Why choose Deakin?

At Deakin University, Australia, you get it all: innovative teaching, highly-ranked degrees and world-class facilities. The opportunities we provide through workplace experience, industry connections and research partnerships mean you get more than a well-respected qualification: you enjoy your study experience while getting ahead in your career.

Close links with industry
Deakin maintains close links with industry, government, professional associations and other educational providers to ensure our degrees are developed and reviewed with industry and professional input. Because of Deakin’s industry connections, professional accreditation is available through many Deakin degrees.

Research excellence
Deakin is committed to high-quality research, and provides outstanding facilities and a supportive environment for our students and academics. Deakin’s research portfolio extends across many different areas, including biotechnology; ageing and chronic illness; citizenship and globalisation; intelligent systems; nanotechnology and future materials; physical activity and nutrition; education; and much more. See page 7 for more about research at Deakin.

Deakin students are happy students
The experience of each student really matters to Deakin, from the quality of teaching to employability. This is why Deakin has maintained the highest level of overall student satisfaction among universities in the Australian State of Victoria for eight years in a row.

2 deakin.edu.au/international
Deakin has four welcoming and engaging campuses located in the Australia State of Victoria, as well as the innovative Cloud Campus (online). Each campus offers a unique study experience and Deakin’s local communities are friendly, safe and dynamic, making for a perfect study environment.

**Melbourne**

Melbourne is the multicultural heart of Australia – an international city that is home to people from all around the world. It is a city built for exploring: Coffee shops, galleries, music and amazing food can be found down every lane in the city centre. There is always something happening in Melbourne, from cultural festivals and world-class arts performances to international sporting events, like the Australian Open tennis tournament.

You can enjoy live music and soak up the sun at Federation Square, or ride a bike along the Yarra River. You can visit the native animals at the Melbourne Zoo, or spend mornings exploring the Queen Victoria Market tasting fresh and local produce.

**Geelong**

Geelong combines the best of city living with a more relaxed atmosphere. Located a short train trip from Melbourne, Geelong is a dynamic and safe coastal town with a spectacular waterfront lined with some of Geelong’s best cafes and restaurants. You can head to the surf coast where students take a break from their studies to enjoy a swim or surf; or check out the GMHBA Stadium football oval where the Geelong Cats – an Australian league football team and partner of Deakin – play their exciting games.

Geelong is a community that welcomes students. You will find Deakin students working in many of the local businesses and enjoying the wide range of activities and facilities that the town has to offer.

**Geelong Waurn Ponds Campus**

You get the best of both worlds at the Geelong Waurn Ponds Campus – world-class programs and superb facilities, as well as a relaxing, regional environment, close to some of Australia’s best surf beaches. Outdoor areas and spacious new buildings are perfect for both socialising and studying at this campus. It offers incredible sport facilities and is home to Deakin’s Elite Sport Precinct, which includes an Australian rules football oval, FIFA-grade soccer pitch, eight-lane 400-metre athletics track, outdoor basketball court and more. A deluxe health club complete with gym, workout studios and group fitness classes is also available.

**Geelong Waterfront Campus**

Deakin’s Geelong Waterfront Campus is right on the seafront in the heart of Geelong. Originally built as wool stores in the 19th century, the buildings have been extensively renovated, creating a modern, impressive campus. The campus is home to Deakin’s architecture and creative arts studios. Alongside a full range of accessible student services, the campus features nursing and health teaching facilities, including a purpose-built occupational therapy laboratory and nursing simulation environments.

**Melbourne Burwood Campus**

The Melbourne Burwood Campus is Deakin’s largest and has a lively and diverse culture. It is a short trip from Melbourne’s central business district. The campus boasts impressive buildings and world-class facilities, including the professional motion capture lab; dance, drama and television studios; food and nutrition labs; the nursing and midwifery Clinical Simulation Centre; IT gaming facilities; and much more.

Melbourne Burwood students love the relaxed suburban atmosphere and huge choice of learning and social spaces. The campus sits alongside parkland, which is great for cycling, walking and jogging.
Warrnambool

Set along one of the country’s most scenic coastlines, Warrnambool is the place to be for exploring Australia’s famously unique plant and animal habitats. Warrnambool is also a prosperous country town that offers comfortable living and a cultural scene hosted by a regional gallery and arts centre. Cruise up the Hopkins River or sit down to some excellent Southeast Asian cuisine on Liebig Street. Warrnambool has plenty of options for an active student, and the small town feel creates a sense of community that is harder to find in a big city. And for students (and parents) concerned about expenses, Warrnambool offers a lower cost of living than Melbourne and Geelong without sacrificing quality.

Warrnambool Campus

Deakin’s Warrnambool Campus is set on the banks of the picturesque Hopkins River, close to surf beaches and popular tourist attractions. It is a close-knit community, a place where students and lecturers really have the opportunity to get to know each other and work closely together. That sense of community extends to the whole of Warrnambool, providing support to new students in a relaxed, friendly atmosphere. But for those looking for an occasional jolt of big city excitement, trains run four times daily to Melbourne.

Cloud Campus

As a flagship provider of distance education for more than 40 years, Deakin has a unique understanding of students who need to study from afar. The Cloud Campus is a virtual, vibrant campus. It is your one-stop online shop to access lectures and resources, participate in live-stream seminars and class discussions, chat with lecturers and students, and submit assignments. When, where and how you study is up to you.

As a Cloud Campus student, you need to be a disciplined, independent and organised learner. Given your competing commitments, you will also need to be savvy when it comes to time-management and prioritising. That is why our Cloud Campus comes with orientation sessions, tailored support services, innovative but easy-to-use digital tools and resources, and a dedicated ‘student success coach’ to keep you on track.

With your own personalised digital study hub, we have made the transition to online study a smooth one. DeakinSync is the online place you will call home. It is where you will find everything you need to manage your enrolment and course material, communicate with your classmates and lecturers, sort out your timetable and even plan your career.

The Geelong Waurn Ponds Campus is home to the Deakin Medical School, the Centre for Advanced Design in Engineering Training (CADET), the REACH regional health hub and Deakin’s Geelong Innovation Precinct – all featuring the latest tech and tools.
Student services

At Deakin we want you to have a meaningful learning experience. To achieve this, we offer a complete range of services, from accommodation assistance to academic development and social activities, to ensure our students feel welcome.

Get started
We make it our priority to ensure that all new international students – many of whom have arrived in Australia for the first time – make a smooth transition to the University. Deakin’s welcome program includes orientation, workshops, social events, study groups and opportunities to get you involved in campus life. We will even pick you up from the airport.

Students Helping Students
No one understands students better than students. That is why experienced students – or mentors – are available to assist you with academic, practical or social matters to help you achieve your best results. This is a part of Deakin’s Students Helping Students service. Many student mentors are international students themselves, and know what it means to be new to Deakin and to Australia.

Study
At Deakin we want to help you get the most out of your learning experience. We have a team of staff and students dedicated to providing study support services to help you achieve this.

Deakin Genie
Deakin Genie is a mobile app that helps you keep on track with your studies. It is made up of chatbots, artificial intelligence, voice recognition, a predictive analytics engine, and many more exciting technologies. As a Deakin student, you can use Genie to keep a calendar of upcoming classes and assignments; set goals for the year and motivate yourself to achieve them; and access support services and learning tools from around the University.

Deakin Genie received the 2018 Digital Edge 50 award from IDG Communications, the world’s number one ranked media, data and marketing services company. This outstanding achievement is a reflection of the program’s high engagement and digital innovation.

Learn more about this incredible app at https://youtu.be/Xgavwl_aTAA.

Graduate employment
DeakinTALENT
Our unique DeakinTALENT program assists students to enhance their career planning, marketability and employment outcomes in Australia and beyond. Deakin’s long-standing relationships with industry organisations means you will learn what employers are looking for in a graduate.

DeakinTALENT offers the Deakin International Student Careers (DISC) program, which was created specifically for international students. We run workshops each trimester and provide resources and support to help you understand the Australian employment market and Australian workplace culture; build your experience; write a strong resume; and prepare your graduate job search, either in Australia or internationally.

At these events you will hear current students and graduates share their experiences, challenges and success stories about securing jobs and internships while living, working and studying in Australia.

SPARK@Deakin
An experiential program, SPARK@Deakin is designed to give our students the opportunity to experience the early stages of the entrepreneurial journey. Through interactive seminars and workshops, the program aims to inspire entrepreneurship and provides networking and mentoring opportunities to nurture successful start-up ideas.

Play
Getting involved in university life is a great way to meet new people, take on new challenges, and look after your health and fitness. As a Deakin student you can join more than 150 clubs and societies across all campuses. We have a diverse range of clubs, including sporting, academic, health, religious and many more.

Health, safety and wellbeing
Deakin offers a range of services to help students stay healthy, safe and promote personal wellbeing – physically, mentally and spiritually.

Deakin Medical Centre
Deakin Medical Centre provides professional medical and nursing healthcare and advice to students. Medical centres are located on all campuses. Campus nurse consultations are free and strictly confidential. Campus doctors bill directly through your Overseas Student Health Cover (OSH).

Safety
Deakin’s campuses and communities are safe places for students. Even so, security officers are on duty 24 hours a day, 7 days a week and are based at all campuses to ensure the safety of students and staff. Safer Community is a service available for support, advice or information if something just doesn’t feel quite right. In addition, SafeZone is a free phone app for all Deakin students and staff, that connects you directly to the security team if you need help on campus.

Supportive and inclusive environment
Deakin promotes a diverse, inclusive and supportive environment through a number of services and initiatives. The Disability Resource Centre (DRC) provides individual support to students with a disability or health condition to successfully participate in their studies and university life. The ALLY Network creates a more diverse and inclusive culture by promoting greater visibility and awareness of lesbian, gay, bisexual, transsexual, intersex, queer or questioning (LGBTIQ) students and staff.
Accommodation

For many students, moving away from home is a part of the university experience. This is particularly true for international students, many of whom are living overseas for the first time. Deakin has a variety of accommodation options to make you feel at home.

On-campus accommodation
Living on campus offers a unique opportunity to immerse yourself in the Deakin experience. Accommodation is available at the Melbourne Burwood, Geelong Waurn Ponds, Geelong Waterfront and Warrnambool campuses. Residences provide an affordable and secure living and learning community ideal for personal growth and academic success.
You will have your own private bedroom and share a fully-equipped kitchen, spacious living and dining room, with an air conditioning unit and bathrooms. All rooms are furnished, carpeted, heated and equipped with a bed, desk, Wi-Fi and data point linked to the University network.
All Deakin residents have access to a range of support services, including support staff, the management and administration team and 24-hour Deakin security staff. The residences team provides a program of social, personal, academic and sporting activities, ensuring a smooth transition to university life and a rewarding and enjoyable experience. Residences at all campuses are self-catered, with food outlets available.
Indicative weekly rates: $275 – $350*
*Price based on the Melbourne Burwood Campus costings. Rates will be cheaper at the Geelong and Warrnambool locations.

Off-campus accommodation
Students can search for off-campus accommodation using Deakin’s Houseme database. You will find a variety of off-campus accommodation opportunities, including long-term, short-term and casual options available to rent.
You can also access a range of free self-help resources to assist with understanding:
• when to start your accommodation search and how to go about it
• the cost associated with finding accommodation
• things to consider at property inspections
• locations around each campus
• rights and responsibilities when renting in the Australian State of Victoria.

Medical accommodation precinct
The Geelong residences provides 10 self-contained individual modular units/pods, each housing three people. There are also seven townhouses comprising two bedrooms each with ensuite bathrooms.

Homestay
Students at the Deakin University English Language Institute (DUELI) have the option of staying in a host family home. This provides a great opportunity for students to improve their English in everyday situations and to learn more about living in Australia.

What is included?
All fees are inclusive of social, community, health and wellbeing; arts and cultural; and leadership programs. Fees are also inclusive of all utilities, including rent, gas, water, fast internet and electricity. Across all our accommodation facilities, residents have exclusive access to landscaped courtyards, indoor and outdoor communal cooking and entertaining facilities, recreational spaces, study rooms, free laundries, secure bike storage and movie rooms.

dequin.edu.au/post-accommodation
With an international outlook and a commitment to research driven by the needs of communities, Deakin is forging research partnerships with institutions and industry players around the world. By working towards a higher degree by research you will be making yourself part of a community devoted to success and mutual support.

Deakin Research

Using our industry, government and institutional networks, Deakin is building our global research footprint across four key themes, supported by world-class research institutes and strategic research centres. Each of Deakin’s faculties – Faculty of Arts and Education; Faculty of Business and Law; Faculty of Health; and Faculty of Science, Engineering and Build Environment – are heavily involved in conducting research that helps to inform course content and degree relevance. The faculties focus their research around the following four themes:

- Improving health and wellbeing
- Designing smarter technologies
- Enabling a sustainable world
- Advancing society and culture.

Applying for a research degree at Deakin

You can use Deakin’s online higher degree by research application form to apply for a research degree. You will need to attach proof of citizenship, academic transcripts, a research proposal, referee reports and other certified documents.

Improving health and wellbeing

Covering the broad spectrum of health, our research is helping to improve the lives and wellbeing of people and communities on a global scale. From medicine, ageing, chronic illness and disability to nutrition, physical activity and child health, we are continuously striving to discover more through ground-breaking research.

Research snapshot

Our health systems research uses a multidisciplinary approach to understand, develop and deploy systems of care to optimise health outcomes. We offer research into obesity prevention, disability and inclusion, epidemiology, as well as health technology assessment, mental health, child and maternal health, cancer, cardiovascular disease, and diabetes.

In a world first, our researchers will determine whether improving diet has a positive impact on depression. We are also looking at the major milestones in emotional life, providing advice on the most effective approaches to intervening troubled pathways, and engage systems for translating this knowledge more broadly. Deakin’s research in autism has led to the adoption of improved diagnostic and treatment guidelines by the international medical community.

Institutes and strategic research centres related to this research

- Institute for Physical Activity and Nutrition
- Institute for Intelligent Systems Research for Innovation
- Institute for Frontier Materials
- Centre for Advanced Sensory Science
- Centre for Molecular Medical Research
- Centre for Pattern Recognition and Data Analytics
- Centre for Innovation in Mental and Physical Health and Clinical Treatment
- Centre for Quality for Patient Safety Research
- Centre for Social for Early Emotional Development
- Centre for Population Health Research
- Centre for Sport Research

Deskining smarter technologies

Deakin is a world leader in carbon and short fibre, metals and steel research, electromaterials, corrosion, nanotechnology and composite materials. We are home to some of the best future-focused engineering and design facilities in the Australian university sector.

Research snapshot

Be it robotics, pioneering research in big data or developing high-tech aerospace-grade carbon fibre composites, our researchers are dedicating their knowledge to solving 21st century problems through cutting-edge, smart technologies.

In the field of energy, our researchers are making outstanding progress in developing more efficient energy storage systems. Deakin is researching a number of new battery technologies and their large-scale prototyping.

In analytics, an innovative data-mining initiative is currently being introduced across 10 hospital branches in India. This joint project involves using data to identify critical safety issues and improve efficiencies.

Institutes and strategic research centres related to this research

- Institute for Frontier Materials
- Institute for Intelligent Systems Research and Innovation
- Centre for Cyber Security Research
- Centre for Pattern Recognition and Data Analytics
- Centre for Regional and Rural Futures

Featured facilities

- Carbon Nexus
- Deakin Motion.Lab
- Virtual Reality (VR) Lab
- Electron Microscope Facility

To view the full list of Deakin’s strategic research centres, visit deakin.edu.au/post-research.
Enabling a sustainable world
Deakin leads one of the world's most prestigious environmental and marine science research programs.

Research snapshot
Our ecologists are helping to protect Australia's vulnerable flora and fauna from disease, rapid development and climate change.

Our marine researchers have developed the purpose-built research vessel Yolla which houses the most advanced sonar system in the world. The data it collects plays a key role in supporting fishery and conservation management of marine environments.

The global aquaculture industry is also being supported by our nutritionists. The team is investigating the effect of farmed fish diets on human nutrition. A crucial significance given the global shortage of appropriate fish food.

In the agricultural sphere, a team of experts is focusing on solving productivity problems. In consultation with farmers, scientists are developing sophisticated lab-on-a-chip technology to optimise livestock health.

Water management advice is also being provided to farmers and rural planners both here in Australia and overseas.

Through every project and program, our research is driving outcomes that provide solutions to global environmental and sustainability issues.

Institutes and strategic research centres related to this research
• Institute for Frontier Materials
• Centre for Integrative Ecology
• Centre for Regional and Rural Futures

Featured facilities
• Advanced Characterisation Facility
• Electromaterials Facility

Advancing society and culture
Deakin research is helping to advance understanding of intercultural relations, politics and governance. We are also working to shape the future of education and art in Australia and around the world.

Research snapshot
Our research ranges from identifying strategies to improve equity for children with disabilities, to building ‘Asia Literacy’. We also have close involvement in the UN’s annual economic and social index for all countries within the Asia–Pacific region.

In the technical domain, we are exploring the risk, governance and legal issues of cyber security. Deakin researchers are also developing creative solutions in the field of movement-based art and technology.

Deakin is a leader in providing higher education opportunities to indigenous students and supporting research on indigenous culture. Deakin’s Institute of Koorie Education offers subjects on Aboriginal studies to all students, providing an introduction to Aboriginal Studies and insights into Aboriginal knowledge and experiences.

And in education, our researchers are helping to lead a major national program that aims to increase the study of science and technology in secondary education.

Institutes and strategic research centres related to this research
• Alfred Deakin Institute
• Centre for Creative Arts Research
• Centre for Cyber Security Research
• Research for Educational Impact

Featured facilities
Deakin Motion.Lab

Institute for Frontier Materials (IFM)
The Institute for Frontier Materials features world-class facilities for studying materials across a range of scales – from atomic to industrial size. Our researchers bring together expertise in materials science, chemistry, engineering and other disciplines to address some of the major challenges facing society through innovations in material design and performance. They collaborate closely with national and international manufacturing industries. In the field of energy, our researchers are making outstanding progress in developing more efficient energy storage systems. IFM offers credit point units in subjects such as Advanced Manufacturing, Future Fibres, Nanomaterials and Energy within the Master of Engineering.
Deakin degrees have eligibility requirements that you must meet in order to gain entry into your course of choice. Each Deakin degree has its own academic entry requirements that applicants are expected to meet in order to gain entry.

Academic entry requirements differ from each Deakin degree. You can find your chosen course’s entry requirements by visiting the course’s page in this guide. Further information can be found at the Deakin website, and you can also speak with Deakin’s international admissions team throughout the application process. All academic admission requirements must be fulfilled prior to admission.

Below are the broad academic admission requirements by level of study. Some courses have additional entry requirements specific to that course and can be found on the course pages of this guide.

Please note that additional work experience requirements apply for entry into certain programs. For further information on specific courses, visit deakin.edu.au/post-requirements.

### Graduate Certificate and Graduate Diploma

Applicants applying for entry into a Graduate Certificate or Graduate Diploma program must have:

- an approved undergraduate degree, or comparable, from an approved university or other educational institution; or
- comparable qualifications gained by examination or relevant professional or industrial experience.

### Master’s degree by coursework

Students applying for entry into a master’s by coursework degree are required to have completed at least a bachelor’s degree, or comparable, of an acceptable standard from an approved university or other educational institution. Master’s degrees by coursework that include a research stream may provide a possible pathway to PhD candidature.

### Master’s degree by research

Applicants must hold a bachelor’s degree with honours (lower second class and above), or equivalent, from a recognised tertiary institution in an appropriate discipline. You must also have demonstrated capacity to undertake significant research in the proposed field for which Deakin can provide the required supervisory expertise.

Applicants are encouraged to contact Deakin faculty staff to discuss research areas of interest before submitting your application.

### Doctoral programs

Applicants must hold a bachelor’s degree with honours (upper second class and above) or a master’s degree by research from a recognised tertiary institution in an appropriate discipline, as well as demonstrated capacity to undertake significant research in the proposed field for which Deakin can provide the required supervisory expertise.

Applicants are encouraged to contact Deakin faculty staff to discuss research areas of interest before submitting an application.

Please note: this information is a guide only. Check the course handbook at deakin.edu.au for specific course entry requirement.
Masters Qualifying Program (MQP)

Some overseas study programs do not meet our academic standards for postgraduate study. This is why Deakin College offers the Masters Qualifying Program (MQP).

Masters Qualifying Program (MQP)
The MQP program is a Deakin University program jointly delivered by the Deakin University English Language Institute (DUELI) and Deakin College. The MQP is an alternative pathway for entry into postgraduate business degrees at Deakin University. It is designed to help you succeed in your postgraduate business studies. The MQP combines postgraduate academic skills development with communication and English language training.

The MQP is a non-award course that is taken over one trimester at the Melbourne Burwood Campus. Students complete two discipline-based units, as well as two units of English language and academic skills instruction. Successful completion of the MQP program will enable students to meet the academic and English language requirements for entry into their specified postgraduate program at Deakin University.

Eligible Deakin degrees

The MQP can prepare you for the following Deakin University postgraduate courses:

Master’s courses (2 years):
- Accounting and International Finance
- Business (Sport Management)
- Business Administration (International)
- Commerce
- Information Systems
- International Finance
- Marketing

Master’s courses (1.5 years):
- Business Administration (MBA)
- International Business
- Professional Accounting

Graduate diploma courses (1 year):
- Business Administration
- Commerce
- Information Systems
- International Finance
- Professional Accounting

English language requirements
An overall band score of 6 or higher in the International English Language Testing System (IELTS) test, with no individual band score less than 6 or equivalent. For equivalent scores in other English tests, see Band A in the table on page 12.

Academic admission requirements

For a detailed listing of the minimum admission requirements for the MQP, visit deakin.edu.au/post-mqp.

Admission requirements for students from China
Three-year diploma (full-time, self-study or adult education) from a degree granting institution recognised by the Chinese Ministry of Education (completion certificate must be provided), where:

- an overall weighted average mark of 70 percent has been obtained over three years of study
- the curriculum of the diploma has been developed by the degree granting institution and is delivered by the institution or its affiliates, or
- four-year bachelor’s degree from a degree granting institution recognised by the Chinese Ministry of Education without degree parchment (completion certificate must be provided).
English language requirements for postgraduate students

In order to gain entry to a postgraduate degree at Deakin you will need to demonstrate that you have the appropriate level of English language skills. There are two options available for international students to meet the English language requirements for their degree:

**Option 1** – You have completed previous studies in English (conditions apply). *

**Option 2** – You received a high enough score on an approved English language test.*

* Applicant’s previous studies or English language test results must have been within the last two years to meet Deakin’s English language requirements.

---

**English is the language of instruction and assessment at Deakin. You will need to demonstrate your English language ability to be eligible to enter the Deakin degree of your choice.**

---

**Option 1 – Previous studies in English**

In some cases, Deakin will recognise previous studies in English as being enough to meet your course’s English language requirements. If you have previously studied in an institution where English was the language of instruction and assessment, you might meet Deakin’s English language requirements. For example, students who complete the whole of their undergraduate studies in select English-speaking countries may meet the requirements.

For a complete list of previous studies and assessment results that meet Deakin’s English language requirements visit deakin.edu.au/post-english.

---

**Option 2 – Approved tests**

Deakin accepts results from many international English language tests. If you earn a sufficient score on one of these tests you can meet the English requirements for your course of choice.

The table on the opposite page shows the approved English language tests and the scores for BAND A through BAND E.

Most postgraduate courses at Deakin require English language test scores equal to or better than the scores in BAND B. However, some postgraduate degrees require higher levels of English proficiency. The course pages throughout this Guide will provide you with the minimum IELTS scores for entry into each course. Check your course to see what the English language requirement is.

If you have taken an English test other than the IELTS exam, use the table on the opposite page to find out the score that is the equivalent of the minimum IELTS score for your course.

---

If you meet the academic requirements to study at Deakin, you can still apply even if your English does not meet our requirements. Qualified students who need help with their English will receive a conditional offer that allows you to study at the Deakin University English Language Institute (DUELI). If you successfully complete the necessary English language programs at DUELI, you will gain direct entry to your course at Deakin. You can learn more about DUELI on pages 13 – 14.

DUELI EAP: Deakin University English Language Institute English for Academic Purposes program
Deakin English

Do you need help meeting Deakin’s English language requirements? Or do you want to improve your English and study skills before starting your degree? Deakin University English Language Institute (DUELI) can help you improve your English and prepare you for study at Deakin.

Meet Deakin’s English requirements
DUELI can help you meet the English language requirements for your Deakin University degree. Successful completion of DUELI’s English for Academic Purposes (EAP) pathway programs can provide you with entry into most degrees at Deakin University and Deakin College. DUELI also has specialised English programs for Teaching that provide entry into study at Deakin University.

The DUELI advantage
DUELI is recognised as one of the best English language centres in Australia. As part of Deakin, DUELI will do more than improve your English: it will give you the chance to improve your study skills and become familiar with studying at an Australian university. Courses start every five weeks.

DUELI is part of Deakin University
DUELI is more than an English language centre; it is part of Deakin. As a DUELI student you will have access to all of Deakin’s facilities and services, including libraries, health services, cafes and restaurants, and Deakin’s sport facilities.

ENGLISH LANGUAGE REQUIREMENTS

What can you study?

**English for Academic Purposes (EAP)**
EAP programs prepare students for university studies in Australia. You can meet Deakin’s English language requirements for most postgraduate courses by successfully completing the EAP 3 program. For most Health Faculty courses you can meet the English language requirements by successfully completing EAP 4.

**General English (GE)**
GE programs offer students at all levels the chance to use English confidently and correctly. GE programs can prepare beginner English speakers for the EAP program.

**English for Teaching**
English requirements are generally higher for teaching programs at Deakin. The five-week English for Teaching program is an intensive English program for advanced students. You can meet the English language requirements for education courses by successfully completing the English for Teaching program.

**Entry requirements:**
- IELTS score of 7 (no band lower than 7), or
- Completion of EAP 4 with an overall score of 70 per cent.

**IELTS Preparation**
This is a special five-week IELTS preparation program at Deakin’s official IELTS Test Centre. The program has been designed to equip students with the knowledge and skills to succeed in an IELTS exam.

**Entry requirements:**
- Minimum IELTS score of 5.5 or equivalent.

**Intensive Academic Preparation (IAP)**
The IAP program is a five-week program for high-level students with IELTS scores of 6.5 or above. The IAP program is designed to develop the writing, reading, listening and speaking skills needed to achieve success at university. This is a high-level course for students who wish to excel in their degree program and for Australia Award scholarship students.

Accreditation
DUELI is accredited by the Tertiary Education Quality and Standards Agency (TEQSA) and is a member of English Australia, NEAS and University English Language Centres of Australia (UECA).

How to apply

Below is a step-by-step process of how to apply to study a master’s by coursework, graduate diploma and graduate certificate at Deakin. Application processes and requirements may differ slightly depending on your chosen degree, as well as your country of residence and entry pathway.

1. Find your course
   Using the course pages of this Guide, choose the degree you wish to study. You can apply to Deakin at any time throughout the year, and Deakin’s international admissions team is always ready to quickly process applications and assist with any questions you may have.

2. Understand the entry requirements
   Entry requirements for each Deakin degree differ, and also depend on your country of residence. The minimum entry requirements for Deakin postgraduate degrees can be found by visiting the course page within this Guide. It is important that you understand the entry requirements for your degree before you submit your application to Deakin.

3. Understand the English language requirements
   All applicants need to meet Deakin’s English language requirements – to the level necessary for their course. Minimum International English Language Testing System (IELTS) scores are included in the course information of this Guide. To find out more about Deakin English language requirements, see page 11 of this Guide.

4. Gather supporting documents
   When you apply to study at Deakin, it is important to attach all requested supporting documentation, otherwise your application could be delayed or rejected. Remember, most documents need to be certified before you upload them so give yourself plenty of time to get organised. Certified copies include: award certificates, academic transcripts and formal identity papers (e.g. your passport). Documents in languages other than English will need to be translated. If you are applying for a scholarship, please also check the specific supporting documents for that scholarship.

5. Certify your documents
   Most documents need to be certified before you upload them. Certified copies of documents are photocopies that have been sighted along with the original document by an authorised person. Visit deakin.edu.au/post-apply to see how you can certify your documents and who they can be certified by. Deakin does not accept documents that have been electronically certified. Documents submitted by mail will not be returned, so do not send originals unless asked by Admissions.

6. Submit your application
   You can submit your application to study at Deakin using a variety of methods:
   - Email: You can download an interactive pdf application form from the Deakin website. Complete this form on your computer or smart phone by entering your details into the interactive spaces. After completing the relevant form you can email your application to Deakin. The email address can be found on the form.
   - Through a representative: You can submit your application through one of Deakin’s experienced representatives. Find a Deakin representative in your country at deakin.edu.au/post-reps.
   - Applying online: Using Deakin’s online application process is quick and easy. After submitting your application online, you will be asked to provide certified documentation.
Cost of living

Beyond tuition fees, there are a number of other costs that you need to consider before you apply to study at Deakin. Below is some indicative information for living and studying in Australia, as well as Deakin scholarships that could help support you while you study.

The Australian Government provides average living cost estimations for international students living and studying in the Australian State of Victoria. Costs vary depending on where you live, for example living in Melbourne is slightly more expensive than living in Warrnambool. For more information about living costs visit studyinaustralia.gov.au.

### Accommodation

<table>
<thead>
<tr>
<th>Type</th>
<th>Cost per week</th>
</tr>
</thead>
<tbody>
<tr>
<td>Hostels and guest houses</td>
<td>$90 to $150</td>
</tr>
<tr>
<td>Shared rental</td>
<td>$85 to $215</td>
</tr>
<tr>
<td>On campus (inclusive of amenities)</td>
<td>$280 to $356</td>
</tr>
<tr>
<td>Homestay</td>
<td>$235 to $325</td>
</tr>
<tr>
<td>Rental</td>
<td>$165 to $440</td>
</tr>
</tbody>
</table>

### Other living expenses

<table>
<thead>
<tr>
<th>Type</th>
<th>Cost per week</th>
</tr>
</thead>
<tbody>
<tr>
<td>Groceries and eating out</td>
<td>$80 to $280</td>
</tr>
<tr>
<td>Gas, electricity</td>
<td>$35 to $140</td>
</tr>
<tr>
<td>Phone and internet</td>
<td>$20 to $55</td>
</tr>
<tr>
<td>Public transport</td>
<td>$15 to $55</td>
</tr>
<tr>
<td>Car (after purchase)</td>
<td>$150 to $260</td>
</tr>
<tr>
<td>Entertainment</td>
<td>$80 to $150</td>
</tr>
</tbody>
</table>

### Minimum cost of living

The Department of Home Affairs has financial requirements you must meet in order to receive a student visa for Australia. From 1 February 2018 the 12 month living cost is:

<table>
<thead>
<tr>
<th>Group</th>
<th>Cost per year</th>
</tr>
</thead>
<tbody>
<tr>
<td>You</td>
<td>$20,290</td>
</tr>
<tr>
<td>Partner or spouse</td>
<td>$7,100</td>
</tr>
<tr>
<td>Child</td>
<td>$3,040</td>
</tr>
</tbody>
</table>

All costs are in Australian dollars.

* On-campus estimated cost is for Deakin’s Melbourne Burwood Campus and includes amenities, such as electricity, gas and internet.

* On-campus accommodation costs for the Geelong and Warrnambool campuses are lower.

### Overseas Student Health Cover

In addition to tuition fees, all on-campus international students are required to pay Overseas Student Health Cover (OSHC). OSHC service providers offer reduced rates for students who pay upfront for health coverage for the entire length of their visa. The amount payable will be included in your Offer Letter.

### Scholarships

At Deakin, we believe everyone should have the option of going to university. There are scholarships available to international students through Deakin and through other parties, including the Australian Government.

Deakin has recently introduced two new scholarships for international students:

- **Deakin Vice-Chancellor’s International Scholarship** offers a 100% or 50% tuition fee reduction for the normal duration of your course, acceptance into Deakin’s signature leadership program, and priority place in on-campus accommodation (at own cost and subject to availability).

- **Deakin International Scholarship** offers 25% tuition fee reduction for the normal duration of your course.

Both scholarships recognise high-achieving students with consistently high academic performance who have the potential to make a leading contribution to the University and its communities.

For a full list of scholarship opportunities open to international students, and information on how to apply, visit deakin.edu.au/post-scholarships.
The rest of this guide will explore the postgraduate degrees that Deakin has to offer. Discover the entry requirements for our degrees and learn about our state-of-the-art facilities, work experience opportunities, accreditation and much more.

To begin, find the study area or degree that you are interested in by searching the tables over the next few pages. There you will find a page number for your chosen course. Go to that page to find lots of interesting information about your degree.

Below is a key reference of icons and language used throughout this guide. You will find this valuable when exploring the course pages.

The course information is designed to be used as a companion to the Deakin website, which contains more detailed information.

We encourage you to visit our website at deakin.edu.au/international, or email us with any questions you might have at study@deakin.edu.au.

---

**Campuses**

- B Melbourne Burwood Campus
- WP Geelong Waurn Ponds Campus
- WF Geelong Waterfront Campus
- WB Warrnambool Campus
- C Cloud Campus (online)

**Trimester intakes**

- T1 Trimester 1 (March)
- T2 Trimester 2 (July)
- T3 Trimester 3 (November)

**Course duration**

- 2 Course duration in years

**Course code**

- S792 Every Deakin degree has a corresponding course code for easy reference and identification.

**IELTS scores**

Example: 6.5/6

IELTS is the International English Language Testing System. The numbers reflect the minimum overall score required as well as the lowest score allowed for any band (overall score/lowest band score). Deakin also accepts the results of other English language tests. For more about English language requirements see page 11.

**Course structure**

**Unit**

A Deakin unit is normally one trimester long and must have a value of 1 or 2 credit points.

**Credit point**

For each unit you successfully complete, you will receive the credit point value of that unit towards your studies. You must complete a specified number of credit points to obtain your degree. Most bachelor’s degrees require 24 credit points, though some require more.

**Specialisation**

A specialisation is a group of related units which are usually a further study within a particular area or field of study. A successfully-completed specialisation may be listed on your academic transcript.

**Course fees**

Example: $30,800

The annual course fee indicates the tuition fee for two trimesters of full-time study, or 8 credit points, unless otherwise indicated. Additional fees may apply and course fees may be subject to change.

For more information about fees visit deakin.edu.au/post-fees.

**Graduate Diplomas and Certificates**

Example: Graduate Diploma of Professional Accounting and Graduate Certificate of Professional Accounting

Graduate certificates and graduate diplomas build upon a bachelor’s degree or work experience. They add practical and vocational skills, and are career specific.

Deakin offers a wide range of graduate diplomas and certificates. By visiting a course page of interest in this Guide, you will find a list of association graduate diplomas and certificates under the ‘related programs’ section.

For more information on these programs, visit deakin.edu.au/international to complete a course search.

* Degree duration depends on the entry point you choose.

* Unlike most Deakin courses, this degree operates on a medicine semester system.

* This degree is a 3.5 year accelerated full-time program delivered over 10 consecutive trimesters. This means you will study three trimesters each calendar year.

* The 2019 course fee for this course is for three trimesters of full-time study in a single calendar year.

* Due to Australian Government regulations, student visas to enter Australia cannot be issued to students who enrol in Deakin’s Cloud Campus. To participate in the mandatory campus-based scheduled sessions, it is suggested that you apply for a tourist visa to enter Australia. Please be advised that Deakin University cannot guarantee that you will be granted a tourist visa by the Australian Government.

* As this course is conducted via the Cloud Campus (online), it does not meet requirements for obtaining a student visa to study onshore.

* Students entering the degree with a related academic or professional background may be eligible for credit transfer and recognition for up to 4 of the foundation units, reducing the full-time duration from 2 years to 1.5 years.

~ Intake available at the Cloud Campus only.

# The 2019 annual course fee for this degree is based on the typical course load for two trimesters of part-time study.

* A shorter course duration may be available to those who have completed previous studies in a similar discipline or with relevant work experience. Please visit the course page on the Deakin website for more details.
Explore the design of physical environments, from residential and cultural through to commercial and industrial. Get a specialist education that builds upon an established background in architecture and built environment studies.

Course information
Course code: S700
Years (full time): 2
Campus: WF
Intake: T1 (March), T2 (July), T3 (November)
2019 annual fee: $33,400
IELTS score: 6.5/6

Structure
This degree comprises 16 credit points, including:
- 9 core units (totalling 12 credit points)
- 4 elective units
- 2 zero-credit-point compulsory units.

Minimum entry requirements
Bachelor’s degree in architecture (accredited) with a weighted average mark (WAM) of 60 (or equivalent), or a portfolio of relevant work.

Master of Architecture
The Master of Architecture develops your skills and knowledge in architectural design research and resolution, urban ecologies and contexts, integrated project evaluation, and performance-measured sustainable design. All of these are expected in modern professional practice. You will also undertake advanced studies in cultural, technological, design, environmental and theoretical knowledge. Plus, you will study the ethical, evaluative and research frameworks that underpin the architecture field.

Professional Recognition
Deakin’s postgraduate architecture programs are accredited by leading industry bodies. These include, within Australia, the Australian Institute of Architects (AIA), Architects Accreditation Council of Australia (AACA) and the Architects Registration Board of Victoria (ARBV). This course has been validated and recognised by the Board of Architects Malaysia (Lembaga Arkitek Malaysia) to be included on their ‘List of Recognised Architectural Programmes’.

World-class facilities
Deakin’s School of Architecture and Built Environment has been refurbished, creating an open and engaging environment that strengthens the school community and enhances our students’ learning experience. These include the new IDeEA laboratory (Interdisciplinary Design environments for Engineering and Architecture), as well as a new, well-equipped workshop accommodating 3D printing, CN routers and 2D laser cutting, and a state-of-the-art design studio open 24 hours, seven days a week.

Highly ranked
Deakin’s architecture programs are ranked in the Top 1% of all universities worldwide, according to QS World University Rankings by Subject 2018. This means you can be confident that your Deakin degree will be well respected by employers.
Master of Construction Management

Learn about the effective procurement of built facilities and the growing imperative for sustainable development. Expand your understanding of construction management through innovative practice, cutting-edge research and leadership training.

Professional Recognition

Deakin’s Master of Construction Management degrees are professionally accredited by the Royal Institution of Chartered Surveyors (RICS) and the Australian Institute of Quantity Surveyors (AIQS).

Career outcomes

Graduates will find career opportunities in the fields of quantity surveying and construction management with a wide spectrum of employers, which include construction companies, quantity surveying, project management and construction consultants.

Master of Construction Management

This degree blends innovative practice and cutting-edge research using a case-based approach to learning. This provides you with specialist skills related to the theoretical, policy, evaluative and research frameworks that underpin the construction professions. It is ideally suited to those with a construction background seeking to upskill, as well as those who have completed an undergraduate degree in a related area who are looking to enter the construction management profession. The Master of Construction Management gives you an understanding across a variety of roles relevant to quantity surveying and construction management.

Course information

Course code: S791
Years (full time): 1.5
Campus: WF C
Intake: T1 (March), T2 (July), T3 (November)
2019 annual fee: $35 800
IELTS score: 6.5/6

Structure

This degree comprises 12 credit points, including:

- 11 core units (totalling 12 credit points)
- 0-credit-point compulsory unit.

Minimum entry requirements

- Bachelor’s degree in a related discipline, OR
- Bachelor’s degree in any discipline plus 5 years of relevant work experience.

Master of Construction Management (Professional)

This degree provides you with specialised skills related to the theoretical, evaluative and research frameworks that underpin the construction professions. Students will be challenged to stretch their thinking in a supportive environment and instilled with the motivation to be independent learners in their career. You will work in a multi-disciplinary context to explore topics that are at the forefront of the built environment industry, including project feasibility evaluation, cost planning, professional business practice, construction measurement, commercial construction organisation, design management, legal risk management, sustainability and strategic construction procurement.

Course information

Course code: S792
Years (full time): 2
Campus: WF C
Intake: T1 (March), T2 (July), T3 (November)
2019 annual fee: $35 800
IELTS score: 6.5/6

Structure

This degree comprises 16 credit points, including a 0-credit-point compulsory unit. All units are core units.

Minimum entry requirements

- Bachelor’s degree in a related discipline, OR
- Bachelor’s degree in any discipline PLUS 5 years of relevant work experience.

* Students have the opportunity of completing the course in one calendar year full-time (3 trimesters) by undertaking units in Trimester 3.
Master of Landscape Architecture

Build upon your knowledge of maintaining the quality, sustainability and development of towns, cities and regional landscapes. A career in landscape architecture could propel you into the world of project management, urban design and change management planning.

Master of Landscape Architecture

Focused on sustainability, this program addresses the creation of quality places in response to current and future environmental and lifestyle challenges. Distinguishing characteristics of the program include its engagement with ecology, spirit of place, people, Indigenous thought and urban design to inform and craft places of renewal, stimulation, healing and respect. Graduates will be equipped with the leadership skills to challenge conventional thinking within complex environments, as well as the practical skills required to deliver the creation and restoration of landscapes.

Course information

Course code: S703
Years (full time): 2
Campus: WF
Intake: T1 (March), T2 (July), T3 (November)
2019 annual fee: $33 400
IELTS score: 6.5/6

Structure

This degree comprises 16 credit points, including:
• 11 core units (totalling 13 credit points)
• 3 elective units
• 2 zero-credit-point compulsory units.

Minimum entry requirements

Bachelor’s degree in a related discipline with a weighted average mark (WAM) of 60 (or equivalent), or a portfolio of relevant work.

Professional recognition

The Master of Landscape Architecture is professionally accredited by the Australian Institute of Landscape Architects (AILA). It has been designed in direct consultation with AILA, potential employers, industry, government and professional representatives. It is co-taught by many of these representatives, to ensure it provides graduates with the knowledge, skills and competencies sought by employers.
Accounting at Deakin

Complex global markets and reporting requirements mean that accounting has never been a more dynamic and exciting profession. Businesses and individuals increasingly rely on accountants to assess their financial situation and give advice on financial dealings. Deakin offers a number of accounting degrees to cater for your career aspirations.

Graduate job-ready
At Deakin, we understand that professional experience, particularly for postgraduate students, plays a critical role in enhancing your employability to take the next step in your career. Work-integrated learning gives you the opportunity to enhance your job prospects, enrich your résumé and network within the industry, all while gaining credit towards your degree.

Leading the way
Deakin is ranked in the Top 1% of all universities worldwide for accounting and finance, and the Deakin Business School is accredited by the Association to Advance Collegiate Schools of Business (AACSB), the longest-serving global accrediting body for business schools in the world. Only 5 per cent of business programs worldwide are AACSB accredited and Deakin Business School is one of only three in the Australian State of Victoria.

Accreditation
Deakin’s accounting programs are professionally accredited.
Completion of the appropriate selection of units within the Master of Professional Accounting grants eligibility for entry as an associate member of CPA Australia. It also meets the educational requirements for entry into the CA program of the Chartered Accountants Australia and New Zealand (CAANZ), the Institute of Public Accountants (IPA), Professional Accounting Program (PEP). Upon completion of appropriate program units, it is also possible to receive exemptions from the Association of Chartered Certified Accountants (ACCA) towards the ACCA qualification.
On successful completion of the Master of International Accounting you will not only gain exemption from all nine ‘fundamental’ level Association of Chartered Certified Accountants papers, but also have the necessary knowledge to undertake ACCA’s six ‘professional’ level examinations.
In addition to the ACCA qualification, completion of the appropriate selection of units within the Master of International Accounting also grants eligibility for entry into alternate professional bodies, including an associate member of CPA Australia, and meets the educational requirements for entry into the CA program of Chartered Accountants Australia and New Zealand (CAANZ) and the Institute of Public Accountants (IPA).

Master of Professional Accounting
Deakin’s Master of Professional Accounting is open to graduates from both accounting and non-accounting backgrounds. The accounting profession has recently transitioned from a role that was seen as providing financial information and number crunching towards a wide-ranging advisory role.

Course information
Course code: M720
Years (full time): 1.5
Campus: B C
Intake: T1 (March), T2 (July), T3 (November)
2019 annual fee: $37 000
IELTS score: 6.5/6

Structure
This degree comprises 12 credit points, including:
• 8 core units
• 4 elective units.

Minimum entry requirements
• Bachelor’s degree in a related discipline with a minimum weighted average mark (WAM) of 60 (or equivalent), OR
• Bachelor’s degree in any discipline with a minimum WAM of 60 (or equivalent) PLUS 3 years of relevant work experience, OR
• Successful completion of Masters Qualifying Program (or MQP Extended, see page 10) with a minimum overall average of 60 in the discipline units PLUS 3 years of relevant work experience.

Related programs
• Graduate Diploma of Professional Accounting
• Graduate Certificate of Professional Accounting
Master of International Accounting
This program is designed to lead to two qualifications for the cost of one degree: A master’s degree from Deakin and a professional qualification from the largest global body for professional accountants, the Association of Chartered Certified Accountants (ACCA). For all units embedding the ACCA papers, the program offers the following at no additional cost: Masterclasses by an ACCA approved tuition provider and all learning resources, including printed textbooks and revision and practice books.

Course information
Course code: 6278B
Years (full time): 1.5-2
Campus: B
Intake: T1 (March), T3 (November)*
2019 annual fee: $37 000
IELTS score: 6.5/6

Structure
This degree comprises 16 credit points, including:
• 15 core units
• 1 elective unit.

Minimum entry requirements
• Bachelor’s degree in any discipline, with a minimum weighted average mark (WAM) of 65 (or equivalent), OR
• Successful completion of Masters Qualifying Program (or MQP Extended, see page 10) with a minimum overall average of 70, and a minimum score of 65 in each discipline based unit.

Master of Professional Accounting and Finance
Through its unique combination of accounting and finance specialisations, this degree provides a solid skill set that can lead to a range of careers, including financial accounting, auditing, taxation, forensic accounting, client account management, security analysis and stockbroking. It is designed to meet the needs of employers while allowing you to work towards membership of professional bodies in accounting and finance.

Course information
Course code: M794
Years (full time): 1.5-2
Campus: B
Intake: T1 (March), T2 (July), T3 (November)
2019 annual fee: $37 000
IELTS score: 6.5/6

Structure
This degree comprises 16 credit points, including:
• 12 core units
• 4 elective units.

Minimum entry requirements
• Bachelor’s degree in any discipline, OR
• Successful completion of Deakin’s Masters Qualifying Program (or MQP Extended), see page 10.

Deakin’s Master of Accounting and Law is designed for non-law and non-accounting graduates, and those who need specialist legal knowledge in their roles (regulatory, compliance or risk management positions), wishing to combine this knowledge with an advanced accounting qualification. The degree provides the required knowledge for professional accounting practice and gives law students the opportunity to gain accounting expertise to enhance their career outside the legal profession. Graduates gain knowledge in accounting and business law, which is critical for today’s complex regulatory environment, post–global financial crisis

Course information
Course code: M749
Years (full time): 1.5-2
Campus: B
Intake: T1 (March), T2 (July), T3 (November)
2019 annual fee: $37 000
IELTS score: 6.5/6

Structure
This degree comprises 16 credit points, including:
• 15 core units
• 1 elective unit.

Minimum entry requirements
• Bachelor’s degree in any discipline, OR
• Successful completion of Deakin’s Masters Qualifying Program (or MQP Extended, see page 10) PLUS 3 years of relevant accounting or legal work experience.

Related programs
• Graduate Diploma of Accounting and Law
• Graduate Certificate of Accounting and Law

*A shorter course duration may be available to those who have completed previous studies in a similar discipline or with relevant work experience. Please visit the course page on the Deakin website for more details.
Deakin MBA programs

Deakin’s Master of Business Administration (MBA) programs are some of the most highly regarded in Australia, and are recognised around the world. We offer a number of different MBA programs and what you study depends on previous experience, as well as your career goals. Let us help you find the right MBA for you.

Refined qualification
Deakin has been offering MBA programs for more than 30 years. As a result our programs are refined, relevant and prepare graduates for a range of business careers. You will learn from some of the best in the business: Deakin’s MBA teaching staff are recognised experts in their fields and they not only teach but also publish in quality international journals and serve as consultants for industry organisations.

Which Deakin MBA is the right one for you?
Deakin offers three MBA programs: Master of Business Administration; Master of Business Administration (International); and Master of Business Administration (Healthcare Management). Your previous professional or managerial experience, as well as the industry you wish to work in upon graduating, will determine which MBA is right for you. The diagram below provides a general guide as to which degree you are best suited and eligible for.

Highly ranked
Deakin is in the top 1% of universities worldwide for business, and the Deakin MBA is rated 5 stars by QS University Rankings for facilities, internationalization and diversity, teaching and student quality, and engagement and program strength. The Deakin online MBA is ranked in the world’s Top 20 – and the best in Australia – by QS. This means you can be confident that your Deakin MBA will be well recognised by employers.

Accreditation
Deakin’s MBA is EPAS accredited by the European Foundation of Management Development. EPAS is an international quality benchmark for business programs worldwide so you can be sure your degree will be recognised globally as being of the highest quality.

Minimum entry requirements
The Deakin MBA and MBA (Healthcare Management) have the following entry requirements:

- Bachelor’s degree in any discipline PLUS three years professional/managerial work experience* OR
- Masters Qualifying Program (or MQP Extended, see page 10), PLUS 3 years professional/managerial work experience* OR
- Graduate Certificate in a related discipline, PLUS 5 years professional/managerial work experience* OR
- Graduate Diploma equivalent (professional pathways).

Deakin’s MBA (International) has the following entry requirements:

- Bachelor’s degree in any discipline, with a minimum weighted average mark (WAM) of 65 (or equivalent) OR
- Successful completion of Masters Qualifying Program (or MQP Extended, see page 10) with a minimum overall average of 65 in the discipline units.

* Must be in a managerial or professional role.
Applicants must demonstrate decision-making responsibility in a range of areas, such as budgeting, staffing, project management, financial management, or other relevant professional experience. For MBA (Healthcare Management), further work experience considerations may apply. Visit the course page on the Deakin website to learn more.

The right MBA for you
How many years of professional/managerial experience do you have? — — If less than three years — — The MBA (International) is the right degree for you!

If more than three years:
What do you希望 to do following the completion of your MBA degree? — — If you want to pursue opportunities in your home country: — — The MBA is the right degree for you!

If you want to gain work experience in Australia*: — — The MBA (International) is the right degree for you!

If you want to work in the healthcare sector in Australia* or in your home country: — — The MBA (Healthcare Management) is the right degree for you!

Australia offers the possibility for graduates of master’s programs of two-years duration to work in Australia for a limited period after graduation. For more information, visit border.gov.au.
Master of Business Administration

IELTS score: 6.5/6

Structure

This degree comprises 16 credit points, including:

- 12 core units
- 4 elective units.

Master of Business Administration (Healthcare Management)

The MBA (Healthcare Management) is a unique, specialised course that will prepare you for management roles within the challenging – and quickly growing – global healthcare sector. Management success in the healthcare sector requires a unique combination of business skills and health policy knowledge. Through the MBA (Healthcare Management) you will be able to draw from the combined expertise of the Deakin Business School and the Deakin School of Medicine, giving you a unique set of skills that will make you stand out among future employers.

Professional recognition

Deakin MBA (Healthcare Management) is the most comprehensive healthcare management program currently available in Australia, and has attained the Australasian College of Health Service Management (ACHSM) accreditation. ACHSM is the peak body for Healthcare Executives in the Asia-Pacific, their accreditation not only ensures quality and industry relevance, but also enhances graduate employability and networking opportunities.

Course information

Course code: M703
Years (full time): 2
Campus: B C
Intake: T1 (March), T2 (July)*, T3 (November)*
2019 annual fee: $40 400
IELTS score: 6.5/6

This degree comprises 16 credit points, including:

- 14 core units
- 2 elective units.

* Intake available at the Melbourne Burwood Campus only.
Master of Business (Arts and Cultural Management)

The arts and cultural sector is dynamic and makes a significant contribution to the economy. There is strong demand for responsive and highly-trained art managers to take on leadership roles in the visual and performing arts, heritage and creative industries.

Master of Business (Arts and Cultural Management)

This program is led by staff with extensive practical experience in management and leadership in the arts and cultural sectors. Study within this program combines both the theory and practice of arts and cultural management, through a combination of reading, research and practical assignments. This degree provides art leaders and managers with a tailored business education that emphasises management, marketing and finance skills. As arts organisations face the challenge of sustainability, vitality and growth, these skills are in high demand. With strong industry links, the Master of Business (Arts and Cultural Management) is an integrated and practical program that engages you with cutting-edge practitioners and leaders in the arts and cultural sectors.

Career opportunities

Many of our past students from this degree have gone on to work in high-profile organisations, including:
- arts and cultural departments
- art galleries
- arts marketing
- ballet, theatre and opera companies
- event and festival management
- local government
- multimedia and publishing
- museums.

Leading the way

Deakin Business School (DBS) is accredited by the Association to Advance Collegiate Schools of Business (AACSB), the longest-serving global accrediting body for business schools in the world. Only 5 per cent of business programs worldwide are AACSB accredited and DBS is one of only three in the Australian State of Victoria.

Master of Business Analytics
This program is offered in collaboration with industry and a significant part of it is taught by experienced industry professionals. It introduces a range of internationally-recognised business intelligence and analytics tools and provides you with the skills for the thriving business analytics profession. With a strong practical focus, you will have access to analytics certification programs by market leaders IBM, SAS and Microsoft.

Accreditation
Deakin’s Master of Business Analytics is one of the only Australian business analytics programs accredited by the Australian Computer Society (ACS).

Industry-informed teaching
Deakin’s teaching and research staff are experts in their fields, with broad international links and connections with industry. Our courses are designed to take into account the needs of industry to ensure what we teach you is up to date and reflects what organisations need. You also have the opportunity to learn from professionals in the field through industry guest lecturers, and contribute to research and development projects.
Master of Commerce

Commerce provides a solid foundation in business studies. Deakin offers a variety of specialisations, from accounting through to marketing and international trade. If you are looking to progress your career in business, studying commerce could be your first smart business decision.

Master of Commerce

This program delivers a solid cross-section of business disciplines that allows you to complete a specialisation in accounting rather than undertaking a targeted accounting degree. It enables you to develop your existing business and accounting skills or transition into a business career. By choosing appropriate units you may also satisfy the professional requirements of CPA Australia, Chartered Accountants Australia and New Zealand (CAANZ), Institute of Certified Management Accountants (ICMA).

Career opportunities

Depending on the subjects you choose, typical graduate roles may include:
- credit analyst
- data analyst
- financial broker
- financial manager
- fund manager
- international banking
- portfolio manager
- public accountant
- risk management
- securities sales agent
- stockbroker
- treasurer.

Master of Financial Planning

Approved by the Financial Planning Education Council, this degree is specifically designed to meet the education needs of the financial planning industry. The program is aimed at those aspiring to join the financial planning profession, as well as those currently employed in the industry seeking to upgrade their qualifications. Whether you are already working in the finance sector or moving into it, this degree will build your professional financial planning skills and ensure you have comprehensive ethical and compliance competencies.

Career opportunities

As a financial planning graduate, you could find employment in:
• accounting firms
• corporate financial institutions
• financial planning firms.

Accreditation

The Master of Financial Planning is approved by the new financial planning standards body Financial Adviser Standards and Ethics Authority (FASEA). Graduates who complete Deakin’s Master of Financial Planning will satisfy the education standards prescribed by FASEA. This means you will be eligible to provide financial advice in Australia and be eligible for entry into the certification programs of the professional financial planning associations – CERTIFIED FINANCIAL PLANNER® (CFP®) Certification Program offered by the Financial Planning Association of Australia (FPA) and the Fellow Chartered Financial Practitioner (FChFP) designation offered by the Association of Financial Advisers (AFA). Successful completion of this degree will also provide advanced standing for three of the five CFP® Certification units, and up to two of the four FChFP Certification units.
Master of Human Resource Management

Managing people is a skill required by all managers in all industries. By studying human resources management you will gain an in-depth understanding of employment relations, strategic staffing and performance management.

Master of Human Resource Management

Human resource (HR) management is no longer regarded as the sole responsibility of a special department. The work is increasingly being integrated into mainstream managerial responsibilities within an organisation. An understanding of HR management, and an involvement in it, is now generally a requirement of management throughout an organisation. This fully-online specialist qualification is for graduates and professionals in business, government and industry who want to enhance the skills and knowledge required for HR development and management roles.

Who we work with

Deakin’s human resource management degrees are offered by specialist academic staff who engage with industry academics and professionals from a diverse range of organisations, including:

- Australian Football League
- Armaguard Linfox
- CPA Australia
- Cricket Australia
- Dairy Australia
- DST Global Solutions
- Fair Work Australia
- Public Transport Victoria
- SEEK
- Telstra Telecommunications.

Course information

- Course code: M782

• Graduate Diploma of Marketing
• Graduate Certificate of Marketing

* A shorter course duration may be available to those who have completed previous studies in a similar discipline or with relevant work experience. Please visit the course page on the Deakin website for more details.

Career opportunities
A marketing qualification can open doors to careers in multinational, local, government, non-government and not-for-profit entities, in roles like:
• Big data and mobile marketing
• Community management executive
• Marketing assistant
• Marketing coordinator
• Mobile marketing manager
• Product management
• Research analyst, marketing
• Social media marketing.

Accreditation
Deakin’s Master of Marketing is accredited by the Australian Marketing Institute (AMI). The AMI is the leading professional association for marketers in Australia, and provides accreditation, training and professional development opportunities to ensure its members remain up to date with industry trends.
Master of Professional Practice (Leadership)

Deakin’s professional practice degrees offer professionals an innovative approach to earning a postgraduate degree while they work – saving them both time and money.

Master of Professional Practice (Leadership)

Recognise the capabilities displayed by pivotal leaders through integration of theoretical investigation and professional practice within this specialist program. Learn to drive results while engaging others in the journey and transforming an organisation to deal with technology disruption, changing customer needs and turbulent external environments. The emphasis for this program is on developing relevant skills, contemporary knowledge, and real experience, to develop the business leaders of tomorrow.

Professional Practice degrees

If you are a professional with extensive experience and knowledge in your field, a professional practice degree can help you gain a professionally-recognised qualification. This, in turn, can lead to you furthering your career. Students undertaking professional practice programs gain their degree through a combination of professional practice credentialling and coursework units.

What are professional practice credentials?

Learning does not stop when you leave school, and there are many important skills that people develop over the course of their career. This degree recognises the skills that professionals have learned in the workplace by offering students the chance to earn professional practice credentials for those skills. To earn a credential you will present a portfolio of evidence of your mastery of a specific skill, and this portfolio will be assessed by a panel of academic and industry representatives. If the panel awards you a credential, it will be counted as a credit toward completing the degree.

Course information

Course code: M797
Years (full time): 2.5PT
Campus: C (online studies)
Intake: T1 (March), T2 (July), T3 (November)
2019 annual fee: $9 425*
IELTS score: 6.5/6

Course structure

Deakin Professional Practice degrees require the completion of 4 credit points of units and 10 professional practice credentials. Successful attainment of professional practice credentials is based on evidence provided from professional practice, and are assessed by an assessment panel that includes both academic and industry representatives.

Minimum entry requirements

• Bachelor’s degree and at least 5 years of relevant work experience¹, OR
• An associated Graduate Certificate of Professional Practice.

Related programs

Graduate Certificate of Professional Practice (Leadership)

¹ The 2019 annual course fee for this degree is based on the typical course load for two trimesters of part-time study.
² Full-time (or equivalent part-time) managerial or leadership roles in innovative or entrepreneurial business or ventures or equivalent.

Education and teaching ranked 30 in the world
Deakin is ranked in the Top 30 universities in the world for its education courses, based on the 2018 QS World University Rankings, which are informed by academic and employer reputation, as well as research impact.
Master of Education (Leadership and Management)

The management of learning is becoming a feature of many complex organisations. This course explores what might constitute the responsibilities of those involved in managing such organisations and the learning processes within them.

Master of Education (Leadership and Management)

A popular specialist degree for the education professional, this program develops your skills and prepares you for leadership roles and positions. The evidence-based, data-driven application of leadership, governance and policy theories and practices build to make a coherent specialist degree of study. It is aimed at professional educators seeking advanced knowledge and skills in complex and rapidly changing times.

As a graduate of this course you will possess an understanding of contemporary education issues and discourses; have high-level critical and evaluative skills; translate into practice your experiences and understandings of the program; and select appropriate research methods and techniques for educational research projects.

Specialisations

- Professional education and training
- International education

Learn from experts

Deakin education staff are active researchers in the field, working to improve the quality of learning for all students. Learn alongside people who are committed to making a positive impact on education in Australia and around the world. Deakin staff have developed strong partnerships with education communities, governments and research institutions. Students benefit from these partnerships by gaining industry-relevant experience and professional contacts.

Course information

Course code: E732
Years (full time): 1.5
Campus: (online studies)
Intake: T1 (March), T2 (July)
2019 annual fee: $28,000
IELTS score: 6.5/6

Structure

This course comprises 12 credit points in one of the following configurations:

Option 1
- 4 credit points of core units
- 4 credit points of research units
- 4 credit points of electives from a single specialist strand
- 0-credit-point academic integrity unit.

Option 2
- 4 credit points of core units
- 6 credit points of research units
- 2 credit points of electives from a single specialist strand
- 0-credit-point academic integrity unit.

Minimum entry requirements

- Bachelor’s degree in a related discipline, OR
- Bachelor’s degree in any discipline, PLUS three years of relevant work experience (or part-time equivalent), OR
- Bachelor’s degree in any discipline, PLUS a relevant graduate certificate in education, OR
- Other evidence of academic capability judged to be equivalent.

Related programs

- Graduate Certificate of Education

- Graduate Certificate of Education Research
- Graduate Certificate of Higher Education Learning and Teaching
Master of Professional Practice (Digital Learning)

For experienced professionals wanting to progress their career, this professional practice degree focuses on digital learning and emerging technologies in higher education.

Course information
Course code: E798
Years (full time): 2-2.5 PT
Campus: C (online studies)
Intake: T1 (March), T2 (July), T3 (November)
2019 annual fee: $7,189*
IELTS score: 6.5/6

Structure
This course comprises:
- 4 credit points
- 10 professional practice credentials
- 0-credit-point academic integrity unit.

Minimum entry requirements
- Bachelor’s degree in any discipline AND five years relevant professional experience, OR
- Graduate Certificate of Professional Practice (Digital Learning).

Related programs
Graduate Certificate of Professional Practice (Digital Learning)

Master of Professional Practice (Digital Learning)
This professional practice degree is designed for experienced professionals seeking to progress their career through a professionally-recognised postgraduate qualification. It particularly suits those working in the fields of digital learning and emerging technologies who are seeking recognition for their prior learning, skills, demonstrated expertise and extensive experience, through a combination of professional practice credentialling and coursework units, and research practice.

The program recognises the rapid pace of innovation in digital learning environments, and the skills required by educational professionals amid constant change. Employability skills are validated and endorsed through a final holistic assessment activity that requires students to demonstrate their expertise.

Professional practice degrees
If you are a professional with extensive experience and knowledge in your field, a professional practice degree can help you gain a professionally-recognised qualification. This, in turn, can lead to you furthering your career. Students undertaking professional practice programs gain their degree through a combination of professional practice credentialling and coursework units.

What are professional practice credentials?
Learning does not stop when you leave school, and there are many important skills that people develop over the course of their career. This degree recognises the skills that professionals have learned in the workplace by offering students the chance to earn professional practice credentials for those skills. To earn a credential you will present a portfolio of evidence of your mastery of a specific skill, and this portfolio will be assessed by a panel of academic and industry representatives. If the panel awards you a credential, it will be counted as a credit toward completing the degree.

* The 2019 annual course fee for this degree is based on the typical course load for two trimesters of part-time study.
Graduate Certificate of Education Research

Gain a grounding in education research theories, methodologies, design, ethics and conduct and build upon your education-related qualification.

Graduate Certificate of Education Research

The Graduate Certificate of Education Research provides a grounding in education research theories, methodologies, design, ethics and conduct. It is for those who have gained an education-related qualification, or a bachelor’s degree or higher in any discipline, plus three years relevant work experience, but who are ineligible for a Doctor of Philosophy (PhD). Participants design and conduct a guided research project and develop a research paper. Graduates will develop knowledge and skills in:

• identification of an issue in education and design of a related research study
• evaluation of research in education through understanding a range of research theories and methodologies
• conduct of a guided education research project
• engagement with a community of education researchers through knowledge exchange
• creation of shareable products that adhere to the conventions of research, including a research paper that reports on the project.

Career opportunities

Deakin’s Graduate Certificate of Education Research offers research training and experience to teachers and other educational professionals who seek to develop capacities in critiquing and conducting research, enhancing their leadership within their workplace, and providing opportunities for advancement.

Course information

Course code: E590
Years (full time): 0.5
Campus: [C](online studies)
Intake: T1 (March)
2019 annual fee: $12 500
IELTS score: 6.5/6

Structure
This course comprises 4 credit points, including:
• 4 core units
• 0-credit-point academic integrity unit.

Minimum entry requirements
• Bachelor’s degree or higher in the field of education, OR
• Attainment of a bachelor’s degree or higher in any discipline PLUS three years relevant work experience.
Master of Teaching (Early Childhood)

Study early childhood education and put your creativity, energy and interpersonal skills to good use. With significant sector growth, there is high demand for qualified and passionate people to teach and nurture children from birth to eight years of age.

Course information
Course code: E761
Years (full time): 2
Campus: B
Intake: T1 (March)
2019 annual fee: $27,400
IELTS score: 7/7

Structure
This course comprises 16 credit points, including:
• 12 core units
• 4 credit points of specialisations units
• 0-credit-point academic integrity unit.

Minimum entry requirements
• Bachelor’s degree in a different discipline, OR
• Degree in Primary or Secondary Teaching.
All applicants must complete an additional selection tool for non-academic attributes.
* IELTS band score of 7 (with no band less than 7) and speaking and listening of 7.5.

Accreditation
This degree is fully accredited as an early childhood teaching qualification by the Australian Children’s Education and Care Quality Authority (ACECQA), and by the Victorian Institute of Teaching (VIT) for early childhood teacher registration.

Master of Teaching (Early Childhood)
The Master of Teaching (Early Childhood) prepares graduates for employment as early childhood teachers in programs for children from birth to five years, in Australia and overseas. This program provides industry practice through 70 days of supervised professional experience. The unique elective pathways allow students to build on their interest and discipline knowledge. This program also offers the opportunity to take up an internship in the final phase of study.

Specialisations
• Internship
• Research
• Leadership
• Inclusive education

Career opportunities
There is a strong demand for qualified teachers. Graduate starting salaries for early childhood teachers are high compared to the graduate average. The increased demand for teachers has also resulted in improvements in teaching conditions, resources and career advancement opportunities. As a graduate of this degree you may find employment as an early childhood or primary teacher within the education sector in Australia or overseas.
Master of Teaching (Primary and Early Childhood)

Extend your teaching qualification and advance your career opportunities with this fully-accredited degree. Practical teaching experiences will ensure you have the skills and knowledge to launch your career, both in Australia and overseas.

Master of Teaching (Primary and Early Childhood)

This degree is a professional teaching qualification that enables graduates to register as teachers in both early childhood education programs and across all levels of primary school. You will study units relevant to early childhood and primary education, including curriculum, maths, science, the arts, English/literacy, language, humanities, health and physical education, and play pedagogy.

Accreditation

The Master of Teaching (Primary and Early Childhood) is fully accredited by the Victorian Institute of Teaching (VIT) and the Australian Children’s Education and Care Quality Authority (ACECQA) for both early childhood and primary teacher registration.

Hands-on experience

Our professional experience program gives you real-life teaching experience and study credit for your degree. You will undertake 90 days of supervised professional experience, packing your CV with practical know-how and sought-after skills that employers look for.

Career opportunities

There is a strong demand for qualified teachers. Graduate starting salaries for early childhood and primary teachers are high compared to the graduate average. The increased demand for teachers has also resulted in improvements in teaching conditions, resources and career advancement opportunities. As a graduate of this degree you may find employment as an early childhood or primary teacher within the education sector in Australia or overseas.

Course information

Course code: E764
Years (full time): 2
Campus: B
Intake: T1 (March)
2019 annual fee: $27,400
IELTS score: 7/7*

Structure

This course comprises 16 credit points and a 0-credit-point academic integrity unit. All units are core units.

Minimum entry requirements

- Bachelor’s degree in a different discipline with successful completion of the equivalent of one full-time year of study in content relevant to the Australian Curriculum for primary schools, including a part minor in science, mathematics/numeracy or English/literacy for specialisation, OR
- Bachelor’s degree in Secondary Teaching.

All applicants must complete an additional selection tool for non-academic attributes.

* IELTS band score of 7 (with no band less than 7) and speaking and listening of 7.5.
Master of Teaching (Primary)

Equip yourself to teach young people the knowledge, skills and values needed to make sense of and contribute to the world, now and in the future.

Master of Teaching (Primary)

This degree will qualify graduates to teach up to Year 8, both in Australia and overseas. It includes core subjects of the primary curriculum – English, mathematics, science, humanities and social sciences, the arts, technology, health, and physical education – and provides opportunities to develop a breadth of knowledge in areas of interest. The program provides a range of professional learning experiences through 60 days of supervised placement in schools. The degree will also allow you to build on an area of interest in our primary specialisation pathways.

Specialisations

- Internship
- STEM
- Arts education
- Leadership of teaching
- Inclusive education
- Teaching English to speakers of other languages (TESOL)
- Languages teaching

Accreditation

The Master of Teaching (Primary) is fully accredited by the Victorian Institute of Teaching (VIT).

Links with the education sector

Deakin’s education programs are developed in consultation with principals, teachers and the Victorian Institute of Teaching (VIT), ensuring the curriculum addresses the needs of industry. Deakin also has several school alliances, which provide opportunities for extensive placements in schools beyond those that form the usual course requirements.

Course information

Course code: E762
Years (full time): 2
Campus: B
Intake: T1 (March)
2019 annual fee: $27,400
IELTS score: 7/7*

Structure

This course comprises 16 credit points, including:

- 12 core units
- 4 credit points of specialisation units
- 0-credit-point academic integrity unit.

Minimum entry requirements

Bachelor’s degree in a different discipline, with successful completion of the equivalent of one full-time year of study in content relevant to the Australian Curriculum for primary schools, including a part minor in one specific curriculum content area for specialisation.

All applicants must complete an additional selection tool for non-academic attributes.

* IELTS band score of 7 (with no band less than 7) and speaking and listening of 7.5.
Master of Teaching (Primary and Secondary)

Influence and shape people’s lives by studying Deakin’s Master of Teaching (Primary and Secondary). You will be equipped with the skills needed to inspire the next generation to develop a love for learning.

Course information
Course code: E765
Years (full time): 2
Campus: B
Intake: T1 (March)
2019 annual fee: $27 400
IELTS score: 7/7

Structure
This course comprises 16 credit points, including:
- 12 core units
- 2 curriculum study units in a first teaching method area
- 2 curriculum study units in a second teaching method area
- 0-credit-point academic integrity unit.

Minimum entry requirements
Bachelor’s degree in a different discipline, including successful completion of major and minor studies in at least two curriculum areas recognised by Australian schools.
All applicants must complete an additional selection tool for non-academic attributes.
* IELTS band score of 7 (with no band less than 7) and speaking and listening of 7.5.

Practical experience
Practical teaching experiences throughout your Masters of Teaching (Primary and Secondary) degree will ensure you have the experience you need to launch into your teaching career. It provides 90 days of supervised professional experience, meaning you can build upon your specialist knowledge in curriculum disciplines to support learning from prep/foundation to senior years.

Education sector links
Deakin teaching degrees are developed in consultation with principals, teachers and the Victorian Institute of Teaching, which means you learn exactly what employers in the field are looking for in new teachers.

Career opportunities
There is a strong demand for qualified teachers. Graduate starting salaries for primary and secondary teachers are high compared to the graduate average. The increased demand for teachers has also resulted in improvements in teaching conditions, resources and career advancement opportunities. As a graduate of this degree you may find employment as an early childhood or primary teacher within the education sector in Australia or overseas.
Master of Teaching (Secondary)

Successful completion of Deakin’s Master of Teaching (Secondary) will enable you to teach in secondary schools from junior secondary to VCE (high school) levels. Graduates can take up education positions within organisations, cultural institutions, TAFE and adult community educational settings.

The degree offers a range of industry-based learning through 60 days of supervised professional experience. Alongside core studies, you will complete two secondary curriculum studies from English, TESOL, Languages other than English, Drama, Dance, Media, Visual Arts, Music, Humanities, Commerce and Business, Geography, History, Mathematics, Health, Physics, Biology, Psychology, Chemistry, Science and Environmental Science. The unique elective pathways allow graduates to build on their interest and discipline knowledge, by taking a four unit pathway in Inclusive Education, TESOL, Languages teaching, Leadership, Internationalisation or Research, or by taking up an opportunity for an internship in the final phase of study.

Specialisations
- Inclusive education
- Internship
- Languages teaching
- Research
- Teaching English to speakers of other languages (TESOL)
- Internationalisation
- Leadership

Accreditation
The Master of Teaching (Secondary) degree is fully accredited by the Victorian Institute of Teaching (VIT).

Career opportunities
There is a strong demand for qualified teachers. Graduate starting salaries for secondary teachers are high compared to the graduate average. The increased demand for teachers has also resulted in improvements in teaching conditions, resources and career advancement opportunities. As a graduate of this degree you may find employment as an early childhood or primary teacher within the education sector in Australia or overseas.

Course information
- Course code: E763
- Years (full time): 2
- Campus: B
- Intake: T1 (March)
- 2019 annual fee: $27,400
- IELTS score: 7/7

Structure
This course comprises 16 credit points, including:
- 8 core units
- 2 curriculum study units in a first teaching method area
- 2 curriculum study units in a second teaching method area
- 4 credit points of specialisations units
- 0-credit-point academic integrity unit.

Minimum entry requirements
Bachelor’s degree in a different discipline, including successful completion of major and minor studies in at least two curriculum areas recognised by Australian schools.

All applicants must complete an additional selection tool for non-academic attributes.

* IELTS band score of 7 (with no band less than 7) and speaking and listening of 7.5.

Education and teaching ranked 30 in the world
Deakin is ranked in the Top 30 universities in the world for its education courses, based on the 2018 QS World University Rankings. These rankings are informed by academic and employer reputation, as well as research impact.
Master of Teaching English to Speakers of Other Languages

Learn how to connect social and cultural contexts with language acquisition theory. This degree has been specifically designed to address the wide diversity of educational backgrounds of students who are interested in teaching English.

Master of Teaching English to Speakers of Other Languages (TESOL)

This degree is open to qualified professionals, including teachers and international graduates in the field of education and training. When you complete this course, you will be able to teach TESOL in nearly any school or institution (dependent on what level of teaching you are qualified for – primary, secondary or other). This is also a widely-recognised qualification for teaching overseas.

Partnerships

Deakin has developed strong partnerships with education communities, governments and research institutions in Australia and overseas, particularly in Europe, the Asia-Pacific region and Latin America. The Centre for Teaching and Learning Languages (CTaLL) is a research group within the TESOL/Languages team that develops these connections and serves as a forum for our postgraduate research students and their work.

Streams

Two streams are available:

Stream A is for teachers of any method who are registered or eligible for primary or secondary registration in Australia, and would like to add TESOL as a method or gain further recognition as a TESOL specialist. Qualified teachers who complete this course or its embedded graduate certificate can work in a wide range of professional contexts in Australia or internationally.

Stream B is for applicants who do not require Australian teacher recognition, such as those who teach or intend to teach English overseas, or work in adult education in Australia, including adult migrant programs or ELICOS (English Language Intensive Courses for Overseas Students).

Minimum entry requirements

- Bachelor’s degree in education or a cognate field, for example linguistics, English studies, English translation, whether or not it is an initial teacher qualification, OR
- Bachelor’s degree in any discipline PLUS a graduate certificate or graduate diploma in education.

Related programs

- Graduate Certificate of Teaching English to Speakers of Other Languages
- Graduate Certificate of Teaching English to Speakers of Other Languages (Education)

Structure

This course comprises 12 credit points, including:

- 0-credit-point academic integrity unit
- 4 credit points from Stream A, OR
- 4 credit points from Stream B, PLUS
- 8 credit points of study as a combination of research and elective units in one of the following configurations:
  - Option 1
    2 credit points of research units, and 6 credit points of electives.
  - Option 2
    6 credit points of research units, and 2 credit points of electives.
Master of Engineering (Professional)

Deakin’s postgraduate engineering programs go beyond theory, offering strong industry links, state-of-the-art facilities and practical hands-on experience. You will build the critical and technical skills needed to expand your career opportunities.

Study the Master of Engineering (Professional) and you will develop technical skills, a positive approach to problem-solving and the ability to work as part of a team, while focusing on practical experience. And through a supervised research or industry project you will be provided with advanced project management skills required to tackle complex, industry-focused problems head on. Develop advanced engineering skills and the forward-thinking, innovative and entrepreneurial skills employers are looking for. Strengthen and extend your understanding of engineering through the pursuit of specialised study in engineering management, mechanical engineering design, electronics engineering or electrical and renewable energy engineering – the choice is yours.

Smart energy partnership
Deakin has partnered with AusNet Services – the largest energy delivery service business in the Australian State of Victoria – as part of a $30 million project to establish an industrial-scale smart microgrid energy system and integrated research and education platform at Deakin’s Geelong Waurn Ponds Campus. The project will establish a 7.25 megawatt smart microgrid by mid-2019, including a solar generation farm, a 1 megawatt battery storage capacity and an integrated new research and visualisation centre. As a Deakin engineering student, you will have access to this facility.

 Outstanding facilities
As a Deakin engineering student, you will have world-class facilities and equipment at your fingertips. You will access the Centre for Advanced Design in Engineering Training (CADET) and the Geelong Future Economy Precinct (GFEP) – home to the Institute for Frontier Materials (IFM), Centre for Intelligent Systems Research (CISR), CSIRO Materials Science and Engineering, and the Australian Future Fibre Research and Innovation Centre. The GFEP provides unique resources and facilities for research aimed at industry cooperation and research application. A state-of-the-art power system trainer is available at CADET along with unique HV testing facility.

Course Information
Course code: S751
Years (full time): 2
Campus: WP
Intake: T1 (March), T2 (July), T3 (November)
2019 annual fee: $35 800
IELTS score: 6.5/6

Structure
This course comprises 16 credit points, including:
• 6 core units (totalling 8 credit points)
• 4 elective units
• 4 units from a specialisation
• 0-credit-point academic integrity unit.

Minimum entry requirements
• Four-year bachelor’s degree in a related engineering discipline, OR
• Membership of Engineers Australia, or equivalent professional body.

Specialisations
• Engineering management [WP]
• Mechanical engineering design [WP]
• Electronics engineering [WP]
• Electrical and renewable energy engineering [WP]
• Additive manufacturing [WP]

Outstanding facilities
As a Deakin engineering student, you will have world-class facilities and equipment at your fingertips. You will access the Centre for Advanced Design in Engineering Training (CADET) and the Geelong Future Economy Precinct (GFEP) – home to the Institute for Frontier Materials (IFM), Centre for Intelligent Systems Research (CISR), CSIRO Materials Science and Engineering, and the Australian Future Fibre Research and Innovation Centre. The GFEP provides unique resources and facilities for research aimed at industry cooperation and research application. A state-of-the-art power system trainer is available at CADET along with unique HV testing facility.
Master of Philosophy (Electromaterials)

This is your chance to discover new materials and develop smart devices to help solve some of today’s most challenging global problems. This degree has a strong research focus as a pathway to further PhD study, as well as training for future jobs in the energy, manufacturing and health arenas.

Master of Philosophy (Electromaterials)

As a student in the world-first Master of Philosophy (Electromaterials) degree, your study will be hands-on, discovering new materials, using cutting-edge characterisation techniques and assembling new materials into electrochemical devices for applications in clean energy, health or advanced manufacturing. You will be working with leading researchers in electromaterials through the ARC Centre of Excellence for Electromaterials Science.

Deakin and the University of Wollongong have teamed up to offer this unique opportunity. You will choose from a variety of research projects – anything from medical bionics to sustainable energy generation, robotic hands to solar water splitting and the next generation of battery designs. In addition, core units will be streamed live between the two campuses, so you won’t miss out on anything.

Course information

Course code: F801
Years (full time): 2
Campus: WP
Intake: T1 (March), T2 (July), T3 (November)
2019 annual fee: $34 600
IELTS score: 6.5/6

Structure

This course comprises 16 credit points, including:

- Year 1: 2 core units, 2 elective units and Research Thesis unit (totalling 8 credit points)
- Year 2 – research project and thesis (totalling 8 credit points).

Minimum entry requirements

Bachelor’s degree in the appropriate science, engineering, or information technology field that is aligned with the chosen specialisation in the Master of Philosophy. The undergraduate qualification must be equivalent to an Australian degree of at least three years of full-time study with a minimum weighted average mark (WAM) or grade point average (GPA) of 65% in the final year units/subjects.

Highly sought-after graduates

The majority of engineers today are baby boomers: ready for retirement and creating an engineering skills shortage. As a result, roles in engineering are expected to rise by 429,000, or 17.3 per cent, in the next five years – placing you in prime position to slot into your dream career.

Master of Health Economics

Join the largest health economics team in Australia and acquire the analytical and quantitative skills to understand the complexities of the economics of health. You will also receive specialist training in health policy and technology assessment.

Who we work with
We partner with a range of federal and state government departments, national and international research institutes, universities and large national not-for-profit organisations. Some of our current collaborators include:
- Cancer Council Victoria
- Centre on Population Approaches for Non-Communicable Disease Prevention, Oxford University
- The George Institute for Global Health
- Pacific Research Centre for the Prevention of Obesity and Non-Communicable Diseases (C-POND)
- World Health Organization, Western Pacific Region.

Course information
Course code: H704
Years (full time): 2
Campus: B, C
Intake: T1 (March), T2 (July)

IELTS score: 6.5/6

Structure
This course comprises 16 credit points, including:
- 7 core units
- 3 selective units
- 6 credit points of elective units.

Minimum entry requirements
- Bachelor’s degree in any discipline, OR
- Other evidence of academic capability judged to be equivalent.

Largest health economics team
The Master of Health Economics is designed and delivered by Deakin Health Economics, one of the largest academic groups of health economists in any Australian university.

Health Campaign Strategy
- Community engagement
- Research and evaluation
- Quality profile
- Health audit
Master of Health and Human Services Management

Take your health career to the next level by equipping yourself with the knowledge required of high-level health management professionals. Learn how to lead and administrate healthcare services and hospitals through to welfare and non-government organisations.

Master of Health and Human Services Management

This course sets you on track for the next step in your health career towards management and leadership. Learn to make evidence-based decisions that focus on improving the quality of health service delivery – a sector that has seen strong growth in recent years.

The content of this course focuses on business and management issues within health. You have the opportunity to tailor the course to suit your interests by taking a range of elective units from a number of speciality streams.

Specialisations

- Public health
- Health economics
- Business administration
- Research pathway

Industry relations and partnerships

The Faculty of Health has hundreds of successful partnerships across government departments, hospitals, research institutes, businesses and community groups. These partnerships have led to some of our proudest achievements. As well as working to improve health and healthcare, they give our students and researchers the support they need to succeed. Every partnership we have is built on a shared commitment to improve health and wellbeing, both locally and around the world. Some of our partners sit on our course advisory boards and offer guest lecturing, giving students direct access to the latest industry knowledge.

Course information

Course code: H756
Years (full time): 2
Campus: B C
Intake: T1 (March), T2 (July), T3 (November)
2019 annual fee: $36 000
IELTS score: 6.5/6

Structure
This course comprises 16 credit points, including:
- 8 core units
- 8 elective units.

Minimum entry requirements
- Bachelor’s degree in any discipline, OR
- Other evidence of academic capability judged to be equivalent.

Related programs
Graduate Diploma of Health Promotion

Master of Health Promotion
Preventing illness and promoting health are major aspects of the work of health agencies in all developed and developing countries. Studies in health promotion enable students from varying backgrounds to acquire the knowledge and skills to develop appropriate and evidenced-based health promotion programs. Career direction and professional development are strong drivers of the Master of Health Promotion. Our partnerships with local industry give you access to cutting-edge health promotion practice, enhance your health promotion skills and prepare you to develop attributes valued by employers, such as critical analysis, creativity, reflective practice and lifelong learning.

Research partnerships
Should you choose to take part in research in the health promotion area, you will have access to our partnerships with local industry, giving you access to cutting-edge health promotion practice. Some of our partnerships include:
- Barwon Health
- Cancer Council Victoria
- Country Fire Authority
- Diabetes Australia
- Heart Foundation
- VARTA: Victorian Assisted Reproductive Treatment Authority
- VicHealth
- YMCA Australia.
Master of Public Health

Develop an understanding of global public health challenges. Learn strategies and practical techniques to take action on these challenges, prevent diseases and promote the conditions that optimise population health.

Master of Public Health
The Master of Public Health focuses on improving existing health-promoting environments, identifying public health priorities, generating initiatives for policy and action, and developing strategies and interventions to ensure equity in the health system. Deakin’s public health program is flexible in terms of both the way that you access your study and also in relation to what you want to get out of your postgraduate degree.

We’re one of the best
Deakin’s public health programs are among the world’s best. We are ranked in the Top 100 universities in the world for public health, according to the 2017 ShanghaiRankings Global Ranking of Academic Subjects. This impressive result means your Deakin Master of Public Health degree will be respected by employers, providing you with better job prospects upon graduation.

Career opportunities
Opportunities for graduates exist in government, research, non-government organisations, healthcare, and community organisations, both in Australia and globally. Many students enrol in this program to progress in their current roles or to obtain senior positions. The course is also ideal for health professionals and medical practitioners looking for ‘bigger picture’ approaches to improve the health of individuals and populations.

Course information
Course code: H757
Years (full time): T1, T2

This course comprises 16 credit points, including:
- 8 core units
- 8 elective units.

Minimum entry requirements
- Bachelor’s degree in any discipline, OR
- Other evidence of academic capability judged to be equivalent.

* Degree duration depends on the entry point you choose.
Doctor of Medicine

Studying medicine and surgery with Deakin prepares you for a career in areas like general practice, paediatrics and pathology. You will be equipped with specialised knowledge in rural and regional medicine, making you highly employable.

Doctor of Medicine

This degree is a four-year, graduate-entry program for students wishing to qualify as medical practitioners. Learn about anatomy, physiology and pathology, plus clinical procedural skills, public health issues and managing chronic diseases. There is a focus on the early development of clinical, communication and procedural skills, diagnosis and management of chronic diseases, and multidisciplinary teamwork, as well as an emphasis on rural and regional medicine.

Course content

The first two years of the program use a systems approach and problem-based learning seminars, with a focus on interprofessional learning. During this time you are based at Deakin’s Geelong Waurn Ponds Campus, as well as attending clinical sites (hospitals, general practices and community health centres) in the Geelong region. During year three, most students will undergo intensive clinical training within health services. The course concludes in year four with two five-week rotations. An elective can be taken in Australia or overseas, and a pre-internship hospital rotation in which you will experience the day-to-day life of an intern.

The four themes of the Doctor of Medicine

Deakin’s Doctor of Medicine has four key themes that structure the program’s curriculum and focus:

- **Knowledge of Health and Illness**
  The biological and behavioural sciences underpinning the practice of medicine.

- **Doctor, Patient and Communication**
  The clinical skills required to practise medicine.

- **Public Health Medicine**
  A broad theme that includes biostatistics and epidemiology, population and public health, health systems, and the effect of culture on health, particularly Indigenous health.

- **Ethics, Law and Professionalism**
  The ethical, professional and legal basis of medical practice.

Rural Community Clinical School

A small student cohort will have the opportunity to attend our Rural Community Clinical School (RCCS), where they will be based in general practice clinics with local hospital visiting rights across a number of locations. The RCCS gives some third-year students the opportunity to spend an entire year of study attached to a general practice in one of a number of regional centres where students are able to develop strong community engagement.

Course information

| Course code: | H911 |
| Years (full time): | 4 |
| Campus: | WP |
| Intake: | M1 (January)* |
| 2019 annual fee: | $68 779 |
| IELTS score: | 7/7 |

Structure

This degree comprises 32 credit points. All units are core units.

* Unlike most Deakin courses, the Doctor of Medicine operates on a medicine semester system.

Minimum entry requirements

- Relevant bachelor’s degree completed no more than 10 years before the course commencement date, with a final GPA (weighted) of 5.0 or greater on a 7.0 GPA scale, AND EITHER:
  - GAMSAT: A minimum score of 50 in each of the three sections of the GAMSAT, and an overall score of 50 or greater, OR
  - MCAT: A score of 125 or greater in each of the four sections of the Medical College Admission Test (MCAT). The score on the MCAT or GAMSAT must be obtained in the two years preceding the year of application, PLUS
  - Successful completion of an interview.
Bachelor of Vision Science/ Master of Optometry

Train in a field that enables you to care for others by diagnosing and managing a wide range of ocular conditions and diseases. This degree will see you graduate as a qualified optometrist, as you learn about visual health issues and their impact on local and international levels.

Bachelor of Vision Science/ Master of Optometry

Deakin’s Faculty of Health offers Australia’s first accelerated optometry course. You complete the five-year degree in just 3.5 years by studying three trimesters per year. Offered as a combined course, the Bachelor of Vision Science/Master of Optometry is unique in many ways. It has an emphasis on case and team-based learning; an extensive, fully-equipped clinical skills facility; industry partnerships; and a curriculum that delivers excellence across clinical, commercial and professional domains in optometry. Optometry encompasses far more than just testing eyes. It involves a complex interplay of inter-professional communication; management of self, others and potentially a business; and the applied understanding of principles of ethics, the law, public health, and professional and commercial practices. Deakin’s optometry program integrates all these elements into the curriculum from year two of the degree through to graduation. Throughout your pre-vocational studies you study elements from the health, medical and vision sciences, business and management disciplines.

State-of-the-art facilities

During the first three years of the program, you will be based at the REACH facility at the Geelong Waurn Ponds Campus, which includes a fully-equipped clinical skills laboratory and a full-scale optometry practice that allows for simulation-based learning, examinations and research.

Work experience

Clinical placements are an integral part of the program. You will undertake a variety of short-term clinical placements and spend the final six months of the course as a ‘student resident’ in one of a range of clinical optometric and medical settings. These extensive rotations take place in both metropolitan and regional or rural settings, and will enable you to consolidate your knowledge and skills in supported environments under the supervision of qualified optometrists.

Course information

Course code: D302
Years (full time): 3.5
Campus: WP
Intake: T1 (March)
2019 annual fee: $53 700
IELTS score: 7/7

Structure

This degree comprises 40 credit points. All units are core units.

Minimum entry requirements

Applications are accepted from students who possess the skills and prerequisites required to complete the course, gain professional certification and practise safely.

Professional recognition

Graduates of Deakin’s Doctor of Medicine and Bachelor of Vision Science/Master of Optometry are eligible to apply for registration with the Australian Health Practitioner Regulation Agency (AHPRA) and as Medicare Service Providers.

deakin.edu.au/post-medicine
Graduate Certificate of Agricultural Health and Medicine

Gain the specialist knowledge and skills to care for people in rural areas living with physical and mental health issues. As a graduate you will be empowered to improve and genuinely make a difference to agricultural workforces and communities.

Graduate Certificate of Agricultural Health and Medicine

This degree aims to provide students with an insight into the physical and mental health issues encountered by people within the agricultural industry. You will explore what influences higher rates of morbidity and mortality in rural and remote Australia, and what influences successful health policies and safety intervention programs. By understanding these issues, along with learning the impact of poor health on agribusiness, agricultural production and sustainability, you will be placed to make a significant difference in Australia’s agricultural communities.

Our accreditations

The Graduate Certificate of Agricultural Health and Medicine is recognised by Agrisafe Australia and allows you to become an Agrisafe practitioner. The course also offers continuing education and professional development with:
- Australian Association of Social Workers
- Australian College of Rural and remote Medicine
- Australian Veterinary Association
- Royal Australian College of General Practitioners.

Course information

Course code: H522
Years (full time): 1PT
Campus: C
Intake: T1 (March), T2 (July)
2019 annual fee: $29 200
IELTS score: 6.5/6

Structure

This course comprises 4 credit points, including:
- 2 core units, AND
- 2 credit point minor research project, OR
- 2 credit points from the course-grouped electives in the coursework stream.

Minimum entry requirements

- Bachelor’s degree in any discipline, OR
- At least three years of relevant work experience (or part-time equivalent).

Due to Australian Government regulations, student visas to enter Australia cannot be issued to students who enrol in Deakin’s Cloud Campus. To participate in the mandatory campus-based scheduled sessions, it is suggested that you apply for a tourist visa to enter Australia. Please be advised that Deakin University cannot guarantee that you will be granted a tourist visa by the Australian Government.
Master of Nursing Practice

Deepen your theoretical knowledge of nursing and progress your career as a registered nurse. Master’s-level preparation will further develop your nursing skills to solve complex and novel problems, think critically, and assume new roles that will enable you to contribute to the provision of safe, high-quality, innovative and flexible healthcare delivery.

Master of Nursing Practice

The Master of Nursing Practice was designed in response to industry and professional demand to increase the number of master’s-qualified registered nurses in the workforce, and to meet the need for a sustainable Australian healthcare system. The program aims to broaden and deepen the knowledge and skills of registered nurses who work in a variety of healthcare settings. It recognises that graduates should be able to practise in ways that extend beyond the technical and practical concerns of nursing to include research-based practice. The degree is designed to allow you to choose from a range of study pathways that support your career aspirations in nursing management and governance, and clinical education and leadership.

Course information

Course code: H771
Years (full time): 1.5
Campus: (online studies)
Intake: T1 (March), T2 (July)
2019 annual fee: $32,600
IELTS score: 6.5/6

Structure

This degree comprises 12 credit points, including one compulsory coursework unit in research methods, designed to ensure students develop research skills. Students have the option of completing a master’s by Minor Thesis or Coursework.

Minimum entry requirements

Applicants should normally possess a Bachelor of Nursing, or equivalent approved qualification, and be a registered nurse with the Australian Health Practitioner Regulation Agency (AHPRA) through the Nursing and Midwifery Board of Australia or an equivalent registering authority. Applicants should ideally have had a minimum of 12 months recent clinical experience.

Study with the best

The School of Nursing and Midwifery has been ranked in the Top 25 universities globally in the 2018 QS World University Rankings. These prestigious rankings are based on academic reputation, employer reputation and research impact, and showcase the strength of Deakin’s School of Nursing and Midwifery and its programs.
Graduate Certificate of Diabetes Education

Develop the skills, knowledge and attributes to educate clients with diabetes. As one of the fastest-growing public health issues in the world, it is a field in need of more qualified health professionals and subject matter experts.

Graduate Certificate of Diabetes Education
The Graduate Certificate of Diabetes Education is the first and longest-running course of its type in Australia, and has a unique teaching partnership with diabetes clinicians Australia-wide. This ensures an alignment between the course curriculum and current clinical and evidence-based practice. It is considered a benchmark course in the health sector, preparing health professionals for specialty practice in diabetes education. Teaching staff address both disease prevention and disease management. The degree is solution-focused with the goal of transferring knowledge gained from research findings to inform policy, practice and teaching.

On completion of the Graduate Certificate, you will be eligible to apply to continue your studies in Deakin’s Master of Nursing Practice.

Trial this course on FutureLearn
The coursework units in this course are delivered on FutureLearn – a highly flexible, easy-to-use online learning platform that connects you with Deakin students and practitioners from all corners of the world. Units delivered on FutureLearn are broken down into easily-manageable two-week blocks, allowing you the flexibility to fit learning around your work and lifestyle.

The first two-week block of this course is available for free, meaning you can get a taste for Deakin’s world-class education before deciding to continue on to complete your course.

Course Information
Course code: H520
Years (full time): 1
Campus: C (online studies)
Intake: T1 (March)
2019 annual fee: $17,300
IELTS score: 6.5/6

Structure
This degree comprises 4 core units equal to four credit points.

Minimum entry requirements
- Three-year undergraduate degree, or equivalent, from an approved university or other educational institution, OR
- Successful completion of other equivalent qualifications gained by examination, OR
- At least two years of relevant professional experience.
Master of Dietetics

Help people understand the relationship between healthy eating and the prevention and treatment of illness and disease. This qualification will enable you to work in areas such as hospitals, private practice, public health, sport and media.

Course Information
Course code: H718
Years (full time): 1.5
Campus: B
Intake: S1 (March)*
2019 annual fee: $41 000
IELTS score: 7/7

Structure
This course comprises 12 credit points. All units are core units.

Minimum entry requirements
Three-year bachelor’s degree or equivalent in a relevant cognate area (for example: science, health sciences, nutrition, food science, exercise science, biomedical science, allied health or nursing) within the last 10 years from an approved university or other educational institution.

Students who have completed an undergraduate degree in a relevant cognate area must demonstrate learning in Human Biosciences and Food and Nutrition Science as described below:

• Biochemistry content with Chemistry (0.25 EFTSL) followed by Biochemistry (0.25 EFTSL*);
• Human Physiology content with Human Biology (0.25 EFTSL*) followed by Human Physiology (0.25 EFTSL*).

Applicants are also required to have completed at least 4 units (equivalent to 4 Deakin credit points) of nutrition and food science study covering content relating to principles of nutrition, lifespan nutrition diet and disease and food science.

* Unlike most Deakin courses, the Master of Dietetics operates on a semester system.
* EFTSL refers to a full-time study load for a single term. 0.25 EFTSL is typically equivalent to two units of study.

Master of Dietetics
Deakin was one of the first universities in Australia to offer a course in dietetics, and has been proudly offering Dietitians Association of Australia-accredited courses for more than 40 years. The Master of Dietetics is a three-semester professional training program that builds on your undergraduate knowledge in nutrition, physiology and biochemistry, to develop skills in dietary management of individuals and groups in both health and disease. Full-time professional practice placements provide you with hands-on experience in clinical, community and food service settings. You also develop research and communication skills through group projects and undertake professional and career development through a dietetic-specific professional practice unit.

Professional recognition
The Master of Dietetics is accredited by the Dietitians Association of Australia (DAA). Students graduating from accredited courses are eligible for full membership of the DAA and the Accredited Practising Dietitian (APD) program and to work in all areas of dietetics.

Key industry partnerships
Deakin’s nutrition and dietetics research and teaching is done in collaboration with major industry and non-government partners. The School of Exercise and Nutrition Sciences also has numerous clinical and community dietetics placement partnerships. These formal partnerships ensure that Deakin’s dietetics students have access to some of the largest and most well-respected teaching hospitals and community health services in Melbourne.

deakin.edu.au/post-nutrition
Studying human nutrition is a great way to diversify your knowledge and skill set to progress your career in health. Our programs draw on a cross-section of disciplines, including food science, physiology, epidemiology, psychology and sociology.

**Master of Human Nutrition**

Learn the skills to work effectively as a nutritionist in a range of employment settings. Deakin’s Master of Human Nutrition draws content from related disciplines such as food science, biochemistry, physiology, epidemiology, psychology, sociology, and politics and policy. You will develop an advanced understanding of the role of nutrition and diet in the health of individuals and the population. You will also learn about the biological, social and policy-related aspects of human nutrition, along with skills to evaluate the findings of human nutrition studies and undertake research. This degree also provides you with the opportunity to undertake a diverse range of elective study options, giving you the ability to pursue topic areas that align with your interests and career aspirations.

**Accreditation**

As a graduate of human nutrition from Deakin, you may be eligible for registration as an associate nutritionist through the Nutrition Society of Australia (NSA). Following three years of relevant work experience, associate nutritionists are able to apply for registered nutritionist status.

**Course information**

- **Course code:** H714
- **Years (full time):** 1.5
- **Campus:** [ ] (online studies)
- **Intake:** T1 (March), T2 (July), T3 (November)
- **2019 annual fee:** $34,600
- **IELTS score:** 6.5/6

**Minimum entry requirements**

- Bachelor’s degree or postgraduate degree in a related discipline from an approved university or other educational institution, OR
- Completion of bachelor’s degree in any discipline PLUS three years relevant work experience.

**Related programs**

- Graduate Diploma of Human Nutrition
- Graduate Certificate of Human Nutrition

**Structure**

This course comprises 12 credit points, including:

- 6 core units, PLUS
- One of the following options:
  - **Option A:**
    - HSN753 Research Practice in Human Nutrition, and
    - 5 elective units*, OR
  - **Option B (Research focus):**
    - HSN750 Nutrition Research Project Part A (2 credit points), and
    - HSN751 Nutrition Research Project Part B (2 credit points), and
    - 2 elective units*.

* Up to 2 elective credit points may be chosen from postgraduate units offered by any faculty of the University (subject to unit rules and approval by the Course Director).

HEALTH – NUTRITION AND DIETETICS

Master of Nutrition and Population Health

If you are interested in helping communities through improved nutrition this is the degree for you. Advance your qualification and equip yourself with the skills and knowledge required to work across a range of government, industry and community health sectors.

Course information
Course code: H748
Years (full time): [7]
Campus: [B]
Intake: T1 (March)
2019 annual fee: $34 600
IELTS score: 6.5/6

Structure
This course comprises 16 credit points. All units are core units.

Minimum entry requirements
• Three-year bachelor’s degree or postgraduate degree in any discipline, or equivalent qualifications from an approved university or other educational institution, OR
• At least three years relevant professional experience.

Master of Nutrition and Population Health
This is an advanced degree in human nutrition that draws content from related disciplines, such as public health, food science, biochemistry, physiology, epidemiology, psychology, sociology, and politics and policy. Throughout the degree you will develop advanced knowledge and an understanding of the biological, social and policy-related aspects of human nutrition, and skills that will enable you to work effectively as a nutritionist in a range of employment settings.

Accreditation
As a graduate of Deakin’s postgraduate nutrition courses you may be eligible for registration as an associate nutritionist through the Nutrition Society of Australia (NSA). Following three years of relevant work experience, associate nutritionists are able to apply for registered nutritionist status.

Career opportunities
Graduates can become qualified nutritionists who design, coordinate, implement and evaluate a range of population nutrition interventions to improve the wellbeing of individuals, communities and the population as a whole. You will find opportunities in a wide range of nutrition positions in government departments, non-government organisations, community sector agencies, the food industry and private consulting.
Master of Psychology (Clinical)

Develop the academic, practical and research skills to be ready for a career in psychology. Become a specialist in the diagnosis and treatment of psychological and mental health conditions through Deakin’s Master of Psychology (Clinical).

Course information
Course code: H750
Years (full time): 2
Campus: [B] [WF]
Intake: T1 (March)
2019 annual fee: $33 600
IELTS score: 7/7

Structure
This degree comprises 16 credit points. All units are core units.

Related programs
Graduate Diploma of Psychology

Minimum entry requirements
Four-year sequence of study in an accredited psychology program that meets national registration requirements and eligibility for Associate Membership of the Australian Psychological Society, or equivalent. The four-year sequence may be either an honours program or the combination of a three-year undergraduate degree, including a psychology major, and an approved postgraduate program.

Master of Psychology (Clinical)
Become a specialist in the diagnosis and treatment of psychological and mental health conditions. Based on an integrative approach to clinical psychology that emphasises evidence-based practice, this degree was designed in consultation with industry partners. Inter-related streams of theory, research and practice provide the skills needed to become a registered psychologist.

Practical learning
Through our clinical training programs, you will have opportunities to develop skills in unique clinics embedded in our public mental health partners and through placements with community agencies. This lets you put your academic knowledge into real-life application, as well as developing your professional identity and practice through early adoption of supervision and professional learning plans.

Professional recognition
This course is accredited by the Australian Psychology Accreditation Council (APAC), and recognised by Psychology Board of Australia, the Australian Psychological Society (APS) and its College of Clinical Psychologists.
Master of Psychology (Organisational)

Acquire the academic, practical and research skills needed for a career in psychology. Work with organisations, teams and individual employees to improve their performance and increase effectiveness and productivity in the workplace.

Master of Psychology (Organisational)

Organisational psychology is a rapidly growing area of psychology in Australia and the US. You will have the ability to analyse organisations and their people, and devise strategies to recruit, motivate, develop, change and inspire. Deakin’s Master of Psychology (Organisational) program has very strong research, placement and consulting connections with a large number of external organisations. The degree equips you with the academic, practical and research skills required for accreditation and registration, and for employment in one of the many organisations employing psychologists with these kinds of skills and experience.

Professional recognition

The degree qualifies you to register as a generalist psychologist with the Psychology Board of Australia and also allows you to apply for entry to their approved registrar program to gain endorsement as an organisational psychologist.

One of a kind

Deakin has the only course in the Australian State of Victoria where you can study organisational psychology, learning how to increase employee well-being, team effectiveness and organisational performance.

Course information

Course code: H752
Years (full time): 2
Campus: B
Intake: T1 (March) 2019
Annual fee: $33 600
IELTS score: 7/7

Structure

IELTS score: 6.5/6

Structure

This course comprises 16 credit points, including:
- 0-credit-point academic integrity unit
- 6 core units
- 10 credit points of study combining research and elective units in one of the following configurations:
  - Option 1: Dissertation
    2 credit points of research training
    4 credit point independent research project
    4 credit points of Cultural Heritage and Museum Studies electives.
  - Option 2: Research Paper
    2 credit points of research training
    2 credit point independent research project
    6 credit points of Cultural Heritage and Museum Studies electives.
  - Option 3: Research Project
    1 credit point research training
    8 credit points of Cultural Heritage and Museum Studies electives
    1 credit point independent research project.

Minimum entry requirements

- Bachelor’s degree in any discipline, OR
- Other evidence of academic capability judged to be equivalent.

Related programs

- Graduate Diploma of Museum Studies
- Graduate Certificate of Museum Studies

* Students entering the degree with a related academic or professional background may be eligible for credit transfer and recognition for up to 4 of the foundation units, reducing the full-time duration from 2 years to 1.5 years.

Master of Cultural Heritage

Develop the knowledge, research skills and practical experience to make a difference in the cultural heritage sector. Whether you want to work with collections, manage a museum or heritage site, or protect and interpret significant sites, landscapes or intangible cultural heritage, specific pathways through this master’s degree mean you can create a program that is right for you. Whether you are a mid-career professional consolidating your practical experience, looking for a change in career, or a recent graduate who would like to work in museums or heritage organisations, this degree provides a pathway into employment in this diverse and exciting field.

Our community

Practical experience is a key theme of this program and you will have the chance to incorporate internships and international field schools within your course, and to participate in visits to museums, galleries and heritage places as part of the on-campus programs.

Career opportunities

Our graduates work in the following roles and fields:
- collections manager
- curator
- government agencies, private corporations and community organisations
- heritage officer
- manager of a historic house
- museum director
- practitioners in museums and heritage institutions
- private practice
- public programs officer
- registrar researcher.

Dual award program

Deakin has partnered with the Brandenburg University of Technology (BTU) in Cottbus-Senftenberg, Germany, to deliver a dual-award program. The program results in two degrees: Deakin’s Master of Cultural Heritage and BTU’s Master of World Heritage. The aim of the program is to educate museum and heritage management specialists with cross-sectoral knowledge. Graduates can identify, assess, protect, manage and promote cultural heritage objects, collections, sites and archives, with a special focus on intangible heritage knowledge and practices. A group internship in Melbourne and a study project in Cottbus are built into the program, underlining the development of teamwork talents in an industry environment.

To learn more about this program visit deakin.edu.au/post-humanities.

2019 annual fee: $25,800
IELTS score: 6.5/6

Structure
This course comprises 16 credit points of study, including:
- 6 credit points of core units
- 0-credit-point academic integrity unit
- 10 credit points of study as a combination of research and elective units in one of the following three configurations:
  - Option 1: Dissertation
    2 credit points of research training
    4 credit points independent research writing
    4 credit points of electives
  - Option 2: Research Paper
    2 credit points of research training
    2 credit points of independent research writing
    6 credit points of electives
  - Option 3: Research Project
    1 credit point research training
    1 credit point independent research writing
    8 credit points of electives

Minimum entry requirements
- Bachelor’s degree in any discipline, OR
- Other evidence of academic capability judged to be equivalent

Master of Humanitarian Assistance
The environment in which humanitarian workers find themselves today is more complex and diverse than ever. Conflicts are increasingly complicated and natural disasters are escalating in number and intensity, often occurring in regions already struggling with socioeconomic and political constraints. Deakin’s course in humanitarian assistance is strategically positioned as the first course of its kind in the Asia-Pacific region. It builds a unique platform where humanitarian practitioners and academics can share knowledge and experience, with a focus on improving leadership, preparedness and response capacities to national and international emergencies.

Hands-on experience
This degree provides students with a unique combination of theory, practice and reflection using cloud-based and intensive located modes of learning. Combined with action-based research and field experience, the Master of Humanitarian Assistance enables students to be better equipped, effective and highly-skilled practitioners in the sector. Specialisations in Public Health, International Relations and Development are also possible. The program incorporates work integrated learning throughout and offers the opportunity for internships with humanitarian organisations.

Centre for Humanitarian Leadership
Deakin is committed to engaging and developing current and future humanitarian professionals as innovative thinkers and dynamic achievers. The collaboration between Deakin and Save the Children Australia seeks to enhance the skills, knowledge and behaviours required of current and future humanitarian leaders; significantly contribute to the professionalisation of the sector; and improve the capability of humanitarian professionals, non-government organisations (NGOs); and other agencies in responding to humanitarian disasters – from disaster risk reduction to managing major responses and leading the transition to long-term recovery and development.

Our partners
Deakin humanitarian assistance students capitalise on Deakin’s strong partnerships with relevant international NGOs, United Nations agencies, other locally-based NGOs, government agencies such as Australia’s Department of Foreign Affairs and Trade, and other relevant stakeholders in the sector. Drawing on these organisational partnerships, students will have access to humanitarian experts, leaders, thinkers and researchers from the humanitarian sphere.
Master of International and Community Development

Get involved in the development of programs to improve the lives of citizens around the world. A career in international and community development will enable you to promote justice, reduce poverty, and build sustainable living environments.

**Master of International and Community Development**

Good development promotes justice, reduces poverty and builds environments so that people can lead productive, creative and fulfilling lives. Development programs and project work for poverty reduction are major areas of professional employment. If you are looking to develop your career in international and/or community development or looking to gain work in the sector, Deakin provides the right industry links and connections from within the field to give you a head start. You will develop a good balance of theoretical knowledge and practical skills to allow you to undertake projects that benefit the communities in which you work. We enable you to focus your studies on developing countries or communities within Australia, providing our graduates with opportunities to become employed locally or internationally.

**Career opportunities**

If compassion for other communities motivates you, advance your existing career by gaining relevant, skills-based, theoretically sound professional qualifications. This will help you complete project work and reduce poverty in local and international communities. Career opportunities could include working in:

- government agencies
- international development organisations
- non-government organisations
- community-based organisations
- International-oriented businesses.

**Save the Children partnership**

Deakin’s postgraduate programs in International and Community Development have been developed in association with Save the Children – a global humanitarian agency that provides relief and helps support children in developing countries. This partnership has enabled Deakin to facilitate programs that are relevant and applicable to today’s humanitarian jobs, meaning that your Deakin humanitarian degree will best prepare you to assist and manage some of the biggest humanitarian issues that our world is facing today.

Master of Politics and Policy

Explore the big ideas that have shaped and will continue to shape the world. Prepare to tackle current social and political challenges, such as gender equality and asylum seekers, by building your media campaigning skills and engaging in lively discussions.

Master of Politics and Policy

Deakin’s Politics and Policy degree focuses on the development, implementation and politics of public policy. Explore our role as citizens in the Australian community; the nature of diverse ideologies; and the close relations between government, the private sector and community organisations. With a dual focus on politics and public policy, Deakin offers a wide range of core units and elective units to appeal to public sector, business, NGO and community sector managers and leaders, and those wishing to move into this area. With three intakes per year, as part of Deakin’s unique trimester system, you have the flexibility to start studying when it suits you.

Career opportunities

Our graduates gain employment in many fields including:
• business
• foreign affairs
• government organisations
• intelligence and security
• journalism
• policy advocacy, design, analysis and research
• politics
• public relations and lobbying
• public service
• speechwriting
• teaching.

Learn from experienced professionals

Deakin’s politics and policy courses are run by academic staff with extensive networks in government and community organisations, which provide exciting internship and employment opportunities for our students.

Graduate Certificate of Humanitarian Health

Identify and manage the health needs and issues that emerge in a variety of environments. You can build upon your existing knowledge or delve into an entirely new area through Deakin’s humanitarian health program, and work towards helping those in humanitarian crises.

Course information

Course code: A390
Years (full time): 0.5
Campus: C (online studies)
Intake: T1 (March), T2 (July), T3 (November)
2019 annual fee: $11 100
IELTS score: 6.5/6

Structure

This course comprises 4 credit points and a 0-credit-point academic integrity unit. All units are core units.

Minimum entry requirements

- Bachelor’s degree in any discipline OR
- At least three years of relevant work experience (or part-time equivalent).

Graduate Certificate of Humanitarian Health

The Graduate Certificate in Humanitarian Health (GCHH) will equip health professionals with the essential knowledge and skills to identify and manage the public and clinical health needs and issues that emerge in complex humanitarian contexts and low-resource environments. The GCHH is an online, part-time program that incorporates a unique mix of theory, practice and reflection. You will learn from experts, leaders, thinkers and researchers from within the humanitarian sector, all through Deakin’s innovative online Cloud Campus. This is an excellent opportunity to diversify your professional career options and build upon your existing health or humanitarian knowledge. And studying online means you can have the flexibility of studying when and where you want while receiving a high-quality and well-regarded education.

Career opportunities

The GCHH will enable students to diversify their professional career options, providing an academic avenue to prepare health professionals for practice in the field of humanitarian health. Students will have access to experts, leaders, thinkers and researchers from within the humanitarian sector, providing a unique mix of theory, practice and reflection, drawing upon a combination of academic and practice knowledge methodologies using a cloud-based mode of learning.

Humanitarian Health Scholarship

You may be eligible to apply for Deakin’s Humanitarian Health Scholarship. This 50% fee reduction scholarship is only available to international students and could provide you with financial support while studying this degree. Eligibility criteria applies.
Cyber Security at Deakin

Cyber security professionals protect the data and systems of digital services we use for daily business and communication. Study at Deakin and gain the skills to understand cyber issues and ways to identify, diagnose and resolve these challenges.

Master of Cyber Security

In an increasingly digital world, cyber attacks are an everyday occurrence. Expert cyber security professionals who can protect organisations from these threats are in high demand, and the Master of Cyber Security can prepare you for a successful career anywhere in the world. This degree gives you the cyber security skills that are crucial to the success of our digital future, focusing on a range of studies, from system security and digital forensics to analytics and organisational security.

Get the expertise you need to succeed

Cyber security is a growing issue for individuals and businesses alike. As a cyber security graduate you will have the skills demanded by a diverse range of industry and government sectors. Our degrees are industry-specific, so you study issues important to industry – like implementing security technologies to protect against hackers or developing cyber security solutions.

Industry cyber security certifications

Students studying cyber security will have the opportunity to undertake study aligned with cyber security industry certifications as part of their course. Industry certifications are highly valued by industry and increase the employment prospects of graduates in the cyber security industry.

Centre for Cyber Security Research and Innovation

Deakin’s Centre for Cyber Security Research and Innovation (CSRI) develops innovative technologies and methodologies for securing cyberspace in Australia and beyond. Engaging directly with industry and governments through collaborative research projects, CSRI provides protection from major cyber security threats. CSRI models and informs policy development as well as raising cyber-safety awareness levels.

Master of Cyber Security (Professional)

The Master of Cyber Security (Professional) extends the specialised cyber security skills obtained in the Master of Cyber Security by providing students with the opportunity to undertake a period of industry-based learning or a research project under the supervision of our internationally-recognised research staff.

Master of Information Systems

Work in a globally-significant field where you will implement cutting-edge technologies to solve business problems. If you have a passion for new technologies, business analytics and eBusiness, a career in information systems may be for you.

Master of Information Systems

New technologies and the accumulation of data have made information systems a key driver in business. This degree has been developed to address the demand for specialists who understand the strategic use of information in the business context. It provides specialist skills in business-oriented principles and practices of information systems. It focuses on the strategic use of information in a business and policy context, supported by a sound technical understanding and capability in specific areas of information systems via a specialisation in business analytics.

Accreditation

Deakin’s information systems degrees are accredited by the Australian Computer Society (ACS), offering you international and national recognition.

* A shorter course duration may be available to those who have completed previous studies in a similar discipline or with relevant work experience. Please visit the course page on the Deakin website for more details.
Master of Information Technology

As a constantly evolving industry, IT offers an exciting future. You can study from a diverse range of fields to open up employment opportunities in just about any industry, and contribute to the way we work, socialise, communicate and entertain ourselves.

Industry experience
All Deakin IT students are able to undertake an internship and complete real-world industry projects to synthesise the knowledge and skills learnt in the classroom, and apply them in a professional work environment. This counts towards your degree and helps to develop your professional networks before you graduate.

The latest technology and facilities
We regularly invest in our facilities so that you can access the latest software and technologies in fully-equipped computer labs. The new Robotics and Internet of Things (RIoT) studio has the latest in computing, robotics and cyber-physical systems. You will also have access to professional software products, such as programming IDEs, games engines, VR and content development systems.

Professional recognition
Deakin’s information technology degrees are professionally accredited by the Australian Computer Society (ACS).

Specialisations
- Data analytics
- Networking
- Software and services development
- Cyber security
- IT strategy and management
- Virtual reality

Master of Information Technology Leadership

This innovative program awards a masters-level qualification largely based on recognition of professional practice, and is ideally suited to experienced IT professionals with domain experience seeking career advancement.

Master of Information Technology Leadership

This innovative program is largely based on recognition of professional practice and is ideally suited to IT professionals with extensive domain experience. The model offers employers and professionals an alternative to traditional higher education that is credible, validated and provides new ways to match capability and opportunity. The program supports professionals to reach their full potential by accelerating the completion of the program on the basis of prior learning and work experience. Completion of this degree recognises the discipline-based knowledge and skills developed by professionals in the workplace, and is credentialled through DeakinCo (a wholly owned subsidiary of Deakin University).

Recognising your professional experience

If you are a professional with extensive experience and knowledge in your field, a professional practice degree can help you gain a professionally-recognised qualification. This, in turn, can lead to you furthering your career. Students undertaking professional practice programs gain their degree through a combination of professional practice credentialling and coursework units.

What are professional practice credentials?

Learning does not stop when you leave school, and there are many important skills that people develop over the course of their career. This degree recognises the skills that professionals have learned in the workplace by offering students the chance to earn professional practice credentials for those skills. To earn a credential you will present a portfolio of evidence of your mastery of a specific skill, and this portfolio will be assessed by a panel of academic and industry representatives. If the panel awards you a credential, it will be counted as a credit toward completing the degree.

Course information

Course code: S789
Years (full time): 2-2.5PT
Campus: C (online studies)
Intake: T1 (March), T2 (July), T3 (November)
2019 annual fee: $9,045*
IELTS score: 6.5/6

Graduate Diploma of Virtual and Augmented Reality

The first course of its kind in Australia, the Graduate Diploma of Virtual and Augmented Reality allows you to specialise in this cutting-edge field and learn how to replicate life-like spaces, portray fictional worlds and enhance real-life environments with a digital overlay.

Graduate Diploma of Virtual and Augmented Reality

This program focuses on the key areas of virtual reality (VR) and augmented reality (AR). VR and AR are on track to be the next big computing environment due to the rapid uptake and development of the area. They are integrated into a number of industries such as the healthcare, tourism advertising, entertainment, construction, gaming, education and space industries. This course enables graduates, regardless of their prior background, to integrate VR and AR experiences into their current business roles, and advance their business to the forefront of this incredibly exciting and innovative field that is VR/AR.

What is virtual reality?

Virtual reality (VR) is an immersive digital environment that can replicate lifelike physical environments or portray a fictional artificial world. It makes the user feel like they are immersed in that environment in real life. These environments can be viewed through a head-mounted display, a smartphone-based display or by standing within a cube or dome showing 3D projections on every surface.

What is augmented reality?

Augmented reality (AR) and Mixed reality (MR) overlays digital content over real-life objects and environments. This often involves virtual content being added to the view of the world seen through a smartphone camera. It also includes a wealth of other opportunities involving capturing the physical world with 360° cameras, or directly enhancing the world around you with projections or head-mounted displays such as the Microsoft HoloLens.

Course Information

Course code: S679
Years (full time): T1
Campus: B
Intake: T1 (March), T2 (July)
2019 annual fee: $33,000
IELTS score: 6.5/6

Structure

This course comprises 8 credit points, including:

- 4 core units
- 1 four-credit point work placement unit in virtual reality
- 2 zero-credit-point compulsory units.

Minimum entry requirements

- Bachelor’s degree in any discipline, OR
- Graduate certificate in any discipline, OR
- At least three years of relevant work experience (or part-time equivalent).

The latest technology and facilities

We continually invest in our facilities so you will have access to the latest software, equipment and technology from day one of your degree. The School of Information Technology houses many specialised labs, including our Virtual Reality Lab, which brings the latest in VR and AR technologies.

deakin.edu.au/post-it
Master of Laws (LLM)

Get a first-class, experiential legal education from renowned academics, and graduate ahead of the pack by working with real clients at Deakin’s Law Clinics in the centre of Melbourne’s business district.

Course information
Course code: M726
Years (full time): 1
Campus: B, C
Intake: T1 (March), T2 (July), T3 (November)
2019 annual fee: $37,000
IELTS score: 6.5/6

Structure
This course comprises 8 credit points, including:
- 4 core units
- 4 elective units from a specified list.

Minimum entry requirements
- A degree in the same discipline (LLB (Hons), JD or equivalent) leading to admission to practice, OR
- A LLB or equivalent in the same discipline leading to admission to practice; and two years documented relevant professional experience.

Master of Laws (LLM)
If you have an undergraduate law degree, this program offers you the opportunity to develop high-level skills for an advanced career in law. It focuses on international commercial law and corporate regulation, and equips you with fundamental knowledge in important areas of the Australian and international legal system. The content covers new developments in major areas of human activity – such as internet technology, health and financial services – and the increased regulation in traditional areas of resources, dispute resolution and human rights. The program also develops advanced research, analytical, evaluative and communication skills as applied to major policy issues in areas of research and scholarly strength at Deakin Law School.

Venture law clinic
Deakin Law School offers valuable opportunities to gain legal experience through its Venture Law Clinic, which provides a chance to turn theory into practice through unique experiential learning opportunities. Under expert supervision students will work with real clients in a clinical setting. They will have the opportunity to interview entrepreneurs, conduct research in order to solve problems encountered by new business ventures, and provide advice with practicing lawyers.

Through the course, students acquire the legal acumen to put their knowledge to the test in exciting real-world scenarios. They will also develop important professional skills valued by employers. The Venture Law Clinic will prepare you for roles such as in-house counsel (with innovative tech companies and firms that serve the burgeoning entrepreneurial community), consultant (in private practice) and adviser to government (on a range of innovation-driven legal, regulatory and economic issues).

High rankings
Deakin Law School is highly regarded and ranked among the Top 100 law schools in the world by the prestigious ShanghaiRankings. And Deakin’s law programs are among the Top 100 in the world according to the 2018 QS World University Subject Rankings.
Master of Biotechnology and Bioinformatics

Gain hands-on experience in the latest techniques in biotechnology and bioinformatics research.

**Course information**
- **Course code:** S772
- **Years (full time):** 2
- **Campus:** WP
- **Intake:** T1 (March), T2 (July)
- **2019 annual fee:** $34 600
- **IELTS score:** 6.5/6

**Structure**
This course comprises 16 credit points, including:
- 7 core units
- 1 elective unit
- 1 eight-credit-point research pathway or Industry Practice pathway.

**Minimum entry requirements**
- Bachelor’s degree in same discipline with a minimum WAM (Weighted Average Mark) of 60% OR,
- Graduate Certificate in same discipline, OR
- Bachelor’s degree in any discipline PLUS 3 years relevant work experience.

**Master of Biotechnology and Bioinformatics**
This cutting-edge course provides hands-on experience of the latest techniques in biotechnology and bioinformatics research, as well as up-to-date bio-processing and production technologies.

Industry connectedness is an integral part of this course and ensures students have opportunities to gain an industry perspective and establish professional networks prior to graduation. Strong industry links ensure that guest lectures from key industry partners are embedded into each unit to provide students with an understanding of industry-engaged research and commercialisation in the biotechnology environment. Students also have the opportunity to participate in site visits and are required to undertake a Research Project in a Biotechnology-related field.

Throughout the Master of Biotechnology and Bioinformatics, students will gain experience operating cutting-edge analytical equipment and cell-culture bioreactors similar to those in industrial-scale production facilities and cover a wide range of emerging topics in biotechnology and, importantly, research management and business skills.

**Further studies**
Following successful completion of the course, graduates may choose to pursue further research through a PhD, or seek employment in industry or government roles. Alternatively, students may choose to exit early with a Graduate Certificate of Research Management or Graduate Diploma of Biotechnology and Bioinformatics.
Master of Sustainability

With globalisation, population growth and climate change affecting economies around the world, issues of ‘sustainability’ become increasingly critical. Develop advanced knowledge in areas including environmental management and sustainable regional development.

Master of Sustainability

Development of successful sustainability strategies involves a multi-disciplinary approach to analysing the risks to the environment, while utilising a ‘triple bottom line’ approach to solutions. That is an approach that manages the environmental, social and economic issues. This course has been structured to increase the breadth and depth of knowledge and application of skills necessary to develop and implement sustainability strategies for a range of sectors.

Students will acquire advanced knowledge and contemporary skills in the multidisciplinary approaches to examining environmental impacts and why they occur, and to developing appropriate solutions to managing these impacts. Explore how we can learn to meet the needs of the present without permanently negatively impacting our future.

This degree enables students to specialise in either Environmental Management or Sustainable Regional Development whilst pursuing industry-linked research projects that align to their personal interests and career aspirations.

Specialisations

Sustainable regional development
Environmental management

Further studies

Following successful completion of the course, graduates may choose to pursue further research through a PhD, or seek employment in industry or government roles. Alternatively, students may choose to exit early with a Graduate Certificate of Research Management or Graduate Diploma of Sustainability.

Course information

Course code: S721
Years (full time): 2
Campus: B/C
Intake: T1 (March), T2 (July)
2019 annual fee: $34 600
IELTS score: 6.5/6

Structure

The course comprises a total of 16 credit points, including:

- 3 core units
- 1 four-credit-point specialisation unit
- 1 elective unit
- 8-credit-point research pathway or Industry Practice pathway.

Minimum entry requirements

- Bachelor’s degree in same discipline with a minimum WAM (Weighted Average Mark) of 60%, OR
- Graduate Certificate in same discipline, OR
- Bachelor’s degree in any discipline PLUS 3 years relevant work experience
Graduate Certificate of Research Management

Learn practical skills for managing and contributing to research policy and environments through Deakin’s Graduate Certificate of Research Management.

Course information
Course code: S521
Years (full time): 1.5PT
Campus: C (online studies)
Intake: T1 (March), T2 (July)
2019 annual fee: $17,300
IELTS score: 6.5/6

Structure
This course comprises 4 credit points.

Minimum entry requirements
• Bachelor’s degree in any discipline, OR
• At least three years of relevant work experience (or part-time equivalent).

Graduate Certificate of Research Management
The Graduate Certificate of Research Management is designed for professional research administrators and research policy developers wishing to further their expertise to support research in the Higher Education sector as well as industry and government departments. The course aims to provide practical skills and insights for managing research and policy environments.
Master of Business (Sport Management)

Study at the only Australian university ranked in the Top 10 for its Master of Business (Sport Management) by SportBusiness International. Learn to manage organisations that run sporting competitions, major events and community programs.

Master of Business (Sport Management)

Australia has one of the strongest sporting sectors in the world. Underpinning this multi-billion dollar industry are the business professionals who provide direction and leadership to sporting organisations across the country. There are significant opportunities for those who acquire professional expertise in the management of the growth industry of sport. Whether it is at elite, semi-elite or recreational level, sport management at Deakin prepares you to deliver on this strategic dimension of the industry, in areas such as finance, marketing, management or development. Tailored for professionals with extensive industry experience, this degree integrates business disciplines to provide you with effective management and direction skills.

In the global top 10

According to the prestigious SportBusiness Postgraduate Course Rankings 2017, which has three times named Melbourne the sporting capital of the world, Deakin is ranked in the top 10 in the world for sport management education. Graduates of Deakin’s Master of Business (Sport Management) rank in the top five for average salaries three years after graduation, compared to their peers around the globe.

Course information

Course code: M748
Years (full time): 1.5 - 2
Campus: B/C

Master of Clinical Exercise Physiology

Chronic health problems such as cancer or mental health issues are known to respond positively to exercise. Study clinical exercise physiology and develop the knowledge and expertise to prevent and treat many medical conditions, injuries and disabilities.

Deakin’s Master of Clinical Exercise Physiology program is the first clinical exercise course in the Australian State of Victoria to achieve accreditation with Exercise and Sports Science Australia (ESSA). It has produced award-winning graduates, including ESSA supervisor of the year and graduate of the year. You will undertake study and hands-on experience in a clinical setting in Deakin’s award-winning Clinical Exercise Learning Centre at the Melbourne Burwood Campus, as well as at the Baker IDI Heart and Diabetes Institute, where students develop practical skills under close supervision and mentoring. You will then embark on a range of external clinical practicum experiences organised by the University, designed to optimise your exposure to a wide range of clientele, practitioners and institutions.

Professional recognition

This is the first course in the Australian State of Victoria to be accredited by Exercise and Sports Science Australia (ESSA). Students are eligible to apply for accreditation as Accredited Exercise Physiologists upon completion of the course, and are then eligible for provider numbers with Medicare Australia, WorkSafe Victoria, DVA, TAC, and other compensable funds and schemes.

World-class facilities

Our Elite Sports Precinct, teaching labs and extensive equipment will support your training and help you gain a better understanding of sport science. At the Clinical Exercise Learning Centre we aim to improve health outcomes and quality of life for people living with chronic disease, injuries or disability. Our clients are treated by accredited exercise physiologists (AEPs) and master’s students training to become AEPs.

Course information

| Course code: | H743 |
| Years (full time): | 1.5 |
| Campus: | B |
| Intake: | T1 (March) |
| 2019 annual fee: | $34,600 |
| IELTS score: | 6.5/6 |

Structure

This degree comprises 12 credit points. All units are core units.

Minimum entry requirements

Three-year bachelor’s degree in a related discipline from an approved university or other educational institution. Applicants have to be eligible to obtain Exercise Scientist accreditation from Exercise and Sports Science Australia (ESSA) and completion of 140 hours of exercise science service delivery for apparently healthy clientele.

Useful website

Exercise and Sport Science Australia (ESSA) is a professional organisation committed to establishing and promoting the careers of tertiary trained exercise and sports science practitioners. ESSA’s website provides a lot of information about industry, professional development opportunities and much more. Visit www.essa.org.au to learn more.
Ranked #1 in the world for two consecutive years

Deakin’s School of Exercise and Nutrition Science has been ranked #1 in the world for Sport Science by the prestigious Shanghai Ranking’s Global Ranking of Sport Science Schools and Departments in 2016 and 2017. These rankings recognise academic excellence and industry-leading research by highlighting the performance of the top 300 universities with sport-related units across the world.
