Message from the Chancellor

On behalf of the Deakin University community, my warmest congratulations to you, your families and all who have supported you in realising this significant achievement.

Your Deakin qualification will be an asset as you explore the opportunities ahead. Your degree represents more than a credential – it reflects your capacity to think critically, adapt creatively and lead with purpose. It will empower you to pursue new opportunities with the confidence that you have the skills to make an impact, the readiness to succeed, and the resilience to navigate uncertainty.

As a graduate of Australia's largest university achieving balanced excellence across education and research, you have developed real-world skills through work-integrated learning and industry co-designed courses. Our researchers work on problems alongside those who need solutions – and this same approach means you leave Deakin ready to turn knowledge into action. We don't educate for the world as it is – we prepare you to serve the world as it will be, equipped to tackle what lies ahead and deliver change that matters.

Chancellor Mrs Claire Higgins

Your graduation marks the completion of your current academic journey and signals the start of a new phase of your life and career. Deakin is proud to have prepared graduates who will make meaningful contributions to the world. Your success is our success – the best measure of everything we do.

I encourage you to stay connected. Deakin's alumni community now exceeds 370,000 graduates worldwide who will be an invaluable resource as you embark on this next stage. You are part of our story, and we are immensely proud to be part of yours.

Congratulations and every success for your future.

Mrs Claire Higgins
Chancellor

Message from the Caretaker Vice-Chancellor

My sincere congratulations on your graduation from Deakin University.

Today, alongside family, friends and peers, we acknowledge your efforts, your sacrifices, and your success, and we welcome you to the Deakin alumni community. We should never underestimate the importance of a university journey, and the serious achievement of a student's graduation.

I hope you have enjoyed your time at Deakin, met and collaborated with talented and passionate people, made friends, were challenged, formed new perspectives and knowledge, and developed new skills.

A Deakin education is known for being innovative and inclusive and we want you to take these qualities into the world. The years ahead will require an open, flexible mind that can respond to change, find and create opportunities, and imagine new ways of doing things and solving problems.

We look forward to seeing where your Deakin degree takes you – the education we provide leads to lives of purpose. However, your learning did not begin with our University, and it does not end with your graduation.

Deakin Distinguished Professor,
Matthew Clarke

I encourage you to be independent, lifelong learners, who contribute to regional, national and international communities. Indeed, Deakin's fundamental role is to deliver outcomes that benefit society. We do this by exploring and developing powerful ideas that create impact well beyond the boundaries of our institution. You, our graduates, are a big part of that future impact – you are the best measure of our success.

Congratulations to each of you and to your families. I wish you well, and I hope that one day, your career journey brings you back to Deakin as continuing students, as colleagues, as mentors, as supporters and as friends.

**Deakin Distinguished Professor,
Matthew Clarke**
Caretaker Vice-Chancellor

Welcome to Deakin University Graduations

Welcome!

We would like to warmly welcome you to Deakin University's graduation ceremony. This program lists every student graduating, including those not in attendance and graduating in absentia. The graduation ceremony will run for approximately 90 minutes and ushers are available at the venue doors to provide information and assistance. All guests should be seated 15 minutes before the ceremony start time. Please ensure your mobile phone is switched off prior to entering the venue and that you familiarise yourself with the emergency evacuation procedures, located at the back of this program. We hope you enjoy the ceremony.

The Graduation Ceremony

'Kim barne barre Wadawurrung Dja' Welcome to Wadawurrung Country

Deakin University would like to acknowledge the Wadawurrung People, the traditional custodians of the land and the Wathaurong community where this graduation ceremony is taking place. We pay our respects for their continued care of the land and further extend that respect to elders past and present.

Order of Ceremony

Processional music heralds the arrival of the Academic Procession for the graduation ceremony.

At the commencement of this music, graduands and guests are asked to stand and remain standing for the National Anthem.

The Master of Ceremonies will open proceedings and the Chancellor (or representative) will deliver the opening address. The Vice-Chancellor (or representative) will then introduce the guest speaker who will deliver the occasional address.

The Chancellor (or representative) will then make a formal declaration conferring the awards of the University on the graduates, both present and *in absentia*, and will invite graduates to proceed to the stage according to the order published in the program.

A Faculty Executive Dean (or representative) will read out the names of graduates being presented to the Chancellor (or representative).

At the conclusion of the presentation of the graduates, a representative of the graduating students will deliver a brief response.

The Vice-Chancellor (or representative) will deliver the closing address. Following the closing address, there will be a musical performance.

At the conclusion of the ceremony guests are requested to stand while the stage party and graduates leave the hall.

Refreshments will then be served in the marquee in the John Hay Courtyard.

The University Mace

Maces were originally medieval weapons carried by bodyguards to kings and sergeants-at-arms. Much later, the mace became of ceremonial rather than practical significance and organisations such as civic corporations and universities adopted the mace as a symbol of the rule of legal authority.

The University's mace is displayed at meetings of the University Council and on such ceremonial occasions as conferring ceremonies. The bearer of the mace, in academic processions, 'guards' the Chancellor. Deakin's mace was presented to the University by Mr Donald Thomson, Sir Wilfred Brookes and Mr Norman Stephen (Alcoa Australia).

The Graduation Ceremony

The Academic Procession

In academic processions, the order of precedence on entry is from junior to most senior. The Chancellor, therefore, is the last member of the procession, followed by the mace-bearer. The Deakin Academic Procession and stage party usually consists of:

Academic Dress

Academic dress is an important reminder of the long history of universities in western civilisation. The three main elements of academic dress are the gown, the hood and the head-dress, which were all once articles of everyday outer dress. Both gowns and hoods, when in common use, were often lined and this lining was decorative, as well as practical. In medieval times, the higher the rank of the wearer, the more sumptuous the gown.

In universities there is still a difference in the apparel of scholars of various ranks reflecting the origins of the academic dress. Today's academic head-dress evolved from various hats and bonnets of earlier times. Deakin University's academic dress, like that of most Australian universities, derives from dress worn at the Universities of Oxford and Cambridge.

Deakin University Ceremonial Dress

Chancellor – a navy blue gown trimmed with gold bullion braid, sleeves trimmed with four gold ornaments and gold bullion braid around the bottom hem, a navy blue bonnet lined with gold satin, with gold braid and two gold metallic tassels.

Vice-Chancellor and President – a navy blue gown with five bars of gold bullion braid on the sleeves and a navy blue tudor bonnet identical to that of the Chancellor.

Deakin Distinguished Professor

Academic staff who have been awarded the title Deakin Distinguished Professor will wear academic regalia befitting their highest qualification as well as a Deakin Distinguished Professor stole which will be worn over the top of the gown.

Deakin University Academic Dress

Higher Doctorate – a red gown with gold silk front facings finishing at the front yoke line, sleeves fully lined with gold silk and turned back at the front seam, together with a red hood lined with gold silk and a red bonnet with gold tassels.

TOGETHER

Welcome to the Deakin alumni community!

Congratulations on completing your degree! We're so pleased to have you join Deakin's global alumni community of over 370,000 people shaping industries, sharing knowledge and backing each other at every stage.

You've worked hard to reach this important milestone and we're proud of your accomplishments. But your connection with Deakin doesn't end here. Keep in touch so you can:

- Access Deakin's award-winning career service DeakinTALENT, available to you for free, for life
- Continue your lifelong learning journey through our Deakin Alumni programs and benefits
- Get involved and make a difference for current and future Deakin students

Scan the QR code or go to deakin.my/university to find out how.

No matter where you are in your career or life, you'll always be part of the Deakin community.

Together, we can continue to make the wonderful possible.

DOCTOR OF PHILOSOPHY – PhD

Bilal Hussain Abbasi

‘Backdoor Attacks and Countermeasures in Deep Neural Networks.’

This thesis investigates how hidden vulnerabilities, known as backdoors, can be introduced into deep learning systems during training. It demonstrates new attack strategies that remain effective yet difficult to detect, particularly in image analysis tasks. The findings highlight important weaknesses in current defenses and inform directions for improving the safety and reliability of machine learning models.

‘Sex-Specific Patterns of Epigenetic Ageing.’

This research investigated how biological sex influences molecular markers of ageing across eight human tissues. By analysing over 30,000 individuals, it discovered that ageing patterns and sex effects were tissue-specific and rarely shared between tissues. These findings support sex-specific approaches when developing personalised diagnostic biomarkers and treatments for age-related diseases.

‘Becoming Early Childhood Teachers: A Narrative Inquiry into Professional Wellbeing.’

This research investigated the professional wellbeing of early childhood pre-service and beginning teachers through their engagement in visual arts experiences alongside children in early childhood education and care settings. The findings revealed that pre-service and beginning teacher professional wellbeing was supported by creative moments, slow realisations, permission to play, and reflecting on past and present experiences.

‘Understanding the Limits of Deposition Rate in Metal Additive Friction Stir Deposition of Aluminum 6061.’

This thesis investigates the factors limiting higher deposition rates in additive friction stir deposition of aluminium 6061. It examines defect formation, thermal behaviour, mechanical response, and process limits through experiments and modelling. The outcomes provide guidelines for increasing deposition rates while maintaining deposition quality and improving understanding of process capability.

‘Hybrid Convolutional Neural Network and Ensemble Approaches for Cyberattack Detection in Smart Grids.’

This study presents a comprehensive framework for detecting cyberattacks in Automatic Generation Control (AGC) systems within smart grids. By combining a Self-Expanding Convolutional Neural Network, ensemble learning, and autoencoder-based semi-supervised feature extraction, the proposed approach achieves 95% multi-class classification accuracy, successfully distinguishing cyberattacks and normal operation across diverse grid conditions.

‘Reform of the Research and Development Tax Incentive: Future-Proofing Australian Innovation.’

This thesis evaluates whether Australia’s Research and Development Tax Incentive effectively future-proofs innovation. It argues the current system narrowly subsidises scientific R&D spending, overlooking broader innovation activities, knowledge-based outputs and spillovers. Using legal and policy analysis, it finds the regime structurally inadequate, undervaluing knowledge-based capital and innovation intangibles. It proposes a new whole-of-economy innovation incentive framework for Australia’s future.

‘Resilient AI-Driven Network Intrusion Detection System for Emerging Threats.’

This thesis investigated how artificial intelligence can strengthen the detection of cyberattacks in computer networks. It developed an adaptive approach that can identify both known and previously unseen threats while responding to changing network conditions. The findings demonstrated improved accuracy, reliability, and resilience, contributing to stronger cybersecurity for organisations and the digital systems that support everyday life.

‘Machine Learning Based Security In Cloud Computing.’

This thesis investigated the generalisability of machine learning-based intrusion detection systems across enterprise, Internet of Things, and industrial control network environments. It benchmarked eleven algorithms, evaluated dimensionality reduction strategies, and developed an uncertainty quantification framework. The findings revealed systematic performance degradation of 20 to 45 percentage points across network contexts, establishing that single-dataset evaluation substantially overestimates operational performance.

‘Combined Effect of Chloride Penetration and Carbonation on Low Carbon Cement Mixes.’

This research examines how chloride penetration and carbonation affect low-carbon limestone-calcined clay cements made with metakaolin and Australian bentonite. The results show that these cements provide better chloride resistance than ordinary Portland cement but are more vulnerable to carbonation, which can release bound chlorides and increase the risk of steel corrosion.

‘Electrochemical Studies on Localised Corrosion Inhibition Using Rare Earth Metal Inhibitors.’

This research is about a study on the inhibition of waterline corrosion using rare earth metal inhibitors. Waterline corrosion is a severe type of localised corrosion. Results indicate that waterline corrosion on fresh metals can be mitigated efficiently (95% inhibition efficiency) using rare earth metals. But the mitigation of waterline corrosion on a pre-corroded sample is more difficult than on fresh surfaces.

This thesis investigates how culture and context can shape the practice of early career engineers at work. Using ethnographic observation and interviews, it shows values and self-efficacy influence how engineers perform and learn at work as much as abilities. The findings support shifting engineering education from competency-based models toward a capability approach to better prepare graduates for practice.

NIKERI Institute

Deakin University is proud to have the largest number of Aboriginal and Torres Strait Islander students of any Victorian university.

The National Indigenous Knowledges Education Research and Innovation (NIKERI) Institute commenced in 1991 and offers programs that are structured around off-campus community-based delivery, supported by on-campus intensive study blocks and complemented by local tutors in their home communities.

This approach to course delivery promotes access and equity for Indigenous Australian students. Students from all areas of the country – rural, remote and metropolitan, and across all age ranges, particularly mature age – are able to undertake studies without compromising their family and community obligations.

In November 2019, the Institute won the prestigious Dreamtime Education Award for 'Education Institute of the Year'.

Evacuation Assembly Points

Evacuation procedures

On the sounding of the alert tone:

Beep ... beep ...

- Stand by and wait for further instruction

On the sounding of the evac tone:

Woop ... Woop ... Evacuate Now

- Follow directions of fire warden
- evacuate all occupants
- proceed to the assembly area on instruction of the chief warden
- remain at the assembly area and report any missing persons or personal items.

Do not re-enter the building until the fire brigade declares it safe to do so.

疏散程序

当响起哔... 哔... 警报声时:

- 请准备就绪等候进一步指示

当响起呜... 呜... 撤离警报声时, 立即撤离:

- 遵从消防安全员指示
- 全体人员撤离
- 根据消防指挥指示前往集合点
- 停留在集合点, 报告缺失人员或个人物品

在消防人员宣布可安全进入建筑物之前, 不得进入。

निकासी प्रक्रियाएँ

चेतावनी की आवाज **बीप... बीप...** सुनाई देने पर:

- तैयार रहें और आगे के निर्देशों की प्रतीक्षा करें

निकासी की आवाज **वूप... वूप... Evacuate Now** सुनाई देने पर:

- फायर वार्डन के निर्देशों का पालन करें
- सभी मौजूद व्यक्तियों को बाहर निकालें
- मुख्य वार्डन के निर्देश पर सामूहिक स्थल की ओर जाएँ
- सामूहिक स्थल में खड़े रहें और किसी भी लापता व्यक्ति या निजी वस्तु के बारे में सूचित करें।

जब तक फायर ब्रिगेड भवन में प्रवेश करना सुरक्षित घोषित न करें, तब तक प्रवेश न करें।

THỦ TỤC DI TÀN

Khi nghe tiếng kêu báo động:

Bíp ... bip ...

- Chuẩn bị sẵn sàng và đợi để được hướng dẫn thêm

Khi nghe tiếng hụ báo động di tản:

Woop ... woop ... Di tản ngay bây giờ

- Làm theo lời hướng dẫn của giám thị hỏa hoạn
- Di tản tất cả mọi người
- Đi đến nơi tập hợp theo lời hướng dẫn của giám thị trường
- Lưu lại tại nơi tập hợp và báo cáo bất kỳ người nào không có mặt hoặc đồ đạc cá nhân bị thất lạc.

Đừng trở vào tòa nhà cho đến khi đội cứu hỏa tuyên bố là an toàn để trở vào.

PROSEDUR EVAKUASI

Jika terdengar nada peringatan:

Bip ... Bip ...

- Berdiri dan tunggu petunjuk selanjutnya

Jika terdengar nada tanda evakuasi:

Wup ... wup ... Evakuasi Sekarang

- Ikuti arahan petugas pemadam kebakaran.
- Evakuasi semua yang ada di dalam ruangan.
- Pergi ke lokasi berkumpul sesuai perintah kepala tim pemadam kebakaran.
- Jangan beranjak dari lokasi berkumpul, dan laporkan jika ada orang atau barang pribadi yang tertinggal.

Jangan kembali ke dalam gedung sebelum tim pemadam kebakaran memastikan kondisi sudah aman.

إجراءات الإخلاء

عند سماع صوت جرس التنبيه:

بييب ... بييب ...

- استعد وانتظر مزيداً من التعليمات

عند سماع صوت إنذار الإخلاء:

وووب ... وووب... الإخلاء الآن

- اتبع إرشادات المُختص بالحرائق
- إخلاء جميع الموجودين
- انتقل إلى منطقة التجمع وفقاً لتعليمات الموظف المسئول عن الإخلاء
- البقاء في منطقة التجمع، والإبلاغ عن أي شخص مفقود أو أغراض شخصية مفقودة.

لا تدخل المبنى مرة أخرى حتى يعلن مسئول الإطفاء أن الأوضاع آمنة للقيام بذلك.
