Your future in architecture and construction management

Develop the skills employers want

Study architecture hands-on. From day one of your course, you’ll:

•  build models
•  develop drawing, digital design and communication skills
•  examine professional architects’ projects.

While studying construction management, you’ll experience practical learning in all aspects of the industry including:

•  building economics and law
•  building technology
•  measurement and estimating
•  project management
•  quantity surveying.

Our architecture students work closely with our construction management students, gaining a unique understanding of both disciplines. These insights into each other’s work are invaluable when our students graduate, and begin to communicate, liaise and work together in the fields of construction and architecture.

Gain professional recognition

Your Deakin qualifications are recognised nationally by industry through course accreditations. All of our courses are regularly examined by key professional groups, including the:

•  Australian Institute of Architects (AIA)
•  Architects Accreditation Council of Australia (AACA)
•  Architects Registration Board of Victoria (ARBV)
•  Royal Institution of Chartered Surveyors (RICS)
•  Chartered Institute of Building (CIOB)
•  Australian Institute of Building (AIB)
•  Australian Institute of Quantity Surveyors (AIQS).

Our Bachelor of Design (Architecture) and Master of Architecture are also recognised internationally, for example, by the Board of Architects Malaysia. Through these courses, you’ll also have an opportunity to undertake a discipline-specific industry placement, so you can get on-the-job training.

Skills to get you a job

Gain a competitive edge in the workplace with real-world expertise and practical skills. Deakin is ranked the #1 university for both generic skills and good teaching in Victoria.1

Your future in architecture and construction management

Get a career you can count on

Known for their adaptability, design and technical knowledge, our graduates are well regarded in their professions, with the initiative and ability to hit the ground running.

Our graduates find employment in a range of positions, including:
- commercial
- contract administration
- industrial
- project management
- residential

Our Bachelor of Design (Architecture) emphasises practical learning and is designed to meet the needs of students who want to complete the Master of Architecture and practise as qualified architects. They can be employed in private architectural practices, government organisations, property development, or other building and design fields.

Experience state-of-the-art facilities

The School of Architecture and Built Environment has undergone major refurbishment under the direction of Kerstin Thompson Architects, resulting in an inspiring learning space that has won three prestigious Australian Institute of Architects awards for design excellence. The a+b studio and workshop provide students, academics and researchers with a place to design and build models, encouraging experimentation with technology, materials and processes. The workshop is fully equipped with 3D printers, laser cutters, CNC routers and traditional tools and machinery. The interdisciplinary space offers access to a variety of digital and analogue tools, with an open plan studio design facilitating project collaboration.

deakin.edu.au/abe-facilities

Explore our industry connections

We have strong industry links within our courses, which can lead to field trips, site visits and guest lectures from built environment professionals. You will have a number of opportunities to gain work experience during your studies, and form real professional networks before graduation. Recent students have undertaken industry experience with:
- Brookfield Multiplex
- DesignInc Architecture
- Grimshaw Architects
- Kane Constructions
- Peddle Thorpe Architects
- Rendine Constructions.

Showcase your talents at PaperSpace

The School of Architecture and Environment annually exhibits outstanding work from students studying the bachelor or masters degree at a public exhibition known as PaperSpace. On display at Federation Square and Deakin’s Geelong Waterfront Campus, it’s an excellent opportunity for the public, students, staff, industry, family and friends to celebrate our students’ achievements and hard work.

Watch PaperSpace take shape at deakin.edu.au/paperspace.

Do you want to register as an architect?

After you’ve successfully completed the three-year Bachelor of Design (Architecture) followed by the two-year Master of Architecture, you have an accredited academic qualification and on your way to becoming a registered architect. For further requirements, refer to the Architects Registration Board of Victoria (ARVB).

#1 careers service in Australia

Prepare yourself for the jobs and careers of the future. Access our career centre, DeakinTALENT, and use its programs and services to research different career options, hone your interview skills and look for casual work, while you study or find a graduate job.

deakin.talent.deakin.edu.au

Join our Peer Support Network (PSN)

Sign up to the Faculty of Science, Engineering and Built Environment’s PSN in your first year at Deakin to get support and guidance from more senior students in your course. You’ll learn about the support services and facilities available, while gaining useful tips about studying at Deakin.

deakin.edu.au/seeb/peer-support

Study and work abroad

Intercultural Dialogue through Design (iDiDe) is an international design workshop where students work in collaborative studio groups with academics, architects and built environment professionals to collaboratively respond to a socially-conscious architectural brief. Students have travelled to Malaysia, India, Thailand, Sri Lanka and Indonesia.

During your course, you may have the opportunity to apply to join this study group where you will work within another cultural place. The program seeks to create international awareness in the participants.

deakin.edu.au/abe
Deakin architecture student, Sharyn Blakemore’s (pictured right) pathway to university was quite unique. After graduating from high school, she completed an Advanced Diploma of Building Design, and then worked in industry before starting her course part-time. Now in her third year of Deakin’s Bachelor of Design (Architecture), she’s won a coveted industry award, thanks to her passion for sustainable design.

A pathway to success

You won the Chartered Institution of Building Services Engineers (CIBSE) Mark Griffin Award – Student of the Year for your video submission, addressing why you consider building services engineering to be an art form. Tell us a bit about the Core 9 project, which featured in your video.

‘The Core 9 project started as a design collaboration between myself and two work colleagues to produce a highly energy-efficient and sustainable design that was affordable and comparable to the Australian housing market. The Core acronym stands for Carbon Positive, Zero Waste, Recycled and Economics. My involvement included design development of the house and conducting thermal performance assessments to reach its optimal energy rating of nine stars.’

Benjamin McKenzie
Bachelor of Design (Architecture)/ Bachelor of Construction Management (Honours) student

‘Being the only degree of its kind in Australia attracted me to choosing this course. It will open up so many possibilities post study to progress my career.’

Benjamin McKenzie
Bachelor of Design (Architecture)/ Bachelor of Construction Management (Honours) student

Courses

Bachelor of Design (Architecture) (L563)

Understand the built environment, ecosystem and community to create meaningful and sustainable designs for everything from houses to skyscrapers – anywhere in the world.

With an eye for detail and a love of drawing, you'll harness creativity with urban planning to make an impact with your designs.

A folio is not required as part of our admissions process for the Bachelor of Design (Architecture).

Professional recognition

When followed by successful completion of an accredited Master of Architecture, the Bachelor of Design (architecture) is accredited within Australia by the:

• Australian Institute of Architects (AIA)
• Architects Registration Board of Victoria (ARBV)
• Architects Accreditation Council of Australia (AACA).

This course has also been validated and recognised by the Board of Architects Malaysia (Lembaga Arkitek Malaysia), and included on their ‘List of Recognised Architectural Programmes’.

Careers

Deakin architecture graduates work across the globe, from the UK, Berlin and Oslo to China, Dubai and the US. Our graduates have pursued the following roles:

• 3D architectural modeller
• architectural consultant or designer
• building designer
• design coordinator
• structural drafter.

Once you’ve completed further studies in a Master of Architecture and have gained your registration to practise, you can pursue a career as a practising architect and work in private architectural practices, government organisations, property development, or other building and design fields.

Work experience

You can apply to undertake a discipline-specific industry placement as an elective option of your course.

Courses to careers

Visit explore.deakin.edu.au to kickstart your course and career exploration. With more than 600 paired courses and careers, it’s the perfect destination for you to discover your future career.
Courses

Bachelor of Construction Management (Honours)

Develop a strong understanding of the business of construction, from law to technology. The Bachelor of Construction Management (Honours) will equip you with market-ready skills for construction management, estimating, surveying or property development – working across projects large and small.

Professional recognition
As a graduate of this course you’ll have completed the academic requirements for membership of:
- Australian Institute of Building (AIB)
- Australian Institute of Quantity Surveyors (A IQS)
- Chartered Institute of Building (CIOB)
- Royal Institution of Chartered Surveyors (RICS).

This course is recognised for practice in more than 50-countries, so you can take your career to Australia and around the world.

Fast-track your studies
This course can be taken as an accelerated program. By taking selected units during Trimester 3, you can complete this course in three years of full-time study instead of four, so you can join the workforce sooner.

Careers
As a Bachelor of Construction Management (Honours) graduate, you’ll find career opportunities in roles including:
- construction manager
- contract administrator
- estimator
- project manager
- quantity surveyor.

Work experience
There are opportunities to undertake a discipline-specific industry placement as an elective option as part of your course. You’ll also participate in some core units, with major assessments involving collaborative project work, such as Built Environment Integrated Research.

Study, Live and work overseas
Get the support to study, work and live in another region of the world during your studies thanks to the Australian Government. These overseas study programs encourage international cooperation and collaboration throughout the world, giving the next generation of Australians a hands-on experience living and working within other cultures as part of the global community.

Take the opportunity to experience places like the USA, Japan, the UK, Canada, Nepal, Sri Lanka, Germany, France, India, Sweden, Denmark, Colombia or Mexico. It will give you the chance to put your career goals in a global context, ready for the job of the future.

Course structure

This 32-credit-point course consists of 28 core units (29 credit points) and three elective units, of which one elective unit must be level 2 or above.

Trimester 1

Year 1
- Building Materials Science
- Construction Projects 1
- Construction Finance
- Building Safety

Year 2
- Construction and Structures 1
- Introduction to Building Information Modelling

Year 3
- Building Environmental Services
- Building Measurement and Estimating
- Project Management 2
- Elective

Year 4
- Contract Administration 3
- Professional Practice
- Introduction to Construction Research
- Elective

Trimester 2

Year 1
- Construction and Structures 2
- Project Management 1
- Building Measurement
- Contract Administration 1

Year 2
- Construction and Structures 3
- Contract Administration 2
- Building Cost Planning

Year 3
- Building Environmental Services
- Building Measurement and Estimating
- Project Management 2
- Elective

Year 4
- Contract Administration 3
- Professional Practice
- Introduction to Construction Research
- Elective

deakin.edu.au/course/bachelor-construction-management-honours

1 Students have the opportunity to complete this course in three years of full-time study by undertaking units in Trimester 3.
2 This course structure should be used as a guide only and advice should be sought when selecting units.
3 Academic Integrity (SIPS05) and Safety Induction Program (SRA010) are compulsory 0-credit-point units that you must undertake as part of this course.
Courses

Combined courses

**Bachelor of Design (Architecture)/Bachelor of Construction Management (Honours)**

Gain knowledge, skills and practical experience in architecture, design and construction in this unique combined course that explores smart, sustainable design. Learn to design striking buildings that are economically and environmentally viable and manage projects, no matter what their scale or size.

**Professional recognition**
The construction management stream of this combined course is professionally accredited by industry.

Graduates qualify for membership of:
- Australian Institute of Building (AIB)
- Australian Institute of Quantity Surveyors (AIQS)
- Chartered Institute of Building (CIOB)
- Royal Institution of Chartered Surveyors (RICS)
- Australian Institute of Quantity Surveyors (AIQS)
- Chartered Institute of Building (CIOB)
- Royal Institution of Chartered Surveyors (RICS)
- Royal Institution of Chartered Surveyors (RICS)
- Royal Institution of Chartered Surveyors (RICS)
- Royal Institution of Chartered Surveyors (RICS)
- Royal Institution of Chartered Surveyors (RICS)
- Royal Institution of Chartered Surveyors (RICS)
- Royal Institution of Chartered Surveyors (RICS)
- Royal Institution of Chartered Surveyors (RICS)
- Royal Institution of Chartered Surveyors (RICS)
- Royal Institution of Chartered Surveyors (RICS)
- Royal Institution of Chartered Surveyors (RICS)
- Royal Institution of Chartered Surveyors (RICS)
- Royal Institution of Chartered Surveyors (RICS)
- Royal Institution of Chartered Surveyors (RICS)
- Royal Institution of Chartered Surveyors (RICS)
- Royal Institution of Chartered Surveyors (RICS)
-Royal Institution of Chartered Surveyors (RICS)

The architecture stream is recognised in Australia by the following organisations, provided graduates go on to complete an accredited Master of Architecture course, they will have an accredited academic qualification and on their way to becoming a registered architect:
- Australian Institute of Architects (AIA)
- Architects Registration Board of Victoria (ARBV)
- Architects Accreditation Council of Australia (AACA).

**CAREERS**

This cross-discipline course gives you more options for your future career. Career opportunities include:
- 3D architectural modeller
- architectural consultant or designer
- building designer
- building project manager
- construction manager
- draftsperson
- estimator
- quantity surveyor.

Upon graduating, if you would like to pursue a career as a practising architect, you will need to complete an accredited Master of Architecture course. This enables you to apply for your registration to practise and work in private architectural practices, government organisations, property development, or building and design fields.

**Course structure**

This 40-credit-point course consists of 36 core units (totaling 39 credit points) and one elective unit.

**Get to Geelong easily**

If you’re based in Melbourne, the commute to the Geelong Waterfront Campus is quick and easy. From Docklands, a daily ferry takes 90 minutes, or by the regional rail link from Southern Cross Station, you’ll be there in under an hour. If you’re driving from Melbourne’s west, you might find your commute’s as short as 40 minutes.

Find out more about our locations at deakin.edu.au/locations and our accommodation options by visiting deakin.edu.au/life-at-deakin/accommodation.

I was attracted to the double degree because I wanted to explore and experiment with all stages and aspects of the construction process from both a practical and creative sense. We get to understand the design from conception to completion as well as the processes involved in completing these projects.'

Kelly O’Halloran
Bachelor of Design (Architecture)/ Bachelor of Construction Management (Honours) student

The student experience

Hear from our students about studying Architecture and Construction Management in a UNESCO city of design. deakin.yt/acm-geelong

Immerse yourself in Geelong, a UNESCO city of design, with renowned lecturers, cutting-edge facilities and innovative architecture.
With the Bachelor of Construction Management (Honours)/Bachelor of Property and Real Estate, you’ll learn how to drive growth, make strong commercial decisions, understand regulations and manage construction projects. The combined structure means you’ll also be equipped with vocational skills like surveying and building economics.

Professional recognition
Both single degree courses are professionally accredited by multiple professional bodies including:
- Royal Institution of Chartered Surveyors (RICS)
- Australian Institute of Building (AIB)
- Chartered Institute of Building (CIOB)
- Australian Institute of Quantity Surveyors (AIQS)
- Australian Property Institute (API) for Certified Practising Valuer (CPV) status.

Work experience
There are opportunities to undertake a discipline-specific industry placement as part of your course. You’ll also participate in some core units, with major assessments involving collaborative project work, such as Built Environment Integrated Research.

CAREERS
With this qualification, you’ll be able to specialise in all facets of the construction management and property and real estate markets including commercial, industrial and residential property. Career opportunities include:
- construction manager
- contract administrator
- estimator/quantity surveyor
- leasing agent
- portfolio manager
- project manager
- property developer
- real estate agent
- valuer.

Course structure
This 40 credit-point course consists of 37 core units (38 credit points), comprising of 16 core units from the Bachelor of Property and Real Estate (14 credit points) and 21 core units (22 credit points) from the Bachelor of Construction Management (Honours) and two elective units.

Trimester 1
- Introduction to Property Fundamentals of Finance
- Building Materials Science Accounting for Decision Making

Trimester 2
- Economic Principles Property Law and Practice
- Introduction to Property Development Law for Commerce

Year 2
- Project Management 1
- Statistical Valuation
- Property Economics
- Property Investment

Year 3
- Advanced Property Analysis
- Building Measurement
- Construction and Structures
- Elective

Year 4
- Building Safety
- Project Management
- Contract Administration
- Building Measurement and Estimating

Year 5
- Building Environmental Services
- Introduction to Construction Research Professional Practice
- Elective

Learn about design research and resolution, urban ecologies and contexts, integrated project evaluation and performance-measured sustainable design — knowledge that will propel you towards a career as a practising architect.

Professional recognition
Deakin’s Master of Architecture course is accredited within Australia by the Australian Institute of Architects (AIA), the Architects Registration Board of Victoria (ARBV) and the Architects Accreditation Council of Australia (AACA).

This course has also been validated and recognised by the Board of Architects Malaysia to be included on the ‘List of Recognised Architectural Programmes’.

Course structure
16 credit points – nine core units (including three core units of 2 credit points each), four course elective units and two O-credit point units relating to academic integrity and safety induction.

1 The Master of Architecture suite of courses are currently being redeveloped at the time this publication was to print. For the latest information please visit: deakin.edu.au/course/master-architecture

Gain a scholarship to help you fund your degree
Barwon Water Scholarship for Women in STEM
Female students commencing their first year of study in a course offered by the Faculty of Science, Engineering and Built Environment at the Geelong Waurn Ponds Campus or Geelong Waterfront Campus, are encouraged to apply for a Barwon Water Scholarship for Women in STEM. This scholarship is valued at $2000 per year, with a total scholarship value of $6000.

IGNITED Scholarship for women in engineering
If you’re female and about to start an undergraduate degree in engineering, information technology or construction management, you could be eligible for an IGNITED Scholarship, designed to ignite women’s interest in industry areas traditionally dominated by men. Each scholarship is valued at $5000 per year over the normal duration of the course and recipients are also assigned an academic mentor.

Deakin University
Barwon Water Scholarship for Women in STEM
IGNTED Scholarship for women in engineering
Deakin has received the prestigious Athena SWAN Institutional Bronze Award for its programs that encourage more women to study, research and work in Science, Technology, Engineering, Mathematics and Medicine (STEM). The Athena SWAN program is run by Science in Australia Gender Equity (SAGE), and the Bronze award recognises Deakin’s executive work in promoting gender equity, inclusivity and diversity.
