Location: Burwood (Melbourne), Online. You may also apply for alternative entry to this course through the National Indigenous Knowledges Education Research Innovation (NIKERI) Institute.

Duration: 3 years full-time or part-time equivalent

Intakes: T1 (March)

Course overview

If you're moved to help shape the next generation, Deakin's Bachelor of Early Childhood Education offers you an accessible pathway into the industry. In this three-year degree, you will explore early childhood education curriculum theories and pedagogies, child development, health and wellbeing, professional studies; and learn how to teach the key discipline areas of literacy, mathematics, science and the arts.

As your skills progress, you'll undertake professional placements through Deakin's Professional Experience Program, gaining both practical knowledge and skills to teach children from birth to 5 years. Experience learning across a range of early childhood settings and graduate with the confidence and aptitude to meet the significant growth of the Australian early childhood education sector.

Professional experience

Deakin's Professional Experience Program is a key part of your course, ensuring you have the practical skills needed from day one of your teaching career. Working with early childhood settings across Australia, a dedicated team will help you find the right placements based on your interests, skills, residential location and mode of transport. We'll arrange at least 80 days of placements for you in early childhood settings where you'll learn from experienced educators, and facilitate ongoing communication between yourself and Deakin staff to ensure you have the best opportunity to develop as a teacher.

You are required to obtain a valid Working with Children Check (WWCC) prior to undertaking professional experience placements.

Professional recognition

This program is approved by the Australian Children's Education and Care Quality Authority (ACEQA) as an early childhood teaching qualification in Australia. Graduates of this course who are intending to apply for registration in Victoria or interstate may be required to provide further information. Applicants are advised to check the registration requirements in their state or territory, carefully.

The Deakin difference

When you join Deakin, you join the #1 university in Australia and #5 in the world, for education and educational research.* Our achievements can be partially attributed to our close links with the education sector, which help us ensure our courses are developed and reviewed with industry standards in mind. In addition, our teaching staff offer expert knowledge and have been recognised as leaders and innovators in their fields. These standards mean you can be confident that what you learn with us will be relevant to your future career.

Studying online at Deakin means you learn at your own pace, when and where it suits you, without compromising quality or support. With over 40 years of experience with distance and online learning, we know how to support your unique study journey. You'll have access to lectures and study guides, and can take part in live-streamed seminars and discussions. You can also attend one conference per trimester – two online and one at the Waurn Ponds Campus, where you'll engage with early childhood researchers, professionals and peers.

Early childhood scholarship

Students applying for the Bachelor of Early Childhood Education are eligible to apply for the **early childhood scholarship to become a teacher** to receive **up to \$25,000** from the Victorian Government. More information can be found at vic.gov.au
