| New skills and knowledge for students, Deakin staff, DHS staff, research partners, citizens and other stakeholders | Governance of Partnership increasingly involves staff, students, key faculty and research participants | Adoption and enforcement of new organisational policies | New partnerships  
More mature collaboration  
Bridging of sectors  
External linkages | Public policies encourage community wellbeing, eg urban planning regulations  
Community norms  
Sense of community  
Physical environment |
| • Community engagement seminar and workshop held at Business Plan Launch, 14 March | • Participatory Terms of Reference for each Advisory Group have been developed.  
• Advisory Groups all have broad intersectoral membership across DHS departments and Deakin faculties  
• Co-chairs represent each organisation and boost inter-organisational linkages  
• Manager of Neighbourhood Renewal reports that participants from 2007 Type 2 Diabetes Peer Coaching research project are actively engaged in Corio-Norlane Community Reference Committee | • Deakin/DHS Partnership Business Plan launched March 2008  
• DHS Student Placement Protocol completed June 2008  
• Deakin/DHS Partnership featured in Partnerships research report completed for Vice Chancellor  
• The Deakin/DHS Partnership work to define community engagement and partnerships has been cited in the Deakin Strategic Plan. | • Business Plan Launch attracted 45 delegates from multiple sectors and agencies.  
• Alliance brokered between Warrnambool personnel from the School of Health and Social Development, and local health service coordinators  
• Deakin/DHS Partnership is brokering new collaborations between Deakin senior executive and Neighbourhood Renewal; Armstrong Creek development project.  
• Partnership is building relations with G21; Regional Managers’ Forum; DPCD, Office of Housing, School of Architecture and Building | (No community-level outcomes explicitly identified for this quarter. However much of the inter-organisational activity documented here is helping to create the conditions needed for this to occur in the medium-to longer-term)
