

G.W. Cottrell: photographic collection

George William Cottrell (1902-1995) was a noted American ornithologist based in New Hampshire. He was the founding editor of the Harvard Library Bulletin and research associate in ornithology at Harvard's Museum of Comparative Zoology. He was also the director of the Massachusetts Audubon Society and editor of James Lee Peters' sixteen volume 'Checklist of Birds of the World'.

The photographs are from Cottrell's ornithological trips to South Africa and Tanzania in 1958 and a major trip to Australia, New Guinea, New Caledonia, New Hebrides, New Britain, Guadalcanal, Solomon Islands, Fiji, India, Thailand and Cambodia in 1964-65. The photographs have been annotated by him or a contemporary on the verso, and the annotations are given in full, as written, below.
