

2027 Undergraduate

# Psychology

## Acknowledgement of Country

Deakin University acknowledges the Traditional Custodians of all the unceded lands, skies and waterways on which Deakin students, staff and communities come together. As we learn and teach through virtually and physically constructed places across time, we pay our deep respect to the Ancestors and Elders of Wadawurrung Country, Eastern Maar Country and Wurundjeri Country, where our physical campuses are located. We also acknowledge the many First Nations from where students join us online and make vital contributions to our learning communities.

Artwork: *Learning Together, Growing Together* by Nathan Patterson.

# Your future in psychology

## Skills to get you a job

Strengthen your employment prospects and gain a competitive edge in the workplace by learning in-demand, real-world skills. Our courses are shaped by industry experts, plus you'll take part in relevant work experience and transition-to-work activities like:

- developing a professional portfolio
- writing a resume
- honing your interview skills.

You'll complete **140 hours of real-world psychology experience**, with Deakin's Health Work Integrated Learning team securing and supporting your placement.

Secure your future today at the #1 Victorian university for graduate employment<sup>1</sup> and and course satisfaction.<sup>2</sup>

## Graduate with confidence

Psychologists are in demand, with 10-year job growth projected at 30.6%<sup>3</sup>, placing psychology among Australia's top 20 fastest-growing careers. With your Deakin degree, you'll be prepared for a wide range of career paths in areas such as clinical, organisational, forensic, or community psychology.

## Explore our industry connections

Our courses are informed by current industry practices and include a work placement elective, so you'll graduate confident and work-ready. Our industry partnerships involve collaborations with government agencies, public and private organisations, hospitals and other universities, including:

- Barwon Health
- Corrections Victoria
- Eastern Health
- People Measures
- PeopleScope
- FBG Group
- National Australia Bank.

## Choose psychology at Deakin

Choosing to study psychology at Deakin means you can be confident you're getting a leading education in a supportive environment. Deakin is the only university in Victoria to offer specialised majors in child and family, organisational studies, and forensic studies as part of the undergraduate psychology degree. We are also #1 in Victoria for facilities and resources and psychology undergraduate employment.<sup>4</sup>

# Your future in psychology

## Get professional recognition

All of our psychology courses meet the relevant registration and membership requirements of the Psychology Board of Australia (PsyBA) and are accredited by the Australian Psychology Accreditation Council (APAC).<sup>5</sup> Being professionally recognised means that you'll graduate with excellent career opportunities.

## Gain international experience

See the world with an international internship, exchange program, study tour or volunteer placement. Get a competitive edge in the workplace and gain credit towards your degree by studying overseas at one of our partner universities, which are located in more than 40 countries. Visit [deakin.edu.au/students/study-support/study-abroad](https://deakin.edu.au/students/study-support/study-abroad) for more information on where in the world your Deakin degree can take you.

## Fast-track your degree

Deakin splits the year into three trimesters and undergraduate psychology is taught across each of them. By taking advantage of the subjects offered in Trimester 3, you may be able to fast-track your studies to complete a three-year psychology degree in just two years of full-time study, meaning you can start your career or postgraduate studies in psychology sooner.

## Join our Peer Mentor Program

Sign up to the Faculty of Health Peer Mentor Program in your first year at Deakin to get support and guidance from more senior students in your course.

[deakin.edu.au/health-mentoring](https://deakin.edu.au/health-mentoring)

## Be rewarded for your hard work

A Deakin scholarship is more than just a financial boost. It is our chance to acknowledge your accomplishments and reward your hard work, setting you on the path to success at university. Our extensive scholarship program includes three key scholarships:

- Vice-Chancellor's Academic Excellence Scholarship
- Deakin Scholarship for Excellence
- Deakin Student Support Scholarship.

We also offer a range of donor and government-funded scholarships. Each is unique with differing criteria, rewarding aspiring students from diverse backgrounds.

[deakin.edu.au/scholarships](https://deakin.edu.au/scholarships)

## Indigenous Access Scheme

The Indigenous Access Scheme is a pathway to undergraduate study that recognises the achievements of Aboriginal and Torres Strait Islander students. By looking beyond your ATAR and academic results to consider all the skills, experience and community work that make you unique and prepare you for study, we can reward your hard work with a place at university. The following psychology courses are available through the Indigenous Access Scheme:

- Bachelor of Arts (Psychology)
- Bachelor of Criminology/Bachelor of Psychological Science
- Bachelor of Psychological Science
- Bachelor of Psychology (Honours)
- Bachelor of Health Sciences.

For further information about the Indigenous Access Scheme, visit [deakin.edu.au/ias](https://deakin.edu.au/ias).

## World-shaping research

Deakin is renowned for world-class research in health and wellbeing. This directly informs the design of our undergraduate and postgraduate programs, which means you graduate with the most current knowledge in psychology. Our research groups collaborate with organisations across a wide range of sectors, including government, health services, business and community organisations. This ensures our research reaches and impacts those who will benefit most.

Our innovative research groups include:

**Deakin Institute for Lifespan Health and Development** researches the developmental origins of mental health and disorders. The institute brings together life course research, clinical and public health research, and practice to describe the major milestones in emotional life, and advise on the most effective early interventions.

**The Deakin Mind-Body Research in Health Lab** specialises in health and clinical psychology as well as behavioural medicine. This research group studies the way that the mind and body interact in a variety of contexts. Researchers are developing developing supportive therapies for debilitating chronic conditions such as inflammatory bowel disease, endometriosis and cancer.

**The Deakin Centre for Drug Use, Alcohol and Addictive Behaviour Research** conducts research into the epidemiological, psychological, social and clinical aspects of addictive behaviours, with a view to reduce harm through best-practice approaches to prevention, policy and treatment.

**The Deakin Cognitive Neuroscience Unit** expands our understanding of neuroscience by using brain stimulation, neurophysiological and neuroimaging techniques to explore the relationship between cognition, behaviour and biology.

## Pathways to general registration as a psychologist

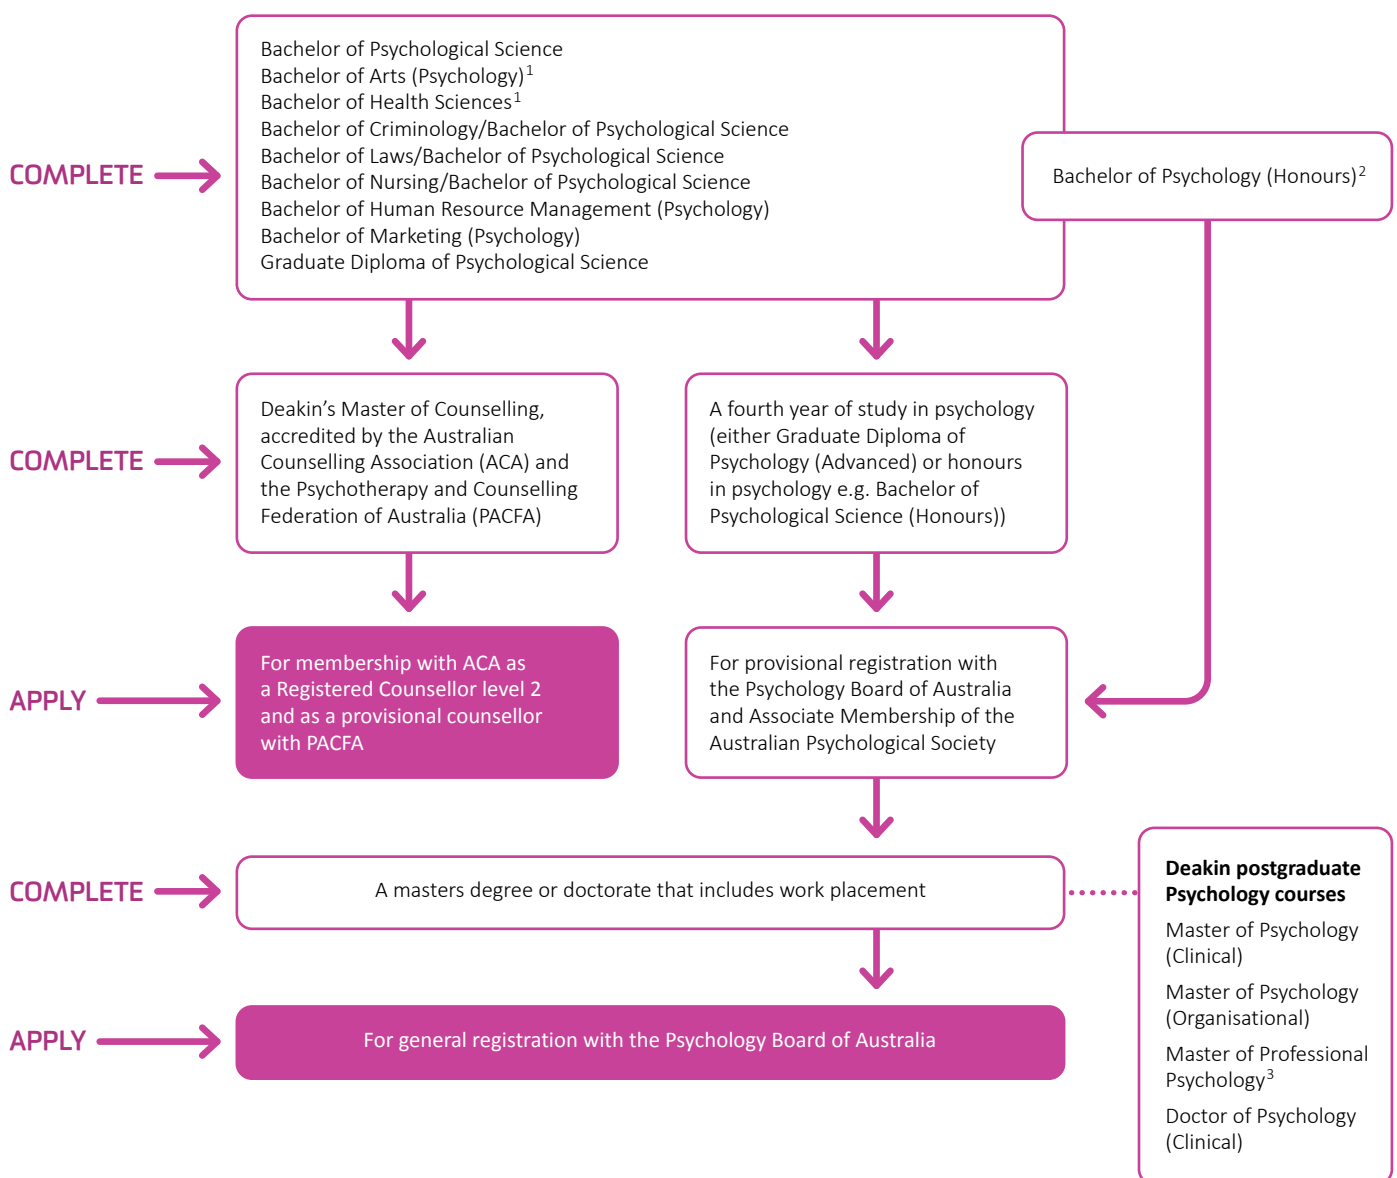

To gain provisional registration as a psychologist, you need to complete four years of academic study in psychology that is recognised by the Psychology Board of Australia (PsyBA). This usually consists of an approved psychology sequence (e.g. Bachelor of Psychological Science or Graduate Diploma of Psychological Science), followed by an approved fourth year of study, such as Deakin's Graduate Diploma of Psychology (Advanced) or an honours year in psychology. You can then apply for provisional registration with PsyBA.

To gain general registration, you must then complete a minimum two years of further postgraduate study, such as a Master of Psychology (Clinical), Master of Psychology (Organisational), Master of Professional Psychology (one year course plus one year of training), or Doctor of Psychology (Clinical). It's at this stage that you can specialise, following further supervision and training, in a particular area of psychology that appeals to your interests and career aspirations.

## Pathway to becoming a counsellor

If counselling is your passion, Deakin offers the Master of Counselling to support this pathway.

The Master of Counselling is accredited by the Australian Counselling Association (ACA) and the Psychotherapy and Counselling Federation of Australia (PACFA). These industry-recognised accreditations enhance your career prospects, build professional credibility, and connect you to valuable professional development and networking opportunities, setting you up for a successful counselling career.

1 Students must select the 10-credit-point major in psychology.

2 Only on completion of fourth year in the Bachelor of Psychology (Honours) can provisional registration be applied for.

3 This fifth-year, APAC-accredited psychology course prepares you for a final year of supervised practice that leads to general registration as a psychologist.

This pathway information is correct as at February 2026. Please see the Psychology Board of Australia website for further details: [psychologyboard.gov.au](https://psychologyboard.gov.au).

# Where can a psychology degree take me?

A psychology qualification can prepare you for many diverse and exciting career paths. While some psychology graduates go on to become registered psychologists, many others will pursue roles in complementary professions or entirely different fields. Careers in psychology-related fields are always evolving; there are plenty of opportunities to tailor your studies to specific areas you're interested in, including some you may not have considered.

## Community

### Community development professional

Community development professionals help develop safe, active communities that are socially, economically and environmentally healthy. In this field, you'll work with local communities to plan for present and future needs, with a particular focus on people in disadvantaged communities.

### Community support worker (mental health)

Community support workers provide support and assistance to members of the community in a range of areas, one of the largest of these being mental health. They provide high-quality support services to help people in their own homes, boarding houses/hostels and within the community. Their focus is on strengthening networks and empowering individuals to advance their own interests, and personal and social skills.

### Education and training (trainer/facilitator)

Working in schools as a teacher or psychologist requires formal qualifications and registration. If you're interested in working with children or adolescents, there are other areas you may like to look into, including childcare or supporting students with special needs in the classroom. Working as a trainer or facilitator is another option. Trainers and facilitators design and deliver programs as well as assess learning outcomes. Trainers and facilitators work in a number of areas across the community and other sectors.

### Employers in community

There's a huge range of employers in this area, which include private, government and community organisations. Possible employers might include:

- Mind Australia
- Reach Out
- Salvation Army
- Scope
- St Vincent de Paul.

## Government, policy and research

### Policy

If you have an understanding of the issues facing a certain sector, a role in policy could be for you. You'll advise governments or organisations on policy development and act as an advocate for the relevant sector.

### Social research

As a social researcher, you'll design and implement research projects with the goal of improving outcomes for the community. Social research is generally academic, and has a long-term goal of benefiting the community. Some positions require applicants to have an honours degree in psychology; others require a minimum of an undergraduate degree in psychology or a relevant field.

### Employers in government, policy and research

Employers in this area vary widely, but could include government departments, local councils and also the private sector. Possible employers might include:

- Australian Council of Social Service
- Cancer Council of Victoria
- Royal Melbourne Hospital
- The Social Research Centre
- Victorian Government.

## Children and families

### Children and family support worker

Child and family support workers help children, young people, families and those facing hardship or disadvantage. They provide support, information, advocacy, case management and activity-based programs for those in at-risk situations, in need of education or financial support and people who need help with parenting or early childhood issues.

### Youth worker

Youth services and programs are widespread and varied across a range of sectors, including education, health, mental health, housing, family and children's services, substance abuse, justice, and sport and recreation. However, they all address the needs of youth – particularly those who are vulnerable or at risk.

### Domestic/family violence worker

There's a range of services designed to help those experiencing domestic/family violence – primarily for women and children. Services might include telephone counselling, referral to services such as emergency accommodation or crisis counselling, supporting women and children to remain at home or find temporary shelter, and advocacy for support services, the police and the criminal justice systems.

### Employers in children and families

Employers in this area are typically not-for-profit, government or community-based organisations. Examples include:

- Department of Families, Fairness and Housing
- Djirra
- InTouch
- Kids Helpline
- Safe Steps.

## Want a deeper dive into your degree options?

We want you to feel confident and informed about your university choices. This guide is just the beginning – our online course pages offer in-depth information, from detailed course content to entry requirements and career outcomes. When online, you can also connect one-on-one with our course experts for personalised advice to help shape your study and career path.

Ready to take the next step? Visit [deakin.edu.au/study-psychology](https://deakin.edu.au/study-psychology) and let's get started.

'In my current role, as an NDIS Psychosocial Recovery Coach at PRIDE Disability Services, I work with LGBTQIA+ clients to build capacity and independence, develop a recovery plan, achieve goals, write NDIS reports, ensure up-to-date case noting, deliver peer support, engage in collaborative care with allied health professionals and ensure safe and inclusive practice.'

**Lev Lu**

Bachelor of Psychology (Honours) graduate

## Coaching and counselling

### Career counselling

Career counsellors help students choose career paths that align with their interests and strengths and build the skills they need for a successful working life.

### Rehabilitation counselling (accident/injury)

Your role as a rehabilitation counsellor will involve helping clients with severe injuries return to optimal health by developing holistic individualised plans, identifying barriers to return to health and/or return to work and implementing strategies to overcome these.

### Telephone/digital counselling

Connecting with your clients by phone, you'll provide support for a range of psychological and personal challenges, including grief/trauma, depression/mental illness, alcohol and substance abuse, gambling/financial support, child protection and more. You may also provide telephone counselling in crisis situations.

### Employers in coaching and counselling

Employers in this area vary widely, but could include government departments, local councils and the private sector. Possible employers might include:

- Jobs Victoria
- Rainbow Door
- Transport Accident Commission (TAC)
- Victorian Government
- Yarning SafeNStrong.

# Where can a psychology degree take me?

## Health and human services and social work

### Health and human services consulting

Working closely with government and not-for-profit clients, you'll use your passion for social policy to manage and administer projects.

### Aged care worker

Aged care is a large and expanding sector. People who work in this area support elderly members of the community to live in a variety of settings, including their own homes, retirement villages, hostels, nursing homes or crisis housing. They often deal with age-related issues such as disability, illness, Alzheimer's disease and depression/isolation.

### Disability support worker

Support services for people with disabilities (both physical and intellectual) operate in a range of areas, including employment, accommodation, life skills and respite. Disability support workers promote, facilitate and advocate for the rights and interests of people living with disabilities.

### Drug and alcohol workers

Drug and alcohol workers provide assessment, support and intervention to clients with alcohol and drug issues, and implement health promotion and community intervention programs.

### Employers in health and human services and social work

Employers in this area are typically not-for-profit organisations, community-based agencies, local government or professional services firms that offer consulting. Examples include:

- Randstad
- Scope
- Seniors Rights Victoria
- St Vincent de Paul
- The Orange Door.

## Justice system

### Conciliator

Conciliators help the parties of a dispute reach agreement. You'll use your understanding of human behaviour to identify and address conflict by conducting investigations, formulating reports and proposing recommendations. You will need to communicate effectively on complex matters with a wide range of people.

### Youth justice

The youth justice program works with young offenders aged between 10 and 20 years who will generally be on a children's court order, or in some cases, an adult court order. Youth justice workers also engage young people in positive change, providing care, supervision and support to develop practical and interpersonal skills.

### Community corrections

Community Corrections Officers (CCOs) monitor and supervise offenders who have been sentenced by the courts to serve Community Correctional Orders or who have been released from prison on parole by the Adult Parole Board.

### Prison officer

Prison officers are responsible for the management and secure containment of prisoners throughout Australia. Corrections Victoria adopts a case-management approach, where prison officers with direct prisoner supervision are assigned a prisoner caseload.

### Child protection worker

Child protection practitioners are responsible for ensuring the safety and wellbeing of children and young people and can involve working with infants, adolescents, Indigenous children and families, as well as culturally and linguistically diverse populations.

### Employers in the justice system

These roles fall across multiple government departments and organisations. Possible employers might include:

- Australian Human Rights Commission
- Consumer Affairs Victoria
- Department of Justice and Community Safety
- Fair Work Commission
- Victorian Equal Opportunity and Human Rights Commission.

## Join Australia's fastest growing sector

Employment in health care and social assistance is projected to grow by over half a million jobs by 2035.<sup>3</sup> A psychology qualification prepares you for a range of careers in this fast growing sector, ensuring you will graduate in demand and job-ready.

## Psychology career paths

Want to learn more about diverse and rewarding career paths in psychology? For some of the careers described here, additional qualifications may be required. Visit our psychology careers hub to discover more about roles and responsibilities, skills, qualifications and experience.

[deakin.edu.au/psychology/psychology-careers](https://deakin.edu.au/psychology/psychology-careers)

## Human resources and marketing

### Recruitment consultant

Recruitment is one of the largest areas within human resources. You'll be responsible for aiming to hire outstanding talent for your organisation. That means managing the recruitment process from the outset – compiling job requirements, hosting interviews and selecting the best suited candidate.

### Occupational health and safety

Occupational health and safety (OH&S) involves many different areas of work, which include injury management and workers compensation.

### Organisational development

Organisational development refers to the planned development, improvement and reinforcement of strategies, structures and processes that make an organisation effective. Organisational development roles largely revolve around change management and can often involve the training, mentoring, coaching and development of staff within an organisation.

### Market research and analysis

Market research and analysis revolves around the ability to understand consumer behaviour. Your solid grounding in psychology will help your employer understand why people think, feel and purchase the way they do. Some people in this field focus on sales and interpreting and presenting data, while others are responsible for research, training or consumer advocacy.

### Advertising

Advertising agencies can be located within or independent of an organisation with a marketing department. They can be in the form of two or three people in a small creative agency, to hundreds of employees at a global agency or company. People who work in this area are generally known as brand, product or marketing managers. They're involved in researching target audiences for products and services and developing advertising and promotional materials based on this research.

### Employers in human resources and marketing

There are many employers in this area, both in the public and private sectors. Possible employers might include:

- Deloitte
- NAB
- Publicis
- Randstad
- WorkSafe.

## Nursing and teaching

### Nurse or midwife

Nurses and midwives provide high-quality, patient-centred care in a range of settings and often draw on their in-depth knowledge of the complexity of human personality and behaviour.

### Teacher

Teachers draw on their in-depth knowledge of behaviour, including why and how people learn the way they do, to tailor learning approaches to the individual.

### Employers in nursing and teaching

Employers can include health service providers such as hospitals and education providers. Possible employers might include:

- Alfred Health
- AMES Australia
- CAE
- Government and private schools
- The Royal Children's Hospital.

Curious about what makes people think, feel and behave the way they do? Deakin's Bachelor of Psychological Science covers many aspects of human behaviour and personality, and prepares you for a range of careers in the fast-growing health sector.<sup>3</sup> The course also sets you up to pursue further study towards provisional registration as a psychologist. Core employability-orientated units and the option of undertaking 140 hours of real-world experience with an industry placement will strengthen your employment prospects and help you graduate work-ready.

### Add diversity to your degree

Some of the elective options in this course include:

- Biological Psychology (Cognitive Neuroscience)
- Forensic Psychology
- Health Psychology (Addiction)
- Social Psychology (Advanced).

Gain broad skills to prepare yourself for employment in a range of areas.

### Majors

Deakin is the only university in Victoria where you can study specialist psychology majors during your undergraduate degree.

	B	WP	O
Child and family	✓	✓	✓
Forensic studies	✓	✓	✓
Organisational studies	✓	✓	

### Professional recognition

The Bachelor of Psychological Science, Bachelor of Psychological Science (Child and Family), Bachelor of Psychological Science (Forensic Studies) and Bachelor of Psychological Science (Organisational Studies) are accredited by the Australian Psychology Accreditation Council (APAC).

If you wish to become a registered psychologist with the Psychology Board of Australia (PsyBA) as a graduate of these courses, you must complete a fourth year of accredited study in psychology, such as Deakin's Bachelor of Psychological Science (Honours) or Graduate Diploma of Psychology (Advanced), before pursuing postgraduate study for general registration.

### Registration

See pathways to general registration information on page 3.

### Careers

Following the completion of your bachelor degree, taking the next step towards becoming a psychologist involves applying for an approved fourth year of study in psychology, e.g. Deakin's Bachelor of Psychological Science (Honours) or the Graduate Diploma of Psychology (Advanced). Once completed, you'll be able to gain provisional registration as a psychologist with PsyBA and be eligible to pursue further study in pursuit of general registration.

If your intention isn't to complete further study to become a registered psychologist, there are still many diverse career options available, including child protection, counselling, family support, health and human services, marketing, not-for-profit aid, and public health.

If you choose to pursue general registration as a psychologist, you may find employment in a variety of roles (some of which will require additional specialist training), including:

- clinical psychologist
- cognitive neuroscientist
- counsellor
- criminal psychologist
- educational and developmental psychologist
- family therapist
- forensic psychologist
- health and community psychologist
- organisational psychologist
- rehabilitation counsellor
- sport and exercise psychologist
- youth psychologist.

These positions can be found in:

- corporate organisations
- government departments and agencies
- private clinics and practices
- public and private hospitals
- schools and universities
- social research organisations
- sporting clubs and institutes.

If you choose to pursue further study to gain general registration as a psychologist you may work with a variety of clients, including children, adults, individuals and families.

## The Deakin Guaranteed ATAR

We are providing lower guaranteed ATARs for eligible Australian Year 12 students for most undergraduate courses. This will provide you with more certainty, reduce stress and ultimately give you greater opportunity to get into the course you really want.

To be eligible for the program, you will need to meet at least one of the following criteria, preference Deakin and remain opted-in for the 'personal information and location' category in VTAC equity schemes (SEAS):

- attend a Deakin under-represented school
- live or study in a regional or remote location, or
- be of Indigenous Australian descent.

[deakin.edu.au/deakin-guaranteed-atar](https://deakin.edu.au/deakin-guaranteed-atar)

## Bachelor of Psychological Science continued

### Work experience

As part of this course, you will have the option of undertaking 140 hours of industry placement through elective units and our core employability-orientated units to ensure you graduate work-ready. Applied Counselling Skills core units also allow you to develop your counselling and coaching skills.

### Honours

An honours year is available for high-achieving students upon completion of this degree or any of our psychology degrees listed in this booklet. An honours year in psychology is useful if you're pursuing a career as a psychologist or if you're preparing for postgraduate study.

Two places are available in our Bachelor of Psychological Science (Honours) for Indigenous Australian applicants via our Indigenous Entry Stream. [deakin.edu.au/ies](https://deakin.edu.au/ies)

## Bachelor of Marketing (Psychology) M336 🕒 3 📅 T1, T2

CAMPUS	📍	📍
ATAR	66.50	77.15
GUARANTEED ATAR <sup>6</sup>	✓	✓

Study the Bachelor of Marketing (Psychology) and become an expert at uncovering the reasons behind consumer behaviour. Combine principles from complementary disciplines to unlock creative marketing solutions and graduate with a unique skill set that is in demand.

### Professional recognition

The Bachelor of Marketing (Psychology) is accredited by the Australian Marketing Institute (AMI) and the Australian Psychology Accreditation Council (APAC). As a graduate, you'll receive a one-year credit reduction toward the industry experience required, meaning you can apply to become an AMI Certified Practising Marketer (CPM) after nine years of relevant experience (instead of the usual ten).

Completion of the course also provides students with an APAC accredited three-year degree in psychology. This allows students to then undertake additional study in pursuit of provisional and general registration as a psychologist through the Psychology Board of Australia (PsyBA).

### Registration

See pathways to general registration information on page 3.

### Careers

Dual expertise in psychology and marketing provides you with a competitive advantage as you enter into employment.

Career opportunities include:

- advertising
- communications manager

- consumer advocacy
- customer insights analyst
- customer journey expert
- digital marketing director
- insights data translator
- market and consumer research
- touchpoint and engagement designer.

### Course structure

This 24-credit-point course consists of 23 credit points of core units, which include one work-integrated learning (WIL) course elective from the specified list, plus an additional 1-credit-point WIL course elective. All units in the Bachelor of Marketing (Psychology) are worth 1 credit point. Most students complete four units per trimester over two trimesters each year.

Be empowered to see human resources from a different angle. Study Deakin's Bachelor of Human Resource Management (Psychology) and explore the human mind in a business context. As a graduate, you will have a significant advantage when performing key functions in your human resources (HR) role, from recruitment and workplace negotiations to creating high-performance environments.

### Professional recognition

The Bachelor of Human Resource Management (Psychology) is accredited by the Australian Human Resources Institute (AHRI) and Australian Psychology Accreditation Council (APAC).

Completion of the course also provides students with an APAC accredited three-year degree in psychology. This allows students to then undertake additional study in pursuit of professional registration as a practising psychologist through the Psychology Board of Australia (PsyBA).

### Careers

This specialist course explores how internal psychological states and external work environments affect employee productivity. It can lead you to a diverse range of local and international careers including:

- employee relations officer
- human resources compensation officer
- human resources consultant
- industrial relations officer
- organisational development consultant
- training and development manager

### Work experience

This course offers you opportunities to learn through real experiences. Depending on units taken, opportunities may include compulsory placements, work-based training, community-based learning or collaborative research training arrangements.

### Registration

See pathways to general registration information on page 3.

### Course structure

This course consists of 23 credit points of core units and 1 credit point of Work-Integrated Learning (WIL) course elective unit.

Study the Bachelor of Arts (Psychology) and gain insight into why people think, feel and behave the way they do. At the same time, you will also open the door to a world of opportunity through your study in the arts. Learn the perfect mix of skills sought by employers by studying one degree, with exposure to two distinct areas of interest. Combining your passions in psychology and the arts can broaden your career options and make you more employable once you graduate.

### Professional recognition

Upon graduation of this degree, you'll have completed a three-year undergraduate psychology sequence that is accredited by the Australian Psychology Accreditation Council (APAC) and recognised for registration purposes by the PsyBA, enabling you to undertake additional study in pursuit of provisional registration as a psychologist.

### Registration

See pathways to general registration information on page 3.

### Careers

Completing this degree will give you important skills valued by employers such as critical analysis and systematic thinking. With both cross-disciplinary and specialist knowledge, you'll have the ability to confidently enter a variety of fields including:

- creative arts
- education
- health and human services
- historical and cultural heritage
- human resources
- law enforcement
- media and communication
- not-for-profit aid
- politics and government
- public health
- social service
- youth work.

To take your career in psychology to the next level, you may opt to continue with further study, which can lead to registration as a psychologist.

This will broaden your career opportunities, including specialist fields of psychology such as:

- clinical psychologist
- cognitive neuroscientist
- counsellor
- criminal psychologist
- educational and developmental psychologist
- family therapist
- forensic psychologist
- health and community psychologist
- organisational psychologist
- rehabilitation counsellor
- sport and exercise psychologist
- youth psychologist.

### Course structure

This 24-credit-point course consists of 10 core psychology units and 10 arts units, including an approved arts major sequence of at least 8 credit points, and four elective units from your choice of faculty. Students must also complete the Academic Integrity and Respect at Deakin (0 credit points; compulsory).

Are you passionate about human rights? Do you have a strong sense of social justice? Deakin's Bachelor of Social Work will equip you with the knowledge and skills to enhance the wellbeing of others through an understanding of policy, socioeconomic factors and social equity issues. Graduate career-ready with the skills to work effectively with individuals, families and communities to address key factors causing inequality. Job opportunities in this sector are expected to grow by 16.4% by 2029.<sup>9</sup>

### Regional and Remote Entry Scheme (RRES)

Health workforce shortages exist in regional and remote areas of Australia. Deakin has addressed these shortages by introducing a Regional and Remote Entry Scheme to attract more regional and rural students into the course.

The Regional and Remote Entry Scheme has a separate VTAC code and eligible applicants may receive up to 10 bonus aggregate points towards their entry score for admission.

[deakin.edu.au/rres](https://deakin.edu.au/rres)

### Professional recognition

This course is accredited with the Australian Association of Social Workers (AASW). Students completing the course are eligible to apply for membership of AASW and can practise professionally throughout Australia.

### Careers

After completing this course, you will be a sought-after graduate, ready to pursue a rewarding career in social work. You may work as a social worker in many general and specialist areas of social work. Some examples of specific roles you may pursue include:

- case manager
- child and family counsellor
- child protection officer
- disability support coordinator
- diversity officer
- drug and alcohol case manager
- family relationship adviser
- mental health coordinator
- school counsellor.

### Course structure

This course consists of 32 credit points. Students in the 'Pass Stream' must complete 29 credit points of core units and three elective units; and students in the 'Honours Stream' must complete 31 credit points of core units and 1 elective unit.

CAMPUS	B	WF	WB
ATAR	77.50	73.20	LN
GUARANTEED ATAR <sup>6</sup>	NA	NA	NA

Deakin's Bachelor of Nursing/Bachelor of Psychological Science develops your understanding of human behaviour and builds the skills needed to become a successful nurse. With a wealth of real-world skills gained through your clinical placements, you will graduate ready for work as a registered nurse from the #14 ranked nursing school in the world.<sup>10</sup> You will also be eligible to pursue further study towards qualification as a registered psychologist.

#### Professional recognition

On successful completion of your course, you'll be eligible to apply for registration as a registered nurse with the Nursing and Midwifery Board of Australia (NMBA).

You'll also have completed a three-year undergraduate psychology sequence that is accredited by the Australian Psychology Accreditation Council (APAC) and recognised for registration purposes by the Psychology Board of Australia (PsyBA). Following completion of the course, you'll be eligible to undertake additional study in pursuit of provisional registration as a psychologist.

#### Registration

See pathways to registration information on page 3.

#### Clinical placement requirements

There are significant work placement requirements for this course (for example: immunisation, police check and Working With Children Check). Please refer to the course webpage for detailed information.

GUARANTEED ATAR <sup>6</sup>	✓	✓	✓

Build a powerful dual qualification that pairs core legal training with an APAC-accredited psychology sequence. Develop legal reasoning, client communication and counselling skills while gaining practical experience through Deakin Law Clinic, mooting and internships. Graduate ready for legal practice and roles across mental health, policy and advocacy, with a clear pathway to further psychology study toward registration.

#### Professional recognition

This double degree is designed to satisfy the academic requirements for admission to practise law in Australia. To be admitted in Victoria, graduates must complete an approved law degree, undertake practical legal training (PLT) and meet the admission requirements of the Victorian Legal Admissions Board (VLAB).

The psychology component includes the 10 core units that make up an APAC-accredited three-year pathway. We are currently seeking accreditation of this course with the Australian Psychology Accreditation Council (APAC). If you wish to become a registered psychologist through the Psychology Board of Australia (PsyBA), you will need to complete a fourth year of accredited study to gain provisional registration. Further postgraduate study is then required to pursue general registration as a psychologist.

[deakin.edu.au/course/D386](http://deakin.edu.au/course/D386)<sup>7</sup>

## Double the skills, double the career opportunities

Deakin double degrees help you stand out, opening doors to a wider range of career paths. By combining two disciplines, you'll unlock unique opportunities and gain a competitive edge in today's dynamic job market.

[deakin.edu.au/study/find-a-course/double-degrees](http://deakin.edu.au/study/find-a-course/double-degrees)

# Continue your psychology study journey with Deakin

We offer a range of postgraduate psychology and counselling programs; the one you choose to study will depend on your previous qualifications and experience, as well as your career aspirations.

## Bachelor of Psychological Science (Honours)

Building on a solid foundation in the elements of human behaviour, your honours year prepares you for provisional registration and is a pathway towards further postgraduate study. You'll learn an extended range of psychological assessment methods, as well as gain an understanding of the process of formulating psychological opinion in casework. The research and analytical skills you develop in your honours year will strengthen the quality of your research projects and become indispensable tools in your future career, whether you are hoping to work towards general registration or in an alternative psychology related field.

### Best suited to:

Selection into Deakin's Bachelor of Psychological Science (Honours) is highly competitive and is best suited to those with a solid academic record in a bachelor degree with an approved three-year major sequence in psychology. Minimum grade averages must be met in order to apply for this course.

## Graduate Diploma of Psychology (Advanced)

If you are looking to build on the skills you've developed at the undergraduate level, this recognised fourth year (honours equivalent) course will prepare you for provisional registration and deepening your understanding of human behaviour. Accredited by the Australian Psychology Accreditation Council (APAC), you will be able to apply for provisional registration upon completion.

### Best suited to:

For students on the path to becoming a registered psychologist, who also want to learn from leaders in the field and build professional networks, the Graduate Diploma of Psychology (Advanced) ticks all the right boxes, and provides a full-fee paying fourth-year alternative to our Bachelor of Psychological Science (Honours).

## Master of Counselling

Build the advanced analytical and communication skills needed to support individuals, couples, and groups through mild to moderate mental health and developmental challenges. Boost your employment opportunities with a professionally recognised course; our Master of Counselling is accredited with both the Australian Counselling Association (ACA) and the Psychotherapy and Counselling Federation of Australia (PACFA). You will graduate with 200 hours of practical experience, preparing you to provide personalised support to clients tailored to their unique circumstances.

### Best suited to:

Those with an undergraduate degree in any area wanting to become a counsellor or those with a counselling background looking to advance their skills.

### Master of Professional Psychology

Build advanced skills in psychological assessment, ethics and therapeutic interventions with the Master of Professional Psychology. This fifth-year, APAC-accredited psychology course prepares you for a final year of supervised practice that leads to general registration as a psychologist. You'll participate in demonstrations, role-play, individualised feedback and collaboration sessions that give you a chance to apply your skills to authentic scenarios. Your studies will be enriched further by professional practicums that consist of three key activities: workshops, placement and supervision.

#### Best suited to:

This course is a great choice for those who haven't mapped out their path beyond graduation. It will expose you to the many different roles, topics and challenges that exist within psychology. You'll graduate with the professional practice skills needed to thrive in your one-year internship that will lead to general registration as a psychologist.

### Master of Psychology (Organisational)

Be the driving force behind happier, healthier, more productive workplaces with the Master of Psychology (Organisational). With a deep understanding of human behaviour, relationships, leadership and change management, organisational psychologists have a key role to play in creating work environments that staff thrive in. You will learn how to improve individual and team performance, resolve conflicts using evidence-based principles, build team unity, and create effective strategies for recruitment and retention.

#### Best suited to:

As the only organisational psychology course in Victoria, this course is best suited to those who want to improve the lives of people both inside and outside the workplace. Graduates will be eligible to apply for membership of the College of Organisational Psychologists and endorsement as an Organisational Psychologist following the completion of an approved registrar program with the Psychology Board of Australia.

### Master of Psychology (Clinical)

Deakin's Master of Psychology (Clinical) ensures you have the skills, experience and qualifications needed to apply to the Psychology Board of Australia (PsyBA) for general registration with an area of practice endorsement in Clinical Psychology once you have completed a Board-approved registrar program. The course is designed to prepare you for the transition from student to professional psychologist. It's also accredited by the Australian Psychology Accreditation Council (APAC), making it a degree that's sought-after by employers across the industry.

#### Best suited to:

For those seeking to practice clinically as a psychologist, this is where you might finish your study journey before commencing the registrar program.

### Doctor of Psychology (Clinical)

Interrelated streams of theory, research and practice gives you the skills, experience, and qualifications needed to apply to the Psychology Board of Australia (PsyBA) for general registration with an area of practice endorsement in Clinical Psychology once you have completed a Board-approved registrar program. The Doctor of Psychology (Clinical) builds on the same first two years as our Master of Psychology (Clinical) with a supervised research program and an additional clinical placement.

#### Best suited to:

The Doctor of Psychology (Clinical) provides a pathway to registration, and is a particularly suitable option for those who are interested in completing a significant research project in addition to gaining clinical experience before graduating. Doctor of Psychology (Clinical) graduates have reduced registrar requirements compared with those graduating from a Masters or Masters/PhD, given the clinical placement and supervision completed throughout the degree.
