Congratulations

Message from the Chancellor

On behalf of the Deakin University community, my congratulations to you, your families, and to all who have worked so hard towards achieving the success we now celebrate with you.

Like you, I am a Deakin alumnus, and I believe you will find as I have, that your Deakin qualification will be a valuable asset as you explore the opportunities ahead of you. Your Deakin degree will empower you to search for new opportunities with the confidence you can contribute, with the knowledge you are ready, and the resilience that will enable you to overcome the inevitable challenges and unexpected setbacks.

Your graduation marks the completion of your current academic journey, but it also signals the start of a new phase of your lives and your careers. Deakin is proud to have played its part in providing the skilled graduates who will make meaningful contributions to the world, fostering the creativity and skills which will generate the new ideas and enterprise necessary to face the global challenges of the 21st century.

Mr John Stanhope AM

Be proud of your achievement, you are a Deakin graduate and Deakin graduates are the truest evidence of the quality of the Deakin experience; they are a continued inspiration to Council, to staff, to each other and to future graduates.

I encourage you to keep in touch with your University. You'll find that Deakin's alumni community of over 325,000 graduates will be an invaluable resource for you as you embark on this next stage of your career. I hope you will take advantage of and contribute to this extraordinary community who all began their professional lives at Deakin.

Congratulations and best wishes for the future.

Mr John Stanhope AM
Chancellor

Message from the Vice-Chancellor

My sincere congratulations on your graduation from Deakin University.

Today, alongside family, friends and peers, we acknowledge your efforts, your sacrifices, and your success, and we welcome you to the Deakin alumni community. We should never underestimate the importance of a university journey, and the serious achievement of a student's graduation.

I hope you have enjoyed your time at Deakin, met and collaborated with talented and passionate people, made friends, were challenged, formed new perspectives and knowledge, and developed new skills. A Deakin education is known for being innovative and inclusive and we want you to take these qualities into the world. The years ahead will require an open, flexible mind that can respond to change, and find and create opportunities.

We look forward to seeing where your Deakin degree takes you. Your learning did not begin with our University, and it does not end with your graduation. I urge you to continue to be curious and to seek solutions. It is this questing for greater expertise and deeper understandings that will shape the future, along with the qualities and values that Deakin holds dear: integrity, bravery, inclusivity, diversity, community responsibility and social justice.

Professor Iain Martin

Foster your ambition; have confidence in your talents and abilities and revel in each new experience.

Congratulations to each of you and to your families. I wish you well in your future endeavours, and I hope that one day, your career journey brings you back to Deakin as continuing students, as colleagues, as mentors, as supporters and as friends.

Professor Iain Martin
Vice-Chancellor and President

Welcome to Deakin University Graduations

Welcome!

We would like to warmly welcome you to Deakin University's graduation ceremony. This program lists every student graduating, including those not in attendance and graduating in absentia. The graduation ceremony will run for approximately 90 minutes and ushers are available at the venue doors to provide information and assistance. All guests should be seated 15 minutes before the ceremony start time. Please ensure your mobile phone is switched off prior to entering the venue and that you familiarise yourself with the emergency evacuation procedures, located at the back of this program. We hope you enjoy the ceremony.

The Graduation Ceremony

'Kim barne barre Wadawurrung Dja' Welcome to Wadawurrung Country

Deakin University would like to acknowledge the Wadawurrung People, the traditional custodians of the land and the Wathaurong community where this graduation ceremony is taking place. We pay our respects for their continued care of the land and further extend that respect to elders past and present.

Order of Ceremony

Processional music heralds the arrival of the Academic Procession for the graduation ceremony.

At the commencement of this music, graduands and guests are asked to stand and remain standing for the National Anthem.

The Master of Ceremonies will open proceedings and the Chancellor (or representative) will deliver the opening address. The Vice-Chancellor (or representative) will then introduce the guest speaker who will deliver the occasional address.

The Chancellor (or representative) will then make a formal declaration conferring the awards of the University on the graduates, both present and *in absentia*, and will invite graduates to proceed to the stage according to the order published in the program.

A Faculty Executive Dean (or representative) will read out the names of graduates being presented to the Chancellor (or representative).

At the conclusion of the presentation of the graduates, a representative of the graduating students will deliver a brief response.

The Vice-Chancellor (or representative) will deliver the closing address. Following the closing address, there will be a musical performance.

At the conclusion of the ceremony guests are requested to stand while the stage party and graduates leave the hall.

Refreshments will then be served in the marquee in the John Hay Courtyard.

The University Mace

Maces were originally medieval weapons carried by bodyguards to kings and sergeants-at-arms. Much later, the mace became of ceremonial rather than practical significance and organisations such as civic corporations and universities adopted the mace as a symbol of the rule of legal authority.

The University's mace is displayed at meetings of the University Council and on such ceremonial occasions as conferring ceremonies. The bearer of the mace, in academic processions, 'guards' the Chancellor. Deakin's mace was presented to the University by Mr Donald Thomson, Sir Wilfred Brookes and Mr Norman Stephen (Alcoa Australia).

The Graduation Ceremony

Academic Dress

Academic dress is an important reminder of the long history of universities in western civilisation. The three main elements of academic dress are the gown, the hood and the head-dress, which were all once articles of everyday outer dress. Both gowns and hoods, when in common use, were often lined and this lining was decorative, as well as practical. In medieval times, the higher the rank of the wearer, the more sumptuous the gown.

In universities there is still a difference in the apparel of scholars of various ranks reflecting the origins of the academic dress. Today's academic head-dress evolved from various hats and bonnets of earlier times. Deakin University's academic dress, like that of most Australian universities, derives from dress worn at the Universities of Oxford and Cambridge.

The University

Alfred Deakin

Deakin University was named in honour of Alfred Deakin (1856–1919), a remarkable Australian statesman, leading figure of the federation movement and three-time Prime Minister of Australia.

Alfred Deakin was a man of broad vision. Praised as a political leader, he was an outstanding orator, accomplished lawyer, a journalist, poet, an intellectual and an idealist motivated by a sense of duty to his country.

The son of English migrants, Alfred Deakin was born and educated in Melbourne, studying law at the University of Melbourne. He embarked upon a career in journalism with *The Age* and was a prolific reader of literature, philosophy, law and science, earning most of his income as a writer of social and political commentaries.

In 1879, Alfred Deakin launched his political career and became a successful Liberal candidate for the Victorian Parliament. A believer in democratic social reform, he became the acknowledged leader of the Australian Federation movement in Victoria. He was an active campaigner, a delegate at the federal conventions, member of the constitutional drafting committee and colonial representative in London.

Alfred Deakin was Deputy Prime Minister and Attorney-General in Australia's first government and, in 1903, he became Prime Minister. His many achievements include the establishment of the High Court of Australia, the introduction of labour and social reforms, the promulgation of new technologies such as irrigation and wireless telegraphy, support for the exploration of Antarctica and the introduction of financial support for Australian writers.

Alfred Deakin

The values of innovation, leadership, scholarship and reform embodied in Alfred Deakin are also fundamental values of Deakin University.

About Deakin University

Deakin University is one of Australia's most progressive universities, leading in the innovative use of digital technologies and online learning. As a public not-for-profit university, Deakin has achieved a balance of high-quality research with an education experience that is consistently rated as one of the best in the country.

Established with the Deakin University Act of 1974 as Victoria's fourth university and the first in regional Victoria, today it has approximately 60,000 students from across Australia and from more than 130 countries; 20,000 students choose to study online.

Deakin has a student-focused culture with a well-deserved reputation for student satisfaction and for being accessible and flexible, providing opportunities for learners at all stages of their lives and careers.

Deakin is renowned for developing award-winning partnerships with industry, governments, communities, professional associations and other education providers. Building on successes across Australia, Deakin has more than 500 active partnerships in 57 countries supporting education and research collaboration. Deakin's alumni networks also stretch across the globe, with more than 325,000 members.

Building on the University's success

Deakin University's Strategic Plan – Deakin 2030: Ideas to Impact – provides a bold framework, while remaining true to the University's founding goals:

- to develop lasting and mutually beneficial relationships with rural and regional communities, in particular those in Geelong and Western Victoria
- to offer an educational experience that will widen participation and support students from diverse backgrounds

These important aims continue to be a priority for Deakin University. However, in a world that is globally connected and in which information abounds and is more accessible than ever, innovation and excellence will remain defining characteristics that benefit all our students and staff.

At Deakin, we harness the power of ideas to transform the way we live and think. We nurture a rich and complex ideas ecosystem that delivers lasting value for our students and communities.

What makes us Deakin:

- We excel in both education and research
- We value both excellence and equity
- We are leaders in digital capability
- We are agile and responsive to community need
- Indigenous knowledges and ideas inform our future
- We deliver impact locally and globally
- We seek new opportunities that align with our community commitments

For all these reasons, Deakin University occupies an important place in the Australian higher education landscape.

The Deakin Story

1974–1984

Deakin was established by the Victorian Parliament in 1974 as a 'university in the Geelong area'. Deakin began teaching on 1 April 1977.

Deakin University was named after Alfred Deakin, who served as Prime Minister three times between 1903 and 1910 and was a significant figure in the achievement of Australian Federation.

When it was established, Deakin incorporated two existing Geelong-based institutions – the Geelong State College and the Gordon Institute of Technology.

Deakin had approximately 2500 students in its first year (1977), rising to 4800 in 1980.

By 1984, Deakin had consolidated its operations at the Geelong Wairn Ponds Campus.

1990–1991

Deakin's growth outside Geelong began in 1990 when it amalgamated with the Warrnambool Institute of Advanced Education. This continued in 1991 when it amalgamated with Victoria College, which operated from Burwood, Toorak and Clayton.

1993

Deakin was one of the first Australian universities to embrace professional and continuing education to corporate clients, establishing Deakin Australia (now DeakinCo.) in 1993.

1996

In the mid-1970s, the woolstores on the waterfront in central Geelong was one site considered and rejected for the proposed university that was to become Deakin. In 1996, this idea came to fruition with the opening of the Geelong Waterfront Campus.

2008

In 2008, the Deakin University School of Medicine opened, becoming Victoria's first rural and regional medical school.

2012

February 2012 saw the first intake of students in the new Bachelor of Vision Science/Master of Optometry degree.

2013–2019

During a period of rapid growth between 2013 and 2019, new buildings and major improvements included:

- the iconic gateway building at the Melbourne Burwood Campus
- Centre for Advanced Design Engineering Training at the Geelong Waurin Ponds Campus
- expansion of student accommodation across all campuses.

2014

In March 2014, the University declared it would be a smoke-free environment.

In May, the \$34 million globally unique cutting-edge carbon fibre research and innovation facility, Carbon Nexus, officially opened at the Geelong Waurin Ponds Campus.

In December, Deakin celebrated its 200,000th graduate.

2016

In January 2016, John Stanhope AM assumed the position of Deakin's Chancellor, taking over from David Morgan who served as Chancellor for 10 years.

In April, the Deakin Business School received accreditation by The Association to Advance Collegiate Schools of Business International, the longest serving global accrediting body for business schools in the world.

In August, the Deakin University Community Bank® initiative with Bendigo Bank was launched – the first collaboration of its kind between a university and a financial institution.

Deakin partnered with FutureLearn to offer full degrees online and short free courses through FutureLearn's global platform.

The Deakin Story

2017

In 2017 Deakin ranked 213 globally by the prestigious Academic Ranking of World universities.

Also in this year, the expanded TERI-Deakin Nanobiotech Centre was opened by the Prime Minister.

In 2017 Deakin University and LeMond Composites joined forces in a \$58m deal to revolutionise the use of carbon fibre across the world.

Soon after, in 2019, Deakin opened two new institutes: the Institute for Health Transformation and the Deakin Applied Artificial Intelligence Institute.

2018

In 2018 Deakin officially launched its Innovation Hub ManuFutures.

Deakin partnered with AusNet Services to establish a 7.25 MW smart microgrid at its Geelong Waurun Ponds campus.

The 2018 Excellence in Research for Australia rankings saw Deakin performing at or above world standard in 100% of its research (up from 90% in 2015).

2019

In March 2019, Deakin celebrated 25 years of engagement in India. Deakin was the first international university to establish an office in India.

In July, Deakin's seventh Vice-Chancellor, Professor Iain Martin begins in the role, taking over from Professor Jane den Hollander AO who served for nine years.

Also in this year, Deakin appointed its inaugural Pro Vice-Chancellor Indigenous Strategy, Professor Mark Rose.

Deakin was awarded an Athena SWAN Bronze Institution Award in recognition of the its commitment to advancing the careers of women, trans and gender diverse individuals in STEM disciplines; in the same year, Deakin received the 'Employer of Choice for Gender Equality' citation for the 13th consecutive year.

2020

In December 2020, the University launched its new ten-year strategic plan, *Deakin 2030: Ideas to Impact*.

The Hydrogen Training Testbed at the Hycel Technology Hub in Warrnambool was launched.

In March, Deakin launched NIKERI – the National Indigenous Knowledges Education Research Innovation Institute. The following year, the Vice-Chancellor's Indigenous Advisory Council was established.

2021

In 2021, Deakin established ten platforms for discovery and innovation, funded by the Victorian Higher Education State Investment Fund, the Commonwealth Government, Deakin and its partners.

In April, Deakin launched the Renewable Energy Microgrid at the Waurin Ponds Campus, the largest ever solar farm on an Australian university, which will help to achieve Deakin's goal of being carbon neutral by 2025 and carbon negative by 2030.

Between 2019 and 2021, significant infrastructure developments included:

- Nyaal at Waurin Ponds, an immersive teaching facility, and
- the new Law Building at Burwood.

The Campuses

Deakin is a large university with all the accompanying resources and infrastructure, but its campuses are small enough to retain their own character and sense of community. Each of our campuses offers a unique atmosphere – from the inspiring architecture and bayside appeal of our Geelong Waterfront Campus, to the cafe culture of our Melbourne Burwood Campus, the spectacular coastal location at our Warrnambool Campus or the mix of activity and open space at our Geelong Waurin Ponds Campus.

Melbourne Burwood Campus

This thriving campus is Deakin's largest. Located 15km from the Melbourne CBD, it boasts open and inviting spaces for socialising and studying, innovative architecture and wireless locations. An ambitious building program has resulted in a new complex of spacious modern buildings, including the gateway building situated on Burwood Highway and the state-of-the-art Indoor Exercise and Sport Science Teaching Building, completed in 2019. Refurbishment of older buildings, a library extension, expansion of residential accommodation, a 250-seat lecture theatre and a large landscaped central courtyard have all created a campus that is well-resourced and well-designed. The campus is home to the Deakin University Art Gallery and the Deakin *Motion.Lab*, a state-of-the-art motion capture facility that produces 3D animation and special effects, similar to those used in films such as *Avatar* and *The Lord of the Rings*.

Geelong Waurin Ponds Campus

Deakin's Geelong Waurin Ponds Campus is located 8km from the centre of the historic port city of Geelong, which is 72km south-west of Melbourne. Geelong is Victoria's largest regional city with a population close to 225,000.

Set among extensive landscaped grounds, the Geelong Waurin Ponds Campus boasts hectares of native trees, grassy lawns, lakes and avenues. There are many specialist facilities at this campus, including an outstandingly resourced library, audiovisual production studios, research laboratories and an extensive computer centre. The Waurin Ponds Estate provides first-class conference and convention facilities.

Also located at the Geelong Waurin Ponds Campus is the Geelong Future Economy Precinct. The Precinct draws on over 15 years of investment in developing the research expertise and facilities in areas such as carbon and ultra-fine fibre, nanotechnology and composite materials, as well as robotics, pattern recognition and data analytics. Some of Australia's, and the world's, leading advanced manufacturers now call the Precinct home.

Geelong Waterfront Campus

The Geelong Waterfront Campus is Deakin's newest campus, located on the beautiful foreshore of Corio Bay in the central business district of Geelong. Originally built in 1893, the historic woolstore building has undergone extensive redevelopment to create a modern and impressive campus centre.

The centrepiece of the campus is Costa Hall, a concert hall of international standard, where a number of university ceremonies, cultural performances and community functions take place, including Deakin's graduation ceremonies.

Also located at this campus is the refurbished Sally Walker Building, which houses the Alfred Deakin Prime Ministerial Library and the Alfred Deakin Research Institute. The Alfred Deakin Research Institute is an interdisciplinary teaching and research centre covering political science, public policy and governance, international relations, globalisation, journalism and communications.

Warrnambool Campus

Warrnambool is the commercial, cultural and educational heart of south-west Victoria. A premier tourist destination, it boasts stunning coastlines, renowned surf beaches and is the state's foremost site for whale watching.

Located 262km from Melbourne, the campus is set on 114 sprawling hectares on the banks of the picturesque Hopkins River. Our lecturers, students and staff at the Warrnambool Campus form a real community, where communication is open and informal.

Campus facilities include a comprehensive library, excellent teaching and learning spaces, a cafe, gymnasium, bookshop and golf course. Located just 5km from the centre of Warrnambool, the campus ensures that Deakin contributes to the vitality of the local community in the tradition of many university cities.

Welcome to the Deakin Alumni Community

Congratulations on completing your degree! You're joining a global alumni community of over 300,000 Deakin graduates, and we are delighted to welcome you.

We recognise the dedication it has taken to reach this important milestone and are proud of your accomplishments. And as you embark on your journey into your future careers, further studies and home life, Deakin will be here for you.

Scan the QR code or go to **deakin.is/welcoming-alumni** to find out more about our Deakin Alumni program, including how to:

- Access Deakin's award-winning career service, available to you for free, for life.
- Continue your lifelong learning journey through our programs and benefits.
- Get involved and make a difference for current and future Deakin students.

You will always be welcome at Deakin and we can't wait to see what you accomplish in the future.

Award of Honorary Degree

Mr Lionel Bamblett

The honorary degree of Deakin Honorary Doctorate will be conferred upon Mr Lionel Bamblett for his sustained and significant contribution to Indigenous education and training.

Ms Philippa Kelly

The honorary degree of Deakin Honorary Doctorate will be conferred upon Ms Philippa Kelly for distinguished service to the community in a range of business leadership positions and for eminent service to the governance of Deakin University as a member of the University Council from 2010 to 2021 and Deputy Chancellor from 2019 to 2021.

Doctor of Philosophy – PhD

Shanika Abeysooriya

Whose thesis is entitled:

‘Development of Novel Organic Ionic Plastic Crystal Electrolytes for Energy Storage.’

Summary

This thesis describes development of new organic ionic plastic crystals as solid-state electrolyte materials for lithium-battery applications. The thesis focuses on synthesizing dicationic organic salts along with mixed organic ionic plastic crystal systems and characterising their physical and chemical properties.

Whose thesis is entitled:

‘Requirements Engineering for Human-Centered Artificial Intelligence Software.’

Summary

This thesis investigates how existing Requirements Engineering methodologies can fit into building software systems with an AI component from a human-centred perspective. Current practices are examined, and a new framework is proposed and evaluated in three real-world case studies. The framework aided in eliciting and modelling requirements for human-centred AI.

Whose thesis is entitled:

‘The Use of Valid and Reliable Screening Tools for Detecting Delirium Postoperatively in Older People.’

Summary

This research examined the feasibility and diagnostic validation of delirium screening tools in the recovery unit and surgical ward settings. Two screening tools found to be feasible and accurate in detecting delirium among those patients. The study also revealed that postoperative delirium is associated with a decline in the ability to perform activity of daily living independently.

Principal Supervisor:

Associate Professor Pat Nicholson

Whose thesis is entitled:

‘The Role of Testosterone in the Regulation of Skeletal Muscle in Pre-Menopausal Females.’

Summary

This thesis demonstrated that total testosterone is not a direct determinant of muscle mass and strength in pre-menopausal females. It also showed that free testosterone plays a small role in the regulation of female skeletal muscle, but other hormones such as IGF-1 and hGH may play larger, more important roles.

Whose thesis is entitled:

‘Influence of a Preceptor Training Program on Perceived Preceptor Competence and Quality of Clinical Placement.’

Summary

This thesis examined how a particular preceptor training program influenced preceptors’ perceptions of their competence and student satisfaction with clinical learning. The results showed that preceptors felt more competent in their role and students were more satisfied with clinical placement following implementation of the training program.

Whose thesis is entitled:

‘Great Australian Bight Decapods: Potential Crude Oil Molecular Biomonitoring Tools.’

Summary

This thesis investigated baseline oxidative stress and histological condition in deep-sea decapods from the Great Australian Bight, and the impact of crude oil on molecular mechanisms in greentail prawns. The findings will inform biomonitoring programs in the event of commercial oil and gas operations in the Great Australian Bight.

Whose thesis is entitled:

‘Schizophrenia, Antipsychotic Use and Bone.’

Summary

This thesis by publication investigated the association between schizophrenia, antipsychotic use and bone, with two sections (A) a systematic review and meta-analyses and (B) a series of epidemiological studies. The findings indicated a higher fracture risk and lower bone quality and quantity in people with schizophrenia or antipsychotic users without indications.

Whose thesis is entitled:

‘Drain the State: Exploring Water Theft in Australia’s Murray-Darling Basin.’

Summary

This thesis explores the theft of water in Australia’s Murray-Darling Basin. It identifies that water theft is constituent of a broader socio-political narrative split between the Northern and Southern Basin. A culture of over-extraction, mismanagement and maleficence, predicated on decades of exploitation and harmful water policy since European Settlement, has given rise to the state-facilitated theft of water.

Whose thesis is entitled:

‘Expanding Virtual Reality: Regulating Attentional States and Affective Well-being.’

Summary

This thesis explored the benefits of integrating interactive forms of mindfulness meditation and abstract forms of restorative environments within virtual reality (VR) when supporting human attention and affective well-being.

The findings indicated strong feasibility of these approaches, with positive effects for attention and affect, and evidence that VR can increase motivation to adopt health-promoting activities during the workday.

Whose thesis is entitled:

‘Policy-Based Socio-Ethical Behaviours for Smart Devices.’

Summary

Smart Internet-connected devices are becoming commonplace in this age, and there is a need for them to behave ethically and in a socially acceptable manner. The thesis has investigated a policy-based approach to make smart internet-connected devices behave in a more human-centred way, demonstrated via prototype-based and simulation-based studies.

Whose thesis is entitled:

‘Effect of Microstructure and Composition on Corrosion Inhibition of Steels.’

Summary

This study investigates different steel alloys and evaluates the level of degradation in solutions with different exposure times. It explains why the steel alloys with different microstructures deteriorate differently. It then shows the microstructure play an important role in the durability of the steels when exposes to the solutions.

‘The Impact of Humor Style Congruence on Person-Supervisor Fit.’

Summary

This study investigated how humour style congruence between an employee and their manager influenced person-supervisor fit in the workplace using predominantly quantitative research methods, including structural equation modelling. The findings identified that humour style congruence increases person-supervisor fit through leader-member exchange quality, as well as, increasing organisational citizenship behaviours and reducing turnover intentions as mediated by person-supervisor fit.

Whose thesis is entitled:

'Optimising the Location of Refuelling Facilities at Transportation Companies.'

Summary

This thesis introduces the Refuelling Facility Expansion Problem, proposes a Mixed Integer Program to solve the problem, develops a methodology to convert GPS data into trips and estimates the impact of using the model in a case study in Australia. Additionally, it suggests two mathematical theorems to solve large instances of the problem.

'Investigation and Development of Optimum Energy Systems from Municipal Solid Waste Through Modelling Gasification Process.'

Summary

This research investigated the scope of energy conversion from municipal solid waste (MSW) using gasification process. A gasification model is developed and simulated further to explore and identify the key operating factors to improve MSW gasification performance. The results showed environmental and economic advantages over coal gasification and landfill.

'Microstructural Control in Ti-6Al-4V Additively Manufactured by Laser Powder Bed Fusion.'

Summary

This PhD thesis highlights the tremendous potential of tailoring the microstructures of the Ti-6Al-4V alloy in the solid-state phase transformation stage by exploiting the inherent characteristics of thermal cycling in laser powder bed fusion. The findings add new knowledge to our existing wisdom in microstructural control during metal additive manufacturing.

Whose thesis is entitled:

'Understanding the Abrasive Wear Behaviour of Cast Nanostructured Bainitic Steels.'

Summary

This research investigated the abrasive wear behaviour and impact toughness dependence of cast nanostructured bainitic steel with prominent micro-segregation. In addition, this thesis presented the effects of nano-bainite with preformed martensite and alloying for improved hardenability on bainite transformation, mechanical properties and abrasive wear behaviour.

Whose thesis is entitled:

'An Animal-Assisted Intervention in an Australian University.'

Summary

This thesis involved three phases. The first reviewed existing studies and illustrated an Animal Assisted Intervention (AAI) could improve stress, anxiety or mood on-campus. The second determined considerations required to implement an AAI. The third highlighted an Australian university community held high interest in an AAI and how it could promote health on-campus.

Whose thesis is entitled:

‘Family-Centred Occupational Therapy: What Do Therapists and Low-Socioeconomic Families Value?’

Summary

This thesis investigated the relationship between occupational therapists and parents from low socioeconomic backgrounds by exploring their values, expectations and experiences. Findings revealed differences in the values held by occupational therapists and parents, and inconsistencies between their expectations and experiences, indicating a break-down in the delivery of family-centred practice.

Whose thesis is entitled:

‘Development of an Assessment Approach for Physical Literacy in Children.’

Summary

This thesis developed and provided initial validity evidence for a novel assessment tool – The Physical Literacy Questionnaire for Teachers (PLQ-T) – for use by teachers in assessing children’s physical literacy. The newly developed PLQ-T could provide the depth and breadth of data on child development to aid teachers to better understand and support children’s physical literacy journey.

‘Contributions of Seaweed to Carbon Sequestration.’

Summary

This study proposed a novel approach for reliable detection, identification, and prediction of seaweed-carbon deposits in marine sediments through eDNA (high taxonomic resolution) and fatty-acid signatures (strong chemotaxonomic differentiation) along with sophisticated modelling with potential for quantitative application. The findings are substantiation to incorporate seaweed into blue-carbon and climate-change-mitigation schemes.

Whose thesis is entitled:

‘Hybrid Haptic Rendering and Augmented Reality for Simulated CPR Training.’

Summary

This research investigates how manikin-based training can be enhanced to improve the outcomes of cardiopulmonary resuscitation (CPR). It explores using haptics to generate realistic CPR reaction forces, and augmented reality for real-time performance feedback and guided training. The findings support this general approach as a good direction for training of CPR experts and the general population.

‘Smart Agriculture: Advancements on Plant Disease Detection with Big Data and Deep Learning.’

Summary

This thesis proposes a novel image clustering approach using multi-view and contrastive learning techniques. The proposed method is evaluated on various datasets, including the Plant Disease Image dataset, and achieves promising results. The thesis also provides a comprehensive literature review of clustering techniques and discusses future directions for research in this field.

Whose thesis is entitled:

‘Harnessing Ecological Interactions to Improve Ecosystem Management.’

Summary

This research aims to improve ecosystem management by developing quantitative methods that explicitly account for interacting threats to biodiversity, including climate, fire and invasive predators. It demonstrates how a whole-of-ecosystem approach can provide novel insights for managing biodiversity in two regions of southern Australia, with potential applications globally.

Principal Supervisor:

Professor Euan Ritchie

Whose thesis is entitled:

‘Shape Optimisation of Flexible Roll Formed Complex Beams.’

Summary

This thesis developed a novel parametrisation technique, which can represent the sophisticated thin-walled beams and enable the use of the gradient-based optimisation algorithm. Several representative numerical results indicated that the proposed optimisation methodology can improve the performance of the beams, reduce the weight and maintain the manufacturability.

Principal Supervisor:

Whose thesis is entitled:

‘Myopia Prevalence, Risk Factors and Ocular Growth among Children in South India.’

Summary

This study investigated the prevalence and risk factors associated with myopia among children in South India. The study found a four-fold increase in myopia prevalence and identified key factors associated with myopia prevalence among children in this region. The study also provided ocular biometry percentiles that could help in evaluating the risk of myopia development among Indian children.

Principal Supervisor:

Associate Professor Simon Backhouse

School:

Whose thesis is entitled:

‘Redox-Active Microbial Metabolites as Sustainable Optoelectronic Materials.’

Summary

This research involved isolating and identifying microbes from the roots of plants with an understanding of the optical and electrochemical behaviour of the metabolites secreted by the microbes and then applying the microbial metabolites for solar cell application. This study gave a comprehensive understanding of microbial metabolites’ optoelectronic and electrochemical behaviour for sustainable energy applications.

Whose thesis is entitled:

‘Exploring Typologies of Child-to-Parent Violence.’

Summary

This thesis explored a typology of child-to-parent violence (CPV) grounded in the motivation for the violence. The findings suggest that there may be two types of parent-child dyads experiencing CPV, who both have unique treatment needs. In addition, this thesis generated a novel measure of CPV suitable for clinical application.

Whose thesis is entitled:

‘Negotiating Colonial Legacies: Museums and the Production of Moral Unsettlement.’

Summary

This study investigated how Australian museums and cultural heritage institutions navigate the moral implications of representing colonial history. It focused on the Tasmanian Museum and Art Gallery in Hobart, finding that the institution has made significant transformations in policy and practice regarding First Nations and colonial narratives in the past two decades.

‘Umami as an Alimentary Taste.’

Summary

This thesis provides evidence to support the classification of umami as an ‘alimentary’ taste. The studies in this thesis focus on the taste perception and dietary intake behaviours of the sub-group of the population with a reduced ability to taste umami. The evidence in this thesis supports the reclassification of umami taste from a ‘basic’ taste to an ‘alimentary’ taste.

'Salt and Skin: Climate Change in Australia and Orkney.'

Summary

This thesis utilises a hauntological and new materialist perspective in order to examine the traumascapes associated with the 17th century Orcadian witch-hunts. This research additionally reimagines these traumascapes into a work of contemporary climate fiction, set across Australia and Orkney. These findings contribute to understandings of how traumascapes can be explored in fiction.

'Novel Solid-state Proton Conducting Materials Based on Polymerised Ionic Liquids and Composites.'

Summary

This thesis investigated the proton conducting materials based on polymerised ionic liquids. It spans from material synthesis, physical property characterization to structure-performance relationship. The findings highlight that polymerised ionic liquids composites are promising proton conductive materials.

Whose thesis is entitled:

'Nurse Decision-Making and the Management of Vasoactive Medications in the Intensive Care Unit.'

Summary

This study explored decision-making and clinical practices that intensive care nurses undertake when managing vasoactive medication. Nurses used analytical and intuitive decision-making when titrating and weaning noradrenaline in critically-ill patients and developed strategies to reduce practice variability and uncertainty. Intensive care environment, culture, and access to resources influenced decision-making processes.

Whose thesis is entitled:

'Health and Safety (H&S) Training and Learning Framework for Foreign Workers in Malaysian Construction Industry.'

Summary

The H&S Training and Learning Framework could potentially make a significant contribution by impacting on the construction industry in the workplace environment. In particular, the framework could form the guidelines and an alternative reference for authorised parties, such as instructors, safety officers, officers of the Department of Skills Development (DSD) and the Construction Industry Development Board (CIDB), thus improving their H&S training and learning programs, by especially focusing on foreign workers.

Whose thesis is entitled:

‘Development of a Two-Way Steel-Concrete Composite Flooring Using Modified Decking.’

Summary

This research studied the interaction properties between steel and concrete in composite flooring systems. The findings resulted in the development of a two-way composite slab with ideal bond properties between the two different materials. This was achieved by optimising an innovative and modified steel decking system.

Whose thesis is entitled:

‘Chelation and Radiolabelling of Epithelial Cell Adhesion Molecule(EpCAM) and Transferrin Targeting Aptamers.’

Summary

This research investigated the chelation and radiolabelling of epithelial cell adhesion molecule (EpCAM) aptamer (SYL3C) and transferrin (GS24) targeting aptamers. These were each chelated (with DOTA) and then radiolabelled with a radioisotope. The radioisotopes used were Lutetium-177 and Actinium-225. In-vitro experiments demonstrated these reached their target cancer cells, prostate cancer and astrocytoma, respectively.

Whose thesis is entitled:

‘3D Printing of Nano Porous Membrane Integrated Miniaturised Fluidic Devices.’

Summary

This research focused on developing nanoporous membranes with three-dimensional printing technology. The materials were created using resin formulations that undergo phase separation during ultraviolet rays-initiated polymerisation. The resulting self-assembled nanoporous materials exhibited high porosities of up to 60%, which can be easily controlled and offer semi-automated and/or fully automated membrane-integrated miniaturised device fabrication for various applications.

Whose thesis is entitled:

‘Consumer Activism: Role of Relational Constructs.’

Summary

This thesis examined empirically the role of relational mobility in individual consumer activism behaviours, thus extending relational mobility beyond interpersonal relationships to consumer-brand relationships. The findings suggested that different levels of relational mobility affect consumer behaviours associated with the termination and formation of relationships following egregious and virtuous acts.

Whose thesis is entitled:

'Sleep Restriction, Resistance Exercise and Skeletal Muscle Health in Females.'

Summary

This thesis demonstrated that sustained sleep restriction reduces the quality and quantity of resistance exercise performance and increases perceived training effort and fatigue. Sustained sleep restriction also disturbs hormonal and gene expression markers of muscle protein turnover and circadian regulation. These findings improve the prescription and monitoring of resistance exercise to optimise skeletal muscle health and performance.

‘Corporate Social Responsibility and Firm Value.’

Summary

This study explores links between chief executive officer (CEO) narcissism, corporate earnings management, and executive compensation in the context of corporate social responsibility (CSR) metrics. The research emphasises the importance of understanding moderating and mediating factors in enabling narcissistic CEO behaviours. This study deepens the understanding of factors linking CSR and firm value, explaining inconsistent results amongst existing literature.

‘Bioremediation of Recalcitrant Pharmaceutical Contaminants Containing Antibiotics in Wastewater.’

Summary

This research explores the degradation process of fluoroquinolone antibiotics (FQs), focusing on enzymatic treatment utilizing laccase enzymes for FQ removal from wastewater. The study highlights the efficacy of fungal extracts, notably from *Pleurotus* species. Furthermore, the research successfully immobilises laccase on magnetic nanoparticles, enhancing degradation efficiency and offering an environmentally sustainable approach for eliminating FQs from the ecosystem.

Sida Xing

Whose thesis is entitled:

'Extreme-Long-Short Term Memory for Time-Series Prediction.'

Summary

This thesis introduces a novel neural network, the Extreme Long Short-Term Memory (E-LSTM), combine the advantages of Long Short-Term Memory (LSTM) networks and Extreme Learning Machines (ELM). Empirical evidence demonstrates that E-LSTM significantly bolsters computational efficiency, concurrently maintaining a high prediction accuracy.

Principal Supervisor:

Associate Professor Sui Yang Khoo

Master of Philosophy – MPhil

Raj Sanjiv Khatri

Whose thesis is entitled:

'Role of Mucin 1 in Malaria-Associated Acute Respiratory Distress Syndrome.'

Summary

This study investigated the role of mucin 1 in the development of malaria-associated acute respiratory distress syndrome. Mucin 1 has an important role in maintaining inflammatory response. This is the first study to investigate the role of mucin 1 during malaria infections. This study showed that mucin 1 plays a role in reducing malaria-induced inflammation in lung cells.

Principal Supervisor:

Dr Poshmaal Dhar

School:

Medicine

Hayden Luke Richards

Whose thesis is entitled:

'Emergency Doctors' Experience of Negative Referral Encounters.'

Summary

This thesis explores how emergency doctors experience negative referral encounters. It charts the phenomenological dimension of this common yet distressing experience. Findings suggest potentially serious implications for both clinician well-being and patient safety.

Principal Supervisor:

Professor Gary Rogers

School:

Medicine

Master of Science – MSc

Matheus Moraes Hammes

Whose thesis is entitled:

‘Pulse-based Quantum Neural Networks.’

Summary

This study explores the combination of machine learning and quantum computing. By capitalising on the cyclical nature of quantum state probabilities, it proposes a single-qubit feed-forward block that uses classical parameters in a quantum context. This approach allows for numerous iterations and updates at training can be effected without dwelling on coherence times.

Principal Supervisor:

Dr Jihong Park

School:

Information Technology

Iram Jawad

Whose thesis is entitled:

‘Detecting Anomalous Network Behaviors Using Deep Learning and Data Analytics.’

Summary

This research employs big data and deep learning to examine cyber-attacks, notably data exfiltration within DNS. It underscores the limitations of costly and inflexible traditional security solutions, emphasising the demand for advanced detection methods to safeguard diverse assets within expanding web networks.

Executive Supervisor:

Dr Anuroop Gaddam

Co-Supervisor:

Profesor Robin Ram Mohan Doss

Master of Surgical Research – MSurgRes

Anh Ngoc Vu

Whose thesis is entitled:

‘Robotic General Surgery Within a Regional Centre in Australia.’

Summary

This thesis evaluates the introduction of a robotic technique for minimally invasive surgery within an Australian regional single institution. Our study showed that a robotic approach to general surgery was not inferior to a laparoscopic approach. Therefore, robotic general surgery is a safe and suitable alternative to laparoscopy.

NIKERI Institute

Deakin University is proud to have the largest number of Aboriginal and Torres Strait Islander students of any Victorian university.

The National Indigenous Knowledges Education Research and Innovation (NIKERI) Institute commenced in 1991 and offers programs that are structured around off-campus community-based delivery, supported by on-campus intensive study blocks and complemented by local tutors in their home communities.

This approach to course delivery promotes access and equity for Indigenous Australian students. Students from all areas of the country – rural, remote and metropolitan, and across all age ranges, particularly mature age – are able to undertake studies without compromising their family and community obligations.

In November 2019, the Institute won the prestigious Dreamtime Education Award for 'Education Institute of the Year'.

Evacuation Assembly Points

Costa Hall, Geelong Waterfront Campus

Evacuation procedures

On the sounding of the alert tone:

Beep ... beep ...

- Stand by and wait for further instruction

On the sounding of the evac tone:

Woop ... Woop ... Evacuate Now

- Follow directions of fire warden
- evacuate all occupants
- proceed to the assembly area on instruction of the chief warden
- remain at the assembly area and report any missing persons or personal items.

Do not re-enter the building until the fire brigade declares it safe to do so.

疏散程序

当响起哔... 哔... 警报声时:

- 请准备就绪等候进一步指示

**当响起呜... 呜... 撤离警报声时,
立即撤离:**

- 遵从消防安全员指示
- 全体人员撤离
- 根据消防指挥指示前往集合点
- 停留在集合点, 报告缺失人员或个人物品

**在消防人员宣布可安全进入建筑物之前,
不得进入。**

निकासी प्रक्रियाएँ

चेतावनी की आवाज **बीप... बीप...** सुनाई देने पर:

- तैयार रहें और आगे के निर्देशों की प्रतीक्षा करें

निकासी की आवाज **वूप... वूप... Evacuate Now** सुनाई देने पर:

- फायर वार्डन के निर्देशों का पालन करें
- सभी मौजूद व्यक्तियों को बाहर निकालें
- मुख्य वार्डन के निर्देश पर सामूहिक स्थल की ओर जाएँ
- सामूहिक स्थल में खड़े रहें और किसी भी लापता व्यक्ति या निजी वस्तु के बारे में सूचित करें।

जब तक फायर ब्रिगेड भवन में प्रवेश करना सुरक्षित घोषित न करे, तब तक प्रवेश न करें।

THỦ TỤC DI TÀN

Khi nghe tiếng kêu báo động:

Bíp ... bip ...

- Chuẩn bị sẵn sàng và đợi để được hướng dẫn thêm

Khi nghe tiếng hụ báo động di tản:

Woop ... woop ... Di tản ngay bây giờ

- Làm theo lời hướng dẫn của giám thị hỏa hoạn
- Di tản tất cả mọi người
- Đi đến nơi tập hợp theo lời hướng dẫn của giám thị trường
- Lưu lại tại nơi tập hợp và báo cáo bất kỳ người nào không có mặt hoặc đồ đạc cá nhân bị thất lạc.

Đừng trở vào tòa nhà cho đến khi đội cứu hỏa tuyên bố là an toàn để trở vào.

PROSEDUR EVAKUASI

Jika terdengar nada peringatan:

Bip ... Bip ...

- Berdiri dan tunggu petunjuk selanjutnya

Jika terdengar nada tanda evakuasi:

Wup ... wup ... Evakuasi Sekarang

- Ikuti arahan petugas pemadam kebakaran.
- Evakuasi semua yang ada di dalam ruangan.
- Pergi ke lokasi berkumpul sesuai perintah kepala tim pemadam kebakaran.
- Jangan beranjak dari lokasi berkumpul, dan laporkan jika ada orang atau barang pribadi yang tertinggal.

Jangan kembali ke dalam gedung sebelum tim pemadam kebakaran memastikan kondisi sudah aman.

إجراءات الإخلاء

عند سماع صوت جرس التنبيه:

بييب ... بييب ...

- استعد وانتظر مزيداً من التعليمات

عند سماع صوت إنذار الإخلاء:

وووب ... وووب... الإخلاء الآن

- اتبع إرشادات المُختص بالحرائق
- إخلاء جميع الموجودين
- انتقل إلى منطقة التجمع وفقاً لتعليمات الموظف المسؤول عن الإخلاء
- البقاء في منطقة التجمع، والإبلاغ عن أي شخص مفقود أو أغراض شخصية مفقودة.

لا تدخل المبنى مرة أخرى حتى يعلن مسئول الإطفاء أن الأوضاع آمنة للقيام بذلك.
