## Grants

**Jason Taliadoros**, a Partner Investigator (with Chief Investigator, Danica Summerlin, University of Sheffield, UK; and Partner Investigators Helle Vogt, University of Copenhagen, Denmark and Alice Taylor, King's College London), British Academy Grant, 'Jurisdiction, Legal Community, and Political Discourse in Medieval Europe, 1050–1250' (IC4/100216), The Humanities and Social Sciences Tackling the UK's International Challenges Programme, Awarded 2019 (£44,570). This project re-examines the formation, interaction, and overlap of legal and governmental boundaries during this key period, with the dual aim of reconceptualising Europe's multi-legal past (and how medieval litigants, lawmakers and legal commentators experienced it) for an academic audience and, through interventions in popular media outlets, of presenting this approach to a wider public.

**Matthew Groves** is part of a multi-member team, that has just been granted \$539,000 by the Australian Research Council, under the LEIF 2021 round. The project is titled "The Australian Royal Commissions and Public Inquiries Library".
