2020 Undergraduate

Architecture and construction management

Cloud Campus  I  Melbourne  I  Geelong  I  Warrnambool

Architecture
Construction management
Be the architect of your career

With award-winning lecturers and cutting-edge facilities, you’ll explore innovative ideas, design and technology at Deakin. Choose one of our globally recognised architecture and construction management courses to be inspired, create and collaborate so you can graduate with the skills employers are looking for.

Your future in architecture and construction management

Develop the skills employers want

Study architecture hands-on. From day one of your course, you’ll:

- build models
- examine professional architects’ projects
- develop drawing, digital design and communication skills.

While studying construction management, you’ll experience practical learning in all aspects of the industry including:

- cost estimation
- project management
- construction methods
- contracts
- scheduling.

Our architecture students work closely with our construction management students, gaining a unique understanding of both disciplines. These insights into each other’s work are invaluable when our students graduate, and begin to communicate, liaise and work together in the fields of construction and architecture.

Gain professional recognition

Your Deakin qualifications are recognised nationally by industry through course accreditations. All of our courses are regularly examined by key professional groups, including the:

- Australian Institute of Architects (AIA)
- Architects Accreditation Council of Australia (AACA)
- Architects Registration Board of Victoria (ARBV)
- Royal Institution of Chartered Surveyors (RICS)
- Chartered Institute of Building (CIOB)
- Australian Institute of Building (AIB)
- Australian Institute of Quantity Surveyors (AIQS).

Our Bachelor of Design (Architecture) and Master of Architecture are also recognised internationally, for example, by the Board of Architects Malaysia. Through these courses, you’ll also have an opportunity to undertake a discipline-specific industry placement, so you can get on-the-job training.

#1 university for skills development

Gain a competitive edge in the workplace with real-world expertise and practical skills. Deakin’s ranked the #1 university for skills development in Victoria, which means you’ll graduate highly skilled, work-ready and in-demand from employers.

1 2018 Student Experience Survey
Your future in architecture and construction management

Get a career you can count on
Known for their adaptability, design and technical knowledge, our graduates are well regarded in their professions, with the initiative and ability to hit the ground running.

Construction industry employment is projected to grow by 118,800 (or 10%) by May 2023. Employment growth in the engineering construction sector, supported by continued infrastructure investment, is expected to be stronger than that in residential construction, which is expected to grow at a pace more in line with population growth.¹

Our graduates find employment in a range of positions, including:
• commercial
• industrial
• residential
• project management
• contract administration.

Experience state-of-the-art facilities
The School of Architecture and Built Environment has undergone major refurbishment under the direction of Kerstin Thompson Architects, resulting in an inspiring learning space. The a+b studio and workshop provides students, academics and researchers with a place to fabricate models, encouraging experimentation with technology, materials and processes. The interdisciplinary space offers access to a variety of digital and analogue tools, with open plan studio design facilitating collaboration on projects.

Explore our industry connections
We have strong industry links within our courses, which can lead to field trips, site visits and guest lectures from built environment professionals. You will have a number of opportunities to gain work experience during your studies, and form real professional networks before graduation.

Recent students have undertaken industry experience with:
• Brookfield Multiplex
• DesignInc Architecture
• Grimshaw Architects
• Kane Constructions
• Peddle Thorpe Architects
• Rendine Constructions.

Do you want to register as an architect?
After you’ve successfully completed an undergraduate degree in architecture, you must complete further study at postgraduate level to become an architect, and satisfy additional accreditation requirements to gain professional registration.

Graduates who have completed a three-year undergraduate degree in architecture – such as Deakin’s Bachelor of Design (Architecture) – are encouraged to apply for the Master of Architecture. Those who have completed Deakin’s Bachelor of Design (Architecture)/Bachelor of Construction Management (Honours) combined course are encouraged to apply for the Master of Architecture (Design Management).

#1 careers service in Australia²
Prepare yourself for the jobs and careers of the future. Access our career centre, DeakinTALENT, and use its programs and services to research different career options, hone your interview skills, look for casual work while you study or find a graduate job.
deakontalent.deakin.edu.au

Join our Peer Support Network (PSN)
Sign up to the Faculty of Science, Engineering and Built Environment’s Peer Support Network in your first year at Deakin to get support and guidance from more senior students in your course. You’ll learn about the support services and facilities available, while gaining useful tips about studying at Deakin.
deakin.edu.au/sebe/peer-support

Showcase your talents at PaperSpace
The School of Architecture and Built Environment annually exhibits outstanding work from its undergraduate and master’s students at a public exhibition known as PaperSpace.

On display at Federation Square and Deakin’s Geelong Waterfront Campus, it’s an excellent opportunity for the public, students, staff, industry, family and friends to celebrate our students’ achievements and hard work.
Watch PaperSpace take shape at blogs.deakin.edu.au/ab.

Study and work abroad
School of Architecture and Built Environment student Kieran Maguire is one of nine Deakin students who will be supported to study, work and live in the Indo-Pacific region next year thanks to the Australian Government’s 2018 New Colombo Plan Scholarships.

The overseas study program encourages international cooperation with Australia’s regional neighbours, giving the next generation of Australians a hands-on experience living and working within other cultures as part of the global community, equipping students for the jobs of the future.

¹ Australian Government’s Industry Employment Projections 2018.
² Australian Graduate Recruitment Industry Awards (AGRIA) – 2017 and 2018.
A pathway to success

Deakin architecture student, Sharyn Blakemore, has a unique experience of her pathway to university. After graduating from high school, she completed an Advanced Diploma of Building Design, and then worked in industry before starting her course part-time. Now in her third year of Deakin’s Bachelor of Design (Architecture), she’s won a coveted industry award, thanks to her passion for building services engineering.

What industry experience did you have before university? “I’ve worked as a building designer for the past seven years, and architecture was always the capstone of the career path I wanted to take. My path may not have been the most straightforward but learning and working within the industry to confirm this was my true passion, before taking this next step, was right for me.”

What was it about building services engineering that captured your attention? “Building Services Engineering was part of my course, and I really connected with it. The idea of designing a space, a home or a building that is comfortable, thermally efficient and meets the needs of its occupants is very appealing to me. Incorporating safe, efficient and healthy environments into the design should be a priority for all designers, architects and engineers.”

You won the Chartered Institution of Building Services Engineers (CIBSE) Mark Griffin Award – Student of the Year for your video submission, addressing why you consider building services engineering to be an art form. Tell us a bit about the Core 9 project, which featured in your video. “The Core 9 project started as a design collaboration between myself and two work colleagues to produce a highly energy-efficient and sustainable design that was affordable and comparable to the Australian housing market. The Core acronym stands for Carbon Positive, Zero Waste, Recycled and Economics. My involvement included design development of the house and conducting thermal performance assessments to reach its optimal energy rating of nine stars.”

Professional recognition

When followed by successful completion of an accredited Master of Architecture, the Bachelor of Design (Architecture) is accredited within Australia by the:
• Australian Institute of Architects (AIA)
• Architects Registration Board of Victoria (ARVB)
• Architects Accreditation Council of Australia (AACA)

This course has also been validated and recognised by the Board of Architects Malaysia [Lembaga Arkitek Malaysia], and included on their ‘List of Recognised Architectural Programmes’.

Careers

Deakin architecture graduates work across the globe, from the UK, Berlin and Oslo to China, Dubai and the US. Our graduates have pursued the following roles:
• 3D architectural modeller
• architectural consultant or designer
• building designer
• building project manager
• design coordinator
• quantity surveyor
• structural drafter

Once you’ve completed further studies in a Master of Architecture and have gained your registration to practice, you can pursue a career as a practising architect and work in private architectural practices, government organisations, property development, or building and design fields.

Work experience

You can apply to undertake a discipline-specific industry placement as an elective option of your course.

Courses

Bachelor of Design (Architecture) (BDes (Arch))

Year 1

- Building Environmental Services
- Construction and Structures 1
- Elective

Year 2

- Art and Society
- Studio 01: Thoughtscapes
- Building Materials Science
- Drawing Studio
- Safety Induction Program (0 credit points)
- Academic Integrity (0 credit points)

Year 3

- Utopian Ideals in the Modern World
- Studio 02: Matterscapes (2 credit points)
- Building Environmental Studies 1

- Building Environmental Services
- Studio 05: Hybridscapes
- Contemporary Architecture
- Documentation Studio
- Elective

Visit deakin.edu.au/courses/bachelor-design-architecture to kickstart your course and career exploration. With more than 600 paired courses and careers, it’s the perfect destination for you to discover your future career.
Bachelor of Construction Management (Honours) — S346

Develop a strong understanding of the business of construction, from law to technology. The Bachelor of Construction Management (Honours) will equip you with market-ready skills for construction management, estimating, surveying or property development — working across projects large and small.

Professional recognition
As a graduate of this course you’ll have completed the academic requirements for membership of:
- Australian Institute of Building (AIB)
- Australian Institute of Quantity Surveyors (AIQS)
- Chartered Institute of Building (CIOB)
- Royal Institution of Chartered Surveyors (RICS).

This course is recognised for practice in more than 50 countries, so you can take your career across borders.

Careers
As a Bachelor of Construction Management (Honours) graduate, you’ll find career opportunities in roles including:
- construction manager
- contract administrator
- estimator
- procurement manager
- project manager
- quantity surveyor.

Work experience
You can undertake a discipline-specific industry placement as part of your course. You’ll also participate in some core units, with major assessments involving collaborative project work, for example, Built Environment Integrated Research or Construction Project.

The student experience
Hear what students have to say about studying architecture and construction management by visiting deakin.edu.au/study-abe.

Course structure
This course can be taken as an accelerated program. By taking selected units during Trimester 3, you can complete this course in three years of full-time study instead of four, so you can join the workforce sooner.

Study, live and work overseas
Get the support to study, work and live in the Indo-Pacific region next year thanks to the Australian Government’s New Colombo Plan Scholarship Program.

This overseas study program encourages international cooperation with Australia’s regional neighbours, giving the next generation of Australians a hands-on experience living and working within other cultures as part of the global community.

Take the opportunity to study, live and work in one of 40 locations across the Indo-Pacific region. It will give you the chance to put your career goals in a global context, ready for the jobs of the future.

deakin.edu.au/students/studying/deakin-abroad/
costs-and-funding-opportunities

1 Students have the opportunity to complete this course in three years of full-time study by undertaking units in Trimester 3.
2 This course structure should be used as a guide only and advice should be sought when selecting units.
Combined courses

**Bachelor of Design (Architecture)/Bachelor of Construction Management (Honours)**

Gain knowledge, skills and practical experience in architecture, design and construction in this unique combined course that explores smart, sustainable design.

Learn to design striking buildings that are economically and environmentally viable and manage projects, no matter what their scale or size.

**Professional recognition**

This course is professionally accredited by industry.

Graduates qualify for membership of:
- Australian Institute of Building (AIB)
- Australian Institute of Quantity Surveyors (AIQS)
- Chartered Institute of Building (CIOB)
- Royal Institution of Chartered Surveyors (RICS).

The architecture stream of this combined course is accredited in Australia by the following organisations, provided graduates go on to complete the Master of Architecture coursework program to become registered architects:
- Australian Institute of Architects (AIA)
- Architects Registration Board of Victoria (ARBV)
- Architects Accreditation Council of Australia (AACA).

**Careers**

This cross-discipline course gives you more options for your future career. Career opportunities include:
- 3D architectural modeller
- architectural consultant or designer
- building designer
- building project manager
- construction manager
- drafter
- estimator
- procurement manager
- quantity surveyor.

Once you graduate and have gained your registration to practice, you can pursue a career as a practising architect and work in private architectural practices, government organisations, property development, or other building and design fields.

[deakin.edu.au/course/design-architecture-architecture-construction-mgmt-hon](deakin.edu.au/course/design-architecture-architecture-construction-mgmt-hon)

1. Students have the opportunity to complete this course in four years of full-time study by undertaking units in Trimester 3.
2. This course structure should be used as a guide only and advice should be sought when selecting units.

Get to Geelong easily

If you’re based in Melbourne, the commute to the Geelong Waterfront Campus, using the new regional rail link, is quick. Travel from Southern Cross Station to Geelong Waterfront takes less than an hour, and if you live in Melbourne’s west, you may find your commute is as short as 30 minutes by car.

Find out more about our locations at [deakin.edu.au/locations](deakin.edu.au/locations) and our accommodation options by visiting [deakin.edu.au/life-at-deakin/accommodation](deakin.edu.au/life-at-deakin/accommodation).

Barwon Water Scholarship for Women in STEM

Female students enrolled in their first year of study in a course offered by the Faculty of Science, Engineering and Built Environment, are encouraged to apply for a Barwon Water Scholarship for Women in STEM. If selected, you’ll receive a cash payment up to $2000 per year, with a total scholarship value of $6000.

‘My favourite thing about Deakin would be the industry connections that are handed to you on a platter – all you have to do is participate.’

Chelsea Clarke, IGNITE Scholarship and New Colombo Plan Scholarship recipient Bachelor of Design (Architecture)/Bachelor of Construction Management (Honours) student
Bachelor of Construction Management (Honours)/Bachelor of Property and Real Estate

With the Bachelor of Construction Management (Honours)/Bachelor of Property and Real Estate, you’ll learn how to drive growth, make strong commercial decisions, understand regulations and manage construction projects. The combined structure means you’ll also be equipped with vocational skills like surveying and building economics.

Professional recognition
Both single degree courses are professionally accredited by multiple professional bodies including the:
- Royal Institution of Chartered Surveyors (RICS)
- Australian Institute of Building (AIB)
- Chartered Institute of Building (CIOB)
- Australian Institute of Quantity Surveyors (AIQS)
- Australian Property Institution (API) for Certified Practising Valuer.

Work experience
You can undertake a discipline-specific industry placement as part of your course. You’ll also participate in some core units, with major assessments involving collaborative project work, for example, Built Environment Integrated Research or Construction Project.

Careers
With this qualification, you’ll be able to specialise in all facets of the construction management and property and real estate markets including commercial, industrial and residential property. Career opportunities include:
- construction manager
- contract administrator
- conveyancer
- estimator/quantity surveyor
- leasing agent
- portfolio manager
- procurement manager
- property developer
- real estate agent
- valuer.

3 This course is available to international students.

4 Students are eligible to commence this course at the Melbourne Burwood Campus or the Geelong Waterfront Campus. Delivery is at both campuses and students will be required to undertake units of study from both the Geelong Waterfront Campus and the Melbourne Burwood Campus.

Professional recognition
Deakin’s Master of Architecture course is accredited within Australia by the Australian Institute of Architects (AIA), the Architects Registration Board of Victoria (ARBV) and the Architects Accreditation Council of Australia (AACA).

Course structure
16 credit points — nine core units (including three core units of 2 credit points each) and four course elective units. In addition you will be required to complete two 0-credit-point units relating to academic integrity and safety induction.

deaakin.edu.au/course/master-architecture/design-management

Global Science and Technology Program
Add an international experience to your degree, supporting you to develop new skills and a broader world view while studying overseas. Successful applicants will be offered a monetary scholarship to assist with travel costs and will be required to participate in the Deakin Global Citizenship Program.

How to apply
This program is open to current Year 12 students. You apply via a two-stage process. First, add the Global Science and Technology Program to your list of course preferences through VTAC, followed by your undergraduate course of interest as a lower preference. Second, complete the Global Science and Technology Program Supplementary application form, which is available on our website. To see where past students have gone, visit deakin.edu.au/sebe/global.

Related postgraduate courses

Master of Architecture (Design Management)

Build on your architectural skills through specialised design research and resolution with the Master of Architecture. You’ll learn about urban ecologies and contexts, integrated project evaluation and sustainable design — knowledge that will propel you towards a career as a practising architect.

Professional recognition
Deakin’s Master of Architecture course is accredited within Australia by the Australian Institute of Architects (AIA), the Architects Registration Board of Victoria (ARBV) and the Architects Accreditation Council of Australia (AACA).

Course structure
12 credit points—seven core units (including two core units of 2 credit points each) and three course elective units.

3 This course is not available to international students.

2 Students are able to commence this course at the Melbourne Burwood Campus or the Geelong Waterfront Campus. Delivery is at both campuses and students will be required to undertake units of study from both the Geelong Waterfront Campus and the Melbourne Burwood Campus. Students should seek advice from a course adviser prior to the commencement of their course. Please note that all property and real estate units are also offered in online learning mode. This course is not available to international students.

3 This course structure should be used as a guide only and advice should be sought when selecting units. This proposed course structure is an example of a student commencing at Deakin’s Melbourne Burwood Campus. A student commencing at our Geelong Waterfront Campus will study units in a slightly different order.

---

1. The 2019 indicative Commonwealth Supported Place (CSP) fee is based on a typical enrolment for an Australian domestic student enrolled in two trimesters of full-time study, or 8 credit points, unless otherwise indicated. This fee should be used as a guide only and is subject to change.

2. The 2020 annual course fee for international students indicates the tuition fee for two trimesters of full-time study, or 8 credit points, unless otherwise indicated. Additional fees may apply. Visit deakin.edu.au/int-fees for the latest information.

3. Study is conducted in the International English Language Testing System (IELTS) on the 10-point scale. For the calculation of the IELTS total, the IELTS scores in the table above reflect the minimum overall score required, as well as the lowest score allowed for any band (overall score/lowest band score).

4. Leads to professional recognition when followed by successful completion of the Master of Architecture (Design Management).

5. Students have the opportunity to complete this course in three years of full-time study by undertaking units in Trimester 3.

6. Students have the opportunity to complete this course in four years of full-time study by undertaking units in Trimester 3.

7. Related secondary education applicants include Year 12 students in 2019, as well as Year 12 graduates from 2018 and 2017.

8. Students have the opportunity to undertake units at either the Melbourne Burwood Campus or the Geelong Waterfront Campus. Delivered on both campuses and students will be required to undertake units of study from both the Geelong Waterfront Campus and the Melbourne Burwood Campus. Students should seek advice from their course adviser prior to the commencement of the course. Please note that all property and real estate units are also offered at the Cloud Campus.

9. Available for high-achieving students with a minimum ATAR of 80.00. Applicants must also meet the published prerequisites for their specific course preference within the Faculty of Science, Engineering and Built Environment.

10. Refer to specific course entry. N/A means not applicable.
