

DUHRS Conference

Start of Block: Default Question Block

Faculty of Health HDR Conference 2018 Abstract guidelines

All students are encouraged to submit an abstract to present at the conference. Abstracts are open to students at all levels of their candidature and may include literature reviews, research plans or findings. Abstracts should be between 250-300 words.

- For original research, abstracts should include:
A brief statement or description of the issue, and a brief aim/objective or the hypotheses to be tested. A description of the study design, measures, procedures and analyses used. Summarised results (where possible include data and relevant statistics). A summary statement of the implications of main outcome/s of the study.
- For literature reviews, abstracts should include:
A brief statement or description of the issue, and a brief aim/objective. Describe what type of literature review has been undertaken (e.g., systematic review and the review methods used (e.g., the databases searched, inclusion/exclusion criteria). A brief description and discussion of the outcomes of the literature review.
