Simulation in BOX

Dear Year 1 Students,

During the pandemic we met some teaching challenges. One of the most noteworthy challenges were students not able to attend many clinical skills or simulation learning experiences on campus. Deakin is proud of its approach to innovations and being solution focused. 'Simulation in a BOX' was created for medical students to be able to practice the tactility and dexterity of using medical equipment whilst being taught via online modules in real time.

Moving forward to 2025 we continue to offer 'Simulation in a BOX'. Students have commented both during and post the pandemic using our 'Simulation in a BOX' innovation not only enhanced teaching in the online space it has also provided the foundation for ongoing learning as students have had the opportunity use their 'Simulation in a BOX' for repetitive practice and to reinforce the weekly clinical skills learning. We encourage students to continue to use the items in 'Simulation in a BOX' for future clinical practice.

The cost of the 'Simulation in a BOX' is \$100 inclusive of GST.

The 'Simulation in a BOX' will be available for collection at a date to be confirmed.

All students commencing at Deakin School of Medicine Year 1 – 2025 can place an order by **Friday 13 December 2024**.

Please use the following link to order the "Simulation in a BOX": https://payments.deakin.edu.au/SIM_In_a_Box.

Please contact our Technical Team MedCPTechs@deakin.edu.au or Kellie Britt kellie.britt@deakin.edu.au for any further questions or concerns.

All the best,
Kellie Britt
