Why choose Deakin?

Deakin University, Australia, provides a world-class education recognised around the globe. We offer you the chance to gain the knowledge, skills and experience to make an impact. Let us help you achieve your career goals.

Helping you achieve your goals
There is more to Deakin than getting a world-class education: we are committed to starting you on a world-class career. Our programs focus on practical learning and work experience to make sure you have the skills that employers need. Deakin’s learning outcomes go beyond subject knowledge: you will develop key skills such as communication, teamwork, critical thinking and problem solving. These attributes are highly valued by employers around the world.

Real industry experience
Work experience plays a critical role in developing graduate employability. You won’t just be learning out of a textbook: Our education students teach in classrooms; our nursing students gain experience in hospitals; and our environment students monitor wildlife in the forests. Industry placements give you an opportunity to apply knowledge gained in your studies; develop professional skills; experience workplace culture; explore career options; and develop professional networks.

Deakin students are happy students
The experience of each student really matters to Deakin, from the quality of teaching to employability. This is why Deakin has maintained the highest level of overall student satisfaction among universities in the Australian State of Victoria for eight years in a row.~

Deakin has four engaging campuses located in the Australian State of Victoria, as well as the innovative Cloud Campus (online). Each campus offers a unique study experience and Deakin’s local communities are friendly, safe and dynamic, making for a perfect study environment.

**Melbourne**

Melbourne is the multicultural heart of Australia – an international city that is home to people from all around the world. It is a city built for exploring: Coffee shops, galleries, music and amazing food can be found down every lane in the city centre. There is always something happening in Melbourne, from cultural festivals and world-class arts performances to international sporting events like the Australian Open tennis tournament.

You can enjoy live music and soak up the sun at Federation Square, or ride a bike along the Yarra River. You can visit the native animals at the Melbourne Zoo, or spend mornings exploring the Queen Victoria Market tasting fresh local produce.

Without having to venture too far from Melbourne’s central business district you can explore some of Victoria’s most scenic locations, and take part in exciting activities. These include:

- The Yarra Valley where you can taste some incredible local produce
- Mornington Peninsula where you can relax at the beach
- The Victorian high country where you will experience exceptional views and even have a try at snow skiing.

**Melbourne Burwood Campus**

The Melbourne Burwood Campus is Deakin’s largest and has a lively and diverse culture. It is a short trip from Melbourne’s central business district.

The campus boasts impressive buildings and world-class facilities, including a professional motion capture lab; dance, drama and television studios; food and nutrition labs; the nursing and midwifery Clinical Simulation Centre; IT gaming facilities; and much more.

Melbourne Burwood students love the relaxed suburban atmosphere and huge choice of learning and social spaces. The campus sits alongside parkland, which is great for cycling, walking and jogging.

**World’s most liveable city**

Melbourne has been named the world’s most liveable city for seven years in a row by The Economist Intelligence Unit. Melbourne has a perfect score for healthcare, education and infrastructure, and is considered one of the safest cities in the world.
Geelong

Geelong combines the best of city living with a more relaxed atmosphere. Located a short train trip from Melbourne, Geelong is a dynamic and safe coastal town with a spectacular waterfront lined with some of Geelong’s best cafes and restaurants. You can head to the surf coast where students take a break from their studies to enjoy a swim or surf; or check out the GMHBA Stadium football oval where the Geelong Cats – an Australian league football team and partner of Deakin – play their exciting games.

Geelong is a community that welcomes students. You will find Deakin students working in many of the local businesses and enjoying the wide range of activities and facilities that the town has to offer. Close to Geelong, you can explore:

- The You Yangs mountain range for spectacular views
- The Bellarine Peninsula where you can taste local produce
- Coastal towns along the Great Ocean Road and see the iconic 12 Apostles limestone stacks.

Geelong Waurn Ponds Campus

You get the best of both worlds at the Geelong Waurn Ponds Campus – world-class programs and superb facilities, as well as a relaxing, regional environment close to some of Australia’s best surf beaches. Outdoor areas and spacious new buildings are perfect for both socialising and studying at this campus. It offers incredible sport facilities and is home to Deakin’s Elite Sport Precinct, which includes an Australian rules football oval, FIFA-grade soccer pitch, eight-lane 400-metre athletics track, outdoor basketball court and more. A deluxe health club complete with gym, workout studios and group fitness classes is also available.

Geelong Waterfront Campus

Deakin’s Geelong Waterfront Campus is right on the seawall in the heart of Geelong. Originally built as wool stores in the 19th century, the buildings have been extensively renovated, creating a modern, impressive campus. The campus is home to Deakin’s architecture and creative arts studios. Alongside a full range of accessible student services, the campus features nursing and health teaching facilities, including a purpose-built occupational therapy laboratory and new nursing and midwifery simulation environments.

The Geelong Waurn Ponds Campus is home to the Deakin Medical School, the Centre for Advanced Design in Engineering Training (CADET), the REACH regional health hub and Deakin’s Geelong Innovation Precinct – all featuring the latest tech and tools.
Warrnambool
Set along one of the country’s most scenic coastlines, Warrnambool is the place to be for exploring Australia’s famously unique plant and animal habitats. Warrnambool is also a prosperous country town that offers comfortable living and a cultural scene hosted by a regional gallery and arts centre. Cruise up the Hopkins River or sit down to some excellent Southeast Asian cuisine on Liebig Street. Warrnambool has plenty of options for an active student, and the small town feel creates a sense of community that is harder to find in a big city. And for students (and parents) concerned about expenses, Warrnambool offers a lower cost of living than Melbourne and Geelong without sacrificing quality.

Warrnambool Campus
Deakin’s Warrnambool Campus is set on the banks of the picturesque Hopkins River, close to surf beaches and popular tourist attractions. It is a close-knit community, a place where students and lecturers really have the opportunity to get to know each other and work closely together. That sense of community extends to the whole of Warrnambool, providing support to new students in a relaxed, friendly atmosphere. But for those looking for an occasional jolt of big city excitement, trains run four times daily to Melbourne.

Warrnambool Campus bursary
Deakin Bachelor of Nursing and Bachelor of Commerce students who study at the Warrnambool Campus will be automatically eligible for a 20% fee and on-campus accommodation bursary. This generous bursary is for all international students, and is your chance to save on a world-class education in an engaging and welcoming environment. For more information visit deakin.edu.au/int-scholarships.

\* Applicants must have met the English and academic requirements for entry to their selected course to be eligible for this scholarship.
Cloud Campus

As a flagship provider of distance education for more than 40 years, Deakin has a unique understanding of students who need to study from afar.

The Cloud Campus is a virtual, vibrant campus. It is your one-stop online shop to access lectures and resources, participate in live-stream seminars and class discussions, chat with lecturers and students, and submit assignments. When, where and how you study is up to you.

As a Cloud Campus student, you need to be a disciplined, independent and organised learner. Given your competing commitments, you will also need to be savvy when it comes to time-management and prioritising. That’s why our Cloud Campus comes with orientation sessions, tailored support services, innovative but easy-to-use digital tools and resources, and a dedicated ‘student success coach’ to keep you on track.

With your own personalised digital study hub, we have made the transition to online study a smooth one. DeakinSync is the online place you will call home. It is where you will find everything you need to manage your enrolment and course material, communicate with your classmates and lecturers, sort out your timetable and even plan your career.
Student services at Deakin

At Deakin we want you to have a meaningful learning experience. To achieve this we offer a complete range of services and programs, from accommodation assistance to academic development and social activities, to ensure our students feel welcome.

Get started
We make it our priority to ensure that all new international students – many of whom have arrived in Australia for the first time – make a smooth transition to the University. Deakin’s welcome program includes orientation, workshops, social events, study groups and opportunities to get you involved in campus life. We will even pick you up from the airport.

Students Helping Students
No one understands students better than students. That is why experienced students – or mentors – are available to assist you with academic, practical or social matters to help you achieve your best results. This is a part of Deakin’s Students Helping Students service. Many student mentors are international students themselves, and know what it means to be new to Deakin and to Australia.

Study
At Deakin we want to help you get the most out of your learning experience. We have a team of staff and students dedicated to providing study support services to help you achieve this.

Deakin Genie
Deakin Genie is a mobile app that helps you keep on track with your studies. It is made up of chatbots, artificial intelligence, voice recognition, a predictive analytics engine, and many more exciting technologies. As a Deakin student, you can use Genie to keep a calendar of upcoming classes and assignments; set goals for the year and motivate yourself to achieve them; and access support services and learning tools from around the University.

Deakin Genie received the 2018 Digital Edge 50 award from IDG Communications, the world’s number one ranked media, data and marketing services company. This outstanding achievement is a reflection of the program’s high engagement and digital innovation.

Learn more about this incredible app at https://youtu.be/Xgavwl_aTAA.

Graduate employment
DeakinTALENT
Our unique DeakinTALENT program assists students to enhance their career planning, marketability and employment outcomes in Australia and beyond. Deakin’s long-standing relationships with industry organisations means you will learn what employers are looking for in a graduate.

DeakinTALENT offers the Deakin International Student Careers (DISC) program, which was created specifically for international students. We run workshops each trimester and provide resources and support to help you understand the Australian employment market and Australian workplace culture; build your experience; write a strong resume; and prepare your graduate job search, either in Australia or internationally. At these events you will hear current students and graduates share their experiences, challenges and success stories about securing jobs and internships while living, working and studying in Australia.

SPARK@Deakin
An experiential program, SPARK@Deakin is designed to give our students the opportunity to experience the early stages of the entrepreneurial journey. Through interactive seminars and workshops, the program aims to inspire entrepreneurship and provides networking and mentoring opportunities to nurture successful start-up ideas.

Play
Getting involved in university life is a great way to meet new people, take on new challenges, and look after your health and fitness. As a Deakin student you can join more than 150 clubs and societies across all campuses. We have a diverse range of clubs, including sporting, academic, health, religious and many more.

Health, safety and wellbeing
Deakin offers a range of services to help students stay healthy, safe and promote personal wellbeing.

Deakin Medical Centre
Deakin Medical Centre provides professional medical and nursing healthcare and advice to students. Medical centres are located on all campuses. Campus nurse consultations are free and strictly confidential. Campus doctors bill directly through your Overseas Student Health Cover (OSHC).

Safety
Deakin’s campuses and communities are safe places for students. Even so, security officers are on duty 24 hours a day, 7 days a week and are based at all campuses to ensure the safety of students and staff. Safer Community is a service available for support, advice or information if something just doesn’t feel quite right. In addition, SafeZone is a free phone app for all Deakin students and staff, that connects you directly to the security team if you need help on campus.

Supportive and inclusive environment
Deakin promotes a diverse, inclusive and supportive environment through a number of services and initiatives. The Disability Resource Centre (DRC) provides individual support to students with a disability or health condition to successfully participate in their studies and university life. The ALLY Network creates a more diverse and inclusive culture by promoting greater visibility and awareness of lesbian, gay, bisexual, transsexual, intersex, queer or questioning (LGBTIQ) students and staff.
For many students, moving away from home is a part of the university experience. This is particularly true for international students, many of whom are living overseas for the first time. Deakin has a variety of accommodation options to make you feel at home.

**On-campus accommodation**
Living on campus offers a unique opportunity to immerse yourself in the Deakin experience. Accommodation is available at the Melbourne Burwood, Geelong Waurn Ponds, Geelong Waterfront and Warrnambool campuses.
You will have your own private bedroom and share a fully-equipped kitchen, spacious living and dining room, with an air conditioning unit and bathrooms. All rooms are furnished, carpeted, heated and equipped with a bed, desk, Wi-Fi and data point linked to the University network.
All Deakin residents have access to a range of support services, including support staff, the management and administration team and 24-hour Deakin security staff. The residences team provides a program of social, personal, academic and sporting activities, ensuring a smooth transition to university life and a rewarding and enjoyable experience. Residences at all campuses are self-catered, with food outlets available.

*Indicative weekly rates: $280 – $356*

*Price based on the Melbourne Burwood Campus costings. Rates will be lower at the Geelong and Warrnambool locations.

**Off-campus accommodation**
Students can search for off-campus accommodation using Deakin’s Houseme database. You will find a variety of off-campus accommodation opportunities, including long-term, short-term and casual options available to rent.
You can also access a range of free self-help resources to assist with understanding:
- when to start your accommodation search and how to go about it
- the cost associated with finding accommodation
- things to consider at property inspections
- locations around each campus
- rights and responsibilities when renting in the Australian State of Victoria.

**Homestay**
Students at the Deakin University English Language Institute (DUELI) have the option of staying in a host family home. This provides a great opportunity for students to improve their English in everyday situations and to learn more about living in Australia.

**What is included?**
On-campus accommodation fees are inclusive of social, community, health and wellbeing; arts and cultural; and leadership programs. Fees are also inclusive of all utilities, including rent, gas, water, fast internet and electricity.
Across all our accommodation facilities, residents have exclusive access to landscaped courtyards, indoor and outdoor communal cooking and entertaining facilities, recreational spaces, study rooms, free laundries, secure bike storage and movie rooms.
Admission requirements

Deakin's degrees have entry requirements that you need to meet in order to study with us. For entry into undergraduate degrees, Deakin recognises secondary education qualifications from many countries around the world. Australian Foundation studies and International Baccalaureate studies are also eligible for consideration.

Using the academic admission requirements table

The table beginning on the next page details the academic admissions requirements for entry into Deakin undergraduate degrees. Check the table for the qualification most relevant to your secondary school studies. Some qualifications will require you to make a quick calculation to convert your results into scores that Deakin will use to assess your application. Use the notes below each table to learn how to calculate your total score.

Is your country not mentioned here?

If your academic achievements and country of origin are not mentioned on these pages, it does not necessarily mean that you cannot apply to Deakin. Our admissions team can take your academic record and other achievements, including workplace experience, into consideration.

Select countries not in the table

China entry requirements – Gaokao (高考)

Gaokao students who meet the higher Tier One university cut off score for their province will meet the academic requirements for entry into most Deakin undergraduate degrees.

Vietnam entry requirements

For entry into most bachelor degrees, Vietnamese students must graduate with a National High School Graduate Certificate and achieve an overall GPA of at least 8.0 for Year 11 and Year 12. In addition, applicants must achieve a minimum score of 8.0 for three major subjects in Year 12. Major subjects include Maths, English, Chemistry, Literature, Physics, or Biology.

Indonesia entry requirements

Deakin accepts students into bachelor’s degree programs who have successfully completed the SMA3, achieved the specified average grade in the final two semesters of Year 12, and have been awarded a Certificate of Graduation (Keterangan Hasil Ujian Nasional – SKHUN). Most Deakin bachelor’s degrees require an average grade of at least 8.0 in the final two semesters of Year 12. The two exceptions are Business School (8.5) and Law School (9.0) degrees.

Canada entry requirements

Applicants must achieve a minimum of six Grade 12 credits. All applications are assessed individually.

New Zealand NCEA requirements

Achievement of a New Zealand University Entrance certification, and a minimum of 80 credits, including at least 60 credits at Level 3 or higher on the NZ qualifications framework, and at least 8 credits at Level 2 or higher in English (4 credits in Writing and 4 credits in Reading required).

Don’t meet the academic admission requirements?

If you are not sure you meet the academic admission requirements for a Deakin degree, there may still be a pathway available for you to study at Deakin in the future. See page 15 of this Guide to learn about the alternative pathway options to Deakin.

Pathways to Deakin

Deakin understands that not everyone starts an undergraduate degree right after secondary school. A number of alternative entry pathway options are available for a range of applicants, and we are here to help you find one that best suits your needs.

What are pathways?
Pathways provide alternative entry options for getting into your dream degree at Deakin if you do not meet the requirements for entry. Taking a pathway is a great option for students who need extra study to meet Deakin’s academic entry requirements.

Deakin College
Deakin University has a unique partnership with pathway provider Deakin College. Deakin College offers a number of pathway programs that provide students with admission into Deakin University degrees. Successful completion of a Deakin College diploma may allow you to enter a Deakin University bachelor’s degree program in the second year – saving you time and money. See the opposite page for more information about Deakin College.

Pathways through TAFE
Deakin has partnerships with TAFE providers to offer direct pathways via Certificate IV, Diploma, Advanced Diploma and Associate degree qualifications. TAFE pathways may provide students with credit for prior learning into specific Deakin degrees if admission requirements are met.

Complete a guaranteed entry pathway
Guaranteed entry pathways provide more certainty about TAFE pathways and enable you to progress from selected TAFE courses to Deakin degrees. If you are taking a guaranteed entry pathway you will be guaranteed a place at Deakin following successful completion of your TAFE course. You may also benefit from up to 24 months’ credit towards your Deakin degree.

Pathways through other institutions
If you are currently studying at another university and wish to transfer to Deakin to finish your degree, you can apply for Credit for Prior Learning. All university and private education provider qualifications are considered for this, even if the qualification is in an area unrelated to what you want to study at Deakin.

Transfer between Deakin degrees and campuses
Many Deakin degrees are offered at more than one of our campuses, and the same high-quality degree is delivered no matter which campus you study at. Transfers may be possible following completion of your first year of study at Deakin (subject to availability and meeting academic criteria).

* Credit for prior learning is assessed on a case-by-case basis, and is subject to the applicant’s previous provider and the applicant’s eligibility to meet the entry requirements of the Deakin degree. Visit deakin.edu.au/int-cpl to learn more.
Deakin College

Worried that you won’t qualify for study at Deakin University? Deakin College is the perfect pathway to gain entry into a Deakin University degree.

Deakin College

Deakin College is a direct pathway to Deakin University. It provides an excellent avenue for students who do not yet meet the admission requirements for Deakin University programs. Deakin College and Deakin University work closely to support students and develop high-quality programs. More than 15,000 students have gone through the Deakin College pathway to begin a Deakin University degree.

Deakin College offers diplomas in the areas of commerce, computing, engineering, health sciences, management, media and communications, and science, as well as a Foundation Studies Program (equal to Australian Year 12 graduation).

Diplomas at Deakin College are equivalent to the first year of a Deakin University undergraduate degree, and may provide entry into the second year of the relevant Deakin University bachelor’s degree.

Location

Located at Deakin University’s Melbourne Burwood, Geelong Waterfront and Geelong Waurn Ponds campuses, Deakin College students have full access to Deakin University’s facilities and services, and can get involved in university life while undertaking a Deakin College diploma.

Deakin College advantages

Starting with Deakin College offers a number of advantages, including:

- fast-tracking your studies
- three trimesters per year in March, June and November
- entry into the second year of a Deakin University degree
- small group teaching and individual attention
- academic and welfare support services.

For more course information and entry requirements for Deakin College, visit deakincollege.edu.au.

Who should apply?

Deakin College programs are aimed at students who do not meet Deakin University’s academic entry requirements.

Program structure

Each program consists of eight academic units, which you must complete and pass to receive a diploma or Foundation Studies award. Most units have four contact hours per week. Assessment for all units is ongoing and continuous, and includes tests, assignments and case study analysis.

Accreditation

Deakin College diploma programs are accredited by the Tertiary Education Quality and Standards Agency (TEQSA).
If you meet the academic requirements to study at Deakin, you can still apply even if your English does not meet our requirements. Qualified students who need help with their English will receive a conditional offer that allows you to study at the Deakin University English Language Institute (DUELI). If you successfully complete the necessary English language programs at DUELI, you will gain direct entry to your course at Deakin. You can learn more about DUELI on pages 19 – 20.

**NOTE:** The information presented is current at the time of printing. For the most-up-to-date information about English language requirements, visit [deakin.edu.au/int-english](http://deakin.edu.au/int-english).

IELTS: International English Language Testing System (Academic Module)
TOEFL: Test of English as a Foreign Language (PBT: Paper Based Test) (iBT: Internet Based Test)
CPE: Cambridge English: Proficiency (formerly known as Certificate of Proficiency in English)
CAE: Cambridge English (Advanced)
PTE: Pearson’s Test of English (Academic)
OET: Occupational English Test
DUELI EAP: Deakin University English Language Institute English for Academic Purposes program
Deakin English

Do you need help meeting Deakin’s English language requirements? Or do you want to improve your English and study skills before starting your degree? Deakin University English Language Institute (DUELI) can help you improve your English and prepare you for study at Deakin.

**Meet Deakin’s English requirements**

DUELI can help you meet the English language requirements for your Deakin University degree. Successful completion of DUELI’s English for Academic Purposes (EAP) pathway programs can provide you with entry into most degrees at Deakin University and Deakin College. DUELI also has specialised English programs for Nursing and Teaching that provide entry into undergraduate study at Deakin.

**The DUELI advantage**

DUELI is recognised as one of the best English language centres in Australia. As part of Deakin, DUELI will do more than improve your English: it will give you the chance to improve your study skills and become familiar with studying at an Australian university. Courses start every five weeks.

**DUELI is part of Deakin University**

DUELI is more than an English language centre; it is part of Deakin University. As a DUELI student you will have access to all of Deakin’s facilities and services, including libraries, health services, cafes and restaurants, and sport facilities.

- Entry into most Deakin College diploma programs
- Entry into Deakin College Foundation Study programs
What can you study?

English for Academic Purposes (EAP) [B] [WF]
EAP programs prepare students for university studies in Australia. You can meet Deakin’s English language requirements for most undergraduate courses by successfully completing the EAP 3 program. For most Health Faculty courses you can meet the English language requirements by successfully completing EAP 4.

General English (GE) [B] [WF]
GE programs offer students at all levels the chance to use English confidently and correctly. GE programs can prepare beginner English speakers for the EAP program.

English for Nursing [B] [WF]
English requirements are generally higher for Nursing programs than for other degrees. The five-week English for Nursing program is an intensive English program for advanced students. You can meet the English language requirements for the Bachelor of Nursing by successfully completing the English for Nursing program.

Entry requirements:
- IELTS score of 6.5 (no band lower than 6.5), or
- Completion of EAP 4 with an overall score of 65 per cent.

English for Teaching [B]
English requirements are generally higher for teaching programs at Deakin. The five-week English for Teaching program is an intensive English program for advanced students. You can meet the English language requirements for education courses by successfully completing the English for Teaching program.

Entry requirements:
- IELTS score of 7 (no band lower than 7), or
- Completion of EAP 4 with an overall score of 70 per cent.

IELTS Preparation [B]
This is a special five-week IELTS preparation program at Deakin’s official IELTS Test Centre. The program has been designed to equip students with the knowledge and skills to succeed in an IELTS exam.

Entry requirements:
- Minimum IELTS score of 5.5 or equivalent.

Intensive Academic Preparation (IAP) [B]
The IAP program is a five-week program for high-level students with IELTS scores of 6.5 or above. The IAP program is designed develop the writing, reading, listening and speaking skills needed to achieve success at university. This is a high-level course for students who wish to excel in their degree, and for Australia Award scholarship students.

Accreditation
DUELI is accredited by the Tertiary Education Quality and Standards Agency (TEQSA) and is a member of English Australia, NEAS and University English Language Centres of Australia (UECA).
How to apply

Below is a step-by-step process of how to apply to study with us at Deakin. Application processes and requirements differ slightly depending on your chosen degree, as well as your country of residence and entry pathway.

1. Find your course
   Using the course pages of this Guide, choose the degree you wish to study. You can apply to Deakin at any time throughout the year, and Deakin’s international admissions team is always ready to quickly process applications and assist with any questions you may have.

2. Understand the entry requirements
   Entry requirements for each Deakin degree differ, and also depend on your country of residence. For a full list of Deakin undergraduate degrees and their entry requirements, see page 9 of this Guide. It is important that you understand the entry requirements for your degree before you submit your application to Deakin.

3. Understand the English language requirements
   All applicants need to meet Deakin’s English language requirements – to the level necessary for their course. Minimum International English Language Testing System (IELTS) scores are included in the course information of this Guide. To find out more about Deakin English language requirements, see page 17 of this Guide.

4. Gather supporting documents
   When you apply to study at Deakin, it is important to attach all requested supporting documentation, otherwise your application could be delayed or rejected. Remember, most documents need to be certified before you upload them so give yourself plenty of time to get organised. Certified copies include: award certificates, academic transcripts and formal identity papers (e.g. your passport). Documents in languages other than English will need to be translated. If you are applying for a scholarship, please also check the specific supporting documents for that scholarship.

5. Certify your documents
   Most documents need to be certified before you upload them. Certified copies of documents are photocopies that have been sighted along with the original document by an authorised person. Visit deakin.edu.au/int-apply to see how you can certify your documents and who they can be certified by. Deakin does not accept documents that have been electronically certified. Documents submitted by mail will not be returned, so do not send originals unless asked by Admissions.

6. Submit your application
   You can submit your application to study at Deakin using a variety of methods:
   - Email: You can download an interactive pdf application form from the Deakin website. Complete this form on your computer or smart phone by entering your details into the interactive spaces. After completing the relevant form you can email your application to Deakin. The email address can be found on the form.
   - Through a representative: You can submit your application through one of Deakin’s experienced representatives. Find a Deakin representative in your country at deakin.edu.au/int-reps.
   - Applying online: Using Deakin’s online application process is quick and easy. After submitting your application online, you will be asked to provide certified documentation.
Cost of living

Beyond tuition fees, there are a number of other costs that you need to consider before you apply to study at Deakin. Below is some indicative information for living and studying in Australia, as well as Deakin scholarships which could help support you while you study.

The Australian Government provides average living cost estimations for international students living and studying in the Australian State of Victoria. Costs vary depending on where you live, for example living in Melbourne is slightly more expensive than living in Warrnambool. For more information about living costs visit studyinaustralia.gov.au.

Accommodation

<table>
<thead>
<tr>
<th>Type</th>

<td>$80 to $150 per week</td>
</tr>
</tbody>
</table>

Minimum cost of living

The Department of Home Affairs has financial requirements you must meet in order to receive a student visa for Australia. From 1 February 2018 the 12-month living cost is:

<table>
<thead>
<tr>
<th>Category</th>
<th>Cost</th>
</tr>
</thead>
<tbody>
<tr>
<td>You</td>
<td>$20,290 per year</td>
</tr>
<tr>
<td>Partner or spouse</td>
<td>$7,100 per year</td>
</tr>
<tr>
<td>Child</td>
<td>$3,040 per year</td>
</tr>
</tbody>
</table>

All costs are in Australian dollars.

* On-campus estimated cost is for Deakin’s Melbourne Burwood Campus and includes amenities, such as electricity, gas and internet.
On-campus accommodation costs for the Geelong and Warrnambool campuses are lower.

Overseas Student Health Cover

In addition to tuition fees, all on-campus international students are required to pay Overseas Student Health Cover (OSHC). OSHC service providers offer reduced rates for students who pay upfront for health coverage for the entire length of their visa. The amount payable will be included in your Offer Letter.

Scholarships

At Deakin, we believe everyone should have the option of going to university. There are scholarships available to international students through Deakin and through other parties, including the Australian Government.

Deakin has recently introduced two new scholarships for international students:

- **Deakin Vice-Chancellor’s International Scholarship** offers a 100% or 50% tuition fee reduction for the normal duration of your course, acceptance into Deakin’s signature leadership program, and priority place in on-campus accommodation (at own cost and subject to availability).
- **Deakin International Scholarship** offers 25% tuition fee reduction for the normal duration of your course.

Both scholarships recognise high-achieving students with consistently high academic performance who have the potential to make a leading contribution to the University and its communities.

For a full list of scholarship opportunities open to international students, and information on how to apply, visit deakin.edu.au/int-scholarships.
The rest of this guide will explore the undergraduate degrees that Deakin has to offer. Discover the entry requirements for our degrees and learn about our state-of-the-art facilities, work experience opportunities, accreditation and much more.

To begin, find the study area or degree that you are interested in by searching the tables over the next few pages. There you will find a page number for your chosen course. Go to that page to find more detailed information about your degree.

 Below is a key reference of icons and language used throughout this guide. You will find this valuable when exploring the course pages.

IELTS scores
Example: 6.5/6
IELTS is the International English Language Testing System. The numbers reflect the minimum overall score required as well as the lowest score allowed for any band (overall score/lowest band score). Deakin also accepts the results of other English language tests. For more about English language requirements see page 15.

Course fees
Example: $30 800
The annual course fee indicates the tuition fee for two trimesters of full-time study, or 8 credit points, unless otherwise indicated. Additional fees may apply and course fees may be subject to change.

For more information about fees visit deakin.edu.au/int-fees.

Combined degrees
Example: Bachelor of Arts/Bachelor of Commerce
Combined degrees let you study two degrees at once and complete both sooner and more cheaply than if you did them separately. Deakin offers a wide range of combined degrees. By visiting a course page of interest in this Guide, you will find a list of associated combined degrees under the 'Related degrees' section.

For more information on Deakin combined degrees, visit deakin.edu.au/international to complete a course search.

* The first two years are available at the Warrnambool Campus. The remaining course load can be taken by transferring to the Geelong Waterfront Campus or Cloud Campus.

* This intake available through the Cloud Campus only.

---

For full details of DEAKIN DEGREES and their qualifications, please refer to 26deakin.edu.au/international.
Explore the design of our physical environments, from residential and cultural to commercial and industrial. From day one you will gain experience from building models, studying professional architects’ projects and producing drawings and engaging in digital design.

**Bachelor of Design (Architecture)**

Immerse yourself in Deakin’s Bachelor of Design (Architecture) to learn about architectural ideas, innovative real-world projects and building science. This program offers a creative environment to challenge yourself in all aspects of work within the built environment, from design to construction and evaluation on a vast range of projects. From houses to major buildings, to designing and creating places and spaces. You will produce design concepts while being challenged to explore architectural history and philosophy, building science and the environment, construction technologies, computer-aided modelling, drawing, model making and digital fabrications. It engages with the rich and diverse discipline of architecture while developing your skills to create meaningful, sustainable and stimulating built environments. As the undergraduate portion of an accredited program, the Bachelor of Design (Architecture) is the ideal foundation for further study. And, a folio is not required as part of our admissions process for the Bachelor of Design (Architecture).

**Professional recognition**

When followed by successful completion of the Master of Architecture, this program is accredited by the Board of Architects Malaysia (Lembaga Arkitek Malaysia) and (within Australia) by the Australian Institute of Architects, the Architects Registration Board of Victoria (ARBV) and the Architects Accreditation Council of Australia (AACA).

**Innovative teaching and facilities**

The School of Architecture and Built Environment has undergone major refurbishment, resulting in an inspiring learning space. The a+b studio and workshop provides students, academics and researchers with a place to fabricate models, encouraging experimentation with technology, materials and processes. This interdisciplinary space provides access to a variety of digital and analogue tools, with open plan studio design facilitating collaboration on projects.

**Highly ranked**

Deakin is ranked in the Top 150 universities in the world for its architecture and built environment courses, based on the 2018 QS World University Rankings. These are informed by academic and employer perspectives, as well as research impact.

**Further study opportunities**

Students who complete Deakin’s combined Bachelor of Design (Architecture)/Bachelor of Construction Management (Honours) degree will have the opportunity to further their qualification with Deakin’s Master of Architecture (Design Management). Offered at the Geelong Waterfront Campus, the Master of Architecture (Design Management) will allow you to develop your skills and knowledge in architectural design research, urban ecologies and other aspects expected in modern architectural professional practice. You will also undertake advanced studies in cultural, technological, design, environmental and theoretical knowledge, plus you will study the ethical, evaluative and research frameworks which underpin the architecture field.

Visit [deakin.edu.au/int-architecture/combined-degree](http://deakin.edu.au/int-architecture/combined-degree) to learn more.

**Related degrees**

Bachelor of Design (Architecture)/Bachelor of Construction Management (Honours)
Bachelor of Construction Management (Honours)

Learn about the effective procurement of built facilities and the growing imperative for sustainable development. Our construction management courses are a mix of hands-on practice and theory, with integrated studies in technology and building management.

Bachelor of Construction Management (Honours)

Get a professionally-recognised qualification that gives you knowledge of technology and current building management practices. Whether large or small, domestic or commercial, building projects require a manager with a solid overview of what is involved to make it all happen. Through the Bachelor of Construction Management (Honours) you will get an excellent understanding of building economics and law, project management, building technology, measurement and estimating, quantity surveying and building practice.

Professional recognition

As a graduate of this professionally-accredited program, your qualifications will be recognised for practice in more than 50 countries, providing a global passport for work in this field in Australia and overseas. The degree is accredited by the:

- Australian Institute of Building (AIB)
- Australian Institute of Quantity Surveyors (AIQS)
- Chartered Institute of Building (CIOB)
- Royal Institution of Chartered Surveyors (RICS).

Working together

Deakin construction management students work closely with our architecture students. The insight into each other’s work is invaluable when you graduate and begin to communicate and work together on real-world projects.

Course information

Course code: S346
Years (full time): 4
Campus: WF
Intake: T1 (March), T2 (July)
2019 annual fee: $30,200
IELTS score: 6.0

Structure

This course comprises 32 credit points, including:
- 28 core units (totalling 29 credit points)
- 3 elective units.

* Students have the opportunity to complete this course in three years of full-time study by undertaking units in Trimester 3.

Careers

Potential roles include: construction manager, estimator, quantity surveyor in a building company or sub-contracting organisation. Opportunities also exist in the property and maintenance divisions of companies that are responsible for large property portfolios.

Professional recognition
The degree has received professional accreditation by the Australian Property Institute and the Royal Institution of Chartered Surveyors. Graduates meet the academic requirements for membership as a Certified Practising Valuer.
Bachelor of Communication (Advertising)

Advertising at Deakin will prepare you for the challenges and excitement of developing incisive brand communication for the digital era. Explore the industry’s strategic planning and creative aspects to succeed in advertising agency and emerging brand communication roles.

Course information

Course code: A334
Years (full time): 3
Campus: B, C
Intake: T1 (March), T2 (July), T3 (November)
2019 annual fee: $29 000
IELTS score: 6/6

Structure

This course comprises 24 credit points, including:
- 18 core units*
- 6 elective units
- 0-credit-point academic integrity unit.

Careers

Advertising students develop the skill needed for agency roles – including account management, media planning, research, copywriting and art direction – as well as in-house brand communication positions in the commercial, corporate, government and not-for-profit sectors.

Further study

Bachelor of Communication (Honours)

Gain industry-relevant experience

Theory meets practice from the first year of your degree onwards. You will be taken into the fascinating and complex world of brand communication with an innovative series of practical experiences, such as our 2Day Advertising challenge.

The 2Day Advertising Challenge involves students visiting a local advertising agency to learn how to create an ad. They work with professionals to learn the processes involved in creating the advertisements we see across many different channels.

Bachelor of Communication (Advertising)

Advertising at Deakin takes you into the fast-paced and constantly evolving world of brand communication. This degree’s emphasis is on bringing practitioners into learning experiences and setting real-world projects to provide you with the edge you need to establish a stimulating career.

Undertake study in complementary fields of practice, such as design, digital media, film and television, public relations, journalism and marketing, to further broaden your skills base. This approach allows graduates – armed with a comprehensive portfolio of strategic planning, content marketing and creative work – to seek employment in a range of traditional and emerging advertising roles.

A globally-recognised degree

The International Advertising Association has accredited Deakin’s Bachelor of Communication (Advertising). This achievement highlights the degree as a world-class qualification that is focused on inspiring the next generation of strategic and creative thinkers.
Bachelor of Communication (Digital Media)

Develop the skills and knowledge required to adapt to shifting communication climates within the broad field of digital media and cultural industries, incorporating film, television, digital media, marketing and advertising, and many other areas.

**Bachelor of Communication (Digital Media)**

Undertake an in-depth exploration of themes like social media and surveillance, advertising and consumerism, media genre and representation, issues of piracy and censorship, celebrity, and media industry processes of planning and production, among many other workplace-relevant areas. Learn other skills as well – double up on your specialisation, or add from our exciting creative options in TV production, design, creative writing and more.

**Course Information**

Course code: A333
Years (full time): 3
Campus: B WP C
Intake: T1 (March), T2 (July), T3 (November)*
2019 annual fee: $29 000
IELTS score: 6/6

**Structure**

This course comprises 24 credit points, including:
- 18 core units
- 6 elective units
- 0-credit-point academic integrity unit.

**Careers**

Our innovative cross-disciplinary approach to learning equips digital media graduates with the skills required to gain employment in a wide range of industries. Our graduates have gone on to work in the education sector, the entertainment industry, advertising and marketing consultancies, multimedia businesses, newspaper and magazine publishers, public relations agencies, and radio and television companies.

**Further study**

Bachelor of Communication (Honours)

*This intake available at Melbourne Burwood Campus and Cloud Campus only.

* Including 7 credit points of core option units which you can choose from a specialised list of design, journalism, public relations and digital media units.
Bachelor of Communication
(Journalism)

Learn how to identify, research, plan and produce newsworthy stories suitable for print, broadcast and online media. Develop your knowledge while gaining practical experience learned from experienced journalism professionals.

Bachelor of Communication (Journalism)

Develop your knowledge in communication and media and the analytical skills necessary for reporting events in context. Our course structure, content and assessments are designed to support the development of your professional skills. From day one, you will have the opportunity to research, write, edit and publish news and feature stories with the aim to prepare you for the challenges of the 21st century. In the final year of your degree, you will undertake a program of intensive news production in a digital newsroom, ensuring you graduate with the skills necessary to work effectively in contemporary digital workplaces.

Course information

Course code: A331
Years (full time): 3
Campus: B WP C
Intake: T1 (March), T2 (July), T3 (November)
2019 annual fee: $29 000
IELTS score: 6/6

Structure

This course comprises 24 credit points, including:
• 18 core units
• 6 elective units
• 0-credit-point academic integrity unit.

Careers

The news and media industries are dynamic, providing new opportunities for graduates with high-level journalism skills and knowledge. This degree will prepare you for employment in the communications industries, across all media platforms, whether working for large news organisations, allied media businesses, or freelancing.

Further study

Bachelor of Communication (Honours)

1 This intake available at Melbourne Burwood and Cloud campuses only.
2 Including 7 credit points of core option units which you can choose from a specialised list of design, journalism, public relations and digital media units.

A new home for new media

The Melbourne Burwood Campus is now home to a newsroom and creative media lab, with communication and creative arts students able to learn and refine their skills in an industry-standard media environment.

The lab includes:
• a green-screen studio that is linked to the newsroom and other creative production suites, enabling production of video content
• a collaborative news production area with an editorial hub, including workstations and monitors to stream live TV news channels
• editing booths for audio and audiovisual editing, and to conduct recorded interviews in acoustically quiet spaces
• a creative media lab and workspace for the production of physical media
• shared computer spaces for students to work together on a single digital production
• creative spaces for collaborative learning and team projects.

deakin.edu.au/int-comms
Bachelor of Communication (Public Relations)

Public relations involves the management of communication between people, agencies and the public. Design and implement inspiring campaigns, contribute to the management of organisations, conduct appropriate research and capture the attention of others with innovative communication.

Bachelor of Communication (Honours)

* This intake available at Melbourne Burwood Campus and Cloud Campus only.

Bachelor of Communication (Public Relations)

If you have an interest in social media, want to capitalise on your creative potential, or make use of your flair for communication, consider Deakin’s Bachelor of Communication (Public Relations). This dynamic course prepares you with the professional skills, techniques and knowledge necessary to implement communication strategies and tactics with ethics and integrity. Explore communication research techniques, organisational planning, problem analysis, strategy development, creation of communication tactics, and the evaluation of effective communication.

Professionally recognised
Professional accreditation by the Public Relations Institute of Australia (PRIA) means your degree is recognised in industry, resulting in better job outcomes.
Explore a dynamic combination of acting theory and practice, and immerse yourself in different performance styles and processes, theatre history, text studies, community theatre, and technical skill development.

**Bachelor of Creative Arts (Drama)**

Led by a team of passionate drama practitioners with years of invaluable industry experience, you will develop skills in acting, improvisation, performance and voice technique. Through a dynamic combination of acting theory and practice, you will gain the academic foundation necessary for understanding the arts, and the inspiration for creating new forms of art. You will also have the opportunity to work on individual and group creative projects to develop your skills in ensemble creation and production management.

**Course information**

Course code: A357  
Years (full time): 3  
Campus: B  
Intake: T1 (March), T2 (July)  
2019 annual fee: $30 800  
IELTS score: 6/6

**Structure**

This course comprises 24 credit points, including:

- 18 core units
- 6 elective units
- 0-credit-point academic integrity unit.

**Careers**

Our drama graduates are equipped with the skills required to enter the expanding arts and entertainment industries, including in live theatre, film and television, drama education, contemporary performance companies, and in performing arts centres and community theatre.

**Further study**

Bachelor of Creative Arts (Honours)

**Purpose-built facilities**

We have three purpose-built performance studios so you can produce public performances at a professional standard. You can explore stage design, lighting, sound, production, stage management, publicity and marketing.
Bachelor of Creative Arts (Photography)

Develop your artistic, academic or professional photography aspirations through critical and creative practice. You will explore both digital and analogue formats to build technical proficiency and visual literacy, with an emphasis on high-quality output.

Bachelor of Creative Arts (Photography)

With access to professionally-equipped facilities, develop skills in chemical and digital imaging in diverse photographic formats, portfolio creation, project management, visual communication, experimental practices, exhibition and online collaboration. Experiment, research and develop your own conceptual and aesthetic sensibilities in order to gain knowledge of the tools required for work as a professional photographer. You will also critically engage with the discipline to grasp the crucial place of the medium in visual culture today, and in history.

Real-world experiences

Professional practitioner presentations are a regular feature within the program. You will also undertake fieldwork and industry visits, as well as exhibitions of your own works. Deakin’s Work Integrated Learning team is available to assist you with obtaining a variety of work placement internships throughout your degree.

Course information

Course code: A352
Years (full time): 3
Campus: BWF
Intake: T1 (March), T2 (July), T3 (November)
2019 annual fee: $30,800
IELTS score: 6/6

Structure

This course comprises 24 credit points, including:
- 18 core units
- 6 elective units
- 0-credit-point academic integrity unit.

Careers

Photography students can enter industry in a wide range of creative and commercial settings. Career opportunities exist in the media, arts, art production, tourism, cultural and entertainment industries. You may also choose to combine your degree with education studies and become qualified to teach photography.

Further study

Bachelor of Creative Arts (Honours)

* This intake available at Melbourne Burwood Campus only.
Bachelor of Creative Arts (Visual Arts)

Develop your skills as a contemporary art practitioner to engage critically and creatively with the world through new and traditional media.

Course information
Course code: A359
Years (full time): 3
Campus: B WF
Intake: T1 (March), T2 (July), T3 (November)
2019 annual fee: $30 800
IELTS score: 6/6

Structure
This course comprises 24 credit points, including:
• 18 core units
• 6 elective units
• 0-credit-point academic integrity unit.

Careers
Many of our graduates have gone on to work within arts and cultural communities or have developed an independent studio career working towards exhibitions in commercial galleries, publicly run arts spaces, and experimental, collaborative and interdisciplinary exchanges. Combining your art specialisation with teaching studies can also qualify you to teach visual arts in schools and other educational settings.

Further study
Bachelor of Creative Arts (Honours)

Bachelor of Creative Arts (Visual Arts)
Developing skills in critical thinking, collaboration, technique, visual analysis and experimentation are crucial to work as an artist, yet they are also fundamentally transferable skills highly relevant to a range of creative industry applications. Through lectures, workshops, tutorials, independent studio and optional international study tours, you will explore the exciting breadth of what it is to make adventurous art in the 21st century.

Engaging with industry
Our visual arts degree draws upon the expertise of our staff, who are active practitioners and leading researchers in their fields.
You will also have the opportunity to engage with the arts industry through visiting specialists and professionals. We offer professional placements in art institutions, with contemporary artists as well as major community and cultural events.

* Geelong Waterfront Campus students can take units of study at the Geelong Waurn Ponds Campus.
Bachelor of Creative Writing

Engage in practice ranging from narrative-driven works to experimental innovations, editing, creative nonfiction and script writing, as well as new takes on traditional genres of poetry, and short and extended fiction writing.

Bachelor of Creative Writing

Deakin’s Bachelor of Creative Writing provides a practice-based and theoretically strong preparation for professional writers working in specialised literary/publishing fields and industry, and for entrepreneurial contexts. Students engage in practice ranging from narrative-driven works to experimental innovations, editing, creative nonfiction and script writing, as well as new takes on traditional genres of poetry, and short and extended fiction writing. Collaboration, robust practice, professionalism and creative sustainability are emphasised at all levels, ensuring you hone skills necessary to work with interdisciplinary teams in writing, film, drama and new technologies.

At Deakin, we encourage you to identify and pursue opportunities for writing/editing in new media, including for our own international writing journal, Verandah.

Course information

Course code: A316
Years (full time): 3
Campus: B WP C
Intake: T1 (March), T2 (July), T3 (November)
2019 annual fee: $29 000
IELTS score: 6.5/6

Structure

This course comprises 24 credit points, including:
• 18 core units
• 6 elective units
• 0-credit-point academic integrity unit.

Careers

Studying creative writing opens up a world of possibilities. Our graduates have applied their skills in an array of settings, including in consumer goods and services companies, in freelance editing and writing, finance, health and manufacturing industries, government departments, media and entertainment industries, publishing companies, and tourism, hospitality and service industries.

Work experience opportunities

As a student of professional and creative writing, you can gain valuable work experience within an Australian company through our work placement program. This will give you the opportunity to broaden your skills, experiences and networks before graduation. You might undertake work placements at magazine and book publishing houses, as well as within broadcast and print media.

* This intake available at Melbourne Burwood Campus and Cloud Campus only.
Bachelor of Design (3D Animation)

Discover how motion design can be used as an engaging communication platform. Explore animation across a variety of platforms, including film, television, advertising, web, motion capture, game design, augmented reality (AR) and virtual reality (VR).

Course information

Course code: A343
Years (full time): 3
Campus: B
Intake: T1 (March), T2 (July)
2019 annual fee: $30,800
IELTS score: 6/6

Structure

This course comprises 24 credit points, including:

- 10 core units (totalling 11 credit points)
- 7 x 3D animation core units
- 6 elective units
- 0-credit-point academic integrity unit.

Careers

Graduate ready to work in motion design, animation, film, television and web design, motion capture performance or in augmented reality and virtual reality.

Cross-disciplinary learning

This degree provides you with the opportunity to collaborate with students across all design disciplines. Students are encouraged to explore complementary skills to maximise career options, including specialist design electives, visual arts, photography, media and marketing. This encourages innovation and ensures you graduate ready for a career as a well-rounded creative practitioner.

Student work: 3D Animation Into the Woods by A Dunkerley, P Billones and K Jorgensen.

deakin.edu.au/int-creative-arts
Bachelor of Design (Digital Technologies)

Combine design thinking and strategies with the technical skills required to delve into software design, user interface design, and design for augmented and virtual realities.

Course information
Course code: A344
Years (full time): 3
Campus: B
Intake: T1 (March), T2 (July)
2019 annual fee: $30,800
IELTS score: 6/6

Structure
This course comprises 24 credit points, including:
- 15 core units (totalling 16 credit points)
- 2 digital technology units
- 6 elective units
- 0-credit-point academic integrity unit.

Careers
Our graduates are open to many career opportunities in creative agencies, advertising and design studios, print houses and corporate companies. Digital Technologies graduates will have highly-technological skills relevant to UX design, app design and development, web design, digital design and immersive design which are highly sought after by employers.

Bachelor of Design (Digital Technologies)
Deakin’s Bachelor of Design (Digital Technologies) combines software design, immersive virtual reality and augmented reality experience design, mobile app design, web design and creative arts design skills to support employment outcomes that differ from those of traditional IT or creative arts degrees. This intersection of technical and artistic skills offers graduates opportunities to extend their design skills into the application of technological products that will address pressing creative and social issues in today’s society. Work on real projects with real briefs, ensuring you develop a strong portfolio of work throughout your studies. Explore technological entrepreneurship and innovation, and specialise in an area that interests you most.

Collaborative exhibition
Final year design students come together in a dynamic, cross-discipline collaborative project, working with non-profit clients to deliver on real briefs and, in some cases, assist with brand development, culminating in a final exhibition of work. This experience ensures our design students experience the industry before they graduate.
Bachelor of Design (Visual Communication)

Explore a dynamic combination of contemporary design thinking methodology, traditional skills in typography, branding and print design, alongside specialised skills in user experience, IT knowledge and interdisciplinary practices.

Course information
Course code: A345
Years (full time): 3
Campus: B WF
Intake: T1 (March), T2 (July), T3 (November)
2019 annual fee: $30 800
IELTS score: 6/6

Structure
This course comprises 24 credit points, including:
- 10 core units (totalling 11 credit points)
- 8 visual communication units
- 6 elective units
- 0-credit-point academic integrity unit.

Careers
Our graduates are open to many career opportunities, including in the areas of advertising, graphic design studios, print houses, publishers, corporate companies who host in-house design services, government and private practices.

Bachelor of Design (Visual Communication)
The design industry is changing rapidly, as is the profession of communication design. Deakin’s Bachelor of Design (Visual Communication) addresses this shift through a fresh and exciting degree focusing on all facets of communication design. From day one you are introduced to the professional design world, learning and creating in an array of state-of-the-art facilities with industry leaders. We encourage our students to shape their ideas into practical and attractive propositions for users, customers and society as a whole. All students remain connected to industry throughout the program, with the opportunity to take part in regular exhibitions and showcases, including a final year exhibition. In your final year, you will also take part in a collaborative industry project ensuring you graduate with the knowledge and skills for a successful creative career.

* This intake available at the Melbourne Burwood Campus only.
Bachelor of Film, Television and Animation

Explore the professional technologies, creative practices and insightful theories of screen production within a dynamic setting that is strongly linked to the creative arts and communication industry.

Bachelor of Film, Television and Animation

From documentary and short narrative fiction, to more experimental productions, this course allows you to discover and develop your knowledge through exposure to a number of production and post-production roles and practices. Develop your own specialist skill set within the broad and dynamic fields of screen production and screen culture. You will explore studio and location production, film analysis, team and project management, visual language, digital cinematography, animation for screen, editing, sound design, high definition broadcast TV studio production, scriptwriting, short film making and the business of freelance work.

Animation

Learn the art of storytelling in 2D and access Deakin’s 3D animation program. Develop clever and creative ways of manipulating and animating images. Gain a broad understanding of moving image, graphic and animation practice, allowing you to develop your own unique future specialisation.

Film and television

Explore the professional technologies, creative practices and insightful theories of screen production within a dynamic setting strongly linked to the creative arts and communication industry. Learn the skills to create every aspect of a variety of genres, from documentary to short film. You will study scriptwriting and editing through to sound design and cinematography. Being a multi-disciplinary creative form, you can tailor your skills and branch out into other areas.

Course information

Course code: A351
Years (full time): 3
Campus: B
Intake: T1 (March), T2 (July), T3 (November)
2019 annual fee: $30,800
IELTS score: 6/6

Structure

This course comprises 24 credit points, including:
• 18 core units
• 6 elective units
• 0-credit-point academic integrity unit.

Careers

Graduate with a broad range of specialist skills preparing you for the changing opportunities and challenges of the media and creative industries. You may find a career in fictional and factual production for cinema and television, or work as a member in the camera, lighting, sound, design and effects or editing departments within the corporate, educational and advertising sectors. Students with an interest in animation may work as animators in the arts and digital content industries, including the animation, film, television and games design sectors, and as independent professional creative practitioners.
Bachelor of Education (Early Years)

Gain a dual accredited degree that provides employment options in early childhood, preschool and primary school settings. Deakin’s early childhood program offers extensive professional experience and the opportunity to specialise in a range of discipline areas.

**Bachelor of Education (Early Years)**

Deakin’s Bachelor of Education (Early Years) allows students to gain hands-on experience within early childhood and primary education. Studies focus on contemporary issues in children’s learning and development, curriculum theories and pedagogies, discipline knowledge, and the changing work context within early childhood and primary education. Students apply their learning in professional contexts, gaining experience and confidence as pre-service teachers in early childhood, preschool and primary school settings. Meeting new national teaching, education and care standards in early childhood and primary education, this course prepares students for diverse learning contexts in the 21st century.

**Specialisations**

- Promoting equity, social justice and inclusivity
- Arts education
- Aboriginal knowledge and experiences
- Science
- Language and literacy

**Professional experience**

This degree includes 115 days of supervised professional experience. This allows you to experience teaching before you graduate and enables you to become prepared for the many different scenarios the classroom can offer. A current Working with Children Check is required before commencing early childhood/school experience placements.

**Professional recognition**

This program is approved by the Australian Children’s Education and Care Quality Authority (ACECQA) as an early childhood teaching qualification in Australia; and is accredited by the Victorian Institute of Teaching (VIT) as an initial teacher education program against the Australian professional standards for teachers. This course will prepare you to meet all requirements to register with VIT.

**Course Information**

- Course code: E330
- Years (full time): 4
- Campus: B
- Intake: T1 (March), T3 (November)*
- 2019 annual fee: $28,000
- IELTS score: 7/6.5

**Structure**

This course comprises 32 credit points, including:

- 29 core units
- 3 specialisation units
- 0-credit-point academic integrity unit.

**Careers**

Graduates of this degree will have varied career opportunities, including working as an early childhood teacher, service director, coordinator, preschool field officer, adviser or senior adviser within early childhood facilities. In addition, graduates can be employed as primary school teachers or seek employment in government agencies, community services and not-for-profit organisations.

* Offered to Diploma of Early Childhood Education holders only.

---

Education and teaching ranked 30 in the world

Deakin is ranked in the Top 30 universities in the world for its education courses, based on the 2018 QS World University Rankings by subject, which are informed by academic and employer reputation, as well as research impact.
Bachelor of Education (Primary)

This program focuses on initial professional studies in primary education, and qualifies you to teach up to Year 8. You will be equipped to teach young people the knowledge, skills, understandings and values to enable them to make sense of, and contribute to, the world.

Professional recognition

Deakin’s Bachelor of Education (Primary) is accredited with the Victorian Institute of Teaching (VIT) as a nationally accredited course for the purposes of teacher registration in Victoria. Graduates intending to apply for registration in Victoria should carefully check all requirements relating to this process specified at vit.vic.edu.au. The course is the only undergraduate teacher education program in Victoria to be accredited with the International Baccalaureate Organisation to offer a recognised pathway for teaching in the IB Primary Years Program. This course will prepare you to meet all requirements to register with VIT.

Specialisations

- Mathematics and numeracy
- Language and literacy
- Science
- Humanities
- The arts
- Special educational needs
- Health and physical education
- Languages

Course information

Course code: E359
Years (full time): 4
Campus: WP
Intake: T1 (March)
2019 annual fee: $28,000
IELTS score: 7/6.5

Structure

This course comprises 32 credit points, including:
- 26 core units
- 4 specialisation units
- 2 elective units
- 0-credit-point academic integrity unit.

Careers

There is a strong demand for qualified teachers, and graduate starting salaries for teachers are high compared to the graduate average. An increased demand for teachers has also resulted in improvements in teaching conditions, resources and career advancement opportunities. As a Deakin graduate, you may find employment as a teacher within the private or public education sectors. Opportunities also exist in government agencies, community services and not-for-profit organisations.

Professional experience

This course includes 80 days of supervised professional experience placements. You will also have the opportunity to undertake a work placement in international or remote Northern Territory settings through our Global Experience Program. A current Working with Children Check is required before commencing school experience.
Bachelor of Health and Physical Education

Learn to teach health and physical education in secondary schools. Working closely with school partners, we have developed the best learning experiences tailored to health and physical education for our student teachers, ensuring Deakin teacher graduates are highly sought-after.

Course Information
Course code: E377
Years (full time): 4
Campus: B WP
Intake: T1 (March)
2019 annual fee: $28 000
IELTS score: 7/6.5

Structure
This course comprises 32 credit points, including:
- 26 core units
- 2 zero-credit-point compulsory units
- 4 credit points of discipline study units in a third teaching method area
- 2 credit points of curriculum study units in the third teaching method area.

Students must also complete an Emergency First Aid Certificate (Level 2) and AUSTSWIM qualifications prior to graduation.

Careers
As a Deakin graduate you can pursue a range of rewarding career options at schools across Australia and overseas. You can also choose to move into areas such as sports management, recreation and fitness, community and government agencies, professional coaching positions, as well as into private academies and agencies.

Bachelor of Health and Physical Education
Prepare for a career in health and physical education with this unique course. Working closely with school partners, we have developed the best learning experiences tailored to health and physical education to ensure you gain hands-on practical teaching experience. You will explore areas including applied sports science, biomechanics, motor learning and development, exercise physiology, health and human development, nutrition and education. You will also discover the science and art of movement education and performance skills through mediums such as dance and gymnastics, and gain an understanding of basic anatomical and physiological language and terminology.

Professional recognition
Deakin’s Bachelor of Health and Physical Education has been approved by the Victorian Institute of Teaching (VIT) for the purposes of teacher registration in Victoria. Graduates intending to apply for registration in Victoria should carefully check all requirements relating to this process specified at vit.vic.edu.au. This course will prepare you to meet all requirements to register with VIT.

Professional experience
In all four years of the course, you will undertake professional work placement, first in primary, then in secondary school settings. This gives you the chance to apply your learning in a real-life teaching role in a supported manner. This course includes 80 days of supervised professional experience placements. A current Working with Children Check is required before commencing school experience.
Secondary teaching degrees at Deakin

Deakin’s unique combined secondary education degrees allow you to specialise in arts or science while gaining your secondary teaching qualification. You can specialise in various areas and learn to teach subjects from junior secondary to senior secondary school.

**Bachelor of Arts/Master of Teaching (Secondary)**

This combined degree prepares graduates with the attributes, discipline-specific knowledge and professional behaviours required to practice as a secondary school teacher, teaching from junior secondary to high school levels. Combine teaching and arts, and go on valuable school placements to help you discover your interests as a future teacher. The fast-tracked postgraduate level of study means that graduates are ready to teach after just four years.

**Course information**

Course code: D303

Years (full time): 4

Campus: B

Intake: T1 (March)

2019 annual fee: $28 000

IELTS score: 6/6

**Structure**

This course comprises 36 credit points, including:

- Bachelor level studies:
  - 2 arts major sequences (totalling 16 credit points)
  - 4 elective units
  - 4 core units.

- Postgraduate level studies:
  - 8 core teaching units
  - 4 curriculum study units
  - 2 zero-credit-point compulsory academic integrity units.

**Major sequences**

- Anthropology
- Arabic
- Children’s literature
- Chinese
- Drama
- History
- Indonesian
- Literary studies
- Media studies
- Philosophy
- Photography
- Politics and policy studies
- Sociology
- Spanish
- Visual arts

**Bachelor of Science/Master of Teaching (Secondary)**

This degree combines a postgraduate teaching qualification with undergraduate discipline studies in the sciences relevant for teaching. It prepares graduates with the attributes, discipline-specific knowledge, professional behaviours and standards required to practice as a secondary school teacher in Australia, teaching from junior secondary to senior secondary levels. The fast-tracked postgraduate level of study allows for some units to be undertaken in Trimester 3 so that graduates are ready to teach after just four years.

**Course information**

Course code: D304

Years (full time): 4

Campus: B

Intake: T1 (March)

2019 annual fee: $34 800

IELTS score: 6/6

**Structure**

This course comprises 36 credit points, including:

- Bachelor level studies:
  - 7 core science units
  - 2 chemistry/science units
  - 1 six-credit-point major sequence
  - 5 science major sequence units
  - 2 zero-credit-point compulsory units.

- Postgraduate level studies:
  - 8 core teaching units
  - 4 curriculum study units
  - 2 zero-credit-point academic integrity units.

**Major sequences**

- Biology
- Chemistry
- Environmental science
- Mathematics

Teaching specialist areas

Alongside core education studies, you will complete studies in two teaching specialist areas. Choose from:

- Biology
- Chemistry
- Environmental science
- Mathematics

* Trimester 3 in Year 3 is compulsory for this course.

**Professional recognition**

Our combined secondary education courses are accredited with the Victorian Institute of Teaching (VIT) as a nationally accredited course for the purposes of teacher registration in the Australian State of Victoria. Graduates intending to apply for registration in Victoria should carefully check all requirements relating to this process specified at vit.vic.edu.au. These courses will prepare you to meet all requirements to register with VIT.

**Professional experience**

Deakin’s aim is for graduates to be professional educators who can demonstrate that they are classroom-ready and able to make a difference to students’ learning. You will also be supported in your learning through Deakin’s Professional Experience Program. These courses include 60 days of supervised professional experience placements. A current Working with Children Check is required before commencing school experience.

**Careers**

Graduates of both of these degrees may find careers in Australian and overseas secondary schools, government departments, the public service, TAFE and adult community education institutions, health and welfare organisations, as well as in private academies and agencies. Bachelor of Arts/Master of Teaching (Secondary) graduates have the opportunity to work in arts-related areas, such as youth work, community development programs, and government departments. Bachelor of Science/Master of Teaching (Secondary) graduates have opportunities to work in science-related areas, such as science writing and interpretation; in public-sector positions such as with conservation groups; and in other research positions in a variety of organisations and government departments.
Bachelor of Civil Engineering (Honours)

Civil engineers are responsible for the planning, design, construction and project management of buildings and roads; airports and railways; water resources management; water supply and sewerage systems; and other infrastructure systems.

Course Information
Course code: S460
Years (full time): 4
Campus: WP
Intake: T1 (March), T2 (July)
2019 annual fee: $33,600
IELTS score: 6/6

Structure
This course comprises 32 credit points, including:
- 31 core units
- 1 elective unit.

Careers
Employers seek out Deakin graduates for their forward thinking, innovative and entrepreneurial qualities. As a civil engineering graduate, you can gain employment with government bodies and departments, consulting firms, water authorities and public works.

Related degrees
Bachelor of Design (Architecture)/Bachelor of Construction Management (Honours)

Work experience
Professional Engineering Practice is a compulsory unit in all Deakin engineering degrees. This means you will have a minimum of 60 days of work experience in one or more organisations, giving you insight into your future career options. You will also study a range of project-oriented, design-based learning and project-based learning units, bringing together theory, site studies and laboratory investigations, including Water Engineering Design and Geotechnical Investigation and Design, for example.

Professional recognition
The Bachelor of Civil Engineering (Honours) is accredited by Engineers Australia. This accreditation ensures our degrees meet both national and international standards and gives them international recognition, meaning our graduates are able to practise as professional engineers in many countries around the world.
Bachelor of Electrical and Electronics Engineering (Honours)

Study design, construction, protection and project management of power generation, distribution, transmission, scheduling and usage, automation and control. Learn about renewable electrical power generation, smart distribution and power usage in different locations.

Course information
Course code: S461
Years (full time): 4
Campus: WP
Intake: T1 (March), T2 (July)
2019 annual fee: $33,600
IELTS score: 6/6

Structure
This course comprises 32 credit points, including:
- 31 core units
- 1 elective unit.

Careers
Extensive employment opportunities in design, production, technical and consulting roles within a range of industries, including renewable energy industries, power utilities, resources/mining, local government and public works.

World-class facilities
Engineering students at Deakin access world-class facilities located within the Centre for Advanced Design in Engineering Training (CADET) and the Institute for Frontier Materials (IFM). Having access to some of the best facilities in the Australian sector allows students to realise and validate their designs through combinations of computer simulation, prototyping, testing and manufacturing. The teaching-focused approach in CADET ensures that students have extensive access to state-of-the-art equipment, enabling them to gain practical experience and a deeper understanding of their use.

Professional recognition
This degree is accredited by Engineers Australia. This accreditation ensures our engineering course meets both national and international standards and gives our degrees international recognition, meaning our graduates are able to practise as professional engineers in many countries around the world.
Bachelor of Environmental Engineering (Honours)

Learn how to develop practical engineering applications to protect our environment. This rapidly growing field of expertise will make you a highly sought-after graduate for a range of areas, including energy, water, construction and waste management.

Bachelor of Environmental Engineering (Honours)

Develop knowledge across the environmental engineering discipline and the technical skills to develop sustainable engineering solutions to the challenges faced within this field. In particular, learn the fundamentals of environmental engineering and the natural and physical sciences involved in the discipline, including geography, chemistry, mathematics, environmental science and analysis, marine ecosystems, fluid mechanics, hydrology and hydraulics, waste management, environmental infrastructure, protection, planning and more.

Course information

Course code: S465
Years (full time): 4
Campus: WP
Intake: T1 (March), T2 (July)
2019 annual fee: $33,600
IELTS score: 6/6

Structure

This course comprises 32 credit points, including:
- 31 core units
- 1 engineering elective unit.

Careers

Graduates will be in high demand for employment with engineering firms, land developers, government agencies, consulting firms, and well prepared for careers that address global issues, such as climate change, environmental sustainability, waste disposal, recycling, public health, and air and water pollution.

Learn in the field

Participate in off-site activities that will give you hands-on, practical experience on projects similar to those tackled by professional engineers. You will also have an opportunity to undertake an international engineering study tour, engaging in project work overseas while gaining a global understanding of environmental engineering.
Bachelor of Mechanical Engineering (Honours)

Mechanical engineering is the application of science and technology to the design, production and operation of systems, mechanical devices and machinery. Mechanical engineers are involved with almost every design imaginable, including complex items like cars and aircraft.

**Course information**
- **Course code:** S462
- **Years (full time):** 4
- **Campus:** WP
- **Intake:** T1 (March), T2 (July)
- **2019 annual fee:** $33,600
- **IELTS score:** 6/6

**Structure**
This course comprises 32 credit points, including:
- 31 core units
- 1 elective unit.

**Careers**
Employment opportunities exist in design, production, technical and consulting roles within a range of industries, including high-tech manufacturing, automotive and resources/mining.

* Cloud Campus students will be required to participate in campus-based intensive activities each trimester at the Geelong Waurn Ponds Campus.

**Bachelor of Mechanical Engineering (Honours)**
The Bachelor of Mechanical Engineering (Honours) draws heavily on Deakin’s world-class research in automotive engineering and advanced materials/manufacturing; strong links with industry; and state-of-the-art facilities. The design-based approach undertaken during the degree allows you to apply fundamental theory in industry-relevant projects, combining project management and communication skills with advanced numerical simulation techniques, product realisation and testing.

During the program you will cover core mechanical disciplines, including machine design, thermo-fluids, structural design and industrial control while developing skills in project management, communication and financial management. You will also gain a solid understanding of product and process modelling, and how to design for sustainability. There will be opportunities to test your mechanical design and engineering skills in challenges, such as the Shell Eco Marathon and Warman international and national competitions.

**Professional recognition**
The Bachelor of Mechanical Engineering (Honours) is accredited by Engineers Australia. This accreditation ensures our engineering course meets both national and international standards and gives our degrees international recognition, meaning our graduates are able to practise as professional engineers in many countries around the world.

**Leading the way in engineering**
Deakin is ranked in the Top 200 universities in the world for mechanical engineering by QS World University Rankings by Subject 2018. Our engineering research is also ranked highly by Excellence in Research for Australia (ERA), a national research evaluation framework. ERA awarded Deakin a ranking of 4 (classed above world standard) for Mechanical Engineering, highlighting Deakin’s strength in engineering-related research. Our research excellence helps to inform our teaching curriculum to ensure undergraduate students are aware of the developments that will shape the engineering industries of the future.

**Join the peer support program**
The Faculty of Science, Engineering and Built Environment offers a Peer Support Program as part of its commitment to providing new students with the best possible transition into university life. By joining the program, first-year students receive support and guidance from more senior students in their course, helping them to become familiar with the support services and facilities available, while gaining useful tips about studying at Deakin.
Bachelor of Mechatronics Engineering (Honours)

Mechatronics teaches you how to integrate electronic devices with mechanical design and information technology. These principles help you to design and build many real-world applications, such as automated processes, surgical robots or even self-driving cars.

Course information
Course code: S463
Years (full time): 4
Campus: WP
Intake: T1 (March), T2 (July)
2019 annual fee: $33 600
IELTS score: 6/6

Structure
This course comprises 32 credit points, including:
- 30 core units
- 2 elective units.

Careers
Employment opportunities as a mechatronics engineer are diverse. They include roles in industrial automation and electronic control systems, transportation systems, developing mechatronic products and systems, and as a consulting engineer.

* Cloud Campus students will be required to participate in campus-based intensive activities each trimester at the Geelong Waurn Ponds Campus.

Bachelor of Mechatronics Engineering (Honours)
This degree integrates electronic devices with mechanical design and information technology, preparing you to be an industry-ready professional engineer. You will gain the skills to apply mechatronics engineering principles to challenging real-world problems, such as the automation of industrial processes using robotics and other cutting-edge technologies, flying drones, 3D printers, robotics and self-driving cars.

In second year you will design a robot for potential entry into the Warman Competition. And in third year you will design and build ‘sumo robots’ that need to outsmart, overpower and outmanoeuvre the competition.

The Bachelor of Mechatronics Engineering (Honours) also provides you with transferable skills in entrepreneurship, innovation, project management, technical report writing and more. You will develop an understanding of ethics within the engineering profession, and of technical and professional issues within the industry while gaining an insight into the social, cultural, global and environmental responsibilities of the modern engineer.

Industry-based learning (IBL)
IBL involves working full or part time in industry as part of your studies. You can gain valuable experience and be better prepared for employment after graduation, all while gaining credit towards your degree.

Professional recognition
The Bachelor of Mechatronics Engineering (Honours) is accredited by Engineers Australia. This accreditation ensures our engineering course meets both national and international standards and gives our degrees international recognition, meaning our graduates are able to practise as professional engineers in many countries around the world.
Bachelor of Health Sciences

If you are looking to discover your passion in the health and community sector, health sciences allows you to create a qualification that suits your unique career aspirations. Become a specialist in the health sector by hand-picking study areas that you are passionate about.

Course information
Course code: H300
Years (full time): 3
Campus: Melbourne
Intake: T1 (March), T2 (July), T3 (November)
2019 annual fee: $30 800
IELTS score: 6.5/6

Structure
This course comprises 24 credit points, including:
• 6 core units
• 2 major sequences (totalling 6 credit points)
• 6 electives.

Careers
Depending on the major sequences you take and your choice of electives, you could be qualified to work in areas such as health promotion, health education, community health, family and community support, health marketing, health and sport public relations, health policy development, nutrition and research in health areas. The practical placements and volunteer opportunities you obtain in your second and third years of this degree will prepare you for such roles.

Related degrees

Bachelor of Arts

Further study
• Bachelor of Health Sciences (Honours)
• Bachelor of Health and Medical Science (Honours)

Bachelor of Health Sciences
This flexible degree is an excellent option for those looking to discover their passion in the health and community sectors. It has been designed to ensure you graduate with the skills demanded by the health and community sector, while also allowing you to explore your passion in health. Developed through our engagement with industry, the core units ensure the degree remains up to date, relevant and practical, and also informs your specialist knowledge or majors.

Major sequences
Disability and inclusion
Environmental health
Exercise science
Family, society and health
Food studies
Health promotion
Health and sustainability
Medical biotechnology
Nutrition
Physical activity and health
Psychological science*
Psychology for professional development

* This major is not available to students undertaking the combined Bachelor of Health Sciences/ Bachelor of Arts degree.

Become a highly sought-after specialist
The Bachelor of Health Sciences allows you to concentrate your studies on two specialised health-related areas. That means you gain specialist knowledge, making you highly sought-after within the health sector and related employment areas.

Deakin’s Community Gardens, located at the Melbourne Burwood and Geelong Waurn Ponds campuses, offer a place for teaching, learning and research around growing, harvesting and preparing food. By studying the Bachelor of Health Sciences, you will learn about the importance of community projects such as community gardens in relation to health promotion, food security and social inclusion.
Bachelor of Occupational Therapy

Start a career with a direct impact on people wanting to lead healthy and meaningful lives. Deakin will equip you with the specialised knowledge to improve your clients’ lives – at home and at work. Get rewarding, real-world training starting in your first year.

Course Information

Course code: HASS
Years (full time): 4
Campus: WF
Intake: T1 (March)
2019 annual fee: $35,800
IELTS score: 7/7

Structure
This degree comprises 32 credit points, including:
- 29 core units
- 1 selective unit
- 2 credit points of elective units.

Careers
Employment opportunities in occupational therapy are generally positive due to the diversity of occupational therapy roles and the demand for this profession in all locations throughout Australia and abroad – in regional, remote and metropolitan areas. As a graduate you are able to assist people of all ages to engage in any aspect of daily living, assisting them to achieve independence at home, at work and in the community, as well as helping them enhance their quality of life. You may work with children who have physical or intellectual disabilities, in aged care, or with people who have had accidents or are suffering from medical problems. You may work in acute, psychiatric or rehabilitation hospitals, or in schools, community health, mental health, the workplace (such as in occupational health and safety and vocational rehabilitation), government, private practice, or teaching and research.

Bachelor of Occupational Therapy
Occupational therapy combines physical and mental rehabilitation to support people to live happy, healthy and productive lives. Deakin recognises the importance of getting hands-on experience early in your occupational therapy journey. Starting in your first trimester, you will have the opportunity to explore the differing occupational therapy specialisations and develop your own professional network.

Professionally accredited
Deakin’s Bachelor of Occupational Therapy is accredited by Occupational Therapy Australia, the Occupational Therapy Council and the World Federation of Occupational Therapists, enabling you to work in Australia and overseas.

Work experience
You will undertake a minimum of 1000 hours of practicum placements throughout the four years of the course, commencing in year one. Fieldwork is conducted in a range of settings, including schools, hospitals, clinics, community health organisations and industry.
Bachelor of Public Health and Health Promotion

Seek to understand and act on the factors that cause poor health, and those that create and sustain good health. This field relies on diverse approaches, including community engagement, policy development, research, education and the media to address the causes of poor health within populations.

Bachelor of Public Health and Health Promotion

This degree is designed to help you gain skills in industry-recognised competencies. You will develop your knowledge of planning and evaluation, health communication strategies, epidemiology and health research. Practical work placements give you the chance to gain valuable experience and further develop your expertise in the field. Job growth in the health sector continues to increase as public health issues such as obesity, heart disease, diabetes, sedentary lifestyles, and ageing populations affect healthcare systems globally.

Professional recognition

Graduates may be eligible to become members of the Public Health Association of Australia (PHAA) and the Australian Health Promotion Association (AHPA).

Work experience

Work-integrated learning is a core feature of this course, and is embedded within all units, including assignments that replicate work in the field. Another key feature of this course is the capstone experience, a 120-hour field education placement that provides you with an opportunity to transfer your knowledge and skills to a practical setting, where you can further your learning through realistic field experience. These placements enable you to consolidate your skills under the supervision of qualified practitioners, which assist you to be work-ready after graduation.

Course information

Course code: H313
Years (full time): 3
Campus: B
Intake: T1 (March), T2 (July)
2019 annual fee: $30 800
IELTS score: 6.5/6

Structure

This course comprises 24 credit points, including:

- 16 core units
- 8 elective units.

Careers

Graduates may work in positions including health promotion officer, community development officer, social planning officer, health educator, women’s health officer, health policy developer, planning officer, health researcher, program development officer or program evaluator.

Employment areas may include healthy eating, physical activity, mental health, social inclusion, chronic illness (such as asthma, arthritis, heart disease) and women’s health.

Bachelor of Public Health and Health Promotion (Honours)

Among the best

Public health at Deakin has been ranked in the global Top 100 in one of the most prestigious international ranking systems: 2017 ShanghaiRankings Global Ranking of Academic Subjects. This means that you can be confident that your Deakin degree will be valued by employers around the world.
Bachelor of Social Work

Social work is a diverse profession and focuses on human rights. You will work with individuals, families and communities – improving wellbeing, addressing inequality and improving lives.

Bachelor of Social Work

A degree in social work gives you the skills to enhance the wellbeing of people, taking into account the influence of policy, socio-economic factors and social justice issues. You will also become familiar with a range of social research methods and learn how to design and conduct research directly relevant to social work practice. At Deakin, the Bachelor of Social Work has a particular emphasis on human rights, anti-oppressive practice and the importance of critical reflection.

With a strong emphasis on progressive, innovative and student-centred teaching practices, we aim to develop highly professional social workers who are able to work alongside individuals, groups and communities to enable social changes that support all people to have a good life.

Professional recognition

Deakin’s Bachelor of Social Work is an Australian Association of Social Workers (AASW) accredited qualification. It is an entry qualification into the social work profession and has been determined to meet the Australian Social Work Education and Accreditation Standards (ASWEAS).

Work experience

Field education placements provide an opportunity for students to learn from experience under the supervision of qualified social work practitioners. During the course there is a minimum of 1000 hours of fieldwork placements conducted in a variety of communities and workplaces in metropolitan and regional settings. As social work at Deakin has a rural focus, one of the two fieldwork placements will have a rural focus.

Course information

Course code: H330
Years (full time): 4
Campus: WF
Intake: T1 (March)
2019 annual fee: $30 800
IELTS score: 7/7

Structure

This degree comprises 32 credit points, including:

- 29 core units
- 3 elective units.

Careers

You may be involved in activities as diverse as policy development and research, counselling, family therapy, drug and alcohol counselling, community development and refugee assistance. Social workers also work as program managers or coordinators, as advocates, facilitators, activists or consultants. You may work in specialist areas such as health, housing or education, or with groups such as the aged, women, youth or multicultural populations.
Bachelor of Vision Science/Master of Optometry

Train in a field that enables you to care for others by diagnosing and managing a wide range of ocular conditions and diseases. This degree will see you graduate as a qualified optometrist, as you learn about visual health issues and their impact on local and international levels.

Bachelor of Vision Science/Master of Optometry

Deakin’s Faculty of Health offers Australia’s first accelerated optometry course. You complete the five-year degree in just 3.5 years by studying three trimesters per year. Offered as a combined course, the Bachelor of Vision Science/Master of Optometry is unique in many ways. It has an emphasis on case and team-based learning; an extensive, fully-equipped clinical skills facility; industry partnerships; and a curriculum that delivers excellence across clinical, commercial and professional domains in optometry. Optometry encompasses far more than just testing eyes: it involves a complex interplay of inter-professional communication; management of self, others and potentially a business; and the applied understanding of principles of ethics, the law, public health, and professional and commercial practices. Deakin’s optometry program integrates all these elements into the curriculum from year two of the degree through to graduation. Throughout your pre-vocational studies you study elements from the health, medical and vision sciences, business and management disciplines.

State-of-the-art facilities

During the first three years of the program, you will be based at the REACH facility at the Geelong Waurn Ponds Campus, which includes a fully-equipped clinical skills laboratory and a full-scale optometry practice that allows for simulation-based learning, examinations and research.

Work experience

Clinical placements are an integral part of the program. You will undertake a variety of short-term clinical placements and spend the final six months of the course as a ‘student resident’ in one of a range of clinical optometric and medical settings. These extensive rotations take place in both metropolitan and regional or rural settings, and will enable you to consolidate your knowledge and skills in supported environments under the supervision of qualified optometrists.

Professional recognition

Graduates of Deakin’s Doctor of Medicine and Bachelor of Vision Science/Master of Optometry are eligible to apply for registration with the Australian Health Practitioner Regulation Agency (AHPRA) and as Medicare Service Providers.

Course information

Course code: D302
Years (full time): 3.5
Campus: WP
Intake: T1 (March)
2019 annual fee: $53,700*
IELTS score: 7/7

Structure

This degree comprises 40 credit points. All units are core units.

Careers

Graduates could assist people to engage in any aspect of daily living, helping them to achieve independence at home, at work and in the community, as well as helping them enhance their quality of life. You may work with children who have physical or intellectual disabilities, in aged care, or with people who have had accidents or are suffering from medical problems.

* This degree is a 3.5-year accelerated full-time program delivered over 10 consecutive trimesters. This means you will study three trimesters each calendar year.

* The 2019 course fee is for three trimesters of full-time study in a single calendar year.
Bachelor of Nursing

There is a strong demand for registered nurses in a range of settings. Studying with one of the largest nursing schools in Australia, you will get hands-on experience within a health care setting from the first trimester of your degree.

Bachelor of Nursing
This degree gives you the knowledge, skills and ethical understanding to become a competent registered nurse, preparing you to provide high-quality, patient-centered care in a range of settings. Clinical placements commence in the first trimester of your first year and continue throughout your degree. Clinical placements provide extensive opportunities to develop and consolidate your learning, and are undertaken in various metropolitan, regional and rural healthcare settings under the supervision of qualified practitioners.

Professional recognition
Deakin's Bachelor of Nursing and combined degrees are specifically designed to fulfil the registration standards for a registered nurse of the Nursing and Midwifery Board of Australia (NMBA).

Work experience
You will gain clinical experience in a variety of settings, which may include acute/sub-acute care, medical and surgical care, aged care, rehabilitation, paediatrics, community nursing and mental health nursing. There will be 20 weeks of clinical placement in hospitals and community health centres in metropolitan, rural and regional areas.

Course information
Course code: H326
Years (full time): [T]
Campus: [B WF WB]
Intake: T1 (March), T2 (July)*, T3 (November)*
2019 annual fee: $32,600
IELTS score: 7/7

Structure
This degree comprises 24 credit points, including:
- 17 core units (totalling 21 credit points)
- 3 elective units.

Careers
Graduates of this degree will be well prepared to pursue a career as a registered nurse in a range of work areas, including hospitals, homes, hospices, aged care settings, clinics, schools, universities and community health centres.

Related degrees
- Bachelor of Nursing/Bachelor of Midwifery
- Bachelor of Nursing/Bachelor of Psychological Science

We are among the best
Deakin is ranked in the Top 25 universities in the world for nursing by the prestigious QS World University Rankings by Subject 2018, which is informed by academic and employer reputation, as well as research impact.

* Twenty weeks for a a 24 credit point degree. Students with advanced standing will have fewer clinical hours.

* This intake is available to: (1) students who are registered or eligible to register as an enrolled nurse with the Nursing and Midwifery Board of Australia (NMBA) (all campuses available); or (2) students who are a Registered Nurse in their home country and meet the course’s Credit for Prior Learning requirements (Melbourne Burwood and Geelong Waterfront campuses only).

* This intake is available to students who are eligible to register as an enrolled nurse with the Nursing and Midwifery Board of Australia (NMBA). Students will study at the Melbourne Burwood Campus in Trimester 3 then return to their enrolled campus (if this is not the Melbourne Burwood Campus).

We are among the best
Deakin is ranked in the Top 25 universities in the world for nursing by the prestigious QS World University Rankings by Subject 2018, which is informed by academic and employer reputation, as well as research impact.
Deakin’s undergraduate nursing degrees are specifically designed to fulfil the registration standards of the Nursing and Midwifery Board of Australia (NMBA). The diagram below highlights the study options available to achieve NMBA registration as a registered nurse.

Start here
Have you completed any studies in the nursing field? 

no

Study Deakin’s Bachelor of Nursing.

yes

Are you currently a registered nurse in your home country?

no

Study Deakin’s Bachelor of Nursing. Because of your prior nursing studies, you may be eligible for up to three credit points towards your degree.

yes

Did you graduate from your Nursing degree in the past 5 years or have you worked as a registered nurse in the past 5 years?

no

Registration
You are eligible to apply for registration as a registered nurse with the Nursing and Midwifery Board of Australia (NMBA).

yes

Study Deakin’s Bachelor of Nursing. As a registered nurse, you may be eligible for credit that will allow you to complete the Bachelor of Nursing in just one or two years of study – saving you time and money.

* Nursing registration is one component of work visa eligibility in Australia. For information about work visas, visit the Department of Home Affairs at homeaffairs.gov.au.
Bachelor of Nursing/Bachelor of Midwifery

Learn how to provide the necessary support, care and advice to women and their families throughout pregnancy and childbirth, as well as postnatal care.

Course information
Course code: D355
Years (full time): 4
Campus: B WF WB
Intake: T1 (March)
2019 annual fee: $34 400
IELTS score: 7/7

Structure
This degree comprises 32 credit points, including 26 core units.

Careers
Graduates find work as a registered nurse and/or a registered midwife in hospitals, clinics, community health centres, schools and maternity services.

Related degrees
Bachelor of Nursing

Bachelor of Nursing/Bachelor of Midwifery
Midwives play an invaluable role in facilitating childbirth and caring for mothers and babies through pregnancy, labour and beyond. With this combined degree you will boost your skill set and open the door to rewarding career options.

Professional recognition
Graduates are eligible to apply for registration with the Nursing and Midwifery Board of Australia as a registered nurse and a registered midwife.

Work experience
You will gain 20 weeks of clinical experience in a variety of settings, which may include acute/sub-acute care, medical and surgical care, aged care, rehabilitation, paediatrics, community nursing and mental health nursing. Midwifery clinical experiences include all areas of midwifery practice, including pregnancy care, labour and birth, postnatal care and neonatal care. Your midwifery experiences will be obtained over 21 weeks of clinical placement across a variety of hospitals providing maternity services in metropolitan, regional and rural settings.

The latest in simulation centres
Deakin’s Clinical Simulation Centres contain purpose-built, flexible learning spaces and simulated clinical settings that provide a safe, supportive and realistic environment for you to develop core clinical nursing and midwifery skills.

The simulated learning spaces replicate hospital and community environments with equipment such as high-fidelity patient simulators, bed spaces, hand basins, wall oxygen, suction and cardiac monitoring devices; they are well resourced with disposable dressing packs, injection equipment, monitoring equipment and other materials.
Bachelor of Nutrition Science

Gain an understanding of the nature of food, including its impact on health and the role of nutrition in disease prevention. Learn about human nutrition and the complexity of current issues relating to food and human health.

Bachelor of Nutrition Science

This degree addresses all aspects of human nutrition and food relevant for employment in the health industry. It develops an understanding of food, including food choice and its relationship to health, as well as the role of nutrition in human health and disease prevention. The Food Innovation major prepares you for a career in the food industry.

To add diversity to your degree, you may choose to undertake elective units of study in complementary areas, such as health promotion, psychology, physical activity and health, exercise science or many other offerings in the University. If you are interested in a career in nutrition and food but have not studied chemistry at school, you will be happy to hear that it is not a prerequisite for studying with us.

This course provides an opportunity to complete the prerequisites required to apply for Deakin’s Master of Dietetics, and is a direct pathway for students to apply into the Master of Human Nutrition or Master of Nutrition and Population Health.

Major sequences

Food innovation B
Disability and inclusion B C
Exercise science B WP C
Family, society and health B C
Health promotion B WP WB C
Physical activity and health B WP WB
Psychology B WP WP WB C

Professional recognition

Enrolled students and graduates can apply for membership of the Nutrition Society of Australia. If you choose to undertake the Food Innovation major, you may also be eligible for membership of the Australian Institute of Food Science and Technology.

Work experience

You may choose to undertake an industry placement elective unit (Food and Nutrition Practicum) and/or volunteer unit (Volunteering in Exercise and Nutrition Sciences) to gain hands-on experience while completing your degree.

Course information

Course code: H315
Years (full time): 3
Campus: B
Intake: T1 (March), T2 (July)
2019 annual fee: $34 400
IELTS score: 6.5/6

Structure

This course comprises 24 credit points, including:

- 12 core units
- 6 HSN-coded selective units
- 6 elective units.

Careers

Graduates are well prepared for careers requiring knowledge of nutrition, health, food analysis, sensory analysis, product development, food safety and food manufacturing. By completing the Food Innovation major you could work in the food industry, where your knowledge of nutrition and food composition facilitates the creation and marketing of food products that help to improve health. You may also gain employment in food policy, food regulation, consumer education and awareness campaigns, and community nutrition.

Bachelor of Arts (Psychology)

Study people’s behaviour, their cognitive processes, and the factors that influence all of us to think and act in different ways. Through this degree you will combine research with professional study, and draw on subjects from both liberal and creative arts.

Bachelor of Arts (Psychology)
The Bachelor of Arts (Psychology) combines research-based and professional studies in psychology with broad studies in the liberal and creative arts. It provides you with opportunities to develop skills of critical and systematic thinking; an imaginative understanding and appreciation of the theory and practice of the social sciences, the humanities or the arts; and enhanced cultural sensitivity and understanding through genuine reciprocity of values.

Following successful completion of this degree, graduates may apply for a fourth year of psychology study (including Deakin’s Graduate Diploma of Psychology or honours in psychology). The Bachelor of Arts (Psychology) (Honours) is only available to Deakin graduates.

Professional recognition
Deakin’s Bachelor of Arts (Psychology) with a 10-credit-point major in psychology is accredited by the Australian Psychology Accreditation Council (APAC) and enables you to undertake additional study in pursuit of professional registration.

- 0-credit-point academic integrity unit.

**Careers**

Potential career opportunities await in both the public and private sector, with police; intelligence agencies and a range of law enforcement, anti-corruption and crime prevention agencies at national, state and local government levels; correctional services; community services; and private security industries.

**Related degrees**

- Bachelor of Criminology/ Bachelor of Cyber Security  
- Bachelor of Criminology/ Bachelor of Laws  
- Bachelor of Criminology/ Bachelor of Psychological Science  
- Bachelor of Forensic Science/ Bachelor of Criminology

**Bachelor of Criminology**

Criminologists’ studies are used to help law enforcers apprehend criminals more efficiently and help discover their motives to reduce the likelihood of similar crimes occurring. Deakin has one of the few dedicated criminology courses in Australia, allowing us to offer a wide variety of criminology topics. This degree provides a solid educational foundation in the principles of criminological thought and research enabling graduates to choose between seeking employment in related industries or seeking to undertake further study. Deakin’s criminology program involves broad fields of study with students covering a considerable breadth and depth of crime and criminal justice issues, as well as specialisation in areas such as victimology, media, terrorism, crime prevention, security and surveillance.

**Practical experience**

You will have the opportunity to complete Criminology Practicum in your final year of study. This is a unit that brings the profession to the classroom with practitioner-driven seminars, activities bridging theory and practice, and the development of an e-portfolio that can be used for employment or career development.
Bachelor of International Studies

Studying international relations will enhance your understanding of the key political dynamics of our time. It encompasses the study of diplomacy, foreign policy and global governance, as well as theoretical dynamics relating to questions of order, justice and resistance in world politics.

Major sequences

- Anthropology [B WP C]
- Arabic [B WP C]
- Chinese [B WP C]
- Indonesian [B WP C]
- International politics [B WP C]
- International relations [B WP C]
- Language and culture studies [B WP C]
- Middle East studies [B WP C]
- Politics and policy studies [B WP C]
- Spanish [B WP C]

International experience

As part of your Deakin international studies degree you will take part in an approved international experience which will gain you credit towards your degree. Opportunities include:

- trimester of study at an overseas university exchange partner
- international internship
- in-country language program (in Chinese, Indonesian, Arabic or Spanish)
- study abroad program or study tour
- onshore internship with an international organisation
- Two credit points of consecutive language units other than an in-country language.

Be a global scholar

Deakin also offers the A306 Bachelor of International Studies (Global Scholar), which is designed for high-achieving students who want to combine study and travel and proactively build a global career from the very start of their studies. You will develop intercultural competencies, transversal skills and important skills of analysis, critical thinking and reflection, all of which are essential for effective personal and professional operation in international environments. You will complete an international experience, supported by the award of a $3000 scholarship.

Course information

Course code: A326
Years (full time): 3
Campus*: B WP C
Intake: T1 (March), T2 (July)
2019 annual fee: $27,400
IELTS score: 6/6

Structure

This course comprises 24 credit points, including:

- 6 core units
- Major selected from the major sequences list
- Maximum of 8 credit points taken outside the Faculty of Arts and Education
- At least 2 credit points of approved international experience
- 0-credit-point academic integrity unit.

Careers

Our graduates work in a wide range of fields, including local and national government, diplomacy and foreign affairs, international aid and development, the business sector (communications, human resources, analysts, marketing), law, international education, and social entrepreneurship.

Related degrees

- Bachelor of International Studies (Global Scholar)
- Bachelor of International Studies/Bachelor of Commerce
- Bachelor of Laws/Bachelor of International Studies

* Some core units of this degree are delivered at the Geelong Waterfront Campus.
Bachelor of Computer Science

Computer science gives you the skills to design and develop advanced software and systems, along with the capacity to create and integrate new computing technologies that enhance effective business operations in today's digital age.

Bachelor of Computer Science

Deakin’s Bachelor of Computer Science will equip you with the knowledge and practical skills required to design and develop innovative software solutions to complex information and technology problems. Under the direction of our internationally-recognised academic staff, you will gain practical experience in our modern computing laboratories. You will gain comprehensive knowledge of computer systems and networks, data management and information processes, human computer interaction, programming and software development, computing theory, mathematical methods, and algorithm design and analysis. This course is ideal if you are passionate about creating solutions to complex problems, curious about how something works rather than simply what it does, and interested in working at the leading edge of technology innovation and development.

Work experience

This degree includes a core IT placement unit, where you will be required to undertake a minimum of 100 hours in industry, providing professional work experience with an approved host organisation. Alternatively, high-achieving students may have the opportunity to undertake an extended full-time paid Industry-Based Learning (IBL) placement between 6 – 12 weeks (conditions apply). You will also work on industry projects, gaining experience in entrepreneurship and business skills.

Professional recognition

This course is accredited by the Australian Computer Society. Graduates of accredited courses are highly regarded by employers.

Course information

Course code: S306
Years (full time): 3
Campus: B C
Intake: T1 (March), T2 (July)
2019 annual fee: $30 200
IELTS score: 6/6

Structure

This degree comprises 24 credit points, including:
- 17 core units (totalling 18 credit points)
- 6 elective units

Careers

Computer science graduates are in high demand in a variety of roles, such as data scientist, software developer, software engineer, systems or network administrator, database administrator or developer, solutions architect, systems analyst, or project manager. Computer scientists also work in specialist research and development roles, in both public and private organisations.

Bachelor of Information Technology (Honours)

We are among the best

Deakin is ranked in the Top 1% of all universities for computer science by 2017 ShanghaiRankings Global Ranking of Academic Subjects and 2018 QS World University Rankings by Subject. This means you can be confident that your Deakin computer science degree will be respected by future employers.

deakin.edu.au/int-it
Bachelor of Cyber Security

Cyber security professionals protect the data and systems of digital services we use for daily business and communication. Develop the capability to identify, diagnose, analyse and manage cyber security challenges.

Course information
Course code: S334
Years (full time): 3
Campus: B WP C
Intake: T1 (March), T2 (July)
2019 annual fee: $30 200
IELTS score: 6/6

Structure
This course comprises 24 credit points, including:
• 17 core units
• 7 elective units.

Careers
Career options include work as a security analyst, project manager, security system manager, cryptographer, business analyst, consultant, security system developer or programmer, information security auditor, law enforcement personnel or IT security engineer.

Related degrees
Bachelor of Criminology/
Bachelor of Cyber Security

Further study
Bachelor of Information Technology (Honours)

The expertise you need to succeed
Cyber security is a growing issue for individuals and businesses alike. As a cyber security graduate you will have the skills demanded by a diverse range of industry and government sectors. Our courses are industry-specific, so you study issues important to industry – like implementing security technologies to protect against hackers or developing cyber security solutions.

Work experience
This degree includes a core IT placement unit where you will be required to undertake a minimum of 100 hours in industry, providing professional work experience with an approved host organisation. Alternatively, high-achieving students may have the opportunity to undertake an extended full-time paid Industry-Based Learning (IBL) placement between 6 – 12 weeks (conditions apply). You will also work on industry projects, gaining experience in entrepreneurship and business skills.
Bachelor of Information Systems

The study of information systems delivers an appreciation of the related managerial roles of business people, the application of technology and the strategic management of vast quantities of information, as well as the information systems supporting today’s modern business organisation.

Bachelor of Information Systems

We are living through one of the greatest periods of innovation in history, driven by technology and digital advancement. With the massive rise of social media, computers and mobile devices, most of us take the use of technology for granted. Information systems (IS) is about how people and organisations can use technology in innovative and effective ways in an increasingly globalised and digital world. Being an IS professional is about building the bridge between people, business and technology. You will learn about the use of technology in the modern world and how to maximise the benefits from it. If you are creative, enjoy working with people and are excited by the limitless opportunities of the digital world, consider adding IS to your career options.

Work experience

Work experience is a core component of this degree. An ‘Industry on Campus’ program facilitates formal engagement between students and employers. Our program aims to ensure students have every opportunity to work with IS graduates and professionals every trimester – giving them a head start in their career.

Professional recognition

This course is accredited by the Australian Computer Society. Graduates of accredited courses are highly regarded by employers.

Course information

Course code: M340
Years (full time): 3
Campus: B
Intake: T1 (March), T2 (July)
2019 annual fee: $30 200
IELTS score: 6/6

Structure

This course comprises 24 credit points, including:
• Up to 17 credit points of core units
• Up to 8 credit points of elective units
• 1 zero-credit-point academic induction unit.

Careers

The Bachelor of Information Systems prepares students for graduate roles across every industry, and across all continents. Career opportunities include business analyst, systems analyst, IS/IT consultant, project manager, chief information officer.

Related degrees

• Bachelor of Commerce/Bachelor of Information Systems
• Bachelor of Information Systems/Bachelor of Information Technology
Information technology studies provides you with the knowledge, skills and experience required to manage information technology, digital proficiency and technological transformations.

Bachelor of Information Technology

The Bachelor of Information Technology is Deakin’s most generalist IT course and provides you with the knowledge, skills and experience necessary to remain up-to-date with this rapidly changing field. In addition to acquiring a core set of IT skills that are relevant in almost every industry, you will have the opportunity to choose from a diverse range of IT major sequences according to your interests and career aspirations. You can further diversify your studies through elective units in IT and/or complementary study areas.

Major sequences

- Application development
- Cloud computing
- Creative technologies
- Game development
- Cyber security
- Virtual and augmented reality

Professional recognition

The Bachelor of Information Technology is professionally accredited with the Australian Computer Society (ACS).

Work experience

This degree includes a core IT placement unit, where you will be required to undertake a minimum of 100 hours in industry, providing professional work experience with an approved host organisation. Alternatively, high-achieving students may have the opportunity to undertake an extended full-time paid Industry-Based Learning (IBL) placement between 6 – 12 weeks (conditions apply). You will also work on industry projects, gaining experience in entrepreneurship and business skills.

Further study

Bachelor of Information Technology (Honours)
Bachelor of Software Engineering (Honours)

Create the smart systems of the future. Studies in software engineering give you specialised skills in computing, robotics and cyberphysical systems, in preparation for a career as an innovative software engineer capable of developing the smart devices and systems of the future.

Bachelor of Software Engineering (Honours)

The rapid advancement of sensing and computing hardware supporting smart, connected devices is driving growing demand for software engineers who can move beyond traditional technologies. During this degree you will extend your skills beyond web and database technologies and desktop software patterns to acquire niche skills in robotics and cyber-physical computing.

Work experience

This course includes a core professional industry experience unit, where you will be required to undertake a minimum cumulative total of at least 60 working days of industry experience during your degree. You will also have an opportunity to use your elective units to apply for an industry-based learning position or alternatively a short-term Career or STEM Placement to work on industry projects, gaining experience in entrepreneurship and business skills.

Modern facilities with the latest technology

Deakin regularly invests in facilities so you can access the latest software and technologies in fully equipped computer labs. The new Robotics and Internet of Things (RIoT) studio has the latest in computing, robotics and cyber-physical systems. You can also access specialised software such as professional development platforms, industry-standard modelling and animation packages.

Years (full time): 2
Campus: B, C
Intake: T1 (March), T2 (July)
2019 annual fee: $30,200
IELTS score: 6/6

Structure

This course comprises 32 credit points, including:
- 22 core units (totalling 28 credit points)
- 4 elective units.

Further study

Bachelor of Information Technology (Honours)

Careers

You will be well-equipped for employment in diverse areas in the Software Engineering industry building the next generation of artificial intelligence-powered software systems. You will have access to a wide-range of industries such as smart cities, digital health, precision agriculture, and manufacturing automation. You may pursue a career as an entrepreneur, software engineer, software developer, embedded systems developer, robotics systems engineer, mobile and web app developer, business analyst, or software tester. With experience, you can move in managerial roles such as project manager, business development manager, Chief Information Officer, or Chief Technology Officer.
Bachelor of Laws

Deakin Law School provides the robust training and recognised qualifications you need to launch your career as a first-class legal practitioner. You will get sound university training in all of the major areas of legal practice, such as commercial law, criminal law and procedure, health law, mining and energy law.

Bachelor of Laws

Deakin’s Bachelor of Laws satisfies the university component of the requirements to become an Australian lawyer. You will then complete an additional year of work placement as a legal trainee, or undertake a practical legal training course. This course provides in-depth studies in each of the major areas of legal practice, and emphasises practical legal skills training. You will study many areas of law, including core units in commercial law, criminal law, criminal procedure, constitutional law, contract, legal practice and ethics, taxation, civil rights, property, and more.

Professional recognition

This course fulfills the academic requirements for admission to practise as an Australian lawyer as set by the Victorian Legal Admissions Board (VLAB). In addition to completing the degree, a person seeking admission is required to work for one year as a legal trainee, or to undertake a practical legal training course.

Work experience

Prescribed professional experience provides you with an opportunity to enrich your legal education and theoretical knowledge, preparing you for employment in the industry.

Areas of law

A centre for excellence in commercial law, Deakin Law School delivers a diverse range of study and research areas, including intellectual property, corporate governance, tort and the law of medicine, sentencing and criminal justice, energy and natural resource law, and constitutional law.

Deakin Law Clinic

Deakin Law Clinic provides legal assistance to eligible clients in a range of areas, including civil and commercial law, criminal law, employment law, family law, and venture law. Students interview real clients under the supervision of qualified solicitors, conduct research on legal issues, and offer advice where appropriate. Students also have the opportunity to attend court proceedings in some instances. These clinical programs empower students to expand on the rigorous academic knowledge and the critical and reflective skills they gain during their degree.

Legal internship program

Students can also access internship placements at many law firms, legal aid providers and government offices for credit as part of their Deakin Law School experience. Students will gain practical legal skills and experience that employers look for, and graduate work-ready into a competitive employment market.

Course information

Course code: M312
Years (full time): 4
Campus: B WF WA C
Intake: T1 (March), T2 (July)^
2019 annual fee: $33 800
IELTS score: 7/6.5

Structure

This course comprises 32 credit points, including:
- 16 core units
- 16 elective units.

Careers

This degree is designed to equip you with skills to work in an exciting range of careers, including family law, criminal law, litigation, immigration law, tax or even personal injury law. Law graduates may also choose to enter the business sector in almost any industry or government service in areas such as law reform, politics or public administration.

Further study

Bachelor of Laws (Honours)

^ The first two years are available at the Warrnambool Campus. The remaining course load can be taken by transferring to the Geelong Waterfront Campus or Cloud Campus.

^ Intake available at the Melbourne Burwood and Cloud campuses only.
Bachelor of Biological Science

Deakin’s biological science course offers an experience, not just a classroom degree. Cultivate a deep understanding of biology through developments in informatics and technology, and learn what is needed to reduce our impact on living resources and ecosystems.

Bachelor of Biological Science

Study life in all its forms, from microbes to plants and animals while learning about animal and plant biology, microbiology, genetics, molecular cell biology, biogeography and evolution. This degree provides you with the knowledge and skills to tackle the biological challenges of the 21st century, mainly around the environment and climate change, with a focus on experimental design and the Australian biota. It is perfect for people who are passionate about flora and fauna both big and small.

Work experience

Professional Practice in Bioscience is a compulsory unit in the Bachelor of Biological Science. This means you will have a minimum of 80 hours work experience in a course-related organisation, giving you insight into your future career options. You can also elect to study a range of placement and industry-based learning units, bringing together theory, site studies and laboratory investigations.

Course information

Course code: S321
Years (full time): 3
Campus: B
Intake: T1 (March), T2 (July)
2019 annual fee: $34 800
IELTS score: 6/6

Structure

This course comprises 24 credit points, including:
- 19 core units
- 5 elective units.

Careers

This degree qualifies you to become a well rounded, modern biologist with a knowledge of microbes, plants and animals, and the interactions these have with one another and their environments. Career opportunities in a wide range of areas include primary industries, wildlife biology, the general health and medical industry (hospital scientists, analytical and diagnostic laboratory scientists and research scientists), animal health, quarantine services, environmental consulting, museums, herbaria and the emerging biotechnology industries.

Further study

Bachelor of Science (Honours)
Bachelor of Biomedical Science

Biomedical science covers the science underpinning medical applications, from basic biology to specific disease processes. Expand and apply your knowledge of human biology and health, with an emphasis on causes, diagnosis and treatment of disease at the molecular, cellular and system levels.

Course information
Course code: S323
Years (full time): 3
Campus: B WP
Intake: T1 (March), T2 (July)
2019 annual fee: $35 600
IELTS score: 6/6

Structure
This degree comprises 24 credit points, including:
• 15 core units
• 3 elective units
• 6 major study units.

Careers
Biomedical science provides opportunities in a range of health-related industries, including medical research, genetic engineering, the pharmaceutical industry, pharmaceutical/medical sales and laboratory technology. You could also advance to honours or postgraduate studies, enhancing your professional development as a scientist. Or to graduate-entry medicine, or other disciplines, which will complement your scientific training and broaden your career opportunities.

Further study
Bachelor of Science (Honours)

Bachelor of Biomedical Science

Biomedical science at Deakin covers the science underpinning medical applications, from basic biology to specific disease processes, to provide you with a thorough understanding of human biology and health. The degree focuses on causes, diagnosis and treatment of disease at the molecular, cellular and system levels.

It is a vibrant, relevant and topical program. Our multidisciplinary approach, as well as a number of elective units at all levels, enables you to learn about your chosen fields of study from both scientific and health perspectives.

Major sequences
• Environmental health B WP
• Infection and immunity B WP
• Medical biotechnology B WP
• Medical genomics B WP
• Molecular life sciences B
• Pharmaceutical science B WP

Work experience
Professional practice in bioscience is a compulsory unit in this degree. This means you will have a minimum of 80 hours of work experience in a course-related organisation, giving you insight into your future career options. You can also elect to study a range of placement and industry-based learning units, bringing together theory, site studies and laboratory investigations.

Medicine pathway for international students
Deakin offers three preferential places into Deakin’s Doctor of Medicine for international students who successfully complete our Bachelor of Biomedical Science and meet the Doctor of Medicine admission criteria. Find out more at deakin.edu.au/medicine/study-options/international-admission.
Your pathway to medicine

Deakin medicine is a graduate-entry program, requiring a completed bachelor’s degree from any field. Deakin offers the Bachelor of Biomedical Science undergraduate degree (three years), just one of the pre-med options, that will allow you to apply for Deakin’s graduate-entry Doctor of Medicine (four years). Deakin’s medical program will qualify you as a medical practitioner.

Highly ranked

Deakin’s medicine programs are among the best in the world. We have been ranked in the Top 200 universities worldwide for medicine by QS.
Environmental science at Deakin

Play a vital role in creating a sustainable future for the Earth. Our courses in environmental science have a strong focus on fieldwork and practical experiences. We have diverse study areas available, including environmental management, sustainability, wildlife and conservation, marine health and ecosystems.

The experience you need to succeed

All of Deakin’s environment degrees have a focus on practical experience and offer hands-on learning experiences from year one, ensuring you graduate skilled and work-ready. Depending on the degree you choose to study, you may learn skills such as measuring the health of freshwater environments, coastal planning, surveying wildlife populations, conducting sustainability assessments and studying seals and penguins. For example, students will undertake work in places such as community environment parks and sustainability centres where students will learn about sustainable communities, green technologies and community engagement with diverse stakeholders; urban parks where students learn how to conduct vegetation surveys, analyse water quality, map soils and microclimate, and analyse groundwater pollution and water table profiles; businesses to analyse waste management programs and develop waste management strategies and environmental improvement programs; national parks to learn about scientific research, data analysis and teamwork, and gain experience handling animals such as bandicoots, potoroos, antechinus, possums and gliders. Other activities undertaken include GPS and GIS exercises, radio-tracking, camera trapping and bird surveys.

Links with industry

Our staff have close links with industry and relationships with organisations such as the Department of Environment, Land, Water and Planning (DELWP), Parks Victoria and the Department of Primary Industries to ensure our courses are up-to-date with industry trends. Deakin environment programs have a core professional placement unit, with students previously completing placements in a range of high-profile organisations, including Zoos Victoria; Parks Victoria; Department of Environment, Land, Water and Planning, Biosis; Environmental Consulting; Australian Institute of Marine Science, as well as local, state and federal government.

Work experience

Professional Practice is a core unit in all of Deakin’s environment degrees. It allows you to complete a placement for a minimum of two weeks (at least 80 hours) within a relevant, course-related organisation. A number of elective units also offer you the opportunity to gain extensive practical experience, including undertaking a Global Environment Placement, Global Science Placement, Industry Based Learning, Career Placement or a STEM Placement.

First-class facilities and equipment

Your learning is enhanced by a range of state-of-the-art facilities and equipment, such as a Geographic Information Systems (GIS) lab, wildlife tracking technology, aquaculture facilities, infrared motion sensing wildlife cameras, high-tech research labs, research vessels and remotely operated underwater vehicles.

Deakin is also a significant partner at the Queenscliff Marine Research Centre, providing students with amazing access to labs and a variety of nearby marine and coastal ecosystems.

For Deakin marine students, researchers have developed Deakin’s purpose-built research vessel Yolla – which houses one of the most advanced sonar systems in the world – and have created a detailed continuous map of Victoria’s sea floor habitats. This data is playing a key role in supporting fishery and conservation management of the state’s marine environments. Deakin environment students get to participate in a range of practical activities, such as identifying marine plants and animals using the images generated by remotely controlled vehicles on the sea floor.

Accreditations

After graduating and gaining experience working in the environmental industry, you will be eligible to become a Certified Environmental Practitioner through the Environment Institute of Australia and New Zealand.
Bachelor of Environmental Science (Environmental Management and Sustainability)

Develop the skills and knowledge to manage the interaction between people and the environment. And at the same time meet society’s needs for clean water, fresh air and healthy soils through the sustainable use of natural resources, environments and ecosystem services. Design your own career direction by choosing elective units in areas such as wildlife management, coastal and marine management, environmental sustainability, natural resources management, environmental protection, and environmental policy and planning.

Course information
Course code: S398
Years (full time): 3
Campus: B
Intake: T1 (March), T2 (July)
2019 annual fee: $34,800
IELTS score: 6/6

Structure
This course comprises 24 credit points, including:
• 15 core units
• 9 elective units.

Careers
Career opportunities include environmental planning, environmental policy, sustainability, environmental protection, climate change adaptation and mitigation, industry-based environmental management, waste management, environmental education, catchment management, water resource management, land rehabilitation, pollution control, environmental science, wildlife management, conservation, and coastal and park management.

Further study
Bachelor of Environmental Science (Honours)

Bachelor of Environmental Science (Marine Biology)

Deakin’s marine biology program provides a unique opportunity to study temperate marine biology in a marine environment that has some of the highest biodiversity in Australia. The degree has a strong ecological focus, linking biological and oceanographic processes in the study of marine environments. Conduct fieldwork and learn in natural marine environments on the Victorian coast. Access world-class facilities and equipment such as a geographic information systems (GIS) lab, infrared sensing wildlife cameras and remote-operated underwater research vehicles. The course experience is facilitated by labs that are within close proximity to the coast at both the Warrnambool and Geelong Waurn Ponds campuses. For example the Warrnambool Campus is close to a Southern Right Whale Nursery and a penguin colony. The Geelong Waurn Ponds Campus is situated near the famous Bell’s Beach.

Course information
Course code: S399
Years (full time): 3
Campus: WP
Intake: T1 (March), T2 (July)
2019 annual fee: $34,800
IELTS score: 6/6

Structure
This course comprises 24 credit points, including:
• 21 core units
• 3 elective units.

Careers
Diverse career opportunities include marine biology tour guide, fishery officer, marine biology consultant, laboratory technician, local government environmental officer, aquaculture manager and sustainability project officer, as well as moving into research or pursuing postgraduate study.

Further study
Bachelor of Environmental Science (Honours)
Bachelor of Forensic Science

Forensic biology provides you with the specific biological skills that are critical in the forensic science workplace. These biological-based skills complement the generic forensic science attributes developed in the core units of this degree.

**Bachelor of Forensic Science**

Study forensic science at Deakin and get formal training across the full scope of modern forensic science. Acquire skills and authentic experiences from ‘crime scene to court’ by spending time in our unique crime scene training facility. Deakin is the first university in Australia, and the only university in the Asia-Pacific region, to offer a professionally-accredited forensic science degree. Combining studies in biology, chemistry, biochemical and chemical analysis, statistical analysis, and molecular biology, you will learn how to apply forensic analysis, including chemical, biological and physical techniques while also learning about the Australian legal system. You will cover forensic chemistry and toxicology, arson and explosives investigations, analysis of illicit drugs, and also undertake studies in criminology. This degree will also focus on the examination, interpretation and presentation of evidence, and include courtroom presentations.

**Major sequences**
- Forensic biology
- Forensic chemistry

**Professional recognition**

Deakin’s Bachelor of Forensic Science is accredited by the Chartered Society of Forensic Sciences.

**Course information**

- Course code: S324
- Years (full time): 3
- Campus: WP
- Intake: T1 (March), T2 (July)
- 2019 annual fee: $34 800
- IELTS score: 6/6

**Structure**

This course comprises 24 credit points, including:
- 11 core units
- 7 elective units
- 6 major study units.

**Careers**

Graduates may find work in areas such as forensics, insurance investigation, risk analysis, research science, in government institutions and within chemical, food and pharmaceutical industries.

**Related degrees**

Bachelor of Forensic Science/Bachelor of Criminology

**Further study**

Bachelor of Forensic Science (Honours)

**First-class facilities**

Our purpose-built and flexible crime scene training facility directly equips students with the skills they will need to succeed in the real-world. With a kitchen, lounge room and bedroom set, it enables a wide range of realistic scenarios to be staged.
Bachelor of Science

Deakin’s Bachelor of Science allows you to explore a diverse range of science-related study areas and specialise in at least one area of interest as you progress through the program. The degree is about more than just laboratory work, and prepares you for a diverse range of real-life settings in which today’s science graduates work.

Throughout the degree you will gain experience through practical programs undertaken in modern teaching laboratories; complete a community science project; and establish valuable professional networks prior to graduation.

**Major sequences**
- Animal biology [B | WP]
- Cell biology [B | WP]
- Chemistry [WP]
- Chemistry and materials science [B]
- Environmental science [B]
- Freshwater biology [WP]
- Fisheries and aquaculture [WP]
- Genomics [B | WP]
- Geography [B]
- Human biology [B | WP]
- Mathematical modelling [B | WP | C]
- Natural history [B]
- Plant biology [B]

**Work experience**

As a Deakin science student, you gain experience through innovative practical programs, including professional practice units. This means you will have a minimum of 80 hours of work experience in a course-related organisation, giving you the opportunity to apply and consolidate knowledge gained in your course, experience workplace culture and workplace practices, explore career options, develop a professional network, and prepare for the real-life settings in which today’s science graduates work.

**Course information**

- **Course code:** S320
- **Years (full time):** 3
- **Campus:** B | WP
- **Intake:** T1 (March), T2 (July)
- **2019 annual fee:** $34,800
- **IELTS score:** 6/6

**Structure**

This course comprises 24 credit points, including:
- 8 core units
- 10 elective units
- 6 major sequence units.

**Careers**

Diverse career opportunities are available in government institutions, in roles such as quality assurance, occupational health and safety, research, planning, management or marketing; science-related industries, working in pharmaceutical production or pharmaceutical sales; biomedical science areas, such as research or hospital and laboratory science; quality assurance in analytical and diagnostic laboratories; the food industry in quality control; environment and natural resources; teaching; information technology; mathematics; or science journalism to name a few.

**Related degrees**

- Bachelor of Arts/Bachelor of Science
- Bachelor of Commerce/Bachelor of Science
- Bachelor of Science/Bachelor of Laws
- Bachelor of Science/Master of Teaching (Secondary)

- 7 elective units.

Careers
Diverse career opportunities include government environmental monitoring, private and environmental consulting, museums, school and university education, primary industries, quarantine and wildlife biology. Successful completion of the degree may also lead to opportunities for further study, including postgraduate research training. The course may also be a potential pathway to veterinary science programs (subject to specific entry requirements).

Further study
Bachelor of Science (Honours)

Gain experience while you study
As part of your degree, you will gain work experience in a relevant organisation. This means you will get insight into your future career options.

Bachelor of Zoology and Animal Science
Zoology and animal science studies at Deakin provide a broad understanding of the current field of zoology, developing a range of practical and evidence-based decision-making skills. The degree examines the potential effects environmental change may have on the evolution, disease and physiology of animals and how they adapt to a changing environment. The social and economic impact that human activity has on animals and their ecosystems and vice versa is also explored.
Sport management is primarily concerned with managing organisations conducting sporting competitions, major events and community programs that encourage participation in sport. It also relates to the management of organisations involved in sporting goods, manufacturing, retail, promotion, and more.

**Bachelor of Business (Sport Management)**

People working behind the scenes in sport are often just as important as the players on the pitches, courts and fields. Deakin’s Bachelor of Business (Sport Management) teaches you about the business aspects of sport, including sport systems and organisations, finance, promotion, management and law. Ever considered managing an organisation that holds sporting competitions and major events? What about working in community programs that encourage participation in sport? Equipping you for roles in national and state organisations, as sporting goods manufacturers, facility designers, player agents and beyond, the Bachelor of Business (Sport Management) degree is perfect for anyone who would love to work in the exciting world of sport.

**The longest running degree**

There’s a reason Deakin’s sport management course attracts the greatest talent the nation has to offer: it is the oldest and most prestigious course of its kind in Australia!

**Leader in sport management**

Deakin has a long-standing reputation for excellence in sport education, which is why more students choose to study sport at Deakin than any other Victorian university. We are currently ranked in the world’s top 10 for postgraduate sport management programs, and we are the only Australian program to make it into the top 40. Even better news – our graduate salaries are fifth highest in the world.*

**Course information**

- **Course code:** M391
- **Years (full time):** 3
- **Campus:** [B C]
- **Intake:** T1 (March), T2 (July), T3 (November)
- **2019 annual fee:** $32 600
- **IELTS score:** 6/6

**Structure**

This course comprises 24 credit points, including:
- 16 core units
- 8 elective units.

**Careers**

Career opportunities in sport management have expanded considerably in the past 10 years. Sports, including Australian rules football, basketball, cricket, tennis and golf, plus national and state sporting organisations all require professionally framed people to work for them. In addition, there is a need for qualified people to manage facilities catering for sport at the local level through to those hosting national and international competitions.

**Related degrees**

Bachelor of Exercise and Sport Science/Bachelor of Business (Sport Management)

*This intake is available through the Cloud Campus only.
Bachelor of Sport Development

Sport development is distinctive due to its unique focus on three study streams: sport management and marketing, coaching and exercise, and sport science. It focuses on the development of sport, and community development through sport.

Course information

Course code: M320
Years (full time): 3
Campus: B
Intake: T1 (March)
2019 annual fee: $30,200
IELTS score: 6/6

Structure

This course comprises 24 credit points, including:

• 10 core units from the Faculty of Business and Law
• 10 core units from the Faculty of Health
• 4 credit points of elective units
• 0-credit-point safety induction unit.

Careers

Students are prepared for careers in coaching, the leisure industry, sports science and in community sports development. Career opportunities can include areas of sport coaching and leadership; elite sport pathway development; sport policy development and management; sport and recreation coordination and management; community and participation development; sport development through inclusion; diversity and access; and facilities development and management.

Bachelor of Sport Development

This degree draws on streams of study to build an understanding of sport programs and pathways, contemporary health and community development approaches, and the organisation, management and governance of sport organisations. The course is focused with increasing participation in sport and the quality of sport outcomes at elite and participation level through the design of sport systems to attract, retain and nurture participants. You will learn how to develop coaching programs and sport development philosophies, and examine theoretical aspects of the science of coaching and how sport is used as a vital tool for development. You will undertake analysis on agencies and organisations within the sports industry, at the same time examining and developing skills utilised by professional sport managers.

Who we work with

Deakin works with industry to bring you the most relevant knowledge and skills. Organisations we work with include:

• Baker IDI Heart and Diabetes Institute
• Disability Sports Australia
• Exercise Research Australia
• Geelong Football Club
• VicHealth
• Victorian Institute of Sport
• YMCA Australia.
Bachelor of Exercise and Sport Science

Learn how to apply exercise and sport science to improve the athlete, the team or the individual, through training, coaching and advice. The major focus of the course and your learning is to improve performance, health and participation of individuals, athletes and teams through training, coaching and advice.

Bachelor of Exercise and Sport Science

This field-leading degree applies knowledge and skills in exercise and sport science to improve the athlete, the team or the individual, through training, coaching and advice. Develop the necessary competencies to become professional leaders in exercise and sport science and allied fields, and have the opportunity to study the biological, sociological and behavioural bases of exercise and sport science. This degree provides a direct pathway for students to apply into the Master of Clinical Exercise Physiology.

Major sequences

- Exercise physiology
- Applied sport science
- Physical activity and health
- Sports nutrition
- Sport coaching
- Strength and conditioning
- Psychology
- Nutrition
- Health promotion
- Family, society and health
- Disability and inclusion

Ranked #1 in the world two years in a row

Deakin’s School of Exercise and Nutrition Science is ranked #1 in the world for Sport Science by the prestigious ShanghaiRanking’s Global Ranking of Sport Science Schools and Departments, 2016 and 2017. So you can be confident that your degree will be valued by employers everywhere.

Professional recognition

Deakin’s Bachelor of Exercise and Sport Science is accredited by Exercise and Sport Science Australia (ESSA), and is the first and longest-standing nationally accredited undergraduate exercise and sport science program in Victoria. All graduates are eligible to apply for accreditation with ESSA as an Accredited Exercise Scientist (AES).

Work experience

A minimum 140 hours of practical experience in your final year is a core feature of this degree, which, combined with one-on-one career mentoring by staff, sets you apart from other graduates.

Course information

Course code: H343
Years (full time): T1
Campus: Melbourne
Intake: T1 (March), T2 (July)
2019 annual fee: $34,000
IELTS score: 6.5/6

Structure

This course comprises 24 credit points, including:
- 16 core units
- 8 elective units.

Careers

As well as traditional roles in sport, exercise, coaching and fitness, you may work in sports administration, facility management, community health and wellness, rehabilitation or health promotion. Potential employers include government agencies, professional sporting bodies, hospital and rehabilitation clinics, fitness and aquatic centres, health and recreation centres or large business organisations.

Universities are all about creating, discovering, analysing, sharing and dispersing knowledge. By recruiting the best and brightest researchers, Deakin is among the world’s top research institutions, strengthening the link between knowledge transfer, policy and practice.

**Research at Deakin**

At Deakin, we are proud to provide our research students with access to world-class facilities, a network of academic supervisors who are world leaders in their fields, and a large range of research disciplines. We aim to make a difference through world-class innovation and research.

Our research portfolio extends across many areas, including advanced materials, biotechnology, built environment, ageing and chronic illness, citizenship and globalisation, intelligent systems, natural resource management, physical activity and nutrition, education, social and mental health, and more. Using our industry, government and institutional networks, Deakin is building our global research footprint across four key themes, supported by world-class research institutes and strategic research centres. The themes are:

**Improving health and wellbeing**

Covering the broad spectrum of health, our research is helping to improve the lives and wellbeing of people and communities on a global scale. From medicine, ageing, chronic illness and disability to nutrition, physical activity and child health, we are continuously striving to discover more through ground-breaking research.

**Designing smarter technologies**

Deakin is a world leader in carbon and short fibre, metals and steel research, electromaterials, corrosion, nanotechnology and composite materials. We are home to some of the best future-focused engineering and design facilities in the Australian university sector.

**Enabling a sustainable world**

Deakin leads one of the world’s most prestigious environmental and marine science research programs.

**Advancing society and culture**

Deakin research is helping to advance understanding of intercultural relations, politics and governance. We are also working to shape the future of education and art in Australia and around the world.

**Research degrees**

You can pursue postgraduate research studies in three different ways:

- **Master’s by research**, which is awarded for an original contribution to knowledge, achieved in up to two years of full-time candidature or part-time equivalent.
- **Doctor of Philosophy (PhD)**, which is awarded for a substantial original contribution to knowledge, achieved in two to four years of full-time candidature or part-time equivalent.
- **Doctor of Psychology (DPsych)**, which is a professional doctorate program that combines a research project, coursework and structured research tasks that specifically relate to professional practice.

**Research rankings**

Our strong commitment to research can be seen in Deakin’s excellent performance in the Australian Research Council’s ‘Excellence in Research for Australia’ (ERA) rankings. Deakin has about 1600 higher degree by research candidates – smart people making the most of our excellent facilities, partnerships, strategic research centres and excellent reputation.
Honours degrees at Deakin

If you are a high-achieving student set to finish your bachelor’s degree at Deakin, you might have the opportunity to undertake an honours degree with us. Studying at the honours level is a great way to get valuable research experience, improve your career opportunities or specialise in an area that you love.

Honours is a specialised year of study drawing together the theory and practical skills gained in your undergraduate studies. You will develop an in-depth knowledge of your chosen discipline through research and additional course work. Honours students are encouraged to take part in research seminars and forums and to present their research at conferences.

At Deakin you can apply to undertake honours in one of two ways:

On-course honours award
Choose a course that has honours embedded within the course, e.g. Bachelor of Occupational Therapy. This type of honours award recognises outstanding achievement in a bachelor’s degree program of four or more years, which has an embedded honours component.

Research-based honours award
Choose a course that allows you to undertake an additional year of study, e.g. Bachelor of Arts. This type of honours award allows you to undertake specialised research and research training while being supervised by an academic with a proven research record.

These honours awards will provide you with significant experience and exciting opportunities to expand your skill base before moving onto employment or postgraduate study. An honours award also provides the standard (and shortest) pathway for entry into research degrees.

For more information on honours degrees, visit deakin.edu.au/int-honours.
