

Calling Entrepreneurs, Innovators and Technology Start-ups

ManuFutures at Deakin University is scouting entrepreneurs, innovators, and technology start-ups to take part in a FREE unique manufacturing business acceleration program.

ManuFutures Ignite is a coaching and mentoring program provided by manufacturing, business acceleration and incubation experts at ManuFutures and Deakin University.

ManuFutures Ignite

FREE 12-week manufacturing mentoring and coaching program

► From 18 May 2022

Ignite supports teams of hand-picked entrepreneurs, innovators and early-stage technology start-ups with great ideas and limited manufacturing experience on a journey to become ready for market.

Participants will be taken through a tailored mentoring and coaching program, giving them access to university wide resources, skills, equipment, and research outcomes. There are similar incubator programs in the market but none that have university resources and a new multimillion dollar commercial precinct included, like ManuFutures.

The ManuFutures team have a proven track record of incubating high growth start-ups to become successful multi-million-dollar organisations.

Register your interest now. Numbers are limited.
