

# Instructions for accessing CloudDeakin Lab Safety Training

## Laboratory Safety Training for SEBE Staff, HDR and Honours Students

### Who needs to complete this training?

Any staff or students who work in a lab or workshop with minimal supervision. This includes HDR and Honours students, final year project students, and researchers.

### What does the training entail?

The training involves 5 online modules and a checklist. The modules provide information about safety aspects to be considered when working in a hazardous lab environment. Each module is completed by passing a short quiz to verify that you have understood the material being presented.

The local induction checklist can be accessed following completion of the 5<sup>th</sup> module. You must complete it with your supervisor to become familiar with the specific hazards and procedures in your work area before you commence work. Once this is done, submit it to the Assignment Folder on the CloudDeakin site to complete the training.

## Registering and accessing the Lab Safety Training Site on CloudDeakin:

If you are not currently enrolled in the CloudDeakin Lab Safety Training, then you will need to self-register:

Go to <https://d2l.deakin.edu.au/d2l/lms/legacy/selfregistration.d2l?ou=6605>

Log in to CloudDeakin with your Deakin Username and Password

Click into Self Registration:

The screenshot shows the CloudDeakin user interface. At the top left, there is a 'My Sites' dropdown menu. Below it, there is a button labeled 'Showing All Filtered Roles'. Underneath that, there is a text label 'Or only display the selected roles:' followed by three tabs: 'Member', 'Student', and 'Unit Chair'. On the right side of the interface, there is a header area showing 'Week 4' and 'Wednesday, December 4th 2019 Trimester 3'. Below this header, there is a navigation bar with a thumbs-up icon and the text 'Self Registration' highlighted in yellow, followed by a right-pointing arrow.

Click the link for '**Lab Safety Training for SEBE Staff, HDR and Honours Students**' and follow the instructions to register:

<b>SEBE Safety Training</b>	<a href="#">Lab Safety Training for SEBE Staff, HDR and Honours Students</a>	Not Enrolled
-----------------------------	--	--------------

In your Homepage the Safety Training Site will be listed below 'My Sites'. If you have self-enrolled it will be under the 'Student' tab:

Show All Filtered Roles

Or only display the selected roles:

Member

Student

Unit Chair

And filter by searching for:

E.g. abc123 or physics

SEBE Safety Training (Student)

The link to the Lab Safety training is located on the home page under the welcome section:

Home Resources Discussions Assessment ▾ Tools ▾

Welcome!

This safety training aims to prepare you for work in labs in the Faculty of Science, Engineering & Built Environment. It is designed for staff, HDR and Honours Students. Undergraduate students should complete the safety induction unit appropriate to their study (SLE010, SEE010, SIT010 or SRA010), and not this training.

Training available:

- 1. Lab Safety Training** must be completed by all staff, HDR and Honours students from SEBE before work begins in a laboratory or workshop.
- 2. Demonstrator OHS Training** must be completed by anyone employed to demonstrate a practical class in the School of LES or Engineering.
- 3. Queenclyff Marine Station** - office and lab inductions.
