Congratulatory message from the Chancellor

On behalf of the Deakin University community, my congratulations to you, your families, and to all who have worked so hard towards achieving the success we celebrate with you today.

Like you, I am a Deakin alumnus, and I believe you will find as I have, that your Deakin qualification will be a valuable asset as you explore the opportunities ahead of you. Your Deakin degree will empower you to seek out new opportunities with the confidence you are ready and can contribute, and you will have the resilience that will enable you to overcome the inevitable challenges ahead.

Graduation ceremonies mark the completion of your current academic journey, but they also are the signal of the start of a new phase of your lives and your careers. Deakin is proud to have played its part in providing the skilled graduates who will drive the economy, using your creativity and skills, to generate the new ideas and enterprise necessary to face the global challenges of the 21st century.

Be proud of your achievement, you are a Deakin graduate and Deakin graduates are the truest evidence of the quality of the Deakin experience, they are a continued inspiration to Council, to staff, to each other and to future graduates.

I encourage you to keep in touch with your university. You’ll find that Deakin’s Alumni community of over 250,000 graduates will be an invaluable resource for you as you embark on this next stage of your career. I hope you will take advantage of and contribute to this extraordinary community who all began their professional lives at Deakin.

Mr John Stanhope AM
Chancellor

Congratulatory message from the Vice-Chancellor

Your graduation marks an important milestone. The robes, trenchers and the mace, alongside the procession of today’s ceremony, may seem old-fashioned for a progressive university that has so successfully harnessed the power of the digital world. But these time-honoured traditions remind us that while you are on the cusp of beginning a new phase of your lives, you are also connected to a tradition of learning that dates back hundreds of years to the universities of medieval Europe.

The traditions of the ceremony reflect a continuity of purpose that has been true for universities since the first university was established in Bologna in Italy in 1088. They remind us that we are part of a remarkable human history of commitment to enquiry and scholarship, to knowledge and truth through hard work and reason.

Universities are durable and enduring; unique institutions that are assemblers of great talent, where passion, creativity and idealism blend seamlessly with discipline depth. For generations universities have been both a compelling indicator and a powerful instrument for human progress.

I add my congratulations to the many you will receive as you reflect on your achievements. You are now a graduate of Deakin University. I encourage you to remain curious, to continue to be creative and always to be brave. Remember also the values you have learnt during your time with us – be a force for good and show the world that Deakin has helped you to become the very best you can be. Let your passion, curiosity, entrepreneurial spirit and openness to new ideas serve you well.

Thank you for choosing Deakin, I hope we will have the opportunity to continue to connect with you as alumni, mentors, colleagues, supporters and friends.

It has been our great privilege to be part of your education and I wish you good fortune for the future.

Professor Jane den Hollander AO
President and Vice-Chancellor
Welcome!

The Graduation Ceremony

‘Kim barne barre Wadawurrung Dja’
Welcome to Wadawurrung Country

Deakin University would like to acknowledge the Wadawurrung People, the traditional custodians of the land and the Wathaurong community where this graduation ceremony is taking place. We pay our respects for their continued care of the land and further extend that respect to elders past and present.

Order of Ceremony

Processional music heralds the arrival of the Academic Procession for the graduation ceremony.

At the commencement of this music, graduands and guests are asked to stand and remain standing for the National Anthem.

The Master of Ceremonies will open proceedings and the Chancellor will deliver the opening address. The Vice-Chancellor will then introduce the guest speaker who will deliver the occasional address.

The Chancellor will then make a formal declaration conferring the awards of the University on the graduates, both present and in absentia, and will invite graduates to proceed to the stage according to the order published in the program.

A Faculty Executive Dean will read out the names of graduates being presented to the Chancellor.

At the conclusion of the presentation of the graduates, a representative of the graduating students will deliver a brief response.

The Vice-Chancellor will deliver the closing address. Following the closing address, there will be a musical performance.

At the conclusion of the ceremony guests are requested to stand while the stage party and graduates leave the hall.

Refreshments will then be served in the marquee in the John Hay Courtyard.
The University Mace

Maces were originally medieval weapons carried by bodyguards to kings and sergeants-at-arms. Much later, the mace became of ceremonial rather than practical significance and organisations such as civic corporations and universities adopted the mace as a symbol of the rule of legal authority.

The University’s mace is displayed at meetings of the University Council and on such ceremonial occasions as conferring ceremonies. The bearer of the mace, in academic processions, ‘guards’ the Chancellor. Deakin’s mace was presented to the University by Mr Donald Thomson, Sir Wilfred Brookes and Mr Norman Stephen (Alcoa Australia).
The Academic Procession

In academic processions, the order of precedence on entry is from junior to most senior. The Chancellor, therefore, is the last member of the procession, followed by the mace-bearer. The Deakin Academic Procession and stage party usually consists of:

Academic Dress

Academic dress is an important reminder of the long history of universities in western civilisation. The three main elements of academic dress are the gown, the hood and the head-dress, which were all once articles of everyday outer dress. Both gowns and hoods, when in common use, were often lined and this lining was decorative, as well as practical. In medieval times, the higher the rank of the wearer, the more sumptuous the gown.

In universities there is still a difference in the apparel of scholars of various ranks reflecting the origins of the academic dress. Today’s academic head-dress evolved from various hats and bonnets of earlier times. Deakin University’s academic dress, like that of most Australian universities, derives from dress worn at the Universities of Oxford and Cambridge.

Deakin University Academic Dress

Higher Doctorate – a red gown with gold silk front facings finishing at the front yoke line, sleeves fully lined with gold silk and turned back at the front seam, together with a red hood lined with gold silk and a red bonnet with gold tassels.

Doctor of Philosophy – a royal blue gown with red silk front facings finishing at the front yoke line, sleeves fully lined with red silk and turned back at the front seam, together with a royal blue hood lined with red silk and a royal blue bonnet with red tassels.

Professional Doctorate – a royal blue gown with the relevant discipline colour silk front facings finishing at the front yoke line, sleeves fully lined with the relevant discipline colour silk and turned back at the front seam, together with a royal blue hood lined with silk of the relevant discipline colour, and a royal blue bonnet with blue tassels.

Deakin’s graduation ceremonies include a number of live musical performances, including the National Anthem and a musical arrangement at the conclusion of the ceremony. These are the biographies of the artists who perform at the ceremonies. Performers may vary between ceremonies.

Michael Cristiano

Michael Cristiano is one of Australia’s most highly acclaimed performers and producers. As a producer, his name can be found on numerous multi-platinum selling albums by such artists as The Seekers, Judith Durham, Silverchair, Andre Rieu and Gene Pitney amongst many other big names. He has also wowed audiences on stage as a singer and guitarist. He is one of the country’s most respected musicians and composers, has taken home many music awards and played live to an international audience of millions at the AFL Grand Final with his own composition ‘Rock The G’.

Ron Murray

Ron Murray is a Wamba Wamba man (Swan Hill area) living at Yapeen, near Castlemaine in central Victoria on Jaara country. He has performed as a didgeridoo soloist widely in Australia and also in New York, Jordan, Canada and New Zealand. Ron has performed for Queen Elizabeth II, Yusuf Islam (Cat Stevens), Sir Bob Geldof and Muhammed Ali. Musical highlights include performing at the world premiere of American composer Phillip Glass’ ‘Voices for Didgeridoo, Organ and Narrator (2001) with Mark Atkin, Calvin Bowman and Joy Murphy-Wandlin at the Lincoln Center Festival, New York. Ron regularly performs as a foundation member of the Deep Listening Band, a collaboration of Indigenous and non-Indigenous musicians and artists based on the Indigenous philosophy of Dadirri.
Mary Catanchin
Singer/songwriter Mary Catanchin has entertained in countless shows throughout Australia for the past six years. She is no stranger to the big stage, performing in venues such as Crown Palladium, The Melbourne Convention and Exhibition Centre, Federation Square, Etihad Stadium and Crown Casino Perth for corporate and public events. In 2014 Mary’s original band Heavy Feather released their debut E.P. ‘Carry you Home’ which received community radio airplay as well as being featured on Triple M’s Homegrown Program, which aired nationally. Currently Mary fronts popular cover band Every Avenue, performing up to four nights a week throughout Melbourne.

Jessica Markovski
Jessica Markovski is a singer/songwriter from Geelong. Praised for her vocal skills and her remarkable ability to play numerous instruments, she is consistently greeted with exceptional accolades by world known musicians. She has toured Europe and America with ‘The Sweethearts’, playing at festivals such as Summerfest, Jazz A Vienne and Porretta Soul Festival, and was invited to perform at the Legendary BB King’s cafe in Memphis, Tennessee. Her passion for composing and performing continuously presents her with many exciting opportunities as a solo artist. She is currently recording and releasing her original compositions and is also involved in commercial modeling and acting.

Ashleigh Watson
Ashleigh Watson is an independent retro soul singer/songwriter based in Melbourne. Originally from a jazz background, she found her passion for Motown and soul music when she joined all girl soul band ‘The Sweethearts’ at just 14 years of age performing with them twice at the prestigious Porretta Soul Festival Italy and Montreaux Jazz Festival Switzerland. In 2013, Ashleigh was invited to participate in the distinguished Hollywood Immersive Music Course in LA, working on her original material with numerous hit songwriters. The support she received ignited her passion to expand her craft and in 2015 her first EP ‘Lolita’ was released gaining international airplay and much critical acclaim. Over the past few years she has also become a recurring session vocalist on The Voice Australia, X-Factor and the upcoming album for musical act, ‘Owl Eyes’.
The University

Alfred Deakin

Deakin University was named in honour of Alfred Deakin (1856–1919), a remarkable Australian statesman, leading figure of the federation movement and three-time Prime Minister of Australia.

Alfred Deakin was a man of broad vision. Praised as a political leader, he was an outstanding orator, accomplished lawyer, a journalist, poet, an intellectual and an idealist motivated by a sense of duty to his country.

The son of English migrants, Alfred Deakin was born and educated in Melbourne, studying law at the University of Melbourne. He embarked upon a career in journalism with *The Age* and was a prolific reader of literature, philosophy, law and science, earning most of his income as a writer of social and political commentaries.

In 1879, Alfred Deakin launched his political career and became a successful Liberal candidate for the Victorian Parliament. A believer in democratic social reform, he became the acknowledged leader of the Australian Federation movement in Victoria. He was an active campaigner, a delegate at the federal conventions, member of the constitutional drafting committee and colonial representative in London.

Alfred Deakin was Deputy Prime Minister and Attorney-General in Australia’s first government and, in 1903, he became Prime Minister. His many achievements include the establishment of the High Court of Australia, the introduction of labour and social reforms, the promulgation of new technologies such as irrigation and wireless telegraphy, support for the exploration of Antarctica and the introduction of financial support for Australian writers.

The values of innovation, leadership, scholarship and reform embodied in Alfred Deakin are also fundamental values of Deakin University.

About Deakin University

Deakin University is Australia’s fifth largest university. As a public not-for-profit university, Deakin combines excellent research and teaching with a strong focus on strengthening the communities it serves.

The University was established with the Deakin University Act of 1974 as Victoria’s fourth university and the first in regional Victoria. Today it has over 61,000 students, of whom 12,000 are international students from 130 countries. More than 15,000 students choose to study online.

Deakin University has five campuses – one in Melbourne, two in Geelong, one in Warrnambool and the online Cloud Campus.

In addition, Deakin has prestigious multipurpose facilities in Melbourne and Geelong and international offices in South Asia, China, Indonesia, Europe, Malaysia, Vietnam, Pakistan, Singapore and Latin America.
Deakin is a sector leader for student satisfaction, ranking number one in Victoria for eight consecutive years (Graduate Outcomes Survey 2018). Deakin has a student-focused culture with a well-deserved reputation for being accessible, helpful and friendly. It has a long standing record for using cutting-edge technology in education, while providing highly personalised learning experiences.

Advances in research have been a hallmark of Deakin’s success, with impressive growth in quality, impact and income.

Deakin was ranked 211 globally in the 2018 Shanghai Academic Ranking of World Universities (10th of Australia’s 39 universities). Deakin is renowned for developing award-winning partnerships with industry, governments, communities, professional associations and other education providers. Building on successes across Australia, these alliances now spread to more than 30 countries. Deakin’s alumni networks also stretch across the globe, with more than 240,000 members from more than 110 countries.

Building on the University’s success

Deakin University’s Strategic Plan – *LIVE the future: Agenda 2020* – provides a framework for a bold and exciting future, while remaining true to the University’s founding goals:

- to develop lasting and mutually beneficial relationships with rural and regional communities, in particular those in Geelong and Western Victoria
- to offer an educational experience that will widen participation and support students from diverse backgrounds.

These important aims continue to be core to the future of Deakin University. However, in a world that is now globally connected and where excellence and new ideas are available at the touch of a button, we will ensure that engagement and innovation ‘anywhere’ and ‘everywhere we are’ is grounded in all aspects of Deakin life – its teaching, its research and its enterprise – to enable our students and staff to thrive and to excel.

The University’s vision and mission for its students, staff, alumni, partners and friends is to offer personalised experience with premium digital engagement, creating the power and opportunities to live in a connected and evolving world. Deakin will be Australia’s premier university in driving the digital frontier – to enable globally-connected education for the jobs of the future and research that makes a difference to the communities we serve.

Informed by its Australian context and engaged locally in the communities it serves, Deakin promises to advance:

- learning – offer brilliant education where you are and where you want to go
- ideas – make a difference through world-class innovation and research
- value – strengthen our communities, enable our partners and enhance our enterprise
- experience – delight our students, our alumni, our staff and our friends.

For all these reasons, Deakin University occupies an important place in the Australian higher education landscape.
Deakin was established by the Victorian Parliament in 1974 as a ‘university in the Geelong area’. Deakin began teaching on 1 April 1977.

Deakin University was named after Alfred Deakin, who served as Prime Minister three times between 1903 and 1910 and was a significant figure in the achievement of Australian Federation.

When it was established, Deakin incorporated two existing Geelong-based institutions – the Geelong State College and the Gordon Institute of Technology.

Deakin had approximately 2500 students in its first year (1977), rising to 4800 in 1980.

By 1984, Deakin had consolidated its operations at the Geelong Waurn Ponds Campus.

Deakin’s growth outside Geelong began in 1990 when it amalgamated with the Warrnambool Institute of Advanced Education. This continued in 1991 when it amalgamated with Victoria College, which operated from Burwood, Toorak and Clayton.

Deakin was one of the first Australian universities to embrace professional and continuing education to corporate clients, establishing Deakin Australia (now DeakinCo.) in 1993.

In the mid-1970s, the disused woolstores on the waterfront in central Geelong was one site considered and rejected for the proposed university that was to become Deakin. In 1996, this idea came to fruition with the opening of the Geelong Waterfront Campus.

In 2008, the Deakin University School of Medicine opened, becoming Victoria’s first rural and regional medical school.

February 2012 saw the first intake of students in the new Bachelor of Vision Science/Master of Optometry degree.

In July 2012, Deakin University launched its Strategic Plan – LIVE the future: Agenda 2020.

In response to continued growth in student and staff numbers at Deakin, since 2013 new buildings and major improvements have included:
– the iconic gateway building at the Melbourne Burwood Campus
– Centre for Advanced Design Engineering Training at the Geelong Waurn Ponds Campus
– expansion of student accommodation across all campuses.

In March 2014, the University declared it would be a smoke-free environment.
In May 2014, the $34 million globally unique cutting-edge carbon fibre research and innovation facility, Carbon Nexus, officially opened at the Geelong Waurn Ponds Campus.

In December 2014, Deakin celebrated its 200,000th graduate.

In January 2016, John Stanhope AM assumed the position of Deakin’s Chancellor, taking over from David Morgan who served as Chancellor for 10 years.

In April 2016, the Deakin Business School received accreditation by The Association to Advance Collegiate Schools of Business International, the longest serving global accrediting body for business schools in the world.

In August 2016, the Deakin University Community Bank® initiative with Bendigo Bank was launched – the first collaboration of its kind between a university and a financial institution.

Deakin partnered with FutureLearn to offer full degrees online and short free courses through FutureLearn’s global platform.

In 2017 Deakin University and LeMond Composites joined forces in a $58m deal to revolutionise the use of carbon fibre across the world.

In 2017 the expanded TERI-Deakin Nanobiotech Centre was opened by the Prime Minister.

In 2017 Deakin ranked 213 globally by the prestigious Academic Ranking of World universities.

In 2018 Deakin officially launched its Innovation Hub ManuFutures.

In 2018 Deakin partnered with AusNet Services to establish a 7.25 MW smart microgrid at its Geelong Waurn Ponds campus.

In 2018 Deakin’s School of Exercise and Nutrition Sciences ranked third in the world by the Academic ranking of World Universities.

Deakin ranked first in Victoria for student satisfaction for the 9th consecutive year (AGS;GOS).

Deakin’s Careers Service was recognised by the graduate recruitment industry as the best careers service in Australia for the second consecutive year.

The 2018 Excellence in Research for Australia rankings saw Deakin performing at or above world standard in 100% of its research (up from 90% in 2015)

In March 2019, Deakin celebrated 25 years of engagement in India. Deakin was the first international university to establish an office in India.
The Campuses

Deakin is a large university with all the accompanying resources and infrastructure, but its campuses are small enough to retain their own character and sense of community. Each of our campuses offers a unique atmosphere – from the inspiring architecture and bayside appeal of our Geelong Waterfront Campus, to the cafe culture of our Melbourne Burwood Campus, the spectacular coastal location at our Warrnambool Campus or the mix of activity and open space at our Geelong Waurn Ponds Campus.

Melbourne Burwood Campus

This thriving campus is Deakin’s largest. Located 15km from the Melbourne CBD, it boasts open and inviting spaces for socialising and studying, innovative architecture and wireless locations. An ambitious building program has resulted in a new complex of spacious modern buildings, including the gateway building situated on Burwood Highway. Refurbishment of older buildings, a library extension, expansion of residential accommodation, a 250-seat lecture theatre and a large landscaped central courtyard have all created a campus that is well-resourced and well-designed.

The campus is home to the Deakin University Art Gallery and the Deakin Motion.Lab, a state-of-the-art motion capture facility that produces 3D animation and special effects, similar to those used in films such as *Avatar* and *The Lord of the Rings*.

Geelong Waurn Ponds Campus

Deakin’s Geelong Waurn Ponds Campus is located 8km from the centre of the historic port city of Geelong, which is 72km south-west of Melbourne. Geelong is Victoria’s largest regional city with a population close to 225,000.

Set among extensive landscaped grounds, the Geelong Waurn Ponds Campus boasts hectares of native trees, grassy lawns, lakes and avenues. There are many specialist facilities at this campus, including an outstandingly resourced library, audiovisual production studios, research laboratories and an extensive computer centre. The Waurn Ponds Estate provides first-class conference and convention facilities.

Also located at the Geelong Waurn Ponds Campus is the Geelong Future Economy Precinct. The Precinct draws on over 15 years of investment in developing the research expertise and facilities in areas such as carbon and ultra-fine fibre, nanotechnology and composite materials, as well as robotics, pattern recognition and data analytics. Some of Australia’s, and the world’s, leading advanced manufacturers now call the Precinct home.
Geelong Waterfront Campus

The Geelong Waterfront Campus is Deakin’s newest campus, located on the beautiful foreshore of Corio Bay in the central business district of Geelong. Originally built in 1893, the historic woolstore building has undergone extensive redevelopment to create a modern and impressive campus centre.

The centrepiece of the campus is Costa Hall, a concert hall of international standard, where a number of university ceremonies, cultural performances and community functions take place, including Deakin’s graduation ceremonies.

Also located at this campus is the refurbished Sally Walker Building, which houses the Alfred Deakin Prime Ministerial Library and the Alfred Deakin Research Institute. The Alfred Deakin Research Institute is an interdisciplinary teaching and research centre covering political science, public policy and governance, international relations, globalisation, journalism and communications.

Warrnambool Campus

Warrnambool is the commercial, cultural and educational heart of south-west Victoria. A premier tourist destination, it boasts stunning coastlines, renowned surf beaches and is the state’s foremost site for whale watching.

Located 262km from Melbourne, the campus is set on 114 sprawling hectares on the banks of the picturesque Hopkins River. Our lecturers, students and staff at the Warrnambool Campus form a real community, where communication is open and informal.

Campus facilities include a comprehensive library, excellent teaching and learning spaces, a cafe, gymnasium, bookshop and golf course. Located just 5km from the centre of Warrnambool, the campus ensures that Deakin contributes to the vitality of the local community in the tradition of many university cities.
Institute of Koorie Education

Deakin University is proud to have the largest number of Aboriginal and Torres Strait Islander students of any Victorian university. The Institute of Koorie Education commenced in 1991 and offers programs that are structured around off-campus community-based delivery, supported by on-campus intensive study blocks and complemented by local tutors at regional study centres. This approach to course delivery promotes access and equity for Indigenous Australian students. Students from all areas of the country – rural, remote and metropolitan, and across all age ranges, particularly mature age – are able to undertake studies without compromising their family and community obligations.

Award of Honorary Degree

The honorary degree of Deakin Honorary Doctorate will be conferred upon Ms Melinda Smith OAM for her outstanding contribution to the arts and her tireless work in breaking down barriers to inclusion for people with disability both in Australia and internationally.

Ms Melinda Smith OAM

The Occasional Address will be delivered by Ms Melinda Smith OAM.

Ms Melinda Smith comes from a professional background of mentoring and consultancy in the disability and education sectors. In 2008, Melinda began to develop a series of journal articles, conference presentations and workshops promoting the health and wellbeing outcomes of dance and movement for people who have physical disabilities, in particular, wheelchair users, and those with complex communication needs. Her work has been presented including Keynote Addresses at national and international conferences, including the International Society for Augmentative and Alternative Communication, the Australian Rehabilitation and Assistive Technology Association, the Salamanca Moves Festival, and many others.

Ms Smith has always had a passion for visual and performing arts, and sees participation in this field as essential for the wellbeing of individuals. She believes that the creative process is intuitive and vital, regardless of age or disability. She continues to develop her work as a trainer and mentor for people with diverse physical needs, and is currently working at Melbourne’s Cerebral Palsy Education Centre in their Physical Education and Movement programme.

Ms Smith’s performing career began in 2006 when she performed with a small theatre group called Amuse Ability. In 2010 she helped to establish a small dance troupe of wheelchair users, known as Wheel Women, who partnered with Fusion Theatre to develop the stage production, Perfectly Imperfect. Here she met choreographer Dr Dianne Reid, and began to develop her dance practice. This was the first time Melinda had experienced dancing out of her wheelchair and the beginning of a dance mentorship and collaboration with Dr Reid that has spanned several years.

Melinda first joined Weave Movement Theatre in 2010, performing in the live presentation of A Broken Puzzle directed by Dr Reid. Between 2010–2015 she performed in several Weave productions, working with directors Yumi Umiumare, Sally Smith, Born in a Taxi members, Penny Baron, Carolyn Hannah and Nick Papas, and international guest Caroline Bowditch. In addition to her work with Dr Reid, Melinda has collaborated on the 2016 development of Subject A vs. Subject B directed by Joshua Pether. Since 2015 she has been attending regular workshops in Body Mind Centering and dance improvisation with Alice Cummins.
In 2016 Melinda received grants from the Australia Council for the Arts and Creative Victoria to collaborate with Dr Dianne Reid on their duet practice and performance Dance Interrogations and, in 2017, for the creative development of her solo work, Spasmotive. Elements of this collaboration feature in Dr Reid’s 2016 Doctoral thesis undertaken at Deakin University, entitled Dance Interogations – the Body as creative interface in “Live Screen/Dance.” Their work also features in Dr Reid’s documentary “Nothing But Bones In The Way.” The next phase of Melinda’s work sees her collaborating with Melbourne’s Women’s Circus, where she is incorporating aerial apparatus in her creative practice.

Melinda lives with cerebral palsy, which has necessitated the use of powered wheelchairs and speech generating devices.

Doctor of Philosophy – PhD

Kim Michelle Aitken
Whose thesis is entitled:
‘The Role of Leadership in Fostering Organisational Identity and Organisational Identification to Support Successful Change.’

Summary
A mixed-method study – incorporating systematic and meta-analytic reviews and qualitative methodologies – which examined the key leadership elements influencing successful organisational change, in addition to investigating the role of leadership in fostering organisational identity and organisational identification during change. The study established positive and significant relationships between key research constructs and developed a competency model focused on the leadership of change.

Whose thesis is entitled:
‘Policy priorities to reduce disparities in ischaemic heart disease mortality among regional and rural Australians.’

Summary
This thesis investigated the role of modifiable risk factors in the inequalities in ischaemic heart disease burden in rural Australia. The research highlights a need for addressing other factors, such as access to health services and reducing the barriers for the development of evidence-based policy for the prevention of cardiovascular disease in rural areas.

Whose thesis is entitled:
‘Pathways to Electronic Gambling Machine Venues in New South Wales.’

Summary
This thesis identified the range of non-gambling activities within community gambling venues, and the factors that influence attendance and normalise venues in regional communities in NSW. This research is important in the development of a comprehensive public health approach to reduce gambling harm in community-based settings.

Whose thesis is entitled:
‘Aerobic Exercise with Blood Flow Restriction for Patients Undergoing Dialysis.’

Summary
This study demonstrated that blood flow restriction aerobic exercise performed during dialysis is both haemodynamically safe and efficacious for enhancing strength and physical function among patients with end-stage kidney disease. The findings positively support blood flow restriction as an adjunct to exercise for dialysis patients afflicted with marked physical impairment.

Whose thesis is entitled:
‘Feasibility, Useability and Acceptability of a Smartphone Application to Support Carers of People with Cancer.’

Summary
A smartphone application is a feasible way to deliver information and resources to carers while they are looking after someone receiving cancer treatment. A smartphone application is an appropriate resource for carers regardless of their age or gender.

Whose thesis is entitled:
‘Towards a Nurse-Led Model of Care for Medication Abortion Provision in Regional and Rural Victoria.’

Summary
While abortion in Victoria is legalised, abortion access in regional areas remains poor. This study developed a nurse-led model of care for medication abortion provision in the primary healthcare setting. Successful implementation of the model has the potential to significantly improve abortion access for women residing in underserved regions.

Whose thesis is entitled:

Summary
This thesis developed an inclusive method by which to listen to and understand the human rights experiences and priorities of Pacific children with disabilities, in order to effect change. The children’s priorities and aspirations were then analysed against the Convention on the Rights of Persons with Disabilities (CRPD) as a method to identify children with disabilities’ human rights priorities and assist governments and non-government agencies with treaty body reporting. The method has since been drawn upon by the Women’s Refugee Commission in Ethiopia and UNICEF Cambodia to enable the priorities of children with disabilities to inform policy and practice.

Whose thesis is entitled:
‘Using Information Systems/Information Technology to Support the Delivery of Chinese Medicine.’

Summary
This study investigated aspects of utilising IS/IT in Chinese Medicine practice in Australia. The research proposed that a more suitable synthesis should be adopted for the developments in this domain. Hence, the Chinese Medicine Inquiring System is a combination of the key concepts of Knowledge Management, Inquiring Systems and IS/IT.

Whose thesis is entitled:
‘Investigating Regulatory Frameworks Dealing with the Marketing of Alcohol in Australia.’

Summary
This research explored expert opinion and conducted industry document analysis to develop a politically palatable and practical solution to the alcohol marketing regulation impasse in Australia. With the potential for step-by-step escalation up the proposed regulatory pyramid, this framework could ultimately lead to effective alcohol marketing legislation in the future.

‘The Use of Network Analysis to Evaluate Community-Based Obesity Prevention Interventions.’

Summary
This thesis explored the complex components of community-based obesity prevention interventions; leadership committees, systems maps, and their interdependencies. The thesis proposed an array of techniques from network analysis, and analysed both retrospective and prospective trials. The findings offer recommendations for the formation of synergised collaboration in future complex systems interventions.

‘An Investigation of the Australian Experience of Adolescent Violence Towards Parents and the Potential Links with Youth Justice.’

Summary  
This thesis provided a comprehensive exploration of Adolescent Violence Towards Parents (AVTP) within Australia and the relationship between AVTP and other young offending. The findings highlighted the complex interplay of characteristics of families who experience AVTP, and determined that AVTP often occurs in the context of broader anti-social behaviour.

‘Can a Rural Australian Community Lead and Sustain Obesity Prevention?’

Summary
This thesis combined community-based system dynamics with a collaborative framework to identify locally relevant determinants of obesity and feasible community led solutions. This study, located in a rural and remote local government area in Victoria, showed improved readiness to change, successfully implemented a health promoting cafe, and reduced discretionary foods in kindergartens.

‘You are now in Harmonic Poise: Modern Dance Interrogates Verticality.’

Summary
This practice-based research project engaged with the archive of modern dance and identified the importance of the experience of weight to the ways artists from the tradition of modern dance interrogated the phenomenon of verticality. It found their artistic practices to be revelatory of the affective significance of our embodied relationship with gravity.

‘Recall, Inferences and Judgements in Child Sexual Assault Scenarios: The Impact of Pre-Information, Gender and Delay.’

Summary
This study investigated the impact of several extra-legal factors including gender, pre-information and a time delay on memory, inferences, emotions, and legal judgements regarding child sexual abuse allegations. The findings of the study pointed to the complex and nuanced relationship between gender, emotion, perceptions of credibility and legal decision-making.

Closing Address
Professor Jane den Hollander AO, President and Vice-Chancellor
Award of Honorary Degree

The honorary degree of Deakin Honorary Doctorate will be conferred upon Professor Joe Graffam in recognition of his outstanding contribution to Deakin University in a range of academic and research leadership positions.

Professor Joe Graffam

The Occasional Address will be delivered by Professor Joe Graffam.

Professor Joe Graffam has occupied several senior positions within Deakin University including Deputy Vice-Chancellor (Research), Pro Vice-Chancellor (Academic), Chair of Academic Board, Deputy Dean, Faculty of Health, and Head of School of Psychology and currently holds a Chair in Psychology.

Professor Graffam has worked in higher education for more than 30 years. He has held early career positions as a researcher in the Neuropsychiatric Institute, School of Medicine, University of California (UCLA).

Professor Graffam’s research has focused on the development and application of an ecological model for the study of community integration of people with a disability and, since 2000, also in the reintegration of ex-prisoners. He has an international reputation in both of these areas and serves on the boards of several not-for-profit boards and is a Fellow of the Institute of Company Directors. He has previously served on Ministerial advisory bodies related to disability inclusion and has advised government on various disability and criminal justice system issues.

Professor Graffam maintains a high level of community and industry engagement and for the past 15 years has convened the Reintegration Puzzle, a conference and contact point related to offender reintegration.
Raman Kumar Apsingikar  
Whose thesis is entitled:  
‘The Politics of Special Economic Zones: The Case of Polepally in Andhra Pradesh, India.’

Summary  
This research investigates dispossession of farmers from their lands in the South Indian State of Andhra Pradesh. It explains dispossession for the establishment of Special Economic Zones from a subnational perspective against a surplus global capital redeployment logic. It finds dispossession as an outcome of collusive state-capital alliance.

Principal Supervisor:  
Associate Professor David Hundt

School:  
Humanities and Social Sciences

Joshua Mark Baird  
Whose thesis is entitled:  
‘The Projection of the son: Unreliable Narration and Masculinity.’

Summary  
This thesis explores intersections between unreliable narrative and masculinity. It highlights how narrators’ self-perceived failures of masculinity often lead to discrepancies between the narrated world and the reality evoked by the reading experience.

Principal Supervisor:  
Associate Professor Patrick West

Co-Supervisor:  
Associate Professor Cassandra Atherton

Communication and Creative Arts

Murray Paul Boardman*  
Whose thesis is entitled:  
‘Exploring Quality in the Implementation of Development Projects: Insights from Development NGOs.’

Summary  
This study examined the quality of international development projects in Southeast Asia. The findings show that current practices remain focused on compliance and therefore provide an incomplete assessment of quality. The research identifies simple changes to practices that can ensure quality is a meaningful measure of project performance.

Principal Supervisor:  
Dr Anthony Ware

School:  
Humanities and Social Sciences

Constance Lee Cirkony  
Whose thesis is entitled:  
‘Students Learning Science: Representation Construction in a Digital Learning Environment.’

Summary  
This thesis showed the viable digital delivery for a representation-focused approach for teaching science. This study has led to guidelines for a generative digital design and sequencing of representational tasks and resources. It has also illustrated students’ collaborative reasoning processes during a problem-solving task, reflective of an authentic scientific inquiry.

Principal Supervisor:  
Professor Russell Tytler

School:  
Education
Kerri Anne Garrard
Whose thesis is entitled:
‘Interculturality and Secondary History Education: A Study of Contemporary History Pedagogy.’

Summary
This study reveals a distinct unfamiliarity associated with interculturality by history teachers and a significant absence of interculturality in written and visual language of the history textbook. It concludes the need for the development of sound theoretical underpinning to support interculturality for history teaching and learning within curriculum and pedagogy.

Principal Supervisor:
Professor Julianne Moss

Co-Supervisor:
Dr Rod Neilsen

School:

Tezcan Gumus
Whose thesis is entitled:
‘Turkey’s Failure to Consolidate Democracy and the Role of Political Leaders.’

Summary
This study reveals Turkey’s failure to consolidate democracy over a period of 70 years is directly tied to the practices, attitudes, and approaches of the political leaders in power.

Principal Supervisor:
Dr David Tittensor

School:
Humanities and Social Sciences

Stephen Linquist
Whose thesis is entitled:
‘Agency, Pedagogy and E-learning in TAFE Educational Development.’

Summary
The study is a deconstructive autoethnographic examination of the ways in which various discourses of agency shape the pedagogy of educational developers supporting the use of e-learning in Technical and Further Education (TAFE) institutions.

Principal Supervisor:
Associate Professor Mary Dixon

Co-Supervisor:
Dr Andrew Skourdoumbis

School:
Education

Keith Brian MacDonald
Whose thesis is entitled:
‘The Beholder’s Share: The Artist, Viewer and Varieties of Realism.’

Summary
This practice-led research uses philosophy and science to investigate the conditions for realism in art and requires considering the artist as beholder and beholders as co-creators: a new approach to the “beholder’s share”.

Principal Supervisor:
Associate Professor Jondi Keane

School:
Communication and Creative Arts
Sally Jeannette Morgan
Whose thesis is entitled:

Summary
The research showed that the synthesis of methods and approaches borrowed from poetry, painting, and processes of physical labour as exemplified by field-archaeology, constitutes an original methodology in the production of meaning and affect when applied to conceptually driven ‘processual’ artworks exploring the themes of trauma, mortality and memory.

Principal Supervisor:
Associate Professor Marion Campbell

School:
Communication and Creative Arts

Muhammad Khoirul Muqtafa
Whose thesis is entitled:
‘Citizenship in a Multi-faith Society: A Case Study of Indonesia.’

Summary
This thesis examines religious citizenship practices in Yogyakarta and Surakarta. The conceptualization and practices of citizenship in the two cities have been derived from multiple sources including culture, religion and the constitution that have impacted the way people practice citizenship. The findings pointed to urgently call for further normative as well as policy consideration to craft a more democratic and inclusive citizenship in Indonesia.

Principal Supervisor:
Professor Fethi Mansouri

School:
Humanities and Social Sciences

Denise McNulty Norton
Whose thesis is entitled:

Summary
Mapping discourses of responsibility and choice in Hollywood family films, this thesis demonstrates that conflict between intersecting expectations of fathering and of the neoliberal individual are resolved through a re-gendering of parenting as relationship.

Principal Supervisor:
Associate Professor Kim Toffoletti

Co-Supervisor:
Dr Karen Lane

School:
Humanities and Social Sciences

Cathryn Louise Perazzo
Whose thesis is entitled:
‘Surface Tension: Writing Politics and the Politics of Writing.’

Summary
The central focus of this creative-writing thesis is the politics of writing a novel on race. Its reflections on craft revolve around this concern. The thesis as a whole suggests that a non-didactic didactic approach to writing the sociopolitical novel will be of value in these increasingly fraught times.

Principal Supervisor:
Associate Professor Patrick West

School:
Communication and Creative Arts
Jessica Alyce Saligari
Whose thesis is entitled:
‘Police Response to Mental Health Crises: Examining a New Partnership.’
Summary
This study explored a new partnership between Victoria Police and mental health services to improve response to individuals experiencing mental health crisis. It charted organisational change and examined system dynamics in the Police, Ambulance and Clinical Early Response model. Findings indicated the level of symbiotic interdependency achieved and a perceived improvement to police response to people with mental illness. They also highlighted the importance of measures to establish trust, boundaries and expectations between services as well as to address organisational and cultural differences.
Principal Supervisor:
Associate Professor Darren Palmer
School:

Rashika Sharma
Whose thesis is entitled:
‘Creating a Green Culture in TVET: A New Zealand Perspective.’
Summary
This study examined the effectiveness of New Zealand Technical and Vocational Education and Training (TVET) institutions in educating trade students in sustainability principles and practices. The findings highlighted that government-driven policy change is the necessary precursor for education for sustainability to be readily accepted by tertiary institutions.

Whose thesis is entitled:
‘Rescuing the Princess: Challenging Gender Ideologies Through Revisionary Parody.’
Summary
This thesis comprised of creative artefact and theoretical exegesis. The research asks the question, can fairy tale appropriation, across a range of different mediums including literature, film, and video games, be ideologically subversive, especially with regards to retellings that engage in parodic practice for revisionary purposes.

Whose thesis is entitled:
‘Digital Scenography in Opera in the Twenty-First Century.’
Summary
This thesis undertakes an extensive analysis of current trends in digital scenography in opera production, including dramaturgical possibilities, historical precedents, and impacts on backstage processes. Drawing on examples of practice and interviews with major practitioners, the work proposes a method for assessing digitally-enhanced productions and reevaluating existing industry standards.

Whose thesis is entitled:
‘Cinema and the Art of Dying.’

Summary
This work examined the connection between stories about death and dying and Booker’s rebirth plot type. Through the investigation of three contemporary films, the main discussion focussed on how stories about dying can be told through the prism of rebirth, culminating in the creation of an original short film about the discussed themes.

Order of Proceedings

The procession will enter at 12 pm.

Guests are asked to stand as the procession enters and to remain standing until the conclusion of the National Anthem.

Master of Ceremonies
Professor Aman Maung Than Oo, Head of School, School of Engineering

Mace Bearer
Mr Darren Taylor, Faculty General Manager, Faculty of Science, Engineering and Built Environment

Welcome Address
Mr John Stanhope AM, Chancellor

Occasional Address
Mr Michael Mansfield

The Conferring of Awards
Chancellor presiding, assisted by Associate Professor Jo Coldwell-Neilson, Deputy Chair of Academic Board

The Presentation of Awards
Alfred Deakin Professor Mike Ewing, Executive Dean of the Faculty of Business and Law
Professor Karen Hapgood, Executive Dean of the Faculty of Science, Engineering and Built Environment

Graduate Response
Mr Viraj Khot

Closing Address
Professor Jane den Hollander AO, President and Vice-Chancellor
Mr Michael Mansfield

The Occasional Address will be delivered by Mr Michael Mansfield.

Born and raised in Geelong, Michael completed his high school studies at St Joseph’s College, and in 1991, began his Bachelor of Commerce at Deakin University, Waurn Ponds Campus, completing his Degree in 1994.

Michael gained an interest in the Stock Market from an early age, after being introduced to investments at age 9, when a holiday to the USA for the Mansfield family of six, was funded from the sale and profit from some gold shares in which his parents had invested.

Post graduating from his Bachelor of Commerce in 1994, Michael was employed by Andrew Bell at Bell Securities (now Bell Financial Group ASX BFG) as an Investment Advisor. Leaving the industry briefly in 1998 Michael undertook his Masters Business Administration at Melbourne University in the year 2000, graduating in 2003 from the University’s Sister School SDA Bocconi in Milan, Italy, which he describes as a great experience.

Returning to Melbourne, Michael worked briefly with Telstra and Tolhurst Noall before joining Morgans Financial, where he is now a Partner in the Wealth Management Organisation, Antaeus Investment Management, which manages over $500 M in funds under management under Morgans Financial AFSL.

Michael was also a talented sportsman and in 1989 was recruited by the Geelong Football Club. He made his Australian Football League senior debut in August 1990 as an 18-year-old. Michael went on to have a successful professional AFL career, representing Victoria in 1995/96/97/98. He was awarded AFL All Australian Selection in 1994 and 1995. Michael was unable to win the ultimate AFL Premiership but participated in three Grand Finals in 1992/94/95.

Michael is now married to Karina and has two young boys Maximus and Jai. He continues to focus on building a successful Wealth Management Business, which provides invaluable benefits in helping people live their lives comfortably and he gains his greatest satisfaction and joy in spending time with his boys.

Doctor of Philosophy – PhD

Ahmed Abobakr
**Whose thesis is entitled:**
‘Deep Representation Learning for Markerless Human Posture Analysis.’

**Summary**
This thesis presents a holistic human posture analysis system. The proposed system leverages state-of-the-art deep learning techniques to feature a comprehensive pipeline. Moreover, a new nonlinear computational layer is proposed to the deep convolutional neural network architectures to incorporate human perception capabilities into deep learning architectures.

**Whose thesis is entitled:**
‘Fault Attacks on RSA and Elliptic Curve Cryptosystems.’

**Summary**
This thesis answered how a fault attack targeting software used to program EEPROM can threaten hardware devices, for instance IoT devices. The successful fault attacks proposed in this thesis will certainly warn designers of hardware devices of the security risks their devices may face on the programming level.

**Whose thesis is entitled:**

**Summary**
This work addresses photo-realism for synthetic images, introducing a modified generative adversarial network: StencilGAN. It is a perceptually-aware generative adversarial network that synthesizes images based on overlaid labelled masks. This technique can be a prominent solution for the scarcity of resources in the healthcare sector.

**Whose thesis is entitled:**  
‘Investigation of Clusters and Nano-particles in Thermomechanically Processed Ti-Mo Steel.’

**Summary**  
This thesis focused on understanding the interphase precipitation and clustering phenomena in Ti-Mo alloyed HSLA steel. The combination of novel characterisation techniques enabled this study to characterise and classify precipitates, reveal conditions at the interfaces during formation of precipitates and study the effect of deformation on the interphase precipitation.

**Whose thesis is entitled:**  
‘Exploring the Effects of Urbanisation on Eastern Yellow Robins.’

**Summary**  
Urbanisation is one of the greatest contemporary challenges for biodiversity conservation. Using a cross-disciplinary approach incorporating field surveys, spatial modelling and genetic techniques, this study showed that urbanisation has negatively impacted a small woodland bird species. Protection of river corridors and tree cover is critical for its persistence.

**Whose thesis is entitled:**  
‘Distribution, Drivers, and Disturbance of ‘Blue Carbon’ Stocks.’

**Summary**  
This thesis generated new knowledge related to the role of seagrass meadows, salt marshes, and mangrove forests as dense carbon (C) sinks (‘blue carbon’), including the distribution and magnitude of blue C stocks, identification of environmental drivers of sediment C stocks, and the impacts of anthropogenic disturbance to sediment C.

**Whose thesis is entitled:**  
‘Ocular Biomechanics Modelling for Visual Fatigue Assessment in Virtual Environments.’

**Summary**  
The study objectively quantifies visual fatigue caused by immersion in virtual reality. Visual fatigue assessment is done through ocular biomechanics modelling and eye tracking to analyse eye movement and muscle forces into a visual fatigue index.

**Whose thesis is entitled:**  
‘Value Impacts of Freight Forwarders in Air Freight Chains.’  

**Summary**  
This research investigated the reasons behind freight forwarders’ dominance in air freight chains despite the fact that the carriers (airlines) own most of the capital assets. The findings revealed that the dominance can be attributed to freight forwarders’ ability to consolidate orders into a consistent flow of orders.

**Whose thesis is entitled:**  
‘Immobilization of Photocatalyst on Supporting Materials for Pollutant Control.’  

**Summary**  
This study demonstrated facile and practical approaches of immobilizing photocatalyst powder on supporting substrates and investigated the pollutant removal performance of the obtained materials. These findings open the opportunities for applying the photocatalytic materials for practical water and air pollutant management.

**Whose thesis is entitled:**  
‘Factors Determining Medical Travel Decision: An Empirical Study of India.’  

**Summary**  
This study answered what demand and supply factors determine patient/medical tourists’ decision to travel overseas for medical treatment to India. The findings policy implication concludes that, patients search for information about surgeon’s expertise, hospital accreditation-quality, surgery waiting-time, state-of-the-art hospital-facilities, cost-savings, patient-safety, hospital-precision, and tourism for a positive healthcare outcome.

**Whose thesis is entitled:**  
‘Effect of Severe Plastic Deformation on Structure, Mechanical and Electrical Properties of Al Alloys.’  

**Summary**  
The study is focused on the structural and functional evolution of some of the conductive aluminium alloys during severe plastic deformation. The recommendations about the optimal concentration of alloying elements, as well as deformation and heat treatment conditions, in order to achieve the simultaneous high mechanical strength and electrical conductivity, are given.

Whose thesis is entitled:  
‘Individuals to Populations: Linking Hierarchical Levels of Phenotypic Assortment.’  

Summary  
This study focuses on the fine scale, moment to moment changes in behaviour of animals. It shows that individuals commonly vary in the extent of their behavioural predictability, and explores potential sources of this variance.

Whose thesis is entitled:  
‘Omega-3 Fatty Acids in Atlantic Salmon: Dietary and Environmental Effects.’  

Summary  
This research into the effect of lipid source in aquafeed provides quantifiable information on many aspects of Atlantic salmon nutrition and product quality, specifically, in the area of fatty acid metabolism with particular reference to fillet levels of health beneficial omega-3 fatty acids. It is intended that this body of work will assist in the development of the aquaculture industry in a manner that is both environmentally and economically sound.

Whose thesis is entitled:  
‘Objective Assessment of Movement Disabilities Using Wearable Sensors.’  

Summary  
The research presents a series of comprehensive analyses based on inertial measurements obtained from wearable sensors to quantitatively describe and assess human kinematic performance in certain tasks that are most related to daily life activities. This is not only a direct application of human movement analysis but also very pivotal in assessing the progression of patients undergoing rehabilitation services. Moreover, the detailed analysis will provide clinicians with greater insights to capture movement disorders and unique ataxic features regarding axial abnormalities which are not directly observed by the clinicians.

Whose thesis is entitled:  
‘Addressing Practical Challenges of Bayesian Optimisation.’  

Summary  
This thesis focuses on addressing several challenges in applying Bayesian optimisation in real world problems. The contributions of this thesis are new Bayesian optimisation algorithms for three practical problems: finding stable solutions, optimising cascaded processes and privacy-aware optimisation.

Whose thesis is entitled:
‘Quantifying Draft Value in Prospective Australian Football League Draftees.’

Summary
This thesis investigated what indicates value in a draft context for each of Australian Rules football’s various playing positions. It identified trends related to athlete’s demographics, physical attributes and on-field performance measures. Findings will aid future draft decisions to ensure effective use of the limited opportunity to select talent.

Whose thesis is entitled:
‘Recurrent Neural Networks for Structured Data.’

Summary
A key challenge in machine learning is to explore and incorporate the complex nature of real-world data structures into the training models. The contributions of this thesis are novel RNN architectures for different types of structured data.

Principal Supervisor:
Associate Professor Truyen Tran

Whose thesis is entitled:
‘Effects of Ether-Functionalised Ammonium Cations on Dynamics and Interactions in Sodium Electrolytes.’

Summary
This thesis contributed to our understanding of sodium-based polymer and ionic liquid electrolytes for large-scale grid-based batteries. These electrolytes could provide both safer and more cost-effective energy storage and harness intermittent renewable energy to reduce our reliance on fossil fuels, and mitigate the effects of climate change.

Principal Supervisor:
Dr Luke O’Dell

Whose thesis is entitled:
‘The Effect of Corporate Social Responsibility Disclosures on Investors’ Interest: Evidence from India.’

Summary
This study considers the impact of CSR disclosures on agency costs, value relevance and financial transparency from the perspective of investors. The study is conducted in the context of India and considers voluntary and mandatory CSR disclosure regimes.

Principal Supervisor:
Associate Professor Arifur Khan

Department:

Gaetan Gilles Sylvain Richard
Whose thesis is entitled:
‘Behavioural Ecology of Fishermen and Odontocetes in a Depredation Context.’
Summary
The thesis assessed captains’ behaviour within a context of depredation. Additionally, this thesis described for the first time longlines depredation on the seafloor. Altogether, the findings suggest interesting leads to quantify the impact of depredation on fisheries and bring important insights for mitigation measures.

Whose thesis is entitled:
‘Managerial Orientations and Beliefs in Large Music Organisations.’
Summary
This thesis examines managerial orientations and beliefs in large music organisations. The study uses a qualitative, interpretive approach to explore the research problem of how managerial beliefs influence and underpin Product Orientation (PO) and Consumer Orientation (CO) and the organisational implications that arise from these beliefs.

Whose thesis is entitled:
‘Artisans Sustainable Livelihood and the Marketing of Myanmar Handicrafts.’
Summary
This research investigated the livelihood of Myanmar artisans producing and selling handicrafts during economic and social transition. It described how Myanmar artisans maintained a livelihood, outlined the Myanmar handicraft value chain, mapped institutional handicraft marketing systems and developed a conceptual framework that could be used for handicraft policy decision making.
Principal Supervisor:
Dr Mehdi Taghian
Department:

Andrea Louise Wilde
Whose thesis is entitled:
‘Novel Raman Spectroscopic Approaches for the Characterisation of Carbon Fibre.’
Summary
Advanced spectroscopic methods of Raman spectral mapping and Surface Enhanced Raman Spectroscopy have been developed to investigate the carbon fibre surface. These methods were applied to investigate the surface functionality introduced by oxidative treatments and the presence of size on the surface, both key contributors to carbon fibre composite properties.

‘Nacre Inspired Polycarbonate Based Nanocomposite for High Impact Application.’

**Summary**  
This study rendered to contemplate how structural bio-mimicking of mollusk structure in reinforced polycarbonate based nano composite system alter the inter and intra facial attributes under high impact dynamic loading. The findings demonstrated that the mechanical ability of polycarbonate can be modified by the virtue of hierarchical natural design architecture.

  Whose thesis is entitled:
  ‘Analysis of Tunnel Excavation in Different Geological Conditions Based on Hoek-Brown Failure Criterion.’

  Summary
  The main outcome of this research is that relationships related to changes of geological structures and reasonable tunnel design are built, which can help deciding on the use of tunnel support systems in both tunnel design and construction.

  Summary
  This thesis aims to develop a grid connected hybrid power generation system using solar and wind energy in the Matlab/Simulink software. The model is developed based on the feasibility and availability of solar irradiance and wind speed over an area. This hybrid model is simulated, and results are analyzed.

‘Effect of Bacillus Coagulans DUS-M6 Strain and its Pyoverdine-Like Siderophore on Brassica Napus (Canola)’.

Summary
This study shows that a Bacillus spp. can be isolated as a suitable plant growth promoting bacteria for use on canola. Moreover, the pyoverdine-like siderophore produced by Bacillus coagulans DUS-M6 was shown to mobilize metal ions, increasing their availability and uptake into plants, resulting in enhanced plant growth.

‘The Effects of Water Level and Habitat on Small-Bodied Fish in Semi-Arid Lakes.’

Summary
This study examined how changing water levels and different habitats affect native small-bodied fish in Lakes Alexandrina and Albert, SA. These lakes were repeatedly sampled for small-bodied fish. The results provide a comprehensive picture of the association and differential use of a range of habitats for small-bodied native fish.

Whose thesis is entitled:
‘Design Summary of State-Observer for Linear Positive Time-Delayed System.’

Summary
This project provides design aspects and disturbance estimation of positive linear time delayed state observers based on Linear Programming LP. If there is a delay in the information in the systems then this design provides an anticipation before it effects the real system.

Whose thesis is entitled:
‘Antioxidant Compounds from Mangosteen Extract: What are the Bio-Active Compounds Responsible for Antipsychotic Activity?’

Summary
Currently, 1% of the Australian population suffers from Schizophrenia but effective antipsychotic treatments are lacking. This project set out to identify the principal bioactive ingredients from Mangosteen fruit pericarp extract that have the potential for use as pharmaceutical treatments of schizophrenia.

Whose thesis is entitled:
‘Extraction of Astaxanthin from Thraustochytrids, Stability and Addition to Omega-3-oil.’

Summary
Astaxanthin extraction from marine microalgae using HCL method have been found significantly effective and hence further stability of astaxanthin extract was achieved using omega-3 oil. Astaxanthin was microencapsulated with a complex coacervation technique.

Award of Honorary Degree

The honorary degree of Deakin Honorary Doctorate will be conferred upon Mr Robert Costa for his significant and sustained commitment to shaping the future of Geelong through his invaluable contributions to a range of community organisations.

Mr Robert Costa

The Occasional Address will be delivered by Mr Robert Costa.

Mr Costa is a lifetime Geelong person, being the youngest of six children who, for many years, all lived above the old fruit shop in Moorabool Street. Robert graduated from Chanel College in 1969 and immediately joined his four brothers in the family business which at that stage still operated from the rear of the shop premises.

The brothers worked together through the decades to build the business into the largest Fruit and Vegetable production business in the country. Along the journey they experienced many a storm, along with some howling tail winds, until the company was listed on the ASX in 2015. Robert held many roles through his career in operations and management with the final thirty years being that of Finance Director, responsible for all financial and legal dealings.

Following the exit from Costa Group, Robert and his brother Anthony established the business of Costa Asset Management, with Robert taking the chair. Robert also chairs Idyll Wine Company, Unigrain, goFARM Australia and Costa Fox Developments.

Following the sudden passing of his brother Anthony in February 2017, Robert established the Anthony Costa Foundation, a private ancillary fund primarily for the support of the Geelong community.

Robert has long committed himself to community service and philanthropy, including former roles as Mayor (City of Geelong West), Chairman of Global Reconciliation, Area Consultative Committee (Federal), Geelong Region Investment and Innovation Fund (Federal & State) and Member of the Geelong Authority.

Robert’s current community roles are Member of the Geelong Performing Arts Centre Trust and Chairman of Presence International (a not for profit company based in Atlanta, Georgia).

Doctor of Business Administration – DBA

Johnny*

Whose thesis is entitled:
‘Consumer Evaluations and Organisational Responses to Catastrophic Service Failures’.

Summary
This thesis addresses the under-examined topic of catastrophic service failures. The psychological spatial distance of an airline crash reduces perceived risk, decreasing negative intentions to fly with the airline for those with a low fear of flying. Further, an approach response increases perceived CEO concern, improving consumer attitude and intentions.

Advance Australia Fair

Australians all let us rejoice,
For we are young and free;
We’ve golden soil and wealth for toil,
Our home is girt by sea;
Our land abounds in nature’s gifts
of beauty rich and rare;
In history’s page, let every stage
Advance Australia Fair!
In joyful strains then let us sing,
Advance Australia Fair!
