Nutrition Sciences

# Master of Applied Sport Science

Enrolment Stream &  
Nomination Form

This is an essential document to be completed and uploaded with an application to H707 Master of Applied Sport Science. You must read the information in the below and nominate in the table which enrolment stream you are choosing.

- This course has Applied Sport Scientist Level 1 accreditation with [Exercise and Sport Science Australia \(ESSA\)](#). This accreditation may be professionally beneficial to you, or it may be a requirement to work in Sport Science roles in some organisations in Australia.
- To be eligible to use this course to achieve Applied Sport Scientist Level 1 accreditation, you must meet the eligibility requirements in the table below and complete the accreditation stream in this course.
- There are two enrolment streams, both require you to complete 12 Credit Points, and they are approximately the same duration.
  - The non-accredited stream allows you to choose an elective at the end of your course, either a research project unit or a professional practice unit.
  - The accreditation stream does not include an elective; you must complete a specific professional practice unit.
- Even if you are eligible for the accreditation stream, you are not obliged to choose it.
- If you want this type of accreditation, but you don't meet the eligibility requirements, there is an alternate application process you can pursue directly with [ESSA](#).
- If your circumstances change regarding eligibility please contact [student central](#) to discuss.

Please indicate which enrolment stream you are choosing by marking one box in the table below.

| Your Choice              | Enrolment Stream      | Eligibility  |
|--------------------------|-----------------------|--|
| <input type="checkbox"/> | Non-Accredited Stream | Nothing in addition to academic requirements for entry into the course- please refer to the course entry requirements <a href="#">here</a> .   |
| <input type="checkbox"/> | Accreditation Stream  | <p>In addition to academic requirements for entry into the course;</p> <ul style="list-style-type: none"><li>You hold current Accredited Exercise Scientist (AES) accreditation with ESSA and have attached proof of this with your enrolment application</li></ul> <p>Or</p> <ul style="list-style-type: none"><li>You are currently eligible to be an Accredited Exercise Scientist (AES) with ESSA because you have completed an Exercise and Sport Science Australia (ESSA) accredited Exercise Science bachelor degree and have attached your academic transcript with your enrolment application.</li></ul> <p>Or</p> <ul style="list-style-type: none"><li>You have completed a bachelor degree other than those above and; can demonstrate that you have covered all of the elements required for accreditation at the Exercise Science level of ESSA via completion of the ESSA Graduate Entry Assessment and included a copy of the assessment outcome letter with your enrolment application.</li></ul> |

By providing your name, contact information and the date below, you are providing a record of the enrolment stream you have chosen in the table above.
