Deakin University may engage external parties to participate in the assessment process. This includes, without limitation, clinicians/health professionals, professional actors, simulated patients and volunteers. Deakin seeks to avoid any conflict of interest that may arise on the day of assessment because a participant in the assessment knows the student in a personal or professional context, outside of the university.

Deakin is seeking your consent to provide your name, student ID number and photograph to the pool of assessors in order that conflicts of interest can be identified before the assessment is scheduled.

If you do not provide your consent, you should be aware that if a conflict of interest is identified at your assessment, your assessment may be delayed whilst a replacement assessor is identified, or cancelled on the day and deferred to the next scheduled assessment session if a suitable alternative assessor is not available. This may limit your ability to commence the subsequent teaching period.

If you provide your consent, it will remain in place for the duration of your study at Deakin.

CONSENT

I consent to Deakin University providing my name and photograph to persons outside the university who are involved in assessment activities for the purpose of allowing those persons to identify any conflict of interest that would prevent them from participating in my assessment.
