of inclusive practices required in early years, primary and secondary classrooms and learning environments, staff rooms, and broader learning communities. Preservice Teachers will take an inquiry approach to investigate understandings of learning in early years and school settings. They will consider cultural practices and begin to understand how to use their knowledge of and relationships with learners to build meaningful learning experiences which positively impact learner outcomes. They will begin to develop the skills of planning, teaching and evaluating learning with individuals and groups of learners. Preservice Teachers will begin to understand curriculum as policy and the theories that underpin this. Preservice Teachers will begin to formulate their understanding of pedagogy as central to effective teaching and learning and the educational theories that inform their emerging pedagogical stance.

*Note:*

- *Trimester 1 enrolments for this unit close on 15 February.*
- *Trimester 2 enrolments for this unit close on 15 May.*

*Please refer to the Professional Experience Office website for further information regarding your professional experience placement.*

## Assessment

- *Assessment 1 – Planning for managing learning – document analysis (2000 words) – 40%*
- *Assessment 2 – Literature review and reflective narrative (3000 words) – 60%*

# EPR712 – Managing Teaching in Professional Experience

*Enrolment modes:*

*Trimester 1: Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Jude Ocean*

*Trimester 2 Unit Chair: Deb Moore*

*Prerequisite: Completion of 4 core units including:*

- *EEE751, and;*
- *EPR711 or EPR701, and;*
- *ECE761, and;*
- *ECE762, ECE763 or ECE764*

*Corequisite: EEE752*

*Students must also be enrolled in E761*

*Incompatible with: EPR722, EPR732*

*Scheduled learning activities – campus:*

*Burwood: This unit is based on a Blended Learning delivery approach. You are expected to participate in all learning experiences designed and scheduled for you on campus (seminars, classes or incursions) or other learning contexts (excursions) and engage in associated online learning resources along with independent study for a combined equivalent engagement of 8–10 hours per week. This will include equivalent of 3 hours per non placement week of structured on campus learning activities or equivalent hours in intensive delivery.*

*Scheduled learning activities – cloud (online):*

*This unit shares the Blended Delivery modules and resources with on campus students. You are expected to actively participate in online forum discussions including posting your responses to critically reflective learning tasks created for Cloud students in the learning modules and regular and engaged responses to the questions/ comments of others. Engagement with materials, responses to tasks, forum posting and independent study is expected to be a combined equivalent of 8–10 hours per week.*

*In-person attendance requirements:*

*Professional Experience: Preservice Teachers will also be required to attend 25 days\* of Professional Experience in an Early Years context.*

*Please note that ALL Professional Experience days must be successfully completed to pass this unit.*

*\* Professional Experience Days are indicative only and subject to change. Preservice Teachers are advised to check the most current Professional Experience Calendars for specific details and dates*

*Additional for placement units: During Professional Experience placements, students are frequently required to undertake planning and preparation outside of the full time teaching day.*

## Content

This unit focuses on working effectively with learners both in small groups and as a whole group. Preservice Teachers will plan learning experiences accordingly for a specific cohort of diverse learners. Preservice Teachers will critically reflect on and analyse teaching practice working from the position of a practitioner researcher. Preservice Teachers will use effective communication practices in learning contexts and ensure safe, supportive and challenging inclusive learning-friendly environments. Preservice Teachers will review and analyse effective pedagogy including demonstrating the use of ICT and digital literacies to engage learners in their learning. Discussions with peers, colleagues, supervisors and Deakin staff will be designed to critically reflect on and improve the effectiveness of their planned and enacted teaching as a result of considered engagement with and implementation of a range of learning assessment tasks. Preservice Teachers will be expected to articulate an informed emergent professional position through discussions with colleagues, peers, parents and mentors.

*Note:*

- *Trimester 1 enrolments for this unit close on 15 November 2018 (year preceding).*
- *Trimester 2 enrolments for this unit close on 15 May.*

*Please refer to the Professional Experience Office website for further information regarding your professional experience placement.*

## Assessment

- Assessment 1 – Planning for learning: Concept map (2000 words) – 40%
- Assessment 2 – Critical analysis of planned teaching: Swot analysis (3000 words) – 60%

# EPR713 – Reflecting On Practice in Professional Experience

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Cloud (online) – Not offered Trimester 3 2019, re-offered Trimester 3 2020*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Deb Moore*

*Trimester 2 Unit Chair: Anne Marie Morrissey*

*Trimester 3 Unit Chair: Llewellyn Wishart*

*Prerequisite: EPR712 or EPR702 or EPR705*

*Corequisite: EEE753*

*Students must also be enrolled in E761*

*Incompatible with: EPR723, EPR733, EPR743, EPR753*

*Scheduled learning activities – campus: This unit is based on a Blended Learning delivery approach. You are expected to participate in all learning experiences designed and scheduled for you on campus (seminars, classes or incursions) or other learning contexts (excursions) and engage in associated online learning resources along with independent study for a combined equivalent engagement of 8–10 hours per week. This will include equivalent of 3 hours per non placement week of structured on campus learning activities or equivalent hours in intensive delivery.*

*Scheduled learning activities – cloud (online): This unit shares the Blended Delivery modules and resources with on campus students. Time engaging in learning activities is expected to total a combined equivalent of 8–10 hours per week. This includes engagement with materials, responses to tasks, regular forum posting and responding to others, scheduled synchronous online discussions and independent study. Your expected participation in scheduled synchronous discussions is a minimum of 3 hours per trimester.*

*In-person attendance requirements:*

*Professional Experience: Preservice Teachers will also be required to attend 35 days\* of professional experience in an Early Years context.*

- *EPR713 Stage 1. 10 days P–2 Primary School context undertaken prior to the start of the teaching trimester.*
- *EPR713 Stage 2. 25 days 3–5 Kinder context undertaken during the teaching trimester.*

*Please note that ALL Professional Experience days must be successfully completed to pass this unit.*

*\* Professional Experience Days are indicative only and subject to change. Preservice Teachers are advised to check the most current Professional Experience Calendars for specific details and dates*

*Additional for placement units: During Professional Experience placements, students are frequently required to undertake planning and preparation outside of the full time teaching day.*

## Content

This unit is a capstone experience where Preservice Teachers examine teachers' work and align these practices to the relevant professional standards. Using the skills of inquiry required by a teacher-researcher – to gather evidence, document, analyse and reflect on practice Preservice Teachers will independently investigate and examine the role of the teacher and professional standards in early years/primary/secondary contexts.

Preservice Teachers will select key teaching, learning and assessment artefacts\* and build their professional portfolio to evidence impact on learning with a focus on assessment. The unit requires critical reflection in and on the professional practice of teaching through critical engagement in teacher-research, professional learning and communication with members of the profession and the wider school community and/or early years setting.

*Note:*

- *Trimester 1 enrolments for this unit close on 15th November 2018 (year preceding).*
- *Trimester 2 enrolments for this unit close on 15th November 2018 (year preceding).*
- *Trimester 3 enrolments for this unit close on 15th May.*

*Please refer to the Professional Experience Office website for further information regarding your professional experience placement.*

## Assessment

- Assessment 1 – Professional Experience Reflection (600 word equivalent) – 10%
- Assessment 2 – Teacher Performance Assessment (TPA): Deakin Authentic Teacher Assessment (ATA) (5400 words) – 90%

## Hurdle requirement

The Teacher Performance Assessment (TPA): Deakin Authentic Teacher Assessment (ATA) is a hurdle requirement and must be passed in order to pass the unit.

# EPR721 – Planning for Learning in Professional Experience

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Julie Arnold*

*Trimester 2 Unit Chair: Julie Arnold*

*Prerequisite: Nil*

*Corequisite: EEE751*

*Students must also be enrolled in E762*

*Incompatible with: EPR711, EPR731, EPR741*

*Scheduled learning activities – campus: This unit is based on a Blended Learning delivery approach. You are expected to participate in all learning experiences designed and scheduled for you on campus (seminars, classes or incursions) or other learning contexts (excursions) and engage in associated online learning resources along with independent study for a combined equivalent engagement of 8–10 hours per week. This will include equivalent of 3 hours per non placement week of structured on campus learning activities or equivalent hours in intensive delivery.*

*Scheduled learning activities – cloud (online): This unit shares the Blended Delivery modules and resources with on campus students. You are expected to actively participate in online forum discussions including posting your responses to critically reflective learning tasks created for Cloud students in the learning modules and regular and engaged responses to the questions/comments of others. Engagement with materials, responses to tasks, forum posting and independent study is expected to be a combined equivalent of 8–10 hours per week.*

*In-person attendance requirements: Professional Experience: Preservice Teachers will also be required to attend 10 days\* of Professional Experience in Primary School setting.*

*Please note that ALL Professional Experience days must be successfully completed to pass this unit.*

*\* Professional Experience Days are indicative only and subject to change. Preservice Teachers are advised to check the most current Professional Experience Calendars for specific details and dates*

*Additional for placement units: During Professional Experience placements, students are frequently required to undertake planning and preparation outside of the full time teaching day.*

## Content

This unit focuses on exploring learners in context. Over the trimester, Preservice Teachers will examine their own learning processes to develop skills in becoming a reflective practitioner. Preservice Teachers will develop an awareness of the importance of inclusive practices required in early years, primary and secondary classrooms and learning environments, staff rooms, and broader learning communities. Preservice Teachers will take an inquiry approach to investigate understandings of learning in early years and school settings. They will consider cultural practices and begin to understand how to use their knowledge of and relationships with learners to build meaningful learning experiences which positively impact learner outcomes. They will begin to develop the skills of planning, teaching and evaluating learning with individuals and groups of learners. Preservice Teachers will begin to understand curriculum as policy and the theories that underpin this. Preservice Teachers will begin to formulate their understanding of pedagogy as central to effective teaching and learning and the educational theories that inform their emerging pedagogical stance.

*Note:*

- *Trimester 1 enrolments for this unit close on 15 February.*
- *Trimester 2 enrolments for this unit close on 15 May.*

*Please refer to the Professional Experience Office website for further information regarding your professional experience placement.*

## Assessment

- Assessment 1 – Planning for managing learning – document analysis (2000 words) – 40%
- Assessment 2 – Literature review and reflective narrative (3000 words) – 60%

## EPR722 – Managing Teaching in Professional Experience

*Enrolment modes:*

*Trimester 1: Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Jude Ocean*

*Trimester 2 Unit Chair: Jude Ocean*

*Prerequisite: One of EPR721, EPR741 or EPR701 and all three of EEE751, EPL746 and EPM742*

*Corequisite: EEE752*

*Students must also be enrolled in E762, E764 or E765  
Incompatible with: EPR712, EPR732*

*Scheduled learning activities – campus: Burwood: This unit is based on a Blended Learning delivery approach. You are expected to participate in all learning experiences designed and scheduled for you on campus (seminars, classes or incursions) or other learning contexts (excursions) and engage in associated online learning resources along with independent study for a combined equivalent engagement of 8–10 hours per week. This will include equivalent of 3 hours per non placement week of structured on campus learning activities or equivalent hours in intensive delivery.*

Engagement with materials, responses to tasks, forum posting and independent study is expected to be a combined equivalent of 8–10 hours per week.*

*In-person attendance requirements: Professional Experience: Preservice Teachers will also be required to attend 25 days\* of Professional Experience in a Primary School context.*

*Please note that ALL Professional Experience days must be successfully completed to pass this unit.*

*\* Professional Experience Days are indicative only and subject to change. Preservice Teachers are advised to check the most current Professional Experience Calendars for specific details and dates.*

*Additional for placement units: During Professional Experience placements, students are frequently required to undertake planning and preparation outside of the full time teaching day.*

## Content

This unit focuses on working effectively with learners both in small groups and as a whole group. Preservice Teachers will plan learning experiences accordingly for a specific cohort of diverse learners. Preservice Teachers will critically reflect on and analyse teaching practice working from the position of a practitioner researcher. Primary Preservice Teachers will focus their critique of practice on mathematics and/or numeracy teaching. Preservice Teachers will use effective communication practices in learning contexts and ensure safe, supportive and challenging inclusive learning-friendly environments.

Preservice Teachers will review and analyse effective pedagogy including demonstrating the use of ICT and digital literacies to engage learners in their learning. Discussions with peers, colleagues, supervisors and Deakin staff will be designed to critically reflect on and improve the effectiveness of their planned and enacted teaching as a result of considered engagement with and implementation of a range of learning assessment tasks. Preservice Teachers will be expected to articulate an informed emergent professional position through discussions with colleagues, peers, parents and mentors.

*Note:*

- *Trimester 1 enrolments for this unit close on 15 November 2018 (year preceding).*
- *Trimester 2 enrolments for this unit close on 15 May.*

*Please refer to the Professional Experience Office website for further information regarding your professional experience placement.*

## Assessment

- Assessment 1 – Planning for learning: Concept map (2000 words) – 40%
- Assessment 2 – Critical analysis of planned teaching: Swot analysis (3000 words) – 60%

## EPR723 – Reflecting On Practice in Professional Experience

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Robin Bellingham*

*Trimester 2 Unit Chair: Robin Bellingham*

*Trimester 3 Unit Chair: Matthew Thomas*

*Prerequisite: Completion of 8 Core Units including: EPL746, EPM742, EPO701, EPS735, EEE751, EEE752, EPR721 & EPR722*

*Corequisite: ECP711, ECP712 and EEE753*

*Students must also be enrolled in E762*

*Incompatible with: EPR713, EPR733, EPR743, EPR753*

*Scheduled learning activities – campus: This unit is based on a Blended Learning delivery approach. You are expected to participate in all learning experiences designed and scheduled for you on campus (seminars, classes or incursions) or other learning contexts (excursions) and engage in associated online learning resources along with independent study for a combined*

*equivalent engagement of 8–10 hours per week. This will include equivalent of 3 hours per non placement week of structured on campus learning activities or equivalent hours in intensive delivery.*

*Scheduled learning activities – cloud (online): This unit shares the Blended Delivery modules and resources with on campus students. Time engaging in learning activities is expected to total a combined equivalent of 8–10 hours per week. This includes engagement with materials, responses to tasks, regular forum posting and responding to others, scheduled synchronous online discussions and independent study. Your expected participation in scheduled synchronous discussions is a minimum of 3 hours per trimester.*

*In-person attendance requirements: Professional experience: Preservice Teachers will also be required to attend 25 days\* of professional experience in a Primary School context.*

*Please note that ALL Professional Experience days must be successfully completed to pass this unit.*

*\* Professional Experience Days are indicative only and subject to change. Preservice Teachers are advised to check the most current Professional Experience Calendars for specific details and dates*

*And two of:* ESS744, ESS741, EHU701, EHI701, ECA731, ECA733, ECA735, ECL761, ETL700, ETL705, ETL710, ETL716, ESH702, ESM724, ESM704, ESP705

*Corequisite:* EEE753

*Students must also be enrolled in* E765

*Incompatible with:* EPR713, EPR723, EPR733, EPR743

*Scheduled learning activities – campus:* This unit is based on a Blended Learning delivery approach. You are expected to participate in all learning experiences designed and scheduled for you on campus (seminars, classes or incursions) or other learning contexts (excursions) and engage in associated online learning resources along with independent study for a combined equivalent engagement of 8–10 hours per week. This will include equivalent of 3 hours per non placement week of structured on campus learning activities or equivalent hours in intensive delivery.

*Scheduled learning activities – cloud (online):* This unit shares the Blended Delivery modules and resources with on campus students. Time engaging in learning activities is expected to total a combined equivalent of 8–10 hours per week. This includes engagement with materials, responses to tasks, regular forum posting and responding to others, scheduled synchronous online discussions and independent study. Your expected participation in scheduled synchronous discussions is a minimum of 3 hours per trimester.

*In-person attendance requirements:*

*Professional experience:* Preservice teachers will also be required to attend 45 days\* of Professional Experience comprised of:

*Burwood (Melbourne) and Cloud (online) environments:*  
EPR753 Stage 1. 20 days Secondary context undertaken during Trimester 1 (please note enrolment cut-off date)  
EPR753 Stage 2. 25 days Secondary context undertaken during Trimester 2

*Please note that ALL Professional Experience days must be successfully completed to pass this unit.*

*\* Professional Experience Days are indicative only and subject to change. Preservice Teachers are advised to check the most current Professional Experience Calendars for specific details and dates*

*Additional for placement units:* During Professional Experience placements, students are frequently required to undertake planning and preparation outside of the full time teaching day.

### Content

This unit is a capstone experience where preservice teachers examine teachers' work and align these practices to the relevant professional standards. Using the skills of inquiry required by a teacher-researcher – to gather evidence, document, analyse and reflect on practice preservice teachers will independently investigate and examine the role of the teacher and professional standards in early years/primary/secondary contexts.

Preservice teachers will select key teaching, learning and assessment artefacts\* and build their professional portfolio to evidence impact on learning with a focus on assessment. The unit requires critical reflection in and on the professional practice of teaching through critical engagement in teacher-research, professional learning and communication with members of the profession and the wider school community and/or early years setting.

*Note:* Enrolments for this unit close on 15 November 2018 (year preceding).

*Please refer to the Professional Experience Office website for further information regarding your professional experience placement.*

### Assessment

- Assessment 1 – Teacher Performance Assessment (TPA): Deakin Authentic Teaching Assessment (ATA) (5400 words) – 90%
- Assessment 2 – Professional Experience Reflection (600 word equivalent) – 10%

### Hurdle requirement

The Teacher Performance Assessment (TPA): Deakin Authentic Teaching Assessment (ATA) is a hurdle requirement and must be passed in order to pass the unit.

## EPS735 – Primary Science and Technology Education

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: John Cripps Clarke*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in E762, E764, or E765*

*Incompatible with: EES540, ESS540*

*Scheduled learning activities – campus: 1 x 4 hour*

*School-based Seminar per week (7 weeks)*

*Scheduled learning activities – cloud (online): 1 x 2 hour*

*Online Seminars plus 2 hours of practical activities and small-group teaching per week (7 weeks)*

*In-person attendance requirements: Cloud (intensive):*

*5 x 5.5 hour School-based Seminars over one week*

### Content

The unit covers the following topics:

- children's perceptions of scientists and science and children's alternative science concepts;
- science and design & technologies pedagogies: conceptual change strategies, multi-modal representations;
- linking research literature (including theoretical perspectives) to practice;
- states and national curricula planning – planning and implementing a sequence of science and design and technologies lessons;
- science Investigations – design, measurement, data representation and analysis, and writing in science;
- the nature of science and the relationship between design and technologies and science;
- the literacies of science and the role of representation in learning science;
- higher order thinking and reasoning, creativity and imagination;
- resources for a contemporary primary science classroom: the use of ICT to support learning in science and community resources;
- assessment, as, of and for learning – diagnostic and formative and summative;
- science conceptual knowledge: including floating and sinking, force and energy, light, heat, animal and plant structure and function, biodiversity, life cycles and animal behaviour, rocks, earth and atmospheric processes, environmental science, sustainability, the nature of science.

- the technology process; and
- safety in science and design and technologies.

### Assessment

- Assessment 1 (Group of 2 or Individual) – Teaching Report of assessment (5000 words group of two or 2500 words individual or equivalent) – 50%
- Learning Report of assessment (2500 words or equivalent) – 50%

## ESH402 – Health Education: Curriculum Study

*Offering information: Final year offered 2019*

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Natalie Hendry*

*Cohort rule: Must be enrolled in D342, D347, D389, E359, E365, E377 or E455*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 x scheduled 1-hour online seminar per fortnight (no online seminar during placements)*

### Content

This unit is designed to prepare students to teach and assess in the area of health education. Drawing on contemporary research, this unit specifically is aimed at preparing students to teach engaging and inclusive health education across the middle years of schooling (Years 7 to 10) and is designed to stimulate critical thinking about contemporary school-based health education. Using an evidenced based approach, the unit will examine the health and wellbeing of young people; histories and pedagogies of health education; program, curriculum and assessment development; and health promoting schools as a school-based model.

### Assessment

- Briefing paper report (2000 words) – 50%
- Curriculum plan (2000 words) – 50%

## ESH403 – Senior Health and Human Development: Curriculum Study

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrn Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Jacqui Peters*

*Cohort rule: Must be enrolled in D340, D342, D343, D344, D345, D346, D347, D348, D349, D350, D384, D389, E365, E377 or E455*

*Prerequisite: Completion of EEH405*

*Corequisite: Nil*

*Incompatible with: ESJ458*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week (no seminars during placements)*

### Content

This unit aims to prepare students for facilitating learning in Health Education in senior Health curricula in Australian states and territories. The study of senior Health is based on the premise that health needs to be understood at individual, group, community and national and international levels, to maximise health and global development potential. Topics covered include: the place of Health Education senior curricula; approaches to teaching and learning of Health and Human Development; the responsibilities and obligations of the teacher in delivering the prescribed curriculum of the senior years Health; exploration of contemporary resources texts, technologies and resources; and the nature of school based and external evaluation and assessment.

### Assessment

- Resource report (2000 words) – 50%
- Unit plan (2000 words) – 50%

## ESH702 – Health Education: Curriculum Study

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Natalie Hendry*

*Cohort rule: Must be enrolled in E760, E763, E763T or E765*

*Prerequisite: Nil*

*Corequisite: Sub major in health studies or equivalent*  
*Incompatible with: ESH402*

*Scheduled learning activities – campus: 1 x 3 hour seminar per week (no seminars during placements)*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 x scheduled 1-hour online seminar per fortnight (no online seminar during placements)*

### Content

This unit is designed to prepare students to teach and assess in the area of health education. Drawing on contemporary research, this unit specifically is aimed at preparing students to teach engaging and inclusive health education across the middle years of schooling (Years 7 to 10) and is designed to stimulate critical thinking about contemporary school-based health education. Using an evidenced based approach, the unit will examine the health and wellbeing of young people; histories and pedagogies of health education; program, curriculum and assessment development; and health promoting schools as a school-based model.

### Assessment

- Briefing paper report (2500 words) – 50%
- Curriculum plan (2500 words) – 50%

## ESH703 – Senior Health and Human Development: Curriculum Study

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Jacqui Peters*

*Cohort rule: Must be enrolled in E760, E763, E763T or E765*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning including 1 hour scheduled online workshops per week (no online workshop during placements)*

### Content

This unit aims to prepare students for facilitating learning in Health Education in senior Health curricula in Australian states and territories. The study of senior Health is based on the premise that health needs to be understood at individual, group, community and national and international levels, to maximise health and global development potential. Topics covered include: the place of Health Education senior curricula; approaches to teaching and learning of Health and Human Development; the responsibilities and obligations of the teacher in delivering the prescribed curriculum of the senior years Health; exploration of contemporary resources texts, technologies and resources; and the nature of school based and external evaluation and assessment.

### Assessment

- Resource report (2500 words) – 50%
- Unit plan (2500 words) – 50%

## ESJ457 – Studies in Curriculum (LOTE A)

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Caroline Mahoney*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in D347 or E359*

*Incompatible with: ESJ357*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

The principal aim of this unit is to prepare students for teaching as specialist education practitioner through a study of the following education specialism: LOTE secondary curriculum study (B).

It will focus on aspects such as curriculum influences, curriculum design and development principles and curriculum delivery and implementation.

### Assessment

- Assessment 1 – An evaluative report (2000 words) – 50%
- Assessment 2 – Development of an integrated unit of work (2000 words) – 50%

## ESJ458 – Studies in Curriculum (LOTE B)

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Caroline Mahoney*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in D347 or E359*

*Incompatible with: ESJ358*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

## Content

The principal aim of this unit is to prepare students for teaching as specialist education practitioners through a study of one of the following education specialisms:

- Issues in Home Economics (Burwood (Melbourne))
- Curriculum study in LOTE education (Burwood (Melbourne), Waurin Ponds (Geelong), Warrnambool)
- LOTE materials development (Burwood (Melbourne))

Each of these specialisms will focus on aspects such as curriculum influences, curriculum design and development principles and curriculum delivery and implementation of the respective disciplines. The year level focus and/or other aspects of each of these specialisms will complement and support specialisms offered in other Education Discipline Studies.

## Assessment

- Assessment 1 – A written essay in the format of a textbook critique, critically evaluating culture-related content against the theories, concepts and goals of intercultural language learning (2000 words) – 50%
- Assessment 2 – Development of an integrated unit for the senior years (Year 12) (2000 words) – 50%

This unit aims to introduce beginning teachers to the major aspects of teaching learners from language background other than English in both mainstream and specialist classes at secondary school level. It provides real and simulated classroom situations in which participants can practise and discuss teaching and learning procedures. The unit covers a broad range of theoretical and practical issues important to the study of TESOL such as second language acquisition, the use of curriculum frameworks, assessment practices and effective pedagogies.

## Assessment

- Assessment 1 – A critical essay evaluating theories of language teaching and learning, and analysing own experiences as a language learner, reflecting on what social and cultural factors aided or prevented one's own language learning (2000 words) – 50%
- Assessment 2 – Development of a sequence of lessons for the EAL classroom, based on current curriculum frameworks (2000 words) – 50%

## ESJ459 – Studies in Curriculum TESOL A

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Caroline Mahoney*

*Cohort rule: Must be enrolled in D347, E360, E365 or E455*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

## Content

The principal aim of this unit is to prepare students for teaching as specialist education practitioners through a study of the education specialism: TESOL: Curriculum Study A.

## ESJ460 – Studies in Curriculum (Senior Chemistry or TESOL B)

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Seamus Delaney*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

## Content

The principal aim of this unit is to prepare students for teaching as specialist education practitioners through a study of one of the following education specialisms:

- TESOL: Curriculum Study B (Burwood (Melbourne))
- Senior Chemistry: Curriculum Study – (Burwood (Melbourne), Cloud (online))

Each of these specialisms will focus on aspects such as curriculum influences, curriculum design and development principles and curriculum delivery and implementation of the respective disciplines. The year level focus and/or other aspects of each of these specialisms will complement and support specialisms offered in other Education Discipline Studies.

## Assessment

### TESOL:

- A critical essay evaluating theories of language teaching and learning, and analysing own experiences as a language learner, reflecting on what social and cultural factors aided or prevented one's own language learning, 2000 words, 50%
- Development of a sequence of lessons for the EAL classroom, based on current curriculum frameworks, 2000 words, 50%

### Chemistry:

- Emerging Science group task, 1200 words, 30%
- Teaching a Difficult Chemical Concept, 1600 words, 40%
- Analysis of an Area of Study and planning a unit of work, 1200 words, 30%

## ESM211 – Children and Mathematics: Developing Mathematical Concepts

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrnambool, Warrnambool (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Carly Sawatzki*

*Cohort rule: Must be enrolled in course E359 Bachelor of Education (Primary)*

*Campus contact: Carly Sawatzki (Burwood (Melbourne))*

*Jude Ocean (Warrnambool (Geelong))*

*Sandra Herbert (Warrnambool)*

*Prerequisite: SIT106 and ETP200*

*Corequisite: NIL*

*Incompatible with: EME228, EME497, ESM210*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

*Professional Experience: Students will be required to complete a 10 day placement*

## Content

This unit is the first of three compulsory units in primary mathematics education. The unit aims to promote pre-service teachers' understanding of how children's mathematical concepts develop in two key areas – number and measurement. Pre-service teachers' interaction with and analysis of children's responses to mathematical tasks will be used as a stimulus for them to examine their own understandings of some of the key mathematical concepts, terminology, representations and procedures regarding number and measurement. Building on these experiences, pre-service teachers will explore the planning and teaching of learning activities to support children's further construction of these mathematical concepts and procedural fluency.

Students will be introduced to a range of teaching materials and resources along with effective ways of incorporating the use of a range of learning technologies. National and state trends in the development of numeracy standards will be examined. The current Australian curriculum documents and research based teaching and assessment frameworks will be referred to and used intensively.

## Assessment

- Assessment 1 – Individual assignment involving interview of two children and report on this formative assessment – 30%
- Assessment 2 – Individual lesson planning with a paired reflection – 35%
- Assessment 3 – One written examination – 35%

Satisfactory completion of the written examination (pass mark of 50%) and a 10-day placement are required for satisfactory completion of this unit.

## ESM215 – Problem Solving, Modelling and Mathematical Applications

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Zara Ersozlu*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Learning experiences for this unit are via CloudDeakin*

## Content

This unit address theoretical and practical aspects of problem solving and mathematical modelling, as well as introducing students to one of the major modern applications of mathematics, public key cryptography. Participants will be expected to access significant print and on-line national and international literature in the area, engage in the process of solving non-routine problems and applying the modelling process, and reflect on the strategies they used and the solution paths they followed.

Topics include: the nature of mathematical problems and the problem solving process; problem posing and mathematical investigations; communicating mathematical explanations and proof; the concept of a mathematical model and the modelling process; applying the modelling process to real world problems; the role of problem solving and modelling in the real world; and an introduction to public key cryptography.

## Assessment

- Assessment 1 – Portfolio of problem solving tasks – 50%
- Assessment 2 – Portfolio of modelling tasks – 35%
- Assessment 3 – Portfolio of tasks related to public key cryptography – 15%

## ESM303 – Primary Mathematics Lesson Study

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurm Ponds (Geelong) and Warrnambool*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Wanty Widjaja*

*Cohort rule: Must be enrolled in E359 course commencing from 2017*

*Prerequisite: One of SIT106, SIT176 or ESM215*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour seminar per week*

## Content

This unit focuses on collaborative planning and reflection on teaching to develop pre-service teachers' understanding of evidence-based practice and skills as researchers of their own teaching practice for on-going professional learning. Pre-service teachers will work in groups to plan, teach and evaluate mathematics lessons following Lesson Study protocols. The lesson study process involves in-depth planning and teaching of a research lesson, which is observed by colleagues and experts, a post-lesson discussion of the lesson based on evidence of student learning, and, in some instances, revision of the planned lesson. The lessons planned by groups of PSTs will be taught in a primary school classroom.

The content of this unit includes approaches to lesson planning, formative assessment, design and selection of tasks for inquiry learning, anticipation of student thinking and solutions, teacher actions in orchestrating discussion of student solutions, the practice of noticing students' thinking and responding to contingencies, and assessing student learning. The lessons planned, taught and evaluated will focus on the use of an inquiry approach, and appropriate materials and representations, including digital tools.

*Note: Commencing 2019*

## Assessment

- Essay and oral presentation (1200 words) – 30%
- Assessment 2 (Group) – Group planning and teaching of a research lesson (1600 words equivalent per person) – 40%
- Written reflection on research lesson (1200 words) – 30%

## ESM310 – Teachers and Mathematics: Creating An Effective Classroom

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrnambool, Waurm Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Leicha Bragg*

*Cohort rule: Must be enrolled in E359*

*Campus contact: Leicha Bragg (Burwood (Melbourne))*

*Jude Ocean (Waurm Ponds (Geelong))*

*Sandra Herbert (Warrnambool)*

*Prerequisite: Students must have passed ESM210 or ESM211*

*Corequisite: Nil*

*Incompatible with: EME500*

*Scheduled learning activities – campus: 1 x 1 hour Class per week and 1 x 2 hour Seminar per week for 9 weeks*

## Content

This unit is the second of three compulsory units in primary mathematics education. Students in this unit will explore the connection between children as learners who construct their own understanding of mathematics and an inquiry-based model for classroom practice. They will develop strategies to provide challenging, coherent and inclusive mathematical learning experiences for children.

Other topics include planning, implementing and evaluating learning in mathematics; problem-solving and mathematical investigations; developing spatial thinking and techniques for teaching geometry; using children's literature to stimulate children's engagement and learning in mathematics; teaching chance and data through an investigational approach; the development of informal and formal concepts for the measurement of time, temperature, money and angle; designing effective activities for mathematics learning; and the use of appropriate learning technologies to enhance mathematics learning and teaching.

## Assessment

There are 3 assessment items in this unit. All items must be submitted to pass this unit.

- Report exploring children's literature to enhance engagement and understanding in mathematics – 50%
- Online reflective discussion task – 10%
- Written report and/or oral presentation of manipulatives and readings that develops conceptual understanding of a mathematical content area (equivalent of 1600 words) – 40%

# ESM410 – Professional Practice and Mathematics: Designing an Inclusive Program

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Leicha Bragg*

*Cohort rule: Must be enrolled in E359*

*Prerequisite: Students must have passed ESM310*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

## Content

This unit is the third of three compulsory units in primary mathematics education; it is offered as a wholly on line unit. In this final unit students will address issues related to their future professional practice in schools and the wider education community. The main focus will be on increasing students' skills in curriculum planning, assessment and reporting, and extending their knowledge of current issues, research and development in mathematics education.

Topics to be addressed include: problematic issues relevant to the implementation of mathematics curricula; assessment, evaluation and reporting, including the use of authentic assessment tasks; catering for diversity, including intervention and remediation; curriculum planning in mathematics; socio-cultural and equity factors in planning and implementing inclusive mathematics learning; mathematics in an integrated curriculum; and continuing professional development.

## Assessment

- Assessment 1 – A multimedia resource focusing on mathematics curriculum – 60%
- Assessment 2 – eLecture responses on curriculum issues and assessment practices in primary mathematics – 40%

Assessment will total the equivalent of 4000 words.

## ESM424 – Mathematics: Curriculum Study

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Zara Ersozlu*

*Cohort rule: Must be enrolled in D347, D351, E359 or E377*

*Prerequisite: Minimum discipline study requirement is successful completion of three relevant units of mathematics with at least one of these units at the second year level. Statistics is accepted as a mathematics unit provided it is taken within a Mathematics Department.*

*Corequisite: Nil*

*Incompatible with: EME209, EME409, ESM724*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week, and asynchronous online discussions through Cloud.*

*Scheduled learning activities – cloud (online): Virtual synchronous online discussions, opportunities to present orally through platforms such as Blackboard Collaborate, and asynchronous online discussions through Cloud.*

### Content

This unit focuses on subjects within senior years/post compulsory mathematics education as outlined in the Australian Curriculum: Mathematics and state and territory curricula. The unit simultaneously examines mathematical content and teaching approaches that optimise student learning of that content. Attention is paid to developing teacher ability to sequence mathematical topics to increase student opportunities to think autonomously; to strengthen the connections they make between areas of mathematical content, and the contexts to which this mathematics applies.

Assessment procedures are examined for the purpose of identifying how to increase student learning by progressive monitoring, and how to best assist students to meet assessment requirements. Design of assessment tasks is considered in the light of ways to monitor ongoing learning and how to assess in the second last year of schooling in ways that prepare students for assessment in their last year of secondary school.

### Assessment

- Assessment 1 – Use research, independent thinking, and online discussion spaces to collaboratively design, develop and implement a learning activity, and collaboratively and individually reflect on its usefulness – 50%
- Assessment 2 – Formulate an inquiry associated with the learning of mathematics through professional experience placement participation, and interrogate research literature to explore this question – 50%

All tasks will be criterion referenced.

## ESM425 – Senior Mathematics: Curriculum Study

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair:*

*Janis McCluskey*

*Cohort rule: Must be enrolled in D347, D351, or E377*

*Prerequisite: ESM424*

*Corequisite: Nil*

*Incompatible with: EME425, ESM225, ESM725*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week, and asynchronous online discussions through Cloud.*

*Scheduled learning activities – cloud (online): Virtual synchronous online discussions, opportunities to present orally through platforms such as Blackboard Collaborate, and asynchronous online discussions through Cloud.*

### Content

This unit focuses on subjects within senior years/post compulsory education as outlined in the Australian Curriculum: Mathematics and state curricula. For example, in Victoria this includes mathematics within the Victorian Certificate of Education (VCE), and mathematics associated with the Victorian Certificate of Applied Learning (VCAL). The unit simultaneously examines mathematical content and teaching approaches that optimise student learning of that content. Attention is paid to developing teacher ability to sequence mathematical topics to increase student opportunities to think autonomously; to strengthen the connections they make between areas of mathematical content, and the contexts to which this mathematics applies.

Assessment procedures are examined for the purpose of identifying how to increase student learning by progressive monitoring, and how to best assist students to meet assessment requirements. Design of assessment tasks is considered in the light of ways to monitor ongoing learning and how to assess in the second last year of schooling in ways that prepare students for assessment in their last year of secondary school.

### Assessment

- Teaching for Understanding (1600 words) – 40%
- Review of the Curriculum (2400 words) – 60%

## ESM701 – Teaching Mathematics Successfully

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Leicha Bragg*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

This unit encourages participants to explore some key features of quality teaching, including organising for learning, effective communication, nurturing of learners, engaging students, catering for individual differences, and ways of structuring open-ended learning. These strategies are portrayed as necessary for an inclusive curriculum that will lead to the construction of relational understanding of any specific content, including mathematics. Participants look critically at a range of aspects of mathematics lessons, and then choose to investigate more deeply (individually or in groups) a feature of the teaching approach that links with their specific interests and specialist fields.

### Assessment

- Assessment 1 – Portfolio (2000 words) – 40%
- Assessment 2 – Project (3000 words) – 60%

### Hurdle requirements for E734 and E744SP students only:

1. Completion and documentation of 2 days of professional development relating to the Practicum Case Study
2. Knowledge of relevant support services related to the field

Students who fail a hurdle requirement will be ineligible for a Pass Conceded grade for that unit and will receive a result of no more than 44% for that unit, waived under special consideration arrangements

## ESM704 – Problem Solving and Modelling

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: To be advised*

*Cohort rule: Must be enrolled in E760, E763, E763T or E765*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

This unit focuses on two key elements in the teaching of Foundation to Year 12 mathematics: problem solving and modelling. The unit will address topics including: the nature of mathematical problems and the problem solving process; the concept of a mathematical model and the modelling process; the role of problem solving and modelling in the school curriculum; organising classrooms for problem solving and modelling; and what constitutes a mathematically rich problem or situation for use in classrooms.

### Assessment

- Assessment 1 – Portfolio of problem solving and modelling tasks (equivalent to 2000 words) – 40%
- Assessment 2 – Literature review of an aspect of problem solving or modelling (1500 words) – 30%
- Assessment 3 – Reflective report on the development and teaching of a sequence of problem solving or modelling sessions (equivalent to 1500 words) – 30%

## ESM724 – Mathematics: Curriculum Study

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Zara Ersozlu*

*Cohort rule: Must be enrolled in D304, E760, E763, E763T or E765*

*Prerequisite: D304 students must have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%, otherwise Nil*

*Corequisite: Nil*

*Incompatible with: EME209, EME409, ESM424*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week, and asynchronous online discussions through Cloud.*

*Scheduled learning activities – cloud (online): Virtual synchronous online discussions, opportunities to present orally through platforms such as Blackboard Collaborate, and asynchronous online discussions through Cloud.*

### Content

This unit simultaneously focuses on mathematical content and teaching and learning approaches that increase Year 7–10 students' opportunities to learn mathematics. Informed by findings from middle years research, and guided by the Australian Curriculum. Autonomous student thinking is a focus of attention.

A diversity of tasks (from various mathematical domains (e.g. the areas of Number, Space, Measurement, Probability and Statistics Chance and Data, Structure including numeric and algebraic structure) are examined. Tasks are then designed and implemented, and reflections upon the learning that occurred are a focus intended to develop the types of thinking of reflective teachers. Many complexities associated with classroom teaching (e.g., catering for individual differences, implementing effective group work, and capitalising on technology to support student learning) are identified and discussed.

Study of assessment techniques focuses on monitoring student progress to promote further learning, assessing students' mathematical performance, and providing opportunities for students to demonstrate they can work mathematically.

### Assessment

- Assessment 1 – Use research, independent thinking, and online discussion spaces to collaboratively design, develop and implement a learning activity, and collaboratively and individually reflect on its usefulness – 50%
- Assessment 2 – Through reflection upon professional experience placement experience, formulate and research a question that will assist in developing curriculum expertise – 50%

## ESM725 – Senior Mathematics: Curriculum Study

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair:*

*Janis McCluskey*

*Cohort rule: Must be enrolled in D304, E760, E763, or E765*

*Prerequisite: ESM724. D304 students must also have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%*

*Corequisite: Nil*

*Incompatible with: EME425, ESM225, ESM425*

*Scheduled learning activities – campus: 1 x 3 hour seminar per week, and asynchronous online discussions through Cloud.*

*Scheduled learning activities – cloud (online): Virtual synchronous online discussions, opportunities to present orally through platforms such as Blackboard Collaborate, and asynchronous online discussions through Cloud*

### Content

This unit focuses on subjects within senior years/post compulsory mathematics education as outlined in the Australian Curriculum: Mathematics and state and territory curricula. The unit simultaneously examines mathematical content and teaching approaches that optimise student learning of that content.

Attention is paid to developing teacher ability to sequence mathematical topics to increase student opportunities to think autonomously; to strengthen the connections they make between areas of mathematical content, and the contexts to which this mathematics applies.

Assessment procedures are examined for the purpose of identifying how to increase student learning by progressive monitoring, and how to best assist students to meet assessment requirements. Design of assessment tasks is considered in the light of ways to monitor ongoing learning and how to assess in the second last year of schooling in ways that prepare students for assessment in their last year of secondary school.

### Assessment

- Assessment 1 – Teaching for Understanding (2000 words) – 40%
- Assessment 2 – Review of the Curriculum (3000 words) – 60%

## ESM733 – Exploring Space and Number

*Enrolment modes: Trimester 2: Cloud (online)\**

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: to be advised*

*Cohort rule: Must be enrolled in E760, E763, E763T, or E765*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

This unit explores two fundamental areas of mathematics, space and number, and provides participants with ideas for teaching that exploit this knowledge. Topics covered include: the natural, rational and real numbers; an introduction to one of the major modern applications of elementary number theory, public key cryptography; using geometry in art and design, including paper engineering and the work of M. C. Escher, as a vehicle for meaningfully engaging students from Years 7 to 10 with the space content of the curriculum. Participants will be expected to reflect on issues related to pedagogical approaches that enhance students' construction of their knowledge and understanding of mathematical concepts.

*Note: \* Offered in alternating years 2019, 2021*

### Assessment

- Assessment 1 – Portfolio of tasks (equivalent to 2000 words) – 40%
- Assessment 2 – Literature review (1500 words) – 30%
- Assessment 3 – Report on a sequence of three lessons (1500 words) – 30%

## ESP202 – Senior Psychology A: Curriculum Study

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Claire Spicer*

*Cohort rule: Must be enrolled in D342, D347 or D389*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

### Content

The unit examines issues and practices in the teaching of psychology in years 11 and 12. In particular, it focuses on effective and practical strategies for teaching and assessment in VCE. There is also a focus on ethical considerations associated with teaching more sensitive topics in psychology. A critical analysis of a range of teaching and learning strategies, including both teacher-centred and experiential approaches, will be undertaken.

### Assessment

- Assessment 1 (Group) – Class presentation: Preparation, presentation and analysis of a 50-minute class lesson by a group of 2–3 people – 40%
- Resource folio: This assignment requires the student to apply specified teaching and learning strategies to course content – 60%

Assessment will total 4000 words or equivalent.

## ESP203 – Senior Psychology B: Curriculum Study

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Claire Spicer*

*Cohort rule: Must be enrolled in D342, D347 or D389*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

### Content

The unit provides students with the opportunity to explore the content of the four VCE psychology units in detail. In particular, attention is paid to the assessment procedures involved in each unit and students will be expected to demonstrate proficiency in these. The unit also builds on students' knowledge of effective teaching and highlights the importance of clearly stated objectives and appropriate strategies to address these. A strong emphasis is also placed on developing students' capabilities to devise appropriate, novel, learning procedures that are not reliant on specialised equipment.

### Assessment

- Assessment 1 – Research design assessment: This group assignment involves the identification & evaluation of an Empirical Research Activity (ERA) which is relevant to the current VCE Psychology study design and suitable for use as an assessment task with students in year 11 or 12. This is presented to the class and then written up and evaluated (2000 words) – 40%
- Assessment 2 – Development of a unit of work from within VCE curriculum: This individual assignment requires the student to VCE Psychology lesson and ICT-related learning activities (2000 words) – 60%

Assessment will total 4000 words or equivalent.

## ESP701 – Education and Development of Exceptional Learners

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Claire Spicer*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

This unit focuses on the current understandings of students with exceptional learning abilities. Topics covered include conceptions of intelligence, giftedness and talent; identification; social and emotional needs; underachievement; students at risk; curriculum models and program planning.

### Assessment

- Assessment 1 – Essay: Related to current understandings of the education and development of exceptional learners. This essay requires a clear and thorough analysis of gifted theories and an understanding of multiple factors related to gifted education (socio-cultural, gender bias, motivation, self-efficacy and twice exceptionality) (2500 words) – 40%
- Assessment 2 – Project: A project applying theory to practice through the analysis of a gifted student (in their school) or the analysis of a real case study of a gifted child. This task requires a demonstration of the characteristics of gifted students; social, emotional, family, gender and cultural associations; analysis of school, State and National policies and gifted education programs suitable for teaching the specific gifted student (3000 words) – 50%
- Assessment 3 – Online discussions: Participation in two online discussions. The first based on a selected weekly theme/topic with clear links to the literature. The second post, a film review that evaluates the message being imparted to audiences with regards to socially sanctioned expectations or behaviours of the 'gifted' (500 words) – 10%

## Hurdle requirements for E734 and E744SP students only:

1. Completion and documentation of 2 days of professional development relating to the Practicum Case Study.
2. Knowledge of relevant support services related to the field

Students who fail a hurdle requirement will be ineligible for a Pass Conceded grade for that unit and will receive a result of no more than 44% for that unit, waived under special consideration arrangements.

## ESP705 – Psychology Curriculum Study 1

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Claire Spicer*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

This unit prepares students to confidently and effectively teach Psychology in Years 10 and 11 (Units 1 & 2). The unit aims to develop students' knowledge of the Psychology curriculum that incorporates both the scientific study of human behaviour through biological, psychology and social perspectives, and the systematic application of this knowledge to personal and social instances in everyday life. The students will be encouraged to participate in, learn and collect a range of contemporary teaching strategies, activities and resources including the development of key science skills.

### Assessment

- Assessment 1 – Activity portfolio (2500 words equivalent) – 40%
- Assessment 2 – Report and presentation (2500 words equivalent) – 60%

## ESP706 – Psychology Curriculum Study 2

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Claire Spicer*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

This unit prepares students to confidently and effectively teach Psychology in Years 10 and 12 (Units 3 & 4). The unit aims to further enhance the students' knowledge of the Psychology curriculum that incorporates both the scientific study of human behaviour through biological, psychology and social perspectives, and the systematic application of this knowledge to personal and social instances in everyday life. The students will be encouraged to participate in, learn and collect a range of contemporary teaching strategies, activities and resources. A strong emphasis will be placed on enhancing the students' capabilities to create new and invigorating teaching tools. Therefore students will be required to explore, critique and reflect on their previous years teaching providing them with an opportunity to share experiences to shape new activities and teaching methodologies.

### Assessment

- Assessment 1 – Research investigation (2500 words equivalent) – 40%
- Assessment 2 – Compendium (2500 words equivalent) – 60%

## ESP707 – Psychology in Education

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Tim Corcoran*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

This unit is for professionals working in schools, or with young people in a variety of educational contexts, seeking to develop their understanding of the challenges facing teachers and learners in the 21st century, with a particular focus on psychological theory. The course will encourage consideration of the contribution of psychology to education policy and practice in changing national and international contexts. This unit is designed to advance student understanding of historical and contemporary practices that have contributed to the development of psychological knowledge applied in education. In this unit students will critically analyse the acceptance and use of diagnostic categories (e.g. Attention Deficit Hyperactivity Disorder) and concepts (e.g. intelligence) applied to learners and learning. The unit aims to provoke students reflection on the limitations as well as potential benefits of various forms of psychological theory ranging from dominant cognitive-behavioural and constructivist theory to theories informing critical educational psychology e.g. social constructionism. The unit situates students as practitioners within the worldviews created by psychological theory to question the ethical foundations of professional discourse.

### Assessment

- Online group discussion (500 words) – 10%
- Literature Review (1500 words) – 30%
- Research essay (4000 words) – 60%

## ESS412 – Science Experiments You Can Eat

*Enrolment modes: Trimester 3: Cloud (online), \*CBD*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Coral Campbell*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Learning experiences are via CloudDeakin*

*Students are also required to attend a 6 hour intensive on one Friday. The Friday 6 hour intensive is offered at Burwood (Melbourne) campus. Students unable to attend can be offered electronic on-line assistance*

### Content

Investigation in primary classrooms of the chemical and physical changes which happen to food during its preparation and cooking. Background information about each topic is given and related teaching and learning issues are raised. Samples of activities are provided for students to explore each topic. Science ideas and possible questions for investigation are presented to assist with planning units of work. Based on these understandings, students develop teaching strategies and curriculum materials designed for primary-school children. Students engage with ICT strategies in the development of units of work.

*Note: \*CBD refers to Institute of Koorie Education – Community Based Delivery*

### Assessment

- Assessment 1 – Assignment – 50%
- Assessment 2 – Assignment – 50%

Assignments to include curriculum development.

Assessment will total 4000 words or equivalent.

## ESS415 – Resources in the Contemporary Science Curriculum

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Seamus Delaney*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour*

*Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 3 hours per week undertaking weekly tasks within the cloud site.*

### Content

This unit aims to develop in students an understanding of the place of practical activities in school science and strategies the effective use of a wide range of resources in the contemporary science curriculum.

The topics to be addressed in this unit include:

Productive use of excursions and incursions in science, laboratory management policies and procedures, legal responsibilities of the science teacher; preparation and storage of laboratory chemicals and biological materials; ways of using community science resources including local industry and government agencies; field work in science; using web based resources; strategies for the effective preparation and presentation of teachers' demonstrations; strategies for the effective use of a range of equipment, including learning technologies such as data-logging, computers and graphic calculators; strategies for the effective preparation and management of laboratory activities undertaken by students; formative and summative assessment of practical activities; and research related to the effective use of practical activities in science learning.

The unit assumes a basic level of competence in the use of learning technologies and will require the student to engage in regular electronic conferences and other web-based learning activities.

### Assessment

- Assessment 1 – Teacher Demonstration: The presentation and discussion of a teacher demonstration as well as a written summary of the demonstration (1000 words) – 25%

- Assessment 2 – Research Assignment: Research assignment that discusses the benefits and difficulties in undertaking excursions and provide details of a viable excursion experience that is embedded in a particular science curriculum (2000 words) – 35%
- Assessment 3 – Electronic Portfolio: This involves a collection of science teaching resources with a written rationale for their use in a contemporary science classroom (2000 words) – 40%

## ESS439 – Issues in Science and Environmental Education

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Peta White*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour seminar per week (excluding Professional Experience placement weeks)*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including Collaborate sessions scheduled throughout the trimester and weekly engagement with materials and responses in discussion forums.*

### Content

Issues in Science and Environmental education is a hands-on, inquiry-based unit that develops critical perspectives towards the role of contemporary science education with a focus on environmental issues. You will engage with Scientists to develop teaching and learning materials that empower you to take action understanding the scientific literacies needed to move towards a more sustainable future for all.

This unit is offered via a series of modules with learning materials, seminars, and field excursions (where appropriate). Locations for field work will be Victorian and close to Melbourne. Cloud students will be provided with details to enable field excursions in their local environments.

The two assessments will cultivate your teaching and learning practices as you use contemporary science research to develop sequences and materials for secondary students. You will also consider your own personal activism and work with students to develop classroom actions.

## Assessment

- Assessment 1 – Curriculum Development (Teaching and Learning with Contemporary science in lower secondary classrooms) (2400 words or equivalent) – 60%
- Assessment 2 – Resource Development (Personal Activism into Classroom Action) (1600 words or equivalent) – 40%

## ESS441 – Environmental Science and Society: Curriculum Study

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Jorja McKinnon*

*Cohort rule: Must be enrolled in D342, D344, D351, E359, E365, E377 or E455*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour seminar per week (excluding Professional Experience placement weeks)*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including Collaborate sessions scheduled throughout the trimester and weekly engagement with materials and responses in discussion forums.*

## Content

Environmental Science and Society: Curriculum Study is a practical unit that will prepare you to use Environmental and Sustainability Education theory and practice including pedagogies and strategies to reflect on and further develop your teaching and learning philosophy and skills.

This unit is offered via a series of modules with learning materials, seminars, and field excursions (where appropriate). Locations for field work will be Victorian and close to Melbourne. Cloud students will be provided with details to enable field excursions in their local environments.

The two assessments will cultivate your curriculum, assessment and pedagogical understanding with the development of a teaching and learning sequence and practical multi-media skills to develop your own classroom based resources.

## Assessment

- Assessment 1 – Curriculum Development (2400 words or equivalent) – 60%
- Assessment 2 – Resource Development (Multi-media development) (1600 words or equivalent) – 40%

## ESS442 – Senior Environmental Science: Curriculum Study

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Jorja McKinnon*

*Prerequisite: One unit from: EME200, EME400, ESS241, ESS441*

*Corequisite: Nil*

*Incompatible with: EME242, ESS242, ESS742*

*Scheduled learning activities – campus: Intensive mode – 5 x 5.5 hour Seminars held either in the field or at Burwood (Melbourne) campus*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly scheduled Collaborate sessions and weekly engagement with materials and responses in discussion forums (invited to attend field work experiences).*

## Content

Senior Environmental Science: Curriculum Study is a hands-on unit that will prepare you to teach VCE Environmental Science. All 4 units of the new VCE Study Design will be explored. This unit is offered via a series of intensive seminars and field excursions, and supported through cloud based learning materials. Locations for field work will be Victorian and close to Melbourne. Cloud (online) students will be provided with details to enable field excursions in their local environments. This strategy will have you experiencing learning tasks that will be useful with your future students. The two assessments will cultivate your curriculum and resource development.

## Assessment

- Assessment 1 – Resource Development (1600 words or equivalent) – 40%
- Assessment 2 – Curriculum Development (2400 words or equivalent) – 60%

## ESS444 – Science: Curriculum Study

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Peter Hubber*

*Cohort rule: Must be enrolled in D342, D344, D351, E359, E365, E377 or E455*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 3 hours per week undertaking weekly tasks within the cloud site.*

### Content

Topics to be addressed in this unit include:

- Lesson planning in science;
- The nature of science and rationale for teaching it;
- Research into students' understandings of science and implications for teaching science;
- Contemporary understandings about students' learning of science;
- Victorian Essential Learning Standards (VELS) structure as it relates to the teaching of science.
- The Nature of Science and implications for the teaching and learning of science – models and representations in science, and argumentation;
- Assessing the development of students' understandings and skills in science;
- Teaching and learning strategies to support students' understandings in science;
- Planning and management of practical science learning activities;
- Scientific literacy and literacies of science; and
- Applications of ICT in the science classroom.

### Assessment

- Assessment 1 – Presentation of a teaching resource from a science education journal (500 words) – 20%
- Assessment 2 – Concept map (500 words or equivalent) – 20%
- Assessment 3 – Major assignment requiring the development of a sequence of lessons within the relevant contemporary curriculum document (e.g. Victorian Essential Learning Standards) (3000 words) – 60%

All tasks will be criterion-referenced.

## ESS467 – Senior Biology: Curriculum Study

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Amanda Peters*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 hour Collaborate sessions scheduled throughout the trimester and weekly engagement with materials and responses in discussion forums.*

### Content

This unit will develop students' understanding of contemporary theories of teaching and learning in secondary biology with a focus on senior biology (years 11 and 12) both within and beyond Victoria. Consideration will be given to the new (2016–2021) VCE Biology Study Design. Students will reflect on the implications of curriculum change. Students will model current pedagogical practices and consider the relationship of these to research practices in contemporary biology. Students will use literature to design learning sequences involving resource and assessment design to support secondary students' understandings of difficult concepts. Practical, hands-on, inquiry based laboratory, field, and virtual activities will be investigated and adapted to teaching and learning environments.

### Assessment

- Assessment 1 – Resource development (1600 word or equivalent) – 40%
- Assessment 2 – Curriculum development (2400 word or equivalent) – 60%

Assessment will total 4000 words or equivalent.

All tasks are criterion-referenced.

## ESS741 – Science and Environmental Sustainability: Curriculum Study (Years 7–10)

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Peta White*

*Cohort rule: Must be enrolled in D304, E760, E763, E763T or E765*

*Prerequisite: D304 students must have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%, otherwise Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week for 9 weeks.*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including scheduled Collaborate sessions and weekly engagement with materials.*

### Content

The unit aims to lead students to a deeper understanding and appreciation of different approaches to the learning and teaching of education for sustainability, including its relation to socio-scientific issues and environmental education, to lower secondary level years 7 to 10 across a range of curriculum areas and as a whole school approach.

- The nature and purposes of education for sustainability and its relation to socio-scientific issues and environmental education
- Locating opportunities for learning and teaching through education for sustainability in the Australian National Curriculum
- Approaches to learning and teaching through education for sustainability
- Assessment for and of learning through education for sustainability
- Learning and teaching resources for education for sustainability.

### Assessment

- Design a lower secondary (years 7 to 10) program in education of sustainability, socio-scientific issues, and/or environmental education across a range of curriculum areas and/or as a whole school approach (3000 words or equivalent) – 60%

- Assessment 2 (Group) – Design a resource (share it via presentation) to support an aspect of student learning from the assessment 1 program, include a description (with task details) of how to assess for and of learning (2000 words per person or equivalent) – 40%

## ESS742 – Senior Environmental Science: Curriculum Study

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Jorja McKinnon*

*Cohort rule: Must be enrolled in D304, E760, E763, E763T or E765*

*Prerequisite: D304 students must have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%, otherwise Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Intensive mode – 4 x 5.5 hour seminars held either in the field or at Burwood campus*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly Collaborate sessions and weekly engagement with materials and responses in discussion forums (invited to attend field work experiences).*

### Content

Senior Environmental Science: Curriculum Study is a hands-on unit that will prepare you to teach Earth and Environmental Science (based on the Australian senior secondary curriculum with comparison to other state and territory curricula). This unit is offered via a series of modules each supported by learning materials and intensively offered seminars and, where appropriate, field excursions. Cloud students will be provided with support materials that will enable field excursions in local environments. This strategy will have you experiencing learning tasks that will be useful with your future students. The assessments focus on designing curriculum sequences and conducting practical investigations and designing appropriate teaching and learning resources.

## Assessment

- Assessment 1 – Resource Development (based on Practical Investigation) (2000 words or equivalent) – 40%
- Assessment 2 – Curriculum Development (Teaching and learning sequence) (3000 words or equivalent) – 60%

## ESS744 – Science: Curriculum Study

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Peter Hubber*

*Cohort rule: Must be enrolled in D304, E760, E763, E763T or E765*

*Prerequisite: D304 students must have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%, otherwise Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 3 hours per week undertaking weekly tasks within the cloud site.*

## Content

Topics to be addressed in this unit include:

- Lesson planning in science;
- The nature of science and rationale for teaching it;
- Research into students' understandings of science and implications for teaching science;
- Contemporary understandings about students' learning of science;
- Australian National Curriculum: Science structure as it relates to the teaching of science.
- The Nature of Science and implications for the teaching and learning of science – models and representations in science, and argumentation;
- Assessing the development of students' understandings and skills in science;
- Teaching and learning strategies to support students' understandings in science;
- Planning and management of practical science learning activities;
- Scientific literacy and literacies of science; and
- Applications of ICT in the science classroom.

## Assessment

- Assessment 1 – Oral presentation and concept map (2000 words) – 40%
- Assessment 2 – Unit development and literature review (3000 words) – 60%

## ESS745 – Senior Physics Curriculum Study

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: John Cripps Clark*

*Cohort rule: Must be enrolled in D304, E760, E763, E763T or E765*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour Seminar weeks 1–5, 10 & 11*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly tasks within the cloud site.*

## Content

This unit has a focus on the teaching and learning of science at the middle and senior levels of secondary schooling as it pertains to the science area of physics. It explores and critiques the literature as it relates to the research in students' understandings of physics and implications for best practice in the teaching of concepts and skills in contemporary physics classrooms. Students will apply their knowledge of inquiry-based approaches to teaching and learning to development of appropriate activities and curriculum that might be incorporated into Year 11 and 12 physics classroom practice.

## Assessment

- Assessment 1 – Research Assignment (2500 words) – 50%
- Assessment 2 – Unit of Work (2500 words) – 50%

## ESS755 – Resources in the Contemporary Science Curriculum

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Seamus Delaney*

*Cohort rule: Must be enrolled in D304, E760, E763, E763T or E765*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 3 hours per week undertaking weekly tasks within the cloud site.*

### Content

This unit focuses on the teaching and learning of science in practical activity situations, the role of digital technology in the science classroom and the affordances to learning science through student engagement in informal settings. This unit also has a focus on critiquing and developing resources to enhance the teaching and learning of science.

The unit will consist of the following topics:

- Productive use of excursions and incursions in science;
- Laboratory management policies and procedures, legal responsibilities of the science teacher;
- Preparation and storage of laboratory chemicals and biological materials;
- Ways of using community science resources including local industry and government agencies;
- Effective use of web based resources for science teaching and learning;
- Strategies for the effective preparation and presentation of teacher's demonstrations;
- Strategies for the effective use of a range of equipment, including learning technologies such as data-logging, computers and graphic calculators: strategies for the effective preparation and management of laboratory activities undertaken by students;
- Formative and summative assessment of practical activities; and
- Research related to the effective use of practical activities in science learning

### Assessment

- Assessment 1 – Research Assignment (3000 words) – 40%
- Assessment 2 – Electronic Portfolio (2000 words) – 60%

## ESS767 – Senior Biology: Curriculum Study

*Enrolment modes:*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Peta White*

*Cohort rule: Must be enrolled in D304, E760, E763, E763T or E765*

*Prerequisite: D304 students must have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%, otherwise Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 7 x 1 hour scheduled seminars over the trimester and weekly engagement with materials and responses in discussion forums.*

### Content

This unit will develop students' mastery of contemporary theories of teaching and learning in secondary biology with a focus on senior biology (years 11 and 12) both within and beyond Victoria. Consideration will be given to the new (2016–2021) VCE Biology Study Design.

Students will critically reflect on the implications of curriculum change. Students will model and critically evaluate current pedagogical practices and analyse the relationship of these to research practices in contemporary biology. Students will use research literature to design innovative learning sequences involving resource and assessment design to support secondary students' understandings of difficult concepts.

Practical, hands-on, inquiry based laboratory, field, and virtual activities will be investigated and adapted to complex teaching and learning environments.

## Assessment

- Assessment 1 – Resource development (2000 word or equivalent) – 40%
- Assessment 2 – Curriculum development (3000 word or equivalent) – 60%

Assessment will total 5000 words or equivalent.

All tasks are criterion-referenced.

## ESS768 – Curriculum Studies (Senior Chemistry)

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Seamus Delaney*

*Prerequisite: D304 students must have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%, otherwise Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Class per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 3 hours per week undertaking weekly tasks within the cloud site.*

## Content

The principal aim of this unit is to prepare students for teaching as specialist education practitioners through a study of Senior Chemistry. The unit will focus on aspects such as curriculum influences, curriculum design and development principles and curriculum delivery and implementation of the respective disciplines. The year level focus and/or other aspects of each of the specialism will complement and support specialisms offered in other Education Discipline Studies.

## Assessment

- Assessment 1 – Emerging Science (1500 words) – 30%
- Assessment 2 – Teaching a Difficult Chemical Concept (2000 words) – 40%
- Assessment 3 – Analysis of an Area of Study and planning a unit of work (1500 words) – 30%

## EST400 – Primary Technology Education: Creativity and Design

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrnambool, Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Wendy Jobling*

*Campus contact: Wendy Jobling (Burwood (Melbourne))*

*Coral Campbell (Waurin Ponds (Geelong), Warrnambool)*

*Prerequisite: Students must have passed 12 credit points including 4 credit points at level 3*

*Corequisite: Must be enrolled in E359*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week for 10 weeks*

## Content

This unit is designed for students to explore current principles and issues in the teaching of technology, and to enhance their understanding of technology education and technological practice. Students examine the interplay between society and technology and investigate methods of teaching technology education where children are challenged to become effective problem solvers in the design and construction of products to satisfy human needs and wants.

By considering case studies of teaching and learning technology in a global context, students become competent in planning inclusive curricula, which support children to develop technological literacy, knowledge and capability.

Through hands-on technological activities students observe the links between the Technology Key Learning Area/Domain and other KLAS/Domains such as Art, Language and Science.

## Assessment

- Assessment 1 – Seminar response activities – 20%
- Assessment 2 – Design Curriculum Task: Written report, which will focus on curriculum development within the primary school context – 30%
- Assessment 3 – Community Project: Written report and presentation in response to a community need – 50%

Assessment will total the equivalent of 4000 words.

## ETL700 – Pedagogy for EAL Classrooms

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Ruth Arber*

*Trimester 2 Unit Chair: Ruth Arber*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ECL751, ESJ759*

*Scheduled learning activities – campus: 1 x 3 hour*

*Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

This unit examines EAL and TESOL pedagogies for primary and secondary teachers, the debates and issues which underpin those issues and the development of pedagogies for diverse students in different socio-cultural and institutional contexts in Australia and overseas.

The unit considers approaches and methods related to teaching language form and communication and the ways these can be integrated into programs that include cultural and language awareness and content based teaching for students in diverse contexts.

The unit includes an overview of the ways that students learn languages, the different language, educational and learning experiences that students bring to the classrooms, the engagement of students within language classrooms and within social contexts which are cultured and empowered. Students examine the development of popular methods and approaches; current research and its implications for the teaching of speaking, listening, reading and writing; the development of multi-literacies, approaches for teaching language form, communication and culture, the development of integrated approaches for teaching EAL and TESOL and the engagement of that skill and knowledge for different genres of literature.

### Assessment

- Assessment 1 – Essay (2500 words) – 50%
- Assessment 2 – Reflective Analysis (2500 words) – 50%

## ETL701 – TESOL Method

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Ruth Arber*

*Trimester 2 Unit Chair: Ruth Arber*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ECL751*

*Scheduled learning activities – campus: 1 x 3 hour*

*Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

This unit considers the different ways that language is learned, the strategies and goals that define language teaching in the classroom and examines the ways that popular methodologies provide effective methods and techniques for teaching and learning an additional language in classrooms.

The course provides an introduction to language teaching methodology including first, second and bilingual language acquisition research and sociocultural theories of language learning; innovative approaches to teaching skills of speaking, listening, reading and writing in an additional language; holistic, communicative, task-based, needs-based approaches; planning lessons and units of work; learning styles and strategies; literacy in an additional language and classroom implications; and materials and resources.

Central to the course will be ways of thinking innovatively about pedagogy in contemporary and changing language classrooms.

### Assessment

- Assessment 1 – Log book (2500 words) – 50%
- Assessment 2 – Negotiated Task (2500 words) – 50%

## ETL702 – Linguistics for Second Language Teachers

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Leonardo Veliz*

*Trimester 2 Unit Chair: Hossein Shokouhi*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ECL753*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

Second Language Teachers need not only to be able to speak and understand the language they are teaching but have an understanding of how the language works – its systems and rules of usage.

This unit focuses on raising awareness of traditional and modern perspectives of grammar. As such, it is relevant to students' professional development as language teachers. It develops not only a thorough understanding of the formal aspects of language, but it teaches you the metalanguage that is needed for talking about these aspects of language. It also introduces participants to current issues concerning the role of grammar in Second Language Teaching and Learning and to various ways in which this knowledge could be used for the teaching of spoken and written discourses.

### Assessment

- Assessment 1 – Literature Review on a linguistic issue (2500 words) – 50%
- Assessment 2 – Analysis of written sample of language (2500 words) – 50%

## ETL703 – Intercultural Communication in Language Classrooms

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Zosia Golebiowski*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

This unit aims to introduce students to the basic concepts of intercultural communication. It discusses differences in interactive styles across diverse cultural settings and focuses on the application of intercultural pragmatics in language learning and teaching contexts.

Topics to be addressed include: Cultural differences in written and spoken discourse; Intercultural communication and Gricean maxims; Ways of making meaning in diverse cultural contexts; The pragmatics of face and politeness; Applications of pragmatics in second and foreign language learning and teaching; Relevance and implicature; Intercultural variation in speech acts; Presupposition and common ground; Cultural awareness in the classroom; Intercultural variation of academic English; and Stereotyping and discriminating in language.

### Assessment

- Assessment 1 – Responses to theoretical issues and practical activities in logbook format (2000 words) – 40%
- Assessment 2 – An essay on an issue in intercultural communication in a language classroom (to be selected from a list of topics included the Unit Guide) (3000 words) – 60%

## ETL704 – Innovation in Language Curriculum

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Leonardo Veliz*

*Trimester 2 Unit Chair: Leonardo Veliz*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ECL752, ESJ760*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

This unit aims to develop students' understanding of EAL and languages curriculum by enabling them to take on the broader and more complex role of planning, designing and evaluating language programs for particular second language learners and contexts.

The units comprises case studies of innovative approaches to syllabus design and content; it discusses teacher and learner roles in particular political, social and institutional contexts; frameworks for planning curriculum change; planning and teaching language courses online; materials evaluation; and assessment including the role of examinations.

### Assessment

- Assessment 1 – Critical evaluation of a sample EAL program (2000 words) – 40%
- Assessment 2 – Report on an agreed aspect of developing or evaluating languages programs (3000 words) – 60%

## ETL705 – Pedagogic Grammar

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Leonardo Veliz*

*Trimester 2 Unit Chair: Rod Neilsen*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ECL753*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

EAL Teachers need to have an in-depth understanding of all systemic aspects of language- lexical, morphological, syntactical, and phonological, and their associated structures and functions. This unit enhances these understandings and also raises awareness of the pedagogical applications of linguistic knowledge. In this unit students will also develop the ability to assess the spoken and written language abilities of EAL learners at different levels of proficiency and monitor their development through stages.

This unit is tailored specially for VIT registered teachers who seek additional expertise in dealing with non-English speaking background students in mainstream classes.

### Assessment

- Assessment 1 – Analysis of a grammatical feature (2000 words) – 40%
- Assessment 2 – Analysis of written and spoken learner language (3000 words) – 60%

## ETL706 – Reflective Practice in EAL and Languages Classrooms

*Enrolment modes:*

*Trimester 1: Cloud (online)*

*Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Ruth Arber*

*Trimester 2 Unit Chair: Ruth Arber*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ECL755*

*Scheduled learning activities – cloud (online): Learning experiences are via CloudDeakin*

*Professional Experience: Students will be required to complete a 22 day professional experience placement*

### Content

This unit covers how curriculum, pedagogy and language content and form are understood and implemented in classrooms in Australia. Students will become cognisant of the curriculum and practical requirements of the institutions in which they will teach, the cultural, educational and linguistic profile of their students and teaching and learning community, and the implications for languages and TESOL/EAL teaching methodology and practice.

The unit includes a 22 day supervised professional experience placement in an appropriate primary/secondary/adult education setting.

### Assessment

- Assessment 1 – Report (2000 words) – 40%
- Assessment 2 – Portfolio (3000 words) – 60%

## ETL708 – Language Teaching in Practice

*Enrolment modes:*

*Trimester 1: Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Hossein Shokouhi*

*Trimester 2 Unit Chair: Indika Iiyange*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ECL754*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

This unit introduces students to the practice of second language teaching, through a combination of lectures, peer teaching, micro-teaching, and classroom observation of practising language teachers. Specifically, this unit focusses on practical aspects involved in adult TESOL education contexts in Australia and overseas. It examines the fundamentals of teaching English as an additional language and provides a forum for discussing issues in professional practice of language teachers.

The unit provides pedagogical strategies to develop skills of listening, speaking, reading and writing as embedded in various contexts of language teaching.

Grammar and vocabulary teaching and the integration of information technology with different aspects of language learning will also be covered.

### Assessment

- Assessment 1 – A written lesson plan and 15 minute oral presentation (a mini lesson) (equivalent to 2000 words) – 40%
- Assessment 2 – Unit of work (3000 words) – 60%

## ETL709 – Multilingualism and Multilingual Education in Global Contexts

*Enrolment modes:*

*Trimester 1: Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Carolina Cabezas*

*Trimester 2 Unit Chair: Carolina Cabezas*

*Prerequisite: D303 students must have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%, otherwise Nil*

*Corequisite: Nil*

*Incompatible with: ESJ758*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

This unit focuses on a range of theories, policies and current developments and discussions in regards to multilingualism in global and Australian contexts. Students explore in detail the issues of multilingual languages education across a range of social-cultural, political and institutional contexts.

The unit covers core concepts and understandings from a range of perspectives, paying particular attention to theories of language and cognition, languages education policies, multilingual curricula and education programs, multilingualism and teacher-learner identities, and the characteristics of multilingual speech.

The unit also looks at the ways in which research into multilingualism can inform both the languages pedagogies and the effective learning of an additional language.

### Assessment

- Assessment 1 – Essay based on interview (2500 words) – 50%
- Assessment 2 – Essay (2500 words) – 50%

## ETL710 – Teaching and Learning in Languages Classrooms

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Michiko Weinmann*

*Prerequisite: D303 students must have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%, otherwise Nil*

*Corequisite: Nil*

*Incompatible with: ECL751, ESJ757*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week.*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

This unit provides an extensive overview of languages teaching methodology for qualified teachers. It considers the ways that languages are learnt by diverse students in different contexts.

This unit aims to develop a comprehensive understanding of the context of languages education with a view to critically evaluating and reflecting on the history of the discipline, the contemporary policy context the implementation of current approaches to pedagogy provision, in particular integrated approaches such as CLIL.

In this unit students explore languages acquisition theory and its implications for languages teaching and a wide range of languages teaching methodologies. Students will apply different strategies for teaching assessment and evaluation and implement these in their assessments.

### Assessment

- Assessment 1 – Written essay (2500 words) – 50%
- Assessment 2 – Lesson plan sequence (equivalent to 2500 words) – 50%

## ETL711 – Learning An Additional Language

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Zosia Golebiowski*

*Trimester 2 Unit Chair: Zosia Golebiowski*

*Trimester 3 Unit Chair: Zosia Golebiowski*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ECL774*

*Scheduled learning activities – campus:*

*Trimester 1 & 2: 1 x 3-hour seminar per week*

*Trimester 3: 2 x 3-hour seminars per week in weeks 5, 6, 7, 8, 9 plus 1 x 3-hour seminar in week 10*

*Scheduled learning activities – cloud (online):*

*Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

This unit explores the processes involved in learning a language, and how these are researched using notions such as error analysis, contrastive analysis and learner language. It considers how the acquired language is studied, and the relationship between first and additional language acquisition. Among the factors discussed are learner variability, silent period and language production, and cognitive effects of second language acquisition.

Other topics covered include the features of the sociocultural context of language learning that influence acquisition and the experience of language immersion.

The unit explores also features of the second language classroom that impact the acquisition, including feedback and noticing, teacher-role and learning strategies.

### Assessment

- Assessment 1 – Learning log (2500 words) – 50%
- Assessment 2 – Analysis of classroom lesson from language acquisition perspective (2500 words) – 50%

## ETL712 – Discourse Analysis for Language Teaching

*Enrolment modes:*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Trimester 3: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Zosia Golebiowski*

*Trimester 3 Unit Chair: Zosia Golebiowski*

*Prerequisite: Nil*

*Corequisite: Must be enrolled in E700, E752, E753, E754, E756, E757, E758 or E780*

*Incompatible with: ECL756*

*Scheduled learning activities – campus: 1 x 3 hour*

*Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

This unit demonstrates how language study at the discursive level can be applied in the language classroom. It enables participants to critically examine and apply key approaches to the analysis of spoken and written language in order to select and utilise texts for teaching purposes. Topics include: definitions of discourse and discourse analysis; perspectives on text analysis; notions of context and common ground, tools for analysis of spoken and written texts, including Gricean pragmatics, speech act theory and conversational analysis; textual coherence; the analysis of the rhetorical structure of texts; and critical language analysis for teaching purposes.

### Assessment

- Assessment 1 – Responses to theoretical and analytical activities in a logbook format (3000 words) – 60%
- Assessment 2 – A report including analysis of selected texts by the student and a discussion of the text analysis in relation to issues in second/foreign language teaching (2000 words) – 40%

## ETL713 – Learning Global English in Diverse Social Contexts

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 3: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Hossein Shokouhi*

*Trimester 3 Unit Chair: Zosia Golebiowski*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: ECL773*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

This unit aims to help students understand the local and global context in which their learners study the English language and to address questions relating to how social contexts influence language learners and learning.

Topics to be addressed in this unit include: the nature of power relationships and the global use of English and their interaction with class, gender, race and ethnicity; the concepts of identity, globalisation, class, gender, race and ethnicity particularly in relation to education and work and their meaning in terms of personal and classroom experience; the nature of culture and the concepts of cultural change, ideology and schooling; awareness of learners – cultures and/or the target culture; what questions about culture do teachers have, and what do teachers do with cultural information when they have it?; immigration policies globally and their impact on individuals, groups and society; institutional responses to immigration and bilingualism; Language planning and language policy; and presuppositions of one's own culture and its effects on life and work in a multicultural society.

*Note: Study school program at Burwood (Melbourne) campus for Cloud (online) enrolled students subject to demand. Campus based version subject to demand.*

### Assessment

- Assessment 1 – Learning log, topics 1–2 (1250 words) – 25%
- Assessment 2 – Essay (2250 words) – 45%
- Assessment 3 – Learning log, topics 3–9, (1500 words) – 30%

## ETL714 – Language Testing and Assessment

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Leonardo Veliz*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

This unit aims to introduce students to the theory and practice of language testing and assessment in a range of second and foreign language contexts. It makes links between language curriculum and assessment and develops skills in test design, validation and evaluation appropriate to learning settings. Topics to be addressed in this unit include: Current theories in language testing and assessment; The purposes of language assessment; Testing of language for specific purposes; Communicative language teaching methodology and its implications for assessment; The ethics in language assessment; Methods and techniques for testing speaking, listening, reading and writing skills; Self and peer assessment; Properties of language tests; and The evaluation of language assessment instruments.

### Assessment

- Assessment 1 – A description and evaluation report on a language assessment instrument (2500 words) – 50%
- Assessment 2 – An essay on a current issue in language assessment (2500 words) – 50%

## ETL715 – Internationalising the Curriculum

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Ruth Arber*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: EXE739*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

This unit deals with the proposition that all teachers are working within diverse and increasingly internationalised and globalised contexts worldwide. It begins with a theoretical and practical discussion of the implications of internationalisation and globalisation on education and pedagogy and curriculum. It looks at the impact these changes have had on crucial notions, particularly language culture, identity and difference and the implications of this for teaching and learning.

Finally, the unit investigates the ways that we as educators might work within the different contexts in which we are concerned to provide viable and far thinking curricula for students in internationalising educational contexts in Australia and overseas.

### Assessment

- Assessment 1 – Essay: that explores the theoretical and practical implications of globalisation and internationalisation on educational contexts and its consequences for curriculum design in local/global educational contexts (2500 words) – 50%
- Assessment 2 – Negotiated task: that investigates the implications of internationalisation, cultural and language diversity in an educational context in Australia or overseas and makes suggestions for appropriate curriculum design (2500 words) – 50%

## ETL716 – CLIL Pedagogy

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Michiko Weinmann*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour seminar per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

This unit provides students with a grounding in the pedagogical principles and practice of Content and Language Integrated Learning (CLIL). Students will learn how to plan for, teach and assess in a CLIL program, considering the specific requirements of an approach integrating language and discipline areas. This unit aims to deepen students' understanding of the relationship between language, concepts, cognition and communication, and to develop further teachers' capacity to scaffold and support their students' learning through a second language.

### Assessment

- Assessment 1 – Essay (2500 words) – 50%
- Assessment 2 – Module of work (2500 words equivalent) – 50%

## ETM701 – Knowledge, Learning and Learners in STEM

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Judy Mousley*

*Cohort rule: Must be enrolled in E557*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

This unit will build participants' awareness of the nature of learning in STEM and of STEM pedagogies, interrogate what STEM is and can be within a professional setting, the inclusiveness of STEM education, and the usefulness of reflection on practice, and assessment for and as learning. Drawing on discussions of resources including personal experience, videos, and publications, participants will compare and contrast pedagogical practices and connect them to learning theories applicable to STEM education. Resources that can support educator learning will be explored, as will multi-disciplinary STEM pedagogical practices. Scenarios associated with contemporary learning practices will be problematized and discussed to link these with their own practices and with learning theories. Participants will begin to understand how knowledge and use of learning theories can enhance their STEM educational practices by investigating or extending some aspect of these in light of learning theories. The outcomes of their investigation will enable participants to evaluate how these learning theories can be used to shape current and future practice.

### Assessment

- Assessment 1 – Presentation (10 minutes) – 40%
- Assessment 2 – Report (3000 words) – 60%

## ETM702 – Designing Contemporary STEM education programs

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Sandra Herbert*

*Cohort rule: Must be enrolled in E557*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including online sessions via CloudDeakin*

### Content

This unit awakens participants to STEM possibilities, opportunities, resources and processes. It raises awareness of contexts that can promote STEM experiences within the classroom and informal settings. STEM experiences associated with the creation of new ideas, development of insights, problem solving, modelling, design and the high level intellectual and affective engagement associated with them are examined. Differences and similarities between these in the different learning domains will be examined (e.g., construction of mathematical knowledge, science as human endeavour, engineering design processes, designing digital solutions). Participants select a learning context and design and trial a sequence of lessons/presentations based on a STEM experience. Participants may work as a team, or with others, depending on their role, and will invite colleagues to participate and trial and/or, observe and provide feedback. Participants will identify and/or create STEM resources and provide a rationale for their use in the classroom or informal setting. Participants will be expected to explore and critique STEM resources in addition to creating a portfolio of resources with rationale within a digital format (for example, a website).

### Assessment

- Assessment 1 – Design, implementation and evaluation of a STEM experience (2500 words) – 50%
- Assessment 2 – Digital portfolio of STEM resources (2500 words) – 50%

## ETM703 – Researching your practice as a STEM Educator and Leader

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Linda Hobbs*

*Cohort rule: Must be enrolled in E557*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and some scheduled collaborate sessions.*

*In-person attendance requirements: This unit includes a minimum of 35 hours of intensive classroom activity*

### Content

In this unit, participants critically engage with a learning environment, with colleagues' perspectives, and with the research literature, to formulate a question they want to explore. They collaborate with colleagues to design and undertake a research project that involves collecting and analysing data to generate evidence aimed at transforming their practice. In doing so, they will develop their skills in working collaboratively and work towards developing and sustaining a community of practice. They will follow an appropriate research approach and processes to complete this project. The intention is that participants will share their findings with a broader audience beyond their own organisation (e.g. School/organisation networks, professional networks or targeted conferences).

### Assessment

- Assessment 1 – Research Proposal (1500 words or equivalent) – 30%
- Assessment 2 – Research Report (3500 words or equivalent) – 70%

## ETM704 – Supporting and Leading Development of Communities of STEM Practice

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Wendy Jobling*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials.*

*In-person attendance requirements: This unit includes a minimum of 35 hours of intensive classroom activity*

### Content

This unit draws on contemporary research into collaborative learning to analyse and synthesise prevailing perspectives on effective models, and how this enhances the effective support for learning in context. This unit will raise participants' awareness of the extent and nature of support and collaboration in STEM at their school/organisation. Participants will critically examine relevant research and documentation to enhance their knowledge and understanding of possible models of collaborative practice. Using this knowledge they will start to build communities of STEM practice within and across their school/organisation for effective education of STEM. Participants will continue to develop and implement new elements of STEM practice and begin to engage and lead others in these practices and opportunities to enhance.

### Assessment

- Assessment 1 – Action Plan (2000 words) – 40%
- Assessment 2 – Progress Report (1000 words) – 20%
- Assessment 3 – Report on Outcomes (2000 words) – 40%

## ETP101 – Perspectives On Learning and Teachers’ Work

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrnambool, Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Lynette Longaretti*

*Campus contact: Peter O’Keefe (Burwood (Melbourne))*

*Lynette Longaretti (Waurin Ponds (Geelong))*

*Gaelene Hope-Rowe (Warrnambool)*

*Prerequisite: E200 students: Must have passed at least three units from EAD110, EAD111, EAD112, EAD113*

*Corequisite: Must be enrolled in E200 or E359*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

### Content

This unit introduces students to the nature of learning, teaching and the teaching profession. It considers major theoretical approaches to learning which will enable a critical perspective on the complexities of teaching.

As students transition toward becoming a teacher, they will consider how assumptions and beliefs associated with learning and teaching translate to the classroom. The unit will require students to individually and collaboratively consider teaching and learning within the context of the broader purposes of schooling. Students will be introduced to the Professional Portfolio where they will begin to collect evidence of their on-going professional learning.

Students are introduced to aspects of professional experience and make links to the Australian Institute for Teaching and School Leadership (AITSL) standards. Through observation and reflection students will consider how these standards may guide classroom practice.

### Assessment

- Assessment 1 – Reflective Response (1600 words) – 40%
- Assessment 2 – Analytical Essay (2400 words) – 60%

## ETP102 – Social Contexts of Education

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrnambool, Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Shaun Rawolle*

*Campus contact: Peter O’Keefe (Burwood (Melbourne))*

*Shaun Rawolle (Waurin Ponds (Geelong))*

*Terri Redpath (Warrnambool)*

*Prerequisite: For E359 students: ETP101. For E200 students: Must have passed at least three units from EAD110, EAD111, EAD112, EAD113*

*Corequisite: Must be enrolled in E200 or E359*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class per week, 1 x 2 hour Seminar per week*

*Professional Experience: Students are also required to attend a 5 day professional experience placement*

### Content

This unit introduces students to some of the key social and political contexts of education in contemporary Australian society. The notion of ‘context’ will be unpacked at the local, school, national and global levels. The unit introduces some of the key conceptual tools of the field of sociology of education, such as ‘sociological imagination’ and ‘hidden curriculum’. Through a sociological lens, students will reflect upon the relationship between individuals and educational settings and the ways in which individuals’ cultural and social backgrounds shape the experience of education. They will examine and explore how education and schools might mediate and/or redress forms of social inclusion and marginalization by focusing on particular social issues that are pertinent in twenty-first century Australian society. Students undertake a 5 day professional experience placement in this unit, in which they will collect evidence about how social contexts of education shape life in schools, and make links to the Australian Institute for Teaching and School Leadership (AITSL) standards, in particular standard 1.

### Assessment

- Assessment 1 – Sociological imagination narrative (2000 words) – 50%
- Assessment 2 – Analysis of life in a school (2000 words) – 50%

### Hurdle requirement

Satisfactory completion of the professional experience placement is required in order to pass this unit.

## ETP200 – Classroom Relationships

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrnambool, Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Gaelene Hope-Rowe*

*Campus contact: Julie Arnold (Melbourne Burwood)*

*Di Toe (Geelong Waurin Ponds)*

*Prerequisite: ETP101 and ETP102*

*Corequisite: Nil*

*Incompatible with: ETP201*

*Scheduled learning activities – campus: 4 x 2 hour Class in week 1, 2, 3 and 11. 1 x 2 hour Seminar per week*

*Professional experience: Students will be required to complete a 10 day professional experience placement*

### Content

This unit aims to develop a strong understanding of how classroom relationships underpin classroom management and support positive behaviour for learning. It will examine a range of frameworks for supporting positive behaviour in educational settings and make links between these frameworks and theories of learning and motivation. The ways that learner characteristics, classroom and school context impact on classroom relationships and interact with these approaches to support positive behaviour will be explored in some depth. This unit will support the development of classroom communication skills in preservice teachers. Preservice teachers will explore ways of engaging parents in the education of their children and building relationships with families.

This unit includes a two week placement in schools and opportunities to reflect on classroom relationships and management so as to apply this knowledge to the development of a personal classroom management plan. The learnings and placement experience are designed to support the development of preservice teachers towards the APST with particular emphasis on Standards 3 and 4.

### Assessment

- Assessment 1 – Collaborative investigation of approaches to supporting positive behaviour (equivalent 1600 words) – 40%
- Assessment 2 – Personal Classroom Management Plan (2400 words) – 60%

### Hurdle requirement

Satisfactory completion of the 10 day professional experience placement is required in order to pass this unit.

## ETP300 – Educating Students with Additional Needs

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrnambool, Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Kim Davies*

*Prerequisite: Students in course version E359 (commence prior to 2017): ETP201. Students in course version E359 (commenced from 2017): ESM211*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour class per week, 1 x 2 hour seminar per week and online discussions on CloudDeakin*

*Professional experience: Students will be required to complete a 10 day professional experience placement*

### Content

This unit is designed to introduce students to the role of an inclusive educator, with specific reference to learners with 'additional needs'. This unit will involve in-depth and contextualized discussion of the ways learners with additional needs are 'known' in classrooms. It will explore labels and myths of learners with additional needs and introduce students to the Disability Standards for Education (2005) and the Disability Discrimination Act (1992). Students will explore the developmental framework of childhood and analyse 'how' and 'why' childhood development can be altered/adjusted. A range of additional needs including neurological disorders, behavioural conditions, attentional deficits, muscular – skeletal disorders, sensory impairments, and high intellectual potential will be introduced. Specific diagnosis such as the Autism Spectrum, ADHD, oppositional defiance, cerebral palsy, gifted learners, mild intellectual disability and muscular dystrophy will be explored. Students will discuss the impact of 'additional needs' on curriculum planning and child learning.

Teaching strategies, including working with specialists, community, and parents will be explored and evaluated to support curriculum development and interventions taught through the lens of the strengths based model of special education. This unit is designed around the APST, with particular emphasis on Standards 1 and 4. It includes a Professional Experience placement where preservice teachers will apply their learning in school contexts.

*Note: Commencing 2019*

## Assessment

- Assessment 1 – Seminar presentation with peers (1800 words or equivalent) – 40%
- Assessment 2 – Case study report from teaching placement (2400 words) – 60%

## Hurdle requirement

Satisfactory completion of the 10 day professional experience placement is required in order to pass this unit.

# ETP303 – Curriculum and Pedagogy

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrnambool (Geelong), Warrnambool, \*CBD*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Claire Charles*

*Prerequisite: Students in course version E359.4 (offering years 2012-2025): ETP301 or ETP300. Students in course version E359.5 (offering years 2017-): ETP300*

*Corequisite: Must be in course E359*

*Incompatible with: ETP302*

*Scheduled learning activities – campus: 1 x 1 hour class and 1 x 2 hour seminar per week*

*Professional experience: Students will be required to complete 10 placement days*

## Content

This unit introduces students to curriculum and pedagogy theory, and considers the role of teachers as curriculum workers.

Pre-service teachers will analyse a range of political, populist, and theoretical positions related to curriculum and pedagogy, and put forward their own aspirations as curriculum workers. They will investigate how to plan for student learning in light of leading theories about learning and student agency, and they will explore some key curriculum and pedagogical frameworks that are influential in schools both nationally and globally.

Pre-service teachers will utilise the diverse resources that students bring to plan for and implement effective teaching and learning by establishing challenging learning goals, effectively structuring and sequencing learning programs and choosing and using appropriate teaching strategies and resources.

They will examine why the rationale of any curriculum and pedagogical approach is central to all educational practice and they will design praxis to provide experiences which can be justified as offering educative value for all students in local and global contexts.

*Note: Commencing 2019*

*\* CBD refers to Institute of Koorie Education – Community Based Delivery*

## Assessment

- Assessment 1: (Group component) Inquiry Task, 1600 words, 40%
- Assessment 2: (Individual) Critical Evaluation of Curriculum and Pedagogy, 2400 words, 60%

## Hurdle requirement

Satisfactory completion of the 10 day professional experience placement is required in order to pass this unit.

# ETP400 – Assessment: Ways of Knowing Learners

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrnambool, Warrnambool (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Josephine Lang*

*Campus contact: Josephine Lang (Burwood (Melbourne))*

*Edwina El Hachem (Warrnambool (Geelong))*

*Vivienne Stevens (Warrnambool)*

*Prerequisite: ETP303*

*Corequisite: Must be enrolled in E359*

*Incompatible with: EEP401*

*Scheduled learning activities – campus: 1 x 1 hour Class per week and 1 x 2 hour Seminar per week when not on professional experience placement*

*Professional experience: Students will be required to complete a 20 day professional experience placement*

## Content

This unit will focus on the functions and roles of assessment in the process of learning and how it may be used to positively support learning. The unit will examine the complexity of assessment from multiple contexts such as international and national testing as well as the practices within the classroom.

Preservice teachers will review, refine and develop their knowledge and skills associated with being an assessment literate teacher, which will include, for example, to: critically reflect on the purposes and roles of diverse assessment strategies and their impacts on student learning processes as well as their influence on curriculum and pedagogical practices; understand how to record and represent students' assessment data; analyse and interpret diverse assessment data and how it informs learning and teaching; provide and analyse feedback on student learning; examine how to engage in classroom assessment practices in order to make consistent and comparable judgements of students' assessment tasks and the place of reporting on student learning.

This unit draws upon professional experience placements undertaken earlier in the course for the coursework and assessment tasks.

*Note: Commencing 2020*

### Assessment

- Assessment 1 – Diversity in Assessment: Analysing Functions & Roles (equivalent to 1600 words) – 40%
- Assessment 2 – Designing Assessment for Learning (equivalent to 2400 words) – 60%

### Hurdle requirement

Satisfactory completion of the professional experience placement is required in order to pass this unit.

## ETP401 – Assessment: Ways of Knowing Learners

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrnambool (Geelong), Warrnambool*

*Scheduled learning activities – campus: 3 x 3 hour Classes (Week 3, 6 & 9), 1 x 2 hour Seminar (Week 1, 2, 4, 5, 7, 8, 10), Whole day conference (Final assessment in Week 11)*

*Professional experience: Students will be required to complete a 20 day professional experience placement*

## Content

This capstone unit provides students with the opportunity to integrate their knowledge and skills with their teacher beliefs, values and practices from their course and professional experience. The students will complete a review of their studies and present their learning to the cohort in small groups. The capstone enables students to explicitly demonstrate what they have learned throughout their degree. They will: produce a critical reflection on their practice drawing on theoretical and practical knowledge and construct a showcase portfolio as further evidence of their own learning. The content prepares them for the transition to the workplace and the profession. The capstone requires students to select and design an investigation into a topic relevant to them as emerging professionals to support their ongoing engagement with the profession.

This unit includes a professional experience placement during which the pre-service teacher will: plan a unit of work/whole class program using an appropriate format for extended planning as discussed with supervising teachers; teach a whole class for at least two lessons a day leading to full control for an extended period; become fully involved in the life and operations of the school, as per a beginning teacher. At the conclusion of this placement, the supervising teacher will complete a report and indicate whether the pre-service teacher is 'Ready to Teach'.

## Assessment

- Digital Portfolio and Oral Presentation (3000 words or equivalent) – 60%
- Professional Development Project (2000 words or equivalent) – 40%

## Hurdle requirement

Hurdle: Satisfactory completion of the professional experience placement is required in order to pass this unit.

## Hurdle requirement

Satisfactory completion of the 10 day professional experience is required in order to pass this unit.

- Critical evaluation of teaching, learning and assessment materials from a literacy and numeracy perspective, including an examination of the language of texts and genres across different curriculum areas.
- The development of teaching strategies to discern and respond to the inherent literacy and numeracy demands and opportunities across the curriculum.
- The numeracy and literacy demands on teachers in their professional lives in areas such as planning, timetabling, assessment and reporting.
- Developing a whole school approach to literacy and numeracy.

*Note: Final year of offer 2019, students to contact Student Services [artsed@deakin.edu.au](mailto:artsed@deakin.edu.au).*

## Assessment

- Written assignment (2000 words equivalent) – 50%
- Written assignment (2000 words per person) – 50%

# EXC425 – Literacy and Numeracy Across the Curriculum

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrnambool (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Jude Ocean*

*Cohort rule: Must be enrolled in E377 or D351*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour Seminar per week (11 weeks)*

## Content

This unit includes:

- The nature of numeracy and the extent to which it encompasses not only mathematical concepts and skills (e.g. numerical, spatial, graphical, statistical and algebraic), but also mathematical thinking, general thinking skills, problem solving strategies and a deep understanding of the context within which these concepts and skills are to be applied.
- Language and literacy as social constructs. Theories of reading and writing processes; oral language and its importance in learning; teacher talk and its role in student learning; and second language learning and the second language learner.

# EXC440 – Teaching for Diversity

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Kim Davies*

*Cohort rule: Must be enrolled in D344 from 2005, or D351 from 2007 or currently enrolled D347 students*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour Class and 1 x 2 hour Seminar per week*

## Content

Teaching for diversity is a professional imperative and the responsibility of all teachers. The aim of this unit is to ensure that teacher education students develop understandings of and expertise in working with diverse student cohorts. It will develop their competency in designing appropriate pedagogies and curricula that attend to difference and will familiarise students with current policy initiatives and frameworks.

Specifically, the unit develops students' understandings of the complex and multiple ways in which cultural, class, gender and other differences are enacted in the secondary classroom.

The unit focuses on independent research and exploration of the ethical responsibilities that educators have to teach for diversity, and how curriculum, pedagogies and assessment approaches can address diversity.

*Note: \*2019 will be the final year of offer for this unit. Students to complete EDU301*

## Assessment

- Assessment 1 – Written response to key readings (2000 words) – 50%
- Assessment 2 – Independent research project (2000 words) – 50%

## EXC725 – Literacy and Numeracy Across the Curriculum

*Enrolment modes:*

*Trimester 1: Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Zara Ersozlu*

*Trimester 3 Unit Chair: Carly Sawatzki*

*Cohort rule: Must be enrolled in D303, D304, E760, E763 or E763T*

*Prerequisite: D303 and D304 students must have passed 24 credit points of study at levels 1, 2 & 3 with a minimum WAM of 60%, otherwise Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 scheduled one-hour online seminar per week*

## Content

This unit will enable students to have a clear understanding of the nature of numeracy and literacy. It emphasises that numeracy encompasses not only mathematical concepts and skills (e.g. numerical, spatial, graphical, statistical and algebraic), but also mathematical thinking, general thinking skills, problem solving strategies and the context within which these concepts and skills are to be applied. It features language and literacy as social constructs and addresses theories of reading and writing processes; oral language and its importance in learning; teacher talk and its role in student learning; and second language learning and the second language learner.

Teaching, learning and assessment materials from a literacy and numeracy perspective will be critically evaluated, including an examination of the language of texts and genres across different curriculum areas. Students will develop teaching strategies to discern and respond to the inherent literacy and numeracy demands and opportunities across the curriculum.

In addition, students will also identify and address the numeracy and literacy demands on teachers in their professional lives in areas such as planning, timetabling, assessment and reporting, and their role in developing a whole school approach to literacy and numeracy.

## Assessment

- Assessment 1: (Individual) – Online learning portfolio consisting of a number of written pieces in response to tasks detailed on the CloudDeakin site (3000 words) – 60%
- Assessment 2: (Individual) – A Cross-Curriculum Understanding of Teaching Literacy – 40%

## EXE723 – Curriculum and Assessment Design

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Scott Webster*

*Trimester 2 Unit Chair: Scott Webster*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Trimester 1: Burwood: 1 x 3 hour Class*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

## Content

This unit acknowledges that curriculum policy and hence curriculum design and implementation is not isolated from debates and influences of society's expectations, visions, hopes and politics. Therefore curriculum and assessment policy and design is situated within societal contexts, often managing conflicting tensions.

The unit focuses on examining broad theoretical ideologies or paradigms that shape the landscape of curriculum policy during contemporary history of education. The exploration of these theoretical perspectives examine the roles that society, educational researchers and philosophers, education systems and institutions, and the broader teaching community play in the interpretation and implementation of curriculum and assessment policy.

In particular, the unit will investigate the creative work of the teacher in curriculum and assessment design and planning. Furthermore, the unit will explore and challenge the theoretical perspectives and your teacher beliefs that inform your curriculum and assessment design.

## Assessment

- Assessment 1 – Theoretical exposition (2000 words) – 40%
- Assessment 2 – Curriculum or assessment design, analysis and critical reflection task (3000 words equivalent) – 60%

# EXE731 – Professional Learning and Development

*Enrolment modes:*

*Trimester 1: Cloud (online)*

*Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Cheryl Ryan*

*Trimester 2 Unit Chair: Gayle Jenkins*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

## Content

This unit explores a range of perspectives on theories that underpin the design of professional learning programs for educators and trainers in schools and workplaces. The intention is to build capacities around professional learning through reading literature in the field and engaging in critical reflection of professional learning programs. Through the learning involved students will become more self-sufficient in managing their personal professional learning and be prepared to contribute to the development of effective professional learning programs for themselves and for their work places.

The unit aims to support students to develop awareness of the centrality and significance of professional learning to every profession and every professional, provide opportunities to test assumptions and beliefs about Professional Learning within a conceptual framework that enables meaningful contributions to the field, connect with immediate work place needs and explore issues in a range of settings/context; and link theory and practice to professional learning contexts.

## Assessment

- Assessment 1 – An essay based on a critical review and analysis of the perspectives on professional learning introduced in the study materials and readings and a comparison with previous experiences of professional learning. Students must make effective use of the literature to support their writing – 50%
- Assessment 2 – For this assignment students prepare a comprehensive proposal for a professional learning program for their current or previous workplace which draws on the unit content and wider reading and demonstrates the understandings they have developed through interactions with of the unit content and fellow students – 50%

## EXE732 – Social Justice and Difference

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Wendy Kortman*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: EEI702*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly engagement with materials and responses in discussion forums.*

### Content

Educators are increasingly dealing with questions of difference in terms of their practice, their students and the diverse school communities in which they are situated. However, there are surprisingly few opportunities to reflect on and analyse the effects of these differences on educational practice. This unit engages students in a range of theoretical debates about social justice, difference, and the 'politics of identity'. In particular, it foregrounds theoretical engagements with questions linked to gender, sexuality, social class, race, ethnicity, disability and the intersections between them.

### Assessment

- Visual Media Journal (2500 words or equivalent) – 50%
- Critical Essay (2500 words) – 50%

### Hurdle requirement for E734 and E744SP students only:

Completion and documentation of 2 days of professional development relating to the Practicum Case Study.

Students who fail a hurdle requirement will be ineligible for a Pass Conceded grade for that unit and will receive a result of no more than 44% for that unit, waived under special consideration arrangements.

## EXE734 – New Technologies in Education and Training

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Glenn Auld*

*Trimester 2 Unit Chair: Mifrah Ahmad*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3-hour seminar per week for 6 weeks; 1 online learning activities (online discussions and other specified tasks) per week for 9 weeks; 3 x 1-hour video meetings (audio-recorded) across trimester. Self-managed online collaboration with small group across first four weeks.*

*Scheduled learning activities – cloud (online): 1 x online learning activities (online discussions and other specified tasks) for 9 weeks; 3 x 1-hour video meetings (audio-recorded) across the trimester. Self-managed online collaboration with small group across first four weeks.*

### Content

New technologies are widely used in schools, universities, vocational education and training, and workplaces, to support and enhance teaching and learning. New technologies also often form the focus of curriculum change and educational reform processes. This unit aims to assist students to enhance their professional practice by developing their understandings of issues that impact on the effective and inclusive use of new technologies in education through a critical examination of the research and professional literature in this area. Topics to be addressed in this unit include new approaches to curriculum and pedagogy (such as mobile learning and game-based learning), and considerations for inclusive practices (for example, in non-western contexts, in Indigenous contexts, and to support students with special needs).

In this unit students are immersed in a fully online learning environment which is used to create a personal experience of many of the issues addressed in the unit. All students are required to participate in online discussions.

### Assessment

- Assessment 1 (Group) – Curate Digital Learning Resources (2400 words) – 40%
- Paper on issues associated with the education use of new technologies (3600 words) – 60%

## FMB701 – Foundations of Materials Modelling

*Enrolment modes:*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Tiffany Walsh*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

### Content

This unit focuses on contemporary mathematical and analytical models, used to predict and interpret the behaviour of materials, including crystalline, amorphous and nanostructured materials, ranging from inorganic network solids to soft matter. Prediction and interpretation of structure/property relationships will be a chief focus, including a wide range of properties, such as mechanical response and transport properties.

### Assessment

- Three scientific reports (20% each) 60%
- Oral test 40%

## FMB702 – Advanced Materials Characterisation

*Enrolment modes: Trimester 1: Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Ross Marceau*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour class per week*

### Content

Unit FMB702 introduces students to the fundamental concepts and principles of state-of-the-art materials characterisation techniques for structural, mechanical and chemical investigation of materials on the macro, micro and nano scales. Examples of such techniques include electron microscopy, x-ray diffraction, atom probe tomography and nuclear magnetic resonance spectroscopy. The discipline specific knowledge and critical thinking skills explored and learned in this unit will aid students in developing research ideas and planning projects to undertake their own cutting edge research in the area of materials science.

### Assessment

- Literature review 20%
- Report 20%
- Learning folio 20%
- Critical reflection 40%

## FME801 – Electro materials Synthesis and Characterisation

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Dr Jenny Pringle*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Trimester 1: 3 hours per week*

### Content

This unit will teach the students about the synthesis and analysis of new electro materials, particularly focussing on those with known or emerging applications in energy and bionics.

On completion of the unit student will be able to:

- Prepare and characterise different classes of electro materials, such as conducting polymers, nanocarbons and electrocatalysts and appreciate how a materials properties change as its dimensions are reduced to the nanoscale.
- Apply the principles of electrochemistry and spectroscopy to assess the charge transport and physical properties of electromaterials.

- Demonstrate an understanding of the origin of photoactive behaviour in materials and the application of key analytical techniques.
- Critique the properties of presently used electromaterials and how these can be improved by materials design and modelling.
- Demonstrate an understanding of the synthesis, characterisation and properties of biomaterials, biopolymers, hydrogels and their integration with electromaterials for use in biomedical applications.
- Critically analyse the ethical implications of electromaterials research in the areas of energy and medicine.

### Assessment

- 30% written assignment
- 45% lab
- 25% test(s)

## FME802 – Electromaterials Fabrication and Application

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrn Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Dr Jenny Pringle*

*Prerequisite: FME801 – Electromaterials Synthesis and Characterisation*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Trimester 2: 3 hours per week*

### Content

This unit will teach students about the application of different electromaterials studied in FME801. They will also learn about the advanced fabrication techniques being developed that allow the combination and assembly of electromaterials into different devices and for rapid prototyping. This unit will teach the students about the application of a range of electromaterials in different technologies, from energy storage to solar fuel production to medical bionics.

On completion of the unit student will be able to:

- Apply the principles of photo/electrochemistry to the selection and use of materials for energy generation.
- Critique the design and assessment of electromaterials and/or their integration with biomaterials for selected energy and medical applications.
- Demonstrate an understanding of how materials such as biomaterials, biopolymers and hydrogels are developed as printable materials and bio-inks for additive fabrication processes.
- Apply the concepts of advanced materials nanofabrication and additive fabrication to the design of functional and 3D electromaterial structures for specific applications.
- Interpret data on electrochemical device performance and evaluate the limiting material properties.
- Critically analyse the ethical and public engagement implications of specific electrochemical device development

### Assessment

- 30% written assignment
- 45% lab
- 25% test(s)

## FMF801 – Advanced Fibre Science

*Enrolment modes: Warrn Ponds Campus*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Christopher Hurren*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour class per week*

## Content

FMF801 consists of the following modules:

### 1. Fibre Science of Natural, Man-Made and High Performance fibres (15hrs)

In this section the unit will introduce a number of different fibres from each of the three key areas and will discuss their key attributes including unique structure, physical properties and chemistry.

- Natural
  - Cotton
  - Wool
  - Silk
  - Bast
  - Coir
  - Mineral
- Natural material derived man made
  - Viscose/Lyocel/Tencel
  - Basalt/Slate
  - Glass
  - Polylactic acid
  - Algenate
- Synthetic man made
  - Polyester
  - Nylon
  - Polyacrylonitrile
  - Polypropylene
  - Polyethylene
- High performance man made
- Aramid
- UHMWPE
- PBO
- Carbon

### 2. Yarn Formation (15hrs)

In this section the unit will examine a number of the different yarn formation methods including preparation for spinning, staple spinning, extrusion of synthetic fibres and the production of carbon fibres.

- Preparation of raw fibres
- Types of spinning process
  - For Staple Yarn
- Ring Spinning
- Rotor Spinning
- Friction Spinning
- Self-Twist Spinning
- Electro Static Spinning
- Vortex Spinning
- Air Jet Spinning
- Twist Less spinning
  - For Filament Yarn
- Wet spinning
- Dry Spinning
- Melt Spinning
- Bi-Component Spinning
- Film Splitting Reaction Spinning

- For Integrated Multi-Component Yarns
  - Integrated Component Spinning
  - Cover Spun
  - Selfil Yarn Spinning
  - Acro Dynamic Spinning
- Twisting

*Note: This unit will introduce you to the world of fibres in order to understand the fundamental fibre structure, physics and chemistry. It will develop core knowledge of fibre science, with a detailed focus on the physics and chemistry of fibres and principles of yarn processing methods. This unit will cover a wide spectrum of fibres from natural – cotton, wool through to synthetic – polyester, nylon, polyethylene, polypropylene, polyacrylonitrile and high performance fibres – carbon, para-aramid, ultra-high molecular weight polyethylene. The knowledge and skills learned in this unit will assist you in developing deeper understanding of fibre and will enable you to develop research ideas and projects in the field of textile science and manufacturing.*

### Study commitment

Students will on average spend 150 hours over the trimester undertaking the learning and assessment activities for the unit. This will include a minimum of 35 hours of intensive classroom activity.

### Assessment

- 30% Literature review
- 30% presentation
- 30% Novel process involving a fibre
- 10% practicals

## FMM801 – Materials for Additive Manufacturing

*Enrolment modes: Trimester 1: Waurin Ponds (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Daniel Fabijanec*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 3 hour class per week*

## Content

Students will on average spend 150 hours over the trimester undertaking the teaching, learning and assessment activities for this unit. This will include 4 face-to-face contact hours per week (1x2 hour class and 1 x 2 hour seminar/workshop).

The classes will develop from the basic principles and underpinnings of material science. The accepted theory and principles will be covered and related to additive manufacturing. Appropriate case studies will be provided and future directions in additive manufactured materials development will be outlined. The classes will be recorded using the Echo system and saved to the cloud.

Workshops are aimed to encourage student interaction among their cohort and with a wider teacher base (demonstrators and other researchers). These are multi-functional, providing feedback and discussion on the summative assessment items, encompass student seminars, and demonstrations of equipment and techniques. Students will be expected to interact during classes and seminars. The classes will be aimed at generating curiosity and driving them to find out more during the workshops. Students will be required to share their experiences in relation to an objective-specific problem during workshop time.

*Note: FMM801 will introduce the student to the unique process-structure-property relationships displayed by additive manufactured metal alloys, polymers/composites and bio-materials. This unit will explain material selection principles applied to current materials for 3D printing and understand the motivations for the latest in alloy/material development for additive manufacturing. In the context of additive manufacturing, in-depth material science concepts will be covered and key advanced material testing and characterisation tools will be introduced.*

## Assessment

Two reports and associated oral presentations to be produced for 50% each.

## FMR801 – Rt1: Research Thesis 1

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong)*

*Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Professor Matthew Barnett*

*Trimester 2 Unit Chair: Professor Matthew Barnett*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Trimester 1, 2 and 3: At least 36 hours per week for full time study, with regular contact with the supervisors*

## Content

This unit entails independent research conducted individually under the guidance of supervisors. Students are required to work closely with advice from their supervisor for the duration of their candidature. The research project is to be undertaken over four trimester's fulltime duration. At the end of their study in this unit students will be required to complete a major research thesis, which gives them an opportunity to apply and present knowledge gained through their research investigation in a chosen field of study. Assessment of student learning will include the submission of a major thesis that will be assessed by at least two examiners.

On completion of the unit student will be able to:

- Apply expert scientific knowledge to the design, development and implementation of experiments and experimental
- Apply discipline knowledge and skills in authentic research environments individually or as a part of a
- Plan and execute a research project to demonstrate responsibility, personal accountability and reflective practice through achievement of anticipated
- Generate and evaluate complex ideas and concepts autonomously in a range of contexts including new and unknown situations to demonstrate professional
- Use creativity and judgement in the application of scientific methodologies to test and contest laws, principles and theories of

Present a well-rounded and justified argument through formulation of research questions, testing of hypotheses, analysis and experimentation of scientific evidence and discussion of findings.

## Assessment

Confirmation of Candidature 100%.

## FMR802 – Rt2: Research Thesis 2

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waurn Ponds (Geelong)*

*Trimester 2: Burwood (Melbourne), Waurn Ponds (Geelong)*

*Credit point(s): 4*

*EFTSL value: 0.500*

*Trimester 1 Unit Chair: Professor Matthew Barnett*

*Trimester 2 Unit Chair: Professor Matthew Barnett*

*Prerequisite: FMR801 – Research Thesis*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Trimester 1, 2 and 3: At least 36 hours per week for full time study, with regular contact with the supervisors*

### Content

- Plan and execute a research project to demonstrate responsibility, personal accountability and reflective practice through achievement of anticipated
- Generate and evaluate complex ideas and concepts autonomously in a range of contexts including new and unknown situations to demonstrate professional
- Use creativity and judgement in the application of scientific methodologies to test and contest laws, principles and theories of

Present a well-rounded and justified argument through formulation of research questions, testing of hypotheses, analysis and experimentation of scientific evidence and discussion of findings.

### Assessment

Submission of Thesis 100%.

## FMS001 – Ifm Level 1 Safety Unit

*Enrolment modes: Online unit. No lectures for this unit*

*Credit point(s): 0*

*EFTSL value: 0.000*

*Prerequisite: Enrolled student with the Institute for Frontier Materials*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): 45 Minutes*

### Content

FMS001 consists of four modules:

1. Introduction to general safety
2. Chemical and biological safety
3. Physical and electrical safety
4. Laser and radiation safety

Administrative staff must complete only the first module. Topics covered in the first module include, building evacuation in emergency, introduction to key staff at IFM, first-aid and medical emergencies, IFM facilities, safety legislations, and work safety assessments.

Modules 2, 3, and 4 explain the most common hazards in IFM labs and steps taken to minimise or eliminate the occurrence of these hazards. Storage of dangerous goods, transporting hazardous material, dangers of heavy equipment, risk control measures, and waste management are some of the topics covered in these modules.

*Note: FMS001 is a compulsory unit for all new staff and students intending to work at IFM. This unit is an introduction to general safety and will help to understand the importance and purpose of safety IN THE workplace. This unit serves as an induction to administrative staff and safety training for research staff and students.*

### Assessment

Assessment to measure the level of student's success in achieving learning outcomes, is done via multiple choice question tests (MCQ tests). To be eligible to obtain a pass, pupil must achieve a mark of at least 80% in the unit assessment.

Assessment weight percentage for each module is detailed below:

Module	Name	Multiple choice questions	Percentage
1	Introduction and general safety	10	40%
2	Chemical and biological safety	5	20%
3	Mechanical and electrical safety	5	20%
4	Laser and radiation safety	5	20%
	TOTAL NUMBER OF QUESTIONS	25	100%

## HAI010 – Academic Integrity

*Enrolment modes:*

*Trimester 1: Cloud (online)*

*Trimester 2: Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 0*

*EFTSL value: 0.000*

*Trimester 1 Unit Chair: Lynn Riddell*

*Trimester 2 Unit Chair: Lynn Riddell*

*Trimester 3 Unit Chair: Wendy Sutherland-Smith and Dionne Holland*

*Prerequisite: N/A*

*Corequisite: N/A*

*Incompatible with: STP050, AAI018, MAI010*

*Scheduled learning activities – cloud (online): This unit consists of approximately 3 hours of online learning experiences delivered through CloudDeakin. There are no classroom or scheduled learning activities. Students undertake independent learning activities at their own pace.*

### Content

The Academic Integrity Unit is a compulsory zero credit point unit in all Faculty of Health courses. The unit learning and assessment activities provide students with guidance on what constitutes academic integrity. It will allow students to develop knowledge, skills and good practice principles to avoid plagiarism and collusion and thereby maintain academic integrity.

### Assessment

Assessment Task 1: Online multiple-choice quiz.

### Hurdle requirement

To be eligible to obtain a pass in this unit, students must achieve 85% in the online quiz. Students are allowed unlimited attempts of the online assessment.

## HBS107 – Understanding Health

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Warrnambool, Waurn Ponds (Geelong), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Trish Taylor*

*Trimester 2 Unit Chair: Sonia Nuttman*

*Trimester 3 Unit Chair: Trish Taylor*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Online independent learning and 1x2 hour on campus seminar per week.*

*Scheduled learning activities – cloud (online): Online independent learning and 1x2 hour online seminar per week.*

### Content

This interdisciplinary unit examines a determinants approach to health and wellbeing, including: the complex range of interactions that influence the health of individuals and populations; the determinants of selected health issues in urban and rural Australia, as well as in global contexts, and explores a range of models and approaches and their impact on health outcomes.

Topics include: The concepts of health, the social determinants of health, health systems, the biological and environmental determinants, health promotion, indigenous health, settings for health, marginalised populations and global health.

### Assessment

- Assessment task 1: Managing My Career Written Report (1000 words) 25%
- Assessment task 2: A Health Plan Written Report (1600 words) 40%
- Assessment task 3: Group Oral Presentation: Health profile of an Australian Indigenous population group (10 minutes) 35%

## HBS108 – Health Information and Data

*Enrolment modes:*

*Trimester 1: Cloud (online)*

*Trimester 2: Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Shane Kavanagh*

*Trimester 2 Unit Chair: Justin Lawson*

*Trimester 3 Unit Chair: Jan Garrard*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: HNN108 and HPS104*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including weekly scheduled 1 hour online seminars*

### Content

This unit is intended to provide first year undergraduate students from all Schools across the Faculty of Health, as well as students from other faculties who elect to study HBS108, with the basic skills necessary to be consumers and ultimately providers of health research information. The unit comprises nine topics, covering: measuring health and disease in populations, introduction to qualitative research, study design, obtaining online health information, evaluating popular health claims, introduction to quantitative research, evidence based practice including critical appraisal.

### Assessment

- Assessment task 1: Assignment (800 words) 20%
- Assessment task 2: Assignment (1200 words) 30%
- Assessment task 3: Examination (2 hours) 50%

## HBS109 – Human Structure and Function

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), CBD\*, Waurm Ponds (Geelong), Warrnambool, Cloud (online)*

*Trimester 2: Burwood (Melbourne), Waurm Ponds (Geelong)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Craig Wright*

*Trimester 2 Unit Chair: Craig Wright*

*Trimester 3 Unit Chair: Giselle Allsopp*

*Campus contact:*

*Trimester 1:*

*Burwood (Melbourne): Daniel Belavy*

*Waurm Ponds (Geelong): Craig Wright*

*Trimester 2:*

*Burwood (Melbourne): Rhiannon Snipe*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: EEH103*

*Scheduled learning activities – campus:*

*Trimester 1 and Trimester 2 only:*

*2 x 1 hour classes per week (weeks 1–3 only)*

*1 x 1 hour seminars per week (weeks 4–11)*

*4 x 2 hour practical classes per trimester*

*1 x online module per week*

*Scheduled learning activities – cloud (online):*

*Trimester 1 and Trimester 3 only:*

*1 x online module per week*

*5 x 2 hour online seminars/workshops per trimester*

*(weeks 1, 3, 5, 7, 9)*

*6 x 1 hour “drop-in” sessions per trimester (hosted online in weeks 2, 4, 6, 8, 10, 11)*

### Content

This interdisciplinary unit provides an overview of the basic sciences of human anatomy and physiology, exploring issues of relevance to the health sciences. Specific topics to be addressed will include: organisation of the human body, outlining anatomical terms, chemical and structural bases of cell function, body tissues including integument, homeostasis and physiological control via neural and hormonal mechanisms that maintain a constant internal environment. Support and movement through an understanding of the musculo-skeletal system, and maintenance of key systems, including cardiovascular, respiratory, digestive, urinary and immune systems.

*Note: \*CBD refers to Institute of Koorie Education – Community Based Delivery*

## Assessment

- Assessment task 1: 3 x Online Quizzes 20%
- Assessment task 2: Case Base Learning assignment (Approximately 2000 words) (Plan: 5%; Final submission: 25%)
- Assessment task 3: Practical Portfolio (20%)
- Assessment task 4: End-Trimester Exam (1.5 hours) 30%

## HBS110 – Health Behaviour

*Enrolment modes:*

*Trimester 1: Cloud (online)*

*Trimester 2: Burwood (Melbourne), CBD\*, Warrnambool, Warrnambool (Geelong), Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Melissa Hayden*

*Trimester 2 Unit Chair: Melissa Hayden*

*Trimester 3 Unit Chair: Michael Barham*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): 1 x 2 hour class (online), 1 x 1.5 hour (online) seminar per week*

*IKE (CBD): Online independent and collaborative learning activities including fortnightly online workshops, as per Cloud (online) students' scheduled learning commitments. Students must also attend and participate in 2 x 5 day (10 days) intensives at the Institute of Koorie Education, Warrnambool (Geelong) Campus.*

*As a general rule, students should expect to allocate approximately 10 hours per week to each one-credit-point unit. For Cloud (online) students, this commitment will comprise 10 hours of private study per week, guided by the unit materials.*

*HBS110 is designed to provide you with flexibility in your learning experiences. Class recordings run for 2 hours. Recordings of each class (lecture) are available via the unit site accessed in Deakin Sync.*

## Content

This unit explores relevant health behaviour issues and their impact on an individual's health and wellbeing. These behavioural issues include: tobacco smoking, alcohol/drug use and abuse, healthy and disordered eating, weight management, engagement in exercise, managing stress, and managing chronic illness.

The unit examines the impact of socio-cognitive factors including self-efficacy and locus of control on behaviour change and how to harness this to enhance behaviour change and goal achievement. Further the unit discussed theoretical explanations of health behaviour and how they are applied to derive effective approaches to achieving behaviour change.

The unit examines the skills and principles of behaviour modification. Students undertake experiential and reflective learning approaches to develop and understanding of the process, challenges and skills involved in health behaviour change.

*Note: \*CBD refers to Institute of Koorie Education – Community Based Delivery*

Quota applies. Online teaching methods require internet access.

## Assessment

- Assessment task 1: 3 x health behaviour journal entries (800-1200 words per entry) 45%
- Assessment task 2: 10 x online quizzes 10%
- Assessment task 3: Multiple Choice Examination (2 hours) 45%

## Prescribed texts

## HBS300 – Ethics: Frameworks and Decisions

*Enrolment modes: Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Amie O'Shea*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities, including a minimum of 6 scheduled online seminars across the trimester*

### Content

The unit proceeds from the perspective that all decisions and actions in the health sector are impacted on by many frameworks. For example, ethics, legislation, personal needs organisational missions, and social context. The unit commences with discussions of complex decisions within different work settings, which often have ethical and legal elements in them. For example, conflict of duties and interest, duty to client, duty to colleagues, duty to disclose unprofessional conduct of colleagues.

Students will be introduced to different types of ethical approaches, with a view to providing a framework for exploring ethical issues. The relationship between personal and professional ethics will be examined and discussed in conjunction with professional accountability and practitioner autonomy. Throughout the unit students will be encouraged to critically reflect upon their own personal and discipline-related value systems and the value systems of the organisations with which they have frequent and significant contact. The unit concludes with an examination of strategies for ethical decision making in health services and the student's creation of a coherent ethical and values-based framework for their own use as a person with integrity operating in varied health roles.

### Assessment

- Assessment task 1: Completion of two activities (a. 1000 words, 25%, b. 760 words 19%) 44%
- Assessment task 2: Cloud (online) exercises and a journal 26%
- Assessment task 3: Pose an ethical argument on a topic of choice (1200 words) 30%

### Prescribed texts

## HBS340 – Interdisciplinary Health Study Tour

*Offering information: Not offered Trimester 3 2019, next offered Trimester 3 2020*

*Enrolment modes: Trimester 3: International study tour*

*Only available to Australian citizens. Students cannot receive a Student Grant to undertake a Mobility Project in a Host Location in which they have dual citizenship or residency rights.*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Lata Satyen*

*Prerequisite: Completion of at least eight credit points of study, including all core Level 1 units, in a course offered by the Schools of Psychology, Nursing and Midwifery, Health and Social Development, or Exercise and Nutrition Sciences.*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: During the study tour, positive participation in all activities is expected and at times the general rule of 10 contact hours per week for units may be exceeded for the actual study tour timeframe. This unit also requires students to be ambassadors for the Faculty of Health, Deakin University.*

### Content

This elective unit will provide second and third year students within the Faculty of Health the opportunity for interprofessional learning and intercultural pedagogy about health and health care systems from an international perspective. The unit will be conducted in the form of a study tour to a host country and is designed to provide students with the opportunity to enhance their understanding of cross-cultural health and care. Students will examine specific health conditions such as diabetes and post-traumatic stress from an interdisciplinary perspective, and consider how cultural issues impact on the presentation and treatment of these conditions. The study tour will engage students in a range of activities designed to link them with policy makers, health care workers, health consumers and health agencies in the host country. Students may also participate in the development of culturally-informed public health interventions during the study tour.

*Note: Applications for the 2018 Study Tour to Sri Lanka are now open and are due by Friday 11 May 2018 at the Deakin Abroad Applicant portal. The tour duration is two weeks (10–24 of November, 2018) conducted in Trimester 3, 2018.*

## Assessment

- Assessment task 1: Pre-departure Group Presentation (20 minutes total – 15 minute group presentation and 5 minutes for discussion) and Overview (1000 words) 30%
- Assessment task 2: Journal (2000 words) 40%
- Assessment task 3: Individual policy brief (1500 words) 30%

## HBS345 – Collaborative Practice in Healthcare

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Sherryn Evans*

*Cohort rule: Must be enrolled in course H326, H330, H355*

*Prerequisite: One of HNN122, HSO206, or HSW313*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 3 x 1.5 cloud (online) seminars across trimester. Dates to be advised at the start of the trimester.*

## Content

HBS345 is a Cloud (online) unit involving students from Nursing, Psychology, Occupational Therapy, Social Work, Optometry, Medical Imaging and Medicine.

In this unit, students are allocated in to interprofessional student teams. In these teams, they develop care plans for complex cases by participating in Blackboard Collaborate case conferences and by ongoing cloud based discussion to finalise the care plans.

Students also explore the key competency domains of collaborative practice such as role clarification, team functioning, collaborative leadership, interprofessional conflict resolution, interprofessional communication and patient-centred care, along with how their personality style impacts on their teamwork.

## Assessment

- Assessment task 1: Interprofessional team care plan development including Blackboard Collaborate case conferences, CloudDeakin discussions and finalised team care plans 45%
- Assessment task 2: Online Multiple Choice Quizzes 15%
- Assessment task 3: Reflective piece (1500 words) 40%

## HBS400 – Research Methods

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Lukar Thornton*

*Cohort rule: Only available to students enrolled in Faculty of Health Honours courses*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 3 hours of seminars per week or equivalent*

## Content

This unit aims to enable Honours students to develop:

- A deep understanding of the philosophies, ethics and principles of research;
- Knowledge of a range of research approaches;
- Skills in data management, methods and tools for research practice; and
- Skills in planning, implementing and reporting research studies.

The unit is constructed in four streams. All students must complete the compulsory introductory research stream which includes research paradigms, ethics and data management. Students must also select one elective stream of study of most relevance to their honours research discipline from the following i) Qualitative research ii) Quantitative research iii) Laboratory based experimental research iv) Medicine stream. Each of the elective streams provides students with the necessary methodological, technical and analytical skills and knowledge required for research practice.

## Assessment

- Assessment task 1: Compulsory stream: written assessment (1500 words) or equivalent 25%
- Assessment task 2: Compulsory stream: written assessment (1500 words) or equivalent 25%
- Assessment task 3: Elective: written assessment (3000 words) or equivalent 50%

## HBS745 – Collaborative Practice in Healthcare

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Catherine Ward*

*Prerequisite: HSW714 or HNM703*

*Corequisite: Nil*

*Incompatible with: HBS345*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 3 x 1.5 cloud (online) seminars across trimester. Dates to be advised at the start of the trimester.*

## Content

HBS745 is a Cloud (online) unit involving students from Nursing, Psychology, Occupational Therapy, Social Work, Optometry, Medical Imaging and Medicine.

In this unit, students are allocated in to interprofessional student teams. In these teams, they develop care plans for complex cases by participating in Blackboard Collaborate case conferences and by ongoing cloud based discussion to finalise the care plans.

Students also explore the key competency domains of collaborative practice such as role clarification, team functioning, collaborative leadership, interprofessional conflict resolution, interprofessional communication and patient-centred care, along with how their personality style impacts on their teamwork.

## Assessment

- Assessment task 1: Interprofessional team care plan development including Blackboard Collaborate case conferences, CloudDeakin discussions and finalised team care plans 45%

## HDS101 – Communication and Diversity

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waterfront (Geelong), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Kate Anderson*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: HDS715*

*Scheduled learning activities – campus: Online independent and collaborative learning activities, and a 2 hour face-to-face seminar each week.*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities, including a 2 hour online seminar each week.*

## Content

This unit examines the principles of effective communication and how these can be applied in a range of clinical and professional situations. The unit has a focus on communication with people with a disability, and those from diverse cultural and linguistic backgrounds. Students will learn about the process involved in spoken, written, and non-verbal communication, and the impact of communication partners and environments. They will examine communication issues specific to physical disability, autism spectrum disorder, brain injury, and vision/hearing impairment. Students will also practice applied communication skills including sign language, assertive listening, professional writing and communication resource development.

## Assessment

- Assessment task 1: Online multiple choice quiz 20%
- Assessment task 2: Reflective essay (1600 words) 40%
- Assessment task 3: Communication profile (1600 words equivalent) 40%

## HDS106 – Diversity, Disability and Social Inclusion

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Kate Anderson*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: HDS104*

*Scheduled learning activities – campus: Average of 2 hours each week on campus plus additional online learning experiences*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities, including a 2 hour online seminar each week*

### Content

Disability is part of the natural diversity of humankind. This unit explores the complex and dynamic interrelationships between people who have a disability and the society in which they live. Students learn about the different models and frameworks used in defining disability, and their impact on social structures and policy. The unit examines the mechanisms behind social inclusion and exclusion of people with disability, including structural, environmental, and personal influences, from childhood to old-age. Throughout the unit students practice applying inclusion philosophies such as Universal Design, to optimise inclusion across a range of participation settings (e.g., education, recreation, accommodation, sexuality, and family life). This is a level one unit in the People, Society and Disability major on the Bachelor of Health Sciences program. Students in other courses may study this unit as an elective.

### Assessment

- Assessment task 1: Online multiple choice quiz 20%
- Assessment task 2: Online roleplay (1600 words equivalent) 40%
- Assessment task 3: Multimedia presentation and annotated bibliography (1600 words) 40%

## HDS209 – Inclusive Services

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Linda Wilson*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: HDS102*

*Scheduled learning activities – campus: Weekly completion of a Learning module (1 hour online) and 2 hour seminar per week (On campus)*

*Scheduled learning activities – cloud (online): Weekly completion of a Learning module (1 hour online) and 1 x 2 hour scheduled online seminar.*

### Content

The primary focus of this unit is the identification and mapping, of individualised and inclusive services. The unit will introduce students to the service provision process while still maintaining a focus on the individual, using best practice examples. Several sociocultural contexts will be explored for example cultural differences as well as rural and remote services. Topics covered include the service provision process and key characteristics of inclusive services, for example independence and control, informed decision making, consent, capacity building, advocacy, power dynamics and the relationship between service providers and service users and individualisation through Family-centred and Person-centred approaches. Preparation for, and the impact of the NDIS. These will be discussed in the context of key life experiences of people with a disability, for example, individuals with complex mental and physical health needs, dementia and end of life decisions.

### Assessment

- Assessment task 1: Exercise (1400 words) 35%
- Assessment task 2: Team assignment (1400 words or equivalent) 35%
- Assessment task 3: 6 x seminar activities total 30%

## HDS210 – Diversity At Work

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Kevin Murfitt*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Average of 3 hours per week*

*Scheduled learning activities – cloud (online): 11 x 2 hour classes (recordings provided) and 10 x 1 hour online seminars*

### Content

The unit aims to provide students with an ecological framework with which to explore values and practices that promote diverse and inclusive workplaces. Students will be provided with information on models of best practice with particular emphasis placed on two groups traditionally marginalised from employment: older workers and those who have a disability.

Topics to be addressed in this unit include: demographic trends and implications for employment, diversity and organisations of choice, strategies for promoting organisational diversity, the concept of work ability and its importance for an ageing workforce, strategies for promoting work ability, equal opportunity, discrimination, multidimensional approach to assessment, transition to employment, job-match, job and work analysis and strategies that promote employer confidence with employees who have a disability.

### Assessment

- Assessment task 1: Weekly quiz (10 weeks x 3 marks) 30%
- Assessment task 2: Annotated bibliography (1200 words) 30%
- Assessment task 3: Assignment (1600 words) 40%

### Prescribed texts

Mor Barak, M. E. (2016). *Managing diversity: Toward a globally inclusive workplace*. 4th ed., Thousand Oaks, CA: Sage Publications

## HDS301 – The Inclusive Practitioner

*Enrolment modes: Trimester 1: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Linda Wilson*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Average of 3 hours per week*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 1 x 2 hour class per week (recordings provided) and a minimum of 3 online seminars*

### Content

This unit aims to provide students with knowledge and skills to work effectively with a range of contemporary practice approaches in the field of social inclusion and disability. Topics include: policies related to disability and inclusion; individualised services and funding; person-centred approaches; community inclusion; community capacity building and community development; and practices for working with Aboriginal and Torres Strait Islander people with disability, and with people with severe and profound intellectual disability (such as supported decision making). The unit also focuses on the National Disability Insurance Scheme and the opportunities it provides for changing all professions, services and the community at large to be more inclusive. The unit engages students to think about their own professional roles and discipline and to identify opportunities to utilise inclusive practice.

### Assessment

- Assessment task 1: Case study written assignment (1800 words) 45%
- Assessment task 2: Project proposal/funding submission – written assignment (2200 words) 55%

## HDS310 – Human Rights and Advocacy

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Kevin Murfitt*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Average of 3 hours per week*

*Scheduled learning activities – cloud (online): 11 x 2 hour classes (recordings provided) and 10 x 1 hour online seminars*

### Content

This unit aims to develop a human rights perspective and appreciate the role of advocacy for people with a disability in upholding their rights and achieving inclusion.

The unit content includes:

- Historical background to the development of human rights
- Description of different types of human rights
- Contemporary rights issues such as human rights legislation in Australia, and asylum seekers and refugees
- Human rights instruments that address rights for people with disability (all ages)
- Developing a human rights approach in practice
- Individual, systemic and self-advocacy
- Contemporary advocacy practices

### Assessment

- Assessment task 1: Assignment (1600 words) 40%
- Assessment task 2: Annotated bibliography (1200 words) 30%
- Assessment task 3: Case study (1200 words) 30%

### Prescribed texts

Ife, J. (2012). Human rights and social work: towards rights based practice, 3rd ed., Cambridge University Press.

## HDS730 – Disability and Inclusion: Contemporary Theory and Lived Experience

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Joanne Watson*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 5 scheduled online seminars*

### Content

This unit engages students in developing a comprehensive understanding about the way disability and inclusion are understood from a contemporary theoretical and policy context. Key conceptual models, international and national legal and policy frameworks are presented, critically examined and applied through examination of social inclusion in contemporary society. Knowledge developed by students in this unit is informed by research and the theory applied through an examination of the lived experience of disability.

### Assessment

- Assessment task 1: UNCRPD presentation (20 minutes) 40%
- Assessment task 2: Written paper (3000 words) 60%

## HDS731 – Planning for Inclusion Across the Life Course

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Patsie Frawley*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 5 scheduled online seminars*

## Content

An understanding of the theory and practice of inclusive and participatory individualised planning approaches with people with disabilities is developed in this unit. Key components underpinning effective planning with people with disabilities are presented including understanding complex communication needs, supported decision making, self-determination and knowledge of advocacy and self-advocacy. Students develop knowledge and skills in person centred and family centred planning approaches. These will be explored within an individualised funding context including an introduction to the current service and support landscape and a lifespan framework.

## Assessment

- Assessment task 1: Case study – critical issues in planning. Written paper (2500 words) 50%
- Assessment task 2: Case study – detailed individualised plan (2500 words) 50%

## HDS732 – Determinants of Health and Wellbeing in the Lives of People with Disability

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Angela Dew*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 5 scheduled online seminars*

## Content

A social determinants of health framework is presented in this unit to develop an understanding of the health and wellbeing status of people with disabilities across the life span. Students develop an awareness of best practice in promoting accessible and responsive services, programs and supports to address health inequities and to increase social and economic participation of people with disabilities. Women's health, sexual health, prevention of violence, abuse and neglect, mental health and key physical health challenges for people with disabilities will be explored using current research. Students will apply their knowledge through project based work.

## Assessment

- Assessment task 1: Ecological map 1 (individual) (2000 words) 40%
- Assessment task 2: Ecological map (population group) (3000 words) 60%

## HDS733 – Community Capacity Building – Theory and Practice for Inclusion

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Joanne Watson*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 5 scheduled online seminars*

## Content

Community development theory and practice as it is applied to disability and inclusion is the focus of this unit. Participation in the community and the development of accessible social, economic, and citizenship opportunities for people with a disability requires that mainstream society builds its capacity to include people with disability. Students will develop knowledge and skills in community engagement, inclusive consultation and research and cross sector collaboration. A critical analysis of barriers and solutions to participation and inclusion will underpin this unit.

## Assessment

- Assessment task 1: Inclusion audit (2000 words) 40%
- Assessment task 2: Inclusion strategy (3000 words) 60%

## HDS734 – Inclusive Design and Technology

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Joanne Watson*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 5 scheduled online seminars*

### Content

In contemporary society, design and technology provide multiple opportunities and mechanisms to break down barriers to inclusion for people with a disability. The application of design and technology to disability and inclusion is the focus of this unit. The unit will focus on how technology is designed and used to advance inclusive lives for people with disability, using a problem based learning approach.

Students will develop broad knowledge of design principles and technology particularly in relation to how they can be used to enhance participation, performance and social inclusion for people with disability. The unit will engage students' thinking and awareness broadly around what is possible in terms of inclusive technology and design for people with disability. The unit will introduce students to the application of generic technologies as well as dedicated and specialized assistive technologies (e.g. augmentative communication, computer access, environmental modifications, seating and wheeled mobility) in the lives of people with disability.

### Assessment

- Assessment task 1: Written paper – critical analysis of scenario (2000 words) 40%
- Assessment task 2: Online collaboration, problem solving (minimum 1000 words) 20%
- Assessment task 3: Presentation (15 minutes, 2000 words) 40%

## HDS735 – Inclusive Engagement: Advocacy and Participation

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Patsie Frawley*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 5 scheduled online seminars*

### Content

This unit engages students in developing a comprehensive understanding about the theory and practice of active engagement of people with disabilities in political and public life and how they have a say as citizens about their own lives and collective disability rights. The overarching focus of this unit will be Article 29 of the United Nations Convention on the Rights of Persons with Disabilities and how people with disabilities and disability organisations are enacting the right to 'have a say'. Contemporary research and models of advocacy and participation are presented and critically examined to identify core concepts, knowledge, policy and practice and applied through examples of lived experience of people with disabilities internationally.

### Assessment

- Assessment task 1: Individual presentation (1000 words) 20%
- Assessment task 2: Content review report – Student pairs (1500 words) 30%
- Assessment task 3: Individual paper (2500 words) 50%

## HDS736 – Disability Research – Inclusive Approaches

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Patsie Frawley*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Learning experiences are via weekly modules on CloudDeakin which includes readings, topic notes, learning activities, online discussion questions and a minimum of five online seminars during the trimester.*

*Scheduled learning activities – cloud (online): Learning experiences are via weekly modules on CloudDeakin which includes readings, topic notes, learning activities, online discussion questions and a minimum of five online seminars during the trimester.*

### Content

This is a core research unit for the Master of Disability and Inclusion. The unit engages students in developing an understanding of academic research including research integrity and ethics, the role of theory in research, qualitative, quantitative and mixed methods research and using inclusive and participatory research methods in research with people with disabilities and community partners. There is a focus on research translation to theory, policy and practice in disability.

### Assessment

- Assessment task 1: Quiz – research methodologies 20%
- Assessment task 2: Research project critique and review (2000 words) 40%
- Assessment task 3: Research proposal (2000 words) 40%

### Prescribed texts

Research design: qualitative, quantitative & mixed methods approaches/John W. Creswell & J. David Creswell

## HME401 – Medicine 4A

*Enrolment modes: Medicine Semester 1: Waurin Ponds (Geelong)^*

*Credit point(s): 4*

*EFTSL value: 0.500*

*Semester 1 Unit Chair: Karen Dwyer*

*Cohort rule: Available to H311 Bachelor of Medicine*

*Bachelor of Surgery students only*

*Prerequisite: Must have passed HME302*

*Corequisite: Nil*

*Incompatible with: Nil*

### Content

In Year 4 HME401, the majority of students continue a two-year clinical attachment to one of four clinical schools and continue their study of the four themes of the BMBS. During HME401, students will typically undertake the equivalent of 24 hours of clinical activity, 8 hours of formal teaching activities and 8 hours of private study each week.

The four themes of the BMBS continue in HME401. Teaching in the Knowledge of Health and Illness (KHI) and Doctor and Patient (DP) themes is fully integrated, comprising 75% of the Year 4 curriculum and assessment. During HME401, students undertake four 5-week rotations at hospitals and other sites attached to the clinical schools: Emergency Medicine, Aged Care/ Palliative Care/ Rehabilitation, Intensive Care/ Anaesthetics, and General Practice. The Disciplines of Pathology, Pharmacology and Imaging are integrated across all four rotations. Four rotations are completed in Semester 1 of Year 4 (HME401). The order of clinical rotations will vary for individual cohorts of students.

The Ethics, Law and Professionalism (ELP) and Public Health Medicine (PHM) themes each comprise 12.5% of the Year 4 curriculum and its assessment. Teaching in these themes is integrated into the clinical rotations with additional study modules addressing a range of thematic topics.

Students who have undertaken the Longitudinal Integrated Clerkship with the Rural Community Clinical School (RCCS) in Year 3 (HME301/302) will be based at hospital sites for HME401, and will undertake the same assessments as other students within the unit.

In order to comply with Commonwealth Department of Health requirements for rural clinical placements, at least 50% of students will need to complete at least 4 weeks of a dedicated rural attachment within their clinical years. For students attached to Geelong and Eastern Health Clinical Schools throughout Year 3 and 4, this is most likely to occur within the GP rotation in HME401 or the Elective/Selective/Pre-internship program in HME402. John Flynn Scholarship placements occurring outside of Deakin semester periods cannot fulfil these requirements.

Note: ^ Students enrol at Waurin Ponds (Geelong) but will be based at one of the following Clinical Schools; Eastern Health, Geelong, Rural Community, Warrnambool or Ballarat.

The fourth year of the Bachelor of Medicine Bachelor of Surgery course consists of two semester units of four credit points each (HME401 and HME402), which are combined into a single unit of eight credit points.

### Department of Human Services policy

In accordance with Department of Human Services policy\*, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course. Students who fail to obtain a Police Record Check prior to the commencement of clinical placement will not be able to undertake clinical placement. Students may also be required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience.

*\* Department of Human Services 2007, Service agreement information kit for funded organisations 2006–2009, State Government of Victoria, Melbourne, retrieved 19 September 2014.*

### Assessment

Student performance is assessed in a numerical scale of marks from 0-100% and graded as High Distinction (80% and over), Distinction (70%-79%), Credit (60-69%), Pass (50%-59%) or Fail (below 50%). There are a number of formative assessment tasks which do not contribute to the final mark.

Students are required to satisfactorily complete all rotations and must pass each theme, rotation and the HME401 OSCE.

Students are required to meet the attendance requirements of each of the four clinical rotations during HME401 and to demonstrate competence in clinical assessments and assessment tasks associated with the ELP and PHM themes during each rotation (see below).

Students who do not meet these requirements will be reviewed by the Academic Progress Committee, who may arrange support and/or further assessment and/or support as appropriate.

Rotation marks will be determined by combining results from intrarotational DP assessment, performance in rotation specific MCQs from the Year 4 Progress test and performance in rotation specific OSCE stations.

To pass the OSCE a student must pass a minimum of 7 out of 12 stations and an overall pass for the determined 12 station aggregate OSCE score. A pass in an OSCE station is defined as a score equal to or greater than the cut score for that station.

Students who do not achieve a pass score will be reviewed by the Academic Progress Committee. The Academic Progress Committee may consider further assessment. For further detail see the course progression rules.

### Ethics, Law and Professionalism

The ELP theme constitutes 12.5% of the marks for HME401. Assessment for ELP consists of:

1. Podcast (developed in pairs) discussing ethico-legal aspects of a clinical case (10 minutes, equiv. 1250 words per student, 50% of theme marks)
2. Satisfactory completion of the Professional Competence Process (hurdle requirement)
3. Discussion paper examining a reported case of a lapse in professionalism (1250 words, 50% of theme marks)

### Public Health Medicine

The PHM theme constitutes 12.5% of the marks for HME401. Learning in PHM will be assessed through a 1250 word written report (100% of total PHM mark).

### Doctor and Patient

The DP theme constitutes 37.5% of the marks for HME401. DP is assessed both within each individual clinical rotation (combined value of 20% of total DP mark) and by an Objective Structured Clinical Examination (OSCE) of material covered in HME301, HME302 and HME401 at the end of Year 4, Semester 1 (80% of the total DP mark). Intra-rotation assessment has four components, the weighting of which varies slightly between rotations:

#### a. 'Case Synthesis'

The precise format and weighting will vary between rotations and may take the form of long case presentations, case journeys, oral or written case commentaries or analyses.

### ***b. 'Clinical Skills Assessment'***

The precise format and weighting will vary between rotations and may take the form of a brief clinical examination, a focused presentation on a ward round, a brief history and clinical assessment of a patient in the mini-clinical evaluation exercise, (mini-CEX) format).

### ***c. 'Clinical Challenges'***

Skills or activities that are considered vital components of the rotation.

The OSCE at the end of Year 4 comprises multiple stations which assesses material covered in HME301, HME302 and HME401 (0.5 day clinical examination). Standard setting will be used to determine a pass score for each station and an overall pass grade. Students who fail the OSCE will be awarded a fail (N) grade for HME401. Students who fail will be required to repeat all components of Year 4.

## **Knowledge of Health and Illness**

The KHI theme constitutes 37.5% of the marks for HME401. A mark for HME401 will be awarded based on performance in a 3 hour MCQ summative Progress Test at the end of HME401. The Progress Test is a continuation of the assessment mode used in HME301/302. The Progress Test will assess material covered in the six Year 3 clinical rotations and the four Year 4, Semester 1 rotations. Standard setting will be used to determine a pass score on the Progress Test for students completing HME401. Pass scores will also be determined for each clinical rotation completed during HME401 and for Pathology, Pharmacology and Imaging by addition of marks for all questions relevant to that rotation or discipline.

Students who have been assessed as having failed the Progress Test will be considered as having an unsatisfactory performance and will be awarded a fail (N) grade for HME401. Students who fail will be required to repeat all components of Year 4. Students who are borderline will be reviewed by the Academic Progress Committee, who will arrange reassessment and/or support as appropriate.

## **Ethics Law and Professional Development**

The Ethics, Law and Professional Development theme constitutes 12.5% of the marks for HME401. Assessment for ELPD is preparation and participation in a hypothetical presentation, including a group task of 2500 word written submission (58%), participation in 4 interactive, online virtual simulations (MedeSims) for end-of-life communication (32%), seminar attendance with submission of answers to a number of short answer questions (10%) and completion of the Professional Competence Process (hurdle requirement).

## **Public Health Medicine**

The Public Health Medicine theme constitutes 12.5% of the marks for HME401. Assessment for PHM is integrated across two equally weighted written submissions totalling ~1250 words per submission (50% each).

## **Doctor and Patient**

The Doctor and Patient (DP) theme constitutes 37.5% of the marks for HME401. DP is assessed both within each individual clinical rotation (combined value of 40% of total DP mark) and by an Objective Structured Clinical Examination (OSCE) of material covered in HME301, HME302 and HME401 at the end of Year 4, Semester 1 (60% of the total DP mark). Intra-rotation assessment has three components, the weighting of which varies slightly between rotations:\*

### ***a. 'case synthesis'***

The precise format and weighting will vary between rotations and may take the form of long case presentations, oral or written case commentaries or analyses, presentations of pre-operative assessments, completion of hospital admission notes, mental state examination presentations, or completion of written or oral referrals of patients with multiple problems.

### ***b. 'clinical skills assessment'***

The precise format and weighting will vary between rotations and may take the form of a brief clinical examination, a focused presentation on a ward round, a brief history and clinical assessment of a patient in the mini-clinical evaluation exercise, (mini-CEX) format).

### ***c. 'log book and clinical activities form'***

Each student will be required to record clinical activities and procedures in a log book or specific rotation forms available on CloudDeakin during each rotation (for example, performing an electrocardiogram, inserting an intravenous line, attending operating or procedural sessions or participating in a multidisciplinary team meeting).

The Objective Structured Clinical Examination at the end of Year 4 comprises a multi station OSCE which assesses material covered in HME301, HME302 and HME401 (0.5 day clinical examination). Standard setting will be used to determine a pass score for each station and an overall pass grade. Students who fail the OSCE will be awarded a fail (N) grade for HME401. Students who fail will be required to repeat all components of Year 4.

## Knowledge of Health and Illness

The Knowledge of Health and Illness theme constitutes 37.5% of the marks for HME401. A mark for HME401 will be awarded based on performance in a 3 hour MCQ summative Progress Test at the end of HME401.

The Progress Test is a continuation of the assessment mode used in HME301/302. The Progress Test will assess material covered in the six Year 3 clinical rotations and the four Year 4, Semester 1 rotations. Standard setting will be used to determine a pass score on the Progress Test for students completing HME401. Pass scores will also be determined for each clinical rotation completed during HME401 and for Pathology, Pharmacology and Imaging by addition of marks for all questions relevant to that rotation or discipline.

Students who have been assessed as having failed the Progress Test will be considered as having an unsatisfactory performance and will be awarded a fail (N) grade for HME401. Students who fail will be required to repeat all components of Year 4.

Students who are borderline will be reviewed by the Academic Progress Committee, who will arrange reassessment and/or support as appropriate.

### Hurdle requirement

- Pass of each theme –DP, ELP, PHM and KHI including Progress Test pass
- Satisfactory completion of each of the four clinical rotations
- OSCE pass – 7 out of 12 stations and an overall pass

## HME402 – Medicine 4B

*Enrolment modes: Medicine Semester 2: Waurm Ponds (Geelong)^*

*Credit point(s): 4*

*EFTSL value: 0.500*

*Semester 2 Unit Chair: Karen Dwyer*

*Cohort rule: (Available to H311 Bachelor of Medicine Bachelor of Surgery students only)*

*Prerequisite: Must have passed HME401*

*Corequisite: Nil*

*Incompatible with: Nil*

## Content

HME401 and HME402 represents the fourth year of the Bachelor of Medicine Bachelor of Surgery course. It consists of two semester units of four credit points, which are combined into a single unit of eight credit points.

In order to comply with Commonwealth Department of Health requirements for rural clinical placements, at least 50% of students will need to complete at least 4 weeks of a dedicated rural attachment within their clinical years. For students attached to Geelong and Eastern Health Clinical Schools throughout year 3 and 4, this is most likely to occur within the GP rotation in HME401 or the Elective/ Selective/Pre-internship program in HME402. John Flynn Scholarship placements occurring outside of Deakin semester periods cannot fulfil these requirements.

*Note: ^Students enrol at Waurm Ponds (Geelong) but will be based at one of the following Clinical Schools: Eastern Health, Geelong, Rural Community, Warrnambool or Ballarat.*

The fourth year of the Bachelor of Medicine Bachelor of Surgery course consists of two semester units of four credit points each (HME401 and HME402), which are combined into a single unit of eight credit points.

### Department of Human Services policy

In accordance with Department of Human Services policy\*, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course. Students who fail to obtain a Police Record Check prior to the commencement of clinical placement will not be able to undertake clinical placement. Students may also be required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience.

*\* Department of Human Services 2007, Service agreement information kit for funded organisations 2006–2009, State Government of Victoria, Melbourne, retrieved 19 September 2014.*

## Assessment

Students are required to meet the attendance requirements of each of the elective/selective/pre-internship rotations during HME402 and to demonstrate competence in clinical knowledge, skills and professionalism. Each rotation is a hurdle and must be successfully completed to pass HME402. Student performance is assessed by successful completion of learning outcomes for each rotation as assessed by their clinical supervisor and the satisfactory completion of a report for the selective and elective rotations (maximum length 1000 words). As a hurdle requirement, a professionalism report must also be completed with the clinical supervisor during the pre-internship selective in addition to the prescribing skills assessment. There are no examinations.

Unsatisfactory performance in a selective can lead to a remedial placement(s) such as via a directed elective or selective placement. This is determined by the selective supervisor along with the HME402 Unit Chair and Academic Progress Committee. Students who do not meet the requirements listed above or whose performance is borderline will be reviewed by the Academic Progress Committee, who will arrange redirected placements or rotations/or support as appropriate.

### Hurdle requirement

- Satisfactory completion of each of the elective/selective/pre internship rotations
- Professionalism report

## HME703 – Clinical Leadership 3: Clinicians Consumers and Their System

*Enrolment modes: Trimester 3 2018: Residential*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair:*

*Cohort rule: Must be enrolled in H502 Graduate Certificate of Clinical Leadership or H602 Graduate Diploma of Clinical Leadership or H702 Master of Clinical Leadership, other students wanting to enrol please contact [medinfo@deakin.edu.au](mailto:medinfo@deakin.edu.au).\**

*Prerequisite: Nil*

*Corequisite:*

*Incompatible with:*

*Scheduled learning activities – campus:*

*Scheduled learning activities – cloud (online):*

## Content

This unit aims to provide students with a comprehensive understanding of the delivery arm of the Australian healthcare system – the clinical context and its relationship with the consumer context. In addition, the unit will consider the policy and strategic issues currently facing those who provide and receive healthcare within the Australian healthcare system. Clinical leadership will be further expanded in the context of the clinical engagement. Clinical leadership will be introduced in the context of a wider discussion about leadership of systems. Students will hear from industry and experts and will have an opportunity to explore contemporary clinical service level leadership challenges through group based interactions and assessment task based in a personal clinical improvement project.

*Note: \* This unit is suitable for clinicians in one of the registered professions who wish to develop their skills in clinical leadership. Clinicians who are not from one of the registered professions should contact the Course Director, who has discretion to consider enrolment of other professions.*

*^ There are additional fees associated with the residential. For more information on fees please refer to: [deakin.edu.au/medicine/study-options/master-of-clinical-leadership](http://deakin.edu.au/medicine/study-options/master-of-clinical-leadership)*

## Assessment

- Assessment task 1: Written assignment (2500 words) 50%
- Assessment task 2: Individual presentation (20 minutes) 35%
- Assessment task 3: Written reflective piece (750 words) 15%

## HME704 – Fundamentals of Health Informatics

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Cloud (online)*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Paul Cooper*

*Trimester 2 Unit Chair: Paul Cooper*

*Trimester 3 Unit Chair: Paul Cooper*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: HBS703*

*Scheduled learning activities – campus: A minimum of 20 hours of intensive classroom activity.*

### Content

Healthcare delivery in this day and age has the potential to be enhanced by digital technology. But successful implementations of digital systems require a holistic approach that encompasses the human aspects of usability of systems, avoidance of risk with privacy and security issues, overcoming problems of incompatible systems and obtaining best value for money out of the capabilities available

This unit aims to introduce students to the fundamental theories and concepts underlying health informatics and introduces and explores the impact of the Information Technology (IT) on the delivery of health care and services. In addition to developing a solid grounding in health informatics, students will acquire the knowledge and skills required to critically evaluate the myriad of solutions now being designed for healthcare contexts as well as understand key barriers and possibilities of using new technologies including connected devices, advanced analytics, AI and mobility-enabled solutions in healthcare and mobile technology.

### Assessment

- Assessment task 1: Online Quizzes (5 across trimester) 10%
- Assessment task 2: Case Summaries (4 case studies x 500 words each) 40%
- Assessment task 3: Research Report (3000 words) 50%

### From Trimester 3, 2019

- Assessment task 1: Online Quizzes (5 across trimester) 10%
- Assessment task 2: Case Reports (3 case studies x 650 words each) 35%
- Assessment task 3: Research Report (3000 words) 55%

## HME705 – Hospital Financing

*Enrolment modes:*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: John Rasa and Scott Bennett*

*Cohort rule: This unit is only available to students enrolled in H578 – Graduate Certificate of Hospital Administration*

*Prerequisite: N/A*

*Corequisite: N/A*

*Incompatible with: N/A*

*Scheduled learning activities – cloud (online): The unit is delivered as a FutureLearn program made up of five credit bearing courses that are released progressively across the trimester. Students will, on average, spend 150 hours over the trimester undertaking the learning and assessment activities for the unit. Students will engage in online independent and collaborative learning activities, including five scheduled online seminars. Open to anyone, available 24/7 and accessible by mobile, tablet or desktop, Deakin's courses on FutureLearn fit study around your life. Learn from Deakin's best educators and connect with others in an enjoyable, social environment.*

### Content

The financing of hospitals is a critical element in delivery of health services, reducing barriers for access to healthcare and attaining improvement in health outcomes. By undertaking this unit, you will develop knowledge and skills in raising funds for hospital service delivery, an understanding of the bodies responsible for hospital funding and the basis of allocating funds for hospital services. The unit will also examine the different means through which countries finance their hospitals.

While using specific examples from Australia, UK, USA, Singapore, China and India, HME705 will also describe the principles and practice of healthcare financing more broadly to provide students with a general orientation to hospital financing and budgeting mechanisms.

HME705 adopts an interactive approach through strategically placed seminars and discussion forums, case studies and authentic assessments to ensure practicality and industry relevance of the unit content and outcomes. Upon completion of the unit, students will understand how hospital services are financed through different mechanisms and why hospital financing is a critical element for viable health service delivery.

*Note: New unit 2019*

## Assessment

- Assessment task 1 (individual): Case study analysis (1000 words) 25%
- Assessment task 2 (group): Preparation of a hospital service budget (1000 words) 25%
- Assessment task 3 (individual with peer feedback): Preparation of a business case (3000 words) 50%

## Prescribed texts

Relevant resources and links to external material will be included in the cloud site.

# HME706 – Fundamentals of Digital Health in Hospitals

*Enrolment modes:*

*Trimester 1: Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Imran Muhammed*

*Trimester 3 Unit Chair: Paul Cooper*

*Cohort rule: This unit is only available to students enrolled in H578 – Graduate Certificate of Hospital Administration*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: HBS703*

*Scheduled learning activities – cloud (online): Learning experiences are via FutureLearn.*

*Regular online seminars and discussion.*

*Students will on average spend 150 hours over the trimester undertaking the teaching, learning and assessment activities for the unit.*

## Content

Digital technology is transforming healthcare with the potential to revolutionise information access, management and use in hospitals. The ability to derive meaningful benefits from digitisation of hospitals is a focus of hospital administrators, clinicians and informaticians and will become increasingly more important as the capabilities and impacts of digital healthcare continue to expand.

In this unit you will explore the fundamental concepts, principles and theories which underpin digital healthcare in hospitals.

You will critically analyse the problems and challenges of digital information, systems and solutions in hospitals including cost, usability, privacy and security.

You will examine critical success factors when implementing and delivering hospital services using digital information systems including the value of co-design of systems.

You will investigate current and emerging digital technology and solutions and consider how to address a problem/s or opportunity in a particular hospital context based on the understanding you have gained throughout the trimester.

## Assessment

- Assessment Task 1: Case study analyses and review (800 words) 15%
- Assessment Task 2: Case study analysis (1200 words) 30%
- Assessment Task 3: Report (3000 words): 55%

# HME707 – Hospital Operations

*Enrolment modes:*

*Trimester 1: Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: John Rasa*

*Trimester 3 Unit Chair: John Rasa*

*Cohort rule: This unit is only available to students enrolled in H578 – Graduate Certificate of Hospital Administration*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Learning experiences are via Future Learn.*

*Approximately 150 hours across the trimester, including online materials, readings, online discussions, assessment tasks and at least four online seminars via Bb Collaborate Ultra.*

## Content

This unit explores hospital operations and presents strategies, concepts and methods that can improve the delivery of patient services by increasing efficiency and effectiveness. By providing a toolkit for better understanding and managing queueing, scheduling, capacity planning and process design, this unit equips graduates to seek out, analyse and solve the many causes of hospital delays. By using real world examples that situate hospital operations within the broader health sector and budgetary contexts, the unit will develop your capacity to apply theory, methods and tools to hospital operations both in Australia and internationally.

*Note: You will study this unit via the FutureLearn online learning platform. Learn more about studying through Future Learn.*

## Assessment

- Assessment task 1: (individual): Review of patient flow: Case study analysis (1000 words) 25%
- Assessment task 2: (individual): Application of queueing theory: Numerical exercise (200 words + calculations) 10%
- Assessment task 3: (Individual with peer review component): Improving patient experience: Action plan (600 words) 20%
- Assessment task 4: (individual): Hospital operations: Summative report (2000 words) 45%

## HME710 – Health Management Practicum

*Enrolment modes:*

*Trimester 2: Burwood (Melbourne), Cloud (online)*

*Trimester 3: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Sandeep Reddy*

*Trimester 3 Unit Chair: Sandeep Reddy*

*Cohort rule: Must be enrolled in M703 to enrol in this unit*

*Prerequisite: Completion of at least 10 units from the MBA (Health Management), of which at least 4 must be 'H' coded.*

*Corequisite: Nil*

*Incompatible with: MWL701, MWL702, MWL703, MWL704*

## Content

This unit provides students with an opportunity to demonstrate the application of knowledge and skills acquired in their course while developing further skills by undertaking a project located at a host workplace within the health sector. Students identify and negotiate a specific issue in the host workplace, use skills gained from previous units to explore and analyse the issue, and propose a solution. It develops skills in problem identification, research, information gathering, analysis, project management, negotiation and communication. Students who are currently working within the health sector may apply to undertake the Health Management Practicum in their usual place of work. Where appropriate, the Practicum may be undertaken as a team.

The unit requires approximately 120 hours (unpaid) work in the host organisation and approximately 25 hours work on assessment tasks. The Practicum does not normally involve any patient interaction and does not require AHPRA registration although this might be a requirement of some projects with specific organisations. Similarly, some projects could require a Criminal Records Check, a Working with Children Check and/or a non-disclosure agreement.

*Note: New unit 2018*

Limited preapproved placements are available for enrolled students but the selection process is competitive.

Placements in self-selected organisations need to meet Unit placement criteria.

Please contact the Unit Chair to enrol into this unit and discuss details of your placement

## Assessment

- Assessment task 1: Practicum Project Proposal (1000 words) 20%
- Assessment task 2: Reflective journal (1000 words) 20%
- Assessment task 3: Post-placement report (3000 words) 60%

## HME711 – Health Law and Ethics

*Enrolment modes:*

*Trimester 2: Cloud (online)*

*Trimester 3: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Evie Kendal*

*Trimester 3 Unit Chair: Dominique Martin*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1–2 online modules per week and 1 x 2 hour interactive seminar on campus per week for ten weeks*

*Scheduled learning activities – cloud (online):*

*Trimester 2: 1 x 2 hour seminar (equivalent) per week.*

*Independent and collaborative learning activities include 3 scheduled consultations throughout trimester conducted either on campus or online, as appropriate*

*Trimester 3: 1–2 online modules per week, 10 interactive online workbooks, and 3 scheduled online consultations*

### Content

The unit aims to equip students with the skills to manage ethical and legal issues that may arise in the context of health service delivery in Australia. It presents an overview of current legislation governing Australia's multifaceted healthcare system and of contemporary ethical issues in health service delivery. Students in the Unit will examine the application of legal and ethical principles in the context of operational decisions in healthcare. Students will be introduced to the underlying concepts, values, and principles of health law and ethics, and learn to apply these in the analysis of issues and in the resolution of dilemmas in professional decision-making and policy-making. Topics covered will include ethical theory and Australian health law; confidentiality, privacy and consent; justice in resource allocation; professional issues such as conflicts of interest, competency, and reporting obligations; complaints, negligence, and liability; management of novel or emerging ethicolegal issues; professional boards and ethical governance mechanisms.

### Assessment

**Trimester 2:**

- Assessment task 1: Analysis of an ethicolegal issue in health service delivery (2250 words) 45%
- Assessment task 2: Professional education ethicolegal resource (1250 words) 25%
- Assessment task 3: Contributions to ethicolegal discussions on CloudDeakin (1500 words) 30%

**Trimester 3:**

- Assessment task 1: Professional education ethicolegal presentation (1250 words equivalent) 25%
- Assessment task 2: Contributions to ethicolegal discussions on CloudDeakin (1500 words) 30%
- Assessment task 3: Analysis of an ethicolegal issue in health service delivery (2250 words) 45%

### Prescribed texts

(Health law in Australia. 3rd Edition. McDonald FJ, Willmott L, editors. Lawbook Company; 2018)

## HME712 – Healthcare Operations

*Enrolment modes:*

*Trimester 1: Cloud (online)*

*Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Sandeep Reddy*

*Trimester 2 Unit Chair: Sandeep Reddy*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Learning experiences are via CloudDeakin. Online independent and collaborative learning activities including 3 scheduled online seminars will be conducted during the trimester. This unit will involve 150 hours in total including self-directed learning and directed teaching (contact hours about 5 hours per week). All work will be presented online. Students are expected to engage with weekly online discussions.*

## Content

This unit explores healthcare operations and presents strategies, concepts and methods that can improve the delivery of healthcare by increasing efficiency and effectiveness. By providing a toolkit for better understanding and managing queueing, scheduling, capacity planning and process design, this unit equips graduates to seek out, analyse and solve the myriad causes of delays. By using real world examples that situate healthcare within a broader health sector and budget context, the unit equips students with the capacity to apply theory, methods and tools to healthcare in Australia and internationally.

*Note: New unit 2017*

## Assessment

- Assessment task 1: Case Study Analysis (1000 words) 25%
- Assessment task 2: Numerical Exercise (Calculation + 200 words) 10%
- Assessment task 3: Summative Report (2000 words) 45%
- Assessment task 4: Contribution to Online Discussion topics (no word limits) 20%

## HME713 – Clinical Governance

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Sandeep Reddy*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: HNN749*

*Scheduled learning activities – cloud (online): A minimum of 3 online synchronous interactive seminars will be conducted during the trimester.*

## Content

The English NHS and the Australian Council of Healthcare Standards defines clinical governance as 'The framework through which health care organisations are accountable for continuously improving the quality of their services and safeguarding high standards of care by creating an environment in which excellence in clinical care will flourish'. HME713 has incorporated this definition as a defining theme in the development of its content.

HME713 covers the theories behind, and processes involved in, setting up a clinical governance framework. The unit adopts an interactive approach through strategically placed classes and discussion forums, case studies and authentic assessments to ensure practicality and industry relevance of the content and outcomes. Upon completion of the unit, students will have the necessary knowledge to implement aspects of clinical governance in order to carry out audits, adhere to the tenets of evidence-based medicine, deal appropriately with adverse events and use technology to minimise patient safety-related risks.

*Note: This unit is replacing HNN749 as a core unit in the M703 MBA (Healthcare Management) from Trimester 1 2019 onwards*

## Assessment

- Assessment task 1: Case Study Analysis (1500 words) 30%
- Assessment task 2: Clinical Audit Report (500 words) 10%
- Assessment task 3: Clinical Governance Framework (3000 words) 60%

## HME714 – Hospital Clinical Governance

*Enrolment modes:*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Scott Bennett*

*Cohort rule: This unit is only available to students enrolled in H578 – Graduate Certificate of Hospital Administration*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Students will on average spend 150 hours over the trimester undertaking the learning and assessment activities for the unit. Students will engage in online independent and collaborative learning activities, including four scheduled online seminars.*

## Content

This unit explores the concept of clinical governance as it applies to hospital environments and presents strategies, concepts and methods that can improve the quality of acute care through evidence-based approaches. Clinical Governance is a key driver of quality improvement and corporate responsibility in hospitals. Over many years and as the complexity of care has increased, reported safety and quality related incidents in hospitals have increased. The causes of these incidents may vary from equipment failure, errors of judgement, inadequate training and systems. Clinical governance has been found to be effective in mitigating, preventing and managing adverse incidents in hospitals when appropriately implemented. We will review different clinical governance theoretical frameworks and implementation approaches and importantly, how they contribute to creating a continuous quality improvement environment in hospitals.

*Note: You will study this unit via the FutureLearn online learning platform. Learn more about studying through FutureLearn.*

## Assessment

- Assessment task 1: (Individual) Case Study Analysis (1500 words) 30%
- Assessment task 2: (Group) Clinical Audit Report (1000 words) 20%
- Assessment task 3: (Individual) Clinical Governance Framework (2500 words) 50%

## HME803 – Clinical Anatomy Investigation

*Enrolment modes:*

*Trimester 1: Waurin Ponds (Geelong)*

*Trimester 2: Waurin Ponds (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Glenn Guest*

*Trimester 2 Unit Chair: Glenn Guest*

*Trimester 3 Unit Chair: Glenn Guest*

*Cohort rule: Unit only available to students enrolled in H801 Master of Surgical Research*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Students will spend approximately 220 hours, across the trimester, on their research, laboratory investigations and assignment completion*

## Content

This unit will provide an introduction to the process of undertaking a research study in surgery. Students will identify a key question, or series of questions, relating to a specific aspect of human anatomy of their choosing. They will then either carry out an extensive review of the anatomical literature, or undertake a more limited review of the literature and collect a limited amount of anatomical data, either through dissection or through observation in the operating theatre, thus extending the understanding of the area through critical evaluation and interpretation. The final output will be a dissertation, detailing the findings of this research and articulating its significance to the surgeon. Other assessment tasks in the unit are designed to align with and, contribute to, the achievement of this endpoint.

## Assessment

- Assessment task 1: Project outline and proposal (1500 words) 10%
- Assessment task 2: Literature review and dissertation plan (4000 words) 30%
- Assessment task 3: Final dissertation, incorporating the updated literature review, (7000 words) 60%

## HME805 – Research Project in Surgery

*Enrolment modes: Quarters 1–4: Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Cohort rule: This unit is only available to students enrolled in H801 – Master of Surgical Research*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Students will spend approximately 440 hours, across each trimester, on their research, laboratory investigations and assignment completion*

## Content

This unit will provide the opportunity for students to undertake a significant, novel, independent research study in the medical speciality of surgery. Students will usually be working or training in the field, or preparing to undertake training in the field. With the help of their supervisor, they will identify a key issue in the field, design a study to address the associated research question(s) and carry out the study.

The main student output will be a thesis, detailing the findings of their research, articulating its significance to the surgeon and demonstrating the student's capacity to communicate the significance to both an expert and broader audience. Other assessment tasks in the unit align with and, contribute to, the achievement of this final outcome.

*Note: Students to contact a student advisor to assist with enrolling in this unit*

Students are advised that, where possible, they should endeavour to complete HMH800, HMH810, HMH811 and HME803 (Clinical Anatomy Investigation) prior to commencing this unit. However, it is acknowledged that this particular sequencing of units may not always be practical or possible.

Supervisors and students must also ensure that they have obtained ethics approval for the project before enrolling in this unit.

### Assessment

- Assessment task 1: Confirmation Process (30 minute seminar presentation and 30 minute panel meeting) 10%
- Assessment task 2: Thesis (approximately 30,000 words) and skills performance during research work 60%
- Assessment task 3: Seminar Presentation (45 minutes) 30%

### Hurdle requirement

Successful completion of the Confirmation Process is a Hurdle requirement.

## HME806 – Research Project in Surgery

*Enrolment modes: Quarters 1–4: Waurn Ponds (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Cohort rule: This unit is only available to students enrolled in H801 – Master of Surgical Research*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Students will spend approximately 440 hours, across each trimester, on their research, laboratory investigations and assignment completion.*

## HME911 – Medicine 1A

*Enrolment modes: Medicine Semester 1: Waurin Ponds (Geelong)*

*Credit point(s): 4*

*EFTSL value: 0.500*

*Semester 1 Unit Chair: Jacqueline Savard and Janet McLeod*

*Cohort rule: This unit is only available to students enrolled in H911 – Doctor of Medicine*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: HME101*

*Scheduled learning activities – campus: Students are expected to attend all seminars, classes, clinical skills and problem based learning activities which will typically include the equivalent of 40 hours per week for the duration of semester incorporating clinical activities, formal teaching, personal reflection and self-directed learning.*

### Content

HME911 represents Semester 1 of Year 1 of the Doctor of Medicine (MD) course and consists of a single unit of four credit points. The unit is structured in two blocks, Human Biology and Infection, Defence and Repair, and within each block the themes of Medical Sciences and Clinical Practice, Public Health Medicine, and Ethics, Law and Professionalism are discussed. Students will also undergo a series of clinical placements in the clinical environment.

## Laptop computer requirement

Students enrolled in the MD require a wireless-enabled, personal laptop computer to undertake scheduled learning activities. Wireless access to the Deakin network is available within the teaching spaces of the Deakin Medical School.

Information about minimum computer standards will be communicated to students upon acceptance into the MD.

## Department of Human Services policy – Police Record Check and Working With Children Check

In accordance with Department of Human Services policy, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course. Students are also required to hold a current Working with Children Check and will be required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience. A health organisation may refuse to accept a student for placement if the student's immunisation status is not satisfactory to the health organisation.

## Assessment

Assessment in the MD course is designed to demonstrate attainment of competency across all aspects of the course. A series of assessment tasks is therefore undertaken within each block. Students must pass each block of HME911 (Human Biology and Infection, Defence and Repair), based on the cumulative outcome of the assessment tasks in each block, in order to be eligible for an overall pass grade in HME911.

Further information is available to enrolled students in the Unit Guide and Course Progression Rules.

*Note: Assessment in HME911 is an ungraded pass (UP) or Fail (N) grade only.*

## Hurdle requirement

Students must pass each block of HME911 (Human Biology and Infection, Defence and Repair) in order to be eligible for an overall pass grade in HME911.

# HME912 – Medicine 1B

*Enrolment modes: Medicine Semester 2: Waurin Ponds (Geelong)*

*Credit point(s): 4*

*EFTSL value: 0.500*

*Semester 2 Unit Chair: Erik Martin and Malik Mahmood*

*Cohort rule: This unit is only available to students enrolled in H911 – Doctor of Medicine*

*Prerequisite: Must have passed HME911*

*Corequisite: Nil*

*Incompatible with: HME102*

*Scheduled learning activities – campus: Students are expected to attend all seminars, classes, clinical skills and problem based learning activities which will typically include the equivalent of 40 hours per week for the duration of semester incorporating clinical activities, formal teaching, personal reflection and self-directed learning.*

## Content

HME912 represents Semester 2 of Year 1 of the Doctor of Medicine (MD) course and consists of a single unit of four credit points. The curriculum throughout the MD course is organised into four themes: Ethics, Law and Professionalism (ELP); Public Health Medicine (PHM); Doctor and Patient (DP); and Knowledge of Health and Illness (KHI). Students will also undergo a series of clinical placements, including dedicated rural placements.

## Laptop computer requirement

Students enrolled in the MD require a wireless-enabled, personal laptop computer to undertake scheduled learning activities. Wireless access to the Deakin network is available within the teaching spaces of the Deakin Medical School.

Information about minimum computer standards will be communicated to students upon acceptance into the MD.

## Department of Human Services policy – Police Record Check and Working With Children Check

In accordance with Department of Human Services policy, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course. Students are also required to hold a current Working with Children Check and will be required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience. A health organisation may refuse to accept a student for placement if the student's immunisation status is not satisfactory to the health organisation.

### Assessment

Assessment in the MD course is designed to demonstrate attainment of competency in biomedical and clinical knowledge, clinical skills and professional standards. Students must pass each KHI topic (50% of unit marks) and each of the DP (25% of unit marks), ELP (12.5% of unit marks) and PHM (12.5% of unit marks) themes as academic hurdles in order to be eligible for an overall pass grade in HME912.

Further information is available to enrolled students in the Unit Guide and Course Progression Rules.

*Note: Assessment in HME911 is an ungraded pass (UP) or Fail (N) grade only.*

### Hurdle requirement

Pass in each topic/theme for KHI, DP, ELP and PHM

## HME921 – Medicine 2A

*Enrolment modes: Medicine Semester 1: Waurin Ponds (Geelong)*

*Credit point(s): 4*

*EFTSL value: 0.500*

*Semester 1 Unit Chair: Nicole Stupka and Prabhat Lamichhane*

*Cohort rule: This unit is only available to students enrolled in H311 – Bachelor of Medicine Bachelor of Surgery, H911 – Doctor of Medicine*

*Prerequisite: Must have passed HME912*

*Corequisite: Nil*

*Incompatible with: HME201*

*Scheduled learning activities – campus: Students are expected to attend all seminars, classes, clinical skills and problem based learning activities which will typically include the equivalent of 40 hours per week for the duration of semester incorporating clinical activities, formal teaching, personal reflection and self-directed learning.*

### Content

HME921 represents Semester 1 of the Year 2 of the Doctor of Medicine (MD) course and consists of a single unit of four credit points. The unit is structured in two blocks, Endocrine and Lifecycle and Musculoskeletal and Metabolism, and within each block the themes of Medical Sciences and Clinical Practice, Public Health Medicine, and Ethics, Law and Professionalism are discussed. Students will also undergo a series of clinical placements in the clinical environment.

### Laptop computer requirement

Students enrolled in the MD require a wireless-enabled, personal laptop computer to undertake scheduled learning activities. Wireless access to the Deakin network is available within the teaching spaces of the Deakin Medical School.

Information about minimum computer standards will be communicated to students upon acceptance into the MD.

## Department of Human Services policy – Police Record Check and Working With Children Check

In accordance with Department of Human Services policy, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course. Students are also required to hold a current Working with Children Check and will be required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience. A health organisation may refuse to accept a student for placement if the student's immunisation status is not satisfactory to the health organisation.

### Assessment

Assessment in the MD course is designed to demonstrate attainment of competency across all aspects of the course. A series of assessment tasks is therefore undertaken within each block. Students must pass each block of HME921 (Endocrine & Lifecycle and Musculoskeletal and Metabolism) as academic hurdles in order to be eligible for an overall pass grade in HME921.

Further information is available to enrolled students in the Unit Guide and Course Progression Rules.

*Note: Assessment in HME921 is an ungraded pass (UP) or Fail (N) grade only.*

### Hurdle requirement

Students must pass each block of HME921 (Endocrine and Lifecycle and Musculoskeletal and Metabolism) as academic hurdles in order to be eligible for an overall pass grade in HME921.

## HME922 – Medicine 2B

*Enrolment modes: Medicine Semester 2: Waurin Ponds (Geelong)*

*Credit point(s): 4*

*EFTSL value: 0.500*

*Semester 2 Unit Chair: Melanie Sullivan-Gunn and Tamara Browne*

*Cohort rule: This unit is only available to students enrolled in H311 – Bachelor of Medicine Bachelor of Surgery, H911 – Doctor of Medicine*

*Prerequisite: Must have passed HME921*

*Corequisite: Nil*

*Incompatible with: HME202*

*Scheduled learning activities – campus: Students are expected to attend all seminars, classes, clinical skills and problem based learning activities which will typically include the equivalent of 40 hours per week for the duration of semester incorporating clinical activities, formal teaching, personal reflection and self-directed learning.*

### Content

HME922 represents Semester 2 of Year 2 of the Doctor of Medicine (MD) course and consists of a single unit of four credit points. The unit is structured in two blocks: Brain and Behaviour, and Transition to Clinical Practice. Within each block the three themes of Medical Sciences and Clinical Practice, Public Health Medicine, and Ethics, Law and Professionalism are explored. Students will also undergo a series of clinical placements, including dedicated rural placements.

### Laptop computer requirement

Students enrolled in the MD require a wireless-enabled, personal laptop computer to undertake scheduled learning activities. Wireless access to the Deakin network is available within the teaching spaces of the Deakin Medical School.

Information about minimum computer standards will be communicated to students upon acceptance into the MD.

## Department of Human Services policy – Police Record Check and Working With Children Check

In accordance with Department of Human Services policy, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course. Students are also required to hold a current Working with Children Check and will be required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience. A health organisation may refuse to accept a student for placement if the student's immunisation status is not satisfactory to the health organisation.

### Assessment

Assessment tasks include written tasks, examinations, and practical activities in which students can demonstrate their knowledge, skills and competency across all domains of the curriculum.

*Note: Assessment in HME922 is an ungraded pass (UP) or Fail (N) grade only.*

### Hurdle requirement

Students must pass two hurdles to be eligible for an overall pass grade in HME922:

1. Cumulative performance across a series of written and practical assessment tasks, and
2. The Objective Structured Clinical Examination (OSCE).

Students must pass each of the two assessment hurdles in order to be eligible for an overall pass grade in HME922.

Further information is available to enrolled students in the Unit Guide and Course Guide.

## HME931 – Medicine 3A

*Enrolment modes: Medicine Semester 1: Waurin Ponds (Geelong)^*

*Credit point(s): 4*

*EFTSL value: 0.500*

*Semester 1 Unit Chair: Karen Dwyer*

*Cohort rule: This unit is only available to students enrolled in H311 – Bachelor of Medicine Bachelor of Surgery, H911 – Doctor of Medicine*

*Prerequisite: HME922*

*Corequisite: Nil*

*Incompatible with: HME301*

*Scheduled learning activities – campus: Students are expected to attend all rotation requirements which will typically include the equivalent of 40 hours per week for the duration of each rotation (6 x 7 week rotations) which incorporates clinical activities, formal teaching, personal reflection and self-directed learning.*

## Content

HME931 represents the first half (Semester 1) of Year 3 of the Doctor of Medicine (MD) course. The two semesters of Year 3 are combined into an integrated year-long program of study of 8 credit points. Students are attached to one of five clinical schools to further develop their knowledge and skills in clinical medicine. Students will either rotate through the clinical disciplines of Medicine, Surgery, Children's Health and Women's Health, at hospitals and other clinical sites, or are attached to a rural general practice where the exposure to each of the rotations is conducted longitudinally in an integrated manner. For all students, a period of placement at a rural site is a requirement.

The grading of HME931 is combined with HME932 so that a year grade is awarded only after assessments in all rotations and themes have occurred at the end of the year.

*Note:*

1. *^Students enrol at Waurin Ponds (Geelong) but will be based at one of the following Clinical Schools: Eastern Health, Geelong, Rural Community, Warrnambool or Ballarat.*
2. *The third year of the Doctor of Medicine (MD) course consists of two integrated semester units of four credit points each (HME931 and HME932). Students must complete both units in sequence in order to successfully transition to the fourth year of the course.*
3. *Upon completion of HME931 students are awarded an initial grade of RP (Result not applicable) and are graded for both units at the completion of HME932.*

## Laptop computer requirement

Students enrolled in the MD require a wireless-enabled, personal laptop computer to undertake scheduled learning activities. Wireless access to the Deakin network is available within the teaching spaces of the Deakin Medical School.

Information about minimum computer standards will be communicated to students upon acceptance into the MD.

## Department of Human Services policy – Police Record Check and Working With Children Check

In accordance with Department of Human Services policy, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course. Students are also required to hold a current Working with Children Check and will be required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience. A health organisation may refuse to accept a student for placement if the student's immunisation status is not satisfactory to the health organisation.

## Assessment

Students are required to satisfactorily complete all hurdles of HME931-932 (OSCE, Knowledge Test, Research Scholar Program and Workplace-based Assessments) to progress to HME941. Students are required to meet the attendance requirements of each of the six clinical rotations or the longitudinal clerkship during HME931 and HME932

Further information is available to enrolled students in the Unit Guide and Course Progression Rules.

## Pre-reading

Students who are accepted into H911 Doctor of Medicine will be provided with a booklist detailing prescribed and recommended textbooks. Students will also be directed to supplemental electronic resources within the Deakin University Library. Self-directed learning through investigations of the literature is an important learning strategy for all themes of the Deakin medical course.

# HME932 – Medicine 3B

*Enrolment modes: Medicine Semester 2: Waurm Ponds (Geelong)*

*Credit point(s): 4*

*EFTSL value: 0.500*

*Semester 2 Unit Chair: Karen Dwyer*

*Cohort rule: This unit is only available to students enrolled in H311 – Bachelor of Medicine Bachelor of Surgery, H911 – Doctor of Medicine*

*Prerequisite: Must have passed HME931*

*Corequisite: Nil*

*Incompatible with: HME302*

*Scheduled learning activities – campus: Students are expected to attend all rotation requirements which will typically include the equivalent of 40 hours per week for the duration of each rotation (6 x 7 week rotations) which incorporates clinical activities, formal teaching, personal reflection and self-directed learning.*

## Content

HME932 represents the second half (Semester 2) of Year 3 of the Doctor of Medicine (MD) course. The two semesters of Year 3 are combined into an integrated year-long program of study of 8 credit points. Students are attached to one of five clinical schools to further develop their knowledge and skills in clinical medicine. Students will either rotate through the clinical disciplines of Medicine, Surgery, Children's Health and Women's Health, at hospitals and other clinical sites, or are attached to a rural general practice where the exposure to each of the rotations is conducted longitudinally in an integrated manner. For all students, a period of placement at a rural site is a requirement.

*Note:*

- 1. ^ Students enrol at Waurm Ponds (Geelong) but will be based at one of the following Clinical Schools: Eastern Health, Geelong, Rural Community, Warrnambool or Ballarat.*
- 2. The third year of the Doctor of Medicine course consists of two integrated semester units of four credit points each (HME931 and HME932). Students must complete both units in sequence in order to successfully transition to the fourth year of the course.*
- 3. Upon completion of HME931 students are awarded an initial grade of RP (Result not applicable) and are graded for both units at the completion of HME932.*

## Laptop computer requirement

Students enrolled in the MD require a wireless-enabled, personal laptop computer to undertake scheduled learning activities. Wireless access to the Deakin network is available within the teaching spaces of the Deakin Medical School.

Information about minimum computer standards will be communicated to students upon acceptance into the MD.

## Department of Human Services policy – Police Record Check and Working With Children Check

In accordance with Department of Human Services policy, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course. Students are also required to hold a current Working with Children Check and will be required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience. A health organisation may refuse to accept a student for placement if the student's immunisation status is not satisfactory to the health organisation.

## Assessment

Students are required to satisfactorily complete all hurdles of HME931-932 (OSCE, Knowledge Test, Research Scholar Program and Workplace-based Assessments) to progress to HME941. Students are required to meet the attendance requirements of each of the six clinical rotations or the longitudinal clerkship during HME931 and HME932.

Further information is available to enrolled students in the Unit Guide and Course Progression Rules.

## Pre-reading

Students who are accepted into H911 Doctor of Medicine will be provided with a booklist detailing prescribed and recommended textbooks. Students will also be directed to supplemental electronic resources within the Deakin University Library. Self-directed learning through investigations of the literature is an important learning strategy for all themes of the Deakin medical course.

## HME941 – Medicine 4A

*Enrolment modes: Medicine Semester 1: Waurin Ponds (Geelong)^*

*Credit point(s): 4*

*Semester 1 Unit Chair: Karen Dwyer*

*Cohort rule: This unit is only available to students enrolled in H911 – Doctor of Medicine*

*Prerequisite: Must have passed HME932*

*Corequisite: Nil*

*Incompatible with: HME401*

*Scheduled learning activities – campus: Students are expected to attend all rotation requirements which will typically include the equivalent of 40 hours per week for the duration of each rotation (6 x 5 week rotations) which incorporates clinical activities, formal teaching, personal reflection and self-directed learning.*

### Content

In Year 4 HME941 and HME942, students undertake a clinical attachment to one of four clinical schools. Throughout year 4, students undertake five rotations at hospitals and other sites attached to the clinical schools: Emergency Medicine, Aged Care/Palliative Care/Rehabilitation, Intensive Care/Anaesthetics, Mental Health and General Practice, as well as an Extended Studies Program, an Elective and the Pre-Internship. Students are also required to complete a period of placement at a rural site.

*Note: ^ Students enrol at Waurin Ponds (Geelong) but will be based at one of the following Clinical Schools; Eastern Health, Geelong, Warrnambool or Ballarat.*

The fourth year of the Doctor of Medicine course consists of two semester units of four credit points each (HME941 and HME942), which are combined into a single unit of eight credit points.

### Laptop computer requirement

Students enrolled in the MD require a wireless-enabled, personal laptop computer to undertake scheduled learning activities. Wireless access to the Deakin network is available within the teaching spaces of the Deakin Medical School.

Information about minimum computer standards will be communicated to students upon acceptance into the MD.

## Department of Human Services policy – Police Record Check and Working With Children Check

In accordance with Department of Human Services policy, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course. Students are also required to hold a current Working with Children Check and will be required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience. A health organisation may refuse to accept a student for placement if the student's immunisation status is not satisfactory to the health organisation.

### Assessment

Students are required to satisfactorily complete all rotations and must pass each theme, rotation and the HME941 Objective Structured Clinical Examination. Students are required to meet the attendance requirements of each of the clinical rotations during HME941 and to demonstrate competence in clinical assessments and other assessment tasks.

Further information is available to enrolled students in the Unit Guide and Course Progression Rules.

## HME942 – Medicine 4B

*Enrolment modes: Medicine Semester 2: Waurin Ponds (Geelong)^*

*Credit point(s): 4*

*Semester 2 Unit Chair: Karen Dwyer*

*Cohort rule: This unit is only available to students enrolled in H911 – Doctor of Medicine*

*Prerequisite: Must have passed HME941*

*Corequisite: Nil*

*Incompatible with: HME402*

*Scheduled learning activities – campus: Students are expected to attend all rotation requirements which will typically include the equivalent of 40 hours per week for the duration of each rotation (6 x 5 week rotations) which incorporates clinical activities, formal teaching, personal reflection and self-directed learning.*

## Content

In Year 4 HME941 and HME942, students undertake a clinical attachment to one of four clinical schools. Throughout year 4, students undertake five rotations at hospitals and other sites attached to the clinical schools: Emergency Medicine, Aged Care/Palliative Care/Rehabilitation, Intensive Care/Anaesthetics, Mental Health and General Practice, as well as an Extended Studies Program, an Elective and the Pre-Internship. Students are also required to complete a period of placement at a rural site.

*Note: Students enrol at Waurin Ponds (Geelong) but will be based at one of the following Clinical Schools: Eastern Health, Geelong, Warrnambool or Ballarat.*

The fourth year of the Doctor of Medicine course consists of two semester units of four credit points each (HME941 and HME942), which are combined into a single unit of eight credit points.

## Laptop computer requirement

Students enrolled in the MD require a wireless-enabled, personal laptop computer to undertake scheduled learning activities. Wireless access to the Deakin network is available within the teaching spaces of the Deakin Medical School.

Information about minimum computer standards will be communicated to students upon acceptance into the MD.

## Department of Human Services policy – Police Record Check and Working With Children Check

In accordance with Department of Human Services policy, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course. Students are also required to hold a current Working with Children Check and will be required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience. A health organisation may refuse to accept a student for placement if the student's immunisation status is not satisfactory to the health organisation.

## Assessment

Students are required to meet the attendance requirements of each of the elective/selective/pre-internship rotations and to demonstrate competence in clinical knowledge, skills and professionalism.

Further information is available to enrolled students in the Unit Guide and Course Progression Rules.

## HMF701 – Agricultural Health and Medicine

*Enrolment modes: Trimester 1: Residential*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Susan Brumby*

*Campus contact: Susan Brumby, Director, National Centre for Farmer Health, Telephone: +61 3 5551 8460, email: [susan.brumby@deakin.edu.au](mailto:susan.brumby@deakin.edu.au)*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: This unit will run in residential mode from Monday 26 February to Friday 2 March 2018.*

*\* Location: The Auditorium, Western District Health Service, Foster Street, Hamilton, VIC, 3300. Will include trips to local agricultural workplaces during the week. There are rail and bus services to Hamilton; it is 3.5 hours drive from Melbourne, 2.5 hours from Geelong and 1 hour from Warrnambool. Accommodation can be organised with the National Centre for Farmer Health (NCFH) staff.*

*In-person attendance requirements: This unit will run in residential mode from Monday 26 February to Friday 2 March 2018.*

*\* Location: The Auditorium, Western District Health Service, Foster Street, Hamilton, VIC, 3300. Will include trips to local agricultural workplaces during the week. There are rail and bus services to Hamilton; it is 3.5 hours drive from Melbourne, 2.5 hours from Geelong and 1 hour from Warrnambool. Accommodation can be organised with the National Centre for Farmer Health (NCFH) staff.*

## Content

This unit addresses the health and safety concerns commonly encountered by the agricultural workforce in rural and remote Australia. The poor physical and behavioural health of rural Australians is well established. This unit aims to improve understanding of the common causes of disease, mental illness and work related injury that adversely affect the health and well-being of the human resource in agricultural industries, including obesity and diabetes, cancers, zoonotic infections, physical trauma, behavioural health, addiction and agricultural safety. Increasing knowledge of these factors will improve the effectiveness of current strategies aimed at improving the health outcomes of farming communities and the agricultural workforce.

*Note: Scholarships are available for this unit, please refer to the Farmer Health website.*

## Assessment

- Assessment task 1: Multiple-choice test 20%
- Assessment task 2: Group development of materials and online participation 25%
- Assessment task 3: Cloud (online) multiple-choice test 20%
- Assessment task 4: Written review exercise 35%

## HMF702 – Healthy and Sustainable Agricultural Communities

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Jacque Cotton*

*Campus contact: Susan Brumby, Director, National Centre for Farmer Health, Telephone: +61 3 5551 8460, email: [susan.brumby@deakin.edu.au](mailto:susan.brumby@deakin.edu.au)*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 3 scheduled online seminars*

## Content

This unit addresses social, cultural and environmental factors that result in high rates of lifestyle disease, unsafe work practices and raised levels of mental illness amongst agricultural workers, their families and communities. This unit aims to improve the understanding of the diverse and intergenerational factors leading to this health imbalance by highlighting the key determinants of agricultural health and medicine both in Australia and internationally. Important agricultural topics covered in this unit include provision of safe work environment, access to health and education services, health literacy, social isolation, biosecurity, rural networks, the physical, mental and social impact of climate variability and agricultural lifestyle disease. A better knowledge of these factors will improve the effectiveness of current health, education and community interventions and promote health as a cornerstone to the sustainability and productivity of rural and remote communities.

*Note: Scholarships are available for this unit, please refer to the Farmer Health website.*

## Assessment

- Assessment task 1: Written assignment (2500 to 3000 words) 40%
- Assessment task 2: Online test (45 minutes) 20%
- Assessment task 3: Cloud (online) exercises (comprising input to online discussions 10% and case studies 10%) 20%
- Assessment task 4: Short answer assignment (1000 words) 20%

## HMH401 – Developing Research Skills

*Enrolment modes: Trimester 1: Waurn Ponds (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Jeffrey Craig*

*Cohort rule: Must be enrolled in H413 Bachelor of Health and Medical Sciences (Honours)*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Nil*

## Content

This honours unit will complement the work of research supervisors by teaching and developing selected skills which are important in research and advantageous in careers other than research. Topics to be addressed include effective written and verbal communication skills, the presentation and defence of a research proposal, the preparation of a written research proposal, and the writing of a literature review.

## Assessment

- Assessment task 1: Literature review (3000 words) 50%
- Assessment task 2: Research proposal (1500–2000 words) 25%
- Assessment task 3: Oral presentation of final research findings (15 minutes for presentation, 5 minutes question time) 25%

## HMH402 – Honours Research Project

*Enrolment modes: Trimester 2: Waurin Ponds (Geelong)*

*Credit point(s): 4*

*EFTSL value: 0.500*

*Trimester 2 Unit Chair: John Stambas*

*Cohort rule: Must be enrolled in H413 Bachelor of Health and Medical Sciences (Honours)*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Nil*

### Content

The range of topics is diverse. Students will be required to select a topic in which they have undertaken prior (third-year) study, and to undertake original research on the topic with the guidance of a supervisor.

### Assessment

Assessment task 1: Thesis (12,000 words) 100%

The unit places a strong emphasis on developing the student's understanding of various statistical tests by which to analyse research data, including relevant software. It will also emphasise appropriate professional practice in the workplace and compliance with regulatory authorities.

### Assessment

- Assessment task 1: Statistics in research (20 question quiz) 20%
- Assessment task 2: Written assignment on critiquing research case studies (1500 words) 30%
- Assessment task 3: Written assignment on designing and analysing a research study (2500 words) 50%

## HMH810 – Research Communication

*Enrolment modes:*

*Trimester 1: Waurin Ponds (Geelong)*

*Trimester 2: Waurin Ponds (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Tania de Koning-Ward*

*Trimester 2 Unit Chair: Tania de Koning-Ward*

*Cohort rule: Must be enrolled in H800 Master of Philosophy*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: A minimum of 44 hours of intensive classroom activity.*

### Content

This unit will engage students to learn and develop communication skills that are fundamental for a career in research but which will also have broad application in careers other than research. The topics that will be covered include developing effective written and verbal communication skills to interpret and transmit a body of knowledge in the discipline of medical research to specialist and non-specialist audiences, and will incorporate how social media can be used to communicate research and build a researcher's profile. It will include written presentations of a literature review and the research project as well as a verbal presentation of the research proposal.

## HMH800 – Research Design

*Enrolment modes:*

*Trimester 1: Waurin Ponds (Geelong)*

*Trimester 2: Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Ken Walder*

*Trimester 2 Unit Chair: Ken Walder*

*Cohort rule: Must be enrolled in H800 Master of Philosophy*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: A minimum of 22 hours of intensive classroom activity.*

### Content

This unit will complement the teaching given by the research supervisor. In this unit, students will learn how to design a research project, how to formulate a research hypothesis and develop aims along with appropriate study design to test the hypothesis.

## Assessment

- Assessment task 1: Research Overview (Poster presentation), 20%
- Assessment task 2: Communication via social media (4 x 140 words), 10 %
- Assessment task 3: Written Literature Review (4000 words), 50%
- Assessment task 4: Oral presentation (20 minute presentation, 5 minute question time), 20%

## Hurdle requirement

- Oral presentation (10 minute presentation, 3 minutes question time)
- Oral presentation (3 minutes), to be completed individually.

## HMH811 – Research Interpretation and Integrity

*Enrolment modes: Trimester 1: Waurn Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Tania de Koning-Ward*

*Cohort rule: Must be enrolled in H800 Master of Philosophy*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: A minimum of 22 hours of intensive classroom activity.*

## Content

This unit will complement the Research supervision process, engaging students in the philosophies, ethics and principles of research integrity. It will also provide students with the skills to be able to critically analyse literature in their chosen area of medical research for their strengths and weaknesses.

## Assessment

- Assessment task 1: Written assignment – ethics (2000 words) 50%
- Assessment task 2: Written essay – critical evaluation (2000 words) 50%

## Hurdle requirement

Research Ethics training and Research Integrity training.

## HMH812 – Research Thesis

*Enrolment modes: Students will be enrolled on a quarterly basis throughout the calendar year and will work continuously on their research project over the two-year period. Students will be eligible for four weeks leave per year.*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Cohort rule: Must be enrolled in H800 Master of Philosophy*  
*Unit chair: Tania De Koning-Ward*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: At least 36 hours per week for full time study, with regular contact with supervisors*

## Content

This Unit entails conducting detailed independent research under the guidance of supervisors. The student is required to work closely with advice from their supervisor. The research is to be undertaken within two calendar years, full-time duration or equivalent. The research topics on offer are broad and are subject to the availability of an appropriate supervisor. The topic selected by the student should relate to the discipline of their prior study (eg. third year undergraduate degree). At the end of this Unit the student will be required to submit a major research thesis, in which they will present the knowledge and findings gained through their research investigation in their chosen field. The thesis will be examined by at least two examiners

## Assessment

Major Thesis (between 30,000–40,000 words, including bibliography, appendices and any notes) 100%.

## Hurdle requirement

Confirmation of Candidature.

## HMH813 – Research Thesis

*Enrolment modes: Students will be enrolled on a quarterly basis throughout the calendar year and will work continuously on their research project over the two-year period. Students will be eligible for four weeks leave per year.*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Cohort rule: Must be enrolled in H800 Master of Philosophy*

*Unit chair: Tania De Koning-Ward*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: At least 36 hours per week for full time study, with regular contact with supervisors.*

### Content

This Unit entails conducting detailed independent research under the guidance of supervisors. The student is required to work closely with advice from their supervisor. The research is to be undertaken within two calendar years, full-time duration or equivalent. The research topics on offer are broad and are subject to the availability of an appropriate supervisor. ### Assessment

Major Thesis (between 30,000–40,000 words, including bibliography, appendices and any notes) 100%.

### Hurdle requirement

Confirmation of Candidature.

## HMH900 – Research Design

*Enrolment modes:*

*Trimester 1: Waurin Ponds (Geelong), Cloud*

*Trimester 2: Waurin Ponds (Geelong), Cloud*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Ken Walder*

*Cohort rule: Must be enrolled in one of courses H800, H860, H900, H940 or H960*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

### Content

This unit will complement the teaching given by the research supervisor. In this unit, students will learn how to design a research project, how to formulate a research hypothesis and develop aims along with appropriate study design to test the hypothesis. The unit places a strong emphasis on developing the student's understanding of various statistical tests by which to analyse research data, including relevant software. It will also emphasise appropriate professional practice in the workplace and compliance with regulatory authorities.

*Note: New unit 2017*

### Assessment

- Assessment task 1: Statistics in research (20 question quiz) 20%
- Assessment task 2: Written assignment on critiquing research case studies (1500 words) 30%
- Assessment task 3: Written assignment on designing and analysing a research study (2500 words) 50%

## HMI101 – Medical Radiation Science 1

*Enrolment modes: Semester 1: Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Semester 1 Unit Chair: Peter Riley*

*Cohort rule: This unit is only available to students enrolled in H309 – Bachelor of Medical Imaging*

*Prerequisite: Nil*

*Corequisite: HMI102, HMI103*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour class per week, 1 x 2 hour simulation per week, and 1 x 1 hour problem based learning seminar per week*

## Content

This introductory unit establishes and relates first principles from classical and radiation physics, radiobiology, electrostatics and electro magnetism to medical imaging technology and diagnostic procedures concerned with the use of ionising radiations for medical and dental use.

The essential themes of discipline based content presented in this unit include: principles and theory of atomic structure; generic characteristics of electromagnetic radiations; x-ray production and emission; essential interactions between x-rays, matter and biological tissues; the characteristics of absorption scatter and attenuation of x-rays; filtration, shielding and detection of x-rays; exposure control and regulation.

The unit features problem based laboratory and radiation simulation exercises to facilitate learning and practical integration.

The laboratory and simulation component involves interactive exercises involving:

1. Development of the ideas of energy deposition in matter by radiation;
2. Consideration of the principles of radiation protection and the statutory requirements of medical x-ray examination system designs.
3. Practical simulations involving the complex technical relationships that exist between x-ray image formation, basic design of x-ray tubes and high voltage generating systems, image processing chains and computerised and digital imaging systems.

## Assessment

- Assessment task 1: Laboratory test (1 hour) 25%
- Assessment task 2: Portfolio (1000 words) 25%
- Assessment task 3: End of semester written examination (2 hours) 50%

## Prescribed texts

# HMI102 – Foundation Principles and Application of Medical Imaging 1

*Enrolment modes: Semester 1: Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Semester 1 Unit Chair: Greg Van Egmond*

*Cohort rule: This unit is only available to students enrolled in H309 – Bachelor of Medical Imaging*

*Prerequisite: Nil*

*Corequisite: HMI101, HMI103*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour class per week, 1 x 2 hour simulation per week, and 1 x 1 hour problem based learning seminar per week*

## Content

This is a foundation unit that requires students to assimilate and consolidate foundation themes from human biology specifically the genetic, anatomical and physiological disciplines related to diagnostic radiology and medical imaging theory and practice. Initial emphasis is on foundation principles of biochemistry, cellular biology and tissue histology developed with a combined study of clinically focussed anatomy, integrated with essential physiology. The unit then adopts a regional approach to introduce the specialised language and application of anatomical terminology to general surface anatomy and medical imaging practice. This approach is combined with a structural and spatial approach that emphasises the surface and internal relationships of the various organ systems.

The unit concludes with a regional focus and systematic study of the anatomical arrangement, component parts, essential physiology, and developmental maturation of the post-natal appendicular skeletal components (bones and joints) with comparative analysis of normal appearances and common variants routinely encountered on radiographic images.

## Assessment

- Assessment task 1: Mid-semester test (1 hour) 15%
- Assessment task 2: Practical test (1 hour) 25%
- Assessment task 3: Image (observation, recognition and analysis) test (1 hour) 20%
- Assessment task 4: End of semester written examination (2 hours) 40%

## HMI103 – Medical Imaging Practice 1

*Enrolment modes: Semester 1: Waurn Ponds (Geelong) and clinical placement sites*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Semester 1 Unit Chair: James Bainbridge*

*Cohort rule: This unit is only available to students enrolled in H309 – Bachelor of Medical Imaging*

*Prerequisite: Nil*

*Corequisite: HMI102*

*Incompatible with: Nil*

*Scheduled learning activities – campus: For 13 weeks: 1 x 2 hour class per week, 1 x 2 hour simulation per week, 1 x 1 hour problem based learning seminar per week*

*For 3 weeks: 40 hours of clinical placement per week*

## Content

This foundation unit initiates the clinical skills based developmental continuum of the 'Medical Imaging Professional'. Students formally begin the four-year prescribed sequence, progressing through the various stages of novice to expert culminating on completion in registration and licensed practice.

Students are introduced to the requirements and responsibilities of the 'Australian Health Care System and the Health Care Professional' both in the wider health community and also in the regionally focussed emphasis of the Deakin Medical Imaging program emphasising the principles of patient centred, multi-disciplinary health care and team focussed delivery practices related to diagnostic imaging.

Students are also introduced to the essential ethics, medico-legal issues, safe practice and interpersonal and therapeutic communication strategies commonly adopted in the health care field.

This unit emphasises a simulated practice component designed to integrate the theoretical principles and practice of patient care with the imaging techniques and safe practice requirements of the use of ionising radiation required to perform radiographic examinations of the limbs and the torso.

The simulated practice component progresses to limited supervised clinical involvement that will enable students to apply these principles across a range of specified examinations.

The unit concludes with a consideration of the normal surface and gross anatomical relationships of the major skeletal and soft tissue structures of the thorax, abdomen and limbs.

## Assessment

- Assessment task 1: Lab Reflective Portfolio (500 words) 10%
- Assessment task 2: Self-reflection on professional behaviour (2 page form) Pass/fail
- Assessment task 3: Pre-recorded Image Critique Presentation (4 minutes x 3 images = 12 minutes total) 15%
- Assessment task 4: Clinical Reflective Portfolio (700 words) 15%
- Assessment task 5: Clinical Placement – Pass/fail
- Assessment task 6: End of semester written examination (2 hours) 60%

## Prescribed texts

# HMI104 – Foundation Principles and Application of Medical Imaging 2

*Enrolment modes: Semester 2: Waurin Ponds (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Semester 2 Unit Chair: Gregory van Egmond*

*Cohort rule: This unit is only available to students enrolled in H309 – Bachelor of Medical Imaging*

*Prerequisite: All of HMI101, HMI102, HMI103*

*Corequisite: HMI105*

*Incompatible with: Nil*

*Scheduled learning activities – campus: A minimum of 300 hours over the semester undertaking teaching, learning and assessment activities, including a minimum of 6–8 hours per week of classroom based activities, simulation/laboratory activities and PBL sessions*

## Content

This unit introduces the study of essential pathogenic processes and how these influence the structure and function of human body systems in health and disease. It then introduces the anatomical arrangement, spatial and topographic features and physiological significance of the cardio pulmonary, respiratory, renal, haematopoietic, gastrointestinal and reproductive systems.

The unit adopts a PBL approach with associated mini-cases in consideration of common conditions and pathologic processes encountered in the organ systems specified in the unit

The unit develops an in depth understanding of the normal structural and functional relationships of the components of the axial skeleton, vertebral column and bony thorax. The 'Normal-Abnormal' axis of clinical and radio logically significant appearances are also systematically analysed related to case based materials in the context of the contribution of skeletal-muscular imaging to case management.

## Assessment

- Assessment task 1: Mid-semester test (1 hour) 15%
- Assessment task 2: Problem Based Learning (PBL): Case report (2000 words) 20%
- Assessment task 3: Image recognition evaluation and quality assurance test (1 hour) 15%
- Assessment task 4: Clinical case report (2000 words) 20%
- Assessment task 5: End of semester written examination (2 hours) 30%

## Prescribed texts

Please note: Older versions of the following textbooks are acceptable and can be used in HMI104 study. The most up-to-date versions of these books are listed only in case you are going to buy these for the first time and want the newest. Please consult with the Unit chair before purchasing all these textbooks – as there may be recommendations.

# HMI105 – Medical Imaging Practice 2

*Enrolment modes: Semester 2: Waurin Ponds (Geelong) and clinical placement sites*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Semester 2 Unit Chair: James Bainbridge*

*Cohort rule: This unit is only available to students enrolled in H309 – Bachelor of Medical Imaging*

*Prerequisite: All of HMI101, HMI102, HMI103*

*Corequisite: HMI104*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*For 12 weeks: 1 x 2 hours class per week, 1 x 2.5 hours simulation per week, 1 x 1.5 hours problem based learning seminar per week.*

*For 3 weeks: 35 hours of clinical placement per week.*

## Content

This unit represents stage two of the novice to practitioner developmental continuum and furthers the principles of patient centred and team based approaches to clinical practice. It adopts problem based and case based simulations to formalise patient management principles in medical imaging examination protocols.

This component of the unit is integrated with simulated practice scenarios involving exposure selection; dose calculation and safe radiation practice procedures so that competent operation, performance and quality assurance measures are implemented when using diagnostic imaging equipment.

Simulated clinical examinations and supervised clinical exposure to patients will enable students to apply these principles across a range of examinations involving the shoulder and pelvic girdles, the vertebral column, the bony thorax and respiratory system, and the plain abdomen.

The unit concludes with an introduction to normal surface and gross anatomical relationships of the major skeletal and soft tissue structures of the head, neck, thorax, abdomen and pelvis.

## Assessment

- Assessment task 1: Group oral presentation (10 minutes) and abstract (250 words) 20%
- Assessment task 2: Pre-recorded presentation (4 minutes) 10%
- Assessment task 3: Clinical reflective portfolio (700 words) 10%
- Assessment task 4: Clinical placement Pass/fail
- Assessment task 5: End of semester OSCE (10 stations) 25%. Passing 7 out of 10 OSCE stations and achieving an overall pass mark for the OSCEs
- Assessment task 6: End of semester written examination (2 hours) 35%

## Hurdle requirement

- Professionalism Report Pass/Fail
- Assessment task 2: Clinical placement Pass/fail
- Assessment task 5: End of semester OSCE (10 stations) 25%. Passing 7 out of 10 OSCE stations and achieving an overall pass mark for the OSCEs

## Content

This unit develops the essential understanding of the technical and physical principles that underpin practices of medical image capture, processing, display and archival storage. It embraces computer applications in medical radiation science and diagnostic systems including digital imaging, image processing and information database practises. The role of the human observer in the image processing chain is considered in the context of digital image processing, computer interfaces, medical image formats, the Dicom standard, image compression and the hospital Picture Archiving and Communication System (PACS). These concepts are applied to advanced imaging modalities and their underlying physical principles of operation, including Digital Subtraction Angiography, Mammography, Ultrasound, Computer Tomography and Magnetic Resonance Imaging.

## Assessment

- Assessment task 1: Image recognition, evaluation and quality assurance test (1 hour) 25%
- Assessment task 2: Evidence based practice portfolio (1000 words) 25%
- Assessment task 3: End of semester written examination (2 hours) 50%

# HMI202 – Foundation Principles and Application of Medical Imaging 3

*Enrolment modes: Medicine Semester 1: Waurn Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Semester 1 Unit Chair: Boris Penchev*

*Cohort rule: This unit is only available to students enrolled in H309 – Bachelor of Medical Imaging*

*Prerequisite: HMI104 and HMI105*

*Corequisite: HMI201 and HMI203*

*Incompatible with: Nil*

*Scheduled learning activities – campus: A minimum of 150 hours over the semester undertaking teaching, learning and assessment activities for the unit, including a minimum of four hours per week of classroom based activities, simulation/laboratory activities and PBL sessions*

## Content

This unit extends the knowledge acquired in year one of the Medical Imaging Course. It introduces the:

- anatomy, physiology, pathology and radiographic pathology of the abdominopelvic cavity and its organs and systems;
- anatomy of skull and facial bones; and
- contrast media applications in medical imaging.

The unit emphasises:

- radiographic and basic ultra sonographic anatomy;
- radiographic presentations of physiological processes;
- radiographic pathology;
- contrast applications, distribution, elimination, complications and management;
- diagnostic and interventional vascular imaging;
- integration of the above in analysis of medical images in terms of:
  - image quality and contents;
  - diagnosis, differential diagnoses and complications;
  - need of complementary medical imaging examinations;
  - medical imaging assisted therapeutic procedures

## Assessment

- Assessment task 1: Mid semester written test – 1 hour + 10 minutes reading time. 30% of final grade.
- Assessment task 2: Group presentation of a comparative report of two clinical cases. 15 minute duration. 20% of final grade.
- Assessment task 3: End of semester written examination – 2 hours + 15 min reading time. 50% of final grade.

*Prerequisite: HMI105 and HMI104*

*Corequisite: HMI201 and HMI202*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour class per week, 1 x 2 hour simulation per week, 1 x 1 hour problem based learning seminar per week and a 4-week clinical placement*

## Content

This unit furthers the developmental sequence of student progression through the novice to expert continuum. Initially it provides students with the foundation elements of contrast and therapeutic imaging related to examinations of the gastrointestinal genito-urinary and hepato-biliary system with technical emphasis on the management of both fixed and mobile digital fluoroscopic systems. This approach is clinically integrated with consideration of the role of the radiographer/technologist in managing and implementing protocols that direct these procedures.

Stage two of the unit initiates the development of the broader general radiographic skills required for modified positioning of the vertebral skeleton with emphasis on the radiography of the upper cervical region leading to the plain radiography of the skull and facial bones inclusive of planar dental imaging (OPG).

Simulated practice and supervised clinical exposure to patients will enable students to apply these principles across a wide range of examinations.

Stage three of the unit introduces the basic principles and analytic approaches involved in the systematic interpretation of radiographic images. Students will initially consolidate their understanding of the normal appearances and common variants of the axial and appendicular skeleton, chest and abdominal structures. The process will be developed to extend their recognition capability to identify imaging appearances consistent with common types of abnormalities consistent with clinical cases that commonly present in practices in regional and rural locations.

## Assessment

- Assessment task 1: Clinical Reflective Portfolio (700 words) 10%
- Assessment task 2: Literature review 20%
- Assessment task 3: Pre-recorded Procedural Case Review Presentation (12 minutes) 20%
- Assessment task 4: End of semester written examination (2 hours) 50%

## Hurdle requirement

- Passing the Clinical Placement is a pass/fail Hurdle requirement
- Completing and passing a Self-Reflection on Professional Behaviour is a pass/fail Hurdle requirement

# HMI204 – Foundation Principles and Application of Medical Imaging 4

*Enrolment modes: Medicine Semester 2: Waurn Ponds (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Semester 2 Unit Chair: Gregory Van Egmond*

*Cohort rule: This unit is only available to students enrolled in H309 – Bachelor of Medical Imaging*

*Prerequisite: All of HMI201, HMI202 and HMI203*

*Corequisite: HMI205*

*Incompatible with: Nil*

*Scheduled learning activities – campus: A minimum of 150 hours over the semester undertaking teaching, learning and assessment activities, including a minimum of four hours per week of classroom based activities, simulation/laboratory activities and PBL sessions.*

## Content

This unit offers an emphasis on organ systems integrating the anatomy, physiology and pathology of the nervous and endocrine systems. This approach is extended to include analysis of routine sectional CT and MR appearances of the normal brain, pituitary region, orbit and organs of hearing balance and equilibrium.

Common conditions encountered during routine CT and MR of the head and neck such as trauma of the skull and facial bones and cervical spine, demyelinating diseases and tumours of the brain and their image characteristics critically analysed and discussed.

## Assessment

- Assessment task 1: Image Anatomy and Image Analysis Folio (2000–2500 words inclusive of images) 30%
- Assessment task 2: Written assignment (1500 words) 20%
- Assessment task 3: End of semester written examination MCQ, SAQ, and longer essay question (2 hours) 50%

*Scheduled learning activities – campus: A minimum of 150 hours over the semester undertaking teaching, learning and assessment activities for the unit, including a 4-week clinical placement, which is supported through online technologies, contributing to the MRPBA competencies and capabilities framework required by the course accreditation body, AHPRA.*

## Content

This unit furthers the sequence of student progression through the novice to expert continuum. It provides students with a foundation to consent challenges in medical imaging and extends students in their practice of general radiography with respect to accident and emergency, paediatric and geriatric patient presentations. The unit also provides a comprehensive introduction to the foundation elements required in mammography and digital vascular angiography (arterial, venous, cardiac, coronary and interventional).

There is also an emphasis on accident and emergency medical imaging, with an on-going development of broader general radiographic skills requiring modified positioning of the appendicular and axial skeleton and also extended work on the radiography of the skull including dental imaging. There is an emphasis on the mobile imaging techniques used to accommodate clinical and technical challenges when imaging in paediatric and geriatric populations.

Simulated practice and supervised clinical exposure to patients will enable students to apply these principles across a wide range of examination systems and emphasise the professional role of the radiographer in managing these systems and implementing the procedures.

Student recognition capability will be extended in identifying imaging appearances of the common types of abnormalities seen in clinical cases that present in practices in regional and rural locations.

## Assessment

- Assessment task 1: Clinical placement, Pass/Fail, Hurdle requirement
- Assessment task 2: Clinical Reflective Portfolio (700 words) 10%
- Assessment task 3: Literature Review (1500 words) 15%
- Assessment task 4: Pre-recorded Procedural Case Review (10 minutes) 15%
- Assessment task 5: Self-reflection on professional behaviour hurdle (School of Medicine, Professionalism Report), Pass/Fail
- Assessment task 6: End of semester written examination (2 hours) 30%
- Assessment Task 7: End of semester OSCE, 10 stations, Pass/Fail 30%,

## Hurdle requirement

- Assessment task 1: Clinical placement, Pass/Fail, Hurdle requirement
- Assessment task 5: Professional Competence Forms A and B
- Assessment task 7: OSCE Pass

## Content

This unit introduces the essential physics of medical ultrasound, emphasising system design and the clinical applications of the various functional modes and data / image display capabilities of the diverse types of ultrasound systems. The unit then considers transducer design characteristics and how these principles influence signal acquisition, signal processing and instrumentation of 2D, 3D and 4D real time images when scanning abdominal structures. Simulated practice will enable students to consolidate and apply these principles across a range of prescribed abdominal scanning procedures.

## Assessment

- Assessment task 1: Written assessment (1000 words) 20%
- Assessment task 2: Clinical practice and case portfolio (1000 words) 20%
- Assessment task 3: End of semester written examination (2 hours) 60%

## Content

This unit introduces the principles of Computed Tomography (CT) emphasising CT physics, data acquisition, and data processing characteristics of this unique modality specialisation. The unit then considers the historical development of the various generations of scanning systems and the engineering principles and image processing potentials made possible with Helical/spiral and multi-slice CT systems. The technical content of the unit concludes with a critical review of CT image quality assurance and analysis of commonly encountered image artefacts encountered during routine scanning. These are further discussed with regard to radiation dose and radiation protection. Simulated practice and supervised clinical involvement with patients will enable students to apply these principles across a wide range of examinations of the head, chest, abdomen and spine.

## Assessment

- Assessment task 1: Evidence-based assignment and critical review (2000 words) 20%
- Assessment task 2: Laboratory exercises 10%
- Assessment task 3: Clinical reflective and learning portfolio (2000–2500 words) 25%
- Assessment task 4: End of semester written examination (2 hours) 35%
- Assessment task 5: Image evaluation test (1 hour) 10%

## Hurdle requirement

- Self-reflection on professional behaviour – Pass/Fail
- Clinical placement – Pass/Fail

### Content

This unit introduces the student to Magnetic Resonance Imaging (MRI) as an advanced imaging modality with specific emphasis on routine diagnostic protocols. The essential physics of MRI is considered alongside an integrated analysis of the components of the image processing chain related to magnet strengths coil design and instrumentation, examination of pulse sequences, scanning techniques and protocols and contrast enhanced imaging. It also considers the quality assurance, aspects of sequence design and the factors that determine image contrast and spatial resolution. FID signal sampling and image reconstruction methods are reviewed, in the context of SNR consideration and artefact production. An overview of MRI imaging design sequencing, such as Magnetic Resonance Spectroscopy. MRA dynamic imaging and functional (fMRI) is also included.

### Assessment

- Assessment task 1: Laboratory exercises 10%
- Assessment task 2: Two comparative MRI case analysis reports (1500 words) 30%
- Assessment task 3: Integrated theory and imaging test on MRI (1 hour) 20%
- Assessment task 4: End of semester written examination, MCQ and SAQ (2 hours) 40%

## HMI304 – Medical Imaging Practice 6

*Enrolment modes: Semester 2: Waurn Ponds (Geelong) and clinical placement sites*

*Credit point(s): 3*

*EFTSL value: 0.375*

*Semester 2 Unit Chair: Chris Jansen*

*Cohort rule: This unit is only available to students enrolled in H309 – Bachelor of Medical Imaging*

*Prerequisite: All of HMI301 and HMI302*

*Corequisite: HMI303*

*Incompatible with: Nil*

*Scheduled learning activities – campus: A minimum of 150 hours over the semester undertaking teaching, learning and assessment activities for this unit. This unit includes a six-week clinical placement block that is supported through online technologies.*

### Content

This practicum unit emphasises and reinforces previous understanding of the appropriate selection of clinical protocols and informed decision making when selecting ultrasound equipment, evaluating technical factors, enhancing image quality and minimising image artefacts. This general approach establishes the foundations for a deeper understanding of sonographic anatomy when examining the liver, gallbladder, biliary system, anterior abdominal wall peritoneum and retro peritoneum. Themes of protocol enhancement and technical specificity are introduced with consideration of the Doppler ultrasound examination of the upper abdomen inclusive of Colour and Spectral Doppler techniques related to their established capability to discriminate normal discrete sonographic appearances and common abdominal pathologies. Simulated practice and supervised clinical contact with patients will enable students to apply these principles across a specified range of abdominal ultrasound examinations. The unit will enhance the on-going development of expertise in general radiography examinations and introduce the scientific principles underpinning breast imaging, with consideration of instrumentation, examination protocols, positioning methods, radiation dosimetry and protective measures associated with breast imaging examinations.

### Assessment

- Assessment task 1: Breast Imaging Test (1 hour) 20%
- Assessment task 2: Abdominal Sonography Test (1 hour) 20%
- Assessment task 3: End of Semester Examination (2 hours) 60%

### Hurdle requirement

- Self-reflection of Professional behaviour Pass/Fail
- Clinical Placement Block (6 weeks) Pass/Fail

### Prescribed texts

Gill R. The Physics and Technology of Diagnostic Ultrasound – A Practitioner's Guide. Sydney: High Frequency Publishing; 2012

Students will be encouraged to develop their own potential research focus and through the supervision process an advanced level of understanding in a nominated discipline and/or specialist area of medical imaging. Unit outcomes require students to prepare a research proposal inclusive of the potential study design and purposeful rationale supported by a literature review and statement of the scope of ethics submission and approval requirements related to the study design and methodology.

*Note: New unit 2018*

### Assessment

- Assessment task 1: Group oral and poster presentation (10 minutes) 10%
- Assessment task 2: Literature review (3500 words) 45%
- Assessment task 3: Research proposal (2500 words) 35%
- Assessment task 4: Ethics application (1000 words) 10%

## HMI401 – Research Methods and Critical Appraisal

*Enrolment modes: Medicine Semester 1: Waurn Ponds (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Semester 1 Unit Chair: Giovanni Mandarano*

*Cohort rule: This unit is only available to students enrolled in H309 – Bachelor of Medical Imaging*

*Prerequisite: All of HMI303 and HMI304*

*Corequisite: HMI402*

*Incompatible with: Nil*

*Scheduled learning activities – campus: A minimum of 240 hours over the semester undertaking teaching, learning and assessment activities. Students will be able to utilise time during their clinical placements to assist in their learning in this unit*

### Content

This unit builds upon content relating to the research process and also research and evidence based clinical practice established in earlier units of the course. It examines in greater depth the culture of health related research and the emergent professional role of the clinician researcher. Unit material is presented in the context of the various research designs and approaches adopted in the health care paradigm.

The unit will also encourage students to differentiate between quantitative and qualitative research methods, understand current trends in research in medical imaging and the implications for evidence based health care, and critically evaluate the veracity of research outcomes.

*Incompatible with: Nil*

*Scheduled learning activities – campus: A minimum of 440 hours over the semester undertaking teaching, learning and assessment activities, including an extended clinical placement element which is supported through online technologies.*

## Content

In Year 4, with essential x-ray examination and advanced imaging technology competencies established, the student enters into an extended period of clinical practice spread over two semesters to confirm and consolidate the overall range of competencies and fulfil the professional requirements for final qualification and eligible for registration as a medical imaging practitioner.

The Year 4 clinical practicum reinforces and extends previous understanding of the appropriate selection of clinical protocols and informed decision making evaluating technical factors, enhancing image quality, minimising image artefacts and accurately performing the range of examinations within the practitioner's scope of practice. It also emphasises consolidation of the autonomous and multidisciplinary team focussed requirements of the personal and overall professional scope of practice required of the registered practitioner.

In Year 4 students are immersed in the exclusively digitised world of radiographic practice and advanced imaging with clinical involvement across the spectrum of x-ray interventions, imaging techniques and specialisations in Ultrasound, Computed Tomography, Magnetic Resonance, Digital Subtraction Angiography and advanced image processing and archival systems.

Students will also participate in an inter-professional education (IPE) experience module in year 4 titled Collaborative Practice in Healthcare (CPH). In this module students will explore the key concepts of collaborative practice. Students will also be allocated into interprofessional teams with students from clinical courses across the Faculty of Health. They will work with these teams online to develop care plans for three complex cases.

Students enrolled in H309 Bachelor of Medical Imaging must complete the professional learning and practice requirements inclusive of the stipulated period of supervised practice prior to graduation and application for registration issued by the Medical Radiation Practice Board of Australia.

*Note: New unit 2018*

## Assessment

- Assessment task 1: Clinical learning portfolio (3000 words) 50%
- Assessment task 2: Interprofessional team care plan development 45%
- Assessment task 3: Interprofessional online multiple choice questions 5%

## Hurdle requirement

Clinical placement Pass/Fail

*Scheduled learning activities – campus: A minimum of 240 hours over the semester undertaking teaching, learning and assessment activities*

## Content

This unit incorporates in depth study on the design, clinical applications and research potentials of the following highly specialised imaging modalities:

## Computed Tomography (CT)

Advances in the design and software engineering of computed tomography systems over the last ten years have extended the scope of application of this modality in patient management. The unit considers all aspects of modern CT practice with regard to equipment design, advanced principles of data acquisition and data display systems, and overall applications of multi slice, sequential, spiral, helical and electron beam CT systems.

## Magnetic Resonance Imaging (MRI)

This specialisation offers an advanced consideration and critical review of the essential principles of both structural and functional acquisition sequence designs commonly used in Magnetic resonance studies. The unit will consider both clinical and research approaches that adopt and integrate MR sequencing in their respective methodologies and protocol designs.

The unit offers a critical review of the design principles and scope of application of the MR modality in functional studies in general with specific reference to the brain and the various sequences and data sequencing analysis approaches designed for vascular and perfusion studies and MR spectroscopy.

## Molecular Imaging

This specialisation explores the emergent and expanding field of molecular imaging and is designed to offer a foundation for informed clinical and research based contributions with regard to the specialised modalities that contribute to research designs and molecular imaging.

These modalities include PET, SPECT, CT, MRI, 4D (U) ultrasound and synchrotron imaging. The unit will consider the principles and applications of hybrid imaging technologies in the assessment of biological activity in the body at the molecular level including oncology, neurological and cardiovascular diseases. Recent innovations and developments in imaging technology, radio pharmacy (molecular probes), and image-guided therapy will be considered alongside their respective applications in clinical and research.

# HMI405 – Practice Management

*Enrolment modes: Medicine Semester 2: Waurm Ponds (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Semester 2 Unit Chair: Saba Ansari*

*Cohort rule: This unit is only available to students enrolled in H309 – Bachelor of Medical Imaging*

*Prerequisite: All of HMI401 and HMI402*

*Corequisite: HMI403*

*Incompatible with: Nil*

*Scheduled learning activities – campus: A minimum of 240 hours over the semester undertaking teaching, learning and assessment activities*

## Content

The unit content is arranged in four sections engaging principles of resource and commercial management supported by theory and best practice approaches to the management and organisation of medical imaging departments.

Initially the unit will establish the role of health care delivery and commercial management practices within service based and project delivery organisations, providing students with a framework to develop a critical understanding of the factors that influence commercial management practice. It will also identify generic aspects of practice and provide a theoretical foundation to these activities, by reference to existing and emergent theories and concepts, as well as to relevant management best practice approaches.

- Part 1) Introduction – commercial management explores the nature of commercial practice within service and project-oriented organisations at the consumer and commercial interface by outlining the principle activities undertaken by the commercial function, identifies the skills and abilities that support these activities. It also sets out to identify areas of commonality of practice with associated health oriented organisations, and identifies sources of potential conflict and misunderstanding.
- Part 2) Elements of commercial theory and practice covers commercial leadership; exploring strategy; risk and uncertainty management; financial decision-making; and key legal issues.
- Part 3) Approaches to commercial practice addresses best practice management, and commercial and contracting strategies and tactics.
- Part 4) Case study analysis offers extended case studies and simulated design and operating principles of medical imaging installations including design principles, work flow, resource management and operating systems.

## Assessment

- Assessment task 1: Reflective Portfolio (3000 words) 35%
- Assessment task 2: Case study (3000 words) 35%
- Assessment task 3: Oral presentation (10 minutes) 30%

# HMM101 – Introduction to Medical Biotechnology

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurm Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Sarah Shigdar*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour class per week and 1 x 2 hour (equivalent) cloud (online) class per week*

## Content

This unit provides an introduction to the field of medical biotechnology. It will cover the history and philosophy of medical biotechnology, its influence on daily life, and introduce key issues in the field, including ethics, patenting and commercialisation. The unit will develop an understanding of the diverse disciplines comprising medical biotechnology and their skill requirements, and provide an overview of the careers available and key information sources in biotechnology and medicine.

## Assessment

- Assessment task 1: Written assignment (700 words) 15%
- Assessment task 2: Written assignment (1000 words) 25%
- Assessment task 3: Weekly multiple choice questions 10%
- Assessment task 4: Written examination (2 hours) 50%

## HMM102 – Principles of Gene and Genomic Technology

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Rasika Samarasinghe*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 6 x 2 hour seminar workshops, 5 x 3 hour practical classes, and 22 online lectures per trimester*

### Content

This unit explores the recent advances in gene and genomic technologies and their application in the fields of biomedical science, forensics and medicine. It includes topics such as DNA recombinant techniques, gene therapy and editing, DNA sequencing, bioinformatics, proteomic and transcriptome technologies. Additionally, in practical classes students will develop laboratory skills in gene technologies and apply their theoretical and practical knowledge in interpreting experimental data and writing scientific reports.

### Assessment

- Assessment task 1: Seminar questionnaire (5 seminars x 2%) total 10%
- Assessment task 2: Practical class worksheets (5 classes x 5%) total 25%
- Assessment task 3: Scientific laboratory report 15%
- Assessment task 4: Examination (2 hours) 50%

### Prescribed texts

Glick, P and Patten, C, Molecular Biotechnology: Principles Applications of Recombinant DNA, 5th edition, 2017, ASM Press, Washington DC.

## HMM103 – Cell Technology

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Rasika Samarasinghe*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 4 x 2 hour seminar workshops, 5 x 3 hour practical classes, 1 x 1 hour test and 22 online lectures per trimester*

### Content

This unit explores cell and tissue development and its molecular and genetic controls, and perturbations of these processes in human disease. It also considers cell manipulation as a mechanism for research into disease, with practical classes providing skill development in the key technologies.

### Assessment

- Assessment task 1: Mid-trimester class test (45 minutes) 20%
- Assessment task 2: Portfolio of laboratory reports (1200 words) 30%
- Assessment task 3: End of trimester written examination (2 hours) 50%

### Prescribed texts

## HMM105 – Applied Ethics

*Enrolment modes: Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Evie Kendal and Dominique Martin*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 3 scheduled online seminars*

## Content

This unit introduces you to the theoretical foundations of applied ethics, including core ethical concepts and principles and commonly applied theories. You will learn how to apply ethical principles and frameworks in the analysis of contemporary and emerging issues, so as to evaluate and discuss real world dilemmas. You will complete a five-week block of applied ethics training, using a case-based approach to explore the foundations of ethical theory. In week 6, you will select and follow a set of weekly topic modules that comprise a topic stream. Streams will include: Health, Genomics and genetic medicine, Reproduction, Technology, and Psychology. The knowledge and skills acquired through completion of this unit will equip you to engage with ethical issues that arise in your future studies or professional careers.

*Note: New unit Trimester 3 2019*

## Assessment

- Assessment task 1: Ethical analysis of case scenarios (1400 words equivalent) 35%
- Assessment task 2: Commentary on an ethical issue in the media (1000 words) 25%
- Assessment task 3: Position statement on an ethical issue (1600 words) 40%

## HMM201 – Medical Nanotechnology

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrnambool (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Wei Duan*

*Prerequisite: HMM102 or HMM103*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 3 x 1 hour classes per week, 1 x 1 hour seminar per week, 3 x 1 hour seminars per trimester, and Cloud (online) exercises and discussions*

## Content

This unit aims to provide students with a comprehensive understanding of the role that nanotechnology will play in the diagnosis and treatment of medical conditions in the future. This unit will look at how this rapidly developing field will impact human health and the challenges involved.

## Assessment

- Assessment task 1: Mid-trimester test (45 minutes) 30%
- Assessment task 2: Group research project and presentation (20 minutes per group) 20% and written report (~1000 words) 10%
- Assessment task 3: Examination (2 hours) 40%

## HMM202 – Molecular Diagnostics

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrnambool (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Richard Williams*

*Prerequisite: HMM102 or HMM103*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 6 x 2 hour seminar workshops, 5 x 3 hour practical classes, and 22 face-to-face classes lectures per trimester*

## Content

This unit will introduce students to the roles that genes and proteins play in normal cell function and dysfunction and their role in disease progression. The role of aberrations in these processes will be discussed, along with how they are detected and the clinical implications of these molecular signatures. The current and future benefits of this field will also be considered, with a focus on diagnostic, prognostic and therapeutic applications.

## Assessment

- Assessment task 1: Mid-trimester test (45 minutes) 20%
- Assessment task 2: Practical class assessment and written report (1500 words) 30%
- Assessment task 3: Examination (2 hours) 50%

## Prescribed texts

Patrinos G P, Ansong W J. 2010. Molecular Diagnostics (Second Edition). Elsevier Inc. (Online book)

## HMM203 – Human Anatomy

*Enrolment modes: Trimester 3: Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Garth Stephenson*

*Prerequisite: HBS109 OR SLE111 and SLE132*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 3 x 1 hour classes per week, 1 x 2 hour practical per week, 5 x 3 hour workshops throughout the trimester*

### Content

Human Anatomy is a second year unit designed to educate students on the structure of the human body beginning with the general body plan laid down in embryogenesis to the development of organ systems and how these are organized to form the adult body. The unit is structured to expand upon the foundations of human structure and function previously covered in HBS109. All major anatomical systems and compartments will be discussed and class material will be supported by practical sessions.

### Assessment

- Assessment task 1: Mid-trimester multiple choice question (MCQ) test (45 minutes) 20%
- Assessment task 2: Workshop activity based assessments (equivalent to 1000 words) 5 x 4% = total 20%
- Assessment task 3: Practical assessments – Weekly online quizzes (10 x 1% – 7.5 minutes each), and final practical examination (1 x 10% – 60 minutes) total 20%
- Assessment task 4: Written examination (2 hours) 40%

### Prescribed texts

Gray's Anatomy for Students, Drake RL et al: Elsevier, 2015. Clinical Key e-book – <https://www.clinicalkey.com.au/#/browse/book/3-s2.0-C20110061707>

Human Anatomy, Saladin, 5th Edition – Available hardcopy and eBook.

Clinical Key e-book – <https://www.clinicalkey.com.au/#/browse/book/3-s2.0-C20110061707>

## HMM204 – Haematology and Immunology

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Jeffrey Craig*

*Prerequisite: HMM103*

*Corequisite: Nil*

*Incompatible with: HMM104*

*Scheduled learning activities – campus: 3 x 1 hour classes per week and 1 x 1 hour seminar per week*

### Content

This unit will introduce students to the development and function of cells in the blood, bone marrow and immune tissues, and the role that these cells play in the body. Dysregulation of blood cell production will be explored, as well as the role of white blood cells in immunity. The study of immune response, including innate and acquired immunity will also be discussed.

*Note: New unit 2019*

### Assessment

- Assessment task 1: Mid-trimester test (45 minutes) 25%
- Assessment task 2: Written report (1000 words) 15%
- Assessment task 3: Weekly online quiz questions 15%
- Assessment task 4: Examination (2 hours) 45%

### Prescribed texts

Delves, Martin, Burton & Roitt 'Essential Immunology' (2017 13th Ed) Wiley-Blackwell, London, UK (e-book available)

Mehta and Hoffbrand 'Haematology: at a Glance' (2014 4th Ed) Wiley-Blackwell, London, UK (e-book available)

## HMM301 – Principles of Pharmacology

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurm Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Craig Smith*

*Prerequisite: SLE212 or HNN215*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour class per week and 1 x 1 hour (equivalent) online class per week and 1 x 1 hour seminar per week*

### Content

This unit provides an introduction to pharmacology at the cellular and molecular level. Topics include drug structure, mode of action, drug-receptor interactions, effects on cell signalling and function, drug absorption and metabolism, pharmacokinetics, toxicity, and gene-drug interactions. This unit will provide a foundation for subsequent studies in therapeutic development and advanced topics in medical biotechnology.

### Assessment

- Assessment task 1: Weekly seminar questionnaire (10 classes x 1%) 10% total
- Assessment task 2: Mid-trimester test (45 minutes) 20%
- Assessment task 3: Written assignment (1200 words) 20%
- Assessment task 4: Examination (2 hours) 50%

### Prescribed texts

Katzung BG, Trevor AJ, 2015, Basic & Clinical Pharmacology, 13th Edition

## HMM302 – Innovations in Medical Biotechnology

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurm Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Jagat Kanwar*

*Prerequisite: HMM201*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 3 x 1 hour classes per week and 1 x 1 hour seminar per week*

### Content

This unit provides a comprehensive overview of the business of medical biotechnology, including innovation management, funding, and the regulatory framework relevant to the industry. It will also explore risk management, and the societal and ethical issues pertinent to medical biotechnology in real-world scenarios.

### Assessment

- Assessment task 1: Written report (1200 words) 30%
- Assessment task 2: Group oral presentation (10 minutes in-class presentation) 20%
- Assessment task 3: Examination (2 hours) 50%

## HMM303 – Emerging Infectious Diseases and Their Control

*Enrolment modes: Trimester 1: Burwood (Melbourne), Waurm Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Poshmaal Dhar*

*Prerequisite: One of: SLE234, HMM202 or HSH216*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour class per week and 1 x 2 hour (equivalent) cloud (online) class per week*

## Content

This unit will provide students with knowledge of clinically relevant emerging infectious diseases. Current emerging infectious diseases, as well as potential future threats will be considered, as well as the mechanisms responsible for the emergence and re-emergence of infectious diseases. It will also delineate the 'One Health' approach to ameliorating these diseases.

## Assessment

- Assessment task 1: Written case study report (1500 words) 30%
- Assessment task 2: Weekly seminar questionnaire (10 classes x 2%) 20% total
- Assessment task 3: Examination (2 hours) 50%

## HMM304 – Therapeutic Development

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrn Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Craig Smith*

*Prerequisite: HMM202 or SLE212*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour class per week and 1 x 1 hour (equivalent) online class per week and 1 x 1 hour seminar per week*

## Content

This unit describes how therapeutics such as pharmacological drugs are discovered and developed, in order to treat disease. Non-targeted and targeted drug discovery is discussed, in addition to target validation, in the contexts of big pharmaceutical companies and smaller research laboratories. Drug development strategies and pipelines that are adopted by big pharmaceutical companies are then described, including the chemical optimisation of lead compounds, pre-clinical and clinical trials, commercialisation and post-market considerations.

## Assessment

- Assessment task 1: Seminar and workshop assessments (weekly assessments) 15%
- Assessment task 2: Mid-trimester test (45 minutes) 20%
- Assessment task 3: Written report (1500 words) 20%
- Assessment task 4: Examination (2 hours) 45%

## Prescribed texts

Raymond G. Hill & Humphrey P. Rang. Drug Discovery and development second edition 2013.

## HMM305 – Cell and Tissue Engineering

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrn Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Rupinder Kanwar*

*Prerequisite: HMM202*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*1 x 2 hour (equivalent) cloud (online) class per week*

*1 x 1 hour (face-to-face) class per week*

*1 x 2 hour integrative workshop per week*

## Content

This unit introduces students to the most exciting era of Biomedicine, encompassing recent advances in multidisciplinary research leading to global and a strongly emergent regenerative medicine industry. Cell and tissue (Biomedical) engineering holds vast potential to revolutionise future patient care, and meet critical health care needs regarding tissue and organ replacement. Topics include molecular and biomechanical approaches to the engineering of cells and tissue biomaterials; understanding the power of stem cells; the tissue engineering triad; and bioprinting technology.

## Assessment

- Assessment task 1: Weekly test 10%
- Assessment task 2: Mid-trimester test 20%
- Assessment task 3: Individual (Audio Visual) presentation (6 minutes) 20%
- Assessment task 4: Written examination (2 hours) 50%

## HMO101 – Principles of Optics

*Enrolment modes: Trimester 1: Waurn Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Amanda Edgar*

*Cohort rule: Must be enrolled in D302 Bachelor of Vision Science/Master of Optometry.*

*Up to 10 places may be offered to students not enrolled in D302, please contact [health-enquire@deakin.edu.au](mailto:health-enquire@deakin.edu.au)*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 2 or 3 hours of classes per week (both face-to-face and online); 1 x 1 hour concept feedback seminar per fortnight; up to 6 x 2 hour application feedback seminars across the trimester; and 4 x 2 hour practical sessions across the trimester.*

### Content

Specific topics include the physical nature of light, colour, reflection, refraction, plane and curved mirrors, thin and thick lenses and ray tracing. In studying these topics, students will also learn to apply the knowledge, for example by performing ray traces through optical elements, such as curved surfaces or lenses, and determining the different characteristics of the images formed by these elements. Practical classes will provide the opportunity for the students to observe the 'real world' effect of the different optical elements on light, whilst also introducing them to working in teams.

### Assessment

- Assessment task 1: 3 x 15 minutes pre-practical quizzes 10%
- Assessment task 2: 4 x Investigative Reports that typically include short answer questions, diagrams and/or calculations (individual reports 20% + peer-review team work 5%) Total 25%
- Assessment task 3: Mid-trimester MCQ examination (1 hour) 20%
- Assessment task 4: Final MCQ examination (2 hours) 45%

### Prescribed texts

Keating, M, Geometric, physical and visual optics. New Boston : Butterworth-Heinemann, c2002, available as downloadable pdf from the Deakin Library.

## HMO102 – Science of Vision 1

*Enrolment modes: Trimester 2: Waurn Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Ryan Wood-Bradley*

*Cohort rule: Must be enrolled in D302 Bachelor of Vision Science/Master of Optometry.*

*Up to 10 places may be offered to students not enrolled in D302 – please contact [health-enquire@deakin.edu.au](mailto:health-enquire@deakin.edu.au)*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour class per week and 1 x 2 hour seminar per week*

### Content

In this unit, students will encounter some of the fascinating research that has brought us to our current understanding of various aspects of the visual system. Using vision science research as exemplars, students will develop an understanding and appreciation of the academic culture of scientific research. This unit aims to teach students the essential and lifelong skills of sourcing, reading and writing about vision science research in the appropriate scientific style. These skills are essential in order for future optometrists to make clinical decisions using evidence-based practice. Another equally important aim of the unit is for the student to develop essential skills in team-based learning. Topics include the scientific method, anatomy of a research paper, retrieving credible scientific material, scientific writing, peer review and scientific communication.

### Assessment

- Assessment task 1: Ongoing self-reflection (700 words) 15%
- Assessment task 2: Evidence-Based Patient Communication (1500 words, including review of literature and communication piece) 20%
- Assessment task 3: Indigenous Cultural Safety Assessment comprising a reflective piece of 1500 words, as well as MCQs 20%
- Assessment task 4: Team-based learning assessment (2000 words) 40% and peer evaluation 5% – Total 45%

## HMO103 – Clinical Optics

*Enrolment modes: Trimester 2: Waurn Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Dipesh Bhattarai*

*Cohort rule: Must be enrolled in D302 Bachelor of Vision Science/Master of Optometry. Up to 10 places may be offered to students not enrolled in D302, please contact [health-enquire@deakin.edu.au](mailto:health-enquire@deakin.edu.au)*

*Prerequisite: HMO101*

*Corequisite: Nil*

*Incompatible with: HBS110*

*Scheduled learning activities – campus: Up to 4 x 1 hour classes per week (both face-to-face and online), 4 x 2 hour practical classes, 4 x 2 hour Team Learning Activities across the trimester*

### Content

In this unit, students will build on the knowledge of optics gained in HMO101 in order to understand the basic principles of geometric and visual optics required in clinical practice. At the end of this unit, students will be able to describe the nature of light and the way in which light can interact with matter (for example diffraction, refraction, reflection etc.). Students will develop the ability to perform ray traces through single and multiple element lens systems, describe the effect of aberrations on optical systems (including the human eye) and explain how the optics of spectacle lenses and contact lenses differ when combined with the optics of the eye. Practical classes will provide the opportunity for students to observe the effect on the behaviour of light of different optical devices that are integral to the practice of optometry. The unit will introduce the students to Team Based Learning and peer-to-peer teaching.

### Assessment

- Assessment task 1: 4 x Investigative and Reflective Reports (~1000 words in total) (submission of a minimum of 3 out of 4 reports is a hurdle requirement) 20%
- Assessment task 2: 4 x 2 hour Team Learning Activities 40%
- Assessment task 3: End of trimester examination (2 hours) 40%

### Hurdle requirement

Submission of a minimum of 3 out of 4 reports.

## HMO104 – Ocular Structure

*Enrolment modes: Trimester 2: Waurn Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Simon Backhouse*

*Cohort rule: Must be enrolled in D302 Bachelor of Vision Science/Master of Optometry. Up to 10 places may be offered to students not enrolled in D302; please contact [health-enquire@deakin.edu.au](mailto:health-enquire@deakin.edu.au)*

*Prerequisite: SLE111*

*Corequisite: Nil*

*Incompatible with: SLE211*

*Scheduled learning activities – campus: Up to 3 x 1 hour classes per week and 5 x 2 hour practical classes, 5 x 2 hour Team Learning Activities and 5 x 2 hour Investigative and Reflective Reports across the trimester*

### Content

In this unit, students will develop an understanding of ocular anatomy and be introduced to the basic physiological processes that underlie vision. The unit builds on a basic knowledge of cell biology and introduces concepts of developmental biology as they pertain to ocular structures. Initially, students will learn to identify the cell types that collectively form the eye and consider how the anatomical structure of the eye provides the basis for the function of the eye. Subsequent classes will introduce students to the anatomy and basic physiology of ocular structures and the structure and purpose of the blood ocular barriers. In the latter part of the trimester, classes will investigate the way that systemic factors impact upon ocular health. Team based learning, practical classes, didactic classes and Cloud based learning are all employed.

### Assessment

- Assessment task 1: Investigative Reports (~750 words) (submission of a minimum of 4 out of 5 reports, achieving a pass mark, is a hurdle requirement) 30%
- Assessment task 2: Evidence-based Anatomy Communication (750 words) 10%
- Assessment task 3: Mid-trimester test (45 minutes) 20%
- Assessment task 4: End of trimester examination (90 minutes) 40%

### Hurdle requirement

Submission, and achieving a pass mark, of a minimum of 4 out of 5 investigative reports – see Assessment task 1.

## HMO105 – The Business of Optometry

*Enrolment modes: Trimester 3: Waurn Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Nick Hockley*

*Cohort rule: Must be enrolled in D302 Bachelor of Vision Science/Master of Optometry.*

*Up to 10 places may be offered to students not enrolled in D302; please contact [health-enquire@deakin.edu.au](mailto:health-enquire@deakin.edu.au)*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 3 x 1 hour class (face-to-face and in Cloud) and 1 x 2 hour Team Based Activity per week*

### Content

This unit will provide students with an introduction to the skills and knowledge required to establish and operate an optometry business. Students will undertake study of different models of optometry business, business planning and practice set-up, finance and accounting (including key sources of revenue and expense), business law, practice operations and management, human resources and staff management, and the retail and supply chain. Students will also undertake the first stage of their Transition to Clinical Practice training, which prepares them both to engage with the learning activities used in Year 2 of the course, and to choose and then undertake a successful Clinical Residential Placement.

### Assessment

- Assessment task 1: Weekly Individual Readiness Assurance Tests (iRATs), prior to Team-Based Activity 30%
- Assessment task 2: Business Plan (1500 words) 30%
- Assessment task 3: Business Plan review meeting 10%
- Assessment task 4: Ethical reflection research paper (1000 words) 20%
- Assessment task 5: Peer review of team 10%

## HMO201 – Science of Vision 2

*Enrolment modes: Trimester 3: Waurn Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Amanda Edgar*

*Cohort rule: Must be enrolled in D302 Bachelor of Vision Science/Master of Optometry.*

*Up to 10 places may be offered to students not enrolled in D302; please contact [health-enquire@deakin.edu.au](mailto:health-enquire@deakin.edu.au)*

*Prerequisite: HMO102*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour class per week and 1 x 2 hour seminar per week*

### Content

Building on the prerequisite unit HMO102 Science of Vision 1, students will continue to develop an understanding and appreciation of scientific research and evidence-based practice. Students will encounter more of the fascinating research that has informed our current understanding of the visual system. Aims for students taking this unit include further development of the essentials of reading, writing and appraising vision science research, as well as refinement of skills in teamwork and peer review. Topics include scientific research methods, introductory statistics, critical appraisal, ethics, grants and being a researcher.

### Assessment

- Assessment task 1: TBL assessment (including iRAT, tRAT and Application Exercises) 30%
- Assessment task 2: Individual contribution and peer review of team members 10%
- Assessment task 3: Critical appraisal of a scientific article – written individual assignment (750–1000 words) and oral presentation 25%
- Assessment task 4: Evidence-based practice assessment – open book (2 hours) 35%

## HMO202 – Ocular Function

*Enrolment modes: Trimester 3: Waurin Ponds (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 3 Unit Chair: Amanda Douglass*

*Cohort rule: Must be enrolled in D302 Bachelor of Vision Science/Master of Optometry.*

*Up to 10 places may be offered to students not enrolled in D302; please contact [health-enquire@deakin.edu.au](mailto:health-enquire@deakin.edu.au)*

*Prerequisite: HMO104*

*Corequisite: Nil*

*Incompatible with: SLE221*

*Scheduled learning activities – campus: Up to 3 x 1 hour classes per week plus 5 x 2 hour practical classes, 5 x 2 hour Team Learning Activities and 5 x 2 hour Investigative and Reflective Reports per trimester*

### Content

In this unit, students will develop an understanding of how the visual system processes information from the outside world. The unit extends the anatomical knowledge gained in HMO104. Information provided in the early weeks of trimester emphasise the physiological and biochemical processes that underpin the perception of light in the retina. Later in the unit, the processes that underlie our perception of brightness, colour, movement and depth perception are covered. Throughout the unit students are introduced to the clinical and research based techniques that can be used to measure our ability to see the world.

### Assessment

- Assessment task 1: Investigative Reports (~900 words) and reflection on contribution to team-work 30%
- Assessment task 2: Team Based Learning 30%
- Assessment task 3: End of trimester examination (90 minutes) 40%

### Hurdle requirement

Submission, and achieving a pass mark, of a minimum of 5 out of 6 investigative reports – see Assessment task 1.

### Prescribed texts

Schwartz, S, Visual Perception: A clinical orientation, (Mc Graw Hill Education, 4th edn.)

## HMO203 – Health and Vision Sciences 1

*Enrolment modes: Trimester 1: Waurin Ponds (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Luke Chong and James Armitage*

*Cohort rule: Must be enrolled in D302 Bachelor of Vision Science/Master of Optometry*

*Prerequisite: All of HBS107, HBS108, HMO101, HMO102, HMO201, MAA103, SLE111 and*

*HBS110 or HMO103 and*

*HMO105 or MMM132 and*

*HMO104 or SLE211 and*

*HMO202 or SLE221 and*

*One of SLE131 or SLE133 or SLE155*

*Corequisite: HMO204*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 2 x 2 hours of problem-based learning seminars; up to 10 hours of supporting classes and seminars and 2 hours of team-based learning for 10 weeks of trimester.*

### Content

In this unit students will gain a foundation in the physical and biomedical sciences underpinning optometric practice. Students will engage in problem-based learning cases drawn from simple and common optometric conditions particularly those associated with developmental and refractive disorders of vision. Classes and seminars will be offered in support of the problem-based sessions. Some cases in ocular disease and therapy and systemic disorders of vision will also be covered. The physical and biomedical sciences will include anatomy, physiology, optical physics, pharmacology, pathology, immunology and microbiology. Transition to Clinical Practice Workshop will prepare students to bridge the gap between the Vision Sciences and clinical practice. Student learning will be consolidated through team-based learning.

### Assessment

- Assessment task 1: Team-based learning – 10 x individual readiness assurance tests 30%, and
- Assessment task 2: Team readiness assurance tests 10%
- Assessment task 3: Team problem-based learning (PBL) research outcomes (Week 2 and Week 4) 10%
- Assessment task 4: Clinical Diagnosis Assessment (500 words) 10%
- Assessment task 5: Examination (2 hours) 40%

### Hurdle requirement

Successful completion of Professionalism and Placement (P & P) requirements in PBL as defined in the Optometry P & P guide.

## HMO204 – Principles and Practice of Optometry 1

*Enrolment modes: Trimester 1: Waurin Ponds (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Serap Azizoglu*

*Cohort rule: Must be enrolled in D302 Bachelor of Vision Science/Master of Optometry*

*Prerequisite: All of HBS107, HBS108, HMO101, HMO102, HMO201, MAA103, SLE111 and*

*HBS110 or HMO103 and*

*MMM132 or HMO105 and*

*SLE211 or HMO104 and*

*SLE221 or HMO202 and*

*One of SLE131 or SLE133 or SLE155*

*Corequisite: HMO203*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 3 x 2 hour clinical skills practicals; and 1 x 2 hour ophthalmic dispensing workshops per week for 10 weeks of trimester. 1 x 8 hour Transition to Clinical Practice workshop and up to 40 hours of clinical placements across the trimester*

### Content

In this unit students will gain skills in simple history-taking and patient examination. They will also be introduced to other competencies defined by the Optometry Council of Australia and New Zealand (OCANZ) including diagnosis, patient management; recording of clinical data and an introduction to the practical application of ophthalmic dispensing principles. They will explore legal and ethical issues drawn from the problem-based learning cases presented in HMO203 and gain knowledge and skills in professional practice associated with the cases. Finally they will consider the public and population health implications in identifying and managing the conditions presented in the cases. Transition to clinical practice will introduce students to clinical teaching concepts in preparation for ophthalmic care delivery.

### Assessment

- Assessment task 1: Clinical performance assessment – Practice and log three assigned clinical skills (with formative feedback provided) followed by Individual Procedure Assessments (IPAs). IPAs require demonstration of competency for each of the three skills on two separate occasions 35%
- Assessment task 2: Ophthalmic practical assessment (up to 1 hour) 15%

- Assessment task 3: communication video (10 minutes 20%) and individual reflection (15%); total 35%
- Assessment task 4: Refraction simulator task (3 x 20 minutes) 15%

### Hurdle requirement

- Demonstrate competency on two occasions in each of 3 clinical skills, as described above in AT1
- Successful completion of Professionalism and Placement (P & P) requirements, as defined in the Optometry P & P guide

## HMO300 – Optometric Clinical Skills Refresher

*Enrolment modes:*

*Trimester 2: Waurin Ponds (Geelong)*

*Trimester 3: Waurin Ponds (Geelong)*

*Credit point(s): 0*

*EFTSL value: 0.000*

*Trimester 2 Unit Chair: James Armitage*

*Trimester 3 Unit Chair: James Armitage*

*Cohort rule: Pre-requisite for Master of Optometry. Taken by any student who has completed Deakin's Bachelor of Vision Science but not within the previous 3 months, or any student who has completed a qualification deemed the equivalent of Deakin's Bachelor of Vision Science.*

*Prerequisite: Successful completion of Deakin's Bachelor of Vision Science, or equivalent.*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Approximately 190 hours of clinical placements across the second half of trimester.*

### Content

In this unit students will refresh their clinical skills and knowledge, across the areas of history taking, patient examination, patient diagnosis and patient management in the context of the common optometric conditions covered in the Bachelor of Vision Science. They will review the professional, public health, legal and ethical issues associated with providing optometric care to such patients, and, ultimately, reconfirm their level of clinical competence, prior to enrolling in the Master of Optometry. In completing this unit, students will consolidate both their foundation knowledge and their capacity to meet the competencies defined by the Optometry Council of Australia and New Zealand (OCANZ).

*Note: Students will be required to supply their own optometric equipment consistent with a list that is available on request from the School of Medicine. Please contact [medinfo@deakin.edu.au](mailto:medinfo@deakin.edu.au) for more information.*

## Assessment

Assessment task 1: A 7 station mini Clinical Evaluation Exercise (mini-CEX) will assess discrete learning outcomes 100%.

An Ungraded Pass/Ungraded Fail is awarded for this unit.

## HMO303 – Health and Vision Sciences 2

*Enrolment modes: Trimester 2: Waurn Ponds (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 2 Unit Chair: Lucy Ainge and James Armitage*

*Cohort rule: Must be enrolled in D302 Bachelor of Vision Science/Master of Optometry*

*Prerequisite: HMO203 and HMO204*

*Corequisite: HMO304*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 2 x 2 hours of problem-based learning seminars, up to 6 hours of classes and practicals and 2 hours of team-based learning for 10 weeks of trimester. 1 x 8 hours of Transition to Clinical Practice workshop.*

## Content

In this unit students will build on and extend their foundation knowledge from previous studies in HMO203, advancing their understanding of the physical and biomedical sciences underpinning optometric practice. Students will engage in further problem-based learning cases drawn from simple and common optometric conditions particularly those associated with developmental and refractive orders of vision. Classes and seminars will be offered in support of the problem-based sessions. Cases in ocular disease and therapy and systemic disorders of vision will also be covered. The physical and biomedical sciences will include anatomy, physiology, optical physics, pharmacology, pathology, immunology and microbiology. Transition to Clinical Practice workshops will prepare students to enter into optometry and ophthalmology clinics as observers. Student learning will be consolidated through team-based learning.

## Assessment

- Assessment task 1: Team-based learning – 10 x individual readiness assurance tests 35%, and
- Assessment task 2: Team readiness assurance tests 15%
- Assessment task 3: Examination (2 hours) 40%
- Assessment task 4: Clinical Diagnosis assessment 10%

## Hurdle requirement

- Successful completion of Professionalism and Placement (P & P) requirements as defined in the Optometry P & P guide.
- The requirement for passing the unit is that students score a pass mark in all aspects of the PBL Professionalism rubric for Time Management, Respect for Peers, Preparedness, Quality of Contribution and Teamwork when participating in the PBL tutorials which form the major learning vehicle in this unit.

## HMO304 – Principles and Practice of Optometry 2

*Enrolment modes: Trimester 2: Waurn Ponds (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 2 Unit Chair: Heather Connor*

*Cohort rule: Must be enrolled in D302 Bachelor of Vision Science/Master of Optometry*

*Prerequisite: HMO203 and HMO204*

*Corequisite: HMO303*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 3 x 2 hours of clinical skills seminars and 1 x 2 hour dispensing practical per week for 10 weeks of trimester. 1 x 8 hours of transition to clinical practice workshop and up to 70 hours of clinical placements across the trimester*

## Content

In this unit students will build on the foundations developed in HMO203 and HMO204. They will gain further skills in history-taking and patient examination. They will continue to apply other competencies defined by the Optometry Council of Australia and New Zealand (OCANZ) including diagnosis, patient management, recording of clinical data and practical application of ophthalmic dispensing principles. They will further explore legal and ethical issues drawn from the problem-based learning cases presented in HMO303 and gain clinical knowledge and skills in professional practice associated with the cases through clinical skills seminars.

In addition, students will consider in more depth public and population health implications in identifying and managing the conditions presented in the cases. Clinical skills seminars will develop skills based on the cases including developmental and refractive disorders of vision, ocular pathology, and systemic disorders of vision. Transition to clinical practice workshops will prepare students for clinical residential placement and highlight topical issues in optometric practice. Finally, students will be introduced to research methodology in preparation for an extended clinical research project, which will be commenced in later units.

## Assessment

- Assessment task 1: Clinical performance assessment – Practice and log four assigned clinical skills (with formative feedback provided) followed by Individual Procedure Assessments (IPAs). IPAs require demonstration of competency for each of the four skills on two separate occasions 25%
- Assessment task 2: Team-based project to produce a clinical skill demonstration video 20% and a group communication skills discussion and Individual Reflection. 20%
- Assessment task 3: Clinical case report 20%
- Assessment task 4: Refraction simulator task (3 x 20 mins) 15%

## Hurdle requirement

- Demonstrate competency on two occasions in each of 4 clinical skills, as described in AT1
- Successful completion of Professionalism and Placement (P & P) requirements, as defined in the Optometry P & P guide

## HMO305 – Health and Vision Sciences 3

*Enrolment modes: Trimester 3: Waurin Ponds (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 3 Unit Chair: Linda Robinson*

*Cohort rule: Must be enrolled in D302 Bachelor of Vision Science/Master of Optometry*

*Prerequisite: HMO303 and HMO304*

*Corequisite: HMO306*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 2 x 2 hours of problem-based learning seminars; up to 10 hours of classes; and 2 hours of team-based learning each week for 10 weeks of trimester.*

## Content

In this unit, students will build on, consolidate and then extend their knowledge, from previous units HMO203 and HMO303, in the physical and biomedical sciences underpinning optometric practice. Students will engage in further problem-based learning through cases drawn from a range of straightforward and more complex conditions. Cases will specifically span the refractive, binocular, developmental, age-related and systemic disorders that affect the eye. Classes and seminars will be offered in support of the problem-based sessions. The physical and biomedical sciences covered will be mainly anatomy and physiology, neurology and pharmacology, pathophysiology, therapeutics and advanced visual optics. Optometric diagnosis and management approaches will continue to be developed. Students will continue to exercise academic literacy and research skills through a series of classes and an assignment. Student learning will be consolidated through team-based learning.

## Assessment

- Assessment task 1: Team-based learning (comprising: 10 x individual readiness assurance tests 25%; team readiness assurance tests 10%) 35%
- Assessment task 2: Critical review (3000 words) 30%
- Assessment task 3: Clinical Diagnosis Assessment 10%
- Assessment task 4: Examination (2 hours) 25%

## Hurdle requirement

- Passing the examination is a hurdle requirement.
- Successful completion of Professionalism and Placement (P & P) requirements as defined in the Optometry P & P guide.

## HMO306 – Principles and Practice of Optometry 3

*Enrolment modes: Trimester 3: Waurin Ponds (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 3 Unit Chair: Geoff Sampson*

*Cohort rule: Must be enrolled in D302 Bachelor of Vision Science/Master of Optometry*

*Prerequisite: HMO303 and HMO304*

*Corequisite: HMO305*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 3 x 2 hour clinical skills seminars per week, 1 x 2 hour ophthalmic dispensing practical per fortnight and up to 8 hours of online IPE across the trimester. Up to 80 hours of clinical placements across the trimester. This includes ACO placements, workshops and external observations at optometry and ophthalmology practices.*

## Content

Students will consolidate, extend and apply their knowledge from previous units, HMO204 and HMO304, on the clinical competencies defined by the Optometry Council of Australia and New Zealand (OCANZ). This includes patient examination, recording of optometric clinical data, ocular diagnosis and patient management. They will also explore the clinical knowledge, professional practice skills, legal and ethical issues, and population health matters drawn from the problem-based learning cases presented in HMO305. Cases will span the refractive, binocular, developmental, age-related and systemic disorders that affect the eye. Knowledge and skills gained will be applied in clinical placements. Students will also prepare for working in a collaborative care environment through inter-professional education (IPE).

## Assessment

- Assessment task 1: Clinical communication workshop reflection (1000 words): 20%
- Assessment task 2: Ten station (10 minutes each) Objective Structured Clinical Exam (OSCE), conducted during exam period (passing 7 out of 10 stations and achieving an overall pass for the determined 10 station aggregate OSCE score is a hurdle requirement): 50%
- Assessment task 3: Case history video (10 minutes) and self-assessment of performance (500 words): 15%
- Assessment task 4: Inter-Professional Education (IPE) – 4 modules of self-directed stream: 15%

## Hurdle requirement

- Hurdle 1: Successful completion of Professionalism and Placement (P & P) requirements, as defined in the Optometry P & P guide
- Hurdle 2: Pass Objective Structured Clinical Exam (OSCE) (Passing 7 out of 10 stations and achieving an overall pass for the determined 10 station aggregate OSCE score is a hurdle requirement)
- Hurdle 3: Demonstrate competency on two occasions in each of 3 clinical skills (monocular refraction with binocular balance, slit-lamp-based fundus assessment, Goldmann tonometry)

# HMO700 – Optometric Clinical Competency Preparation

*Enrolment modes: Trimesters 1, 2 and 3: Waurin Ponds (Geelong)*

*Credit point(s): 0*

*EFTSL value: 0.000*

*Trimester 1 Unit Chair: Alex Gentle and James Armitage*

*Trimester 2 Unit Chair: Alex Gentle and James Armitage*

*Trimester 3 Unit Chair: Alex Gentle and James Armitage*

*Cohort rule: D302 and H710 students only*

*Prerequisite: Successful progression through at least one of the following Master of Optometry units; HMO701, HMO702 or HMO703*

*Corequisite: Nil*

*Incompatible with: Nil*

## Content

This unit is available to students who have experienced a delay in progression between units within the Master of Optometry. The unit will enable the students to refresh their clinical skills and demonstrate their level of clinical competence, prior to continuing in the Master of Optometry program. Students will consolidate both their foundation, pre-clinical and clinical knowledge as well as their capacity to practise safely as a student optometrist.

*Note: Students will be required to supply their own optometric equipment consistent with a list that is available on request from the School of Medicine. Please contact [medinfo@deakin.edu.au](mailto:medinfo@deakin.edu.au) for more information.*

## Assessment

Assessment task 1: A 7 station mini Clinical Evaluation Exercise (mini-CEX) will assess discrete learning outcomes 100%.

An Ungraded Pass/Ungraded Fail is awarded for this unit.

## Hurdle requirement

- Attendance at all clinical placements and comprehensive recording of clinical encounters in the online logbook
- Mini-CEX, passing all stations

# HMO701 – Advanced Optometric Studies 1

*Enrolment modes: Trimester 1: Waurin Ponds (Geelong)*

*Credit point(s): 4*

*EFTSL value: 0.500*

*Trimester 1 Unit Chair: Alex Gentle and Ash Chan*

*Cohort rule: Must be enrolled in D302 Bachelor of Vision Science/Master of Optometry or H710 Master of Optometry*

*Prerequisite: HMO305 and HMO306*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 2 x 2 hours problem-based learning seminars, 3 x 2 hours of clinical skills practicals, up to 10 hours of supporting classes, and 1 x 2 hours team-based learning sessions for 10 weeks of trimester; 1 x 8 hours of transition to clinical practice workshop, and up to 12 hours of inter-professional care plan development; up to 66 hours of clinical placements at the ACO, 3 x 4 hours of ophthalmology placements, and up to 6 hours of paediatric placement across the trimester.*

## Content

In this unit students will start to demonstrate their capacity to apply knowledge of the physical and biomedical sciences and the professional and business practices underpinning optometry in the clinical setting. Students will engage in problem-based learning cases drawn from more complex optometric conditions, associated with developmental and refractive disorders of vision, ocular disease and therapy and systemic disorders of vision. Classes, seminars, clinical laboratories and optometry and ophthalmology clinical placements will be offered in support of the problem-based sessions.

Students will complete an inter-professional education (IPE) module where they will be allocated into multi-disciplinary teams with students from across the faculty. They will work with these teams online to develop care plans for three complex cases.

Students will continue to gain the competencies for optometric practice, defined by the Optometry Council of Australia and New Zealand (OCANZ), across all aspects of ophthalmic examination and patient management, including: patient examination, diagnosis and management; optometric dispensing and business; and ethics, law and public health. Transition to clinical practice workshops will prepare students for clinical residential placement and highlight topical issues in optometric practice.

In this unit, students will examine their first patients under supervision at the Australian College of Optometry (ACO), and gain their first experiences of designing a clinical research project and collecting data.

*Note: If you have not completed the prerequisites HMO305 and HMO306 in the last three months please contact [health-enquire@deakin.edu.au](mailto:health-enquire@deakin.edu.au)*

## Assessment

- Assessment task 1: Team-based learning: 10 x individual readiness assurance tests and team readiness assurance tests 15%
- Assessment task 2: Research proposal (2000 words) and preliminary data submission 15%
- Assessment task 3: Supervisor assessment of ACO patient clinical examinations 20%
- Assessment task 4: Written examination (2 hours) 35%
- Assessment task 5: Inter-professional team care plan development 15%

## Hurdle requirement

- Successful completion of Professionalism and Placement (P&P) requirements, as defined in the Optometry P&P guide
- Ongoing completion of Clinical Skills Practical (CSP) Journal
- Submission of a personal learning plan covering clinical skills development and problem-solving readiness for the residential placement program

# HMO702 – Advanced Optometric Studies 2

*Enrolment modes: Trimester 2: Waurin Ponds (Geelong)*

*Credit point(s): 4*

*EFTSL value: 0.500*

*Trimester 2 Unit Chair: Alex Gentle and Alissa Maillet*

*Cohort rule: Must be enrolled in D302 Bachelor of Vision Science/Master of Optometry or H710 Master of Optometry*

*Prerequisite: HMO701*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Two x 2 hours of problem-based learning seminars, 3 x 2 hours of clinical skills practicals, 1 x 2 hours ophthalmic dispensing workshop, 1 x 2 hours of team-based learning seminar and up to 10 hours of supporting classes per week for 10 weeks of trimester. 1 x 8 hours of Transition to Clinical Practice workshop, 2 x 20 hours of clinical placements and 3 x 4.5 hours of ophthalmology placements across trimester.*

## Content

In this unit students will further develop and demonstrate their capacity to apply knowledge of the physical and biomedical sciences and the professional and business practices underpinning optometry in the clinical setting.

Students will engage in problem-based learning cases on more complex optometric conditions associated with developmental and refractive disorders of vision, ocular disease, ocular therapy and systemic disorders of vision. Classes, seminars, clinical skills practicals and clinical placements will be offered in support of the problem-based sessions.

Students will continue to gain the competencies for all aspects of optometric practice, as defined by the Optometry Council of Australia and New Zealand (OCANZ), including: patient examination, diagnosis and management; optometric dispensing and business; and ethics, law and public health.

Transition to clinical practice workshops will prepare students for clinical residential placement and highlight topical issues in optometric practice.

## Assessment

- Assessment task 1: Team-based learning: 10 x individual readiness assurance tests and team readiness assurance tests 15%
- Assessment task 2: Research data analysis and oral poster presentation (2000 words) 15%
- Assessment task 3: Objective Structured Clinical Examinations (OSCE) 25%
- Assessment task 4: Supervisor assessment of ACO patient clinical examinations 20%
- Assessment task 5: Written examination (2 hours) 25%

## Hurdle requirement

- Passing written examination
- Successful completion of Professionalism and Placement (P&P) requirements, as defined in the Optometry P&P Hurdle document
- Submission of a personal learning plan covering clinical skills development and problem-solving readiness for the residential placement program
- Passing 7 out of 10 OSCE stations and achieving an overall pass mark for the OSCEs is a hurdle requirement.

## HMO703 – Community Optometry 1

*Enrolment modes: Trimester 3: Waurin Ponds (Geelong)<sup>^</sup>*

*Credit point(s): 4*

*EFTSL value: 0.500*

*Trimester 3 Unit Chair: David Hammond and Jane Duffy*  
*Cohort rule: Must be enrolled in D302 Bachelor of Vision Science/Master of Optometry or H710 Master of Optometry*

*Prerequisite: HMO702*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: The equivalent of four days per week (approximately 8 work hours per day) placement, in community settings (approximately 15 weeks, some of which fall outside of the trimester period), plus one day per week (estimated 8 hour day), across 10 within-trimester weeks, undertaking a structured, Cloud (online) delivered program. This online program will involve engaging with specified resources, Cloud (online) interactivity and weekly webinar participation.*

## Content

In this unit students will undertake clinical placements in community optometry settings in metropolitan, rural and regional Australia for the equivalent of four days per week. Their learning will be supported by access to Cloud-accessible learning materials and an online log-book enabling them to map their clinical development progress. One further day per week will be devoted to completion of a Cloud-delivered learning program, self-directed private study and webinar participation. Students will extend their previous learning of the competencies for optometry practice defined by the Optometry Council of Australia and New Zealand (OCANZ) through application in the community optometry settings. There will be particular attention to assessment and prescribing of pharmacological interventions for common conditions in optometry. The experience gained will enable students to analyse and reflect upon legal and ethical issues; professional, management and business development; and the social, public and population health context of optometry practice.

*Note: <sup>^</sup>Students enrol at Waurin Ponds (Geelong) and undertake clinical placements in metropolitan, rural and regional Victoria.*

You will need to access substantial learning resources and experiences in CloudDeakin (Deakin's online learning environment). Compliance with the Standards in computing, connectivity and student capability are a condition on your enrolment.

## Assessment

- Assessment task 1: Supervisor's assessment of clinical performance 15%
- Assessment task 2: 2 x case reports (2000 words each) 30%
- Assessment task 3: Weekly online case-based assessment 40%
- Assessment task 4: Personal Learning Plan, Deakin staff assessment of logbook entries and Deakin staff assessment of professional identity 15%

## Hurdle requirement

- Attendance on all scheduled clinical residential placement days.
- Verified completion of on-line log-book entries for each clinical interaction, every day on placement.

# HMO704 – Community Optometry 2

*Enrolment modes: Trimester 1: Waurn Ponds (Geelong)^*

*Credit point(s): 4*

*EFTSL value: 0.500*

*Trimester 1 Unit Chair: Jane Duffy and Craig Woods*

*Cohort rule: Must be enrolled in D302 Bachelor of Vision Science/Master of Optometry or H710 Master of Optometry*

*Prerequisite: HMO703*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: The equivalent of four days per week (approx. 8 work hours per day) placement, in community settings (approximately 11 weeks, some of which fall outside of trimester time). Approximately 8 hours per week (the equivalent of 1 day), across 10 within-trimester weeks, undertaking a structured, Cloud-delivered program. This online program will involve engaging with specified resources, consisting of an online curriculum and twice-weekly webinar participation. Approximately 5 days (of 8 hours each, distributed across the two weeks constituting the final week of trimester and the study period) of structured consolidation of learning.*

## Content

In this unit students will continue to undertake clinical placements in extended community optometry settings in metropolitan, rural and regional Victoria for the equivalent of four days per week. Their learning will be supported by access to Cloud-accessible learning materials and an online logbook enabling them to map their clinical development progress. One further day per week will be devoted to completion of a Cloud-delivered learning program, self-directed private study and webinar participation. Students will continue to extend their previous learning of the competencies for optometry practice defined by the Optometry Council of Australia and New Zealand (OCANZ) to graduate level through application in the community optometry settings. Students will return to campus in the final two weeks of trimester, for face-to-face teaching and clinical training sessions, in order to consolidate their skills prior to their final assessments. There will be particular attention to assessment and prescribing of pharmacological interventions for common conditions in optometry. The experience gained will enable students to analyse, reflect upon and consolidate their understanding of legal and ethical issues; professional, management and business development; and the social, public and population health context of optometry practice.

*Note: ^Students enrol at Waurn Ponds (Geelong) and undertake clinical placements in metropolitan, rural and regional Victoria*

## Assessment

- Assessment task 1: Supervisor assessment of clinical performance 15%
- Assessment task 2: Clinical case communication tasks – 25% total (comprising 1 x case report (2000 words) 15% and 1 x verbal clinical conundrum presentation 10%)
- Assessment task 3: Weekly online case-based assessment 20%
- Assessment task 4: Objective Structured Clinical Examinations (OSCE, end-of-trimester examination period) 25%
- Assessment task 5: Personal Learning Plan, Deakin staff assessment of logbook entries and Deakin staff assessment of professional identity 15%

## Hurdle requirement

- Attendance on all scheduled clinical residential placement days
- Completion of on-line logbook entries for each clinical interaction
- Passing 7 out of 10 OSCE stations and achieving an overall pass mark for the OSCEs.

## HND701 – Pathophysiology of Diabetes

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*Previously coded as: HSD701*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Cath McNamara*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: HSN720*

*Scheduled learning activities – campus: Learning experiences are via FutureLearn*

### Content

This unit develops an understanding of the anatomy, physiology and pathology of Diabetes Mellitus (DM) and its complications. It enables the student to understand the complexities of the pathophysiology and methods of treatment of DM. On completion of the unit, students will be aware of the epidemiology and its complications and their impact in macroeconomic and social contexts. Students will understand the importance of health maintenance in the context of DM and will gain knowledge of how to reduce the risk of diabetes complications.

This unit explores the pathophysiological pathways that occur leading to a diagnosis of both type 1 and type 2 diabetes. The Unit material has been written by experts in their particular field and draws on current research and theory to explain the complexities behind diabetes and its complications.

The unit begins with an historical perspective encompassing the discovery of diabetes, the initial use of insulin in humans and explaining the distinction between the different types of diabetes. An epidemiological perspective shows how diabetes has evolved from a little known condition to a household word with many people in our communities touched somehow by some type of diabetes.

*Note: This unit uses the FutureLearn online learning platform*

### Assessment

- Assessment task 1: Written assignment 1 (2000 words) 40%
- Assessment task 2: Written assignment 2 (3000 words) 60%

### Prescribed texts

Bilous, R & Donnelly, R. 2010. Handbook of Diabetes (4th edition). Wiley-Blackwell, UK.

## HND702 – Management of Diabetes

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Cath McNamara*

*Prerequisite: HND701*

*Corequisite: Nil*

*Incompatible with: HSN720*

*Scheduled learning activities – campus: Online independent and collaborative learning activities including online content for each topic which is available on demand*

### Content

This unit enables students to understand the principles and practical application of methods of diabetes management – particularly diet, medication and lifestyle changes. The unit recognises the singularity of each person with diabetes, and the need to tailor management and education to each individual's requirements. The students will gain understanding of the educator's role in a multidisciplinary team and appreciate the team approach to diabetes care based in current National Standards of Practice for Diabetes Educators. The unit will provide students with the ability to recognise and appropriately advise in a diabetic emergency and to deliver accurate and current information to people with diabetes based on best evidence-based practice.

The unit content exposes students to management scenarios for a variety of diabetes related situations. It contextualises the role and scope of practice of varying disciplines now able to apply to become credentialed diabetes educators. It covers the broad spectrum of management from physical to pharmacological, from home to hospital.

*Note: This unit uses the FutureLearn online learning platform. Learn more about studying through FutureLearn*

### Assessment

- Assessment task 2: Written assignment (3000 words) 60%

### Prescribed texts

Bilous, R & Donnelly, R. 2010. Handbook of Diabetes (4th edition). Wiley-Blackwell, UK.

## HND731 – Learning and Teaching for Health Professionals

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*Previously coded as: HND631*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Virginia Hagger*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including online content for each topic which is available on demand*

### Content

The aim is for students to develop in-depth knowledge, skills, and values inherent in the teaching and learning processes that are important to practice as diabetes educators. People and their concerns are central to the core of the unit. The focus is on people as learners and the ways in which diabetes educators can facilitate learning processes. This unit identifies how facilitation of learning and teaching is associated with different health promotional approaches, traditional teaching methods, and creative teaching methods including reflective practices, motivational interviewing and use of internet technologies. The unit further aims to provide the psychological foundations of learning and the impact of group dynamics on teaching and learning.

This unit covers comprehensive perspectives of learning and teaching, as well as more specific ways of promoting and engaging in health education and health promotion. It has been designed to encourage practitioners in the field of health care education to examine and reflect on their methods of teaching. The first part of the unit presents information about the broader theoretical issues of learning and teaching which may influence the teaching process. The relationship between these theoretical concepts and the practice of education is constantly emphasised. The second part facilitates those skills necessary for educators such as practitioners in the field of diabetes education to implement and evaluate health education programs.

*Note: This unit uses the FutureLearn online learning platform. Learn more about studying through FutureLearn*

### Assessment

- Assessment task 1: Assignment (2000 words) 40%
- Assessment task 2: Assignment (3000 words) 60%

## HND732 – Diabetes in Social and Psychological Contexts

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*Previously coded as: HND632*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Virginia Hagger*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Learning experiences are via FutureLearn*

### Content

The aim is to facilitate students to develop in-depth understanding of the meaning of living with diabetes for an individual and their family in the context of nursing, psychology, sociology and other health related disciplines. Students will explore a number of contemporary issues in diabetes education practice and in caring for people with diabetes. The issues are placed in the context of sociological and psychological theories, health promotion principles, and best practice guidelines in diabetes education, based on contemporary national and international research. The unit acknowledges that global economic imperatives and the local and global market place influences diabetes education. Within this context, the unit explores a number of trends that impact on future diabetes practice.

This unit explores what it means to be diagnosed with diabetes; the problems of adjusting to a chronic illness and the role of family, friends and health professionals in that adjustment. The unit draws on nursing, psychological, and sociological perspectives to clarify the different problems that an individual with diabetes encounters and to formulate appropriate caring strategies. The unit addresses the psychosocial issues experienced by vulnerable groups in the community. The unit links contemporary diabetes practice to current research and provides a deep understanding of the links between practice, evidence-based practice and research.

The relationship between people with diabetes and health professionals and its impact on clinical outcomes underpins the unit, and strategies to facilitate good clinical communication, assessing health literacy, empowerment, and health promotion are provided. Students will explore a number of approaches to caring for people with diabetes and analyse their effectiveness.

*Note: This unit uses the FutureLearn online learning platform*

## Assessment

- Assessment task 1: Written assignment (2000 words) 40%
- Assessment task 2: Written assignment (3000 words) 60%

## HNM101 – Partnerships in Midwifery Care 1

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrnambool, Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Anna O'Connell*

*Cohort rule: Students must be enrolled in the Bachelor of Nursing/Bachelor of Midwifery to enrol in this unit*

*Campus contact: Waterfront (Geelong): Nicki Hartney  
Warrnambool: Erin Guiney*

*Prerequisite: Nil*

*Corequisite: All of HBS109, HNN120 and HNN112*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 20 Cloud (online) hours, 20 hours of face-to-face contact in seminar, 8 hours of experiential learning in structured simulation activities and 40 hours of clinical placement*

## Content

This is the initial midwifery unit within the Professional Studies Cluster and introduces students to professional and clinical midwifery issues within a quality and safety of care framework with a focus on pregnancy care. Students are introduced to the principles of continuity of midwifery practice across the continuum of care and the various contexts of midwifery care. Emphasis is placed upon the centrality of woman-centred care, incorporating: physical, emotional and mental health; encompassing socio-cultural diversity and needs of women and families from Aboriginal and Torres Strait Islander backgrounds and from other cultural groups. Students will have the opportunity to apply and integrate knowledge and skills learnt in this unit with previous learning during a one (1) week (40 hour) introduction to the clinical midwifery environment and by commencing Continuity of Care experiences.

## Assessment

- Assessment task 1: Group presentation (equivalent to 1000 words) 30%
- Assessment task 2: 3 x Cloud (online) tests (12 minutes each) 20%
- Assessment task 3: Examination (1.5 hours) 50%
- Assessment task 4: Clinical Practice requirements (equivalent to 1000 words) Pass/Fail

## Prescribed texts

*Note: these texts are utilised for the duration of your midwifery studies (across the 4 years)*

Midwifery Text (choose one of the following):

## HNM102 – Partnerships in Midwifery Care 2

*Enrolment modes: Trimester 2: Burwood (Melbourne), Waterfront (Geelong), Warrnambool*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Nicki Hartney*

*Cohort rule: Students must be enrolled in the Bachelor of Nursing/Bachelor of Midwifery to enrol in this unit*

*Campus contact: Waterfront (Geelong): Nicki Hartney  
Burwood (Melbourne): Anna O'Connell*

*Prerequisite: All of HNM101 and HNN112*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 16 Cloud (online) hours, 16 hours of face-to-face contact in seminar, 6 hours of experiential learning in structured simulation activities and 80 hours of clinical placement*

## Content

This midwifery unit within the Clinical Studies Cluster, introduces students to clinical and professional midwifery issues using a quality and safety of care framework with a focus on care of the woman during labour and birth. The content builds on the previous units studied and extends students' knowledge, skills and attributes in relation to caring for women during labour and birth and immediately in the postnatal period. The unit provides opportunities for students to develop further their knowledge of the anatomy and physiology which underpins the process of labour and birth. Students will explore the role of the midwife in supporting a woman in labour to optimise the outcome of a physiological birth, incorporating physical, emotional and spiritual dimensions of care. The cultural needs of women from Aboriginal and/or Torres Strait Islander families and other cultural groups will be encompassed. Students will have opportunity to apply and integrate knowledge and skills learnt in this unit and previous units during a two (2) week (80 hour) clinical placement and by continuing to recruit and maintain Continuity of Care experiences.

## Assessment

- Assessment task 1: Group presentation (equivalent to 1000 words) 30%
- Assessment task 2: 3 x Cloud (online) tests (12 minutes each) 20%
- Assessment task 3: Examination (1.5 hours) 50%
- Assessment task 4: Clinical Practice requirements (equivalent to 1000 words) Pass/Fail

## HNM201 – Partnerships in Midwifery Care 3

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrnambool, Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Erin Guiney*

*Cohort rule: Students must be enrolled in D355 Bachelor of Nursing/Bachelor of Midwifery to enrol in this unit*

*Campus contact:*

*Burwood (Melbourne): Monique Vermeulen*

*Waterfront (Geelong): Dolores Dooley*

*Prerequisite: HNM102*

*Corequisite: HNN227*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 16 Cloud (online) hours, 16 hours of face-to-face contact in tutorials, 6 hours of experiential learning in structured simulation activities and 80 hours of clinical placement*

## Content

This unit forms part of the Clinical Studies Cluster and continues to build and extend the student's understanding of professional and clinical midwifery issues within a quality and safety of care framework.

The aim of this unit is to introduce students to various aspects of postnatal care for the woman and her infant, providing the opportunity for students to examine the normal maternal physiological changes that occur in the postnatal phase and the adaptations of the newborn infant. Students will explore strategies inherent to midwifery care that support the health education needs of a woman such as infant feeding options, immunisation, infant safety and the potential emotional changes that may be experienced by the woman in the postnatal period. The legal responsibilities of the midwife in relation to mandatory reporting and child protection will be explored together with cultural dimensions of postnatal care. Students will have opportunity to apply and integrate knowledge and skills learnt in this unit and previous units during a two (2) week (80 hour) clinical placement and by continuing to recruit and maintain Continuity of Care experiences.

## Assessment

- Assessment task 1: Written assignment (1000 words) 30%
- Assessment task 2: Group presentation (equivalent to 600 words) 20%
- Assessment task 3: Examination (1.5 hours) 50%
- Assessment task 4: Clinical Practice requirements (equivalent to 1000 words) Pass/Fail

## HNM202 – Collaboration in Midwifery Care

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrnambool, Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Monique Vermeulen*

*Cohort rule: Students must be enrolled in D355 Bachelor of Nursing/Bachelor of Midwifery to enrol in this unit*

*Campus contact: Waterfront (Geelong): Nicki Hartney*

*Warrnambool: Erin Guiney*

*Prerequisite: HNM201*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 16 Cloud (online) hours, 16 hours of face-to-face contact in tutorials, 6 hours of experiential learning in structured simulation activities and 80 hours of clinical placement*

## Content

This is a second year unit within the Clinical Studies Cluster and introduces the student to caring for the woman who experiences complications in pregnancy, labour and birth and/or postnatal period related to existing or emerging pathophysiology. The aim of this unit is to extend the student's understanding of physiological changes that occur across the continuum of care, to inform assessment and midwifery care where the risk of maternal or foetal complications has been identified. The role of collaboration within a multidisciplinary care model will be explored using the Australian College of Midwives' National Midwifery Guidelines for Consultation and Referral.

Students will have opportunity to apply and integrate knowledge and skills learnt in this unit and previous units during a two (2) week (80 hour) clinical placement and by continuing to recruit and maintain Continuity of Care experiences.

## Assessment

- Assessment task 1: Written assignment (1000 words) 30%
- Assessment task 2: 3 x 12 minute cloud (online) tests 20%
- Assessment task 3: Examination (1.5 hours) 50%
- Assessment task 4: Clinical Practice requirements (equivalent to 1000 words) Pass/Fail

## HNM310 – Midwifery Practice 1

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrnambool, Waterfront (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 2 Unit Chair: Nicki Hartney*

*Cohort rule: Students must be enrolled in D355 Bachelor of Nursing/Bachelor of Midwifery to enrol in this unit*

*Campus contact:*

*Burwood (Melbourne): Monique Vermeulen*

*Warrnambool: Erin Guiney*

*Prerequisite: All of HNM215, HNM323, HNM202*

*Corequisite: Nil*

*Incompatible with: HNM226*

*Scheduled learning activities – campus: 6 Cloud (online) hours, 6 hours undertaking face-to-face contact in seminars and individual consultations if required during the trimester. Experiential learning will include continuity of care experiences and 192 hours of clinical placement which may include 40 hours in a Special Care Nursery environment*

## Content

In this unit student learning focuses on developing and consolidating midwifery knowledge, skills and competencies through extended clinical learning experiences in midwifery practice settings. Students will have the opportunity to observe the midwife's role and function within a multidisciplinary maternity care team and participate in supervised care of women, newborn infants, and their families during the 192 hour clinical placement and by continuing to recruit and maintain Continuity of Care experiences.

## Assessment

- Assessment task 1: Clinical placements (192 hours)
- Assessment task 2: Midwifery learning tools – Pass/Fail
- Assessment task 3: Continuity of care experiences
- Assessment task 4: Other clinical experiences

## HNM311 – Midwifery Practice 2

*Enrolment modes: Trimester 1: Burwood (Melbourne), CBD\*, Warrnambool, Waterfront (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Nicki Hartney*

*Cohort rule: Students must be enrolled in D355 Bachelor of Nursing/Bachelor of Midwifery to enrol in this unit*

*Campus contact:*

*Burwood (Melbourne): Monique Vermeulen*

*Warrnambool: Erin Guiney*

*Prerequisite: HNM310*

*Corequisite: HNM313*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 6 Cloud (online) based hours, 6 hours undertaking face-to-face contact in seminars and individual consultations during the trimester. Experiential learning 288 hours of clinical placement which may include 40 hours in a Special Care Nursery environment.*

## Content

This is the second of two extended clinical practice units within the Clinical Studies Cluster where student learning focuses on consolidating and extending midwifery knowledge, skills and attributes through extended clinical learning experiences in midwifery practice settings. Students will have the opportunity to observe the midwife's role and function within a multidisciplinary maternity care team and participate in supervised care of women, newborn infants, and their families during the 288 hour clinical placement and by continuing to recruit and maintain Continuity of Care experiences.

*Note: \*CBD refers to Institute of Koorie Education – Community Based Delivery*

## Assessment

- Assessment task 1: Formative and Summative Clinical assessment Pass/Fail
- Assessment task 2: Midwifery Portfolio Pass/Fail
- Assessment task 3: Maintain Continuity of Care experiences with women during pregnancy, birth, and following birth

## Department of Human Services policy – Police Record Check and Working With Children Check

In accordance with Department of Human Services policy, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course.

In accordance with the Department of Justice 2007, Working with Children Act 2005, amended 2017, all students are required to undertake a Working with Children Check at the commencement of their course. Students who fail to obtain a Police Record Check and a Working with Children Check prior to the commencement of clinical placement will not be able to undertake clinical placement and this will impede progress in the course.

Students may also be required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience. A health organisation may refuse to accept a student for placement if the student's immunisation status is not satisfactory to the health organisation.

## HN313 – Complexities in Midwifery Care

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrnambool, Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Nicki Hartney*

*Cohort rule: Students must be enrolled in the Bachelor of Nursing/Bachelor of Midwifery to enrol in this unit*

*Campus contact:*

*Burwood (Melbourne) Monique Vermeulen*

*Warrnambool: Erin Guiney*

*Prerequisite: All of HNN215, HNN227 and HNN323*

*Corequisite: HNN222*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 6 Cloud (online) based hours, 16 hours of face-to-face contact in seminars and 6 hours of experiential learning in structured simulation activities. Experiential learning will also include continuity of care experiences.*

## Content

In this unit, one of three Year 4 units within the Clinical Studies Cluster; the student is introduced to caring for the woman experiencing an emergency event in pregnancy, labour and birth and/or the postnatal period. The aim of this unit is to relate anatomy and pathophysiology to the prevention or early detection and response of the midwife in a maternal emergency. The principles of safe and quality care will be applied to the emergency setting with a focus on the handover of care, communication, teamwork and leadership.

## Assessment

- Assessment task 1: 3 x 12 minute cloud (online) tests 20%
- Assessment task 2: Group presentation – Skill demonstration (equivalent to 1500 words) 50%
- Assessment task 3: Written assignment (1000 words) 30%
- Assessment task 4: Unit Clinical Pass/Fail (equivalent to 1000 words): Continuity of Care Experiences

## HNM314 – Primary Midwifery Practice

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrnambool, Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Anna O'Connell*

*Cohort rule: Students must be enrolled in D355 Bachelor of Nursing/Bachelor of Midwifery to enrol in this unit*

*Campus contact: Waterfront (Geelong): Dolores Dooley  
Warrnambool: Erin Guiney*

*Prerequisite: HNM311*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 6 hours seminar and 16 hours Cloud (online)*

### Content

This is the final midwifery specific unit and forms part of the Professional Studies in Nursing and Midwifery cluster which builds on all previous units of study by providing students with the opportunities to explore issues influencing contemporary midwifery practice. Opportunities are provided for students to critically examine issues of women's health care related to social, cultural, political and ethical frameworks. It is expected that during the two (2) week (80 hour) clinical placement students will apply and integrate knowledge and skills learned in this unit and all previous units to comprehend the role of a Division 1 registered nurse who also holds endorsement as a midwife in contemporary nursing and midwifery practice in a variety of health care and maternity service settings.

### Assessment

- Assessment task 1: Written Assignment (equivalent to 1000 words) 30%
- Assessment task 2: Group Presentation (equivalent to 2000 words) 50%
- Assessment task 3: Meta-reflection and Midwifery Portfolio (equivalent to 500 words) 20%
- Assessment task 4: Clinical Practice requirements Pass/Fail

### Midwifery Portfolio

To meet the Nursing and Midwifery Board of Australia's midwife registration requirements students upon completion of clinical placement, are required to submit their completed Midwifery Portfolio and completed Continuity of Care experiences to their campus chair.

## Department of Human Services policy – Police Record Check and Working With Children Check

In accordance with Department of Human Services policy, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course.

In accordance with the Department of Justice 2007, Working with Children Act 2005, amended 2017, all students are required to undertake a Working with Children Check at the commencement of their course. Students who fail to obtain a Police Record Check and a Working with Children Check prior to the commencement of clinical placement will not be able to undertake clinical placement and this will impede progress in the course.

Students may also be required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience. A health organisation may refuse to accept a student for placement if the student's immunisation status is not satisfactory to the health organisation.

## HNM323 – Challenges in Infant Care

*Enrolment modes: Trimester 1: Burwood (Melbourne), Warrnambool, Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Dolores Dooley*

*Cohort rule: Students must be enrolled in D355 Bachelor of Nursing/Bachelor of Midwifery to enrol in this unit*

*Campus contact: Burwood (Melbourne): Anna O'Connell  
Warrnambool: Erin Guiney*

*Prerequisite: HNM202*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Contact hours: 6 Cloud (online) hours, 16 hours of face-to-face contact in tutorials, 6 hours of experiential learning in structured simulation activities*

## Content

In this unit, the first of two Year 3 units within the Clinical Studies Cluster, students will examine the physiological changes of infants at birth including the challenges of care for the pre-term, small for gestational age and term infants who develop complex health issues; and care delivered in collaboration with a multidisciplinary team of health professionals. Aims of this unit include developing the student's knowledge, skills and competencies to care for the neonate and family where a newborn requires admission to a Special Care Nursery.

## Assessment

- Assessment task 1: Group Presentation (equivalent 500 words) 20%.
- Assessment task 2: Written Assignment (equivalent 1000 words) 30%.
- Assessment task 3: Examination (1.5 hours) 50%
- Assessment task 4: Unit Clinical Pass/Fail (equivalent to 1000 words)

## Department of Human Services policy – Police Record Check and Working With Children Check

In accordance with Department of Human Services policy, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course.

In accordance with the Department of Justice 2007, Working with Children Act 2005, amended 2017, all students are required to undertake a Working with Children Check at the commencement of their course. Students who fail to obtain a Police Record Check and a Working with Children Check prior to the commencement of clinical placement will not be able to undertake clinical placement and this will impede progress in the course.

Students may also be required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience. A health organisation may refuse to accept a student for placement if the student's immunisation status is not satisfactory to the health organisation.

## HNM701 – The Woman During Pregnancy, Labour and Birth

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Monique Vermeulen*

*Cohort rule: Only available to students enrolled in H676 Graduate Diploma of Midwifery*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Theoretical component 96 hours; clinical practicum 156 hours.*

*A two-week intensive program is conducted at the Burwood Melbourne campus in mid-February [HN701 and HN702] and nominated 'study days' are conducted throughout each of the trimesters over the 18 months of the course.*

## Content

Emphasis is placed upon midwifery health assessments incorporating physical, emotional and mental health of the woman and that of the foetus and soon after birth health assessment of the new mother and her infant. The midwife's responsibilities as a primary health care provider including a referral and collaboration role with other health care professionals are presented, encompassing health promotion and education. Woman-centred is promoted to support individualised care incorporating socio-cultural diversity, including Aboriginal and Torres Strait Islander Peoples and women from other cultural groups; and supporting the needs of the community related to maternity services.

*Note: Classes are conducted at Burwood (Melbourne) and video conferenced live to other venues.*

*Cloud (online) teaching methods and independent learning activities require internet access.*

## Assessment

- Assessment task 1: Two online examinations (1000 words) 20%
- Assessment task 2: Assignment (5000 words) 50%
- Assessment task 3: Examination (2 hours, 2000 words) 30%
- Assessment task 4: Clinical assessment: (156 hours) Pass/Fail

## Clinical assessment

Satisfactory completion of the Victorian Standardised Clinical Assessment Tool for Midwifery Students (competency based learning), incorporating the National Competency Standards for the Midwife. They include: Abdominal Examination of a Pregnant Woman; Care of the Woman Progressing in Labour; Initial Assessment of the Pregnant Woman; Ongoing Pregnancy Care; Parenting Education for the Woman and her Family and Performing and Interpreting a Cardiotocograph Tracing on a Pregnant Woman. These are pass/fail assessments. Students are required to maintain a Midwifery Portfolio including reflective practice entries and commence Continuity of Care experiences. Students are required to successfully complete practice requirements to support their application to Australian Health Practitioner Regulation Agency (AHPRA) for registration as a 'midwife', Nursing and Midwifery Board of Australia (NMBA).

## HNM702 – The Woman and Newborn Infant

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Anna O'Connell*

*Cohort rule: Only available to students enrolled in H676*

*Graduate Diploma of Midwifery*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Theoretical component 50 hours; clinical practicum 120 hours.*

*A two-week intensive program is conducted at the Burwood Melbourne campus in mid-February [HN701 and HN702] and nominated 'study days' are conducted throughout each of the trimesters over the 18 months of the course.*

## Content

This unit examines the physiology of the puerperium and the healthy newborn infant immediately following birth; incorporates midwifery care of the women after birth including family planning, sexuality and relationships. It also covers newborn infant behaviour, nutritional needs and breastfeeding; neonatal screening tests, immunisation; and community resources available for the woman and her infant.

Emphasis is placed upon woman-centred care, the midwife's responsibilities as a primary health provider including a referral role to other health professionals; health promotion and education.

*Note: Classes are conducted at Burwood (Melbourne) and video conferenced live to other venues.*

## Assessment

- Assessment task 1: Assignment (1500 words) 40%
- Assessment task 2: Examination (2 hours, 2000 words) 50%
- Assessment task 3: Clinical reflection (equivalent 500 words) 10%
- Assessment task 4: Clinical assessment (120 hours) Pass/Fail

## Clinical assessment

Satisfactory completion of the Victorian Standardised Clinical Assessment Tool for Midwifery Students (competency based learning), incorporating the Australian Midwifery Council's National Competency Standards for the Midwife. They include: Administering Injections to the Newborn Infant; Breastfeeding Challenges for the Mother and Baby, Facilitating Breastfeeding for the Mother and Baby, Mother and Baby Wellbeing Assessment following Birth; Care of the Woman who has had a Caesarean Section and Blood Screening of the Newborn Baby. These are pass/fail assessments. Students are required to maintain a Midwifery Portfolio including reflective practice entries. Commencement and continuation of Continuity of Care experiences. Students are required to successfully complete practice requirements to support their application to Australian Health Practitioner Regulation Agency (AHPRA) for registration as a 'midwife', Nursing and Midwifery Board of Australia (NMBA).

## HN703 – Contexts of Midwifery Practice

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Dolores Dooley*

*Cohort rule: Only available to students enrolled in H676*

*Graduate Diploma of Midwifery*

*Prerequisite: HN701, HN702*

*Corequisite: HN704*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Theoretical component 50 hours; clinical practicum 24 hours.*

*Note: Cloud (online) teaching methods and independent learning activities require internet access.*

*Nominated 'study days' are conducted throughout each of the trimesters over the 18 months of the course.*

## Content

This unit reviews definitions of the midwife, drawing on historical, philosophical, art, scientific and cultural elements. Midwifery practice is examined according to professional organisations, e.g. the Australian Nursing and Midwifery Accreditation Council ("ANMAC"), Australian College of Midwives (ACM), and Australian Health Practitioner Regulation Agency (AHPRA) through the Nursing and Midwifery Board of Australia ("NMBA"). The scope of midwifery practice, competencies, professional responsibilities of a midwife (e.g. primary care, referral role and education, models of care, and maternity services available to childbearing women) are presented. Women's health issues across the lifespan are explored.

## Assessment

- Assessment task 1: Assignment (1500 words) 40%
- Assessment task 2: Assignment (2500 words) 60%

## Clinical assessment

The interim competency of the Victorian Standardised Clinical Assessment Tool for Midwifery Students is to be completed. This is a pass/fail assessment.

Students are required to maintain a Midwifery Portfolio including reflective practice entries. Commencement and continuation of Continuity of Care experiences.

Students are required to successfully complete practice requirements to support their application to AHPRA for registration as a 'midwife', NMBA.

## Hurdle requirement

- Midwifery practice Experience Pass/Fail
- Clinical assessment (24 hours) Pass/Fail
- Competency assessment Pass/Fail

# HNM704 – Clinical Challenges in Maternity Care

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Monique Vermeulen*

*Cohort rule: Only available to students enrolled in H676*

*Graduate Diploma of Midwifery*

*Prerequisite: HNM701 and HNM702*

*Corequisite: HNM703*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Theoretical component 50 hours; clinical practicum 120 hours.*

*Nominated 'study days' are conducted throughout each of the trimesters over the 18 months of the course.*

## Content

This unit reviews the pathophysiology related to complex health issues of the woman and her foetus during pregnancy, or following birth; the midwife's referral role to other health professionals. It also encompasses ethical, legal issues, loss and grief and community resources.

*Note: Classes are conducted at Burwood (Melbourne) and video conferenced live to other venues.*

*Cloud (online) teaching methods and independent learning activities require internet access.*

## Assessment

- Assessment task 1: Assignment (1500 words) 40%
- Assessment task 2: Examination (2 hours, 2000 words) 50%
- Assessment task 3: Clinical reflection (equivalent 500 words) 10%
- Assessment task 4: Clinical assessment (120 hours) Pass/Fail

Students are required to successfully complete practice requirements to support their application to AHPRA for registration as a 'midwife', NMBA.

Satisfactory completion of the Victorian Standardised Clinical Assessment Tools for Midwifery Students (competency based learning), incorporating the Australian nursing and Midwifery Council's (2006) National Competency Standards for the Midwife. They include: Care of the Mother and Baby with Increased Needs in Labour, Care of the Woman on Admission to Birth Environment, Management of Pain Relief in Labour, Management of an Induction of Labour, Performing and Interpreting a Cardiograph Tracing on

a Labouring Woman, Performing a Vaginal Examination and Reception and Care of the Newborn Baby. These are pass/fail assessments. Students are required to maintain a Midwifery Portfolio including reflective practice entries and records of learning opportunities. Commencement and continuation of Continuity of Care experiences (minimum of 10 hours each). Students are required to successfully complete practice requirements to support their application to Australian Health Practitioner Regulation Agency (“AHPRA”) for registration as a midwife to the Nursing and Midwifery Board of Australia (“NMBA”).

## HNM705 – Clinical Challenges in Infant Care

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Dolores Dooley*

*Cohort rule: Only available to students enrolled in H676*

*Graduate Diploma of Midwifery*

*Prerequisite: HNM701, HNM702, HNM703, HNM704*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Theoretical component 50 hours; clinical practicum 120 hours.*

*Nominated ‘study days’ are conducted throughout each of the trimesters over the 18 months of the course.*

### Content

This unit reviews the pathophysiology related to health concerns of the sick, pre-term and small gestational age infant, and the appropriate midwifery care including biophysical assessment and procedures to evaluate health and well-being. Midwifery care extends to parents and families, including a referral role to other health professionals, community resources with reference to ethical, legal issues, loss and grief.

*Note: All classes/seminars are conducted at Burwood (Melbourne) and video conferenced live to other venues.*

### Assessment

- Assessment task 1: Assignment (1500 words) 40%
- Assessment task 2: Examination (2 hours, 2000 words) 50%
- Assessment task 3: Clinical reflection (500 words) 10%

### Hurdle requirement

- Satisfactory completion of the Victorian Standardised Clinical Assessment Tool for Midwifery Students (competency based learning), incorporating the Australian Nursing and Midwifery Council’s (2006) National Competency Standards for the Midwife. They include: Care of the Unwell Baby Receiving Oxygen Therapy, Care of the Baby Receiving Phototherapy, Enteral/Tube Feeding of the Unwell Baby, Full Examination of the Newborn, Neonatal Resuscitation via Simulation. The final competency assessment is to be completed. These are pass/fail assessments.
- Students are required to maintain a Midwifery Portfolio including reflective practice entries and records of learning opportunities and complete a minimum of five (5) Continuity of Care experiences (minimum of 10 hours each). Students are required to successfully complete practice requirements to support their application to Australian Health Practitioner Regulation Agency (“AHPRA”) for registration as a midwife, the Nursing and Midwifery Board of Australia (“NMBA”).

## HNN021 – Nursing Practice in Australia

*Enrolment modes: Corporate Teaching Period 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Cohort rule: Students must be enrolled in H011 Return to Practice and Initial Registration (Overseas Nurses)*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Intensive unit made up of 56 hours of classes, seminars and cloud concepts and 30 hours simulation*

### Content

In this unit students are provided with an opportunity to gain knowledge of contemporary Australian nursing practice. Issues relevant to professional practice of nurses in Australia are presented based on current evidence. Students have the opportunity to further develop and practice nursing skills and interventions consistent with the current requirements of the Australian health care system in a simulated ward environment. The simulated environment provides opportunities for students to demonstrate clinical competence prior to clinical practicum.

## Assessment

- Assessment task 1: Written assignment (1500 words) 40%
- Assessment task 2: Examination (1.5 hours) 40%
- Assessment task 3: Skills assessment task (15 minutes) 20%

## Prescribed texts

## HNN025 – Clinical Practicum

*Enrolment modes: Corporate Teaching Period 2: Burwood (Melbourne)*

*Credit point(s): 2  
EFTSL value: 0.250*

*Cohort rule: Students must be enrolled in H011 Return to Practice and Initial Registration (Overseas Nurses)*

*Prerequisite: Nil  
Corequisite: Nil  
Incompatible with: Nil*

*Scheduled learning activities – campus: 160 hours clinical placement*

## Content

The clinical practicum is an integral component of the course. This experience provides the student with the opportunity to apply and consolidate knowledge and skills developed from past experience and the academic component of this course. Prior to attending clinical placements, students must develop their personal learning objectives, review the rules governing clinical placement, the stated clinical learning objectives and assessment criteria.

Students will undertake a clinical practicum of 160 hours in which the theoretical content, including clinical skills, decision making and provision of patient safety will be practised under supervision.

## HNN026 – Legal Ethical and Contemporary Issues in Australian Nursing Practice

*Enrolment modes: Corporate Teaching Period 2: Burwood (Melbourne)*

*Credit point(s): 1  
EFTSL value: 0.125*

*Cohort rule: Students must be enrolled in H011 Return to Practice and Initial Registration (Overseas Nurses)*

*Prerequisite: Nil  
Corequisite: Nil  
Incompatible with: Nil*

*Scheduled learning activities – campus: Intensive unit made up of 32 hours of classes, could concepts and simulation*

## Content

This unit will introduce the students to expectations of the profession including scope of practice for registered nurses, current issues, professional development and preparation for employment in Australia. The unit will also introduce cultural safety in particular issues relevant to Aboriginal and Torres Strait Islanders and refugees within the Australian social, cultural, political and economic context in which health services operate as well as legal, ethical, political, social and cultural principles as they relate to nursing in Australia.

## Assessment

- Assessment task 1: Group presentation (equivalent to 1500 words) 40%
- Assessment task 2: Written assignment (1000 words) 20%
- Assessment task 3: Examination (1.5 hours) 40%

## HNN108 – Understanding Research Evidence

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrnambool, Waterfront (Geelong), Waurn Ponds (Geelong), CBD\**

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Emily Tomlinson*

*Cohort rule: Must be enrolled in course D355, D381, D387, H326, H329*

*Campus contact:*

*Burwood (Melbourne): Bec Vanderheide*

*Warrnambool: Suzanne Coulson*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: HBS108*

*Scheduled learning activities – campus: 2 Cloud (online) hours per week, 1 x 2-hour seminar per week*

## Content

This unit forms part of the Supportive Studies Cluster. Students have the opportunity to explore the role of research in clinical decision-making, and the processes involved in producing and evaluating knowledge based

on research. At an introductory level students will learn the principles of conducting research, evaluating existing research and ways of appraising evidence to inform clinical practice. Evidence-based practice is a major component of quality care delivery and the ability to appraise evidence from all sources is an important foundational skill.

*Note: \*CBD refers to Institute of Koorie Education – Community Based Delivery*

## Assessment

- Assessment task 1: Written assignment (2000 words) 50%
- Assessment task 2: Examination (2 hours) 50%

## HNN112 – Quality and Safety: Nursing Practice 1

*Enrolment modes: Trimester 1: Burwood (Melbourne), CBD\*, Warrnambool, Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Jayne Porter*

*Cohort rule: Must be enrolled in course D355, D381, D387, H326, H329*

*Campus contact: Waterfront (Geelong): Claire Crossfield  
Warrnambool: Sophie O'Keeffe*

*Prerequisite: Nil*

*Corequisite: HNN120*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 2 Cloud (online) hours, 1 x 2 hour seminar, 1 x 2 hour simulation session per week and 40 hour clinical placement*

## Content

This unit is the first of two in the Clinical Studies Cluster: Year 1. Aligned with quality and safety principles opportunities are provided for students to explore and develop nursing knowledge and foundational skills for the provision of person-centred care. Key concepts to be addressed include assessment and management of patient functional status and potential for risk and injury. In addition promotion of patient comfort will be explored. During a one (1) week clinical placement students will have the opportunity to further develop and apply relevant knowledge and skills learned in this and other units.

*Note: \*CBD refers to Institute of Koorie Education – Community Based Delivery*

## Assessment

- Assessment task 1: Online tests 3 x 20 minutes (equivalent 1000 words) 40%
- Assessment task 2: Clinical assessment: 40 hours pass/fail
- Assessment task 3: Examination (2 hours) 60%

## Hurdle requirement

Skills (equivalent 500 words)

## Department of Human Services policy – Police Record Check and Working With Children Check

In accordance with Department of Human Services policy, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course.

In accordance with the Department of Justice 2007, Working with Children Act 2005, amended 2017, all students are required to undertake a Working with Children Check at the commencement of their course. Students who fail to obtain a Police Record Check and a Working with Children Check prior to the commencement of clinical placement will not be able to undertake clinical placement and this will impede progress in the course.

Students may also be required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience. A health organisation may refuse to accept a student for placement if the student's immunisation status is not satisfactory to the health organisation.

## Prescribed texts

## HNN114 – Health Assessment

*Enrolment modes:*

*Trimester 2: Burwood (Melbourne), CBD\*, Warrnambool, Waterfront (Geelong)*

*Trimester 3: Burwood (Melbourne) – only available for commencing students with Recognition of Prior Learning for the pre-requisite units, CBD\**

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Josh Allen*

*Trimester 3 Unit Chair: Josh Allen*

*Cohort rule: Must be enrolled in course D355, D381, D387, H326, H329 or be an Enrolled Nurse undertaking a single unit enrolment*

*Campus contact: Waterfront (Geelong): Matt Jackson*

*Warrnambool: Christopher Wakefield*

*Prerequisite: HBS109, HNN112*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 2 hour class or equivalent cloud (online) presentation/s, 1 x 2 hour simulation session per week*

## Content

Health assessment is a foundational skill for nurses in all contexts of care and forms part of the Supportive Studies Cluster. In this unit students have the opportunity to develop the knowledge, techniques and skills required by the nurse to perform comprehensive and focused health assessment of individuals. Assessment informs identification of patient problems in relation to risk, symptoms and patient function. Appropriate use of assessment data will assist students to further develop clinical decision making skills foundational to the provision of quality patient care.

*Note: \*CBD refers to Institute of Koorie Education – Community Based Delivery*

## Assessment

- Assessment task 1: Online tests 3 x 15 minute tests (equivalent 800 words) 20%
- Assessment task 2: Assignment (1500 words) 40%
- Assessment task 3: Skills assessment (15 minutes, equivalent 1500 words) 40%

## HNN120 – Quality and Safety in Health Care

*Enrolment modes: Trimester 1: Burwood (Melbourne), CBD\*, Warrnambool, Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Sophie O’Keeffe*

*Cohort rule: Must be enrolled in course D355, D381, D387, H326, H329*

*Campus contact:*

*Burwood (Melbourne): Rebecca Thornton*

*Waterfront (Geelong): Belinda Dean*

*IKE: Kelly Menzel*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 2 Cloud (online) hours, 1 x 2 hour seminar per week*

### Content

This is the first of two units within the Professional Studies Cluster. Students will be given the opportunity to develop understanding of contemporary nursing practice, the political and legal contexts in which it is regulated. Students will also explore local and global issues influencing the nursing profession including the emergence of the patient safety movement and the role of nurses in promoting patient safety and quality care. This will include the examination of the underpinning principles of patient safety in health care including: person-centred care, communication, ethical practice, evidence-based practice, health informatics, clinical decision making, and team work.

*Note: \*CBD refers to Institute of Koorie Education – Community Based Delivery*

### Assessment

- Assessment task 1: ePortfolio presentation (equivalent to 500 words) 15%
- Assessment task 2: Assignment (1500 words) 35%
- Assessment task 3: ePortfolio Group presentation and reflection (equivalent to 2000 words) 50%

### Prescribed texts

## HNN122 – Quality and Safety: Nursing Practice 2

*Enrolment modes:*

*Trimester 2: Burwood (Melbourne), CBD\*, Warrnambool, Waterfront (Geelong)*

*Trimester 3: Burwood (Melbourne) – only available for commencing students with Recognition of Prior Learning for the pre-requisite units*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 2 Unit Chair: Elyse Coffey*

*Trimester 3 Unit Chair: Elyse Coffey*

*Cohort rule: Must be enrolled in course D355, D381, D387, H326, H329 or be an Enrolled Nurse undertaking a single unit enrolment*

*Campus contact: Trimester 2*

*Waterfront (Geelong): Jennifer Hosking*

*Warrnambool: Christopher Wakefield*

*Prerequisite: HNN112*

*Corequisite: HNN114*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 2 Cloud (online) hours, 1 x 2 hour seminar, 1 x 2 hour simulation session per week and 80 hours of clinical placement*

### Content

This unit is the second unit in the Clinical Studies Cluster: Year 1. In this unit nursing knowledge and skills introduced in previous units are further developed in the provision of person-centred care. Within the context of pre and post procedural care students will develop an understanding of symptom management: pain, nausea and vomiting, altered fluid and electrolytes, infection, constipation, dyspnoea, fatigue, anxiety, and grief. Symptom management will be presented in the context of comprehensive and focused assessment, implementation of appropriate evidence-based interventions, and evaluation of outcomes. The principles of pharmacodynamics and pharmacokinetics will be introduced as the foundation for therapeutic use of medicines. During a two (2) week clinical placement students will have the opportunity to further develop and apply knowledge and skills learned in this unit and previous units.

*Note: \*CBD refers to Institute of Koorie Education – Community Based Delivery*

## Assessment

- Assessment task 1: Online tests 4 x 30 minutes (equivalent 2000 words) 40%
- Assessment task 2: Examination (2 hours) 60%
- Assessment task 3: Clinical assessment pass/fail (equivalent 2000 words)

## Hurdle requirement

Skills (equivalent 1500 words)

## Department of Human Services policy – Police Record Check and Working With Children Check

In accordance with Department of Human Services policy, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course.

In accordance with the Department of Justice 2007, Working with Children Act 2005, amended 2017, all students are required to undertake a Working with Children Check at the commencement of their course. Students who fail to obtain a Police Record Check and a Working with Children Check prior to the commencement of clinical placement will not be able to undertake clinical placement and this will impede progress in the course.

Students may also be required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience. A health organisation may refuse to accept a student for placement if the student's immunisation status is not satisfactory to the health organisation.

## HNN207 – Maternity Nursing: Pregnancy, Birth and the Newborn

*Enrolment modes:*

*Trimester 2: Cloud (online) – enrolment quota applies*

*Trimester 3: Cloud (online) – enrolment quota applies*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Erin Guiney*

*Trimester 3 Unit Chair: Monique Vermeulen*

*Cohort rule: This unit is only available to students enrolled in H326 Bachelor of Nursing*

*Prerequisite: All of HBS107, HBS109, HNN114*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 3 x 1 hour online seminars (recordings provided)*

## Content

This online elective unit is designed to provide nursing students with the opportunity to explore and develop basic understandings of maternity care in the Australian context. This knowledge will inform students of fundamental principles of maternity care for women and their newborn infant/s. Students will be introduced to the physiological and psychological adaptations that occur during the uncomplicated pregnancy, childbirth and the early postnatal period. Students will be introduced to the role of the multidisciplinary health care team.

## Assessment

- Assessment task 1: Online tests (3 x 15 minutes MCQ tests equivalent to 800 words) 20%
- Assessment task 2: Assignment (equivalent to 1000 words) 30%
- Assessment task 3: Assignment (equivalent to 2000 words) 50%

## Prescribed texts

Marshall, JE, Myles textbook for midwives, (Chirchill Livingstone, Edinburgh, 16th edn, 2014)

## HNN208 – Perspectives on Leadership and Management

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Stephane Bouchoucha*

*Cohort rule: Must be enrolled in course H329*

*Prerequisite: All of HBS107, HBS109, HNN108, HNN112, HNN114, HNN120, HNN122*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x Cloud (online) based hour per week, 5 face-to-face seminars over the trimester (4 x 2 hours and 1 x 1 hour) and up to 20 hours of clinical mentor observation*

### Content

This unit is the first of four units in the Bachelor of Nursing (Clinical Leadership) that focus on the development and enhancement of leadership potential. In this unit students will be introduced to the concepts underpinning leadership and management. Students will be matched with a mentor from the clinical setting whose role involves significant leadership and management in quality and safety. Through this collegial relationship students will have the opportunity to observe and reflect upon elements of leadership and management inherent in their mentor's role and identify the particular characteristics and attributes contributing to their mentor's approach.

### Assessment

- Assessment task 1: Assignment (equivalent to 1500 words) 40%
- Assessment task 2: Assignment (equivalent to 2500 words) 60%

## HNN210 – Perspectives on Research Leadership

*Enrolment modes: Trimester 2: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Bec Vanderheide*

*Cohort rule: Must be enrolled in course H329*

*Prerequisite: HNN208*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x Cloud (online) based hour per week, 3 face-to-face seminars over the trimester (3 x 2 hours) and up to 20 hours of clinical mentor observation.*

### Content

This unit is the second of four units in the Bachelor of Nursing (Clinical Leadership) that focus on the development and enhancement of leadership potential. In this unit students will have the opportunity to build on their basic research knowledge and be involved in research mentorship. Through research mentorship students will have the opportunity to join a research team and engage in data collection related to quality and patient safety with a symptom management focus and reflect upon the research question under investigation.

### Assessment

- Assessment task 1: Assignment (equivalent to 1500 words) 40%
- Assessment task 2: Assignment (equivalent to 2500 words) 60%

## HNN215 – Quality Use of Medicines

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), CBD\*, Warrnambool, Waterfront (Geelong)*

*Trimester 2: Burwood (Melbourne), CBD\*, Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Laura Brooks*

*Trimester 2 Unit Chair: Linda Rhodes*

*Cohort rule: Must be enrolled in course D355, D381, D387, H326, H329, S323*

*Campus contact: Burwood (Melbourne): Linda Rhodes*

*Waterfront (Geelong): Laura Brooks*

*Warrnambool: Christopher Wakefield*

*Prerequisite: All of HBS109, HNN114 and HNN122 or for students enrolled in S323 Bachelor of Biomedical Science all of HBS109, SLE115 and SLE211*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 2 Cloud (online) hours, 1 x 2 hour seminar per week*

## Content

In this unit, which forms part of the Supportive Studies Cluster, students' knowledge of safe administration of medications within a range of contexts will be extended. Students will have the opportunity to further their knowledge of broad drug classes, pharmacokinetics, pharmacodynamics, and quality use of medications in health care. The main focus of learning in this unit will be the nurse's role in medication management, including safe administration practices, knowledge of risks such as medication error, adverse effects and drug interactions. The benefits of patient participation in medication management and patient education will also be addressed.

*Note: \*CBD refers to Institute of Koorie Education – Community Based Delivery*

## Assessment

- Assessment task 1: Case study (1500 words) 40%
- Assessment task 2: Examination (2 hours) 60%

## Prescribed texts

AMA 2016, Australian medicines handbook, Australian Medical Association, Adelaide, SA. Broyles, B, Reiss, B, Evans, M, McKenzie, G, Pleunik, S & Page, R 2017, Pharmacology in nursing, A&NZ 2nd edn, Cengage Learning, South Melbourne, Vic.

## HNN216 – International Nursing Study Tour

*Enrolment modes: Trimester 1, Trimester 2, Trimester 3: Study tour*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Jennifer Hosking*

*Trimester 2 Unit Chair: Elijah Marangu*

*Trimester 3 Unit Chair: Linda Rhodes*

*Cohort rule: Must be enrolled in course D355, D381, D387, H326, H329*

*Prerequisite: Must have passed a minimum of 8 credit points at level 1 which must include: HBS109, HNN112, HNN114, HNN120, HNN122*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 2 x 2 hour briefing sessions, study tour of approximately 2 weeks*

## Content

This elective unit which forms part of the Parallel Nursing Studies cluster within the curriculum, will provide second or third year students with the opportunity to learn about the context of nursing from an international perspective. The unit will be conducted in the form of a study tour of a pre-determined country and is designed to provide nursing students with the opportunity to enhance their understanding of cross-cultural health and nursing care. The study tour will consist of a range of activities designed to link students with policy makers, health care workers, health consumers and health agencies in the host country. Students will also participate where possible, in fieldwork and or clinical practicum activities during the study tour.

## Assessment

Assessment task 1: Reflective journal (4000 words)  
100% Pass/Fail (ungraded pass)

## HNN217 – Community Nursing Practice

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), CBD\*, Waterfront (Geelong)*

*Trimester 2: Burwood (Melbourne), CBD\*, Warrnambool, Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Belinda Dean*

*Trimester 2 Unit Chair: Carmel Duff*

*Cohort rule: Must be enrolled in course D355, D381, D387, H326, H329*

*Campus contact: Waterfront (Geelong): Belinda Dean  
Warrnambool: Suzanne Coulson*

*Prerequisite: All of HBS109, HNN114, HNN122*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 2 Cloud (online) hours, 1 x 2 hour seminar, 1 x 1 hour simulation session per week and 40 hour clinical placement*

## Content

This is one of three units within the Clinical Studies Cluster: Year 2. Students are provided with the opportunity to examine the range of roles and differing philosophies applicable to community nursing practice.

The knowledge and skills required to assess and manage the needs of individuals, families, carers, and communities will be explored. In addition, health trends related to the increasing diversity of the population in the 21st century and the subsequent role of the community nurse in promoting health and preventing disease will be examined. The unit offers students an opportunity to learn about the nurse's role in working with Australia's vulnerable populations, and has a focus on Aboriginal and Torres Strait Islander health issues. During a one (1) week clinical placement students will have the opportunity to further develop and apply knowledge and skills learned in this unit and previous units.

*Note: \*CBD refers to Institute of Koorie Education – Community Based Delivery*

## Assessment

- Assessment task 1: Assignment (1500 words) 40%
- Assessment task 2: Assignment (2000 words) 60%
- Assessment task 3: Clinical assessment Pass/fail

Failure of the clinical component will lead to a fail in this unit and may lead to exclusion.

## Department of Human Services policy – Police Record Check and Working With Children Check

In accordance with Department of Human Services policy, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course.

In accordance with the Department of Justice 2007, Working with Children Act 2005, amended 2017, all students are required to undertake a Working with Children Check at the commencement of their course. Students who fail to obtain a Police Record Check and a Working with Children Check prior to the commencement of clinical placement will not be able to undertake clinical placement and this will impede progress in the course.

Students may also be required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience. A health organisation may refuse to accept a student for placement if the student's immunisation status is not satisfactory to the health organisation.

# HNN222 – Mental Health and Illness

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), CBD\*, Waterfront (Geelong)*

*Trimester 2: Burwood (Melbourne), CBD\*, Warrnambool, Waterfront (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Elijah Marangu*

*Trimester 2 Unit Chair: Elijah Marangu*

*Cohort rule: Must be enrolled in course D355, D381, D387, H326, H329*

*Campus contact: Burwood (Melbourne): Fiona Kumar*

*Prerequisite: All of HBS109, HNN114, HNN122*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1.5 Cloud (online) hours, 2 x 2 hour seminars per week and 120 hour clinical placement*

## Content

This unit is one of three within the Clinical Studies Cluster: Year 2 and aims to guide students in their development of knowledge that informs clinical decision making and skill development when caring for people who present with mental illness. A key focus will be on the impact of symptoms on the patient and family function, management of symptoms, and risk management of the person diagnosed with mental illness. Students will have the opportunity to develop skills in assessment of patients with mental illness such as basic psychiatric interviewing, mental status examination, and risk assessment. These concepts will be explored within the context of the therapeutic relationship whilst maintaining patient safety. During a three (3) week clinical placement students will have the opportunity to further develop and apply knowledge and skills learned in this unit and previous units.

*Note: \*CBD refers to Institute of Koorie Education – Community Based Delivery*

## Assessment

- Assessment task 1: Group presentation (equivalent to 1500 words) 15%
- Assessment task 2: Assignment (2000 words) 35%
- Assessment task 3: Examination (2 hours) 50%
- Assessment task 4: Clinical assessment (equivalent 1500 words) Pass/fail

## Department of Human Services policy – Police Record Check and Working With Children Check

In accordance with Department of Human Services policy, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course.

In accordance with the Department of Justice 2007, Working with Children Act 2005, amended 2017, all students are required to undertake a Working with Children Check at the commencement of their course. Students who fail to obtain a Police Record Check and a Working with Children Check prior to the commencement of clinical placement will not be able to undertake clinical placement and this will impede progress in the course.

Students may also be required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience. A health organisation may refuse to accept a student for placement if the student's immunisation status is not satisfactory to the health organisation.

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 2 Cloud (online) hours, 1 x 2 hour seminar, 1 x 2 hour simulation session per week and 160 hour clinical placement*

## Content

This unit is one of three units within the Clinical Studies Cluster: Year 2. The unit aims to provide opportunities for students to develop knowledge and skills related specifically to the assessment and management of patients experiencing acute episodic illness in hospital. The focus of learning is on the identification of risk, the management of symptoms, and the impact of hospitalisation on patients' functional abilities. During a four (4) week clinical placement students will have the opportunity to further develop and apply knowledge and skills learned in this unit and previous units.

*Note: \*CBD refers to Institute of Koorie Education – Community Based Delivery*

## Assessment

- Assessment task 1: Online tests 3 x 30 minutes (equivalent 1500 words) 40%
- Assessment task 2: Simulation Skills – Pass/fail
- Assessment task 3: Clinical assessment – Pass/fail
- Assessment task 4: Examination (2 hours) 60%

## Hurdle requirement

- Clinical skills (equivalent 1500 words)
- Failure of the clinical component will lead to a fail in this unit and may lead to exclusion.

## Department of Human Services policy – Police Record Check and Working With Children Check

In accordance with Department of Human Services policy, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course.

In accordance with the Department of Justice 2007, Working with Children Act 2005, amended 2017, all students are required to undertake a Working with Children Check at the commencement of their course. Students who fail to obtain a Police Record Check and a Working with Children Check prior to the commencement of clinical placement will not be able to undertake clinical placement and this will impede progress in the course.

Students may also be required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience. A health organisation may refuse to accept a student for placement if the student's immunisation status is not satisfactory to the health organisation.

## HNN300 – Child and Adolescent Health

*Enrolment modes: Trimester 2: Burwood (Melbourne), CBD\*, Warrnambool, Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Rebecca Thornton*

*Cohort rule: Must be enrolled in course D355, D381, D387, H326, H329 or an Enrolled Nurse undertaking single unit enrolment*

*Campus contact: Waterfront (Geelong): Dolores Dooley  
Warrnambool: Sophie O’Keeffe*

*Prerequisite: All of HBS109, HNN114, HNN122*

*Corequisite: Nil*

*Scheduled learning activities – campus: 2 Cloud (online) hours, 1 x 2 hour seminar per week*

### Content

The unit forms part of the Supportive Studies Cluster. Caring for children and adolescents presents particular challenges for nurses requiring an appraisal of growth and development, legal and ethical responsibilities of the nurse and how these impact on the requirements specific to these age groups. In this context opportunities will be provided for students to develop a systematic body of knowledge about the role and responsibilities of the nurse in managing symptoms, risk, and identifying appropriate evidence-based interventions to promote optimal functional status and development of the child or adolescent. Opportunities will be provided for students to examine current social and health issues relating to children and adolescents.

*Note: \*CBD refers to Institute of Koorie Education – Community Based Delivery*

### Assessment

- Assessment task 1: Assignment 1 (1500 words) 40%
- Assessment task 2: Examination (2 hours) 60%

## HNN301 – Mental Health Promotion

*Enrolment modes: Trimester 2: Burwood (Melbourne), CBD\*, Warrnambool, Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Louise Chadwick Johnston*

*Cohort rule: Must be enrolled in course D355, D381, D387, H326, H329*

*Campus contact:*

*Waterfront (Geelong): Sally Buchanan-Hagen  
Warrnambool: Erin Guiney*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour class or equivalent cloud (online) presentation/s, 1 x 2 hour seminar per week*

### Content

The unit forms part of the Parallel Nursing Studies cluster and aims to extend students’ knowledge of mental health issues and nursing practice exploring the social, economic, environmental, and political factors that influence mental health. Students will examine areas of risk and protective factors for mental health with a focus on contemporary mental health issues across the lifespan. In addition, students are provided with opportunities to examine the key role of nurses in identifying risk factors, early intervention, mental health promotion, and prevention of mental health problems.

*Note: \*CBD refers to Institute of Koorie Education – Community Based Delivery*

### Assessment

- Assessment task 1: Assignment (equivalent 1500 words) 40%
- Assessment task 2: Assignment (equivalent 2500 words) 60%

### Recommended texts

Barry, M and Jenkins, R 2007, Implementing Mental Health Promotion, Churchill Livingstone, Philadelphia.

## HNN313 – Perioperative Nursing

*Enrolment modes:*

*Trimester 1: Cloud (online)*

*Trimester 2: Cloud (online)*

*Enrolment quotas apply*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Elyse Coffey*

*Trimester 2 Unit Chair: Naomi Mahon*

*Cohort rule: (Normally students must be enrolled in H326 Bachelor of Nursing to enrol in this unit)*

*Prerequisite: HNN122 and HBS109*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 3 x 1 hour online seminars (recordings provided)*

### Content

This elective unit provides second or third year students with the opportunity to learn about another context of nursing. This unit will introduce key concepts necessary for nursing surgical patients experiencing anaesthesia and surgery, providing insight into the continuum of care. Students will further expand their knowledge on patient-centred care, the roles of the perioperative nursing within the interdisciplinary team, evidence-based practice, quality and safety approaches in perioperative nursing.

### Assessment

- Assessment task 1: video presentations (3 x 600 words) 45%
- Assessment task 2: Written assignment (2000 words) 55%

## HNN318 – The Older Person and Supportive Care

*Enrolment modes: Trimester 1: Burwood (Melbourne), CBD\*, Warrnambool, Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Lenore Ley*

*Cohort rule: Must be enrolled in course D355, D381, D387, H326, H329*

*Campus contact: Waterfront (Geelong): Monica Schoch*

*Warrnambool: Suzanne Coulson*

*IKE: Kelly Menzel*

*Prerequisite: All of HBS109, HNN114, HNN122, HNN227*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 2 cloud (online) hours, 1 x 2 hour seminar per week, 80 hour clinical placement*

### Content

This unit is one of three units within the Clinical Studies Cluster: Year 3. The learning in the unit will include an overview of an ageing population from a global, individual and carer perspective. Students will have the opportunity to develop knowledge and skills relevant to the safe coordination of care of the older person. In addition they will explore the effect of physiological change on function, promotion of wellness for the older person, and provision of supportive and end of life care. During a two (2) week clinical placement students will have the opportunity to further develop and apply knowledge and skills learned in this unit and previous units.

*Note: \*CBD refers to Institute of Koorie Education – Community Based Delivery*

### Assessment

- Assessment task 1: Group poster presentation (equivalent 1000 words) 40%
- Assessment task 2: Written assignment (2000 words) 60%
- Assessment task 3: Clinical assessment Pass/fail

Failure of the clinical component will lead to a fail in this unit and may lead to exclusion.

## Department of Human Services policy – Police Record Check and Working With Children Check

In accordance with Department of Human Services policy, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course.

In accordance with the Department of Justice 2007, Working with Children Act 2005, amended 2017, all students are required to undertake a Working with Children Check at the commencement of their course. Students who fail to obtain a Police Record Check and a Working with Children Check prior to the commencement of clinical placement will not be able to undertake clinical placement and this will impede progress in the course.

Students may also be required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience. A health organisation may refuse to accept a student for placement if the student's immunisation status is not satisfactory to the health organisation.

## HNN319 – Chronic Illness and Supportive Care

*Enrolment modes: Trimester 1: Burwood (Melbourne), CBD\*, Warrnambool, Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Monica Schoch*

*Cohort rule: Must be enrolled in course D355, D381, D387, H326, H329*

*Campus contact: Burwood (Melbourne): Carmel Duff  
Warrnambool: Suzanne Coulson  
IKE: Kelly Menzel*

*Prerequisite: All of HBS109, HNN114, HNN122 and HNN227*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 cloud (online) hour, 1 x 2 hour seminar, 1 x 2 hour simulation session per week and 80 hour clinical placement*

### Content

This unit is one of three within the Clinical Studies Cluster: Year 3. The unit provides opportunities for students to develop understanding of the emerging perspectives of chronic illnesses and their psychosocial impact.

Students will develop knowledge and skills relevant to the management of symptoms associated with a range of chronic illnesses and risk management strategies to promote quality patient outcomes. Students will explore the cognitive, social, and psychological impact of the burden of disease and the nurse's role in the multidisciplinary team in providing supportive care for individuals living with chronic illness. During a two (2) week clinical placement students will have the opportunity to further develop and apply knowledge and skills learned in this unit and previous units.

*Note: \*CBD refers to Institute of Koorie Education – Community Based Delivery*

### Assessment

- Assessment task 1: Assignment (1000 words) 40%
- Assessment task 2: Examination (2 hours) 60%
- Assessment task 3: Clinical assessment Pass/fail

Failure of the clinical component will lead to a fail in this unit and may lead to exclusion.

## Department of Human Services policy – Police Record Check and Working With Children Check

In accordance with Department of Human Services policy, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course.

In accordance with the Department of Justice 2007, Working with Children Act 2005, amended 2017, all students are required to undertake a Working with Children Check at the commencement of their course. Students who fail to obtain a Police Record Check and a Working with Children Check prior to the commencement of clinical placement will not be able to undertake clinical placement and this will impede progress in the course.

Students may also be required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience. A health organisation may refuse to accept a student for placement if the student's immunisation status is not satisfactory to the health organisation.

## HNN320 – Leadership and Clinical Governance

*Enrolment modes: Trimester 1: Burwood (Melbourne), CBD\*, Warrnambool, Waterfront (Geelong)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Jane Walker*

*Cohort rule: Must be enrolled in course D355, D381, D387, H326, H329*

*Campus contact: Waterfront (Geelong): Claire Crossfield  
Warrnambool: Erin Guiney*

*IKE: Kelly Menzel*

*Prerequisite: All of HBS109, HNN114, HNN120, HNN122, HNN227*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Trimester 1: 2 cloud (online) hours, 1 x 2 hour seminar per week*

### Content

This unit is the second of two units within the Professional Studies Cluster which incrementally develop students' understanding of the issues influencing contemporary nursing practice and their role as a member of a health care team. Students will have the opportunity to reflect upon their own development through the course and identify their strengths and interests as well as areas for development. A key focus of the learning in the unit will be on the registered nurse's leadership role in clinical risk management, clinical governance, quality improvement and change management. This unit is designed to assist students in their transition from student to registered nurse.

*Note: \*CBD refers to Institute of Koorie Education – Community Based Delivery*

### Assessment

- Assessment task 1: Assignment (equivalent to 1500 words) 40%
- Assessment task 2: Assignment (equivalent to 2500 words) 60%

## HNN321 – Perspectives on Educational Leadership

*Enrolment modes: Trimester 1: Burwood (Melbourne)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Helen Forbes*

*Cohort rule: Must be enrolled in course H329*

*Prerequisite: All of HBS107, HBS109, HNN108, HNN112, HNN120, HNN114, HNN122, HNN208, HNN210, HNN215, HNN217, HNN222, HNN227*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 3 x 2 hour face-to-face seminars and 4 hours teaching observation over the trimester and up to 8 hours of mentored teaching practice and 2 x cloud (online) hours*

### Content

This unit is the fourth of four units in the Bachelor of Nursing (Clinical Leadership) that focus on the development and enhancement of leadership potential. In this unit students will draw upon their leadership acumen to support the learning and skill development of others. Students will have the opportunity to partner with a teacher to observe, develop and practice teaching and facilitation skills in preparation for an expanded role in clinical practice. The learning in the unit will be sequentially developed through observation and mentored practice.

### Assessment

- Assessment task 1: Assignment (equivalent to 1500 words) 40%
- Assessment task 2: Assignment (equivalent to 2500 words) 60%

# HNN325 – Comprehensive Nursing Practice

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), CBD\*, Waterfront (Geelong)*

*Trimester 2: Burwood (Melbourne), CBD\*, Warrnambool, Waterfront (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Matthew Jackson*

*Trimester 2 Unit Chair: Laura Brooks*

*Cohort rule: Must be enrolled in course D355, D381, D387, H326, H329*

*Campus contact: Burwood (Melbourne): Pauline Wong  
Warrnambool: Sophie O'Keeffe*

*Prerequisite: For courses D355, D381, D387, H326 – All of HBS109, HNN114, HNN122, HNN217, HNN222, HNN227, HNN215, HNN318, HNN319 and 2 elective units, at least one of the electives must be taken at level 2 or 3.*

*For course H329 – All of HBS109, HNN114, HNN122, HNN217, HNN222, HNN227, HNN215, HNN318, HNN319, HNN208, HNN210, HNN321.*

*Corequisite: All of HNN108, HNN300, HNN301, HNN320  
Incompatible with: Nil*

*Scheduled learning activities – campus: 2 cloud (online) hours, 1 x 2 hour seminar, 1 x 2 hour simulation session per week and 200 hour clinical placement*

## Content

This unit is one of three in the Clinical Studies Cluster: Year 3. In this unit students are provided with the opportunity to consolidate and extend knowledge, skills, and attributes and apply them to complex dynamic patient situations. The major focus will be on clinical decision-making in the management of complex patient situations including the effects of co-morbidities on treatment and recovery. In addition, students will further develop skills in managing patient symptoms, and the impact of complex illness on functional status. During a five (5) week clinical placement students will have the opportunity to further develop and apply relevant knowledge and skills learned in this unit and all previous units in preparation for the role of the registered nurse in a variety of health care settings.

*Note: \*CBD refers to Institute of Koorie Education – Community Based Delivery*

## Assessment

- Assessment task 1: Online tests – 3 x 30 minutes
- Assessment task 2: Examination (2 hours) 60%

## Department of Human Services policy – Police Record Check and Working With Children Check

In accordance with Department of Human Services policy, all students are required to undertake a National Police Record Check prior to clinical placements in each calendar year of their course.

In accordance with the Department of Justice 2007, Working with Children Act 2005, amended 2017, all students are required to undertake a Working with Children Check at the commencement of their course. Students who fail to obtain a Police Record Check and a Working with Children Check prior to the commencement of clinical placement will not be able to undertake clinical placement and this will impede progress in the course.

Students may also be required to declare their immunisation status to satisfy the requirements of health organisations where they will be undertaking their clinical learning experience. A health organisation may refuse to accept a student for placement if the student's immunisation status is not satisfactory to the health organisation.

### Hurdle requirement

- Skills hurdle requirement (equivalent 1500 words)
- Clinical assessment Pass/fail (equivalent 2500 words)

Failure of the clinical component will lead to a fail in this unit and may lead to exclusion.

## HNN348 – Rural and Remote Area Nursing

*Enrolment modes:*

*Trimester 1: Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Carmel Duff*

*Trimester 3 Unit Chair: Monica Schoch*

*Cohort rule: This unit is only available to students enrolled in H326 Bachelor of Nursing*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: HNN448*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 3 x 1 hour online seminars (recordings provided)*

## Content

This online elective unit is designed to provide nursing students with the opportunity to explore and develop basic understanding of rural and remote area nursing in Australia. Students will examine the role of the nurse practising in rural and remote communities and explore issues impacting on individuals, families and communities. Students will also have the opportunity to identify resources, examine models of practice and gain an understanding of the benefits and challenges of rural and remote area nursing.

## Assessment

- Assessment task 1: Assignment 1 (equivalent 800 words) 20%
- Assessment task 2: Assignment 2 (1200 words) 30%
- Assessment task 3: Assignment 3 (equivalent 2000 words) 50%

## HNN704 – Clinical Leadership and Collaborative Practice

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Grainne Lowe*

*Cohort rule: Must be enrolled in one of the following courses: H645, H665, H666, H667, H672, H675, H676, H771, H773, H776 or undertaken as a single unit of study*

*Prerequisite: All of HNN730 and HNN731*

*Corequisite: HNN780*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 3 x 1 hour online seminars (recordings provided)*

## Content

This unit aims to prepare students for their role as a Nurse Practitioner through their clinical leadership and collaborative practice within the social political, economic and cultural contexts of health care delivery, specific for the specialty practice of their clinical domain. Leadership style and theories related to clinical, professional and political contexts; mentorship and advanced teamwork supported by effective relationship building management and boundary management; and, legal and socio-political issues relevant to the nurse practitioner's role, will be examined.

Clinical leadership promoted by role modelling, effective communication, collaboration, conflict resolution, negotiation and consultation skills with colleagues and other health professionals, supported by attributes required to extend professional knowledge and practice will be examined.

This unit is a core unit of the Master of Nursing Practice (Nurse Practitioner). In addition to the academic requirements and assessment tasks listed below, students who plan on applying to the Nursing and Midwifery Board of Australia (NMBA) for endorsement as a Nurse Practitioner, are required to:

- Undertake 20 hours of approved clinical placement per week in each trimester of study in the course.
- Successfully complete at least one Clinical Competency Assessment Tool (CCAT) linked to this unit.
- Continuously maintain the Professional Portfolio, details of which are provided on the Master of Nursing Practice (Nurse Practitioner) course site.

## Assessment

- Assessment task 1: Written assignment (2500 words) 50%
- Assessment task 2: Written assignment (2500 words) 50%

## HNN713 – International Nursing and Midwifery Study Tour

*Offering information: Not offered Trimester 2 2019*

*Enrolment modes: Trimester 2*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Elizabeth Oldland*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

## Content

This elective unit forms part of the Master of Nursing Practice and will provide registered nurses and midwives with an opportunity to learn about international contexts of nursing and midwifery. The unit will be conducted in the form of a study tour to a pre-determined country and is designed to provide experienced registered nurses and midwives with the opportunity to enhance their understanding of cross-cultural health, nursing care and health care systems.

The study tour will consist of a range of activities designed to link students with policy makers, health care workers, health consumers and health agencies in the host country. Students will also participate in, where possible, designated fieldwork and or clinical activities during the study tour.

*Note: Places are limited – students should contact the School of Nursing and Midwifery to enrol in this unit.*

## Assessment

- Assessment task 1: Assignment (2000 word equivalent) 40%
- Assessment task 2: Assignment/Reflective Journal (3000 words) 60%

## HNN714 – Ethical Dimensions in Nursing and Midwifery

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Bec Vanderheide*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: HNN414*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 3 x 1 hour online seminars (recordings provided)*

## Content

This unit has as its focus a critical examination of the ethical dimensions of nursing and midwifery. Using ethical principlism, moral rights, virtue ethics, and cross-cultural ethics as decision-making frames, the unit aims to provide students with an opportunity to explore and reflect critically on a range of key ethical issues arising in contemporary nursing and midwifery practice and related health care domains. To this end, particular attention is given to the issues of: the nature of nursing and midwifery ethics and the professional requirement to be ethical; the relationship between the legal, clinical and ethical dimensions of nursing and midwifery; cross-cultural ethics; ethical decision making; vulnerability and dehumanisation; patients' rights to and in health care; mental health care ethics; matters of life and death; professional judgment; moral quandaries and the demand to 'take appropriate action' to prevent harm; professional obligations to report harmful behaviours; nursing and midwifery ethics futures; and, the problem of inequities in health and health care.

*Note: Title change for 2019*

## Assessment

- Assessment task 1: Assignment (2000 words) 40%
- Assessment task 2: Assignment (3000 words) 60%

## HNN715 – Leadership and Management in Nursing

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Stephane Bouchoucha*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 3 x 1 hour online seminars (recordings provided)*

## Content

This unit will assist students in developing an understanding of the leadership skills, qualities and behaviours required to influence clinical practice and develop a culture of patient safety. Contemporary issues relevant to leadership and management will be explored with a focus on leadership models, socio-economic and political context of care delivery, effective communication, decision making and critical thinking in relation to providing quality, evidence-based patient care.

The unit content exposes students to leadership and management in healthcare contextualising the skills, qualities and behaviours relevant for everyday practice. The importance of effective clinical leadership in ensuring a high quality healthcare system that provides safe and efficient care will be explored.

## Assessment

- Assessment task 1: Written assignment, online activity (2000 words) 40%
- Assessment task 2: Written assignment, summative assessment (3000 words) 60%

## HNN727 – Research in Nursing and Midwifery

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 2 Unit Chair: Stephane Bouchoucha*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: HNN722, HNN728*

*Scheduled learning activities – cloud (online):  
Online independent and collaborative learning  
activities including 3 x 1 hour online seminars  
(recordings provided)*

### Content

This unit will enable students to develop increased understanding, knowledge and skills in a range of research methods and approaches relevant to applied research. It will also enable students to develop a critical understanding of the nature, scope and purpose of research within clinical practice contexts.

They will be able to formulate relevant, appropriate and rigorous research questions, strategies, methods, data collection, analysis and dissemination approaches to address a chosen topic that addresses an issue (or issues) in their clinical setting. They will also enhance their understanding of strategies used to translate evidence into practice. They will also develop their research presentation skills using a variety of media: written reports, PowerPoint presentations, online video presentations.

HNN727 will provide Masters of Nursing students with a background to the common research methodologies that are commonly used in health care research and an introduction to the core skills that are required to develop an investigator-initiated research projects.

### Assessment

- Assessment task 1: Written assignment (2500 words) 25%
- Assessment task 2: Written assignment (1000 words) 10%
- Assessment task 3: Digital presentation (3–4 minutes maximum, equivalent to 500 words) 5%
- Assessment task 4: Written assignment (6000 words) 60%

### Hurdle requirement

Satisfactory completion of the Deakin University, Office of Research Integrity, Human Research Ethics online Training.

## Prescribed texts

Creswell, JW 2009, Research design: qualitative, quantitative and mixed methods approaches, 4th edn, sage, Thousand Oaks.

Schneider, Z, Whitehead, D & Elliot, D (eds). (2013), Nursing and midwifery research: methods and appraisal for evidence-based practice, 4th edn, Mosby-Elsevier, Sydney

## HNN730 – Advanced Health Assessment and Diagnostic Reasoning

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Grainne Lowe*

*Cohort rule: Must be enrolled in one of the following courses: H645, H665, H666, H667, H672, H675, H676, H771, H773, H776 or undertaken as a single unit of study.*

*Prerequisite: Nil*

*Corequisite: For students enrolled in H773: HNN731.*

*All other approved courses: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online):  
Online independent and collaborative learning  
activities including 3 x 1 hour online seminars  
(recordings provided)*

### Content

The aim of this unit is to combine the different components of advanced practice that constitutes the nurse practitioner role encompassing responsibility, accountability and patient-client advocacy. Students will be prepared to integrate advanced patient assessment skills, diagnostic reasoning, mental health, cultural issues and pathophysiology and pharmacology knowledge in the development of a patient management plan for those with complex care requirements. To inform accurate diagnostic reasoning and clinical decision making, advanced health assessment requires the nurse practitioner to access and use information accessed through clinical technologies, patient monitoring systems, digital image storage and transfer systems and patient information systems. Students will gain skills in moderating the interface between patients/clients and clinical technologies, the safe and accurate storage and transfer of clinical information, and advanced digital literacy skills.

The student will identify abnormal variations from normal physiological health states and critically analyse treatment plans that encompass evidence-based practice and the role and responsibilities of the nurse practitioner, according to their specialty practice of their clinical domain. The student will further develop their research capability in sourcing, accessing, and verifying reliable sources of evidence for practice within the multidisciplinary team.

This unit is a core unit of the Master of Nursing Practice (Nurse Practitioner). In addition to the academic requirements and assessment tasks listed below, students who plan on applying to the Nursing and Midwifery Board of Australia (NMBA) for endorsement as a Nurse Practitioner, are required to:

- Undertake 20 hours of approved clinical placement per week in each trimester of study in the course.
- Successfully complete at least one Clinical Competency Assessment Tool (CCAT) linked to this unit.
- Continuously maintain the Professional Portfolio, details of which are provided on the Master of Nursing Practice (Nurse Practitioner) course site.

*Note: Before enrolment contact the course convenor to discuss your prospective clinical experience.*

### Assessment

- Assessment task 1: Written assignment (2000 words) 40%
- Assessment task 2: Written assignment (3000 words) 60%

## HNN731 – Contemporary Nurse Practitioner Role

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Grainne Lowe*

*Cohort rule: Must be enrolled in one of the following courses: H645, H665, H666, H667, H672, H675, H676, H771, H773, H776 or undertaken as a single unit of study*

*Prerequisite: Nil*

*Corequisite: For students enrolled in H773: HNN730*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online):*

*Online independent and collaborative learning activities including 3 x 1 hour online seminars (recordings provided)*

## Content

The aim of this unit is to develop the student's knowledge and understanding of the role and function of the professional nurse practitioner to undertake collaborative practice across complex interdisciplinary alliances, according to the national Nurse Practitioner Standards of Practice and other professional practice guidelines. Practice contexts will also be examined, encompassing socio-political diversity, including how the advanced practice role specific for the clinical domain can be extended, supported by reflective practice. Students are required to commence a professional portfolio to chart professional knowledge and practice development; and submission of completed placement and clinical supervisor agreements.

This unit is a core unit of the Master of Nursing Practice (Nurse Practitioner). In addition to the academic requirements and assessment tasks listed below, students who plan on applying to the Nursing and Midwifery Board of Australia (NMBA) for endorsement as a Nurse Practitioner, are required to:

- Undertake 20 hours of approved clinical placement per week in each trimester of study in the course.
- Successfully complete at least one Clinical Competency Assessment Tool (CCAT) linked to this unit.
- Continuously maintain the Professional Portfolio, details of which are provided on the Master of Nursing Practice (Nurse Practitioner) course site.

### Assessment

- Assessment task 1: Assignment 1 (2000 words) 40%
- Assessment task 2: Assignment 2 (3000 words) 60%

## HNN732 – Clinical Research Methods

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Melissa Bloomer*

*Cohort rule: Must be enrolled in one of the following courses: H645, H665, H666, H667, H672, H675, H676, H771, H773, H776 or undertaken as a single unit of study*

*Prerequisite: For H773 Master of Nursing Practice (Nurse Practitioner) students: HNN730, HNN731, HNN780, HNN704, HNN781, HNN749.*

*All other approved courses: Nil*

*Corequisite: HNN733*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 3 x 1 hour online seminars (recordings provided)*

## Content

Students will be challenged to integrate critical analysis of multiple types of available evidence and knowledge of research design to analyse problems affecting their practice as a nurse practitioner. They will also be challenged to explore opportunities to contribute to evidence to inform clinical decision making by the nurse practitioner to promote best possible health care outcomes for the patient/client, as well as outcomes for the clinician and the service. It is expected that students will have the capacity to identify variances in their own clinical practice for investigation and strategies to contribute to new knowledge and improved health care delivery through collaboration in research and research ethics. The application of research and the role of nurse practitioner is supported by reflective practice encompassing critical analysis, interpretation, evaluation and synthesis.

## Assessment

- Assessment task 1: Written assignment (2000 words) 40%
- Assessment task 2: Written assignment (3000 words) 60%

# HNN733 – Clinical Excellence in Nurse Practitioner Practice

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Andrea Driscoll*

*Cohort rule: Must be enrolled in one of the following courses: H645, H665, H666, H667, H672, H675, H676, H771, H773, H776 or undertaken as a single unit of study*

*Prerequisite: For H773 Master of Nursing Practice (Nurse Practitioner) students: HNN730, HNN731, HNN780, HNN704, HNN781, HNN749*

*Corequisite: Student enrolled in H676 or H771: Nil  
Students enrolled in H773: HNN732*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 3 x 1 hour online seminars (recordings provided)*

## Content

The aim of this unit is to combine the different components of advanced practice that constitutes the nurse practitioner role encompassing responsibility, accountability and patient/client advocacy. Students will be prepared to integrate advanced patient assessment skills, diagnostic reasoning, mental health, cultural issues and pathophysiology and pharmacology knowledge in the development of a patient management plan for those with complex care requirements. The student will identify abnormal variations from normal physiological health states and critically analyse treatment plans that encompass evidence-based practice of their clinical domain. The student will develop their research capability in accessing evidence-based practice within the multidisciplinary team.

This unit is a core unit of the Master of Nursing Practice (Nurse Practitioner). In addition to the academic requirements and assessment tasks listed below, students who plan on applying to the Nursing and Midwifery Board of Australia (NMBA) for endorsement as a Nurse Practitioner, are required to:

- Undertake 20 hours of approved clinical placement per week in each trimester of study in the course.
- Successfully complete at least one Clinical Competency Assessment Tool (CCAT) linked to this unit.
- Continuously maintain the Professional Portfolio, details of which are provided on the Master of Nursing Practice (Nurse Practitioner) course site.

## Assessment

- Assessment task 1: Written assignment (2000 words) 40%
- Assessment task 2: Written assignment (3000 words) 60%

# HNN740 – Core Principles of Intraoperative Nursing Care

*Enrolment modes: Trimester 1: Cloud (online)^ with significant campus requirements*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Tarryn Armour*

*Prerequisite: Nil*

*Corequisite: HNN755*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Theoretical component 3 hours per week – a combination of on campus classes, cloud (online) modules and seminars. Students will be expected to undertake an additional 7 hours per week of independent study.*

## Content

The unit introduces students to the core principles and concepts of intraoperative nursing and collaborative management with a specific focus on the global, national and local quality & safety standards. An inquiry-based learning framework and clinical experience in this unit will enable students to critically analyse and apply evidence-based practice in order to implement risk management strategies in the intraoperative context.

This unit covers the role of specialist intraoperative nurses in managing surgical and/or procedural patients in relation to: concepts and principles of infection prevention, surgical safety and environmental planning and preparation; surgical wound assessment and management; and medico-legal requirements. The unit also aims to build teamwork and communication skills to establish and maintain collaborative professional respectful relationships with perioperative colleagues and to manage risk in order to optimise patient care.

*Note: This unit is part of the Perioperative Specialty stream of the Master of Nursing Practice for students who are also employed in a suitable clinical area in partnership with Deakin University.*

*^ Students enrol as Cloud (online) students; however there are significant campus requirements*

## Assessment

- Assessment task 1: Assignment (1500 words) 40%
- Assessment task 2: Examination (2 hours) 60%
- Assessment task 3: Clinical assessments Pass/fail

Both the theoretical and clinical components of the assessment must be passed in order to gain an overall pass in this unit. Clinical assessments form part of the assessment of this unit. Recognition of the importance of clinical assessments is calculated in the overall student workload.

*Note: Failure of a compulsory practicum component in a unit will normally lead to exclusion.*

# HNN742 – Principles of Complex Peri anaesthesia Nursing Care

*Enrolment modes: Trimester 2: Cloud (online)^ with significant campus requirements*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Naomi Mahon*

*Prerequisite: HNN755, HNN740*

*Corequisite: HNN743*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online):*

*^ Theoretical component 3 hours per week – a combination of on campus classes, cloud (online) modules and seminars. Students will be expected to undertake an additional 7 hours per week of independent study.*

## Content

This unit focuses on further developing the speciality knowledge, skills and professional behaviours required for peri anaesthesia nursing practice. There is a focus on the student's ability to manage complex and special populations and to identify risk and inform decisions that deliver safe, high quality nursing care and promote optimal patient outcomes.

This unit covers the role of specialist nurse in managing patients across the life cycle undergoing anaesthesia in relation to: the concepts and principles of anaesthetic techniques and postoperative care in special populations; assessment and management of anaesthetic specialties including complex medical conditions and emergency presentations; concepts and principles of advanced monitoring; and postoperative care following complex and specialty surgery.

*Note: This unit is part of the Perioperative Specialty stream of the Master of Nursing Practice for students who are also employed in a suitable clinical area in partnership with Deakin University.*

*^ Students enrol as Cloud (online) students, however there are significant campus requirements.*

## Assessment

- Assessment task 1: Assignment (1500 words) 40%
- Assessment task 2: Clinical assessments Pass/Fail
- Assessment task 3: Examination (2 hours) 60%

Both the theoretical and clinical components of the assessment must be passed in order to successfully gain an overall pass in this unit. Clinical assessments form part of the assessment of this unit. Recognition of the importance of clinical assessments is calculated in the overall student workload.

*Note: Failure of a compulsory practicum component in a unit will normally lead to exclusion.*

## HNN743 – Principles of Complex Intraoperative Nursing Care

*Enrolment modes: Trimester 2: Cloud (online)^ with significant campus requirements*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Tarryn Armour*

*Prerequisite: HNN755, HNN740*

*Corequisite: HNN742*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online):*

*^ Theoretical component 3 hours per week – a combination of on campus classes, cloud (online) modules and seminars. Students will be expected to undertake an additional 7 hours per week of independent study.*

### Content

This unit focuses on further developing the speciality knowledge, skills and professional behaviours required for intraoperative nursing practice. There is a focus on the student's ability to manage complex and special populations and to identify risk and inform decisions that deliver safe, high quality nursing care in order to promote optimal patient outcomes.

This unit covers the role of specialist intraoperative nurse in comprehensively managing patients across the life cycle undergoing surgery in relation to: the concepts and principles of intraoperative techniques in complex and specialty populations; assessment and management of elective and emergency patients undergoing complex and specialty surgical procedures; and applying core principles of intraoperative practice in a range of novel, ill-structured, complex time critical surgical cases.

*Note: This unit is part of the Perioperative Specialty stream of the Master of Nursing Practice for students who are also employed in a suitable clinical area in partnership with Deakin University.*

*^ Students enrol as Cloud (online) students, however there are significant campus requirements.*

## Assessment

- Assessment task 1: Written assignment (1500 words) 40%
- Assessment task 2: Examination (2 hours) 60%
- Assessment task 3: Clinical assessments Pass/fail

Both the theoretical and clinical components of the assessment must be passed in order to successfully gain an overall pass in this unit. Clinical assessments form part of the assessment of this unit. Recognition of the importance of clinical assessments is calculated in the overall student workload.

*Note: Failure of a compulsory practicum component in a unit will normally lead to exclusion.*

## HNN749 – Patient Safety and Risk Management

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Debra Kerr*

*Cohort rule: Must be enrolled in one of the following courses: H645, H665, H666, H667, H672, H675, H676, H771, H773, H776, M701, M703 or undertaken as a single unit of study*

*Prerequisite: For H773 students: HNN730, HNN731, HNN780, HNN704.*

*Corequisite: For H773 students: HNN781*

*All other approved courses: Nil*

*Incompatible with: HNN718*

*Scheduled learning activities – cloud (online):*

*Online independent and collaborative learning activities including 3 x 1 hour online seminars (recordings provided)*

### Content

This unit has as its focus a critical examination of patient safety and risk management in health care contexts, locally and globally. Particular attention is given to human error theory and clinical governance as an overarching guiding framework for progressing patient safety and taking a systems approach to reducing the incidence and impact of preventable adverse events in health care domains. Students will be given the opportunity to make a critical examination of the organisational contexts in which adverse events occur, the role of clinical governance in facilitating a systematic approach to reducing the incidence and impact of preventable adverse events in clinical practice, principles and processes of human error management, system

and human factor enablers and barriers to achieving safe health care, patient safety competencies (individual and institutional), accountability and responsibility for patient safety and risk management in health care domains, and the application of patient safety concepts and processes in primary health care.

### Assessment

- Assessment task 1: Assignment (2000 words) 40%
- Assessment task 2: Assignment (3000 words) 60%

## HNN750 – Inquiry Into Specialty Nursing Practice

*Enrolment modes: Trimester 1: Cloud (online) with significant campus requirements*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Elizabeth Oldland*

*Prerequisite: Nil*

*Corequisite: HNN751 and HNN752 or HNN755 and HNN740*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities during three full day seminars*

### Content

This unit is designed to challenge registered nurses in specialist practice to advance their professional judgement, leadership and professionalism through reflection on, experiential learning in, and knowledge acquisition of, the contemporary healthcare practice environment.

In this unit, students will be required to explore the current and emerging trends, concepts, knowledge and evidence that provides the policy and practice framework in which the care of critically ill patients takes places specifically in relation to the:

- Transcultural, ethical and psychosocial concepts of brain death, complicated loss and grief and critical incident stress debriefing within specialty areas including the nursing considerations of patient care, family and the multidisciplinary care team;
- Current and emerging concepts of competency, specialisation and scope of practice; and considerations of nursing roles in outreach teams, managed care and critical care units without walls

- Clinical governance, policy and practice development within specialty areas including the contribution of patient and consumer perspectives, and
- Specialty area structure, process and outcome measures including patient and nurse-sensitive indicators for high quality safe care.

*Note: This unit is part of the Intensive Care, Cardiac Care, Emergency Care, Critical Care and Perioperative Specialty courses nested in the Master of Nursing Practice for students who are also employed in a suitable clinical area.*

Students enrol as Cloud (online) students, however there are significant campus requirements. Classes are conducted at Burwood (Melbourne) and are video conferenced live to other venues.

### Assessment

- Assessment task 1: Presentation 20%
- Assessment task 2: Portfolio 20%
- Assessment task 3: Written assignment (3000 words) 60%

## HNN751 – Advanced Physiology and Patient Assessment

*Enrolment modes: Trimester 1: Cloud (online)^ with significant campus requirements*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Sher Graan*

*Prerequisite: Nil*

*Corequisite: HNN752*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online):*

*^ Theoretical component: students will be expected to undertake 150 hours comprised of directed and self-directed study in a combination of classes, cloud (online) modules and seminars. Students are also normally required to complete a minimum of 24 hours a week in specialty clinical practice in their employing hospital.*

## Content

This unit is designed to enable the student to acquire advanced clinical assessment skills based on a comprehensive understanding of normal physiology, and the pathophysiology of illness and injury common to critically ill patients. The knowledge and skills of focused, evidence-based assessment acquired in this unit and through appropriate clinical practice form the basis of complex decision making required to deliver high quality, safe patient care.

This unit covers the role of specialist nurses in managing critically ill patients in relation to: the principles and concepts of homeostasis related to acid-base status, fluid and electrolyte balance, haematology and electrocardiography; advanced complex patient assessment and monitoring of cardiovascular, respiratory, haemodynamic, neurological, renal and gastrointestinal systems based on physiological and pathophysiological considerations for critically ill and injured patients; and basic and advanced life support by critical care specialist nurses

*Note: This unit is part of the Intensive Care, Cardiac Care, Emergency Care and Critical Care Specialty course nested in the Master of Nursing Practice for students who are also employed in a suitable clinical area in partnership with Deakin University.*

*^ Students enrol as Cloud (online) students, however there are significant campus requirements. Classes are conducted at Burwood (Melbourne) and are video conferenced live to other venues.*

## Assessment

- Assessment task 1: Assignment (1500 words) 40%
- Assessment task 2: Examination (1.5 hours) 40%
- Assessment task 3: Tests (3) 20%
- Assessment task 4: Clinical assessment Pass/fail, satisfactory completion of clinical competencies.

Both the theoretical and clinical components of the assessment must be passed in order to successfully gain an overall pass in this unit.

## Hurdle requirement

Compulsory clinical hurdles form part of the assessment of this unit. Recognition of the importance of clinical assessments is calculated in the overall student workload.

*Note: Failure of a compulsory practicum component in a unit will normally lead to exclusion.*

## HNN752 – Core Principles of Care for the Critically Ill Patient

*Enrolment modes: Trimester 1: Cloud (online)^ with significant campus requirements*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Nicky Hewitt*

*Prerequisite: Nil*

*Corequisite: HNN751*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online):*

*^ Theoretical component: students will be expected to undertake 150 hours comprised of directed and self-directed study in a combination of classes, cloud (online) modules and seminars. Students are also normally required to complete a minimum of 24 hours a week in specialty clinical practice in their employing hospital.*

## Content

The unit focuses on core principles of nursing and collaborative care and evidence-based practices to optimally manage critically ill patients. Engagement with this unit material and clinical practice will enable students to identify, synthesise, analyse and critically evaluate complex data from patient and technologically-derived sources to inform decision making that delivers safe, high quality person-centred nursing care. The unit also aims to build teamwork and communication skills to establish and maintain collaborative professional respectful relationships with critical care colleagues and to manage risk in order to optimise patient care.

The unit covers the role of specialist nurses in managing critically ill patients in relation to: the implementation and management of therapeutic technologies for major organ insufficiency and failure including oxygen therapy, artificial airways and mechanical and non-invasive ventilation; interventional cardiac procedures; pharmacological therapies including vasoactive, fibrinolytic and antiarrhythmic; and principles of specialist critical care practice in clinical risk management and clinical decision making based on best research evidence.

*Note: This unit is part of the Intensive Care, Cardiac Care, Emergency Care and Critical Care Specialty courses nested in the Master of Nursing Practice for students who are also employed in a suitable clinical area in partnership with Deakin University.*

*^ Students enrol as Cloud (online) students, however there are significant campus requirements. Classes are conducted at Burwood (Melbourne) and are video conferenced live to other venues.*

## Assessment

- Assessment task 1: Assignment (1500 words) 40%
- Assessment task 2: Examination (1.5 hours) 40%
- Assessment task 3: Tests (3) 20%
- Assessment task 4: Clinical assessment Pass/fail, satisfactory completion of clinical competencies.

Both the theoretical and clinical components of the assessment must be passed in order to successfully gain an overall pass in this unit.

## Hurdle requirement

Compulsory clinical hurdles form part of the assessment of this unit. Recognition of the importance of clinical assessments is calculated in the overall student workload.

*Note: Failure of a compulsory practicum component in a unit will normally lead to exclusion.*

This unit covers the role of specialist nurse in managing patients across the life cycle undergoing anaesthesia in relation to: the concepts and principles of anaesthetic techniques and postoperative care; pharmacological therapies including anaesthetic agents, adjunct therapies and pain management therapies; patient assessment and monitoring of neurological, cardiovascular, respiratory and haemodynamic states; concepts and principles of homeostasis related to acid-base status, fluid and electrolyte balance and haematology.

*Note: This unit is part of the Perioperative Specialty stream of the Master of Nursing Practice for students who are also employed in a suitable clinical area in partnership with Deakin University.*

*^ Students enrol as Cloud (online) students, however there are significant campus requirements.*

## Assessment

- Assessment task 1: Assignment (1500 words) 40%
- Assessment task 2: Examination (2 hours) 60%
- Assessment task 3: Clinical assessments Pass/fail

Both the theoretical and clinical components of the assessment must be passed in order to successfully gain an overall pass in this unit. Clinical assessments form part of the assessment of this unit. Recognition of the importance of clinical assessments is calculated in the overall student workload.

*Note: Failure of a compulsory clinical practicum component in a unit will normally lead to exclusion.*

# HNN755 – Core Principles of Perianaesthesia Nursing Care

*Enrolment modes: Trimester 1: Cloud (online)^ with significant campus requirements*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Naomi Mahon*

*Prerequisite: Nil*

*Corequisite: HNN740*

*Incompatible with: HNN739*

*Scheduled learning activities – cloud (online):*

*^ Theoretical component 3 hours per week – a combination of on campus classes, cloud (online) modules and seminars. Students will be expected to undertake an additional 7 hours per week of independent study*

## Content

This unit focuses on core principles of peri anaesthesia nursing and collaborative care, and evidence-based practices in anaesthesia and post-anaesthesia care. Engagement with this unit material and clinical practice will enable students to deliver safe, high quality person-centred nursing care to patients presenting for procedures and surgery requiring anaesthesia. The units also aims to build teamwork and communication skills to establish and maintain collaborative professional respectful relationships with the perioperative healthcare team and to manage risk in order to optimise patient care.

# HNN756 – Nursing Research Thesis A

*Enrolment modes:*

*Trimester 1: Cloud (online)*

*Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Pauline Wong*

*Trimester 2 Unit Chair: Pauline Wong*

*Cohort rule: This unit is only available to students enrolled in H771 – Master of Health Science (Nursing), H771 – Master of Nursing Practice*

*Prerequisite: HNN727 Research in Nursing and Midwifery, with a score of 70% (D) or above; AND a Weighted Average Mark (WAM) greater than 65.*

*Corequisite: Nil*

*Scheduled learning activities – cloud (online): Learning experiences are determined in consultation with research thesis supervisors, assigned to the student prior to commencement. Consultations may be held in-person, via email, skype, Blackboard Collaborate or other media; and held at least monthly by agreement.*

## Content

This unit comprises the first component of the development of an individual research thesis related to nursing and nursing practice. In this unit, the student is required to describe the background and develop a comprehensive literature review of the existing research evidence in the cognate area; identify the science/research gap and determine the research question/s and/or hypothesis to be tested.

*Note: New unit 2018*

HNN725 Research Thesis A has been divided into two parts and replaced by HNN756 Nursing Research Thesis A and HNN757 Nursing Research Thesis B.

## Assessment

- Assessment task 1: Submission of HNN756 Progress Report (750 words) – Ungraded Pass/Fail
- Assessment task 2: Submission of a full draft of Chapter 1 (Background) and Chapter 2 (Literature Review) – Ungraded Pass/Fail

## HNN757 – Nursing Research Thesis B

*Enrolment modes:*

*Trimester 1: Cloud (online)*

*Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Pauline Wong*

*Trimester 2 Unit Chair: Pauline Wong*

*Cohort rule: This unit is only available to students enrolled in H771 – Master of Health Science (Nursing), H771 – Master of Nursing Practice*

*Prerequisite: Nil*

*Corequisite: HNN756*

*Incompatible with: HNN758 and HNN759*

*Scheduled learning activities – cloud (online):*

*Learning experiences are determined in consultation with research thesis supervisors, assigned to the student prior to commencement. Consultations may be held in-person, via email, skype, Blackboard Collaborate or other media; and held at least monthly by agreement.*

## Content

This unit comprises the second component of the development of an individual research thesis related to nursing and nursing practice. In this unit, the student is required to develop a comprehensive method chapter and gain ethical approval for the proposed study.

*Note: New unit 2018*

HNN725 Research Thesis A has been divided into two parts and replaced by HNN756 Nursing Research Thesis A and this unit HNN757 Nursing Research Thesis B.

## Assessment

- Assessment task 1: Submission of HNN757 Progress Report (750 words) – Ungraded Pass/Fail
- Assessment task 2: Submission of Chapter 3 (Method) – Ungraded Pass/Fail

## HNN758 – Nursing Research Thesis C

*Enrolment modes:*

*Trimester 1: Cloud (online)*

*Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Melissa Bloomer*

*Trimester 2 Unit Chair: Melissa Bloomer*

*Cohort rule: This unit is only available to students enrolled in H771 – Master of Health Science (Nursing), H771 – Master of Nursing Practice*

*Prerequisite: HNN757*

*Corequisite: Nil*

*Incompatible with: HNN756*

*Scheduled learning activities – cloud (online):*

*Learning experiences are determined in consultation with research thesis supervisors, assigned to the student prior to commencement. Consultations may be held in-person, via email, skype, Blackboard Collaborate or other media; and held at least monthly by agreement.*

## Content

This unit comprises the third component of the development of an individual research thesis related to nursing and midwifery practice. In this unit, the student is required to undertake and complete data collection and analysis.

*Note: New unit 2018*

HNN726 Research Thesis B has been divided into two parts and replaced by this unit HNN758 Nursing Research Thesis C and HNN759 Nursing Research Thesis D.

## Assessment

- Assessment task 1: Submission of HNN758 Progress Report (750 words) – Ungraded Pass/Fail
- Assessment task 2: Submission of a full draft of Chapter 4 (Results) and Chapter 5 (Discussion) – Ungraded Pass/Fail

## HNN759 – Nursing Research Thesis D

*Enrolment modes:*

*Trimester 1: Cloud (online)*

*Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Melissa Bloomer*

*Trimester 2 Unit Chair: Melissa Bloomer*

*Cohort rule: This unit is only available to students enrolled in H771 – Master of Health Science (Nursing), H771 – Master of Nursing Practice*

*Prerequisite: Nil*

*Corequisite: HNN758*

*Incompatible with: HNN756 and HNN757*

*Scheduled learning activities – cloud (online): Learning experiences are determined in consultation with research thesis supervisors, assigned to the student prior to commencement. Consultations may be held in-person, via email, skype, Blackboard Collaborate or other media; and held at least monthly by agreement.*

## Content

This unit comprises the final component of the development of an individual research thesis related to nursing and midwifery practice. In this unit, the student is required to write their Discussion and Conclusion, resulting in completion of a minor thesis.

*Note: New unit 2018*

HNN726 Research Thesis B has been divided into two parts and replaced with HNN758 Nursing Research Thesis C and HNN759 Nursing Research Thesis D.

## Assessment

Assessment task 1: – Completion of a minor thesis (18,000 words).

## HNN764 – Intensive Care Nursing 1

*Enrolment modes: Trimester 2: Cloud (online)^ with significant campus requirements*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Sher Graan*

*Prerequisite: HNN751, HNN752*

*Corequisite: HNN774*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online):*

*^ Theoretical component: students will be expected to undertake 150 hours comprised of directed and self-directed study in a combination of classes, cloud (online) modules and seminars. Students are also normally required to complete a minimum of 24 hours a week in specialty clinical practice in their employing hospital.*

## Content

This unit is one of two in this trimester focusing on further developing the speciality knowledge, skills and professional behaviours required for advanced intensive care nursing practice. There is a focus on refining the student's ability to identify, synthesise, analyse and critically evaluate complex data from patient and technologically-derived sources to identify risk and inform decisions that deliver safe, high quality nursing care and promote optimal patient outcomes. The nurse's role in being a high performing member of the multidisciplinary health team with strong communication skills is emphasised. Through engagement with the unit material, clinical practice and personal reflection, students will develop greater decision making autonomy, critical thinking and leadership skills, advanced clinical judgement, and enhanced professionalism.

The unit is designed to prepare nurses for specialty intensive care practice and covers: assessment and therapeutic management of patients with a variety of complex cardiovascular, haemodynamic, respiratory, renal and neurological dysfunctions; advanced electrocardiography concepts; physical, psychosocial and functional care of clinically frail and elderly critically ill and injured patients; and advanced treatment modalities for intensive care patients including mechanical ventilation, renal replacement therapy and cardiac assist devices.

*Note: This unit is part of the Intensive Care Specialty course nested in the Master of Nursing Practice for students who are also employed in a suitable clinical area in partnership with Deakin University.*

*^ Students enrol as Cloud (online) students, however there are significant campus requirements. Classes are conducted at Burwood (Melbourne) and are video conferenced live to other venues.*

## Assessment

- Assessment task 1: Presentation (equivalent of 1500 words) 40%
- Assessment task 2: Examination (1.5 hours) 40%
- Assessment task 3: Tests (3) 20%
- Assessment task 4: Clinical assessment pass/fail; satisfactory completion of clinical competency hurdles and assessment.

Both the theoretical and clinical components of the assessment must be passed in order to successfully gain an overall pass in this unit.

## Hurdle requirement

Compulsory clinical hurdles form part of the assessment of this unit. Recognition of the importance of clinical assessments is calculated in the overall student workload.

*Note: Failure of a compulsory clinical practicum component in a unit will normally lead to exclusion.*

# HNN765 – Cardiac Care Nursing 1

*Enrolment modes: Trimester 2: Cloud (online)^ with significant campus requirements*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Sher Graan*

*Prerequisite: HNN751, HNN752*

*Corequisite: HNN775*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online):*

*^ Theoretical component: students will be expected to undertake 150 hours comprised of directed and self-directed study in a combination of classes, cloud (online) modules and seminars. Students are also normally required to complete a minimum of 24 hours a week in specialty clinical practice in their employing hospital.*

## Content

This unit is one of two in this trimester focusing on further developing the speciality knowledge, skills and professional behaviours required for advanced cardiac care nursing practice.

There is a focus on refining the student's ability to identify, synthesise, analyse and critically evaluate complex data from patient and technologically-derived sources to identify risk and inform decisions that deliver safe, high quality nursing care and promote optimal patient outcomes. The nurse's role in being a high performing member of the multidisciplinary health team with strong communication skills is emphasised. ## Content

This unit is one of two in this trimester focusing on further developing the speciality knowledge, skills and professional behaviours required for advanced emergency care nursing practice. There is a focus on refining the student's ability to identify, synthesise, analyse and critically evaluate complex data from patient and technologically-derived sources to identify risk and inform decisions that deliver safe, high quality nursing care and promote optimal patient outcomes. The nurse's role in being a high performing member of the multidisciplinary health team with strong communication skills is emphasised. Through engagement with the unit material, clinical practice and personal reflection, students will develop greater decision making autonomy, critical thinking and leadership skills, advanced clinical judgement, and enhanced professionalism.

The unit is designed to prepare nurses for specialty emergency care practice and covers: assessment and therapeutic management of patients with a variety of complex cardiovascular and neurological dysfunctions; advanced electrocardiography concepts; physical, psychosocial and functional care of clinically frail and elderly critically ill and injured patients; and risk management of mental health, paediatric, gynaecological, obstetric, oncology and primary care presentations and injuries.

*Note: This unit is part of the Emergency Care Specialty course nested in the Master of Nursing Practice for students who are also employed in a suitable clinical area in partnership with Deakin University.*

*^ Students enrol as Cloud (online) students, however there are significant campus requirements. Classes are conducted at Burwood (Melbourne) and are video conferenced live to other venues.*

## Assessment

- Assessment task 1: Presentation (equivalent to 1500 words) 40%
- Assessment task 2: Examination (1.5 hours) 40%
- Assessment task 3: Tests (3) 20%
- Assessment task 4: Clinical assessment pass/fail; satisfactory completion of clinical competency hurdles and assessment.

Both the theoretical and clinical components of the assessment must be passed in order to successfully gain an overall pass in this unit.

## Hurdle requirement

Compulsory clinical hurdles form part of the assessment of this unit. Recognition of the importance of clinical assessments is calculated in the overall student workload.

*Note: Failure of a compulsory clinical practicum component in a unit will normally lead to exclusion.*

# HNN767 – Critical Care Nursing 1

*Enrolment modes: Trimester 2: Cloud (online)^ with significant campus requirements*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Sher Graan*

*Prerequisite: HNN751, HNN752*

*Corequisite: HNN777*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online):*

*^Theoretical component: students will be expected to undertake 150 hours comprised of directed and self-directed study in a combination of classes, cloud (online) modules and seminars. Students are also normally required to complete a minimum of 24 hours a week in specialty clinical practice in their employing hospital.*

## Content

This unit is one of two in this trimester focusing on further developing the speciality knowledge, skills and professional behaviours required for advanced critical care nursing practice. There is a focus on refining the student's ability to identify, synthesise, analyse and critically evaluate complex data from patient and technologically-derived sources to identify

risk and inform decisions that deliver safe, high quality nursing care and promote optimal patient outcomes. The nurse's role in being a high performing member of the multidisciplinary health team with strong communication skills is emphasised. Through engagement with the unit material, clinical practice and personal reflection, students will develop greater decision making autonomy, critical thinking and leadership skills, advanced clinical judgement, and enhanced professionalism.

The unit is designed to prepare nurses for specialty critical care practice and covers: assessment and therapeutic management of patients with a variety of complex cardiovascular, respiratory, renal and neurological dysfunctions; advanced electrocardiography concepts; physical, psychosocial and functional care of clinically frail and elderly critically ill and injured patients; paediatric, gynaecology, obstetric and oncology presentations; and advanced treatment modalities including mechanical ventilation and renal replacement therapy.

*Note: This unit is part of the Critical Care Specialty course nested in the Master of Nursing Practice for students who are also employed in a suitable clinical area in partnership with Deakin University.*

*^ Students enrol as Cloud (online) students, however there are significant campus requirements. Classes are conducted at Burwood (Melbourne) and are video conferenced live to other venues.*

## Assessment

# HNN768 – Advanced Physiology and Assessment of Complex Acute Patients

*Enrolment modes:*

*Credit point(s): 1*  
*EFTSL value: 0.125*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Theoretical component: students will be expected to undertake 150 hours comprised of directed study through cloud (online) modules, one in-class seminar and self-directed study.*

## Content

This unit is designed to advance registered nurses' skills in assessing complex acute patients based on advanced physiology to manage risk by informing timely and accurate clinical decision making, and to evaluate current therapeutic management strategies. In doing so, students will further develop their nursing skills in proactively monitoring physiological signs of recovery from illness; and in anticipating and recognising clinical deterioration based on systematic, evidence-based assessments in time critical situations.

This unit covers the role of nurses in assessing complex acute patients in relation to: the principles and concepts of homeostasis, and patient assessment and monitoring of major organs and systems based on physiological and pathophysiological considerations for complex acute patients. Nurses will learn to apply critical reasoning, knowledge and psychomotor skills to identify at risk patients in time critical situations and inform immediate patient management decisions, including escalation of care.

## Assessment

- Assessment task 1: Assignment (2000 words) 40%
- Assessment task 2: Assignment (1000 words) 20%
- Assessment task 3: Examination (2 hours) 40%

## HNN769 – Core Principles of Care for Complex Acute Patients

*Enrolment modes:*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Theoretical component: students will be expected to undertake 150 hours comprised of directed study through cloud (online) modules, two in-class seminars and self-directed study.*

### Content

This unit is designed to advance registered nurses' skills in managing complex acute patients as a result of timely and accurate clinical decision making. In addition, students will further develop their nursing skills in being able to actively promote the recovery of complex acute patients from illness; and anticipate, prevent and respond to episodes of clinical deterioration based on best research evidence for practice to deliver high quality, safe patient care.

The unit covers: pathophysiology of, and collaborative management strategies for, major organ dysfunction/failure; the implementation, management and evaluation of therapeutic technologies for major organ dysfunction/failure including pharmacological therapies, oxygen therapy, and non-invasive ventilation; and individual and teamwork skills required for managing complex acute patients to optimise patient outcomes.

### Assessment

- Assessment task 1: Assignment (2000 words) 40%
- Assessment task 2: Assignment (1000 words) 20%
- Assessment task 3: Examination (2 hours) 40%

## HNN771 – Facilitating Clinical Learning

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Helen Forbes*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Theoretical component: students will be expected to undertake 150 hours comprised of directed study through cloud (online) modules, one in-class seminar and self-directed study.*

### Content

This unit is designed to prepare registered nurses and midwives to teach and facilitate learning of students and colleagues in contemporary clinical and/or simulated settings.

Themes in this unit include relevant learning theories (experiential/situated), the facilitator role in creating a conducive learning environment, planning student learning experiences, evaluating professional performance, and guiding the application of theory to practice. In addition, the facilitator's role will be explored in relation to providing feedback and reflection as ways of improving teaching practice. Opportunities for reflection on the role of the nurse/midwife as a facilitator of clinical learning will also be included.

### Assessment

- Assessment task 1: Assignment (2000 words) 40%
- Assessment task 2: Assignment (1000 word equivalent) 20%
- Assessment task 3: Assignment (2000 word equivalent) 40%

## HNN772 – Healthcare in Low Resource/Complex Environments

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Bodil Rasmussen*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 3 x 1 hour online seminars (recordings provided)*

### Content

This unit addresses key issues confronting health professionals working in the humanitarian aid sector. The unit is designed to prepare students in managing challenges they are likely to face when working in areas of armed conflict, post war contexts, and natural disaster areas. In drawing on cutting edge and evidenced knowledge in health, nursing, midwifery, psychological and sociological sciences, the unit introduces the students to managing the challenges of working within low resource and complex (LRCE) environments, clinical knowledge relevant to such environments, identifying and managing health and safety risks, assessing and evaluating resource poor systems, setting up and managing emergency response plans, dealing with the challenges of working in a wide variety of humanitarian context, self-care in high stress contexts, and returning home. It is expected that upon completion of the unit students will have the basic competencies required to work within LRCE contexts.

This unit covers comprehensive perspectives of Roles of Nurses and Midwives working in LRCE based on the International Nurses Council (ICN) Framework of Disaster Nursing Competencies. The unit builds on ICN's four areas of competencies related to prevention/mitigation, preparedness, response and recovery/rehabilitation to disasters.

### Assessment

- Assessment task 1: Written assignment (2000 words) 40%
- Assessment task 2: Written assignment (3000 words) 60%

## HNN773 – Healthcare Management of Vulnerable Populations

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Helen Rawson*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities including 3 x 1 hour online seminars (recordings provided)*

### Content

This unit focuses on specific clinical assessment strategies and tools to address health issues for vulnerable populations in areas of armed conflict, post war contexts, natural disaster areas and other low resource and complex environments. The unit will prepare students to assess and develop management strategies to care for vulnerable populations including women (who are pregnant or of childbearing age), children, people vulnerable to violence (including sexual or gender-based violence (SGBV), older people and people living with disabilities, mental illness and chronic diseases, such as HIV, heart failure and diabetes.

The unit builds on evidence-based research in health to address key issues related to restoration of emergency and essential health services for trauma, infectious diseases, reproductive health (antenatal, postnatal and acute newborn care), chronic disease and emergency mental health. The storage and distribution of life-saving and essential medicines and supplies; management of early warning surveillance and response systems for disease outbreak; protection of health assets, infection control in health care facilities including medical waste management and public risk communication will also be critically discussed.

This unit covers comprehensive perspectives of physical, psychological, cultural, social and environmental factors affecting people experiencing disaster and those in low resource complex environments.

The unit is guided by the International Council of Nurses (ICN) Framework of Disaster Nursing Competencies, the Sphere Health Standards, and evidence from organisations in the humanitarian sector, including WHO, Australasian Red Cross and Save the Children.

## Assessment

- Assessment task 1: Written assignment (2000 words) 40%
- Assessment task 2: Written assignment (3000 words) 60%

## HNN774 – Intensive Care Nursing 2

*Enrolment modes: Trimester 2: Cloud (online)^ with significant campus requirements*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Nicky Hewitt*

*Prerequisite: HNN751, HNN752*

*Corequisite: HNN764*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online):*

*^ Theoretical component: students will be expected to undertake 150 hours comprised of directed and self-directed study in a combination of classes, cloud (online) modules and seminars. Students are also normally required to complete a minimum of 24 hours a week in specialty clinical practice in their employing hospital.*

## Content

This unit is one of two in this trimester focusing on further developing the speciality knowledge, skills and professional behaviours required for advanced intensive care nursing practice. There is a focus on refining the student's ability to identify, synthesise, analyse and critically evaluate complex data from patient and technologically-derived sources to identify risk and inform decisions that deliver safe, high quality nursing care and promote optimal patient outcomes. The nurse's role in being a high performing member of the multidisciplinary health team with strong communication skills is emphasised. Through engagement with the unit material, clinical practice and personal reflection, students will develop greater decision making autonomy, critical thinking and leadership skills, advanced clinical judgement, and enhanced professionalism.

The unit is designed to prepare nurses for specialty intensive care practice of critically ill and injured patients and covers principles, concepts and therapeutic nursing and collaborative management of: sepsis and multi-organ failure; complex medical and surgical cardiac and respiratory conditions; endocrine and hepatic disorders, nutritional support, burns and toxicology.

*Note: This unit is part of the Intensive Care Specialty course nested in the Master of Nursing Practice for students who are also employed in a suitable clinical area in partnership with Deakin University.*

*^ Students enrol as Cloud (online) students, however there are significant campus requirements. Classes are conducted at Burwood (Melbourne) and are video conferenced live to other venues.*

## Assessment

- Assessment task 1: Assignment (1500 words) 40%
- Assessment task 2: Examination (1.5 hours) 40%
- Assessment task 3: Tests (3) 20%
- Assessment task 4: Clinical assessment pass/fail, satisfactory completion of clinical competency hurdles and assessment.

Both the theoretical and clinical components of the assessment must be passed in order to successfully gain an overall pass in this unit. Compulsory clinical hurdles form part of the assessment of this unit. Recognition of the importance of clinical assessments is calculated in the overall student workload.

*Note: Failure of a compulsory clinical practicum component in a unit will normally lead to exclusion.*

## Hurdle requirement

Compulsory clinical hurdles form part of the assessment of this unit. Recognition of the importance of clinical assessments is calculated in the overall student workload.

*Note: Failure of a compulsory clinical practicum component in a unit will normally lead to exclusion.*

## HNN775 – Cardiac Care Nursing 2

*Enrolment modes: Trimester 2: Cloud (online)^ with significant campus requirements*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Nicky Hewitt*

*Prerequisite: HNN751, HNN752*

*Corequisite: HNN765*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online):*

*^ Theoretical component: students will be expected to undertake 150 hours comprised of directed and self-directed study in a combination of classes, cloud (online) modules and seminars. Students are also normally required to complete a minimum of 24 hours a week in specialty clinical practice in their employing hospital.*

## Content

This unit is one of two in this trimester focusing on further developing the speciality knowledge, skills and professional behaviours required for advanced cardiac care nursing practice. There is a focus on refining the student's ability to identify, synthesise, analyse and critically evaluate complex data from patient and technologically-derived sources to identify risk and inform decisions that deliver safe, high quality nursing care and promote optimal patient outcomes. The nurse's role in being a high performing member of the multidisciplinary health team with strong communication skills is emphasised. Through engagement with the unit material, clinical practice and personal reflection, students will develop greater decision making autonomy, critical thinking and leadership skills, advanced clinical judgement, and enhanced professionalism.

The unit is designed to prepare nurses for specialty cardiac care practice and covers principles, concepts and therapeutic nursing and collaborative management of: sepsis and multi-organ failure; complex medical, interventional and surgical cardiac conditions including acute coronary syndrome; endocrine disorders; and cardiac rehabilitation. A strong focus of the unit is the clinical risk management and quality nursing care required for cardiac patients undergoing interventional procedures.

*Note: This unit is part of the Cardiac Care Specialty course nested in the Master of Nursing Practice for students who are also employed in a suitable clinical area in partnership with Deakin University.*

*^ Students enrol as Cloud (online) students, however there are significant campus requirements. Classes are conducted at Burwood (Melbourne) and are video conferenced live to other venues.*

## Assessment

- Assessment task 1: Assignment (1500 words) 40%
- Assessment task 2: Examination (1.5 hours) 40%
- Assessment task 3: Tests (3) 20%
- Assessment task 4: Clinical assessment pass/fail, satisfactory completion of clinical competency hurdles and assessment.

Both the theoretical and clinical components of the assessment must be passed in order to successfully gain an overall pass in this unit.

## Hurdle requirement

Compulsory clinical hurdles form part of the assessment of this unit. Recognition of the importance of clinical assessments is calculated in the overall student workload.

*Note: Failure of a compulsory clinical practicum component in a unit will normally lead to exclusion.*

## HNN776 – Emergency Care Nursing 2

*Enrolment modes: Trimester 2: Cloud (online)^ with significant campus requirements*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Nicky Hewitt*

*Prerequisite: HNN751, HNN752*

*Corequisite: HNN766*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online):*

*^ Theoretical component: students will be expected to undertake 150 hours comprised of directed and self-directed study in a combination of classes, cloud (online) modules and seminars. Students are also normally required to complete a minimum of 24 hours a week in specialty clinical practice in their employing hospital.*

## HNN780 – Quality and Safety in Medication Management

*Enrolment modes: Trimester 2: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Elizabeth Manias*

*Cohort rule: Must be enrolled in one of the following courses: H645, H665, H666, H667, H672, H675, H676, H771, H773, H776 or undertaken as a single unit of study*

*Prerequisite: For H773 students: HNN730, HNN731*

*Corequisite: For H773 students: HNN704*

*All other approved courses: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online):*

*Online independent and collaborative learning activities including 3 x 1 hour online seminars (recordings provided)*

### Content

The aim of the unit is to prepare students for the effective and safe prescribing of pharmacological interventions using principles of Quality Use of Medicines while maintaining relationships with people at the centre of care. The unit aims to provide students with the knowledge of resources required to prescribe or manage medicines using professional, legal and ethical principles taking into account economic, social, cultural, diversity and life span issues.

This unit is a core unit of the Master of Nursing Practice (Nurse Practitioner). In addition to the academic requirements and assessment tasks listed below, students who plan on applying to the Nursing and Midwifery Board of Australia (NMBA) for endorsement as a Nurse Practitioner, are required to:

- Undertake 20 hours of approved clinical placement per week in each trimester of study in the course.
- Successfully complete at least one Clinical Competency Assessment Tool (CCAT) linked to this unit.
- Continuously maintain the Professional Portfolio, details of which are provided on the Master of Nursing Practice (Nurse Practitioner) course site.

### Assessment

- Assessment task 1: Written assignment (3000 words) 50%
- Assessment task 2: Examination (2 hours) 50%

## HNN781 – Therapeutic Medication Management

*Enrolment modes: Trimester 1: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Anastasia Hutchinson*

*Cohort rule: Must be enrolled in one of the following courses: H645, H665, H666, H667, H672, H675, H676, H771, H773, H776 or undertaken as a single unit*

*Prerequisite: For H773 students: HNN704, HNN730, HNN731, HNN780*

*Corequisite: For H773 students: HNN749*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online):*

*Online independent and collaborative learning activities including 3 x 1 hour online seminars (recordings provided)*

### Content

This unit will expand the clinician's knowledge of pharmacological principles and management of medicines specific for the clinical domain of practice with presentation of broad medication classes and their potential for adverse interactions, effects, and events. The principles of pharmacokinetics and pharmacodynamics, according to the selected broad classes of medicines required for the autonomous prescriber role, interpreting the relationship among symptoms, medication effects and risk management for the patient/client requiring prescription and administration of medicines are explored. The selection and evaluation of appropriate of appropriate therapeutic medicines, management of areas of risk for the patient/client experiencing an adverse reaction to medicines are presented including the development of a therapeutic plan undertaken in collaboration with the patient/client using a person-centred framework.

This unit is a core unit of the Master of Nursing Practice (Nurse Practitioner). In addition to the academic requirements and assessment tasks listed below, students who plan on applying to the Nursing and Midwifery Board of Australia (NMBA) for endorsement as a Nurse Practitioner, are required to:

- Undertake 20 hours of approved clinical placement per week in each trimester of study in the course.
- Successfully complete at least one Clinical Competency Assessment Tool (CCAT) linked to this unit.
- Continuously maintain the Professional Portfolio, details of which are provided on the Master of Nursing Practice (Nurse Practitioner) course site.

## HNN788 – Advanced Concepts in Specialty Nursing Practice

*Enrolment modes: Trimester 2: Cloud (online)^*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Elizabeth Oldland*

*Prerequisite: HNN750*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – cloud (online): Online independent and collaborative learning activities during three full day seminars.*

## Content

This unit is designed to advance the practice of specialist nurses by further developing students' professional practice and clinical leadership skills. Students will be challenged to become leaders in evidence-based practice specific to their area and change agents to improve the quality of nursing care and patient outcomes.

This unit covers the role of specialist nurses in managing critically ill patients in relation to:

- the advanced assessment and management of patients requiring complex physiological interventions and support;
- emerging trends in evidence-based speciality nursing practice, and knowledge translation;
- planning and management of contemporary and emerging workforce issues; and
- critical examination of the social, political, economic, legal and cultural contexts of specialty practice.

*Note: This unit is part of the Intensive Care, Cardiac Care, Emergency Care, Critical Care and Perioperative Specialty courses nested in the Master of Nursing Practice for students who are also employed in a suitable clinical area.*

*^ Students enrol as Cloud (online) students, however there are significant campus requirement. Classes are conducted at Burwood (Melbourne) and are video conferenced live to other venues.*

## Assessment

- Assessment task 1: Written assignment 1 (2500 words) 50%
- Assessment task 2: Written assignment 2 (2500 words) 50%

## HNR410 – Research Project 1

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Warrnambool, Waterfront (Geelong)*

*Trimester 2: Burwood (Melbourne), Warrnambool, Waterfront (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Bernice Redley*

*Trimester 2 Unit Chair: Bernice Redley*

*Cohort rule: Must be enrolled in H421 Bachelor of Nursing (Honours)*

*Prerequisite: HBS400 and HNR412*

*Corequisite: Nil*

*Incompatible with: HNR414*

*Scheduled learning activities – campus: Negotiable between supervisor and student*

## Content

This unit is the first in a sequence of two that comprise the undertaking of a research project and preparation of an individual research thesis in the area of nursing practice. Students are required to outline their research project proposal and prepare drafts of the early chapters for their thesis as a requirement of HNR412. They are also required to discuss their topic with the School of Nursing and Midwifery's academic staff before submitting the proposal for HREC approval. The topic of research should be consistent with the School's current research program and may reflect the student's particular area of interest; and clearly related to the theoretical material presented in the supporting units.

*Note: The Code of Good Practice in Supervision of Higher Degrees by Research outlines the responsibilities of students and supervisors and expected outcomes.*

## Assessment

Assessment task 1: Written report (18,000 words) 100%

## HNR411 – Research Project 2

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Warrnambool, Waterfront (Geelong)*

*Trimester 2: Burwood (Melbourne), Warrnambool, Waterfront (Geelong)*

*Credit point(s): 2*

*EFTSL value: 0.250*

*Trimester 1 Unit Chair: Bernice Redley*

*Trimester 2 Unit Chair: Bernice Redley*

*Cohort rule: Must be enrolled in H421 Bachelor of Nursing (Honours)*

*Prerequisite: HBS400 and HNR412*

*Corequisite: Nil*

*Incompatible with: HNR414*

*Scheduled learning activities – campus: Negotiable between supervisor and student*

### Content

This unit is the second in a sequence of two that comprise the undertaking of a research project and preparation of an individual research thesis in the area of nursing practice. Students are required to outline their research project proposal and prepare drafts of the early chapters for their thesis as a requirement of HNR412. They are also required to discuss their topic with the School of Nursing and Midwifery's academic staff before submitting the proposal for HREC approval. The topic of research should be consistent with the School's current research program and may reflect the student's particular area of interest; and clearly related to the theoretical material presented in the supporting units.

*Scheduled learning activities – campus: Online independent and collaborative learning activities including 4 x 6 hour interactive student seminars (students can attend online)*

### Content

This unit builds on HBS400 Research Methods. It provides students with an understanding of developing a research problem, from the identification of the research issue and literature review through to ethics approval and writing the chapters of a thesis.

### Assessment

- Assessment task 1: Assignment (2000 words) 30%
- Assessment task 2: Assignment (5000 words) 60%
- Assessment task 3: Oral presentation (10 minutes) 10%

## HPS104 – Foundations of Psychological Science

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Waurn Ponds (Geelong), Warrnambool, Cloud (online)*

*Trimester 2: Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Alexander Mussap*

*Trimester 2 Unit Chair: Emily Kothe*

*Trimester 3 Unit Chair: Alexander Mussap*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: HBS108*

*Scheduled learning activities – campus:*

*Burwood and Waurin Ponds: Weekly 1 x 2 hour class; online interactive modules; 1 x 2 hour seminar per fortnight.*

*Warrnambool: Weekly 1 x 2 hour recorded class; online interactive modules; 1 x 2 hour cloud (online) seminar per fortnight; weekly consultation via the Psychology Hub at Warrnambool.*

*Scheduled learning activities – cloud (online): Weekly 1 x 2 hour recorded class; online interactive modules; 1 x 2 hour cloud (online) seminar per fortnight.*

## Content

This unit introduces students to the empirical foundations of psychology. The central question addressed is: 'What does it mean to be an evidence-based practitioner of psychology?'. Topics include: the nature of evidence in psychology; the relationship between psychological research and practice; experimental, quasi-experimental, and non-experimental quantitative research designs; qualitative research; threats to the reliability and validity of research; statistics and the interpretation of results; ethical research and ethical practice in psychology.

## Assessment

- Assessment task 1: Experimental Research Designs (500 words) 10%
- Assessment task 2: Observational Research Designs (500 words) 10%
- Assessment task 3: Design Implementation (750 words) (20%)
- Assessment task 4: Plain Language Statement (500 words) 10%
- Assessment task 5: Examination (2 hours) 50%

# HPS105 – Foundations of Psychological Practice

*Enrolment modes:*

*Trimester 2: Burwood (Melbourne), Waurin Ponds (Geelong), Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Marilyn Hooley*

*All enquiries to [HPS105@deakin.edu.au](mailto:HPS105@deakin.edu.au)*

*Trimester 3 Unit Chair: Marilyn Hooley*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: Campus students will participate in 1 x 1 hour online class and 1 x 1 hour on campus seminar weekly*

*Scheduled learning activities – cloud (online): Cloud students will participate in 1 x 1 hour online class and 1 x 1 hour online seminar weekly*

## Content

This unit introduces students to the ways that the profession of psychology applies, and also informs, psychological knowledge to solve problems associated with human behaviour. The content of the unit provides a context for understanding and applying the discipline-specific knowledge and skills acquired through completion of the Psychology undergraduate courses.

## Assessment

- Assessment task 1: 4 Online quizzes 20%
- Assessment task 2: Case analysis (2500 words) 60%
- Assessment task 3: Career path and course plan 20%

## HPS111 – Psychology A: Fundamentals of Human Behaviour

### Enrolment modes:

Trimester 1: Burwood (Melbourne), CBD\*, Warrnambool, Warrnambool (Geelong), Cloud (online)

Trimester 2: Cloud (online)

Trimester 3: Cloud (online)

Credit point(s): 1

EFTSL value: 0.125

Trimester 1 Unit Chair: Mathew Ling

Trimester 2 Unit Chair: Alexa Hayley

Trimester 3 Unit Chair: Mathew Ling

Prerequisite: Nil

Corequisite: Nil

Incompatible with: Nil

Scheduled learning activities – campus: 1 x 2 hour seminar per week

Scheduled learning activities – cloud (online): 1 x 2 hour cloud (online) seminar per week

### Content

This introductory unit explores the fundamental principles underpinning the study of human psychology. As such, it will cover the definition and scope of the discipline of psychology; the primitive roots of our behaviour; the neurological structures and processes that are responsible for our mental life; and the important elements in our adapting to the world as individuals such as learning and intelligence.

This unit will provide an integrated and challenging introduction to psychology as a science, while also providing training in important skills for tertiary education as a whole through the seminar series. In completing this unit, students will gain new insights into the science of behaviour, a mastery of important research and writing skills, and a strong platform for learning advanced topics in psychology.

*Note: \*CBD refers to Institute of Koorie Education – Community Based Delivery*

### Assessment

- Assessment task 1: Critical response essay (800 words) 20%
- Assessment task 2: Academic essay (1200 words) 30%
- Assessment task 3: 3 x online quizzes 20%
- Assessment task 4: Multiple Choice Examination (90 minutes) 30%

## HPS121 – Psychology B: Individual and Social Development

### Enrolment modes:

Trimester 1: Cloud (online)

Trimester 2: Burwood (Melbourne), CBD\*, Warrnambool, Warrnambool (Geelong), Cloud (online)

Trimester 3: Cloud (online)

Credit point(s): 1

EFTSL value: 0.125

Trimester 1 Unit Chair: Hannah Bereznicki

Trimester 2 Unit Chair: Anna Klas

Trimester 3 Unit Chair: Hannah Bereznicki

Prerequisite: Nil

Corequisite: Nil

Incompatible with: Nil

Scheduled learning activities – campus: 1 x 1 hour class, 1 x 1 hour seminar per week

Scheduled learning activities – cloud (online): 1 x 1 hour cloud (online) class and 1 x 1 hour cloud (online) seminar per week

### Content

Following on from the biological underpinning of psychology in HPS111, HPS121 focuses on the science of the human individual in context. Different theoretical perspectives of psychological concepts relating to how we function as individuals in a social world are contrasted and evaluated throughout the unit.

We begin by looking at how we – as both biological and social beings – develop throughout the lifespan as we explore the complex interaction between biological and environmental influences. Various theoretical perspectives are applied to explore what makes up our individual personalities, and how personality is assessed. The impact of psychological disorders on individual and societal wellbeing is considered, and the different therapeutic approaches used to treat these disorders are analysed. We then examine the power of situational, societal, and cultural influences on behaviour.

The HPS121 teaching team aim to deliver challenging and fascinating psychological concepts in a way that you can apply to your own personal experiences, future study and career. In the class series, the unit will incorporate the content areas of HPS121 into a holistic understanding of the interactions and relationships between the topics, all within the context of psychology as a scientific discipline.

The seminar series will enable you to develop real-world applied skills that will help you work through the unit as well as expose you to some of the processes involved in working as an allied health professional. The assessment tasks are designed to help you develop industry-related skills and knowledge.

Though the unit content and assessments have been designed to help you broaden your understanding and skills developed in HPS111, HPS121 has been constructed so that students may do the two units in either order, or do either unit individually.

*Note: \*CBD refers to Institute of Koorie Education – Community Based Delivery*

## Assessment

### Trimester 1 and Trimester 2

- Assessment task 1: Laboratory report (2000 words) 40%
- Assessment task 2: Multiple choice examination (2 hours) 60%

### Trimester 3

- Assessment task 1 (Individual): APA-style lab report assignment (2000 words) 40%
- Assessment task 2 (Individual): 5 x Online Quizzes, one per fortnight (10 multiple choice questions per quiz) 15%
- Assessment task 3 (Individual): Multiple Choice Exam (90 multiple choice questions, 2 hours) 45%

## Prescribed texts

*Scheduled learning activities – campus: Trimester*

*2 Campus: 1 x 1 hour class and 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): 1 x 2 hour cloud (online) seminar per week*

## Content

This unit will introduce students to a variety of parametric univariate statistics commonly used in psychology. The focus is on both a conceptual and analytical understanding, rather than strict computational problem solving. The unit progresses from a discussion of descriptive statistics and the foundation of hypothesis testing to the introduction of specific statistical tests such as the t-test, chi-square, Analysis of Variance, Correlation and Regression. An important focus of the unit is on understanding the logic underlying the various statistical analyses covered. The unit also emphasises links between specific statistical analyses and common study designs used in psychology. Students will be taught to analyse data primarily through definitional formulae, as well as a computer-based statistical package.

## Assessment

- Assessment task 1: Assignment (maximum 2000 words) 50%
- Assessment task 2: Final examination (2 hours) 50%

## HPS202 – Child and Adolescent Development

*Enrolment modes:*

*Trimester 2: Burwood (Melbourne), Warrnambool, Warrnambool (Geelong), Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Burwood (Melbourne) and Warrnambool (Geelong): 1 x 1 hour seminar per week; 4 x 1.5 hour masterclasses per trimester; 1 x 1 hour recorded class per week*

*Trimester 2 Warrnambool: 1 x 1 hour seminar per week; 4 x 1.5 hour recorded masterclasses per trimester; 1 x 1 hour recorded class per week*

*Scheduled learning activities – cloud (online):*

*Trimester 2: 1 x 1 hour cloud (online) seminar per week; 4 x 1.5 hour masterclasses per trimester (live streaming or recording); 1 x 1 hour recorded class per week*

*Trimester 3: 1 x 1 hour cloud (online) seminar per week; 4 x 1.5 hour recorded masterclasses per trimester; 1 x 1 hour recorded class per week*

### Content

The unit addresses the study of several aspects of child development (cognitive, linguistic, social, emotional, biological, motor, moral, developmental disorders) from infancy to adolescence using a variety of theoretical orientations, and involves applying the processes of development to understand real-life problems.

*Note: Campus students are required to attend practical classes*

### Assessment

- Assessment task 1: Annotated bibliography (1000 words) 20%
- Assessment task 2: Policy brief (1500 words) 40%
- Assessment task 3: Examination (2 hours) 40%

### Prescribed texts

There is no prescribed text for this unit. All readings will be provided via CloudDeakin.

## HPS203 – The Human Mind

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Warrnambool, Warrnambool (Geelong), Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Stefanie Sharman*

*Trimester 3 Unit Chair: Stefanie Sharman*

*Scheduled learning activities – cloud (online):*

*Trimester 1: 3 x 1 hour class per trimester, 1 x 2 hour seminar per fortnight, 1 x 1 hour online activities per week*

*Trimester 3: 3 x 1 hour recorded class per trimester, 1 x 2 hour (online) seminar per fortnight, 1 x 1 hour online activities per week*

### Content

This unit presents a broad coverage of theories proposed by psychologists to explain the processes by which humans acquire, store, communicate, and use knowledge or information; the various research methods used by psychologists to study these processes; and some classic experimental findings in cognitive psychology which are the cornerstones of these theories. Topics covered in the unit include object recognition, attention, memory, reasoning, decision-making and problem-solving. These topics are treated within an information-processing approach to human cognition.

### Assessment

- Assessment task 1: Laboratory Report Part 1 (900 words) 15%
- Assessment task 2: Laboratory Report Part 2 (1800 words) 25%
- Assessment task 3: Cloud (online) activities 10%
- Assessment task 4: Examination (2 hours) 50%

### Prescribed texts

*Scheduled learning activities – campus:*

*Trimester 1: 1 x 1 hour class per week and 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online):*

*Trimester 1: 1 x 2 hour Cloud (online) seminar per week*

*Trimester 3: 1 x 1 hour recorded class per week. 1 x 2-hour online seminar per fortnight*

## Content

This Unit covers the main theories and research methods of social psychology. Topics include: an introduction to social psychology, research in social psychology, social cognition, social perception, self and identity, attitudes and persuasion, stereotypes and prejudice, social influence, group processes, aggression and prosocial behaviour, and finally, liking, love, and close relationships. As we move through the topics, the unit will explore the relevant theory and research and students will advance their knowledge of social psychology through application to real world-contexts (e.g., solving and understanding real-world problems).

## Assessment

### Trimester 1

- Assessment task 1: APA-style lab report assignment (2000 words) 45%
- Assessment task 2: Team-based learning activity (500 words) 10%
- Assessment task 3: Examination (2 hours) 45%

### Trimester 3

- Assessment task 1 (Individual): Research Proposal (1800 words) 40%
- Assessment task 2 (Individual): Group Processes in Action: Reflection (700 words) 15%
- Assessment task 3 (Individual): 5 x online quizzes, one per fortnight (10 multiple choice questions per quiz) 15%
- Assessment task 4 (Individual): Multiple Choice Examination (90 multiple choice questions, 2 hours) 30%

## Prescribed texts

Human Social Behaviour HPS204/774 Custom Publication, Vaughan & Hogg, Pearson Education

The prescribed textbook is a customised text specially put together for Deakin.

# HPS206 – Introduction to Forensic Psychology

*Enrolment modes:*

*Trimester 2: Burwood (Melbourne), Warrnambool (Geelong), Cloud (online)*

*Trimester 3: CBD\*, Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Belinda Guadagno*

*Trimester 3 Unit Chair: Belinda Guadagno*

*Prerequisite: Nil*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus:*

*Trimester 2: 4 x 2 hour master classes, weeks 2, 6, 8 and 11. 1 x 1 hour seminar per week.*

*Scheduled learning activities – cloud (online):*

*Trimester 3: 1 x 1 hour cloud (online) seminar per week.*

## Content

This unit will provide students with an introduction to Forensic Psychology. Students will be introduced to the structure of the Justice Systems in Australia, and will learn the fundamental principles involved in research and practice in the forensic context.

More specifically, the unit focuses on important practice issues that can arise in forensic psychology related work (e.g., ethical dilemmas and challenges inherent in client engagement). It examines theories and research in the area of sexual violence, family violence, substance-related offending, and family court matters, and explores the complexities associated with mental illness, disability, age, and cross-cultural issues in the forensic context.

The unit has a strong applied focus, and will present students with the introductory skills needed in the conduct of psychology-related work with forensic populations.

The content and discussion in this unit will necessarily engage with sexual assault, abuse, violence, victimisation and mental illness. Some of this content may be challenging to engage with. The teaching team will do their best to ensure students can engage bravely, empathetically and thoughtfully with difficult content each week.

*Note: \*CBD refers to Institute of Koorie Education – Community Based Delivery*

This unit may not be included as a part of a 10 point accredited major sequence in psychology (as required for application for further study in psychology).

## Assessment

- Assessment task 1: Narrated Presentation (10 minutes) 20%
- Assessment task 2: Report (1650 words) 35%
- Assessment task 3: Examination (1.5 hours) 45%

## HPS207 – Preparing for Employment

*Enrolment modes: Trimester 2: Burwood (Melbourne), Warrn Ponds (Geelong), Cloud (online), CBD\**

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Sandra Hooper*

*Cohort rule: Must be enrolled in course A301, D387, D390, D391, H300, H344, H345*

*Prerequisite: Eligible students will have completed at least eight credit points of study and be enrolled in one of the following courses: A301, D387, D390, D391, H300, H344, H345*

*Corequisite: Nil*

*Incompatible with: Nil*

*Scheduled learning activities – campus: 1 x 1 hour cloud (online) class per week (8 weeks) and 1 x 1.5 hour class per week (on campus with guest speakers) (2 weeks). 1 x 2 hour seminar per week (campus)*

*Scheduled learning activities – cloud (online): 1 x 1 hour cloud (online) class per week (8 weeks) and 1 x 1.5 hour class per week (recording) (2 weeks). 1 x 2 hour cloud (online) seminar per week*

## Content

This unit aims to:

- provide students with an introduction to psychology as it applies in the workplace, and,
- develop strategies and skills that will help students to build purposeful and relevant career plans and gain meaningful employment at the completion of their studies in psychology

The unit is very practically oriented and is designed to provide students with insight into careers that relate to the application of skills gained from a behavioural science degree such as psychology. There is particular emphasis on relevant careers available to students exiting after a three year (Bachelor degree) or four year (Honours or equivalent) sequence in psychology. The unit is delivered within a framework of key theoretical concepts of organisational psychology, and their relation to work and employment, and covers three main areas:

1. The various options that are available for employment and career advancement within the field of Psychology and related occupations. Students will gain insight into their own interests, aptitudes, and other characteristics and critically evaluate this information to identify relevant and meaningful career/employment options.
2. The importance of communication and teamwork in an organisational context. Students will explore the way teams develop and function and, utilising information gained about themselves in Theme 1, specifically analyse and evaluate their own interactions and contributions in a team setting.
3. Preparation of key materials relating to job seeking in order to improve students' success when applying, interviewing and marketing themselves to employers. This will involve the integration of concepts explored and identified throughout the unit including potential career options, transferrable skills, strengths and development areas and course learning outcomes.

*Note: \*CBD refers to Institute of Koorie Education – Community Based Delivery*

## Assessment

Assessments in this unit are particularly applied in nature. They involve a high degree of self-reflection and self-assessment as well as application of information obtained through lived experiences and applied activities.

- Assessment task 1: Self-assessment report and career development action plan (1500 words) 30%
- Assessment task 2:
  - Part a) Team solution of organisational psychology related business problem (10 minute group presentation) 10%
  - Part b) Individual analysis of the development of a newly formed team and evaluation of team performance and roles of team members in solving the problem (1500 words) 30%
- Assessment task 3: Submission of a job application for a nominated real-life position including a document addressing key selection criteria and a cover letter (1500 words) and a curriculum vitae to be attached to the job application 30%

You will be asked to consider the application of these concepts to a range of clinical contexts to develop an understanding of how concepts from within health psychology can be applied to both the individual and to specific disease populations. The unit will consider the theoretical, methodological, and practical aspects of health and illness using applied examples from such fields as psycho-cardiology, psycho-oncology and psycho-gastroenterology, among others.

## Assessment

- Assessment task 1: Quiz (20 minutes) 10%
- Assessment task 2: Shared Decision-Making Tool and Written Rationale (2000) 50%
- Assessment task 3: Examination 40%

## Prescribed texts

## HPS226 – Applied Health Psychology

*Enrolment modes: Trimester 2: Burwood (Melbourne), Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 2 Unit Chair: Antonina Mikocka-Walus*

*Prerequisite: HBS110*

*Corequisite: Nil*

*Incompatible with: HPS326*

*Scheduled learning activities – campus: 1 x 2 hour seminar per week for 10 weeks (no seminar in week 1)*

*Scheduled learning activities – cloud (online): 11 x 1 hour pre-recorded class per week; 1 x 2 hour cloud (online) seminar per week (for those studying online)*

## Content

This unit provides an introduction to the theory and practice of health psychology. Building on the foundation of the influential behaviour change theories, the unit offers a biopsychosocial perspective on chronic illness conceptualisation and treatment. Students will get acquainted with the concepts relevant to health and illness from the biopsychosocial perspective.

## HPS301 – Research Methods in Psychology B

*Enrolment modes:*

*Trimester 1: Burwood (Melbourne), Warrnambool, Waurn Ponds (Geelong), Cloud (online)*

*Trimester 2: Cloud (online)*

*Trimester 3: Cloud (online)*

*Credit point(s): 1*

*EFTSL value: 0.125*

*Trimester 1 Unit Chair: Shannon Hyder*

*Trimester 2 Unit Chair: Shannon Hyder*

*Trimester 3 Unit Chair: David Skvarc*

*Prerequisite: HPS201*

*Corequisite: Nil*

*Incompatible with: HPS781*

*Scheduled learning activities – campus:*

*Burwood and Waurn Ponds: 1 x 1 hour class and 1 x 2 hour seminar per week*

*Warrnambool: 1 x 1 hour recorded/streamed class and 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online): 1 x 1 hour recorded/streamed class and 1 x 2 hour cloud (online) seminar per week*

## Content

This unit provides an advanced treatment of several important techniques required for the conduct of independent research. Topics include experimental design and the analysis of variance (ANOVA) statistical procedure including planned contrasts, simple effects, interpretation of higher order factorial designs; repeated measures and mixed-mode ANOVA; non-experimental designs, scale construction and surveys; sampling; data screening; and multiple regression.

Students will be given experience in the design and conduct of psychological research, analysis of data using a computer-based statistical package, and writing research reports using APA format.

## Assessment

- Assessment task 1: Assignment (2000 words) 40%
- Assessment task 2: Weekly quizzes (5 multi-choice questions per week) 10%
- Assessment task 3: Examination (2 hours) 50%

## Prescribed texts

Field, A. (2018). *Discovering Statistics Using SPSS* (5th edition). Sage Publications.

## Content

This unit provides an examination of the theories that underpin developmental psychology and the research methods used in this area. The physical, social, cognitive and personal aspects of adult development and ageing are considered, taking into account both the gains and losses associated with ageing. Although the focus is on normal ageing within changing social and historical contexts, the cognitive, behavioural and social consequences of age-related pathologies are also examined and the promotion of optimal ageing is explored.

*Note: Campus students are required to attend practical classes.*

## Assessment

- Assessment task 1: Literature Review and Interview Schedule (1000 words) 30%
- Assessment task 2: Interview Evaluation (1500 words) 30%
- Assessment task 3: Examination 40%

## Prescribed texts

*Scheduled learning activities – campus: 1 x 2 hour class and 1 x 2.5 hour class per fortnight*

*Scheduled learning activities – cloud (online): 1 x 2.5 hour cloud (online) class per fortnight*

## Content

In this unit students will gain an advanced understanding of social psychological research into interpersonal relationships processes. Students will learn about various topics such as: attachment and attitudinal processes, the formation and dissolution of relationships, emotions and prosocial behaviour in relationships, aggression and interpersonal hostility. Concurrently the unit will extend students' understanding of some major debates that have shaped the study of relationships and interpersonal processes.

## Assessment

- Assessment task 1: Seminar participation 15%
- Assessment task 2: Online quiz 15%
- Assessment task 3: Written assignment (1500 words) 35%
- Assessment task 4: Examination (1.5 hours) 35%

*Trimester 2: 1 x 2 hour seminar per week*

*Scheduled learning activities – cloud (online):*

*Trimester 2 and Trimester 3: 1 x 2 hour cloud (online) seminar per week*

## Content

This unit provides students with an opportunity to explore a range of theoretical frameworks which are used in the study of personality. It will provide students with a sound knowledge of the nature of personality theories, and the major themes, assumptions and issues involved in this area. Students will analyse the psychoanalytic, learning, phenomenological, dispositional and cognitive approaches, in order to assess their practical usefulness and scientific status. Activities will tend to focus on application of the theories.

## Assessment

- Assessment task 1: Lab report (2000 words) 40%
